Funding Agreement
between the
ALASKA NATIVE TRIBAL HEALTH CONSORTIUM
and the Secretary of the Department of Health and Human Services
of the
United States of America
Fiscal Years 2016 through 2018

TABLE OF CONTENTS

Table of Contents i
Appendices vii

Section 1 — Obligations of the IHS 1
1.1 Transfer and Assurances 1
1.2 Inherent Federal Functions and Transitional IHS PSFAs 2
1.2.1 Residual Funds to Support Inherent Federal Functions 3
1.2.2 Transitional Retained Funds to Support Transitional PSFAs 3
1.2.3 Sanitation Facility Construction Approval 3
1.2.3.1 Generally 3
1.2.3.2 Title V Construction Project Agreement Amendment 4
1.2.3.3 Consistency with Applicable Regulations 4
1.3 Headquarters' Responsibilities 4
1.3.1 Information Services 4
1.3.2 FTS Services 6
1.3.3 Access to Training and Technical Assistance 6
1.3.4 Certain Other Programs 6
1.3.5 Medicare, Medicaid and Beneficiary Medical Program (BMP) Claims Processing 6
1.3.6 HIPAA Compliance 7
1.3.7 Community Health Aide Program Certification 7
1.3.8 Access to Federal Insurance 7

Section 2 — Obligations of the ANTHC 7

Section 3 — Tribal Programs and Budget 7
3.1 Program Description 7
3.1.1 Policy and Executive Direction 8
3.1.1.1 ANTHC Board 8
3.1.1.2 Executive Direction 8
3.1.1.3 Alaska Tribal Health System Support 8
3.1.2 Health Systems Resources 8
3.1.2.1 Generally 8
3.1.2.2 Tribal Support Services 9
3.1.2.2.1 Business Office Services 9
3.1.2.2.2 Professional Recruitment 9
3.1.2.2.3 Training and Development 9

Schedule B – Calculation of Annual Amount, Revenue Ceiling, Award Amounts, and Lump Sum Payment (with notes) (FY 99 2nd)
Schedule C – Personnel Transferred under the Annual Funding Agreements (ANMC Manpower Report as of 12/10/98) (FY 99 2nd)

FUNDING AGREEMENT

between the
ALASKA NATIVE TRIBAL HEALTH CONSORTIUM
and the Secretary of the Department of Health and Human Services
of the
United States of America
Fiscal Years 2016 through 2018

This Funding Agreement is entered into by and between the Alaska Native Tribal Health Consortium and the Secretary of the Department of Health and Human Services of the United States of America. The Alaska Native Tribal Health Consortium, a tribal organization controlled by the tribes and tribal organizations in the State of Alaska authorized by Section 325 of P.L. 105-83 and by Title V of the Indian Self-Determination and Education Assistance Act, P.L. 93-638, as amended, is authorized to sign this Funding Agreement and to be responsible for and carry out the terms of this Funding Agreement.

Section 1 — Obligations of the IHS.

1.1 Transfer and Assurances.

Under the authority of Section 325 of P.L. 105-83 and P.L. 93-638 as amended, non-residual programs, services, functions and activities (PSFAs) of the Alaska Area Office and the Alaska Native Medical Center (ANMC) have been transferred to tribal management.

Delivery of PSFAs shall be consistent with each Co-Signer's Funding Agreement. The Indian Health Service (IHS) shall remain responsible for performing all federal residual PSFAs. The IHS shall remain responsible for negotiating assurances with the Alaska Native Tribal Health Consortium (ANTHC) and Southcentral Foundation (SCF) on behalf of Alaska Natives and American Indians to the effect that Co-Signers continue to receive non-residual PSFAs from ANMC and Area Office and provided by ANTHC and SCF at a minimum at the level that such PSFAs were provided by the IHS as of October 1, 1997, to the extent permitted by Section 325 of P.L. 105-83. To the extent authorized by federal law, the IHS will respond to written Co-Signer concerns about the extent with which such assurances have not been complied and take appropriate action. "ANTHC Assurances Regarding Services from the ANMC, amended and restated October 1, 2000 and October 1, 2008," Appendix H ("ANTHC Assurances October 1, 2008"), and "SCF Assurances Regarding Services from the ANMC and ANPCC," Appendix I ("SCF Assurances January 1, 1999"), are attached to this Funding Agreement and incorporated

herein by reference.[1] IHS shall further be responsible for performing its special trust responsibilities and legal obligations as provided in the Indian Health Care Improvement Act, the Indian Self-Determination and Education Assistance Act, as amended, (the "Act") and other applicable provisions of federal law.

1.2 Inherent Federal Functions and Transitional IHS PSFAs. The terms and conditions in this subsection are subject to the provisions of section 1.1 [Transfer and Assurances] and, with regard to ANMC PSFAs, are also subject to the Assurances found in Appendices H and I and, subject to the conditions of section 21 [Related Agreements], the Health Services Purchase Agreement I between ANTHC and SCF for Services at ANMC, as amended, ("SCF Purchases from ANTHC") and the Health Service Purchase Agreement II between ANTHC and SCF for Services at ANMC, as amended, ("ANTHC Purchases from SCF").[2] This Funding Agreement obligates the IHS to provide funding and services identified herein and as provided in the Alaska Tribal Health Compact (Compact) between the ANTHC and certain other Co-Signers thereof and the United States in Fiscal Years 2011 through 2015.

In addition, although funds are provided from Headquarters and Area Office in support of this Compact, the IHS will agree to continue to make available to ANTHC PSFAs from both Area Office and Headquarters unless 100 percent of the total tribal shares for these PSFAs have been specifically included in this Funding Agreement. In cases where a portion of tribal shares have been transferred, there may be some diminishment in the level of PSFAs provided by the IHS. Furthermore, the IHS will reorganize both Headquarters and the Area Office to continue to provide the remaining PSFAs, which have not been included in this Funding Agreement, in the most effective and efficient manner possible, provided that decisions about the array and level of services to be offered by the IHS shall be made in consultation with Alaska Tribes. The IHS PSFAs not negotiated into or listed in Appendix A, Financial Summary for Funding Agreement ("Financial Summary"), will be the responsibility of the IHS.[3] The "Memorandum of Agreement Describing the Continuing Services of the Indian Health Service, Alaska Area Native Health Service" ("Continuing Services Agreement") among the Co-Signers and the Alaska Area Native Health Service (AANHS), Appendix C, reflects the understanding of the parties regarding

---

1/ These Assurances are subject to amendment between ANTHC and SCF. If they are amended during the course of the effective period of this Funding Agreement, the new Assurances will be provided to IHS.

2/ The original purchase agreements described here and their attachments are subject to periodic amendment by ANTHC and SCF. If they are amended during the course of the effective period of this Funding Agreement, the amendments will be provided to IHS. The most current amended version will be effective whenever these Agreements and their attachments are referenced in this Funding Agreement, whether such amendment is referenced or not. *See* section 21 [Related Agreements] for a complete history of these attachments and their attachments and amendments.

3/ All references to Appendix A and Appendix C in this Funding Agreement are to the Appendix for the applicable fiscal year.

services to be provided by the AANHS to all Co-Signers, including ANTHC. This document, attached as Appendix C, is hereby incorporated by reference. In addition to the PSFAs described in Appendix C – Continuing Services Agreement, ANTHC is entitled to receive from the Area Office all of the PSFAs described in Appendix G, "FY 2007 Transitional Staffing Plan," ("Transitional Staffing Plan"), which is attached hereto and hereby incorporated by reference. The PSFAs described in Appendix G – Transitional Staffing Plan are funded with Area tribal shares that have been restricted by the ANTHC in order to provide for an orderly transition from full Federal control of the Area Office and ANMC to tribal management.

ANTHC shall be entitled to receive the benefit of all IHS responsibilities for which the IHS has retained funds, including all Alaska Area Office inherent federal functions and transitional PSFAs. The funds retained by the IHS to carry out its responsibilities are detailed in Appendix A – Financial Summary, which shall be used in conjunction with Appendix C – Continuing Services Agreement, Appendix G – Transitional Staffing Plan and with other provisions of this Funding Agreement to determine the inherent federal functions and transitional PSFAs for which the IHS retains responsibility. The funds retained by the IHS, and the IHS responsibilities, which those funds support, fall into general categories:

1.2.1 Residual Funds to Support Inherent Federal Functions. The IHS has retained resources necessary to carry out inherent federal functions. These retained resources are based on IHS's best estimate of the amount of funds necessary to carry out inherent federal functions and the total was negotiated with the Co-Signers to the Compact during annual negotiations.

1.2.2 Transitional Retained Funds to Support Transitional PSFAs. The IHS also has retained resources necessary to carry out certain federal PSFAs which will be necessary for varying periods during which the IHS retains responsibility for transitional PSFAs related to personnel management, procurement, close-out of ongoing facilities construction projects, and others. Funds for these PSFAs will be transferred to ANTHC to the extent ANTHC assumes management of those PSFAs and as the need for the transitional IHS PSFAs decreases consistent with other provisions of this Funding Agreement. So long as the IHS maintains a transitional Area Office reserve, the IHS will consult with ANTHC prior to expenditure of funds from the transitional Area Office reserve.

1.2.3 Sanitation Facility Construction Approval.

1.2.3.1 Generally. Consistent with Appendix C – Continuing Service Agreement and Appendix G – Transitional Staffing Plan, IHS has retained funds for review and approval of proposed OEH&E sanitation facility construction projects. An "approved project" is one that has been approved by the IHS Area Director in which an agreement with ANTHC is complete, which includes a scope of work, a cost estimate, addresses environmental considerations, identifies the owner and operations and maintenance entity of the proposed facilities, establishes a start and completion date, and a determination that the project complies with NEPA. When a project is funded by IHS under authorities other than Title V, the NEPA determination will be made by the IHS Area Director based on information submitted by ANTHC. When a project is funded in full or in part with monies from Federal agencies other

than IHS, and those agencies require such a determination by the IHS Area Director as a condition of providing funds, IHS will provide such determination. ANTHC will provide to IHS a copy of the project agreement between the tribe or community and ANTHC when the agreement is complete. ANTHC may make immaterial changes to the performance period and make budget adjustments within available funding without an amendment to the "approved project."

1.2.3.2 Title V Construction Project Agreement Amendment. If during the course of a Title V construction project, the Secretary adds funds to the project or there is a significant change from the original scope of work approved by the Area Director, an amendment to the construction project agreement is required. A significant change in the original scope of work is:

1.2.3.2.1 a change that would result in a cost that exceeds the total of the project funds available and ANTHC's contingency funds; or

1.2.3.2.2 a material departure from the original scope of work, including substantial departure from timelines negotiated in the construction project agreement.

1.2.3.3 Consistency with Applicable Regulations. The parties agree that section 1.2.3 [Sanitation Facility Construction Approval] is consistent with 42 C.F.R. §§137.362 and 137.364.

1.3 Headquarters' Responsibilities. Unless funds are specifically provided from Headquarters, Headquarters retains all PSFAs and ANTHC will not be denied access to, or services from, Headquarters.[4] Specifically, ANTHC will receive the following services from the IHS Headquarters:

1.3.1 Information Services.[5]

1.3.1.1 The Indian Health Service will provide the full range of Office of Information Technology (OIT) national support to ANTHC and ANMC. OIT will provide specified services directly to ANTHC. In addition, OIT will provide support to ANTHC to assist it to carry out its responsibility to provide day-to-day technical support, user support, distribution of software and files and other typical information technology support to Co-Signers as defined

---

4/ Headquarters funds will be provided to the Alaska Area pursuant to section 4.4 [Headquarters' Allocations to Area].

5/ The PSFAs described in this paragraph are paid for through tribal shares restricted by Co-Signers other than ANTHC and by a total payment of $200,000 by ANTHC. The payment from ANTHC will be made annually consistent with section 5.3 [Buyback/Withholding] of the Funding Agreement, without surcharge, through four quarterly installments of $50,000 each or, in lieu thereof, ANTHC may satisfy this obligation, in part or fully by providing services to IHS of equivalent value, as mutually agreed upon by Chief Information Officers of ANTHC and IHS.

in Appendix H – ANTHC Assurances (October 1, 2008) to the ANTHC Funding Agreement. Upon request of ANTHC, after good faith efforts to resolve ANTHC's technical issue, OIT's support of ANTHC will include technical support needed on-site by ANTHC. A list of the services due under this paragraph, with identification of the method of delivery, is shown below.

Office of Information Technology Provides:	Directly to ANTHC	Directly to Cosigner	Indirectly to Cosigner through ANTHC
National Database Services			
100% Data Center Services	X		
Process Data exports into National Database		X	
Evaluate, correct, convert site data for National Database		X	
Telecommunications Mgmt Services			
100% Telecommunications Mgmt Services	X		
Maintain IHS to Alaska connection		X	
Email transfer and global address listing		X	
SMTP Gateway		X	
Intranet and Internet Access (to available bandwidth)		X	
Antivirus Software			X
Software Development and Maintenance			
100% Software Development and Maintenance	X		
Use of IHS contract vehicles		X	
RPMS Integrated Commercial-Off-The-Shelf packages (Average Wholesale Prices, CPT, ICD-9, Immunization Algorithm) licenses (This does not include licenses for stand-alone or interfaced commercial software.)			X
RPMS Package Support/Installation (including HIPAA compliant modifications and support, i.e. technical support to meet the transaction and code set standards)[6]			X
System Support and Training			
100% System Support and Training	X		
Nationally Available OIT Training instruction (as available)		X	
Alaska On-site training instruction (four annual classes)			X
Hardware and Operating System Support			X
Cache Upgrade (initial installations)			X
National Patient File (2000) conversion			X

6/ Pursuant to section 1.3.6 [HIPAA Compliance], IHS retains the responsibility for ensuring that the RPMS package is HIPAA compliant.

Office of Information Technology Provides:	Directly to ANTHC	Directly to Cosigner	Indirectly to Cosigner through ANTHC
Envoy (WebMD) installation			X
Additional Services - Fee for Service	X	X	X

1.3.1.2 The parties acknowledge that ANTHC shall be responsible for day-to-day technical support, user support and other typical information technology support to the Alaska tribal health care organizations as defined in the Appendix H – ANTHC Assurances (October 1, 2008).

1.3.2 FTS Services. The government will authorize ANTHC to utilize the Federal Telephone System (FTS) to the extent possible.

1.3.3 Access to Training and Technical Assistance. To the extent funds are retained by the IHS, ANTHC shall have access to training, continuing education, and technical assistance in the manner and to the same extent ANTHC would have received such services if it were not a Self-Governance Co-Signer. Pursuant to section 4.4 [Headquarters' Allocations to Area], such funds and training opportunities shall include any funds Headquarters would otherwise distribute to an Area Office of the IHS. The IHS will make available information and opportunity for enrollment and participation of ANTHC employees and member Tribal government employees in all IHS sponsored training, seminars and continuing education courses relevant to services provided under this Funding Agreement. The IHS will bear the cost of any meetings, conferences, seminars, etc. where attendance of ANTHC employees or representatives is requested by IHS staff and where the cost of these seminars, conferences and meetings is borne by the IHS for other Area Offices of the IHS or for tribal or direct health care programs. The IHS will continue to provide assistance on request of ANTHC with federal personnel issues that arise from IPA or detailed federal employees working for ANTHC.

1.3.4 Certain Other Programs. IHS Headquarters shall support ANTHC in the same manner as all other Area offices of the IHS. This shall include but not be limited to the following activities: support of IHCIA "student externs," allocation of funds to the Alaska Area received from other federal agencies and reimbursement for such activities as long term training, co-steps, work group participation, and others in the Environmental and Health program on the same basis as similar funds or support are distributed to other IHS Area Offices. Pursuant to section 4.4 [Headquarters' Allocations to Area], the ANTHC shall be entitled to a share of such funds in support of the PSFAs it has assumed under this Funding Agreement. The IHS will provide to ANTHC all inherent federal functions and PSFAs which have traditionally been provided in support of Area Office PSFAs (including Environmental Health Programs), the Anchorage Service Unit and ANMC to the extent such services are retained by the Federal government and are not otherwise covered in this proposal.

1.3.5 Medicare, Medicaid and Beneficiary Medical Program (BMP) Claims Processing. ANTHC may exercise its right pursuant to Section 401 of the Indian Health Care

Improvement Act, as amended, to submit claims directly to and recover directly from Medicare and Medicaid. To the extent ANTHC does not exercise this option or its application to do so is denied or revoked by IHS and for BMP, IHS will continue to provide Medicare, Medicaid and BMP claims processing up to and including payment to ANTHC of all amounts earned by ANMC and Alaska Native Primary Care Center (ANPCC). IHS will make available to ANTHC all collections received on or after January 1, 1999, for services provided in ANMC and ANPCC within 10 business days of receipt of allowance.[7] Claims for submission to BMP received from ANTHC by the 25th of a given month will be submitted to BMP no later than the fifth day of the next month.

1.3.6 HIPAA Compliance. IHS retains the responsibility for complying with the Health Insurance Portability and Accountability Act of 1996 (HIPAA) for retained IHS health care component activities.

1.3.7 Community Health Aide Program Certification. The IHS retains the responsibility, pursuant to Section 119 of the Indian Health Care Improvement Act, as amended, to maintain the Community Health Aide Program ("CHAP") Certification Board, which was established by and is under the direct control and supervision of IHS, to accredit training for and to certify community health aides, which includes Community Health Aides/Practitioners, Dental Health Aides, and Behavioral Health Aides/Practitioners, as those terms are defined and used in the CHAP Certification Board *Standards and Procedures*.

1.3.8 Access to Federal Insurance. IHS will assist ANTHC to obtain information about the coverage, rights and benefits available for its employees under chapters 87 and 89 of title 5, United States Code, the cost of such coverage, rights and benefits (including any options in coverage, rights and benefits that may be available), and the procedures by which ANTHC may exercise its rights under Section 409 of the IHCIA, as amended, to have access to such Federal insurance for its employees.

Section 2 — Obligations of the ANTHC. This Funding Agreement obligates ANTHC to be responsible for and to provide health PSFAs identified in section 3 [Tribal Programs and Budget] utilizing the resources transferred under this Funding Agreement and other funds as they may become available to ANTHC. This Funding Agreement further authorizes ANTHC to consolidate and redesign PSFAs as provided in the Act and the Compact.

Section 3 — Tribal Programs and Budget.[8]

3.1 Program Description. ANTHC agrees to be responsible for the PSFAs identified below in accordance with the Compact and this Funding Agreement. For the purposes

---

7/ Upon receipt of these funds, the ANTHC will distribute the funds consistent with the agreements identified in section 21 [Related Agreements].

8/ These PSFAs and the funds and facilities used in support of them are carried out consistent with and in furtherance of ANTHC's 501(c)(3) status under the Internal Revenue Code and its rights and duties under the Act.

of this Funding Agreement, ANTHC's General Budget categories consolidate related PSFAs as listed below. Services will be provided, subject to the availability of funding and other resources, statewide to the extent the PSFAs were provided by the AANHS Area Office, except that tribally restricted services will be provided only in the geographic area served by the tribes or tribal organizations which choose to restrict funding for the PSFAs. ANTHC may provide technical assistance and funding to tribes and tribal organizations throughout Alaska. Any PSFA listed may be provided under agreements with Alaska Native tribes or tribal organizations. Any PSFA described in this section 3 [Tribal Programs and Budget] may be performed by any organizational unit of ANTHC at ANTHC's discretion. ANTHC may also provide such PSFAs in support of other IHS or tribal health programs or in conjunction with other initiatives that benefit Alaska Native and American Indian people. ANTHC is committed to and will strive to provide quality health services and will strive to meet standards ANTHC believes to be appropriate and applicable to the delivery of those health services.

3.1.1 Policy and Executive Direction.

3.1.1.1 ANTHC Board. The ANTHC Board of Directors provides overall policy direction and oversight regarding all of the activities of ANTHC.

3.1.1.2 Executive Direction provides policy and direction for the administration and operation of ANTHC; provides executive direction and support to ANTHC through strategic planning, health systems networking, marketing, building and maintaining processes and structures to increase resources and community partnerships, public relations, risk management, corporate compliance, legal and inter-governmental affairs; support for operations of and participation in the Institutional Review Boards, and collaborates and coordinates with, and provides technical assistance regarding, governmental and non-governmental programs that serve Alaska Natives and American Indians or that may provide support for or interact with ANTHC, the Alaska Tribal Health System, or the IHS.

3.1.1.3 Alaska Tribal Health System Support, as requested, provides funding, services, materials, supplies, personnel and other support for the Alaska Tribal Health System, including funding for statewide consumer awareness program to ensure that tribal health providers are informed about national and Area level developments in health services; inter-tribal communications concerning health services management and program issues; coordination among tribal health programs; and delivery of other services and support for tribal health programs, including provision of health providers and related support of patient care services, administrative services, and other technical assistance, consultation and services.

3.1.2 Health Systems Resources.

3.1.2.1 Generally. Health Systems Resources provides administrative and financial management; accounting and audit services; office services support; travel support; procurement and materiel management; property and facilities management, planning, development and coordination; grant development, management and coordination; and human resources and workforce management for all programs of ANTHC, including activities and

programs to promote a safe and healthy work environment, workforce retention and succession planning; and technical assistance and consultation to Alaska tribes and tribal organizations.

3.1.2.2 Tribal Support Services.

3.1.2.2.1 Business Office Services:

3.1.2.2.1.1 Administers comprehensive patient registration, health coverage access and business office programs and services, and provides technical assistance, training, services, and other support to tribes and tribal organizations, and collaborates with other entities, regarding those matters, including financial, grant management, compliance, and other related issues, including Medicaid, Medicare, other federally funded health care programs, and other third-party health coverage and billing, patient eligibility, care and benefit enrollment, coordination, navigation and sponsorship; and administration of related programs such as the Medicaid/Medicare Spending Plan and lawful use of third-party reimbursement.

3.1.2.2.1.2 Consistent with the terms of the Attachment 2 – SCF Purchases from ANTHC, provides for ANMC and ANPCC patient data collection on reimbursable services, utilization review, insurance verification, billing and collection from third party payors including Medicaid, Medicare, and private insurance; development of RPMS and other billing packages and clinical software; and development of new and improved billing and collection systems.

3.1.2.2.2 Professional Recruitment provides recruiting services for health professional positions for ANMC and other tribal health providers, recruiting services for health professional positions for IHS programs, and information and assistance regarding the IHS loan repayment program.

3.1.2.2.3 Training and Development:

3.1.2.2.3.1 plans, organizes, and conducts continuing education and training programs for IHS, ANTHC and other tribal health providers, including health program management, service delivery, and operations support;

3.1.2.2.3.2 provides information, assistance and coordination of the scholarship programs to eligible American Indians and Alaska Natives in the Alaska Area and disseminates information about new tribal grants;

3.1.2.2.3.3 administers the ANTHC scholarship and internship programs for the benefit of Alaska Natives and American Indians; and

3.1.2.2.3.4 administers the ANTHC Employee Recognition Program.

3.1.2.2.4 Supply and Facility Management.

3.1.2.2.4.1 Supply Services manages and utilizes warehouse facilities, including the Regional Supply Service Center, as described in section 13 [Regional Supply Service Center] and the Alaska Utility Support Center; and provides purchasing, storage, inventory, assembling, and shipment of ANMC and field orders, including pharmaceuticals, medical/surgical supplies, subsistence supplies, and office supplies, and sanitation facility equipment, parts and supplies for ANMC, other tribal health facilities and providers and Alaska Native community sanitation facility operations and maintenance organizations; and supports emergency preparedness efforts.

3.1.2.2.4.2 Facilities Management and Support provides comprehensive management and support of property and facilities owned, leased, or otherwise utilized by ANTHC.

3.1.3 Health Information and Technology Services.

3.1.3.1 Generally. Health Information and Technology Services provides services to and collaborates with tribally owned/operated and federal health care facilities, village/rural health facilities, telehealth projects, public health nursing sites, health records' networks, and other health information exchanges, and other locations as necessary to coordinate care for IHS beneficiaries.

Such services include a full-range of information and technology services, including computerized and non-computerized information management, network and systems support, Alaska Federal Health Care Access Network activities in accordance with Section 325 of Pub. L. 105-83, site support, information and technology support, biomedical and clinical engineering services, data services, security audits, disaster recovery services, technology review, telehealth, data quality review, and health statistics.

3.1.3.2 Information Technology Services provides computerized and non-computerized information management for ANTHC and the ATHS and technical computer operation of local networks, intra/internet development; application development and management and support for ANTHC and other tribal health organizations, and, subject to Appendix H – ANTHC Assurances (October 1, 2008) and Attachment 2 – SCF Purchases from ANTHC, for the ANMC Campus.

3.1.3.3 Data, Site and Information Technology Support provides data, and site and information technology support, including developing, building, assembling, configuring, procuring, and providing electronic health record systems, health information exchange, a patient portal, RPMS/PCC and other software applications; system implementation and support, including data entry and processing for RPMS/PCC, patient care and other medical record and billing systems; data management including clinical information systems and health information exchange interfaces, coordination, integration and transmission of data, such as Medicaid and eligibility information, Core Data set, statistics, reports, RPMS and other technical manuals; and consultation, training and technical assistance in medical records. Data, Site and

Technology Support also provides assistance with selection and deployment of site specific and statewide solutions, which may include providing equipment, hardware, software, licenses, remote hosting, compliance monitoring and response, and other support, for electronic health records and ancillary systems (*e.g.*, Labs, Radiology); implementation of systems, including interoperability and health information exchange, practice and workflow redesign, workforce training, practitioner education and outreach; compliance with requirements and benchmarks (*e.g.*, meaningful use, privacy and security best practices); and accessing national health information resources.

3.1.3.4 Telehealth. In accordance with Section 325 of Public Law 105-83, ANTHC implements, manages, and supports the Alaska Federal Health Care Access Network (AFHCAN) telehealth program, which includes support of the Alaska Federal Health Care Partnership (AFHCP), and develops, builds, assembles and configures, procures, and provides telehealth systems and related items and services, including, teleradiology, videoconferencing, clinical telehealth carts, workstations, and other hardware platforms, telehealth software, servers, hardware and other equipment, support, training, application hosting, updates, data transport services, interface development, integrates and facilitates information sharing, site assessment, evaluation, business planning, clinical workflow analysis and protocol development, equipment testing and evaluation, and technical and operational advice. ANTHC provides support for the AFHCAN program and support for the operations and management of the Alaska Telehealth Advisory Council, produces educational toolkits that explain key principles in telehealth technology, recommends processes for technology assessment, shares evaluation media and technological evaluations, and coordinates with the other telehealth agencies, facilities, and health organizations.

3.1.3.5 Biomedical and Clinical Engineering Services supports the use of safe and functional equipment in diagnosis and treatment of patients through comprehensive equipment management. This includes, but is not limited to: procuring and providing equipment, preventive maintenance, equipment repair, equipment history documentation, customer training; and, for IHS-funded construction projects with a new biomedical equipment budget of up to 1.5 million dollars, and otherwise to the extent a tribal health provider and ANTHC may agree, consultation on equipment selection, systems interfacing, construction planning, and technical assistance regarding meeting industry and regulatory standards, including documentation needed for quality assurance and to satisfy accreditation standards. Services are provided on-site to the ANMC Campus and to Alaska tribes and tribal organizations and other locations to coordinate and ensure access and quality care for IHS beneficiaries who are patients of the Alaska Tribal Health System. Biomedical and Clinical Engineering Services also supports, on a contract basis, biomedical, telehealth and teleradiology equipment in various locations.

3.1.3.6 Health Statistics develops and maintains statistical information concerning Alaska Native health status and health services and programs in cooperation with the IHS Alaska Area Office, and federal and state agencies, and tribal health programs.

3.1.3.7 Network Systems supports telecommunications connectivity and video teleconferencing for the benefit of ANTHC, tribal, rural, IHS, and, in accordance with Section 325 of Pub. L. 105-83, AFHCP programs and facilities.

3.1.3.8 Telecommunications Services maintains, supports and, for ANTHC sites and the ANMC Campus manages, telecommunications infrastructure, which transports voice, data and image information for tribal health programs in Anchorage and beyond; supports and integrates telecommunications systems, including paging, cellular phones, messaging, computer integration, call accounting, automatic call distribution, modem pooling, and interactive voice response units; and provides operator and dispatch services.

3.1.3.9 Distance Delivery assists all programs of ANTHC to provide remote delivery of technical support, training, education, patient case management and care coordination, and other services in order to improve access and achieve efficiencies.

3.1.4 Community Health Services. Community Health Services provides a broad spectrum of health promotion and disease prevention and public health services, which include injury prevention, health surveillance and research, work force development, training and support, directly and in collaboration with international, federal, state, and local agencies, tribes and tribal organizations, academic institutions, and non-governmental organizations. Such activities may also be performed at the request of the Secretary or in conjunction with other initiatives for the benefit of Alaska Native and American Indian people.

3.1.4.1 Surveillance, Analysis, and Support provides, through the ANTHC Epidemiology Center and other ANTHC programs, statewide surveillance and analysis of causes of illness (including food borne and environmental contaminants), injury and death among IHS beneficiaries; maintains Alaska Native tumor and other registries; support, planning and coordinating functions for present and future needs of IHS beneficiaries, including elders and other specific beneficiary subgroups; technical and clinical support in epidemiologic and public health investigations; field clinics and training; and consultation for providers serving IHS beneficiaries. These functions include collecting and receiving personally identifiable health information for the purpose of:

3.1.4.1.1 preventing or controlling disease, injury, or disability;

3.1.4.1.2 reporting disease, injury, and vital events such as birth and death; and

3.1.4.1.3 the conduct of public health and epidemiological investigations, surveillance, and interventions, including the maintenance of disease and injury registries.

3.1.4.2 Dental Training and Consultation provides technical assistance, continuing education services, and training for ANMC and other tribal dental programs Area-wide, including dental health aide training, supervision and services under the Standards and Procedures approved by the IHS Community Health Aide Program Certification Board; develops dental health promotion programs; assists with dental professional recruitment; and participates in local, state and national meetings and professional activities.

3.1.4.3 Behavioral Health Consultation and Services provides substance abuse, mental health, domestic violence, and other behavioral health services and support, including technical assistance, planning, continuing education, evaluation services, and training for ANMC and other tribal behavioral health programs, which include prevention and treatment programs; participates in local, state, IHS, and national meetings; works with tribal organizations and other agencies to develop and maintain integrated behavioral health databases; provides behavioral health and related services, including case management services, for IHS beneficiaries, and coordinates and consults with tribal programs designed to facilitate transitions resulting from incarceration and release; provides technical and financial support, training, and consultation for tribal behavioral health aide programs, including the training programs administered in conjunction with other organizations.

3.1.4.4 Immunization Consultation and Services provides immunization services; consultation, funding, coordination, advocacy, planning, and support for ANMC and other tribal immunization programs; and coordination among IHS-funded programs, the State of Alaska and the Centers for Disease Control and Prevention (CDC) Arctic Investigations Program.

3.1.4.5 Arctic Investigations Program Support, in accordance with Section 325 of Pub. L. 105-83, provides clinical and administrative support for epidemiological and laboratory studies conducted by the CDC Arctic Investigations Program.

3.1.4.6 Community Health Aide Program Certification provides support for the operations of the IHS Community Health Aide Program (CHAP) Certification Board, which includes developing and maintaining instructional materials, such as the *Alaska Community Health Aide/Practitioner Manual* (*CHAM/eCHAM*), and for the statewide Community Health Aide Program.

3.1.4.7 Alaska Native Health Research. ANTHC designs, conducts, and participates in research into causes and strategies for reduction of morbidity and mortality among individuals who may be served by tribal health programs in Alaska, health system research and evaluation studies, and in human subject research and clinical trials.

3.1.4.8 Community Health Aide Program Training provides training of and ongoing support to candidates for certification consistent with the *Community Health Aide Program Standards and Procedures* adopted by the IHS Community Health Aide Program Certification Board, including developing, conducting and supporting training programs.

3.1.4.9 Palliative Care Education provides development of educational opportunities for multiple levels of health care providers, including community health aides, in end-of-life patient care.

3.1.4.10 Comprehensive Cancer Control Plan provides facilitation of a statewide planning process to maintain a comprehensive cancer control plan and improved access to cancer care and support for Alaska Natives and American Indians.

3.1.4.11 HIV/AIDS and STD Prevention, Early Intervention, and Treatment Services provides better access to and promotes prevention, early intervention, and treatment of HIV/AIDS and sexually transmitted disease (STD). These activities and services include development of continuous quality improvement programs, clinic policies, and enhanced opportunities for patient education, counseling, testing, clinical examination, treatment, and referral services.

3.1.4.12 Tobacco Related Services provides direct tobacco and nicotine cessation services and support of such services; develops and maintains a comprehensive nicotine control plan for Alaska Natives; coordinates with appropriate federal, state, and local agencies with respect to tobacco-related services; provides coordination, training, evaluation, and technical assistance services for tribes and tribal health organizations related to the reduction of tobacco use.

3.1.4.13 Emergency Preparedness Services develops and maintains a comprehensive emergency preparedness plan for the Alaska Tribal Health System; coordinates with appropriate federal, state, and local agencies, as well as other emergency responders, with respect to emergency preparedness and response; provides coordination, training, evaluation, response, recovery, and technical assistance services for tribes and tribal health organizations and Native communities related to emergencies.

3.1.4.14 Personal Care Services, Training and Support provides personal care services and training, support, and advocacy, and technical assistance for tribal organizations and others serving IHS beneficiaries.

3.1.4.15 Health Promotion and Disease Prevention develops and implements a wide range of health promotion and disease prevention activities; coordinates with appropriate federal, state, and local entities to optimize services available to Alaska Native individuals and communities.

3.1.4.16 Infectious Disease Management provides direct services and support for health programs serving Alaska Natives to identify, diagnose, and treat infectious diseases, and other activities necessary to prevent and control infectious diseases, including patient education and management and provider training.

3.1.4.17 Nutrition Services provides supplemental foods, and nutrition education, counseling and other services for individuals at nutritional risk.

3.1.4.1.18 Other Services. ANTHC may also provide other PSFAs to meet the objectives of Section 3 of the IHCIA, as amended.

3.1.4.19 Environmental Health Assessment, Monitoring and Intervention designs and conducts studies to identify, assess and monitor the impact of environmental phenomena, agents and interventions, including climate change and exposure to contaminants, infectious agents and zoonotic disease, that may endanger IHS beneficiaries or Alaska Native communities. ANTHC provides appropriate interventions, assistance and other support for IHS beneficiaries and their communities.

3.1.4.20 Injury Prevention, Wellness and Health Education disseminates information, and promotes discussion about, and administers programs in support of, injury prevention, wellness and public health through a variety of modalities, including through health coaches, volunteers, community and peer support programs, camps, retreats, home health monitoring, assessing and improving living environments, outreach, presentations, newsletters, websites, blogs, and social and professional networking fora.

3.1.4.21 Academic and Professional Training administers a wide range of academic and professional training programs to ensure an adequate workforce and promote Alaska Native professional development. This may include collaboration with educational centers, colleges, and academies.

3.1.5 Regional and Contract Health Services:

3.1.5.1 purchases metabolic laboratory services for Pap smear and chlamydia testing for ANMC and other tribal health providers;

3.1.5.2 arranges for reference laboratory services for the Norton Sound Regional Hospital, Maniilaq Health Center, and Bristol Bay Area Health Corporation's hospital;

3.1.5.3 provides funding for radiology consultation services for Norton Sound Regional Hospital, the Arctic Slope Native Association's Samuel Simmonds Memorial Hospital, and Bristol Bay Area Health Corporation's hospital;

3.1.5.4 provides funding for the Area catastrophic care contract stop-loss reserve and support to ANMC and tribal health providers for participation in the national IHS Catastrophic Health Emergency Fund (CHEF); and

3.1.5.5 provides various services and support for tribal health programs pursuant to agreements with such organizations, including provision of health providers, supervision, technical assistance and other health care delivery, consultation and oversight regarding specialty departments such as laboratories and pharmacies, and administrative services.

3.1.6 Environmental Health and Engineering (DEHE). The Environmental Health and Engineering programs will be implemented in accordance with ANTHC policy, as augmented by joint guidelines established by the ANTHC CEO and the IHS Area Director. DEHE is a statewide component of the Alaska Tribal Health System. DEHE provides a wide range of environmental health, material and product acquisition and management, construction (including demolition and renovation), design, consultation, operations, management and other services in support of programs, systems and infrastructure serving IHS beneficiaries and Alaska Native communities or related to supporting, maintaining and improving the Alaska Tribal Health System. Services also include coordination and support of designated advisory committees of the ANTHC Board of Directors, which currently include the Sanitation Facilities Advisory Committee, the Alaska Health Facilities Advisory Committee, and the Maintenance &

Improvement Resources Allocation Committee. Representatives of this program serve on various governmental and community committees to represent tribal health interests.

3.1.6.1 Environmental Health Services:

3.1.6.1.1 coordinates and maintains an Area-wide program of comprehensive environmental health services for tribal health programs, IHS beneficiaries, and Alaska Native communities, including projects and initiatives to promote health and prevent disease and which may include any of the services described in section 3.1.7.5.2 [Community Environmental Services], when requested, and identifying, assessing, monitoring and remediating ambient air quality, environmental contaminants and other hazardous conditions that could adversely impact health;

3.1.6.1.2 provides institutional environmental health services Area-wide to facilities that are operated by Alaska Native tribes or tribal organizations and to entities that primarily serve Alaska Natives, including, but not limited to, management of hazardous waste materials, industrial hygiene, sanitarians, solid waste recycling, zoonotic services, the tribal-federal rural utility cooperative, receive and ship specimens from facilities and the natural environment for laboratory testing of disease and related services, and radiation safety; and

3.1.6.1.3 provides environmental control and occupational safety and health technical services to Alaska Native tribes and tribal organizations and, in the absence of applicable state or local services, to entities that primarily serve Alaska Natives or provide support to Alaska Native tribal organizations regarding the management of issues related to interaction with agencies and organizations such as the Occupational Safety and Health Administration (OSHA), Alaska Occupational Safety and Health (AKOSH), Environmental Protection Agency (EPA), Alaska Department of Environmental Conservation (ADEC), Food and Drug Administration (FDA) and The Joint Commission (formerly known as the Joint Commission on Accreditation of Healthcare Organizations (JCAHO)), and technical assistance, training, consultation, and evaluation for tribal health programs to support a comprehensive community injury prevention effort.

3.1.6.2 Health Facilities.

3.1.6.2.1 M&I Program. The Health Facilities Maintenance and Improvement (M&I) program maintains a comprehensive M&I program to promote and support the availability of safe and adequate health care facilities at locations throughout Alaska, including a technical consultation program, facility condition assessments, and management of M&I project funds; and

3.1.6.2.1.1 ANTHC provides financial support for eligible regional and local tribal health facilities for M&I projects that are first identified and approved by the ANTHC Board of Directors through the Maintenance and Improvement Resource Allocation Committee (MIRAC) M&I project pool process and then approved by the AANHS Director.

3.1.6.2.1.2 The Secretary and the ANTHC jointly agree that two-thirds of the total M&I funds for the Alaska Area are designated for "routine" M & I activities and are distributed by IHS directly to eligible tribes and tribal organizations in their funding agreements. One-third of these funds is designated for the M&I project pool and is further distributed by ANTHC as competitive projects in accordance with section 3.1.6.2.1.1, except as provided in section 3.1.6.2.1.4.

3.1.6.2.1.3 The Secretary and ANTHC jointly agree to annually provide an opportunity for tribes and tribal organizations with tribally owned eligible facilities to opt out of participation in the competitive project segment of the M&I project pool. The term "competitive pool" means the competitive project segment of the M&I project pool. The University of Oklahoma formula will be applied to the M&I project pool to determine such tribe's and tribal organization's proportionate amount. Tribes and tribal organizations may opt out of the competitive pool in accordance with the following core principles. (*See* Appendix M, "ANTHC M&I Competitive Project Pool Exit/Re-entry Process" (M&I Competitive Project Pool), for more detail.) Tribes and tribal organizations with eligible facilities (a) may opt out of participation in the competitive pool for all tribally owned facilities; (b) will participate in maintaining adequate set asides for facility condition assessments and small clinic subsidies whether or not they decide to opt out of the competitive pool; (c) when electing to opt out in item (a) above, will repay to ANTHC under a pool support agreement all project funds received in excess of 110% of their proportionate amount of pool contributions in addition to their proportionate amount of the set asides as described in item (b) above; (d) will include assurances to comply with applicable NEPA requirements in their Funding Agreement with IHS; and (e) may rejoin the pool only if they wait at least two years after opting out of the competitive pool, meet the new pool participant facility criteria at the time of reentry based upon a current facility condition assessment, adhere to the new pool participant facilities' one year wait period before applying for competitive project funds, and meet other conditions described in Appendix M – M&I Competitive Project Pool. Additional core principles may be established or existing core principles may be modified by amendment to ANTHC's Funding Agreement.

3.1.6.2.1.4 ANTHC and IHS jointly agree that when a tribe or tribal organization opts out of the competitive pool under section 3.1.6.2.1.3, the IHS will redesignate as routine funds, the M&I project pool portion based on the University of Oklahoma formula, and directly distribute those funds to the tribe or tribal organization. AANHS will transfer M&I project pool funds for approved projects to ANTHC on a project-by-project basis through Title V construction project agreements, which ANTHC has chosen to use. Agreements that ANTHC enters with tribes or tribal organizations that opt out of the competitive pool under section 3.1.6.2.1.3 shall, at a minimum, incorporate the provisions of section 3.1.6.2.1.3 and a mechanism to pay its proportionate amount of M&I project pool set-aside expenses and, where appropriate, payback obligations, as described at section 3.1.6.2.1.3(c), to ANTHC.

3.1.6.2.2 Master Plan. The Environmental Health and Engineering program maintains and, in collaboration with other tribes and tribal organizations, updates a facilities' master plan for the Alaska Area health facilities utilizing regional services

and facilities' master plans developed by tribes and tribal organizations and other program partners.

3.1.6.2.3 Technical Assistance. The Environmental Health and Engineering program provides comprehensive services and/or technical assistance to tribal health facilities and rural health facilities that serve IHS beneficiaries, including operations, facility assessment, planning, design, and construction of new, replacement, and renovation projects for hospitals, primary care facilities, substance abuse treatment centers, other health, wellness and social service facilities, patient housing, and staff quarters, and their supporting infrastructure.

3.1.6.2.4 Village Built Clinic Program.

3.1.6.2.4.1 Generally. The Village Built Clinic program provides for leasing village built clinics for use by Community Health Aide/Practitioners and other providers in locations for which the Village Built Clinic (VBC) program is not administered by other Compact Co-Signers or other tribal contractors. ANTHC buys back administration of this program from IHS pursuant to the Buyback/Withhold Agreement. IHS will annually, or upon renegotiation, provide to ANTHC a copy of each Village Built Clinic Lease. No increase in the amount due to the lessee pursuant to a lease will be negotiated by IHS without advance notice to ANTHC. In administering these leases, the IHS will work with ANTHC to ensure that each lessee is in compliance with the standards referenced in the VBC Lease.

3.1.6.2.4.2 Reporting. The IHS must report on its federally leased facilities. ANTHC agrees to notify the AANHS of changes in occupancy, size, use, and general condition of Village Built Clinic (VBC) leased facilities in locations where ANTHC has bought back services from the IHS.

3.1.6.2.5 Relationship with Governmental Agencies and Other Entities. ANTHC negotiates and maintains agreements with federal agencies, state agencies, tribes, tribal health organizations, and other funding/advocacy organizations to secure funding in support of health facility projects in a comprehensive and coordinated manner. The parties agree that any references in subsection 3.1.6.2.5 to agreements with entities not parties to this Funding Agreement neither incorporates such agreements nor makes the federal government a party to such agreements.

3.1.6.2.6 Federal Real Property Assets Reporting. For all real property assets, including facilities, managed by ANTHC under this Funding Agreement that are federally owned, ANTHC agrees to assist the IHS with its reporting requirements associated with Federal ownership of this property as outlined herein and within available resources.

3.1.6.2.6.1 Facility Condition Assessment. The IHS must keep its facility condition assessment current (i.e. not more than 5 years old). ANTHC, through DEHE, agrees to coordinate with other Co-Signers on scheduling and conducting facility condition assessment survey for federally-owned facilities under such management. The costs of these surveys will be estimated in concert with the ANTHC MIRAC. The costs of these surveys

will be paid from the M&I project pool before competitive projects are considered, provided that all facilities in the M&I project pool are eligible for such funding on the same basis as federally-owned facilities, and provided further, that facilities that are ineligible for M&I project pool funding are not entitled to facility condition assessments under this section. DEHE will provide a copy of all reports prepared as a result of the facility condition surveys to IHS Alaska Area, Attention: Office of Environmental Health & Engineering.

3.1.6.2.6.2 Historic Property. The IHS must identify historic real property assets and ensure that the information is current. AANHS is currently working with a contractor to assess IHS real property holdings in Alaska. ANTHC agrees to provide reasonable access to facilities it manages. IHS will provide ANTHC with a copy of the draft assessment and consider any comments ANTHC may submit.

3.1.6.2.6.3 Energy Data. ANTHC agrees to collect and submit energy data as specified in Appendix N –2, "Energy Report," for all federal facilities under ANTHC's management. ANTHC agrees to collect energy data from other Co-Signers who manage federally owned facilities, and to consolidate and enter this data into the IHS Healthcare Facilities Data (HFD) system on an annual basis.

3.1.6.2.6.4 Annual Capital Improvements Report. By June 30th of each fiscal year, ANTHC DEHE will submit to the IHS OEH&E copies of all interim and final real property closeout reports submitted to DEHE by Co-Signers, including those submitted by ANTHC with regard to federally owned facilities ANTHC manages. *See* section 3.5.1.6.2 [Capital Improvement Projects; Close-out Reports.]

3.1.6.3 Sanitation Facilities Program. The Sanitation Facilities Program:

3.1.6.3.1 maintains a comprehensive program for the planning, design, and construction of new and replacement facilities and supporting infrastructure to meet the water supply and wastewater disposal and solid waste disposal needs of IHS beneficiaries and Alaska Native communities;

3.1.6.3.2 maintains a current statewide assessment of water and sanitation facilities requirements for Alaska Native communities (Sanitation Deficiency System) and provides for the participation of tribes and/or tribal health organizations in the assessment and project prioritization process;

3.1.6.3.3 negotiates and maintains agreements with federal and state agencies and other funding/advocacy organizations to secure funding in support of community water supply and wastewater and solid waste disposal in a comprehensive and coordinated manner;

3.1.6.3.4 provides technical assistance and planning support for Alaska Native communities in the evaluation of sanitation facility requirements, and the design of systems to meet these requirements;

3.1.6.3.5 establishes agreements with Alaska Native tribal governments and other appropriate governmental and non-profit entities to facilitate the design, planning, and construction of sanitation facilities projects approved by the IHS;

3.1.6.3.6 provides planning, design, and construction services in accordance with project requirements approved by IHS and/or other funding sources;

3.1.6.3.7 provides training, materials, equipment, supplies, capacity development and support for the operations and maintenance of water and sanitation facilities systems serving Alaska Natives and other IHS beneficiaries; and

3.1.6.3.8 develops and assesses teaching materials, techniques and engineering practices for individuals, families and communities to promote health and improve the safe and efficient use of water.

3.1.6.4 System Improvements and Sustainability. ANTHC carries out various programs and initiatives to improve access to health care, reduce health hazards, and promote the long-term sustainability of health and sanitation facilities and other public health infrastructure, including improving access to adequate energy supplies, transportation, and communication systems; designing, managing and implementing assessments, initiatives and interventions for climate change adaptation; and administering collaborative and other cooperative efforts to sustain operations of public health facilities and related infrastructure.

3.1.7 Alaska Native Medical Center. ANMC offers a wide range of inpatient and ambulatory care to patients, consistent with section 1.1 [Transfers and Assurances] of this Funding Agreement, which includes direct patient care, field clinics, telephone consultation and telemedicine, training and consultation services provided in support of other tribal health programs in Alaska, and services offered under the Alaska Federal Health Care Partnership. Consistent with Attachment 2 – SCF Purchases from ANTHC and Attachment 3 – ANTHC Purchases from SCF, services are offered at various locations on the ANMC Campus. In addition, services are provided in other locations to improve access of, and maintain continuity of care for, patients of Alaska tribal health programs and as otherwise required to achieve the purposes of ANTHC, the Alaska Tribal Health System, and the Alaska Federal Health Care Partnership. In some practice areas field services are specifically mentioned in the program descriptions below because they have been an important part of the historical services offered, however services offered in support of other tribal health programs, including field clinics, patient care in other tribal hospitals and outpatient clinics, consultation, and training may be provided by any service center of ANMC.[9] In addition, any service center may be assigned to offer services in support of the Alaska Federal Health Care Partnership of which the IHS and the ANTHC are signatories. ANMC participates in health provider training through offering a site for medical residents and other individuals obtaining training in the health professions; through

9/ Failure to identify for any particular program that services are offered in a location other than the ANMC Campus or that non-direct patient care services are offered shall not be construed to exclude that service from the program offered by the ANTHC.

providing clinical preceptorships, mentoring, shadowing, training and supervision of health care providers who provide services at ANMC and in other tribal health programs; teaching health providers and students in the health professions, including Community Health Aide Program training; and development of evidence-based practice skills. ANMC also provides inpatient and outpatient patient education; participates in national work groups, quality improvement and medical quality assurance activities; human subject research and clinical trials; and maintains and develops epidemiological data.

3.1.7.1 Hospital and Clinic Patient Care Services. ANMC provides comprehensive health care services. It provides these services directly and through telehealth modalities, support provided to the Alaska Tribal Health System, contract arrangements, and collaborative arrangements with other providers. ANMC is currently organized into centers. The centers take principal responsibility for the services as described below, including related activities such as field clinics, consultation, telemedicine and others, described in section 3.1.7 [Alaska Native Medical Center].

3.1.7.1.1 Critical Care Services provides multi-disciplinary care and management of critical care patients.

3.1.7.1.2 Emergency Medical Services treats patients who present for emergent and urgent problems; serves as a site of stabilization, diagnosis and initial treatment for Anchorage patients and those transferred from other parts of Alaska (and, to the extent required by the Emergency Medical Treatment and Labor Act (EMTALA), from other states); provides physician backup for inpatient emergencies during off-hours; serves as the on-site medical clinic for all ANMC employees requiring medical attention while at work or presenting for work-related injuries; and provides, throughout the state, as needed, consultation to rural health care providers, including community health aides.

3.1.7.1.3 Internal Medicine Services which includes general internal medicine, pulmonology, endocrinology, dermatology, rheumatology, neurology, gerontology, hepatology, critical care medicine, sleep studies, gastroenterology, bariatric surgery and weight management services, and a hospitalist program; provides or arranges for most of the intensive care and sub-specialty internal medicine care for IHS beneficiary patients statewide; maintains a tumor registry; provides preventive treatment of viral hepatitis and participates in various hepatitis and other research projects; and provides a comprehensive diabetes program.

3.1.7.1.4 Ophthalmology Services provides a broad range of ophthalmological care.

3.1.7.1.5 Orthopedic Services provides management of orthopedic trauma, sports medicine, and general orthopedic, reconstructive care services.

3.1.7.1.6 Otolaryngology Services provides a broad range of otolaryngologic and audiologic care.

3.1.7.1.7 Pediatric Services provides, in collaboration with SCF, primary care for neonates, infants, children and adolescents; pediatric specialty care; consultation with pediatric sub-specialists and health care providers, schools, and other individuals, programs, and agencies providing supportive services; neonatal care, newborn care and support for high-risk deliveries; and pediatric intensive care.

3.1.7.1.8 Surgery Services provides general surgical and urological care; neurosurgical and plastic and reconstructive surgery services.

3.1.7.1.9 Surgical Support Services provides an ambulatory surgery unit (including an endoscopy unit), operating rooms, anesthesia service and post anesthesia care unit.

3.1.7.1.10 Women's Health Services in collaboration with SCF, provides obstetrical and gynecological services, including perinatology services; antenatal testing, and newborn nursing services.

3.1.7.1.11 Dental Services in collaboration with SCF, provides dentistry and oral surgery.

3.1.7.1.12 Medical/Surgical Inpatient Services includes, in addition to other services described in this section, inpatient nursing services.

3.1.7.1.13 Cardiology Services provides cardiac care, testing, intervention and treatment, including coronary angiography and intervention.

3.1.7.1.14 Hematology-Oncology Services provides consultation, treatment and care for patients with cancers or hematologic disorders.

3.1.7.1.15 Health Advice Hotline provides assistance to callers seeking advice regarding whether and what kind of health care they may need and may include coordination with the caller's health care providers, case managers, and others who may be involved in assisting the caller gain access to care.

3.1.7.1.16 Medical Transport provides, arranges, and supports other providers engaged in, medical transport of patients, including medical direction and control of ground and air ambulance and other medevac services.

3.1.7.1.17 Community Health Aide Program Support provides training, supervision, support, and consultative services for individuals certified, or in training for certification, by the IHS Community Health Aide Program Certification Board, and support of community health aide programs.

3.1.7.1.18 Other Health Care Services and Supplies. ANMC provides a variety of other health care services and supplies for patients, including genetic testing and counseling, behavioral health services, primary care services, chronic disease management,

organ and tissue harvesting services, traditional healing provided in accordance with 25 U.S.C. § 1680u, pain management services, hospice, palliative care and other end of life services, and durable medical equipment.

3.1.7.2 Ancillary Services include:

3.1.7.2.1 Clinical and Anatomic Laboratory Services provides a full range of clinical tests in support of patient diagnosis and treatment; analyses for the Alaska Area hepatitis testing program; testing of samples received from the rural ASU and other tribal health programs; referral for testing not available at ANMC; and tissue and blood analysis in support of organ donation and transplant programs in which ANMC participates;

3.1.7.2.2 Imaging Services provides a wide range of diagnostic, interventional and other imaging services, including angiography, nuclear medicine and a statewide teleradiology program for tribal health programs for radiological interpretation;

3.1.7.2.3 Pharmacy Services, which has sites on the ANMC Campus and at other tribal health program locations, provides comprehensive pharmaceutical care including recommending therapies, dispensing medications, collaborating in and monitoring of medication treatment plans to assure appropriate, safe, cost effective therapies, patient information regarding their treatment to assure compliance and prevent and mitigate potential side effects; distribution through automated dispensing units; and representation for the Alaska Area on national IHS formulary committees;

3.1.7.2.4 Therapy Support provides a wide-range of physical, occupational and speech and language therapy evaluation and treatment services and animal-assisted therapy;

3.1.7.2.5 Respiratory Care provides support of mechanical ventilatory support and a wide range of other respiratory therapeutic modalities;

3.1.7.2.6 Hospital Education Support Center develops and implements comprehensive patient education support services and provides educational and community outreach programs;

3.1.7.2.7 Health Information Services maintains a comprehensive medical record system, including record storage and retrieval, review and analysis of medical records, transcription, coding discharges and managing release of medical information;

3.1.7.2.8 Nutrition and Food Services includes medical nutritional therapy, which provides screening/assessment, nutritional education and patient monitoring and supplemental feedings and consultative assistance, and food service which is responsible for providing patient meals and cafeteria service for patients, visitors, employees and Quyana House guests;

3.1.7.2.9 Social Services provides a wide spectrum of medical and other social work and related services, including, but not limited to,

3.1.7.2.9.1 discharge care coordination, crisis intervention and assistance with psychosocial issues; programs for follow-up care; interdisciplinary review and discharge planning; consultation and training with other tribal health programs; and other assistance with developing care plans; and

3.1.7.2.9.2 child abuse and neglect and family support services and programs, including those provided in collaboration and cooperation with child protection and law enforcement agencies, child and family advocacy programs and other programs serving patients of tribal health programs; prevention and intervention services; medical and behavioral health services; and other therapeutic, educational, resiliency building, recovery, skill and relationship development, family preservation and reunification support services.

3.1.7.2.10 Patient Care Planning, Management and Follow-Up Services provides care, planning, coordination, and management, and other support and assistance to patients prior to, during and following patient encounters to improve care delivery and outcomes, including education and training for patients and their care-givers, short-term recovery care prior to the patient returning home or being transferred to another facility and home-based services including nurse visits.

3.1.7.3 Support Services:

3.1.7.3.1 Auxiliary Patient Services is a special service program supported by many volunteers aimed to benefit patients and others served through the mission of ANMC;

3.1.7.3.2 Central Admitting Services provides an initial point of contact for anyone acquiring a service from ANMC, assists with determining patient eligibility for service, maintains the inpatient hospital census documentation, assists patients with applications for third party and other alternate health resources;

3.1.7.3.3 Central Nursing Office provides leadership, direction, guidance, facilitates the use of continuous quality improvement in the management of nursing services at ANMC, and regular review and evaluation of nursing practice;

3.1.7.3.4 Executive Direction, in collaboration with SCF as provided in the Joint Operating Board Bylaws and Attachment 2 – SCF Purchases from ANTHC and Attachment 3 – ANTHC Purchases from SCF, is responsible for planning, directing, and coordinating services offered by ANMC; resource allocation; and credentialing and privileging providers;

3.1.7.3.5 Financial Management organizes, coordinates and executes budget and financial operations of ANMC and is responsible for Medicare cost report and cost allocation processes;

3.1.7.3.6 Facilities Engineering provides a comprehensive program of facilities management of ANMC, other ANTHC clinical and program facility locations, such as Quyana House and other temporary housing, Arctic Investigation Laboratories[10] and the related grounds and physical plant equipment associated with these facilities;

3.1.7.3.7 Housekeeping Services is responsible for waste and trash removal, infectious waste, linen management, routine and urgent cleaning for ANMC, Arctic Investigations Laboratory, Quyana House and other temporary housing, and the ANPCC;

3.1.7.3.8 Infection Control provides a comprehensive, coordinated process to reduce the risks of endemic and epidemic nosocomial infections in patients and health care workers and other ANTHC employees who may be present in ANMC on a full-time or occasional basis, including mandatory training, respiratory protection devices, tuberculosis surveillance program and a needlestick-blood borne pathogens exposure plan for health care workers and other employees;

3.1.7.3.9 Materiel Management is responsible for management and distribution of supplies, equipment and mail for ANMC and the ANPCC, including responsibility for Central Sterile Supply, which provides medical supplies for patients, decontamination and sterile processing, and direct support to operating room suites;

3.1.7.3.10 Organizational Development and Quality Management develops, monitors and evaluates policies, procedures, protocols, processes and practices to improve patient safety and the quality and value of services, assists with accreditation and regulatory compliance, and provides education, technical assistance, consultation and support for continuous quality improvement activities, strategic planning and organizational development;

3.1.7.3.11 Public Relations/Information Office provides information to beneficiaries and the general public; management of media relations; technical assistance; and

---

10/ While the PSFAs associated with the Arctic Investigations Laboratory provided for in this paragraph and in section 3.1.7.3.7 [Housekeeping Services] are provided in accordance with Section 325 of Pub. L. 105-83 under this Funding Agreement, the funds are not a part of this Funding Agreement. The funds supporting these activities are subject to all terms and conditions of the instrument through which the funds are transferred, and the parties agree that such instruments is not incorporated into this Funding Agreement.

3.1.7.3.12 Library Services develops, maintains and manages clinical information and knowledge resources for clinical staff, employees, patients and other tribal health programs, and assists with reference questions and research.

3.1.7.4 Contract Health Services administers a program to pay providers and facilities to provide health services within medical priorities established by the ANMC Joint Operating Board and approved by the ANTHC Board of Directors or to ensure efficient and cost effective treatment for patients.

3.1.7.4.1 TCC and SEARHC. ANTHC will continue to provide only tertiary and referral contract health services care for beneficiaries of Tanana Chiefs Conference (TCC) and SouthEast Alaska Regional Health Consortium (SEARHC) as provided by the IHS when it directly operated the contract health services program and as described in TCC's and SEARHC's respective Funding Agreements.

3.1.7.4.2 Full-Time Students. Except for beneficiary residents of the Tanana Chiefs Conference, Ketchikan Indian Community and the Metlakatla Indian Community service areas, contract health services provides funding for full-time students as defined in 42 C.F.R. § 36.23 (1985).

3.1.7.4.3 Transients. Except for beneficiary residents of the Tanana Chiefs Conference, Metlakatla Indian Community, Ketchikan Indian Community and SouthEast Alaska Regional Health Consortium service areas who require contract health services outside Alaska, contract health services provides funding for transients as defined in 42 C.F.R. § 36.23 (1985).

3.1.7.4.4 Dental. ANTHC has no responsibility for operative non-emergent dental contract health services, except to beneficiary residents of the Chugachmiut service area.

3.1.7.4.5 Appeals. ANTHC will provide an appeals process to resolve decisions made by the ANTHC contract health services program.

3.1.7.5 Hospital and Community Environmental Services:

3.1.7.5.1 Hospital Safety and Environmental Services provides a comprehensive safety and environmental control program to promote a safe and healthy environment at ANMC and the ANPCC, including security, lift team, and biomedical waste disposal services.

3.1.7.5.2 Community Environmental Services provides a comprehensive environmental health and injury prevention program for ANTHC, ANMC and Alaska Tribal Health System, including the management, planning, and execution of programmatic and field activities relating to environmental health issues in both urban and rural areas, technical assistance, consultative services, informational surveys and specialized training activities to local communities on community, environmental and public health issues, including

water system, sewer system and solid waste disposal system construction, operation and maintenance; injury prevention activities such as bicycle rodeos, safety instruction, injury surveillance, and assessment and intervention to prevent injuries in facility, community and home environments; performance of surveys and regarding OSHA, The Joint Commission and other requirements and regulations; environmental health consultation and services to facilities serving Alaska Native and IHS beneficiaries; prevention of and response to zoonotic disease; and consultative and direct environmental health services to child care programs (including day care, pre-school, early childhood development, and family support programs), schools, and community facilities; and performing epidemiological investigations of disease outbreaks.

3.1.7.6 Housing, Patient Transportation, and Patient Centered Planning and Care Coordination provides in conjunction with Patient Care Planning, Management and Follow-Up Services and others serving patients of tribal health programs:

3.1.7.6.1 pre- and post-travel planning and coordination to ensure their health care needs, including their preventive care needs and follow-up to treatment, are identified and addressed;

3.1.7.6.2 lodging, meals, and air and ground transportation (and related dispatch and travel arrangement services) for patients and their family members and escorts inside Anchorage and to and from other locations;

3.1.7.6.3 supportive services for patients, family members, escorts and others providing assistance and support to patients while preparing for and on travel status; and

3.1.7.6.4 housing and meals for community health aide students in training; and temporary housing for ANTHC workforce.

3.1.8 Diabetes Prevention Program. ANTHC provides primary, secondary and tertiary prevention services, including diabetes education, screening, clinical follow-up, case management services and community and employee activity programs including sponsorship of team sports.

3.1.9 Elder Care Services. Elder care services provides hospital swing bed services and comprehensive health care nursing services for the elderly, disabled and others needing long term health care that may include nursing facility services.

3.1.10 Other Services to Address Health Goals and Objectives. ANTHC also performs other PFSAs as appropriate to address the health goals and objectives established by ANTHC, as contemplated in Title V of the ISDEAA, 25 U.S.C. § 458aaa-4(b)(2).

3.2 Other Programs/Services Funded. This funding agreement includes programs, functions, services and activities resulting from tribal redesign, or consolidation, reallocation or redirection of funds, including its own funds or funds from other sources, provided that such consolidation, redesign, or reallocation or redirection of funds results in carrying out programs,

functions, services and activities that may be included in the funding agreement pursuant to section 505 of Title V, section 325 of Pub. L. 105-83, and Article III, Section 6 [Merging with Other Programs] of the Compact. This includes any other new health care programs, including, but not limited to, those identified in the Indian Health Care Improvement Act funded during the fiscal year.

3.3 Non-IHS Funding. ANTHC will complement and supplement the PSFAs described throughout this section 3 [Tribal Programs and Budget] with funding from sources other than the IHS through this Funding Agreement, subject to the availability of such other funding sources. Consistent with Article III, Sections 5 [Reallocation], 6 [Merging with Other Programs], and 7 [Program Income] of the Compact, non-IHS funds will be added to or merged with funds provided by the IHS through this Funding Agreement.

3.4 Federal Tort Claims Act Coverage. The Federal Tort Claims Act applies to ANTHC's PSFAs under this Funding Agreement as provided in Article V, Section 3 [Federal Tort Claims Act Coverage; Insurance] of the Compact, Section 516(a) of Title V (which incorporates Section 102(d) of the Title I of the Act and Section 314 of P.L. 101-512). The extent of Federal Tort Claims Act coverage is described more particularly in 25 C.F.R. §§ 900.180-900.210.

3.5 Tribal Facilities, Locations and Personal Property. ANTHC operates the programs described in this Funding Agreement out of more than one facility or location and uses personal property owned by ANTHC, by SCF, and by IHS in these facilities and locations. These include, ANMC, which ANTHC is entitled to occupy and use, in conjunction with SCF, for so long as ANTHC carries out the PSFAs described in this Funding Agreement. In addition, the facilities and locations include, but are not limited to, those described below and in Appendix E "Tribal Facilities and Locations," which is incorporated by reference herein. The Area Division of Planning, Evaluation and Health Statistics shall compile from this Appendix a list of all health facilities and locations identified in the Appendix and forward that list annually to the Headquarters' Office of Program Statistics, which shall include each of these facilities and locations in the annual list it must provide to the Centers for Medicare and Medicaid Services (CMS) (formerly Health Care Financing Administration) pursuant to the Memorandum of Agreement between the Health Care Financing Administration and the Indian Health Service (December 19, 1996).

3.5.1 Real Property Generally. Subject to conditions applicable to specific facilities or locations, as set forth in section 3.5.2 [Construction Yard Storage Lots and Sanitation and Health Facility Construction Sites], the facilities and grounds identified in Appendix E to this Funding Agreement in which the United States has title or holds a leasehold interest identified in their respective Funding Agreements (as adjusted in Attachment 2 – SCF Purchases from ANTHC and Attachment 3 – ANTHC Purchases from SCF), shall be maintained by ANTHC under the following terms:

3.5.1.1 Federal Property Title and Permissible Use. Title to such property (or the leasehold therein) shall remain in the United States, and ANTHC shall permit no unlawful activity on such property.

3.5.1.2 Vendors and Contractors. ANTHC will select and manage vendors and contractors consistent with 25 U.S.C. §§ 450e(b) and (c) and other applicable law. For vending facilities operated on federal property by blind persons, ANTHC will also comply with 20 U.S.C. § 107.

3.5.1.3 Shared Responsibility with SCF. The responsibility for maintenance, repair, custodial and janitorial services, and security services shall be distributed in accordance with the allocation of the resources for such activities as provided in Schedule A to the FY 99 AFA.

3.5.1.4 Catastrophes. Major or catastrophic repairs resulting from deficiencies in design or construction or from extraordinary or unforeseen events are not the responsibility of ANTHC unless additional funding amounts to deal with such unforeseen circumstances as provided in Article V, Section 10, of the Compact are provided by the IHS.

3.5.1.5 Maintenance and Improvement Funds. ANTHC shall be eligible for additional maintenance and improvement funds from the IHS in accordance with established IHS policies. ANTHC agrees to use maintenance and improvement funds received through this Funding Agreement in accordance with the appropriation language for Indian Health Facilities in the Department of Interior and Related Agencies Appropriation Act for the applicable fiscal year or any comparable Act of Congress that contains the subject appropriation, and in accordance with 41 U.S.C. § 12 to the extent applicable.

3.5.1.6 Capital Improvement Projects.

3.5.1.6.1 Approval. Subject to the following thresholds, ANTHC will submit to AANHS a Project Summary Document (PSD) or Program Justification Document (PJD) for any projects in a federally-owned facility or on federally owned property for construction, renovation, or acquisition of space: for projects started before October 1, 2005, costing more than $25,000, including non-IHS funds, and for projects started on or after October 1, 2005, $100,000, including non-IHS funds. For projects that require additional funds from the IHS, ANTHC may proceed with the project only after receipt of approval of the PSD or PJD from IHS.

3.5.1.6.2 Close-Out Reports. By June 30th of each fiscal year, the IHS must report all capital improvements made to federal facilities that exceed the thresholds described in section 3.5.1.6.1 [Capital Improvement Projects; Approval]. ANTHC agrees to prepare a Final Real Property Closeout Report specified in Appendix N-3, "Final Real Property Closeout Report and Interim Real Property Status Report," on each project within 120 days of its beneficial use of the facility or an interim report using Appendix N-3 without the Chief Financial Officer certification if the project is not completed for beneficial use. ANTHC agrees to complete one of these reports by June 30th of each fiscal year. The reports will be consolidated with the reports of other Co-Signers submitted to ANTHC as provided in section 3.1.6.2.6.4 [Annual Capital Improvements Report.]

3.5.1.7 Responsibilities under NEPA, NHPA, and Related Provisions of Law that Apply When the IHS Undertakes an Action. The National Environmental Policy Act (NEPA), National Historic Preservation Act (NHPA), and related provisions of law require the IHS to review and approve actions resulting in the use or commitment of IHS funds or that affect IHS property, and which may significantly impact the environment or cultural resources. Unless ANTHC has assumed these responsibilities under a construction project agreement in accordance with Section 509 of Title V and 42 C.F.R. § 137.285-312, the IHS must carry out these responsibilities and has elected to utilize Appendix Z. Where ANTHC plans to undertake an action, as described in Appendix N-6 "Actions Requiring IHS NEPA Review and Determination," on IHS owned real property or utilizing IHS funds received through this Funding Agreement and ANTHC has not assumed these responsibilities, ANTHC will provide the IHS with a Project Summary Document (*see* Appendix [N-4]) and a completed Environmental Information and Documentation Form (*see* Appendix N-5) so that the IHS can accomplish these requirements, and issue a Determination Document (Categorical Exclusion (CATEX) or Finding of No Significant Impact (FONSI)), as soon as possible. All documentation shall be submitted to the IHS as early as possible in the planning phase of the project to prevent delays in the action. No irreversible action can be taken by ANTHC until the IHS completes its compliance responsibilities and so advises the Co-Signer with a Determination Document). Pending resource availability, the IHS is available for education and consultation on NEPA, NHPA, and related provisions of law on an as needed basis.

3.5.1.8 Changes in Utilization. The IHS must keep an accurate and current inventory of real property assets. ANTHC agrees to provide the certification form included in Appendix N–1, "Certification for New/Replaced/Added Space," annually to the AANHS for any new, replaced, or added space, or other changes in space utilization to a federally owned facility under ANTHC's management.

3.5.1.9 Facility Condition Assessment. ANTHC agrees to schedule and conduct facility condition assessment surveys ("deep look surveys") on federally owned facilities under ANTHC's management and to provide reports as provided in section 3.1.6.2.6.1 [Facility Condition Assessment].

3.5.2 Construction Yard Storage Lots and Sanitation and Health Facility Construction Sites.

3.5.2.1 Federal. ANTHC operates certain environmental health and engineering PSFAs described in this Funding Agreement out of certain federal construction yard storage lots, which IHS agrees that ANTHC may use in any manner necessary to ensure that ANTHC can adequately perform the environmental health and engineering PSFAs set forth in this Funding Agreement.

3.5.2.2 Other Storage and Construction/Operation Project Sites. In addition to operating out of its offices in Anchorage and the facilities and locations listed or described in paragraph 3.5.2.1 [Federal] and Appendix E – Facilities and Locations, ANTHC provides assistance to develop sanitation and health facility construction/operation projects throughout the State and performs PSFAs on approved projects at construction/operation sites

throughout the State. ANTHC also maintains storage lots in various locations to support these facilities. The sanitation and health facility construction/operation sites and storage lots will not be listed in Appendix E – Tribal Facilities and Locations.

3.5.3 Other Tribal Facilities and Locations. ANTHC operates the programs described in the Funding Agreement out of more than one facility or location. These include, but are not limited to, the facilities and locations listed or described in Appendix E – Tribal Facilities and Locations, which is hereby incorporated by reference into this Funding Agreement.

3.5.3.1 Other Tribe and Tribal Organization Sites. ANTHC provides field clinics and other services in sites throughout the State of Alaska, including facilities operated by other tribes and tribal organizations or made available to them for the delivery of health programs. These sites will not be listed in Appendix E – Tribal Facilities and Locations.

3.5.3.2 CDC Building. ANTHC also operates some of its programs at the Arctic Investigations Program, Centers for Disease Control (CDC) Building, 4055 Tudor Centre Drive, Anchorage. Operation of programs at this location is at the invitation of the CDC. Therefore the building and property at this location are not to be considered property furnished by the government for purposes of Section 105(f)(2)(A) of the Act. IHS will consult with ANTHC prior to negotiating any transfer of ownership or occupancy of the CDC Building.

3.5.3.3 Annual Self-Governance Negotiation Space. ANTHC will provide space for Alaska Tribal Health Compact negotiations.

3.5.4 Personal Property.

3.5.4.1 Generally. All personal property owned by the IHS and located in the facilities identified in Appendix E – Tribal Facilities and Locations shall remain the property of the United States and shall be provided for the use of ANTHC and SCF, respectively, for the performance of PSFAs under their respective Funding Agreements.

3.5.4.2 ANMC Personal Property. ANTHC is aware that the personal property owned by the IHS in the ANMC does not include most of the artwork, which is the property of the ANMC Auxiliary. The artwork that is the property of the IHS is listed in Appendix J to the FY 2000 Funding Agreement – List of Government Provided Artwork in ANMC, which is hereby incorporated by reference into this Funding Agreement.

3.5.4.3 Intellectual Property. In the course of administering federal contracts, grants, subgrants, and other agreements prior to ANTHC's assumption of federal responsibilities under the Compact, IHS acquired various copyrights and licenses, including licenses pursuant to 45 C.F.R. § 74.36 and 45 C.F.R. § 92.34, in works which the IHS possessed, reproduced, published and otherwise used and allowed others to possess, reproduce, publish, and otherwise use. To carry out the PSFAs assumed by ANTHC on or after October 1, 1998, ANTHC has the delegated authority and permission from IHS to use and allow others to reproduce, publish, and otherwise make use of these works to the same extent as IHS, consistent with the copyrights or licenses acquired by IHS in such works.

Section 3.6 Payer of Last Resort. Whether providing, purchasing, or authorizing health care services described in the Compact and this Funding Agreement, in accordance with Section 2901(b) of Pub. L. 111-148 [25 U.S.C. § 1623(b)], and as otherwise provided in law, ANTHC shall be the payer of last resort.

Section 3.7 Exemption from Payment of Certain Fees. In accordance with Section 124 of the Indian Health Care Improvement Act, as amended, 25 U.S.C. § 1616q, employees of ANTHC's health programs shall be exempt from payment of licensing, registration, and any other fees imposed by a federal agency to the same extent that officers of the Public Health Service commissioned corps and other employees of IHS are exempt from such fees.

Section 4 — Amounts Available During Term of Funding Agreement.

4.1 Funding Amounts.

4.1.1 Generally. ANTHC and IHS entered into an agreement between the IHS and ANTHC regarding Adjusted Recurring Base ("Adjusted Recurring Base Agreement") on May 29, 2001 in which the adjusted recurring base funding due ANTHC for FY 2001 was established to be $80,335,650 as identified in Operating Resources Detail (ORD) (formerly called Advice of Allowance) 11, dated May 17, 2001. The following amounts are available to ANTHC pursuant to Section 325 of P.L. 105-83, the Compact, Title V of the Act and the Adjusted Recurring Base Agreement are subject to reductions only in accordance with Section 508 of Title V and Section 106 of Title I during the term of this Funding Agreement. The funds being transferred to ANTHC are funds that were identified as certain non-residual tribal shares of the AANHS prior to the enactment of Section 325 of P.L. 105-83.[11]

	Annual Funding
RECURRING BASE: Inclusive of all recurring funding.[12]	

11/ A breakout of these funds is shown in Appendix A, which is hereby incorporated by reference, which cites the source document used to determine the amounts. The amounts are subject to change under the Act and as provided in this Funding Agreement, including the additional adjustments as provided in section 4.2 [Contract Support Costs]. For other fiscal years to which this Funding Agreement is applicable, the replacement Appendix A will be negotiated between IHS and ANTHC for the respective year and amended to this Funding Agreement and incorporated by reference, accordingly.

12/ The detail regarding these recurring funds is shown in Appendix A – Financial Summary. *See,* Footnotes 3 (regarding Appendices A and C) and 11 (regarding breakout of funds in Appendix A). The base amount of the recurring funds in FY 01 was determined according to the Adjusted Recurring Base Agreement. This amount includes funds for Human Resources, which includes $100,000 that shall be immediately repaid to IHS if

	Annual Funding
Recurring Services	$ 110,815,283
Recurring Facilities	$ 15,151,116
Subtotal Recurring:	**$ 125,966,399**
NON-RECURRING FUNDING: Inclusive of certain program and nonrecurring contract support funds and such other funding that may be added to the Funding Agreement.[13]	
,Contract Support Costs	$18,738,626
Maintenance and Improvement funds	TBD
Telemedicine	TBD
Approved Sanitation Facilities Construction Project Funds:[14]	TBD

ANTHC discontinues required entries into the Integrated Time and Attendance System (ITAS).

The "Recurring Services" amount was reduced in FY 2009 by the amount of $3,609,309.47 (Hospital and Clinics funds), which was calculated on the basis of a reallocation from ANTHC to SCF in the scope of responsibility for purchasing outpatient pharmaceuticals used in the Rural Anchorage Service Unit, Primary Care Center, and the ANMC Hospital-Based Outpatient Pharmacies. This amount was calculated before any FY 2009 appropriated increases were applied. All FY 2009 increases, including pay costs, inflation, population growth, and any other similar items attributable to this recurring base transfer shall be paid to SCF as if the recurring base transfer had occurred on September 30, 2008.

13/ These amounts are detailed in Appendix A. See, Footnotes 3 (regarding Appendices A and C) and 11 (regarding breakout of funds in Appendix A). In addition, ANTHC shall receive, pursuant to Section 325 of P.L. 105-83, the Compact and Title V of the Act, other non-recurring funds not specifically identified in this Funding Agreement but which may be provided to ANTHC in the future to the same extent as they have historically been provided.

14/ In FY 2011, it is expected that about $16,000,000 will be allocated to the Alaska Area for new Sanitation Facility Construction Projects. As projects are approved under section 1.2.3 [Sanitation Facility Construction Approval] the funds will be transferred to ANTHC. In addition, the IHS shall transfer, or authorize to be transferred, to ANTHC funds from federal and state agencies or other sources according to agreements by the funding agency or as the conditions for expenditure of the funds have been satisfied,

	Annual Funding
Subtotal Non-Recurring:	**$18,738,626**
Subtotal Recurring and Non-Recurring:	**$144,705,025**
Area Tribal Shares[15]	$ 829,501
Headquarters Tribal Shares - Program Formula[16]	$ 635,412
Subtotal – Tribal Shares[17]	**$ 1,464,913**
TOTAL COMPACT FUNDING[18]	**$146,169,938**

except to the extent that such funds have been expended directly for the projects, pursuant to agreement by ANTHC. Funds also will be allocated to ANTHC for approved projects as the IHS satisfies obligations for projects for which funds have been retained by the IHS. When additional funds are needed for approved projects being carried out by ANTHC and for new ANTHC approved projects, the funds retained by the IHS will be the first source of funds relied upon.

15/ Funds from Area were distributed according to methodologies agreed upon in a caucus open to all Alaska Tribes and tribal organizations. The specific methodologies are identified in Appendix A – Financial Summary. ANTHC does not receive any Area tribal shares, except those restricted by Co-Signers and Title I contractors and those which Co-Signers and Title I contractors could have received, but for the enactment of Section 325 of P.L. 105-83. Those funds are included in this table as a portion of the ANTHC's recurring base, but are detailed in Appendix A – Financial Summary.

16/ Headquarters shares were allocated and distributed according to methodologies agreed upon in a caucus open to all Alaska Tribes and tribal organizations. The specific methodologies are identified in Appendix A – Financial Summary. ANTHC does not receive any Headquarters' tribal shares except certain program formula shares, which are detailed in Appendix A – Financial Summary. In addition to the program formula shares ANTHC is receiving, ANTHC has restricted other funds detailed in Appendix A and retains the right to receive other Headquarters' tribal shares for which the amount or availability have not been determined.

17/ This amount does not include certain Headquarters' tribal shares for which the amount or availability has not been determined. This amount will be adjusted to make available all tribal shares for which ANTHC is eligible.

18/ For the reasons noted regarding the amounts that make up this total and because full funding amounts due under previous years' Funding Agreements have not been fully

	Annual Funding
INITIAL WITHHOLD SUMMARY	
IPA/MOA	$ 12,244,162
Pharmaceuticals[19]	$ 8,542,717
Village Built Clinics	$ 704,500
Subtotal Initial Withhold	**$ 21,491,378**

These amounts are subject to additions for other reimbursements, new funds received during the term of this Funding Agreement including amounts that have historically been distributed as non-recurring funds under Title I of the Act, additional adjustments to add the direct contract support for additional federal employees transferring to direct employment after the initial calculation in July, 1999, and funds made available throughout the year under section 4.3 [Transitional IHS PSFAs and Funds] below. Any amounts remaining unspent under Contract No. 243-98-6040 and previous Funding Agreements, after adjustment and reconciliation of the withheld amounts for IPA/MOA as of the last day of the previous fiscal year shall be included in this Funding Agreement.

The Recurring Base amount shown above includes $4,929,759 that ANTHC received, recurring in FY 2006 in Congressionally earmarked alcohol funds for substance abuse and behavioral health counselors through the Counselor in Every Village program, and comprehensive substance abuse training programs for counselors and other delivering substance abuse services. Such funds are subject to "Adjustments Due to Congressional Actions" as described herein in section 6 [Adjustments] as well as any conditions on those funds that may be described in the FY 2009 Interior Appropriations Act (Act) or Congressional Reports. After the Act is passed into law, such conditions, including Congressionally directed reporting requirements, will be added by amendment not requiring Co-Signer signature as described in section 11[Amendment or Modification of this Agreement] of this Funding Agreement.

Of the amount shown above for Headquarters Tribal Share "Program Formula," $592,607 are for Equipment Replacement; the Equipment Replacement amount paid as a part of the lump sum due ANTHC was determined by multiplying the FY 2015 Equipment Replacement amount paid to the Co-Signer by 90%. The final Equipment amount paid in FY 2016 will be based on the final FY 2016 Equipment Replacement allocation. If the final Equipment Replacement amount, as determined by the final FY 2016 Equipment Replacement allocation, is less than the 90%

---

identified or reconciled as of the time this Funding Agreement is being executed, all amounts to be paid in the fiscal year for this Funding Agreement are estimates and are subject to amendment to reflect the full amount due for this fiscal year.

19/ *See* section 13 [Regional Supply Service Center].

calculation, ANTHC will return the difference to the IHS. *See also* Appendix A, footnote to line 19 on page 6.

The parties agree Section 505(b)(2) of Title V provides, among other things, that grants administered by the Department of Health and Human Services through the IHS may be added to ANTHC's Funding Agreement after award of such grants. In accordance with this provision of Title V and its implementing regulations, the Secretary will add ANTHC's FY 2011 through 2015 diabetes grants to this Funding Agreement after the grants have been awarded. Grant funds will be paid to ANTHC as a lump sum advance payment through the PMS grants payment system as soon as practicable after award of the grant. ANTHC will use interest earned on such funds to enhance the purposes of the grant including allowable administrative costs. ANTHC will comply with all terms and conditions of the grant award, including reporting requirements, and will not reallocate grant funds nor redesign the grant program, except as provided in the implementing regulations or the terms of the grant.

4.1.2 Schedules. The FY 99 AFA had attached to it Schedules A (FY99 Budget for ANMC Campus), B (Calculation of Annual Amount, Revenue Ceiling, Award Amounts, and Lump Sum Payment), and C (Personnel Transferred under the AFAs (ANMC Manpower Report as of 12/10/98)), which provide historical planning and budget information only and do not impose upon the IHS any funding requirements not already identified in this Funding Agreement. They may be referred to consistent with the intent of section 21 [Related Agreements] of this Funding Agreement.

4.2 Contract Support Costs. Contract support costs (CSC) will be paid in accordance with 25 U.S.C. § 450j-1 and §458aaa-7(c). IHS and ANTHC agree that, according to the best data available as of the date of execution of this agreement, the amount to be paid under the fiscal year covered by this agreement, which represents the parties' estimate of ANTHC's full CSC requirement pursuant to 25 U.S.C. § 450j-1, is $ 29,585,915, including $ 10,847,289 for direct CSC and $ 18,738,626 for indirect CSC. This estimate shall be recalculated as necessary as additional data becomes available including information regarding the direct cost base, pass throughs and exclusions, and the indirect cost rates to reflect the full CSC required under 25 U.S.C. § 450j-1, and, to the extent not inconsistent with the ISDEAA, as specified in IHS Manual Part 6, Chapter 3 (approved April 6, 2007). IHS and ANTHC will cooperate in updating the relevant data to make any agreed upon adjustments. In the event the parties disagree on the CSC amounts estimated and paid pursuant to this paragraph and ANTHC's full CSC requirement under the ISDEAA, the parties may pursue any remedies available to them under the ISDEAA, the Compact, and the Contract Disputes Act, 41 U.S.C. §7101 *et seq.*

4.3 Transitional IHS PSFAs and Funds.

4.3.1 Area Office (including Environmental Health & Engineering) Transition.

4.3.1.1 Generally. The IHS has retained funds to accomplish federal PSFAs during transition. The total amount of transitional IHS retained funds is detailed in Appendix A – Financial Summary. It is subject to agreements to transfer retained funds to

ANTHC upon the occurrence of certain events described in Appendix G – Transitional Staffing Plan or set forth in this subsection. Funds generated by administrative surcharges and user fees under section 5.3 [Buyback/Withholding] are not included in the total amount of transitional IHS retained funds above because those funds can be used only consistent with the requirements of section 5.3 and any balance, after reconciliation, must be returned to Co-Signers under Section 3.3 of Appendix D, "Buyback/Withhold Agreement between the Indian Health Service and Alaska Native Tribal Health Consortium" ("Buyback Agreement."). The IHS will transfer funds for Sanitation Facility Construction projects pursuant to section 4.1 [Funding Amounts].

4.3.1.2 Area Office Reconciliation. Funds not needed for residual or transitional federal PSFAs for fiscal years covered by this Funding Agreement shall be paid to ANTHC prior to the close of the fiscal year.

4.3.2 ANMC Transition.

4.3.2.1 Human Resources Support for IPA/MOAs and Federal Employee Assistance Program. For FY 2011, $91,277 allocated to ANTHC, has been retained by the Area Office to support federal employees on IPA or MOA and an additional $34,000 allocated to ANTHC, has been retained by the Area Office to provide an Employee Assistance Program for Federal employees under IPA/MOA. The Area Office has agreed to transfer additional personnel and funds to ANTHC consistent with Appendix G – Transitional Staffing Plan, which is attached to this Funding Agreement and incorporated by reference herein.

The amounts retained by the Area Office, described in the previous paragraph, do not include funds for the purpose of performing time-and-attendance activities for or for exercising day-to-day supervision over Federal employees under IPA or MOA with ANTHC. ANTHC will continue to perform time and attendance activities, unless funds are returned to the Area Office to enable the Area Office to perform this function. *See* Footnote 12 to section 4.1.1 [Funding Amounts; Generally] (regarding recurring funds).

4.3.2.2 IHS Retained Staffing. Appendix C – Continuing Service Agreement and Appendix G – Transitional Staffing Plan describe the retained staff and the general conditions under which transfer of the position or funds will be made from IHS to ANTHC.

4.3.2.3 Pharmaceutical Purchases. The Area Office will continue to assist ANTHC with purchasing pharmaceuticals through the Veteran's Administration Prime Vendor Contract pursuant to the terms and conditions of section 13 [Regional Supply Service Center] of this Funding Agreement.

4.3.2.4 Contracts. At the request of ANTHC and to the extent feasible, IHS will facilitate and or manage contractual relationships between ANTHC and IHS or other Federal contractors and/or vendors.

4.3.2.5 Inter-Agency Service Agreements and Other Agreements. The IHS and ANTHC will work together to determine which of the inter-agency service agreement,

collaborative agreement or other instruments memorializing an understanding or agreement to which the Alaska Area Office is a party (except those provided for under section 4.3.2.4 [Contracts]) should be continued by the IHS and which should be renegotiated directly by ANTHC. To the greatest extent feasible, ANTHC will undertake to enter into direct relationships with the other parties to these agreements. Until such time as this can occur, the IHS will continue such agreements for the benefit of the Alaska Area, including ANTHC.

4.4 Headquarters' Allocations to Area. IHS Headquarters shall allocate all funds (including, but not limited to, self-governance shortfall funds, funds for national or statewide costs assessed by IHS Headquarters, training funds, and funds provided by other federal agencies or contributors) to the Alaska Area on the same basis as similar funds are distributed to other Area Offices nationally. The Area Office shall notify ANTHC of the availability of any such funding. Except for advices or distributions of funds to other Co-signers of the Compact or Title I contractors, the notice shall identify the distribution methodology that the Area Office proposes to use to distribute the funds and shall include copies of the advices of allowances to the Area Office. Methodology for distribution of funds under this subsection by the IHS Area Office associated with the performance of residual and transitional Area Office PSFAs shall be determined in consultation with ANTHC.

4.5 Base Budgets.[20]

4.5.1 Categories and Base Year. At the end of the first period of the base budget option, the IHS and Co-Signers agreed to extend the three year (FY 98 - FY 2000) base budgets implemented for the Compact for an additional two years (FY 2001- FY 2002). IHS and ANTHC have subsequently agreed to additional extensions through FY 2015. The IHS and Co-Signers have agreed to further extend the base budget period at ANTHC's option. The following categories are subject to base budgeting for the base year period and the period, as noted below:

Category of Funding	Base Period for Base Funding	Extended through:
Headquarters TSA amounts[21]	FY 97	FY 2018

20/ ANTHC did not have a Funding Agreement in the year in which the base budget year was established and, as a result of the methodology for distribution of Headquarters and Area tribal shares adopted by the Co-Signers to the Compact, ANTHC is not directly entitled to receive any funds designated as Headquarters Tribal Size Adjusted or Area Tribal Shares. ANTHC does receive Area Tribal Shares from the Area that were restricted by or retained from other Co-Signers or for Title I eligible tribes. *See also* Footnote 15 to section 4.1.1 [Funding Amounts; Generally] (regarding Area Tribal Shares). ANTHC is eligible for Headquarters Program Formula tribal share, including equipment replacement funds, to the same extent as other tribes and tribal organizations.

Equipment Replacement Funding	Not Included	N/A
Area Tribal Share	Not Included	N/A

4.5.2 Adjustments. Adjustments to base funding shall be permitted in direct proportion to changes in appropriated amounts (by sub-activity), as provided under section 6.1 [Adjustments; Due to Congressional Actions]. Adjustments shall also be permitted for the addition of new co-signers to the Compact and when current Co-signers add or retrocede PSFAs, as provided in section 11.3 [Due Addition of New Programs].[22] Adjustments also shall be permitted when Co-signer(s) chooses to restrict or unrestrict previously "restricted" or "unrestricted" categories, provided that restrictions shall be changed only during annual negotiations. ANTHC also shall be eligible for funding for new services, service increases, mandatories, specific Congressional appropriation for population growth, health services priority system, contract support costs and other increases in resources on the same basis as all other tribes or Area offices. To the extent permitted by law, adjustments for changes required when a tribe joins or withdraws from a tribal consortium shall also be permitted, as provided under section 6.2 [Adjustments; Proposals by Authorizing Tribes]. Co-Signers shall also remain eligible for the distribution of additional tribal shares for Assessments, Workers Compensation, Emergency Reserve, Management Initiatives, and other PSFAs from Headquarters.

Section 5 — Method of Payment.

5.1 Payment Schedule. Except as provided in sections 5.2 [Availability of Tribal Shares], 5.3 [Buyback/Withholding] and 5.4 [Periodic Payments], all funds identified in section 4 [Amounts Available During Term of Funding Agreement] of this Funding Agreement shall be paid to ANTHC, in accordance with Article II, Section 4(a) [Payment Schedule] of the Compact; payment to ANTHC to be made as follows:

> One annual payment in lump sum to be made annually in advance by check or wire transfer, including OEH&E Sanitation Facilities Construction funds for approved projects, except as provided in section 4.1 [Funding Amounts] of this Funding Agreement.

5.2 Availability of Tribal Shares. ANTHC will be paid 100 percent of Headquarters and Area Tribal Shares in its initial lump sum payment, as negotiated in this Funding Agreement.

21/ Compact base budgets for TSA amounts shall be considered as a whole (entire Compact amount) and shall be subject to adjustment of the internal allocation subject to Compact Funding Agreements.

22/ This includes addition of new facilities when the addition of these facilities includes an increase in equipment funds identified for the new facilities.

5.3 Buyback/Withholding.[23] ANTHC may carry out its responsibility to provide certain PSFAs included in this Funding Agreement by using services or other resources of the Federal government under Article V, Section 22 [Purchases from the IHS] of the Compact, as permitted by law. Except as provided herein, the cost of such services and the terms under which they may be made available to ANTHC are set forth in the Appendix D, "Buyback/Withhold Agreement between the IHS and ANTHC (Buyback/Withhold Agreement)", which is attached as Appendix D to this Funding Agreement and incorporated by reference herein. The administrative surcharge provided for in Section 2.2.4 of the Buyback/Withhold Agreement for FY 2011 shall be .285 percent. Notwithstanding Section 5 of the Buyback/Withhold Agreement, upon the request of the IHS or any Co-Signer, such Agreement will be negotiated for future fiscal years annually during negotiation of this Funding Agreement.

5.4 Periodic Payments. Payment of funds otherwise due to ANTHC under this Agreement, which are added or identified after the initial payment is made, shall be made promptly upon request of ANTHC by check or wire transfer.

Section 6 — Adjustments.

6.1 Due to Congressional Actions. The parties to this Funding Agreement recognize that the total amount of the funding in this Funding Agreement is subject to adjustment due to Congressional action in appropriations Acts or other law affecting availability of funds to the IHS and Health and Human Services. Upon enactment of any such Act or law, the amount of funding provided to ANTHC in this Funding Agreement shall be adjusted as necessary, after ANTHC has been notified of such pending action and subject to any rights which the Co-Signer may have under this Funding Agreement, the Compact, or the law.

6.2 Proposals by Authorizing Tribes. Should any Tribe assume responsibility for PSFAs, (or portions thereof) under a contract or Funding Agreement pursuant to the Act, adjustment to funding amounts and responsibilities of ANTHC under this Funding Agreement will be negotiated.

Section 7 — Records.

7.1 Incorporation of the Privacy Act. Pursuant to Section 506(d)(1) of Title V, records acquired, generated or maintained by ANTHC shall not be treated as Federal records under chapter 5 of title 5 of the United States code, except that

7.1.1 patient medical records, financial records and personnel records may be disclosed only in accordance with 5 U.S.C. § 552a(b); and

---

23/ The surcharge provisions of Appendix D – Buyback/Withhold Agreement entered into pursuant to this section 5.3 [Buyback/Withholding] apply only to IPA/MOAs. *See* Appendix A – Financial Summary for detail about withhold amounts. Under section 13 [Regional Supply Service Center], no surcharges will be charged for activities of the Regional Supply Service Center.

7.1.2 pursuant to Section 105(o) of Title I, the medical records generated by ANTHC shall, at the option of ANTHC be stored with the National Archives and Records Administration, and ANTHC shall have access to such records.

7.2 Confidentiality Standards. ANTHC will seek to comply with the Administrative Simplification provisions of the Health Insurance Portability and Accountability Act of 1996 (HIPAA), including, but not limited to, privacy, security, transactions, and code set regulations, codified at 45 C.F.R. Parts 160, 162 and 164. If a record is not subject to HIPAA, ANTHC will maintain the confidentiality of its records in accordance with policies and procedures adopted by its Governing Body, which will be consistent with the purposes and guidelines of HIPAA and the Federal Privacy Act of 1974.

Section 8 — Program Rules. ANTHC will make a best effort to carry out the health PSFAs in this Agreement in compliance only with:

> The Joint Commission Standards for Hospitals and Ambulatory Care Facilities, as applicable, Standards and Procedures adopted by the IHS Community Health Aid Program Certification Board, and policies and procedures adopted by the ANTHC Board.

Except as specifically set forth in this section, pursuant to Section 517(e) of Title V, ANTHC does not agree to be subject to any agency circular, policy, manual, guidance or rule adopted by the IHS, except for the eligibility provisions of Section 105(g) and the regulations promulgated under Section 517 of Title V, unless otherwise waived.

Section 9 — Discontinuance. ANTHC may discontinue its participation in the Compact after written notice to the IHS, all federally recognized tribes in Alaska, and all tribes and tribal organizations operating health programs in Alaska under the Act. Notice must be provided one year in advance of the effective date of the request except that the effective date of a request may be less than one year upon approval of the ANTHC Board of Directors and the IHS.

Section 10 — Consolidation of Contracts and Previous Annual Funding Agreements. The contract listed below shall be amended or terminated, as appropriate, to transfer applicable contract funds into this Funding Agreement for programs, services, functions, activities, materials, and facilities provided to ANTHC:

> Contract: No. 243-98-6040.

Section 11 — Amendment or Modification of this Agreement.

11.1 Form of Amendments. Except as otherwise provided by this Agreement, the Compact, or by law, any modifications of this Funding Agreement shall be in the form of a written amendment and shall require written consent of each of the signatory Tribes, acting directly or through ANTHC as authorized by resolution, the Alaska Native Tribal Health Consortium and the United States. Participation or written consent of Tribes and Co-Signers not subject to the terms of this Funding Agreement shall not be required.

11.2 Services from IHS. Should ANTHC determine that it wishes the IHS to provide programs, services, functions or activities included in this Funding Agreement for which funding has been identified but not provided, and to the extent permitted by law, the parties shall negotiate an amendment to the Funding Agreement to reflect the transfer of responsibilities from ANTHC back to the IHS and the pro-rata share of funding for that PSFA shall be retained by the IHS. Unless otherwise negotiated, IHS will not transfer centrally paid expenses including but not limited to Workers Compensation to any Co-Signer.

11.3 Due to Addition of New Programs. Should ANTHC determine that it wishes to provide a program, function, service or activity of the IHS not included in this Funding Agreement, ANTHC shall submit a proposal to the IHS to provide such program, function, service, or activity. The parties agree to negotiate such a proposal and, should the parties fail to reach agreement, ANTHC may submit a final offer in accordance with Title V procedures set forth in Section 507(b)-(d) of Title V. A proposal submitted pursuant to this section shall be treated as a request for amendment to the Funding Agreement and, once approved by the IHS, the Alaska Area Office shall prepare within 30 days an amendment to this Funding Agreement and the amendment shall be executed through the Area Office and added to this Funding Agreement.

11.4 Due to Availability of Additional Funding. ANTHC shall be eligible for any increases in funding or funding for Medicaid, Medicare, maintenance and improvement, other reimbursements and new programs for which it would have been eligible had it been administering programs under a self-determination contract, rather than under the Compact and this Funding Agreement, and for any other funds that are not restricted by appropriations language for which any Alaska Tribe or tribal organizations may be eligible, including any new funds appropriated for IHS Headquarters and funds passed to Alaska Area as recurring or non-recurring funds, and this Funding Agreement shall be amended to provide for timely payment of such new funds to ANTHC. Such amendment shall be originated and prepared within 30 days by the Alaska Area Office and executed through the Area Office in consultation with ANTHC.

11.5 Other Adjustments. Upon written authorization by ANTHC and agreed to by the IHS, the IHS may reallocate funds retained by the IHS, which are obligated to ANTHC for the purpose of reimbursing the IHS for services or equipment provided to ANTHC, to assist ANTHC in carrying out the terms of the Compact and this Funding Agreement.

11.6 General Procedures for Amending or Modifying this Agreement. Amendments or modification proposed by ANTHC shall be submitted in writing to the IHS, Alaska Area Director with a copy to the Office of Tribal Self-Governance at IHS Headquarters. Except as provided with respect to the incorporation of a provision of Title I of the Act under Article V, Section 21 [Applicability of Title I Provisions] of the Compact, or as provided above sections 11.4 [Due to Availability of Additional Funding] and 11.7 [Funding Increases], a request submitted by ANTHC to amend or modify this Funding Agreement shall be processed in accordance with Sections 507(b)-(d) of Title V of the Act, and all provisions of those identified subsections are incorporated herein for this purpose.

11.7 Funding Increases.

11.7.1 Written consent of ANTHC shall only be required for issuing amendments for those funds which:

11.7.1.1 require a change to section 3 [Tribal Programs and Budget];
11.7.1.2 require a specific commitment by ANTHC (e.g. Maintenance & Improvement projects and Sanitation Facility Construction projects); or
11.7.1.3 reduce funding other than changes in Congressional appropriations pursuant to section 6.1 [Adjustments; Due to Congressional Actions].

11.7.2 Amendments not requiring written consent may include, but are not limited to:

11.7.2.1 Program/Area/HQ Mandatories;
11.7.2.2 Program/Area/HQ End-of-Year Distributions;
11.7.2.3 CHEF, subject to the condition that if a case initially qualifying for reimbursement is paid (in whole or in part) by an alternate resource or cancels for any reason, ANTHC will return the unused amount to the IHS CHEF account;
11.7.2.4 Contract Health Services Deferred Services;
11.7.2.5 Routine Maintenance & Improvement; or
11.7.2.6 Collections and reimbursements.

11.7.3 Amendments reflecting payment of these funds shall be provided to ANTHC after any such funds are added to the Funding Agreement. ANTHC retains the right to reject the addition of such funds to the Funding Agreement and return the funds to the IHS.

Section 12 — Third Party Recoveries. Any funds recovered by ANTHC through the filing, litigating, or settling a claim against a third party to require that third party to pay for services previously provided to IHS-eligible beneficiaries by ANTHC, or for such services previously provided by the IHS in a PSFA now operated by ANTHC, shall be the property of ANTHC and shall be considered program income to be utilized by ANTHC as provided in Article III, Section 7 [Program Income] of the Compact. Any prospective recovery of funds for such services shall likewise be considered program income to be utilized pursuant to Article III, Section 7 [Program Income] of the Compact.

Section 13 — Regional Supply Service Center.

13.1 Generally. ANTHC will operate the Regional Supply Service Center and ANMC materiel management, including pharmaceutical acquisition and disposal, with the IHS support, as described in section 13.2 [IHS Accounting and Procurement Support].

13.2 IHS Accounting and Procurement Support.

13.2.1 Except as provided in sections 13.2.2 and 13.2.3, ANTHC shall assume responsibility of all aspects of the Regional Supply Service Center. This includes ordering, stocking, picking, assembling and shipping all field orders, maintaining necessary inventories by preparation of supply orders, assisting with prime vendor orders, and management of Regional

Supply Service Center personnel, facilities, equipment, and stock inventories and ANMC materiel management, including pharmaceutical acquisition and disposal.

13.2.2 IHS will continue to assist ANTHC in acquiring pharmaceuticals from the Veteran's Administration Prime Vendor for ANTHC. The IHS will not order, or be responsible for payment for, any other materiel required by the Regional Supply Service Center or ANMC. Requisitions for pharmaceutical acquisitions will be prepared by ANTHC in the United Financial Management System ("UFMS") for certification by IHS. Requisitions for pharmaceuticals placed in the Veteran's Administration Prime Vendor's electronic ordering system will be transmitted to the Veteran's Administration Prime Vendor by a Federal contracting officer. ANTHC guarantees that orders to the Veteran's Administration Prime Vendor are identical to UFMS requisitions. ANTHC will match bills from the Veteran's Administration Prime Vendor with UFMS documents. IHS will sample audit this process and make payment.

13.2.3 ANTHC will continue to operate the Regional Supply Service Center without significant reductions in service, unless a phase out plan that calls for reductions is approved by the Compact Co-Signers and other major Regional Supply Service Center users.

Section 14 — Agreements with Tribes and Tribal Organizations. Funds provided under this Funding Agreement or at the direction of IHS may be allocated to and expended by an Alaska Native Village (Village) or tribal organization in accordance with the terms of the Compact, this Funding Agreement, an agreement approved by ANTHC and the Village or tribal organization, and Section 325 of P.L. 105-83, including those entered into under Attachment 5 to the FY 99 AFA, the Cooperative Agreement for FY 99 Staffing Package Funds for Rural Anchorage Service Unit between the Alaska Native Tribal Health Consortium and Southcentral Foundation (Staffing Package Agreement). The Federal Tort Claims Act shall apply to PSFAs carried out by the Village or tribal organization under such agreement and to the Village or tribal organization and its employees to the same extent as if they had been carried out directly by ANTHC, if the Village or tribal organization would have met the criteria of 25 C.F.R. § 900.181, but for the limitations on contracting imposed by Sections 325 and 326 of P.L. 105-83 or similar restrictions adopted in subsequent Congressional legislation. ANTHC agrees to be responsible for assuring that the language of any such agreement with a Village or tribal organization shall be consistent with the Compact, this Funding Agreement and the Act. Such an agreement may include provisions for the assignment of federal employees under IPA assignment or Commissioned Corps detail. Such assignments shall be subject to the approval of the AANHS Director.

Section 15 — Service to Non-Beneficiaries. Section 813 of the Indian Health Care Improvement Act, as amended, 25 U.S.C. § 1680c, (section 813), authorizes the governing body of a Tribal Organization carrying out health services of the IHS under the Indian Self-Determination and Education Assistance Act to determine whether health services should be provided under the Tribal Organization's funding agreement with the IHS "to individuals who are not eligible for such health services under any other subsection of this section or under any other provision of law." 25 U.S.C. § 1680c(b)(1)(B). The ANTHC Board of Directors has made such determinations consistent with section 813, and provides for its findings in Resolutions No. 10-13, adopted September 8, 2010, and attached as Appendix B-3; and No. 10-17 and 10-18, adopted December 3, 2010, and attached as Appendices B-4 and B-5, respectively. These

Resolutions and are incorporated by reference herein. ANTHC may provide services under this Funding Agreement as described in Resolutions No, 10-13, 10-17, and 10-18. In addition services may be provided to U.S. Public Health Service Commissioned Corps Officers and their dependents and as provided for under the Alaska Federal Health Care Partnership, in accordance with Section 325 of Pub. L. 105-83.

Section 16 – Access to and Use of the Fiscal Intermediary.

16.1 Generally. ANTHC is authorized to utilize the services of the IHS Fiscal Intermediary. ANTHC and the IHS have identified areas of common interest which bear upon this authority including economies of scale, identification of alternate funding resources, managed care activities, and the maximization of purchasing power. The ability to use the Fiscal Intermediary will greatly enhance ANTHC's medical purchasing power. In addition, by including the ANTHC workload in the utilization of the Fiscal Intermediary, the IHS gains stronger purchasing power with medical providers and the Fiscal Intermediary and gains access to the ANTHC referral database. Further, ANTHC's use of the Fiscal Intermediary may also serve as a model for other tribes or tribal organizations which may wish to utilize the IHS's Fiscal Intermediary contract.

16.2 ANTHC Responsibilities. ANTHC will pay for the cost of utilizing the Fiscal Intermediary contract by continuing to leave its fiscal intermediary contract-related tribal shares with the IHS. The annual value of ANTHC's Fiscal Intermediary tribal shares when initially calculated in FY 2000 was $45,847.[24]

The IHS will not seek any additional fee or reimbursement for ANTHC's future use of the Fiscal Intermediary unless it can be demonstrated that ANTHC is requesting the Fiscal Intermediary to process at least 10 percent more claims annually than when the IHS last managed the contract health services program at the ANMC. If the annual claim volume exceeds the demonstrated FY98 ANMC claim volume by 10 percent or more, ANTHC will reimburse the IHS on an actual cost per claim basis for the number of claims in excess of the 10 percent at the end of each fiscal year. The cost will be determined by dividing the published annual Fiscal Intermediary contract cost by the total volume of claims covered by the IHS/Fiscal Intermediary contract for the year in question. The processing year will be for claims processed from October 1st of a given year through the following eighteen (18) months (March 31st of the second year following).

24/ The value of tribal shares related to the Fiscal Intermediary was determined for FY 2000 by first dividing the total annual cost of the Fiscal Intermediary (approximately $6 million) by the total volume of all IHS claims processed by the Fiscal Intermediary during FY 1993. Then to determine each tribe's and tribal organization's share of the Fiscal Intermediary, the resultant cost per claim was multiplied by number of claims processed on behalf of each entity in FY 1993. This calculation determined ANMC use of the Fiscal Intermediary to have a value of $45,847 for FY 2000. ANTHC, as the tribal organization which now manages the programs of the ANMC, thus for FY 2000 had a Fiscal Intermediary related tribal share of the Fiscal Intermediary of $45,847. The value of tribal shares attributable to ANMC has not been updated by IHS since FY 2000.

ANTHC will maintain a bank account for the Fiscal Intermediary to pay provider claims against and ensure funds are available to cover payments. Conditions for this bank account are contained in a Memorandum of Understanding (MOU) between ANTHC and the Fiscal Intermediary. A copy of the current MOU will be provided to the IHS for informational purposes only. Under the conditions contained in the MOU, ANTHC will submit claims for payment to the Fiscal Intermediary.

ANTHC is responsible for payment of all services authorized and/or ordered by ANTHC, its officials and its employees through ANTHC "purchase/delivery orders" or any other means. The IHS bears no financial responsibility other than described in this subsection 16.2 [ANTHC Responsibilities]. Except for making available to ANTHC the unused portion of ANTHC's tribal shares in support of the Fiscal Intermediary, the IHS bears no legal obligation for any failure by the Fiscal Intermediary to provide services to ANTHC.

ANTHC will assist the Fiscal Intermediary as needed in regard to provider and payment issues of interest to ANTHC or the Fiscal Intermediary. ANTHC has established a point of contact to act as the representative for ANTHC to ensure compliance with the responsibilities described in this subsection. The ANTHC point of contact is Director, Contract Health Services, ANTHC.

16.3 IHS Responsibilities. The IHS will allow ANTHC to utilize the Fiscal Intermediary services as further defined and described in the MOU between ANTHC and the Fiscal Intermediary. The IHS will assist in the effective and efficient implementation of all aspects of ANTHC's use of the Fiscal Intermediary, and will work with ANTHC and the Fiscal Intermediary to resolve provider payment issues related to services authorized by ANTHC.

The IHS will ensure that Fiscal Intermediary services are provided to ANTHC in consideration for the tribal shares retained by the IHS for such services. The IHS has established a point of contact who will act as the representative of the IHS to monitor compliance with the responsibilities described in this subsection. The IHS point of contact is IHS Fiscal Intermediary Project Officer, Division of Contract Care, IHS.

Section 17 — Memorializing Disputes. The parties to this Funding Agreement may have failed to reach agreement on certain matters which remain unresolved and in dispute. Such matters may be addressed through the process set forth in Sections 507(b)-(d) of Title V, or at ANTHC's option, may be set forth in an attachment to this Funding Agreement, which shall be identified as "Memorialization of Matters Remaining in Dispute." This attachment shall not be considered a part of this Funding Agreement, but is attached for the purpose of recording matters in dispute for future reference, discussion and resolution as appropriate. ANTHC does not waive any remedy it may have under the law with regard to these issues and any others not listed herein.

Section 18 — Title I Provisions Applicable to This Funding Agreement. As authorized in 25 U.S.C. § 458aaa-15(b), ANTHC exercises its option to include the following provisions of Title I of the Act as part of this Funding Agreement, and these provisions shall have the force and effect as if they were set out full in Title V of the Act.

18.1 25 U.S.C. § 450b(e) (definition of "Indian Tribe");
18.2 25 U.S.C. § 450h(b) (related to grants for health facility construction and planning, training and evaluation);
18.3 25 U.S.C. § 450h(d)(1) (related to duty of IHS to provide technical assistance);
18.4 25 U.S.C. § 450k(b) (conflicting provisions of law);
18.5 25 U.S.C. § 450*l*(c), section 1(b)(8)(F) (screener identification);
18.6 25 U.S.C. § 450*l*(c), section 1(b)(9) (availability of funds);
18.7 25 U.S.C. § 450*l*(c), section 1(d)(1)(B) (construction of contract); and
18.8 25 U.S.C. § 450*l*(c), section 1(d)(2) (good faith).

Section 19 — Severability. This Funding Agreement shall not be considered invalid, void or voidable if any section or provision of this Funding Agreement is found to be invalid, unlawful or unenforceable by a court of competent jurisdiction. Should such a court make such a finding, the parties will seek agreement to amend, revise, or delete any such invalid, unlawful or unenforceable sections or provision, in accordance with the provisions of the Compact.

Section 20 — Interpretation. This document is subject to and shall be interpreted in light of Section 325 of P.L. 105-83. In addition, Appendices A – Financial Summary, C – Continuing Service Agreement, F – DSFC Assumption June 18, 1999, G – Transitional Staffing Plan and L – Federal Contracts to this Funding Agreement and Appendix D to the FY 99 AFA, "Alaska Area Budget Detail, September 16, 1998," shall be relied upon in determining matters regarding who was responsible to perform particular PSFAs, whether a responsibility is an inherent federal responsibility, and how much funding was to be associated with inherent federal functions, transitional PSFAs and ANTHC PSFAs.

Section 21 — Related Agreements. SCF and ANTHC entered into certain reciprocal health services agreements under which the parties have agreed on a plan to manage ANMC. SCF and ANTHC also entered into agreements on redistribution of ANMC resources from all sources including funding from the IHS and third-party revenue. These health services agreements and the revenue sharing agreement by the parties are authorized by Section 325 of Pub. L. 105-83 and the programs provided therein are subject to the provisions of sections 3.3 [Non-IHS Funding] and 14 [Agreements with Tribes and Tribal Organizations] of this Funding Agreement for the purposes of FTCA coverage. The agreements and their amendments, identified in the Table below may be used for informational purposes and to indicate the IHS's acknowledgment of the same.[25]

	Agreement	Effective Date	Attached to:
Attachment 2	Health Services Purchase Agreement I between the Alaska Native Tribal Health Consortium and Southcentral Foundation for Services at Alaska Native Medical Center" ("SCF purchases from ANTHC")	January 1, 1999	FY 99 2nd AFA

The IHS is not a party to these agreements and does not assume any responsibility for enforcement of the same, except to the extent that such enforcement may be required by operation of Section 325 of P.L. 105-83, relevant provisions of the Act or other applicable law or regulation. IHS acknowledges that the "Memorandum of Agreement between the Alaska Native Tribal Health Consortium and the Southcentral Foundation regarding Revenue Sharing" and amendments thereto were entered into in order to implement the requirements of P.L. 105-83 and the intent of Congress that there be "a written agreement governing distribution of statewide third party reimbursement designed to ensure the continued financial stability of the Alaska Native Medical Center." Wherever in this Funding Agreement references are made to the documents listed in this section, the use of such documents shall be subject to the limitations of this section.

Section 22 — Effective Date and Duration. This Funding Agreement shall become effective on October 1, 2015, and remain in effect through the 2018 Federal Fiscal Year or until a successor agreement is negotiated and becomes effective pursuant to Article II, Section 12 [Subsequent Funding Agreements] of the Compact.

Appendix A-4

Financial Summary Tribal Shares Funding Agreement, FY 2019

Alaska Native Tribal Health Consortium

Appendix A - Financial Summary Tribal Shares Funding Agreement - FY 2019

Tribal Share Summary Alaska Native Tribal Health Consortium	FY 2019 Negotiated Amount	ANTHC Restricted	Total Due ANTHC	Initial Lump Sum Payment
Area TS Amount	$387,619	0	$387,619	$387,619
Restricted TS from co-signers to ANTHC	$459,635		$459,635	$459,635
Subtotal Area TS Amount	$847,255	0	$847,255	$847,255
Headquarters TSA Amount	$0	$0	$0	$0
Headquarters Other Program Formula (OEHE)	$485,901	$366,010	$119,891	$119,891
Subtotal Headquarters TS amounts	$485,901	$366,010	$119,891	$119,891
Total Tribal Shares	$1,333,156	$366,010	$967,146	$967,146

Driving Variables Alaska Native Tribal Health Consortium	FY 2019
Population (2010 Census AN/AI population)	0
Tribes (Federally Recognized Tribes)	0
Recurring Base - FY 2013 (less VBC)	$0
Percentage of Total Area TS (of all Alaska Tribes)	2.87862%
Percentage of ATHC (of all Title V Alaska Tribes)	0.00000%
Number of MOA employees	95
Number of IPA employees	63

Individually Restricted Items Alaska Native Tribal Health Consortium	FY 2019
Area Office (Individual Restricted Only)	
Supply Service Center	NO
Emergency Medical Services	NO
Village Clinic Leasing Management	YES
Headquarters (ATHC Restricted Only)	
ACOG	YES
OIT - Negotiated Alaska Plan	YES
Clinical Sup. Ctr. (Inc. CME Cert.)	YES

General Notes on Alaska Area Office Tribal Shares

Column 1 - Includes all FY17 changes allocated to TS, Residual, & Transitional as of FY17. In FY 2019 TS changes will be added as received.

Column 2 - Residual includes no changes in residual functions. Based on FY2018 Area approved residual budgets.

Remaining funds at 9/30 distributed (Non-Recurring) to all Alaska Area health programs based on recurring base.

Column 3 - Transitional funds agreed by co-signers to remain at Area Office. Based on FY2018 approved transitional budget.

Column 4 - Restricted by all co-signers & transferred to the ANTHC to provide "Area PSFAs" .

Column 5 - Includes Area TS for all Alaska Tribes, including Title I & Title V. FY19 mandatories to be added if received.

Column 6 - Available Tribal shares for Co-Signer (amounts for ANTHC include pass-through to awardees with shares captured by Sec. 325).

Distributed by the approved ATHC methodology of - 30% # of Tribes / 35% 2010 Census Pop. / 35% 2013 Rec. Base (less VBC).

All Area TS for Services line items will be recurring, Area TS for Facilities will be non recurring.

Column 7 - Items restricted by individual co-signer to pay for continued services from ANTHC. (Restricted amounts are added to ANTHC FA.)

Column 8 - The agreed upon amount due (col. 6 - col. 7) to the co-signer after all retained shares are withheld.

Line 1 - All TS funds for non-OEHE Area Office PSFAs except where co-signers have individually decided to retain certain PSFAs at the ANTHC or AANHS.

Line 5 - Lease on Inuit Building.

Line 5a - $20,000 (less sequester) from transitional funding held by IHS to rent space for annual negotiations. Funds transferred to ANTHC upon confirmation of space avai

Line 7 - Centrally paid expenses, including personnel & finance support for Area positions, costs & funds for departmental assessments.

Line 8 - Area Human Resources functions (previously Office of Personnel & Training).

Line 9 - Funding originally from ANMC - have all been returned to SCF/ANTHC as IPA/MOAs were reduced.

Line 10 - Includes funding for Area PSFAs transferred to ANTHC under Section 325.

Line 11 - Funds to ANTHC to support the statewide Contract Health Services reserve program.

Line 12 - Funds to ANTHC to support specialized services in Barrow, NSHC, & BBAHC & certain statewide laboratory contracts.

Line 13 - ANHB funds from Loc 77 including previous tobacco prevention funding.

Line 14 - Supply Service Center individually withheld amounts retained for ANTHC for all co-signers except YKHC, Seldovia, & Eklutna.

Line 15 - Funds distributed to support the Epidemiology Center distributed to co-signers for individual payment to ANTHC.

Line 16 - Funds for EMS training. Retained by IHS for transfer to ANTHC for Maniilaq, BBAHC, & Chugachmiut for EMS training at ANMC.

Line 18 - Does not include funds from surcharge, assessments, or other services purchased through Area Office.

Line 22 - Funds retained for ANTHC for all co-signers except YKHC, SCF, & KIC.

Line 24 - Does not include NR SFC funds for Health Facilities design and construction oversight.

Column 1 - All numbers are based on HQ PFSAs for FY19 Table #4 dated 9/14/18
Column 2 - All numbers are based on HQ PFSAs for FY19 Table #4 dated 9/14/18

Column 3 - Individual Co-Signer share of column 2.
Column 4 - Co-Signer amounts left with (retained by) IHS to provide service- If service is not available IHS shall pay to each Co-Signer amount provided.
Column 5 - This column (col. 3 - col. 4) is the HQ. TS funds due to Co-Signer, calculated by Alaska TSA formula.
All Headquarters Tribal Shares shall be recurring except for Facilities (lines 2401 -2405) and funds in lines 101 and 105.
Line 101 - Any funds remaining will be distributed non recurring on 9/30 (from HQ by TSA formula) and to each Co-Signer on ATHC distribution method.
Line 105 - Any funds remaining will be distributed non recurring on 9/30 (from HQ by TSA formula) and to each Co-Signer on ATHC distribution method.
Line 106 - All Alaska Co-Signers restricted all funds to continued advanced OB training opportunities for all Alaska Area physicians.
Line 120 -Alaska Co-Signers restricted a total of $31,000 dollars for the clinical support center for CME certification and "IHS Provider" magazine.
Line 124 - BBAHC, EAT, Chugachmiut, Eyak, and Maniilaq retrocede 50% of line 124 to IHS in exchange for use of recruitment website ihs.gov/jobs.
Line 126, 137 -DIR withheld were computed at 27.8% of each Co-Signer on ATHC proposal. See Section 1 of the Funding Agreement.
Line 0154 New line for Prescription Drug monitoring. Full share included in co-signers TS.
Line 201 - Dental Program - approximately $800,000 transferred to line 1302 in Direct Ops Dental. No impact on TS.
Line 1301a - DIR Withheld was computed at 21.1% of each Co-Signer share based on continuing agreements with Dir. DIR.
Linr 1302 - Direct Ops Dental transferred from line 201.
Lines 2401-2405 - Funds available for OEHE support functions (from table 4f) provided based on national formula at tribal option.

Footnotes:

Column 1- Initial withhold for IPA/MOA and VBC is 4 months (3 months deposit and October adv. payment); for all other costs, 2 montl

Column 2 - IPA/MOA Centrally Paid Expenses are estimated at $588 for each IPA and $5,293.74 for each MOA.

Employee Dispute Pool Costs are no longer charged in advance (*see* Section 2.3.2.3 of Buyback Agreement).

These charges will be reconciled to actual cost per employee as incurred by the Service and Supply fund for CPE expenses.

Column 3 - Surcharge for all Co-Signers using buyback is .285%

Appendix B-7:

Resolution No. 17-05 regarding Delivery of Health Services to Individuals Who Are Not Otherwise Eligible For Services from the Indian Health Service

ALASKA NATIVE TRIBAL HEALTH CONSORTIUM
BOARD OF DIRECTORS
Resolution No. 17-05

TITLE: DELIVERY OF HEALTH SERVICES TO INDIVIDUALS WHO ARE NOT OTHERWISE ELIGIBLE FOR SERVICES FROM THE INDIAN HEALTH SERVICE

WHEREAS, the Alaska Native Tribal Health Consortium ("ANTHC") is a Tribal Organization established by Alaska tribes and tribal organizations pursuant to Section 325 of Public Law 105-83 ("Section 325"); and

WHEREAS, ANTHC is a Co-Signer to the Alaska Tribal Health Compact under Title V of the Indian Self-Determination and Education Assistance Act, Public Law 93-638, as amended ("ISDEAA"); and

WHEREAS, pursuant to Section 325, ISDEAA, the Alaska Tribal Health Compact and the funding agreements with the Department of Health and Human Services and the Indian Health Service (collectively "IHS"), the Snyder Act, the Indian Health Care Improvement Act, and other authorizing legislation, ANTHC co-manages the Alaska Native Medical Center ("ANMC") with Southcentral Foundation, and provides statewide services and other programs, services, functions, and activities ("PSFAs") of the IHS; and

WHEREAS, as authorized by ISDEAA, 25 USC § 5286(e), ANTHC has redesigned, consolidated and reallocated funding for certain PFSAs in the manner it deems to be in the best interest of the health and welfare of the Native communities it serves; and

WHEREAS, Section 813 of the Indian Health Care Improvement Act, as amended ("Section 813"), authorizes the governing body of a Tribal Organization carrying out PSFAs of the IHS under ISDEAA to determine whether health services should be provided under the Tribal Organization's funding agreement with the IHS "to individuals who are not eligible for such health services under any other subsection of this section or under any other provision of law" ("non-beneficiaries"); and

WHEREAS, Section 813 provides that in making such a determination, the governing body of the Tribal Organization "shall take into account" whether the provision of health services to such individuals will result in the denial or diminution of health services to Alaska Natives or American Indians; and

WHEREAS, the Board of Directors has carefully taken into account the consideration identified in Section 813 regarding the denial or diminution of services to Alaska Natives and American Indians and has concluded that no denial or diminution will occur with respect to the services described in this Resolution; and

WHEREAS, ANTHC is a comprehensive provider of health services, including community, environmental and public health services, and field clinics, as well as support services to affiliated organizations and other providers who serve beneficiaries; and

WHEREAS, ANTHC manages a wide array of scarce resources, including specialized health resources and public health infrastructure, and coordinates with other providers and facilities, that may have scarce or specialized resources, to enhance access for beneficiaries and Native communities; and

WHEREAS, ANTHC co-manages ANMC, a comprehensive inpatient and outpatient facility and has a Level II Trauma Center, the highest level Trauma Center in the State, and administers other health facilities and programs; and

WHEREAS, non-beneficiaries are referred or transferred to ANMC or another ANTHC facility or program by other providers and facilities when they cannot provide the necessary services the non-beneficiary requires; and

WHEREAS, notwithstanding the presence of other hospitals and other providers in Alaska, providers refer non-beneficiaries to ANTHC programs, facilities and providers under circumstances where the referring provider has determined that the needs of the non-beneficiary require services provided by ANTHC; and

WHEREAS, when other hospitals, programs, facilities or providers lack the resources to provide necessary services, non-beneficiaries may be routed to ANMC or transferred from the other emergency rooms to the ANMC Emergency Department or another ANTHC facility; and

WHEREAS, ANTHC provides certain highly specialized services that may subject it to the requirements of the Emergency Medical Treatment and Labor Act to accept referrals from hospitals in other states, which could include non-beneficiaries; and

WHEREAS, non-beneficiaries, who are referred to or transferred to ANTHC facilities or providers, or who arrive at ANTHC facilities to alleviate emergency conditions, may require hospitalization or continued services until the course of treatment for the condition is completed; and

WHEREAS, ANTHC provides field clinics and other services at other sites, including at facilities and locations operated by affiliated organizations, including tribes or tribal organizations under an ISDEAA contract or compact or made available to them for the delivery of services and programs, and where the respective tribe or tribal organization has determined that services should be made available to non-beneficiaries; and

WHEREAS, when services that do not require the individual to leave a community (such as laboratory, radiology, telehealth, community health, sanitation, etc.), are provided incident to a service for, or otherwise needed by, a non-beneficiary living in a community served by ANTHC

or affiliated organization, ANTHC may be provide services to the non-beneficiary, including by relying on the same protocols that would have been followed had the individual been a beneficiary, to assure for follow-up and continuity of care and follow-up services; and

WHEREAS, ANTHC providers participate in continuing medical education and other activities to develop or maintain the clinical skills of themselves and other professionals at ANMC, other health facilities, and educational institutions, and in the course of participating in such activities they may provide services to non-beneficiaries; and

WHEREAS, ANTHC trains and supports other training and educational opportunities for current and prospective members of their workforces, including some non-beneficiaries, who may require services during the course of their training or education; and

WHEREAS, to increase beneficiary access to services, ANTHC provides individuals, families and organizations with services and support related to travel, lodging, escorts, care coordination, and logistics that may involve incidental support to non-beneficiaries; and

WHEREAS, non-beneficiaries make up a small percentage of the individuals receiving services from ANTHC, and the ANTHC Board of Directors has determined that providing such services to the extent described in this Resolution will not result in the denial or diminution of services to beneficiaries; and

WHEREAS, ANTHC has established billing and collection procedures to recover costs for the health services provided to non-beneficiaries; and

WHEREAS, ANTHC has entered into agreements to provide for payment for services offered to certain indigent non-beneficiaries as required by Section 813; and

WHEREAS, ANTHC has entered agreements that address collaboration, contributions, resource and cost-sharing, reimbursement, and reciprocal services with providers, facilities and affiliated organizations; and

WHEREAS, ANTHC utilizes non-service health care practitioners and conditions their clinical privileges on their provision of services to eligible individuals; and

WHEREAS, the ANTHC Board of Directors is the governing body of ANTHC; and

WHEREAS, the Board of Directors has determined that the conditions of Section 813 of the Indian Health Care Improvement Act, as amended, are satisfied; and

NOW, THEREFORE, BE IT RESOLVED, that the Board of Directors hereby determines that extending services to non-beneficiaries as provided in this Resolution will not result in denial or diminution of services to beneficiaries and that the conditions of Section 813 of the Indian Health Care Improvement Act are satisfied; and

BE IT FURTHER RESOLVED, that the Board of Directors of ANTHC authorizes the past, current, and continuing practice of extending services to non-beneficiaries, as provided in this Resolution; and

BE IT FURTHER RESOLVED, that the President, CEO, ANMC Administrator and their designees, are authorized and directed to limit or eliminate access to such health services by non-beneficiaries should provision of such services diminish the provision of health services to beneficiaries; and

BE IT FURTHER RESOLVED, that the Board of Directors directs the President, CEO and ANMC Administrator to establish and monitor metrics to track the ongoing impact of allowing non-beneficiaries access to ANTHC services, including those provided at ANMC, and report regularly to the Joint Operating Board and to this Board of Directors on the impact and the measures taken to ensure compliance with this Resolution; and

BE IT FURTHER RESOLVED, *that this Resolution supersedes and replaces Resolution No. 15-08 entitled "Delivery of Health Care Services to Individuals Not Otherwise Eligible for Services from the Indian Health Service" dated December 2, 2015; and*

BE IT FURTHER RESOLVED, *that this Resolution shall NOT supersede or replace, and shall supplement other ANTHC resolutions regarding services to non-beneficiaries, which remain in full force and effect.*

Resolution No. 17-06 regarding Delivery of Health Services to Non-Beneficiary Workforce Members and Dependents

ALASKA NATIVE TRIBAL HEALTH CONSORTIUM
BOARD OF DIRECTORS
Resolution No. 17-06

TITLE: DELIVERY OF HEALTH SERVICES TO NON-BENEFICIARY WORKFORCE MEMBERS AND DEPENDENTS

WHEREAS, the Alaska Native Tribal Health Consortium ("ANTHC") is a Tribal Organization established by Alaska tribes and tribal organizations pursuant to Section 325 of Public Law 105-83 ("Section 325"); and

WHEREAS, ANTHC is a Co-Signer to the Alaska Tribal Health Compact under Title V of the Indian Self-Determination and Education Assistance Act, Public Law 93-638, as amended ("ISDEAA"); and

WHEREAS, pursuant to Section 325, ISDEAA, the Alaska Tribal Health Compact, and the funding agreements with the Department of Health and Human Services and Indian Health Service (collectively "IHS"), the Snyder Act, the Indian Health Care Improvement Act, and other authorizing legislation, ANTHC co-manages the Alaska Native Medical Center ("ANMC") with Cook Inlet Regional Incorporated's ("CIRI") designee, Southcentral Foundation ("SCF"), and provides statewide services and other programs, services, functions, and activities ("PSFAs") of the IHS to Alaska Natives, American Indians and other eligible individuals; and

WHEREAS, as authorized by ISDEAA, 25 USC § 5286(e), ANTHC has redesigned, consolidated and reallocated funding for certain PFSAs in the manner it deems to be in the best interest of the health and welfare of the Native communities it serves; and

WHEREAS, ANTHC works closely with the IHS, other Co-Signers of the Compact, and affiliated organizations to carry out the Compact and funding agreements; and

WHEREAS, ANTHC and affiliated organizations employ or otherwise use individuals to carry out the PSFAs for which ANTHC has assumed responsibility under the Alaska Tribal Health Compact and its funding agreements; and

WHEREAS, ANTHC, ANMC, and affiliated organizations train and support other training and educational opportunities for current and prospective members of their workforce ("collectively workforce members"), who may require services during the course of their work, training or education; and

WHEREAS, some members of the workforce are not Alaska Native, American Indian, or otherwise eligible to receive health services at ANTHC and ANMC ("non-beneficiaries"); and

WHEREAS, several hundred non-beneficiary federal civil service employees and commissioned corps officers also work at ANTHC, ANMC, and affiliated organizations pursuant to agreements with the IHS and perform many of the same functions as employees; and

WHEREAS, ANTHC, ANMC, and affiliated organizations provide health services to workforce members and their dependents through commercial health care plans, the Federal Employee Health Benefits plan, and self-insured health care plans, including the Cook Inlet Region, Inc. Health and Welfare Trust; and

WHEREAS, ANTHC, ANMC, and affiliated organizations currently provide health services to non-beneficiary members of the workforce and their dependents at substantial cost; and

WHEREAS, ANTHC could use the revenue and cost savings generated by providing health services to non-beneficiary workforce members and their dependents to enhance services for Alaska Natives and American Indians; and

WHEREAS, allowing non-beneficiary workforce members and their dependents to access ANTHC services, including care provided at ANMC, would also benefit Alaska Natives and American Indians by decreasing lost work time for workforce members who require health services; providing additional opportunities for quality improvement because workforce members will be able to better assess the quality of care from a beneficiary's perspective and become more sensitive to areas in which improvements are needed; and substantially enhance the confidence of Alaska Natives and American Indians in the care they receive by demonstrating that workforce members of ANTHC and affiliated organizations trust in and rely upon the quality of ANTHC and ANMC services; and

WHEREAS, Section 813 of the Indian Health Care Improvement Act, as amended ("Section 813"), authorizes the governing body of a Tribal Organization carrying out PSFAs of the IHS under the Indian Self-Determination and Education Assistance Act to determine whether health services should be provided under the Tribal Organization's funding agreement with IHS "to individuals who are not eligible for such health services under any other subsection of this section or under any other provision of law"; and

WHEREAS, Section 813 provides that in making such a determination, the governing body of the Tribal Organization "shall take into account" whether the provision of health services to such individuals will result in the denial or diminution of health services to Alaska Natives or American Indians; and

WHEREAS, the additional non-beneficiary workforce members and their dependents would make up a small percentage of the patients receiving services at ANTHC and ANMC and would result in a relatively small increase in demand for services; and

WHEREAS, many tribal organizations have adopted resolutions authorizing services for members of their own workforce and dependents, and allowing them to receive ANTHC and ANMC services would promote quality and continuity of their care, while allowing ANTHC, ANMC, and affiliated organizations to achieve efficiencies and avoid creating duplicative processes to manage care and services; and

WHEREAS, the ANTHC Board of Directors is the governing body of ANTHC; and

WHEREAS, the Board of Directors has carefully reviewed the ability of Alaska Natives and American Indians to access ANTHC services, including specialty, emergency, and inpatient services at ANMC, and the impact of ongoing efforts to improve such access; and

WHEREAS, the anticipated increase in demand can be accommodated without resulting in a denial or diminution of services to Alaska Natives or American Indians; and

WHEREAS, after careful consideration, the Board of Directors has determined that providing ANTHC services to non-beneficiary members of the workforce and their dependents as described in this Resolution will not result in the denial or diminution of services to Alaska Natives or American Indians; and

WHEREAS, ANTHC continually monitors several metrics to track access to care; and

WHEREAS, ANTHC has established billing and collection procedures to recover the costs for the health services provided to non-beneficiaries; and

WHEREAS, the Board of Directors has determined that the conditions of Section 813 of the Indian Health Care Improvement Act, as amended, are satisfied for the health services described in this Resolution; and

NOW, THEREFORE, BE IT RESOLVED, that the Board of Directors hereby determines that extending services to non-beneficiaries as provided in this Resolution will not result in denial or diminution of services to beneficiaries and that the conditions of Section 813 of the Indian Health Care Improvement Act are satisfied; and

BE IT FURTHER RESOLVED, that the Board of Directors of ANTHC authorizes the ANTHC and ANMC health services to be provided to non-beneficiary workforce members and dependents of ANTHC, ANMC, and affiliated organizations in accordance with this Resolution; and

BE IT FURTHER RESOLVED, that the President, CEO, ANMC Administrator and their designees are authorized and directed to limit or eliminate access to such health services by non-beneficiary members of the workforce and their dependents should the provision of such services diminish the provision of health services to Alaska Natives or American Indians; and

BE IT FURTHER RESOLVED, that the Board of Directors directs the President, CEO, and ANMC Administrator to establish and monitor metrics to track the ongoing impact of allowing non-beneficiary workforce members and their dependents access to ANTHC and ANMC services and report regularly to the Joint Operating Board and to this Board of Directors on the impact and the measures taken to ensure compliance with this Resolution; and

BE IT FURTHER RESOLVED, *that this Resolution supersedes Resolution 10-13; and*

BE IT FURTHER RESOLVED, *that this supplements other ANTHC resolutions regarding services to non-beneficiaries, which remain in full force and effect.*

Resolution No. 17-07 regarding Delivery of Organ and Tissue Harvesting and Blood Donation Services to Individuals Not Otherwise Eligible For Services from the Indian Health Service

ALASKA NATIVE TRIBAL HEALTH CONSORTIUM
BOARD OF DIRECTORS
Resolution No. 17-07

TITLE: DELIVERY OF ORGAN AND TISSUE HARVESTING AND BLOOD DONATION SERVICES TO INDIVIDUALS NOT OTHERWISE ELIGIBLE FOR SERVICES FROM THE INDIAN HEALTH SERVICE

WHEREAS, the Alaska Native Tribal Health Consortium (ANTHC) is a Tribal Organization established by Alaska tribes and tribal organizations pursuant to Section 325 of Public Law 105-83 ("Section 325"); and

WHEREAS, ANTHC is a Co-Signer to the Alaska Tribal Health Compact under Title V of the Indian Self-Determination and Education Assistance Act, Public Law 93-638, as amended ("ISDEAA"); and

WHEREAS, pursuant to Section 325, ISDEAA, the Alaska Tribal Health Compact and its funding agreements the Department of Health and Human Services and the Indian Health Service (collectively "IHS"), the Snyder Act, the Indian Health Care Improvement Act, and other authorizing legislation, ANTHC co-manages the Alaska Native Medical Center ("ANMC") with Southcentral Foundation and provides statewide services and other programs, services, functions, and activities ("PSFAs") of the IHS; and

WHEREAS, as authorized by ISDEAA, 25 USC § 5286(e), ANTHC has redesigned, consolidated and reallocated funding for certain PFSAs in the manner it deems to be in the best interest of the health and welfare of the Native communities it serves; and

WHEREAS, Section 813 of the Indian Health Care Improvement Act, as amended ("Section 813"), authorizes the governing body of a Tribal Organization carrying out PSFAs of the IHS under ISDEAA to determine whether health services should be provided under the Tribal Organization's funding agreement with the IHS "to individuals who are not eligible for such health services under any other subsection or under any other provision of law" ("non-beneficiaries"); and

WHEREAS, Section 813 provides that in making such a determination, the governing body of the Tribal Organization shall "take into account" whether the provision of health services to such individuals will result in the denial or diminution of health services to Alaska Natives or American Indians; and

WHEREAS, the Board of Directors has carefully taken into account the considerations identified in Section 813 regarding the denial or diminution of services to Alaska Natives and American Indians and has concluded that no denial or diminution will occur with respect to the services described in this Resolution; and

WHEREAS, ANTHC conducts organ and tissue harvesting, principally in cooperation with and as a participant in LifeCenter Northwest, the designated regional organ procurement agency and a member of the Organ Procurement and Transplantation Network, which maintains a national waiting list; and

WHEREAS, ANTHC cooperates with and provides a site for blood donations conducted by the Blood Bank of Alaska, and at the request of patients may collect cord blood at the time of delivery; and

WHEREAS, the organs, tissue and blood procured by ANTHC are protected and distributed under nationally accepted guidelines by state and regional programs and may be provided to a non-beneficiaries; and

WHEREAS, minorities overall have a particularly high need for organ transplants because some diseases of the kidney, heart, lung, pancreas, and liver are found more frequently in racial and ethnic minority populations than in the general population, including, for example, Native Americans who are four times more likely than Whites to suffer from diabetes; and

WHEREAS, some of the conditions that can result in organ failure are best treated through transplantation and others can only be treated by this life-saving procedure in which similar blood type is essential in matching donors to recipient; and

WHEREAS, because certain blood types are more common in ethnic minority populations, increasing the number of minority donors can increase the frequency of minority transplants; and

WHEREAS, ANTHC's participation in blood donation and organ and tissue harvesting is essential to improving the likelihood of Alaska Natives and American Indians having an opportunity to obtain transplants and blood products; and

WHEREAS, the Board of Directors has determined that the requirements of Section 813 of the Indian Health Care Improvement Act, as amended, are satisfied with regard to the additional services to non-beneficiaries described in this Resolution; and

NOW, THEREFORE, BE IT RESOLVED, that the Board of Directors hereby determines that extending services to non-beneficiaries as provided in this Resolution will not result in denial or diminution of services to beneficiaries and that the conditions of Section 813 of the Indian Health Care Improvement Act are satisfied; and

BE IT FURTHER RESOLVED, that the Board of Directors of ANTHC authorizes the past, current, and continuing practice of extending health services to non-beneficiaries, as provided in this Resolution; and

BE IT FURTHER RESOLVED, that the President, CEO, ANMC Administrator, and their designees, are authorized and directed to limit or eliminate access to the health services by non-beneficiaries described in this Resolution should provision of such services diminish the provision of health services to beneficiaries; and

BE IT FURTHER RESOLVED, *that this Resolution supersedes and replaces Resolution 10-18; and*

BE IT FURTHER RESOLVED, *that this Resolution shall NOT supersede or replace, and shall supplement and be implemented in conjunction with other ANTHC resolutions, which shall remain in full force and effect.*

The Continuing Services of the Indian Health Service, Alaska Area Native Health Service to the Alaska Native Tribal Health Consortium For FY 2020

MEMORANDUM OF AGREEMENT DESCRIBING THE CONTINUING SERVICES OF THE INDIAN HEALTH SERVICE, ALASKA AREA NATIVE HEALTH SERVICE TO ALASKA NATIVE TRIBAL HEALTH CONSORTIUM FOR FY 2020

I. INTRODUCTION

This agreement provides for the continuation by the Indian Health Service (IHS) of certain services from the Alaska Area Office for the benefit of Alaska Native Tribal Health Consortium under its Funding Agreement (FA) under the Alaska Tribal Health Compact (ATHC) Self-Governance Compact.

This agreement is limited to the programs, services, functions, and activities (PSFAs) performed by the residual and transitional federal staff of the Alaska Area Office.

This agreement should be interpreted in conjunction with Alaska Native Tribal Health Consortium's FA and Appendix A to that FA, which may provide for additional detail on "restrictions" of funds at the Area or Headquarters level to ensure that specific services are continued to the individual Co-Signer.

In FY 2020, funding for these continuing services and activities will be from the funds, which have been designated as residual and from funds, which have been designated in support of temporary transitional federal PSFAs. In addition funding to purchase specific services, i.e., use of IPA/MOA assignees and Village Built Clinic leases, may be provided through reimbursement by Alaska Native Tribal Health Consortium to the IHS.

II. DEFINITIONS

The following definitions are in common usage in the Alaska Area:

A. ATHC Tribal Restricted Share - Used in Alaska to refer to those retained Tribal shares all compacting Tribes jointly initially agreed to leave in the Area Office in support of Alaska Area state wide PSFAs. Pursuant to Section 325 of PL 105-83, these shares now are in the Alaska Native Tribal Health Consortium (ANTHC) FA or are used for transitional federal PSFAs.

B. Buyback - The process by which Co-Signers use cash to purchase Area services from the Area Office. Requires accurate description and pricing of service, and mechanism for Area to invoice and receive payment.

C. Co-Signer Restricted Shares - Used in Alaska to refer to "retained Tribal shares" that have been left at the Area Office or Headquarters on an individual basis by a Co-Signer to allow the Area, Headquarters or ANTHC to provide specific services to the Co-Signer. Pursuant to Section 325 of PL 105-83, these Area shares now are in the ANTHC FA or are used for transitional federal PSFAs.

D. Residual - The resources necessary to support the PSFAs required for the United

States Government to fulfill and maintain its moral and legal responsibilities based on treaties, statute, and Executive order that are essential for the federal government to fulfill its "inherent federal functions".

E. Transition Plan - Plan initially agreed to by the Alaska Tribes to allow a transition of less than 100% of the Area Office Tribal shares to the Co-Signers collectively. (This definition is included for historical purposes only.)

F. Tribal Share - That portion of Headquarters or Area resources not determined to be residual and allocated to individual Tribes or to Tribes collectively, via Tribal organizations, utilizing an agreed upon methodology.

G. Tribe - As used in this Agreement, "Tribe" refers to Tribes and Tribal organizations, as those terms are defined respectively in Sections 4(e) and (*l*) of P.L. 93-638, the Indian Self-Determination and Education Assistance Act, as amended (the Act).

III. AREA SERVICE DELIVERY AGREEMENT

Nothing in this agreement is intended by Alaska Native Tribal Health Consortium or the IHS, nor shall be interpreted by any party, to limit or reduce in any way the PSFAs that any Tribe or Tribal organization is eligible to receive from the Area Office under Sec. 102 of Title I of the Act, under Sections 505 and 515(a) of Title V of the Act, or any other applicable federal law.

The table for each "Office" (or separate organizational component) presents the PSFAs currently performed and the staffing to perform the PSFAs. The residual PSFAs described in this Continuing Services Agreement serve all Co-Signers. The transitional personnel shown in this Agreement primarily support ANTHC PSFAs; however, some support other Co-Signers (e.g. IPA/MOA). PSFAs and the associated funds and personnel performing transitional PSFAs in support of the ANTHC (and Southcentral Foundation (SCF) for certain designated human resources PSFAs) under this Agreement may be transferred to the ANTHC or SCF under its FA.

A. OFFICE OF THE DIRECTOR

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional	Staffing (FTE)
Director	Provides overall executive direction and support on behalf of the Secretary.	R	1
Deputy Director, Chief Medical Officer	Provides public health advocacy; clinical consultation (CMO); legally required certification of health aide credentials and oversight of CHAP certification process; consultation in CHAP/Rural Health program management.	R	1
Executive Officer	Serves as principal advisor to the Director on overall management policies and procedures.	R	1
Attorney	Provides Region X attorney support and consultation.	R	1
EEO	Provides EEO support. [1]		
Support Staff	Secretarial, clerical and administrative support to inherent and transitional federal functions at all levels of the Area Office.	R T	3 1
Planning, Evaluation & Statistics	Prepare statistical reports and publications in support of planning, evaluation and resource allocation requirements.	R	2
	Total		10

The Office will provide the specific PSFAs defined below:

1. Executive direction on behalf of the Secretary to the remaining inherently federal functions.
2. Advocacy at national level on behalf of the Tribes of Alaska including: legislative, policy, resource allocation, and appropriation advocacy.
3. Policy formulation and interpretation; supervision of non-IPA/MOA federal employees; negotiate, execute and administer compacts and FAs; resource allocation.
4. Public health coordination with Tribal, state and federal governments.
5. Provide legal advice and consultation on behalf of the Secretary.
6. Provides representation on the Executive Committee and Planning Committee of the Alaska Federal Health Care Partnership (AFHCP). Through the government-to-government relationship with Tribes and Tribal organizations, provides the mechanism for Tribal membership on the AFHCP.
7. Eligibility determinations assistance.
8. Equal Employment Opportunity program management in support of federal employment rights.
9. Oversight of certification of Community Health Aides as outlined by law and the *IHS Community Health Aide Program Certification Board Standards and Procedures*.
10. Consultation and technical assistance to Tribes and Tribal organizations staff and programs including
    a. Program review or evaluation at the request of the Area Director or the invitation of Tribal programs;
    b. Submission of electronic health record data to IHS National Data Warehouse; and
    c. Maintain current Area statistics to provide statistical analysis in support of resource needs and allocations.

[1] The EEO function is provided under an intra-agency agreement among the IHS Alaska, California and Portland Area Offices.

d. Review and validate Alaska active user populations.

e. Publish *Census Based Alaska Native Population Counts* to supplement and cross check the accuracy of the user populations.

f. Verify the permanent staff increase Resource Requirement Methodology Needs Assessment (RRMNA) prepared by Tribes to determine staff needed for new facilities.

g. Collate data submitted for IHS distribution of specially earmarked funds following national allocation guidelines, when available, and suggest alternate distribution methods to program directors.

h. Publish the *Alaska Area Profile.*

i. Maintain the Alaska Area IHS website and publish Area Director's quarterly newsletter.

j. Publish the *Area Senior Executive Service Workplan* to support agency evaluation of the goals and accomplishments of the Area Office, its Director and Office Directors.

k. In cooperation with the AANHS/OEHE and ANTHC's Division of Environmental Health and Engineering and Co-Signers, provide user population and workload data, assist Co-Signers with preparation of applications; verify applications and planning documents prepared by Tribes (Health System Planning -HSP, PORs, and PJDs) for health facility expansion and replacement; and assist Co-Signers in the Headquarters' review process.

l. Communication between Tribal programs and IHS by seeking legal opinion from Region X attorney on issues which affect health care delivery by Community Health Aides such as standards of care, certification, Clinical Laboratory Improvement Act (CLIA) regulations, and Federal Tort Claims Act coverage.

11. Provide health program technical assistance and consultation on a limited basis as expertise and resources permit. This includes consultation on PSFA descriptions in Title I contracts, Title V FAs, specified grants and personal service and other contracts.

12. Support staff for the Director's Office and all other Area Office components without specific support staff.

13. Provide reimbursement to Headquarters for certain centrally paid expenses to include 100 percent of Department of Health and Human Services financial services and portions of other such expenses as reflected in the negotiated transitional budget for the ANTHC.

14. Performs the responsibilities identified in section 1 of the FA regarding ANTHC and SCF assurances.

15. Perform delegated functions to approve and administer FAs and amendments. The delegation includes the performance of Single Agency Audit, audit resolution for Title V awardees (Co-Signers); the function is provided using a multi-member Area-based team.

16. Responsibility for the Area Internal Control/Management Control programs, IHS Succession Plan and the Strategic Human Capital initiative.

17. As federal supervisor of Commissioned Officers serving under MOAs, the Area Director: functions as Reviewing Official for completion of annual Commissioned Officer Evaluation Reports; provides the Reviewing Official Statement for each officer when they are considered for promotion; and, fulfills any other action required as an officer's Reviewing Official. The Area Director may delegate this responsibility to Area Federal Staff as needed.

B. OFFICE OF ACQUISITION AND PROPERTY MANAGEMENT[2]

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional	Staffing (FTE)
Federal Contracting Personal, Property, and FOIA Coordination	Responsible for federal acquisitions to support the Alaska Area Office, including the federal credit card program. Maintains the federal personal property inventory. Provides or coordinates various administrative services for the Alaska Area Office.	R	1
	Total		1

The Office will provide the specific PSFAs defined below:

1. Negotiate, award and administer federal acquisitions.
2. Maintain or develop Alaska Area Interagency and Cooperative Agreements in close partnership with appropriate IHS or other federal, state or Tribal entity(s).
3. Coordinate various administration functions including Freedom of Information Act requests and IHS delegations and directives.
4. Maintain the federal personal property management inventory, including excess and disposal.
5. Provide technical assistance to Tribally managed facilities on procurement issues as requested regarding procurement issues and acquired federal excess property.
6. Maintain the federal credit card program.

[2] Residual (1) FTE moved to Office of Tribal Programs in support of Title 1 contracts and audit resolution.

C. OFFICE OF ENVIRONMENTAL HEALTH & ENGINEERING

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional	Staffing (FTE)
Director	Management, supervision and administrative support.	R	2
Sanitation Facilities	Maintenance of Sanitation Facilities Construction (SFC) data information systems for program allocations, National Environmental Policy Act (NEPA) approval, oversight of IHS funded SFC projects.	R T	1 1
Environmental Health	Environmental services associated with federal employees[3]		
Health Facilities	Support, direction and general administrative support, maintenance of Maintenance & Improvement (M&I), Equipment and other data for program allocation.	R	1
Realty	Maintain government property inventory; manage VBC leases; supports the Alaska Area ISDEAA Section 105(l) lease program; and inspect government-owned facilities	R	1
	Total		6

The Office will provide the specific PSFAs defined below:

1. Sanitation Facilities:

a. Allocation of federal funds under Title V of the Act utilizing subpart N Construction Project Agreements and P.L. 86-121 Project Funding Agreements for project funding.

b. Provide required IHS oversight, facilitation and management of contributed sanitation facility construction funding from other federal and state agencies.

c. Directly allocate IHS resources using data provided by prescribed allocation formulas and justification rationales.

d. Evaluate and approve proposed projects, prepare budget summaries and justifications. Advocate statewide and nationally for the ANTHC Division of Environmental Health and Engineering (DEHE) program and facilitate its implementation.

e. Maintain project information and deficiency databases in the IHS Web-based Sanitation Tracking and Reporting System (W-STARS) to justify congressional funding requests in support of distribution logic.

f. Verify project development, documentation, funding, construction and closeout. Approve project agreements, to include making the determination of National Environmental Policy Act (NEPA) compliance based on information submitted by ANTHC DEHE.

g. Consult on and accept processes and priorities developed through the Sanitation Facilities Advisory Committee and SFC process in conformance with IHS national project eligibility criteria.

h. Onsite reviews of projects may be conducted annually to insure conformance with laws and regulations, e.g., NEPA and National Historic Preservation Act (NHPA) and to verify accuracy of data and programmatic assumptions.

i. Approve earmarked and emergency project funds dispersal.

2. Environmental Health: PSFAs include:

[3] The PSFA conducted under this function are performed by all Office staff and others in the Area Office.

a. Overall direction of resources and related environmental surveillance for statewide public health impacts.

b. Continue to carry out functions related to serving as one of the health and medical representatives to the Alaska Federal Emergency Response Group.

c. Provide management and verification of tribal input data in the IHS Environmental Health Services data system known as the Web-based Environmental Health Reporting System (WebEHRS).

d. Provide safety assurance, compliance and reporting relating to federal workers, and professional programmatic support for staff.

e. In the event of a national disaster situation as defined in the Federal Response Plan, IHS is the lead agency for emergency response related to water and sewer damage assessment and mitigation.

3. Health Facilities: PSFAs include:

a. Perform budget allocation;

b. Support and approve project or resource allocations derived through a priority system developed through the Maintenance & Improvement Resource Allocation Committee (MIRAC) and ANTHC process consistent with IHS national project eligibility criteria. Verify data submittals and manage IHS facilities databases in conformance with IHS national project and health facilities space eligibility criteria.

c. Respond to Congressional inquiries;

d. Review Project Justification Document/Program Of Requirements (PJD/POR) documents prepared by others;

e. Review and approve national priority systems applications, including Tribal Equipment Funds and Dental Facilities Funds;

f. Maintenance of Alaska portion of the IHS Healthcare Facilities Data System (HFDS) including the Facilities Maintenance and Improvement/Equipment database for federally and Tribally owned health facilities;

g. Support for new health facility construction project funds distribution and project development;

h. Stewardship responsibility for oversight of environmental cleanup of federally owned real property;

i. Approve workload statistics;

j. Advocate statewide and nationally for the DEHE program and facilitates its implementation.

4. **Realty:** PSFAs include:

a. Monitor and manage real property assets in accordance with Executive Order 13327, "Federal Real Property Asset Management" and existing authority under law or by executive order for real property, capital improvements, square footage, use or disposal.

b. Maintain the IHS Real Property Inventory by updating the asset book values with costs relating to acquisition of real property, capital improvements, square footage, use or disposal.

c. Verify construction project closeout documentation for capital improvements made to federal facilities prior to adjusting the real property subsidiary ledger.

d. Perform annual review of real property.

e. Warranted Lease Contracting Officer authorized to lease Village Built Clinics

(VBC) on behalf of the Community Health Aide Program (CHAP).

f. Provide guidance to clinic owners and Tribal organizations with community health aides operating VBC leased clinics.

g. Determine correct process for disposing of excess real property and manages project to end.

h. Develop and recommend IHS Policy formulation on real property, leases and quarters;

i. Provide management and verification of real property and lease data within the health care facilities database.

j. Provide direct guidance and assistance in federal acquisitions of land and/or buildings.

k. Calculate and distribute rental rates for government owned quarters.

l. Prepare for approval all easements, utility rights-of-way, rights-of-way during construction, revocable licenses, and use permits.

m. Cost analysis and negotiation support for ISDEAA 105(l) leases.

D. OFFICE OF FINANCIAL MANAGEMENT

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional Buyback	Staffing (FTE)
Director	Financial Management Officer: Overall management, supervision, consultation, and surveillance	R	1
Tribal Accounting	Accounting advice; reconciliation; amendment and electronic payment assistance; monitors transactions in Buyback Account; and prepares Status of Buyback Statement with supporting documents.	R T	1 1
Budget	Budget projections and reports; fund control; Operating Resources Detail (formerly called Advice of Allowance)/Allocations.	R B	1 1
Accounting	Verifies accuracy and appropriateness of transactions; expenditures; general ledger; travel; project accounts; certifies vouchers; prepares tax withholding; and provides disbursement services.	R B	2 1
	Total		8

The office will provide the specific PSFAs defined below:

1. All resource allocation activities conducted by the Area.
2. Management controls of funds under Area control; responds to and provides data for annual agency audit.
3. Research and prepare routine, ad hoc, and special financial reports, prepare and reconcile status of funds reports for Area and Co-Signers. This includes providing Co-Signers with information necessary to manage the PSFAs they have assumed under their FAs and information necessary to negotiate those agreements.
4. Preparation and submittal of annual spending plan and budget/information to IHS for compacting and contracting Tribes and remaining AANHS/IHS activity.
5. Process financial documents for payment by U.S. Treasury, including payments related to continuing federal contracts in support of Tribally operated programs.
6. Process payroll for 340 federal (includes 58 IPA & 254 MOA) employees; maintain current position database for same; provide quarterly manpower reports to all Alaska locations using federal employees. Process and track all personnel actions.
7. Coordinate with Area OTP to allocate funding, initiate funding documents and assists

Co-Signers and contractors to maintain accurate records of funding allocations, reconciliations and cash management issues.

8. Reconciliation, billing and amendment management related to contractor and compactor use of federal resources including but not limited to IPA/MOA employees and the Village Built Clinic lease program. Reconciliation includes transaction verification of buyback services with corrections and reports.

9. Support withhold and buyback management including payment for continuing government contracts for goods and services, permanent change of station moves, etc.

10. Monthly general ledger reconciliation including cash management related to Prompt Pay Act, Treasury, cash and others.

11. Process reimbursement requests including Beneficiary Medical Program (BMP), Interagency Payment and Collections (IPAC), quarters collections, CHEF and others. Make deposits and transfers of such reimbursements to Co-Signers no less often than monthly.

12. Assist Tribes during annual Budget Formulation for the second succeeding year's annual budget, including preparation for the National Budget Formulation meeting.

E. OFFICE OF HUMAN RESOURCES

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional	Staffing (FTE)
Civil Service Staffing, Classification & Employee/ Labor Relations	Advertise and recruit for federal, direct and IPA/MOA replacements; process personnel and pay actions; provide job information; maintain official records; rate applicants, appoint new employees, and provide HR consultation; Title 38 and Physician's Comparability Allowance, Market Pay & Locality Pay maintenance; process Reduction in Force and counseling; provides transportation services and relocation assistance for federal employees and consultation re: Tribal direct hires as requested; administers Workers' Compensation program; grievances, discipline/adverse actions; Merit Systems Protection Board, appeals and agency representation; performance management; retirements; payroll; benefits; outside activities; ethics program; suitability adjudication; manage Federal Employee Assistance program and Family Medical Leave and Family Friendly Acts consultation; conducts desk audits; applies Classification Standards and consultation. Initiate and assure completion of suitability investigations as needed on federal employees and personal services contractors.	R T	2 0
	Total		2

Under the direction of the IHS Western Region Human Resources Director, the Office of Human Resources will provide the specific PSFAs defined below for the current approximately 340 federal employees employed either directly or through Civil Service IPAs (58) or Commissioned Corps MOAs (254):

1. Advertise and recruit for direct federal employees. Replacement IPA positions may be filled with a current IPA already on board (such as by reassignment) or a new or replacement MOA. Process Reductions In Force (RIF). Provide counseling on RIF.

2. Maintain official personnel files (electronic and paper) and records for Civil Service employees.

3. Manage employee relations including performance management; employee benefit programs (retirement counseling and calculations, etc.); Worker's Compensation; incentive awards; ethics and conduct; suitability adjudications; Merit Systems Protection Board (MSPB) representation; third party representation; Employee Assistance Program; Family Medical Leave Act (FMLA) consultation; and Labor Relations.

4. Counsel Civil Service employees.

5. Administer performance management program for non-IPA/MOA Civil Service employees.

6. Director performs proposing federal official function in progressive disciplinary actions on federal IPA employees.

7. Process personnel actions for Civil Service employees.

8. Process payroll, including assisting timekeepers and assuring transmission of payroll for all Civil Service employees.

9. Correct pay and leave errors.

10. Manage federal classification system. Provide consultation on same.

11. Issue government Personal Identification Verification (PIV) Smart cards for Area Office employees and for those IPA/MOAs who need access to federal facilities or ITAS as Timekeepers or Leave Approving Officials. Proof of federal employment will be given to those IPA employees who do not receive a PIV Smart card.

12. Provide, on request, consultation on employee relation issues to Co-Signer.

13. Maintain database on IPAs and MOAs and provide to Co-Signer no less than quarterly.

14. Provide, on request, general consultation and support on Co-Signer personnel issues (travel outside Anchorage to provide requested on-site consultation will be at expense of Co-Signer).

15. Provide transportation services and relocation assistance for federal employees.

16. Coordinate arrangements for volunteer health provider services for Co-Signers.

17. Provide assistance in managing employee absences due to on the job injuries (worker's compensation) to minimize the impact on Co-Signers.

18. Initiate and assure completion of suitability investigations as needed on federal employees and personal services contractors.

19. Implement Alaska Area responsibilities set forth in the IHS Succession Plan.

20. Implement Alaska Area responsibilities related to IHS Development of Human Capital Initiative.

F. COMMISSIONED CORPS PERSONNEL[4]

P/S/F/A	MAJOR FUNCTIONS	Buyback	Staffing (FTE)
Commissioned Corps Personnel	Orient and assist officers and their families to include: recruitment support, liaison between areas, TRICARE advice, wage verifications, grievances, leave programs, COERs and COSTEP. As necessary, Corps-specific personnel discipline advice to CEOs and HR staff of 638 awardees with MOA assignees and supervisors of MOAs.	B	2
	Total		2

Under the direction of the IHS Division of Commissioned Personnel Support, the Commissioned Corps Personnel component will provide the specific PSFAs defined below for the approximately 259 USPHS Commissioned Officers in the Alaska Area:

1. Provide general orientation to new Commissioned Officers.
2. Counsel Commissioned Officers; provide Corps-specific discipline advice to appropriate Co-Signer managers.
3. Maintain unofficial files and records for Commissioned Officers.
4. Process required federal personnel actions for Commissioned Officers including orders for deployment.
5. Assist and consult with officers and their supervisors.

G. OFFICE OF TRIBAL PROGRAMS

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional	Staffing (FTE)
Director	Management of Area Title V responsibilities for Self-Governance and Title I review, approval and technical assistance. Managing CHEF submissions, and fund distribution; clerical and secretarial support.	T	1
Health Care (Management) Consultation	Title V compacts/FAs (including amendments and database management of same), cooperative agreements, and grants; negotiate and administer CSC funds.	T	3
Health Care [5] (Management) Consultation	Negotiate, manage, and execute Title I contracts. Review audit findings and work with Tribal contractors to resolve as needed.	R	1
	Total		5

The Office will provide the specific PSFAs defined below:

1. Provide or facilitate technical assistance to Tribes which may or may not lead to the preparation of proposal(s) to assume PSFAs for Title I contracting, Title V compacting and Tribal Management grants for Tribes and Tribal organizations
2. Evaluate P.L. 93-638 proposal(s) to determine acceptance, declination or rejection; if

[4] During FY 2005 this PSFA was centralized under the Division of Commissioned Personnel Support at IHS Headquarters. Effective FY 2006, it is funded by assessing the locations that use Commissioned Officers. See, also, Appendix A.

[5] Formally P/S/F/A: Federal Contracting Title I awards, (1) Residual FTE moved from the Office of Acquisition and Property Management; to support Title I contracts and audit resolution.

the Title I proposal is accepted, serve as the contract designated federal official (project officer) for the award. In the case of declination or rejection, further technical assistance will be offered to overcome declination or rejection.

3. Analyze and negotiate Contract Support Costs (CSC) for start up and ongoing direct and indirect-type CSC requests, and the maintenance of CSC records in support of Area-wide CSC needs in accord with IHS policy. Currently records are maintained for 36 Alaska awardees. The office will continue to administer the CSC funds (Indian Self-Determination Fund start-up, direct and indirect administrative cost funds). Allocation plans and funding applications will be developed, maintained and negotiated on behalf of Tribes and Tribal organizations. The office will continue to develop and maintain the Alaska Area Tribal database for the CSC fund, which clearly documents, for IHS and Congress, Tribal shortfall and start-up needs.

4. Support and clearance of submissions of CHEF requests to the national CHEF pool, unless a lawful alternative methodology is developed enabling direct submission by Tribal health programs participating in the CHEF program. More specifically this includes education and technical assistance on the process for requesting reimbursement and the maintenance of records on submittals, reimbursements, cancellations and supplemental requests.

5. Prepare Title V FA amendments at the request of Co-Signer, upon notification of change in funding, or as negotiated.

6. Provide information to Tribes on any proposed changes to the CHS fiscal intermediary contract, and advocates for revisions requested by Tribes.

7. Negotiate, execute, and administer all P.L. 93-638 Title I contracts including close out and site reviews as requested or required.

8. Coordinate with IHS Headquarters, the National External Audit Review Office, and Tribal contractors to resolve audit findings for Title I contracts and Title V funding agreements.

Appendix D
Buyback/Withhold Agreement
between
the Indian Health Service
and
Alaska Native Tribal Health Consortium

Section 1. Generally. Pursuant to Section 5.3 of the Funding Agreement between Certain Alaska Native Tribes Served by Alaska Native Tribal Health Consortium (hereinafter "ANTHC") and the Secretary of the Department of Health and Human Services of the United States of America (hereinafter "Secretary"), ANTHC has determined that it wishes to carry out its responsibility to provide certain programs, activities, functions or services (e.g. salaries of IPA/MOA employees, and Village Built Clinics Program) included in its Funding Agreement utilizing services, personnel or other resources of the Federal Government, (hereinafter "services") under Article V, section 22 of the Compact, as permitted by law. These services may include some that are expected to be used throughout the year and some incidental services to be identified by ANTHC on an as needed basis, and provided by the Indian Health Service (hereinafter "IHS") when IHS has the capacity to do so. The cost of providing the purchased services to ANTHC shall be determined under section 2 below. ANTHC's purchase of services is contingent upon the availability of IHS resources to provide those services. In addition, services must be paid for in advance, in order to avoid violation of the Anti-Deficiency Act and are subject to full cost recovery in accord with 25 USC 458aaa-7(f) and 31 USC 9701.

Section 2. Determination of Cost.

2.1 Generally. ANTHC may acquire services from the IHS by either providing for full year withhold (with appropriate reconciliation) under terms agreed upon in this funding agreement, in which case the administrative surcharge provided for under section 2.2.4 shall not apply. In the alternative, ANTHC may acquire services by authorizing partial year withhold amounts, as provided for in section 2.2, in which case the payment schedule and administrative surcharge provided for in section 2.2.4 shall apply. Whether full or partial year withhold is authorized, the full costs of IPA/MOAs including those detailed in section 2.3, Determination of IPA/MOA Costs, shall be paid by ANTHC.

2.2 Conditions for Partial Year Withhold and Buyback.

2.2.1 IPA/MOA.

2.2.1.1 Advance withhold. The funds for IPA/MOA salary and other costs detailed in section 2.3, "Determination of IPA/MOA Costs," will be paid as a lump sum in accord with Section 5(a) of the Funding Agreement, except that an amount equal to three monthly payments based on the initial mutually agreed upon estimate of the annual IPA/MOA salary costs and related surcharges, as provided in section 2.2.4, will be withheld and retained by the Indian Health Service pending final disbursement for the last three months of the fiscal year as provided in section 3.2.2.2.

2.2.1.2 Late Payment Provision. Except as provided in section 3.4, failure to make payment in full by the Default Date will result in action by the IHS to RIF or redeploy federal employees assigned to ANTHC.

2.2.2 Village Built Clinics.

2.2.2.1 Advance Withhold. To ensure that sufficient funds are available to meet contract obligations, an amount equal to three monthly payments based on the initial mutually agreed upon estimate of the annual Village Built Clinic costs and related estimated surcharges, as provided in section 2.2.4, will be withheld and retained by the Indian Health Service pending final disbursement for the last three months of the fiscal year as provided in section 3.2.2.2.

2.2.2.2 Late Payment Provision. Except as provided in section 3.4, failure to make payment in full by the Default Date will result in action by the IHS to terminate the village based clinic leases.

2.2.3 Other Services.

2.2.3.1 Advance Withhold. An amount equal to one monthly payment based on the initial mutually agreed upon estimate of the annual cost of other services ANTHC proposes to purchase from the IHS and related estimated surcharges, as provided in section 2.2.4, will be withheld and retained by the Indian Health Service pending final disbursement for the last month of the fiscal year as provided in section 3.2.2.2.

2.2.3.2 Incidental Services. Nothing herein shall prevent ANTHC from negotiating to purchase incidental services from the IHS throughout the year, without regard to an advance withhold. Such incidental services may include medical record storage, costs associated with disposal of excess governmental property held by ANTHC and costs associated with acquiring excess property from the Department of Defense. Agreements for purchase of incidental services must specify the method and timing of payment by ANTHC.

2.2.3.3 Late Payment Provision. Except as provided in section 3.4, failure to make payment in full by the Default Date will result in action by the IHS to terminate the services for which payment has not been made.

2.2.4 Administrative Surcharge. An administrative surcharge in a percentage set forth in Section 5.3 of the Funding Agreement shall be imposed on the charges for the services delivered by the IHS to ANTHC under the partial year withhold and buyback provisions of section 2.2. This surcharge will not be imposed on purchases for which a full year's estimated withhold is authorized. The administrative surcharge will be estimated based on the estimated annual purchase price and will be accounted for and reconciled under section 3.3.2.

2.2.5 No Other Charges. Except as provided in this section 2.2, there shall be no additional overhead, user or administrative charges or assessments for providing services to ANTHC.

2.3 Determination of IPA/MOA Costs.

2.3.1 List of Costs. It is agreed by the parties that the entire cost of IPA/MOA assignments, including costs associated with the initiation, maintenance, and termination of the assignments are the responsibility of ANTHC. The IHS must be reimbursed for all such costs which include but are not limited to the following:

2.3.1.1 Permanent change of station costs including the cost of moving replacement IPAs from the lower forty-eight to Alaska and the cost of moving IPA employees who separate back to the lower forty-eight.

2.3.1.2 Recruitment, relocation and retention bonuses if such funds are necessary to attract or retain employees.

2.3.1.3 Severance pay for employees who are released by ANTHC and separated without cause.

2.3.1.4 Payment of turnaround leave travel expenses. All individuals who are eligible for these expenses shall be identified in the IPA negotiated between the parties. The IHS will retain liability for existing IPAs. ANTHC assumes the liability for new IPAs and upon renewal of an existing IPA.

2.3.1.5 Lump sum leave payments for employees who leave federal service. All leave accrued prior to the employee becoming employed by ANTHC shall be identified in the IPA/MOA negotiated between the parties. The liability for accrued leave on existing, renewing, and new IPA/MOAs shall be the responsibility of ANTHC.

2.3.1.6 Costs associated with settling or resolving employment related disputes, subject to the terms specified in section 2.3.2 below.

2.3.1.7 Centrally paid expenses, subject to the terms specified in section 2.3.3 below.

2.3.1.8 The cost of paying unemployment benefits assessed to the Area in FY 2002 and thereafter on behalf of an employee who was employed by ANTHC under an IPA immediately prior to voluntary or involuntary separation from IHS regardless of the year in which unemployment benefits were paid. The ANTHC is not responsible for unemployment costs that were assessed to the Area in Fiscal Years 2000 and 2001.

2.3.2 Costs Related to Employment Related Disputes.

2.3.2.1 Responsibilities of the IHS. The Indian Health Service shall be responsible for the payment of all costs of the IHS Office of Human Resources and any other section of the Indian Health Service, the Office of General Counsel, and the Department of Health and Human Services associated with the processing, settlement or other resolution of

employment actions such as disciplinary actions, grievances, or appeals to the Merit System Protection Board and/or the Equal Employment Opportunity Commission, and matters arising under the Federal Labor Relations Act or any other law permitting the employee to appeal from such actions initiated by Federal employees assigned to a Co-Signer under an IPA or MOA. The IHS may pay for or recover these costs as described under section 2.3.2.3, Sharing in Costs of IPA/MOA Employment Related Disputes, to the extent permitted under section 2.3.2.2.

2.3.2.2 Employee Disputes Costs Chargeable to Co-Signers. The IHS may pay for or recover costs associated with processing, settlement or other resolution of employment related disputes listed in paragraph 2.3.2.2.1 of this subsection under the following conditions:

2.3.2.2.1 Only costs associated with covered disputes that arose from conduct, performance or other circumstances alleged to have occurred during the course of an employee's assignment to a Co-Signer may be assessed under section 2.3.2.3.

2.3.2.2.2 Costs which may be assessed under section 2.3.2.3, Sharing in Costs of IPA/MOA Employment Related Disputes, may include, but are not limited to, awards of back pay, compensatory damages, attorney fees, travel costs necessary to investigate the case and represent the IHS at hearings or in other proceedings during the appeal process, costs of obtaining and preserving witness testimony, and other similar costs incurred as a result of the IHS defending itself in these matters.

2.3.2.2.3 No salary costs of IHS, Office of General Counsel or Department of Health and Human Service employees may be assessed or recovered under section 2.3.2.3. Nor may any other cost of these proceedings be charged if such costs have ordinarily been paid from funds identified by the IHS as residual or restricted at Headquarters or the Area Office.

2.3.2.3 Sharing in Costs of IPA/MOA Employment Related Disputes. All costs of the IHS related to IPA/MOAs for which Co-Signers are responsible under section 2.3, "Determination of IPA/MOA Costs," are the responsibility of the individual Co-Signer to whom the IPA/MOA is assigned, except as provided in this paragraph. ANTHC agrees to share with other Co-Signers the costs and risks described in the above section 2.3.2.2, "Employee Disputes Costs Chargeable to Co-Signers" by agreeing to accept a share of the cost not to exceed $75 per assigned IPA/MOA per separate employment action. The purposes of sharing these costs are to simultaneously ensure that IHS recovers the full costs associated with employment related disputes involving IPA/MOAs, minimize the financial risk for individual Co-Signers, and minimize the accounting and administration caused by certain categories of costs. The IHS may use funds assessed under this paragraph only as provided in section 2.3.2.2. The amount assessed each Co-Signer shall be a percentage calculated based on the number of IPAs and MOAs the Co-Signer has assigned to it. All costs assessed under this paragraph will be reconciled with each contributing Co-Signer, as provided under section 3.3, and a separate report will be provided to all ATHC Co-Signers.

2.3.3 Costs Related to IPA/MOA Centrally Paid Expenses. Certain costs

associated with IPA and MOA employees are paid centrally by Headquarters from Area funds. These include costs detailed in columns 6, 7, and 8 of the spreadsheet entitled "Allocation of Centrally Paid Expenses (Excluding FTS)," Corrected May 11, 1998, that was prepared by David Mather. These are costs associated with Commissioned Corps, Personnel and Payroll, and Balance of Human Resources. The Alaska Area Native Health Service may pay for or recover assessments from Headquarters to cover these identified costs by including in the monthly charge for each IPA or MOA the monthly cost to the IHS of such Centrally Paid Expenses. The cost charged ANTHC for each IPA/MOA may not exceed the average cost per federal employee actually paid by IHS. For purposes of calculating the initial withhold amount and estimated monthly payments, the estimated average cost per month for each IPA or MOA is shown in Appendix A of the Funding Agreement.

2.4 Limitation on Obligations and Notice.

2.4.1 Obligations. IHS shall within 30 days provide notice to ANTHC of the best available estimate of the costs that may be incurred under this Agreement of leases, contracts, salaries and related expenses and permanent change of station.

2.4.2 Content of Notices of Best Available Estimates and Costs. Notice of best available estimates under section 2.4.1 and full accounting of all costs due under section 3.3.1 shall include the amount, vendor and reason for obligation or expenditure, including the name of the employee, if any.

Section 3. Method of Payment.

3.1 Full Year Withhold. Payment for services being purchased from the IHS may be made by ANTHC authorizing a withhold of the full year's initial mutually agreed upon estimate of the annual cost of each category of services ANTHC proposes to purchase from the IHS. In such case, no monthly payments are due from ANTHC. Upon periodic reconciliation, provided for under section 3.3.1, excess withheld funds will be paid by the IHS to ANTHC and adjustments in the amount of withhold or payments needed to pay for all services ANTHC has purchased, or proposes to purchase, will be made to the IHS by ANTHC. *See* "Summary of Withhold/Buyback" page of Appendix A for calculation of the amount ANTHC hereby authorizes for full year withhold, if any.

3.2 Purchases through Buyback under section 2.2.

3.2.1 Calculations.

3.2.1.1 Of Initial Estimated Monthly Payment. The initial estimated monthly payment is determined by estimating the annual cost of services to be purchased from IHS, including the surcharge on all services under section 2.2.4, and dividing by 12. *See* "Summary of Withhold/Buyback" page of Appendix A for calculation of the amount of the initial estimated monthly payment.

3.2.1.2 Of Total Withhold Amount. A Co-Signer purchasing services through buyback authorizes withhold of an amount equal to the Advance Withhold

under paragraphs 2.2.1.1, 2.2.2.1 and 2.2.3.1 of section 2.2 for each category of service being purchased, plus an amount equal to one month of the initial estimated monthly payment for each category of service being purchased (to cover the estimate for services to be provided in October). *See* "Summary of Withhold/Buyback" page of Appendix A for calculation of the amount ANTHC hereby authorizes to be withheld.

3.2.2 Payment Schedule.

3.2.2.1 First Payment. The initial estimated monthly payment is due and payable on the first day of November or the first day of the month following payment to ANTHC of its lump sum payment, whichever is later, in which case the IHS shall reduce the lump sum payment by the authorized withhold plus the initial estimated monthly payments for each month preceding the first month for which a payment is due from ANTHC for which a payment was not withheld. (This provision is intended to address delays caused in making the lump sum payment to ANTHC due to Congress authorizing continuing resolutions or other delays in making lump sum payments to ANTHC.)

3.2.2.2 Subsequent Estimated Monthly Payments. Subsequent payments are due and payable on the first day of each month, until the final months of the year intended to be covered by the Advance Withhold amount applicable to the category of services, as set forth in section 2.2. (For example, the last three months of payments for IPA/MOAs would come from the Advance Withhold amount, while only the last one month of payment for Other Services would come from the Advance Withhold amount.)

3.2.2.3 Default Date. If a payment is not received by the 10th day of the month in which it is due (or the first working day thereafter if the 10th day falls on a week-end or Federal holiday), the IHS will implement the late payment provisions for each category of service as provided under paragraphs 2.2.1.2, 2.2.2.2, and 2.2.3.3. This date shall be referred to throughout this section as "Default Date."

3.3 Reconciliation and Adjustment.

3.3.1 For Categories of Service. Full accounting of all costs for each category of service, whether purchased through full year withhold or buyback, will be provided to ANTHC within 45 days of the end of each month. Reconciliation of payments made to IHS compared to actual costs for the first three quarters of the fiscal year will be provided quarterly within 45 days of the end of each quarter. Reconciliation of payments made to IHS compared to actual costs for the last quarter of the fiscal year will be provided within 60 days of the end of the last quarter. At the end of each of the first three quarters, the IHS and ANTHC will review the expenses for the preceding quarters. The monthly estimated payment due, or the full year withhold amount, for the balance of the fiscal year will be adjusted accordingly to account for any over or under collections in order to project a zero balance at the end of the fiscal year. Within 30 days after the final end-of-year reconciliation is provided to ANTHC, any over recovery by the IHS must be returned to ANTHC and within 30 days after the final end-of-year reconciliation is due any under recovery must be paid by ANTHC.

3.3.2 For Administrative Surcharge.

3.3.2.1 Use and Rebate. The administrative surcharge shall be used exclusively for administration of the buyback provisions under this Buyback/Withholding Agreement. All income from the administrative surcharge will be accounted for separately and compared on an annual basis to the cost of administering buyback at the Area Office. This accounting and reconciliation shall be complete within 60 days of the end of the last day of the fiscal year. Any surplus in administrative surcharges shall be returned to the Co-Signers who participated in the buyback option on a pro rata basis depending on the amount of administrative surcharge paid.

3.3.3 Adjustment in Estimated Monthly Payment. In addition to adjustments in estimated payments that may occur under sections 3.3.1 and 3.3.2.1, the parties may at any time mutually agree, based on a change in circumstances, to change the estimated monthly payment due from ANTHC.

3.4 Use of Other Funds Due ANTHC to Avoid Default or Satisfy Obligations to IHS and other Remedies.

3.4.1 Avoiding Default. Default may be avoided to the extent funds are held by the IHS from other funds due to ANTHC, which may be withheld to satisfy the amount of the payment, which would otherwise be in default or to satisfy amounts due IHS after reconciliation of costs and payments when an amount is due to IHS.

3.4.2 Recoupment. Any amount due to the IHS by reason of ANTHC's failure to pay in full all amounts owing under the buyback provisions of the Funding Agreement for the immediately preceding fiscal year shall be recouped by the IHS from any funds due to ANTHC under this funding agreement.

3.4.3 Full Year Withhold as Penalty for Default. Notwithstanding any other provision of this Buyback/Withholding Agreement, the IHS may require "full year withhold" as permitted herein as a condition of permitting a Co-Signer who was in arrears at the end of the immediately preceding fiscal year to buyback services from the IHS under the terms of this Agreement.

Section 4. Dispute Resolution. The parties shall endeavor to resolve any disputes concerning amounts due by ANTHC under this Agreement in a manner agreeable to ANTHC and to the IHS. In the event of a failure to reach agreement on the resolution of any such dispute, ANTHC may, after providing written notice to the IHS, choose not to include the disputed amount in any subsequent payment due. Payment in such a manner shall not be considered as a resolution of the dispute. The parties shall thereafter attempt to resolve the dispute through Alternative Dispute Resolution following, as appropriate, the principles and processes set forth in Executive Order 12988 signed by President Clinton on February 5, 1996, and made effective as of May 5, 1996. ANTHC shall have the option of resolving the dispute in accordance with Article II, Section 10 of the Compact.

Section 5. Effective Date. This Buyback/Withholding Agreement shall become effective on October 1, 2007, and shall remain in effect pursuant to section 5.3 of the Funding Agreement.

ALASKA NATIVE TRIBAL HEALTH CONSORTIUM
FUNDING AGREEMENT – APPENDIX E
TRIBAL FACILITIES AND LOCATIONS
Effective as of October 1, 2022

This non-exhaustive list of Tribal Facilities and Locations identifies the sites where ANTHC owns, leases, occupies, or otherwise uses real or personal property to carry out its responsibilities under the Alaska Tribal Health Compact and its Funding Agreement. Each description of facilities and locations is intended to include surrounding and adjacent grounds.

A. Alaska Native Health Campus and supporting facilities, including but not limited to:
   1. Alaska Native Medical Center (ANMC)
   2. Consortium Office Building
   3. Inuit Building
   4. CDC Building
   5. Mount Marathon Building
   6. Quyana House, ANMC Patient Housing, and Spring Hill Suites Anchorage University Lake
   7. Healthy Communities Building
   8. University Lake Medical Center
   9. Diplomacy Building
   10. ANMC North Parking Garage
   11. Alaska Pacific Medical Building
   12. ANTHC Education and Development Center
   13. Alaska Pacific University:
      a) Atwood Center
      b) Carr Gottstein Academic Center
      c) Gould Hall
      d) Grant Hall
      e) Moseley Sports Center
      f) Segelhorst Hall
      g) Consortium Library
   14. Dr. Katherine and Dr. Kevin Gottlieb Building

B. Other Clinical, Administrative, Program, Partner, Project and Field Offices and Locations, including but not limited to:
   1. DEHE, Program, Project and Field Offices
   2. ACES Offices
   3. Tribal, federal, regional, or local community-based education, child care, or public health facilities
   4. Information Technology and Telehealth Locations
   5. Patient and workforce housing, bunkhouses and other temporary housing
   6. Patient Travel Office

C. Shops, Yards, Staging Areas, Warehouses, and Storage, Supply and Parking Facilities and Locations, including but not limited to:
   1. Mechanical Yards
   2. Electrical Shops
   3. Construction Yards
   4. Construction and Expansion Sites for Public Health Facilities and Related Infrastructure
   5. Regional Supply Service Center
   6. Utility Support Center

D. Education, Training and Public Outreach Facilities and Locations, including but not limited to:
   1. DEHE training locations
   2. Health Professions Training and Recruiting Locations
   3. Dental Health Aide (DHA) Training Sites
   4. Ted Stevens International Airport Kiosk
   5. Health Fairs

Alaska Native Tribal Health Consortium
FY 2007 Funding Agreement

APPENDIX G
Alaska Area Native Health Service/
Alaska Native Tribal Health Consortium

FY 2007 Transitional Staffing Plan

This plan describes the agreement between the Alaska Area Native Health Service (AANHS) and the Alaska Native Tribal Health Consortium (ANTHC) relating to transfer of transitional Federal employees to ANTHC for the period between October 1, 2006 and September 30, 2007.

I. OFFICE OF THE DIRECTOR

Equal Employment Opportunity (EEO) Manager (Position #A51E01):

The functions of the EEO manager will be purchased through a shared agreement with other Area offices. Forty thousand eight hundred ninety-five dollars ($40,895) will be left with AANHS for this purpose. It is intended that this funding will remain with IHS until remaining federal positions are transferred to direct hire.

II. OFFICE OF ENVIRONMENTAL HEALTH AND ENGINEERING

The one transitional position (Position #(OEH012) in this office will transfer to ANTHC if ANTHC elects to perform NEPA approvals as authorized under Title V and when the non-Indian Health Service (IHS) sanitation facility project funding can be received and managed directly by ANTHC.

III. OFFICE OF FINANCIAL MANAGEMENT

The Financial Management Specialist position (Position #19B22) will remain with Area Office to process and electronically communicate payroll and related transactional data for all Co-Signers and other tribal contractors with IPA and MOA assignees. Title I duties, formerly associated with Position #A19B09 have been transferred to this position.

IV. OFFICE OF HUMAN RESOURCES

AANHS has previously determined a ratio of 1 human resources position per 100 Federal employees in the Alaska Area. AANHS will meet with ANTHC and SCF representatives to address workload and staffing as vacancies occur prior to filling any vacancies.

V. OFFICE OF TRIBAL PROGRAMS

ANTHC and AANHS are in agreement that all five positions should remain with AANHS through FY2007.

This Transition Staffing Plan will be jointly reviewed and revised, as necessary, during the month of March, 2007.

Indian Health Service
Alaska Area Native Health Service

By: _____
Director

Date: 1/30/09

Alaska Native Tribal Health Consortium

By: Lincoln A. Bean Sr
Lincoln A. Bean, Sr. President/Chairman

Date: 8.29.08

ALASKA NATIVE TRIBAL HEALTH CONSORTIUM (ANTHC)
Assurances Regarding Services from the Alaska Native Medical Center (ANMC)
(Amended and Restated October 1, 2000 and October 1, 2008)

GENERAL ASSURANCES

The following general assurances are predicated on the existence of a functioning Joint Operating Board. In the event that shared governance through the Joint Operating Board is disbanded or significantly changed, the general assurances will be re-negotiated.

For the purposes of these assurances, the Anchorage Native Primary Care Center (ANPCC) and the Alaska Native Medical Center Hospital will be referred to as the "ANMC campus."

For the purpose of these assurances, the "level of service as of October 1, 1997" shall mean the menu of services budgeted by the ANMC as of 10/1/97. SCF and the ANTHC will develop and use a reference for determining the menu of services provided at and through the ANMC Campus. The level of service is further defined as the ease of access, availability, and mix of services as of October 1, 1997.

A. Consultation:

The ANTHC will developed and maintain a formal process for consultation with the following groups and organizations:

- Individual Tribes;
- Tribal healthcare provider organization statewide, including those within the Anchorage Service Unit (ASU), urban and rural;
- Individual and general patient population;
- Federal health care partners;
- Non-Federal healthcare partners, including, but not limited to, Providence and Alaska Regional hospitals;
- State of Alaska;
- Indian Health Service;
- Medical Staff.

This formal consultation process will be designed to support equitable peer participation in the coordination of services and the allocation of resources. The process should provide for identification and resolution of shared issues and concerns through strategic initiatives. IHS consultation process should provide for regular and routine interaction between the various organizations identified above with mechanisms for feedback on processes and consequences.

The ANTHC will complete design and implementation of its consultation process by the sixth month of the first contract period of its Phase II contract.

B. Planning:

The ANTHC will develop and maintain with the Southcentral Foundation a planning process for shared activities which provides for strategic and operational consideration of consultation and changes in the Tribal and other healthcare environments, and for developing shared program and service priorities. This process should provide for routine activities in the following areas:

- Strategic planning;
- Operations planning;
- Continuing process improvement of shared and/or articulating service delivery and management systems;
  - Interagency planning, including but not limited to working with:
  - ANTHC and SCF member organizations;
  - Alaska Native Health Board;
  - Tribal health organizations;
  - External agencies;
  - Indian Health Service;
- Planning with and for Tribes;
- Financial planning for the ANTHC and ANMC.

This process should promote open dialog toward sharing internal organization-specific considerations for future direction. Process activities should reduce duplication of services. The planning process should be designed to maximize the overall quality and quantity of service provided in and through the statewide health care delivery network for American Indians and Alaska Natives. At the same time it should support coordination of member service delivery systems. This planning process should minimize internal competition while maximizing the ANTHC and SCF competitive position in the healthcare marketplace.

C. Flexibility for Change:

In consideration of shared processes for ongoing consultation and planning and the products they produce, the ANTHC will develop, maintain and participate in a process for change management which empowers Tribes, Tribal health organizations, and individual customers such that they are active participants in their healthcare delivery systems.

The ANTHC will manage and integrate organizational change, so as to appropriately adjust to changing mission requirements, identified and expressed customer needs, and new information. ANTHC will develop and maintain the capacity to work with various members of the Alaska Health Care delivery system to address issues, concerns and needs beyond the limits of existing scopes of work and formal agreements. Where appropriate, ANTHC agrees to negotiate organizational and financial individual and shared adjustments to support change as a shared reality. ANTHC will consider, as environmental situations dictate, appropriate reallocation of resources within the scope of existing budgets and budget modifications where changes are required.

When the ANTHC determines that they wish to terminate purchase agreements with the SCF, notice shall be provided no later than April 1 of the fiscal year at the end of which termination is planned, unless an agreeable alternative date is mutually agreed on.

D. Services:

The ANTHC agrees to the General Objectives and Assurances as set forth in the Phase One contract with the modifications and amendments provided for herein. The ANTHC has modified, and will continue to modify as necessary, General Objectives and Assurances, to reflect emerging agreements between the ANTHC, SCF, and rural ASU entities.

Specific services to be provided to any specific beneficiary population by either party will be defined in a purchase agreement between ANTHC and SCF. Such services will be provided in such amounts and at such time as stipulated in the purchase agreement.

The ANTHC agrees that concerned Tribes and Tribal health organizations may require specific services not reflected in any purchase agreement between the ANTHC and SCF. Such requests will be formally considered in the ongoing planning and resource allocation processes shared by the aforementioned parties.

The ANTHC agrees and commits to consider adjusting service types, amounts and frequency as resources allow and as necessary, based upon shared acknowledgment of changes to mission requirements as well as identified and expressed changes in beneficiary needs.

E. Integration and coordination:

The ANTHC shall maintain an integrated and coordinated approach among all Tribal entities providing health care to Alaska Natives and American Indians on the Alaska Native Medical Center Campus while assuring the current level and scope of services to all Alaska Natives and American Indians currently receiving care from ANMC. This shall be done in recognition of the roles and responsibilities of each of the Tribal entities providing care to the Native population.

F. Level and scope of service:

The ANTHC shall provide and maintain the October 1, 1997 level and scope of services to all IHS beneficiaries. The "level of service as of 10/1/97" shall mean the menu of services budgeted by the ANMC as of 10/1/97, except to the extent the resources and responsibility for such services are transferred to SCF under the authority of Section 325(d) of P.L. 105-83 or otherwise under contract or compact.

G. General training:

The ANTHC shall provide continuing education and general training to all ANTHC staff as appropriate on the policies and procedures of the organization, P.L. 93-638 law and regulations, JCAHO and other administrative and governmental requirements necessary for operation.

H. Continuous quality improvement:

The ANTHC shall support a continuous quality improvement process (CQI) at the Alaska Native Medical Center that supports JCAHO requirements and provides for full ANTHC Board involvement in quality improvement.

I. Fiscal stability:

The ANTHC shall provide for a stable fiscal environment by insuring: accurate and timely accounting and fiscal reporting; adequate cash flow to the organization; and collection of all fees from third parties for all services provided in the hospital when a third party exists which has liability for care.

J. Service to Beneficiaries:

All directly provided services of the ANMC to be provided by the ANTHC under this proposal will be provided to all eligible IHS beneficiaries within Alaska without direct charge to the beneficiary or regard to place of residence.

K. Contract health:

Consistent with the current IHS eligibility and contract health service regulations, the ANTHC will provide contract health services under IHS contract to all Alaska Natives and American Indians residing in the ANMC contract health service delivery area (i.e., the state of Alaska), except to the extent that another Tribe or Tribal organization has assumed responsibility for the contract health services for the geographic area within Alaska served by that Tribe or Tribal organization.

L. Maintenance of PFSAs:

To ensure continuity and stability, the ANTHC will not eliminate any of the PFSAs of the Alaska Native Medical Center, the Office of Environmental Health and Engineering and the Area Office during the first three years of operations, without a vote of the ANTHC Board of Directors, except when redesign or elimination of PFSAs is required due to reductions in ATHC tribal restricted shares and Co-signer restricted shares supporting these PFSAs, decreases in funding, or to redesign as required by other Tribal entities contracting for all portions of these PFSAs.

M. Continuing Services Agreements:

Subject to revisions negotiated between the ATHC and the IHS, the ANTHC will continue to honor the requirements of the Continuing Services Agreement and provide all the non-residual Level 1 services defined in the ATHC Continuing Service Agreement to all Tribes and Tribal health programs in Alaska.

N. Individualized services:

The ANTHC will also strive to maintain the capacity to provide individualized services to Co-signers(s) based on annual negotiation of Co-signer restricted shares. These agreements will include specific levels of service delivery and costs as indicated in each Co-signer's AFA and in IHS document. If, for any reasons permitted under IHS proposal, the ANTHC is unable to perform a PFSA for which a Tribe or Tribal organization individually restricted shares, notice will be provided promptly to the Co-signer, and the unexpended funds will be provided to the Co-signer by the ANTHC. The amount of funds to be provided to the Co-signer shall be determined in accordance with the ATHC Tribal shares distribution methodology in effect at the time the ANTHC discontinues providing the PFSA to the Tribe or Tribal organization.

O. Responsibility for PFSAs:

The ANTHC will assume responsibilities for PFSAs supported by "ATHC Tribal restricted shares" to the extent that the shares are placed in the ANTHC to fund the responsibilities. These "ATHC Tribal restricted shares" were reserved to support ANMC PFSAs and to provide statewide services. They will be negotiated in the ANTHC contract on an annual basis to allow continuing discussions at the ATHC on restricting these shares. Many of the PFSAs include such sensitive issues as CHAP training, the ANHB cooperative agreement, and other direct support to regions. It is the intent of the ANTHC for the decisions on these types of funding to remain at the ATHC level.

P. Existing agreements:

The ANTHC will strive to honor existing agreements of the Hospital and Area Office with other external agencies which pertain to the PFSAs to be contracted by the ANTHC, provided, however, that IHS will review these agreements and incorporate them into the

ANTHC's AFA. These include the Center for Disease Control, the Federal partnership, and other training programs for the initial year of the contract. This does not include any collective bargaining agreement between the Federal government and any bargaining unit.

Q. Provision of PFSAs:

The ANTHC will strive to provide all PFSAs currently provided to the greater Anchorage metropolitan area and to the rural Anchorage Service Unit (except to the extent the resources and responsibility for such services are transferred to SCF under the authority of Section 325(d) of P.L. 105-83 or otherwise under contract or compact) Villages and Tribal health organizations at October 1, 1997 levels or higher. Detailed specification of service level and evaluation procedures are provided in IHS proposal. When the ANTHC is not able to provide October 1, 1997 levels of service, due to funding variations or other reasons beyond its control it will provide explanation to the affected Village or region in writing.

R. Federal supply and services:

The ANTHC, utilizing the authorities under P.L. 93-638, will continue to make available federal sources of supply and services for the initial year of operation under the ANTHC to ensure existing supplier relationships are assured and necessary services are obtained to support the operation of ANMC and the projects of the Offices of OEHE.

S. Credentials:

All medical staff employed by the ANTHC shall meet the credentials requirements of the Credentials Committee of the Alaska Native Medical Center, and all requirements shall continue to be consistent with Joint Commission on the Accreditation of Healthcare Organizations (JCAHO) standards and standards consistently applied throughout the United States.

T. JCAHO accreditation participation:

All staff on the ANMC Campus, including those employed by ANTHC, shall participate in and provide support for ongoing JCAHO accreditation.

U. Case management:

The ANTHC and SCF staff shall provide case management, consultation and quality assurance for patients referred to and from ANMC at or above 10/1/97 levels. The responsibility for doing so shall reside where the most appropriate expertise is available.

V. Triage and acute care:

The ANTHC programs in the Alaska Native Medical Center shall provide triage and care for acutely ill patients without regard to their place of residence.

W. Pediatric services:

Pediatric services provided at the outpatients children's clinic, the pediatric inpatient ward, pediatric specialty services, and pediatric services provided to regional hospitals will be under the program direction of Southcentral Foundation's Pediatric Medical Director. The pediatricians employed by both SCF and ANTHC will be under the clinical supervision of the Pediatric Medical Director engaged through SCF. The

Pediatric Medical Director's responsibility will include directing quality improvement activities of the inpatient services, directing program development in inpatient and specialty pediatric services, and clinical supervision and oversight of the inpatient pediatric nursing program. IHS Medical Director position will be filled by SCF with input from the ANTHC and will be supervised by SCF with input from the ANTHC in regard to inpatient issues. Pediatric service issues that cannot be resolved at the level of the Pediatric Medical Director will be settled by the ANMC Medical Administrator and SCF VP of Medical Services.

X. Psychiatric services:

Psychiatric services provided at the outpatient psychiatric clinic, on the inpatient wards, psychiatric specialty services, psychiatric services provided in field clinics, and psychiatric services provided by ANMC to regional hospitals will be under the program direction of SCF's Psychiatry Services Director. IHS Medical Director position will be filled by SCF with input from the ANTHC and will be supervised by SCF with input from the ANTHC in regard to inpatient issues. IHS Psychiatry Services Director will also function as the Chief of Staff for the psychiatrists and psychologists employed throughout the ANPCC or ANMC by SCF or the ANTHC. The Psychiatry Director's responsibility will include directing quality improvement activities of the inpatient services and directing program development in inpatient and specialty psychiatric services.

Y. Family medicine:

Family medicine services provided at the outpatient family medicine clinics, on the inpatient ward, specialty services, family medicine services provided in field clinics, and family medicine services provided by ANMC to regional hospitals will be under the program direction of SCF's Family Medicine Services Director. IHS Medical Director position will be filled by SCF with input from the ANTHC and will be supervised by SCF with input from the ANTHC in regard to inpatient issues. The Family Services Director's responsibility will include directing quality improvement activities of the inpatient services and directing program development in inpatient and specialty services.

Z. Collaborative physicians:

Medical staff of the ANTHC shall provide collaborating physicians for licensed approved mid-level practitioners employed at the ANMC campus and Tribal Health care providers as appropriate.

AA. Women's Health:

Women's services provided at the women's/children's clinic, the inpatient wards, OB/GYN specialty services, and OB/GYN services provided to regional hospitals will be under the program direction of Southcentral Foundation Women's Health Services Medical Director. IHS Medical Director will also function as the Chief of the Staff for the OB/GYNs engaged through SCF or ANTHC. IHS Medical Director's responsibility will include directing quality improvement activities of the inpatient services, directing program development in inpatient and specialty women's services, and clinical supervision and oversight of the inpatient OB/GYN nursing program. IHS Medical Director position will be filled by Southcentral Foundation with input from the ANTHC and will be supervised by Southcentral Foundation with input from the ANTHC in regard to inpatient issues. Women's health service issues that cannot be resolved at the level of the Women's Health Services Medical Director will be settled by the ANMC Medical Administrator and SCF VP of Medical Services.

AB. Contract Health Funding:

The ANTHC assures that no Contract Health Service funds that are in the Alaska Native Medical Center budget and under control of the ANTHC will be removed from providing direct medical services, care, and support to the hospital and the patients thereof unless previously obligated through compact agreements. The ANTHC further assures that Southcentral Foundation will have representation on the board or body that sets policy for the use of Contract Health Services funds that is proportional to the amount of Contract Health Services funds expended on beneficiaries of SCF service area.

AC. Access to services:

The ANTHC assures that the level of service available to the urban IHS beneficiary population (including the Mat-Su Valley) in all departments, all areas of the hospital, and all outpatient and community services will remain at or above the level existing on October 1, 1997, except where those services have been contracted to SCF, and where mutually agreed upon by the parties.

AD. Recognition:

The ANTHC assures:

a. that the same or higher percentage of overall budget for the ANTHC managed services be focused on services provided in SCF service area as on 10/1/97, unless agreed upon in writing by SCF;
b. that the ANTHC will continue to recognize that the Alaska Native Medical Center is the only hospital for the urban and rural Anchorage Service Unit and will continue to organize its services with that priority in mind;
c. that Southcentral Foundation be recognized by the ANTHC as the official representative for the urban Anchorage Native population on issues of health and health related services-in working with the ANTHC, the city, the State, the Federal Government, Indian Health Service, and others;
d. that the ANTHC supports SCF as the advocate for Native health issues in areas related to primary care, community health, and public health for the IHS beneficiaries served by SCF in the Anchorage, Mat-Su area;
e. that the ANTHC assures first option to SCF to employ additional medical providers with ANTHC funds in areas in which SCF has the majority share providers. For example, if ANTHC wishes to expand hospital pediatric services with ANTHC funds, then the ANTHC will first offer to purchase the service from SCF rather than creating another pediatric physician group.

AE. Obligation of funds:

ANTHC agrees not to obligate any of Southcentral Foundations's funds without SCF's prior approval.

AF. Campus staff management:

ANTHC assures that campus management groups shall adequately reflect the dual ownership of the campus.

AG. Senior management meetings:

ANTHC assures that senior ANTHC hospital management shall meet formally with SCF Campus management at least weekly to address issues of mutual concern, unless otherwise mutually agreed to. Decision making within these groups shall be by consensus to the extent possible.

AH. Competition:

The ANTHC assures that it will not directly compete or duplicate with SCF in areas of SCF activity, except where mutually agreed.

AI. Research:

The ANTHC assures that research projects involving the local population (i.e., Anchorage and Mat-Su Valley) shall be presented to SCF and the affected Tribes/Tribal Organizations for review and approval before being allowed to proceed. It further assures that the Institutional Review Board will retain its authority and responsibility regarding the review and approval of all research projects involving the ANMC and/or ANPCC. The ANTHC assures that SCF shall have a minimum of two seats on the ANTHC Institutional Review Board.

The ANTHC assures that, on request, the ANTHC Institutional Review Board will evaluate study proposals for scientific merits, safety and ethical nature, and report their findings to the requesting Tribal Health Organization.

The ANTHC assures that SCF shall own the products of the research to the extent it is possible and/or appropriate to do so.

AJ. Training:

All medical staff from the ANTHC shall continue to provide appropriate clinical training opportunities for mid-level practitioners, Community Health Aides, nursing students, medical students, resident physicians in training, and other health related professions at ANPCC and ANMC.

AK. Space:

ANTHC agrees that decisions regarding the reallocation of space within the ANMC main hospital building will be mutually resolved by the ANMC administrator, and SCF VP of Medical Services.

Unresolved disputes regarding these decisions will be referred to the Joint Operating Board for resolution.

AL. Dispute resolution:

The ANTHC shall continue to negotiate with SCF on the development of a satisfactory mechanism for resolving disputes related to the quantity and quality of services delivered.

SPECIFIC SERVICE ASSURANCES:

A. For each of the following programs, ANTHC assures that it will maintain service at a level no less than that available on October 1, 1997, and further assures that it will maintain staff with qualifications equal to or better than those held by staff of IHS program on October 1, 1997:

a. Dental;
b. Internal Medicine;
c. Diabetes;
d. Health Education;
e. Clinical Dietetics;
f. Rural Safety and Environment;
g. Hospital Safety and Environment;
h. Emergency Services;
I. Physical Therapy;
j. Pharmacy;
k. Laboratory;
l. Pathology;
m. Radiology;
n. Bio-Medical;
o. Medical Records;
p. Business Office;
q. Quality Resources;
r. Infection Control;
s. Employee Health;
t. Telecommunications; and
u. Information Systems.

B. For each of the following programs and services, ANTHC assures it will maintain or increase hours of operation, compared to October 1, 1997:

a. Clinical Dietetics;
b. Physical Therapy;
c. Pharmacy;
d. Laboratory;
e. Pathology; and
f. Medical Records.

C. Specific service assurances including the following:

1. Dental:

The ANTHC will obtain specialty care dental services, both inpatient and outpatient, from SCF through a purchase agreement. Specialty dental care (priorities 4-6) will be purchased from SCF, in accordance with the General Assurances.

ANTHC assures it will purchase any expanded dental services from Southcentral Foundation unless Southcentral Foundation agrees to a different arrangement.

2. Internal Medicine:

Internal Medicine services will be provided in accordance with the General Assurances on a statewide basis through a Hospitalist model, and will be supported jointly by the ANTHC/SCF, with SCF buying back the service component for a minimum of five years. Cancellation of the agreement, based on failure/dissatisfaction with the Hospitalist model that was agreed upon by both parties, will require a minimum of twelve months, and will require reconsideration of the allocations to SCF and the ANTHC as stipulated in the Purchase Agreement. Internal Medical Service will be responsible for Anchorage and rural ASU outpatient consultations, as well as for non-ASU consultations. The Chief of Medicine is appointed by the ANTHC with input from SCF and is responsible for directing quality improvement activities of the service, and directing program development in the inpatient and specialty internal medicine services with input from SCF.

ANTHC assures that all adult medical patients will continue to be admissible to the Internal Medicine inpatient service.

ANTHC assures that all adult medical patients will have access to Internal Medicine clinics for consultation, and all adult patients outside of the Anchorage Service Unit will have access for any outpatient internal medicine service need.

ANTHC assures that the following services will continue to be provided at the October 1, 1997 level: HIV/AIDS, infectious disease, neurology, hepatitis, diabetes, chronic debilitating arthritis, cardiology, oncology, and pulmonology.

ANTHC assures that primary care providers will have full referral access to all specialists.

ANTHC assures that at least monthly meetings with Southcentral Foundation Medical Services management will occur to ensure coordination of services unless otherwise negotiated.

ANTHC assures that it will maintain staff with qualifications equal to or better than those held by staff of IHS program on October 1, 1997, while participating with SCF in the ongoing determination of the most appropriate provider mix.

3. Social Services:

Social Service Program services will be provided in accordance with the General Assurances, with SCF and the ANTHC each managing 50% of the overall service.

4. Dietetics:

Inpatient dietetic services will remain the responsibility of the ANTHC, and provided in accordance with the General Assurances.

5. Supplies:

ANTHC assures that Southcentral Foundation programs and services shall have the same access to supplies as other medical campus programs unless otherwise negotiated. The ANTHC and SCF will conduct an annual experience based review of supply consumption and address identified issues to mutual satisfaction.

6. **Emergency Services:**

ANTHC assures that it will provide staff at a level adequate to meet the demand for services as of October 1, 1997.

ANTHC assures that it will maintain provider coverage at a level equal to or higher than that available on October 1, 1997.

ANTHC assures that it will provide support to the staff SCF has in the Emergency Department of ANMC at a level equal to or higher than that available on October 1, 1997.

7. **Family Practice Residency Program:**

The ANTHC will continue to support the Alaska Family Practice Residency Program through the provisions of Specialty training opportunities to Residents from the Program.

8. **Physical Therapy:**

ANTHC assures that it will accept all Physical Therapy referrals from Southcentral Foundation providers.

ANTHC assures that it will provide staff at a level adequate to meet the demand for services as of October 1, 1997.

ANTHC assures that it will be provide supervision and support for the Southcentral Foundation Physical Therapist located a the Anchorage Native Primary Care Center.

If the Southcentral Foundation seeks separate accreditation for the Anchorage Native Primary Care Center, ANTHC assures that it will assist in that effort.

9. **Outpatient Pharmacy:**

Outpatient pharmacy services will be provided by the ANTHC in accordance with the General Assurances, and in addition will support all rural ASU programs requiring outpatient pharmacy services.

ANTHC assures that it will provide supervision and support for the Anchorage Native Primary Care Center Pharmacy and the rural Anchorage Service Unit Pharmacy.

ANTHC assures that it will fill prescriptions for IHS beneficiaries seen at Southcentral Foundation satellite clinics, including but not limited to the Mat-Su Valley, Mountain View, and Fireweed Lane.

If the Southcentral Foundation seeks separate accreditation for the Anchorage Native Primary Care Center, ANTHC assures that it will assist in that effort.

All Pharmacists employed by the ANTHC and SCF providing services within the hospital and ANPCC shall have a valid Pharmacy license.

Pharmaceuticals

ANTHC assures that Southcentral Foundation providers and the patients whom they see shall have the same rights and privileges with regard to prescribing and accessing medications as other (non-Southcentral Foundation) ANMC hospital providers and the patients whom they see.

ANTHC assures that Southcentral Foundation shall have appropriate representation on the Pharmaceuticals and Therapeutics Committee, and any other policy-setting committee with regard to pharmaceuticals.

ANTHC assures that any off-site locations owned or contracted by Southcentral Foundation shall have the same access to pharmaceutical prescribing and provision as any on-campus services. For any additional new locations (not including an existing program that moves to a new location) established by SCF after May 1, 2000, SCF will, at its option, either pay to ANTHC a negotiated discounted cost for all pharmaceuticals directly provided by ANTHC or will include any revenue generated from the direct provision of pharmaceuticals as "generated revenue subject to revenue-sharing" to be distributed between ANTHC and SCF in accordance with the "MEMORANDUM OF AGREEMENT BETWEEN THE ALASKA NATIVE TRIBAL HEALTH CONSORTIUM AND THE SOUTHCENTRAL FOUNDATION REGARDING REVENUE SHARING (Amended and Restated October 1, 2008)" as it may be further amended. Volume increases exceeding 10% above the October 1, 2000 level at off-site SCF locations or programs existing as of May 1, 2000, except for the Mat-Su Valley, may also be negotiated pursuant to the preceding sentence.

ANTHC and Southcentral Foundation agree that the ultimate responsibility for certification and licensing of pharmacies lies with the ANTHC unless otherwise negotiated.

ANTHC assures that any development of off-site pharmacy dispensing or processing locations in the Anchorage or the Mat-Su Valley area will involve coordination with Southcentral Foundation.

There will be one formulary which will be adhered to by all providers with prescribing authority at the ANPCC, ANMC, or field clinics.

10. Lab/pathology/radiology:

Lab/pathology/radiology services will be proved by the ANTHC in accordance with the General Assurances. Funding and responsibility for providing for supplies maintenance, and equipment to support these service components will remain with the ANTHC.

All Clinical Laboratory Scientists employed by the ANTHC providing services within the hospital and ANPCC shall have a valid certification with the American Society of Clinical Pathologists, the National Certification Agency for Clinical Laboratory Scientists, or an equivalent organization.

ANTHC assures that it will provide supervision and support for the Anchorage Native Primary Care Center laboratory.

ANTHC assures that it will perform tests for IHS beneficiaries seen at Southcentral Foundation satellite clinics including but not limited to the Mat-Su Valley, Mountain View and Fireweed Lane. For any additional new locations (not including any existing program that moves to a new location) established by

SCF after May 1, 2000, in the event SCF chooses to perform lab tests at the new location, SCF will, at its option, either pay to ANTHC a negotiated discounted cost for all lab supplies provided by ANTHC or will include any revenue generated from the provision of such lab supplies as "generated revenue subject to revenue-sharing: to be distributed between ANTHC and SCF in accordance with the "MEMORANDUM OF AGREEMENT BETWEEN THE ALASKA NATIVE TRIBAL HEALTH CONSORTIUM AND SOUTHCENTRAL FOUNDATION REGARDING REVENUE SHARING (Amended and Restated October 1, 2008)" as it may be further amended. Volume increases exceeding 10% above the 10-1-2000 level at off-site SCF locations or programs existing as of May 1, 20000, except for the Mat-Su Valley, may also be negotiated pursuant to the preceding sentence.

If the Southcentral Foundation seeks separate accreditation for the Anchorage Native Primary Care Center, ANTHC assures that it will assist in that effort.

The ANTHC assures that the Laboratories will be appropriately certified and will maintain Laboratory policies.

Pathology

ANTHC assures that it will perform all tests ordered by Southcentral Foundation providers, within the limits of equipment and staff competency, the range of which must be no less than that extant on October 1, 1997.

ANTHC assures that it will perform tests for Southcentral Foundation satellite clinics, including but not limited to the Mat-Su Valley, Mountain View, and Fireweed Lane.

If the Southcentral Foundation seeks separate accreditation for the Anchorage Native Primary Care Center, ANTHC assures that it will assist in that effort.

Radiology

ANTHC assures that it will perform all tests ordered by Southcentral Foundation providers, within the limits of equipment and staff competency, the range of which must be no less than as on October 1, 1997.

ANTHC assures that it will perform tests for beneficiaries seen at Southcentral Foundation satellite clinics, including but not limited to the Mat-Su Valley, Mountain View, and Fireweed Lane.

ANTHC assures that it will provide supervision and support for the Anchorage Native Primary Care Center Radiology.

If the Southcentral Foundation seeks separate accreditation for the Anchorage Native Primary Care Center, ANTHC assures that it will assist in that effort.

The ANTHC assures that appropriate certification and accreditation for radiology staff and programs will be maintained.

11. Biomedical Services:

Biomedical services will be provided by the ANTHC in accordance with the General Assurances, and in a manner responsive to the established advisory board

for these services.

ANTHC assures that it will provide staff at a level adequate to meet the demand for services without increased waiting time or delays, as on October 1, 1997.

ANTHC assures that it will maintain all medical equipment located at the Alaska Native Medical Center, the Anchorage Native Primary Care Center, and Southcentral Foundation owned satellite clinics, including but not limited to the Mat-Su Valley, and Mountain View (excluding Fireweed Lane).

If the Southcentral Foundation seeks separate accreditation for the Anchorage Native Primary Care Center, ANTHC assures that it will assist in that effort.

12. Medical Records:

ANTHC assures that it will maintain a single Medical Records Department for the Alaska Native Medical Center and Anchorage Native Primary Care Center.

ANTHC assures that it will provide supervision and support for the Anchorage Native Primary Care Center Medical Records staff.

If the Southcentral Foundation seeks separate accreditation for the Anchorage Native Primary Care Center, ANTHC assures that it will assist in that effort.

13. Business office:

Business Office services will be provided by the ANTHC in accordance with the General Assurances, and in accordance with any Business Office Memorandum of Agreements with SF, if any exist.

ANTHC assures that it will provide billing and collection for all service provided at or through the Alaska Native Medical Center and the Anchorage Native Primary Care Center on a timely basis, recognizing the goal for the end of year one of the contract is billing for services within 30 days from the date of delivery of care.

ANTHC assures that it will provide supervision and support for the Anchorage Native Primary Care Center Billing staff.

14. Housekeeping (staff and contract):

Housekeeping (staff and contract) services will be provided by the ANTHC in accordance with the General Assurances.

ANTHC assures that it will maintain staff and/or contractor with qualifications equal to or better than those in place on October 1, 1997.

ANTHC assures that the frequency of cleaning of Southcentral Foundation space will be maintained at the level on October 1, 1997, or increased above that level.

If the Southcentral Foundation seeks separate accreditation for the Anchorage Native Primary Care Center, ANTHC assures that it will assist in that effort.

15. Laundry:

Laundry services will be provided by the ANTHC in accordance with the General Assurances.

ANTHC assures that it will maintain staff and/or a contractor with qualifications equal to or better than those in place on October 1, 1997.

ANTHC assures that the frequency of laundry services provided to Southcentral Foundation programs will be maintained at the level on October 1, 1997, or increased above that level.

If the Southcentral Foundation seeks separate accreditation for the Anchorage Native Primary Care Center, ANTHC assures it will assist in that effort.

16. Quality Resources:

Quality Resource services, including a program component previously known as "Specialty Clinics," will be provided by the ANTHC in accordance with the General Assurances.

Corporate compliance expenditures for ANMC which provide mutual benefit to ANTHC and SCF will be funded in the ratio of their respective management shares of ANMC (as of May 1, 2000, 78% by ANTHC and 22% by SCF). In order for expenditures to be shared in this ratio, such expenditures must be mutually agreed upon by the ANMC Administrator and the SCF Vice President of Medical Services.

17. Property and Supply:

ANTHC shall remain responsible for providing all costs and functions of the department except for those portions described in the purchase agreement which will be managed and owned by SCF. This includes continuation of the ANTHC paying for the four GSA vehicles used in SCF-operated programs.

18. Reserves:

Negotiated shares of the Reserve funding will be managed by ANTHC and SCF in accordance with the General Assurances. In addition, an Emergency Reserve account (a negotiated combination of $200,000 of the SCF Reserve fund and $400,000 of the ANTHC Reserve fund) will be managed jointly by the ANMC Administrator and the SCF Vice President of Medical Services.

19. Information Services:

Information services will be proved by the ANTHC in accordance with the General Assurances, and in a manner responsive to the needs of all customers on the ANMC Campus.

The ANTHC assures that it will maintain all mainframe, network, and personal computer equipment, provided, however, the cost of maintaining and upgrading such equipment shall be shared by appropriate user organizations.

Information services will be provided by the ANTHC to SCF at all locations where services are provided that generate revenue that is distributed between ANTHC and SCF in accordance with the "MEMORANDUM OF AGREEMENT BETWEEN THE ALASKA NATIVE TRIBAL HEALTH CONSORTIUM AND THE SOUTHCENTRAL FOUNDATION REGARDING REVENUE SHARING (Amended and Restated October 1, 2008)" as it may be further amended, and at all existing locations or programs of SCF as of May 1, 2000. ANTHC and SCF will negotiate an additional charge to SCF for increases in service levels exceeding he greater of 10% or costing more than $10,000, excluding hardware costs, above the May 1, 2000, level caused by program expansions at SCF locations that do not generate revenue distributed pursuant to the preceding sentence. Hardware costs at all SCF off-site locations are the responsibility of SCF.

If SCF seeks separate accreditation for the ANPCC, the ANTHC assures it will assist in that effort.

20. Telecommunication Services:

Telecommunication services will be provided by the ANTHC in accordance with the General Assurances, and in a manner responsive to the needs of all customers on the ANMC Campus.

The ANTHC assures that it will maintain all phone equipment, provided, however, the cost of maintaining and upgrading such equipment shall be shared by appropriate user organizations.

Telecommunication services will be provided by the ANTHC to SCF at all locations where services are provided that generate revenue that is distributed between ANTHC and SCF in accordance with the "MEMORANDUM OF AGREEMENT BETWEEN THE ALASKA NATIVE TRIBAL HEALTH CONSORTIUM AND THE SOUTHCENTRAL FOUNDATION REGARDING REVENUE SHARING (Amended and Restated October 1, 2008)" as it may be further amended, and at all existing locations or programs of SCF as of May 1, 2000. ANTHC and SCF will negotiate an additional charge to SCF for increases in service levels exceeding he greater of 10% or costing more than $10,000, excluding hardware costs, above the May 1, 2000, level caused by program expansions at SCF locations that do not generate revenue distributed pursuant to the preceding sentence. Hardware costs at all SCF off-site locations are the responsibility of SCF

If SCF seeks separate accreditation for the ANPCC, the ANTHC assures it will assist in the effort.

21. Hospital Education Department:

The ANTHC assures continuity of care for meeting the patient family education standards outlined by the JCAHO. The ANTHC will continue to coordinate/collaborate with SCF on patient education issues relevant to meeting and exceeding JCAHO standards set forth in chapters that cover Patient and Family Education.

The ANTHC assures to provide education courses required to maintain Clinical competency standards for physicians and nurses with responsibilities for Emergency Room, Critical Care, and emergent care of OB and Pediatric patients

at the ANMC campus which will include: ATLS, ACLS, PALLS, NRP, ALSO, and TNCC. ANMC shall continue its role as the primary provider of the ATLS and ALSO programs for providers employed by Native Health Organizations throughout Alaska. The ANTHC will assure to continue EMS education offerings at the same level as October 1, 1997 and will accept health care providers from SCF and the other regional hospitals per a buy-back process as appropriate, based on annual Tribal Share distribution.

22. Facilities and Grounds:

The ANTHC assures that the facilities and grounds services continue to be provided throughout the ANMC Campus at the October 1, 1997 level or greater.

AMENDMENT #9

HEALTH SERVICES PURCHASE AGREEMENT I
BETWEEN
THE ALASKA NATIVE TRIBAL HEALTH CONSORTIUM
AND
THE SOUTHCENTRAL FOUNDATION
FOR
SERVICES AT ALASKA NATIVE MEDICAL CENTER
(SCF Purchases from ANTHC)

In accordance with Section 20 of the "Health Services Purchase Agreement I between the Alaska Native Tribal Health Consortium and the Southcentral Foundation for Services at Alaska Native Medical Center (SCF Purchases from ANTHC)," as amended, (hereafter "Purchase Agreement I") is further amended as described below.

1. Table I.

Table I – "SCF and ANTHC Purchase Agreement I - initial FY 2009 (w/o FY 2009 recurring mandatory increases)," which is attached to this amendment, replaces Table I and Table I – Amendments 1, 2, 3, 4, 5, 6, 7, and 8 throughout Purchase Agreement I.

2. Adjusted Total Initially Negotiated.

Throughout Purchase Agreement I, wherever the phrase, "Total Initially Negotiated (Column 11 and Column 15)," appears delete it and substitute "Adjusted Total Initially Negotiated: (Column 11b and Column 15)".

3. Revenue Sharing Agreement.

All references to "Revenue Sharing Agreement" in Purchase Agreement I shall be to the "Memorandum of Agreement between the Alaska Native Tribal Health Consortium and the Southcentral Foundation Regarding Revenue Sharing (Amended and Restated October 1, 2008)."

4. Assurances.

All references to the "Assurances" throughout the Purchase Agreement I shall refer to the amended and restated Assurances, attached to this Amendment #9.

5. Section 7.

Section 7 of Purchase Agreement I shall be amended by adding a new subsection (c), to read:

> (c) Notwithstanding the requirement for annual negotiation in subsection (b) of this section 7, the budget allocation associated with ANMC Outpatient Pharmacy Operating Costs shall not be subject to adjustment prior to an effective date of October 1, 2011.

6. Scope of Service Outpatient Pharmacy Operations

Attachment I, Scope of Services, "Type I Scope: Pharmacy," on pages 2 and 3, is deleted in its entirety and replaced in its entirety by the following:

Type I Scope: Operation of Outpatient ANMC Outpatient Pharmacies

A. General Description of Outpatient Pharmacy Services.

There are three outpatient pharmacies associated with the Alaska Native Medical Center (ANMC). They are the ANMC Hospital-Based Outpatient, Rural Anchorage Service Unit (R-ASU), and Anchorage Native Primary Care Center (PCC) Pharmacies (collectively "ANMC Outpatient Pharmacies"). SCF owns and operates the PCC and R-ASU pharmacies and ANTHC operates the ANMC Hospital-Based Outpatient Pharmacy under this Purchase Agreement I.

Staff located in the PCC Pharmacy provide services primarily for the Women's Health, Mental Health, Family Medicine and Children's clinics. Staff located in the R-ASU Pharmacy provide Field Health Pharmacy Services. Staff located in the ANMC Hospital-Based Outpatient Pharmacy provide services primarily for Internal Medicine, Surgery, Eye, ENT, Orthopedics, and Emergency Department. Dental patients use both the ANMC Hospital-Based Outpatient Pharmacy and the PCC Pharmacy, as they choose. The information regarding location of staff and which pharmacy their patients use is purely informational and subject to change periodically.

The ANMC Outpatient Pharmacies provide comprehensive pharmaceutical care to outpatients living within the Anchorage Service Unit and consultative services for patients and care providers throughout the state of Alaska.

Comprehensive pharmaceutical care includes recommending therapies, dispensing medications and monitoring medication treatment plans to assure appropriate, safe, cost-effective therapies and provide patients information regarding their treatment to assure compliance and mediate potential side effects. Core pharmaceutical services also include:

- Formulary management through the ANMC Pharmacy and Therapeutics Committee to ensure the provision of rational, cost effective therapy using the best and most appropriate medications;
- Maintainance and monitoring of drug distribution through automated dispensing machines (Pyxis Medstations) in the ambulatory clinics; and
- Medication refill line and the Mediset program.

B. Funding Allocation

SCF initially acquired 41.00% of the funding for the operation of ANMC Outpatient Pharmacies and ANTHC initially received the remaining 59% of the funds. Through this Purchase Agreement I, SCF will pay ANTHC, SCF's 41. 00% share of the funding for the following array of pharmacy operating services that will be provided to eligible beneficiaries at ANMC Outpatient Pharmacies.

In addition to the funding provided above, according to the provisions of Section 7(b) of Purchase Agreement I, SCF and ANTHC have negotiated an increase in the operating cost budget for the outpatient ANMC Outpatient Pharmacies of $300,000 effective October 1, 2008. This increase is subject to increases for routine IHS appropriated increases and to increased share of revenue shared in excess of the ceiling established for FY2009 and thereafter. These negotiated increases are reflected in the amended table I to this Purchase Agreement I.

In addition for the purpose of final reconciliation and justification of Purchase Agreement I costs, as more fully described in Section 12(b)(3), the parties agree that ANTHC shall be entitled to allocate 60% (instead of 41%) of the costs of the ANMC Hospital-Based Outpatient Pharmacy.

C. Services to Be Provided by ANTHC

ANTHC will provide the following programs, services, functions, and activities (PSFAs) to eligible beneficiaries of Indian Health Service (IHS) at not less than the level of service provided as of October 1, 1997, for which ANTHC will be paid by SCF through the funding allocation described in Section B above. The PSFAs will be provided at or through the ANMC Hospital-Based Outpatient Pharmacy and are consistent with the Funding Agreements that SCF and ANTHC have finalized with the IHS.

ANTHC will continue to provide technical and professional management of all outpatient pharmacy operations at the ANMC Outpatient Pharmacies, which include licensure and accreditations to meet existing regulations. Equipment, technology and personnel will be maintained to deliver existing levels of service to all IHS beneficiaries seen at ANMC Outpatient Pharmacies.

D. Limitations

This Scope of Operation of Outpatient ANMC Outpatient Pharmacies does not include any inpatient pharmacy operations nor the purchase of outpatient pharmaceuticals, neither of which are subject to this Purchase Agreement I. Purchase of outpatient pharmaceuticals is addressed in the "Agreement between the Alaska Native Tribal Health Consortium and the Southcentral Foundation regarding Purchase of Outpatient Pharmaceuticals" (hereafter "Outpatient Pharmaceuticals Purchase Agreement").

7. EFFECTIVE DATE.

Upon approval by IHS of the amendments (regarding reallocation from ANTHC to SCF in the scope of responsibility for purchasing outpatient pharmaceuticals) to the ANTHC and SCF Funding Agreements for FY 2009, described in Section A of the Outpatient Pharmaceuticals Purchase Agreement, this Amendment #9 to Purchase Agreement I will be effective on October 1, 2008.

8. EXECUTION.

By signing below, the parties hereto agree to be bound by the terms of the Purchase Agreement I, as amended herein.

MEMORANDUM OF AGREEMENT
BETWEEN
THE ALASKA NATIVE TRIBAL HEALTH CONSORTIUM
AND
THE SOUTHCENTRAL FOUNDATION
REGARDING
REVENUE SHARING
(Amended and Restated October 1, 2008)

This Amended and Restated Memorandum of Agreement regarding Revenue Sharing ("MOA") is entered into between the Alaska Native Tribal Health Consortium ("ANTHC") and the Southcentral Foundation ("SCF"). The purpose of this MOA is to set out the parties' agreements over the collection and sharing of revenues generated at the Alaska Native Medical Center ("ANMC") and Alaska Native Primary Care Center ("ANPCC").

Section 1 – Term of MOA.

This MOA was initially effective January 1, 1999. This amended and restated MOA is effective October 1, 2008, and shall continue unless terminated and modified by a written agreement of the parties that operate ANPCC and ANMC.

Section 2 – General Terms.

(A) This MOA applies only to revenue generated and collected at ANMC and ANPCC.

(B) Any revenues generated from any source for services provided in any facility operated by SCF, except ANMC and ANPCC, shall be retained by SCF and is excluded from the scope of revenues that are to be shared by the parties under this MOA.

(C) Any revenue generated from any source for services provided in any facility operated by ANTHC, except ANMC and ANPCC, shall be retained by ANTHC and is excluded from the scope of revenues that are to be shared by the parties under this MOA.

(D) The following shall not be subject to this Revenue Sharing Agreement:

(i) revenue generated from any Dental or Optometry items and professional services provided by SCF at ANMC, which shall be billed and collected by SCF; (This limitation does not apply to ANMC facility fees that are billed by ANTHC and are covered by this Revenue Sharing Agreement. Revenue by SCF under this section shall be returned to the Optometry or Dental programs operated by SCF to be expended in support of Optometry or Dental programs.)

(ii) revenue generated from Medicaid Administrative Match agreements entered into by SCF and ANTHC with the Alaska Department of Health and Social Services individually, and independent of each other, shall be billed and retained by SCF and ANTHC respectively; and

(iii) revenue generated by ANTHC for travel provided through Quyanna House that is ultimately reimbursed by Medicaid, which shall be billed and collected by ANTHC.

(E) ANTHC shall bill and collect for healthcare services provided by ANTHC or SCF at ANMC or ANPCC, and SCF shall bill and collect for behavioral health services provided at ANPCC, from Medicaid, Medicare, TriCare (CHAMPUS), healthcare insurers, and others with financial responsibility or liability for healthcare rendered in ANMC or ANPCC. The revenues generated from these sources shall be referred to as "generated

revenue subject to revenue-sharing" in subsections (F) through (I) of this section. To be counted as "generated revenue subject to revenue-sharing," revenues must be received and available for expenditure in the relevant federal fiscal year.

(F) Beginning on October 1, 2008:

(i) SCF shall receive 27.293% of generated revenue subject to revenue-sharing up to the revenue ceiling amount of $156,273,722, representing SCF's share of the programs it manages, including ANTHC programs operated by SCF under purchase agreements.

(ii) For each fiscal year subject to this MOA, payments shall be made as follows:

(I) ANTHC has paid to SCF an advance payment of $1,750,000, which shall be retained by SCF until such time as this Revenue Sharing Agreement is terminated, at which time SCF shall refund it to ANTHC.

(II) By the fifth business day after the end of each calendar week for which revenue is due, ANTHC shall notify SCF of the amount it has collected from generated revenue subject to revenue-sharing and shall make payment to SCF of 27.293% of such collections. At the end of each fiscal year, reconciliation shall be conducted in which the total amounts collected by each party shall be added together and the total amount due to each party from the other shall be calculated, such that SCF receives 27.293% of the total and ANTHC receives 72.707% of the total up to the revenue sharing ceiling amount of $156,273,722. This reconciliation shall be complete by the fifth day of January of the subsequent fiscal year. The final payment for the fiscal year shall be made by each party by the tenth day of January of the subsequent fiscal year and shall reflect adjustments for the annual amount due to ANTHC from SCF for ANTHC's share of SCF collections.

(iii) Payments made more than 10 calendar days after they are due may be subject to a claim for late payment penalty interest calculated on the total amount due for that payment using an annual interest rate of no more than the legal rate of interest under AS 45.45.010(a). Claims must be made within three months of the due date of the payment or the claim is waived.

(iv) In addition, any generated revenue subject to revenue-sharing collected in excess of $156,273,722, for any federal fiscal year, for ANTHC and SCF at ANMC and ANPCC shall be distributed as further described below.

(I) SCF shall receive 27.279% of any generated revenue subject to revenue-sharing collected in excess of $156,273,722, representing SCF's share of the programs it both owns and manages, not including the ANTHC programs it manages under purchase agreements. The amounts due under this subsection shall be determined by a reconciliation to occur after the end of each fiscal year on the schedule described in subsection (F)(ii)(II) and be subject to interest for late payment as provided for in subsection (F)(iii).

(II) ANTHC shall retain 66.589% of any generated revenue subject to revenue-sharing collected in excess of $156,273,722, representing ANTHC's share of the programs it both owns and manages, not including the SCF programs it manages under purchase agreements.

(III) The remaining 6.132% of any generated revenue subject to revenue-sharing collected in excess of $156,273,722, representing SCF's programs that ANTHC manages under purchase agreements and ANTHC's programs that SCF manages under purchase agreements, shall be divided in accordance with the terms in Section 12b in the "Health Services Purchase Agreements I and II between the Alaska Native Tribal Health Consortium and the Southcentral Foundation for Services at Alaska Native Medical Center," as amended.

(v) If generated revenue subject to revenue-sharing collected from these sources is less than $156,273,722, for any federal fiscal year, for ANTHC and SCF at ANMC and ANPCC, the shortfall shall be divided as further described below.

(I) SCF shall return to ANTHC 27.293% of the difference between the actual amount collected and $156,273,722, representing SCF's share of the programs it manages, including the ANTHC programs it manages under purchase agreements.

(II) The amounts due under this subsection shall be determined in a reconciliation to occur after the end of each fiscal year on the schedule described in subsection (F)(ii)(II) and be subject to interest for late payment as provided for in subsection (F)(iii).

(G) In federal fiscal years following FY 2009, the advance payment amount, payment schedule, payment terms, and percentage shares described in subsection (F), shall remain unchanged. However, the revenue ceiling amount shall be adjusted based on the previous year's actual total reconciled collections or such other amount as is mutually agreed upon. Final reconciliation dates and procedures shall continue unchanged.

(H) The parties agree that all generated revenue subject to revenue-sharing collected that is ultimately allocated to either party shall be used to support and enhance the programs, functions, services and activities ("PFSAs") that are operated at or through ANMC and ANPCC.

(I) A detailed calculation of the percentage shares that SCF and ANTHC will receive under these subsections and the revenue ceiling of $156,273,722 is attached as "Table A - Amendment 9 (effective 10-1-2008) Revenue Sharing Agreement."

Section 3 – Previous Revenue Sharing Agreements.

Effective October 1, 2008, this MOA supersedes and replaces the previous Memorandum of Agreement between ANTHC and SCF, provided, however, that this MOA does not affect the reconciliation and payments due between ANTHC and SCF under the prior Memorandum of Agreement.

Section 4 – Standards for Third Party Billing and Treatment of Claims for Reimbursement from Third Party Payors.

Each party agrees to comply with all applicable laws, regulations and rules in the preparation, coding and submission of all bills and claims to third parties who may be responsible for payment of the funds described in this MOA. In the event a refund as a result of a dispute, audit or other mistake resulting in a payment due to any third party payor, the total amount of the payment (including any applicable interest and penalties) shall be deducted from the total amount of the collections in the week in which the refund is made.

If, after the funds due to SCF for the current week are included, the required adjustments are large enough to require SCF to pay ANTHC, then ANTHC may request payment from SCF. If requested, SCF shall may payment and shall be subject to the same payment schedules and conditions defined for ANTHC in section 2(F)(ii)(II) and (F)(iii).

Nothing in this section shall prevent SCF and ANTHC from entering into a prospective repayment plan with the third party payor whereby the amount due the third party payor is collected by reductions in future payments from the third party payor. In such case adjustments to the amounts due under this MOA to SCF or ANTHC shall be made consistent with the other terms and conditions herein.

Section 5 – MOA's Impact on the Alaska Tribal Health Compact.

SCF and ANTHC agree that, to the extent the terms of this MOA conflict with Article III, Section 7, of the Alaska Tribal Health Compact ("ATHC"), each party waives any rights available to it under the ATHC relating to program income, so long as this MOA remains in effect.

Section 6 – Disputes.

(A) If a dispute should arise over the terms of this MOA, the parties shall jointly submit the dispute to third party mediation. For the purposes of this section, the term "third party mediation" means a form of mediation where SCF and ANTHC nominate a third party who is not employed by or significantly involved with SCF or ANTHC to serve as a third party mediator to mediate disputes under this MOA.

(B) Nothing in subsection (A) of this section shall affect any party's right to initial legal action in an appropriate forum in order to resolve a dispute arising under this MOA.

Section 7 – Termination, Amendment and Periodic Review.

(A) This MOA may be terminated or amended at any time by written agreement of SCF and ANTHC.

(B) At such time as either SCF or ANTHC takes over additional PFSAs at ANMC or ANPCC from the other, whether under purchase agreements or by the retrocession of a PFSA by either SCF or ANTHC and related contracting of that PFSA by the other, this MOA shall be amended to appropriately adjust the sharing of generated revenues, proportionate to the additional PFSAs being assumed by SCF or ANTHC.

(C) The allocation of revenues in this MOA shall be reviewed periodically, as necessary, to determine whether the MOA creates substantial and gross inequities in funding levels. If the MOA does create substantial and gross inequities in funding levels, the parties agree to negotiate in good faith an amendment to this MOA.

Section 8 – Transition.

This Amended and Restated MOA shall become effective on the date provided for in Sections 1 and 3, only upon the Indian Health Service first entering into the amendments (regarding reallocation from ANTHC to SCF in the scope of responsibility for purchasing outpatient pharmaceuticals) to the ANTHC and SCF Funding Agreements with the Secretary of the Department of Health and Human Services for FY 2009.

By signing below, the parties hereto agree to be bound by the terms of the MOA, as amended and restated herein.

SOUTHCENTRAL FOUNDATION

By: _____

Dated: 4/8/2009

ALASKA NATIVE TRIBAL HEALTH CONSORTIUM

By: _____

SOUTHCENTRAL FOUNDATION (SCF)
Assurances Regarding Services
from the
Alaska Native Medical Center (ANMC)
and
Anchorage Native Primary Care Center (ANPCC)

GENERAL ASSURANCES:

The following general assurances are predicated on the existence of a functioning Joint Operating Board. In the event that this 'shared governance' Joint Operating Board is disbanded or significantly changed, the general assurances will be re-negotiated. These assurances replace and supersede those made by Southcentral Foundation in its Phase One contract, which took effect March 1, 1998, and are subject to the continuing availability of funding at the October 1, 1997 level.

For the purposes of these assurances, "as of October 1, 1997," as that term is used in Section 325, shall be defined as the menu of services budgeted by the Alaska Native Medical Center (ANMC) effective 10-1-97. Thus the "same level of service as of October 1, 1997" will be defined to mean the same ease of access, availability, and mix of services as those included in the budgeted menu of services effective October 1, 1997.

For the purposes of these assurances, the Alaska Native Primary Care Center (ANPCC) and the Alaska Native Medical Center Hospital will be referred to, collectively, as the "ANMC Campus."

A. Consultation:

SCF will develop and maintain a formal process for consultation with the ANTHC and appropriate tribal and non-tribal health organizations as necessary for the operation of its programs.

This formal consultation process will be designed to support equitable peer participation in the coordination of services and the allocation of resources. The process should provide for identification and resolution of shared issues and concerns through strategic initiatives. This consultation process should provide for regular and routine interaction between the organizations identified above with mechanisms for feedback on processes and consequences.

SCF will complete design and implementation of their consultation process by the sixth month of the first contract period of its Phase II contract.

B. Planning:

SCF will develop and maintain with the ANTHC a planning process for shared activities, which provides for strategic and operational consideration of products of consultation and developing changes in the Tribal and other healthcare environments, through developed shared priorities this process should provide for routine activities.

This process should promote open dialog toward sharing internal organization-specific considerations for future direction. Process activities should reduce duplication of services and resource wastage. The planning process should be designed to maximize the overall quality and quantity of service provided in and through the statewide healthcare delivery network for American Indians and Alaska Natives. At the same time it should

support coordination of member service delivery systems. This planning process should minimize internal competition while maximizing the ANTHC and SCF competitive position in the Healthcare marketplace.

C. **Flexibility for Change:**
In consideration of shared processes for ongoing consultation and planning and the products they produce, SCF will develop, maintain, and participate in a process for change management which empowers Tribes, Tribal health organizations, and individual customers such that they are active participants in their healthcare delivery systems.

SCF will manage and integrate organizational change so as to appropriately adjust to changing mission requirements, identified and expressed customer needs, and new information. The SCF will develop and maintain the capacity to work with various sectors of the Alaska health care system to address issues, concerns and needs beyond the limits of existing scopes of work and formal agreements. Where appropriate, SCF agrees to negotiate organizational and financial individual and shared adjustments to support change as a shared reality. SCF will consider, as environmental situations dictate, appropriate reallocation of resources within the scope of existing budgets and budget modifications where changes are required.

When SCF determines that they wish to terminate purchase agreements with the ANTHC, notice shall be provided no later than April 1 of the fiscal year at the end of which termination is planned, unless an agreeable alternative date is mutually agreed upon.

D. **Services:**

If specific services are to be provided to any specific beneficiary population by SCF or the ANTHC through a purchase agreement with the other party, those specific services and the beneficiary population will be defined in the purchase agreement. Such services will be provided in such amounts and at such time as stipulated in the purchase agreement.

The SCF agrees that concerned Tribes and Tribal health organizations may request specific services not reflected in any purchase agreement between the parties (i.e., SCF and the ANTHC). Such requests will be formally considered.

SCF agrees to consider adjusting service types, amounts and frequency as resources allow, based upon shared acknowledgment of changes to mission requirements as well as identified and expressed changes in beneficiary needs.

E. **Integration and coordination:**
SCF will integrate and coordinate services provided on the ANMC Campus with all Tribal entities providing services on the ANMC Campus.

F. **Level and scope of service:**
SCF shall provide and maintain the 10/1/97 level and scope of services provided to IHS beneficiaries for the services transferred to SCF under the authority of Section 325(d) of P.L. 105-83 or otherwise under contract or compact.

The "level of service as of 10/1/97" shall mean the menu of services budgeted by the ANMC as of 10/1/97. SCF and the ANTHC agree to develop and use a reference for determining the menu of services provided at and through the ANMC campus. SCF will provide this level of services except where the ANTHC has been provided with the resources.

G. **Continuous quality improvement:**
The SCF shall support a continuous quality improvement process.

H. **Service to beneficiaries:**
SCF direct care services on the ANMC Campus under Phase I and Phase II contracts will be provided to all eligible IHS beneficiaries within Alaska without direct charge to the beneficiary or regard to place of residence.

I. **Credentials:**
All medical staff employed by SCF who have privileges at the ANMC shall meet the credentials requirements of the Credentials Committee of the Alaska Native Medical Center, and all credentialing requirements shall continue to be consistent with Joint Commission on the Accreditation of Healthcare Organizations (JCAHO) standards and standards consistently applied throughout the United States.

J. **JCAHO accreditation participation:**
All staff on the ANMC campus, including those employed by SCF who participate in the functions of the ANMC, shall participate in and provide support for ongoing JCAHO accreditation.

K. **Case management:**
The ANTHC and SCF shall provide case management and quality assurance at the same level provided as of October 1, 1997 for patients referred to and from ANMC . The responsibility for doing so shall lie where the most appropriate expertise is available.

L. **Collaborative physicians:**
Medical staff of SCF shall provide collaborating physicians for licensed, approved mid-level practitioners employed at the ANMC Campus and by tribal health providers in the rural ASU, as appropriate.

M. **Specific service assurances:**
SCF assures that all programs, services, functions, and activities for which the ANTHC has a purchase agreement with the SCF will be provided at the quantity and level of service consistent with the terms of the specific purchase agreement. In addition, SCF assures the ANTHC that the provision of care or support specified in each purchase agreement will continue to be served without regard to the beneficiary's place of residence.

N. **Service expansion:**
The SCF assures first option to ANTHC to employ additional medical providers with SCF funds in areas in which ANTHC has the majority share of the providers. For example, if SCF wishes to expand hospitalist Internal Medicine services with SCF funds, then SCF will first offer to purchase the service from the ANTHC rather than creating another hospitalist internal medicine physician group.

O. **Obligation of funds:**
SCF agrees not to obligate any of the ANTHC funds without the ANTHC's prior approval.

P. **Campus staff leadership:**
SCF assures that campus management groups shall adequately reflect the dual ownership of the campus.

Q. **Hospital Committees:**
SCF will have representation on appropriate hospital committees (e.g., safety committee).

R. **Senior management meetings:**
SCF assures that senior SCF management shall meet formally with the ANTHC hospital leadership at least weekly to address issues of mutual concern. Decision making within these groups shall be by consensus to the extent possible.

S. **Competition:**
SCF assures that it will not directly compete or duplicate services with the ANTHC in areas of ANTHC activity, except where mutually agreed.

T. Training:
SCF medical staff shall continue to provide appropriate clinical training opportunities for mid-level practitioners, Community Health Aides, nursing students, medical students, resident physicians, and other health related professionals at ANPCC and Alaska Native Medical Center.

U. Access to services:
SCF assures that the level of service that it provides under this contract to the urban and non-urban IHS beneficiary population (including the Mat-Su Valley) in all departments, all areas of the hospital, and all outpatient and community services will remain at or above the level existing on 10/1/1997 except as modified by the implementation of the hospitalist model resulting in changed roles in internal medicine and family medicine, as agreed by SCF and ANTHC.

V. Space:
SCF agrees that decisions regarding the reallocation of space within the ANMC main hospital building will be mutually resolved by the ANMC administrator and the SCF VP of Medical Services. Unresolved disputes regarding these decisions will be referred to the Joint Operating Board for resolution.

W. Obstetrics and pediatrics inpatient units:
SCF shall assure adequate physician coverage for obstetrics and pediatrics inpatient units at ANMC, at the 10/1/97 level.

X. Emergency room:
SCF physicians working within the hospital shall interact in an appropriate manner with the emergency room to provide high quality care to all patients. SCF and ANTHC will jointly provide appropriate and sufficient medical staff who will also accept call to support care of AN/AI patients by physicians in the regional tribal health system hospitals and health centers, public health nurses, and community health aides or other community providers.

Y. Ambulatory care:
SCF shall provide scheduled primary ambulatory care and preventive services for Alaska Natives in either the ANPCC or in the urgent care center of ANMC.

Z. Triage:
The ANPCC or ANMC urgent care center shall provide triage and urgent care on a walk-in basis for acutely ill patients without regard to their place of residence.

AA. Consultations:
The ANPCC medical staff shall provide the 10/1/97 level of appropriate specialty consultation in Mental Health, pediatrics and Women's Health Care for patients on referral from other primary care specialists in the Alaska Native health system, including ANMC and field tribal health programs.

BB. Field Clinics:
The ANPCC medical staff shall provide regularly scheduled specialty field clinics in Mental Health, Pediatrics and Women's Health Care to support activities of the ANMC tertiary care programs and field tribal health programs. SCF shall strive to provide field health clinics at the 10/1/97 level.

CC. School support:
The pediatric medical staff shall continue to provide the 10/1/97 level of consultation and support statewide to school districts (special education/therapists), infant learning programs, and public health nurses.

DD. Psychiatric services:
Psychiatric services provided at the outpatient psychiatric clinic, on the inpatient wards, psychiatric specialty services, psychiatric services provided in field clinics, and psychiatric services provided by ANMC to regional hospitals will be

under the program direction of SCF's Psychiatry Services Director. This Psychiatry Services Director will also function as the Chief of Staff for the psychiatrists and psychologists employed throughout the ANPCC or ANMC by SCF or the Consortium. The Psychiatry Director will be filled by SCF with input from the ANTHC and will be supervised by SCF with input from ANTHC in regard to inpatient issues. The Psychiatry Director's responsibility will include directing quality improvement activities of the inpatient services and directing program development in inpatient and specialty psychiatry services.

EE. Family medicine:

Family Medicine services provided at outpatient family medicine clinics, on the inpatient ward, specialty services, family medicine services provided in field clinics, and family medicine services provided by ANMC to regional hospitals will be under the program direction of SCF's Family Medicine Services Director. The Family Services Director's responsibility will include directing quality improvement activities of the inpatient services and directing program development in inpatient and specialty services, with input from ANTHC. This Family Services Medical Director will be filled by SCF with input from the ANTHC and will be supervised by SCF with input from the ANTHC in regard to inpatient issues.

FF. Pediatrics:

SCF's pediatric staff of the ANPCC shall continue to provide the 10/1/97 level of sub-specialty care to the IHS beneficiary population at select locations throughout the State. Pediatric services provided at the outpatient children's clinic, the pediatric inpatient ward, pediatric specialty services, and pediatric services provided to regional hospitals will be under the program direction of Southcentral Foundation's Pediatric Medical Director. The pediatricians employed by both SCF and the ANTHC will be under the clinical supervision of the Pediatric Medical Director engaged by Southcentral Foundation. This Pediatric Medical Director's responsibility will include directing quality improvement activities in the inpatient services, directing program development in inpatient and specialty pediatric services, and clinical supervision and oversight of the inpatient pediatric nursing program. This Pediatric Medical Director will be filled by SCF with input from the ANTHC and will be supervised by SCF with input from the ANTHC in regard to inpatient issues. Pediatric service issues that cannot be resolved at the level of the Pediatric Medical Director, will be settled by the ANMC Medical Administrator and SCF VP of Medical Services.

GG. OB/GYN:

SCF's OB/GYN medical staff of the ANPCC shall continue to provide high-risk and sub-specialty care throughout the State to the IHS beneficiary population at the 10/1/97 level. In keeping with the requirements of the JCAHO, hospital staff bylaws, and the corporate processes of SCF, there will need to be separate processes to identify a chief of the SCF women's health unit and the head of Obstetrics and Gynecology for the hospital. The head of OB/Gyn for hospital purposes shall be elected from among the obstetricians and gynecologist on staff at the hospital. This physician shall function as the Chief of Staff for women's health providers working within the hospital hire by any entity for hospital related functions. This person's responsibility will include hospital privileging, directing quality improvement activities of the inpatient services, directing program development in inpatient and specialty services, and supervising the inpatient obstetric nursing program. The hospital will have the option to revoke the nursing supervisory function of the physician should they see fit to do so.

HH. Inpatient care:

The ANPCC medical staff shall assist in providing comprehensive, continuing patient and family education, and discharge planning process support of the therapeutic activities during the inpatient stay for patients.

II. Prematernal home:

The OB/GYN medical staff will continue to provide support and medical oversight for IHS beneficiaries in Care Cottage prematernal home.

JJ. OB/GYN cancer screening:

It is SCF's intent that the OB/GYN service line will continue to provide not less than the 10/1/97 level of support for statewide cervical and breast cancer screening programs of the Alaska Native health system, so long as grant funding remains available. This program has been largely dependent on grant funding, including a CDC grant.

KK. Statewide services:

SCF recognizes that Section 325(d) of P.L. 105-83 gives it responsibilities for provision of certain services to Alaska Natives outside the previously defined service area of SCF, and that some of the services are provided at select locations throughout the State and will be maintained at the 10/1/97 level.

LL. Generated Revenue:

Revenue generated from specialty clinics offered outside the ANPCC or ANMC at the 10/1/97 level of service shall be retained by the facility in which the clinic was held. All costs of conducting the clinic, including but not limited to travel, per diem, and provision of supplies and equipment, but excluding salaries, shall be borne by the facility where the specialty clinic was held. If SCF is able to provide a level of specialty services exceeding that provided as of October 1, 1997, any revenue generated from the provision of such additional specialty clinics shall be allocated based on a separate agreement between SCF and the tribal health program.

Revenue generated from field physician visits in the rural Anchorage Service Unit offered at the 10/1/97 level shall be retained by the facility in which the clinic was held. If SCF is able to provide a level of service exceeding that provided as of October 1, 1997, any revenue generated from the provision of such additional field physician visits in the rural Anchorage Service Unit shall be allocated based on a separate agreement between SCF and the tribal health program.

MM. Recognition:

SCF recognizes the ANMC Hospital Administrator as the primary spokesperson for issues falling primarily within the domain of essential statewide health services provided at ANMC.

NN. Medical Representation:

The ANTHC CEO and the SCF CEO shall address jointly, or mutually agree upon a designated spokesperson, medical issues of joint interest, eg., measles epidemic.

OO. Research:

SCF assures that research projects involving staff on the ANMC Campus will be reviewed by the ANMC IRB.

SCF assures that research projects involving any rural villages shall be presented to the leadership of the affected villages for their review and approval before initiation of ~~of~~ such research projects.

~~PP. Obligation of Funds:~~

~~SCF agrees not to obligate any of ANTHC's funds without ANTHC's prior approval.~~

~~QQ. Dispute resolution:~~

~~The SCF shall continue to negotiate with the ANTHC on the development of a satisfactory mechanism for resolving disputes related to the quantity and quality of services delivered.~~

SPECIFIC SERVICE ASSURANCES:

1. **Dental:**
Dental Services will be provided by SCF in accordance with the current IHS dental priority system.

2. **Optometry:**
Optometry services will be provided by SCF in accordance with these General Assurances. In addition, the SCF opticians will support and travel with or without the ANTHC ophthalmologists on field trips at SCF expense (at the level of October 1, 1997).

3. **Audiology:**
Audiology services will be provided by SCF in accordance with these General Assurances. In addition, the SCF audiologists will support and travel with the ANTHC Ear/Nose/Throat physicians on field trips at SCF expense , and support the ANTHC Ear/Nose/Throat physicians in the ANMC at the 10/1/97 level.

4. **Internal Medicine:**
Internal Medicine services, will be provided in accordance with these General Assurances on a statewide basis through a Hospitalist model, and will be supported jointly by the ANTHC/SCF, with SCF buying back the service component through a purchase agreement for a minimum of five years. Cancellation of the agreement, based on failure/dissatisfaction with the Hospitalist model that was agreed upon by both parties, will require a minimum notice of one year. Under these circumstances, SCF agrees to participate in a program re-design activity and reconsideration of allocations.

5. **Social Services:**
Social Service Program services will be provided in accordance with the General Assurances. SCF Social Service staff will participate in the 'call', and coverage rotations as required to meet the Hospital staffing needs at the 10/1/97 level.

6. **Dietetics:**
Outpatient dietetics services will be provided by SCF in accordance with the General Assurances. The SCF Dietetics staff will participate in the 'call' and coverage rotations as required to meet the Hospital staffing needs at the 10/1/97 level.

7. **Family Practice Residency Program:**
SCF will continue to support the Alaska Family Practice Residency Program through the allocation of at least $100,000 in staff or other resources to the program.

8. **Reserves:**
An Emergency Reserve account (a negotiated combination of $200,000 of the SCF Reserve fund and $400,000 of the ANTHC Reserve fund) will be managed jointly by the ANMC Administrator and the SCF Vice President of Medical Services.

9. **Property and Supply**
SCF assures that it will enter into a purchase agreement with the ANTHC not to exceed one year (i.e., the remaining nine months of FY 1999) before which time it will be renegotiated between SCF and the ANTHC. In the first year, SCF will: (a) review department operations to determine feasibility of further separation of duties and functions without harm to either SCF or the ANTHC; (b) develop its corporate-wide materials management function in consideration of the above-described review; (c) manage and pay for the Courier contract for the ANPCC; (d) be responsible for delivery of all SCF mail addressed to 4501 Diplomacy and all off-campus locations; (e) provide secretarial and administrative support for its 1.0 FTE position; and (f) be responsible for consolidating and integrating all Material Management and Property functions and reports from SCF's off-campus locations (and 4501 Diplomacy) with those provided by ANTHC for SCF on-campus

locations. In the first year, ANTHC will remain responsible for providing all other costs and functions of the department as described, including paying for the 4 GSA vehicles currently used in SCF-operated programs.

10. **Lab/Pathology/Radiology:**
All Clinical Laboratory Scientists employed by SCF providing services with in the hospital and ANPCC shall have a valid certification with the American Society of Clinical Pathologists, the National Certification Agency for Clinical Laboratory Scientists, or equivalent organization.

Carved Wooden Panels	2nd Floor, Outside (adjacent) To Meditation Room

Alaska Native Tribal Health Consortium

APPENDIX M
ANTHC M&I Pools Opt In/Opt Out Process
October 1, 2021

1. Introduction

The Alaska Native Tribal Health System (ATHS) has two Maintenance and Improvement (M&I) Project Pools (Pools) that are overseen by the Alaska Native Tribal Health Consortium (ANTHC) and its Maintenance and Improvement Resource Allocation Committee ((MIRAC), an advisory committee of the ANTHC's Board of Directors). The Pools are managed by the ANTHC Division of Environmental Health and Engineering (DEHE). This Appendix sets forth the ANTHC process by which eligible[1/] tribes and tribal organizations (TTOs) may choose whether to participate in the Pools by "opting in" or "opting out."

2. Background

2.1 Establishment of Competitive Pool

The Alaska Area Native Health Service (AANHS) established the M&I Competitive Project Pool in FY1994 when IHS Headquarters Office of Environmental Health and Engineering (OEHE HQE) first distributed M&I project funds to all IHS Areas for prioritization and further distribution to eligible individual facilities.[2/] Prior to that date, M&I projects were directly awarded by OEHE HQE.

The Competitive Project Pool was originally funded by IHS with two-thirds of the Alaska M&I fund allocation, comprised of the Backlog of Essential Maintenance, Alteration, and Repair (BEMAR) amount and the non-routine half of the University of Oklahoma (U of O) amount.[3/] AANHS combined these non-routine funds and the BEMAR funds and distributed them to eligible facilities as projects through the Competitive Project Pool. ANTHC assumed management of the Competitive Project Pool in FY1999 and largely continued to follow the procedures established by IHS.

Effective in FY2006, the IHS and ANTHC jointly agreed to change the allocation of "routine" funds so that IHS transfers two-thirds of the annual Alaska M&I fund allocation directly to eligible TTOs in their Funding Agreements (FA) as "routine" M&I funding. This decreased the amount of the funds in the Pool from two-thirds to one-third of the Alaska M&I allocation. This remaining one-third continues to be reserved for the M&I Competitive Pool administered by ANTHC.

[1/] Eligible TTOs include TTOs that manage facilities that are eligible for M&I funding.
[2/] Eligible facilities include those that are eligible to receive M&I funding and are typically listed in the Health Facilities Data System (HFDS) maintained by the IHS.
[3/] In Alaska, the other half of the U of O formula amount, the "routine" portion, (historically representing one-third of the total Alaska M&I funds allocations), has been directly distributed by IHS through funding agreements of eligible TTOs.

2.2. Establishment of BEMAR Pool

In FY2018, a separate BEMAR Pool was established to manage BEMAR funds. BEMAR funding was included in the Competitive Pool prior to FY2018.

2.3. Current Components

ANTHC currently manages M&I funds as four components: (1) the Competitive Pool; (2) the BEMAR Pool; (3) the small clinic set-aside; and (4) facility assessment ("deep look") survey set-aside.

2.4. Opportunity to Opt In and Opt Out of Pools

As provided in this Appendix, TTOs may choose to "opt out" of participation in either or both of the Pools. A federal facility's eligibility for other funding is not affected by a TTO decision to opt in or out of the Competitive Pool or the BEMAR Pool.

3. Guiding Principles and Objectives

3.1 The Guiding Principles for Operation of the M&I Pools

ANTHC operates the pools around three guiding principles:

- **Equity of outcome:** Eligible TTOs have equitable access to the funds based upon the criticality of their need, resulting in a network of health facilities maintained at equivalent levels;

- **Equity of distribution:** Over time eligible TTOs will receive support commensurate with the funds allocated for their eligible facilities; and

- **Respect for Tribal priorities:** Support for local decision-making about facility maintenance and improvement.

The Pools are a positive force in sustaining Alaska's eligible Native health care facilities, providing emergency funds and serving as an investment pool. Eligible TTOs often come to the fund when costly plant equipment fails and requires emergency repairs in order for their health facilities to operate.

This framework seeks to balance the operational advantages of this system with self-determination and local control by providing a process for eligible TTOs to opt in or opt out of the Pools in a manner that balances the goals embedded in the guiding principles, optimizes the use of ATHS resources to maintain eligible facilities, and mitigates potential adverse financial impact on those eligible TTOs continuing to participate in the Pools.

3.2 Objectives When TTOs Elect to Opt Out of the Pools

3.2.1 Protect Pool Viability

The goal for the opt in/out process is to equally protect the financial interests of all eligible TTOs and to optimize the resources available to maintain ATHS facilities.

3.2.2 Competitive Pool Protections

The Competitive Pool criteria emphasize the relative need of facilities. Thus, the relatively lower needs of newer facilities allow funding to be directed to older facilities so that all eligible facilities are maintained at an equivalent level. As the newer facilities age, this framework provides them with a similarly elevated level of financial support. Because this framework also creates the potential for unintentional advantages for a TTO electing to opt out of the Competitive Pool, repayment is required in some cases. In addition, TTOs that opt out of the Competitive Pool continue to have an obligation to protect the Pool for those TTOs that opt in by contributing to small clinic and the deep look survey set-asides.

3.2.2.1 Small Clinic Set-Aside. Small clinics are more reliant on the Competitive Pool than larger facilities, therefore a small clinic set-aside has been implemented at 12% since FY2004. The small clinic set-aside amount may be evaluated and, if needed adjusted in coordination with IHS, to account for changes in the number and size of eligible facilities participating in the Pool and the amount of available Competitive Pool funding.

3.2.2.2 Deep Look Survey Set-Aside. Competitive Pool funds are used to ensure timely completion of facility condition surveys (deep look surveys) to update the IHS Health Facilities Data System (HFDS). IHS uses the HFDS documentation of unmet need as budget justification for the BEMAR funds, helping to ensure ATHS has the necessary resources to adequately maintain eligible facilities. All facilities receiving M&I funds will continue to participate in ANTHC's facilities condition assessment process.

3.2.2.3 Competitive Pool Payback. Project funding payback is required for a TTO opting out of the Competitive Pool if it received more than 110 percent of the total amount contributed to that Pool as a result of its participation.[4/] TTOs opting to leave the Competitive Pool who received less than 110 percent of what they contributed in disbursements from the Pool require no mitigating actions. Their contributions help to offset the financial impact on the other members resulting from the reduced Pool size. The TTO could reimburse the Pool, through:

[4/] Repayment calculations related to opting in and out are based on Project Pool revenue and funds distribution since inception of the Alaska Area M&I Project Pool concept in FY1994 with respect to the Competitive Project Pool.

3.2.2.3.1 Repaying a lump sum to the Pool;

3.2.2.3.2 Each year deducting half of the amount that would otherwise be distributed to it (half the Pool amount available after subtracting contributions to the small clinic and deep look set-asides), until its total Competitive Project Pool contributions are within 10 percent of the disbursements it has received; or

3.2.2.3.3 Other repayment arrangements, such as extending the start date or payment schedule, that may be negotiated in a Competitive Project Pool Support Agreement.

4. Operational Framework

TTOs may elect to opt out of either Pool or both Pools as described in this Section.

4.1 Process for Opting Out of the Competitive Pool

4.1.1 TTOs that choose to opt out of the Competitive Pool must do so with respect to all of their eligible tribally owned facilities. They may not opt out with respect to their federally owned facilities. Tribes and tribal organizations with eligible tribally owned facilities may not opt out of participation in the small clinic or the deep look survey set-asides and may be subject to repayment requirements as provided in section 3.2.2.3.

4.1.2 By March 15 of each year, ANTHC will deliver to each eligible TTO an accounting of the Competitive Pool revenue and disbursements through the current fiscal year, including any approved awards not yet disbursed.

4.1.3 By April 10 of the federal fiscal year prior to opting out, a TTO will notify the DEHE Senior Director and the IHS Agency Lead Negotiator in writing if it intends to opt out of the Competitive Project Pool, provided that ANTHC, in collaboration with and approval by the AANHS, may agree to change the timing as needed to coordinate with funding agreement negotiations, funding deadlines or other relevant issues. ANTHC will provide advance notice and coordinate with participating TTOs and the AANHS on such changes.

4.1.4 For the opt out election to be effective, the TTO must also negotiate modifications to its funding agreement with the IHS, in coordination with ANTHC, and enter into a Competitive Project Pool support agreement with ANTHC. The Competitive Project Pool support agreement will address the deep look survey and small clinic set-aside funds, and any amounts that must be repaid, as described in section 3.2.2. At a minimum, such agreements will identify payment processes, schedules, and amounts. The agreements will also include assurances to protect other TTOs from

adverse impacts of changes to pool participation.

4.1.5 The amount that can be withdrawn from the Competitive Pool for distribution to a TTO that is opting out is based on the available amount contributed to the Pool under the U of O formula as a result of the TTO's participation in the pool for its eligible tribally owned facilities.

4.1.6 When a TTO opts out of the Competitive Project Pool, the IHS will redesignate the M&I identified amount from the Competitive Project Pool as routine funds and IHS will directly distribute those funds to the TTO.

4.2 Process for Opting Out of the BEMAR Pool

4.2.1 TTOs that choose to opt out of the BEMAR Pool must do so with respect to all of their eligible federally and tribally owned facilities.

4.2.2 ANTHC and AANHS will identify the amount of the BEMAR Pool that may be withdrawn for each TTO that may opt out of the BEMAR Pool for the current fiscal year. AANHS will notify ANTHC of the available amount and provide a copy of the relevant data. ANTHC will notify the TTO managing each facility of that amount as soon as practicable, including a copy to the AANHS, but not later than 45 days prior to the deadline for submitting projects to the MIRAC for consideration for funding from the current year BEMAR Pool.

4.2.3 To be effective for the current fiscal year, the TTO must notify the DEHE Senior Director and the IHS Agency Lead Negotiator that it is opting out of the BEMAR Pool with respect to all of its eligible federally and tribally owned facilities within 15 days of its receipt of such notice of the identified BEMAR funding.

4.2.4 For the opt out election to be effective, the TTO must also negotiate modifications to its funding agreement with the AANHS (in coordination with ANTHC).

4.2.5 The amount of funds that may be available from the BEMAR Pool to a TTO that is opting out is calculated based on the average of its percentage of the U of O formula funds allocated to the Alaska Area as a result of the TTO's eligible tribally and federally owned facilities and the percentage of BEMAR funds (FEDS[5/] deficiencies) allocated to Alaska Area as a result of the TTO's eligible tribally and federally owned facilities.

4.2.6 When a TTO opts out of the BEMAR Pool, the TTO may include the amount described in section 4.2.5 in a negotiated Construction Project Agreement with IHS.

[5/] "FEDS" refers to the Facilities Engineering Deficiency System of which the Backlog of Essential Maintenance Alteration and Repair (BEMAR) is a subset.

4.3 Opting Back into the Pools

4.3.1 Opt In Criteria for Both Pools

4.3.1.1 By the dates provided in sections 4.1.3 and 4.2.3, a TTO will notify the DEHE Senior Director and the IHS Agency Lead Negotiator in writing of its intent to opt back into the Pool(s). Its notice must address compliance with criteria for opting back into the relevant Pool.

4.3.1.2 A TTO that has opted out of a pool must meet MIRAC new member criteria at the time the TTO opts back into the pool based on a current (less than one year old) facility condition assessment. (If not otherwise provided through ANTHC's process, or through a Competitive Project pool support agreement, the assessment must be conducted at TTO's own expense).

4.3.1.3 The TTO must be approved by IHS for re-entry for the Pool(s) and negotiate modifications with IHS (in coordination with ANTHC).

4.3.2 Competitive Pool Opt In Criteria

A TTO electing to opt back into the Competitive Pool may do so no earlier than two years after opting out. The TTO must adhere to a one year waiting period after rejoining the Competitive Pool and must opt back in with respect to all of its eligible tribally owned facilities.

4.3.3 BEMAR Opt In Criteria

A TTO electing to opt back into the BEMAR Pool may do so not earlier than four years after opting out. The TTO must adhere to a two year waiting period after rejoining the BEMAR Pool prior to receiving a distribution from the Pool and it must opt back in with respect to all of its eligible federally owned and tribally owned facilities.

4.4 MIRAC Participation

ANTHC will ensure that membership and voting on the MIRAC are adjusted for a TTO that opts out of or opts back into the Competitive Pool and/or the BEMAR Pool so that voting privileges are commensurate with a TTO's level of continuing eligibility and participation.

Alaska Native Tribal Health Consortium

APPENDIX N--1

CERTIFICATION FOR NEW/REPLACED/ADDED SPACE

IHS Area: Alaska

Certification for New /Replaced/Added Space
Agency-Related Program Space

Inclusion Criteria: Having space in use by IHS-funded health programs under PL 93-638 and primarily used by IHS-funded staff.

1)	Tribe or Tribal Organization:

Check one

☐ NEWLY ACQUIRED BUILDING
Not replacing or adding to a building already in the M&I/Equipment database.

☐ REPLACED EXISTING BUILDING
Replacing a building already In the M&I/Equipment dal abase. At the end of this form identify the existing building that was/is being replaced. Describe new building below.

☐ ADDED SPACE TO EXISTING BUILDING
Adding space to building already in the M&I/Equipment database. At the end of this form, Identify existing building being added to. Include only increased amount of space below.

Describe the space proposed to be added into the M&I/E Inventory. For additions to existing buildings, only include the additional space here. Existing building will be identified at the end.

2)	Identification of building meeting inclusion criteria above (name, number etc). Write In "ADDITION" when applicable.		
3)	Location of building (city, state, etc). Leave blank for additions.		
4)	Ownership of building (tribe, private, other). Include lease/rental type where applicable.		
5)	Building construction type. Choose from: trailer. fire resistant, masonry with wood, wood frame.		
6)	Gross square meters of addition or entire building. as applicable.		gsm
7)	Gross square meters or-actual space in use by IHS-funded health programs under PL 93-638 and primarily used by IHS-funded staff.		gsm
8)	Annual average hours of use per week by IHS-funded health programs under PL 93-638 and primarily used by IHS-funded staff.		gsm
9)	Maintenance and repair funds currently provided under contract budget, either specifically or part of rental/lease payments.		$

This form is for buildings not required to be in the official IHS/GSA real property inventory. 2/5/99

10)	Briefly describe below the health services provided under the PL 93-638 contract:

Checklist of certifications to attach for space proposed to be added into the M&I/E Inventory.

	BUILDING CODES and STRUCTURAL Attach Certificate of Occupancy or other evidence of meeting national building codes, satisfactory structural condition, and safety standards.	Cost to bring to Standard:	$

	SEISMIC (EARTHQUAKE) Attach seismic survey if applicable; Otherwise, provide basis for exemption..	Cost to bring to Standard:	$

	ENVIRONMENTAL Attach environmental assessment, Including of land.	Cost to bring to Standard:	$

	AS-BUILT SCALE DRAWING Attach as-built scaled drawing. Use metric units and scale.	Cost to bring to Standard:	$

Certified by:	Date:
Mailing Address:	
Phone with area code:	FAX number
E-mail address:	

For replacements and additions, identify existing building below.

11)	Identification of existing building which is being replaced or being added on to. (name, number. etc).	
12)	Location of existing building (city. state, etc).

FINAL REAL PROPERTY CLOSEOUT REPORT AND INTERIM REAL PROPERTY STATUS REPORT

TRIBE/TRIBAL ORGANIZATION LETTERHEAD

(SAMPLE FOR ILLUSTRATIVE PURPOSES ONLY-Site, Cost & descriptive items are fictional)

DATE:

FROM: _____Health Corporation
Facilities Manager

SUBJECT: _____ Hospital, _____, Alaska
PROJECT NO. AN2@@038H6, "*Project Name*"
FINAL REAL PROPERTY CLOSEOUT REPORT

TO: Area Realty Management Officer
Alaska Area Native Health Service

Through: ANTHC/DEHE Project Engineer _____

This Final Real Property Project Report provides an overview of the project summary, space allocation, appropriations, project milestones, and project costs including common costs and costs associated with land improvements, construction, equipment, and post-construction.

1. Project Summary

This project requested M&I funding to renovate the _____ Hospital's Information System Department computer room. Under this project, the computer room was expanded into adjacent space to meet the needs of computer equipment and new air conditioning equipment. A new UPS system was installed and sized to allow for anticipated growth of the department. The design of these modifications has already been accomplished through a contract with a mechanical engineering firm.

2. Space Allocation

Type of Space	Gross Sqft.	Gross SqM
No square footage was added during this project		
If Space is added, identify current building or provide new building description and use		
Total Space		

3. Appropriations (Total Revenue)

Appropriation Type	Amount
M&I Amount	$
Third Party Collections	$
Other Sources of Funds Identify: Tribe/TO Contributions (Attach Gifting Letter and Approval)	$
Sub-Total	$
Unused, held for future project	$
Total Appropriations	**$**

4. Project Milestones/Timelines

APPENDIX N--4

PROJECT SUMMARY DOCUMENT

IV-1.
Policy #4*.
Project Summary Document Formats

Project Summary Documents describe projects being submitted to the MIRAC for funding from the maintenance & improvement funds (both competitive BEMAR funds and non-routine non-competitive Oklahoma Formula funds). Supporting documents to the PSD typically entail 100% design drawings (for projects requesting construction funds), construction cost estimates, product literature (for equipment specific PSDs), and contractor proposals or cost estimates.

A cover letter accompanies submitted PSDs, which affirms the organization's desire to submit these projects to the MIRAC for consideration.

The sections of the PSD are listed below.

PROJECT SUMMARY DOCUMENT

[Name of Project]
[Facility Priority Number] (use for multiple PSD submittals to prioritize your projects)
[Date]
[Facilities Board Project Number]
[Facility Name]
[Location], [State]

I. SUMMARY

[Summarize the project and include what is to be done, why (e.g., to add 135 gross square meters of space or replace a boiler), and the type of funding (e.g., Maintenance and Improvement, Quarters, Corporate Cost Sharing, etc.). This section should be no more than two paragraphs. Use attachments for project location maps and facility drawings.]

II. PROJECT SCOPE AND DESCRIPTION

A. Description of Project. [Provide a detailed explanation of the work to be accomplished by the project and the desired outcome of the project. Include all items reflected in the cost estimate. This information can be presented in bullet/list or narrative form.]

B. Project Justification. [Explain why the project is necessary. Link the justification to the developed Health Facilities Master Plan if appropriate. Discuss how the project will meet program needs, and how it will comply with legal, code, accreditation, and certification

* Sections of this policy modified by DEHE Staff to reflect formation of the MIRAC and for clarification of non-competitive project submittals.

requirements. Cite specific, code or JCAHO references by standard clause, chapter, paragraph, etc.]

III. DEFICIENCIES

The following deficiencies will be corrected as part of this project:

[List and describe only those facility deficiencies this project will address. The types of deficiencies include BEMAR, JCAHO, NFPA, HFPM, Public Law compliance items, ADA, etc.]

IV. COST ESTIMATE

Provide a budgetary cost estimate and the funding sources for the proposed project, including separate line items for design Architect/Engineer fees, project construction, construction contract administration fees, and project contingency.

V. PROJECT SCORE SHEET DOCUMENT (*only required for BEMAR competitive pool funds*)

Complete a project score sheet further detailing the scope, impact and benefits of this project. Provide the information required by the project score sheet.

VI. OTHER PROJECT ITEMS TO BE ADDRESSED

Supporting Documents: Drawings, Photos, Estimates, Etc.

Appendix N – 5

Environmental Information and Documentation Form

ENVIRONMENTAL INFORMATION AND DOCUMENTATION

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

Considerations	Basis for Determination (Documentation)
1. Will the proposed action result in a known violation or continuance of a violation of applicable (Federal, Tribal, State or local) laws or requirements for protection of environment or public health and safety?	Yes or No. Explanation.
2. Will the proposed action result in a conflict with existing or proposed federal, Tribal, state, and local land use plans?	Yes or No. Explanation.
3. Is there a controversy with respect to environmental effects of the proposed action based on reasonable and substantial issues?	Yes or No. Explanation.
4. Is the proposed action significantly greater in scope than normal for the area or does it have significant unusual characteristics?	Yes or No. Explanation.
5. Does the proposed action establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

6. Does the proposed action have significant adverse direct or indirect effects on park land, other public lands, or areas of recognized scenic or recreational value?	Yes or No. Explanation.
7. Does the proposed action include construction of a new municipal solid waste landfill at a new solid waste disposal site?	Yes or No. Explanation.
8. Will the proposed action create a need for additional capacity at solid waste disposal facilities?	Yes or No. Explanation.
9. Does the proposed action include construction of a new wastewater treatment facility that will discharge treated sewage effluent to the waters of the U.S.	Yes or No. Explanation.
10. Will the proposed action create a need for additional capacity at wastewater treatment facilities?	Yes or No. Explanation.
11. Will the proposed action create a need for additional capacity in the drinking water supply?	Yes or No. Explanation.
12. Are there other considerations about the proposed action that could adversely affect the environment and/or public health and safety?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

13. Will the proposed action create a need for additional capacity in health care facilities and for health care services?	Yes or No. Explanation.
14. Will the proposed action create a need for additional energy supply or generation?	Yes or No. Explanation.
15. Will the proposed action create a need for additional capacity in educational facilities?	Yes or No. Explanation.
16. Will the proposed action create a need for additional capacity in transportation systems?	Yes or No. Explanation.
17.Historic Preservation: a. Does the proposed action involve the purchase, construction, alteration, renovation, or lease of a building or portion of a building that is more that 50 years old?	Yes or No. Explanation.
b. Will the proposed action adversely affect properties listed, or eligible for listing, on the National Register of Historic Places?	Yes or No. Explanation. or No

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

18. Endangered Species Act: Is the proposed action likely to adversely affect a plant or animal species listed on the Federal or applicable state list of endangered or threatened species or a specific critical habitat of an endangered or threatened species?	Yes or No. Explanation.
19. Will the proposed action require major sedimentation and erosion control measures?	Yes or No. Explanation.
20. Will the proposed action violate a storm water permit or a wastewater discharge permit either for construction or on-going operations?	Yes or No. Explanation.
21. Safe Drinking Water Act: Will the proposed action impact an EPA designated sole source aquifer?	Yes or No. Explanation.
22. Wetlands and Water Resources (lakes, rivers, ponds, streams, etc.): Will the proposed action violate a Section 404 (Clean Water Act) permit for actions in a wetland and/or Section 10 (Rivers and Harbors Act) permit for actions in a stream or river?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

23. Floodplains: a. Is the proposed action located in either a 100-year or, for critical actions, a 500-year floodplain? (If Flood Insurance Rate Maps do not exist for the project site, a floodplain survey or consultation may be required. Also may need to consider if the facility will require flood insurance).	Yes or No. Explanation.
b. Will the proposed action adversely impact flood flows in a floodplain or support development in a floodplain?	Yes or No. Explanation.
24. Existing site: Would the proposed action involve the purchase, construction or lease of new facilities (including portable facilities and trailers), substantially increase the capacity of an existing health care facility?	Yes or No. Explanation.
25. New site: Does the proposed action involve purchase, construction, or lease of new facilities (including portable facilities and trailers) where such action is for buildings equal to or more than 12,000 square feet (1080 square meters) of useable space when more than 5 acres (2 hectares) of surface land area are involved at a new site?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

26. New site: Does the proposed action involve purchase, construction, or lease of health care facilities (other than buildings) for projects equal to or more than 5 acres (2 hectares) of surface land area at a new site?	Yes or No. Explanation.
27. Does the proposed action involve the sale or transfer of real property, on which any hazardous substance was stored for one year or more, known to have been released, or disposed of? (Provide relevant documentation for any hazardous substance releases. See 40 CFR 373.2(b), 302.4, and 261.30 for reportable quantities.)	Yes or No. Explanation.
28. Does the proposed action involve the sale or transfer of real property, on which underground or above ground storage tanks are located?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

29. Will the proposed action violate Tribal, local, state, or federal law on the use and storage of hazardous substances or the transportation, storage, and disposal of hazardous wastes or medical wastes? (Activities that may generate reportable quantities include air conditioning repair and service, pesticide application, motor pools, automobile repair, welding, landscaping, agricultural activities, print shops, hospitals, clinics, & medical centers. Repair, renovation, or demolition activities can generate waste that has asbestos-containing materials, asbestos, lead-based paint, PCBs, CFCs, etc.)	Yes or No. Explanation.
30. Will the proposed action adversely affect community air pollution for a long period of time?	Yes or No. Explanation.
31. If the proposed action is implemented, will it have a disproportionately high and adverse human health or environmental impact on the Tribe, low-income populations, or minority populations?	Yes or No. Explanation.
32. Will the proposed action adversely affect community noise levels?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

33. Wilderness Act: Will the proposed action adversely impact a Wilderness Area?	Yes or No. Explanation.
34. Farmland Protection Policy Act: Will the proposed action convert significant agricultural lands to non-agricultural uses and exceed 160-point score on the farmland impact rating?	Yes or No. Explanation.
35. Coastal Zone Management Act: Will the proposed action directly affect a Coastal Zone in a manner inconsistent with the State Coastal Zone Management Plan?	Yes or No. Explanation.
36. Wild and Scenic Rivers Act: Will the proposed action affect a wild, scenic, or recreational river area or create conditions inconsistent with the character of the river? (A consideration for activities that are in or near any wild and scenic waterway including construction of stream/river crossings, intake structures, outfalls, etc.)	Yes or No. Explanation.

I certify that to the best of my knowledge and ability the information presented above is true and correct. The record was examined to identify potential extraordinary or exceptional circumstances which would require further environmental review.

Appendix N-6

Actions Requiring IHS Environmental Review and Determination

APPENDIX [Z] – Actions Requiring IHS Environmental Review and Determination

For actions outlined in the below table, which are to be undertaken by [Co-Signer], [Co-Signer] shall submit a proposal package that includes a completed Project Summary Document (See Appendix [X-4]) and Environmental Information and Documentation Form (See Appendix [Y]) to the IHS. Coordination time between [Co-signer] and the IHS to complete the Environmental Review and Determination process varies for each group of actions. The timing provided below indicates the expected timeline to complete the process for each group of actions. Early coordination in the planning phase of a project between [Co-signer], IHS, and other stakeholders will help ensure environmental concerns are addressed in a timely manner and project delays are minimized so that IHS can complete its environmental responsibilities and issue a Determination Document as early as possible.

Action		Expected Timelines
Categorically excluded actions per Federal Register Vol. 58, No. 3, pg 571(I)(3), (I)(4), (I)(6), and (I)(7), dated January 6, 1993.		**The Environmental Review and Determination Process for this group of actions ranges from 45 to 90 days from the receipt by the IHS of the proposal package.***
☐	Pg 571 (I)(3): Building alteration or renovation that does not substantially change the function or general appearance of existing buildings.	
☐	Pg 571 (I)(4): Construction or lease of new facilities (including portable facilities and trailers) where such lease or construction: (a) is at the site of existing health care facility and the facility capacity is not substantially increased, (b) is for building of less than 12,000 square feet of useable space when less than five acres of surface land area are involved at a new site, or (c) is for projects other than buildings when less than five acres of surface land area are involved at a new site.	
☐	Pg 571 (I)(6): Acquisition of space by lease, use agreement, transfer, gift or similar arrangement for which: (a) the intended use of the space is consistent with the functional design of the building, and (b) the acquisition is consistent with an applicable master plan, if such plan exists.	
☐	Pg 571 (I)(7): The acquisition, sale, release, abandonment, closure or transfer of real property, provided the action: (a) is consistent with any applicable master plan, if such a plan exits, (b) conforms to local zoning and land use ordinances, if such ordinances exist, (c) is consistent with the functional design of the facility, (d) would not violate applicable Federal, State, or local environmental protection or historic preservation laws, and (e) satisfies the requirements of applicable comprehensive Environmental Response Compensation and Liability Act (CERCLA)section 120 (h) provisions.	
Any normally categorically excluded actions that may have Extraordinary or Exceptional Circumstances per Federal Register Vol. 58, No. 3, pg 571-72(K), dated January 6, 1993.		**The Environmental Review and Determination Process for this group of actions ranges from 60 to 180 days from the receipt by the IHS of the proposal package.**
☐	Pg 571 (K)(1): Those with potential to change the existing environment where such change violates directives or other controls that are imposed by any governmental body having jurisdiction, for the purpose of protecting or otherwise affecting that environment;	
☐	Pg 571 (K)(2): Those with potential or real threat of violation, or continued violation, of an applicable Federal, State, or local law or requirement imposed for protection of the environment or to ensure public health and safety;	
☐	Pg 571 (K)(3): Those likely to cause controversy with respect to the types or extent of the resulting environmental effects where such controversy is based on pertinent and substantial issues;	

☐	Pg 571 (K)(4): Those involving the use of technology where the possible effects are highly uncertain or involve unique or unknown risks and where such technology has not been assessed previously for environmental impact;
☐	Pg 571 (K)(5): Those which have adverse effects on unique geographic characteristics (e.g. historic, archeological, or cultural resources, park recreation or refuge lands, wilderness, areas, wild or scenic rivers, sole or principal drinking water aquifers, prime farmlands, wetlands, floodplains, coastal management zones, or ecological or critical areas including those listed on the Department of Interior National Register of National landmarks);
☐	Pg 571 (K)(6): Those which establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects;
☐	Pg 571 (K)(7): Those which have adverse effects on properties listed or eligible for listing on the National Register of Historic Places;
☐	Pg 571 (K)(8): Those which have adverse effects on species listed by the Federal Government as Endangered or Threatened Species, or which have adverse effects on any designated critical habitat for these species;
☐	Pg 571 (K)(9): Those which require assessment in accordance with Executive Order 11988 (Floodplain Management), or Executive Order 11990 (Protection of Wetlands), or the Fish and Wildlife Coordination Act; and
☐	Pg 572 (K)(10): Those which involve the use, transfer, or lease of real property which has been determined, after investigation in accordance with the provisions of CERCLA 120 (h), to have been used as a storage facility for hazardous waste for more than 1 year; and
☐	Pg 572 (K)(11): Construction projects which are significantly greater in scope or size than normally experienced for a particular category of action.

Any action NOT categorically excluded per Federal Register Vol. 58, No. 3, pg 569-572, dated January 6, 1993 attached hereto.	**The Environmental Review and Determination Process for this group of actions ranges from 60 to 180 days from the receipt by the IHS of the proposal package.**

* The time needed to complete Environmental Reviews is highly dependent on required consultations with other Federal and State Agencies. As an example, the NHPA Section 106 Process requires the State Historic Preservation Officer (SHPO) be allotted 30 days to review and comment on a proposed action (36 CFR Part 800.3(c)(4)). Furthermore, additional time beyond the 30 days may be required for consultation with SHPO to adequately review and determine the effects of the proposed action on existing historical resources. Coordination early in the planning phase of the project can help identify these potential issues and allow [Co-signer] and IHS to resolve them early.

ALASKA NATIVE TRIBAL HEALTH CONSORTIUM
FUNDING AGREEMENT
APPENDIX O
SECTION 105(*l*) LEASED PROPERTIES
Effective as of October 20, 2023

The following list of facilities identifies the sites where ANTHC owns, leases, occupies, or otherwise uses to carry out its responsibilities under the Alaska Tribal Health Compact and its Funding Agreement.

1. Consortium Office Building
2. Diplomacy Building
3. Healthy Communities Building
4. ANTHC Education and Development Building
5. 88th Avenue Warehouse
6. University Lake Medical Center
7. Alaska Pacific Medical Building
8. Lake Otis & 56th Warehouse
9. Creekside Apartments
10. Post Road Warehouse

FUNDING AGREEMENT
BETWEEN
THE ALEUTIAN PRIBILOF ISLANDS ASSOCIATION, INC.
AND
THE SECRETARY OF HEALTH AND HUMAN SERVICES
FISCAL YEARS 2015-2017

Amendment Effective January 1, 2015

In accordance with Section 11(A) of the Aleutian Pribilof Islands Association (APIA) FYs 2015-2017 Multi-Year Funding Agreement (MFA), APIA's MFA is amended as follows:

> The following sentence is to be added at the end of **Section 2 – Obligations of APIA:** "APIA ceased to provide any PSFAs to The Aleut Community of St. Paul as of January 1, 2015."

Aleutian Pribilof Islands Association, Inc. - on Behalf of Itself and Certain Alaska Tribes Identified Herein.

FUNDING AGREEMENT

BETWEEN

THE ALEUTIAN PRIBILOF ISLANDS ASSOCIATION, INC.

AND

THE SECRETARY OF HEALTH AND HUMAN SERVICES

OCTOBER 1, 2014

FISCAL YEARS 2015-2017

FUNDING AGREEMENT BETWEEN
CERTAIN ALASKA NATIVE TRIBES
SERVED BY THE
ALEUTIAN PRIBILOF ISLANDS ASSOCIATION, INC.
AND THE
SECRETARY OF THE DEPARTMENT OF HEALTH & HUMAN SERVICES
OF THE
UNITED STATES OF AMERICA
FISCAL YEARS 2015-2017

This Funding Agreement (FA) is entered into by and between certain Alaska Native Tribes served by the Aleutian Pribilof Islands Association, Inc. (hereinafter "APIA" or "Co-Signer"), and the Secretary of the Department of Health and Human Service of the United States of America. These Tribes (namely, Atka, Belkofski, Nikolski, Saint Paul, Unalaska, and St. George for a limited scope) have authorized APIA to sign this FA for them and to be responsible for and carry out the terms of this FA.

Section 1 — Obligations of the Indian Health Service.

A. Under the authority of Section 325 of P.L. 105-83 and P.L. 93-638 as amended, non-residual programs, services, functions, and activities (PSFAs) of the Alaska Area Office and the Alaska Native Medical Center (ANMC) have been transferred to tribal management.

Delivery of PSFAs shall be consistent with each Co-Signer's FA. The Indian Health Service (IHS) shall remain responsible for performing all federal residual PSFAs. The IHS shall remain responsible for negotiating assurances with the Alaska Native Tribal Health Consortium (ANTHC) and Southcentral Foundation (SCF) on behalf of Alaska Natives and American Indians to the effect that Co-Signers continue to receive non-residual PSFAs from the ANMC and Area Office and provided by ANTHC and SCF at a minimum at the level that such PSFAs were provided by the IHS as of October 1, 1997, to the extent permitted by Section 325 of P.L. 105-83. To the extent authorized by federal law, the IHS will respond to written Co-Signer concerns about the extent with which such assurances have not been complied and take appropriate action. IHS shall further be responsible for performing its special trust responsibilities and legal obligations as provided in the Indian Health Care Improvement Act (IHCIA), the Indian Self-Determination and Education Assistance Act (ISDA), as amended, and other applicable provisions of federal law.

This FA obligates the IHS to provide funding and services identified herein and as provided in the Alaska Tribal Health Compact (ATHC) between APIA and certain other Co-Signers thereof and the United States in Fiscal Years 2015-2017.

In addition, although funds are provided from Headquarters and the Area Office (Alaska Area Native Health Service (AANHS)) in support of the ATHC, the IHS will agree to continue to make available to APIA PSFAs from both Area Office and Headquarters unless 100 percent of the total tribal shares for these PSFAs have been specifically included in this FA. In cases where a portion of tribal shares has been transferred, there may be some diminishment in the level of PSFAs provided by the IHS. Furthermore, the IHS will reorganize both Headquarters and the Area Office to continue to provide the remaining PSFAs, which have not been included in this FA, in the most effective and efficient manner possible, provided that decisions about the array and level of services to be offered by the IHS shall be made in consultation with Alaska Tribes. The IHS PSFAs not negotiated into or listed in Appendix A will be the responsibility of the IHS.[1] The "Memorandum of Agreement Describing the Continuing Services Agreement of the IHS, Alaska Area Native Health Service" among the Co-Signers and the AANHS reflects the understanding of the parties regarding services to be provided by the AANHS to Co-Signers. This document, attached as Appendix B, is hereby incorporated by reference.

Unless funds are specifically provided from Headquarters, Headquarters retains all PSFAs and APIA will not be denied access to such PSFAs from Headquarters. Specifically, APIA will receive the following PSFAs from the IHS Headquarters:

1. **Information Services.** The IHS will provide the full range of Office of Information Technology (OIT) national support to the ANTHC and ANMC. OIT will provide specified services directly to APIA. In addition, OIT will provide support to ANTHC to assist it to carry out its responsibility to provide day-to-day technical support, user support, distribution of software and files and other typical information technology support to Co-Signers as defined in the Assurances Appendix to the ANTHC Agreement. Upon request of ANTHC, after good faith efforts to resolve APIA's technical issue, OIT's support of APIA will include technical support needed on-site by APIA. A list of the services due under this paragraph, with identification of the method of delivery, is shown below.

1/ All references to Appendix A and Appendix B in this Agreement are to the Appendix for the applicable fiscal year.

Division of Information Resources Provides:	Directly to ANTHC	Directly to APIA	Indirectly to APIA through ANTHC
National Database Services			
100% Data Center Services	X		
Process Data exports into National Database		X	
Evaluate, correct, convert site data for National Database		X

Alaska On-site training instruction (four annual classes)			X
Hardware and Operating System Support			X
Cache Upgrade (initial installations)			X
National Patient File (2000) conversion			X
Envoy (WebMD) installation			X
Additional Services - Fee for Service	X	X	X

2. Access to Training and Technical Assistance.

(A) To the extent funds are retained by the IHS, APIA shall have access to training, continuing education, and technical assistance in the manner and to the same extent APIA would have received such services if it were not a Self-Governance Co-Signer.

(B) APIA, which is part of the Anchorage Service Unit, has historically received certain PSFAs from the ANMC and the AANHS. Responsibility for these PSFAs has been transferred to the ANTHC and SCF. For purposes of identifying those services provided by ANMC and AANHS prior to transfer of management to ANTHC and SCF, APIA has for historical tracking purposes created a separate document entitled "Memorialization of Historical Level of PSFAs Provided by

ANMC and AANHS." The PSFAs listed in this document are taken from APIA's FY 1999 FA. The document is available for review upon request, and if attached to this FA, is so attached only for the purpose of identifying historical levels of PSFAs received by APIA from ANMC and AANHS, and is specifically not made a part of this FA.

3. **Intellectual Property.** In the course of administering federal contracts, grants, subgrants, and other agreements, IHS acquired various copyrights and licenses, including licenses pursuant to 45 CFR 74.36 and 45 CFR 92.34, in works which the IHS possessed, reproduced, published and otherwise used and allowed others to possess, reproduce, publish, and otherwise use. To carry out the PSFAs assumed by APIA under this and previous FAs and contracts APIA has the delegated authority and permission from IHS to use and allow others to reproduce, publish, and otherwise make use of these works to the same extent as IHS.

4. **Leases.** The IHS must report on its federally-leased facilities. APIA agrees to notify the AANHS of changes in occupancy, size, use, and general condition of Village Built Clinic (VBC) leased facilities in locations where APIA has bought back services from the IHS. IHS will annually, or upon renegotiation, provide to APIA a copy of each VBC lease. No increase in the amount due to the lessor pursuant to a lease will be negotiated by IHS without advance notice to APIA. In administering these leases, the IHS will work with APIA to ensure that each lease is in compliance with the standards referenced in the VBC lease.

Section 2 — Obligations of APIA. This FA obligates APIA to be responsible for and to provide health PSFAs, identified in Section 3, utilizing the resources transferred under this FA and other funds as they may become available to APIA. This FA further authorizes APIA to consolidate and redesign PSFAs as provided in Title V of the ISDA, and the ATHC. Whether providing, purchasing or authorizing health care services described in the Compact and this FA, in accordance with Section 2901(b) of Pub. L. 111-148, 25 U.S.C. § 1623(b), and as otherwise provided by law, APIA shall be the payer of last resort. APIA is committed to and will strive to provide quality health services and will strive to meet standards APIA believes to be appropriate and applicable to the delivery of such health services.

Section 3 — Tribal Programs and Budget.

A. APIA agrees to administer, provide, and be responsible for the health care PSFAs identified below in accordance with the ATHC and this FA. For the purposes of this FA, APIA's General Budget Categories consolidate related health PSFAs, regardless of funding source, as follows:

1. **CLINICAL CARE SERVICES:** APIA is committed to quality patient care achieved through maintaining qualified staff, physical plant, and adequate supply of medical provisions required in the delivery of health care services and the planning and implementation of an RPMS Electronic Health Records System.

(A) St. Paul and Oonalaska Health Centers: Under a comprehensive health care delivery plan, APIA agrees to provide a full range of outpatient health care and ancillary services, staffed by Mid-Level Providers and CHA/Ps, including:

- acute, chronic, therapeutic and preventive patient services
- emergency services and minor surgery

(B) Community Health Aide/Practitioner Clinics: Clinics which are not designated Health Centers are staffed by Community Health Aides/Practitioners (CHA/Ps) and itinerant Mid-Level Providers. In locations with CHA/P's, Community Health Aide Training and Supervision (CHATS) is coordinated and supported. Dental services may be provided by CHA/Ps under the Standards and Procedures approved by the IHS Community Health Aide Program Certification Board. The IHS retains the responsibility, pursuant to Section 119 of the IHCIA, as amended at 25 U.S.C. § 1616*l*, to maintain the IHS Community Health Aide Program Certification Board (CHAPCB), which was established by and is under the direct control and supervision of IHS, to accredit training for and to certify community health aides, which includes community health aides/practitioners, dental health aides, and behavioral health aides/practitioners as those terms are defined and used in the CHAPCB Standards and Procedures. Clinics providing services to Alaska Native beneficiaries by APIA, in addition to health centers at St. Paul and Unalaska, are Nikolski and Atka. Primary care services to the Belkofski IHS beneficiaries are provided through a contract for services from the King Cove clinic. Itinerant services and clinical support may be provided to other locations as may be needed or requested.

(C) Contract Health Services: support unmet health services currently not available directly within the APIA health care delivery system.

(D) Emergency Medical Services (EMS): provides services in accordance with state and federal guidelines to lower the incidence of accidental death and disability by providing various levels of EMS training; while continuing to develop the basic life support system.

(E) Itinerant and Field Services: Itinerant and field services, including, but not limited to, physician, dental, optometry, audiology, and other specialty services to the extent of available resources will be provided directly, or such services will be coordinated through collaborative agreements with ANTHC or the SCF, and appropriate referrals will be made as necessary.

(F) Telemedicine: Provides telemedicine access to Anchorage-based medical facilities in a manner to enhance patient care at our clinics and health centers.

(G) Diabetes: Provides diabetes health promotion and disease prevention (HP/DP) services and activities throughout the region including Atka, Belkofski, Nikolski, Saint Paul, Unalaska and St. George, and dialysis treatment as provided under Section 204(d) of the IHCIA, as amended at 25 U.S.C. § 1621c, and is committed to and shall provide quality dialysis services that will at all times meet standards applicable to such services.

2. COMMUNITY HEALTH SERVICES:

(A) Behavioral Health Program: provides services to reduce substance abuse, mental health and associated problems through outpatient services, prevention/education, referral service, outreach services (including transition supportive housing to provide a sober environment for those transitioning out of the community for treatment or transitioning back to the community from a successful discharge from treatment), and community involvement, including community wellness initiatives and community-based suicide prevention and methamphetamine prevention and treatment. Community-based Behavioral Health services will be provided under a certified Behavioral Health Aide program, upon completion of the certification process. These programs are operated in coordination with other funded programs, and in collaboration with other entities, and will be provided in accordance with § 702 of the IHCIA, as amended.

(B) Health Promotion: provides services to inform, educate, and motivate residents to adopt healthy lifestyles including, tobacco education, FAS/FAE, nutrition education, and counseling (including breast feeding support), physical therapy and exercise activities, health screening and testing (including hemoglobin testing) and referral services as appropriate. Services and information may be provided within the entire APIA region.

(C) Community Wellness Advocate (CWA) Program: provides village-based services to determine health needs, improve health knowledge, and to promote healthy lifestyles and practices; provides advocacy services; and provides administrative services.

(D) Elder Services: provides nutritional foods and nutrition education to the extent of available resources and facilitates access to other resources appropriate to elders. Medical, public health, and preventive services may be provided in support of assisted living services or assisted living facilities as funding allows, and patient advocacy.

(E) Home-Based Services: Home health services and homemaker services (including but not limited to services to elders, disabled persons, and other homebound patients, palliative home care and other end of life services, such as hospice care), comprehensive health care nursing services and long-term care for the elderly, disabled and others needing long term care as APIA determines to be appropriate as well as care coordination to assist with long term care planning and patient advocacy. Such services may also include Assisted Living Services. APIA will provide hospice care, long term care and assisted living services in accordance with the requirements at Section 205 of the IHCIA, as amended at 25 U.S.C. § 1621d.

(F) Transportation Services: In addition to the medical services/activities identified above, a Referral/Transport system from the facilities of APIA to and from the next higher level of care (ANMC or other health facility) will be maintained (e.g. patient transport vehicle, medivac transport and patient transportation, including adult escort, health professional and other escort as APIA deems appropriate and emergency or non-emergency air transportation where ground transportation is not feasible and transportation by fishing boat or private vehicle where no other means is available, including specially-equipped vehicle and ambulance) subject to available funding. APIA may provide the above transportation services in accordance with Section 213 of the IHCIA, as amended at 25 U.S.C. § 1621*l*.

3. **OTHER PROGRAMS/SERVICES FUNDED:** This FA includes PSFAs resulting from Tribal redesign, or consolidation, reallocation or redirection of funds, including its own funds or funds from other sources, provided that such consolidation, redesign, or reallocation or redirection of funds results in carrying out PSFAs that may be included in the FA pursuant to Section 505 of Title V and Article III, Section 6 of the ATHC.

APIA will complement and supplement the PSFAs described in Section 3 with funding from sources other than the IHS through this FA, subject to the availability of funds from such other funding sources. Consistent with Article III, Sections 5, 6, and 7 of the ATHC, non-IHS funds will be added to or merged with funds provided by the IHS through this FA.

(A) Tribal Management Support: (1) provides appropriate levels of staff to meet program and service goals, to include Native development training; (2) establishes and facilitates coordination and cooperation between APIA and other agencies such as-federal, state, private, and regional agencies concerned with health status and care for Alaska Natives and American Indians.

(B) Public Health and Epidemiology: Directly and/or through the ANTHC's Epidemiology Center, APIA carries out public health, epidemiology and health research functions. These activities include, but are not limited to: collecting and receiving personally identifiably health information for the purpose of

(1) preventing or controlling disease, injury, or disability;
(2) reporting disease, injury, and vital events such as birth and death;
(3) the conduct of public health and epidemiological investigations, surveillance, and interventions, including the maintenance of disease and injury registries; and
(4) Cancer education.

(C) Any new health care programs funded during FYs 2015-2017 including, but not limited to, funded programs identified in the IHCIA.

(D) Any new health care program resulting from the reallocation of funds and redesign of programs during FYs 2015-2017 which will be in accordance with the terms of the ATHC.

(E) APIA, which is part of the Anchorage Service unit, provides, facilitates and cooperates with field clinics and other services delivered by ANTHC, SCF, ANMC, and other Tribal health organizations through collaborative agreements or other arrangements, including referrals to ANMC and-contract health care facilities.

(F) Telehome services to provide additional health information and care, especially to home-bound patients.

B. Tribal Facilities and Locations. APIA provides health care services to eligible

beneficiaries from its Anchorage headquarters location and from facilities located at, but not limited to: Atka, King Cove (for the Belkofski Tribe), Nikolski, St. Paul, Unalaska and St. George. In addition, primary health care services are provided to eligible Belkofski Native beneficiaries at the King Cove clinic through a contractual agreement. The Area Division of Planning, Evaluation and Health Statistics shall compile and forward a list of these facilities and locations annually to the Headquarters' Office of Program Statistics, which shall include each of these facilities and locations in the annual list it must provide to the Centers for Medicare and Medicaid Services (CMS) (formerly Health Care Financing Administration) pursuant to the Memorandum of Agreement between the Health Care Financing Administration and the IHS (December 19, 1996).

C. **Maintenance and Improvement Funds**. APIA agrees to use Maintenance and Improvement funds received through this FA in accordance with the appropriation language for Indian Health Facilities in the Department of Interior and Related Agencies Appropriation Act for FYs 2015-2017 or any comparable Act of Congress that contains the subject appropriations and in accordance with 41 U.S.C. § 12 to the extent applicable.

Section 4 — Amounts Available During the Term of This Agreement.

A. The following amounts shall be made available to APIA pursuant to the ATHC and Title V of the ISDA, and are subject to reductions only in accordance with Section 508(d) of Title V and Section 106 of Title I.[2]

	Annual Funding
Recurring Base: Inclusive of all recurring funding, including recurring contract support funds.[3]	$3,896,811
Non-Recurring: Inclusive of non-recurring contract support funds and such other funding, which may be added.	$1,598,900
Subtotal (This amount is subject to change if justified by reconciliation of prior year funding.)	$5,495,711
Area "Tribal" Shares: Includes funding identified from Area Office and identified in Appendix A to this FA.	$175,368
Headquarters Tribal Shares - "Tribal Shares Adjustment Pool" including all funds identified in Appendix A. The amount identified is exclusive of funds for which a distribution amount has not been	$123,361

2/ For other fiscal years to which this FA is applicable, a replacement Appendix A will be negotiated between IHS and APIA for the respective year and amended to this FA and incorporated by reference accordingly.
3/ A break out of these recurring funds is shown in APIA Appendix A, which cites the source document used to determine the amount, and is fully incorporated herein.

	Annual Funding
determined. The final amount due shall be determined as set forth in this FA or by Appendix.[4/]	
Headquarters Tribal Shares - "Program Formula Pool" - includes all additional funds which the IHS may make available on a program formula basis during the year based on the program identified and accepted for this allocation in Appendix A.	$0
Subtotal - Tribal Shares	$298,730
TOTAL ATHC FUNDING[5/]	$5,794,440

These amounts are subject to additions for Medicare, Medicaid, and other reimbursements and for new funds received during the term of this FA including amounts that have historically been distributed as non-recurring funds under Title I of the ISDA.

The recurring base amount shown above includes $57,584 that APIA received recurring in FY 2007 for congressionally appropriated alcohol grant funds. Such funds are subject to "Adjustments Due to Congressional Actions" as described herein in Section 6 as well as any conditions on those funds that may be described in the FYs 2015-2017 Interior Appropriations Acts (Act) or Congressional Reports. After each Act is passed into law, such conditions, including Congressionally-directed reporting requirements, will be added by amendment not requiring Co-Signer signature as described in Section 11 of this FA.

Of the amount shown above for Headquarters Tribal Share "Program Formula," $20,881 is for Equipment Replacement; the Equipment Replacement amount paid as a part of the lump sum due the Co-Signer was determined by multiplying the FY 2014 Equipment Replacement amount paid to the Co-Signer by 90%. The final Equipment amounts paid in FYs 2015-2017 will be based on the final FYs 2015-2017 Equipment Replacement allocations. If the final Equipment Replacement amounts, as determined by the final FYs 2015-2017 Equipment Replacement allocations is less than the 90% calculation, the Co-Signer will return the difference to the IHS. See also Appendix A, footnote to line 22 on page 6.

Of the amount shown above for non-recurring program funds, $91,812 are for Routine Maintenance and Improvement (M&I); the Routine M&I amount paid as a part of the

4/ Headquarters shares were allocated to each Co-Signer according to an Alaska Area open tribal caucus approved methodology and are subject to adjustment based on ATHC agreements. Amounts identified in Appendix A reflect the current agreement of the ATHC Co-Signers.

5/ Because full funding amounts for FYs 2015-2017 have not been fully identified and reconciled as of the time this FA is being executed, all amounts to be paid in FYs 2015-2017 are estimates and are subject to amendment to reflect the full amount due for FYs 2015-2017.

lump sum due APIA was determined by multiplying the FY 2014 Routine M&I amount paid to the Co-Signer by 90%. The final Routine M&I amounts paid in FYs 2015-2017 will be based on the final FYs 2015-2017 Routine M&I allocations. If the final Routine M&I amounts, as determined by the final FYs 2015-2017 Routine M&I allocations, is less than the 90% calculation, APIA will return the difference to the IHS. See also Appendix A, footnote to line 19 on page 6.

The parties agree Section 505(b)(2) of the Title V provides, among other things, that grants administered by the Department of Health and Human Services through the IHS may be added to APIA's FA after award of such grants. In accordance with this provision of Title V and its implementing regulations, the Secretary will add APIA's FYs 2015-2017 Diabetes grant to this FA after the grant has been awarded. Grant funds will be paid to the APIA as a lump sum advance payment through the PMS grants payment system as soon as practicable after award of the grant. APIA will use interest earned on such funds to enhance the purposes of the grant including allowable administrative costs. APIA will comply with all terms and conditions of the grant award, including reporting requirements, and will not reallocate grant funds nor redesign the grant program, except as provided in the implementing regulations or the terms of the grant.

B. Contract Support Costs. Contract support costs (CSC) will be paid in accordance with 25 U.S.C. § 450j-1 and §458aaa-7(c). The parties agree that, according to the best data available as of the date of execution of this agreement, the amount to be paid under FY 2015, which represents the parties' estimate of the Tribe's full CSC requirement pursuant to 25 U.S.C. § 450j-1, is $1,833,275, including $194,870 for direct CSC and $1,638,405 for indirect or indirect-like CSC.6 This estimate shall be recalculated as necessary as additional data becomes available including information regarding the direct cost base, pass throughs and exclusions, and the indirect cost rates to reflect the full CSC required under 25 U.S.C. § 450j-1, and, to the extent not inconsistent with the ISDEAA, as specified in IHS Manual Part 6, Chapter 3 (approved Apr. 6, 2007). The parties will cooperate in updating the relevant data to make any agreed upon adjustments. In the event the parties disagree on the CSC amounts estimated and paid pursuant to this paragraph and the Tribe's full CSC requirement under the ISDEAA, the parties may pursue any remedies available to them under the ISDEAA, the Compact, and the Contract Disputes Act, 41 U.S.C. §7101 et seq.

C. Base Budgets.

1. Categories and Base Year. At the end of the first period of the base budget period, the IHS and Co-Signers have agreed to extend the three-year (FY 98 -

---

6/ For other fiscal years to which this FA is applicable, the CSC estimates will be negotiated between the IHS and APIA for the respective year and amended to this FA in Appendix A.

FY 2000) base budgets implemented for the ATHC. The following categories are subject to base budgeting for the base year period, as noted below:

Category of Funding	Base Period or Base Funding	Extended Through:
Area Tribal Shares	Not Included	N/A
Headquarters TSA amounts[7/]	FY 97	FY 2017
Equipment Replacement Funding	Not Included	N/A

2. **Adjustments.** Adjustments to base funding shall be permitted in direct proportion to changes in appropriated amounts (by sub-activity), as provided under Section 6(a) "Adjustments Due to Congressional Actions." Adjustments shall also be permitted for the addition of new Co-Signers to the ATHC and when current Co-Signers add or retrocede PSFAs.[8/] Adjustments also shall be permitted when Co-Signer(s) chooses to restrict or un-restrict previously "restricted" or "unrestricted" IHS Headquarters categories, provided that restrictions shall be changed only during annual negotiations. APIA also shall be eligible for funding for new services, service increases, mandatories, specific Congressional appropriation for population growth, health services priority system, contract support costs and other increases in resources on the same basis as all other tribes. Adjustments for changes required when a tribe joins or withdraws from a tribal consortium shall also be permitted. APIA shall also remain eligible for the distribution of additional IHS Headquarters tribal shares for Assessments, Workers Compensation, Emergency Reserve, Management Initiatives, and other PSFAs from Headquarters.

Section 5 — Method of Payment.

A. **Payment Schedule.** Except as provided in subsections A, B, and D of this section, all funds identified in Section 4 of this FA shall be paid to APIA, in accordance with Article II, Section 4 (a) of the ATHC; payment to APIA to be made as follows: One annual payment in lump sum to be made annually in advance by check or wire transfer.

B. **Availability of Tribal Shares.** APIA will be paid 100 percent of negotiated Headquarters and Area Tribal Shares in its initial lump sum payment for each year under the term of this FA.

C. **Buyback/Withhold.** APIA may carry out its responsibility to provide certain PSFAs included in this FA by using services or other resources of the federal government

---

7/ ATHC base budgets for TSA amounts shall be considered as a whole (entire ATHC amount) and shall be subject to adjustment of the internal allocation subject to ATHC agreements.
8/ This includes addition of new Facilities when the addition of these Facilities includes an increase in equipment funds identified for the new Facilities.

under Article V, Section 22 of the ATHC, as permitted by law. Except as provided herein, the cost of such services and the terms under which they may be made available to APIA are set forth in the Buyback/Withhold Agreement between the IHS and APIA, which is attached as Appendix C to this FA and incorporated by reference herein. The administrative surcharge provided for in Section 2.2.4 of the Buyback/Withhold FA for FY 2015 shall be .20 percent. During the term of this FA, the Administrative surcharge rates will be negotiated annually. Notwithstanding Section 5 of the Buyback/Withhold FA, upon the request of the IHS or any Co-Signer, such FA will be negotiated for future fiscal years annually during negotiation of this FA.

D. **Periodic Payments.** Payment of funds otherwise due to APIA under this FA, which are added or identified after the initial payment is made, shall be made promptly upon request of APIA by check or wire transfer.

Section 6 — Adjustments.

A. **Due to Congressional Actions.** The parties to this FA recognize that the total amount of the funding in this FA is subject to adjustment due to Congressional action in appropriations Acts or other law affecting availability of funds to the IHS and Health and Human Services. Upon enactment of any such Act or law, the amount of funding provided to APIA in this FA shall be adjusted as necessary, after APIA has been notified of such pending action and subject to any rights which APIA may have under this FA, the ATHC, or the law.

B. **Due to Tribal Contracting or Compacting.** Should any authorizing Tribe assume responsibility for PSFAs (or portions thereof) under a contract or FA pursuant to the ISDA, adjustment to funding amounts under this FA will be negotiated.

Section 7 — Records. Pursuant to Section 506(d)(1) of Title V, records acquired, generated or maintained by APIA shall not be treated as federal records under Chapter 5, Title 5 United States Code except that:

A. Patient medical records and financial records and personnel records may be disclosed only in accordance with the federal Privacy Act of 1974, 5 U.S.C. § 552a(b); and

B. Pursuant to Section 105(o) of Title I, the medical records generated by APIA shall, at the option of APIA, be stored with the National Archives and Records Administration, and APIA shall have access to such records.
Confidentiality of records shall be addressed as follows: APIA will seek to comply with the Administrative Simplifications provisions of HIPAA, including but not limited to, privacy, security, transactions and codes sets regulations, codified as 45 CFR Parts 160, 162 and 164. If a record is not subject to HIPAA, APIA will comply with Privacy Act

procedures. IHS retains the responsibility for HIPAA compliance for retained IHS health care component activities.

C. APIA operates a medical quality assurance program and treats the records of such program as confidential and privileged in accordance with Section 805 of the IHCIA, as amended at 25 U.S.C. §1675.

Section 8 — Program Rules. APIA will make a best effort to carry out the health PSFAs in this FA in compliance only with those program regulations, guidelines, and directives approved by the APIA Board of Directors and with CHA/P certification standards to the extent such standards have been established. Except as specifically set forth in this section, pursuant to Section 517(e) of Title V, APIA does not agree to be subject to any agency circular, policy, manual, guidance or rule adopted by the IHS, except for the eligibility provisions of Section 105(g) and the regulations promulgated under Section 517 of Title V.

Section 9 — Retrocession and Discontinuance.

A. Retrocession. The retrocession provisions of Section 506(e) of the ISDA, as amended, are herein adopted, except that the effective date of a retrocession request of the ATHC and FA, in whole or in part, shall be one year from the date of the request by an authorizing Tribe or Village, except as provided as follows: Retrocession may be effective with less than one year's notice, providing the Tribe or Village requesting retrocession, APIA and IHS agree to an effective date of less than one year from the date of the retrocession request.

B. Discontinuance. APIA may discontinue its participation in the ATHC after written notice to each authorizing Tribe or Village and the IHS. Notice must be provided one year in advance of the effective date of the request except that the effective date of a request, may be less than one year upon approval of all authorizing Tribes and the IHS.

C. Withdrawal Procedures.

1. **Process.** Unless otherwise prohibited by law, and in accordance with Section 506 (g) of Title V, a tribe or tribal organization may withdraw from a participating tribal organization, fully or partially, any program, function, service or activity (or portions thereof) included in the ATHC or FA, and such withdrawal will become effective within the time frame specified in the resolution which authorized transfer to the participating tribal organization, provided that in the absence of a specific time frame being set forth in the resolution, such withdrawal shall become effective on:

   (A) the earlier of (i) one year from the date of submission of such request; or (ii) the date on which the FA expires; or

(B) such date as may be mutually agreed by the Secretary, by the Indian tribe or tribal organization that is withdrawing, and by the tribal organization that has signed the ATHC and FA on behalf of the withdrawing Indian tribe or tribal organization.

2. **Distribution of Funds.** When a Tribe proposing to enter into a contract under Title I or a ATHC and FA under Title V fully or partially withdraws from a participating tribal organization, the withdrawing Tribe shall, upon written request, be entitled to be paid its tribal share of funds supporting those PSFAs (or portions thereof) which it will be carrying out under its own contract or compact and FA, and such funds shall be removed from the FA of the tribal organization and awarded to the Tribe upon approval of a Title I contract or Title V ATHC and FA. The IHS shall retain any funds removed, but not awarded in a Title 1 Contract or Title V ATHC and FA.

Section 10 — Consolidation of Contracts and Previous FAs. Funds from all previous FAs under the ATHC shall transfer into this FYs 2015-2017 FA for PSFAs, materials, and facilities provided to the Tribes represented by APIA.

Section 11 — Amendment or Modification of this FA.

A. **Form of Amendments.** Except as otherwise provided by this FA, the ATHC, or by law, any modifications of this FA shall be in the form of a written amendment and shall require written consent of each of the signatory Tribes, acting directly or through APIA as authorized by resolution, APIA and the United States. Participation or written consent of Tribes and Co-Signers not subject to the terms of this FA shall not be required.

B. **Services from IHS.** Should APIA determine that it wishes the IHS to provide PSFAs included in this FA for which funding has been identified but not provided, the parties shall negotiate an amendment to the FA to reflect the transfer of responsibilities from APIA back to the IHS and the pro-rata share of funding for that program, activity, function or service shall be retained by the IHS. Unless otherwise negotiated, IHS will not transfer centrally paid expenses including but not limited to Workers Compensation to APIA.

C. **Due to Addition of New Programs.** Should APIA determine that it wishes to provide a PSFA of the IHS not included in this FA, APIA shall submit a proposal to the IHS to provide such PSFAs. The parties agree to negotiate such a proposal and, should the parties fail to reach an agreement, APIA may submit a final offer in accordance with Title V procedures set forth in Section 507(b)-(d) of Title V. Proposals submitted pursuant to this section shall be treated as a request for amendment to the FA and, once

approved by the IHS at the Alaska Area Office shall prepare within 30 days an amendment to this FA and the amendment shall be executed through the Area Office and added to this FA.

D. Due to Availability of Additional Funding. APIA shall be eligible for any increases in funding or funding for Medicaid, Medicare, maintenance and improvement, other reimbursements and new programs for which it would have been eligible had it been administering programs under a self-determination contract, rather than under the ATHC and this FA, and for any other funds that are not restricted by appropriations language for which any Alaska Tribe or tribal organizations may be eligible, including any new funds appropriated for IHS Headquarters and funds passed to AANHS as recurring or non-recurring funds, and this FA shall be amended to provide for timely payment of such new funds to APIA. Such amendment shall be originated and prepared within 30 days by the AANHS Office and executed through the Area Office in consultation with the APIA.

E. Other Adjustments. Upon written authorization by APIA and agreed to by the IHS, the IHS may reallocate funds retained by the IHS, which are obligated to APIA for the purpose of reimbursing the IHS for services or equipment provided to APIA to assist APIA in carrying out the terms of the ATHC and this FA.

F. General Procedures for Amending or Modifying this FA. Amendments or modifications proposed by APIA shall be submitted in writing to the IHS, Alaska Area Director, with a copy to the Office of Tribal Self-Governance at the IHS. Except as provided with respect to the incorporation of provisions of Title I under Article V, Section 21, of the ATHC or as provided in paragraphs D and G of this section, a request to amend or modify this FA submitted by APIA shall be processed in accordance with Section 507 (b) – (d) of Title V and all provisions of those subsections are incorporated herein for this purpose.

G. Funding Increases.

(1) Written consent of APIA shall only be required for issuing amendments for those funds which:

(A) require a change to Section 3 – Tribal Programs and Budget;
(B) require a specific commitment by APIA (e.g. Maintenance & Improvement projects and prior fiscal year Sanitation Facility Construction projects); or
(C) reduce funding other than changes in Congressional appropriations pursuant to Section 6A.

(2) Amendments not requiring written consent may include, but are not limited to:

(A) Program/Area/HQ Mandatories;
(B) Program/Area/HQ End-of year Distributions;
(C) CHEF, subject to the condition that if a case initially qualifying for reimbursement is paid, in whole or in part, by an alternate resource or cancels for any reason, APIA will return the unused amount to the IHS CHEF account;
(D) CHS Deferred Services;
(E) Routine Maintenance & Improvement;
(F) Collections and reimbursements.

(3) Amendments reflecting payment of these funds shall be provided to the APIA after any such funds are added to the FA. APIA retains the right to reject the addition of such funds to the FA and return the funds to the IHS.

Section 12 — Medicare/Medicaid and Other Third Party Recoveries. APIA has elected to directly collect Medicare and Medicaid payments as provided in 25 U.S.C. § 1641, as amended. APIA is obligated and entitled to directly collect and retain reimbursement for Medicare and Medicaid and other third party payers for services under this FA (and previous annual FAs) in accordance with Section 401 of the IHCIA, as amended by P.L. 111-148, 25 U.S.C. § 1641 (previously Section 401 of such Act, as amended by P.L. 106-417), and Section 206 of such Act, 25 U.S.C. § 1621e, as amended. Any funds recovered by APIA through the filing, litigating, or settling a claim against a third party to require that third party to pay for services previously provided to IHS-eligible beneficiaries by APIA, or for such services previously provided by the IHS in a PSFA now operated by APIA, shall be the property of APIA and shall be considered program income to be utilized by APIA as provided in Article III, Section 7 of the ATHC. Any prospective recovery of funds for such services shall likewise be considered program income to be utilized pursuant to Article III, Section 7 of the ATHC. APIA has the right to recover reimbursement from certain third parties for the reasonable charges for health services in accordance with Section 206 of the IHCIA, as amended at 25 U.S.C. § 1621e.

Section 13 – Utilization of Federal Real Property.

A. For all property assets, including facilities, managed by APIA under this FA that are federally owned, APIA agrees to assist the IHS with its reporting requirements associated with Federal ownership of this property.

1. The IHS must keep its facility condition assessment current (i.e. not more than five years old). APIA agrees to collaborate with the ANTHC on scheduling and conducting facility condition assessment surveys for federally-owned facilities under APIA management. The costs of these surveys will be estimated in concert with the ANTHC Maintenance and Improvement Resource Allocation Committee (MIRAC).

2. The IHS must identify historic real property assets and ensure that the information is current. From time to time, the IHS is required to assess IHS real property holdings in Alaska. The IHS may either perform these assessments directly or by use of a contractor. APIA agrees to provide reasonable access to facilities. IHS will provide APIA with a copy of the draft assessment and consider any comments APIA may submit.

3. The IHS must keep an accurate and current inventory of real property assets. APIA agrees to provide the certification form included in appendix D-1 - Certification for New/Replaced/Added Space annually to the AANHS for any new, replaced, or added space to a federally owned facility, or other changes in space utilization.

4. The IHS must report Energy Data for federal facilities. APIA agrees to submit to ANTHC (DEHE) energy data, as specified in Appendix D-2 - Energy Report.

5. For projects starting on or after October 1, 2005, the IHS must report all capital improvements made to federal facilities which exceed $100,000. APIA agrees to provide a Final Real Property closeout Report specified in Appendix D-3 - Final Real Property Closeout and Interim Real Property Status Report to ANTHC DEHE on each project within 120 days of its beneficial use of the facility or an interim report using Appendix D-3 - Final Real Property Closeout and Interim Real Property Status Report without the Chief Financial Officer certification if the project is not completed for beneficial use. APIA agrees to provide the applicable report by March 31st of each fiscal year.

6. The National Environmental Policy Act (NEPA), National Historic Preservation Act (NHPA), and related provisions of law require the IHS to review and approve actions resulting in the use or commitment of IHS funds or that affect IHS property, and which may significantly impact the environment or cultural resources. Unless APIA has assumed these responsibilities under a construction project agreement in accordance with Section 509 of Title V and 42 C.F.R. § 137.285-312, the IHS must carry out these responsibilities and has elected to utilize Appendix D-6. Where APIA plans to undertake an action, as described in Appendix D-6, on IHS owned real property or utilizing IHS funds received through this Funding Agreement, and APIA has not assumed these responsibilities, APIA will provide the IHS with a Project Summary Document (see Appendix D-4) and a completed Environmental Information and Documentation Form (see Appendix D-5) so that the IHS can accomplish these requirements, and issue a Determination Document (Categorical Exclusion (CATEX) or Finding of No Significant Impact (FONSI)), as soon as possible. All documentation shall be submitted to the IHS as early as possible in the planning phase of the project to prevent delays in the action. No irreversible action can be taken by APIA until the IHS completes its compliance responsibilities and so advises APIA with a Determination Document. Pending resource availability, the IHS is available for education and consultation on NEPA, NHPA, and related provisions of law on an as needed basis.

7. When planning to fund a construction project using non-IHS funds in a federal facility or on federally owned land, APIA will notify the IHS AANHS in order to initiate the approval process.

Section 14 — Operation and Maintenance of Quarters.

(a) APIA shall be responsible for operation, management and maintenance of all housing facilities owned by the Federal Government and managed by APIA in accordance with the APIA Housing Policy approved by APIA. The Alaska Landlord-Tenant Law does not apply to Federal Government housing.

(1) APIA shall be responsible for assigning all APIA and Federal Government employees eligible under the APIA Housing Policy to quarters under APIA jurisdiction.

(2) APIA shall be responsible for the day-to-day operation of the quarters under its jurisdiction, including but not limited to routine maintenance and up-keep of heating systems, appliances, utilities and furnishings, grounds, and the building structure.

(3) APIA shall inspect quarters for damages and cleanliness upon the tenant vacating the premises to assess any damages identified as belonging to the tenant. If the quarters require cleaning and/or any tenant-assessed damage is found, the tenant shall have the opportunity to make arrangements for cleaning and repairs at tenant's expense and to the satisfaction of APIA.

(b) Quarters Return (QR) Fund Management.

(1) APIA may establish rental rates and collect rents for federally owned quarters in compliance with section 309 of the IHCIA, as amended at 25 U.S.C. § 1638a. All occupants of federally owned quarters, with the exception of approved volunteers, students and beneficiaries eligible under Section 5 of this provision, shall be assessed charges for rent, special services (e.g., house-keeping, snow removal and trash removal), and utilities in accordance with the rental rates established by APIA.

(2) APIA shall collect quarters' rent and utility charges (where utilities are not payable directly to the utility provider) directly from tenants, including from Federal employees who occupy the quarters. APIA will provide notices to the affected federal employees that APIA has elected to directly collect from them under Section 309 of the IHCIA, as amended at 25 U.S.C. § 1638a(b). Upon receipt of such notice, the affected federal employees shall pay rent for occupancy directly to APIA.

(3) Patients boarding in Boarders Quarters shall be billed at the established rate. APIA shall not be required to charge beneficiaries who must occupy such quarters for medical reasons authorized by the attending Physician. If a patient boarder has a third party source reimbursement providing lodging coverage, the third party source of reimbursement shall be billed for lodging. Patient boarding receipts shall be program income under this FA.

(4) All Quarters receipts collected by APIA and all quarters collections from federal government employees shall be deposited into an APIA-managed account and accounted for separately. Such funds shall be applied only to the operation, maintenance, and management of such quarters. All such funds shall remain available for such functions until expended.

(5) Nothing in this Section shall be interpreted, construed, or applied to restrict the sole discretion and authority of APIA to issue certifications for rental deductions for income tax purposes to employees hired directly by the APIA and to federal employees employed in the APIA service area.

(c) Other Funding For Quarters Repair Projects.

Quarters repair or improvement projects which are expected to exceed APIA's QR funds shall be submitted to the Director, Division of Health Facilities, as part of APIA's FEPP to be considered along with other Area Health Facilities Projects for Maintenance and Improvement funding or other types of funding available for IHS-owned quarters.

Section 15 — Service to Non-Beneficiaries. Services may be provided to non-beneficiaries (i.e., persons who are not Alaska Native or Indians) on a fee-for-service basis in accordance with and subject to the provisions of Section 813(c) of the IHCIA, as amended, and the resolution of the APIA Board of Directors, attached hereto.

Section 16 — Memorializing Disputes. The parties to this FA may have failed to reach agreement on certain matters which remain unresolved and in dispute. Such matters may be addressed through the process set forth in Section 507 (b) – (d) of Title V, or at APIA's option may be set forth in an attachment to this FA, which shall be identified as "Memorialization of Matters Remaining in Dispute." This attachment, if any, shall not be considered a part of this FA, but is attached for the purpose of recording matters in dispute for future reference, discussion and resolution as appropriate. APIA does not waive any remedy APIA may have under the law with regard to these issues and any others not listed herein.

Section 17 — Federal Tort Claims Coverage. The FTCA applies to APIA's PSFAs under this FA as provided in Section 516(a) of Title V [which incorporates Section 102 (d) of Title I of the ISDA and Section 314 of P.L. 101-512] and Article V, Section 3 of the ATHC. The

extent of coverage is described more particularly in 25 CFR Section 900.180-900-210. APIA and its employees carrying out statutorily mandated grant programs added to an FA are covered by the FTCA. There is no requirement that APIA purchase liability insurance to protect or indemnify the federal government. Whether the FTCA applies in any particular case is decided on an individual case-by-case basis, first by the Department of Justice and subsequently by the federal courts. APIA may purchase liability insurance supplemental to FTCA coverage which is an allowable cost under this FA. A health care practitioner, who has been given privileges in a health facility operated by APIA will be extended FTCA coverage in accordance with 25 U.S.C. § 1680c(e).

Section 18 — Memorandum of Agreement with Member Villages. Funds provided under this FA may be allocated to and expended by an Alaska Native Village (Village), which is a party to this Agreement in accordance with the terms of the ATHC, this FA and an agreement approved by APIA and the Village. The FTCA shall apply to PSFAs carried out by the Village under such agreement and to the Village and its employees to the same extent as if they had been carried out directly by APIA. Such an agreement may include provisions for the assignment of federal employees under IPA assignment or Commissioned Corps detail. Such assignments shall be subject to the approval of the AANHS Director. APIA shall be responsible for assuring compliance by the Village with the ATHC, this FA and such agreement.

Section 19 — Severability. This FA shall not be considered invalid, void or voidable if any section or provision of this FA is found to be invalid, unlawful or unenforceable by a court of competent jurisdiction.

Should such a court make such a finding, the parties will seek agreement to amend, revise, or delete any such invalid, unlawful or unenforceable sections or provision, in accordance with the provisions of the ATHC.

Section 20 – Title I Provisions Applicable to This FA. As authorized in 25 U.S.C. § 458aaa-15(b), APIA exercises its option to include the following provisions of Title I of the ISDA as part of this FA, and these provisions shall have the force and effect as if they were set out in full in Title V of the ISDA.

20.1. 25 U.S.C. § 450b(e) (definition of "Indian Tribe");
20.2. 25 U.S.C. § 450h(b) (related to grants for health facility construction and planning, training and evaluation);
20.3. 25 U.S.C. § 450j(a)(1) (exemption from Federal procurement and other contracting laws and regulations);
20.4. 25 U.S.C. § 450k(b), (conflicting provisions of law);
20.5. 25 U.S.C. § 450*l*(c), section 1(b)(8)(F) (screener identification);
20.6. 25 U.S.C. § 450*l*(c), section 1(b)(9) (availability of funds);
20.7. 25 U.S.C. § 450*l*(c), section 1(d)(1)(B) (construction of contract);

Section 21 – Exemption from Fees. In accordance with Section 124 of the IHCIA, as amended at 25 U.S.C. §1616q, employees of the APIA health programs shall be exempt from payment of licensing, registration, and any other fees imposed by a federal agency to the same extent that officers of the Public Health Service commissioned corps and other employees of the IHS are exempt from such fees.

Section 22 – Licensure. Licensed APIA health professionals will be licensed in accordance with Section 221 of the IHCIA, as amended at 25 U.S.C. § 1621t.

Section 23 – Purchase of Health Coverage. APIA may use federal funds for purchase of health care coverage in accordance with section 402 of the IHCIA, as amended at 25 U.S.C. § 1642.

Section 24 – Federal Insurance. IHS will assist APIA to obtain information about the coverage, rights and benefits available for its employees under chapters 87 and 89 of title 5, United States Code, the cost of such coverage, rights and benefits (including any options in coverage, rights and benefits that may be available), and the procedures by which APIA may exercise its rights under Section 409 of the IHCIA, as amended, to have access to such Federal insurance for its employees.

Section 25 - Effective Date and Duration. This FA shall become effective on October 1, 2014, and remain in effect through the 2017 federal Fiscal Year or until a successor FA is negotiated and becomes effective pursuant to Article II, Section 12 of the ATHC.

General Notes on Alaska Area Office Tribal Shares

Column 1 - Includes all FY14 changes allocated to TS, Residual, & Transitional as of 8.25.14. In FY 2015 TS changes will be added as received.

Column 2 - Residual includes no changes in residual functions. Based on FY2015 Area proposed residual budgets.
Remaining funds at 9/30 distributed (Non-Recurring) to all Alaska Area health programs based on recurring bas

Column 3 - Transitional funds agreed by co-signers to remain at Area Office. Based on FY2015 proposed transitional budget.

Column 4 - Restricted by all co-signers & transferred to the ANTHC to provide "Area PSFAs".

Column 5 - Includes Area TS for all Alaska Tribes, including Title I & Title V. FY15 mandatories to be added if received.

Column 6 - Available Tribal shares for Co-Signer (amounts for ANTHC include pass-through to awardees with shares captured by Sec. 325).
Distributed by the approved ATHC methodology of - 30% # of Tribes / 35% 2010 Census Pop. / 35% Rec. Base (less VBC).

Column 7 - Items restricted by individual co-signer to pay for continued services from ANTHC. (Restricted amounts are added to ANTHC FA.)

Column 8 - The agreed upon amount due (col. 6 - col. 7) to the co-signer after all retained shares are withheld.

Line 1 - All TS funds for non-OEHE Area Office PSFAs except where co-signers have individually decided to retain certain PSFAs at the ANTHC or AANHS.

Line 5 - Lease on Inuit Building.

Line 5a - $20,000 (less sequester) from transitional funding held by IHS to rent space for annual negotiations. Funds transferred to ANTHC upon confirmation of s

Line 7 - Centrally paid expenses, including personnel & finance support for Area positions, costs & funds for departmental assessments.

Line 8 - Area Human Resources functions (previously Office of Personnel & Training).

Line 9 - Funding originally from ANMC - have been returned to SCF/ANTHC as IPA/MOAs were reduced.

Line 10 - Includes funding for Area PSFAs transferred to ANTHC under Section 325.

Line 11 - Funds to ANTHC to support the statewide Contract Health Services reserve program.

Line 12 - Funds to ANTHC to support specialized services in Barrow, NSHC, & BBAHC & certain statewide laboratory contracts.

Line 13 - ANHB funds from Loc 77 including previous tobacco prevention funding.

Line 14 - Supply Service Center individually withheld amounts retained for ANTHC for all co-signers except YKHC, Seldovia, & Eklutna.

Line 15 - Funds distributed to support the Epidemiology Center distributed to co-signers for individual payment to ANTHC.

Line 16 - Funds for EMS training. Retained by IHS for transfer to ANTHC for Maniilaq, BBAHC, & Chugachmiut for EMS training at ANMC.

Line 18 - Does not include funds from surcharge, assessments, or other services purchased through Area Office.

Line 22 - Funds retained for ANTHC for all co-signers except YKHC, SCF, & KIC.

Line 24 - Does not include NR SFC funds for Health Facilities design and construction oversight.

Footnotes:

Column 1- Initial withhold for IPA/MOA and VBC is 4 months (3 months deposit and October adv. payment); for all other costs, 2 months is withl

Column 2 - IPA/MOA Centrally Paid Expenses are estimated at $284 for each IPA and $2,990 ($690 for Regional MOA services) for each MOA Employee Dispute Pool Costs are no longer charged in advance (see Section 2.3.2.3 of Buyback Agreement).

These charges will be reconciled to actual cost per employee as incurred by the Service and Supply fund for CPE expenses.

Column 3 - Surcharge for all Co-Signers using buyback is .

Appendix C
Buyback/Withhold Agreement
between
the Indian Health Service
and
Aleutian Pribilof Islands Association, Inc.

Section 1. Generally. Pursuant to Section 5.3 of the Funding Agreement between Certain Alaska Native Tribes Served by Aleutian Pribilof Islands Association, Inc. (hereinafter "APIA") and the Secretary of the Department of Health and Human Services of the United States of America (hereinafter "Secretary"), APIA has determined that it wishes to carry out its responsibility to provide certain programs, activities, functions or services (e.g. salaries of IPA/MOA employees, and Village Built Clinics Program) included in its Funding Agreement utilizing services, personnel or other resources of the Federal Government, (hereinafter "services") under Article V, section 22 of the Compact, as permitted by law. These services may include some that are expected to be used throughout the year and some incidental services to be identified by APIA on an as needed basis, and provided by the Indian Health Service (hereinafter "IHS") when IHS has the capacity to do so. The cost of providing the purchased services to APIA shall be determined under section 2 below. APIA's purchase of services is contingent upon the availability of IHS resources to provide those services. In addition, services must be paid for in advance, in order to avoid violation of the Anti-Deficiency Act and are subject to full cost recovery in accord with 25 USC 458aaa-7(f) and 31 USC 9701.

Section 2. Determination of Cost.

2.1 Generally. APIA may acquire services from the IHS by either providing for full year withhold (with appropriate reconciliation) under terms agreed upon in this funding agreement, in which case the administrative surcharge provided for under section 2.2.4 shall not apply. In the alternative, APIA may acquire services by authorizing partial year withhold amounts, as provided for in section 2.2, in which case the payment schedule and administrative surcharge provided for in section 2.2.4 shall apply. Whether full or partial year withhold is authorized, the full costs of IPA/MOAs including those detailed in section 2.3, Determination of IPA/MOA Costs, shall be paid by APIA.

2.2 Conditions for Partial Year Withhold and Buyback.

2.2.1 IPA/MOA.

2.2.1.1 Advance withhold. The funds for IPA/MOA salary and other costs detailed in section 2.3, "Determination of IPA/MOA Costs," will be paid as a lump sum in accord with Section 5(a) of the Funding Agreement, except that an amount equal to three monthly payments based on the initial mutually agreed upon estimate of the annual IPA/MOA salary costs and related surcharges, as provided in section 2.2.4, will be withheld and retained by

the Indian Health Service pending final disbursement for the last three months of the fiscal year as provided in section 3.2.2.2.

2.2.1.2 Late Payment Provision. Except as provided in section 3.4, failure to make payment in full by the Default Date will result in action by the IHS to RIF or redeploy federal employees assigned to APIA.

2.2.2 Village Built Clinics.

2.2.2.1 Advance Withhold. To ensure that sufficient funds are available to meet contract obligations, an amount equal to three monthly payments based on the initial mutually agreed upon estimate of the annual Village Built Clinic costs and related estimated surcharges, as provided in section 2.2.4, will be withheld and retained by the Indian Health Service pending final disbursement for the last three months of the fiscal year as provided in section 3.2.2.2.

2.2.2.2 Late Payment Provision. Except as provided in section 3.4, failure to make payment in full by the Default Date will result in action by the IHS to terminate the village based clinic leases.

2.2.3 Other Services.

2.2.3.1 Advance Withhold. An amount equal to one monthly payment based on the initial mutually agreed upon estimate of the annual cost of other services APIA proposes to purchase from the IHS and related estimated surcharges, as provided in section 2.2.4, will be withheld and retained by the Indian Health Service pending final disbursement for the last month of the fiscal year as provided in section 3.2.2.2.

2.2.3.2 Incidental Services. Nothing herein shall prevent APIA from negotiating to purchase incidental services from the IHS throughout the year, without regard to an advance withhold. Such incidental services may include medical record storage, costs associated with disposal of excess governmental property held by APIA and costs associated with acquiring excess property from the Department of Defense. Agreements for purchase of incidental services must specify the method and timing of payment by APIA.

2.2.3.3 Late Payment Provision. Except as provided in section 3.4, failure to make payment in full by the Default Date will result in action by the IHS to terminate the services for which payment has not been made.

2.2.4 Administrative Surcharge. An administrative surcharge in a percentage set forth in Section 5.3 of the Funding Agreement shall be imposed on the charges for the services delivered by the IHS to APIA under the partial year withhold and buyback provisions of section 2.2. This surcharge will not be imposed on purchases for which a full year's estimated withhold is authorized. The administrative surcharge will be estimated based on the estimated annual purchase price and will be accounted for and reconciled under section 3.3.2.

2.2.5 No Other Charges. Except as provided in this section 2.2, there shall be no additional overhead, user or administrative charges or assessments for providing services to APIA.

2.3 Determination of IPA/MOA Costs.

2.3.1 List of Costs. It is agreed by the parties that the entire cost of IPA/MOA assignments, including costs associated with the initiation, maintenance, and termination of the assignments are the responsibility of APIA. The IHS must be reimbursed for all such costs which include but are not limited to the following:

2.3.1.1 Permanent change of station costs including the cost of moving replacement IPAs from the lower forty-eight to Alaska and the cost of moving IPA employees who separate back to the lower forty-eight.

2.3.1.2 Recruitment, relocation and retention bonuses if such funds are necessary to attract or retain employees.

2.3.1.3 Severance pay for employees who are released by APIA and separated without cause.

2.3.1.4 Payment of turnaround leave travel expenses. All individuals who are eligible for these expenses shall be identified in the IPA negotiated between the parties. The IHS will retain liability for existing IPAs. APIA assumes the liability for new IPAs and upon renewal of an existing IPA.

2.3.1.5 Lump sum leave payments for employees who leave federal service. All leave accrued prior to the employee becoming employed by APIA shall be identified in the IPA/MOA negotiated between the parties. The liability for accrued leave on existing, renewing, and new IPA/MOAs shall be the responsibility of APIA.

2.3.1.6 Costs associated with settling or resolving employment related disputes, subject to the terms specified in section 2.3.2 below.

2.3.1.7 Centrally paid expenses, subject to the terms specified in section 2.3.3 below.

2.3.1.8 The cost of paying unemployment benefits assessed to the Area in FY 2002 and thereafter on behalf of an employee who was employed by APIA under an IPA immediately prior to voluntary or involuntary separation from IHS regardless of the year in which unemployment benefits were paid. The APIA is not responsible for unemployment costs that were assessed to the Area in Fiscal Years 2000 and 2001.

2.3.2 Costs Related to Employment Related Disputes.

2.3.2.1 Responsibilities of the IHS. The Indian Health Service shall be

responsible for the payment of all costs of the IHS Office of Human Resources and any other section of the Indian Health Service, the Office of General Counsel, and the Department of Health and Human Services associated with the processing, settlement or other resolution of employment actions such as disciplinary actions, grievances, or appeals to the Merit System Protection Board and/or the Equal Employment Opportunity Commission, and matters arising under the Federal Labor Relations Act or any other law permitting the employee to appeal from such actions initiated by Federal employees assigned to a Co-Signer under an IPA or MOA. The IHS may pay for or recover these costs as described under section 2.3.2.3, Sharing in Costs of IPA/MOA Employment Related Disputes, to the extent permitted under section 2.3.2.2.

2.3.2.2 Employee Disputes Costs Chargeable to Co-Signers. The IHS may pay for or recover costs associated with processing, settlement or other resolution of employment related disputes listed in paragraph 2.3.2.2.1 of this subsection under the following conditions:

2.3.2.2.1 Only costs associated with covered disputes that arose from conduct, performance or other circumstances alleged to have occurred during the course of an employee's assignment to a Co-Signer may be assessed under section 2.3.2.3.

2.3.2.2.2 Costs which may be assessed under section 2.3.2.3, Sharing in Costs of IPA/MOA Employment Related Disputes, may include, but are not limited to, awards of back pay, compensatory damages, attorney fees, travel costs necessary to investigate the case and represent the IHS at hearings or in other proceedings during the appeal process, costs of obtaining and preserving witness testimony, and other similar costs incurred as a result of the IHS defending itself in these matters.

2.3.2.2.3 No salary costs of IHS, Office of General Counsel or Department of Health and Human Service employees may be assessed or recovered under section 2.3.2.3. Nor may any other cost of these proceedings be charged if such costs have ordinarily been paid from funds identified by the IHS as residual or restricted at Headquarters or the Area Office.

2.3.2.3 Sharing in Costs of IPA/MOA Employment Related Disputes. All costs of the IHS related to IPA/MOAs for which Co-Signers are responsible under section 2.3, "Determination of IPA/MOA Costs," are the responsibility of the individual Co-Signer to whom the IPA/MOA is assigned, except as provided in this paragraph. APIA agrees to share with other Co-Signers the costs and risks described in the above section 2.3.2.2, "Employee Disputes Costs Chargeable to Co-Signers" by agreeing to accept a share of the cost not to exceed $75 per assigned IPA/MOA per separate employment action. The purposes of sharing these costs are to simultaneously ensure that IHS recovers the full costs associated with employment related disputes involving IPA/MOAs, minimize the financial risk for individual Co-Signers, and minimize the accounting and administration caused by certain categories of costs. The IHS may use funds assessed under this paragraph only as provided in section 2.3.2.2. The amount assessed each Co-Signer shall be a percentage calculated based on the number of IPAs and MOAs the Co-Signer has assigned to it. All costs assessed under this paragraph will be reconciled with each contributing Co-Signer, as provided under section 3.3, and a separate report will be provided to all ATHC Co-Signers.

2.3.3 Costs Related to IPA/MOA Centrally Paid Expenses. Certain costs associated with IPA and MOA employees are paid centrally by Headquarters from Area funds. These include costs detailed in columns 6, 7, and 8 of the spreadsheet entitled "Allocation of Centrally Paid Expenses (Excluding FTS)," Corrected May 11, 1998, that was prepared by David Mather. These are costs associated with Commissioned Corps, Personnel and Payroll, and Balance of Human Resources. The Alaska Area Native Health Service may pay for or recover assessments from Headquarters to cover these identified costs by including in the monthly charge for each IPA or MOA the monthly cost to the IHS of such Centrally Paid Expenses. The cost charged APIA for each IPA/MOA may not exceed the average cost per federal employee actually paid by IHS. For purposes of calculating the initial withhold amount and estimated monthly payments, the estimated average cost per month for each IPA or MOA is shown in Appendix A of the Funding Agreement.

2.4 Limitation on Obligations and Notice.

2.4.1 Obligations. IHS shall within 30 days provide notice to APIA of the best available estimate of the costs that may be incurred under this Agreement of leases, contracts, salaries and related expenses and permanent change of station.

2.4.2 Content of Notices of Best Available Estimates and Costs. Notice of best available estimates under section 2.4.1 and full accounting of all costs due under section 3.3.1 shall include the amount, vendor and reason for obligation or expenditure, including the name of the employee, if any.

Section 3. Method of Payment.

3.1 Full Year Withhold. Payment for services being purchased from the IHS may be made by APIA authorizing a withhold of the full year's initial mutually agreed upon estimate of the annual cost of each category of services APIA proposes to purchase from the IHS. In such case, no monthly payments are due from APIA. Upon periodic reconciliation, provided for under section 3.3.1, excess withheld funds will be paid by the IHS to APIA and adjustments in the amount of withhold or payments needed to pay for all services APIA has purchased, or proposes to purchase, will be made to the IHS by APIA. *See* "Summary of Withhold/Buyback" page of Appendix A for calculation of the amount APIA hereby authorizes for full year withhold, if any.

3.2 Purchases through Buyback under section 2.2.

3.2.1 Calculations.

3.2.1.1 Of Initial Estimated Monthly Payment. The initial estimated monthly payment is determined by estimating the annual cost of services to be purchased from IHS, including the surcharge on all services under section 2.2.4, and dividing by 12. *See* "Summary of Withhold/Buyback" page of Appendix A for calculation of the amount of the initial estimated monthly payment.

services through buyback authorizes withhold of an amount equal to the Advance Withhold under paragraphs 2.2.1.1, 2.2.2.1 and 2.2.3.1 of section 2.2 for each category of service being purchased, plus an amount equal to one month of the initial estimated monthly payment for each category of service being purchased (to cover the estimate for services to be provided in October). *See* "Summary of Withhold/Buyback" page of Appendix A for calculation of the amount APIA hereby authorizes to be withheld.

3.2.2 Payment Schedule.

3.2.2.1 First Payment. The initial estimated monthly payment is due and payable on the first day of November or the first day of the month following payment to APIA of its lump sum payment, whichever is later, in which case the IHS shall reduce the lump sum payment by the authorized withhold plus the initial estimated monthly payments for each month preceding the first month for which a payment is due from APIA for which a payment was not withheld. (This provision is intended to address delays caused in making the lump sum payment to APIA due to Congress authorizing continuing resolutions or other delays in making lump sum payments to APIA.)

3.2.2.2 Subsequent Estimated Monthly Payments. Subsequent payments are due and payable on the first day of each month, until the final months of the year intended to be covered by the Advance Withhold amount applicable to the category of services, as set forth in section 2.2. (For example, the last three months of payments for IPA/MOAs would come from the Advance Withhold amount, while only the last one month of payment for Other Services would come from the Advance Withhold amount.)

3.2.2.3 Default Date. If a payment is not received by the 10th day of the month in which it is due (or the first working day thereafter if the 10th day falls on a week-end or Federal holiday), the IHS will implement the late payment provisions for each category of service as provided under paragraphs 2.2.1.2, 2.2.2.2, and 2.2.3.3. This date shall be referred to throughout this section as "Default Date."

3.3 Reconciliation and Adjustment.

3.3.1 For Categories of Service. Full accounting of all costs for each category of service, whether purchased through full year withhold or buyback, will be provided to APIA within 45 days of the end of each month. Reconciliation of payments made to IHS compared to actual costs for the first three quarters of the fiscal year will be provided quarterly within 45 days of the end of each quarter. Reconciliation of payments made to IHS compared to actual costs for the last quarter of the fiscal year will be provided within 60 days of the end of the last quarter. At the end of each of the first three quarters, the IHS and APIA will review the expenses for the preceding quarters. The monthly estimated payment due, or the full year withhold amount, for the balance of the fiscal year will be adjusted accordingly to account for any over or under collections in order to project a zero balance at the end of the fiscal year. Within 30 days after the final end-of-year reconciliation is provided to APIA, any over recovery by the IHS must be returned to APIA and within 30 days after the final end-of-year reconciliation is due any under recovery must be paid by APIA.

3.3.2 For Administrative Surcharge.

3.3.2.1 Use and Rebate. The administrative surcharge shall be used exclusively for administration of the buyback provisions under this Buyback/Withholding Agreement. All income from the administrative surcharge will be accounted for separately and compared on an annual basis to the cost of administering buyback at the Area Office. This accounting and reconciliation shall be complete within 60 days of the end of the last day of the fiscal year. Any surplus in administrative surcharges shall be returned to the Co-Signers who participated in the buyback option on a pro rata basis depending on the amount of administrative surcharge paid.

3.3.3 Adjustment in Estimated Monthly Payment. In addition to adjustments in estimated payments that may occur under sections 3.3.1 and 3.3.2.1, the parties may at any time mutually agree, based on a change in circumstances, to change the estimated monthly payment due from APIA.

3.4 Use of Other Funds Due APIA to Avoid Default or Satisfy Obligations to IHS and other Remedies.

3.4.1 Avoiding Default. Default may be avoided to the extent funds are held by the IHS from other funds due to APIA, which may be withheld to satisfy the amount of the payment, which would otherwise be in default or to satisfy amounts due IHS after reconciliation of costs and payments when an amount is due to IHS.

3.4.2 Recoupment. Any amount due to the IHS by reason of APIA's failure to pay in full all amounts owing under the buyback provisions of the Funding Agreement for the immediately preceding fiscal year shall be recouped by the IHS from any funds due to APIA under this funding agreement.

3.4.3 Full Year Withhold as Penalty for Default. Notwithstanding any other provision of this Buyback/Withholding Agreement, the IHS may require "full year withhold" as permitted herein as a condition of permitting a Co-Signer who was in arrears at the end of the immediately preceding fiscal year to buyback services from the IHS under the terms of this Agreement.

Section 4. Dispute Resolution. The parties shall endeavor to resolve any disputes concerning amounts due by APIA under this Agreement in a manner agreeable to APIA and to the IHS. In the event of a failure to reach agreement on the resolution of any such dispute, APIA may, after providing written notice to the IHS, choose not to include the disputed amount in any subsequent payment due. Payment in such a manner shall not be considered as a resolution of the dispute. The parties shall thereafter attempt to resolve the dispute through Alternative Dispute Resolution following, as appropriate, the principles and processes set forth in Executive Order 12988 signed by President Clinton on February 5, 1996, and made effective as of May 5, 1996. APIA shall have the option of resolving the dispute in accordance with Article II, Section 10 of the Compact.

Section 5. Effective Date. This Buyback/Withholding Agreement shall become effective on October 1, 2007, and shall remain in effect pursuant to section 5.3 of the Funding Agreement.

ACTIONS REQUIRING IHS ENVIRONMENTAL REVIEW AND DETERMINATION

APPENDIX D-6 – Actions Requiring IHS Environmental Review and Determination

For actions outlined in the below table, which are to be undertaken by APIA, APIA shall submit a proposal package that includes a completed Project Summary Document (See Appendix D-4) and Environmental Information and Documentation Form (See Appendix D-5) to the IHS. Coordination time between APIA and the IHS to complete the Environmental Review and Determination process varies for each group of actions. The timing provided below indicates the expected timeline to complete the process for each group of actions. Early coordination in the planning phase of a project between APIA, IHS, and other stakeholders will help ensure environmental concerns are addressed in a timely manner and project delays are minimized so that IHS can complete its environmental responsibilities and issue a Determination Document as early as possible.

	Action	Expected Timelines
	Categorically excluded actions per Federal Register Vol. 58, No. 3, pg 571(I)(3), (I)(4), (I)(6), and (I)(7), dated January 6, 1993.	**The Environmental Review and Determination Process for this group of actions ranges from 45 to 90 days from the receipt by the IHS of the proposal package.***
☐	Pg 571 (I)(3): Building alteration or renovation that does not substantially change the function or general appearance of existing buildings.	
☐	Pg 571 (I)(4): Construction or lease of new facilities (including portable facilities and trailers) where such lease or construction: (a) is at the site of existing health care facility and the facility capacity is not substantially increased, (b) is for building of less than 12,000 square feet of useable space when less than five acres of surface land area are involved at a new site, or (c) is for projects other than buildings when less than five acres of surface land area are involved at a new site.	
☐	Pg 571 (I)(6): Acquisition of space by lease, use agreement, transfer, gift or similar arrangement for which: (a) the intended use of the space is consistent with the functional design of the building, and (b) the acquisition is consistent with an applicable master plan, if such plan exists.	
☐	Pg 571 (I)(7): The acquisition, sale, release, abandonment, closure or transfer of real property, provided the action: (a) is consistent with any applicable master plan, if such a plan exits, (b) conforms to local zoning and land use ordinances, if such ordinances exist, (c) is consistent with the functional design of the facility, (d) would not violate applicable Federal, State, or local environmental protection or historic preservation laws, and (e) satisfies the requirements of applicable comprehensive Environmental Response Compensation and Liability Act (CERCLA)section 120 (h) provisions.	
	Any normally categorically excluded actions that may have Extraordinary or Exceptional Circumstances per Federal Register Vol. 58, No. 3, pg 571-72(K), dated January 6, 1993.	**The Environmental Review and Determination Process for this group of actions ranges from 60 to 180 days from the receipt by the IHS of the proposal package.**
☐	Pg 571 (K)(1): Those with potential to change the existing environment where such change violates directives or other controls that are imposed by any governmental body having jurisdiction, for the purpose of protecting or otherwise affecting that environment;	
☐	Pg 571 (K)(2): Those with potential or real threat of violation, or continued violation, of an applicable Federal, State, or local law or requirement imposed for protection of the environment or to ensure public health and safety;	
☐	Pg 571 (K)(3): Those likely to cause controversy with respect to the types or extent of the resulting environmental effects where such controversy is based on pertinent and substantial issues;	

☐	Pg 571 (K)(4): Those involving the use of technology where the possible effects are highly uncertain or involve unique or unknown risks and where such technology has not been assessed previously for environmental impact;
☐	Pg 571 (K)(5): Those which have adverse effects on unique geographic characteristics (e.g. historic, archeological, or cultural resources, park recreation or refuge lands, wilderness, areas, wild or scenic rivers, sole or principal drinking water aquifers, prime farmlands, wetlands, floodplains, coastal management zones, or ecological or critical areas including those listed on the Department of Interior National Register of National landmarks);
☐	Pg 571 (K)(6): Those which establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects;
☐	Pg 571 (K)(7): Those which have adverse effects on properties listed or eligible for listing on the National Register of Historic Places;
☐	Pg 571 (K)(8): Those which have adverse effects on species listed by the Federal Government as Endangered or Threatened Species, or which have adverse effects on any designated critical habitat for these species;
☐	Pg 571 (K)(9): Those which require assessment in accordance with Executive Order 11988 (Floodplain Management), or Executive Order 11990 (Protection of Wetlands), or the Fish and Wildlife Coordination Act; and
☐	Pg 572 (K)(10): Those which involve the use, transfer, or lease of real property which has been determined, after investigation in accordance with the provisions of CERCLA 120 (h), to have been used as a storage facility for hazardous waste for more than 1 year; and
☐	Pg 572 (K)(11): Construction projects which are significantly greater in scope or size than normally experienced for a particular category of action.

Any action NOT categorically excluded per Federal Register Vol. 58, No. 3, pg 569-572, dated January 6, 1993 attached hereto.	**The Environmental Review and Determination Process for this group of actions ranges from 60 to 180 days from the receipt by the IHS of the proposal package.**

* The time needed to complete Environmental Reviews is highly dependent on required consultations with other Federal and State Agencies. As an example, the NHPA Section 106 Process requires the State Historic Preservation Officer (SHPO) be allotted 30 days to review and comment on a proposed action (36 CFR Part 800.3(c)(4)). Furthermore, additional time beyond the 30 days may be required for consultation with SHPO to adequately review and determine the effects of the proposed action on existing historical resources. Coordination early in the planning phase of the project can help identify these potential issues and allow APIA and IHS to resolve them early.

Indian Health Service

National Environmental Policy Act; Categorical Exclusions

AGENCY: Indian Health Service (IHS), HHS.

ACTION: List of IHS program actions that are categorically excluded from the requirement to conduct further evaluation under the National Environmental Policy Act (NEPA).

SUMMARY: This notice provides a list of classes of IHS actions that normally do not have a significant impact on the environment and, therefore, do not require environmental impact statements (EIS) or environmental assessments (EA) under Council on Environmental Quality (CEQ) regulations (40 CFR parts 1500–1508) or Department of Health and Human Services (HHS) procedures (HHS General Administration Manual Part 30). All actions involving construction are reviewed to determine if extraordinary or exceptional circumstances exist that prevent the action from meeting the criteria established for this listing.

EFFECTIVE DATE: January 6, 1993.

FOR FURTHER INFORMATION CONTACT: Director, Division of Environmental Health (DEH), Office of Environmental Health and Engineering (OEHE), IHS, Public Health Service (PHS), HHS, room 5A–39, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857; or telephone (301) 443–1043.

SUPPLEMENTARY INFORMATION: Regulations of the CEQ at 40 CFR parts 1500–1508 require Federal agencies to adopt procedures to supplement and implement their regulations. The HHS, by giving notice in the Federal Register (45 FR 78519), has adopted such procedures and included them in the HHS General Administration Manual Part 30. The CEQ approved the HHS procedures on October 2, 1980. Paragraphs 1507.3 and 1508.4 of the CEQ regulations provide for the definition of categories of actions that do not individually or cumulatively have a significant effect on the human environment and therefore, do not require the preparation of an EIS or an EA. Paragraph 30–20–40 of the HHS General Administration Manual establishes categories of exclusion for Departmental actions and provides for the listing of actions by Operating Divisions within the Department. The IHS, as an agency of the PHS, hereby gives notice of its listing of actions which normally can be categorically excluded from further environmental review.

If a proposed action belongs to an excluded category but one or more extraordinary or exceptional circumstances (as defined in Part K) apply, then an EA must be prepared for the purpose of determining whether an EIS is warranted.

The IHS provides comprehensive health care services to more than 1 million American Indians and Alaska Natives. The goal of the IHS program is to raise the health status of American Indians and Alaska Natives to the highest level possible. In carrying out this goal, the program has three main objectives: (1) To deliver the highest quality health services possible; (2) to assist tribes and native corporations to develop their capacity to manage health programs; and (3) to serve as an advocate for American Indians and Alaska Natives in health related matters.

The IHS program is carried out through a health services delivery system, designed to provide a broad mix of preventive, curative, rehabilitative, and environmental services. The type of health services delivery system

employed varies from Area to Area. Population, health indices, and facilities and services available from sources other than the IHS are evaluated to determine the methods IHS uses to provide services.

The IHS program consists of two major systems: (1) A Federal health care delivery system, administered by Federal employees, and (2) a tribal health delivery system, administered by tribes and tribal groups under grants, contracts or cooperative agreements. The categorical exclusions apply to IHS program actions whether carried out directly by the IHS, or funded or otherwise sponsored by the IHS. The IHS contracts, grants, and cooperative agreements are actions defined in NEPA and are subject to the IHS review procedures established to ensure NEPA compliance, including provisions covering extraordinary and exceptional circumstances. The NEPA compliance for the tribal health care delivery system is ensured through IHS administrative procedures for contracts, grants, and cooperative agreements.

The selection of IHS program actions to list as categorical exclusions has been determined, in part, by agency experience in complying with NEPA, during the past 10 years. Actions required to provide health care services will not have significant impact on the environment except when exceptional or extraordinary circumstances exist. The IHS has categorically excluded these actions, since enactment of NEPA; however, actions involving construction normally have required completion of an environmental review/assessment.

The IHS administers programs for the construction of domestic sanitation facilities (water, wastewater, and solid waste) for Indian homes and communities, construction of new or replacement health care facilities and staff quarters, and renovations to existing health care facilities and quarters units.

Environmental reviews/assessments of construction projects undertaken during the past 10 years have concluded that an EIS was not required for any of them. Approximately 2,300 sanitation facilities construction projects and fewer than 50 health care facilities/staff quarters construction projects have been approved during this time.

The type of program and procedures employed to administer the construction of sanitation facilities for Indian homes and communities, and the consistent determinations that these projects do not have a significant impact on the environment, are the basis for the decision to list most sanitation facilities projects are categorically excluded.

as

Factors considered in making this determination include:

1. Projects are undertaken to improve health and/or environment.

2. Projects are undertaken at the request and with approval of the tribal governing body, which provides for discussion and evaluation of the project and its impacts.

3. Projects are normally constructed on tribally owned or individually owned tribal land within reservation boundaries.

4. Projects are constructed to comply with all current applicable environmental regulations and plans and specifications are submitted to State and Federal agencies as necessary for review and comment.

5. Projects are constructed to provide utilities (water, sewer, solid waste) either for existing American Indian or Alaska Native homes or for new homes constructed with Federal, tribal, State or other resources. New homes are constructed at sites and locations approved by the Tribal Governing Board. Utilities are not provided for future development or undeveloped parcels, and capacity provided is limited to that routinely provided by standard engineering practice for the current design population.

6. The IHS projects fall into the category of minor construction projects based on cost. During the last 10 years, 85 of the 2,300 projects exceeded $1 million, and the average estimated cost was $250,000.

7. Standard IHS procedures require documentation of an environmental review of each construction project to identify any exceptional or extraordinary circumstances and to ensure compliance with all environmental laws, regulations, and executive orders; e.g., those concerning floodplains, wetlands, endangered species, etc. This review is required early in the project planning process.

The categorical exclusion for construction of health care facilities and staff quarters has been limited to renovation or new construction at existing health care delivery sites, and construction or development of relatively small facilities at new locations. The procedures noted in item 7 above for sanitation facilities construction projects also apply to all health care facility and staff quarters construction projects. Most health care facility and staff quarters renovation projects can be classified as minor construction projects based on cost. Fewer than 200 major renovation projects have been undertaken and only a few were funded at a level exceeding $1 million.

Categorical Exclusions

A. Health Services

Direct delivery of medical, dental, nursing, and other related health services; e.g., patient care/counseling administered from hospitals, health centers, health stations, satellite clinics, and in private homes by IHS staff or contract providers to authorized recipients.

B. Research

Research activities that are consistent with the mission of IHS including: (a) Biological and behavioral studies conducted in laboratories, clinics, and the field; (b) studies on the development and delivery of prevention and treatment services and their administration and financing; and (c) evaluations of prevention and treatment.

C. Pesticides

Application of pesticides which are not classified for restricted use under provisions of the Federal Insecticide, Fungicide and Rodenticide Act when used for routine pest control purposes.

D. Contracts, Grants, and Cooperative Agreements

Contracts, grants, and cooperative agreements and continuations, supplements, extensions, and amendments of these documents for IHS programs or actions that are categorically excluded. (Includes Self-Determination Act contracts, Contract Health Care contracts, etc.)

E. Technical Assistance

Action involving the provision of technical assistance to American Indian and Alaska Native tribes and groups, other Federal agencies, State and local governments, and non-profit organizations are excluded. These actions include but are not limited to:

1. The provision of technical assistance to American Indian and Alaska Native tribes and groups for the purpose of developing management capabilities needed to enable eventual tribal assumption of health program operation;

2. The provision of technical assistance to American Indian and Alaska Native tribes and groups for the purpose of developing capabilities in the areas of epidemiology, disease reduction, injury prevention, environmental improvement, and the operation and maintenance of sanitation facilities; and

3. The assignment of IHS personnel to agencies/organizations for the purpose of providing technical expertise (e.g.,

investigation, diagnosis, consultation, counseling) in health programs.

F. Management and Administrative Support

Routine management and administrative support actions.

G. Training, Education, and Manpower Development

The award of training grants, scholarships, and the provision of other types of training and educational assistance are excluded. These actions include:

1. Support for development of professional and paraprofessional health competencies;
2. Support for development of American Indian and Alaskan Native health management capabilities;
3. Support for development of tribal and community capabilities in the areas of environmental improvement, disease reduction, injury control, and operation and maintenance of sanitation facilities;
4. Support for training and education of IHS personnel necessary for the efficient accomplishment of the IHS program; and
5. Educational activities including development of disease prevention and treatment and presentation of such material to American Indian and Alaskan Natives.

H. Statistics, Data Processing, and Information Gathering

Actions associated with statistics and information collection and dissemination are excluded. These actions typically involve:

1. Collection of demographic or morbidity data and analysis for program management and budget justification purposes;
2. Epidemiologic studies;
3. Environmental surveillance activities (e.g., sample collection, analysis, and monitoring of air, food, water, and wastewater) to determine quality as a basis for ensuring necessary corrective action;
4. Engineering studies and investigations including soil boring and test well drilling to gather data for the purpose of determining engineering feasibility and to permit facility design;
5. Updating existing data bases and data processing;
6. Printing and distributing reports; and
7. Developing new/redesignating existing data systems to meet specific program needs.

I. Indian Health Service Owned and Leased Facilities

Actions related to the IHS owned and leased facilities, or actions funded by IHS at tribally owned (or leased) and managed facilities as listed below, are excluded:

1. Maintenance and day-to-day operation of the physical plant and repairs to plant and equipment, or replacement-in-kind of utilities and building components;
2. Acquisition of equipment, provided all requirements for permits, registrations, and licenses are met, and provided the equipment involves use of generally accepted technology;
3. Building alteration or renovation that does not substantially change the function or general appearance of existing buildings;
4. Construction or lease of new facilities (including portable facilities and trailers) where such lease or construction:
   (a) Is at the site of an existing health care facility and the facility capacity is not substantially increased,
   (b) Is for buildings of less than 12,000 square feet of useable space when less than five acres of surface land area are involved at a new site, or
   (c) Is for projects other than buildings when less than five acres of surface land area are involved at a new site;
5. Facility planning and design including funding of such activities;
6. Acquisition of space by lease, use agreement, transfer, gift or similar arrangement for which:
   (a) The intended use of the space is consistent with the functional design of the building, and
   (b) The acquisition is consistent with an applicable master plan, if such plan exists;
7. The acquisition, sale, release, abandonment, closure or transfer of real property, provided the action:
   (a) Is consistent with any applicable master plan, if such a plan exists,
   (b) Conforms to local zoning and land use ordinances, if such ordinances exist,
   (c) Is consistent with the functional design of the facility,
   (d) Would not violate applicable Federal, State, or local environmental protection or historic preservation laws, and
   (e) Satisfies the requirements of applicable comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) section 120 (h) provisions.

J. Construction of Sanitation Facilities

Actions associated with construction of sanitation facilities to serve Indian homes and communities, except that the following actions are not excluded:

(1) Construction of a sanitary landfill at a new solid waste disposal site, and

(2) Construction of a new wastewater treatment facility with direct discharge of treated sewage to surface waters.

K. Extraordinary or Exceptional Circumstances

Under extraordinary circumstances, the normally excluded actions described above may have a significant environmental effect; such actions are not categorically excluded. Actions that can be characterized by, or may cause any of, the conditions described below are examples of actions that are not categorically excluded:

1. Those with potential to change the existing environment where such change violates directives or other controls that are imposed by any governmental body having jurisdiction, for the purpose of protecting or otherwise affecting that environment;
2. Those with potential or real threat of violation, or continued violation, of an applicable Federal, State, or local law or requirement imposed for protection of the environment or to ensure public health and safety;
3. Those likely to cause controversy with respect to the type or extent of the resulting environmental effects where such controversy is based on pertinent and substantial issues;
4. Those involving the use of technology where the possible effects are highly uncertain or involve unique or unknown risks and where such technology has not been assessed previously for environmental impact;
5. Those which have adverse effects on unique geographic characteristics (e.g., historic, archeological, or cultural resources, park recreation or refuge lands, wilderness areas, wild or scenic rivers, sole or principal drinking water aquifers, prime farmlands, wetlands, floodplains, coastal management zones or ecological or critical areas including those listed on the Department of Interiors National Register of National Landmarks);
6. Those which establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects;
7. Those which have adverse effects on properties listed or eligible for listing on the National Register of Historic Places;
8. Those which have adverse effects on species listed by the Federal Government as endangered or Threatened Species, or which have adverse effects on any designated critical habitat for these species;
9. Those which require assessment in accordance with Executive Order 11988 (Floodplain Management), or Executive

Order 11990 (Protection of Wetlands), or the Fish and Wildlife Coordination Act; and

10. Those which involve the use, transfer, or lease of real property which has been determined, after investigation in accordance with the provisions of CERCLA 120 (h), to have been used as a storage facility for hazardous waste for more than 1 year; and

11. Construction projects which are significantly greater in scope or size than normally experienced for a particular category of action.

Dated: December 29, 1992.

Michael E. Lincoln,

Deputy Director.

ENVIRONMENTAL INFORMATION AND DOCUMENTATION

ENVIRONMENTAL INFORMATION AND DOCUMENTATION

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

Considerations	Basis for Determination (Documentation)
1. Will the proposed action result in a known violation or continuance of a violation of applicable (Federal, Tribal, State or local) laws or requirements for protection of environment or public health and safety?	Yes or No. Explanation.
2. Will the proposed action result in a conflict with existing or proposed federal, Tribal, state, and local land use plans?	Yes or No. Explanation.
3. Is there a controversy with respect to environmental effects of the proposed action based on reasonable and substantial issues?	Yes or No. Explanation.
4. Is the proposed action significantly greater in scope than normal for the area or does it have significant unusual characteristics?	Yes or No. Explanation.
5. Does the proposed action establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

6. Does the proposed action have significant adverse direct or indirect effects on park land, other public lands, or areas of recognized scenic or recreational value?	Yes or No. Explanation.
7. Does the proposed action include construction of a new municipal solid waste landfill at a new solid waste disposal site?	Yes or No. Explanation.
8. Will the proposed action create a need for additional capacity at solid waste disposal facilities?	Yes or No. Explanation.
9. Does the proposed action include construction of a new wastewater treatment facility that will discharge treated sewage effluent to the waters of the U.S.	Yes or No. Explanation.
10. Will the proposed action create a need for additional capacity at wastewater treatment facilities?	Yes or No. Explanation.
11. Will the proposed action create a need for additional capacity in the drinking water supply?	Yes or No. Explanation.
12. Are there other considerations about the proposed action that could adversely affect the environment and/or public health and safety?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

13. Will the proposed action create a need for additional capacity in health care facilities and for health care services?	Yes or No. Explanation.
14. Will the proposed action create a need for additional energy supply or generation?	Yes or No. Explanation.
15. Will the proposed action create a need for additional capacity in educational facilities?	Yes or No. Explanation.
16. Will the proposed action create a need for additional capacity in transportation systems?	Yes or No. Explanation.
17.Historic Preservation: a. Does the proposed action involve the purchase, construction, alteration, renovation, or lease of a building or portion of a building that is more that 50 years old?	Yes or No. Explanation.
b. Will the proposed action adversely affect properties listed, or eligible for listing, on the National Register of Historic Places?	Yes or No. Explanation. or No
18. Endangered Species Act: Is the proposed action likely to adversely affect a plant or animal species listed on the Federal or applicable state list of endangered or threatened species or a specific critical habitat of an endangered or threatened species?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

19. Will the proposed action require major sedimentation and erosion control measures?	Yes or No. Explanation.
20. Will the proposed action violate a storm water permit or a wastewater discharge permit either for construction or on-going operations?	Yes or No. Explanation.
21. Safe Drinking Water Act: Will the proposed action impact an EPA designated sole source aquifer?	Yes or No. Explanation.
22. Wetlands and Water Resources (lakes, rivers, ponds, streams, etc.): Will the proposed action violate a Section 404 (Clean Water Act) permit for actions in a wetland and/or Section 10 (Rivers and Harbors Act) permit for actions in a stream or river?	Yes or No. Explanation.
23. Floodplains: a. Is the proposed action located in either a 100-year or, for critical actions, a 500-year floodplain? (If Flood Insurance Rate Maps do not exist for the project site, a floodplain survey or consultation may be required. Also may need to consider if the facility will require flood insurance).	Yes or No. Explanation.
b. Will the proposed action adversely impact flood flows in a floodplain or support development in a floodplain?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

24. Existing site: Would the proposed action involve the purchase, construction or lease of new facilities (including portable facilities and trailers), substantially increase the capacity of an existing health care facility?	Yes or No. Explanation.
25. New site: Does the proposed action involve purchase, construction, or lease of new facilities (including portable facilities and trailers) where such action is for buildings equal to or more than 12,000 square feet (1080 square meters) of useable space when more than 5 acres (2 hectares) of surface land area are involved at a new site?	Yes or No. Explanation.
26. New site: Does the proposed action involve purchase, construction, or lease of health care facilities (other than buildings) for projects equal to or more than 5 acres (2 hectares) of surface land area at a new site?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

27. Does the proposed action involve the sale or transfer of real property, on which any hazardous substance was stored for one year or more, known to have been released, or disposed of? (Provide relevant documentation for any hazardous substance releases. See 40 CFR 373.2(b), 302.4, and 261.30 for reportable quantities.)	Yes or No. Explanation.
28. Does the proposed action involve the sale or transfer of real property, on which underground or above ground storage tanks are located?	Yes or No. Explanation.
29. Will the proposed action violate Tribal, local, state, or federal law on the use and storage of hazardous substances or the transportation, storage, and disposal of hazardous wastes or medical wastes? (Activities that may generate reportable quantities include air conditioning repair and service, pesticide application, motor pools, automobile repair, welding, landscaping, agricultural activities, print shops, hospitals, clinics, & medical centers. Repair, renovation, or demolition activities can generate waste that has asbestos-containing materials, asbestos, lead-based paint, PCBs, CFCs, etc.)	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

30. Will the proposed action adversely affect community air pollution for a long period of time?	Yes or No. Explanation.
31. If the proposed action is implemented, will it have a disproportionately high and adverse human health or environmental impact on the Tribe, low-income populations, or minority populations?	Yes or No. Explanation.
32. Will the proposed action adversely affect community noise levels?	Yes or No. Explanation.
33. Wilderness Act: Will the proposed action adversely impact a Wilderness Area?	Yes or No. Explanation.
34. Farmland Protection Policy Act: Will the proposed action convert significant agricultural lands to non-agricultural uses and exceed 160-point score on the farmland impact rating?	Yes or No. Explanation.
35. Coastal Zone Management Act: Will the proposed action directly affect a Coastal Zone in a manner inconsistent with the State Coastal Zone Management Plan?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

36. Wild and Scenic Rivers Act: Will the proposed action affect a wild, scenic, or recreational river area or create conditions inconsistent with the character of the river? (A consideration for activities that are in or near any wild and scenic waterway including construction of stream/river crossings, intake structures, outfalls, etc.)	Yes or No. Explanation.

I certify that to the best of my knowledge and ability the information presented above is true and correct. The record was examined to identify potential extraordinary or exceptional circumstances which would require further environmental review.

PROJECT SUMMARY DOCUMENT

IV-1.
Policy #4*.
Project Summary Document Formats

Project Summary Documents describe projects being submitted to the MIRAC for funding from the maintenance & improvement funds (both competitive BEMAR funds and non-routine non-competitive Oklahoma Formula funds). Supporting documents to the PSD typically entail 100% design drawings (for projects requesting construction funds), construction cost estimates, product literature (for equipment specific PSDs), and contractor proposals or cost estimates.

A cover letter accompanies submitted PSDs, which affirms the organization's desire to submit these projects to the MIRAC for consideration.

The sections of the PSD are listed below.

PROJECT SUMMARY DOCUMENT

[Name of Project]
[Facility Priority Number] (use for multiple PSD submittals to prioritize your projects)
[Date]
[Facilities Board Project Number]
[Facility Name]
[Location], [State]

I. SUMMARY

[Summarize the project and include what is to be done, why (e.g., to add 135 gross square meters of space or replace a boiler), and the type of funding (e.g., Maintenance and Improvement, Quarters, Corporate Cost Sharing, etc.). This section should be no more than two paragraphs. Use attachments for project location maps and facility drawings.]

II. PROJECT SCOPE AND DESCRIPTION

A. Description of Project. [Provide a detailed explanation of the work to be accomplished by the project and the desired outcome of the project. Include all items reflected in the cost estimate. This information can be presented in bullet/list or narrative form.]

B. Project Justification. [Explain why the project is necessary. Link the justification to the developed Health Facilities Master Plan if appropriate. Discuss how the project will meet program needs, and how it will comply with legal, code, accreditation, and certification

* Sections of this policy modified by DEHE Staff to reflect formation of the MIRAC and for clarification of non-competitive project submittals.

requirements. Cite specific, code or JCAHO references by standard clause, chapter, paragraph, etc.]

III. DEFICIENCIES

The following deficiencies will be corrected as part of this project:

[List and describe only those facility deficiencies this project will address. The types of deficiencies include BEMAR, JCAHO, NFPA, HFPM, Public Law compliance items, ADA, etc.]

IV. COST ESTIMATE

Provide a budgetary cost estimate and the funding sources for the proposed project, including separate line items for design Architect/Engineer fees, project construction, construction contract administration fees, and project contingency.

V. PROJECT SCORE SHEET DOCUMENT (*only required for BEMAR competitive pool funds*)

Complete a project score sheet further detailing the scope, impact and benefits of this project. Provide the information required by the project score sheet.

VI. OTHER PROJECT ITEMS TO BE ADDRESSED

Supporting Documents: Drawings, Photos, Estimates, Etc.

Aleutian Pribilof Island Association, Inc.

APPENDIX D

1

CERTIFICATION FOR NEW/REPLACED/ADDED SPACES

IHS Area: Alaska

Certification for New /Replaced/Added Space
Agency-Related Program Space

Inclusion Criteria: Having space in use by IHS-funded health programs under PL 93-638 and primarily used by IHS-funded staff.

1)	Tribe or Tribal Organization:

Check one

☐ NEWLY ACQUIRED BUILDING
Not replacing or adding to a building already in the M&I/Equipment database.

☐ REPLACED EXISTING BUILDING
Replacing a building already in the M&I/Equipment database. At the end of this form identify the existing building that was/is being replaced. Describe new building below.

☐ ADDED SPACE TO EXISTING BUILDING
Adding space to building already in the M&I/Equipment database. At the end of this form, identify existing building being added to. Include only increased amount of space below.

Describe the space proposed to be added into the M&I/E Inventory. For additions to existing buildings, only include the additional space here. Existing building will be identified at the end.

2)	Identification of building meeting inclusion criteria above (name, number etc). Write in "ADDITION" when applicable.		
3)	Location of building (city, state, etc). Leave blank for additions.		
4)	Ownership of building (tribe, private, other). Include lease/rental type where applicable.		
5)	Building construction type. Choose from: trailer, fire resistant, masonry with wood, wood frame.		
6)	Gross square meters of addition or entire building, as applicable.		gsm
7)	Gross square meters or actual space in use by IHS-funded health programs under PL 93-638 and primarily used by IHS-funded staff.		gsm
8)	Annual average hours of use per week by IHS-funded health programs under PL 93-638 and primarily used by IHS-funded staff.		gsm
9)	Maintenance and repair funds currently provided under contract budget, either specifically or part of rental/lease payments.		$

10)	Briefly describe below the health services provided under the PL 93-638 contract:

Checklist of certifications to attach for space proposed to be added into the M&I/B inventory.

	BUILDING CODES and STRUCTURAL Attach Certificate of Occupancy or other evidence of meeting national building codes, satisfactory structural condition, and safety standards.	Cost to bring to Standard:	$
	SEISMIC (EARTHQUAKE) Attach seismic survey if applicable; Otherwise, provide basis for exemption.	Cost to bring to Standard:	$
	ENVIRONMENTAL Attach environmental assessment, including of land.	Cost to bring to Standard:	$
	AS-BUILT SCALE DRAWING Attach as-built scaled drawing. Use metric units and scale.	Cost to bring to Standard:	$

Certified by:	Date:
Mailing Address:	
Phone with area code:	FAX number
E-mail address:	

For replacements and additions, identify existing building below.

11)	Identification of existing building which is being replaced or being added on to. (name, number. etc).	
12)	Location of existing building (city. state, etc).

FINAL REAL PROPERTY CLOSEOUT REPORT
and
INTERIM REAL PROPERTY STATUS REPORT

TRIBE/TRIBAL ORGANIZATION LETTERHEAD

(SAMPLE FOR ILLUSTRATIVE PURPOSES ONLY-Site, Cost & descriptive items are fictional)

DATE:

FROM: _____Health Corporation
Facilities Manager

SUBJECT: _____ Hospital, _____, Alaska
PROJECT NO. AN2@@038H6, *"Project Name"*
FINAL REAL PROPERTY CLOSEOUT REPORT

TO: Area Realty Management Officer
Alaska Area Native Health Service

Through: ANTHC/DEHE Project Engineer _____

This Final Real Property Project Report provides an overview of the project summary, space allocation, appropriations, project milestones, and project costs including common costs and costs associated with land improvements, construction, equipment, and post-construction.

1. **Project Summary**

This project requested M&I funding to renovate the _____ Hospital's Information System Department computer room. Under this project, the computer room was expanded into adjacent space to meet the needs of computer equipment and new air conditioning equipment. A new UPS system was installed and sized to allow for anticipated growth of the department. The design of these modifications has already been accomplished through a contract with a mechanical engineering firm.

2. **Space Allocation**

Type of Space	Gross Sqft.	Gross SqM
No square footage was added during this project		
If Space is added, identify current building or provide new building description and use		
Total Space		

3. **Appropriations (Total Revenue)**

Appropriation Type	Amount
M&I Amount	$
Third Party Collections	$
Other Sources of Funds Identify: Tribe/TO Contributions (Attach Gifting Letter and Approval)	$
Sub-Total	$
Unused, held for future project	$
Total Appropriations	$

4. **Project Milestones/Timelines**

Milestone	Date Achieved
Project Start	
Facility Placed in Service	
Project Completed	
(List other milestones if applicable)	

5. **Common Costs (i.e., Costs for studies, A/E Designs, Site Selection, C/A, TERO, interest, legal, permits, printing, etc.)**

Description	Capitalized Amount	Expensed Amount
A/E Fees	$	$
Criteria Changes (describe below)	$	$
Total Common Costs	$	$

Identify Costs: _____

6. **Land Improvements (Costs associated with environmental, demolition, disposal, preparation, etc.)**

Description	Capitalized Amount	Expensed Amount
No land improvements	$	$
If included, describe actions below	$	$
	$	$
Total Land Improvement Cost	$	$

Identify Improvements: _____

7. **Buildings (Building Number and Description as identified in the IHS Real Property Inventory).** *Projects affecting multiple buildings and structures shall be listed separately with capitalized and expensed costs for each broken out and proportioned by percentage of common costs*

Building No.	Description	Percent of Common Costs
Building 00###		

8. **Other Structures (i.e. parking lots, sidewalks, roads, water systems, sanitary sewer, electrical system).** *Projects affecting multiple structures shall be listed separately with capitalized and expensed costs for each broken out and proportioned by percentage of common costs*

BLS No./Structure Describe Change	Description	Percent of Common Costs

9. **Construction**

Description	Capitalized Amount	Expensed Amount
Base Bid	$	$
Contract Modifications	$	$
Total Construction Cost	$	$

10. **Equipment:**

PROJECT NO. AN2@@038H6, *"Project Name"*
INTERIM REAL PROPERTY STATUS REPORT

TO: Area Realty Management Officer
Alaska Area Native Health Service

Through: ANTHC/DEHE Project Engineer _____

This Interim Real Property Status Report provides an overview of the project summary, space allocation, appropriations, project milestones, and project costs including common costs and costs associated with land improvements, construction, equipment, and post-construction.

1. Project Summary

This project requested M&I funding to renovate the _____ Hospital's Information System Department computer room. Under this project, the computer room was expanded into adjacent space to meet the needs of computer equipment and new air conditioning equipment. A new UPS system was installed and sized to allow for anticipated growth of the department. The design of these modifications has already been accomplished through a contract with a mechanical engineering firm.

2. Space Allocation

Type of Space	Gross Sqft.	Gross SqM
No square footage was added during this project		
If Space is added, identify current building or provide new building description and use		
Total Space		

3. Appropriations (Total Revenue)

RESOLUTION NUMBER 14-025

HEALTH DEPARTMENT
SERVICES TO NON-BENEFICIARIES

WHEREAS, the Aleutian Pribilof Islands Association, Inc. (APIA) is a tribal organization that is a Co-Signer of the Alaska Tribal Health Compact (ATHC) and has negotiated a Funding Agreement (FA) with the Indian Health Service (IHS) under Title V of the Self-Determination Education and Assistance Act (ISDEAA); and

WHEREAS, the ATHC authorizes Co-Signers to provide services to non-eligible individuals provided Section 813 of the Indian Health Care Improvement Act (IHCIA) is complied with (*See* ATHC Article III, Section 4), and Section 813, as amended at 25 U.S.C. § 1680c(c)(2), provides that a tribe or tribal organization which operates a health facility under an ISDEAA agreement may make its own determination whether to provide health services to persons not otherwise eligible (i.e. non-beneficiaries) to receive IHS-funded health services; and

WHEREAS, APIA is authorized to determine whether it will provide health services under its IHS-funded programs to persons who are not eligible beneficiaries under federal law, provided that APIA gives consideration to whether the provision of such services will result in a denial or diminution of health services to eligible beneficiaries; and

WHEREAS, APIA has determined that the provision of health services on a fee-for-service basis to non-beneficiaries, in an amount not less than the actual costs of providing such services, will not result in a denial or diminution of health services to beneficiaries; and

NOW THEREFORE, BE IT RESOLVED, that APIA Board Health Committee has decided to extend all available health services under the ATHC and its FAs to non-beneficiaries on a fee-for-service basis; and

BE IT FURTHER RESOLVED, that whenever significant evidence is presented to the APIA Board Health Committee that services to non-eligible, non-beneficiaries have resulted in a denial or diminution of health services to beneficiaries, APIA may suspend the delivery of such services to non-beneficiaries.

Passed and approved on 12 day of December, 2013.

Chairman of the Board

ATTEST:

S. Haliala Sheaken

Secretary

ADDENDUM I
ALEUTIAN PRIBILOF ISLANDS ASSOCIATION
MEMORIALIZATION OF HISTORICAL LEVEL OF
PFSAs PROVIDED BY ANMC AND AANHS

The ANMC and Alaska Area Office, subject to available appropriations, has provided the following services and functions historically to Aleutian Pribilof Islands Association (APIA) as of October 1, 1997 and continued to provide such services through December 31, 1998.

(A) Accepting all referrals of Alaska Natives and American Indians from APIA, providing specialty care field clinics, consultation to APIA physicians, pathology, clinical services, orthopedics, internal medicine, cardiac testing, ENT, ophthalmology, oncology, urology, surgery, dental contract health care, inpatient services (including hospital inpatient nursing and ancillary services relating to inpatient pediatrics and women's health), radiology, and laboratory support (including services related to all biopsies), medivac and ambulance support, medivac support for emergencies, patient travel support for APIA, and patient travel for patients returning home from treatment at the AMC, as well as temporary assistance for lab, x-ray and other professional support personnel.

(B) The Alaska Area immunization program provided vaccines for Hepatitis A and Homophiles Influenza B and other vaccines without charge to APIA, in a manner consistent with past practices, provided that this service may have been discontinued by the IHS if the State of Alaska assumed these responsibilities. The Alaska Area Office provided without charge to APIA, and in a manner consistent with the Continuing Services Agreement then in effect, metabolic laboratory services to include Pap smears and Chlamydia, as well as supplies as specified in the Area Office's contract with the reference laboratory services.

(C) Subject to the availability of appropriations, consultations and technical support and services including but not limited to services from the following offices, divisions and departments: Region X legal consultation; Environmental Health and Engineering; Financial Management; Regional and Contract Health; Awards and Administrative Services; Personnel and Training; arid Community Health Services. Services from Community Health Services including but not limited to, dental, nutrition education and consultation services, as well as various program advice, coordinator support., and special project assistance in Maternal and Child Health, Community Health Representative Program, Behavioral Health, Health Promotion/Disease Prevention, and Injury Prevention.

The Alaska Area Office has ensured that any discretionary funding associated with the services described in this addendum that may become available to the Area Office shall be used to provide additional services to APIA to the same extent as if the Tribe were operating under a P.L. 93-638 Title I contract. IHS has also provided access to the IHS Network through maintaining a wide area network with a common downlink to the gateway or access point in Anchorage.

ADDENDUM II
ALEUTIAN PRIBILOF ISLANDS ASSOCIATION
MEMORIALIZATION OF MATTERS REMAINING IN DISPUTE

(1) APIA does not agree with the IHS' position that Area Office tribal shares that were restricted by individual Co-Signer decision or by a consensus decision of all Co-Signers from FY 1995 through FY 2000 are not available for inclusion in FY 2004 because of Section 325, P.L. 105-83. APIA believes it has the right to include such tribal shares in its FY 2004 annual funding agreements notwithstanding Section 325. APIA reserves any remedies it may have under law.

Funding Agreement
Between Certain Alaska Native Tribes
Served by the
ARCTIC SLOPE NATIVE ASSOCIATION, LTD.
and the Secretary of the Department of Health and Human Services
of the
United States of America
Fiscal Years 2018-2020

This Funding Agreement is entered into by and between certain Alaska Native Tribes served by the Arctic Slope Native Association, Ltd. and the Secretary of the Department of Health and Human Services of the United States of America. These Tribes have authorized the Arctic Slope Native Association, Ltd., to sign this Funding Agreement for them and to be responsible for and carry out the terms of this Funding Agreement.

Section 1 – Obligations of IHS.

1.1 Generally. Under the authority of Section 325 of P.L. 105-83 and P.L. 93-638 as amended, non-residual programs, services, functions and activities (PSFAs) of the Alaska Area Office and the Alaska Native Medical Center (ANMC) have been transferred to tribal management.

Delivery of PSFAs shall be consistent with each Co-Signer's Funding Agreement. The Indian Health Service (IHS) shall remain responsible for performing all federal residual PSFAs. IHS shall remain responsible for negotiating assurances with the Alaska Native Tribal Health Consortium (ANTHC) and Southcentral Foundation (SCF) on behalf of Alaska Natives and American Indians to the effect that Co-Signers continue to receive non-residual PSFAs from ANMC and Area Office and provided by ANTHC and SCF at a minimum at the level that such PSFAs were provided by IHS as of October 1, 1997, to the extent permitted by Section 325 of P.L. 105-83. To the extent authorized by federal law, IHS will respond to written Co-Signer concerns about the extent with which such assurances have not been complied and take appropriate action. IHS shall further be responsible for performing its special trust responsibilities and legal obligations as provided in the Indian Health Care Improvement Act (IHCIA); the Indian Self-Determination and Education Assistance Act, as amended (the Act); and other applicable provisions of federal law.

This Funding Agreement obligates IHS to provide funding and services identified herein and as provided in the Alaska Tribal Health Compact (Compact) between the Arctic Slope Native Association (ASNA) and certain other Co-Signers thereof and the United States in Fiscal Years 2018–2020.

In addition, although funds are provided from Headquarters and Area Office in support of this Compact, IHS will agree to continue to make available to Co-Signer, PSFAs from both Area Office and Headquarters unless 100 percent of the total tribal shares for these PSFAs have been specifically included in this Funding Agreement. In cases where a portion of tribal shares has

been transferred, there may be some diminishment in the level of PSFAs provided by IHS. Furthermore, IHS will reorganize both Headquarters and the Area Office to continue to provide the remaining PSFAs, which have not been included in this Funding Agreement, in the most effective and efficient manner possible, provided that decisions about the array and level of services to be offered by IHS shall be made in consultation with Alaska Tribes. IHS PSFAs not negotiated into or listed in Appendix A will be the responsibility of IHS. The "Memorandum of Agreement Describing the Continuing Services of the IHS, Alaska Area Native Health Service" among the Co-Signers and the Alaska Area Native Health Service (AANHS) reflects the understanding of the parties regarding services to be provided by AANHS to Co-Signers. This document, attached as Appendix C, is hereby incorporated by reference.[1]

Unless funds are specifically provided from Headquarters, Headquarters retains all PSFAs and ASNA will not be denied access to, or services from, Headquarters. Specifically, ASNA will receive the following services from IHS Headquarters:

1.1.1 Information Services. IHS will provide the full range of Office of Information Technology (OIT) national support to ANTHC and ANMC. OIT will provide specified services directly to ASNA. In addition, OIT will provide support to ANTHC to assist it to carry out its responsibility to provide day-to-day technical support, user support, distribution of software and files, and other typical information technology support to Co-Signers as defined in the Assurances Appendix to the ANTHC funding agreement. Upon request of ANTHC, after good faith efforts to resolve ASNA's technical issue, OIT's support of ASNA will include technical support needed on-site by ASNA. A list of the services due under this paragraph, with identification of the method of delivery, is shown below.

Office of Information Technology Provides:	Directly to ANTHC	Directly to Co-Signer	Indirectly to Cosigner through ANTHC
National Database Services			
100% Data Center Services	X		
Process Data Exports into National Database		X	
Evaluate, Correct, Convert Site Data for National Database		X

Envoy (WebMD) installation			X
Additional Services - Fee for Service	X	X	X

1.1.2 Access to Training and Technical Assistance. To the extent funds are retained by IHS, ASNA shall have access to training, continuing education, and technical assistance in the manner and to the same extent ASNA would have received such services if it were not a Self-Governance Co-Signer.

1.1.3 Intellectual Property. In the course of administering federal contracts, grants, subgrants, and other agreements, IHS acquired various copyrights and licenses, including licenses pursuant to 45 CFR § 74.36 and 45 CFR § 92.34, in works which IHS possessed, reproduced, published, and otherwise used and allowed others to possess, reproduce, publish, and otherwise use. To carry out the PSFAs assumed by ASNA under this and previous funding agreements and contracts, ASNA has the delegated authority and permission from IHS to use and allow others to reproduce, publish, and otherwise make use of these works to the same extent as IHS, consistent with the copyrights or licenses acquired by IHS in such works.

1.1.4 HIPAA Compliance. IHS retains the responsibility for complying with the Health Insurance Portability and Accountability Act of 1996 (HIPAA) for retained IHS health care component activities.

1.2 Historical PSFAs. ASNA has historically received certain PSFAs from ANMC and the AANHS. Responsibility for these PSFAs has been transferred to ANTHC and SCF. For

purposes of identifying those services provided by ANMC and AANHS prior to transfer of management to ANTHC and SCF, ASNA attached to its FY 2000 Funding Agreement Addendum 1 entitled "Memorialization of Historical Level of PSFAs Provided by ANMC and AANHS." The PSFAs listed in this addendum are taken from ASNA's FY 1999 Funding Agreement. The addendum was attached to the FY 2000 Funding Agreement only for the purpose of identifying historical levels of PSFAs received by ASNA from ANMC and AANHS, and is specifically not made a part of this Funding Agreement.

1.3 Community Health Aide Program Certification. IHS retains the responsibility, pursuant to Section 119 of the Indian Health Care Improvement Act, as amended, to maintain the IHS Community Health Aide Program Certification Board (CHAPCB), which was established by and is under the direct control and supervision of IHS, to accredit training for and to certify community health aides, which includes Community Health Aides/Practitioners, Dental Health Aides, and Behavioral Health Aides/Practitioners as those terms are defined and used in the CHAPCB Standards and Practices. With the exception of behavioral health aide services (*see* Section 3.3.3.7), Community Health Aide/Practitioner services are presently provided to the Arctic Slope Region of Alaska by the North Slope Borough; *see also* subsections 3.3.1.1.12, 13 and 16 and footnote 5 to Section 4.1.

1.4. Certain Ancillary and Support Services for the Samuel Simmonds Memorial Hospital.

1.4.1 Equipment. IHS agrees to carry out the activities described in 25 C.F.R. § 900.89 and will transfer to ASNA any property IHS acquires thereto, arrange for direct transfer from Ukpeagvik Inupiat Corporation (UIC) to ASNA, or make other arrangements to which the parties agree.

1.4.2 Maintenance and Improvement Projects. IHS will determine the status of each Maintenance and Improvement project pending as of April 30, 2013, and bring each project to an appropriate closure as determined by IHS for the benefit of the program. IHS will keep ASNA informed on a regular basis about the status of such projects.

1.5 Access to Federal Insurance. IHS will assist ASNA to obtain information about the coverage, rights and benefits available for its employees under chapters 87 and 89 of title 5, United States Code, the cost of such coverage, rights and benefits (including any options in coverage, rights and benefits that may be available), and the procedures by which ASNA may exercise its rights under Section 409 of the IHCIA, as amended, to have access to such Federal insurance for its employees.

Section 2 – Obligations of the Co-Signer. This Funding Agreement obligates the Co-Signer to be responsible for and to provide health PSFAs identified in Section 3 [Tribal Programs and Budget] utilizing the resources transferred under this Funding Agreement and other funds as they may become available to ASNA. This Funding Agreement further authorizes ASNA to consolidate and redesign PSFAs as provided in the Act, and the Compact.

Section 3 – Tribal Programs and Budget.

3.1 Generally. ASNA agrees to be responsible for the health PSFAs identified in subsection 3.3 [Program Description] of this section in accordance with the Compact and this Funding Agreement. For the purposes of this Funding Agreement, ASNA's General Budget categories consolidate related health PSFAs as listed below. Services are provided in the Arctic Slope Region of Alaska. ASNA's wide range of services are provided and facilitated directly, and in cooperation with ANMC, ANTHC, SCF and other Co-Signers, including through field clinics, referral to ANMC, and other arrangements with Tribal health organizations. To the extent any Tribe, which authorized ASNA to enter into the Compact on its behalf, enters into a contract under Title I or a Funding Agreement under Title V of the Act, ASNA will not be obligated to provide any program, service, function, or activity (or portion thereof) incorporated into such contract or Funding Agreement, except that ASNA, subject to the availability of resources, may provide services to such a Tribe. Any PSFA described in this section 3 [Tribal Programs and Budget] may be performed by any organization unit of ASNA at ASNA's discretion. ASNA is committed to and will strive to provide quality health services and will strive to meet standards ASNA believes appropriate and applicable to the delivery of those health services. ASNA may also provide other PSFAs to meet the objectives of Section 3 of the IHCIA.

3.2 Federal Tort Claims Act. The Federal Tort Claims Act applies to ASNA's PSFAs under this Funding Agreement as provided in Section 516(a) of Title V (which incorporates Section 102(d) of Title I of the Act and Section 314 of P.L. 101-512) and Article V, Section 3 [Federal Tort Claims Act Coverage; Insurance] of the Compact. The extent of Federal Tort Claims Act coverage is described more particularly in 25 CFR §§ 900.180-900.210.

3.3 Program Description. ASNA will provide health services to the Alaska Native and American Indian beneficiaries in the Arctic Slope region. These services include hospital and clinic services, including ancillary and support services; dental; and community health representatives and other health related programs described in more detail below.

3.3.1 Hospitals and Clinics. ASNA is committed to quality patient care achieved through maintaining and monitoring the resources available to it to provide care consistent with the standards of the Joint Commission.

3.3.1.1 Patient Care: Under a comprehensive health care delivery plan, ASNA agrees to provide the following direct patient care services. Not all of these services may be available at all health facility locations.

3.3.1.1.1 Acute patient care;
3.3.1.1.2 Twenty-four-hour emergency services;
3.3.1.1.3 Ambulatory care services;
3.3.1.1.4 Specialty clinics support;
3.3.1.1.5 Optometry services;
3.3.1.1.6 Dental services, including dental health aide training, supervision and services under the Standards and Procedures approved by the IHS Community Health Aide Program Certification Board;

3.3.1.1.7 Emergency and minor surgery;

3.3.1.1.8 Screening and health education, including cancer screening, colorectal screening, and mammography screening; stress tests and treadmill studies; sleep studies;

3.3.1.1.9 Diabetes prevention, education, and treatment;

3.3.1.1.10 Certain substance abuse prevention, education, and treatment services;

3.3.1.1.11 Field health services;

3.3.1.1.12 Services in community facilities, in collaboration with community programs, collaborative physician relationship with mid-level practitioners in the hospital, clinics, community health services, and village clinics within the North Slope Borough;

3.3.1.1.13 Twenty-four-hour physician coverage; services provided to the villages may be via telephone contact with community health aides/practitioners, mid-level practitioners, and/or EMTs employed by the North Slope Borough in the villages;

3.3.1.1.14 Medical/specialty services including, but not limited to: pediatrics, psychiatry, psychology, obstetrics and gynecology, anesthesia, internal medicine, family medicine, surgery, radiology, orthopedics, dermatology, ophthalmology, urology, cardiology, neurology, pediatric neurology, rheumatology, podiatry, otolaryngology, esophagogastroduodenoscopy, occupational medicine, inpatient cardiac telemetry, and bronchoscopy;

3.3.1.1.15 Referral facility for village health clinics;

3.3.1.1.16 Training, support, and supervision of community health aides and practitioners employed by the North Slope Borough and other support of the North Slope Borough's Community Health Aide Program, including provision of CHAP level pharmaceuticals and medical supplies, and individual prescriptions, laboratory services, and other services for patients when ordered by ASNA's or other health providers for whom ASNA provides support or supervision pursuant to this Funding Agreement;

3.3.1.1.17 Training, medical support, and technical assistance for the North Slope Borough Fire and Search and Rescue departments, including physician sponsorship training and continuing education;

3.3.1.1.18 Medical support of North Slope Borough substance abuse program including medical evaluations of patients on referrals;

3.3.1.1.19 Support of North Slope Borough school district sports examinations;

3.3.1.1.20 Support of village-based substance abuse and wellness programs, including award of subgrant to villages of the ASNA service area;

3.3.1.1.21 Medical evaluations and services to child, adult and elder patients of residential and outpatient care programs in the North Slope Borough and training and support for other public sector health care providers who provide care to patients also served by ASNA;

3.3.1.1.22 Continuing education for physicians;

3.3.1.1.23 Telemedicine;

3.3.1.1.24 Health Services Training: ASNA provides health services training (including clinical preceptorships, mentoring, shadowing, training and supervision of health care providers) through offering sites for medical residents and other

individuals obtaining training in the health professions, including behavioral, in accordance with Section 706 of the IHCIA, and dental professions;

3.3.1.1.25 Swing beds; aftercare; and

3.3.1.1.26 Chronic Disease Management Clinic.

3.3.1.2 Ancillary Services: Ancillary services will be maintained at levels sufficient to support medical diagnosis and treatment, including but not limited to:

3.3.1.2.1 Dietetics/nutrition services (*see* also Section 1.4);
3.3.1.2.2 Nursing;
3.3.1.2.3 Full service pharmacy;
3.3.1.2.4 Physical therapy;
3.3.1.2.5 Respiratory care/therapy;
3.3.1.2.6 Social services;
3.3.1.2.7 Laboratory;
3.3.1.2.8 Radiology, including vascular ultrasound;
3.3.1.2.9 Diagnostic/medical imaging and mammography;
3.3.1.2.10 Provision of durable medical equipment; and
3.3.1.2.11 Outpatient infusion services.

3.3.2 Support Services: a complement of services required to support the provision of health services to the Arctic Slope region may include, but are not limited to:

3.3.2.1 Patient review;
3.3.2.2 Quality improvement;
3.3.2.3 Infection control;
3.3.2.4 Patient care and benefit management support, and other patient travel services, including qualified escorts in accordance with section 213(a) of the IHCIA, as amended, codified at 25 U.S.C. 1621*l*;
3.3.2.5 Admitting;
3.3.2.6 Patient accounts;
3.3.2.7 Communications;
3.3.2.8 Environmental services (*see* also Section 1.4);
3.3.2.9 ASNA provides facilities management and maintenance, procurement, materiel management, facilities management, planning, development, and coordination of design, engineering, management, and general contracting for construction, demolition and clean-up, security, maintenance, and operation of all facilities and properties used by ASNA under this Funding Agreement, including facilities owned and leased by ASNA, existing administrative and health care facilities, employee and patient housing, and the replacement hospital (*see also* Section 1.4);
3.3.2.10 Health records;
3.3.2.11 Planning and implementation of an Electronic Health Records System;
3.3.2.12 Safety/security (*see* also Section 1.4);
3.3.2.13 Information services, including clinical informatics;
3.3.2.14 Human resources;

3.3.2.15 Housekeeping, laundry, and central sterile supply (*see also* Section 1.4);

3.3.2.16 Administration;

3.3.2.17 Finance;

3.3.2.18 Corporate information;

3.3.2.19 Board and governing body support, including policy, administrative and executive direction for all PSFAs in this Funding Agreement;

3.3.2.20 Employee on-site and off-site housing;

3.3.2.21 Benefits Eligibility: Determining eligibility for medical insurance, assistance with applications for same, and benefits counseling

3.3.2.22 Utilization Review; and

3.3.2.23 Clinical Case Management, including Clinical Social Work.

3.3.3 Additional ongoing programs.

3.3.3.1 Summer Youth Camp: The culture based youth camp provides Arctic Slope youth an opportunity to learn and practice traditional subsistence skills. The youth are taught healthy and functional life skills during their two week stay by Alaska Native counselors who emphasize the positives of being drug and alcohol free.

3.3.3.2 Medical Travel and Burial Assistance: Travel to Barrow, Anchorage, Fairbanks, and other locations to receive medical treatment not available in the village and family support for shipment of human remains.

3.3.3.3 Community Child Welfare and Family Services: Provides comprehensive health, behavioral health, and preventive services that include, but are not limited to, emotional support services; substance abuse counseling; health information; services that respond to child physical abuse; sexual abuse, and neglect and other conditions that place a child at physical or emotional risk; advocacy; foster home advocacy and supportive services; child development and family services which include, but are not limited to, health-oriented education; socialization; health screening; growth and nutritional assessment; individualized culturally-appropriate child development services; family services; and family involvement.

3.3.3.4 Environmental Health: Identify, evaluate, and control the biological, chemical, and physical factors in the environment that may have an adverse impact on health.

3.3.3.5 Public Health and Epidemiology: Directly and/or through ANTHC, including its Epidemiology Center[2] ASNA carries out public health, epidemiology, and health research functions. These activities include, but are not limited to: collecting and receiving personally identifiable health information for the purpose of

3.3.3.5.1 preventing or controlling disease, injury, or disability;

3.3.3.5.2 reporting disease, injury, and vital events such as birth and death; and

---

2 The ANTHC Epidemiology Center was previously operated by the Alaska Native Health Board.

3.3.3.5.3 the conduct of public health and epidemiological investigations, surveillance, and interventions, including the maintenance of disease and injury registries.

3.3.3.6 Youth Training Programs. ASNA provides youth and young adults with a broad scope of services designed to assist them to lead healthy, productive lives and to engage fully in educational and other age-appropriate activities, such programs include, but are not limited to, student support activities, career exploration, and work experience, and life skills training.

3.3.3.7 Behavioral Health Services: Wellness programs including services of behavioral health aides, suicide and methamphetamine prevention, alcohol treatment and prevention, promotion of healthy living including tobacco cessation program, and weight loss programs.

3.3.3.8 Nutritional Programs and Food Services: Nutrition/dietetics services, food supplements, counseling, medical nutritional therapy, which provides screening/assessment, nutritional education, and patient monitoring; and food service, which includes serving traditional foods, is responsible for providing patient meals and cafeteria service for patients, visitors, employees, and supportive housing guests.

3.3.3.9 Prematernal Residential Care. Housing and support services for women and children during pregnancy and post-partum.

3.3.3.10 Home Care and Other Community Based Services. Through a combination of western methods, traditional modalities, and alternative healing practices, home care, skilled nursing, and other community-based services, ASNA provides a broad range of medical, public health, and preventive services, including providing assistance with activities of daily living such as bathing, dressing, laundry, light housekeeping, cooking, vital signs, and medication reminders. These services are provided to individuals who are unable to perform their activities of daily living on their own or when the families are unable to meet their needs. Home- and Community-Based Services also provides palliative care and other end-of-life services, respite, chore, nutrition, transportation for services described in the Funding Agreement, and other supportive services, including senior programs and activities, such as nutrition services for elders and their spouses, escort, transportation, outreach and advocacy, education, referral services, home visits, and group activities; and engages in planning and development of additional services.

All of these services are provided throughout the ASNA service area directly or in support of long-term care at residential care facilities and assisted living homes. ASNA provides the services above in accordance with Section 205(a)(2) of the IHCIA, as amended, 25 U.S.C. § 1621d.

3.3.3.11 Assisted living services, including long-term care and rehabilitation services, in accordance with Section 205 of IHCIA, as amended, 25 U.S.C. §1621d;

3.3.3.12 Transportation. ASNA provides patient transportation, including arrangement of patient travel, Medevac, and escorts, in accordance with section 213 of the IHCIA, as amended as 25 U.S.C. § 1621*l*.

3.3.3.13 Housing. ASNA provides temporary housing for ASNA clients and their families or escorts to facilitate access to care including supportive housing for individuals with behavioral health issues. ASNA may provide health services at these locations.

3.3.4 Other Programs/Services Funded. This funding agreement includes programs, functions, services, and activities resulting from tribal redesign, or consolidation, reallocation, or redirection of funds, including its own funds or funds from other sources, provided that such consolidation, redesign, or reallocation or redirection of funds results in carrying out programs, functions, services, and activities that may be included in the funding agreement pursuant to Section 505 of Title V and Article III, Section 6 [Consolidation With Other Programs] of the Compact. This includes any other new health care programs, including, but not limited to, those identified in the Indian Health Care Improvement Act funded during the fiscal year.

3.4 Non-IHS Funding. ASNA will complement and supplement the PSFAs described in Section 3 [Tribal Programs and Budget] with funding from sources other than IHS through this Funding Agreement, subject to the availability of funds from such other funding sources. Consistent with Article III, Sections 5 [Reallocation], 6 [Merging with Other Programs], 7 [Program Income] of the Compact, non-IHS funds will be added to or merged with funds provided by IHS through this Funding Agreement.

3.5 Tribal Facilities and Locations. ASNA operates the programs described in this Funding Agreement out of more than one facility or location. These include, but are not limited to the facilities and locations listed in Appendix E, which will be submitted prior to the effective date of this Funding Agreement, and will be incorporated by reference herein. The Area Division of Planning, Evaluation and Health Statistics shall compile from this Appendix a list of all health facilities and locations identified in the Appendix and forward that list annually to the Headquarters' Office of Program Statistics, which shall include each of these facilities and locations in the annual list it must provide to the Centers for Medicare and Medicaid Services (CMS) (formerly Health Care Financing Administration) pursuant to the Memorandum of Agreement between the Health Care Financing Administration and the Indian Health Service (December 19, 1996).

3.6 Payer of Last Resort. Whether providing, purchasing, or authorizing health care services described in the Compact and this Funding Agreement, in accordance with Section 2901(b) of Pub. L. 111-148 [25 U.S.C. § 1623(b)], and as otherwise provided in law, ASNA shall be the payer of last resort.

Section 4 – Amounts Available During the Term of the Funding Agreement

4.1 The following amounts are available to ASNA in Fiscal Years 2018–2020 pursuant to the Compact and Title V of the Act, and are subject to reductions only in accordance with Section 508(d) of Title V and Section 106 of the Act.[3]

	Annual Funding
Recurring base: Inclusive of all recurring funding, including recurring contract support funds.[4]	$ 26,553,968
Non-recurring funding: Inclusive of nonrecurring contract support funds and such other funding which may be added to the contract.[5]	$ 7,688,833
Subtotal: (This amount is subject to amendments in accordance with Section 12 [Amendment or Modification of this Funding Agreement].)	$ 34,242,801
Area "tribal" share to include funding identified from Area Office and identified in Appendix A to this Funding Agreement.[6]	$ 405,092
Headquarters - Tribal share: "Tribal Size Adjustment Pool," including all funds identified in Appendix A. The amount identified is exclusive of funds for which a distribution amount has not been determined. The final amount due shall be determined as set forth in this Funding Agreement or Appendix A.[7]	$ 287,058

---

[3] A breakout of these funds is shown in Appendix A, which cites the source document used to determine the amounts. These amounts are subject to change under the Act and as provided in this Funding Agreement. For other fiscal years to which this Funding Agreement is applicable, a replacement Appendix A will be negotiated between IHS and ASNA for the respective year and amended to this Funding Agreement and incorporated by reference, accordingly.

[4] A breakout of these funds is shown in Appendix A. This amount does not include funds for the CHA Program, which ASNA expects to assume sometime in the future. The proposal to assume responsibility for the CHA program will be treated as an amendment to this Funding Agreement under Section 12.3 [Due to Addition of New Programs], Amendment or Modification of this Agreement, Due to Addition of New Programs. *See* footnote 3.

[5] These non-recurring funds are shown in Appendix A and represent contract support costs for which funds are available at the beginning to the fiscal year. Other non-recurring funds will not be specifically identified in this Funding Agreement, but will be provided to ASNA in the future to the same extent as they have historically been provided. *See* footnote 3.

[6] Funds from Area were distributed according to methodologies agreed upon in a caucus open to all Alaska Tribes and tribal organizations. The specific methodologies are identified in Appendix A. In addition to the Funding amount, prior to the effective date of Section 325 of P. L. 105-83, ASNA restricted Area tribal shares in an amount identified as "Subtotal Area TS Amount" in the "ASNA Restricted" column on Page 1 of Appendix A. *Also see* Addendum 2, Item A, regarding these funds.

[7] Headquarters shares were allocated according to the following process, which was adopted in a caucus open to all Alaska Tribes and tribal organizations. The Alaska Area Tribal Share of Headquarters was first defined using the national IHS recommended methodology. The total Alaska Area Tribal Share was then reallocated to each Co-

	Annual Funding
Headquarters - Tribal share: "program formula pool" - to include all funds identified in Appendix A, and such additional funds which IHS may make available on a program formula basis during the year based on the programs accepted for this allocation in Appendix A. The amount identified is exclusive of funds for which a distribution amount has not been determined. The final amount due shall be determined as set forth in this Funding Agreement or Appendix A.	$0
Subtotal - Tribal Shares[8]	$ 692,150
TOTAL COMPACT FUNDING[9]	$ 34,934,951

These amounts are subject to additions for reimbursements, and Quarters Return Funds and for new funds received during the term of this Funding Agreement including amounts that have historically been distributed as non-recurring funds under Title I of the Act, or under previous Funding Agreements. Any amounts remaining unspent under Contract No. 243-96-6025, or previous Funding Agreements, after adjustment and reconciliation of the withheld amounts for IPA/MOA, supplies, and services, as of the last day of the previous fiscal year, shall be included in this Funding Agreement.

IHS agrees to transfer to ASNA all of the funding remaining in FY 2013 allocated for the expanded PSFAs described in sections 3.3.1.2.1, 3.3.2.8, 3.3.2.9, 3.3.2.12, 3.3.2.14, and 3.3.2.16 that ASNA will perform at Samuel Simmonds Memorial Hospital, and its replacement facility of the same name, as stated in the resolutions given by the six Alaska Native villages that are served by ASNA. IHS will also transfer any other funding related to these PSFAs and Samuel Simmonds Memorial Hospital as these funds become available in accordance with Section 12 of this Funding Agreement.

Of the amount shown above for Headquarters Tribal Share "Program Formula," $0 are for Equipment Replacement; the Equipment Replacement amount paid as part of the lump sum due ASNA was determined by multiplying the FY 2017 Equipment Replacement amount paid to

---

Signer according to the agreed upon Alaska Area methodology, which is identified specifically for each line in Appendix A. In addition to the Funding amount, ASNA is entitled to additional Headquarters' tribal shares in an amount identified as "Subtotal Headquarters TS amounts" in the "ASNA Restricted" column on Page 1 of Appendix A.

[8] The subtotal of tribal shares does not include certain Headquarters' tribal shares for which the amount or availability has not been determined. This amount will be adjusted to make available all tribal shares for which ASNA is eligible.

[9] For the reasons noted regarding the amounts that make up this total and because full funding amounts under the previous year's Funding Agreement have not been fully identified or reconciled as of the time this Funding Agreement is being executed, all amounts to be paid in the fiscal year for this Funding Agreement are estimates and are subject to amendment to reflect the full amount due for this fiscal year.

ASNA by 90%. The final Equipment amount paid in FY 2018 will be based on the final FY 2018 Equipment Replacement allocation. If the final Equipment Replacement amount, as determined by the final FY 2018 Equipment Replacement allocation, is less than the 90% calculation, ASNA will return the difference to IHS. See also Appendix A, footnote to line 22 on page 6.

The Recurring Base amount shown above includes $141,882 that ASNA received, recurring in FY 2006 for Congressionally earmarked alcohol funds. Such funds are subject to "Adjustments Due to Congressional Actions" as described herein in Section 6 as well as any conditions on those funds that may be described in the FY 2018 Interior Appropriations Act (Act) or Congressional Reports. After the Act is passed into law, such conditions, including Congressionally-directed reporting requirements, will be added by amendment not requiring ASNA's signature as described in Section 12 [Amendment or Modification of this Funding Agreement].

The parties agree Section 505(b)(2) of Title V provides, among other things, that grants administered by the Department of Health and Human Services through IHS may be added to ASNA's Funding Agreement after award of such grants. In accordance with this provision of Title V and its implementing regulations, the Secretary will add ASNA's diabetes grant(s) and any other statutorily mandated grant(s) administered by the Department through IHS to this Funding Agreement after such grant(s) have been awarded. Grant funds will be paid to ASNA as a lump sum advance payment through the PMS grants payment system as soon as practicable after award of the grant. ASNA will use interest earned on such funds to enhance the purposes of the grant, including allowable administrative costs. ASNA will comply with all terms and conditions of the grant award, including reporting requirements, and will not reallocate grant funds nor redesign the grant program, except as provided in the implementing regulations or the terms of the grant.

4.2 Contract Support Costs. Contract support costs (CSC) will be paid in accordance with 25 U.S.C. § 5325 and § 5388(c). The parties agree that, according to the best data available as of the date of execution of this agreement, the amount to be paid under the FY covered by this agreement, which represents the parties' estimate of ASNA's full CSC requirement pursuant to 25 U.S.C. § 5325, is $9,927,191, including $3,180,555 for direct CSC and $6,746,636 for indirect or indirect-like CSC. This estimate shall be recalculated as necessary as additional data becomes available including information regarding the direct cost base, pass throughs and exclusions, and the indirect cost rates to reflect the full CSC required under 25 U.S.C. § 5325. The parties will cooperate in updating the relevant data to make any agreed upon adjustments. In the event the parties disagree on the CSC amounts estimated and paid pursuant to this paragraph and ASNA's full CSC requirement under the ISDEAA, the parties may pursue any remedies available to them under the ISDEAA, the Compact, and the Contract Disputes Act, 41 U.S.C. § 7101 et seq.

4.3 Base Budgets.

4.3.1 Categories and Base Year. At the end of the first period of the base budget option, IHS and Co-Signers agreed to extend the three year (FY 98 - FY 2000) base budgets implemented for the Compact for an additional two years (FY 2001- FY 2002). IHS and ASNA have subsequently agreed to additional extensions through FY 2020. IHS and Co-Signers have

agreed to extend the base budget period further at ASNA's option. The following categories are subject to base budgeting for the base year period and the period, as noted below:

Category of Funding	Base Period for Base Funding	Extended through:
Headquarters TSA amounts[10]	FY 97	FY 2020
Equipment Replacement Funding	Not Included	N/A
Area Tribal Share	Not Included	N/A

4.3.2 Adjustments. Adjustments to base funding shall be permitted in direct proportion to changes in appropriated amounts (by sub-activity), as provided under Section 6.1 [Adjustments Due to Congressional Actions]. Adjustments shall also be permitted for the addition of new co-signers to the Compact and when current co-signers add or retrocede PSFAs, as provided in Section 12.3 [Due to Addition of New Programs].[11] Adjustments also shall be permitted when co-signer(s) chooses to restrict or unrestrict previously "restricted" or "unrestricted" categories, provided that restrictions shall be changed only during annual negotiations. ASNA also shall be eligible for funding for new services, service increases, mandatories, specific Congressional appropriation for population growth, health services priority system, contract support costs and other increases in resources on the same basis as all other tribes. Adjustments for changes required when a tribe joins or withdraws from a tribal consortium shall also be permitted, as provided under Section 6.2 [Adjustments Due to Tribal Compacting or Contracting]. Co-Signers shall also remain eligible for the distribution of additional tribal shares for Assessments, Workers Compensation, Emergency Reserve, Management Initiatives, and other PSFAs from Headquarters.

Section 5 – Method of Payment.

5.1 Payment Schedule. Except as provided in subsections 5.2 [Availability of Tribal Shares], 5.3 [Buyback/Withholding], and 5.4 [Periodic Payments] of this section, all funds identified in Section 4 [Amounts Available During the Term of the Funding Agreement] of this Funding Agreement shall be paid to ASNA, in accordance with Article II, Section 4 (a) [Payment Schedule] of the Compact; payment to ASNA to be made as follows:

One annual payment in lump sum to be made annually in advance by check or wire transfer.

---

[10] Compact base budgets for TSA amounts shall be considered as a whole (entire ATHC amount) and shall be subject to adjustment of the internal allocation subject to ATHC agreements.

[11] This includes addition of new facilities when the addition of these facilities includes an increase in equipment funds identified for the new facilities.

5.2 Availability of Tribal Shares. ASNA will be paid 100 percent of Headquarters and Area Tribal Shares in its initial lump sum payment, as negotiated in this Funding Agreement.

5.3 Buyback/Withholding.[12] ASNA may carry out its responsibility to provide certain PSFAs included in this Buyback Agreement by using services or other resources of the Federal government under Article V, Section 22 [Purchases from IHS] of the Compact, as permitted by law. Except as provided herein, the cost of such services and the terms under which they may be made available to ASNA are set forth in the Buyback/Withhold Agreement between IHS and ASNA, which is attached as Appendix D to this Funding Agreement and incorporated by reference herein. The administrative surcharge provided for in Section 2.2.4 of the Buyback/Withhold Agreement for FY 2018 shall be .285 percent. Notwithstanding Section 5 of the Buyback/Withhold Agreement, upon the request of IHS or any Co-Signer, such Buyback Agreement will be negotiated for future fiscal years annually during negotiation of this Funding Agreement.

5.4 Periodic Payments. Payment of funds otherwise due to ASNA under this Funding Agreement, which are added or identified after the initial payment is made, shall be made promptly upon request of ASNA by check or wire transfer.

Section 6 – Adjustments.

6.1 Due to Congressional Actions. The parties to this Funding Agreement recognize that the total amount of the funding in this Funding Agreement is subject to adjustment due to Congressional action in appropriations Acts or other law affecting availability of funds to IHS and the Department of Health and Human Services. Upon enactment of any such Act or law, the amount of funding provided to ASNA in this Funding Agreement shall be adjusted as necessary, after ASNA has been notified of such pending action and subject to any rights which the Co-Signer may have under this Funding Agreement, the Compact, or the law.

6.2 Due to Tribal Contracting or Compacting. Should any authorizing Tribe assume responsibility for PSFAs (or portions thereof) under a contract or Funding Agreement pursuant to the Act, adjustment to funding amounts under this Funding Agreement will be negotiated.

Section 7 – Records.

7.1 Incorporation of the Privacy Act. Pursuant to Section 506(d)(1) of Title V, records acquired, generated or maintained by ASNA shall not be treated as Federal records under Chapter 5 of Title 5 of the United States Code, except that:

7.1.1 patient medical records, financial records and personnel records may be disclosed only in accordance with 5 U.S.C. § 552a(b); and

---

[12] As detailed in Appendix A, ASNA opts to buyback certain services and withhold the minimum initial estimated amount for such services.

7.1.2 pursuant to Section 105(o) of Title I, the medical records generated by ASNA shall, at the option of the ASNA be stored with the National Archives and Records Administration, and ASNA shall have access to such records.

7.2 Confidentiality Standards. ASNA will seek to comply with the Administrative Simplification provisions of the Health Insurance Portability and Accountability Act of 1996 (HIPAA), including, but not limited to, privacy, security, transactions, and code set regulations, codified at 45 C.F.R. Parts 160, 162, and 164. If a record is not subject to HIPAA, ASNA will maintain the confidentiality of its records in accordance with policies and procedures adopted by its Governing Body, which will be consistent with the purposes and guidelines of HIPAA and the Federal Privacy Act of 1974.

Section 8 – Program Rules. ASNA will make a best effort to carry out the health PSFAs in this Funding Agreement in compliance only with:

> The Joint Commission (formerly known as the Joint Commission on Accreditation of Healthcare Organizations) and Community Health Aide/Practitioner certification standards.

Except as specifically set forth in this section, pursuant to Section 517(e) of Title V, ASNA does not agree to be subject to any agency circular, policy, manual, guidance, or rule adopted by IHS, except for the eligibility provisions of Section 105(g) and the regulations promulgated under Section 517 of Title V, unless otherwise waived.

Section 9 - Program Reporting Requirements

9.1 Federally Owned Real Property. For all property assets, including facilities, managed by ASNA under this Funding Agreement that are federally owned, ASNA agrees to assist IHS with its reporting requirements associated with Federal ownership of this property.

9.1.1 IHS must keep its facility condition assessment current (i.e. not more than five years old). ASNA agrees to collaborate with ANTHC on scheduling and conducting facility condition assessment surveys for federally-owned facilities under ASNA management. The costs of these surveys will be estimated in concert with ANTHC Maintenance and Improvement Resource Allocation Committee (MIRAC).

9.1.2 IHS must identify historic real property assets and ensure that the information is current. AANHS is currently working with a contractor to assess IHS real property holdings in Alaska. ASNA agrees to provide reasonable access to facilities ASNA manages. IHS will provide ASNA with a copy of the draft assessment and consider any comments ASNA may submit.

9.1.3 IHS must keep an accurate and current inventory of real property assets. ASNA agrees to provide the certification form included in appendix F-1 - Certification for New/Replaced/Added Space annually to the AANHS for any new, replaced, or added space to a federally owned facility, or other changes in space utilization.

9.1.4 IHS must report Energy Data for federal facilities. ASNA agrees to submit to ANTHC (DEHE) energy data, as specified in Appendix F-2 - Energy Report.

9.1.5 For projects started before October 1, 2005, IHS must report all capital improvements made to federal facilities which exceed $25,000. For projects starting on or after October 1, 2005, IHS must report all capital improvements made to federal facilities which exceed $100,000. ASNA agrees to provide a Final Real Property closeout Report specified in Appendix F-3 - Final Real Property Closeout and Interim Real Property Status Report to ANTHC (DEHE) on each project within 120 days of its beneficial use of the facility or an interim report using Appendix F-3 - Final Real Property Closeout and Interim Real Property Status Report without the Chief Financial Officer certification if the project is not completed for beneficial use. ASNA agrees to provide the applicable report by March 31st of each fiscal year.

9.1.6 The National Environmental Policy Act (NEPA), National Historic Preservation Act (NHPA), and related provisions of law require IHS to review and approve actions resulting in the use or commitment of IHS funds or that affect IHS property, and which may significantly impact the environment or cultural resources. Unless ASNA has assumed these responsibilities under a construction project agreement in accordance with Section 509 of Title V and 42 C.F.R. § 137.285-312, IHS must carry out these responsibilities and has elected to utilize Appendix G. Where ASNA plans to undertake an action, as described in Appendix G, on IHS owned real property or utilizing IHS funds received through this Funding Agreement and ASNA has not assumed these responsibilities, ASNA will provide IHS with a Project Summary Document (see Appendix F-4) and a completed Environmental Information and Documentation Form (see Appendix F-5) so that IHS can accomplish these requirements, and issue a Determination Document (Categorical Exclusion (CATEX) or Finding of No Significant Impact (FONSI)), as soon as possible. All documentation shall be submitted to IHS as early as possible in the planning phase of the project to prevent delays in the action. No irreversible action can be taken by ASNA until IHS completes its compliance responsibilities and so advises ASNA with a Determination Document). Pending resource availability, IHS is available for education and consultation on NEPA, NHPA, and related provisions of law on an as needed basis.

9.1.7 IHS must report on a vendor's activity on federally owned or leased property. ASNA agrees to comply with 20 U.S.C. § 107 relating to the operation of vending facilities on federal property by blind persons.

9.1.8 When planning to fund a construction project using non-IHS funds in a federal facility or on federally owned land, ASNA will notify IHS AANHS in order to initiate the approval process.

9.2 Leases. IHS must report on its federally leased facilities. ASNA agrees to notify AANHS of changes in occupancy, size, use, and general condition of Village Built Clinic (VBC) leased facilities in locations where ASNA has bought back services from IHS. IHS will annually, or upon renegotiation, provide to ASNA a copy of each VBC lease. No increase in the amount due to the lessor pursuant to a lease will be negotiated by IHS without advance notice to ASNA.

In administering these leases, IHS will work with ASNA to ensure that each lease is in compliance with the standards referenced in the VBC lease.

Section 10 – Retrocession and Discontinuance.

10.1 Retrocession. The retrocession provisions of Section 506(f) of the Indian Self-Determination and Education and Assistance Act, as amended, are herein adopted, except that the effective date of a retrocession request ~~of~~from the Compact and Funding Agreement, in whole or in part, shall be one year from the date of the request by an authorizing Tribe or Village, except that the effective date of a request may be less than one year upon approval of all authorizing Tribes and IHS.

10.2 Discontinuance. ASNA may discontinue its participation in the Compact after written notice to each authorizing Tribe or Village and IHS. Notice must be provided one year in advance of the effective date of the request except that the effective date of a request may be less than one year upon approval of all authorizing Tribes and IHS.

10.3 Withdrawal Procedures.

10.3.1 Process. Unless prohibited by law and in accordance with Section 506(g) of the Act, a tribe or tribal organization may fully or partially withdraw from a participating tribal organization its share of any program, function, service, or activity (or portions thereof) included in the Compact or Funding Agreement, and such withdrawal shall become effective within the time frame specified in the resolution which authorized transfer to the participating tribal organization, provided that in the absence of a specific time frame being set forth in the resolution, such withdrawal shall become effective on:

10.3.1.1 The earlier of

10.3.1.1.1 One year from the date of submission of such request; or

10.3.1.1.2 The date on which the Funding Agreement expires; or

10.3.1.2 Such date as may be mutually agreed by the Secretary, by the Indian tribe or tribal organization that is withdrawing, and by the tribal organization that has signed the Compact and Funding Agreement on behalf of the withdrawing Indian tribe or tribal organization.

Section 11 – Consolidation of Contracts and Previous Funding Agreements. The contracts listed below and all previous Annual Funding Agreements shall be amended or terminated, as appropriate, to transfer applicable contract funds into this Funding Agreement for programs, activities, functions, services, materials, and facilities provided to the Tribes represented by Co-Signer. Contract: No. 243-96-6025.

Section 12 – Amendment or Modification of this Funding Agreement.

12.1 Form of Amendments. Except as otherwise provided by this Funding Agreement, the Compact, or by law, any modifications of this Funding Agreement shall be in the form of a

written amendment and shall require written consent of each of the signatory Tribes, acting directly or through ASNA as authorized by resolution, the Arctic Slope Native Association and the United States. Participation or written consent of Tribes and Co-Signers not subject to the terms of this Funding Agreement shall not be required.

12.2 Services from IHS. Should ASNA determine that it wishes IHS to provide PSFAs included in this Funding Agreement for which funding has been identified but not provided, the parties shall negotiate an amendment to the Funding Agreement to reflect the transfer of responsibilities from the Co-Signer back to IHS and the pro-rata share of funding for that program, service, function, or activity shall be retained by IHS. Unless otherwise negotiated, IHS will not transfer centrally paid expenses, including, but not limited to, Workers Compensation, to any Co-Signer.

12.3 Due to Addition of New Programs. Should ASNA determine that it wishes to provide a program, service, function, or activity of IHS not included in this Funding Agreement, ASNA shall submit a proposal to IHS to provide such program, service, function, or activity. The parties agree to negotiate such a proposal and, should the parties fail to reach agreement, ASNA may submit a final offer in accordance with Title V procedures set forth in Section 507(b)-(d) of Title V. A proposal submitted pursuant to this section shall be treated as a request for amendment to the Funding Agreement and, once approved by IHS, the Alaska Area Office shall prepare within 30 days an amendment to this Funding Agreement and the amendment shall be executed through the Area Office and added to this Funding Agreement.

12.4 Due to Availability of Additional Funding. Co-Signer shall be eligible for any increases in funding or funding for Medicaid, Medicare, maintenance and improvement, other reimbursements, and new programs for which it would have been eligible had it been administering programs under a self-determination contract, rather than under the Alaska Tribal Health Compact and this Funding Agreement, and for any other funds that are not restricted by appropriations language for which any Alaska Tribe or tribal organizations may be eligible, including any new funds appropriated for IHS Headquarters and funds passed to Alaska Area as recurring or non-recurring funds, and this Funding Agreement shall be amended to provide for timely payment of such new funds to Co-Signer. Such amendment shall be originated and prepared within 30 days by the Alaska Area Office and executed through the Area Office in consultation with ASNA.

12.5 Other Adjustments. Upon written authorization by ASNA and agreed to by IHS, IHS may reallocate funds retained by IHS, which are obligated to ASNA for the purpose of reimbursing IHS for services or equipment provided to ASNA, to assist ASNA in carrying out the terms of the Compact and this Funding Agreement.

12.6 General Procedures for Amending or Modifying this Funding Agreement. Amendments or modification proposed by ASNA shall be submitted in writing to IHS, Alaska Area Director, with a copy to the Office of Tribal Self-Governance at IHS Headquarters. Except as provided with respect to the incorporation of a provision of Title I of the Act under Article V, Section 21 [Applicability of Title I Provisions] of the Compact, or as provided above in paragraph 12.4 [Due to Availability of Additional Funding] and 12.7 [Funding Increases] of this section, a

request to amend or modify this Funding Agreement submitted by ASNA shall be processed in accordance with Sections 507(b)-(d) of Title V of the Act, and all provisions of those identified sub-sections are incorporated herein for this purpose.

12.7 Funding Increases.

12.7.1 Written consent of ASNA shall only be required for issuing amendments for those funds which:

12.7.1.1 Require a change to Section 3 – Tribal Programs and Budget;

12.7.1.2 Require a specific commitment by ASNA (e.g., Maintenance & Improvement projects and prior fiscal year Sanitation Facility Construction projects); or

12.7.1.3 Reduce funding other than changes in Congressional appropriations pursuant to Section 6.1 [Adjustments Due to Congressional Actions].

12.7.2 Amendments not requiring written consent may include, but are not limited to:

12.7.2.1 Program/Area/HQ Mandatories;

12.7.2.2 Program/Area/HQ End-of-Year Distributions;

12.7.2.3 CHEF, subject to the condition that if a case initially qualifying for reimbursement is paid (in whole or in part) by an alternate resource or cancels for any reason, ASNA will return the unused amount to the IHS CHEF account;

12.7.2.4 CHS Deferred Services;

12.7.2.5 Routine Maintenance & Improvement; or

12.7.2.6 Collections and reimbursements.

12.7.3 Amendments reflecting payment of these funds shall be provided to ASNA after any such funds are added to the Funding Agreement. ASNA retains the right to reject the addition of such funds to the Funding Agreement and return the funds to IHS.

Section 13 – Third Party Recoveries. Any funds recovered by ASNA through the filing, litigating, or settling of a claim against a third party to require that third party to pay for services previously provided to IHS-eligible beneficiaries by ASNA, or for such services previously provided by IHS in a PSFA now operated by ASNA, shall be the property of ASNA and shall be considered program income to be utilized by ASNA as provided in Article III, Section 7 [Program Income] of the ATHC. Any prospective recovery of funds for such services shall likewise be considered program income to be utilized pursuant to Article III, Section 7 [Program Income] of the Compact.

Section 14 – Memorandum of Agreement with Member Villages. Funds provided under this Funding Agreement may be allocated to and expended by an Alaska Native Village (Village) which is a party to this Funding Agreement in accordance with the terms of the Compact, this Funding Agreement and a Memorandum of Agreement (MOA) approved by ASNA and the Village. The Federal Tort Claims Act shall apply to PSFAs carried out by the Village under such MOA and to the Village and its employees to the same extent as if they had been carried out directly by ASNA. Such an MOA may include provisions for the assignment of federal employees under IPA assignment or Commissioned Corps detail. Such assignment shall be subject to the approval of the AANHS Director. ASNA shall be responsible for assuring compliance by the Village with the Compact, this Funding Agreement, and the MOA.

Section 15 – Service to Non-Beneficiaries. Section 813 of the Indian Health Care Improvement Act, as amended, 25 U.S.C. 1680c, (Section 813), authorizes the governing body of a Tribal Organization carrying out health services of IHS under the Indian Self-Determination and Education Assistance Act to determine whether health services should be provided under the Tribal Organization's funding agreement with IHS "to individuals who are not eligible for such health services under any other subsection of this section or under any other provision of law" 25 U.S.C. § 1680c(b)(1)(B). The ASNA Board of Directors has made such determination consistent with Section 813, and provides for its findings in Resolution No. 06-01. Resolution 06-01 is attached as Appendix B and incorporated by reference herein. ASNA may provide services under this Funding Agreement to non-beneficiaries as described in Resolution No. 06-01. In addition, services may be provided to U.S. Public Health Service Commissioned Corps Officers and their dependents.

Section 16 – Memorializing Disputes. The parties to this Funding Agreement may have failed to reach agreement on certain matters that remain unresolved and in dispute. Such matters may be addressed through the process set forth in Sections 507(b)–(d) of Title V, or at ASNA's option, may be set forth in an attachment to this Funding Agreement, which shall be identified as "Memorialization of Matters Remaining in Dispute." This attachment shall not be considered a part of this Funding Agreement, but is attached for the purpose of recording matters in dispute for future reference, discussion and resolution as appropriate. ASNA does not waive any remedy it may have under the law with regard to these issues and any others not listed herein.

Section 17 – Severability. This Funding Agreement shall not be considered invalid, void, or voidable if any section or provision of this Funding Agreement is found to be invalid, unlawful, or unenforceable by a court of competent jurisdiction. Should such a court make such a finding, the parties will seek agreement to amend, revise, or delete any such invalid, unlawful, or unenforceable sections or provision, in accordance with the provisions of the Compact.

Section 18 – Title I Provisions Applicable to This Funding Agreement. As authorized in 25 U.S.C. § 5396(b), ASNA exercises its option to include the following provisions of Title I of the Act as part of this Funding Agreement, and these provisions shall have the force and effect as if they were set out in full in Title V of the Act.

18.1. 25 U.S.C. § 5304(e) (definition of "Indian Tribe");

18.2. 25 U.S.C. § 5322(b) (related to grants for health facility construction and planning, training, and evaluation);

18.3. 25 U.S.C. § 5322(d)(1) (related to duty of IHS to provide technical assistance);

18.4. 25 U.S.C. § 5324(a)(1) (exemption from Federal procurement and other contracting laws and regulations);

18.5. 25 U.S.C. § 5328(b), (conflicting provisions of law);

18.6. 25 U.S.C. § 5329(c), section 1(b)(8)(F) (screener identification);

18.7. 25 U.S.C. § 5329(c), section 1(b)(9) (availability of funds);

18.8. 25 U.S.C. § 5329(c), section 1(d)(1)(B) (construction of contract);

18.9. 25 U.S.C. § 5329(c), section 1(d)(2) (good faith).

Section 19 – Effective Date and Duration. This Funding Agreement became effective on October 1, 2017, and will remain in effect through the 2020 Federal Fiscal Year or until a subsequent agreement is negotiated and becomes effective pursuant to Article II, Section 12 [Subsequent Funding Agreements] of the Compact.

General Notes on Alaska Area Office Tribal Shares

Column 1 - Includes all FY17 changes allocated to TS, Residual, & Transitional as of FY17. In FY 2018 TS changes will be added as received.

Column 2 - Residual includes no changes in residual functions. Based on FY2018 Area approved residual budgets.

Remaining funds at 9/30 distributed (Non-Recurring) to all Alaska Area health programs based on recurring base.

Column 3 - Transitional funds agreed by co-signers to remain at Area Office. Based on FY2018 approved transitional budget.

Column 4 - Restricted by all co-signers & transferred to the ANTHC to provide "Area PSFAs" .

Column 5 - Includes Area TS for all Alaska Tribes, including Title I & Title V. FY18 mandatories to be added if received.

Column 6 - Available Tribal shares for Co-Signer (amounts for ANTHC include pass-through to awardees with shares captured by Sec. 325).

Distributed by the approved ATHC methodology of - 30% # of Tribes / 35% 2010 Census Pop. / 35% 2013 Rec. Base (less VBC).

All Area TS for Services line items will be recurring, Area TS for Facilities will be non recurring.

Column 7 - Items restricted by individual co-signer to pay for continued services from ANTHC. (Restricted amounts are added to ANTHC FA.)

Column 8 - The agreed upon amount due (col. 6 - col. 7) to the co-signer after all retained shares are withheld.

Line 1 - All TS funds for non-OEHE Area Office PSFAs except where co-signers have individually decided to retain certain PSFAs at the ANTHC or AANHS.

Line 5 - Lease on Inuit Building.

Line 5a - $20,000 (less sequester) from transitional funding held by IHS to rent space for annual negotiations. Funds transferred to ANTHC upon confirmation of spac

Line 7 - Centrally paid expenses, including personnel & finance support for Area positions, costs & funds for departmental assessments.

Line 8 - Area Human Resources functions (previously Office of Personnel & Training).

Line 9 - Funding originally from ANMC - have all been returned to SCF/ANTHC as IPA/MOAs were reduced.

Line 10 - Includes funding for Area PSFAs transferred to ANTHC under Section 325.

Line 11 - Funds to ANTHC to support the statewide Contract Health Services reserve program.

Line 12 - Funds to ANTHC to support specialized services in Barrow, NSHC, & BBAHC & certain statewide laboratory contracts.

Line 13 - ANHB funds from Loc 77 including previous tobacco prevention funding.

Line 14 - Supply Service Center individually withheld amounts retained for ANTHC for all co-signers except YKHC, Seldovia, & Eklutna.

Line 15 - Funds distributed to support the Epidemiology Center distributed to co-signers for individual payment to ANTHC.

Line 16 - Funds for EMS training. Retained by IHS for transfer to ANTHC for Maniilaq, BBAHC, & Chugachmiut for EMS training at ANMC.

Line 18 - Does not include funds from surcharge, assessments, or other services purchased through Area Office.

Line 22 - Funds retained for ANTHC for all co-signers except YKHC, SCF, & KIC.

Line 24 - Does not include NR SFC funds for Health Facilities design and construction oversight.

Appendix B

Resolution No. 06-01

Arctic Slope Native Association, Ltd.
Resolution No. 06-01

Health Services for Non-Eligible Individuals

A resolution authorizing health services to non-beneficiary residents of the Arctic Slope

WHEREAS, the Arctic Slope Native Association, Ltd. ("ASNA") is a Tribal Organization established to provide health care services in the Arctic Slope by resolution of the governing bodies of six Tribes; and

WHEREAS, ASNA is a Co-Signer to the Alaska Tribal Health Compact under Title V of the Indian Self-Determination and Education Assistance Act, Pub. L. 93-638, as amended; and

WHEREAS, pursuant to the Alaska Tribal Health Compact and funding agreements negotiated there under with the Indian Health Service ("IHS"), ASNA carries out the programs, services, functions, and activities of the IHS; and

WHEREAS, Section 813 of the Indian Health Care Improvement Act, as amended 25 U.S.C. § 1680c, ("Section 813"), authorizes the governing body of a Tribal Organization carrying out health services of the IHS under the Indian Self-Determination and Education Assistance Act to determine whether health services should be provided under the Tribal Organization's funding agreement with IHS "to individuals who are not eligible for such health services under any other subsection of this section or under any other provision of law" ("non-beneficiaries"), 25 U.S.C. § 1680c(b)(1)(B); and

WHEREAS, Section 813 provides that in making such a determination, the governing body of the Tribal Organization shall "take into account" whether the provision of health care services to such individuals will result in the denial or diminution of health services to Alaska Natives or American Indians, and whether there are reasonable non-ASNA health facilities or services available to meet the health needs of such individuals.

WHEREAS, ASNA operates the only hospital on the Arctic Slope and is the only provider of comprehensive health services in the Arctic Slope; and

WHEREAS, without health services provided by ASNA, non-beneficiaries would have to fly hundreds of miles to Fairbanks or Anchorage to obtain health care, which is not a reasonable alternative in that it unreasonably increases the cost of such care, decreases the likelihood of necessary preventive health care being provided and diminishes the effectiveness of such care due to inadequate follow-up; and

WHEREAS, non-beneficiaries make up a small percentage of the patients receiving care from ASNA facilities and practitioners, the ASNA Board has determined that services provided

to non-beneficiaries at ASNA's facilities or by ASNA's providers, to the extent described in this resolution, will not result in the denial or diminution of services to IHS beneficiaries; and

WHEREAS, ASNA has established billing and collection procedures to ensure that non-beneficiaries are billed in an amount that results in recovery of actual costs for the health services they receive at ANSA facilities or through ASNA providers; and

WHEREAS, ASNA has entered into agreements to ensure payment for services offered to indigent non-beneficiaries as required by Section 813; and

WHEREAS, the Executive Board of ASNA has determined that each of the conditions of Section 813 of the Indian Health Care Improvement Act, as amended, 25 U.S.C. § 1680c, is satisfied; and

NOW, THEREFORE, BE IT RESOLVED, that the ASNA Board of Directors authorizes the extension of health services to non-beneficiary in Arctic Slope, as provided in this resolution; and

BE IT FURTHER RESOLVED, that the President/CEO, or his or her designee, is authorized and directed to limit or eliminate access to such health services by non-beneficiaries should provision of such services diminish the provision of health services to beneficiaries of the Indian Health Service.

BE IT FURTHER RESOLVED, that this Resolution supersedes and replaces Resolution No. 2004-03 entitled Arctic Slope Native Association, Ltd. Health Services to Non-Beneficiaries dated June 2, 2004 addressing prior ASNA services to non-beneficiaries.

ADOPTED this 18 day of April, 2006, by a vote of 7 in favor, 0 against, and 0 not voting.

FY 2016 Continuing Services Agreement

MEMORANDUM OF AGREEMENT DESCRIBING THE CONTINUING SERVICES OF THE INDIAN HEALTH SERVICE, ALASKA AREA NATIVE HEALTH SERVICE TO ARCTIC SLOPE NATIVE ASSOCIATION FOR FY 2016

I. INTRODUCTION

This agreement provides for the continuation by the Indian Health Service (IHS) of certain services from the Alaska Area Office for the benefit of ASNA under its Funding Agreement (FA) under the Alaska Tribal Health Compact (ATHC) Self-Governance Compact.

This agreement is limited to the programs, services, functions, and activities (PSFAs) performed by the residual and transitional federal staff of the Alaska Area Office.

This agreement should be interpreted in conjunction with ASNA's FA and Appendix A to that FA, which may provide for additional detail on "restrictions" of funds at the Area or Headquarters level to ensure that specific services are continued to the individual Co-Signer.

In FY 2016, funding for these continuing services and activities will be from the funds, which have been designated as residual and from funds, which have been designated in support of temporary transitional federal PSFAs. In addition funding to purchase specific services, i.e., use of IPA/MOA assignees and Village Built Clinic leases, may be provided through reimbursement by ASNA to the IHS.

II. DEFINITIONS

The following definitions are in common usage in the Alaska Area:

A. ATHC Tribal Restricted Share - Used in Alaska to refer to those retained Tribal shares all compacting Tribes jointly initially agreed to leave in the Area Office in support of Alaska Area state wide PSFAs. Pursuant to Section 325 of PL 105-83, these shares now are in the Alaska Native Tribal Health Consortium (ANTHC) FA or are used for transitional federal PSFAs.

B. Buyback - The process by which Co-Signers use cash to purchase Area services from the Area Office. Requires accurate description and pricing of service, and mechanism for Area to invoice and receive payment.

C. Co-Signer Restricted Shares - Used in Alaska to refer to "retained Tribal shares" that have been left at the Area Office or Headquarters on an individual basis by a Co-Signer to allow the Area, Headquarters or ANTHC to provide specific services to the Co-Signer. Pursuant to Section 325 of PL 105-83, these Area shares now are in the ANTHC FA or are used for transitional federal PSFAs.

D. Residual - The resources necessary to support the PSFAs required for the United States Government to fulfill and maintain its moral and legal responsibilities based on treaties,

statute, and Executive order that are essential for the federal government to fulfill its "inherent federal functions".

E. Transition Plan - Plan initially agreed to by the Alaska Tribes to allow a transition of less than 100% of the Area Office Tribal shares to the Co-Signers collectively. (This definition is included for historical purposes only.)

F. Tribal Share - That portion of Headquarters or Area resources not determined to be residual and allocated to individual Tribes or to Tribes collectively, via Tribal organizations, utilizing an agreed upon methodology.

G. Tribe - As used in this Agreement, "Tribe" refers to Tribes and Tribal organizations, as those terms are defined respectively in Sections 4(e) and (*l*) of P.L. 93-638, the Indian Self-Determination and Education Assistance Act, as amended (the Act).

III. AREA SERVICE DELIVERY AGREEMENT

Nothing in this agreement is intended by ASNA or the IHS, nor shall be interpreted by any party, to limit or reduce in any way the PSFAs that any Tribe or Tribal organization is eligible to receive from the Area Office under Sec. 102 of Title I of the Act, under Sections 505 and 515(a) of Title V of the Act, or any other applicable federal law.

The table for each "Office" (or separate organizational component) presents the PSFAs currently performed and the staffing to perform the PSFAs. The residual PSFAs described in this Continuing Services Agreement serve all Co-Signers. The transitional personnel shown in this Agreement primarily support ANTHC PSFAs; however, some support other Co-Signers (e.g. IPA/MOA). PSFAs and the associated funds and personnel performing transitional PSFAs in support of the ANTHC (and Southcentral Foundation (SCF) for certain designated human resources PSFAs) under this Agreement may be transferred to the ANTHC or SCF under its FA.

A. OFFICE OF THE DIRECTOR

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional	Staffing (FTE)
Director	Provides overall executive direction and support on behalf of the Secretary.	R	1
Deputy Director, Chief Medical Officer	Provides public health advocacy; clinical consultation (CMO); legally required certification of health aide credentials and oversight of CHAP certification process; consultation in CHAP/Rural Health program management.	R	1
Executive Officer	Serves as principal advisor to the Director on overall management policies and procedures.	R	1
Attorney	Provides Region X attorney support and consultation.	R	1
EEO	Provides EEO support. 1		
Support Staff	Secretarial, clerical and administrative support to inherent and transitional federal functions at all levels of the Area Office.	R T	3 1
Planning, Evaluation & Statistics	Prepare statistical reports and publications in support of planning, evaluation and resource allocation requirements.	R	2
	Total		10

The Office will provide the specific PSFAs defined below:

1. Executive direction on behalf of the Secretary to the remaining inherently federal functions.
2. Advocacy at national level on behalf of the Tribes of Alaska including: legislative, policy, resource allocation, and appropriation advocacy.
3. Policy formulation and interpretation; supervision of non-IPA/MOA federal employees; negotiate, execute and administer compacts and FAs; resource allocation.
4. Public health coordination with Tribal, state and federal governments.
5. Provide legal advice and consultation on behalf of the Secretary.
6. Provides representation on the Executive Committee and Planning Committee of the Alaska Federal Health Care Partnership (AFHCP). Through the government-to-government relationship with Tribes and Tribal organizations, provides the mechanism for Tribal membership on the AFHCP.
7. Eligibility determinations assistance.
8. Equal Employment Opportunity program management in support of federal employment rights.
9. Oversight of certification of Community Health Aides as outlined by law and the *IHS Community Health Aide Program Certification Board Standards and Procedures.*
10. Consultation and technical assistance to Tribes and Tribal organizations staff and programs including
    a. Program review or evaluation at the request of the Area Director or the invitation of Tribal programs;
    b. Submission of electronic health record data to IHS National Data Warehouse; and
    c. Maintain current Area statistics to provide statistical analysis in support of resource needs and allocations.

1 The EEO function is provided under an intra-agency agreement among the IHS Alaska, California and Portland Area Offices.

d. Review and validate Alaska active user populations.

e. Publish *Census Based Alaska Native Population Counts* to supplement and cross check the accuracy of the user populations.

f. Verify the permanent staff increase Resource Requirement Methodology Needs Assessment (RRMNA) prepared by Tribes to determine staff needed for new facilities.

g. Collate data submitted for IHS distribution of specially earmarked funds following national allocation guidelines, when available, and suggest alternate distribution methods to program directors.

h. Publish the *Alaska Area Profile.*

i. Maintain the Alaska Area IHS website and publish Area Director's quarterly newsletter.

j. Publish the *Area Senior Executive Service Workplan* to support agency evaluation of the goals and accomplishments of the Area Office, its Director and Office Directors.

k. In cooperation with the AANHS/OEHE and ANTHC's Division of Environmental Health and Engineering and Co-Signers, provide user population and workload data, assist Co-Signers with preparation of applications; verify applications and planning documents prepared by Tribes (Health System Planning -HSP, PORs, and PJDs) for health facility expansion and replacement; and assist Co-Signers in the Headquarters' review process.

l. Communication between Tribal programs and IHS by seeking legal opinion from Region X attorney on issues which affect health care delivery by Community Health Aides such as standards of care, certification, Clinical Laboratory Improvement Act (CLIA) regulations, and Federal Tort Claims Act coverage.

11. Provide health program technical assistance and consultation on a limited basis as expertise and resources permit. This includes consultation on PSFA descriptions in Title I contracts, Title V FAs, specified grants and personal service and other contracts.

12. Support staff for the Director's Office and all other Area Office components without specific support staff.

13. Provide reimbursement to Headquarters for certain centrally paid expenses to include 100 percent of Department of Health and Human Services financial services and portions of other such expenses as reflected in the negotiated transitional budget for the ANTHC.

14. Performs the responsibilities identified in section 1 of the FA regarding ANTHC and SCF assurances.

15. Perform delegated functions to approve and administer FAs and amendments. The delegation includes the performance of Single Agency Audit, audit resolution for Title V awardees (Co-Signers); the function is provided using a multi-member Area-based team.

16. Responsibility for the Area Internal Control/Management Control programs, IHS Succession Plan and the Strategic Human Capital initiative.

17. As federal supervisor of Commissioned Officers serving under MOAs, the Area Director: functions as Reviewing Official for completion of annual Commissioned Officer Evaluation Reports; provides the Reviewing Official Statement for each officer when they are considered for promotion; and, fulfills any other action required as an officer's Reviewing Official. The Area Director may delegate this responsibility to Area Federal Staff as needed.

B. OFFICE OF ACQUISITION AND PROPERTY MANAGEMENT

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional	Staffing (FTE)
Federal Contracting Title I awards, Personal Property, and Prime Vendor program	Responsible for federal acquisitions to support the Alaska Area Office and Anchorage-based Centers for Disease Control and those required or elected in support of Tribally operated PSFAs. Responsible for the negotiation, award and administration of Title I, P.L.93-638 contracts. Maintains the federal personal property inventory. Manages the Pharmacy Prime Vendor program. Provides or coordinates certain administrative services for the Alaska Area office. (Surcharge funded services are also provided as needed and are noted with an asterisk (*))	R	2
	Total		2

The Office will provide the specific PSFAs defined below:

1. Negotiate, award and administer federal acquisitions including those in support of Tribally managed programs.
2. Maintain or develop Area agreements (Inter/Intra-Agency Agreements, Cooperative Agreements, Memoranda of Agreement) in close partnership with appropriate IHS or other federal, state or Tribal entity(s).
3. Negotiate, execute and administer all P.L. 93-638, Title I contracts including close out and site reviews as requested or required.
4. Coordinate records and documentation for Interagency and Cooperative Agreements, and DHHS and IHS delegations and directives.
5. Provide assistance to tribally managed facilities in acquiring excess federal property.*
6. Maintain the federal property inventory process including excess and disposal.
7. Coordinate with IHS Headquarters, the National External Audit Review Office and Tribal contractors to resolve audit findings for Title I contracts and Title V funding agreements.
8. Manage the Pharmacy Prime Vendor Program for the Alaska Area including placing daily pharmacy orders and resolving discrepancies and problems in ordering, shipping and delivery.*
9. Process Volunteer Agreements for health care professionals providing services to Tribally managed facilities.
10. Provide technical assistance to Tribally managed facilities on procurement issues.
11. Maintain the federal credit card program.
12. Privacy Act and Freedom of Information Act coordination.

C. OFFICE OF ENVIRONMENTAL HEALTH & ENGINEERING

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional	Staffing (FTE)
Director	Management, supervision and secretarial support.	R	2
Sanitation Facilities	Maintenance of Sanitation Facilities Construction (SFC) data information systems for program allocations, National Environmental Policy Act (NEPA) approval, oversight of IHS funded SFC projects.	R T	1 1
Environmental Health	Environmental services associated with federal employees[2]/		
Health Facilities	Support, direction and general administrative support, maintenance of Maintenance & Improvement (M&I), Equipment and other data for program allocation.	R	1
Realty	Maintain government property inventory; manage VBC leases and inspect government housing	R	1
	Total		6

The Office will provide the specific PSFAs defined below:

1. Sanitation Facilities:

a. Allocation of federal funds under Title V of the Act utilizing subpart N Construction Project Agreements and P.L. 86-121 Project Funding Agreements for project funding.

b. Provide required IHS oversight, facilitation and management of contributed sanitation facility construction funding from other federal and state agencies (currently approximately $44 million).

c. Directly allocate IHS resources (currently approximately $15 million annually) using data provided by prescribed allocation formulas and justification rationales.

d. Evaluate and approve proposed projects, prepare budget summaries and justifications. Advocate statewide and nationally for the ANTHC Division of Environmental Health and Engineering (DEHE) program and facilitate its implementation.

e. Maintain project information and deficiency databases to justify congressional funding requests in support of distribution logic.

f. Verify project development, documentation, funding, construction and closeout. Approve project agreements, to include making the determination of National Environmental Policy Act (NEPA) compliance based on information submitted by ANTHC DEHE.

g. Consult on and accept processes and priorities developed through the Sanitation Facilities Advisory Committee and SFC process in conformance with IHS national project eligibility criteria.

h. Onsite reviews of projects may be conducted annually to insure conformance with laws and regulations, e.g., NEPA and National Historic Preservation Act (NHPA) and to verify accuracy of data and programmatic assumptions.

i. Approve earmarked and emergency project funds dispersal.

2. Environmental Health: PSFAs include:

2 The PSFA conducted under this function are performed by all Office staff and others in the Area Office.

a. Overall direction of resources and related environmental surveillance for statewide public health impacts.

b. Continue to carry out functions related to serving as one of the health and medical representatives to the Alaska Federal Emergency Response Group.

c. Provide management and verification of Facilities Data System (FDS) data and Sanitation Deficiency System (SDS) health related information.

d. Provide safety assurance, compliance and reporting relating to federal workers, and professional programmatic support for staff.

e. In the event of a national disaster situation as defined in the Federal Response Plan, IHS is the lead agency for emergency response related to water and sewer damage assessment and mitigation.

3. **Health Facilities:** PSFAs include:

a. Perform budget allocation (about $10.9 million of Maintenance & Improvement funds, $2.4 million of equipment replacement funds, and $10.1 million Facilities Support Account funds);

b. Support and approve project or resource allocations derived through a priority system developed through the Maintenance & Improvement Resource Allocation Committee (MIRAC) and ANTHC process consistent with IHS national project eligibility criteria. Verify data submittals and manage IHS facilities databases in conformance with IHS national project and health facilities space eligibility criteria.

c. Respond to Congressional inquiries;

d. Review Project Justification Document/Program Of Requirements (PJD/POR) documents prepared by others;

e. Review and approve national priority systems applications, including Tribal Equipment Funds and Dental Facilities Funds;

f. Maintenance of Alaska portion of the Facilities Maintenance and Improvement/Equipment database for federally and Tribally owned health facilities;

g. Support for new health facility construction project funds distribution and project development;

h. Stewardship responsibility for oversight of environmental cleanup of federally owned real property;

i. Approve workload statistics;

j. Advocate statewide and nationally for the DEHE program and facilitates its implementation.

4. **Realty:** PSFAs include:

a. Monitor and manage real property assets in accordance with Executive Order 13327, "Federal Real Property Asset Management" and existing authority under law or by executive order for real property, capital improvements, square footage, use or disposal.

b. Maintain the IHS Real Property Inventory by updating the asset book values with costs relating to acquisition of real property, capital improvements, square footage, use or disposal.

c. Verify construction project closeout documentation for capital improvements made to federal facilities prior to adjusting the real property subsidiary ledger.

d. Perform annual review of real property.

e. Warranted Lease Contracting Officer authorized to lease Village Built Clinics (VBC) on behalf of the Community Health Aide Program (CHAP).

f. Provide guidance to clinic owners and Tribal organizations with community health aides operating VBC leased clinics.

g. Determine correct process for disposing of excess real property and manages project to end.

h. Develop and recommend IHS Policy formulation on real property, leases and quarters;

i. Provide management and verification of real property and lease data within the health care facilities database.

j. Provide direct guidance and assistance in federal acquisitions of land and/or buildings.

k. Calculate and distribute rental rates for government owned quarters.

l. Prepare for approval all easements, utility rights-of-way, rights-of-way during construction, revocable licenses, and use permits.

D. OFFICE OF FINANCIAL MANAGEMENT

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional Buyback	Staffing (FTE)
Director	Financial Management Officer: Overall management, supervision, consultation, and surveillance	R	1
Tribal Accounting	Accounting advice; reconciliation; amendment and electronic payment assistance; monitors transactions in Buyback Account; and prepares Status of Buyback Statement with supporting documents.	R T	1 1
Budget	Budget projections and reports; fund control; Operating Resources Detail (formerly called Advice of Allowance)/Allocations.	R	1
Accounting	Verifies accuracy and appropriateness of transactions; expenditures; general ledger; travel; project accounts; certifies vouchers; prepares tax withholding; and provides disbursement services.	R B	2 2
	Total		8

The office will provide the specific PSFAs defined below:

1. All resource allocation activities conducted by the Area.

2. Management controls of funds under Area control; responds to and provides data for annual agency audit.

3. Research and prepare routine, ad hoc, and special financial reports, prepare and reconcile Operating Resources Detail, and status reports for Area and Co-Signers. This includes providing Co-Signers with information necessary to manage the PSFAs they have assumed under their FAs and information necessary to negotiate those agreements.

4. Preparation and submittal of annual spending plan and budget/information to IHS for compacting and contracting Tribes and remaining AANHS/IHS activity.

5. Process financial documents for payment by U.S. Treasury, including payments related to continuing federal contracts in support of Tribally operated programs.

6. Process payroll for 490 federal (includes 190 IPA & 300 MOA) employees; maintain current position database for same; provide quarterly manpower reports to all Alaska locations using federal employees. Process and track all personnel actions.

7. Coordinate with Area OTP to allocate funding, initiate funding documents and assists Co-Signers and contractors to maintain accurate records of funding allocations, reconciliations and cash management issues.

8. Reconciliation, billing and amendment management related to contractor and compactor use of federal resources including but not limited to IPA/MOA employees and the Village Built Clinic lease program. Reconciliation includes transaction verification of buyback services with corrections and reports.

9. Support withhold and buyback management including payment for continuing government contracts for goods and services, permanent change of station moves, etc.

10. Monthly general ledger reconciliation including cash management related to Prompt Pay Act, Treasury, cash and others.

11. Process reimbursement requests including Beneficiary Medical Program (BMP), Interagency Payment and Collections (IPAC), quarters collections, CHEF and others. Make deposits and transfers of such reimbursements to Co-Signers no less often than monthly.

12. Assist Tribes during annual Budget Formulation for the second succeeding year's annual budget, including preparation for the National Budget Formulation meeting.

E. OFFICE OF HUMAN RESOURCES

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional	Staffing (FTE)
Civil Service Staffing, Classification & Employee/ Labor Relations	Advertise and recruit for federal, direct and IPA/MOA replacements; process personnel and pay actions; provide job information; maintain official records; rate applicants, appoint new employees, and provide HR consultation; Title 38 and Physician's Comparability Allowance, Market Pay & Locality Pay maintenance; process Reduction in Force and counseling; provides transportation services and relocation assistance for federal employees and consultation re: Tribal direct hires as requested; administers Workers' Compensation program; grievances, discipline/adverse actions; Merit Systems Protection Board, appeals and agency representation; performance management; retirements; payroll; benefits; outside activities; ethics program; suitability adjudication; manage Federal Employee Assistance program and Family Medical Leave and Family Friendly Acts consultation; conducts desk audits; applies Classification Standards and consultation. Initiate and assure completion of suitability investigations as needed on federal employees and personal services contractors.	R T	2 0
	Total		2

Under the direction of the IHS Western Region Human Resources Director, the Office of Human Resources will provide the specific PSFAs defined below for the current approximately 430 federal employees employed either directly or through Civil Service IPAs (130) or Commissioned Corps MOAs (300):

1. Advertise and recruit for direct federal employees. Replacement IPA positions may. be filled with a current IPA already on board (such as by reassignment) or a new or replacement MOA. Process Reductions In Force (RIF). Provide counseling on RIF.

2. Maintain official personnel files (electronic and paper) and records for Civil Service employees.

3. Manage employee relations including performance management; employee benefit programs (retirement counseling and calculations, etc.); Worker's Compensation; incentive awards; ethics and conduct; suitability adjudications; Merit Systems Protection Board (MSPB) representation; third party representation; Employee Assistance Program; Family Medical Leave Act (FMLA) consultation; and Labor Relations.

4. Counsel Civil Service employees.

5. Administer performance management program for non-IPA/MOA Civil Service employees.

6. Director performs proposing federal official function in progressive disciplinary actions on federal IPA employees.

7. Process personnel actions for Civil Service employees.

8. Process payroll, including assisting timekeepers and assuring transmission of payroll for all Civil Service employees.

9. Correct pay and leave errors.

10. Manage federal classification system. Provide consultation on same.

11. Issue government Personal Identification Verification (PIV) Smart cards for Area Office employees and for those IPA/MOAs who need access to federal facilities or ITAS as Timekeepers or Leave Approving Officials. Proof of federal employment will be given to those IPA employees who do not receive a PIV Smart card.

12. Provide, on request, consultation on employee relation issues to Co-Signer.

13. Maintain database on IPAs and MOAs and provide to Co-Signer no less than quarterly.

14. Provide, on request, general consultation and support on Co-Signer personnel issues (travel outside Anchorage to provide requested on-site consultation will be at expense of Co-Signer).

15. Provide transportation services and relocation assistance for federal employees.

16. Coordinate arrangements for volunteer health provider services for Co-Signers.

17. Provide assistance in managing employee absences due to on the job injuries (worker's compensation) to minimize the impact on Co-Signers.

18. Initiate and assure completion of suitability investigations as needed on federal employees and personal services contractors.

19. Implement Alaska Area responsibilities set forth in the IHS Succession Plan.

20. Implement Alaska Area responsibilities related to IHS Development of Human Capital Initiative.

F. COMMISSIONED CORPS PERSONNEL[3/]

P/S/F/A	MAJOR FUNCTIONS	Buyback	Staffing (FTE)
Commissioned Corps Personnel	Orient and assist officers and their families to include: recruitment support, liaison between areas, TRICARE advice, wage verifications, grievances, leave programs, COERs and COSTEP. As necessary, Corps-specific personnel discipline advice to CEOs and HR staff of 638 awardees with MOA assignees and supervisors of MOAs.	B	2
	Total		2

Under the direction of the IHS Division of Commissioned Personnel Support, the Commissioned Corps Personnel component will provide the specific PSFAs defined below for the approximately 300 USPHS Commissioned Officers in the Alaska Area:

1. Provide general orientation to new Commissioned Officers.
2. Counsel Commissioned Officers; provide Corps-specific discipline advice to appropriate Co-Signer managers.
3. Maintain unofficial files and records for Commissioned Officers.
4. Process required federal personnel actions for Commissioned Officers including orders for deployment.
5. Assist and consult with officers and their supervisors.

G. OFFICE OF TRIBAL PROGRAMS

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional	Staffing (FTE)
Director	Management of Area Title V responsibilities for Self-Governance and Title I review, approval and technical assistance. Managing CHEF submissions, and fund distribution; clerical and secretarial support.	T	1
Health Care (Management) Consultation	Technical support of P.L. 93-638 Title I contracts, Title V compacts/FAs (including amendments and database management of same), cooperative agreements, and grants; negotiate and administer CSC funds.	T	3
	Total		4

The Office will provide the specific PSFAs defined below:

1. Provide or facilitate technical assistance to Tribes which may or may not lead to the preparation of proposal(s) to assume PSFAs for Title I contracting, Title V compacting and Tribal Management grants for Tribes and Tribal organizations
2. Evaluate P.L. 93-638 proposal(s) to determine acceptance, declination or rejection; if the Title I proposal is accepted, serve as the contract designated federal official (project officer) for the award (currently 14 Title I contracts). In the case of declination or rejection, further technical assistance will be offered to overcome declination or rejection.

3 During FY 2005 this PSFA was centralized under the Division of Commissioned Personnel Support at IHS Headquarters. Effective FY 2006, it is funded by assessing the locations that use Commissioned Officers. See, also, Appendix A.

3. Analyze and negotiate Contract Support Costs (CSC) for start up and ongoing direct and indirect-type CSC requests, and the maintenance of CSC records in support of Area-wide CSC needs in accord with IHS policy. Currently records are maintained for 39 Alaska awardees. The office will continue to administer the CSC funds (Indian Self-Determination Fund start-up, direct and indirect administrative cost funds). Allocation plans and funding applications will be developed, maintained and negotiated on behalf of Tribes and Tribal organizations. The office will continue to develop and maintain the Alaska Area Tribal database for the CSC fund, which clearly documents, for IHS and Congress, Tribal shortfall and start-up needs.

4. Support and clearance of submissions of CHEF requests to the national CHEF pool, unless a lawful alternative methodology is developed enabling direct submission by Tribal health programs participating in the CHEF program. More specifically this includes education and technical assistance on the process for requesting reimbursement and the maintenance of records on submittals, reimbursements, cancellations and supplemental requests. In FY 2012, the Alaska Area received in excess of $5.1 million in CHEF reimbursements.

5. Prepare Title V FA amendments at the request of Co-Signer, upon notification of change in funding, or as negotiated.

6. Provide information to Tribes on any proposed changes to the CHS fiscal intermediary contract, and advocates for revisions requested by Tribes.

Appendix D

FY 2008 Buyback/Withhold Agreement

Appendix D
Buyback/Withhold Agreement
between
the Indian Health Service
and
Arctic Slope Native Association

Section 1. Generally. Pursuant to Section 5.3 of the Funding Agreement between Certain Alaska Native Tribes Served by Arctic Slope Native Association (hereinafter "ASNA") and the Secretary of the Department of Health and Human Services of the United States of America (hereinafter "Secretary"), ASNA has determined that it wishes to carry out its responsibility to provide certain programs, activities, functions or services (e.g. salaries of IPA/MOA employees, and Village Built Clinics Program) included in its Funding Agreement utilizing services, personnel or other resources of the Federal Government, (hereinafter "services") under Article V, section 22 of the Compact, as permitted by law. These services may include some that are expected to be used throughout the year and some incidental services to be identified by ASNA on an as needed basis, and provided by the Indian Health Service (hereinafter "IHS") when IHS has the capacity to do so. The cost of providing the purchased services to ASNA shall be determined under section 2 below. ASNA's purchase of services is contingent upon the availability of IHS resources to provide those services. In addition, services must be paid for in advance, in order to avoid violation of the Anti-Deficiency Act and are subject to full cost recovery in accord with 25 USC 458aaa-7(f) and 31 USC 9701.

Section 2. Determination of Cost.

2.1 Generally. ASNA may acquire services from the IHS by either providing for full year withhold (with appropriate reconciliation) under terms agreed upon in this funding agreement, in which case the administrative surcharge provided for under section 2.2.4 shall not apply. In the alternative, ASNA may acquire services by authorizing partial year withhold amounts, as provided for in section 2.2, in which case the payment schedule and administrative surcharge provided for in section 2.2.4 shall apply. Whether full or partial year withhold is authorized, the full costs of IPA/MOAs including those detailed in section 2.3, Determination of IPA/MOA Costs, shall be paid by ASNA.

2.2 Conditions for Partial Year Withhold and Buyback.

2.2.1 IPA/MOA.

2.2.1.1 Advance withhold. The funds for IPA/MOA salary and other costs detailed in section 2.3, "Determination of IPA/MOA Costs," will be paid as a lump sum in accord with Section 5(a) of the Funding Agreement, except that an amount equal to three monthly payments based on the initial mutually agreed upon estimate of the annual IPA/MOA salary costs and related surcharges, as provided in section 2.2.4, will be withheld and retained by the Indian Health Service pending final disbursement for the last three months of the fiscal year as provided in section 3.2.2.2.

2.2.1.2 Late Payment Provision. Except as provided in section 3.4, failure to make payment in full by the Default Date will result in action by the IHS to RIF or redeploy federal employees assigned to ASNA.

2.2.2 Village Built Clinics.

2.2.2.1 Advance Withhold. To ensure that sufficient funds are available to meet contract obligations, an amount equal to three monthly payments based on the initial mutually agreed upon estimate of the annual Village Built Clinic costs and related estimated surcharges, as provided in section 2.2.4, will be withheld and retained by the Indian Health Service pending final disbursement for the last three months of the fiscal year as provided in section 3.2.2.2.

2.2.2.2 Late Payment Provision. Except as provided in section 3.4, failure to make payment in full by the Default Date will result in action by the IHS to terminate the village based clinic leases.

2.2.3 Other Services.

2.2.3.1 Advance Withhold. An amount equal to one monthly payment based on the initial mutually agreed upon estimate of the annual cost of other services ASNA proposes to purchase from the IHS and related estimated surcharges, as provided in section 2.2.4, will be withheld and retained by the Indian Health Service pending final disbursement for the last month of the fiscal year as provided in section 3.2.2.2.

2.2.3.2 Incidental Services. Nothing herein shall prevent ASNA from negotiating to purchase incidental services from the IHS throughout the year, without regard to an advance withhold. Such incidental services may include medical record storage, costs associated with disposal of excess governmental property held by ASNA and costs associated with acquiring excess property from the Department of Defense. Agreements for purchase of incidental services must specify the method and timing of payment by ASNA.

2.2.3.3 Late Payment Provision. Except as provided in section 3.4, failure to make payment in full by the Default Date will result in action by the IHS to terminate the services for which payment has not been made.

2.2.4 Administrative Surcharge. An administrative surcharge in a percentage set forth in Section 5.3 of the Funding Agreement shall be imposed on the charges for the services delivered by the IHS to ASNA under the partial year withhold and buyback provisions of section 2.2. This surcharge will not be imposed on purchases for which a full year's estimated withhold is authorized. The administrative surcharge will be estimated based on the estimated annual purchase price and will be accounted for and reconciled under section 3.3.2.

2.2.5 No Other Charges. Except as provided in this section 2.2, there shall be no additional overhead, user or administrative charges or assessments for providing

services to ASNA.

2.3 Determination of IPA/MOA Costs.

2.3.1 List of Costs. It is agreed by the parties that the entire cost of IPA/MOA assignments, including costs associated with the initiation, maintenance, and termination of the assignments are the responsibility of ASNA. The IHS must be reimbursed for all such costs which include but are not limited to the following:

2.3.1.1 Permanent change of station costs including the cost of moving replacement IPAs from the lower forty-eight to Alaska and the cost of moving IPA employees who separate back to the lower forty-eight.

2.3.1.2 Recruitment, relocation and retention bonuses if such funds are necessary to attract or retain employees.

2.3.1.3 Severance pay for employees who are released by ASNA and separated without cause.

2.3.1.4 Payment of turnaround leave travel expenses. All individuals who are eligible for these expenses shall be identified in the IPA negotiated between the parties. The IHS will retain liability for existing IPAs. ASNA assumes the liability for new IPAs and upon renewal of an existing IPA.

2.3.1.5 Lump sum leave payments for employees who leave federal service. All leave accrued prior to the employee becoming employed by ASNA shall be identified in the IPA/MOA negotiated between the parties. The liability for accrued leave on existing, renewing, and new IPA/MOAs shall be the responsibility of ASNA.

2.3.1.6 Costs associated with settling or resolving employment related disputes, subject to the terms specified in section 2.3.2 below.

2.3.1.7 Centrally paid expenses, subject to the terms specified in section 2.3.3 below.

2.3.1.8 The cost of paying unemployment benefits assessed to the Area in FY 2002 and thereafter on behalf of an employee who was employed by ASNA under an IPA immediately prior to voluntary or involuntary separation from IHS regardless of the year in which unemployment benefits were paid. The ASNA is not responsible for unemployment costs that were assessed to the Area in Fiscal Years 2000 and 2001.

2.3.2 Costs Related to Employment Related Disputes.

2.3.2.1 Responsibilities of the IHS. The Indian Health Service shall be responsible for the payment of all costs of the IHS Office of Human Resources and any other section of the Indian Health Service, the Office of General Counsel, and the Department of Health and Human Services associated with the processing, settlement or other resolution of

employment actions such as disciplinary actions, grievances, or appeals to the Merit System Protection Board and/or the Equal Employment Opportunity Commission; and matters arising under the Federal Labor Relations Act or any other law permitting the employee to appeal from such actions initiated by Federal employees assigned to a Co-Signer under an IPA or MOA. The IHS may pay for or recover these costs as described under section 2.3.2.3, Sharing in Costs of IPA/MOA Employment Related Disputes, to the extent permitted under section 2.3.2.2.

2.3.2.2 Employee Disputes Costs Chargeable to Co-Signers. The IHS may pay for or recover costs associated with processing, settlement or other resolution of employment related disputes listed in paragraph 2.3.2.2.1 of this subsection under the following conditions:

2.3.2.2.1 Only costs associated with covered disputes that arose from conduct, performance or other circumstances alleged to have occurred during the course of an employee's assignment to a Co-Signer may be assessed under section 2.3.2.3.

2.3.2.2.2 Costs which may be assessed under section 2.3.2.3, Sharing in Costs of IPA/MOA Employment Related Disputes, may include, but are not limited to, awards of back pay, compensatory damages, attorney fees, travel costs necessary to investigate the case and represent the IHS at hearings or in other proceedings during the appeal process, costs of obtaining and preserving witness testimony, and other similar costs incurred as a result of the IHS defending itself in these matters.

2.3.2.2.3 No salary costs of IHS, Office of General Counsel or Department of Health and Human Service employees may be assessed or recovered under section 2.3.2.3. Nor may any other cost of these proceedings be charged if such costs have ordinarily been paid from funds identified by the IHS as residual or restricted at Headquarters or the Area Office.

2.3.2.3 Sharing in Costs of IPA/MOA Employment Related Disputes. All costs of the IHS related to IPA/MOAs for which Co-Signers are responsible under section 2.3, "Determination of IPA/MOA Costs," are the responsibility of the individual Co-Signer to whom the IPA/MOA is assigned, except as provided in this paragraph. ASNA agrees to share with other Co-Signers the costs and risks described in the above section 2.3.2.2, "Employee Disputes Costs Chargeable to Co-Signers" by agreeing to accept a share of the cost not to exceed $75 per assigned IPA/MOA per separate employment action. The purposes of sharing these costs are to simultaneously ensure that IHS recovers the full costs associated with employment related disputes involving IPA/MOAs, minimize the financial risk for individual Co-Signers, and minimize the accounting and administration caused by certain categories of costs. The IHS may use funds assessed under this paragraph only as provided in section 2.3.2.2. The amount assessed each Co-Signer shall be a percentage calculated based on the number of IPAs and MOAs the Co-Signer has assigned to it. All costs assessed under this paragraph will be reconciled with each contributing Co-Signer, as provided under section 3.3, and a separate report will be provided to all ATHC Co-Signers.

2.3.3 Costs Related to IPA/MOA Centrally Paid Expenses. Certain costs associated with IPA and MOA employees are paid centrally by Headquarters from Area funds.

These include costs detailed in columns 6, 7, and 8 of the spreadsheet entitled "Allocation of Centrally Paid Expenses (Excluding FTS)," Corrected May 11, 1998, that was prepared by David Mather. These are costs associated with Commissioned Corps, Personnel and Payroll, and Balance of Human Resources. The Alaska Area Native Health Service may pay for or recover assessments from Headquarters to cover these identified costs by including in the monthly charge for each IPA or MOA the monthly cost to the IHS of such Centrally Paid Expenses. The cost charged ASNA for each IPA/MOA may not exceed the average cost per federal employee actually paid by IHS. For purposes of calculating the initial withhold amount and estimated monthly payments, the estimated average cost per month for each IPA or MOA is shown in Appendix A of the Funding Agreement.

2.4 Limitation on Obligations and Notice.

2.4.1 Obligations. IHS shall within 30 days provide notice to ASNA of the best available estimate of the costs that may be incurred under this Agreement of leases, contracts, salaries and related expenses and permanent change of station.

2.4.2 Content of Notices of Best Available Estimates and Costs. Notice of best available estimates under section 2.4.1 and full accounting of all costs due under section 3.3.1 shall include the amount, vendor and reason for obligation or expenditure, including the name of the employee, if any.

Section 3. Method of Payment.

3.1 Full Year Withhold. Payment for services being purchased from the IHS may be made by ASNA authorizing a withhold of the full year's initial mutually agreed upon estimate of the annual cost of each category of services ASNA proposes to purchase from the IHS. In such case, no monthly payments are due from ASNA. Upon periodic reconciliation, provided for under section 3.3.1, excess withheld funds will be paid by the IHS to ASNA and adjustments in the amount of withhold or payments needed to pay for all services ASNA has purchased, or proposes to purchase, will be made to the IHS by ASNA. *See* "Summary of Withhold/Buyback" page of Appendix A for calculation of the amount ASNA hereby authorizes for full year withhold, if any.

3.2 Purchases through Buyback under section 2.2.

3.2.1 Calculations.

3.2.1.1 Of Initial Estimated Monthly Payment. The initial estimated monthly payment is determined by estimating the annual cost of services to be purchased from IHS, including the surcharge on all services under section 2.2.4, and dividing by 12. *See* "Summary of Withhold/Buyback" page of Appendix A for calculation of the amount of the initial estimated monthly payment.

3.2.1.2 Of Total Withhold Amount. A Co-Signer purchasing services through buyback authorizes withhold of an amount equal to the Advance Withhold under paragraphs 2.2.1.1, 2.2.2.1 and 2.2.3.1 of section 2.2 for each category of service being

purchased, plus an amount equal to one month of the initial estimated monthly payment for each category of service being purchased (to cover the estimate for services to be provided in October). *See* "Summary of Withhold/Buyback" page of Appendix A for calculation of the amount ASNA hereby authorizes to be withheld.

3.2.2 Payment Schedule.

3.2.2.1 First Payment. The initial estimated monthly payment is due and payable on the first day of November or the first day of the month following payment to ASNA of its lump sum payment, whichever is later, in which case the IHS shall reduce the lump sum payment by the authorized withhold plus the initial estimated monthly payments for each month preceding the first month for which a payment is due from ASNA for which a payment was not withheld. (This provision is intended to address delays caused in making the lump sum payment to ASNA due to Congress authorizing continuing resolutions or other delays in making lump sum payments to ASNA.)

3.2.2.2 Subsequent Estimated Monthly Payments. Subsequent payments are due and payable on the first day of each month, until the final months of the year intended to be covered by the Advance Withhold amount applicable to the category of services, as set forth in section 2.2. (For example, the last three months of payments for IPA/MOAs would come from the Advance Withhold amount, while only the last one month of payment for Other Services would come from the Advance Withhold amount.)

3.2.2.3 Default Date. If a payment is not received by the 10th day of the month in which it is due (or the first working day thereafter if the 10th day falls on a week-end or Federal holiday), the IHS will implement the late payment provisions for each category of service as provided under paragraphs 2.2.1.2, 2.2.2.2, and 2.2.3.3. This date shall be referred to throughout this section as "Default Date."

3.3 Reconciliation and Adjustment.

3.3.1 For Categories of Service. Full accounting of all costs for each category of service, whether purchased through full year withhold or buyback, will be provided to ASNA within 45 days of the end of each month. Reconciliation of payments made to IHS compared to actual costs for the first three quarters of the fiscal year will be provided quarterly within 45 days of the end of each quarter. Reconciliation of payments made to IHS compared to actual costs for the last quarter of the fiscal year will be provided within 60 days of the end of the last quarter. At the end of each of the first three quarters, the IHS and ASNA will review the expenses for the preceding quarters. The monthly estimated payment due, or the full year withhold amount, for the balance of the fiscal year will be adjusted accordingly to account for any over or under collections in order to project a zero balance at the end of the fiscal year. Within 30 days after the final end-of-year reconciliation is provided to ASNA, any over recovery by the IHS must be returned to ASNA and within 30 days after the final end-of-year reconciliation is due any under recovery must be paid by ASNA.

3.3.2 For Administrative Surcharge.

3.3.2.1 Use and Rebate. The administrative surcharge shall be used exclusively for administration of the buyback provisions under this Buyback/Withholding Agreement. All income from the administrative surcharge will be accounted for separately and compared on an annual basis to the cost of administering buyback at the Area Office. This accounting and reconciliation shall be complete within 60 days of the end of the last day of the fiscal year. Any surplus in administrative surcharges shall be returned to the Co-Signers who participated in the buyback option on a pro rata basis depending on the amount of administrative surcharge paid.

3.3.3 Adjustment in Estimated Monthly Payment. In addition to adjustments in estimated payments that may occur under sections 3.3.1 and 3.3.2.1, the parties may at any time mutually agree, based on a change in circumstances, to change the estimated monthly payment due from ASNA.

3.4 Use of Other Funds Due ASNA to Avoid Default or Satisfy Obligations to IHS and other Remedies.

3.4.1 Avoiding Default. Default may be avoided to the extent funds are held by the IHS from other funds due to ASNA, which may be withheld to satisfy the amount of the payment, which would otherwise be in default or to satisfy amounts due IHS after reconciliation of costs and payments when an amount is due to IHS.

3.4.2 Recoupment. Any amount due to the IHS by reason of ASNA's failure to pay in full all amounts owing under the buyback provisions of the Funding Agreement for the immediately preceding fiscal year shall be recouped by the IHS from any funds due to ASNA under this funding agreement.

3.4.3 Full Year Withhold as Penalty for Default. Notwithstanding any other provision of this Buyback/Withholding Agreement, the IHS may require "full year withhold" as permitted herein as a condition of permitting a Co-Signer who was in arrears at the end of the immediately preceding fiscal year to buyback services from the IHS under the terms of this Agreement.

Section 4. Dispute Resolution. The parties shall endeavor to resolve any disputes concerning amounts due by ASNA under this Agreement in a manner agreeable to ASNA and to the IHS. In the event of a failure to reach agreement on the resolution of any such dispute, ASNA may, after providing written notice to the IHS, choose not to include the disputed amount in any subsequent payment due. Payment in such a manner shall not be considered as a resolution of the dispute. The parties shall thereafter attempt to resolve the dispute through Alternative Dispute Resolution following, as appropriate, the principles and processes set forth in Executive Order 12988 signed by President Clinton on February 5, 1996, and made effective as of May 5, 1996. ASNA shall have the option of resolving the dispute in accordance with Article II, Section 10 of the Compact.

Section 5. Effective Date. This Buyback/Withholding Agreement shall become effective on October 1, 2007, and shall remain in effect pursuant to section 5.3 of the Funding Agreement.

FY 2018 Facilities List

ARCTIC SLOPE NATIVE ASSOCIATION, LTD.
FY 2018 FUNDING AGREEMENT
APPENDIX E

List of Facilities and Locations
Effective as of October 1, 2017

This non-exhaustive list of Tribal Facilities and Locations identifies the sites where ASNA owns, leases, occupies, or otherwise uses real or personal property to carry out its responsibilities under the Alaska Tribal Health Compact and its Funding Agreement. Each description of facilities and locations is intended to include surrounding and adjacent grounds.

1. Arctic Slope Native Association Administrative Facility
2. Samuel Simmonds Memorial Hospital campus located on Agvik Street
    a. Hospital Facility
    b. Griest Building
    c. Old Housing Quarters
    d. New Housing Quarters
    e. Generator Building
    f. 401 Maintenance and Storage Building
    g. Auto Shop
3. Other Administrative, Program, Project, and Field Office locations including, but not limited to:
    a. Bunkhouses and Other Temporary Housing
    b. Tribal, Federal, Regional, or Local Community-Based Education, Child Care, or Public Health Facilities
    c. Information Technology or Telehealth Locations
    d. Project Offices, Both Temporary and Permanent
4. Samuel Simmonds Memorial Hospital Campus located on Uula Street
    a. Hospital Facility
    b. Temporary or Permanent Storage Facilities
    c. Project Offices, Temporary or Permanent
5. Shops, Yards, Staging Areas, Storage, Supply, and Parking Facilities and Locations including, but not limited to:
    a. South Pad Warehouse and Surrounding Staging Areas
    b. Construction and Expansion Sites
6. Quarters for Employee Housing, both on campus and off campus, both rented and owned
7. Residential Structures under construction for employee housing
8. Education, Training, and Public Outreach Facilities and Locations including, but not limited to:
    a. Training Locations
    b. Recruiting Locations
    c. Health Fairs
    d. Village Clinics
    e. Schools
    f. Community Buildings
    g. Locations in which support services to patients are delivered

9. Prematernal Home, 274 Pisokak Street
10. Assisted Living Facility, 5452 Northstar Street

Certification for New/Replaced/Added Space

IHS Area: Alaska

Certification for New /Replaced/Added Space
Agency-Related Program Space

Inclusion Criteria: Having space in use by IHS-funded health programs under PL 93-638 and primarily used by IHS-funded staff.

1)	Tribe or Tribal Organization:	

Check one

☐ NEWLY ACQUIRED BUILDING
Not replacing or adding to a building already in the M&I/Equipment database.

☐ REPLACED EXISTING BUILDING
Replacing a building already In the M&I/Equipment dalabase. At the end of this form identify the existing building that was/is being replaced. Describe new building below.

☐ ADDED SPACE TO EXISTING BUILDING
Adding space to building already in the M&I/Equipment database. At the end of this form, Identify existing building being added to. Include only increased amount of space below.

Describe the space proposed to be added into the M&I/E Inventory. For additions to existing buildings, only include the additional space here. Existing building will be identified at the end.

2)	Identification of building meeting inclusion criteria above (name, number etc). Write In "ADDITION" when applicable.		
3)	Location of building (city, state, etc). Leave blank for additions.		
4)	Ownership of building (tribe, private, other). Include lease/rental type where applicable.		
5)	Building construction type. Choose from: trailer. fire resistant, masonry with wood, wood frame.		
6)	Gross square meters of addition or entire building. as applicable.		gsm
7)	Gross square meters or-actual space in use by IHS-funded health programs under PL 93-638 and primarily used by IHS-funded staff.		gsm
8)	Annual average hours of use per week by IHS-funded health programs under PL 93-638 and primarily used by IHS-funded staff.		gsm
9)	Maintenance and repair funds currently provided under contract budget, either specifically or part of rental/lease payments.		$

This form is for buildings not required to be in the official IHS/GSA real property inventory. 2/5/99

10)	Briefly describe below the health services provided under the PL 93-638 contract:

Checklist of certifications to attach for space proposed to be added into the M&I/E Inventory.

	BUILDING CODES and STRUCTURAL Attach Certificate of Occupancy or other evidence of meeting national building codes, satisfactory structural condition, and safety. standards.	Cost to bring to Standard:	$

	SEISMIC (EARTHQUAKE) Attach seismic survey if applicable; Otherwise, provide basis for exemption..	Cost to bring to Standard:	$

	ENVIRONMENTAL Attach environmental assessment, Including of land.	Cost to bring to Standard:	$

	AS-BUILT SCALE DRAWING Attach as-built scaled drawing. Use metric units and scale.	Cost to bring to Standard:	$

Certified by:	Date:

Final Real Property Closeout and

Interim Real Property Status Report

TRIBE/TRIBAL ORGANIZATION LETTERHEAD

(SAMPLE FOR ILLUSTRATIVE PURPOSES ONLY-Site, Cost & descriptive items are fictional)

DATE:

FROM: _____Health Corporation
Facilities Manager

SUBJECT: _____ Hospital, _____, Alaska
PROJECT NO. AN2@@038H6, "*Project Name*".
FINAL REAL PROPERTY CLOSEOUT REPORT

TO: Area Realty Management Officer
Alaska Area Native Health Service

Through: ANTHC/DEHE Project Engineer _____

This Final Real Property Project Report provides an overview of the project summary, space allocation, appropriations, project milestones, and project costs including common costs and costs associated with land improvements, construction, equipment, and post-construction.

1. Project Summary

This project requested M&I funding to renovate the _____ Hospital's Information System Department computer room. Under this project, the computer room was expanded into adjacent space to meet the needs of computer equipment and new air conditioning equipment. A new UPS system was installed and sized to allow for anticipated growth of the department. The design of these modifications has already been accomplished through a contract with a mechanical engineering firm.

2. Space Allocation

Type of Space	Gross Sqft.	Gross SqM
No square footage was added during this project		
If Space is added, identify current building or provide new building description and use		
Total Space		

3. Appropriations (Total Revenue)

Appropriation Type	Amount
M&I Amount	$
Third Party Collections	$
Other Sources of Funds Identify: Tribe/TO Contributions (Attach Gifting Letter and Approval)	$
Sub-Total	$
Unused, held for future project	$
Total Appropriations	$

4. **Project Milestones/Timelines**

Milestone	Date Achieved
Project Start	
Facility Placed in Service	
Project Completed	
(List other milestones if applicable)	

5. **Common Costs (i.e., Costs for studies, A/E Designs, Site Selection, C/A, TERO, interest, legal, permits, printing, etc.)**

Description	Capitalized Amount	Expensed Amount
A/E Fees	$	$
Criteria Changes (describe below)	$	$
Total Common Costs	$	$

Identify Costs: _____

6. **Land Improvements (Costs associated with environmental, demolition, disposal, preparation, etc.)**

Description	Capitalized Amount	Expensed Amount
No land improvements	$	$
If included, describe actions below	$	$
	$	$
Total Land Improvement Cost	$	$

Identify Improvements: _____

7. **Buildings (Building Number and Description as identified in the IHS Real Property Inventory).** *Projects affecting multiple buildings and structures shall be listed separately with capitalized and expensed costs for each broken out and proportioned by percentage of common costs*

Building No.	Description	Percent of Common Costs
Building 00###		

8. **Other Structures (i.e. parking lots, sidewalks, roads, water systems, sanitary sewer, electrical system).** *Projects affecting multiple structures shall be listed separately with capitalized and expensed costs for each broken out and proportioned by percentage of common costs*

SUBJECT: _____ Hospital, _____, Alaska
PROJECT NO. AN2@@038H6, "*Project Name*"
INTERIM REAL PROPERTY STATUS REPORT

TO: Area Realty Management Officer
Alaska Area Native Health Service

Through: ANTHC/DEHE Project Engineer _____

This Interim Real Property Status Report provides an overview of the project summary, space allocation, appropriations, project milestones, and project costs including common costs and costs associated with land improvements, construction, equipment, and post-construction.

1. Project Summary

This project requested M&I funding to renovate the _____ Hospital's Information System Department computer room. Under this project, the computer room was expanded into adjacent space to meet the needs of computer equipment and new air conditioning equipment. A new UPS system was installed and sized to allow for anticipated growth of the department. The design of these modifications has already been accomplished through a contract with a mechanical engineering firm.

2. Space Allocation

Type of Space	Gross Sqft.	Gross SqM
No square footage was added during this project		
If Space is added, identify current building or provide new building description and use		
Total Space		

3. Appropriations (Total Revenue)

Appropriation Type	Amount
M&I Amount	$
Third Party Collections	$
Other Sources of Funds Identify: Tribe/TO Contributions (Attach Gifting Letter and Approval)	$
Sub-Total	$
Unused, held for future project	$
Total Appropriations	$

4. **Project Milestones/Timelines**

Milestone	Date Achieved
Project Start	
Facility Placed In Service	
Project Completed	
(List other milestones if applicable)	

5. **Common Costs (i.e., Costs for studies, A/E Designs, Site Selection, C/A, TERO, interest, legal, permits, printing, etc.)**

Description	Capitalized Amount	Expensed Amount
A/E Fees	$	$
Criteria Changes (describe below)	$	$
Total Common Costs	$	$

Identify Costs: _____

6. **Land Improvements (Costs associated with environmental, demolition, disposal, preparation, etc.)**

Description	Capitalized Amount	Expensed Amount
No land improvements	$	$
If included, describe actions below	$	$
	$	$
Total Land Improvement Cost	$	$

Identify Improvements: _____

7. **Buildings (Building Number and Description as identified in the IHS Real Property Inventory).** *Projects affecting multiple buildings and structures shall be listed separately with capitalized and expensed costs for each broken out and proportioned by percentage of common costs*

Project Summary Document

IV-1.
Policy #4*.
Project Summary Document Formats

Project Summary Documents describe projects being submitted to the MIRAC for funding from the maintenance & improvement funds (both competitive BEMAR funds and non-routine non-competitive Oklahoma Formula funds). Supporting documents to the PSD typically entail 100% design drawings (for projects requesting construction funds), construction cost estimates, product literature (for equipment specific PSDs), and contractor proposals or cost estimates.

A cover letter accompanies submitted PSDs, which affirms the organization's desire to submit these projects to the MIRAC for consideration.

The sections of the PSD are listed below.

PROJECT SUMMARY DOCUMENT

[Name of Project]
cility Priority Number] (use for multiple PSD submittals to prioritize your projects)
te]
acilities Board Project Number]
[Facility Name]
[Location], [State]

I. SUMMARY

[Summarize the project and include what is to be done, why (e.g., to add 135 gross square meters of space or replace a boiler), and the type of funding (e.g., Maintenance and Improvement, Quarters, Corporate Cost Sharing, etc.). This section should be no more than two paragraphs. Use attachments for project location maps and facility drawings.]

II. PROJECT SCOPE AND DESCRIPTION

A. Description of Project. [Provide a detailed explanation of the work to be accomplished by the project and the desired outcome of the project. Include all items reflected in the cost estimate. This information can be presented in bullet/list or narrative form.]

B. Project Justification. [Explain why the project is necessary. Link the justification to the developed Health Facilities Master Plan if appropriate. Discuss how the project will meet program needs, and how it will comply with legal, code, accreditation, and certification

* Sections of this policy modified by DEHE Staff to reflect formation of the MIRAC and for clarification of non-competitive project submittals.

requirements. Cite specific, code or JCAHO references by standard clause, chapter, paragraph, etc.]

III. DEFICIENCIES

The following deficiencies will be corrected as part of this project:

[List and describe only those facility deficiencies this project will address. The types of deficiencies include BEMAR, JCAHO, NFPA, HFPM, Public Law compliance items, ADA, etc.]

IV. COST ESTIMATE

Provide a budgetary cost estimate and the funding sources for the proposed project, including separate line items for design Architect/Engineer fees, project construction, construction contract administration fees, and project contingency.

V. PROJECT SCORE SHEET DOCUMENT (*only required for BEMAR competitive pool funds*)

Complete a project score sheet further detailing the scope, impact and benefits of this project. Provide the information required by the project score sheet.

VI. OTHER PROJECT ITEMS TO BE ADDRESSED

Supporting Documents: Drawings, Photos, Estimates, Etc.

Appendix F-5

Environmental Information and Documentation

ENVIRONMENTAL INFORMATION AND DOCUMENTATION

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

Considerations	Basis for Determination (Documentation)
1. Will the proposed action result in a known violation or continuance of a violation of applicable (Federal, Tribal, State or local) laws or requirements for protection of environment or public health and safety?	Yes or No. Explanation.
2. Will the proposed action result in a conflict with existing or proposed federal, Tribal, state, and local land use plans?	Yes or No. Explanation.
3. Is there a controversy with respect to environmental effects of the proposed action based on reasonable and substantial issues?	Yes or No. Explanation.
4. Is the proposed action significantly greater in scope than normal for the area or does it have significant unusual characteristics?	Yes or No. Explanation.
5. Does the proposed action establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

6. Does the proposed action have significant adverse direct or indirect effects on park land, other public lands, or areas of recognized scenic or recreational value?	Yes or No. Explanation.
7. Does the proposed action include construction of a new municipal solid waste landfill at a new solid waste disposal site?	Yes or No. Explanation.
8. Will the proposed action create a need for additional capacity at solid waste disposal facilities?	Yes or No. Explanation.
9. Does the proposed action include construction of a new wastewater treatment facility that will discharge treated sewage effluent to the waters of the U.S.	Yes or No. Explanation.
10. Will the proposed action create a need for additional capacity at wastewater treatment facilities?	Yes or No. Explanation.
11. Will the proposed action create a need for additional capacity in the drinking water supply?	Yes or No. Explanation.
12. Are there other considerations about the proposed action that could adversely affect the environment and/or public health and safety?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

13. Will the proposed action create a need for additional capacity in health care facilities and for health care services?	Yes or No. Explanation.
14. Will the proposed action create a need for additional energy supply or generation?	Yes or No. Explanation.
15. Will the proposed action create a need for additional capacity in educational facilities?	Yes or No. Explanation.
16. Will the proposed action create a need for additional capacity in transportation systems?	Yes or No. Explanation.
17.Historic Preservation: a. Does the proposed action involve the purchase, construction, alteration, renovation, or lease of a building or portion of a building that is more that 50 years old?	Yes or No. Explanation.
b. Will the proposed action adversely affect properties listed, or eligible for listing, on the National Register of Historic Places?	Yes or No. Explanation. or No

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

18. Endangered Species Act: Is the proposed action likely to adversely affect a plant or animal species listed on the Federal or applicable state list of endangered or threatened species or a specific critical habitat of an endangered or threatened species?	Yes or No. Explanation.
19. Will the proposed action require major sedimentation and erosion control measures?	Yes or No. Explanation.
20. Will the proposed action violate a storm water permit or a wastewater discharge permit either for construction or on-going operations?	Yes or No. Explanation.
21. Safe Drinking Water Act: Will the proposed action impact an EPA designated sole source aquifer?	Yes or No. Explanation.
22. Wetlands and Water Resources (lakes, rivers, ponds, streams, etc.): Will the proposed action violate a Section 404 (Clean Water Act) permit for actions in a wetland and/or Section 10 (Rivers and Harbors Act) permit for actions in a stream or river?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

23. Floodplains: a. Is the proposed action located in either a 100-year or, for critical actions, a 500-year floodplain? (If Flood Insurance Rate Maps do not exist for the project site, a floodplain survey or consultation may be required. Also may need to consider if the facility will require flood insurance).	Yes or No. Explanation.
b. Will the proposed action adversely impact flood flows in a floodplain or support development in a floodplain?	Yes or No. Explanation.
24. Existing site: Would the proposed action involve the purchase, construction or lease of new facilities (including portable facilities and trailers), substantially increase the capacity of an existing health care facility?	Yes or No. Explanation.
25. New site: Does the proposed action involve purchase, construction, or lease of new facilities (including portable facilities and trailers) where such action is for buildings equal to or more than 12,000 square feet (1080 square meters) of useable space when more than 5 acres (2 hectares) of surface land area are involved at a new site?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

26. New site: Does the proposed action involve purchase, construction, or lease of health care facilities (other than buildings) for projects equal to or more than 5 acres (2 hectares) of surface land area at a new site?	Yes or No. Explanation.
27. Does the proposed action involve the sale or transfer of real property, on which any hazardous substance was stored for one year or more, known to have been released, or disposed of? (Provide relevant documentation for any hazardous substance releases. See 40 CFR 373.2(b), 302.4, and 261.30 for reportable quantities.)	Yes or No. Explanation.
28. Does the proposed action involve the sale or transfer of real property, on which underground or above ground storage tanks are located?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

29. Will the proposed action violate Tribal, local, state, or federal law on the use and storage of hazardous substances or the transportation, storage, and disposal of hazardous wastes or medical wastes? (Activities that may generate reportable quantities include air conditioning repair and service, pesticide application, motor pools, automobile repair, welding, landscaping, agricultural activities, print shops, hospitals, clinics, & medical centers. Repair, renovation, or demolition activities can generate waste that has asbestos-containing materials, asbestos, lead-based paint, PCBs, CFCs, etc.)	Yes or No. Explanation.
30. Will the proposed action adversely affect community air pollution for a long period of time?	Yes or No. Explanation.
31. If the proposed action is implemented, will it have a disproportionately high and adverse human health or environmental impact on the Tribe, low-income populations, or minority populations?	Yes or No. Explanation.
32. Will the proposed action adversely affect community noise levels?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

33. Wilderness Act: Will the proposed action adversely impact a Wilderness Area?	Yes or No. Explanation.
34. Farmland Protection Policy Act: Will the proposed action convert significant agricultural lands to non-agricultural uses and exceed 160-point score on the farmland impact rating?	Yes or No. Explanation.
35. Coastal Zone Management Act: Will the proposed action directly affect a Coastal Zone in a manner inconsistent with the State Coastal Zone Management Plan?	Yes or No. Explanation.
36. Wild and Scenic Rivers Act: Will the proposed action affect a wild, scenic, or recreational river area or create conditions inconsistent with the character of the river? (A consideration for activities that are in or near any wild and scenic waterway including construction of stream/river crossings, intake structures, outfalls, etc.)	Yes or No. Explanation.

I certify that to the best of my knowledge and ability the information presented above is true and correct. The record was examined to identify potential extraordinary or exceptional circumstances which would require further environmental review.

	TOTAL BI-WEEKLY RENTAL RATE $

GENERAL TERMS AND CONDITIONS

The _____ (hereinafter called the "agency") hereby assigns to to _____ (hereinafter called the "occupant") government quarters described above.

Rent shall be $ _____ per month, as indicated above. If the occupant is an agency employee, rent shall be payable through salary deductions in accordance with Section 5911(c), Title 5, U.S. Code. If the occupant is not an agency employee, rent shall be payable to _____ by cash collection. The rent shall be subject to automatic periodic adjustments between rental surveys in accordance with the PHS Quarters Management Manual and OMB Circular A-45, utilizing the Department of Labor Rent Series of the Consumer Price Index as the annual rent multiplier. The occupant will be notified in writing at least 30 days in advance of the rent adjustment which shall become effective the first full pay period in February of each year. A new Quarters Assignment and Acceptance Agreement (PHS-6070A) will be required whenever rates are revised pursuant to a rental survey.

If the occupant is a Commissioned Corps member and quarters are adequate, neither rent nor charges for utilities shall be withheld from the officer's pay. When quarters have been designated inadequate public quarters, the total of the rental rate, plus charges for furniture and utilities (except telephone) will be adjusted, if required, so as not to exceed 75 percent of the member's basic allowance for quarters (OMB Circular A-45, revised).

Occupancy of the subject quarters shall begin on _____. If the occupant is an agency employee, occupancy shall end upon the expiration of the occupant's employment at this location, unless previously terminated at the option of either party upon 30-days written notice. If the occupant is not an agency employee, occupancy shall end on _____, unless previously terminated at the option of either party upon 30-days written notice.

The occupant:

1. agrees to keep the premises in a clean, sightly, and safe condition, and upon vacating, to leave the quarters in a clean and orderly condition.
2. agrees to assist and cooperate with the agency in the care and maintenance of the premises and to promptly notify the housing officer of any damage or need for repairs to the premises.
3. agrees to make no repairs, alterations, improvements or additions to the premises unless authorized in advance and in writing by the agency head or his/her delegated official. All alterations, improvements or additions so authorized and made shall become and remain the property of the United States.
4. agrees to repair at his/her expense, any damages to the premises resulting from the neglect of the occupant beyond reasonable wear and tear. These repairs may be made by the agency, at its option, and the costs will be reimbursed by the occupant through a cash payment or payroll deduction.
5. agrees that no business will be conducted on the premises unless authorized in advance and in writing by the agency head or his/her delegated official.
6. agrees to maintain the premises as a private residence for himself/herself and his/her legal dependents. The occupant agrees to neither sublet any part or portion of the premises to any person, nor allow any other person or persons to reside on the premises without the prior written consent and approval of the delegated official.
7. agrees to conduct himself/herself and assure that his/her family and guests conduct themselves in such a manner as not to interfere with agency operations at the installation.
8. agrees to permit the agency head, or his/her delegated official, to enter the premises in order to inspect, make repairs, or take such other action as may be reasonable or necessary. The agency shall give notice of intent to enter the premises as it deems reasonable and practical under the circumstances.
9. agrees to pay normal rent for quarters during temporary periods of absence. The occupant is responsible for rent, furnishings, and utility charges until such time as the unit is completely vacated and cleaned. Charges will continue until a PHS Quarters Termination Record (PHS-6070B) and Quarters Deficiency Checklist (PHS-6068-1) have been executed, signed, and any discrepancies resolved. The occupant must receive the above quarters clearances prior to release from service and final payment of salary.

This agreement is subject also to any additional Terms and Conditions applicable to the installation and its quarters as set forth on exhibit(s) _____ and _____, attached hereto and made a part thereof.

Appendix G

Actions Requiring IHS Environmental Review and Determination

APPENDIX G – Actions Requiring IHS Environmental Review and Determination

For actions outlined in the below table, which are to be undertaken by Arctic Slope Native Association, Ltd. (ASNA), ASNA shall submit a proposal package that includes a completed Project Summary Document (See Appendix F-4) and Environmental Information and Documentation Form (See Appendix F-5) to the IHS. Coordination time between ASNA and the IHS to complete the Environmental Review and Determination process varies for each group of actions. The timing provided below indicates the expected timeline to complete the process for each group of actions. Early coordination in the planning phase of a project between ASNA, IHS, and other stakeholders will help ensure environmental concerns are addressed in a timely manner and project delays are minimized so that IHS can complete its environmental responsibilities and issue a Determination Document as early as possible.

	Action	Expected Timelines
	Categorically excluded actions per Federal Register Vol. 58, No. 3, pg 571(I)(3), (I)(4), (I)(6), and (I)(7), dated January 6, 1993.	**The Environmental Review and Determination Process for this group of actions ranges from 45 to 90 days from the receipt by the IHS of the proposal package.***
☐	Pg 571 (I)(3): Building alteration or renovation that does not substantially change the function or general appearance of existing buildings.	
☐	Pg 571 (I)(4): Construction or lease of new facilities (including portable facilities and trailers) where such lease or construction: (a) is at the site of existing health care facility and the facility capacity is not substantially increased, (b) is for building of less than 12,000 square feet of useable space when less than five acres of surface land area are involved at a new site, or (c) is for projects other than buildings when less than five acres of surface land area are involved at a new site.	
☐	Pg 571 (I)(6): Acquisition of space by lease, use agreement, transfer, gift or similar arrangement for which: (a) the intended use of the space is consistent with the functional design of the building, and (b) the acquisition is consistent with an applicable master plan, if such plan exists.	
☐	Pg 571 (I)(7): The acquisition, sale, release, abandonment, closure or transfer of real property, provided the action: (a) is consistent with any applicable master plan, if such a plan exits, (b) conforms to local zoning and land use ordinances, if such ordinances exist, (c) is consistent with the functional design of the facility, (d) would not violate applicable Federal, State, or local environmental protection or historic preservation laws, and (e) satisfies the requirements of applicable comprehensive Environmental Response Compensation and Liability Act (CERCLA)section 120 (h) provisions.	
	Any normally categorically excluded actions that may have Extraordinary or Exceptional Circumstances per Federal Register Vol. 58, No. 3, pg 571-72(K), dated January 6, 1993.	**The Environmental Review and Determination Process for this group of actions ranges from 60 to 180 days from the receipt by the IHS of the proposal package.**
☐	Pg 571 (K)(1): Those with potential to change the existing environment where such change violates directives or other controls that are imposed by any governmental body having jurisdiction, for the purpose of protecting or otherwise affecting that environment;	
☐	Pg 571 (K)(2): Those with potential or real threat of violation, or continued violation, of an applicable Federal, State, or local law or requirement imposed for protection of the environment or to ensure public health and safety;	
☐	Pg 571 (K)(3): Those likely to cause controversy with respect to the types or extent of the resulting environmental effects where such controversy is based on pertinent and substantial issues;	

☐	Pg 571 (K)(4): Those involving the use of technology where the possible effects are highly uncertain or involve unique or unknown risks and where such technology has not been assessed previously for environmental impact;
☐	Pg 571 (K)(5): Those which have adverse effects on unique geographic characteristics (e.g. historic, archeological, or cultural resources, park recreation or refuge lands, wilderness, areas, wild or scenic rivers, sole or principal drinking water aquifers, prime farmlands, wetlands, floodplains, coastal management zones, or ecological or critical areas including those listed on the Department of Interior National Register of National landmarks);
☐	Pg 571 (K)(6): Those which establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects;
☐	Pg 571 (K)(7): Those which have adverse effects on properties listed or eligible for listing on the National Register of Historic Places;
☐	Pg 571 (K)(8): Those which have adverse effects on species listed by the Federal Government as Endangered or Threatened Species, or which have adverse effects on any designated critical habitat for these species;
☐	Pg 571 (K)(9): Those which require assessment in accordance with Executive Order 11988 (Floodplain Management), or Executive Order 11990 (Protection of Wetlands), or the Fish and Wildlife Coordination Act; and
☐	Pg 572 (K)(10): Those which involve the use, transfer, or lease of real property which has been determined, after investigation in accordance with the provisions of CERCLA 120 (h), to have been used as a storage facility for hazardous waste for more than 1 year; and
☐	Pg 572 (K)(11): Construction projects which are significantly greater in scope or size than normally experienced for a particular category of action.

Any action NOT categorically excluded per Federal Register Vol. 58, No. 3, pg 569-572, dated January 6, 1993 attached hereto.	**The Environmental Review and Determination Process for this group of actions ranges from 60 to 180 days from the receipt by the IHS of the proposal package.**

* The time needed to complete Environmental Reviews is highly dependent on required consultations with other Federal and State Agencies. As an example, the NHPA Section 106 Process requires the State Historic Preservation Officer (SHPO) be allotted 30 days to review and comment on a proposed action (36 CFR Part 800.3(c)(4)). Furthermore, additional time beyond the 30 days may be required for consultation with SHPO to adequately review and determine the effects of the proposed action on existing historical resources. Coordination early in the planning phase of the project can help identify these potential issues and allow ASNA and IHS to resolve them early.

Funding Agreement
between
Chickaloon Native Village
and
the Secretary of the Department of Health and Human Services
of the
United States of America
Fiscal Years 2023-2025

mis Funding Agreement is entered into by and between the Chickaloon Native Village and the Secretary of the Department of Health and Human Services r?lthe United States qf America. The Chickaloon Native Village has been authorized by resolution of'its Yi·aditional Council Io enter into this Funding Agreement and to be responsible for and cany out the terms of this Funding Agreement.

Section 1 - Obligations of the Indian Health Service.

1.1 Generally. Under the authority of Section 325 of P.L. I 05-83 and P.L. 93-638 as amended, non-residual programs, services, functions and activities ("PSFAs") of the Alaska Area Office and the Alaska Native Medical Center ("ANMC") have been transferred to tribal management.

Delivery of PSFAs shall be consistent with each Co-Signer's Funding Agreement. The Indian Health Service ("IHS") shall remain responsible for performing all federal residual PSFAs. lHS shall remain responsible for negotiating assurances with the Alaska Native Tribal Health Consortium ("ANTHC") and Southcentral Foundation ("SCF") on behalf of Alaska Natives and American Indians to the effect that Co-Signers continue to receive non-residual PSFAs from the ANMC and Area Office and provided by ANTHC and SCF at a minimum at the level that such PSFAs were provided by !HS as of October 1, 1997, to the extent permitted by Section 325 of P.L. I 05-83. To the extent authorized by federal law, IHS will respond to written Co-Signer concerns about the extent with which such assurances have not been complied and take appropriate action. IHS shall further be responsible for performing its responsibilities as provided in the Indian Health Care Improvement Act, the Indian Self-Determination and Education Assistance Act, as amended ("the Act"), and other applicable provisions of federal law.

This Funding Agreement obligates IHS to provide funding and services identified herein and as provided in the Alaska Tribal Health Compact ("Compact") between the Chickaloon Native Village ("Chickaloon") and certain other Co-Signers thereof and the United States in Fiscal Years 2023-2025.

Jn addition, although funds are provided from Headquarters and Area Office in support of this Compact, !HS will agree to continue to make available to Co-Signer, PSFAs from both Area Office and Headquarters unless I00 percent of the total tribal shares for these PSFAs have been specifically included in this Funding Agreement. In cases where a portion of tribal shares have been transferred, there may be some diminishment in the level of PSFAs provided by]HS. Fu1thermore, IHS will reorganize both Headquarters and the Area Office to continue to provide the remaining PSFAs, which have not been incl ucled in this Agreement, in the most effective and efficient manner possible, provided that decisions about the array and level of services to be offered by THS shall be made in consultation with Alaska Tribes. THS PSFAs not negotiated into or listed

in Appendix *A* will be the responsibility of IHS.[1] The "Memorandum of Agreement Describing the Continuing Services of lHS, Alaska Area Native Health Service" among the Co-Signers and the Alaska Area Native Health Service ("AANHS") reflects the understanding of the parties regarding services to be provided by the AANHS to Co-Signers. This document, attached as Appendix B, is hereby incorporated by reference.

Unless funds are specifically provided from Headquarters, Headquarters retains all PSFAs and Chickaloon wilI not be denied access to, or services from, Headquarters. Specifically, Chickaloon will receive the following services from IHS Headquarters:

1.1.1 Information Services. lHS will provide the full range of Office of Information Technology (OIT) national support to ANTHC and ANMC. OlT will provide specified services directly to Chickaloon. Tn addition, OTT will provide support to ANTHC to assist it to carry out its responsibility to provide day-to-day technical support, user support, distribution of software and files and other typical information technology support to Co-Signers as defined in the Assurances Appendix to the ANTHC funding agreement. Upon request of ANTHC, after good faith efforts to resolve Chickaloon's technical issue, Off's support of Chickaloon will include technical support needed on-site by Chickaloon. A list of the services due under this paragraph, with identification of the method of delivery, is shown below.

J.1.2 Access to Training and Technical Assistance. To the extent funds are retained by IHS, Chickaloon shall have access to training, continuing education, and technical assistance in the manner and to the same extent Chickaloon would have received such services if it were not a Self-Governance Co-Signer.

l.1.3 Intellectual Property. IHS, through contracts, grants, sub-grants, license agreements, or other agreements may have acquired rights or entered into license agreements directed to copyrighted material. Chickaloon may use, reproduce, publish, or allow others to use, reproduce, or publish such material only to the extent that lHS's contracts, grants, sub-grants, license agreements, or other agreements provide that IRS has the right to allow a tribe to do so and IHS determines that it will extend its rights to Chickaloon. Chickaloon's use of any such copyrighted material and licenses is limited to the scope of use defined in the agreements.

J.1.4 HIPAA Compliance. lHS retains the responsibility for complying with the Health lnsurance Portability and Accountability Act of 1996 (HIPAA) for retained IHS health care component activities.

1.2 Historical PSFAs. Chickaloon has historically received certain PSFAs from ANMC and AANHS. Responsibility for these PSFAs have been transfeJTed to ANTHC and SCF from IHS.

1.3 Community Health Aide Program Certification. IHS retains the responsibility, pursuant to Section 119 of the Indian Health Care Improvement Act, as amended, to maintain the II-IS Community Health Aide Program Certification Board (CHA PCB), which was established by and is under the direct control and supervision of IHS, to accredit training for and to certify community health aides, which includes Communjty Health Aides/Practitioners, Dental Health Aides, and Behavioral Health Aides/Practitioners as those terms are defined and used in the CHAPCB *Standardv and f'roced11res.*

1.4 Access to Federal Insurance. IHS will assist Chickaloon to obtain information about the coverage, rights and benefits available for its employees under chapters 87 and 89 of title 5, United States Code, the cost of such coverage, rights and benefits (including any options in coverage, rights and benefits that may be available), and the procedures by which Chickaloon may exercise its rights under Section 409 of the IHCIA, as amended, to have access to such Federal insurance for its employees.

Section 2 - Obligations of the Co-Signer. This Funding Agreement obligates Chickaloon, subject to the availability of funding, to be responsible for and to provide health

PSFAs utilizing the resources transferred under this Funding Agreement and other funds as they may become available to Chickaloon. This Funding Agreement further authorizes Chickaloon to consolidate and redesign PSFAs identified in Section 3 [Tribal Programs and Budget] as provided in the Indian Self-Determination and Education Assistance Act, as amended, and the Compact.

Section 3 - Tribal Programs and Budget. Chickaloon agrees, subject to the availability of f1mding, to administer, provide, and be responsible for the health PSFAs, directly and through contract health services and other purchased services, identified below in accordance with the Compact and this Funding Agreement. For the purposes of the Funding Agreement, Chickaloon's general budget categories consolidate related health PSFAs as described in this section, or as necessary to fully provide for the needs of persons served under this Funding Agreement. Chickaloon is committed to and will strive to provide quality health services and will strive to meet standards Chickaloon believes to be appropriate and applicable to the delivery of those health services.

Chickaloon Native Village health services programs have been designed and established to provide lHS beneficiaries with health service programs to address a wide variety of health and social service needs. Such services include, but are not limited to: prima1y health care services; public safety services; child and family advocacy services; assisting the community with health maintenance, interpretation, access and/or referral to other services; provision of health promotion and disease prevention services and educational opportunities; provision of substance abuse prevention, intervention, assessment, outpatient and after-care services; Tribal wellness activities; provision of counseling on a wide variety of concerns; provision of health office administrative duties; planning and implementation of an Electronic Health Records system; and provision of managerial support to the tribal office. This program has four goals which are: (I) to provide the services, (2) to manage the services, (3) to evaluate the services to monitor quality assurance, and (4) to report the outcomes of the services provided in efforts to meet the ever changing need(s) of the community. All programs are under the direction of the Tribal administration and the Chickaloon Village Traditional Council, which provides policy, administrative and executive direction. Chickaloon's wide range of services are provided and facilitated directly, and in cooperation with ANMC, ANTHC, SCF,_other Co-Signers, and Cook Inlet Tribal Council, including through field clinics, refen-al to ANMC, and other arrangements with Tribal health organizations. Any PSFA described in this section 3 [Tribal Programs and Budget] may be performed by any organizational unit of Chickaloon at Chickaloon 's direction.

Chickaloon is committed to and strives to provide quality health services in the community through advocacy, networking and collaborative efforts. As defined by the Chickaloon Village Traditional Council, Chickaloon and its staff may provide services in facilities and settings other than those controlled by Chickaloon. Informational, preventive, and educational services are disseminated through various mediums and include a variety of subjects to promote cultural pride, leadership, healthy lifestyles and life management skills. Employees may travel to various locations in the community to make presentations on such subjects to schools, public and private groups, and to participate in community-sponsored events.

3.1 Primary Health Care Services. Primary Health Care Services may include, but are not limited to:

3.1.J clinical outpatient services including, but not limited to, family practice, well baby exams, women's health services, health referral services, case management, medication management, and radiography;

3.1.2 setting up/scheduling appointments as needed or when needed for persons served at ANMC and other medical facilities and participating in discharge planning;

3.l.3 maintaining patient cha1ts/files documentation for Tribal program records, and referral efforts to physicians or specialty clinic personnel;

3.1.4 routine ground transportation services to facilitate access to healthcare services;

3.1.5 providing home visits, monitoring and other care to patients who cannot come to the village clinic, such as those who are chronically ill, elderly or infants;

3.J.6 providing integrated case management and patient referrals;

3.1.7 follow-up care for patients coming from hospitals or other treatment facilities;

3.1.8 interpreting prescriptions for patients, upon request;

3.1.9 provide referral and paperwork preparation assistance for access to other community health and social services resources, including, but not limited to, WIC, Food Stamp Office, Alaska Division of Public Assistance, Food Bank, Salvation Army, Catholic Social Services, Alaska Office of Children's Services, and other social services that can contribute to health status;

3.1.10 assist in care and treatment of substance abuse by providing assessments, interventions, referrals, outpatient monitoring, and after care compliance;

3.1.11 maintain a health clinic;

3.1.12 comprehensive services to raise dental health and lower the incidence of dental disease, including, but not limited to, general dentistry, dental hygiene, dental education;

3.1.13 services to reduce the incidence and prevalence of hearing loss, including education, diagnosis and treatment, including audiology clinics;

3.1.14 eye care services;

3.1.15 traditional, complementary and alternative medicine provides traditional healing services in coordination with existing western medicine services; and complementary and alternative patient care services demonstrated to be reasonably safe and effective and indicated for the patient's diagnosis or condition may be provided following a referral from a primary care provider (defined as an MD, DO, DDS, DMD, PA, or ANP);

3.1.16 provides or supports specialty clinics that may be provided by ANMC or other providers; and

3.1.17 engages in clinical quality assurance initiatives and clinical quality improvement efforts, and compliance activities.

3.2 Emergency Medical Services. Emergency Medical Services may include, but is not limited to:

3.2.1 when appropriate, coordinating treatment and care with physicians, other health care providers, and community EMS responders;

3.2.2 maintaining earthquake emergency supplies kit;

3.2.3 handling minor emergencies such as cuts, scrapes, burns, bee stings, slivers, etc.

3.3 Community Safety and Injury Prevention Services. Chickaloon provides community education, community safety patrols, and serves as a liaison with local, state and federal agencies directed al preventing intentional and non-intentional injury and death.

3.4 Public Health, Preventive Care and Health Education Services may include, but are not limited to, education and training about health promotion, disease and injury prevention, prenatal, postnatal, well baby, family planning, substance abuse treatment, mental health education, educational activities, health and wellness recreational and exercise activities, home visits, immunizations, blood pressure checks, oral health programs, and counseling. These health education services are coordinated with the related direct care programs offered by Chickaloon.

Chickaloon created a public health program in response to COVID-19 in order to perform contact tracing, engage in public health awareness and education, and to mitigate the spread of COVID-19 and other infectious diseases, such as by providing personal protective equipment and masks to the community.

Chickaloon also collaborates and coordinates with Tribal partners, and local, state, and federal agencies in response to COVID-19.

3.5 Behavioral Health includes:

3.5.1 Health promotion and education (including youth development services and programs, Tribal wellness and sobriety programs or activities, prevention of interpersonal violence, and environmental services); substance use disorder intervention (including services provided to beneficiaries referred by the courts); mental health disorder outreach and referrals; client advocacy and case management for services described in this Funding Agreement; crisis intervention; support services for individuals with severe mental illnesses, emotional disturbances, or substance abuse problems, psychiatric services and general mental health services.

3.5.2 Tribal Opioid Response services that provide outreach and referrals, client advocacy, and case management for services pertaining to substance misuse.

3.6 Wellness.

3.6.1 Generally. Chickaloon promotes the physical, mental and spiritual well-being of individuals, families and the Tribe through all of its programs. Chickaloon promotes healthy lifestyles through a number of community outreach activities, including health promotion and disease prevention events; promotion of cultural traditions, healthy relationships, sobriety, and self-sufficiency, wellness improvements (with emphasis on achieving and maintaining sobriety through a variety of methods and programs that include public education and training, support for positive community events, restorative justice and Tribal court improvements (includingjuvenile and drug court; support for Tribal empowerment and public safety; and case management and other services for individuals who have experienced conflict in the community because of substance abuse or behavioral health issues.

3.6.2 Environmental Health and Injury Prevention. Chickaloon provides environmental health, including, but not limited to, consultation, advocacy, facilitation, and

training regarding such matters as septic systems, landfills, identification, evaluation and control of biological, chemical and physical factors in the environment that may have an adverse impact on health; working with State and local agencies to reduce air contamination; and working directly and with governmental agencies to improve road safety and the availability of emergency transport. Chickaloon provides programs and activities to lower the numbers of intentional and unintentional injuries, deaths and disabilities by offering a variety of prevention activities including a summer safety swim program, fire extinguishers, carbon monoxide detectors, chimney cleaning, and smoke detectors.

3.6.3 Child and Family Services. Chickaloon provides assistance and services to children and families who have experienced or are at risk of child physical abuse, sexual abuse, and neglect and other conditions that place a child at physical or emotional risk; including services to assure a safe environment for the welfare of the child and work toward the ultimate rehabilitation of the child and family.

3.6.4 Home- and Community-Based Care. In accordance with Section 205(a)(2) of the Indian Health Care Improvement Act, as amended ("JHCIA"), codified at 25 U.S.C. § 1621d, Chickaloon provides through a combination of western methods and traditional modalities, home care and other community-based services including assistance with activities of daily living. These services are provided to individuals who are unable lo perform their activities of daily living on their own, or when the families are unable to meet all of their needs.

3.6.5 Health Education provides services to inform, educate, and motivate residents to adopt healthy lifestyles, including but not limited to, fetal alcohol spectrum disorder (FASD) prevention and treatment.

3.6.6 Maternal and Child Health Program provides prenatal care, family planning and newborn patient education, assistance in risk screening, coordination of prenatal care.

3.6.7 Elder Outreach and Health Program provides nutrition services to Elders 55 years of age and over and their spouses; escort, shopping assistance, passenger assistance, transpo1tation, outreach and advocacy, information, and refe1nl services to Elders and persons with handicaps or disabilities.

3.6.8 Nutrition and Fitness. Chickaloon provides nutnt1011education, food supplements, counseling, monitoring and other services for those of all ages who are at nutritional risk; and programs to encourage healthy and subsistence-based lifestyles and individual and community wellness, through community and individual activity, physical fitness, and other wellness programs.

3.6.9 Community Support provides assistance to elders, low income and handicapped and disabled individuals and families to maintain safe, independent housing, including education of household members and assistance with home maintenance, including snow removal and safe, reliable heating.

3.6.10 Transportation Services. Chickaloon provides patient travel (including escorts) in accordance with Section 2l 3(a) of the IHCIA, as amended, codified at 25 U.S.C. § 1621/.

3.7 Purchased/Referred Care. Chickaloon purchases health services not othetwise available or accessible to eligible beneficiaries in the area Chickaloon serves. Program administrative activities include, but are not limited to, patient advocacy, monitoring of patient care for appropriateness of services, medical necessity policies, and eligibility detenninations.

3.8 Administrative Support Services. Provides a complement of services required to support the provision of health services, including, but not limited to, the PSFAs described below.

3.8.1 General. Chickaloon pe1forms administrative functions, including, but not limited to, providing direction, program and staff supervision, organizational and program planning, administrative support, facilities and equipment management, maintenance and improvement of facilities; inventory control; budget development and maintenance; third party billing; grant writing; legal consultation; accounting functions; contract development and management; purchasing management; technology management; and repo11ing statistics as appropriate.

3.8.2 Human Resources provides personnel services including staffing, recruitment, retention, job classification, pay and benefits administration, training, continuing education and development, employee relations, human resources information systems; and staff health education.

3.8.3 Finance performs accounting, statistical records, payroll, accounts payable, grant requests and administration, reporting, and other finance activities, and coordinates reimbursement, budgeting and forecasting programs, cash management and annual third party audits.

3.8.4 Technology/Telecommunication Services direct, coordinate and execute telecommunications, telephone, data processing, training and education, network and information management for operations and regulatory compliance; provides maintenance, inventory, and equipment repair and disposal; coordinates with regional and statewide efforts for telemedicine, telehealth, telepharmacy, and teleradiology services; and planning and implementation of an electronic health record system.

3.8.5 Facilities Management and Planning provides assistance, planning, design, management and general contracting for construction, demolition and clean-up, renovation, maintenance, security, and operation of all facilities and properties used by Chickaloon under this Funding Agreement.

3.8.6 Compliance Coonlination promotes responsible ethical behavior and business practices consistent with Chickaloon 's mission, vision, and values; risk management; HIPAA compliance, policy and procedure development and enforcement; and quality assurance and improvement activities.

3.8.7 Patient Registration includes administrative services such as RPMS data entry; medical manager data entry maintenance; and health information management.

3.8.8 Benefits Eligibility determines eligibility for medical insurance and assistance with applications for same; and assisting individuals in obtaining alternative funding for health care services.

3.9 Tribal Representation provides Tribal representation on a regional, state, and national level, including, but not limited to, Tribal representation to the ANHB, ANTHC, Anchorage Service Unit Tribal Health Council, and tribal caucus meetings, along with payment of dues and pro-rated consultation fees.

3.10 Traditional Council. The Chickaloon Village Traditional Council actively provides policy and direction regarding all PSFAs caITied out under this Funding Agreement.

3.11 Other Programs/Services Funded.

3.11.1 Generally. This funding agreement includes programs, functions, services and activities resulting from Tribal redesign, or consolidation, reallocation or redirection of funds, including its own funds or funds from other sources, provided that such consolidation, redesign, or reallocation or redirection of funds results in carrying out programs, functions, services and activities that may be included in the funding agreement pursuant to section 505 of Title V and Article Ill, Section 6 [Consolidation with Other Programs] of the Compact. This includes any other new health care programs, including, but not limited to, those identified in the Indian Health Care Improvement Act funded during the fiscal year.

3.11.2 Non-IHS Funding. Chickaloon will complement and supplement the PSFAs described in Section 3 [Tribal Programs and Budget] with funding from sources other than !HS through this Funding Agreement, subject to the availability of such other funding sources. Consistent with Article 111, Section 5 [Reallocation], 6 [Merging with Other Programs], 7 [Program Income] of the Compact, non-THS funds will be added to or merged with funds provided by IHS through this Funding Agreement.

3.12 Applicability of the Federal Tort Claims Act. The Federal Tort Claims Act applies to Chickaloon's PSFAs under this Funding Agreement as provided in Section 516(a) of Title V (which incorporates Section I 02(d) of Title l of the Act and Section 314 of P. L. IO1-512) and Article V, Section 3 [Federal Tort Claims Act Coverage, Insurance] of the Alaska Tribal Health Compact. The extent of Federal Tort Claims Act coverage is described more particularly in 25 C.F.R. §§ 900.180-900.210.

Section 4 - Amounts Available During the Term of the Funding Agreement

4.1 The following amounts shall be available to Chickaloon in Fiscal Years 2020-2022 pursuant to the Compact and Title V of the Act, and are subject to reductions only in accordance with Section 508(d) of Title V and Section 106 of Title l of the Act.[2]

/\ breakout of these funds is shown in Appendix A, which cites the source document used to detennine the amounts. These amounts arc subject to change under the Act and as provided in this Funding Agreement. For other fiscal years to which this Funding Agreement is applicable, a replacement Appendix A will be negotiated between !HS and Chickaloon for the respective year and amended to this Funding Agreement and incorporated by reference, accordingly.

	Annual Funding
Recurring base: Inclusive of all recurring funding, including recurring contract support funds.[3]	$43,863
Non-recurring funding.[4]	$13,482
Subtotal: (This amount is subject to amendments in accordance with Section 12 [Amendment or Modification of this Funding Agreement])	$57,345
Area "tribal" share to include funding identified from Area Office and identified in Appendix A to this Funding Agreement.[5]	$18,488
Headquarters - Tribal share: "Tribal Size Adjustment Pool," including all funds identified in Appendix A. The amount identified is exclusive of funds for which a distribution amount has not been determined. The final amount due shall be determined as set forth in this Funding Agreement or Appendix A.[6]	$12,963
Headquarters - Tribal share: "program formula pool" - to include all funds identified in Appendix A, and such additional funds which IHS may make available on a program formula basis during the year based on the programs accepted for this allocation in Appendix A. The amount identified is exclusive of funds for which a distribution amount has not been determined. The final amount due shall be determined as set forth in this Funding Agreement or Appendix A.	$0
Subtotal - Tribal Shares[7]	$31,451
TOTAL COMPACT FUNDING[8]	$88,796

See Footnote 2.

4 These non-recurring funds are shown in Appendix A. Other non-recurring funds are not specifically idenlifiecl in lhis Agreement, but will be provided to the Chickaloon Native Village in the future by amendment. *See* Footnote 2.

5 *See* Footnote 2. Funds from Area were distributed according to methodologies agreed upon in a caucus open lo all Alaska Tribes and tribal organizations. The specific methodologies arc identified in Appendix A.

6 *See* Footnote 2. Headquarters shares were allocated according to the following process, which was adopted in a caucus open to all Alaska Tribes and tribal organizations. The Alaska Area Tribal Share of Headqua11ers was first defined using the national IHS recommended methodology. The total Alaska Area Tribal Share was then reallocated to each Co-Signer according to the agreed upon Alaska Area methodology, which is identified specifically for each line in Appendix A. Tn addition to the Funding amount, Chickaloon is entitled to additional Headquarters' tribal shares in an amount identified as "Subtotal Headquarters TS amounts" in the "Chickaloon Restricted" column on Page I of Appendix A.

The subtotal of tribal shares docs not include certain Headquarters' tribal shares for which the amount or availability have not been determined. This amount will be adjusted to make available all funds for which the Chickaloon Native Village is eligible.

For the reasons noted regarding the amounts that make up this total and because full funding amounts under the predecessor contract may not have been fully identified or reconciled as of the time this funding Agreement is being executed, all amounts to be paid in the fiscal year for this Funding Agreement are estimates and are subject to amendment to reflect the full amount due for this fiscal year.

These amounts are subject to additions of new funds received during the term of this Funding Agreement including amounts that have historically been distributed as non-recurring funds under Title I of the Indian Self-Determination and Education Assistance Act, as amended. Any amounts remaining unspent under Contract No. 243-97-6038, after adjustment and reconciliation of the withheld amounts for supplies and services, if any, as of the last day of the fiscal year, shall be included in this Funding Agreement.

The parties agree Section 505(b)(2) of Title V provides, among other things, that grants administered by the Department of Health and Human Services through IHS may be added to Chickaloon's Funding Agreement after award of such grants. In accordance with this provision of Title V and its implementing regulations, the Secretary will add any statutorily mandated grant(s) administered by the Department through lHS to this Funding Agreement after such grant(s) have been awarded. Any other statutorily mandated grants administered by the Department through !HS and awarded to Chickaloon may be added to this Funding Agreement after such grants have been awarded. Grant funds will be paid to Chickaloon as a lump sum advance payment through the PMS grants payment system as soon as practicable after award of the grant. Chickaloon will use interest earned on such funds to enhance the purposes of the grant including allowable administrative costs. Chickaloon will comply with all terms and conditions of any such grant award, including reporting requirements, and will not reallocate grant funds nor redesign the grant program, except as provided in the implementing regulations or the terms of the grant.

4.2 Contract Support Costs. Contract support costs (CSC) will be paid in accordance with 25 U.S.C. § 5325 and §5388 (c). The paities agree that, according to the best data available as of the date of execution of this agreement, the amount to be paid under the fiscal year covered by this agreement, which represents the parties' estimate of Chickaloon's full CSC requirement pursuant to 25 U.S.C. § 5325, is $29,662, including $ I 6,180 for direct CSC and $13,482 for indirect or indirect-like CSC. This estimate shall be recalculated as necessary as additional data becomes available including information regarding the direct cost base, pass throughs and exclusions, and the indirect cost rates to reflect the full CSC required under 25 U.S.C. § 5325. The parties will cooperate in updating the relevant data to make any agreed upon adjustments. ln the event the parties disagree on the CSC amounts estimated and paid pursuant to this paragraph and Chickaloon's full CSC requirement under the ISDEAA, the parties may pursue any remedies available to them under the TSDEAA, the Compact, and the Contract Disputes Act, 41 U.S.C. § 710 I et seq.

Section 5 - Method of Payment.

5.1 Payment Schedule. Except as provided in subsections 5.2 [Availability of Tribal Shares], 5.3 [Buyback/Withhold], and 5.4 [Periodic Payments] of this section, all funds identified in Section 4 [Amounts Available During the Term of the Funding Agreement] of this Funding Agreement shall be paid to Chickaloon, in accordance with Article 11, Section 4 (a) [Payment Schedule] of the Compact; payment to Chickaloon to be made as follows:

One annual payment in lump sum to be made annually in advance by check or wire transfer.

5.2 Availability of Tribal Shares. Chickaloon will be paid I 00 percent of Headquaiters and Area Tribal Shares in its initial lump sum payment, as negotiated in this Funding Agreement.

5.3 Buyback/Withhold.[9] Chickaloon may carry out its responsibility to provide ce,tain PSFAs included in this Funding Agreement by using services or other resources of the Federal government under Article V, Section 22 [Purchases from lHS) of the Compact, as permitted by law. Chickaloon does not wish to exercise this option at this time. If Chickaloon chooses to accept this option during the effective period of this Funding Agreement, Chickaloon and lHS will amend this Funding Agreement to incorporate the common Compact Funding Agreement provision applicable to Buyback/Withhold and Chickaloon and JHS will enter into the current common Alaska Tribal Health Compact, Buyback/Withhold Agreement.

5.4 Periodic Payments. Payment of funds othe1wise due to Chickaloon under this Funding Agreement, which are added or identified after the initial payment is made, shall be made promptly upon request of Chickaloon by check or wire transfer.

Section 6 - Adjustments.

6.1 Due to Congressional Actions. The parties to this Funding Agreement recognize that the total amount of the funding in this Funding Agreement is subject to adjustment due to Congressional action in appropriations Acts or other law affecting availability of funds to 11-lS and the Department of Health and Human Services. Upon enactment of any such Act or law, the amount of funding provided to Chickaloon in this Funding Agreement shall be adjusted as necessary, after Chickaloon has been notified of such pending action and subject to any rights which the Co-Signer may have under this Funding Agreement, the Compact, or the law.

Section 7 - Records.

7.1 Incorporation of the Privacy Act. Pursuant to Section 506(d)(l) of Title V, records acquired, generated or maintained by Chickaloon shall not be treated as Federal records under Chapter 5 of Title 5 of the United States Code, except that:

7.1. l patient medical records, financial records and personnel records may be disclosed only in accordance with 5 U.S.C. Section 552a(b); and

7.1.2 pursuant to Section 105(0) of Title I, the medical records generated by Chickaloon shall, at the option of Chickaloon be stored with the National Archives and Records Administration, and Chickaloon shall have access to such records.

7.2 Confidentiality Standards. Chickaloon will seek to comply with the Administrative Simplification provisions of the Health Insurance Portability and Act of 1996 (HlPAA), including, but not limited to, privacy, security, transactions, and code set regulations, codified at 45 CFR Patts 160, 162 and 164. If a record is not subject to HIPAA, Chickaloon will maintain the confidentiality of its records in accordance with policies and procedures consistent with the purposes and guidelines of HIPAA and the Federal Privacy Act of 1974.

---

[9] Chickaloon cu1Tently docs not exercise any buyback.

Section 8 - Program Rules. Chickaloon will make a best effort to catTy out the health PSFAs in this Funding Agreement in compliance with applicable standards and guidelines adopted by the Traditional Council.

Except as specifically set forth in this section, pursuant to Section 5 I 7(e) of Title V, Chickaloon does not agree to be subject to any agency circular, policy, manual, guidance or rule adopted by THS, except for the eligibility provisions of Section 105(g) and the regulations promulgated under Section 517 of Title V, unless otherwise waived.

Section 9- National Environmental Policy Act. The National Environmental Policy Act (NEPA), National Historic Preservation Act (NHPA), and related provisions of law require IHS to review and approve actions resulting in the use or commitment of IRS funds or that affect IHS property, and which may significantly impact the environment or cultural resources. Unless Chickaloon has assumed these responsibilities under a construction project agreement in accordance with Section 509 of Title V and 42 C.F.R. § 137.285-312, IHS must carry out these responsibilities and has elected to utilize Appendix G. Where Chickaloon plans to undertake an action, as described in Appendix G, on IHS owned real property or utilizing IRS funds received through this Funding Agreement and Chickaloon has not assumed these responsibilities, Chickaloon will provide IHS with a Project Summary Document (see Appendix F-4) and a completed Environmental Information and Documentation Form (see Appendix F-5) so that LHS can accomplish these requirements, and issue a Determination Document (Categorical Exclusion (CATEX) or Finding of No Significant Impact (FONST)), as soon as possible. All documentation shall be submitted to IHS as early as possiblt::in the planning phase of the project to prevent delays in the action. No irreversible action can be taken by Chickaloon until IHS completes its compliance responsibilities and so advises the Co-Signer with a Determination Document). Pending resource availability, IHS is available for education and consultation on NEPA, NHPA, and related provisions of law on an as needed basis.

Section 10 - Retrocession. The retrocession provisions of Section 506(t) of the Act are herein adopted, except that the effective date of a retrocession request from the Compact and Funding Agreement, in whole or in part, shall be six months from the date of the request by the Chickaloon Native Village. Retrocession may be effective with less than six months notice, providing the Chickaloon Native Village and IHS agree to an effective date of less than six months from the date of the retrocession request.

Section 1 J - Consolidation of Contracts and Previous Annual Funding Agreements. The contract listed below and all previous Annual Funding Agreements shall be amended or terminated, as appropriate, to transfer applicable contract funds into this Funding Agreement for programs, services, functions, and activities, provided to the Co-Signer.

Contract No: 243-97-6038, as modified.

Section 12 - Amendment 01· Modification of this Funding Agreement.

12.I **Form of Amendments.** Except as otherwise provided by this Funding Agreement, the Compact, or by law, any modifications of this Funding Agreement shall be in the fotm of a written amendment and shall require written consent of the Chickaloon Native Village and the

United States. Pa1ticipation or written consent of Tribes and Co-Signer(s) not subject to the terms of this Funding Agreement shall not be required.

12.2 Services from 11-1S. Should Chickaloon determine that it wishes IHS to provide PSFAs included in this Funding Agreement for which funding has been identified but not provided, the pai1ies shall negotiate an amendment to the Funding Agreement to reflect the transfer of responsibilities from the Co-Signer back to !HS and the pro-rata share of funding for that program, service, function or activity shall be retained by IHS. Unless otherwise negotiated, IHS will not transfer centrally paid expenses including but not limited to Workers Compensation to any Co-Signer.

12.3 Due to Addition of New Programs. Should Chickaloon determine that it wishes to provide a program, function, service or activity ofIHS not included in this Funding Agreement, Chickaloon shall submit a proposal to IHS to provide such program, service, function or activity. The parties agree to negotiate such a proposal and, should the parties fail to reach agreement, Chickaloon may submit a final offer in accordance with Title V procedures set forth in Section 507(6)-(d) of Title V. A proposal submitted pursuant to this section shall be treated as a request for amendment to the Funding Agreement and, once approved by IHS, the Alaska Area Office shall prepare within 30 days an amendment to this Funding Agreement and the amendment shall be executed through the Area Office and added to this Funding Agreement.

12.4 Due to Availability of Additional Funding. Co-Signer shall be eligible for any increases in funding or funding for Medicaid, Medicare, maintenance and improvement, other reimbursements and new programs for which it would have been eligible had it been administering programs under a self-determination contract, rather than under the Compact and this Funding Agreement, and for any other funds that are not restricted by appropriations language for which any Alaska Tribe or tribal organizations may be eligible, including any new funds appropriated for lHS Headquarters and funds passed to Alaska Area as recurring or non-recurring funds, and this Funding Agreement shall be amended to provide for timely payment of such new funds to Co-Signer. Such amendment shall be originated and prepared within 30 days by the Alaska Area Office and executed through the Area Office in consultation with the Co-Signer.

12.5 Other Adjustments. Upon written authorization by the Chickaloon Native Village and agreed to by IHS, IRS may reallocate funds retained by IHS, which are obligated to Chickaloon, for the purpose of reimbursing IHS for services or equipment provided to Chickaloon to assist the Chickaloon Native Village in carrying out the terms of the Compact and this Funding Agreement.

12.6 General Procedures for Amending or Modifying this Funding Agreement. Amendments or modification proposed by Chickaloon shall be submitted in writing to IHS, Alaska Area Director with a copy to the Office of T1ibal Self-Governance at IHS Headquarters. Except as provided with respect to the incorporation of a provision of Title J of the Act under Article V, Section 21 [Applicability of Title I Provisions] of the Compact, or as provided above in paragraphs 12.4 [Due to Availability of Additional Funding], and 12.7 [Funding Increases] of this section, a request to amend or modify this Funding Agreement submitted by Chickaloon shall be processed in accordance with Section 507(6)-(d) of Title V of the Act, and all provisions of those identified sub-sections are incorporated herein for this purpose.

12.7 Funding Increases.

12.7.1 Written consent of Chickaloon shall only be required for issuing amendments for those funds which:

12.7.1.1 require a change to Section 3 -Tribal Programs and Budget;
12.7.1.2 require a specific commitment by Chickaloon (e.g., Maintenance & Improvement projects and prior fiscal year Sanitation Facility Construction projects); or
12.7.1.3 reduce funding other than changes in Congressional appropriations pursuant to Section 6.1 [Due to Congressional Action].

12.7.2 Amendments not requiring written consent may include, but are not limited to:

12.7.2.1 Program/Area/HQ Mandatories;
12.7.2.2 Program/Area/HQ End-of-Year Distributions;
12.7.2.3 CHEF, subject to the condition that if a case initially qualifying for reimbursement is paid (in whole or in part) by an alternate resource or cancels for any reason, Chickaloon will return the unused amount to the IHS CHEF account;
12.7.2.4 CHS Deferred Services;
12.7.2.5 Routine Maintenance & Improvement; or
12.7.2.6 Collections and reimbursements.

12.7.3 Amendments reflecting payment of these funds shall be provided to Chickaloon after any such funds are added to the Funding Agreement. Chickaloon retains the right to reject the addition of such funds to the Funding Agreement and return the funds to lHS.

Section 13 - Third Party Recoveries. Any funds recovered by Chickaloon through the filing, Iitigating, or settling a claim against a third party shall be the property of Chickaloon and shall be considered program income to be utilized by Chickaloon as provided in Article Ill, Section 7 [Program Income] of the ATHC. Any prospective recovery of funds for such services shall likewise be considered program income to be utilized pursuant to Article III, Section 7 [Program Income] of the Compact.

Section 14- Payer of Last Resort. Whether providing, purchasing, or authorizing health care services described in the Compact and this Funding Agreement, in accordance with Section 2901(b) of Pub. L. 111-148 [25 U.S.C. § 1623(b)], and as otherwise provided in law, Chickaloon shall be the payer of last resort.

Section 15 - Service to Non-Beneficiaries. Section 813 of the Indian Health Care Improvement Act, as amended, 25 U.S.C. 1680c, (Section 813), authorizes the governing body of a Tribal Organization carrying out: health services of !HS under tbe lndian Self-Determination and Education Assistance Act to determine whether health services should be provided under the Tribal Organization's funding agreement with IHS "to individuals who are not eligible for such health services under any other subsection of this section or under any other provision of law" 25 U.S.C. § 1680c(c)(2). The Chickaloon Village Tribal Council has made such determination consistent with Section 813, and provides for its findings in Resolution No. 101020-01. Resolution

101020-0 I is attached as Appendix C and incorporated by reference herein. Chickaloon may provide services under this Funding Agreement to non-beneficiaries as described in Resolution No. 101020-01. ln addition, services may be provided to U.S. Public Health Service Commissioned Corps Officers and their dependents.

Section 16 - Memorializing Disputes. The parties to this Funding Agreement may have failed to reach agreement on certain matters which remain unresolved and in dispute. Such matters are set forth in an attachment to this annual Funding Agreement, which shall be identified as Addendum 2, "Memorialization of Matters Remaining in Dispute." This attachment shall not be considered a part of this Funding Agreement, but is attached for the purpose of recording matters in dispute for future reference, discussion and resolution as appropriate. Chickaloon does not waive any remedy it may have under the law with regard to these issues and any others not listed herein.

Section 17 - Severa bi lit)'.

This Funding Agreement shall not be considered invalid, void or voidable if any section or provision of this Funding Agreement is found to be invalid, unlawful or unenforceable by a court of competent jurisdiction. Should such a court make such a finding, the parties will seek agreement to amend, revise, or delete any such invalid, unlawful or unenforceable sections or provision, in accordance with the provisions of the Compact.

Section 18 - Title I Provisions Applicable to This Funding Agreement. As authorized in 25 U.S.C. § 5396(6), Chickaloon exercises its option to include the following provisions of Title I of the Act as pmt of this Funding Agreement, and these provisions shall have the force and effect as if they were set out in full in Title V of the Acl.

18.1 25 U.S.C. § 5304(e) (definition of "Indian Tribe");
18.2 25 U.S.C. § 5322(6) (related to grants for health facility construction and planning, training and evaluation);
18.3 25 U.S.C. § 5322(d)(l) (related to duty of IHS to provide technical assistance);
18.4 25 U.S.C. § 5324(a)(I) (exemption from Federal procurement and other contracting laws and regulations);
18.5 25 U.S.C. § 5328(6) (conflicting provisions of law);
18.6 25 U.S.C. § 5329(c) section I (b)(S)(F) (screener identification);
18.7 25 U.S.C. § 5329(c) section l(b)(9) (availability of funds);
18.8 25 U.S.C. § 5329(c) section I (d)(l)(B) (construction of contract);
18.9 25 U.S.C. § 5329(c) section l(d)(2) (good faith).

Section 19- Effective Date and Duration. The effective date of this Funding Agreement is October 1, 2022 the Funding Agreement will remain in effect through the 2025 Federal Fiscal

i

Year or until a subsequent agreement is negotiated and becomes effective pursuant to Article II, Section 12 (Subsequent Funding Agreements] of the Compact.

General Notes on Alaska Area Office Tribal Shares

Column 1 - Includes all FY17 changes allocated to TS, Residual, & Transitional as of FY17. In FY 2019 TS changes will be added as received.

Column 2 - Residual includes no changes in residual functions. Based on FY2018 Area approved residual budgets.
Remaining funds at 9/30 distributed (Non-Recurring) to all Alaska Area health programs based on recurring base.

Column 3 - Transitional funds agreed by co-signers to remain at Area Office. Based on FY2018 approved transitional budget.

Column 4 - Restricted by all co-signers & transferred to the ANTHC to provide "Area PSFAs" .

Column 5 - Includes Area TS for all Alaska Tribes, including Title I & Title V. FY19 mandatories to be added if received.

Column 6 - Available Tribal shares for Co-Signer (amounts for ANTHC include pass-through to awardees with shares captured by Sec. 325).
Distributed by the approved ATHC methodology of - 30% # of Tribes / 35% 2010 Census Pop. / 35% 2013 Rec. Base (less VBC).
All Area TS for Services line items will be recurring, Area TS for Facilities will be non recurring.

Column 7 - Items restricted by individual co-signer to pay for continued services from ANTHC. (Restricted amounts are added to ANTHC FA.)

Column 8 - The agreed upon amount due (col. 6 - col. 7) to the co-signer after all retained shares are withheld.

Line 1 - All TS funds for non-OEHE Area Office PSFAs except where co-signers have individually decided to retain certain PSFAs at the ANTHC or AANHS.

Line 5 - Lease on Inuit Building.

Line 5a - $20,000 (less sequester) from transitional funding held by IHS to rent space for annual negotiations. Funds transferred to ANTHC upon confirmation of space avai

Line 7 - Centrally paid expenses, including personnel & finance support for Area positions, costs & funds for departmental assessments.

Line 8 - Area Human Resources functions (previously Office of Personnel & Training).

Line 9 - Funding originally from ANMC - have all been returned to SCF/ANTHC as IPA/MOAs were reduced.

Line 10 - Includes funding for Area PSFAs transferred to ANTHC under Section 325.

Line 11 - Funds to ANTHC to support the statewide Contract Health Services reserve program.

Line 12 - Funds to ANTHC to support specialized services in Barrow, NSHC, & BBAHC & certain statewide laboratory contracts.

Line 13 - ANHB funds from Loc 77 including previous tobacco prevention funding.

Line 14 - Supply Service Center individually withheld amounts retained for ANTHC for all co-signers except YKHC, Seldovia, & Eklutna.

Line 15 - Funds distributed to support the Epidemiology Center distributed to co-signers for individual payment to ANTHC.

Line 16 - Funds for EMS training. Retained by IHS for transfer to ANTHC for Maniilaq, BBAHC, & Chugachmiut for EMS training at ANMC.

Line 18 - Does not include funds from surcharge, assessments, or other services purchased through Area Office.

Line 22 - Funds retained for ANTHC for all co-signers except YKHC, SCF, & KIC.

Line 24 - Does not include NR SFC funds for Health Facilities design and construction oversight.

Column 2 - All numbers are based on HQ PFSAs for FY21 Table #4 dated 5/4/21 & FY22 Table 4F dated 8/9/21 (facilities)

Column 3 - Individual Co-Signer share of column 2.
Column 4 - Co-Signer amounts left with (retained by) IHS to provide service- If service is not available IHS shall pay to each Co-Signer amount provided.
Column 5 - This column (col. 3 - col. 4) is the HQ. TS funds due to Co-Signer, calculated by Alaska TSA formula.
All Headquarters Tribal Shares shall be recurring except for Facilities (lines 2401 -2405) and funds in lines 101 and 105.
Line 101 - Any funds remaining will be distributed non recurring on 9/30 (from HQ by TSA formula) and to each Co-Signer on ATHC distribution method.
Line 105 - Any funds remaining will be distributed non recurring on 9/30 (from HQ by TSA formula) and to each Co-Signer on ATHC distribution method.
Line 106 - All Alaska Co-Signers restricted all funds to continued advanced OB training opportunities for all Alaska Area physicians.
Line 120 -Alaska Co-Signers restricted a total of $31,000 dollars for the clinical support center for CME certification and "IHS Provider" magazine.
Line 124 - BBAHC, EAT, Chugachmiut, Eyak, and Maniilaq retrocede 50% of line 124 to IHS in exchange for use of recruitment website ihs.gov/jobs.
Line 126, 137 -DIR withheld were computed at 27.8% of each Co-Signer on ATHC proposal. See Section 1 of the Funding Agreement.
Line 0154 New line for Prescription Drug monitoring. Full share included in co-signers TS.
Line 201 - Dental Program - Direct Ops Dental from line 1302 is now here. No impact on TS.
Line 1301a - DIR Withheld was computed at 16.4% of each Co-Signer share based on continuing agreements with Dir. DIR.
Linr 1302 - Direct Ops Dental is now in line 201
Lines 2401-2405 - Funds available for OEHE support functions (from table 4f) provided based on national formula at tribal option.

FOOTNOTES

Column 1- Initial withhold for IPA/MOA and VBC is 4 months (3 months deposit and October advanced payment); for all other co

Column 2 - IPA/MOA Centrally Paid Expenses are estimated at $588 for each IPA and $6,243.81 for each MOA.

Employee Dispute Pool Costs are no longer charged in advance (*see* Section 2.3.2.3 of Buyback Agreement).

These charges will be reconciled to actual cost per employee as incurred by the Service and Supply fund for CPE expenses.

Column 3 - Surcharge for all Co-Signers using buyback is .285%

Appendix B

Continuing Services Agreement for FY 2020

MEMORANDUM OF AGREEMENT DESCRIBING THE CONTINUING SERVICES OF THE INDIAN HEALTH SERVICE, ALASKA AREA NATIVE HEALTH SERVICE TO CHICKALOON NATIVE VILLAGE FOR FY 2020

I. INTRODUCTION

This agreement provides for the continuation by the Indian Health Service (IHS) of certain services from the Alaska Area Office for the benefit of Chickaloon Native Village under its Funding Agreement (FA) under the Alaska Tribal Health Compact (ATHC) Self-Governance Compact.

This agreement is limited to the programs, services, functions, and activities (PSFAs) performed by the residual and transitional federal staff of the Alaska Area Office.

This agreement should be interpreted in conjunction with Chickaloon Native Village's FA and Appendix A to that FA, which may provide for additional detail on "restrictions" of funds at the Area or Headquarters level to ensure that specific services are continued to the individual Co-Signer.

In FY 2020, funding for these continuing services and activities will be from the funds, which have been designated as residual and from funds, which have been designated in support of temporary transitional federal PSFAs. In addition funding to purchase specific services, i.e., use of IPA/MOA assignees and Village Built Clinic leases, may be provided through reimbursement by Chickaloon Native Village to the IHS.

II. DEFINITIONS

The following definitions are in common usage in the Alaska Area:

A. ATHC Tribal Restricted Share - Used in Alaska to refer to those retained Tribal shares all compacting Tribes jointly initially agreed to leave in the Area Office in support of Alaska Area state wide PSFAs. Pursuant to Section 325 of PL 105-83, these shares now are in the Alaska Native Tribal Health Consortium (ANTHC) FA or are used for transitional federal PSFAs.

B. Buyback - The process by which Co-Signers use cash to purchase Area services from the Area Office. Requires accurate description and pricing of service, and mechanism for Area to invoice and receive payment.

C. Co-Signer Restricted Shares - Used in Alaska to refer to "retained Tribal shares" that have been left at the Area Office or Headquarters on an individual basis by a Co-Signer to allow the Area, Headquarters or ANTHC to provide specific services to the Co-Signer. Pursuant to Section 325 of PL 105-83, these Area shares now are in the ANTHC FA or are used for transitional federal PSFAs.

D. Residual - The resources necessary to support the PSFAs required for the United

States Government to fulfill and maintain its moral and legal responsibilities based on treaties, statute, and Executive order that are essential for the federal government to fulfill its "inherent federal functions".

E. Transition Plan - Plan initially agreed to by the Alaska Tribes to allow a transition of less than 100% of the Area Office Tribal shares to the Co-Signers collectively. (This definition is included for historical purposes only.)

F. Tribal Share - That portion of Headquarters or Area resources not determined to be residual and allocated to individual Tribes or to Tribes collectively, via Tribal organizations, utilizing an agreed upon methodology.

G. Tribe - As used in this Agreement, "Tribe" refers to Tribes and Tribal organizations, as those terms are defined respectively in Sections 4(e) and (*l*) of P.L. 93-638, the Indian Self-Determination and Education Assistance Act, as amended (the Act).

III. AREA SERVICE DELIVERY AGREEMENT

Nothing in this agreement is intended by Chickaloon Native Village or the IHS, nor shall be interpreted by any party, to limit or reduce in any way the PSFAs that any Tribe or Tribal organization is eligible to receive from the Area Office under Sec. 102 of Title I of the Act, under Sections 505 and 515(a) of Title V of the Act, or any other applicable federal law.

The table for each "Office" (or separate organizational component) presents the PSFAs currently performed and the staffing to perform the PSFAs. The residual PSFAs described in this Continuing Services Agreement serve all Co-Signers. The transitional personnel shown in this Agreement primarily support ANTHC PSFAs; however, some support other Co-Signers (e.g. IPA/MOA). PSFAs and the associated funds and personnel performing transitional PSFAs in support of the ANTHC (and Southcentral Foundation (SCF) for certain designated human resources PSFAs) under this Agreement may be transferred to the ANTHC or SCF under its FA.

A. OFFICE OF THE DIRECTOR

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional	Staffing (FTE)
Director	Provides overall executive direction and support on behalf of the Secretary.	R	1
Deputy Director, Chief Medical Officer	Provides public health advocacy; clinical consultation (CMO); legally required certification of health aide credentials and oversight of CHAP certification process; consultation in CHAP/Rural Health program management.	R	1
Executive Officer	Serves as principal advisor to the Director on overall management policies and procedures.	R	1
Attorney	Provides Region X attorney support and consultation.	R	1
EEO	Provides EEO support. 1		
Support Staff	Secretarial, clerical and administrative support to inherent and transitional federal functions at all levels of the Area Office.	R T	3 1
Planning, Evaluation & Statistics	Prepare statistical reports and publications in support of planning, evaluation and resource allocation requirements.	R	2
	Total		10

The Office will provide the specific PSFAs defined below:

1. Executive direction on behalf of the Secretary to the remaining inherently federal functions.
2. Advocacy at national level on behalf of the Tribes of Alaska including: legislative, policy, resource allocation, and appropriation advocacy.
3. Policy formulation and interpretation; supervision of non-IPA/MOA federal employees; negotiate, execute and administer compacts and FAs; resource allocation.
4. Public health coordination with Tribal, state and federal governments.
5. Provide legal advice and consultation on behalf of the Secretary.
6. Provides representation on the Executive Committee and Planning Committee of the Alaska Federal Health Care Partnership (AFHCP). Through the government-to-government relationship with Tribes and Tribal organizations, provides the mechanism for Tribal membership on the AFHCP.
7. Eligibility determinations assistance.
8. Equal Employment Opportunity program management in support of federal employment rights.
9. Oversight of certification of Community Health Aides as outlined by law and the *IHS Community Health Aide Program Certification Board Standards and Procedures*.
10. Consultation and technical assistance to Tribes and Tribal organizations staff and programs including
    a. Program review or evaluation at the request of the Area Director or the invitation of Tribal programs;
    b. Submission of electronic health record data to IHS National Data Warehouse; and
    c. Maintain current Area statistics to provide statistical analysis in support of resource needs and allocations.

1 The EEO function is provided under an intra-agency agreement among the IHS Alaska, California and Portland Area Offices.

d. Review and validate Alaska active user populations.

e. Publish *Census Based Alaska Native Population Counts* to supplement and cross check the accuracy of the user populations.

f. Verify the permanent staff increase Resource Requirement Methodology Needs Assessment (RRMNA) prepared by Tribes to determine staff needed for new facilities.

g. Collate data submitted for IHS distribution of specially earmarked funds following national allocation guidelines, when available, and suggest alternate distribution methods to program directors.

h. Publish the *Alaska Area Profile.*

i. Maintain the Alaska Area IHS website and publish Area Director's quarterly newsletter.

j. Publish the *Area Senior Executive Service Workplan* to support agency evaluation of the goals and accomplishments of the Area Office, its Director and Office Directors.

k. In cooperation with the AANHS/OEHE and ANTHC's Division of Environmental Health and Engineering and Co-Signers, provide user population and workload data, assist Co-Signers with preparation of applications; verify applications and planning documents prepared by Tribes (Health System Planning -HSP, PORs, and PJDs) for health facility expansion and replacement; and assist Co-Signers in the Headquarters' review process.

l. Communication between Tribal programs and IHS by seeking legal opinion from Region X attorney on issues which affect health care delivery by Community Health Aides such as standards of care, certification, Clinical Laboratory Improvement Act (CLIA) regulations, and Federal Tort Claims Act coverage.

11. Provide health program technical assistance and consultation on a limited basis as expertise and resources permit. This includes consultation on PSFA descriptions in Title I contracts, Title V FAs, specified grants and personal service and other contracts.

12. Support staff for the Director's Office and all other Area Office components without specific support staff.

13. Provide reimbursement to Headquarters for certain centrally paid expenses to include 100 percent of Department of Health and Human Services financial services and portions of other such expenses as reflected in the negotiated transitional budget for the ANTHC.

14. Performs the responsibilities identified in section 1 of the FA regarding ANTHC and SCF assurances.

15. Perform delegated functions to approve and administer FAs and amendments. The delegation includes the performance of Single Agency Audit, audit resolution for Title V awardees (Co-Signers); the function is provided using a multi-member Area-based team.

16. Responsibility for the Area Internal Control/Management Control programs, IHS Succession Plan and the Strategic Human Capital initiative.

17. As federal supervisor of Commissioned Officers serving under MOAs, the Area Director: functions as Reviewing Official for completion of annual Commissioned Officer Evaluation Reports; provides the Reviewing Official Statement for each officer when they are considered for promotion; and, fulfills any other action required as an officer's Reviewing Official. The Area Director may delegate this responsibility to Area Federal Staff as needed.

B. OFFICE OF ACQUISITION AND PROPERTY MANAGEMENT [2]

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional	Staffing (FTE)
Federal Contracting „ Personal Property, and FOIA Coordination	Responsible for federal acquisitions to support the Alaska Area Office, including the federal credit card program. Maintains the federal personal property inventory. Provides or coordinates various administrative services for the Alaska Area Office.	R	1
	Total		1

The Office will provide the specific PSFAs defined below:

1. Negotiate, award and administer federal acquisitions.
2. Maintain or develop Alaska Area Interagency and Cooperative Agreements in close partnership with appropriate IHS or other federal, state or Tribal entity(s).
3. Coordinate various administration functions including Freedom of Information Act requests and IHS delegations and directives.
4. Maintain the federal personal property management inventory, including excess and disposal.
5. Provide technical assistance to Tribally managed facilities on procurement issues as requested regarding procurement issues and acquired federal excess property.
6. Maintain the federal credit card program.

2 Residual (1) FTE moved to Office of Tribal Programs in support of Title 1 contracts and audit resolution.

C. OFFICE OF ENVIRONMENTAL HEALTH & ENGINEERING

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional	Staffing (FTE)
Director	Management, supervision and administrative support.	R	2
Sanitation Facilities	Maintenance of Sanitation Facilities Construction (SFC) data information systems for program allocations, National Environmental Policy Act (NEPA) approval, oversight of IHS funded SFC projects.	R T	1 1
Environmental Health	Environmental services associated with federal employees[3]/		
Health Facilities	Support, direction and general administrative support, maintenance of Maintenance & Improvement (M&I), Equipment and other data for program allocation.	R	1
Realty	Maintain government property inventory; manage VBC leases; supports the Alaska Area ISDEAA Section 105(l) lease program; and inspect government-owned facilities	R	1
	Total		6

The Office will provide the specific PSFAs defined below:

1. Sanitation Facilities:

a. Allocation of federal funds under Title V of the Act utilizing subpart N Construction Project Agreements and P.L. 86-121 Project Funding Agreements for project funding.

b. Provide required IHS oversight, facilitation and management of contributed sanitation facility construction funding from other federal and state agencies.

c. Directly allocate IHS resources using data provided by prescribed allocation formulas and justification rationales.

d. Evaluate and approve proposed projects, prepare budget summaries and justifications. Advocate statewide and nationally for the ANTHC Division of Environmental Health and Engineering (DEHE) program and facilitate its implementation.

e. Maintain project information and deficiency databases in the IHS Web-based Sanitation Tracking and Reporting System (W-STARS) to justify congressional funding requests in support of distribution logic.

f. Verify project development, documentation, funding, construction and closeout. Approve project agreements, to include making the determination of National Environmental Policy Act (NEPA) compliance based on information submitted by ANTHC DEHE.

g. Consult on and accept processes and priorities developed through the Sanitation Facilities Advisory Committee and SFC process in conformance with IHS national project eligibility criteria.

h. Onsite reviews of projects may be conducted annually to insure conformance with laws and regulations, e.g., NEPA and National Historic Preservation Act (NHPA) and to verify accuracy of data and programmatic assumptions.

i. Approve earmarked and emergency project funds dispersal.

2. Environmental Health: PSFAs include:

3 The PSFA conducted under this function are performed by all Office staff and others in the Area Office.

a. Overall direction of resources and related environmental surveillance for statewide public health impacts.

b. Continue to carry out functions related to serving as one of the health and medical representatives to the Alaska Federal Emergency Response Group.

c. Provide management and verification of tribal input data in the IHS Environmental Health Services data system known as the Web-based Environmental Health Reporting System (WebEHRS).

d. Provide safety assurance, compliance and reporting relating to federal workers, and professional programmatic support for staff.

e. In the event of a national disaster situation as defined in the Federal Response Plan, IHS is the lead agency for emergency response related to water and sewer damage assessment and mitigation.

3. Health Facilities: PSFAs include:

a. Perform budget allocation;

b. Support and approve project or resource allocations derived through a priority system developed through the Maintenance & Improvement Resource Allocation Committee (MIRAC) and ANTHC process consistent with IHS national project eligibility criteria. Verify data submittals and manage IHS facilities databases in conformance with IHS national project and health facilities space eligibility criteria.

c. Respond to Congressional inquiries;

d. Review Project Justification Document/Program Of Requirements (PJD/POR) documents prepared by others;

e. Review and approve national priority systems applications, including Tribal Equipment Funds and Dental Facilities Funds;

f. Maintenance of Alaska portion of the IHS Healthcare Facilities Data System (HFDS) including the Facilities Maintenance and Improvement/Equipment database for federally and Tribally owned health facilities;

g. Support for new health facility construction project funds distribution and project development;

h. Stewardship responsibility for oversight of environmental cleanup of federally owned real property;

i. Approve workload statistics;

j. Advocate statewide and nationally for the DEHE program and facilitates its implementation.

4. **Realty:** PSFAs include:

a. Monitor and manage real property assets in accordance with Executive Order 13327, "Federal Real Property Asset Management" and existing authority under law or by executive order for real property, capital improvements, square footage, use or disposal.

b. Maintain the IHS Real Property Inventory by updating the asset book values with costs relating to acquisition of real property, capital improvements, square footage, use or disposal.

c. Verify construction project closeout documentation for capital improvements made to federal facilities prior to adjusting the real property subsidiary ledger.

d. Perform annual review of real property.

e. Warranted Lease Contracting Officer authorized to lease Village Built Clinics

(VBC) on behalf of the Community Health Aide Program (CHAP).

f. Provide guidance to clinic owners and Tribal organizations with community health aides operating VBC leased clinics.

g. Determine correct process for disposing of excess real property and manages project to end.

h. Develop and recommend IHS Policy formulation on real property, leases and quarters;

i. Provide management and verification of real property and lease data within the health care facilities database.

j. Provide direct guidance and assistance in federal acquisitions of land and/or buildings.

k. Calculate and distribute rental rates for government owned quarters.

l. Prepare for approval all easements, utility rights-of-way, rights-of-way during construction, revocable licenses, and use permits.

m. Cost analysis and negotiation support for ISDEAA 105(l) leases.

D. OFFICE OF FINANCIAL MANAGEMENT

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional Buyback	Staffing (FTE)
Director	Financial Management Officer: Overall management, supervision, consultation, and surveillance	R	1
Tribal Accounting	Accounting advice; reconciliation; amendment and electronic payment assistance; monitors transactions in Buyback Account; and prepares Status of Buyback Statement with supporting documents.	R T	1 1
Budget	Budget projections and reports; fund control; Operating Resources Detail (formerly called Advice of Allowance)/Allocations.	R B	1 1
Accounting	Verifies accuracy and appropriateness of transactions; expenditures; general ledger; travel; project accounts; certifies vouchers; prepares tax withholding; and provides disbursement services.	R B	2 1
	Total		8

The office will provide the specific PSFAs defined below:

1. All resource allocation activities conducted by the Area.
2. Management controls of funds under Area control; responds to and provides data for annual agency audit.
3. Research and prepare routine, ad hoc, and special financial reports, prepare and reconcile status of funds reports for Area and Co-Signers. This includes providing Co-Signers with information necessary to manage the PSFAs they have assumed under their FAs and information necessary to negotiate those agreements.
4. Preparation and submittal of annual spending plan and budget/information to IHS for compacting and contracting Tribes and remaining AANHS/IHS activity.
5. Process financial documents for payment by U.S. Treasury, including payments related to continuing federal contracts in support of Tribally operated programs.
6. Process payroll for 340 federal (includes 58 IPA & 254 MOA) employees; maintain current position database for same; provide quarterly manpower reports to all Alaska locations using federal employees. Process and track all personnel actions.
7. Coordinate with Area OTP to allocate funding, initiate funding documents and assists

Co-Signers and contractors to maintain accurate records of funding allocations, reconciliations and cash management issues.

8. Reconciliation, billing and amendment management related to contractor and compactor use of federal resources including but not limited to IPA/MOA employees and the Village Built Clinic lease program. Reconciliation includes transaction verification of buyback services with corrections and reports.

9. Support withhold and buyback management including payment for continuing government contracts for goods and services, permanent change of station moves, etc.

10. Monthly general ledger reconciliation including cash management related to Prompt Pay Act, Treasury, cash and others.

11. Process reimbursement requests including Beneficiary Medical Program (BMP), Interagency Payment and Collections (IPAC), quarters collections, CHEF and others. Make deposits and transfers of such reimbursements to Co-Signers no less often than monthly.

12. Assist Tribes during annual Budget Formulation for the second succeeding year's annual budget, including preparation for the National Budget Formulation meeting.

E. OFFICE OF HUMAN RESOURCES

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional	Staffing (FTE)
Civil Service Staffing, Classification & Employee/ Labor Relations	Advertise and recruit for federal, direct and IPA/MOA replacements; process personnel and pay actions; provide job information; maintain official records; rate applicants, appoint new employees, and provide HR consultation; Title 38 and Physician's Comparability Allowance, Market Pay & Locality Pay maintenance; process Reduction in Force and counseling; provides transportation services and relocation assistance for federal employees and consultation re: Tribal direct hires as requested; administers Workers' Compensation program; grievances, discipline/adverse actions; Merit Systems Protection Board, appeals and agency representation; performance management; retirements; payroll; benefits; outside activities; ethics program; suitability adjudication; manage Federal Employee Assistance program and Family Medical Leave and Family Friendly Acts consultation; conducts desk audits; applies Classification Standards and consultation. Initiate and assure completion of suitability investigations as needed on federal employees and personal services contractors.	R T	2 0
	Total		2

Under the direction of the IHS Western Region Human Resources Director, the Office of Human Resources will provide the specific PSFAs defined below for the current approximately 340 federal employees employed either directly or through Civil Service IPAs (58) or Commissioned Corps MOAs (254):

1. Advertise and recruit for direct federal employees. Replacement IPA positions may be filled with a current IPA already on board (such as by reassignment) or a new or replacement MOA. Process Reductions In Force (RIF). Provide counseling on RIF.

2. Maintain official personnel files (electronic and paper) and records for Civil Service employees.

3. Manage employee relations including performance management; employee benefit programs (retirement counseling and calculations, etc.); Worker's Compensation; incentive awards; ethics and conduct; suitability adjudications; Merit Systems Protection Board (MSPB) representation; third party representation; Employee Assistance Program; Family Medical Leave Act (FMLA) consultation; and Labor Relations.

4. Counsel Civil Service employees.

5. Administer performance management program for non-IPA/MOA Civil Service employees.

6. Director performs proposing federal official function in progressive disciplinary actions on federal IPA employees.

7. Process personnel actions for Civil Service employees.

8. Process payroll, including assisting timekeepers and assuring transmission of payroll for all Civil Service employees.

9. Correct pay and leave errors.

10. Manage federal classification system. Provide consultation on same.

11. Issue government Personal Identification Verification (PIV) Smart cards for Area Office employees and for those IPA/MOAs who need access to federal facilities or ITAS as Timekeepers or Leave Approving Officials. Proof of federal employment will be given to those IPA employees who do not receive a PIV Smart card.

12. Provide, on request, consultation on employee relation issues to Co-Signer.

13. Maintain database on IPAs and MOAs and provide to Co-Signer no less than quarterly.

14. Provide, on request, general consultation and support on Co-Signer personnel issues (travel outside Anchorage to provide requested on-site consultation will be at expense of Co-Signer).

15. Provide transportation services and relocation assistance for federal employees.

16. Coordinate arrangements for volunteer health provider services for Co-Signers.

17. Provide assistance in managing employee absences due to on the job injuries (worker’s compensation) to minimize the impact on Co-Signers.

18. Initiate and assure completion of suitability investigations as needed on federal employees and personal services contractors.

19. Implement Alaska Area responsibilities set forth in the IHS Succession Plan.

20. Implement Alaska Area responsibilities related to IHS Development of Human Capital Initiative.

F. COMMISSIONED CORPS PERSONNEL[4]

P/S/F/A	MAJOR FUNCTIONS	Buyback	Staffing (FTE)
Commissioned Corps Personnel	Orient and assist officers and their families to include: recruitment support, liaison between areas, TRICARE advice, wage verifications, grievances, leave programs, COERs and COSTEP. As necessary, Corps-specific personnel discipline advice to CEOs and HR staff of 638 awardees with MOA assignees and supervisors of MOAs.	B	2
	Total		2

Under the direction of the IHS Division of Commissioned Personnel Support, the Commissioned Corps Personnel component will provide the specific PSFAs defined below for the approximately 259 USPHS Commissioned Officers in the Alaska Area:

1. Provide general orientation to new Commissioned Officers.
2. Counsel Commissioned Officers; provide Corps-specific discipline advice to appropriate Co-Signer managers.
3. Maintain unofficial files and records for Commissioned Officers.
4. Process required federal personnel actions for Commissioned Officers including orders for deployment.
5. Assist and consult with officers and their supervisors.

G. OFFICE OF TRIBAL PROGRAMS

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional	Staffing (FTE)
Director	Management of Area Title V responsibilities for Self-Governance and Title I review, approval and technical assistance. Managing CHEF submissions, and fund distribution; clerical and secretarial support.	T	1
Health Care (Management) Consultation	Title V compacts/FAs (including amendments and database management of same), cooperative agreements, and grants; negotiate and administer CSC funds.	T	3
Health Care [5] (Management) Consultation	Negotiate, manage, and execute Title I contracts. Review audit findings and work with Tribal contractors to resolve as needed.	R	1
	Total		5

The Office will provide the specific PSFAs defined below:

1. Provide or facilitate technical assistance to Tribes which may or may not lead to the preparation of proposal(s) to assume PSFAs for Title I contracting, Title V compacting and Tribal Management grants for Tribes and Tribal organizations
2. Evaluate P.L. 93-638 proposal(s) to determine acceptance, declination or rejection; if

4 During FY 2005 this PSFA was centralized under the Division of Commissioned Personnel Support at IHS Headquarters. Effective FY 2006, it is funded by assessing the locations that use Commissioned Officers. See, also, Appendix A.

5 Formally P/S/F/A: Federal Contracting Title I awards, (1) Residual FTE moved from the Office of Acquisition and Property Management; to support Title I contracts and audit resolution.

the Title I proposal is accepted, serve as the contract designated federal official (project officer) for the award. In the case of declination or rejection, further technical assistance will be offered to overcome declination or rejection.

3. Analyze and negotiate Contract Support Costs (CSC) for start up and ongoing direct and indirect-type CSC requests, and the maintenance of CSC records in support of Area-wide CSC needs in accord with IHS policy. Currently records are maintained for 36 Alaska awardees. The office will continue to administer the CSC funds (Indian Self-Determination Fund start-up, direct and indirect administrative cost funds). Allocation plans and funding applications will be developed, maintained and negotiated on behalf of Tribes and Tribal organizations. The office will continue to develop and maintain the Alaska Area Tribal database for the CSC fund, which clearly documents, for IHS and Congress, Tribal shortfall and start-up needs.

4. Support and clearance of submissions of CHEF requests to the national CHEF pool, unless a lawful alternative methodology is developed enabling direct submission by Tribal health programs participating in the CHEF program. More specifically this includes education and technical assistance on the process for requesting reimbursement and the maintenance of records on submittals, reimbursements, cancellations and supplemental requests.

5. Prepare Title V FA amendments at the request of Co-Signer, upon notification of change in funding, or as negotiated.

6. Provide information to Tribes on any proposed changes to the CHS fiscal intermediary contract, and advocates for revisions requested by Tribes.

7. Negotiate, execute, and administer all P.L. 93-638 Title I contracts including close out and site reviews as requested or required.

8. Coordinate with IHS Headquarters, the National External Audit Review Office, and Tribal contractors to resolve audit findings for Title I contracts and Title V funding agreements.

RESOLUTION TO PROVIDE HEALTH SERVICES TO NON-INDIAN HEALTH SERVICE BENEFICIARIES

RESOLUTION 101020-01

WHEREAS, Chickaloon Village Traditional Council is an Indigenous Government with full power and authority to act for Chickaloon Native Village, and/or Chickaloon Village (Nay'dini'aa Na'); and

WHEREAS, Chickaloon Village is part of the Athabascan Nation and is a distinct, independent political community, and as such is qualified and exercises powers of self-government by reason of its original Tribal sovereignty as passed down from its ancestors since time immemorial; and nothing in this resolution shall be in conflict therewith; and

WHEREAS, Chickaloon Native Village is a Federally-recognized Tribal Government in Alaska (Federal Register, Volume 58, Number 202, November 24, 1982), with full power and authority to negotiate with the Federal Government; and

WHEREAS, Chickaloon Village Traditional Council did not cede, terminate, extinguish, or relinquish its original, possessory and aboriginal rights; and

WHEREAS, Chickaloon Village Traditional Council is the governing body of Chickaloon Village as recognized by the Chickaloon Tribal citizens; and has a responsibility to provide a government for the good health and welfare of its Tribal citizens, address any needs in its community; and

WHEREAS, Chickaloon Village Traditional Council's strategic plan identifies delivery of health services as a short-term goal in order to reach our long-term goal of exercising and asserting our self-determination by developing and managing programs to serve our health, social, housing, educational, judicial, transportation, and economic development needs; and

WHEREAS, the Chickaloon Village Traditional Council has provided health services pursuant to a contract with the Indian Health Service pursuant to Title I of the Indian Self-Determination and Education Assistance Act and is entering into the Alaska Tribal Health Compact as of FY 2011 pursuant to Title V of the Indian Self-Determination and Education Assistance Act in order to expand its ability to meet the needs of its tribal citizens and other Indian Health Service beneficiaries; and

WHEREAS, Section 813 of the Indian Health Care Improvement Act, as amended, authorizes the governing body of an Indian Tribe providing health services under a compact to determine whether such health services should be made available to individuals not otherwise eligible for such health services; and

WHEREAS, the Chickaloon Village Traditional Council has determined that it will be able to provide a broader array of services to its tribal citizens and other IHS beneficiaries if it also serves individuals not otherwise eligible for such health services since those services will generate needed third-party revenues; and

WHEREAS, the Chickaloon Village Traditional Council has determined that providing such services will not result in the denial or diminution of health services by any Indian or Alaska Native entitled to such health services; and

WHEREAS, the Chickaloon Village Traditional Council health programs have the capacity to bill and collect to ensure that it recovers the cost of delivering health services provided to an individual who is not otherwise entitled to services under the Compact and Funding Agreement; and

WHEREAS, the Chickaloon Village Traditional Council has determined that the conditions of Section 813, as amended, are satisfied;

NOW THEREFORE BE IT RESOLVED, that Chickaloon Village Traditional Council hereby authorizes delivery of health services to individuals who would not be otherwise eligible for health services in accordance with the requirements of Section 813 of the Indian Health Care Improvement Act, as amended, that such services will not result in denial or diminishment of health services to those otherwise entitled to health services under the Chickaloon Village Traditional Council's Compact and Funding Agreement with the Secretary of Health and Human Services; AND

BE IT FURTHER RESOLVED the Chickaloon Village Traditional Council hereby authorizes its Health Director to monitor the delivery of health services offered pursuant to this Resolution and to report to the Chickaloon Village Traditional Council if, at any time, it appears that offering services pursuant to this Resolution may result in denial or diminishment of services to individuals otherwise eligible for services. ; and

It is hereby certified that this resolution was duly considered and approved this 12th day of October 2010, ✓ unanimous; or with a majority vote of 0 affirmative; 0 negative; 0 abstention, and/or 0 absent votes.

FY 2023 Facilities List

DEPARTMENT	WORK #	FAX #	Address:	City/State/Zip	Other Uses
Accounting / Administration Ggax Hwnax (Rabbit House) Environmental Stewardship	745-0749	745-0709	9255 North Glenn Highway	Palmer, AK 99645	Accounting, I/T, Administration, and Ahtna Language program offices Environmental Services and Education
Red Building Udzih Hwnax	745-0749	745-0709	9255 North Glenn Highway	Palmer, AK 99645	Used to house culture and Tribal Historic Preservation Office;
Benteh Nuutah Valley Native Primary Care Center			1001 S Knik-Goose Bay Rd.	Wasilla, AK 99654	Chickaloon HSS has an office here, used for meetings and trainings.
Education Campus (Ya Ne Dah As)YNDAS/Preschool Tikaandi Hwnax (Wolf House)	745-0722	745-7154	9109 North Glenn Highway	Palmer, AK 99645	Counseling and testing, culture and language programs; Pre-K through 8th grade school that does health promotion and prevention, including teaching western academics, Ahtna language and culture, experiential learning outside. Facilities also used for meetings, Beading Class, Parenting Classes, and family Counseling.
Tribal Government, Justice Department, Tribal Court Ne'iine' Hwnax (Chickadee House)	745-0704	745-0708	16166 North Glenn Highway	Sutton, AK 99674	Counseling, Elders' Lunches, staff trainings, Traditional Council Meetings, education and health training; and case management services. The Justice Department and Court resides in the lower part of the building.
Health & Social Services C'eyiits' Hwnax (Life House) Clinic			111495 North Callison St.	Sutton, AK 99674	Health & Social Services Department, ICWA offices, and Clinic; some space shared with SCF and CITC.
Green House C'etaan Hwnax (Green House)	N/A	N/A	21117 East Myers Ave. Log Building	Sutton, AK 99674	Traditional Healing and Nutrition Gardens/Volunteer Opportunities
Affordable Housing			All Elk Rd.	Sutton, AK 99674	14-15 units, with 1-2 being added per year for transitional living/housing for those in recovery
School Storage – Blue Building Debae Hwnax (Sheep House)	745-0793		9109 N Glenn Highway	Sutton, AK 99674	Storage for the School.
Storage Office - Green Building Naggets'I Hwnax (Red Fox House)	N/A	N/A	9255 North Glenn Highway	Palmer, AK 99645	Administrative Records Storage/Classroom
Transit/Transportation Ł̨ukae Hwnax (Fish House)	745-1735	745-0654	21117 East Myers Ave.	Sutton, AK 99674	Heath and wellness transportation including on-demand transit to the Clinic, HHS programming (such as the elders program), and wellness activities. Also includes HSS

DEPARTMENT	WORK #	FAX #	Address:	City/State/Zip	Other Uses
					transportation and advocacy services by reservation, which provides outreach, behavioral health, medical, elders (to pay bills, get groceries, etc.) Also provides employment transportation.
Sutton Library			11301 Chickaloon Way	Sutton, AK 99674	Health fairs, training
Alpine Historical Park			Mile 61.6 Glenn Highway	Sutton, AK 99674	Adjacent to library. Chickaloon conducts trainings here.
Raven Hall			State Fairgrounds (2075 Glenn Highway)	Palmer, AK 99645	Annual Gathering health fair every summer
Moose Creek Campground			Mile 54 ½ Glenn Highway	Sutton, AK 99674	Training; staff meetings; educational sessions held in summer.
Larry Wade House			8975 N Glenn Hwy	Palmer, AK 99645	New house and workshop space, PPE storage and office records storage, and workspace for wellness projects; also serves as temporary quarantine/isolation location to mitigate the spread of COVID-19, in accordance with applicable standards, and/or infection control procedures.
Hemmer House			2301 N Hemmer Rd	Palmer, AK 99645	New health department office (public health) in Unit A. Also serves as temporary quarantine/isolation location in Units B and C of the building - to mitigate the spread of COVID-19, in accordance with applicable standards, and/or infection control procedures.

Appendix F-4

Project Summary Document

IV-1.
Policy #4*.
Project Summary Document Formats

Project Summary Documents describe projects being submitted to the MIRAC for funding from the maintenance & improvement funds (both competitive BEMAR funds and non-routine non-competitive Oklahoma Formula funds). Supporting documents to the PSD typically entail 100% design drawings (for projects requesting construction funds), construction cost estimates, product literature (for equipment specific PSDs), and contractor proposals or cost estimates.

A cover letter accompanies submitted PSDs, which affirms the organization's desire to submit these projects to the MIRAC for consideration.

The sections of the PSD are listed below.

PROJECT SUMMARY DOCUMENT

[Name of Project]
[Facility Priority Number] (use for multiple PSD submittals to prioritize your projects)
[Date]
[Facilities Board Project Number]
[Facility Name]
[Location], [State]

I. SUMMARY

[Summarize the project and include what is to be done, why (e.g., to add 135 gross square meters of space or replace a boiler), and the type of funding (e.g., Maintenance and Improvement, Quarters, Corporate Cost Sharing, etc.). This section should be no more than two paragraphs. Use attachments for project location maps and facility drawings.]

II. PROJECT SCOPE AND DESCRIPTION

A. Description of Project. [Provide a detailed explanation of the work to be accomplished by the project and the desired outcome of the project. Include all items reflected in the cost estimate. This information can be presented in bullet/list or narrative form.]

B. Project Justification. [Explain why the project is necessary. Link the justification to the developed Health Facilities Master Plan if appropriate. Discuss how the project will meet program needs, and how it will comply with legal, code, accreditation, and certification

* Sections of this policy modified by DEHE Staff to reflect formation of the MIRAC and for clarification of non-competitive project submittals.

requirements. Cite specific, code or JCAHO references by standard clause, chapter, paragraph, etc.]

III. DEFICIENCIES

The following deficiencies will be corrected as part of this project:

[List and describe only those facility deficiencies this project will address. The types of deficiencies include BEMAR, JCAHO, NFPA, HFPM, Public Law compliance items, ADA, etc.]

IV. COST ESTIMATE

Provide a budgetary cost estimate and the funding sources for the proposed project, including separate line items for design Architect/Engineer fees, project construction, construction contract administration fees, and project contingency.

V. PROJECT SCORE SHEET DOCUMENT (*only required for BEMAR competitive pool funds*)

Complete a project score sheet further detailing the scope, impact and benefits of this project. Provide the information required by the project score sheet.

VI. OTHER PROJECT ITEMS TO BE ADDRESSED

Supporting Documents: Drawings, Photos, Estimates, Etc.

Appendix F-5

Environmental Information and Documentation

ENVIRONMENTAL INFORMATION AND DOCUMENTATION

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

Considerations	Basis for Determination (Documentation)
1. Will the proposed action result in a known violation or continuance of a violation of applicable (Federal, Tribal, State or local) laws or requirements for protection of environment or public health and safety?	Yes or No. Explanation.
2. Will the proposed action result in a conflict with existing or proposed federal, Tribal, state, and local land use plans?	Yes or No. Explanation.
3. Is there a controversy with respect to environmental effects of the proposed action based on reasonable and substantial issues?	Yes or No. Explanation.
4. Is the proposed action significantly greater in scope than normal for the area or does it have significant unusual characteristics?	Yes or No. Explanation.
5. Does the proposed action establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

6. Does the proposed action have significant adverse direct or indirect effects on park land, other public lands, or areas of recognized scenic or recreational value?	Yes or No. Explanation.
7. Does the proposed action include construction of a new municipal solid waste landfill at a new solid waste disposal site?	Yes or No. Explanation.
8. Will the proposed action create a need for additional capacity at solid waste disposal facilities?	Yes or No. Explanation.
9. Does the proposed action include construction of a new wastewater treatment facility that will discharge treated sewage effluent to the waters of the U.S.	Yes or No. Explanation.
10. Will the proposed action create a need for additional capacity at wastewater treatment facilities?	Yes or No. Explanation.
11. Will the proposed action create a need for additional capacity in the drinking water supply?	Yes or No. Explanation.
12. Are there other considerations about the proposed action that could adversely affect the environment and/or public health and safety?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

13. Will the proposed action create a need for additional capacity in health care facilities and for health care services?	Yes or No. Explanation.
14. Will the proposed action create a need for additional energy supply or generation?	Yes or No. Explanation.
15. Will the proposed action create a need for additional capacity in educational facilities?	Yes or No. Explanation.
16. Will the proposed action create a need for additional capacity in transportation systems?	Yes or No. Explanation.
17.Historic Preservation: a. Does the proposed action involve the purchase, construction, alteration, renovation, or lease of a building or portion of a building that is more that 50 years old?	Yes or No. Explanation.
b. Will the proposed action adversely affect properties listed, or eligible for listing, on the National Register of Historic Places?	Yes or No. Explanation. or No

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

18. Endangered Species Act: Is the proposed action likely to adversely affect a plant or animal species listed on the Federal or applicable state list of endangered or threatened species or a specific critical habitat of an endangered or threatened species?	Yes or No. Explanation.
19. Will the proposed action require major sedimentation and erosion control measures?	Yes or No. Explanation.
20. Will the proposed action violate a storm water permit or a wastewater discharge permit either for construction or on-going operations?	Yes or No. Explanation.
21. Safe Drinking Water Act: Will the proposed action impact an EPA designated sole source aquifer?	Yes or No. Explanation.
22. Wetlands and Water Resources (lakes, rivers, ponds, streams, etc.): Will the proposed action violate a Section 404 (Clean Water Act) permit for actions in a wetland and/or Section 10 (Rivers and Harbors Act) permit for actions in a stream or river?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

23. Floodplains: a. Is the proposed action located in either a 100-year or, for critical actions, a 500-year floodplain? (If Flood Insurance Rate Maps do not exist for the project site, a floodplain survey or consultation may be required. Also may need to consider if the facility will require flood insurance).	Yes or No. Explanation.
b. Will the proposed action adversely impact flood flows in a floodplain or support development in a floodplain?	Yes or No. Explanation.
24. Existing site: Would the proposed action involve the purchase, construction or lease of new facilities (including portable facilities and trailers), substantially increase the capacity of an existing health care facility?	Yes or No. Explanation.
25. New site: Does the proposed action involve purchase, construction, or lease of new facilities (including portable facilities and trailers) where such action is for buildings equal to or more than 12,000 square feet (1080 square meters) of useable space when more than 5 acres (2 hectares) of surface land area are involved at a new site?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

26. New site: Does the proposed action involve purchase, construction, or lease of health care facilities (other than buildings) for projects equal to or more than 5 acres (2 hectares) of surface land area at a new site?	Yes or No. Explanation.
27. Does the proposed action involve the sale or transfer of real property, on which any hazardous substance was stored for one year or more, known to have been released, or disposed of? (Provide relevant documentation for any hazardous substance releases. See 40 CFR 373.2(b), 302.4, and 261.30 for reportable quantities.)	Yes or No. Explanation.
28. Does the proposed action involve the sale or transfer of real property, on which underground or above ground storage tanks are located?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

29. Will the proposed action violate Tribal, local, state, or federal law on the use and storage of hazardous substances or the transportation, storage, and disposal of hazardous wastes or medical wastes? (Activities that may generate reportable quantities include air conditioning repair and service, pesticide application, motor pools, automobile repair, welding, landscaping, agricultural activities, print shops, hospitals, clinics, & medical centers. Repair, renovation, or demolition activities can generate waste that has asbestos-containing materials, asbestos, lead-based paint, PCBs, CFCs, etc.)	Yes or No. Explanation.
30. Will the proposed action adversely affect community air pollution for a long period of time?	Yes or No. Explanation.
31. If the proposed action is implemented, will it have a disproportionately high and adverse human health or environmental impact on the Tribe, low-income populations, or minority populations?	Yes or No. Explanation.
32. Will the proposed action adversely affect community noise levels?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

33. Wilderness Act: Will the proposed action adversely impact a Wilderness Area?	Yes or No. Explanation.
34. Farmland Protection Policy Act: Will the proposed action convert significant agricultural lands to non-agricultural uses and exceed 160-point score on the farmland impact rating?	Yes or No. Explanation.
35. Coastal Zone Management Act: Will the proposed action directly affect a Coastal Zone in a manner inconsistent with the State Coastal Zone Management Plan?	Yes or No. Explanation.
36. Wild and Scenic Rivers Act: Will the proposed action affect a wild, scenic, or recreational river area or create conditions inconsistent with the character of the river? (A consideration for activities that are in or near any wild and scenic waterway including construction of stream/river crossings, intake structures, outfalls, etc.)	Yes or No. Explanation.

I certify that to the best of my knowledge and ability the information presented above is true and correct. The record was examined to identify potential extraordinary or exceptional circumstances which would require further environmental review.

Appendix G

Actions Requiring IHS Environmental Review and Determination

APPENDIX G – Actions Requiring IHS Environmental Review and Determination

For actions outlined in the below table, which are to be undertaken by Chickaloon Native Village, Chickaloon shall submit a proposal package that includes a completed Project Summary Document (See Appendix F-4) and Environmental Information and Documentation Form (See Appendix F-5) to the IHS. Coordination time between Chickaloon and the IHS to complete the Environmental Review and Determination process varies for each group of actions. The timing provided below indicates the expected timeline to complete the process for each group of actions. Early coordination in the planning phase of a project between Chickaloon, IHS, and other stakeholders will help ensure environmental concerns are addressed in a timely manner and project delays are minimized so that IHS can complete its environmental responsibilities and issue a Determination Document as early as possible.

	Action	Expected Timelines
	Categorically excluded actions per Federal Register Vol. 58, No. 3, pg 571(I)(3), (I)(4), (I)(6), and (I)(7), dated January 6, 1993.	**The Environmental Review and Determination Process for this group of actions ranges from 45 to 90 days from the receipt by the IHS of the proposal package.***
[]	Pg 571 (I)(3): Building alteration or renovation that does not substantially change the function or general appearance of existing buildings.	
[]	Pg 571 (I)(4): Construction or lease of new facilities (including portable facilities and trailers) where such lease or construction: (a) is at the site of existing health care facility and the facility capacity is not substantially increased, (b) is for building of less than 12,000 square feet of useable space when less than five acres of surface land area are involved at a new site, or (c) is for projects other than buildings when less than five acres of surface land area are involved at a new site.	
[]	Pg 571 (I)(6): Acquisition of space by lease, use agreement, transfer, gift or similar arrangement for which: (a) the intended use of the space is consistent with the functional design of the building, and (b) the acquisition is consistent with an applicable master plan, if such plan exists.	
[]	Pg 571 (I)(7): The acquisition, sale, release, abandonment, closure or transfer of real property, provided the action: (a) is consistent with any applicable master plan, if such a plan exits, (b) conforms to local zoning and land use ordinances, if such ordinances exist, (c) is consistent with the functional design of the facility, (d) would not violate applicable Federal, State, or local environmental protection or historic preservation laws, and (e) satisfies the requirements of applicable comprehensive Environmental Response Compensation and Liability Act (CERCLA)section 120 (h) provisions.	
	Any normally categorically excluded actions that may have Extraordinary or Exceptional Circumstances per Federal Register Vol. 58, No. 3, pg 571-72(K), dated January 6, 1993.	**The Environmental Review and Determination Process for this group of actions ranges from 60 to 180 days from the receipt by the IHS of the proposal package.**
[]	Pg 571 (K)(1): Those with potential to change the existing environment where such change violates directives or other controls that are imposed by any governmental body having jurisdiction, for the purpose of protecting or otherwise affecting that environment;	
[]	Pg 571 (K)(2): Those with potential or real threat of violation, or continued violation, of an applicable Federal, State, or local law or requirement imposed for protection of the environment or to ensure public health and safety;	
[]	Pg 571 (K)(3): Those likely to cause controversy with respect to the types or extent of the resulting environmental effects where such controversy is based on pertinent and substantial issues;	

[]	Pg 571 (K)(4): Those involving the use of technology where the possible effects are highly uncertain or involve unique or unknown risks and where such technology has not been assessed previously for environmental impact;
[]	Pg 571 (K)(5): Those which have adverse effects on unique geographic characteristics (e.g. historic, archeological, or cultural resources, park recreation or refuge lands, wilderness, areas, wild or scenic rivers, sole or principal drinking water aquifers, prime farmlands, wetlands, floodplains, coastal management zones, or ecological or critical areas including those listed on the Department of Interior National Register of National landmarks);
[]	Pg 571 (K)(6): Those which establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects;
[]	Pg 571 (K)(7): Those which have adverse effects on properties listed or eligible for listing on the National Register of Historic Places;
[]	Pg 571 (K)(8): Those which have adverse effects on species listed by the Federal Government as Endangered or Threatened Species, or which have adverse effects on any designated critical habitat for these species;
[]	Pg 571 (K)(9): Those which require assessment in accordance with Executive Order 11988 (Floodplain Management), or Executive Order 11990 (Protection of Wetlands), or the Fish and Wildlife Coordination Act; and
[]	Pg 572 (K)(10): Those which involve the use, transfer, or lease of real property which has been determined, after investigation in accordance with the provisions of CERCLA 120 (h), to have been used as a storage facility for hazardous waste for more than 1 year; and
[]	Pg 572 (K)(11): Construction projects which are significantly greater in scope or size than normally experienced for a particular category of action.

Any action NOT categorically excluded per Federal Register Vol. 58, No. 3, pg 569-572, dated January 6, 1993 attached hereto.	**The Environmental Review and Determination Process for this group of actions ranges from 60 to 180 days from the receipt by the IHS of the proposal package.**

* The time needed to complete Environmental Reviews is highly dependent on required consultations with other Federal and State Agencies. As an example, the NHPA Section 106 Process requires the State Historic Preservation Officer (SHPO) be allotted 30 days to review and comment on a proposed action (36 CFR Part 800.3(c)(4)). Furthermore, additional time beyond the 30 days may be required for consultation with SHPO to adequately review and determine the effects of the proposed action on existing historical resources. Coordination early in the planning phase of the project can help identify these potential issues and allow Chickaloon and IHS to resolve them early.

FUNDING AGREEMENT

BETWEEN

BRISTOL BAY AREA HEALTH CORPORATION

AND

THE SECRETARY OF HEALTH AND HUMAN SERVICES

October 1, 2014

FYs 2015-2017

FUNDING AGREEMENT
BETWEEN
CERTAIN ALASKA NATIVE TRIBES IN THE
BRISTOL BAY AREA REGION
AND
THE SECRETARY OF HEALTH AND HUMAN SERVICES
FYs 2015-2017

This Funding Agreement (FA) is entered into by and between certain Alaska tribes in the Bristol Bay region as identified on the signature page herein and the Secretary of the Department of Health and Human Services. These tribes have authorized the Bristol Bay Area Health Corporation (BBAHC) to sign this FA for them and to be responsible for carrying out the terms of this FA.

Section 1 - Obligations of the Indian Health Service (IHS).

(a) This FA obligates the IHS to provide funding and services identified herein and as provided in the Alaska Tribal Health Compact (ATHC) between the BBAHC and certain other Co-Signers thereof and the United States in Fiscal Years 2015-2017 and in the Financial Summary of the FA attached as Appendix A and incorporated by reference herein.[1]

Under the authority of Section 325 of P.L. 105-83 and P.L. 93-638 as amended non-residual programs, services, functions and activities (PSFAs) of the Alaska Area Office and the Alaska Native Medical Center (ANMC) have been transferred to tribal management.

Delivery of PSFAs shall be consistent with this FA. IHS shall remain responsible for performing all federal residual PSFAs. The IHS shall remain responsible for negotiating assurances with the Alaska Native Tribal Health Consortium (ANTHC) and Southcentral Foundation (SCF) on behalf of Alaska Natives and American Indians to the effect that Co-Signers continue to receive non-residual PSFAs from the Area Office and ANMC provided by ANTHC and SCF at a minimum at the level that such PSFAs were provided by the IHS as of October 1, 1997, to the extent permitted by Section 325 of P.L. 105-83. To the extent authorized by federal law, the IHS will respond to written Co-Signer concerns about the extent with which such assurances have not been complied and take appropriate action. IHS shall further be responsible for performing its special trust responsibilities and legal obligations as provided in the Indian Health Care Improvement Act (IHCIA), the Indian Self-Determination and Education Assistance Act (ISDA), and other applicable provisions of federal law.

[1] All references to Appendix A and Appendix B in this Agreement are to the Appendix for the applicable fiscal year.

MAY 25 2016
OTSG

In addition, although funds are provided from Headquarters and Area Office in support of this ATHC, the IHS will agree to continue to make available to this Co-Signer programs, services, functions, and activities from both Area Office and Headquarters unless 100 percent of the total tribal shares for these programs, services, functions and activities have been specifically included in this Agreement. In cases where a portion of a tribal share is provided there may be some diminishment of the level of PSFAs provided by IHS. Furthermore, the IHS will reorganize both Headquarters and the Area Office to continue to provide the remaining functions which have not been included in this Agreement in the most effective and efficient manner possible, provided that decisions about the array and level of programs, services, functions, and activities to be offered by the IHS shall be made in consultation with Alaska Tribes. The IHS programs, services, functions, and activities not negotiated into this Agreement or listed in Appendix A will be the responsibility of the IHS.

A Memorandum of Agreement describing the Continuing Services of the IHS, Alaska Area Native Health Service, among the Co-Signers and the Alaska Area Native Health Service (AANHS), reflects the understanding of the parties regarding services to be provided by the AANHS to Co-Signer during the term of this FA. This document, attached as Appendix B, is hereby incorporated by reference.

Unless funds are specifically provided from IHS Headquarters, IHS Headquarters retains all PSFAs and BBAHC will not be denied access to, or services from, IHS Headquarters. Specifically, the BBAHC will receive the following services from IHS Headquarters.

(1) Information Services. The IHS will provide the full range of Office of Information Technology (OIT) national support to the ANTHC and ANMC. The OIT will provide specified services directly to BBAHC. In addition, OIT will provide support to ANTHC to assist it to carry out its responsibility to provide day-to-day technical support, user support, distribution of software and files and other typical information technology support to Co-Signers as defined in the Assurances Appendix to the current ANTHC FA. Upon request of ANTHC, after good faith efforts to resolve BBAHC's technical issue, OIT's support of BBAHC will include technical support needed on-site by BBAHC. A list of the services due under this paragraph, with identification of the method of delivery, is attached as Appendix F.

(b) BBAHC has historically received certain PSFAs from the ANMC and the AANHS. Responsibility for these PSFAs has been transferred to the ANTHC and SCF. For purposes of identifying those services provided by ANMC and AANHS prior to transfer of management to ANTHC and SCF, BBAHC has attached to this FA an Addendum I entitled (Memorialization of Historical Level of PSFAs Provided by ANMC and AANHS.) The PSFAs listed in this Addendum are taken from BBAHC's FY 1999 AFA. Addendum I is attached to the present FA only for the purpose of identifying the

historical level of PSFAs received by BBAHC from ANMC and AANHS, and is specifically not made a part of this FA.

(c) During the term of this FA, IHS will exercise its best efforts to complete the environmental study provided for in Section 1c of the 2005 FA. The IHS will exercise its best efforts to find solutions to the issues addressed therein and as provided in Section 12 (a) (1) of this FA.

(d) The services referred to in paragraph (a), other than residual federal functions, and the services referred to in paragraph (b) are funded from resources identified as tribally restricted in Appendix A. See Appendix A and Appendix B.

(e) The IHS retains the responsibility, pursuant to section 119 of the IHCIA, as amended, to maintain the IHS Community Health Aide Program Certification Board, which was established by and is under the direct control and supervision of IHS, to accredit training for and to certify community health aides, which includes community health practitioners, dental health aides, and dental health aide therapists.

Section 2 - Obligations of the BBAHC. This Agreement obligates BBAHC to be responsible for and to provide health programs, functions, services, and activities, utilizing the resources transferred under this Agreement and other funds as they may become available to BBAHC. This Agreement further authorizes BBAHC to consolidate and redesign PSFAs identified in Section 3 as provided in the ISDA as amended, and the ATHC. BBAHC is obligated to seek third party reimbursement as provided by federal law and is payer of last resort for services paid for with contract health service funds. Whether providing, purchasing or authorizing health care services described in the Compact and this FA, in accordance with Section 2901(b) of Pub.L. 111-148, 25 U.S.C. § 1623(b) and as otherwise provided by law, BBAHC shall be the payer of last resort. BBAHC is committed to and will strive to provide quality health services and is committed to and will strive to meet standards BBAHC believes to be appropriate and applicable to the delivery of such health services.

Section 3 - Tribal Programs and Budget. BBAHC agrees to administer the Kanakanak Service Unit of the IHS, a tribally operated Service Unit of the IHS, and to provide and be responsible for the health programs, services, functions, and activities identified below in accordance with the ATHC and this Agreement to the extent that funds are available. To the extent any tribe, which authorizes BBAHC to enter into the ATHC on its behalf, enters into a contract under Title I of P.L. 93-638 or a FA pursuant to the ATHC under Title V of P.L. 93-638, as amended, BBAHC will not be obligated to provide any PSFAs incorporated into such contract or FA, except that BBAHC, subject to the approval of the governing bodies of BBAHC and the Tribe and the availability of resources, may provide services to such a tribe.

BBAHC through its Board of Directors and Administration provides policy and administrative/executive direction and oversight for all PSFAs in this Agreement. Board members, officers and staff represent BBAHC on local, regional, state, and national committees, and boards to provide for advocacy, negotiations, coordination, consultation, development of new programs and information activities.

BBAHC agrees to provide health care services to the Alaska Native and American Indian beneficiaries in the Bristol Bay Region and in the villages of Goodnews Bay, Platinum and Kanatak. These services include, to the extent funds are available, hospital and clinic services including ancillary and support services, Dental, Community Health Representative, Maternal Child Health, Community Health Aide/Practitioner, Emergency Medical Services, Accident Injury Control Program, Alcohol, Mental Health, Fetal Alcohol Syndrome/Fetal Alcohol Effects (FAS/FAE), Hemophilus Influenza B, Environmental Health, Health Education, Patient and Staff Housing and special programs developed to ensure the continuum of care is available such as Audiology, Water Safety, Remote Maintenance, Home-based Services (including services to elders, disabled persons and other home-bound patients, palliative home care and other end of life services), comprehensive health care nursing services for the elderly, disabled and others needing long term health care that include nursing facility services, Swing Beds providing, in so far as available extended care for patients as medically indicated. Mid-level clinics/Practitioners, Telemedicine/Teleradiology, Volunteers, Speech, Occupational and Physical Therapy and Medical Nutrition and Special Education and Services addressing the needs of women and children on an outpatient and inpatient basis. Services will be provided at Kanakanak Hospital, in the villages and in the field both within and without the Bristol Bay region. BBAHC provides and facilitates a wide range of services directly through and in cooperation with ANMC, ANTHC, SCF and other Co-Signers through field clinics, referrals to ANMC and other arrangements.

For the purposes of this Agreement, BBAHC's General Budget Categories consolidate related health programs, services, functions, and activities as follows:

(a) Hospital and Clinic Services: BBAHC is committed to quality patient care achieved through maintaining qualified staff, appropriate equipment, well-functioning physical plant and the continuous supply of medical provisions required to provide quality patient care as defined in the standards of the Joint Commission.

(1) Patient Care:

Under a comprehensive health care delivery plan BBAHC agrees to provide the following direct patient care services:

- acute patient care
- 24-hour emergency services
- ambulatory care services
- specialty clinics support

- optometry services provided at the hospital and in the villages
- appropriate emergency and minor surgery and diagnostic procedures, including colonoscopy
- medical escort/evacuation services
- mid-level practitioners in subregional clinics and/or Community Health Centers
- licensed physician coverage plus medical students, residents, and allied health provider students from accredited institutions, services provided in the hospital and in the villages and through daily contact by telephone with Community Health Aides/Practitioners in the villages
- stabilization, medical monitoring and observation of patients in remote primary care centers
- comprehensive services to victims of sexual assault and abuse
- mammography and other cancer screening

Beyond the medical services/activities furnished under the hospital operations a Referral/Transport system from the village or field location, to/or from Kanakanak Hospital to the next higher level of care (for example, ANMC) will be maintained, (e.g., patient transport vehicle, medivac transport and patient transportation) subject to available funding. Air, sea and/or ground transportation services, including emergency medivac services, patient transport vehicle including boats and patient transportation (including adult escort, health professional and other escort as BBAHC deems appropriate) and emergency or non-emergency air transportation where ground transportation is not feasible and transportation by private vehicle where no other means is available, including specially-equipped vehicle, ambulance, and fishing boats), will be provided in any case which an authorized health center employee or medical provider deems such mode of transportation necessary and permitted by applicable safety guidelines. BBAHC may provide the above described patient transportation services in accordance with section 213 of the IHCIA, as amended at 25 U.S.C. § 1621*l*.

(2) **Ancillary Services**: Ancillary services will be maintained at levels sufficient to support medical diagnosis, including but not limited to physical therapy, respiratory therapy, laboratory, medical imaging, pharmacy, social services, and medical nutrition services within the funds available.

(3) **Support Services**: A complement of services required to support the provision of health services to the Bristol Bay region may include but are not limited to: plant operations, housekeeping and linen service, security, personnel, housing, health information management services, information systems, compliance, administration and board support, material management (procurement, receiving, processing and distribution), central sterile supply, mailroom, construction and repair project management,

safety management, telecommunications and financial, including business office functions and patient, employee and visitor food service, biomedical services, employee health and education and public relations.

(4) **Contract Health Services**: Purchase services not otherwise available or accessible to eligible beneficiaries on a contractual or open-market basis, within available funds.

(5) **Patients in Custody:** BBAHC confirms to law enforcement authorities medications for patients in custody and admits for inpatient care, on a reimbursable basis, patients in custody as medically necessary.

(b) Additional on-going programs

(1) **Alcohol and Drug Abuse**: Provide treatment services for substance abuse and associated problems through outpatient services, prevention/education, referral services, transitional/residential care services, outreach services, after-care programs, social detoxification services, and community involvement. To the extent funds are available, BBAHC will provide behavioral services (for both Alcohol and Drug Abuse and Mental Health) under standards and procedures approved by the IHS Community Health Aide Program Certification Board (CHAPCB). Behavioral health and residential treatment services will be provided in accordance with § 702 of the IHCIA, as amended at 25 U.S.C. § 1665a.

(2) **Mental Health**: Provide outpatient services to address adult, family, child, adolescent and community mental health problems through mental health programs and services throughout the Bristol Bay service area, including crisis intervention and services responding to child sexual abuse, preventive education, outreach, referral, village-based counseling, respite and transitional care services and, to the extent that funds are provided, telepsychiatry. BBAHC will provide face-to-face assessment and reassessment by a mental health professional on reimbursable basis to persons in custody of law enforcement authorities to assess acute psychiatric emergencies. It will also provide critical stress debriefing services and crisis response services.

(3) **Dental**: Provide general dentistry services (including, to the extent funds are available, orthodontics and specialty clinics in oral surgery, peridontics, prosthedontics, pediodontics) to raise dental

health and lower the incidence of dental disease. Services will be supervised by licensed dental staff at the Kanakanak Hospital clinic as well as through regularly scheduled visits to villages in the service area. Dental services may be provided by Dental Health Aide/Therapist (DHA/T) under the Standards and Procedures approved by the CHAPCB. See section 2(b)(8) below.

(4) **Environmental Health**: Identify, evaluate and control the biological, chemical and physical factors in the environment that may have an adverse impact on health. Supervision and coordination of the Remote Maintenance program and approved laboratory for testing water, etc, including monitoring safe drinking water in approximately 30 rural Native Alaskan community systems within the service area, and other associated drinking water systems and surveys of Village Built Clinics for IHS, Area and Office of Environmental Health and Engineering (OEH&E) and water and sewer and other utility operator services.

(5) **Health Education**: Provide services to inform, educate and motivate residents to adopt healthy lifestyles including FAS/FAE, sex education and counseling, nutrition education and other educational services addressing the special needs of women and children, substance abuse prevention including nicotine use cessation, and village-based services to determine health care needs and advocacy services.

(6) **Maternal and Child Health Program**: Provide prenatal care, family planning and newborn patient education, assistance in risk screening, coordination of prenatal care, room and board for village women awaiting delivery at Kanakanak hospital, and early intervention services for children from birth to three years with diagnosed disability and demonstrated developmental delays.

(7) **Emergency Medical Services** (EMS): Provide services in accordance with State and Federal guidelines to lower the incidence of accidental death and disability by providing various levels of EMS training (including first aid, EMS, CPR, ETT, and EMT, ACLS, KTLS, PALS, and NRP); while continuing to develop the basic life support system. This program will also assist in the enhancement, certification, and planning for disaster response and emergency preparation.

(8) **Community Health Aide/Practitioner Program**. Provide village primary health care services; provides support, supervision, quality

assurance/CQI for the CHA/P; arranges training for CHA/P; provides administrative services for CHA/P and mid-level practitioners in sub-regional clinics and/or community health centers, including dental and behavioral health aide services under the standards and procedures approved by the IHS Community Health Aide Program Certification Board. The IHS retains the responsibility, pursuant to Section 119 of the IHCIA, as amended, to maintain the IHS Community Health Aide Program Certification Board (CHAPCB), which was established by and is under the direct control and supervision of IHS, to accredit training for and to certify community health aides, which includes community health aides/practitioners, dental health aides, and behavioral health aides/practitioners.

(9) **Accident and Injury Control Program**: Provide services at the hospital and in the villages designed to lower the incidence of death and disability from injuries (including severe injury surveillance, drownings, air crashes, suicides, and snow mobile accidents). Such services may include providing sports physicals in local schools or clinics.

(10) **Audiology**: Provide appropriate scope of audiology services, including universal newborn hearing screening program.

(11) **Immunization Program:** Provide Hemophilus Influenza Type B (HIB) and other immunization vaccination activities.

(12) **Village Built Clinic Lease Program (VBC)**: Provide funds to eligible entities to support the rental of CHA/P clinic space. During FYs 2015-2017, BBAHC VBC funds may be withheld by IHS and be managed by Area OEH&E at the option of BBAHC. The IHS will provide to BBAHC annually copies of VBC leases. In administering these leases the IHS will work with BBAHC to ensure that the lessors are in compliance with the standards referenced in the VBC leases. IHS also agrees to work with BBAHC in discussions of the appropriateness of including VBC leases in BBAHC's accreditation process or about the standards that they are evaluated with by the Joint Commission. BBAHC buys back administration of this program from IHS pursuant to the Buyback/Withhold Agreement. IHS will annually, or upon renegotiation, provide to BBAHC a copy of each village built clinic lease. No increase in the amount due to the village pursuant to a lease will be negotiated without advance notice to BBAHC.

(13) **Public Health and Epidemiology:** Directly and/or through the ANTHC's Epidemiology Center, BBAHC carries out public health, epidemiology and health research functions. These activities include, but are not limited to: collecting and receiving personally identifiable health information for the purpose of

(A) preventing or controlling disease, injury, or disability;

(B) reporting disease, injury and vital events such as birth and death; and

(C) the conduct of public health and epidemiological investigations, surveillance, and interventions, including the maintenance of disease and injury registries.

(14) **Traditional Healing Practices**: As appropriate and as funds permit, provide traditional healing practices as understood by the Alaska Native tribes served by BBAHC and alternative healing practices. These services include the coordination of traditional healing practices in accordance with 25 U.S.C. § 1680u; research and training in order that traditional healing may be incorporated along with medical practices to further incorporate native values, beliefs and practices for the ultimate benefit of patients and families.

(15) **Diabetes Prevention Program**. BBAHC will provide primary, secondary and tertiary prevention services including diabetes education, screening, clinical follow-up and case management services, and dialysis services as authorized under section 204(d) of the IHCIA, as amended at 25 U.S.C. § 1621c, and is committed to and shall provide quality dialysis services that will at all times meet standards applicable to such services.

(16) **Nutrition Services**: Provide medical nutrition services to patients in various BBAHC programs, including traditional Alaska Native foods. Provide nutrition education and training to community residents and Bristol Bay region agencies. Consult with Bristol Bay area food service operators regarding nutrition and food safety issues.

(17) **Community Wellness Program**: Physical therapy, exercise and fitness programs with special emphasis on the needs of diabetics and others with medical conditions for which such services are appropriate.

(18) **Home and Community Based Services.** BBAHC provides home and community based services as defined by section 205 of the IHCIA, as amended, to elders, disabled persons and other eligible persons which includes but is not limited to home nursing; chore service; personal care attendant service; and such services as culturally appropriate activities, cooking, housekeeping and laundry, training and assistance with activities of daily living; acquisition of and training on assistive devices to promote independent living; congregate and home delivered elders meals; transportation; respite services; hospice care; palliative care and other end of life services; clinical visits and overnight stays for elders seeking health care in Dillingham. BBAHC will provide home and community based care, long-term care, hospice and assisted living in accordance with section 205 of the IHCIA, as amended at 25 U.S.C. § 1621d.

(19) **Charging Beneficiaries.** BBAHC may elect to charge its eligible beneficiaries for services provided by BBAHC under this FA in accordance with section 828 of the IHCIA, as amended at 25 U.S.C. § 1680r.

(20) **Administration:** BBAHC provides executive management, fiscal accountability, administrative support, corporate compliance, and public information for all health services administered, including management information, accounting and billing systems operation to assure eligibility of beneficiaries for services provided under this agreement to recover third party reimbursement, and the planning and implementation of an electronic health records system.

(c) Other Programs / Services Funded.

(1) Any new health care program funded during FYs 2015-2017 identified in the IHCIA.

(2) Any new health care program resulting from the reallocation of funds and redesign of programs during FYs 2015-2017 which will be in accordance with the terms of the ATHC.

(3) BBAHC will complement and supplement the PFSAs described in Section 3 with funding from sources other than the IHS through this FA, subject to the availability of such other funding. Consistent with Article III, Section 5, 6, and 7 of the ATHC, non-IHS funds will be added to or merged with funds provided by the IHS through this FA.

(4) This FA includes programs, functions, services and activities resulting from tribal redesign, or consolidation, reallocation or redirection of funds, including its own funds or funds from other sources, provided that such consolidation, redesign, or reallocation or redirection of funds results in carrying out programs, functions, services and activities that may be included in the FA pursuant to Section 506 of Title V and Article III, Section 6 of the ATHC.

(d) Federal Torts Claims Coverage. The Federal Tort Claims Act applies to BBAHC's PFSAs under this FA as provided in Article V, section 3, of the ATHC and Section 516(a) of Title V (which incorporates Section 102(d) of Title I of the Act and Section 314 of P.L. 101-512). The extent of Federal Tort Claims Act coverage is described more particularly in 25 C.F.R. §§ 900.180-900.210. There is no requirement that BBAHC purchase liability insurance to protect or indemnify the federal government. Whether the Federal Tort Claims Act applies in any particular case is decided on an individual case-by-case basis, first by the Department of Justice and subsequently by the federal courts. BBAHC may purchase liability insurance supplemental to FTCA coverage which is an allowable cost under this FA.

(e) Tribal Facilities and Locations. BBAHC operates the programs described in this FA out of more than one facility or location. These include, but are not limited to the facilities and locations listed in Appendix C, which will be submitted prior to the effective date of this FA, and will be incorporated by reference herein. The Area Division of Planning, Evaluation and Health Statistics shall compile from this Appendix a list of all health facilities and locations identified in the Appendix and forward that list annually to the Headquarters' Office of Program Statistics, which shall include each of these facilities and locations in the annual list it must provide to the Centers for Medicare and Medicaid Services (CMS) (formerly Health Care Financing Administration) pursuant to the Memorandum of Agreement between the Health Care Financing Administration and the IHS (December 19, 1996).

(f) In accordance with Section 516(b), Section 105(a)(1) of the ISDA is hereby incorporated into this FA.

Section 4 - Amounts Available During the Term of This Agreement.

(a) The following amounts shall be available to BBAHC pursuant to the ATHC and Title V of P.L. 93-638, as amended, and are subject to reductions only in accordance with Section 508(d) of that Act and Section 106 of P.L. 93-638.[2]

[2] For other fiscal years to which this FA is applicable, a replacement Appendix A will be negotiated between IHS and BBAHC for the respective year and amended to this FA and incorporated by reference accordingly.

Recurring base: Inclusive of all recurring funding including recurring contract support funds and Village Built Clinic funds.	$21,979,233[3]
Non-recurring funding:	$9,162,542 [4]
Subtotal: Subject to further increases as reconciliation of previous FAs occurs and due to amendments in accord with Section 18.	$31,141,775
Area "Tribal" share to include funding identified from area office and identified in Appendix A to this Agreement	$956,877[5]
Headquarters- Tribal share: "Tribal Size Adjustment pool"	$684,035[6]
Headquarters- program formula Tribal share:	$15,352
Subtotal – Tribal Shares	$1,656,264
Total	$32,798,039

These amounts are subject to additions for Medicare, Medicaid and other reimbursements, and for new funds received during the term of this Agreement including amounts that have historically been distributed as non-recurring funds under Title I of the ISDA, as amended. Any amounts remaining unspent under Contract No. 243-88-0008, as amended, or the FY 1995 through FY 2008 Annual FAs and this FA, after adjustment and reconciliation of the withheld amounts for IPA/MOA, supplies and services, as of the last day of the previous Fiscal Year may be expended under this FA.

---

[3] A breakout of these recurring funds is found on page 6 of Appendix A, which cites the source document used to determine the amount.

[4] These nonrecurring Funds represent nonrecurring contract support costs and routine maintenance and improvement funds available at the beginning of the fiscal year; see page 6 of Appendix A. Other non-recurring funds will not be specifically identified in this Agreement, but will be provided to BBAHC in the future to the same extent as they have historically been provided.

[5] Funds from Area Office were distributed according to methodology agreed upon by Alaska tribes and tribal organizations in a caucus open to all Alaska tribes. The specific methodology is provided in Appendix A.

[6] Headquarters shares were allocated according to the following process, which was adopted in a caucus open to all Alaska tribes and tribal organizations. The Alaska Area Tribal Share of Headquarters was first defined using the national IHS recommended methodology. The total Alaska Area tribal share was then reallocated to each Co-Signer according to the agreed upon Alaska Area methodology, which is identified specifically for each line in Appendix A. Amounts identified are exclusive of funds for which a final distribution amount has not been determined. Such final amounts shall be determined as set forth in the FA or Appendix A. In addition to the Funding amount BBAHC is entitled to funds which have been restricted. See Appendix A for detail.

Of the amount shown above for non-recurring program funds, $433,331 are for Routine Maintenance and Improvement (M&I); the Routine M&I amount paid as a part of the lump sum due BBAHC was determined by multiplying the FY 2014 Routine M&I amount paid to the Co-Signer by 90 percent. The final Routine M&I amounts paid in FYs 2015-2017 will be based on the final FYs 2015-2017 Routine M&I allocations. If the final Routine M&I amounts, as determined by the final FYs 2015-2017 Routine M&I allocations, is less than the 90 percent calculation, BBAHC will return the difference to the IHS. See also Appendix A, footnote to line 19 on page 6.

Of the amount shown above for Headquarters Tribal Share "Program Formula Pool," $117,483 are for Equipment Replacement; the Equipment Replacement amount paid as a part of the lump sum due the Co-Signer was determined by multiplying the FY 2014 Equipment Replacement amount paid to the Co-Signer by 90 percent. The final Equipment amounts paid in FYs 2015-2017 will be based on the final FYs 2015-2017 Equipment Replacement allocations. If the final Equipment Replacement amounts, as determined by the final FYs 2015-2017 Equipment Replacement allocations, is less than the 90 percent calculation, the BBAHC will return the difference to the IHS. See also Appendix A, footnote to line 22 on page 6.

(b) Contract Support Costs. Contract support costs (CSC) will be paid in accordance with 25 U.S.C. § 450j-1 and §458aaa-7(c). The parties agree that, according to the best data available as of the date of execution of this agreement, the amount to be paid under FY 2015, which represents the parties' estimate of BBAHC's full CSC requirement pursuant to 25 U.S.C. § 450j-1, is $10,776,682, including $2,164,954 for direct CSC and $8,611,728 for indirect or indirect-like CSC.[7] This estimate shall be recalculated as necessary as additional data becomes available including information regarding the direct cost base, pass throughs and exclusions, and the indirect cost rates to reflect the full CSC required under 25 U.S.C. § 450j-1, and, to the extent not inconsistent with the ISDEAA, as specified in IHS Manual Part 6, Chapter 3 (approved Apr. 6, 2007). The parties will cooperate in updating the relevant data to make any agreed upon adjustments. In the event the parties disagree on the CSC amounts estimated and paid pursuant to this paragraph and BBAHC's full CSC requirement under the ISDEAA, the parties may pursue any remedies available to them under the ISDEAA, the Compact, and the Contract Disputes Act, 41 U.S.C. §7101 et seq.

(c) Base Budgets.

(1) Categories and Base Year. At the end of the first period of the base budget option, the IHS and Co-Signers agreed to extend the three-year (FY 98 – FY 2000) base budgets implemented for the ATHC for an additional

[7] For other fiscal years to which this FA is applicable, the CSC estimates will be negotiated between the IHS and BBAHC for the respective year and amended to this FA in Appendix A.

two years (FY 2001 - FY 2002). The IHS and Co-Signers have agreed to extend the base budget period at the Co-Signer's option. IHS and BBAHC have subsequently agreed to additional extensions through FY 2017 for Headquarters TSA amounts. The following categories are subject to base budgeting for the base year period and the period, as noted below:

Category of Funding	**Base Period or Base Funding**	**Extended Through**
Headquarters TSA Amounts[8]	FY 97	FY 2017
Equipment Replacement Funding	Not included	
Area Tribal Shares	Not included	

(2) Adjustments. Adjustments to base funding shall be permitted in direct proportion to changes in appropriated amounts (by sub-activity), as provided under section 6(a) "Adjustments, Due to Congressional Actions." Adjustments shall also be permitted for the addition of new Co-Signers to the ATHC and when current Co-Signers add or retrocede programs, services, functions, and activities as provided in section 18 (c) "Amendments or Modifications of this Agreement, Due to Addition of New Programs and Services."[9] Adjustments also shall be permitted when Co-Signer (s) chooses to restrict or unrestrict previously "restricted" or "unrestricted" IHS Headquarters categories, provided that restrictions shall be changed only during annual negotiations. The Co-Signer also shall be eligible for funding for new services, service increases, mandatories, specific congressional appropriation for population growth, health service priority system, contract support costs and other increase in resources on the same basis as all other tribes. Adjustments for changes required when a tribe joins or withdraws from a tribal consortium shall also be permitted.

The ATHC Co-Signers shall also remain eligible for the distribution of additional IHS Headquarters tribal shares for Assessments, Workers Compensation, Emergency Reserve, Management Initiatives, and other programs, functions, services, and activities from IHS Headquarters.

(d) Inclusion of Statutorily Mandated Grants. In accordance with Section 505(b) of Title V and its implementing regulations, the Parties agree that the Secretary shall add the following statutorily mandated grants which are administered by the DHHS through

[8] The ATHC base budget for Tribal Shares Amount (TSA) amounts shall be considered as a whole (entire ATHC amount) and shall be subject to adjustment of the internal allocation subject to ATHC agreements.

[9] This includes the addition of new facilities when the addition of these facilities includes an increase in equipment funds identified for the new facilities.

IHS to the FA after they have been awarded. Grant funds will be paid to BBAHC as a lump sum advance payment through the PMS grants payment system as soon as practicable after award of the grant. BBAHC will use interest earned on such funds to enhance the programs for which the grant was awarded, including administrative costs. BBAHC will comply with all terms and conditions of the grant award, including reporting requirements, and will not reallocate grant funds nor redesign the grant program. Grant programs added to this FA in accordance with this provision include the following: Diabetes Grant.

BBAHC and its employees carrying out statutorily mandated grant programs added to a FA are covered by the FTCA. Regulations governing coverage under the FTCA are published at 25 C.F.R., Part 900, Subpart M.

Section 5 - Method of Payment.

(a) Payment Schedule. Except as provided in subsection (c), and (d) of this section, all funds identified in Section 4 of this Agreement shall be paid to BBAHC in accordance with Article II, Section 4(a) of the ATHC; payment to BBAHC to be made as follows: one annual lump sum to be made in advance by check or wire transfer.

(b) Availability of Tribal Shares. BBAHC will be paid 100 percent of negotiated Headquarters and Area Tribal Shares in its initial lump sum payment for each year under the term of this FA.

(c) Buyback/Withholding. BBAHC may carry out its responsibility to provide certain PSFAs included in this Agreement by using services or other resources of the federal government under Article V, Section 22 of the ATHC, as permitted by law. Except as provided herein, the cost of such services and the terms under which they may be made available to BBAHC are set forth in the Buyback/Withhold Agreement between the IHS and BBAHC, which is attached as Appendix E to this FA and incorporated by reference herein. The administrative surcharge provided for in section 2.2.4 of the Buyback/Withhold Agreement for FY 2015 shall be .20 percent. During the term of this FA, the Administrative surcharge rates will be negotiated annually. Notwithstanding section 5 of the Buyback/Withhold Agreement upon the request of the IHS or any Co-Signer, such Agreement will be negotiated for future Fiscal Years annually during negotiation of this FA.

(d) Periodic Payments. Payment of funds otherwise due to BBAHC under this Agreement, which are added or identified after the initial payment is made, shall be made promptly upon request of BBAHC by check or wire transfer.

Section 6 - Adjustments Due to Congressional Actions. The parties to this FA recognize that the total amount of the funding in this FA is subject to adjustment due to congressional action in Appropriations Acts, congressional continuing resolutions or other law affecting availability of funds to the IHS and Department of Health and Human

Services. Upon enactment of any such Act or Law, the amount of funding provided to BBAHC in this FA shall be adjusted as necessary, after BBAHC has been notified of such pending action and subject to any rights which BBAHC may have under this FA, the ATHC, or the law.

Section 7 - Records. The records of BBAHC are not to be considered federal agency records for purposes of the Freedom of Information Act, 5 U.S.C. § 552 and the Privacy Act.

(a) Confidentiality of records will be addressed as follows: BBAHC will seek to comply with the Administrative Simplification provisions of HIPAA, including, but not limited to, privacy, security, transactions and codes sets regulations, codified as 42 C.F.R. Parts 160, 162, and 164. If a record is not subject to the requirements of HIPAA, BBAHC will comply with Privacy Act procedures. IHS retains responsibility for HIPAA compliance for retained IHS health care component activities.

(b) Medical records generated by BBAHC shall be eligible for storage in Federal Records Centers at BBAHC's option in accordance with Section 105(o) of Title I (ISDEAA).

(c) BBAHC operates a medical quality assurance program and treats the records of such program as confidential and privileged in accordance with Section 805 of the IHCIA, as amended at 25 U.S.C. § 1675.

Section 8 - Program Rules. BBAHC shall strive in carrying out the programs, activities, functions, and services in this Agreement to comply only with those guidelines, manuals, and policy directives that are listed below:

- The Joint Commission or equivalent standards.
- Community Health Aide Program certification standards established by the CHAPCB.

Except as specifically set forth in this section, pursuant to Section 517(e) of Title V of P.L. 93-638, BBAHC does not agree to be subject to any agency circular, policy, manual, guidance or rule adopted by the IHS, except for the eligibility provisions of Section 105(g) and the regulations promulgated under Section 517 of P.L. 93-638, unless otherwise waived.

Section 9 - Retrocession and Discontinuance.

(a) Retrocession. The retrocession provisions of Sections 506(f) of the ISDA, as amended, are herein adopted, except that the effective date of the retrocession request of the ATHC and FA, in whole or in part, shall be one year from the date of the request by an authorizing Tribe or Village, except as provided below. Retrocession may be effective

with less than one year's notice, providing the Tribe or Village requesting retrocession, BBAHC, and the IHS agree to an effective date of less than one year from the date of retrocession request.

(b) Discontinuance. BBAHC may discontinue its participation in the ATHC after written notice to each authorizing Tribe or Village and the IHS. Notice must be provided one year in advance of the effective date of the request except that the effective date of a request may be less than one year upon approval of all authorizing Tribes and Villages and the IHS.

(c) Withdrawal of Tribes from a Tribal Organization. Process. Unless otherwise prohibited by law and in accordance with section 506(g) of Title V, a tribe or tribal organization may withdraw from a participating tribal organization, fully or partially, any program, function, service or activity (or portions thereof) included in the ATHC or FA, and such withdrawal will become effective within the time frame specified in the resolution which authorized transfer to the participating tribal organization, provided that in the absence of a specific time frame being set forth in the resolution, such withdrawal shall become effective on the earlier of (i) one year from the date of submission of such request; or (ii) the date on which the FA expires or such date as may be mutually agreed by the Secretary, by the Indian tribe or tribal organization that is withdrawing, and by the tribal organization that has signed the ATHC and FA on behalf of the withdrawing Indian tribe or tribal organization.

(d) Distribution of Funds. In accordance with sections 503(b) and 506(g) of P.L. 93-638, as amended, when a tribe proposing to enter into a contract under Title I or a Compact and FA under Title V fully or partially withdraws from a participating tribal organization, the withdrawing tribe shall, upon written request, be entitled to be paid its tribal share of funds supporting those PSFAs (or portions thereof) which it will be carrying out under its own contract or the ATHC and FA, and such funds shall be removed from the FA of the tribal organization and awarded to the tribe upon approval of a Title I contract or Title V of the compact and FA. The IHS shall retain any funds removed, but not awarded in a Title I Contract or Title V ATHC and FA.

Section 10 - Consolidation of Contracts and Previous Annual FAs. The contracts listed below and all previous Annual FAs under the ATHC shall be amended or terminated, as appropriate, to transfer applicable contract funds into this FA for programs, services, functions and activities, materials, and facilities provided to the Tribes represented by BBAHC: Contract: No. 243-88-0008 and 243-96-6022.

Section 11 - Access to Training and Technical Assistance. To the extent funds are retained by the IHS, BBAHC shall have access to training, continuing education, and technical assistance in the manner and to the same extent BBAHC would have received such services if it were not a Self-Governance Tribe.

Section 12 - Utilization of Federal Real Property.

(a) As provided in sections 105(f)(1) and 512(c) of P.L. 93-638, as amended, the IHS, hereinafter referred to as the "Government," acting within its authority as an agency of the Government, does hereby authorize BBAHC, to utilize all of the federally owned "real property," including all lands, buildings, structures, and related facilities, as evidenced by facility inventory and site plan, i.e., water systems, heating plants, etc., presently owned by the U.S. Government and located within the confines of the Alaska Area Native Health Service Hospital Compound located at Dillingham, Alaska, for use in connection with and under the terms, conditions, and provisions of this FA and any successor Agreement together with the following provisions:

(1) Only those building, structures, and related facilities listed on the facility inventory are assigned to and the responsibility of the BBAHC. BBAHC does not take on any responsibility or liability for the "oil" that may underlie the property. The parties continue to receive, review and analyze reports on the various environmental problems at the site. Additionally the parties will continue to address the problems and potential solutions regarding erosion of the shoreline of the Kanakanak federal compound. IHS will provide to BBAHC copies of any contracts entered into to address the foregoing issues after January 1, 2003.

(2) The parties further agree to cooperate with each other and with the U.S. Army Corps of Engineers to address the erosion of the shoreline of the Kanakanak Hospital Compound so as to effectively mitigate the effect of the erosion of the hospital facilities, including the sewage lagoon and other facilities utilized by the BBAHC.

(3) The parties further agree to study the feasibility and costs associated with moving the existing sewage lagoon from its present location to another location not affected by erosion and/or environmental problems during the term of this Funding Agreement.

(4) The IHS further agrees to cooperate with BBAHC for the replacement of the facilities on the Kanakanak Hospital Compound.

(b) BBAHC agrees, during the performance of this FA or any other succeeding Agreements, not to engage in any action, or attempt to take any action, to dispose of, or attempt to dispose of, by any means whatsoever, any of the federal real property so authorized for use in connection with the specific performance of this Agreement. Further, BBAHC will not, by any methodology, encumber or attempt to encumber any of the federal real property so authorized for use in connection with the specific performance of this or any other succeeding FA. Nothing in this provision shall prohibit BBAHC from leasing space in any federal property, provided that any such lease shall be on a month-to-

month basis and shall not provide the lessee with any right to utilize the property greater than BBAHC's right to utilize such property.

(c) For all property assets, including facilities, managed by BBAHC under this FA that are federally owned, BBAHC agrees to assist the IHS with its reporting requirements associated with Federal ownership of this property.

(1) The IHS must keep its facility condition assessment current (i.e., not more than five years old). BBAHC agrees to collaborate with the ANTHC on scheduling and conducting facility condition assessment surveys for federally-owned facilities under BBAHC management. The costs of these surveys will be estimated in concert with the ANTHC Maintenance and Improvement Resource Allocation Committee.

(2) The IHS must identify historic real property assets and ensure that the information is current. AANHS is currently working with a contractor to assess IHS real property holdings in Alaska. BBAHC agrees to provide reasonable access to facilities and agrees to review comments as requested. IHS will provide BBAHC with a copy of the draft assessment and consider any comments BBAHC may submit.

(3) The IHS must keep an accurate and current inventory of real property assets. BBAHC agrees to provide the certification form included in Appendix G annually to the AANHS for any new, replaced, or added space to a federally-owned facility, or other changes in space utilization.

(4) The IHS must report Energy Data for federal facilities. BBAHC agrees to submit to ANTHC energy data, as specified in Appendix H.

(5) For projects started before October 1, 2005, the IHS must report all capital improvements made to federal facilities which exceed $25,000. For projects starting on or after October 1, 2005, the IHS must report all capital improvements made to federal facilities which exceed $100,000. BBAHC agrees to provide a Final Real Property Closeout Report specified in Appendix I to ANTHC on each project within 120 days of its beneficial use of the facility or an interim report using Appendix I without the Chief Financial Officer certification if the project is not completed for beneficial use. BBAHC agrees to provide the applicable report by March 31 of each Fiscal Year.

(6) The National Environmental Policy Act (NEPA), National Historic Preservation Act (NHPA), and related provisions of law require the IHS to review and approve actions resulting in the use or commitment of IHS funds or that affect IHS property, and which may significantly

impact the environment or cultural resources. Unless BBAHC has assumed these responsibilities under a construction project agreement in accordance with Section 509 of Title V and 42 C.F.R. § 137.285-312, the IHS must carry out these responsibilities and has elected to utilize Appendix L. Where BBAHC plans to undertake an action, as described in Appendix L, on IHS owned real property or utilizing IHS funds received through this Funding Agreement, and BBAHC has not assumed these responsibilities, BBAHC will provide the IHS with a Project Summary Document (see Appendix J) and a completed Environmental Information and Documentation Form (see Appendix K) so that the IHS can accomplish these requirements, and issue a Determination Document (Categorical Exclusion (CATEX) or Finding of No Significant Impact (FONSI)), as soon as possible. All documentation shall be submitted to the IHS as early as possible in the planning phase of the project to prevent delays in the action. No irreversible action can be taken by BBAHC until the IHS completes its compliance responsibilities and so advises BBAHC with a Determination Document. Pending resource availability, the IHS is available for education and consultation on NEPA, NHPA, and related provisions of law on an as needed basis.

(7) The IHS must report on vendor's activity on federally-owned or leased property. BBAHC agrees to comply with 20 U.S.C. § 107 relating to the operation of vending facilities on federal property by blind persons.

(8) When planning to fund a construction project using non-IHS funds in a federal facility or on federally-owned land, BBAHC will notify the IHS AANHS in order to initiate the approval process.

(d) Leases. The IHS must report on its federally-leased facilities. BBAHC agrees to notify the AANHS of changes in occupancy, size, use, and general condition of VBC leased facilities in locations where BBAHC has bought back services from the IHS. IHS will annually, or upon renegotiation, provide to BBAHC a copy of each VBC lease. No increase in the amount due to the lessor pursuant to a lease will be negotiated by IHS without advance notice to BBAHC. In administering these leases, the IHS will work with BBAHC to ensure that each lease is in compliance with the standards referenced in the VBC lease.

(e) Maintenance and Improvement Funds. BBAHC agrees to use maintenance and improvement funds received through this FA in accordance with the appropriation language for Indian Health Facilities in the Department of the Interior and Related Agencies Appropriation Acts for FYs 2015-2017 or any comparable Act of Congress that contains the subject appropriation and in accordance with 41 U.S.C. § 12 to the extent applicable.

Section 13 –Utilizing Federal Employees; IPA/MOA Salary Funds Retained by the Government. In accordance with Section 508(e) of Title V, BBAHC has the option of utilizing federal personnel on assignment under the Intergovernmental Personnel Act (IPA) or on Memorandum of Agreement (MOA) detail. Both types of federal personnel will continue to be paid through the federal payroll system. BBAHC will set aside and provide the necessary funding (including funds necessary to meet all special pay costs paid to IPA/MOA employees under this Agreement and PCS costs associated with this Agreement) to meet the payroll obligation from this specified recurring budget for the Service Unit, or for the specific portion(s) of the Service Unit's program(s), in accordance with Section 5(c) of the FA. Alternatively, BBAHC may pay for such costs by entering into an agreement with the IHS in accordance with Section 5(c) which is consistent with Article V, Section 22 of the ATHC.

BBAHC will provide a list of federal employees for whom IPA/MOA assignment is to be offered for the following Fiscal Year. BBAHC and the IHS will agree at the time of negotiations upon the estimated annual payroll amount for these employees to be accepted by and assigned to BBAHC.

BBAHC and the IHS agree that the payroll amount can only be estimated in advance of actual expenditures. The IHS agrees to inform the Corporation of the actual cost incurred monthly and quarterly as provided in Section 5(c) of the FA. Further, BBAHC and the IHS agree that costs through August of each Fiscal Year will be actual costs. Costs for the month of September will be estimated based on the costs of the first eleven (11) months, as agreed by BBAHC and the Area Financial Management Branch. BBAHC agrees that such payroll costs will include overtime costs and the costs of pay increases not funded by appropriations of which BBAHC has been notified. Adjustments in the figures previously furnished by the IHS to BBAHC based on errors or omissions shall not be made without the written consent of BBAHC. Any funds retained by the IHS in excess of those needed to pay such adjusted and reconciled IPA/MOA salary costs will be made available to BBAHC in a manner consistent with Section 5(c) of the FA. If such adjustments and reconciliations determine that the funding retained to meet the federal payroll is deficient, then BBAHC agrees to provide additional funds to meet the IPA/MOA salary obligations for the subject employee in a manner consistent with Section 5(c) of the FA.

Transfer of funds to BBAHC for federal employees who leave their IPA/MOA assignment will be handled in accordance with Indian Self-Determination Memorandum 82-1 as amended on September 19, 1985. Transfer of additional funds from BBAHC to the IHS, for additional or higher cost Commissioned Officers assigned to the Contractor in newly requested or presently encumbered positions will also be handled on an adjustment basis.

BBAHC or its authorized agent shall be provided with all relevant records and documents in order to determine that the IPA/MOA charges have been correctly estimated and reflected in all adjustments and reconciliations.

Section 14 - Medicare/Medicaid and Other Third Party Collections.

BBAHC has elected to directly collect Medicare and Medicaid payments as provided in 25 U.S.C. 1641, as amended. BBAHC is obligated and entitled to directly collect and retain reimbursement for Medicare and Medicaid and any other third party payer for services provided under this FA (and previous annual FAs) in accordance with Section 401 of the IHCIA, as amended, by Public Law 111-148, 25 U.S.C. 1641 (previously Section 405 of such Act, as amended by P.L. 106-417), and Section 206 of the IHCIA, as amended at 25 U.S.C. 1621e. Any amounts collected by the IHS which should have been paid to BBAHC in accordance with Section 401 of such Act either prior to or after the effective date of this FA shall be added to this FA by addendum. BBAHC has the right to recover reimbursement from certain third parties of the reasonable charges for health services in accordance with section 206 of the IHCIA, as amended at 25 U.S.C. 1621e.

Section 15 - Operation and Maintenance of Quarters.

(a) BBAHC shall be responsible for operation, management and maintenance of all housing facilities located at the Kanakanak compound owned by the Federal Government and managed by BBAHC in accordance with the BBAHC Housing Policy approved by BBAHC. The Alaska Landlord-Tenant Law does not apply to Federal Government housing.

(1) BBAHC shall be responsible for assigning all BBAHC and Federal Government employees eligible under the BBAHC Housing Policy to quarters under BBAHC jurisdiction.

(2) BBAHC shall be responsible for the day-to-day operation of the quarters under its jurisdiction, including but not limited to routine maintenance and up-keep of heating systems, appliances, utilities and furnishings, grounds, and the building structure.

(3) BBAHC shall inspect quarters for damages and cleanliness upon the tenant vacating the premises to assess any damages identified as belonging to the tenant. If the quarters require cleaning and/or any tenant-assessed damage is found, the tenant shall have the opportunity to make arrangements for cleaning and repairs at tenant's expense and to the satisfaction of BBAHC.

(b) Quarters Return (QR) Fund Management.

(1) BBAHC may establish rental rates and collect rents for federally owned Kanakanak quarters in compliance with section 309 of the IHCIA, as amended at 25 U.S.C. § 1638a. All occupants of Kanakanak compound quarters, with the exception of approved volunteers, students and beneficiaries eligible under Section 5 of this provision, shall be assessed charges for rent, special services (e.g., house-keeping, snow removal and trash removal), and utilities in accordance with the rental rates established by BBAHC.

(2) BBAHC shall collect quarters' rent and utility charges (where utilities are not payable directly to the utility provider) directly from tenants, including from Federal employees who occupy the quarters. BBAHC will provide notices to the affected federal employees that BBAHC has elected to directly collect from them under Section 309 of the IHCIA, as amended at 25 U.S.C. § 1638a(b). Upon receipt of such notice, the affected federal employees shall pay rent for occupancy directly to BBAHC.

(3) Patients boarding in Boarders Quarters shall be billed at the established rate. BBAHC shall not be required to charge beneficiaries who must occupy such quarters for medical reasons authorized by the attending Physician. If a patient boarder has a third party source reimbursement providing lodging coverage, the third party source of reimbursement shall be billed for lodging. Patient boarding receipts shall be program income under this FA.

(4) All Quarters receipts collected by BBAHC and all quarters collections from federal government employees shall be deposited into a BBAHC-managed account and accounted for separately. Such funds shall be applied only to the operation, maintenance, and management of such quarters. All such funds shall remain available for such functions until expended.

(5) Nothing in this Section shall be interpreted, construed, or applied to restrict the sole discretion and authority of BBAHC to issue certifications for rental deductions for income tax purposes to employees hired directly by the BBAHC and to federal employees employed at the Kanakanak Service Unit.

(c) Other Funding For Quarters Repair Projects.

Quarters repair or improvement projects which are expected to exceed BBAHC's QR funds shall be submitted to the Director, Division of Health Facilities, as part of BBAHC's FEPP to be considered along with other Area Health Facilities Projects for Maintenance and Improvement funding or other types of funding available for IHS-owned quarters.

Section 16 - Services to Non-Beneficiaries. Services will be provided to non-beneficiaries (i.e., persons who are not Alaska Native or American Indian) on a fee-for-

service basis in accordance with and subject to the provisions of Section 813(c) of the IHCIA, as amended, and the resolution of the BBAHC Board of Directors. BBAHC Board Resolution authorizing the provision of such services is attached hereto and fully incorporated by reference herein as Appendix D.

Section 17 - Third Party Recoveries. Any funds recovered by the BBAHC as provided in Section 14, or otherwise, or through the filing, litigating, or settling a claim against a third party to require that the third party pay for services previously provided to IHS-eligible beneficiaries by the BBAHC, or for such services previously provided by the IHS in a PSFA now operated by the BBAHC, shall be property of the BBAHC and shall be considered program income to be utilized by the BBAHC as provided in Article III, Section 7 of the ATHC. Any prospective recovery of funds for such services shall likewise be considered program income to be utilized pursuant to Article III, Section 7 of the ATHC.

Section 18 - Amendment or Modification of this Agreement.

(a) Form of Amendments. Except as otherwise provided by this FA, the ATHC, or by law, any modifications of this Agreement shall be in the form of a written amendment and shall require written consent of each of the signatory Tribes, acting directly or through BBAHC as authorized by resolution, BBAHC, and the United States. Participation or written consent of Tribes and Co-Signers not subject to the terms of these FA shall not be required.

(b) Funding Increases.

(1) Written consent of BBAHC shall only be required for issuing amendments for those funds which:

(A) require a change to Section 3 – Tribal Programs and Budget;

(B) require a specific commitment by BBAHC (e.g., Maintenance & Improvement projects and prior Fiscal Year Sanitation Facility Construction projects); or

(C) reduce funding other than changes in congressional appropriations pursuant to Section 6(a).

(2) Amendments not requiring written consent may include, but are not limited to:

(A) Program/Area/HQ Mandatories;
(B) Program/Area/HQ End-of-Year Distributions;
(C) Catastrophic Health Emergency Fund) (CHEF), subject to the condition that if a case initially qualifying for reimbursement

is paid (in whole or in part) by an alternate resource or canceled for any reason, BBAHC will return the unused amount to the IHS CHEF account;

(D) CHS Deferred Services;

(E) Routine Maintenance & Improvement; or

(F) Collections and reimbursements.

(3) Amendments reflecting payment of these funds shall be provided to BBAHC after any such funds are added to the FA. BBAHC retains the right to reject the addition of such funds to the FA and return the funds to the IHS.

(c) Services from IHS. Should BBAHC determine that it wishes the IHS to provide PSFAs included in this FA for which funding has been identified but not provided, the parties shall negotiate an amendment to the FA to reflect the transfer of responsibilities from BBAHC back to the IHS and the pro-rata share of funding for that PFSA shall be retained by the IHS. Unless otherwise negotiated, IHS will not transfer centrally paid expenses including but not limited to Worker's Compensation to any Co-Signer.

(d) Due to Addition of New Programs. Should BBAHC determine that it wishes to provide a program, service, function or activity of the IHS not included in this FA, BBAHC shall submit a proposal to the IHS to provide such program, service, function or activity, except, that where such a proposal relates to the ANMC, essential statewide functions shall remain intact whether operated by the IHS or by Alaska Native Tribes recognized by the United States. The parties agree to negotiate such a proposal and, should the parties fail to reach agreement, BBAHC may submit a final offer in accordance with the Title V procedures set forth in Sections 507(b)-(d) of Title V. A Proposal submitted pursuant to this section shall be treated as a request for amendment to the FA and, once approved by the IHS, the Alaska Area Office shall prepare within 30 days an amendment to this Agreement and the amendment shall be executed through the Area Office and added to the Agreement.

(e) Due to Availability of Additional Funding. BBAHC shall be eligible for any increases in funding or funding for Medicaid, Medicare, Maintenance and Improvement, other reimbursements and new programs for which it would have been eligible had it been administering programs under a self-determination contract, rather than under the ATHC and this Agreement, and for any other funds that are not restricted by appropriations language for which any Alaska Tribe or tribal organizations may be eligible, including, any new funds appropriated for IHS Headquarters and funds passed to Alaska Area as recurring or non-recurring funds, and this Agreement shall be amended to provide for timely payment of such new funds to BBAHC. Such amendment shall be originated and prepared within 30 days by the Alaska Area Office and executed through the Area Office in consultation with BBAHC.

(f) General Procedures for Amending or Modifying this Agreement. This provision shall apply to all amendments or modifications proposed by the co-signer, unless the co-signer states otherwise in the proposal. Amendments or modifications proposed by BBAHC shall be submitted in writing to the IHS Alaska Area Director, with a copy to the Office of Tribal Self-Governance at IHS. Except as provided with respect to the incorporation of a provision of Title I under Article V, Section 21, of the ATHC or as provided above in paragraphs (b) and (e) of this Section 18, a request to amend or modify this Agreement submitted by the Co-Signer shall be processed in accordance with Sections 507(b)-(d) of Title V, and all provisions of those identified sub-sections are incorporated herein for this purpose.

(g) Other Adjustments. Upon written authorization by BBAHC and agreed to by the IHS, the IHS may reallocate funds retained by the IHS, which are obligated to BBAHC, for the purpose of reimbursing the IHS for services or equipment provided to BBAHC to assist BBAHC in carrying out the terms of the ATHC and this Agreement.

Section 19 - Memorandum of Agreement with Member Villages. Funds provided under this FA may be allocated to and expended by an Alaska Native Village (Village) which is a party to this FA in accordance with the terms of the Compact, this FA, and Memorandum of Agreement (MOA) approved by the Co-Signer and the Village. The Federal Tort Claims Act shall apply to programs, services, functions and activities carried out by the Village under such an MOA and to the Village and its employees to the same extent as if they had been carried out directly by the Co-Signer. Such an MOA may include provisions for the assignment of federal employees under IPA assignment or Commissioned Corps detail. Such assignment shall be subject to the approval of the Alaska Area Native Health Service Director. The Co-Signer shall be responsible for assuring compliance by the Village with the ATHC, this Compact, and the MOA with the Village. In accord with the IHS Manual, Part 6, Chapter 3, Contract Support Costs, the eligible contract support costs of the tribal sub-awardee may also be included in the contract support costs requirement of BBAHC when BBAHC chooses to utilize sub-awards via a MOA or other instrument with tribes or tribal organizations.

Section 20 - Severability.

This Agreement shall not be considered invalid, void or voidable if any section or provision of this Agreement is found to be invalid, unlawful or unenforceable by a court of competent jurisdiction. Should such a court make such a finding, the parties will seek agreement to amend, revise or delete any such invalid, unlawful or unenforceable section or provision, in accordance with the provisions of the ATHC.

Section 21 - Intellectual Property. In the course of administering federal contracts, grants, subgrants, and other agreements, IHS acquired various copyrights and licenses, including licenses pursuant to 45 C.F.R. § 74.36 and 45 C.F.R. § 92.34, in works which the IHS possessed, reproduced, published and otherwise used and allowed others to

possess, reproduce, publish, and otherwise use. To carry out the PFSAs assumed by BBAHC under this and previous FAs and contracts BBAHC has the delegated authority and permission from IHS to use and allow others to reproduce, publish, and otherwise make use of these works to the same extent as IHS, consistent with the copyrights or licenses acquired by IHS in such works.

Section 22 - Memorializing Disputes. The Parties to this FA may have failed to reach agreement on certain matters which remain unresolved and in dispute. Such matters may be addressed through the process set forth in Sections 507(b)-(d) of Title V, or at the BBAHC's option, may be set forth in Addendum II to this FA, which shall be identified as "Memorialization of Matters Remaining in Dispute." This attachment shall not be considered a part of this FA, but is attached for the purpose of recording matters in dispute for future reference, discussion and resolution as appropriate. BBAHC does not waive any remedy that it may have under the law with regard to these issues and any others not listed herein.

Section 23 – Title I Provisions Applicable to This FA. As authorized in 25 U.S.C. § 458aaa-15(b), BBAHC exercises its option to include the following provisions of Title I of the Act as part of this FA, and these provisions shall have the force and effect as if they were set out in full in Title V of the Act.

18.1. 25 U.S.C. § 450b(e) (definition of "Indian Tribe");
18.2. 25 U.S.C. § 450h(b) (related to grants for health facility construction and planning, training and evaluation);
18.3. 25 U.S.C. § 450j(a)(1) (exemption from Federal procurement and other contracting laws and regulations);
18.4. 25 U.S.C. § 450k(b), (conflicting provisions of law);
18.5. 25 U.S.C. § 450*l*(c), section 1(b)(8)(F) (screener identification);
18.6. 25 U.S.C. § 450*l*(c), section 1(b)(9) (availability of funds);
18.7. 25 U.S.C. § 450*l*(c), section 1(d)(1)(B) (construction of contract);

Section 24 – Licensing and Fees. In accordance with section 124 of the IHCIA, as amended at 25 U.S.C. § 1616q, employees of the BBAHC health programs shall be exempt from payment of licensing, registration, and any other fees imposed by a federal agency to the same extent that officers of the Public Health Service commissioned corps and other employees of the IHS are exempt from such fees.

Section 25 – Licensure. Licensed BBAHC health professionals will be licensed in accordance with section 221 of the IHCIA, as amended at 25 U.S.C. § 1621t.

Section 26 – Purchase of Health Care Coverage. BBAHC may use federal funds for purchase of health care coverage in accordance with section 402 of the IHCIA, as amended at 25 U.S.C. § 1642.

Section 27 – Federal Insurance. IHS will assist BBAHC to obtain information about the coverage, rights and benefits available for its employees under chapters 87 and 89 of title 5, United States Code, the cost of such coverage, rights and benefits (including any options in coverage, rights and benefits that may be available), and the procedures by which BBAHC may exercise its rights under section 409 of the IHCIA, as amended, to have access to such Federal insurance for its employees.

Section 28 - Effective Date and Duration. This FA shall become effective on October 1, 2014, and will remain in effect through the 2017 Federal Fiscal Year or until a subsequent agreement is negotiated and becomes effective pursuant to Article II, section 12 of the ATHC.

General Notes on Alaska Area Office Tribal Shares

Column 1 - Includes all FY14 changes allocated to TS, Residual, & Transitional as of 8.25.14. In FY 2015 TS changes will be added as received.

Column 2 - Residual includes no changes in residual functions. Based on FY2015 Area proposed residual budgets.
Remaining funds at 9/30 distributed (Non-Recurring) to all Alaska Area health programs based on recurring bas

Column 3 - Transitional funds agreed by co-signers to remain at Area Office. Based on FY2015 proposed transitional budget.

Column 4 - Restricted by all co-signers & transferred to the ANTHC to provide "Area PSFAs".

Column 5 - Includes Area TS for all Alaska Tribes, including Title I & Title V. FY15 mandatories to be added if received.

Column 6 - Available Tribal shares for Co-Signer (amounts for ANTHC include pass-through to awardees with shares captured by Sec. 325).
Distributed by the approved ATHC methodology of - 30% # of Tribes / 35% 2010 Census Pop. / 35% Rec. Base (less VBC).

Column 7 - Items restricted by individual co-signer to pay for continued services from ANTHC. (Restricted amounts are added to ANTHC FA.)

Column 8 - The agreed upon amount due (col. 6 - col. 7) to the co-signer after all retained shares are withheld.

Line 1 - All TS funds for non-OEHE Area Office PSFAs except where co-signers have individually decided to retain certain PSFAs at the ANTHC or AANHS.

Line 5 - Lease on Inuit Building.

Line 5a - $20,000 (less sequester) from transitional funding held by IHS to rent space for annual negotiations. Funds transferred to ANTHC upon confirmation of s

Line 7 - Centrally paid expenses, including personnel & finance support for Area positions, costs & funds for departmental assessments.

Line 8 - Area Human Resources functions (previously Office of Personnel & Training).

Line 9 - Funding originally from ANMC - have been returned to SCF/ANTHC as IPA/MOAs were reduced.

Line 10 - Includes funding for Area PSFAs transferred to ANTHC under Section 325.

Line 11 - Funds to ANTHC to support the statewide Contract Health Services reserve program.

Line 12 - Funds to ANTHC to support specialized services in Barrow, NSHC, & BBAHC & certain statewide laboratory contracts.

Line 13 - ANHB funds from Loc 77 including previous tobacco prevention funding.

Line 14 - Supply Service Center individually withheld amounts retained for ANTHC for all co-signers except YKHC, Seldovia, & Eklutna.

Line 15 - Funds distributed to support the Epidemiology Center distributed to co-signers for individual payment to ANTHC.

Line 16 - Funds for EMS training. Retained by IHS for transfer to ANTHC for Maniilaq, BBAHC, & Chugachmiut for EMS training at ANMC.

Line 18 - Does not include funds from surcharge, assessments, or other services purchased through Area Office.

Line 22 - Funds retained for ANTHC for all co-signers except YKHC, SCF, & KIC.

Line 24 - Does not include NR SFC funds for Health Facilities design and construction oversight.

To promote health with competence, a caring attitude & cultural sensitivity

Bristol Bay Area Health Corporation
Eligibility for Health Services

Resolution 2011-04

WHEREAS, the Bristol Bay Area Health Corporation (BBAHC) is a tribal organization as defined in the Indian Self-Determination Act (ISDA), which administers the 45,000 square mile Kanakanak Service Unit of the Indian Health service (IHS) as a tribally-operated service unit under the Alaska Tribal Health Compact (Compact) in accordance with federal law; and

WHEREAS, under the terms of Compact and Section 813 of the Indian Health Care Improvement Act, the BBAHC is authorized to determine the conditions under which health services may be provided in the Kanakanak Service Unit under IHS-funded programs to persons who are not "eligible beneficiaries" of the IHS under federal law provided that the Corporation gives consideration to whether the provisions of such services will result in a denial or diminution of services to eligible beneficiaries; and

WHEREAS, services have been provided in the Kanakanak Service Unit to non-beneficiaries for many years under the provisions of federal law relating to remote facilities in Alaska, both prior to the exercise of self-determination rights by the BBAHC and pursuant to provisions of the Corporation's contract with the IHS under Title I of the ISDA; and

WHEREAS, the Board has determined that the provision of health services to non-beneficiaries will not result in a denial or diminution of services to beneficiaries and that services will be provided on a fee-for-service basis resulting in reimbursement in an amount not less than the actual cost of providing such services as required by federal law; and

NOW THEREFORE, BE IT RESOLVED, that health services will be available under IHS-funded programs of the BBAHC to non-beneficiaries; and

BE IT FURTHER RESOLVED, that a Policy of Eligibility for Health Service is hereby approved and shall be posted in all BBAHC-operated facilities; and

BE IT FURTHER RESOLVED, that whenever significant evidence is presented to the Executive Committee by the Chief Executive Officer that in a particular facility services to non-beneficiaries of any particular type result in a denial of diminution of services of that type to beneficiaries, the Executive Committee is authorized to suspend the delivery of such services to non-beneficiaries, such action to specify the type of service, the facility or

geographical area to which the suspension applies, and the duration of the suspension (which may be for a specific term or until revoked.); and

BE IT FURTHER RESOLVED, that a copy of this resolution and a schedule of charges applicable to non-beneficiaries for emergency and non emergency care shall be made available upon request.

Dated this 23rd day of February, 2011

H. Sally Smith, Chairman
Bristol Bay Area Health Corporation

CERTIFICATION

I, the undersigned Secretary of the Bristol Bay Area Health Corporation, do hereby certify that the foregoing resolution was duly passed by the Executive Committee of the Bristol Bay Area Health Corporation on this 23rd day of February, 2011.

Diane Shangin, Secretary
Bristol Bay Area Health Corporation

Appendix E

Buyback/Withhold Agreement between the Indian Health Service and Bristol Bay Area Health Corporation

Section 1. Generally. Pursuant to Section 5(c) of the Funding Agreement between Certain Alaska Native Tribes Served by Bristol Bay Area Health Corporation (hereinafter "BBAHC") and the Secretary of the Department of Health and Human Services of the United States of America (hereinafter "Secretary"), BBAHC has determined that it wishes to carry out its responsibility to provide certain programs, activities, functions or services (e.g. salaries of IPA/MOA employees, and Village Built Clinics Program) included in its Funding Agreement utilizing services, personnel or other resources of the Federal Government, (hereinafter "services") under Article V, section 22 of the Compact, as permitted by law. These services may include some that are expected to be used throughout the year and some incidental services to be identified by BBAHC on an as needed basis, and provided by the Indian Health Service (hereinafter "IHS") when IHS has the capacity to do so. The cost of providing the purchased services to BBAHC shall be determined under section 2 below. BBAHC's purchase of services is contingent upon the availability of IHS resources to provide those services. In addition, services must be paid for in advance, in order to avoid violation of the Anti-Deficiency Act.

Section 2. Determination of Cost.

2.1 Generally. BBAHC may acquire services from the IHS by either providing for full year withhold (with appropriate reconciliation) under terms agreed upon in this Funding Agreement, in which case the administrative surcharge provided for under section 2.2.4 shall not apply. In the alternative, BBAHC may acquire services by authorizing partial year withhold amounts, as provided for in section 2.2, in which case the payment schedule and administrative surcharge provided for in section 2.2.4 shall apply. Whether full or partial year withhold is authorized, the full costs of IPA/MOAs including those detailed in section 2.3, Determination of IPA/MOA Costs, shall be paid by BBAHC.

2.2 Conditions for Partial Year Withhold and Buyback.

2.2.1 IPA/MOA.

2.2.1.1 Advance withhold. The funds for IPA/MOA salary and other costs detailed in section 2.3, "Determination of IPA/MOA Costs," will be paid as a lump sum in accord with Section 5(a) of the Funding Agreement, except that an amount equal to three monthly payments based on the initial mutually agreed upon estimate of the annual IPA/MOA salary costs and related surcharges, as provided in section 2.2.4, will be withheld and retained by

the Indian Health Service pending final disbursement for the last three months of the fiscal year as provided in section 3.2.2.2.

2.2.1.2 Late Payment Provision. Except as provided in section 3.4, failure to make payment in full by the Default Date will result in action by the IHS to RIF or redeploy federal employees assigned to BBAHC.

2.2.2 Village Built Clinics.

2.2.2.1 Advance Withhold. To ensure that sufficient funds are available to meet contract obligations, an amount equal to three monthly payments based on the initial mutually agreed upon estimate of the annual Village Built Clinic costs and related estimated surcharges, as provided in section 2.2.4, will be withheld and retained by the Indian Health Service pending final disbursement for the last three months of the fiscal year as provided in section 3.2.2.2.

2.2.2.2 Late Payment Provision. Except as provided in section 3.4, failure to make payment in full by the Default Date will result in action by the IHS to terminate the village based clinic leases.

2.2.3 Other Services.

2.2.3.1 Advance Withhold. An amount equal to one monthly payment based on the initial mutually agreed upon estimate of the annual cost of other services BBAHC proposes to purchase from the IHS and related estimated surcharges, as provided in section 2.2.4, will be withheld and retained by the Indian Health Service pending final disbursement for the last month of the fiscal year as provided in section 3.2.2.2.

2.2.3.2 Incidental Services. Nothing herein shall prevent BBAHC from negotiating to purchase incidental services from the IHS throughout the year, without regard to an advance withhold. Such incidental services may include medical record storage, costs associated with disposal of excess governmental property held by BBAHC and costs associated with acquiring excess property from the Department of Defense. Agreements for purchase of incidental services must specify the method and timing of payment by BBAHC.

2.2.3.3 Late Payment Provision. Except as provided in section 3.4, failure to make payment in full by the Default Date will result in action by the IHS to terminate the services for which payment has not been made.

2.2.4 Administrative Surcharge. An administrative surcharge in a percentage set forth in Section 5(c) of the Funding Agreement shall be imposed on the charges for the services delivered by the IHS to BBAHC under the partial year withhold and buyback provisions of section 2.2. This surcharge will not be imposed on purchases for which a full year's estimated withhold is authorized. The administrative surcharge will be estimated based on the estimated annual purchase price and will be accounted for and reconciled under section 3.3.2.

2.2.5 No Other Charges. Except as provided in this section 2.2, there shall be no additional overhead, user or administrative charges or assessments for providing services to BBAHC.

2.3 Determination of IPA/MOA Costs.

2.3.1 List of Costs. It is agreed by the parties that the entire cost of IPA/MOA assignments, including costs associated with the initiation, maintenance, and termination of the assignments are the responsibility of BBAHC. The IHS must be reimbursed for all such costs which include but are not limited to the following:

2.3.1.1 Permanent change of station costs including the cost of moving replacement IPAs from the lower forty-eight to Alaska and the cost of moving IPA employees who separate back to the lower forty-eight.

2.3.1.2 Recruitment, relocation and retention bonuses if such funds are necessary to attract or retain employees.

2.3.1.3 Severance pay for employees who are released by BBAHC and separated without cause.

2.3.1.4 Payment of turnaround leave travel expenses. All individuals who are eligible for these expenses shall be identified in the IPA negotiated between the parties. The IHS will retain liability for existing IPAs. BBAHC assumes the liability for new IPAs and upon renewal of an existing IPA.

2.3.1.5 Lump sum leave payments for employees who leave federal service. All leave accrued prior to the employee becoming employed by BBAHC shall be identified in the IPA/MOA negotiated between the parties. The liability for accrued leave on existing, renewing, and new IPA/MOAs shall be the responsibility of BBAHC.

2.3.1.6 Costs associated with settling or resolving employment related disputes, subject to the terms specified in section 2.3.2 below.

2.3.1.7 Centrally paid expenses, subject to the terms specified in section 2.3.3 below.

2.3.1.8 The cost of paying unemployment benefits assessed to the Area in FY 2002 and thereafter on behalf of an employee who was employed by BBAHC under an IPA immediately prior to voluntary or involuntary separation from IHS regardless of the year in which unemployment benefits were paid. The BBAHC is not responsible for unemployment costs that were assessed to the Area in Fiscal Years 2000 and 2001.

2.3.2 Costs Related to Employment Related Disputes.

2.3.2.1 Responsibilities of the IHS. The Indian Health Service shall be responsible for the payment of all costs of the IHS Office of Human Relations and any other section of the Indian Health Service, Office of General Counsel, and Department of Health and Human Services associated with the processing, settlement or other resolution of disciplinary actions, grievances, or appeals to the Merit System Protection Board, the Equal Employment Opportunity Commission, and matters arising under the Federal Labor Relations Act or any other law permitting the employee to appeal from such actions initiated by Federal employees assigned to a Co-Signer under an IPA or MOA. The IHS may pay for or recover these costs from the IPA/MOA Employment Related Disputes Shared Cost Pool established under section 2.3.2.3 to the extent permitted under section 2.3.2.2.

2.3.2.2 Employee Dispute Costs Chargeable Against the IPA/MOA Shared Cost Pool. The IHS may pay for or recover costs associated with processing, settlement or other resolution of employment related disputes listed in paragraph 2.3.2.2.1 of this subsection from the IPA/MOA Shared Cost Pool under the following conditions:

2.3.2.2.1 Only costs associated with covered disputes that arose from conduct, performance or other circumstances alleged to have occurred during the course of the employee's assignment to BBAHC may be paid from the IPA/MOA Shared Cost Pool.

2.3.2.2.2 Costs which may be charged against the IPA/MOA Shared Cost Pool may include, but are not limited to, awards of back pay, compensatory damages, attorney fees, travel costs necessary to investigate the case and represent the IHS at hearings or in other proceedings during the appeal process, costs of obtaining and preserving witness testimony, and other similar costs incurred as a result of the IHS defending itself in these matters.

2.3.2.2.3 No salary costs of IHS, Office of General Counsel or Department of Health and Human Service employees may be paid or recovered from the IPA/MOA Shared Cost Pool. Nor may any other cost of these proceedings be charged if such costs have ordinarily been paid from funds identified by the IHS as residual or restricted at Headquarters or the Area Office.

2.3.2.3 IPA/MOA Employment Related Dispute Shared Cost Pool. All costs of the IHS related to IPA/MOAs for which Co-Signers' are responsible under section 2.3, "Determination of IPA/MOA Costs," are the responsibility of the individual Co-Signer to whom the IPA/MOA is assigned, except as provided in this paragraph. BBAHC agrees to share with other Co-Signers the costs and risks described in the above section 2.3.2.2, "Employee Dispute Costs Chargeable Against the IPA/MOA Shared Cost Pool" by each contributing a sum certain to an IPA/MOA Employment Related Dispute Shared Cost Pool. The purposes of this Shared Pool are to simultaneously ensure that IHS recovers the full costs associated with employment related disputes involving IPA/MOAs, minimize the budget uncertainties for individual Co-Signers, and minimize the accounting and administration caused by certain categories of costs. The IHS may use funds in the IPA/MOA Employment Related Dispute Shared Cost Pool only as provided in sections 2.3.2.2. An accounting of the IPA/MOA Employment Related Dispute Shared Cost Pool contributions and expenditures shall be provided

by the Alaska Area Native Health Service Area Office to BBAHC on a quarterly basis. Any funds remaining in the IPA/MOA Employment Related Dispute Shared Cost Pool at the end of the fiscal year shall be distributed to the Co-Signers who contributed no later than the last day of the fiscal year. The end of year distribution shall be made in the proportion in which the contributions to the IPA/MOA Employment Related Dispute Shared Cost Pool were made. The amount of the contribution by each Co-Signer shall be calculated based on the number of IPAs and MOAs the Co-Signer has assigned to it. If there is a shortfall in funds available to IHS, the additional funds IHS needs to fully recover its actual costs, as provided for in Section 2.3.2.2 each Co-Signer shall make an additional contribution in an amount calculated on the same basis as end of the year distributions are to be made under this section, provided that no such contribution may be required of Co-Signers if all accounting for the IPA/MOA Employment Related Shared Cost Pool is not up-to-date as of the date of the request for additional contributions. The required contribution for the fiscal year is shown in Appendix A to BBAHC's Funding Agreement, which also details the basis of the calculation.

2.3.3 Costs Related to IPA/MOA Centrally Paid Expenses. Certain costs associated with IPA and MOA employees are paid centrally by Headquarters from Area funds. These include costs detailed in columns 6, 7, and 8 of the spreadsheet entitled "Allocation of Centrally Paid Expenses (Excluding FTS)," Corrected May 11, 1998, that was prepared by David Mather. These are costs associated with Commissioned Corp, Personnel and Payroll, and Balance of Human Resources. The Alaska Area Native Health Service may pay for or recover assessments from Headquarters to cover these identified costs by including in the monthly charge for each IPA or MOA the monthly cost to the IHS of such Centrally Paid Expenses. The cost charged BBAHC for each IPA/MOA may not exceed the average cost per federal employee actually paid by IHS. For purposes of calculating the initial withhold amount and estimated monthly payments, the estimated average cost per month for each IPA or MOA is shown in Appendix A of the Funding Agreement.

2.4 Limitation on Obligations and Notice.

2.4.1 Obligations. IHS shall within 30 days provide notice to BBAHC of the best available estimate of the costs that may be incurred under this Agreement of leases, contracts, salaries and related expenses and permanent change of station.

2.4.2 Content of Notices of Best Available Estimates and Costs. Notice of best available estimates under section 2.4.1 and full accounting of all costs due under section 3.3.1 shall include the amount, vendor and reason for obligation or expenditure, including the name of the employee, if any.

Section 3. Method of Payment.

3.1 Full Year Withhold. Payment for services being purchased from the IHS may be made by BBAHC authorizing a withhold of the full year's initial mutually agreed upon estimate of the annual cost of each category of services BBAHC proposes to purchase from the IHS. In such case, no monthly payments are due from BBAHC. Upon periodic reconciliation, provided for under section 3.3.1, excess withheld funds will be paid by the IHS to BBAHC and

adjustments in the amount of withhold or payments needed to pay for all services BBAHC has purchased, or proposes to purchase, will be made to the IHS by BBAHC. *See* "Summary of Withhold/Buyback" page of Appendix A for calculation of the amount BBAHC hereby authorizes for full year withhold, if any.

3.2 Purchases through Buyback under section 2.2.

3.2.1 Calculations.

3.2.1.1 Of Initial Estimated Monthly Payment. The initial estimated monthly payment is determined by estimating the annual cost of services to be purchased from IHS, including the surcharge on all services under section 2.2.4, and dividing by 12. *See* "Summary of Withhold/Buyback" page of Appendix A for calculation of the amount of the initial estimated monthly payment.

3.2.1.2 Of Total Withhold Amount. A Co-Signer purchasing services through buyback authorizes withhold of an amount equal to the Advance Withhold under paragraphs 2.2.1.1, 2.2.2.1 and 2.2.3.1 of section 2.2 for each category of service being purchased, plus an amount equal to one month of the initial estimated monthly payment for each category of service being purchased (to cover the estimate for services to be provided in October). *See* "Summary of Withhold/Buyback" page of Appendix A for calculation of the amount BBAHC hereby authorizes to be withheld.

3.2.2 Payment Schedule.

3.2.2.1 First Payment. The initial estimated monthly payment is due and payable on the first day of November or the first day of the month following payment to BBAHC of its lump sum payment, whichever is later, in which case the IHS shall reduce the lump sum payment by the authorized withhold plus the initial estimated monthly payments for each month preceding the first month for which a payment is due from BBAHC for which a payment was not withheld. (This provision is intended to address delays caused in making the lump sum payment to BBAHC due to Congress authorizing continuing resolutions or other delays in making lump sum payments to BBAHC.)

3.2.2.2 Subsequent Estimated Monthly Payments. Subsequent payments are due and payable on the first day of each month, until the final months of the year intended to be covered by the Advance Withhold amount applicable to the category of services, as set forth in section 2.2. (For example, the last three months of payments for IPA/MOAs would come from the Advance Withhold amount, while only the last one month of payment for Other Services would come from the Advance Withhold amount.)

3.2.2.3 Default Date. If a payment is not received by the 10th day of the month in which it is due (or the first working day thereafter if the 10th day falls on a week-end or Federal holiday), the IHS will implement the late payment provisions for each category of service as provided under paragraphs 2.2.1.2, 2.2.2.2, and 2.2.3.3. This date shall be referred to throughout this section as "Default Date."

3.3 Reconciliation and Adjustment.

3.3.1 For Categories of Service. Full accounting of all costs for each category of service, whether purchased through full year withhold or buyback, will be provided to BBAHC within 45 days of the end of each month. Reconciliation of payments made to IHS compared to actual costs for the first three quarters of the fiscal year will be provided quarterly within 45 days of the end of each quarter. Reconciliation of payments made to IHS compared to actual costs for the last quarter of the fiscal year will be provided within 60 days of the end of the last quarter. At the end of each of the first three quarters, the IHS and BBAHC will review the expenses for the preceding quarters. The monthly estimated payment due, or the full year withhold amount, for the balance of the fiscal year will be adjusted accordingly to account for any over or under collections in order to project a zero balance at the end of the fiscal year. Within 30 days after the final end-of-year reconciliation is provided to BBAHC, any over recovery by the IHS must be returned to BBAHC and within 30 days after the final end-of-year reconciliation is due any under recovery must be paid by BBAHC.

3.3.2 For Administrative Surcharge.

3.3.2.1 Use and Rebate. The administrative surcharge shall be used exclusively for administration of the buyback provisions under this Buyback/Withholding Agreement. All income from the administrative surcharge will be accounted for separately and compared on an annual basis to the cost of administering buyback at the Area Office. This accounting and reconciliation shall be complete within 60 days of the end of the last day of the fiscal year. Any surplus in administrative surcharges shall be returned to the Co-Signers who participated in the buyback option on a pro rata basis depending on the amount of administrative surcharge paid.

3.3.3 Adjustment in Estimated Monthly Payment. In addition to adjustments in estimated payments that may occur under sections 3.3.1 and 3.3.2.1, the parties may at any time mutually agree, based on a change in circumstances, to change the estimated monthly payment due from BBAHC.

3.4 Use of Other Funds Due BBAHC to Avoid Default or Satisfy Obligations to IHS and other Remedies.

3.4.1 Avoiding Default. Default may be avoided to the extent funds are held by the IHS from other funds due to BBAHC, which may be withheld to satisfy the amount of the payment, which would otherwise be in default or to satisfy amounts due IHS after reconciliation of costs and payments when an amount is due to IHS.

3.4.2 Recoupment. Any amount due to the IHS by reason of BBAHC's failure to pay in full all amounts owing under the buy-back provisions of the Funding Agreement for the immediately preceding fiscal year shall be recouped by the IHS from any funds due to BBAHC under this funding agreement.

3.4.3 **Full Year Withhold as Penalty for Default.** Notwithstanding any other provision of this Buyback/Withholding Agreement, the IHS may require "full year withhold" as permitted herein as a condition of permitting a Co-Signer who was in arrears at the end of the immediately preceding fiscal year to buyback services from the IHS under the terms of this Agreement.

Section 4. Dispute Resolution. The parties shall endeavor to resolve any disputes concerning amounts due by BBAHC under this Agreement in a manner agreeable to BBAHC and to the IHS. In the event of a failure to reach agreement on the resolution of any such dispute, BBAHC may, after providing written notice to the IHS, choose not to include the disputed amount in any subsequent payment due. Payment in such a manner shall not be considered as a resolution of the dispute. The parties shall thereafter attempt to resolve the dispute through Alternative Dispute Resolution following, as appropriate, the principles and processes set forth in Executive Order 12988 signed by President Clinton on February 5, 1996, and made effective as of May 5, 1996. BBAHC shall have the option of resolving the dispute in accordance with Article II, Section 10 of the Compact.

Section 5. Effective Date. This Buyback/Withholding Agreement shall become effective on October 1, 2001, and shall remain in effect pursuant to section 5(c) of the Funding Agreement.

Certification for New /Replaced/Added Space
Agency-Related Program Space

Inclusion Criteria: Having space in use by IHS-funded health programs under PL 93-638 and primarily used by IHS-funded staff.

1)	Tribe or Tribal Organization:

Check one

☐ NEWLY ACQUIRED BUILDING
Not replacing or adding to a building already in the M&I/Equipment database.

☐ REPLACED EXISTING BUILDING
Replacing a building already in the M&I/Equipment database. At the end of this form identify the existing building that was/is being replaced. Describe new building below.

☐ ADDED SPACE TO EXISTING BUILDING
Adding space to building already in the M&I/Equipment database. At the end of this form, identify existing building being added to. Include only increased amount of space below.

Describe the space proposed to be added into the M&I/E Inventory. For additions to existing buildings, only include the additional space here. Existing building will be identified at the end.

2)	Identification of building meeting inclusion criteria above (name, number etc). Write In "ADDITION" when applicable.		
3)	Location of building (city, state, etc). Leave blank for additions.		
4)	Ownership of building (tribe, private, other). Include lease/rental type where applicable.		
5)	Building construction type. Choose from: trailer. fire resistant, masonry with wood, wood frame.		
6)	Gross square meters of addition or entire building. as applicable.		gsm
7)	Gross square meters or actual space in use by IHS-funded health programs under PL 93-638 and primarily used by IHS-funded staff.		gsm
8)	Annual average hours of use per week by IHS-funded health programs under PL 93-638 and primarily used by IHS-funded staff.		gsm
9)	Maintenance and repair funds currently provided under contract budget, either specifically or part of rental/lease payments.		$

10)	Briefly describe below the health services provided under the PL 93-638 contract:

Checklist of certifications to attach for space proposed to be added into the M&I/E Inventory.

	BUILDING CODES and STRUCTURAL Attach Certificate of Occupancy or other evidence of meeting national building codes, satisfactory structural condition, and safety standards.	Cost to bring to Standard:	$
	SEISMIC (EARTHQUAKE) Attach seismic survey if applicable; Otherwise, provide basis for exemption..	Cost to bring to Standard:	$
	ENVIRONMENTAL Attach environmental assessment, Including of land.	Cost to bring to Standard:	$
	AS-BUILT SCALE DRAWING Attach as-built scaled drawing. Use metric units and scale.	Cost to bring to Standard:	$

Certified by:	Date:
Mailing Address:	
Phone with area code:	FAX number
E-mail address:	

For replacements and additions, identify existing building below.

11)	Identification of existing building which is being replaced or being added on to. (name, number. etc).	
12)	Location of existing building (city. state, etc).

TRIBE/TRIBAL ORGANIZATION LETTERHEAD

(SAMPLE FOR ILLUSTRATIVE PURPOSES ONLY-Site, Cost & descriptive items are fictional)

DATE: April 15, 2005

FROM: _____Health Corporation
Facilities Manager

SUBJECT: _____ Hospital, _____, Alaska
PROJECT NO. AN2@@038H6, *"Project Name"*
FINAL REAL PROPERTY CLOSEOUT REPORT

TO: Area Realty Management Officer
Alaska Area Native Health Service

Through: ANTHC/DEHE Project Engineer _____

This Final Real Property Project Report provides an overview of the project summary, space allocation, appropriations, project milestones, and project costs including common costs and costs associated with land improvements, construction, equipment, and post-construction.

1. **Project Summary**

This project requested M&I funding to renovate the Kanakanak Hospital's Information System Department computer room. Under this project, the computer room was expanded into adjacent space to meet the needs of computer equipment and new air conditioning equipment. A new UPS system was installed and sized to allow for anticipated growth of the department. The design of these modifications has already been accomplished through a contract with a mechanical engineering firm.

2. **Space Allocation**

Type of Space	Gross Sqft.	Gross SqM
No square footage was added during this project		
If Space is added, identify current building or provide new building description and use		
Total Space		

3. **Appropriations (Total Revenue)**

Appropriation Type	Amount
M&I Amount	$
Third Party Collections	$
Other Sources of Funds Identify: Tribe/TO Contributions (Attach Gifting Letter and Approval)	$
Sub-Total	$
Unused, held for future project	$
Total Appropriations	$

4. **Project Milestones/Timelines**

Milestone	Date Achieved
Project Start	
Facility Placed in Service	
Project Completed	
(List other milestones if applicable)	

5. **Common Costs (i.e., Costs for studies, A/E Designs, Site Selection, C/A, TERO, Interest, legal, permits, printing, etc.)**

Description	Capitalized Amount	Expensed Amount
A/E Fees	$	$ 0
Criteria Changes (describe below)	$	$ 0
Total Common Costs	$	$ 0

Identify Costs: _____

6. **Land Improvements (Costs associated with environmental, demolition, disposal, preparation, etc.)**

Description	Capitalized Amount	Expensed Amount
No land improvements	$ 0	$ 0
If included, describe actions below	$ 0	$ 0
	$ 0	$ 0
Total Land Improvement Cost	$ 0	$ 0

Identify Improvements: _____

7. **Buildings (Building Number and Description as identified in the IHS Real Property Inventory).** ***Projects affecting multiple buildings and structures shall be listed separately with capitalized and expensed costs for each broken out and proportioned by percentage of common costs***

Building No.	Description	Percent of Common Costs
Building 00####		

8. **Other Structures (i.e. parking lots, sidewalks, roads, water systems, sanitary sewer, electrical system).** *Projects affecting multiple structures shall be listed separately with capitalized and expensed costs for each broken out and proportioned by percentage of common costs*

BLS No./Structure Describe Change	Description	Percent of Common Costs

9. **Construction**

Description	Capitalized Amount	Expensed Amount
Base Bid	$	$
Contract Modifications	$	$
Total Construction Cost	$	$

10. **Equipment:**

Description	Capitalized Amount	Expensed Amount
Universal Power System for CPU	$	$
Air Conditioning Unit and Installation	$	$
New Telephone Systems	$	$
Carpeting/Paint	$	$
Total Equipment Cost		

11. **Post-Construction**

Description	Capitalized Amount	Expensed Amount
Start-Up and Commissioning – Identify below	$	$
Total Post-Construction Cost	$	$

Identify Costs: _____

_____

_____

10. **Summary of Contract/Project Costs (Total capitalized and expensed amount should match the Tribal General Ledger Summary).**

Description	Capitalized Amount	Expensed Amount
Total Common Costs	$	$
Total Land Improvement Cost	$	$
Total Construction Cost	$	$
Total Equipment Cost	$	$
Total Post-Construction Cost	$	$
Grand Total Project Cost	$	$

APPENDIX J

PROJECT SUMMARY DOCUMENT

IV-1.
Policy #4*.
Project Summary Document Formats

Project Summary Documents describe projects being submitted to the MIRAC for funding from the maintenance & improvement funds (both competitive BEMAR funds and non-routine non-competitive Oklahoma Formula funds). Supporting documents to the PSD typically entail 100% design drawings (for projects requesting construction funds), construction cost estimates, product literature (for equipment specific PSDs), and contractor proposals or cost estimates.

A cover letter accompanies submitted PSDs, which affirms the organization's desire to submit these projects to the MIRAC for consideration.

The sections of the PSD are listed below.

PROJECT SUMMARY DOCUMENT

[Name of Project]
[Facility Priority Number] (use for multiple PSD submittals to prioritize your projects)
[Date]
[Facilities Board Project Number]
[Facility Name]
[Location], [State]

I. SUMMARY

[Summarize the project and include what is to be done, why (e.g., to add 135 gross square meters of space or replace a boiler), and the type of funding (e.g., Maintenance and Improvement, Quarters, Corporate Cost Sharing, etc.). This section should be no more than two paragraphs. Use attachments for project location maps and facility drawings.]

II. PROJECT SCOPE AND DESCRIPTION

A. Description of Project. [Provide a detailed explanation of the work to be accomplished by the project and the desired outcome of the project. Include all items reflected in the cost estimate. This information can be presented in bullet/list or narrative form.]

B. Project Justification. [Explain why the project is necessary. Link the justification to the developed Health Facilities Master Plan if appropriate. Discuss how the project will meet program needs, and how it will comply with legal, code, accreditation, and certification

* Sections of this policy modified by DEHE Staff to reflect formation of the MIRAC and for clarification of non-competitive project submittals.

requirements. Cite specific, code or JCAHO references by standard clause, chapter, paragraph, etc.]

III. DEFICIENCIES

The following deficiencies will be corrected as part of this project:

[List and describe only those facility deficiencies this project will address. The types of deficiencies include BEMAR, JCAHO, NFPA, HFPM, Public Law compliance items, ADA, etc.]

IV. COST ESTIMATE

Provide a budgetary cost estimate and the funding sources for the proposed project, including separate line items for design Architect/Engineer fees, project construction, construction contract administration fees, and project contingency.

V. PROJECT SCORE SHEET DOCUMENT (*only required for BEMAR competitive pool funds*)

Complete a project score sheet further detailing the scope, impact and benefits of this project. Provide the information required by the project score sheet.

VI. OTHER PROJECT ITEMS TO BE ADDRESSED

Supporting Documents: Drawings, Photos, Estimates, Etc.

APPENDIX K

ENVIRONMENTAL INFORMATION AND DOCUMENTATION

ENVIRONMENTAL INFORMATION AND DOCUMENTATION

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

Considerations	Basis for Determination (Documentation)
1. Will the proposed action result in a known violation or continuance of a violation of applicable (Federal, Tribal, State or local) laws or requirements for protection of environment or public health and safety?	Yes or No. Explanation.
2. Will the proposed action result in a conflict with existing or proposed federal, Tribal, state, and local land use plans?	Yes or No. Explanation.
3. Is there a controversy with respect to environmental effects of the proposed action based on reasonable and substantial issues?	Yes or No. Explanation.
4. Is the proposed action significantly greater in scope than normal for the area or does it have significant unusual characteristics?	Yes or No. Explanation.
5. Does the proposed action establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

6. Does the proposed action have significant adverse direct or indirect effects on park land, other public lands, or areas of recognized scenic or recreational value?	Yes or No. Explanation.
7. Does the proposed action include construction of a new municipal solid waste landfill at a new solid waste disposal site?	Yes or No. Explanation.
8. Will the proposed action create a need for additional capacity at solid waste disposal facilities?	Yes or No. Explanation.
9. Does the proposed action include construction of a new wastewater treatment facility that will discharge treated sewage effluent to the waters of the U.S.	Yes or No. Explanation.
10. Will the proposed action create a need for additional capacity at wastewater treatment facilities?	Yes or No. Explanation.
11. Will the proposed action create a need for additional capacity in the drinking water supply?	Yes or No. Explanation.
12. Are there other considerations about the proposed action that could adversely affect the environment and/or public health and safety?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

13. Will the proposed action create a need for additional capacity in health care facilities and for health care services?	Yes or No. Explanation.
14. Will the proposed action create a need for additional energy supply or generation?	Yes or No. Explanation.
15. Will the proposed action create a need for additional capacity in educational facilities?	Yes or No. Explanation.
16. Will the proposed action create a need for additional capacity in transportation systems?	Yes or No. Explanation.
17.Historic Preservation: a. Does the proposed action involve the purchase, construction, alteration, renovation, or lease of a building or portion of a building that is more that 50 years old?	Yes or No. Explanation.
b. Will the proposed action adversely affect properties listed, or eligible for listing, on the National Register of Historic Places?	Yes or No. Explanation. or No
18. Endangered Species Act: Is the proposed action likely to adversely affect a plant or animal species listed on the Federal or applicable state list of endangered or threatened species or a specific critical habitat of an endangered or threatened species?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

19. Will the proposed action require major sedimentation and erosion control measures?	Yes or No. Explanation.
20. Will the proposed action violate a storm water permit or a wastewater discharge permit either for construction or on-going operations?	Yes or No. Explanation.
21. Safe Drinking Water Act: Will the proposed action impact an EPA designated sole source aquifer?	Yes or No. Explanation.
22. Wetlands and Water Resources (lakes, rivers, ponds, streams, etc.): Will the proposed action violate a Section 404 (Clean Water Act) permit for actions in a wetland and/or Section 10 (Rivers and Harbors Act) permit for actions in a stream or river?	Yes or No. Explanation.
23. Floodplains: a. Is the proposed action located in either a 100-year or, for critical actions, a 500-year floodplain? (If Flood Insurance Rate Maps do not exist for the project site, a floodplain survey or consultation may be required. Also may need to consider if the facility will require flood insurance).	Yes or No. Explanation.
b. Will the proposed action adversely impact flood flows in a floodplain or support development in a floodplain?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

24. Existing site: Would the proposed action involve the purchase, construction or lease of new facilities (including portable facilities and trailers), substantially increase the capacity of an existing health care facility?	Yes or No. Explanation.
25. New site: Does the proposed action involve purchase, construction, or lease of new facilities (including portable facilities and trailers) where such action is for buildings equal to or more than 12,000 square feet (1080 square meters) of useable space when more than 5 acres (2 hectares) of surface land area are involved at a new site?	Yes or No. Explanation.
26. New site: Does the proposed action involve purchase, construction, or lease of health care facilities (other than buildings) for projects equal to or more than 5 acres (2 hectares) of surface land area at a new site?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

27. Does the proposed action involve the sale or transfer of real property, on which any hazardous substance was stored for one year or more, known to have been released, or disposed of? (Provide relevant documentation for any hazardous substance releases. See 40 CFR 373.2(b), 302.4, and 261.30 for reportable quantities.)	Yes or No. Explanation.
28. Does the proposed action involve the sale or transfer of real property, on which underground or above ground storage tanks are located?	Yes or No. Explanation.
29. Will the proposed action violate Tribal, local, state, or federal law on the use and storage of hazardous substances or the transportation, storage, and disposal of hazardous wastes or medical wastes? (Activities that may generate reportable quantities include air conditioning repair and service, pesticide application, motor pools, automobile repair, welding, landscaping, agricultural activities, print shops, hospitals, clinics, & medical centers. Repair, renovation, or demolition activities can generate waste that has asbestos-containing materials, asbestos, lead-based paint, PCBs, CFCs, etc.)	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

30. Will the proposed action adversely affect community air pollution for a long period of time?	Yes or No. Explanation.
31. If the proposed action is implemented, will it have a disproportionately high and adverse human health or environmental impact on the Tribe, low-income populations, or minority populations?	Yes or No. Explanation.
32. Will the proposed action adversely affect community noise levels?	Yes or No. Explanation.
33. Wilderness Act: Will the proposed action adversely impact a Wilderness Area?	Yes or No. Explanation.
34. Farmland Protection Policy Act: Will the proposed action convert significant agricultural lands to non-agricultural uses and exceed 160-point score on the farmland impact rating?	Yes or No. Explanation.
35. Coastal Zone Management Act: Will the proposed action directly affect a Coastal Zone in a manner inconsistent with the State Coastal Zone Management Plan?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

36. Wild and Scenic Rivers Act: Will the proposed action affect a wild, scenic, or recreational river area or create conditions inconsistent with the character of the river? (A consideration for activities that are in or near any wild and scenic waterway including construction of stream/river crossings, intake structures, outfalls, etc.)	Yes or No. Explanation.

I certify that to the best of my knowledge and ability the information presented above is true and correct. The record was examined to identify potential extraordinary or exceptional circumstances which would require further environmental review.

APPENDIX L

ACTIONS REQUIRING IHS ENVIRONMENTAL REVIEW AND DETERMINATION

APPENDIX L – Actions Requiring IHS Environmental Review and Determination

For actions outlined in the below table, which are to be undertaken by BBAHC, BBAHC shall submit a proposal package that includes a completed Project Summary Document (See Appendix J) and Environmental Information and Documentation Form (See Appendix K) to the IHS. Coordination time between BBAHC and the IHS to complete the Environmental Review and Determination process varies for each group of actions. The timing provided below indicates the expected timeline to complete the process for each group of actions. Early coordination in the planning phase of a project between BBAHC, IHS, and other stakeholders will help ensure environmental concerns are addressed in a timely manner and project delays are minimized so that IHS can complete its environmental responsibilities and issue a Determination Document as early as possible.

	Action	Expected Timelines
	Categorically excluded actions per Federal Register Vol. 58, No. 3, pg 571(I)(3), (I)(4), (I)(6), and (I)(7), dated January 6, 1993.	**The Environmental Review and Determination Process for this group of actions ranges from 45 to 90 days from the receipt by the IHS of the proposal package.***
[]	Pg 571 (I)(3): Building alteration or renovation that does not substantially change the function or general appearance of existing buildings.	
[]	Pg 571 (I)(4): Construction or lease of new facilities (including portable facilities and trailers) where such lease or construction: (a) is at the site of existing health care facility and the facility capacity is not substantially increased, (b) is for building of less than 12,000 square feet of useable space when less than five acres of surface land area are involved at a new site, or (c) is for projects other than buildings when less than five acres of surface land area are involved at a new site.	
[]	Pg 571 (I)(6): Acquisition of space by lease, use agreement, transfer, gift or similar arrangement for which: (a) the intended use of the space is consistent with the functional design of the building, and (b) the acquisition is consistent with an applicable master plan, if such plan exists.	
[]	Pg 571 (I)(7): The acquisition, sale, release, abandonment, closure or transfer of real property, provided the action: (a) is consistent with any applicable master plan, if such a plan exits, (b) conforms to local zoning and land use ordinances, if such ordinances exist, (c) is consistent with the functional design of the facility, (d) would not violate applicable Federal, State, or local environmental protection or historic preservation laws, and (e) satisfies the requirements of applicable comprehensive Environmental Response Compensation and Liability Act (CERCLA)section 120 (h) provisions.	
	Any normally categorically excluded actions that may have Extraordinary or Exceptional Circumstances per Federal Register Vol. 58, No. 3, pg 571-72(K), dated January 6, 1993.	**The Environmental Review and Determination Process for this group of actions ranges from 60 to 180 days from the receipt by the IHS of the proposal package.**
[]	Pg 571 (K)(1): Those with potential to change the existing environment where such change violates directives or other controls that are imposed by any governmental body having jurisdiction, for the purpose of protecting or otherwise affecting that environment;	
[]	Pg 571 (K)(2): Those with potential or real threat of violation, or continued violation, of an applicable Federal, State, or local law or requirement imposed for protection of the environment or to ensure public health and safety;	
[]	Pg 571 (K)(3): Those likely to cause controversy with respect to the types or extent of the resulting environmental effects where such controversy is based on pertinent and substantial issues;	

[]	Pg 571 (K)(4): Those involving the use of technology where the possible effects are highly uncertain or involve unique or unknown risks and where such technology has not been assessed previously for environmental impact;
[]	Pg 571 (K)(5): Those which have adverse effects on unique geographic characteristics (e.g. historic, archeological, or cultural resources, park recreation or refuge lands, wilderness, areas, wild or scenic rivers, sole or principal drinking water aquifers, prime farmlands, wetlands, floodplains, coastal management zones, or ecological or critical areas including those listed on the Department of Interior National Register of National landmarks);
[]	Pg 571 (K)(6): Those which establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects;
[]	Pg 571 (K)(7): Those which have adverse effects on properties listed or eligible for listing on the National Register of Historic Places;
[]	Pg 571 (K)(8): Those which have adverse effects on species listed by the Federal Government as Endangered or Threatened Species, or which have adverse effects on any designated critical habitat for these species;
[]	Pg 571 (K)(9): Those which require assessment in accordance with Executive Order 11988 (Floodplain Management), or Executive Order 11990 (Protection of Wetlands), or the Fish and Wildlife Coordination Act; and
[]	Pg 572 (K)(10): Those which involve the use, transfer, or lease of real property which has been determined, after investigation in accordance with the provisions of CERCLA 120 (h), to have been used as a storage facility for hazardous waste for more than 1 year; and
[]	Pg 572 (K)(11): Construction projects which are significantly greater in scope or size than normally experienced for a particular category of action.

Any action NOT categorically excluded per Federal Register Vol. 58, No. 3, pg 569-572, dated January 6, 1993 attached hereto.	**The Environmental Review and Determination Process for this group of actions ranges from 60 to 180 days from the receipt by the IHS of the proposal package.**

* The time needed to complete Environmental Reviews is highly dependent on required consultations with other Federal and State Agencies. As an example, the NHPA Section 106 Process requires the State Historic Preservation Officer (SHPO) be allotted 30 days to review and comment on a proposed action (36 CFR Part 800.3(c)(4)). Furthermore, additional time beyond the 30 days may be required for consultation with SHPO to adequately review and determine the effects of the proposed action on existing historical resources. Coordination early in the planning phase of the project can help identify these potential issues and allow BBAHC and IHS to resolve them early.

Indian Health Service

National Environmental Policy Act; Categorical Exclusions

AGENCY: Indian Health Service (IHS), HHS.

ACTION: List of IHS program actions that are categorically excluded from the requirement to conduct further evaluation under the National Environmental Policy Act (NEPA).

SUMMARY: This notice provides a list of classes of IHS actions that normally do not have a significant impact on the environment and, therefore, do not require environmental impact statements (EIS) or environmental assessments (EA) under Council on Environmental Quality (CEQ) regulations (40 CFR parts 1500–1508) or Department of Health and Human Services (HHS) procedures (HHS General Administration Manual Part 30). All actions involving construction are reviewed to determine if extraordinary or exceptional circumstances exist that prevent the action from meeting the criteria established for this listing.

EFFECTIVE DATE: January 6, 1993.

FOR FURTHER INFORMATION CONTACT: Director, Division of Environmental Health (DEH), Office of Environmental Health and Engineering (OEHE), IHS, Public Health Service (PHS), HHS, room 5A–39, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857; or telephone (301) 443–1043.

SUPPLEMENTARY INFORMATION: Regulations of the CEQ at 40 CFR parts 1500–1508 require Federal agencies to adopt procedures to supplement and implement their regulations. The HHS, by giving notice in the Federal Register (45 FR 76519), has adopted such procedures and included them in the HHS General Administration Manual Part 30. The CEQ approved the HHS procedures on October 2, 1980. Paragraphs 1507.3 and 1508.4 of the CEQ regulations provide for the definition of categories of actions that do not individually or cumulatively have a significant effect on the human environment and therefore, do not require the preparation of an EIS or an EA. Paragraph 30–20–40 of the HHS General Administration Manual establishes categories of exclusion for Departmental actions and provides for the listing of actions by Operating Divisions within the Department. The IHS, as an agency of the PHS, hereby gives notice of its listing of actions which normally can be categorically excluded from further environmental review.

If a proposed action belongs to an excluded category but one or more extraordinary or exceptional circumstances (as defined in Part K) apply, then an EA must be prepared for the purpose of determining whether an EIS is warranted.

The IHS provides comprehensive health care services to more than 1 million American Indians and Alaska Natives. The goal of the IHS program is to raise the health status of American Indians and Alaska Natives to the highest level possible. In carrying out this goal, the program has three main objectives: (1) To deliver the highest quality health services possible; (2) to assist tribes and native corporations to develop their capacity to manage health programs; and (3) to serve as an advocate for American Indians and Alaska Natives in health related matters.

The IHS program is carried out through a health services delivery system, designed to provide a broad mix of preventive, curative, rehabilitative, and environmental services. The type of health services delivery system

employed varies from Area to Area. Population, health indices, and facilities and services available from sources other than the IHS are evaluated to determine the methods IHS uses to provide services.

The IHS program consists of two major systems: (1) A Federal health care delivery system, administered by Federal employees, and (2) a tribal health delivery system, administered by tribes and tribal groups under grants, contracts or cooperative agreements. The categorical exclusions apply to IHS program actions whether carried out directly by the IHS, or funded or otherwise sponsored by the IHS. The IHS contracts, grants, and cooperative agreements are actions defined in NEPA and are subject to the IHS review procedures established to ensure NEPA compliance, including provisions covering extraordinary and exceptional circumstances. The NEPA compliance for the tribal health care delivery system is ensured through IHS administrative procedures for contracts, grants, and cooperative agreements.

The selection of IHS program actions to list as categorical exclusions has been determined, in part, by agency experience in complying with NEPA, during the past 10 years. Actions required to provide health care services will not have significant impact on the environment except when exceptional or extraordinary circumstances exist. The IHS has categorically excluded these actions, since enactment of NEPA; however, actions involving construction normally have required completion of an environmental review/assessment.

The IHS administers programs for the construction of domestic sanitation facilities (water, wastewater, and solid waste) for Indian homes and communities, construction of new or replacement health care facilities and staff quarters, and renovations to existing health care facilities and quarters units.

Environmental reviews/assessments of construction projects undertaken during the past 10 years have concluded that an EIS was not required for any of them. Approximately 2,300 sanitation facilities construction projects and fewer than 60 health care facilities/staff quarters construction projects have been approved during this time.

The type of program and procedures employed to administer the construction of sanitation facilities for Indian homes and communities, and the consistent determinations that these projects do not have a significant impact on the environment, are the basis for the decision to list most sanitation facilities projects are categorically excluded.

as

Factors considered in making this determination include:

1. Projects are undertaken to improve health and/or environment.

2. Projects are untaken at the request and with approval of the tribal governing body, which provides for discussion and evaluation of the project and its impacts.

3. Projects are normally constructed on tribally owned or individually owned tribal land within reservation boundaries.

4. Projects are constructed to comply with all current applicable environmental regulations and plans and specifications are submitted to State and Federal agencies as necessary for review and comment.

5. Projects are constructed to provide utilities (water, sewer, solid waste) either for existing American Indian or Alaska Native homes or for new homes constructed with Federal, tribal, State or other resources. New homes are constructed at sites and locations approved by the Tribal Governing Board. Utilities are not provided for future development or undeveloped parcels, and capacity provided is limited to that routinely provided by standard engineering practice for the current design population.

6. The IHS projects fall into the category of minor construction projects based on cost. During the last 10 years, 85 of the 2,300 projects exceeded $1 million, and the average estimated cost was $250,000.

7. Standard IHS procedures require documentation of an environmental review of each construction project to identify any exceptional or extraordinary circumstances and to ensure compliance with all environmental laws, regulations, and executive orders; e.g., those concerning floodplains, wetlands, endangered species, etc. This review is required early in the project planning process.

The categorical exclusion for construction of health care facilities and staff quarters has been limited to renovation or new construction at existing health care delivery sites, and construction or development of relatively small facilities at new locations. The procedures noted in item 7 above for sanitation facilities construction projects also apply to all health care facility and staff quarters construction projects. Most health care facility and staff quarters renovation projects can be classified as minor construction projects based on cost. Fewer than 200 major renovation projects have been undertaken and only a few were funded at a level exceeding $1 million.

Categorical Exclusions

A. Health Services

Direct delivery of medical, dental, nursing, and other related health services; e.g., patient care/counseling administered from hospitals, health centers, health stations, satellite clinics, and in private homes by IHS staff or contract providers to authorized recipients.

B. Research

Research activities that are consistent with the mission of IHS including: (a) Biological and behavioral studies conducted in laboratories, clinics, and the field; (b) studies on the development and delivery of prevention and treatment services and their administration and financing; and (c) evaluations of prevention and treatment.

C. Pesticides

Application of pesticides which are not classified for restricted use under provisions of the Federal Insecticide, Fungicide and Rodenticide Act when used for routine pest control purposes.

D. Contracts, Grants, and Cooperative Agreements

Contracts, grants, and cooperative agreements and continuations, supplements, extensions, and amendments of these documents for IHS programs or actions that are categorically excluded. (Includes Self-Determination Act contracts, Contract Health Care contracts, etc.)

E. Technical Assistance

Action involving the provision of technical assistance to American Indian and Alaska Native tribes and groups, other Federal agencies, State and local governments, and non-profit organizations are excluded. These actions include but are not limited to:

1. The provision of technical assistance to American Indian and Alaska Native tribes and groups for the purpose of developing management capabilities needed to enable eventual tribal assumption of health program operation;

2. The provision of technical assistance to American Indian and Alaska Native tribes and groups for the purpose of developing capabilities in the areas of epidemiology, disease reduction, injury prevention, environmental improvement, and the operation and maintenance of sanitation facilities; and

3. The assignment of IHS personnel to agencies/organizations for the purpose of providing technical expertise (e.g.,

investigation, diagnosis, consultation, counseling) in health programs.

F. Management and Administrative Support

Routine management and administrative support actions.

G. Training, Education, and Manpower Development

The award of training grants, scholarships, and the provision of other types of training and educational assistance are excluded. These actions include:

1. Support for development of professional and paraprofessional health competencies;
2. Support for development of American Indian and Alaskan Native health management capabilities;
3. Support for development of tribal and community capabilities in the areas of environmental improvement, disease reduction, injury control, and operation and maintenance of sanitation facilities;
4. Support for training and education of IHS personnel necessary for the efficient accomplishment of the IHS program; and
5. Educational activities including development of disease prevention and treatment and presentation of such material to American Indian and Alaskan Natives.

H. Statistics, Data Processing, and Information Gathering

Actions associated with statistics and information collection and dissemination are excluded. These actions typically involve:

1. Collection of demographic or morbidity data and analysis for program management and budget justification purposes;
2. Epidemiologic studies;
3. Environmental surveillance activities (e.g., sample collection, analysis, and monitoring of air, food, water, and wastewater) to determine quality as a basis for ensuring necessary corrective action;
4. Engineering studies and investigations including soil boring and test well drilling to gather data for the purpose of determining engineering feasibility and to permit facility design;
5. Updating existing data bases and data processing;
6. Printing and distributing reports; and
7. Developing new/redesignating existing data systems to meet specific program needs.

I. Indian Health Service Owned and Leased Facilities

Actions related to the IHS owned and leased facilities, or actions funded by IHS at tribally owned (or leased) and managed facilities as listed below, are excluded:

1. Maintenance and day-to-day operation of the physical plant and repairs to plant and equipment, or replacement-in-kind of utilities and building components;
2. Acquisition of equipment, provided all requirements for permits, registrations, and licenses are met, and provided the equipment involves use of generally accepted technology;
3. Building alteration or renovation that does not substantially change the function or general appearance of existing buildings;
4. Construction or lease of new facilities (including portable facilities and trailers) where such lease or construction:

(a) Is at the site of an existing health care facility and the facility capacity is not substantially increased,

(b) Is for buildings of less than 12,000 square feet of useable space when less than five acres of surface land area are involved at a new site, or

(c) Is for projects other than buildings when less than five acres of surface land area are involved at a new site;

5. Facility planning and design including funding of such activities;
6. Acquisition of space by lease, use agreement, transfer, gift or similar arrangement for which:

(a) The intended use of the space is consistent with the functional design of the building, and

(b) The acquisition is consistent with an applicable master plan, if such plan exists;

7. The acquisition, sale, release, abandonment, closure or transfer of real property, provided the action:

(a) Is consistent with any applicable master plan, if such a plan exists,

(b) Conforms to local zoning and land use ordinances, if such ordinances exist,

(c) Is consistent with the functional design of the facility,

(d) Would not violate applicable Federal, State, or local environmental protection or historic preservation laws, and

(e) Satisfies the requirements of applicable comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) section 120 (h) provisions.

J. Construction of Sanitation Facilities

Actions associated with construction of sanitation facilities to serve Indian homes and communities, except that the following actions are not excluded:

(1) Construction of a sanitary landfill at a new solid waste disposal site, and

(2) Construction of a new wastewater treatment facility with direct discharge of treated sewage to surface waters.

K. Extraordinary or Exceptional Circumstances

Under extraordinary circumstances, the normally excluded actions described above may have a significant environmental effect; such actions are not categorically excluded. Actions that can be characterized by, or may cause any of, the conditions described below are examples of actions that are not categorically excluded:

1. Those with potential to change the existing environment where such change violates directives or other controls that are imposed by any governmental body having jurisdiction, for the purpose of protecting or otherwise affecting that environment;
2. Those with potential or real threat of violation, or continued violation, of an applicable Federal, State, or local law or requirement imposed for protection of the environment or to ensure public health and safety;
3. Those likely to cause controversy with respect to the types or extent of the resulting environmental effects where such controversy is based on pertinent and substantial issues;
4. Those involving the use of technology where the possible effects are highly uncertain or involve unique or unknown risks and where such technology has not been assessed previously for environmental impact;
5. Those which have adverse effects on unique geographic characteristics (e.g., historic, archeological, or cultural resources, park recreation or refuge lands, wilderness areas, wild or scenic rivers, sole or principal drinking water aquifers, prime farmlands, wetlands, floodplains, coastal management zones or ecological or critical areas including those listed on the Department of Interiors National Register of National Landmarks);
6. Those which establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects;
7. Those which have adverse effects on properties listed or eligible for listing on the National Register of Historic Places;
8. Those which have adverse effects on species listed by the Federal Government as endangered or Threatened Species, or which have adverse effects on any designated critical habitat for those species;
9. Those which require assessment in accordance with Executive Order 11988 (Floodplain Management), or Executive

Order 11990 (Protection of Wetlands), or the Fish and Wildlife Coordination Act; and

10. Those which involve the use, transfer, or lease of real property which has been determined, after investigation in accordance with the provisions of CERCLA 120 (h), to have been used as a storage facility for hazardous waste for more than 1 year; and

11. Construction projects which are significantly greater in scope or size than normally experienced for a particular category of action.

Dated: December 29, 1992.

Michel K. Lincoln,

Deputy Director.

BILLING CODE 4150-15-M

ADDENDUM I

BRISTOL BAY AREA HEALTH CORPORATION

MEMORIALIZATION OF HISTORICAL
LEVEL OF PFSAS PROVIDED BY
ANMC AND AANHS

The ANMC, subject to available appropriations, has historically provided the following PFSAs to BBAHC as of October 1, 1997 and continued to provide such services through December 31, 1998:

- Accepting all referrals of Alaska Natives from Kanakanak Hospital.
- Providing specialty care field clinics.
- Consultation to BBAHC physicians.
- Pathology, radiology, and laboratory support.
- Medivac support for emergencies.
- Patient travel support for BBAHC patients returning home from treatment at the ANMC.
- Temporary assistance for lab, x-ray and other professional support personnel, and other services.
- Specialized training such as Advanced Cardiac Life Support, Advanced Trauma Life Support, etc.
- Alaska immunization program providing vaccines for Hepatitis A, Hepatitis B, Hemophilus Influenza B and other vaccines without charge to BBAHC in a manner consistent with past practices, provided that this service is subject to discontinuance if the State of Alaska assumes these responsibilities.
- Teleradiology services.

The ANMC will continue, subject to the availability of appropriations, in its historical capacity as primary, secondary, tertiary, and specialized provider of patient care to the Lake Iliamna Service Area (LISA) sub-region of BBAHC which includes (Iliamna, Kokhanok, Newhalen, Nondalton and Pedro Bay) within the larger Anchorage Service Unit, to provide PSFAs at no lower level than which have been previously provided to the BBAHC while operating under Title I P.L. 93-638 contract or under previous AFAs, including but not limited to:

- Acceptance of all referrals of eligible beneficiaries from the LISA/BBAHC Region Community Health Aide Clinics, Contract Health Care Physicians, and all licensed LISA/BBAHC clinical practitioners.

- The provision of field clinics, including, but not limited to, physicians, dentistry to be provided on no less than that historical basis of no less than twice per year, with the understanding that additional visits may be incorporated with the planned enhancement of rural Anchorage Service Unit Services, and optometry clinics.

- The physician support services including, but not limited to, collaboration, consultation and training for LISA/BBAHC mid-level practitioner and health aides, authorization of refills of chronic medications, monitoring of chronic care, and emergency Medical Services sponsorship for practitioners and health aides.

- Case management through a primary care village team, along with a village pharmacy support program.

- Specialty care clinics on an as needed basis including, but not limited to, audiology, mental health, and psychiatric.

- Mental health/psychiatry/child psychiatry support services including, but not limited to, monitoring of patients on chronic psychiatric medications, assistance in the development of individual or team treatment plans, and availability for telephone consultation to village/communities on a 24-hour basis, conditioned upon the availability of resident mental health capacity in the villages.

- Pathology, pharmacy, radiology, EKG interpretation, and laboratory support including testing.

- Emergency medical services and medivac support for emergencies.

- Patient travel support for LISA/BBAHC beneficiaries returning home following treatment at the ANMC.

- Travel and housing for patient escorts.

- Contract Health Care consultations; and support.

- CHEF eligibility and coverage, contract health, denial and appeals processes, and funds distribution.

- Acceptance of LISA/BBAHC Community Health Aides to Basic Health Aide training sessions and practicums.

- RPMS related medical computer technical assistance for data entry and billing.

- Biomedical equipment support including, but not limited to, clinic site visits for maintenance and repair, depot repair, technical assistance and advisement.

- STD/HIV testing, counseling, partner notification, education and consultation as requested by LISA/BBAHC.

- Nutrition education and counseling services from the statewide Diabetes program based at ANMC.

- Environmental Health/Sanitation services including, but not limited to, appropriate village visits for environmental services, injury prevention, institutional services.

- Diabetes patient tracking and registration.

The Alaska Native Health Service Area Office has provided to BBAHC consultation and technical support services, subject to the availability of appropriations, which will include, but not be limited to:

- Without charge to BBAHC consulting radiology services and reference laboratory services to include on-site visits at a level consistent with the Continuing Services Agreement to be negotiated under this section, by a radiologist and routine reading of x-rays.

- Commissioned Corp. recruitment assistance including travel costs of the recruiter to and from Bristol Bay, any applicable documentation, award information for Commissioned Officer promotions, and career counseling for officers desiring long-term affiliation with IHS.

- Engineering services inclusive of maintenance and improvement for federal facilities and projects;

- Warehousing facilities and activities.

- Purchasing activities under GSA contracts;

- Office of Environmental Health Services and activities, health facilities support, real property support especially for village built clinics; projects for health facilities management, special projects and sanitation facilities.

- Administration and management of IPA/MOAs;

- Business office functions related to Medicare/Medicaid and third party reimbursement;

- Certain contract health services, not otherwise contracted under Title I;

- Region X legal consultation.

- Acceptance and inclusion of BBAHC statistical data such as user population, workload data, etc. IHS has provided access to the IHS Network through maintaining a wide area network with a common downlink to the gateway or access point in Anchorage.

The IHS has processed RPMS core data, and accepted core data from non-RPMS sites provided it is transferred on standard formatted media (such as ASCII text, dBase, Lotus, Excel). This processing shall include patient registration data, statistical workload data and contract health data.

The IHS has provided and maintained the IHSNET. This shall include LAN and WAN support, Network design and planning, IHS-wide e-mail, vendor control support, network security, Internet access, telemedicine and teleradiology planning and budgeting.

The IHS has distributed additional IP addresses when requested from the Co-Signer. The IHS shall continue to support all ANMC and Alaska Area Native Health Service office RPMS hardware, including maintenance contracts and licenses.

Confidentiality of patient records has been maintained in accordance with procedures set forth in the Federal Privacy Act of 1974, 5 U.S.C. 552a.

ADDENDUM II
BRISTOL BAY AREA HEALTH CORPORATION
MEMORIALIZATION OF MATTERS REMAINING IN DISPUTE

(1) Bristol Bay Area Health Corporation (BBAHC) does not agree with the IHS' position that Area Office tribal shares that were restricted by individual Co-Signer decision or by a consensus decision of all Co-Signers from FY 1995 through FY 2000 are not available for inclusion in FY 2004 because of Section 325, P.L, 105-83. BBAHC believes it has the right to include such tribal shares in its FY 2004 annual funding agreements notwithstanding Section 325. BBAHC reserves any remedies it may have under law.

(2) In the 2002 FA the parties agreed that the erosion of a shoreline of the Kanakanak federal compound would eventually interfere with BBAHC activities. The IHS has now assured BBAHC that this would not be the case for the foreseeable future and IHS is unwilling to continue this language in the 2004 FA. BBAHC continues to be concerned about the impact of the erosion and believes that the FA should include the previous language unless IHS provides BBAHC with convincing evidence for its new position.

FUNDING AGREEMENT

BETWEEN

COUNCIL OF ATHABASCAN TRIBAL GOVERNMENTS

AND

THE SECRETARY OF HEALTH AND HUMAN SERVICES

FYs 2023-2025

FUNDING AGREEMENT
BETWEEN
CERTAIN ALASKA NATIVE TRIBES
SERVED BY THE
COUNCIL OF ATHABASCAN TRIBAL GOVERNMENTS
AND THE
SECRETARY OF THE DEPARTMENT OF HEALTH & HUMAN SERVICES
OF THE
UNITED STATES OF AMERICA
FISCAL YEARS 2023-2025

This Funding Agreement is entered into by and between certain Alaska Tribes in the Yukon Flats Region and the Secretary of the Department of Health and Human Services. These Tribes have authorized the Council of Athabascan Tribal Governments to sign this Funding Agreement for them and to be responsible for and carry out the terms of this Funding Agreement.

SECTION 1 - OBLIGATIONS OF THE INDIAN HEALTH SERVICE.

(a) Under the authority of section 325 of P.L. 105-83 and P.L. 93-638 as amended, non-residual programs, services, functions and activities ("PSFAs") of the Alaska Area Office and the Alaska Native Medical Center have been transferred to tribal management.

Delivery of PSFAs shall be consistent with each Co-Signer's funding agreement ("FA"). IHS shall remain responsible for performing all federal residual PSFAs. The IHS shall remain responsible for negotiating assurances with ANTHC and SCF on behalf of Alaska Natives and American Indians to the effect that Co-Signers continue to receive non-residual PSFAs from the ANMC and Area Office and provided by ANTHC and SCF at a minimum at the level that such PSFAs were provided by the IHS as of October 1, 1997, to the extent permitted by Section 325 of P.L. 105-83. To the extent authorized by federal law, the IHS will respond to written Co-Signer concerns about the extent with which such assurances have not been complied and take appropriate action. IHS shall further be responsible for performing its special trust responsibilities and legal obligations as provided in the Indian Health Care Improvement Act, the Indian Self-Determination and Education Assistance Act, and other applicable provisions of federal law.

This Funding Agreement ("Agreement") obligates the Indian Health Service ("IHS") to provide funding and services identified herein and as provided in the Alaska Tribal Health Compact ("Compact") between the Council of Athabascan Tribal Governments ("CATG") and certain other Co-Signers thereof and the United States in Fiscal Years ("FYs") 2023-2025.

In addition, although funds are provided from Headquarters and Area Office in support of this Compact, the IHS will agree to continue to make available to CATG, PSFAs from both Area Office and Headquarters unless 100 percent of the total tribal shares for these PSFAs have been specifically included in this Agreement. In cases where a portion of tribal shares have been transferred, there may be some diminishment in the level of PSFAs provided by the IHS. Furthermore, the IHS will reorganize both Headquarters and the Area Office to continue to provide the remaining PSFAs, which have not been included in this Agreement, in the most effective and efficient manner possible, provided that decisions about the array and level of services to be offered by the IHS shall be made in consultation with Alaska Tribes. The IHS PSFAs not negotiated into or listed in Appendix A will be the responsibility of the IHS.[1] The "Memorandum of Agreement Describing the Continuing Services of the Area Office of the Alaska Area Native Health Service" among the Co-Signers and the Alaska Area Native Health Service reflects the understanding of the parties regarding services to be provided by the Alaska Area Native Health Service to Co-Signers. This document, attached as Appendix B, is hereby incorporated by reference.

Unless funds are specifically provided from Headquarters, Headquarters retains all PSFAs and CATG will not be denied access to, or services from, Headquarters. Specifically, the CATG will receive the following services from the IHS Headquarters:

(1) Information Services.

(A) Information Services. The Indian Health Service will provide the full range of Office of Information Technology (OIT) national support to the Alaska Native Tribal Health Consortium (ANTHC) and Alaska Native Medical Center (ANMC). OIT will provide specified services directly to CATG. In addition, OIT will provide support to ANTHC to assist it to carry out its responsibility to provide day-to-day technical support, user support, distribution of software and files and other typical information technology support to Co-Signers as defined in the Assurances Appendix to the ANTHC funding agreement. Upon request of ANTHC, after good faith efforts to resolve CATG's technical issue, OIT's support of CATG will include technical support needed on-site by CATG. A list of the services due under this paragraph, with identification of the method of delivery, is attached as Appendix D, which is fully incorporated herein.

(b) To the extent funds are retained by the IHS, CATG shall have access to training, continuing education, and technical assistance in the manner and to the same extent CATG would have received such services if it were not a Co-Signer of the Compact.

[1] All references to Appendix A and Appendix B in this Agreement are to the Appendix for the applicable fiscal year.

(c) CATG has historically received certain PSFAs from the ANMC and the Alaska Area Native Health Service ("AANHS"). Responsibility for these PSFAs has been transferred to the ANTHC and Southcentral Foundation ("SCF").

SECTION 2 - OBLIGATIONS OF CATG. This Agreement obligates CATG to be responsible for and to provide health PSFAs, identified in Section 3, utilizing the resources transferred under this Agreement and other funds as they may become available to CATG. This Agreement further authorizes the CATG to consolidate and redesign PSFAs as provided in the ISDEAA, as amended, and the Compact. CATG is obligated to seek third party reimbursements as provided by federal law and is payer of last resort. Whether providing, purchasing, or authorizing health care services described in the Compact and this Funding Agreement, in accordance with Section 2901(b) of Pub. L. 111-148, 25 U.S.C. § 1623(b), CATG shall be the payer of last resort. CATG is committed to and will strive to provide quality health services and will strive to meet standards CATG believes to be appropriate and applicable to the delivery of those health services.

SECTION 3 - TRIBAL PROGRAMS AND BUDGET. The CATG agrees to provide and be responsible for the health PSFAs identified below in accordance with the Compact and this Agreement. For the purposes of this Agreement, the CATG's General Budget Categories consolidate related health PSFAs.

(a) The CATG agrees to provide health care services to the Alaska Native and American Indian beneficiaries in the Yukon Flats Region.

(1) Administrative and Management Services. CATG will provide policy guidance as well as administrative and management oversight services for all health PFSAs described in this Agreement; will ensure that CATG's mission, policies and other responsibilities aimed at carrying out the ATHC and this agreement are carried out; and will assure compliance with the ATHC and this FA.

(2) Yukon Flats Health Center (YFHC): The YFHC is an ambulatory care referral center and provides primary care and 24-hour emergency care to residents of the Yukon Flats. The YFHC will also provide support services for the Yukon Flats Community Health Aide Program, the Behavioral Health Program, specialty clinics, optometry, ultrasound services and the visiting PHN.

(3) Health Education (HE): The HE Program will assist communities to develop a community health education plan and to establish health promotion/disease prevention programs in the Yukon Flats. The HE Program will train village based health providers to provide community health education services.

(4) Yukon Flats Community Health Aide Program (CHAP): The CATG will provide for the following CHA Program functions: delivery of village

based primary health care by Community Health Aides including dental services under the Standards and Procedures approved by the IHS Community Health Aide Program Certification Board; supervision and on-site CHA training by a Coordinator-Instructor; and, coordination of Yukon Flats CHA training at various locations in Alaska

(5) Community and Regional Health Development: The CATG will carry out activities which provide support for management, planning, organizational development and capacity building, consumer advocacy and development of tribal policy relating to health issues, contract compliance and administrative functions. The CATG will also provide for communications between CATG and residents of the region, coordination of health service programs with related services offered by CATG and other agencies in the region, and provide technical assistance to local governments to improve health-related services.

(6) Behavioral Health Services: CATG will provide nicotine prevention and cessation services, substance abuse and mental health services, behavioral treatment services, and group counseling. These services will be provided with multiple source funding to maintain a primary focus on prevention, intervention and aftercare services to children, adolescents and their families. The program will support services provided by Prevention Workers, Outreach Counselors/Educators and a state licensed Social Workers. Services may be provided in a variety of settings, including clinics, homes, schools, and other community settings.

(7) Dental Services: CATG will provide dental care for emergency, preventative and restorative care in accordance with the Indian Health Service Oral Health Program Guide, Section D: Schedule of Dental Services (Levels of Care). Dental services may also be provided by CHA/Ps under the Standards and Procedures approved by the IHS Community Health Aide Program Certification Board.

(8) Diabetes Prevention Program: CATG will provide primary, secondary and tertiary prevention services including Diabetes education, screening, clinical follow-up and case management services.

(9) Mental Health. This program will include, but not be limited to the following: a community based mental health and substance abuse program, including outreach, 24-hour crisis intervention, outpatient, aftercare and prevention and education services to the Yukon Flats villages; training peer helpers within the school system to address substance abuse and mental health problems through prevention.

(10) Non-IHS Funding. CATG will complement and supplement the PSFAs described in section 3 with funding from sources other than the IHS through this FA, subject to the availability of funds from such other funding sources. Consistent with Article III, Sections 5, 6 and 7 of the Compact, non-IHS funds will be added to or merged with funds provided by the IHS through this FA.

(11) Other Programs/Services Funded. This funding agreement includes programs, functions, services and activities resulting from tribal redesign, or consolidation, reallocation or redirection of funds, including its own funds or funds from other sources, provided that such consolidation, redesign, or reallocation or redirection of funds results in carrying out programs, functions, services and activities that may be included in the funding agreement pursuant to section 505 of Title V and Article III, Section 6 of the Compact.

(12) Air and Ground Transportation. CATG will provide, subject to funding limitations, air and/or ground patient transportation services, including adult escort, health professional and other escort as CATG deems appropriate and emergency medevac and non-emergency air transportation services where ground transportation is not feasible and transportation by private vehicle where no other means is available, including specially-equipped vehicle and ambulance, in any case which an authorized health center employee or medical provider deems such mode of transportation necessary. CATG may provide the above described patient transportation services in accordance with section 213 of the Indian Health Care Improvement Act, as amended at 25 U.S.C. § 1621*l*.

(13) Telehealth Services. CATG may provide telehealth services in support of all its programs. These include a wide range of telehealth activities as part of clinical and administrative services, include, but not limited to, medical, radiology, behavioral health, dental and home based care.

(14) Staff Housing. CATG will provide housing units for provider staff.

(15) Complementary and Alternative Medicine. Complementary and alternative medicine (CAM) patient care services, which can be demonstrated to be reasonably safe and effective and are indicated for the patient's diagnosis or condition, may be provided following a referral from a primary care provider (defined as MD, DO, DDS, DMD, PA, or APN) and, for those facilities with an organized medical staff mechanism, if the CAM providers are credentialed and privileged as required by the facility's accrediting or certifying body for the specific patient care services. Such services shall include, for example, acupuncture, naturopathic medicine, massage therapy and chiropractic services.

(16) Traditional Healing. As appropriate and as funds permit, CATG will seek to provide traditional healing services as understood by the Alaska

Native tribes served by CATG. These services include the coordination of traditional healing practices in accordance with 25 U.S.C. 1680u; research and training in order that traditional healing may be incorporated along with medical practices to further incorporate native values, beliefs and practices for the ultimate benefit of patients and families.

CATG agrees to administer any new health care programs funded during the term of this FA identified in the Indian Health Care Improvement Act; and any new health care program resulting from the reallocation of funds and redesign of programs during the term of this FA which will be in accordance with the terms of the Compact.

(b) FTCA: The Federal Tort Claims Act applies to CATG's PSFAs under this FA as provided in Section 516(a) of Title V (which incorporates Section 102(d) of Title I of the ISDEAA and Section 314 of Pub.L. 101-512). The extent of Federal Tort Claims Act coverage is described more particularly at 25 C.F.R. §§ 900-180 - 900.210. There is no requirement that CATG purchase liability insurance to protect or indemnify the federal government. Whether the Federal Tort Claims Act applies in any particular case is decided on an individual case-by-case basis, first by the Department of Justice and subsequently by the federal courts. CATG may purchase liability insurance supplemental to FTCA coverage which is an allowable cost under this Funding Agreement.

(c) Tribal Facilities and Locations: CATG operates the programs described in this Agreement out of more than one facility or location. These include, but are not limited to the facilities and locations listed in Appendix C, which is fully incorporated by reference herein. The Area Division of Planning, Evaluation and Health Statistics shall compile from this Appendix a list of all health facilities and locations identified in the Appendix and forward that list annually to the Headquarters Office of Program Statistics, which shall include each of these facilities and locations in the annual list it must provide to the Centers for Medicare and Medicaid Services (CMS) (formerly Health Care Financing Administration) pursuant to the Memorandum of Agreement between the Health Care Financing Administration and the Indian Health Service (December 19, 1996).

SECTION 4 - AMOUNTS AVAILABLE DURING THE TERM OF THIS AGREEMENT.

(a) The following amounts shall be available to CATG pursuant to the Compact and Title V of the ISDEAA, as amended, and are subject to reductions only in accordance with Section 508(d) of Title V and Section 106 of Title I.[2]

[2] A breakout of these funds is found on page 6 of Appendix A, which cites the source document used to determine the amount, and is fully incorporated herein. `These amounts are subject to change under the Act and as provided in this FA, including additional adjustments as provided in section 4(b). For other fiscal years to which this FA is applicable, a replacement Appendix A will

	Annual Funding
Recurring Base: Inclusive of all recurring funding, including recurring contract support funds	$ 1,860,991
Non-Recurring Funding: Inclusive of nonrecurring contract support funds and such other funding which may be added to the contract.[3]	$ 1,353,092
Subtotal: (Base funding from FY 96 P.L. 93-638 contract, subject to further adjustments as reconciliation of previous annual funding agreements occurs.)	$ 3,214,083
Area "tribal" share to include funding identified from Area Office and identified in Appendix A to this Agreement.[4]	$0
Headquarters—Tribal Share: "Tribal Size Adjustment Pool" including all funds identified in Appendix A. The amount identified is exclusive of funds for which a distribution amount has not been determined. The final amount due shall be determined as set forth in this FA or Appendix A.[5]	$0
Headquarters - Tribal Share: "Program Formula Pool" including all funds identified in Appendix A, and such additional funds which the IHS may make available on a program formula basis during the year base on the programs accepted for this allocation in Appendix A. **Subtotal—Tribal Shares**[6]	$0 $0

be negotiated between IHS and CATG for the respective year and amended to this FA and incorporated by reference accordingly.

[3]These non-recurring funds represent contract support costs for which funds are available at the beginning of the fiscal year. Other non-recurring funds are not specifically identified in this Agreement but will be provided to CATG in the future to the same extent as they have been historically provided.

[4] Funds from Area were distributed according to methodology agreed upon in a caucus open to all Alaska Tribes and Co-Signers. None of these tribal shares are identified for CATG because the tribes which have authorized this FA have given the Tanana Chiefs Conference (TCC), another Co-Signer to the ATHC, tribal resolutions enabling TCC to be awarded such tribal shares.

[5]Headquarters shares were allocated according to the following process, which was adopted in a caucus open to all Alaska Tribes and tribal organizations. The Alaska Area Tribal Share of Headquarters was first defined using the national Indian Health Service recommended methodology. In addition to the annual funding amount, CATG is entitled to funds, which have been restricted. *See* Appendix A for detail. None of these tribal shares are identified for CATG because the tribes which have authorized this FA have given the Tanana Chiefs Conference (TCC), another Co-Signer to the ATHC, tribal resolutions enabling TCC to be awarded such tribal shares.

[6]The subtotal of tribal shares does not include certain Headquarters' tribal shares for which the amount or availability has not been determined. This amount may be adjusted to make available all tribal shares for which CATG is eligible. See also, footnotes 3 and 4.

TOTAL FA FUNDING[7]	$ 3,214,083

These amounts are subject to additions and other reimbursements and for new funds received during the term of this Agreement including amounts that have historically been distributed as non-recurring funds under Title I of the ISDEAA, as amended. Any amounts remaining unspent under Contract No. 243-96-6008 shall be added to this Agreement.

M&I, ROUTINE PAYMENTS, NON-ROUTINE POOL METHODOLOGIES AND PROCESS FOR OPTING IN/OUT OF NON-ROUTINE POOL METHODOLOGIES. The amount of IHS Maintenance and Improvement (M&I) funds allocated to eligible health care facilities in Alaska, including for the competitive pool, is determined by a methodology called the University of Oklahoma (U of O) formula. By agreement with ANTHC and other Co-Signers to the Compact, including CATG, two-thirds of each year's U of O formula allocation to Alaska is designated as "routine" funding and is paid directly by IHS to each respective Co-Signer managing M&I eligible facilities and one-third is designated "non-routine" funding for distribution through construction project agreements and/or subawards. Specific projects are identified and recommended via ANTHC's statewide M&I program, currently through the Competitive project pool methodologies overseen by its statewide Maintenance and Improvement Resource Allocation Committee (MIRAC), an advisory committee of the ANTHC Board of Directors.

The routine M&I amount identified in Appendix A will be paid directly to CATG as a part of the lump sum due. The amount is determined by multiplying the FY 2022 Routine M&I amount paid to the Co-Signer by 90%. The final routine M&I amount paid in FY 2023 will be based on the final FY 2023 Routine M&I allocation. If the final Routine M&I amount, as determined by the final FY 2023 Routine M&I allocation, is less than the 90% calculation, CATG will return the difference to the IHS. CATG and IHS have agreed that CATG may base budget M&I funds determined to be eligible for base budget, including the amount of the two-thirds routine portion of the U of O formula funds payable to CATG in the federal fiscal year that precedes the start of the base budget period.

For Co-Signers that have not opted out, additional non-routine funding that may be available for the maintenance and improvement of eligible facilities, such as funding for the Backlog of Essential Maintenance, Alteration and Repair (BEMAR), is distributed through construction project agreements and/or subawards to Co-Signers, with specific projects being identified and recommended via

[7]For the reasons noted regarding the amounts that make up this total and because full funding amounts may not have been fully identified or reconciled, this amount is subject to amendment to reflect the full amount due for each fiscal year under the term of this FA.

ANTHC's M&I program, for approval by IHS, currently through the BEMAR Pool methodologies.

CATG may also opt out of participating in one or more of the non-routine pool methodologies for its M&I eligible facilities,[8] as provided in Appendix M of ANTHC's Funding Agreement, "ANTHC M&I Pools Opt In/Opt Out Process."

> If CATG elects to opt out from participation in the M&I competitive pool, it must opt out for all of its tribally owned facilities, and IHS will directly pay as "routine" M&I funds the U of O determined one-third project pool amount. CATG shall enter into a Competitive Project Pool support agreement with ANTHC, as described in the Appendix M to ANTHC's FA. The M&I eligible federally owned facilities operated by CATG shall continue to be eligible for Competitive Project Pool funding.
>
> If CATG elects to opt out from participation in the BEMAR pool, it must opt out for all of its tribally and federally owned facilities and CATG may receive a negotiated BEMAR amount through a negotiated Construction Project Agreement with IHS. The amount of funds that may be available from the BEMAR Pool for a Co-Signer that is opting out is calculated based on the average of its percentage of U of O formula funds allocated to the Alaska Area as a result of the Co-Signer's eligible tribally and federally owned facilities and the percentage of BEMAR funds (FEDS[9] deficiencies) allocated to Alaska Area as a result of the Co-Signer's eligible tribally and federally owned facilities.

A federal facility's eligibility for other funding is not affected by a Co-Signer's decision to opt in or out of the Competitive Pool or the BEMAR Pool.

CATG understands and agrees that even if it opts out of the Competitive Project Pool for tribally owned facilities, or the BEMAR Pool for any of its facilities, and that it must use funds that it receives in accordance with the appropriation language for Indian Health Facilities in the Department of Interior and Related Agencies Appropriation Act for the applicable Fiscal Year or any comparable Act of Congress that contains the subject appropriation. CATG acknowledges that opting back in to the non-routine M&I project pool methodologies is contingent on meeting the conditions described in Appendix M of ANTHC's Funding Agreement.

(b) Contract Support Costs. Contract support costs (CSC) will be paid in accordance with 25 U.S.C. § 5325 and § 5388(c). The parties agree that, according to the

[8] M&I eligible federally owned facilities operated by CATG continue to be eligible to access non-routine funds through the Competitive Pool.
[9] "FEDS" refers to the Facilities Engineering Deficiency System of which the Backlog of Essential Maintenance Alteration and Repair (BEMAR) is a subset.

best data available as of the date of execution of this agreement, the amount to be paid under the fiscal year covered by this agreement, which represents the parties' estimate of CATG's full CSC requirement pursuant to 25 U.S.C. § 5325, is $ $1,329,944 , including $101,162 for direct CSC and $1,228,782 for indirect or indirect-like CSC.[10] This estimate shall be recalculated as necessary as additional data becomes available including information regarding the direct cost base, pass throughs and exclusions, and the indirect cost rates to reflect the full CSC required under 25 U.S.C. § 5325. The parties will cooperate in updating the relevant data to make any agreed upon adjustments. In the event the parties disagree on the CSC amounts estimated and paid pursuant to this paragraph and CATG's full CSC requirement under the ISDEAA, the parties may pursue any remedies available to them under the ISDEAA, the Compact, and the Contract Disputes Act, 41 U.S.C. §7101 et seq.

(c) Inclusion of Statutorily Mandated Grant. In accordance with Section 505(b) of Title V, and its implementing regulations, the Parties agree that the Secretary shall add the following statutorily mandated grants, which are administered by DHHS through IHS, to the FA after they have been awarded. Grant funds will be paid to CATG as a lump sum advance payment through the PMS grants payment system as soon as practicable after award of the grant. CATG will use interest earned on such funds to enhance the programs for which the grant was awarded, including administrative costs. CATG will comply with all terms and conditions of the grant award, including reporting requirements, and will not reallocate grant funds nor redesign the grant program. Grant programs added to this FA in accordance with this provision include the following: Diabetes Grant.

CATG and its employees carrying out statutorily mandated grant programs added to a FA are covered by the FTCA. Regulations governing coverage under the FTCA are published at 25 CFR, Part 900, Subpart M.

SECTION 5 - METHODS OF PAYMENT.

(a) Payment Schedule. Except as provided in subsections (b),(c), and (d) of this section, all funds identified in Section 4 of this Agreement shall be paid to CATG, in accordance with Article II, Section 4(a) of the Compact; payment to CATG to be made as follows: One annual payment in lump sum to be made annually in advance by check or wire transfer.

(b) Availability of Tribal Shares. CATG will be paid 100 percent of negotiated Headquarters and Area Tribal Shares in its initial lump sum payment for each year under the term of this FA.

[10] For other fiscal years to which this FA is applicable, the CSC estimates will be negotiated between the IHS and CATG for the respective year and amended to this FA in Appendix A.

(c) Periodic Payments. Payment of funds otherwise due to the CATG under this Agreement, which are added or identified after the initial payment is made, shall be made promptly upon request of the CATG by check or wire transfer.

(d) Buyback/Withholding. CATG may carry out its responsibility to provide certain PSFAs included in this Agreement by using services or other resources of the federal government under Article V, section 22 of the Compact, as permitted by law. Except as provided herein, the cost of such services and the terms under which they may be made available to CATG are set forth in the Buyback/Withholding Agreement between the IHS and CATG, which is attached as Appendix E to this FA and incorporated by reference herein. The administrative surcharge provided for in section 2.2.4 of the Buyback/Withhold Agreement for FY 2023 shall be 0.285 percent. During the term of this FA, the Administrative surcharge rates will be negotiated annually. Notwithstanding section 5 of the Buyback/Withhold Agreement, upon the request of the IHS or any Co-Signer, such Agreement will be negotiated for future fiscal years annually during negotiation of this Funding Agreement.

SECTION 6 - ADJUSTMENTS DUE TO CONGRESSIONAL ACTIONS.

(a) The parties to this Agreement recognize that the total amount of the funding in this Agreement is subject to adjustment due to Congressional action in Appropriations Acts or other law affecting availability of funds to the IHS and the DHHS. Upon enactment of any such Act or law, the amount of funding provided to CATG in this Agreement shall be adjusted as necessary, after CATG has been notified of such pending action and subject to any rights which CATG may have under this Agreement, the Compact, or the law.

SECTION 7 - RECORDS. The records of CATG are not to be considered federal agency records for purposes of the Freedom of Information Act, 5 U.S.C. Sec. 552, and the Privacy Act.

(a) Confidentiality of records shall be addressed as follows: CATG will seek to comply with the Administrative Simplification provisions of HIPAA, including, but not limited to, privacy, security, transactions and codes sets regulations, codified as 45 C.F.R. Parts 160, 162 and 164. If a record is not subject to the requirements of HIPAA, CATG will comply with Privacy Act procedures. IHS retains responsibility for HIPAA compliance for retained IHS health Care component activities.

(b) Medical records generated by the CATG shall be eligible for storage in Federal Records Centers at the CATG's option in accordance with Section 105(o) of Title I.

(c) CATG operates a medical quality assurance program and treats the records of such program as confidential and privileged in accordance with section 805 of the Indian Health Care Improvement Act as amended at 25 U.S.C. § 1675.

SECTION 8 - PROGRAM RULES. CATG will make a best effort to carry out the health PSFAs in this Agreement in compliance only with the following program regulations, guidelines, and directives: JCAHO standards for ambulatory care facilities, or other nationally recognized accreditation standards and IHS Community Health Aide/Practitioner Program Standards, as applicable.

Except as specifically set forth in this section, pursuant to Section 517(e) of Title V, CATG does not agree to be subject to any agency circular, policy, manual, guidance or rule adopted by the IHS, except for the eligibility provisions of Section 105(g) and the regulations promulgated under Section 517 of Title V, unless otherwise waived.

SECTION 9 - RETROCESSION AND DISCONTINUANCE.

(a) Retrocession. The retrocession provisions of Section 506(f) of the Indian Self Determination and Education and Assistance Act, as amended, are herein adopted, except that the effective date of a retrocession request of the Compact and Funding Agreement, in whole or in part, shall be one year from the date of the request by an authorizing Tribe or Village, except as provided below: retrocession may be effective with less then one year's notice, providing the Tribe or Village requesting retrocession, CATG and the IHS agree to an effective date of less than one year from the date of the retrocession request.

(b) Discontinuance. CATG may discontinue its participation in the Compact after written notice to each authorizing Tribe or Village and the IHS. Notice must be provided one year in advance of the effective date of the request except that the effective date of a request may be less than one year upon approval of all authorizing Tribes and the IHS.

(c) Withdrawal Procedures.

(1) Process. Unless otherwise prohibited by law and in accordance with § 506(g) of Title V, a tribe or tribal organization may withdraw from a participating tribal organization, fully or partially, any program, function, service or activity (or portions thereof) included in the Compact or funding agreement, and such withdrawal will become effective within the time frame specified in the resolution which authorized transfer to the participating tribal organization, provided that in the absence of a specific time frame being set forth in the resolution, such withdrawal shall become effective on:

(A) the earlier of (i) one year from the date of submission of such request; or (ii) the date on which the funding agreement expires; or

(B) such date as may be mutually agreed by the Secretary, by the Indian tribe or tribal organization that is withdrawing, and by the tribal organization that has signed the Compact and funding agreement on behalf of the withdrawing Indian tribe or tribal organization.

(2) Distribution of Funds. In accordance with Sections 503(b) and 506(g) of Title V when a tribe proposing to enter into a contract under Title I or a compact and annual funding agreement under Title V fully or partially withdraws from a participating tribal organization, the withdrawing Tribe shall, upon written request, be entitled to be paid its tribal share of funds supporting those PSFAs (or portions thereof) which it will be carrying out under its own contract or compact and funding agreement, and such funds shall be removed from the funding agreement of the tribal organization and awarded to the Tribe upon approval of a Title I contract or Title V compact and funding agreement. The IHS shall retain any funds removed, but not awarded in a Title I contract or Title V compact and funding agreement.

SECTION 10 - CONSOLIDATION OF CONTRACTS AND PREVIOUS ANNUAL FUNDING AGREEMENTS. The contracts listed below and all previous Annual Funding Agreements shall be amended or terminated, as appropriate, to transfer applicable contract funds into this Funding Agreement for PSFAs, materials, and facilities provided to the Tribes represented by CATG: Title I, P.L. 93-638 Contract Number: 243-96-6008, as modified.

SECTION 11 - ACCESS TO TRAINING AND TECHNICAL ASSISTANCE. See Section 1(b).

SECTION 12 - AMENDMENT OR MODIFICATION OF THIS AGREEMENT.

(a) Form of Amendments. Except as otherwise provided by this Agreement, the Compact, or by law, any modifications of this Agreement shall be in the form of a written amendment and shall require written consent of each of the signatory Tribes, acting directly or through the CATG as authorized by resolution, the CATG, and the United States. Participation or written consent of Tribes and Co-Signers not subject to the terms of this Funding Agreement shall not be required.

(b) Funding Increases.

(1) Written consent of CATG shall only be required for issuing amendments for those funds which:

(A) require a change to Section 3 – Tribal Programs and Budget;

(B) require a specific commitment by CATG (e.g. Maintenance & Improvement projects and prior fiscal year Sanitation Facility Construction projects); or

(C) reduce funding other than changes in Congressional appropriations pursuant to Section 6(a).

(2) Amendments not requiring written consent may include, but are not limited to:

(A) Program/Area/HQ Mandatories;
(B) Program/Area/HQ End-of-Year Distributions;
(C) Catastrophic Health Emergency Fund (CHEF), subject to the condition that if a case initially qualifying for reimbursement is paid (in whole or in part) by an alternate resource or cancels for any reason, CATG will return the unused amount to the IHS CHEF account;
(D) CHS Deferred Services;
(E) Routine Maintenance & Improvement; or
(F) Collections and reimbursements.

(3) Amendments reflecting payment of these funds shall be provided to CATG after any such funds are added to the Funding Agreement. CATG retains the right to reject the addition of such funds to the Funding Agreement and return the funds to the IHS.

(c) Services from IHS. Should CATG determine that it wishes the IHS to provide PSFAs included in this FA for which funding has been identified but not provided, the parties shall negotiate an amendment to the FA to reflect the transfer of responsibilities from CATG back to the IHS and the pro-rata share of funding for that PSFA shall be retained by the IHS. Unless otherwise negotiated, IHS will not transfer centrally paid expenses including but not limited to Workers Compensation to any Co-Signer.

(d) Due to Addition of New Programs. Should CATG determine that it wishes to provide a PSFA of the IHS not included in this FA, CATG shall submit a proposal to the IHS to provide such PSFA. The parties agree to negotiate such a proposal and, should the parties fail to reach agreement, CATG may submit a final offer in accordance with the Title V procedures set forth in Section 507(b)-(d) of Title V. A Proposal submitted pursuant to this section shall be treated as a request for amendment to the FA and, once approved by the IHS at the Alaska Area Office shall prepare within 30 days an amendment to this Agreement and the amendment shall be executed through the Area Office and added to this Agreement.

(e) Due to Availability of Additional Funding. CATG shall be eligible for any increases in funding or funding for Medicaid, Medicare, maintenance and improvement, other reimbursements and new programs for which it would have been eligible had it been administering programs under a self-determination contract, rather than under the Alaska Tribal Health Compact and this Agreement, and for any other funds that are not restricted by appropriations language for which any Alaska Tribe or tribal organization may be eligible, including any new funds appropriated for IHS Headquarters and funds passed to Alaska Area as recurring or non-recurring funds, and

this Agreement shall be amended to provide for timely payment of such new funds to CATG. Such amendment shall be originated and prepared within 30 days by the Alaska Area Office and executed through the Area Office in consultation with CATG.

(f) Other Adjustments. Upon written authorization by CATG and agreed to by the IHS, the IHS may reallocate funds retained by the IHS, which are obligated to CATG for the purpose of reimbursing the IHS for services or equipment provided to CATG, to assist CATG in carrying out the terms of the Compact and this Agreement.

(g) General Procedures for Amending or Modifying this Agreement. Amendments or modification proposed by CATG shall be submitted in writing to the IHS Alaska Area Director with a copy to the Office of Tribal Self-Governance at IHS. Except as provided with respect to the incorporation of a provision of Title I under article V, section 21 of the Compact, or as provided above in paragraphs (b)-(e) of this section, a request to amend or modify this Agreement submitted by CATG shall be processed in accordance with sections 507(b)-(d) of Title V, and all provisions of those identified sub-sections are incorporated herein for this purpose.

SECTION 13 - THIRD PARTY RECOVERIES. Any funds recovered by the CATG through the filing, litigating, or settling a claim against a third party to require that third party to pay for services previously provided to IHS-eligible beneficiaries by the CATG, or for such services previously provided by the IHS in a PSFA now operated by the CATG, shall be the property of the CATG and shall be considered program income to be utilized by the CATG as provided in Article III, section 7 of the ATHC. Any prospective recovery of funds for such services shall likewise be considered program income to be utilized pursuant to Article III, section 7 of the ATHC.

SECTION 14 - MEMORANDUM OF AGREEMENT WITH MEMBER VILLAGES. Funds provided under this Funding Agreement may be allocated to and expended by a Village which is a party to this Agreement in accordance with the terms of the Compact, this Agreement and a Memorandum of Agreement ("MOA") approved by CATG and the Village. The Federal Tort Claims Act shall apply to PSFAs carried out by the Village under such MOA and to the Village and its employees to the same extent as if they had been carried out directly by CATG. Such an MOA may include provisions for the assignment of federal employees under IPA assignment or Commissioned Corps detail. Such assignment shall be subject to the approval of the Alaska Area Native Health Service Director. CATG shall be responsible for assuring compliance by the Village with the Compact, this Agreement and the MOA. In accord with IHS Contract Support Cost policy, the eligible CSC costs of the tribal sub-awardee may also be included in the CSC requirement of CATG when CATG chooses to utilize sub-awards via an MOA or other instrument, with tribes or tribal organizations.

SECTION 15 - SERVICES TO NON-BENEFICIARIES. Services may be provided to non-beneficiaries (*i.e.,* persons who are not Alaska Native or Indians) on a fee-for-service basis in accordance with and subject to the provisions of Section 813 of the

Indian Health Care Improvement Act, as amended, 25 U.S.C. 1680c, (Section 813), and the resolution of CATG. CATG's resolution No. 10-22 authorizing the provision of such services is attached to this FA as Appendix F and is fully incorporated herein.

SECTION 16 - INTELLECTUAL PROPERTY. IHS, through contracts, grants, subgrants, license agreements, or other agreements, may have acquired rights or entered into license agreements directed to copyrighted material. CATG may use reproduce, publish, or allow others to use, reproduce, or publish such materials only to the extent that IHS's contracts, grants, sub-grants, license agreements, or other agreements provide that IHS has the right to allow a tribe to do so and IHS determines that it will extend its rights to CATG. CATG's use of any such copyrighted material and licenses is limited to the scope of use defined in the agreements.

SECTION 17 - MEMORIALIZING DISPUTES. The parties to this FA may have failed to reach agreement on certain matters which remain unresolved and in dispute. Such matters may be addressed through the process set forth in Sections 507(b)-(d) of Title V, or at the CATG's option, may be set forth in Addendum 1 to this funding agreement, which shall be identified as "Memorialization of Matters Remaining in Dispute." This Addendum shall not be considered a part of this funding agreement, but is attached for the purpose of recording matters in dispute for future reference, discussion and resolution as appropriate. CATG does not waive any remedy the CATG may have under the law with regard to these issues and any others not listed herein.

SECTION 18 - SEVERABILITY.

(a) This Agreement shall not be considered invalid, void or voidable if any section or provision of this Agreement is found to be invalid, unlawful or unenforceable by a court of competent jurisdiction.

(b) Should such a court make such a finding, the parties will seek agreement to amend, revise, or delete any such invalid, unlawful or unenforceable sections or provision, in accordance with the provisions of the Compact.

SECTION 19 - LICENSING AND FEES. In accordance with Section 124 of the IHCIA, as amended at 25 U.S.C. 1616q, employees of the CATG health programs shall be exempt from payment of licensing, registration, and any other fees imposed by a federal agency to the same extent that officers of the Public Health Service commissioned corps and other employees of the Indian Health Service are exempt from such fees.

SECTION 20 - LICENSURE. Licensed CATG health professionals will be licensed in accordance with section 221 of the Indian Health Care Improvement Act, as amended at 25 U.S.C. § 1621t.

SECTION 21 - PURCHASE OF HEALTH CARE COVERAGE. CATG may use federal funds for purchase of health care coverage in accordance with section 402 of the Indian Health Care Improvement Act, as amended at 25 U.S.C. § 1642.

SECTION 22 – MEDICARE/MEDICAID AND OTHER THIRD PARTY COLLECTIONS.

(a) Medicare & Medicaid. CATG has elected to directly collect Medicare and Medicaid payments as provided in 25 U.S.C. § 1641, as amended. CATG is obligated and entitled to directly collect and retain reimbursement for Medicare and Medicaid and any other third-party payers for services provided under this Agreement in accordance with Section 401 of the IHCIA, as amended by P.L. 111-148, 25 U.S.C. § 1641 (previously Section 405 of such Act, as amended by P.L. 106-417) and Section 206 of such Act, 25 U.S.C. § 1621e, as amended.

(b) Recovery Right. CATG has the right to recover reimbursement from certain third parties of the reasonable charges for health services in accordance with section 206 of the Indian Health Care Improvement Act, as amended at 25 U.S.C. § 1621e.

SECTION 23 – FEDERAL INSURANCE. IHS will assist CATG to obtain information about the coverage, rights and benefits available for its employees under chapters 87 and 89 of title 5, United States Code, the cost of such coverage, rights and benefits (including any options in coverage, rights and benefits that may be available), and the procedures by which CATG may exercise its rights under Section 409 of the IHCIA, as amended, to have access to such Federal insurance for its employees.

SECTION 24 – ENVIRONMENTAL AND CULTURAL RESOURCES. The National Environmental Policy Act (NEPA), National Historic Preservation Act (NHPA), and related provisions of law require the IHS to review and approve actions resulting in the use or commitment of IHS funds or that affect IHS property, and which may significantly impact the environment or cultural resources. Unless CATG has assumed these responsibilities under a construction project agreement in accordance with Section 509 of Title V and 42 C.F.R. § 137.285-312, the IHS must carry out these responsibilities and has elected to utilize Appendix I. Where CATG plans to undertake an action, as described in Appendix I, on IHS owned real property or utilizing IHS funds received through this Funding Agreement, and CATG has not assumed these responsibilities, CATG will provide the IHS with a Project Summary Document (see Appendix G) and a completed Environmental Information and Documentation Form (see Appendix H) so that the IHS can accomplish these requirements, and issue a Determination Document (Categorical Exclusion (CATEX) or Finding of No Significant Impact (FONSI)), as soon as possible. All documentation shall be submitted to the IHS as early as possible in the planning phase of the project to prevent delays in the action. No irreversible action can be taken by CATG until the IHS completes its compliance responsibilities and so advises CATG with a Determination Document. Pending resource availability, the IHS is

available for education and consultation on NEPA, NHPA, and related provisions of law on an as needed basis.

SECTION 25 – EFFECTIVE DATE AND DURATION. This Funding Agreement became effective on October 1, 2022, and will remain in effect through the 2025 federal Fiscal Year or until a subsequent agreement is negotiated and becomes effective pursuant to Article II, Section 12 of the Compact.

COUNCIL OF ATHABASCAN TRIBAL GOVERNMENTS
on Behalf of Itself and Certain Alaska Native Tribes identified in Attachment I to signature page of the Alaska Tribal Health Compact

By: _____
Rhonda Pitka, Chair

Date: 11/23/2022

UNITED STATES OF AMERICA, SECRETARY OF THE DEPARTMENT OF HEALTH AND HUMAN SERVICES

Alaska Area Director, Indian Health Service

MEMORANDUM OF AGREEMENT DESCRIBING THE CONTINUING SERVICES OF THE INDIAN HEALTH SERVICE, ALASKA AREA NATIVE HEALTH SERVICE TO COUNCIL OF ATHABASCAN TRIBAL GOVERNMENTS FOR FY 2020

I. INTRODUCTION

This agreement provides for the continuation by the Indian Health Service (IHS) of certain services from the Alaska Area Office for the benefit of Council of Athabascan Tribal Governments under its Funding Agreement (FA) under the Alaska Tribal Health Compact (ATHC) Self-Governance Compact.

This agreement is limited to the programs, services, functions, and activities (PSFAs) performed by the residual and transitional federal staff of the Alaska Area Office.

This agreement should be interpreted in conjunction with Council of Athabascan Tribal Governments's FA and Appendix A to that FA, which may provide for additional detail on "restrictions" of funds at the Area or Headquarters level to ensure that specific services are continued to the individual Co-Signer.

In FY 2020, funding for these continuing services and activities will be from the funds, which have been designated as residual and from funds, which have been designated in support of temporary transitional federal PSFAs. In addition funding to purchase specific services, i.e., use of IPA/MOA assignees and Village Built Clinic leases, may be provided through reimbursement by Council of Athabascan Tribal Governments to the IHS.

II. DEFINITIONS

The following definitions are in common usage in the Alaska Area:

A. ATHC Tribal Restricted Share - Used in Alaska to refer to those retained Tribal shares all compacting Tribes jointly initially agreed to leave in the Area Office in support of Alaska Area state wide PSFAs. Pursuant to Section 325 of PL 105-83, these shares now are in the Alaska Native Tribal Health Consortium (ANTHC) FA or are used for transitional federal PSFAs.

B. Buyback - The process by which Co-Signers use cash to purchase Area services from the Area Office. Requires accurate description and pricing of service, and mechanism for Area to invoice and receive payment.

C. Co-Signer Restricted Shares - Used in Alaska to refer to "retained Tribal shares" that have been left at the Area Office or Headquarters on an individual basis by a Co-Signer to allow the Area, Headquarters or ANTHC to provide specific services to the Co-Signer. Pursuant to Section 325 of PL 105-83, these Area shares now are in the ANTHC FA or are used for transitional federal PSFAs.

D. Residual - The resources necessary to support the PSFAs required for the United

States Government to fulfill and maintain its moral and legal responsibilities based on treaties, statute, and Executive order that are essential for the federal government to fulfill its "inherent federal functions".

E. Transition Plan - Plan initially agreed to by the Alaska Tribes to allow a transition of less than 100% of the Area Office Tribal shares to the Co-Signers collectively. (This definition is included for historical purposes only.)

F. Tribal Share - That portion of Headquarters or Area resources not determined to be residual and allocated to individual Tribes or to Tribes collectively, via Tribal organizations, utilizing an agreed upon methodology.

G. Tribe - As used in this Agreement, "Tribe" refers to Tribes and Tribal organizations, as those terms are defined respectively in Sections 4(e) and (*l*) of P.L. 93-638, the Indian Self-Determination and Education Assistance Act, as amended (the Act).

III. AREA SERVICE DELIVERY AGREEMENT

Nothing in this agreement is intended by Council of Athabascan Tribal Governments or the IHS, nor shall be interpreted by any party, to limit or reduce in any way the PSFAs that any Tribe or Tribal organization is eligible to receive from the Area Office under Sec. 102 of Title I of the Act, under Sections 505 and 515(a) of Title V of the Act, or any other applicable federal law.

The table for each "Office" (or separate organizational component) presents the PSFAs currently performed and the staffing to perform the PSFAs. The residual PSFAs described in this Continuing Services Agreement serve all Co-Signers. The transitional personnel shown in this Agreement primarily support ANTHC PSFAs; however, some support other Co-Signers (e.g. IPA/MOA). PSFAs and the associated funds and personnel performing transitional PSFAs in support of the ANTHC (and Southcentral Foundation (SCF) for certain designated human resources PSFAs) under this Agreement may be transferred to the ANTHC or SCF under its FA.

A. OFFICE OF THE DIRECTOR

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional	Staffing (FTE)
Director	Provides overall executive direction and support on behalf of the Secretary.	R	1
Deputy Director, Chief Medical Officer	Provides public health advocacy; clinical consultation (CMO); legally required certification of health aide credentials and oversight of CHAP certification process; consultation in CHAP/Rural Health program management.	R	1
Executive Officer	Serves as principal advisor to the Director on overall management policies and procedures.	R	1
Attorney	Provides Region X attorney support and consultation.	R	1
EEO	Provides EEO support. 1		
Support Staff	Secretarial, clerical and administrative support to inherent and transitional federal functions at all levels of the Area Office.	R T	3 1
Planning, Evaluation & Statistics	Prepare statistical reports and publications in support of planning, evaluation and resource allocation requirements.	R	2
	Total		10

The Office will provide the specific PSFAs defined below:

1. Executive direction on behalf of the Secretary to the remaining inherently federal functions.
2. Advocacy at national level on behalf of the Tribes of Alaska including: legislative, policy, resource allocation, and appropriation advocacy.
3. Policy formulation and interpretation; supervision of non-IPA/MOA federal employees; negotiate, execute and administer compacts and FAs; resource allocation.
4. Public health coordination with Tribal, state and federal governments.
5. Provide legal advice and consultation on behalf of the Secretary.
6. Provides representation on the Executive Committee and Planning Committee of the Alaska Federal Health Care Partnership (AFHCP). Through the government-to-government relationship with Tribes and Tribal organizations, provides the mechanism for Tribal membership on the AFHCP.
7. Eligibility determinations assistance.
8. Equal Employment Opportunity program management in support of federal employment rights.
9. Oversight of certification of Community Health Aides as outlined by law and the *IHS Community Health Aide Program Certification Board Standards and Procedures*.
10. Consultation and technical assistance to Tribes and Tribal organizations staff and programs including
    a. Program review or evaluation at the request of the Area Director or the invitation of Tribal programs;
    b. Submission of electronic health record data to IHS National Data Warehouse; and
    c. Maintain current Area statistics to provide statistical analysis in support of resource needs and allocations.

1 The EEO function is provided under an intra-agency agreement among the IHS Alaska, California and Portland Area Offices.

d. Review and validate Alaska active user populations.

e. Publish *Census Based Alaska Native Population Counts* to supplement and cross check the accuracy of the user populations.

f. Verify the permanent staff increase Resource Requirement Methodology Needs Assessment (RRMNA) prepared by Tribes to determine staff needed for new facilities.

g. Collate data submitted for IHS distribution of specially earmarked funds following national allocation guidelines, when available, and suggest alternate distribution methods to program directors.

h. Publish the *Alaska Area Profile.*

i. Maintain the Alaska Area IHS website and publish Area Director's quarterly newsletter.

j. Publish the *Area Senior Executive Service Workplan* to support agency evaluation of the goals and accomplishments of the Area Office, its Director and Office Directors.

k. In cooperation with the AANHS/OEHE and ANTHC's Division of Environmental Health and Engineering and Co-Signers, provide user population and workload data, assist Co-Signers with preparation of applications; verify applications and planning documents prepared by Tribes (Health System Planning -HSP, PORs, and PJDs) for health facility expansion and replacement; and assist Co-Signers in the Headquarters' review process.

l. Communication between Tribal programs and IHS by seeking legal opinion from Region X attorney on issues which affect health care delivery by Community Health Aides such as standards of care, certification, Clinical Laboratory Improvement Act (CLIA) regulations, and Federal Tort Claims Act coverage.

11. Provide health program technical assistance and consultation on a limited basis as expertise and resources permit. This includes consultation on PSFA descriptions in Title I contracts, Title V FAs, specified grants and personal service and other contracts.

12. Support staff for the Director's Office and all other Area Office components without specific support staff.

13. Provide reimbursement to Headquarters for certain centrally paid expenses to include 100 percent of Department of Health and Human Services financial services and portions of other such expenses as reflected in the negotiated transitional budget for the ANTHC.

14. Performs the responsibilities identified in section 1 of the FA regarding ANTHC and SCF assurances.

15. Perform delegated functions to approve and administer FAs and amendments. The delegation includes the performance of Single Agency Audit, audit resolution for Title V awardees (Co-Signers); the function is provided using a multi-member Area-based team.

16. Responsibility for the Area Internal Control/Management Control programs, IHS Succession Plan and the Strategic Human Capital initiative.

17. As federal supervisor of Commissioned Officers serving under MOAs, the Area Director: functions as Reviewing Official for completion of annual Commissioned Officer Evaluation Reports; provides the Reviewing Official Statement for each officer when they are considered for promotion; and, fulfills any other action required as an officer's Reviewing Official. The Area Director may delegate this responsibility to Area Federal Staff as needed.

B. OFFICE OF ACQUISITION AND PROPERTY MANAGEMENT [2]

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional	Staffing (FTE)
Federal Contracting ,, Personal Property, and FOIA Coordination	Responsible for federal acquisitions to support the Alaska Area Office, including the federal credit card program. Maintains the federal personal property inventory. Provides or coordinates various administrative services for the Alaska Area Office.	R	1
	Total		1

The Office will provide the specific PSFAs defined below:

1. Negotiate, award and administer federal acquisitions.
2. Maintain or develop Alaska Area Interagency and Cooperative Agreements in close partnership with appropriate IHS or other federal, state or Tribal entity(s).
3. Coordinate various administration functions including Freedom of Information Act requests and IHS delegations and directives.
4. Maintain the federal personal property management inventory, including excess and disposal.
5. Provide technical assistance to Tribally managed facilities on procurement issues as requested regarding procurement issues and acquired federal excess property.
6. Maintain the federal credit card program.

2 Residual (1) FTE moved to Office of Tribal Programs in support of Title 1 contracts and audit resolution.

C. OFFICE OF ENVIRONMENTAL HEALTH & ENGINEERING

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional	Staffing (FTE)
Director	Management, supervision and administrative support.	R	2
Sanitation Facilities	Maintenance of Sanitation Facilities Construction (SFC) data information systems for program allocations, National Environmental Policy Act (NEPA) approval, oversight of IHS funded SFC projects.	R T	1 1
Environmental Health	Environmental services associated with federal employees[3]		
Health Facilities	Support, direction and general administrative support, maintenance of Maintenance & Improvement (M&I), Equipment and other data for program allocation.	R	1
Realty	Maintain government property inventory; manage VBC leases; supports the Alaska Area ISDEAA Section 105(l) lease program; and inspect government-owned facilities	R	1
	Total		6

The Office will provide the specific PSFAs defined below:

1. Sanitation Facilities:

a. Allocation of federal funds under Title V of the Act utilizing subpart N Construction Project Agreements and P.L. 86-121 Project Funding Agreements for project funding.

b. Provide required IHS oversight, facilitation and management of contributed sanitation facility construction funding from other federal and state agencies.

c. Directly allocate IHS resources using data provided by prescribed allocation formulas and justification rationales.

d. Evaluate and approve proposed projects, prepare budget summaries and justifications. Advocate statewide and nationally for the ANTHC Division of Environmental Health and Engineering (DEHE) program and facilitate its implementation.

e. Maintain project information and deficiency databases in the IHS Web-based Sanitation Tracking and Reporting System (W-STARS) to justify congressional funding requests in support of distribution logic.

f. Verify project development, documentation, funding, construction and closeout. Approve project agreements, to include making the determination of National Environmental Policy Act (NEPA) compliance based on information submitted by ANTHC DEHE.

g. Consult on and accept processes and priorities developed through the Sanitation Facilities Advisory Committee and SFC process in conformance with IHS national project eligibility criteria.

h. Onsite reviews of projects may be conducted annually to insure conformance with laws and regulations, e.g., NEPA and National Historic Preservation Act (NHPA) and to verify accuracy of data and programmatic assumptions.

i. Approve earmarked and emergency project funds dispersal.

2. Environmental Health: PSFAs include:

3 The PSFA conducted under this function are performed by all Office staff and others in the Area Office.

a. Overall direction of resources and related environmental surveillance for statewide public health impacts.

b. Continue to carry out functions related to serving as one of the health and medical representatives to the Alaska Federal Emergency Response Group.

c. Provide management and verification of tribal input data in the IHS Environmental Health Services data system known as the Web-based Environmental Health Reporting System (WebEHRS).

d. Provide safety assurance, compliance and reporting relating to federal workers, and professional programmatic support for staff.

e. In the event of a national disaster situation as defined in the Federal Response Plan, IHS is the lead agency for emergency response related to water and sewer damage assessment and mitigation.

3. Health Facilities: PSFAs include:

a. Perform budget allocation;

b. Support and approve project or resource allocations derived through a priority system developed through the Maintenance & Improvement Resource Allocation Committee (MIRAC) and ANTHC process consistent with IHS national project eligibility criteria. Verify data submittals and manage IHS facilities databases in conformance with IHS national project and health facilities space eligibility criteria.

c. Respond to Congressional inquiries;

d. Review Project Justification Document/Program Of Requirements (PJD/POR) documents prepared by others;

e. Review and approve national priority systems applications, including Tribal Equipment Funds and Dental Facilities Funds;

f. Maintenance of Alaska portion of the IHS Healthcare Facilities Data System (HFDS) including the Facilities Maintenance and Improvement/Equipment database for federally and Tribally owned health facilities;

g. Support for new health facility construction project funds distribution and project development;

h. Stewardship responsibility for oversight of environmental cleanup of federally owned real property;

i. Approve workload statistics;

j. Advocate statewide and nationally for the DEHE program and facilitates its implementation.

4. **Realty:** PSFAs include:

a. Monitor and manage real property assets in accordance with Executive Order 13327, "Federal Real Property Asset Management" and existing authority under law or by executive order for real property, capital improvements, square footage, use or disposal.

b. Maintain the IHS Real Property Inventory by updating the asset book values with costs relating to acquisition of real property, capital improvements, square footage, use or disposal.

c. Verify construction project closeout documentation for capital improvements made to federal facilities prior to adjusting the real property subsidiary ledger.

d. Perform annual review of real property.

e. Warranted Lease Contracting Officer authorized to lease Village Built Clinics

(VBC) on behalf of the Community Health Aide Program (CHAP).

f. Provide guidance to clinic owners and Tribal organizations with community health aides operating VBC leased clinics.

g. Determine correct process for disposing of excess real property and manages project to end.

h. Develop and recommend IHS Policy formulation on real property, leases and quarters;

i. Provide management and verification of real property and lease data within the health care facilities database.

j. Provide direct guidance and assistance in federal acquisitions of land and/or buildings.

k. Calculate and distribute rental rates for government owned quarters.

l. Prepare for approval all easements, utility rights-of-way, rights-of-way during construction, revocable licenses, and use permits.

m. Cost analysis and negotiation support for ISDEAA 105(l) leases.

D. OFFICE OF FINANCIAL MANAGEMENT

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional Buyback	Staffing (FTE)
Director	Financial Management Officer: Overall management, supervision, consultation, and surveillance	R	1
Tribal Accounting	Accounting advice; reconciliation; amendment and electronic payment assistance; monitors transactions in Buyback Account; and prepares Status of Buyback Statement with supporting documents.	R T	1 1
Budget	Budget projections and reports; fund control; Operating Resources Detail (formerly called Advice of Allowance)/Allocations.	R B	1 1
Accounting	Verifies accuracy and appropriateness of transactions; expenditures; general ledger; travel; project accounts; certifies vouchers; prepares tax withholding; and provides disbursement services.	R B	2 1
	Total		8

The office will provide the specific PSFAs defined below:

1. All resource allocation activities conducted by the Area.
2. Management controls of funds under Area control; responds to and provides data for annual agency audit.
3. Research and prepare routine, ad hoc, and special financial reports, prepare and reconcile status of funds reports for Area and Co-Signers. This includes providing Co-Signers with information necessary to manage the PSFAs they have assumed under their FAs and information necessary to negotiate those agreements.
4. Preparation and submittal of annual spending plan and budget/information to IHS for compacting and contracting Tribes and remaining AANHS/IHS activity.
5. Process financial documents for payment by U.S. Treasury, including payments related to continuing federal contracts in support of Tribally operated programs.
6. Process payroll for 340 federal (includes 58 IPA & 254 MOA) employees; maintain current position database for same; provide quarterly manpower reports to all Alaska locations using federal employees. Process and track all personnel actions.
7. Coordinate with Area OTP to allocate funding, initiate funding documents and assists

Co-Signers and contractors to maintain accurate records of funding allocations, reconciliations and cash management issues.

8. Reconciliation, billing and amendment management related to contractor and compactor use of federal resources including but not limited to IPA/MOA employees and the Village Built Clinic lease program. Reconciliation includes transaction verification of buyback services with corrections and reports.

9. Support withhold and buyback management including payment for continuing government contracts for goods and services, permanent change of station moves, etc.

10. Monthly general ledger reconciliation including cash management related to Prompt Pay Act, Treasury, cash and others.

11. Process reimbursement requests including Beneficiary Medical Program (BMP), Interagency Payment and Collections (IPAC), quarters collections, CHEF and others. Make deposits and transfers of such reimbursements to Co-Signers no less often than monthly.

12. Assist Tribes during annual Budget Formulation for the second succeeding year's annual budget, including preparation for the National Budget Formulation meeting.

E. OFFICE OF HUMAN RESOURCES

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional	Staffing (FTE)
Civil Service Staffing, Classification & Employee/ Labor Relations	Advertise and recruit for federal, direct and IPA/MOA replacements; process personnel and pay actions; provide job information; maintain official records; rate applicants, appoint new employees, and provide HR consultation; Title 38 and Physician's Comparability Allowance, Market Pay & Locality Pay maintenance; process Reduction in Force and counseling; provides transportation services and relocation assistance for federal employees and consultation re: Tribal direct hires as requested; administers Workers' Compensation program; grievances, discipline/adverse actions; Merit Systems Protection Board, appeals and agency representation; performance management; retirements; payroll; benefits; outside activities; ethics program; suitability adjudication; manage Federal Employee Assistance program and Family Medical Leave and Family Friendly Acts consultation; conducts desk audits; applies Classification Standards and consultation. Initiate and assure completion of suitability investigations as needed on federal employees and personal services contractors.	R T	2 0
	Total		2

Under the direction of the IHS Western Region Human Resources Director, the Office of Human Resources will provide the specific PSFAs defined below for the current approximately 340 federal employees employed either directly or through Civil Service IPAs (58) or Commissioned Corps MOAs (254):

1. Advertise and recruit for direct federal employees. Replacement IPA positions may be filled with a current IPA already on board (such as by reassignment) or a new or replacement MOA. Process Reductions In Force (RIF). Provide counseling on RIF.

2. Maintain official personnel files (electronic and paper) and records for Civil Service employees.

3. Manage employee relations including performance management; employee benefit programs (retirement counseling and calculations, etc.); Worker's Compensation; incentive awards; ethics and conduct; suitability adjudications; Merit Systems Protection Board (MSPB) representation; third party representation; Employee Assistance Program; Family Medical Leave Act (FMLA) consultation; and Labor Relations.

4. Counsel Civil Service employees.

5. Administer performance management program for non-IPA/MOA Civil Service employees.

6. Director performs proposing federal official function in progressive disciplinary actions on federal IPA employees.

7. Process personnel actions for Civil Service employees.

8. Process payroll, including assisting timekeepers and assuring transmission of payroll for all Civil Service employees.

9. Correct pay and leave errors.

10. Manage federal classification system. Provide consultation on same.

11. Issue government Personal Identification Verification (PIV) Smart cards for Area Office employees and for those IPA/MOAs who need access to federal facilities or ITAS as Timekeepers or Leave Approving Officials. Proof of federal employment will be given to those IPA employees who do not receive a PIV Smart card.

12. Provide, on request, consultation on employee relation issues to Co-Signer.

13. Maintain database on IPAs and MOAs and provide to Co-Signer no less than quarterly.

14. Provide, on request, general consultation and support on Co-Signer personnel issues (travel outside Anchorage to provide requested on-site consultation will be at expense of Co-Signer).

15. Provide transportation services and relocation assistance for federal employees.

16. Coordinate arrangements for volunteer health provider services for Co-Signers.

17. Provide assistance in managing employee absences due to on the job injuries (worker’s compensation) to minimize the impact on Co-Signers.

18. Initiate and assure completion of suitability investigations as needed on federal employees and personal services contractors.

19. Implement Alaska Area responsibilities set forth in the IHS Succession Plan.

20. Implement Alaska Area responsibilities related to IHS Development of Human Capital Initiative.

F. COMMISSIONED CORPS PERSONNEL[4]

P/S/F/A	MAJOR FUNCTIONS	Buyback	Staffing (FTE)
Commissioned Corps Personnel	Orient and assist officers and their families to include: recruitment support, liaison between areas, TRICARE advice, wage verifications, grievances, leave programs, COERs and COSTEP. As necessary, Corps-specific personnel discipline advice to CEOs and HR staff of 638 awardees with MOA assignees and supervisors of MOAs.	B	2
	Total		2

Under the direction of the IHS Division of Commissioned Personnel Support, the Commissioned Corps Personnel component will provide the specific PSFAs defined below for the approximately 259 USPHS Commissioned Officers in the Alaska Area:

1. Provide general orientation to new Commissioned Officers.
2. Counsel Commissioned Officers; provide Corps-specific discipline advice to appropriate Co-Signer managers.
3. Maintain unofficial files and records for Commissioned Officers.
4. Process required federal personnel actions for Commissioned Officers including orders for deployment.
5. Assist and consult with officers and their supervisors.

G. OFFICE OF TRIBAL PROGRAMS

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional	Staffing (FTE)
Director	Management of Area Title V responsibilities for Self-Governance and Title I review, approval and technical assistance. Managing CHEF submissions, and fund distribution; clerical and secretarial support.	T	1
Health Care (Management) Consultation	Title V compacts/FAs (including amendments and database management of same), cooperative agreements, and grants; negotiate and administer CSC funds.	T	3
Health Care [5] (Management) Consultation	Negotiate, manage, and execute Title I contracts. Review audit findings and work with Tribal contractors to resolve as needed.	R	1
	Total		5

The Office will provide the specific PSFAs defined below:

1. Provide or facilitate technical assistance to Tribes which may or may not lead to the preparation of proposal(s) to assume PSFAs for Title I contracting, Title V compacting and Tribal Management grants for Tribes and Tribal organizations
2. Evaluate P.L. 93-638 proposal(s) to determine acceptance, declination or rejection; if

4 During FY 2005 this PSFA was centralized under the Division of Commissioned Personnel Support at IHS Headquarters. Effective FY 2006, it is funded by assessing the locations that use Commissioned Officers. See, also, Appendix A.

5 Formally P/S/F/A: Federal Contracting Title I awards, (1) Residual FTE moved from the Office of Acquisition and Property Management; to support Title I contracts and audit resolution.

the Title I proposal is accepted, serve as the contract designated federal official (project officer) for the award. In the case of declination or rejection, further technical assistance will be offered to overcome declination or rejection.

3. Analyze and negotiate Contract Support Costs (CSC) for start up and ongoing direct and indirect-type CSC requests, and the maintenance of CSC records in support of Area-wide CSC needs in accord with IHS policy. Currently records are maintained for 36 Alaska awardees. The office will continue to administer the CSC funds (Indian Self-Determination Fund start-up, direct and indirect administrative cost funds). Allocation plans and funding applications will be developed, maintained and negotiated on behalf of Tribes and Tribal organizations. The office will continue to develop and maintain the Alaska Area Tribal database for the CSC fund, which clearly documents, for IHS and Congress, Tribal shortfall and start-up needs.

4. Support and clearance of submissions of CHEF requests to the national CHEF pool, unless a lawful alternative methodology is developed enabling direct submission by Tribal health programs participating in the CHEF program. More specifically this includes education and technical assistance on the process for requesting reimbursement and the maintenance of records on submittals, reimbursements, cancellations and supplemental requests.

5. Prepare Title V FA amendments at the request of Co-Signer, upon notification of change in funding, or as negotiated.

6. Provide information to Tribes on any proposed changes to the CHS fiscal intermediary contract, and advocates for revisions requested by Tribes.

7. Negotiate, execute, and administer all P.L. 93-638 Title I contracts including close out and site reviews as requested or required.

8. Coordinate with IHS Headquarters, the National External Audit Review Office, and Tribal contractors to resolve audit findings for Title I contracts and Title V funding agreements.

Director
Alaska Area Native Health Service, IHS

Date: 3/12/2021

Council of Athabascan Tribal Governments on Behalf of Itself and Certain Alaska Tribes, Identified in Exhibit A to the Compact.

By: _____

Kevin Theonnes, Executive Director
Council of Athabascan Tribal Governments

Date: July 29,2020

Appendix E
Buyback/Withhold Agreement
between
the Indian Health Service
and
Council of Athabascan Tribal Governments

Section 1. Generally. Pursuant to Section 5.3 of the Funding Agreement between Certain Alaska Native Tribes Served by Council of Athabascan Tribal Governments (hereinafter "CATG") and the Secretary of the Department of Health and Human Services of the United States of America (hereinafter "Secretary"), CATG has determined that it wishes to carry out its responsibility to provide certain programs, activities, functions or services (e.g. salaries of IPA/MOA employees, and Village Built Clinics Program) included in its Funding Agreement utilizing services, personnel or other resources of the Federal Government, (hereinafter "services") under Article V, section 22 of the Compact, as permitted by law. These services may include some that are expected to be used throughout the year and some incidental services to be identified by CATG on an as needed basis, and provided by the Indian Health Service (hereinafter "IHS") when IHS has the capacity to do so. The cost of providing the purchased services to CATG shall be determined under section 2 below. CATG's purchase of services is contingent upon the availability of IHS resources to provide those services. In addition, services must be paid for in advance, in order to avoid violation of the Anti-Deficiency Act and are subject to full cost recovery in accord with 25 USC 458aaa-7(f) and 31 USC 9701.

Section 2. Determination of Cost.

2.1 Generally. CATG may acquire services from the IHS by either providing for full year withhold (with appropriate reconciliation) under terms agreed upon in this funding agreement, in which case the administrative surcharge provided for under section 2.2.4 shall not apply. In the alternative, CATG may acquire services by authorizing partial year withhold amounts, as provided for in section 2.2, in which case the payment schedule and administrative surcharge provided for in section 2.2.4 shall apply. Whether full or partial year withhold is authorized, the full costs of IPA/MOAs including those detailed in section 2.3, Determination of IPA/MOA Costs, shall be paid by CATG.

2.2 Conditions for Partial Year Withhold and Buyback.

2.2.1 IPA/MOA.

2.2.1.1 Advance withhold. The funds for IPA/MOA salary and other costs detailed in section 2.3, "Determination of IPA/MOA Costs," will be paid as a lump sum in accord with Section 5(a) of the Funding Agreement, except that an amount equal to three monthly payments based on the initial mutually agreed upon estimate of the annual IPA/MOA salary costs and related surcharges, as provided in section 2.2.4, will be withheld and retained by the Indian Health Service pending final disbursement for the last three months of the fiscal year as provided in section 3.2.2.2.

2.2.1.2 Late Payment Provision. Except as provided in section 3.4, failure to make payment in full by the Default Date will result in action by the IHS to RIF or redeploy federal employees assigned to CATG.

2.2.2 Village Built Clinics.

2.2.2.1 Advance Withhold. To ensure that sufficient funds are available to meet contract obligations, an amount equal to three monthly payments based on the initial mutually agreed upon estimate of the annual Village Built Clinic costs and related estimated surcharges, as provided in section 2.2.4, will be withheld and retained by the Indian Health Service pending final disbursement for the last three months of the fiscal year as provided in section 3.2.2.2.

2.2.2.2 Late Payment Provision. Except as provided in section 3.4, failure to make payment in full by the Default Date will result in action by the IHS to terminate the village based clinic leases.

2.2.3 Other Services.

2.2.3.1 Advance Withhold. An amount equal to one monthly payment based on the initial mutually agreed upon estimate of the annual cost of other services CATG proposes to purchase from the IHS and related estimated surcharges, as provided in section 2.2.4, will be withheld and retained by the Indian Health Service pending final disbursement for the last month of the fiscal year as provided in section 3.2.2.2.

2.2.3.2 Incidental Services. Nothing herein shall prevent CATG from negotiating to purchase incidental services from the IHS throughout the year, without regard to an advance withhold. Such incidental services may include medical record storage, costs associated with disposal of excess governmental property held by CATG and costs associated with acquiring excess property from the Department of Defense. Agreements for purchase of incidental services must specify the method and timing of payment by CATG.

2.2.3.3 Late Payment Provision. Except as provided in section 3.4, failure to make payment in full by the Default Date will result in action by the IHS to terminate the services for which payment has not been made.

2.2.4 Administrative Surcharge. An administrative surcharge in a percentage set forth in Section 5.3 of the Funding Agreement shall be imposed on the charges for the services delivered by the IHS to CATG under the partial year withhold and buyback provisions of section 2.2. This surcharge will not be imposed on purchases for which a full year's estimated withhold is authorized. The administrative surcharge will be estimated based on the estimated annual purchase price and will be accounted for and reconciled under section 3.3.2.

2.2.5 No Other Charges. Except as provided in this section 2.2, there shall be no additional overhead, user or administrative charges or assessments for providing

services to CATG.

2.3 Determination of IPA/MOA Costs.

2.3.1 List of Costs. It is agreed by the parties that the entire cost of IPA/MOA assignments, including costs associated with the initiation, maintenance, and termination of the assignments are the responsibility of CATG. The IHS must be reimbursed for all such costs which include but are not limited to the following:

2.3.1.1 Permanent change of station costs including the cost of moving replacement IPAs from the lower forty-eight to Alaska and the cost of moving IPA employees who separate back to the lower forty-eight.

2.3.1.2 Recruitment, relocation and retention bonuses if such funds are necessary to attract or retain employees.

2.3.1.3 Severance pay for employees who are released by CATG and separated without cause.

2.3.1.4 Payment of turnaround leave travel expenses. All individuals who are eligible for these expenses shall be identified in the IPA negotiated between the parties. The IHS will retain liability for existing IPAs. CATG assumes the liability for new IPAs and upon renewal of an existing IPA.

2.3.1.5 Lump sum leave payments for employees who leave federal service. All leave accrued prior to the employee becoming employed by CATG shall be identified in the IPA/MOA negotiated between the parties. The liability for accrued leave on existing, renewing, and new IPA/MOAs shall be the responsibility of CATG.

2.3.1.6 Costs associated with settling or resolving employment related disputes, subject to the terms specified in section 2.3.2 below.

2.3.1.7 Centrally paid expenses, subject to the terms specified in section 2.3.3 below.

2.3.1.8 The cost of paying unemployment benefits assessed to the Area in FY 2002 and thereafter on behalf of an employee who was employed by CATG under an IPA immediately prior to voluntary or involuntary separation from IHS regardless of the year in which unemployment benefits were paid. The CATG is not responsible for unemployment costs that were assessed to the Area in Fiscal Years 2000 and 2001.

2.3.2 Costs Related to Employment Related Disputes.

2.3.2.1 Responsibilities of the IHS. The Indian Health Service shall be responsible for the payment of all costs of the IHS Office of Human Resources and any other section of the Indian Health Service, the Office of General Counsel, and the Department of

Health and Human Services associated with the processing, settlement or other resolution of employment actions such as disciplinary actions, grievances, or appeals to the Merit System Protection Boardand/or the Equal Employment Opportunity Commission, and matters arising under the Federal Labor Relations Act or any other law permitting the employee to appeal from such actions initiated by Federal employees assigned to a Co-Signer under an IPA or MOA. The IHS may pay for or recover these costs as described under section 2.3.2.3, Sharing in Costs of IPA/MOA Employment Related Disputes, to the extent permitted under section 2.3.2.2.

2.3.2.2 Employee Disputes Costs Chargeable to Co-Signers. The IHS may pay for or recover costs associated with processing, settlement or other resolution of employment related disputes listed in paragraph 2.3.2.2.1 of this subsection under the following conditions:

2.3.2.2.1 Only costs associated with covered disputes that arose from conduct, performance or other circumstances alleged to have occurred during the course of an employee's assignment to a Co-Signer may be assessed under section 2.3.2.3.

2.3.2.2.2 Costs which may be assessed under section 2.3.2.3, Sharing in Costs of IPA/MOA Employment Related Disputes, may include, but are not limited to, awards of back pay, compensatory damages, attorney fees, travel costs necessary to investigate the case and represent the IHS at hearings or in other proceedings during the appeal process, costs of obtaining and preserving witness testimony, and other similar costs incurred as a result of the IHS defending itself in these matters.

2.3.2.2.3 No salary costs of IHS, Office of General Counsel or Department of Health and Human Service employees may be assessed or recovered under section 2.3.2.3. Nor may any other cost of these proceedings be charged if such costs have ordinarily been paid from funds identified by the IHS as residual or restricted at Headquarters or the Area Office.

2.3.2.3 Sharing in Costs of IPA/MOA Employment Related Disputes. All costs of the IHS related to IPA/MOAs for which Co-Signers are responsible under section 2.3, "Determination of IPA/MOA Costs," are the responsibility of the individual Co-Signer to whom the IPA/MOA is assigned, except as provided in this paragraph. CATG agrees to share with other Co-Signers the costs and risks described in the above section 2.3.2.2, "Employee Disputes Costs Chargeable to Co-Signers" by agreeing to accept a share of the cost not to exceed $75 per assigned IPA/MOA per separate employment action. The purposes of sharing these costs are to simultaneously ensure that IHS recovers the full costs associated with employment related disputes involving IPA/MOAs, minimize the financial risk for individual Co-Signers, and minimize the accounting and administration caused by certain categories of costs. The IHS may use funds assessed under this paragraph only as provided in section 2.3.2.2. The amount assessed each Co-Signer shall be a percentage calculated based on the number of IPAs and MOAs the Co-Signer has assigned to it. All costs assessed under this paragraph will be reconciled with each contributing Co-Signer, as provided under section 3.3, and a separate report will be provided to all ATHC Co-Signers.

2.3.3 Costs Related to IPA/MOA Centrally Paid Expenses. Certain costs associated with IPA and MOA employees are paid centrally by Headquarters from Area funds. These include costs detailed in columns 6, 7, and 8 of the spreadsheet entitled "Allocation of Centrally Paid Expenses (Excluding FTS)," Corrected May 11, 1998, that was prepared by David Mather. These are costs associated with Commissioned Corps, Personnel and Payroll, and Balance of Human Resources. The Alaska Area Native Health Service may pay for or recover assessments from Headquarters to cover these identified costs by including in the monthly charge for each IPA or MOA the monthly cost to the IHS of such Centrally Paid Expenses. The cost charged CATG for each IPA/MOA may not exceed the average cost per federal employee actually paid by IHS. For purposes of calculating the initial withhold amount and estimated monthly payments, the estimated average cost per month for each IPA or MOA is shown in Appendix A of the Funding Agreement.

2.4 Limitation on Obligations and Notice.

2.4.1 Obligations. IHS shall within 30 days provide notice to CATG of the best available estimate of the costs that may be incurred under this Agreement of leases, contracts, salaries and related expenses and permanent change of station.

2.4.2 Content of Notices of Best Available Estimates and Costs. Notice of best available estimates under section 2.4.1 and full accounting of all costs due under section 3.3.1 shall include the amount, vendor and reason for obligation or expenditure, including the name of the employee, if any.

Section 3. Method of Payment.

3.1 Full Year Withhold. Payment for services being purchased from the IHS may be made by CATG authorizing a withhold of the full year's initial mutually agreed upon estimate of the annual cost of each category of services CATG proposes to purchase from the IHS. In such case, no monthly payments are due from CATG . Upon periodic reconciliation, provided for under section 3.3.1, excess withheld funds will be paid by the IHS to CATG and adjustments in the amount of withhold or payments needed to pay for all services CATG has purchased, or proposes to purchase, will be made to the IHS by CATG. *See* "Summary of Withhold/Buyback" page of Appendix A for calculation of the amount CATG hereby authorizes for full year withhold, if any.

3.2 Purchases through Buyback under section 2.2.

3.2.1 Calculations.

3.2.1.1 Of Initial Estimated Monthly Payment. The initial estimated monthly payment is determined by estimating the annual cost of services to be purchased from IHS, including the surcharge on all services under section 2.2.4, and dividing by 12. *See* "Summary of Withhold/Buyback" page of Appendix A for calculation of the amount of the initial estimated monthly payment.

3.2.1.2 Of Total Withhold Amount. A Co-Signer purchasing services through buyback authorizes withhold of an amount equal to the Advance Withhold under paragraphs 2.2.1.1, 2.2.2.1 and 2.2.3.1 of section 2.2 for each category of service being purchased, plus an amount equal to one month of the initial estimated monthly payment for each category of service being purchased (to cover the estimate for services to be provided in October). *See* "Summary of Withhold/Buyback" page of Appendix A for calculation of the amount CATG hereby authorizes to be withheld.

3.2.2 Payment Schedule.

3.2.2.1 First Payment. The initial estimated monthly payment is due and payable on the first day of November or the first day of the month following payment to CATG of its lump sum payment, whichever is later, in which case the IHS shall reduce the lump sum payment by the authorized withhold plus the initial estimated monthly payments for each month preceding the first month for which a payment is due from CATG for which a payment was not withheld. (This provision is intended to address delays caused in making the lump sum payment to CATG due to Congress authorizing continuing resolutions or other delays in making lump sum payments to CATG.)

3.2.2.2 Subsequent Estimated Monthly Payments. Subsequent payments are due and payable on the first day of each month, until the final months of the year intended to be covered by the Advance Withhold amount applicable to the category of services, as set forth in section 2.2. (For example, the last three months of payments for IPA/MOAs would come from the Advance Withhold amount, while only the last one month of payment for Other Services would come from the Advance Withhold amount.)

3.2.2.3 Default Date. If a payment is not received by the 10th day of the month in which it is due (or the first working day thereafter if the 10th day falls on a week-end or Federal holiday), the IHS will implement the late payment provisions for each category of service as provided under paragraphs 2.2.1.2, 2.2.2.2, and 2.2.3.3. This date shall be referred to throughout this section as "Default Date."

3.3 Reconciliation and Adjustment.

3.3.1 For Categories of Service. Full accounting of all costs for each category of service, whether purchased through full year withhold or buyback, will be provided to CATG within 45 days of the end of each month. Reconciliation of payments made to IHS compared to actual costs for the first three quarters of the fiscal year will be provided quarterly within 45 days of the end of each quarter. Reconciliation of payments made to IHS compared to actual costs for the last quarter of the fiscal year will be provided within 60 days of the end of the last quarter. At the end of each of the first three quarters, the IHS and CATG will review the expenses for the preceding quarters. The monthly estimated payment due, or the full year withhold amount, for the balance of the fiscal year will be adjusted accordingly to account for any over or under collections in order to project a zero balance at the end of the fiscal year. Within 30 days after the final end-of-year reconciliation is provided to CATG, any over recovery by the IHS must be returned to CATG and within 30 days after the final end-of-year

reconciliation is due any under recovery must be paid by CATG.

3.3.2 For Administrative Surcharge.

3.3.2.1 Use and Rebate. The administrative surcharge shall be used exclusively for administration of the buyback provisions under this Buyback/Withholding Agreement. All income from the administrative surcharge will be accounted for separately and compared on an annual basis to the cost of administering buyback at the Area Office. This accounting and reconciliation shall be complete within 60 days of the end of the last day of the fiscal year. Any surplus in administrative surcharges shall be returned to the Co-Signers who participated in the buyback option on a pro rata basis depending on the amount of administrative surcharge paid.

3.3.3 Adjustment in Estimated Monthly Payment. In addition to adjustments in estimated payments that may occur under sections 3.3.1 and 3.3.2.1, the parties may at any time mutually agree, based on a change in circumstances, to change the estimated monthly payment due from CATG.

3.4 Use of Other Funds Due CATG to Avoid Default or Satisfy Obligations to IHS and other Remedies.

3.4.1 Avoiding Default. Default may be avoided to the extent funds are held by the IHS from other funds due to CATG, which may be withheld to satisfy the amount of the payment, which would otherwise be in default or to satisfy amounts due IHS after reconciliation of costs and payments when an amount is due to IHS.

3.4.2 Recoupment. Any amount due to the IHS by reason of CATG's failure to pay in full all amounts owing under the buyback provisions of the Funding Agreement for the immediately preceding fiscal year shall be recouped by the IHS from any funds due to CATG under this funding agreement.

3.4.3 Full Year Withhold as Penalty for Default. Notwithstanding any other provision of this Buyback/Withholding Agreement, the IHS may require "full year withhold" as permitted herein as a condition of permitting a Co-Signer who was in arrears at the end of the immediately preceding fiscal year to buyback services from the IHS under the terms of this Agreement.

Section 4. Dispute Resolution. The parties shall endeavor to resolve any disputes concerning amounts due by CATG under this Agreement in a manner agreeable to CATG and to the IHS. In the event of a failure to reach agreement on the resolution of any such dispute, CATG may, after providing written notice to the IHS, choose not to include the disputed amount in any subsequent payment due. Payment in such a manner shall not be considered as a resolution of the dispute. The parties shall thereafter attempt to resolve the dispute through Alternative Dispute Resolution following, as appropriate, the principles and processes set forth in Executive Order 12988 signed by President Clinton on February 5, 1996, and made effective as of May 5, 1996. CATG shall have the option of resolving the dispute in accordance with Article

II, Section 10 of the Compact.

Section 5. Effective Date. This Buyback/Withholding Agreement shall become effective on October 1, 2007, and shall remain in effect pursuant to section 5(d) of the Funding Agreement.

Council of Athabascan Tribal Governments

RESOLUTION NUMBER 10-22

WHEREAS, the Council of Athabascan Tribal Governments (CATG) is a tribal organization that is a Co-Signer of the Alaska Tribal Health Compact (ATHC) and has negotiated a Funding Agreement (FA) with the Indian Health Service (IHS) under Title V of the Self-Determination Education and Assistance Act (ISDEAA); and

WHEREAS, the ATHC authorizes Co-Signers to provide services to non-eligible individuals provided Section 813 of the Indian Health Care Improvement Act (IHCIA) is complied with (*See* ATHC Article III, Section 4), and Section 813, as amended at 25 U.S.C. § 1680c(c)(2), provides that a tribe or tribal organization which operates a health facility under an ISDEAA agreement may make its own determination whether to provide health services to persons not otherwise eligible (i.e. non-beneficiaries) to receive IHS-funded health services; and

WHEREAS, CATG is authorized to determine whether it will provide health services under its IHS-funded programs to persons who are not eligible beneficiaries under federal law, provided that CATG gives consideration to whether the provision of such services will result in a denial or diminution of health services to eligible beneficiaries; and

WHEREAS, CATG has determined that the provision of health services on a fee-for-service basis to non-beneficiaries, in an amount not less than the actual costs of providing such services, will not result in a denial or diminution of health services to beneficiaries; and

NOW THEREFORE, BE IT RESOLVED, that CATG has decided to extend all available health services under the ATHC and its FAs to non-beneficiaries on a fee-for-service basis; and

BE IT FURTHER RESOLVED, that whenever significant evidence is presented to CATG that services to non-eligible, non-beneficiaries have resulted in a denial or diminution of health services to beneficiaries, CATG may suspend the delivery of such services to non-beneficiaries.

DATED this 14 day of Decemba, 2010.

PROJECT SUMMARY DOCUMENT

IV-1.
Policy #4*.
Project Summary Document Formats

Project Summary Documents describe projects being submitted to the MIRAC for funding from the maintenance & improvement funds (both competitive BEMAR funds and non-routine non-competitive Oklahoma Formula funds). Supporting documents to the PSD typically entail 100% design drawings (for projects requesting construction funds), construction cost estimates, product literature (for equipment specific PSDs), and contractor proposals or cost estimates.

A cover letter accompanies submitted PSDs, which affirms the organization's desire to submit these projects to the MIRAC for consideration.

The sections of the PSD are listed below.

PROJECT SUMMARY DOCUMENT

[Name of Project]
cility Priority Number] (use for multiple PSD submittals to prioritize your projects)
te]
[Facilities Board Project Number]
[Facility Name]
[Location], [State]

I. SUMMARY

[Summarize the project and include what is to be done, why (e.g., to add 135 gross square meters of space or replace a boiler), and the type of funding (e.g., Maintenance and Improvement, Quarters, Corporate Cost Sharing, etc.). This section should be no more than two paragraphs. Use attachments for project location maps and facility drawings.]

II. PROJECT SCOPE AND DESCRIPTION

A. Description of Project. [Provide a detailed explanation of the work to be accomplished by the project and the desired outcome of the project. Include all items reflected in the cost estimate. This information can be presented in bullet/list or narrative form.]

B. Project Justification. [Explain why the project is necessary. Link the justification to the developed Health Facilities Master Plan if appropriate. Discuss how the project will meet program needs, and how it will comply with legal, code, accreditation, and certification

* Sections of this policy modified by DEHE Staff to reflect formation of the MIRAC and for clarification of non-competitive project submittals.

requirements. Cite specific, code or JCAHO references by standard clause, chapter, paragraph, etc.]

III. DEFICIENCIES

The following deficiencies will be corrected as part of this project:

[List and describe only those facility deficiencies this project will address. The types of deficiencies include BEMAR, JCAHO, NFPA, HFPM, Public Law compliance items, ADA, etc.]

IV. COST ESTIMATE

Provide a budgetary cost estimate and the funding sources for the proposed project, including separate line items for design Architect/Engineer fees, project construction, construction contract administration fees, and project contingency.

V. PROJECT SCORE SHEET DOCUMENT (*only required for BEMAR competitive pool funds*)

Complete a project score sheet further detailing the scope, impact and benefits of this project. Provide the information required by the project score sheet.

VI. OTHER PROJECT ITEMS TO BE ADDRESSED

Supporting Documents: Drawings, Photos, Estimates, Etc.

APPENDIX H

ENVIRONMENTAL INFORMATION AND DOCUMENTATION

ENVIRONMENTAL INFORMATION AND DOCUMENTATION

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

Considerations	Basis for Determination (Documentation)
1. Will the proposed action result in a known violation or continuance of a violation of applicable (Federal, Tribal, State or local) laws or requirements for protection of environment or public health and safety?	Yes or No. Explanation.
2. Will the proposed action result in a conflict with existing or proposed federal, Tribal, state, and local land use plans?	Yes or No. Explanation.
3. Is there a controversy with respect to environmental effects of the proposed action based on reasonable and substantial issues?	Yes or No. Explanation.
4. Is the proposed action significantly greater in scope than normal for the area or does it have significant unusual characteristics?	Yes or No. Explanation.
5. Does the proposed action establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

6. Does the proposed action have significant adverse direct or indirect effects on park land, other public lands, or areas of recognized scenic or recreational value?	Yes or No. Explanation.
7. Does the proposed action include construction of a new municipal solid waste landfill at a new solid waste disposal site?	Yes or No. Explanation.
8. Will the proposed action create a need for additional capacity at solid waste disposal facilities?	Yes or No. Explanation.
9. Does the proposed action include construction of a new wastewater treatment facility that will discharge treated sewage effluent to the waters of the U.S.	Yes or No. Explanation.
10. Will the proposed action create a need for additional capacity at wastewater treatment facilities?	Yes or No. Explanation.
11. Will the proposed action create a need for additional capacity in the drinking water supply?	Yes or No. Explanation.
12. Are there other considerations about the proposed action that could adversely affect the environment and/or public health and safety?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

13. Will the proposed action create a need for additional capacity in health care facilities and for health care services?	Yes or No. Explanation.
14. Will the proposed action create a need for additional energy supply or generation?	Yes or No. Explanation.
15. Will the proposed action create a need for additional capacity in educational facilities?	Yes or No. Explanation.
16. Will the proposed action create a need for additional capacity in transportation systems?	Yes or No. Explanation.
17.Historic Preservation: a. Does the proposed action involve the purchase, construction, alteration, renovation, or lease of a building or portion of a building that is more that 50 years old?	Yes or No. Explanation.
b. Will the proposed action adversely affect properties listed, or eligible for listing, on the National Register of Historic Places?	Yes or No. Explanation. or No
18. Endangered Species Act: Is the proposed action likely to adversely affect a plant or animal species listed on the Federal or applicable state list of endangered or threatened species or a specific critical habitat of an endangered or threatened species?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

19. Will the proposed action require major sedimentation and erosion control measures?	Yes or No. Explanation.
20. Will the proposed action violate a storm water permit or a wastewater discharge permit either for construction or on-going operations?	Yes or No. Explanation.
21. Safe Drinking Water Act: Will the proposed action impact an EPA designated sole source aquifer?	Yes or No. Explanation.
22. Wetlands and Water Resources (lakes, rivers, ponds, streams, etc.): Will the proposed action violate a Section 404 (Clean Water Act) permit for actions in a wetland and/or Section 10 (Rivers and Harbors Act) permit for actions in a stream or river?	Yes or No. Explanation.
23. Floodplains: a. Is the proposed action located in either a 100-year or, for critical actions, a 500-year floodplain? (If Flood Insurance Rate Maps do not exist for the project site, a floodplain survey or consultation may be required. Also may need to consider if the facility will require flood insurance).	Yes or No. Explanation.
b. Will the proposed action adversely impact flood flows in a floodplain or support development in a floodplain?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

24. Existing site: Would the proposed action involve the purchase, construction or lease of new facilities (including portable facilities and trailers), substantially increase the capacity of an existing health care facility?	Yes or No. Explanation.
25. New site: Does the proposed action involve purchase, construction, or lease of new facilities (including portable facilities and trailers) where such action is for buildings equal to or more than 12,000 square feet (1080 square meters) of useable space when more than 5 acres (2 hectares) of surface land area are involved at a new site?	Yes or No. Explanation.
26. New site: Does the proposed action involve purchase, construction, or lease of health care facilities (other than buildings) for projects equal to or more than 5 acres (2 hectares) of surface land area at a new site?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

27. Does the proposed action involve the sale or transfer of real property, on which any hazardous substance was stored for one year or more, known to have been released, or disposed of? (Provide relevant documentation for any hazardous substance releases. See 40 CFR 373.2(b), 302.4, and 261.30 for reportable quantities.)	Yes or No. Explanation.
28. Does the proposed action involve the sale or transfer of real property, on which underground or above ground storage tanks are located?	Yes or No. Explanation.
29. Will the proposed action violate Tribal, local, state, or federal law on the use and storage of hazardous substances or the transportation, storage, and disposal of hazardous wastes or medical wastes? (Activities that may generate reportable quantities include air conditioning repair and service, pesticide application, motor pools, automobile repair, welding, landscaping, agricultural activities, print shops, hospitals, clinics, & medical centers. Repair, renovation, or demolition activities can generate waste that has asbestos-containing materials, asbestos, lead-based paint, PCBs, CFCs, etc.)	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

30. Will the proposed action adversely affect community air pollution for a long period of time?	Yes or No. Explanation.
31. If the proposed action is implemented, will it have a disproportionately high and adverse human health or environmental impact on the Tribe, low-income populations, or minority populations?	Yes or No. Explanation.
32. Will the proposed action adversely affect community noise levels?	Yes or No. Explanation.
33. Wilderness Act: Will the proposed action adversely impact a Wilderness Area?	Yes or No. Explanation.
34. Farmland Protection Policy Act: Will the proposed action convert significant agricultural lands to non-agricultural uses and exceed 160-point score on the farmland impact rating?	Yes or No. Explanation.
35. Coastal Zone Management Act: Will the proposed action directly affect a Coastal Zone in a manner inconsistent with the State Coastal Zone Management Plan?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

36. Wild and Scenic Rivers Act: Will the proposed action affect a wild, scenic, or recreational river area or create conditions inconsistent with the character of the river? (A consideration for activities that are in or near any wild and scenic waterway including construction of stream/river crossings, intake structures, outfalls, etc.)	Yes or No. Explanation.

I certify that to the best of my knowledge and ability the information presented above is true and correct. The record was examined to identify potential extraordinary or exceptional circumstances which would require further environmental review.

APPENDIX I

ACTIONS REQUIRING IHS ENVIRONMENTAL REVIEW AND DETERMINATION

APPENDIX I – Actions Requiring IHS Environmental Review and Determination

For actions outlined in the below table, which are to be undertaken by CATG, CATG shall submit a proposal package that includes a completed Project Summary Document (See Appendix G) and Environmental Information and Documentation Form (See Appendix H) to the IHS. Coordination time between CATG and the IHS to complete the Environmental Review and Determination process varies for each group of actions. The timing provided below indicates the expected timeline to complete the process for each group of actions. Early coordination in the planning phase of a project between CATG, IHS, and other stakeholders will help ensure environmental concerns are addressed in a timely manner and project delays are minimized so that IHS can complete its environmental responsibilities and issue a Determination Document as early as possible.

	Action	Expected Timelines
	Categorically excluded actions per Federal Register Vol. 58, No. 3, pg 571(I)(3), (I)(4), (I)(6), and (I)(7), dated January 6, 1993.	**The Environmental Review and Determination Process for this group of actions ranges from 45 to 90 days from the receipt by the IHS of the proposal package.***
[]	Pg 571 (I)(3): Building alteration or renovation that does not substantially change the function or general appearance of existing buildings.	
[]	Pg 571 (I)(4): Construction or lease of new facilities (including portable facilities and trailers) where such lease or construction: (a) is at the site of existing health care facility and the facility capacity is not substantially increased, (b) is for building of less than 12,000 square feet of useable space when less than five acres of surface land area are involved at a new site, or (c) is for projects other than buildings when less than five acres of surface land area are involved at a new site.	
[]	Pg 571 (I)(6): Acquisition of space by lease, use agreement, transfer, gift or similar arrangement for which: (a) the intended use of the space is consistent with the functional design of the building, and (b) the acquisition is consistent with an applicable master plan, if such plan exists.	
[]	Pg 571 (I)(7): The acquisition, sale, release, abandonment, closure or transfer of real property, provided the action: (a) is consistent with any applicable master plan, if such a plan exits, (b) conforms to local zoning and land use ordinances, if such ordinances exist, (c) is consistent with the functional design of the facility, (d) would not violate applicable Federal, State, or local environmental protection or historic preservation laws, and (e) satisfies the requirements of applicable comprehensive Environmental Response Compensation and Liability Act (CERCLA)section 120 (h) provisions.	
	Any normally categorically excluded actions that may have Extraordinary or Exceptional Circumstances per Federal Register Vol. 58, No. 3, pg 571-72(K), dated January 6, 1993.	**The Environmental Review and Determination Process for this group of actions ranges from 60 to 180 days from the receipt by the IHS of the proposal package.**
[]	Pg 571 (K)(1): Those with potential to change the existing environment where such change violates directives or other controls that are imposed by any governmental body having jurisdiction, for the purpose of protecting or otherwise affecting that environment;	
[]	Pg 571 (K)(2): Those with potential or real threat of violation, or continued violation, of an applicable Federal, State, or local law or requirement imposed for protection of the environment or to ensure public health and safety;	
[]	Pg 571 (K)(3): Those likely to cause controversy with respect to the types or extent of the resulting environmental effects where such controversy is based on pertinent and substantial issues;	

[]	Pg 571 (K)(4): Those involving the use of technology where the possible effects are highly uncertain or involve unique or unknown risks and where such technology has not been assessed previously for environmental impact;
[]	Pg 571 (K)(5): Those which have adverse effects on unique geographic characteristics (e.g. historic, archeological, or cultural resources, park recreation or refuge lands, wilderness, areas, wild or scenic rivers, sole or principal drinking water aquifers, prime farmlands, wetlands, floodplains, coastal management zones, or ecological or critical areas including those listed on the Department of Interior National Register of National landmarks);
[]	Pg 571 (K)(6): Those which establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects;
[]	Pg 571 (K)(7): Those which have adverse effects on properties listed or eligible for listing on the National Register of Historic Places;
[]	Pg 571 (K)(8): Those which have adverse effects on species listed by the Federal Government as Endangered or Threatened Species, or which have adverse effects on any designated critical habitat for these species;
[]	Pg 571 (K)(9): Those which require assessment in accordance with Executive Order 11988 (Floodplain Management), or Executive Order 11990 (Protection of Wetlands), or the Fish and Wildlife Coordination Act; and
[]	Pg 572 (K)(10): Those which involve the use, transfer, or lease of real property which has been determined, after investigation in accordance with the provisions of CERCLA 120 (h), to have been used as a storage facility for hazardous waste for more than 1 year; and
[]	Pg 572 (K)(11): Construction projects which are significantly greater in scope or size than normally experienced for a particular category of action.

Any action NOT categorically excluded per Federal Register Vol. 58, No. 3, pg 569-572, dated January 6, 1993 attached hereto.	**The Environmental Review and Determination Process for this group of actions ranges from 60 to 180 days from the receipt by the IHS of the proposal package.**

* The time needed to complete Environmental Reviews is highly dependent on required consultations with other Federal and State Agencies. As an example, the NHPA Section 106 Process requires the State Historic Preservation Officer (SHPO) be allotted 30 days to review and comment on a proposed action (36 CFR Part 800.3(c)(4)). Furthermore, additional time beyond the 30 days may be required for consultation with SHPO to adequately review and determine the effects of the proposed action on existing historical resources. Coordination early in the planning phase of the project can help identify these potential issues and allow CATG and IHS to resolve them early.

Indian Health Service

National Environmental Policy Act; Categorical Exclusions

AGENCY: Indian Health Service (IHS), HHS.

ACTION: List of IHS program actions that are categorically excluded from the requirement to conduct further evaluation under the National Environmental Policy Act (NEPA).

SUMMARY: This notice provides a list of classes of IHS actions that normally do not have a significant impact on the environment and, therefore, do not require environmental impact statements (EIS) or environmental assessments (EA) under Council on Environmental Quality (CEQ) regulations (40 CFR parts 1500–1508) or Department of Health and Human Services (HHS) procedures (HHS General Administration Manual Part 30). All actions involving construction are reviewed to determine if extraordinary or exceptional circumstances exist that prevent the action from meeting the criteria established for this listing.

EFFECTIVE DATE: January 6, 1993.

FOR FURTHER INFORMATION CONTACT: Director, Division of Environmental Health (DEH), Office of Environmental Health and Engineering (OEHE), IHS, Public Health Service (PHS), HHS, room 5A–39, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857; or telephone (301) 443–1043.

SUPPLEMENTARY INFORMATION: Regulations of the CEQ at 40 CFR parts 1500–1508 require Federal agencies to adopt procedures to supplement and implement their regulations. The HHS, by giving notice in the Federal Register (45 FR 76519), has adopted such procedures and included them in the HHS General Administration Manual Part 30. The CEQ approved the HHS procedures on October 2, 1980. Paragraphs 1507.3 and 1508.4 of the CEQ regulations provide for the definition of categories of actions that do not individually or cumulatively have a significant effect on the human environment and therefore, do not require the preparation of an EIS or an EA. Paragraph 30–20–40 of the HHS General Administration Manual establishes categories of exclusion for Departmental actions and provides for the listing of actions by Operating Divisions within the Department. The IHS, as an agency of the PHS, hereby gives notice of its listing of actions which normally can be categorically excluded from further environmental review.

If a proposed action belongs to an excluded category but one or more extraordinary or exceptional circumstances (as defined in Part K) apply, then an EA must be prepared for the purpose of determining whether an EIS is warranted.

The IHS provides comprehensive health care services to more than 1 million American Indians and Alaska Natives. The goal of the IHS program is to raise the health status of American Indians and Alaska Natives to the highest level possible. In carrying out this goal, the program has three main objectives: (1) To deliver the highest quality health services possible; (2) to assist tribes and native corporations to develop their capacity to manage health programs; and (3) to serve as an advocate for American Indians and Alaska Natives in health related matters.

The IHS program is carried out through a health services delivery system, designed to provide a broad mix of preventive, curative, rehabilitative, and environmental services. The type of health services delivery system

employed varies from Area to Area. Population, health indices, and facilities and services available from sources other than the IHS are evaluated to determine the methods IHS uses to provide services.

The IHS program consists of two major systems: (1) A Federal health care delivery system, administered by Federal employees, and (2) a tribal health delivery system, administered by tribes and tribal groups under grants, contracts or cooperative agreements. The categorical exclusions apply to IHS program actions whether carried out directly by the IHS, or funded or otherwise sponsored by the IHS. The IHS contracts, grants, and cooperative agreements are actions defined in NEPA and are subject to the IHS review procedures established to ensure NEPA compliance, including provisions covering extraordinary and exceptional circumstances. The NEPA compliance for the tribal health care delivery system is ensured through IHS administrative procedures for contracts, grants, and cooperative agreements.

The selection of IHS program actions to list as categorical exclusions has been determined, in part, by agency experience in complying with NEPA, during the past 10 years. Actions required to provide health care services will not have significant impact on the environment except when exceptional or extraordinary circumstances exist. The IHS has categorically excluded these actions, since enactment of NEPA; however, actions involving construction normally have required completion of an environmental review/assessment.

The IHS administers programs for the construction of domestic sanitation facilities (water, wastewater, and solid waste) for Indian homes and communities, construction of new or replacement health care facilities and staff quarters, and renovations to existing health care facilities and quarters units.

Environmental reviews/assessments of construction projects undertaken during the past 10 years have concluded that an EIS was not required for any of them. Approximately 2,300 sanitation facilities construction projects and fewer than 60 health care facilities/staff quarters construction projects have been approved during this time.

The type of program and procedures employed to administer the construction of sanitation facilities for Indian homes and communities, and the consistent determinations that these projects do not have a significant impact on the environment, are the basis for the decision to list most sanitation facilities projects as categorically excluded.

Factors considered in making this determination include:

1. Projects are undertaken to improve health and/or environment.

2. Projects are untaken at the request and with approval of the tribal governing body, which provides for discussion and evaluation of the project and its impacts.

3. Projects are normally constructed on tribally owned or individually owned tribal land within reservation boundaries.

4. Projects are constructed to comply with all current applicable environmental regulations and plans and specifications are submitted to State and Federal agencies as necessary for review and comment.

5. Projects are constructed to provide utilities (water, sewer, solid waste) either for existing American Indian or Alaska Native homes or for new homes constructed with Federal, tribal, State or other resources. New homes are constructed at sites and locations approved by the Tribal Governing Board. Utilities are not provided for future development or undeveloped parcels, and capacity provided is limited to that routinely provided by standard engineering practice for the current design population.

6. The IHS projects fall into the category of minor construction projects based on cost. During the last 10 years, 85 of the 2,300 projects exceeded $1 million, and the average estimated cost was $250,000.

7. Standard IHS procedures require documentation of an environmental review of each construction project to identify any exceptional or extraordinary circumstances and to ensure compliance with all environmental laws, regulations, and executive orders; e.g., those concerning floodplains, wetlands, endangered species, etc. This review is required early in the project planning process.

The categorical exclusion for construction of health care facilities and staff quarters has been limited to renovation or new construction at existing health care delivery sites, and construction or development of relatively small facilities at new locations. The procedures noted in item 7 above for sanitation facilities construction projects also apply to all health care facility and staff quarters construction projects. Most health care facility and staff quarters renovation projects can be classified as minor construction projects based on cost. Fewer than 200 major renovation projects have been undertaken and only a few were funded at a level exceeding $1 million.

Categorical Exclusions

A. Health Services

Direct delivery of medical, dental, nursing, and other related health services; e.g., patient care/counseling administered from hospitals, health centers, health stations, satellite clinics, and in private homes by IHS staff or contract providers to authorized recipients.

B. Research

Research activities that are consistent with the mission of IHS including: (a) Biological and behavioral studies conducted in laboratories, clinics, and the field; (b) studies on the development and delivery of prevention and treatment services and their administration and financing; and (c) evaluations of prevention and treatment.

C. Pesticides

Application of pesticides which are not classified for restricted use under provisions of the Federal Insecticide, Fungicide and Rodenticide Act when used for routine pest control purposes.

D. Contracts, Grants, and Cooperative Agreements

Contracts, grants, and cooperative agreements and continuations, supplements, extensions, and amendments of these documents for IHS programs or actions that are categorically excluded. (Includes Self-Determination Act contracts, Contract Health Care contracts, etc.)

E. Technical Assistance

Action involving the provision of technical assistance to American Indian and Alaska Native tribes and groups, other Federal agencies, State and local governments, and non-profit organizations are excluded. These actions include but are not limited to:

1. The provision of technical assistance to American Indian and Alaska Native tribes and groups for the purpose of developing management capabilities needed to enable eventual tribal assumption of health program operation;

2. The provision of technical assistance to American Indian and Alaska Native tribes and groups for the purpose of developing capabilities in the areas of epidemiology, disease reduction, injury prevention, environmental improvement, and the operation and maintenance of sanitation facilities; and

3. The assignment of IHS personnel to agencies/organizations for the purpose of providing technical expertise (e.g.,

investigation, diagnosis, consultation, counseling) in health programs.

F. Management and Administrative Support

Routine management and administrative support actions.

G. Training, Education, and Manpower Development

The award of training grants, scholarships, and the provision of other types of training and educational assistance are excluded. These actions include:

1. Support for development of professional and paraprofessional health competencies;
2. Support for development of American Indian and Alaskan Native health management capabilities;
3. Support for development of tribal and community capabilities in the areas of environmental improvement, disease reduction, injury control, and operation and maintenance of sanitation facilities;
4. Support for training and education of IHS personnel necessary for the efficient accomplishment of the IHS program; and
5. Educational activities including development of disease prevention and treatment and presentation of such material to American Indian and Alaskan Natives.

H. Statistics, Data Processing, and Information Gathering

Actions associated with statistics and information collection and dissemination are excluded. These actions typically involve:

1. Collection of demographic or morbidity data and analysis for program management and budget justification purposes;
2. Epidemiologic studies;
3. Environmental surveillance activities (e.g., sample collection, analysis, and monitoring of air, food, water, and wastewater) to determine quality as a basis for ensuring necessary corrective action;
4. Engineering studies and investigations including soil boring and test well drilling to gather data for the purpose of determining engineering feasibility and to permit facility design;
5. Updating existing data bases and data processing;
6. Printing and distributing reports; and
7. Developing new/redesignating existing data systems to meet specific program needs.

I. Indian Health Service Owned and Leased Facilities

Actions related to the IHS owned and leased facilities, or actions funded by IHS at tribally owned (or leased) and managed facilities as listed below, are excluded:

1. Maintenance and day-to-day operation of the physical plant and repairs to plant and equipment, or replacement-in-kind of utilities and building components;
2. Acquisition of equipment, provided all requirements for permits, registrations, and licenses are met, and provided the equipment involves use of generally accepted technology;
3. Building alteration or renovation that does not substantially change the function or general appearance of existing buildings;
4. Construction or lease of new facilities (including portable facilities and trailers) where such lease or construction:
   (a) Is at the site of an existing health care facility and the facility capacity is not substantially increased,
   (b) Is for buildings of less than 12,000 square feet of useable space when less than five acres of surface land area are involved at a new site, or
   (c) Is for projects other than buildings when less than five acres of surface land area are involved at a new site;
5. Facility planning and design including funding of such activities;
6. Acquisition of space by lease, use agreement, transfer, gift or similar arrangement for which:
   (a) The intended use of the space is consistent with the functional design of the building, and
   (b) The acquisition is consistent with an applicable master plan, if such plan exists;
7. The acquisition, sale, release, abandonment, closure or transfer of real property, provided the action:
   (a) Is consistent with any applicable master plan, if such a plan exists,
   (b) Conforms to local zoning and land use ordinances, if such ordinances exist,
   (c) Is consistent with the functional design of the facility,
   (d) Would not violate applicable Federal, State, or local environmental protection or historic preservation laws, and
   (e) Satisfies the requirements of applicable comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) section 120 (h) provisions.

J. Construction of Sanitation Facilities

Actions associated with construction of sanitation facilities to serve Indian homes and communities, except that the following actions are not excluded:

(1) Construction of a sanitary landfill at a new solid waste disposal site, and

(2) Construction of a new wastewater treatment facility with direct discharge of treated sewage to surface waters.

K. Extraordinary or Exceptional Circumstances

Under extraordinary circumstances, the normally excluded actions described above may have a significant environmental effect; such actions are not categorically excluded. Actions that can be characterized by, or may cause any of, the conditions described below are examples of actions that are not categorically excluded:

1. Those with potential to change the existing environment where such change violates directives or other controls that are imposed by any governmental body having jurisdiction, for the purpose of protecting or otherwise affecting that environment;
2. Those with potential or real threat of violation, or continued violation, of an applicable Federal, State, or local law or requirement imposed for protection of the environment or to ensure public health and safety;
3. Those likely to cause controversy with respect to the types or extent of the resulting environmental effects where such controversy is based on pertinent and substantial issues;
4. Those involving the use of technology where the possible effects are highly uncertain or involve unique or unknown risks and where such technology has not been assessed previously for environmental impact;
5. Those which have adverse effects on unique geographic characteristics (e.g., historic, archeological, or cultural resources, park recreation or refuge lands, wilderness areas, wild or scenic rivers, sole or principal drinking water aquifers, prime farmlands, wetlands, floodplains, coastal management zones or ecological or critical areas including those listed on the Department of Interiors National Register of National Landmarks);
6. Those which establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects;
7. Those which have adverse effects on properties listed or eligible for listing on the National Register of Historic Places;
8. Those which have adverse effects on species listed by the Federal Government as endangered or Threatened Species, or which have adverse effects on any designated critical habitat for these species;
9. Those which require assessment in accordance with Executive Order 11988 (Floodplain Management), or Executive

Order 11990 (Protection of Wetlands), or the Fish and Wildlife Coordination Act; and

10. Those which involve the use, transfer, or lease of real property which has been determined, after investigation in accordance with the provisions of CERCLA 120 (h), to have been used as a storage facility for hazardous waste for more than 1 year; and

11. Construction projects which are significantly greater in scope or size than normally experienced for a particular category of action.

Dated: December 29, 1992.

Michel E. Lincoln,

Deputy Director.

BILLING CODE 4160-16-M

ADDENDUM 1

COUNCIL OF ATHABASCAN TRIBAL GOVERNMENTS
MEMORIALIZATION OF MATTERS REMAINING IN DISPUTE

(1) CATG does not agree with the IHS' position that Area Office tribal shares are not available for inclusion in FY 2008 AFA because of Section 325, P.L. 105-83. CATG believes it has the right to include such tribal shares in its FY 2008 annual funding agreement notwithstanding Section 325. CATG reserves any remedies it may have under law.

Funding Agreement
Between
Certain Alaska Native Tribes
Served by the
Eastern Aleutian Tribes, Inc.
and the
Secretary of the Department of Health & Human Services
Of the
United States of America
Fiscal Years 2023-2025

This Funding Agreement is entered into by and between certain Alaska Native Tribes served by Eastern Aleutian Tribes, Inc., and the Secretary of the Department of Health and Human Services of the United States of America. These Tribes have authorized Eastern Aleutian Tribes, Inc. to sign this Funding Agreement for them and to be responsible for and carry out the terms of this Funding Agreement.

Section 1 - Obligations of the Indian Health Service.

1.1 Generally. Under the authority of Section 325 of P.L. 105-83 and P.L. 93-638 as amended, non-residual programs, services, functions and activities (PSFAs) of the Alaska Area Office and the Alaska Native Medical Center (ANMC) have been transferred to tribal management.

Delivery of PSFAs shall be consistent with each Co-Signer's Funding Agreement. The Indian Health Service (IHS) shall remain responsible for performing all federal residual PSFAs. IHS shall remain responsible for negotiating assurances with the Alaska Native Tribal Health Consortium (ANTHC) and Southcentral Foundation (SCF) on behalf of Alaska Natives and American Indians to the effect that Co-Signers continue to receive non-residual PSFAs from ANMC and Area Office and provided by ANTHC and SCF at a minimum at the level that such PSFAs were provided by IHS as of October 1, 1997, to the extent permitted by Section 325 of P.L. 105-83. To the extent authorized by federal law, IHS will respond to written Co-Signer concerns about the extent with which such assurances have not been complied and take appropriate action. IHS shall further be responsible for performing its special trust responsibilities and legal obligations as provided in the Indian Health Care Improvement Act (IHCIA), the Indian Self-Determination and Education Assistance Act (the Act), and other applicable provisions of federal law.

This Funding Agreement obligates IHS to provide funding and services identified herein and as provided in the Alaska Tribal Health Compact (Compact) between Eastern Aleutian Tribes, Inc. (EAT) and certain other Co-Signers thereof and the United States in Fiscal Years 2023-2025.

In addition, although funds are provided from Headquarters and Area Office in support of this Compact, IHS will agree to continue to make available to Co-Signer, PSFAs from both Area Office and Headquarters unless 100 percent of the total tribal shares for these PSFAs have been specifically included in this Funding Agreement. In cases where a portion of tribal shares have been transferred, there may be some diminishment in the level of PSFAs provided by IHS.

Furthermore, IHS will reorganize both Headquarters and the Area Office to continue to provide the remaining PSFAs, which have not been included in this Agreement, in the most effective and efficient manner possible, provided that decisions about the array and level of services to be offered by IHS shall be made in consultation with Alaska Tribes. IHS PSFAs not negotiated into or listed in Appendix A will be the responsibility of IHS.[1] The "Memorandum of Agreement Describing the Continuing Services of IHS, Alaska Area Native Health Service" among the Co-Signers and the Alaska Area Native Health Service (AANHS) reflects the understanding of the parties regarding services to be provided by the AANHS to Co-Signers. This document, attached as Appendix C, is hereby incorporated by reference.

Unless funds are specifically provided from Headquarters, Headquarters retains all PSFAs and EAT will not be denied access to, or services from, Headquarters. Specifically, EAT will receive the following services from IHS Headquarters:

1.1.1 Information Services. IHS will provide the full range of Office of Information Technology (OIT) national support to ANTHC and ANMC. OIT will provide specified services directly to EAT. In addition, OIT will provide support to ANTHC to assist it to carry out its responsibility to provide day-to-day technical support, user support, distribution of software and files, and other typical information technology support to Co-Signers as defined in the Assurances Appendix to the ANTHC funding agreement. Upon request of ANTHC, after good faith efforts to resolve EAT's technical issue, OIT's support of EAT will include technical support needed on-site by EAT. A list of the services due under this paragraph, with identification of the method of delivery, is shown below.

Office of Information Technology Provides:	Directly to ANTHC	Directly to Cosigner	Indirectly to Cosigner through ANTHC
National Database Services			
100% Data Center Services	X		
Process Data Exports into National Database		X	
Evaluate, Correct, Convert Site Data for National Database		X	
Telecommunications Mgmt Services			
100% Telecommunications Mgmt Services	X		
Maintain IHS to Alaska Connection		X	
Email Transfer and Global Address Listing		X	
SMTP Gateway		X	
Intranet and Internet Access (to available bandwidth)		X	
Antivirus Software			X
Software Development and Maintenance

Hardware and Operating System Support			X
Cache Upgrade (initial installation)			X
National Patient File (2000) Conversion			X
Envoy (WebMD) Installation			X
Additional Services – Fee for Service	X	X	X

1.1.2 Access to Training and Technical Assistance. To the extent funds are retained by IHS, Co-Signer shall have access to training, continuing education, and technical assistance in the manner and to the same extent Co-Signer would have received such services if it were not a Self-Governance Co-Signer.

1.1.3 Intellectual Property. IHS, through contracts, grants, sub-grants, license agreements, or other agreements may have acquired rights or entered into license agreements directed to copyrighted material. EAT may use, reproduce, publish, or allow others to use, reproduce, or publish such material only to the extent that IHS's contracts, grants, sub-grants, license agreements, or other agreements provide that IHS has the right to allow a tribe to do so and IHS determines that it will extend its rights to EAT. EAT's use of any such copyrighted material and licenses is limited to the scope of use defined in the agreements.

1.1.4 HIPAA Compliance. IHS retains the responsibility for complying with the Health Insurance Portability and Accountability Act of 1996 (HIPAA) for retained IHS health care component activities.

1.2 Historical PSFAs. EAT, which is part of the Anchorage Service Unit, has historically received certain PSFAs from ANMC and the AANHS. Responsibility for these PSFAs has been transferred to ANTHC and SCF. For purposes of identifying those services provided by ANMC and AANHS prior to transfer of management to ANTHC and SCF, EAT attached to its FY 2000 Funding Agreement Addendum 1 entitled "Memorialization of Historical Level of PSFAs Provided by ANMC and AANHS." The PSFAs listed in this addendum are taken from EAT's FY 1999 Funding Agreement. The addendum was attached to the FY 2000 Funding Agreement only for the purpose of identifying historical levels of PSFAs received by EAT from ANMC and AANHS, and is specifically not made a part of this Funding Agreement.

1.3 Community Health Aide Program Certification. IHS retains the responsibility, pursuant to Section 119 of the Indian Health Care Improvement Act, as amended, to maintain the IHS Community Health Aide Program Certification Board (CHAPCB), which was established

by and is under the direct control and supervision of IHS, to accredit training for and to certify community health aides, which includes Community Health Aides/Practitioners, Dental Health Aides, and Behavioral Health Aides/Practitioners as those terms are defined and used in the CHAPCB Standards and Procedures.

1.4 Access to Federal Insurance. IHS will assist EAT to obtain information about the coverage, rights, and benefits available for its employees under chapters 87 and 89 of Title 5, United States Code, the cost of such coverage, rights, and benefits (including any options in coverage, rights, and benefits that may be available), and the procedures by which EAT may exercise its rights under Section 409 of the IHCIA to have access to such Federal insurance for its employees.

Section 2 – Obligations of the Co-Signer. This Funding Agreement obligates EAT to be responsible for and to provide health PSFAs identified in Section 3 [Tribal Programs and Budget], utilizing the resources transferred under this Funding Agreement and other funds as they may become available to EAT. This Funding Agreement further authorizes EAT to consolidate and redesign PSFAs as provided in the Act, and the Compact.

Section 3 - Tribal Programs and Budget. EAT agrees to administer, provide, and be responsible for the health care PSFAs identified below in accordance with the Compact and this Funding Agreement. EAT is committed to and will strive to provide quality health services and will strive to meet standards it believes to be appropriate and applicable to the delivery of those health services. For the purposes of this Funding Agreement, EAT's General Budget Categories consolidate related health PSFAs, as follows, and are provided subject to the availability of funds and under the direction of the Board of Directors, which provides policy, administrative, and executive direction. EAT provides and facilitates a wide range of services directly, and in cooperation with ANMC, ANTHC, SCF, and other Co-Signers, including through field clinics, referral to ANMC, and other arrangements with Tribal health organizations. Any PSFA described in this section 3 [Tribal Programs and Budget] may be performed by any organizational unit of EAT at EAT's direction. EAT may deliver health services in a variety of settings, including, but not limited to, clinics, homes, schools, and other community settings. EAT may also provide other PSFAs to meet the objectives of Section 3 of the IHCIA.

3.1 Health Care Services. EAT is committed to quality patient care achieved through maintaining qualified staff, physical plant, and adequate supply of medical provisions required in the delivery of health care services.

Both directly and through services provided by itinerant providers, provides comprehensive medical, behavioral health, oral health, optometry, physical therapy, and emergency health care through village-based clinics, home visits, and other care settings, serving all communities within the Aleutians East Borough and Adak. EAT integrates traditional, complementary, alternative, and restorative approaches to the basic primary care service delivery program, as well as, promoting healthy communities through economic development and social well-being. These programs deliver services that promote the well-being of residents of the Eastern Aleutian Region and Adak. Services include, but are not limited to, pediatrics, obstetrics and gynecology, anesthesia, internal medicine, family medicine, surgery, radiology, (including

focused assessment with sonography in trauma (FAST) and mammography), orthopedics, dermatology, ophthalmology, urology, cardiology, rheumatology, cancer screening, audiology, case management, pharmacy, digital retinopathy screening, and diabetes prevention, education, and treatment, optometry, and physical therapy. Traditional health care services will be provided in accordance with 25 USC § 1680u.

3.1.1.1 Community Health Aide Program (CHA/P): Provides Community Health Aide/Practitioner, dental health aide, and Behavioral Health Aide/Practitioner services under the *Standards and Procedures* of the IHS Community Health Aide Program Certification Board; such services include, but are not limited to, a system of support, supervision, , quality assurance, orientation, continuing education, and training.

3.1.1.2 Emergency Medical Services (EMS) Support Program: Provides services to lower the incidence of death and disability; provides various levels of EMS training, ambulance, and other services; facilitates development of emergency response infrastructure; enhances coordination and planning for disaster response and emergency preparedness; and after-hour nursing phone triage services. This program also works with communities to build emergency response teams.

3.1.1.3 Oral Health Program: Provides services to raise dental health and lower the incidence of dental disease through diagnosis and treatment of dental problems. Dental services also include dental hygienist services.

3.1.1.4 Outreach Services: Provides village-based services to determine health needs, improve health knowledge, and promote healthy lifestyles and practices; provides advocacy services; networks with other providers; provides support, training, and administrative services.

3.1.1.5 Home Care and Community-Based Care: Through a combination of western methods and traditional modalities, home care and other community-based services, provides assistance with activities of daily living such as bathing, dressing, laundry, light housekeeping, cooking, vital signs, and medication reminders. These services are provided to individuals who are unable to perform their activities of daily living on their own, or when the families are unable to meet their needs. Home and community-based services also provides palliative and other end of life services, respite, chore, nutrition, transportation, and other supportive services including various senior programs and activities and engages in planning and development of additional services. EAT provides the services described above and other home- and community-based care, long term care, hospice, and assisted living services in accordance with Section 205 of the IHCIA, as amended, 25 U.S.C. § 1621d.

3.1.1.6 Distance Education and Telehealth Services: EAT provides distance education and telehealth services in support of all of its programs. These include, but are not limited to, a wide range of telehealth activities as part of clinical services, including its medical, dental, pharmacy, radiology, behavioral health, physical therapy, home-based care, community/beneficiary wellness and restorative education, outreach, and support. They also include a distance learning network including health career training, health aide training,

continuing medical education, clinic support staff training, and health careers recruitment activities. EAT supplies both equipment and technical support, as needed.

3.1.1.7 Immunization Services. EAT provides immunization services in accordance with federal, state and local requirements.

3.1.1.8 Patient Transportation: Provides patient and staff transportation, including arranging for and providing transportation, using various types of transportation vehicles, on land, water, and air; and escorts in accordance with Section 213(a) of IHCIA, as amended.

3.1.2 Behavioral Health Services: This service integrates mental health and alcohol/substance abuse programs. These services are provided in all communities EAT serves. EAT integrates most of its behavioral services into comprehensive primary care programs and harm reduction activities. Some specialized behavioral services are also provided, including, but not limited to, psychiatry and psychology.

3.1.2.1 Alcohol and Substance Abuse Program: Provides services to promote wellness and to address substance abuse and associated problems, including the use of nicotine. Services may include, but are not limited to prevention/education, outreach, referrals, outpatient treatment, medication assisted treatment, detoxification, assistance with in-patient treatment, travel to treatment, continuing development of local aftercare support services and community capacity, training of local behavioral health aides, school-based and community sobriety education and outreach, support, activities, events, training, and life skills training.

3.1.2.2 Mental Health Programs: Provides individual and family mental health services and training of local behavioral health aides. This program includes school-based mental health services, life skills training, crisis counseling, tribal youth support and restorative circle counseling/support, and provides for community safe lodging. Mental health programs also provide professional, technical, and supportive services in the prevention and treatment of child physical abuse, sexual abuse, and neglect.

3.1.2.3 Other Behavioral Health Services: Provides village-based culturally appropriate approaches to addressing at risk behaviors, substance abuse, and family violence issues in the community. This program involves intervention with at-risk and court-involved community, family, and youth including, but not limited to: promoting and providing support and training for leadership skills, healthy lifestyles, youth alternative activities, cultural pride and activities, restorative practices, counseling, circles, and enhancement of self-confidence and self-esteem efforts. Community safety and violence prevention services, including participation in the community Sexual Assault Response Team and delivery of related prevention and treatment services, family violence services, spirit camps, wellness conferences, and other gatherings.

3.1.2.4 Housing. EAT provides temporary housing for EAT clients and their families or escorts to facilitate access to care, including supportive housing for individuals

with behavioral health issues. EAT may provide the full range of health services at these locations.

3.1.3 Health Services Training: EAT provides health services training (including clinical preceptorships, mentoring, shadowing, training, and supervision of health care providers) through offering sites for medical residents and other individuals obtaining training in the health professions, including behavioral and dental professions.

3.2 Purchased/Referred Care: Subject to funding limitations, purchases services on a contractual or open-market basis, not otherwise available or accessible to eligible beneficiaries, and maintains a referral system from the village or field location to/from EAT health facilities to other health providers.

3.3 Tribal Health Management and Administration Services: Provides direction, program and staff supervision; organizational and program planning and evaluation, administrative support (including information technology, tele-medicine, and tele-communications support, and video distance delivery support); financial management services; planning and implementation of an Electronic Health Records system; human resources; corporate compliance needs; and technical assistance to the medical care, behavioral health, wellness, cultural, and youth programs operated by EAT. Grant writing and resource development projects to support EAT's mission.

3.3.1 Housing: EAT may provide permanent or temporary housing to patients and/or staff of EAT whose duties are in support of the PSFAs in this FA. For purposes of this subsection, the following terms have particular definitions: The term "provide" means either for a rental charge or gratis as a part of a treatment regime or employment benefit. The term "staff" means full or part time employees, personal service contractors, or non-EAT employee consultants or sub-contractors.

3.3.2 Facility Management and Planning: EAT provides procurement, materiel management, facilities management, planning, development and coordination of design, engineering, management, and general contracting for construction, demolition, and clean-up, maintenance, and operation of all facilities and properties used by EAT under this Funding Agreement, including facilities owned and leased by EAT.

3.4 Tribal Program Support and Development. This program provides health care and health care management technical assistance to other tribes and tribal organizations; this includes but is not limited to: inside and outside EAT's service area and to other federally-funded health care programs;

3.4.1 Village Restorative Practices and Tribal Court Support including, but not limited to, intervention with at-risk and court-involved community, family, and youth, with traditional restorative practices, intervention, cultural alternative activities, counseling, and circle counseling/mediation;

3.4.2 Training and Health Careers including, but not limited to, health career support, placement, recruitment, on-the-job and continuing health care providers health related training, and scholarship promotion;

3.4.3 Well Community Support including, but not limited to, cultural camp activities, youth alternative programming, fitness programs, nutrition, and dietary programs; health education and nutrition provide services to inform, educate, and motivate residents to adopt healthy lifestyles, including, but not limited to, Fetal Alcohol Syndrome/Fetal Alcohol Effect (FAS/FAE) prevention and treatment; nutrition services for women, young children, and infants, such as providing supplemental foods; and nutrition education, counseling and other services for women, young children, infants, elders, and others who are at nutritional risk.

3.4.4 Wellness Public Relations including, but not limited to, wellness media and outreach, nicotine cessation advertising/media, health and disease prevention events and promotion, and cultural pride promotion.

3.5 Tribal Wellness Program. These programs promote wellness through health and wellness education, outreach, liaison activities, training, cultural, and other activities.

3.6 Public Health and Epidemiology. Directly and/or through ANTHC, including its Epidemiology Center,[2] EAT carries out public health, epidemiology, and health research functions. These activities include, but are not limited to, collecting and receiving personally identifiable health information for the purpose of:

3.6.1 preventing or controlling disease, injury, or disability;

3.6.2 reporting disease, injury, and vital events such as birth and death; and

3.6.3 conducting public health and epidemiological investigations, surveillance, and interventions, including the maintenance of disease and injury registries.

3.7 Other Programs/Services Funded. This funding agreement includes PSFAs resulting from tribal redesign, or consolidation, reallocation or redirection of funds, including its own funds or funds from other sources, provided that such consolidation, redesign, or reallocation or redirection of funds results in carrying out programs, functions, services, and activities that may be included in the funding agreement pursuant to section 505 of Title V and Article III, Section 6 [Consolidation with Other Programs] of the Compact. This includes any other new health care programs, including, but not limited to, those identified in the Indian Health Care Improvement Act funded during the fiscal year.

3.8 Non-IHS Funding. EAT will complement and supplement the PSFAs described throughout Section 3 [Tribal Programs and Budget] with funding from sources other than IHS through this Funding Agreement, subject to the availability of such other funding sources. Consistent with Article III, Sections 5 [Reallocation], 6 [Merging with Other Programs], and 7

2 The ANTHC Epidemiology Center was previously operated by the Alaska Native Health Board.

[Program Income] of the Compact, non-IHS funds will be added to or merged with funds provided by IHS through this Funding Agreement.

3.9 Federal Tort Claims Act. The Federal Tort Claims Act applies to EAT's PSFAs under this Funding Agreement as provided in Section 516(a) of Title V (which incorporates Section 102(d) of Title I of the Act and Section 314 of P.L. 101-512) and Article V, Section 3 [Federal Tort Claims Act Coverage, Insurance] of the Compact. The extent of Federal Tort Claims Act coverage is described more particularly in 25 C.F.R. §§ 900.180–900.210.

3.10 Tribal Facilities and Locations. EAT operates the programs described in this Funding Agreement out of more than one facility or location. These include, but are not limited to the facilities and locations listed in Appendix E, which will be submitted prior to the effective date of this Funding Agreement, and will be incorporated by reference herein. The Area Division of Planning, Evaluation and Health Statistics shall compile from this Appendix a list of all health facilities and locations identified in the Appendix and forward that list annually to the Headquarters' Office of Program Statistics, which shall include each of these facilities and locations in the annual list it must provide to the Centers for Medicare and Medicaid Services (CMS) (formerly Health Care Financing Administration) pursuant to the Memorandum of Agreement between the Health Care Financing Administration and IHS December 19, 1996.

3.11 Payer of Last Resort. Whether providing, purchasing, or authorizing health care services described in the Compact and this Funding Agreement, in accordance with Section 2901(b) of Pub. L. 111–148 [25 U.S.C. § 1623(b)], and as otherwise provided in law, EAT shall be the payer of last resort.

Section 4 – Amounts Available During the Term of the Funding Agreement.

4.1 The following amounts shall be available to EAT in Fiscal Years 2023-2025 pursuant to the Compact and Title V of the Act, and are subject to reductions only in accordance with Section 508(d) of Title V and Section 106 of Title I of the Act.[3]

	Annual Funding
Recurring Base: Inclusive of all recurring funding, including recurring contract support funds.[4]	$ 3,071,475
Non-Recurring Funding: Inclusive of nonrecurring contract support funds and such other funding which may be added to the contract.[5]	$ 1,910,466

3 A breakout of these funds is shown in Appendix A, which cites the source document used to determine the amount. These amounts are subject to change under the Act and as provided in this Funding Agreement. For other fiscal years to which this Funding Agreement is applicable, the replacement Appendix A will be negotiated between IHS and EAT for the respective year and amended to this Funding Agreement and incorporated by reference, accordingly.

4 A breakout of these funds is shown in Appendix A, which shall be appended to this Funding Agreement and incorporated by reference.

5 These non-recurring funds represent contract support costs for which funds are available at the beginning of the fiscal year.

	Annual Funding
Subtotal: This amount is subject to amendments in accordance with Section 12 [Amendment or Modification of this Funding Agreement].	$ 4,981,941
Area "tribal" share to include funding identified from Area Office and identified in Appendix A to this Funding Agreement.[6]	$ 188,880
Headquarters - Tribal Share: "Tribal Size Adjustment Pool" including all funds identified in Appendix A. The amount identified is exclusive of funds for which a distribution amount has not been determined. The final amount due shall be determined as set forth in this Funding Agreement or Appendix A.[7]	$ 130,736
Headquarters - Tribal Share: "Program Formula Pool" including all funds identified in Appendix A, and such additional funds which IHS may make available on a program formula basis during the year based on the programs accepted for this allocation in Appendix A.	$0
ISD Support on Tribal Shares identified above including funding from both Headquarters and Area Office as identified in Appendix A.[8]	
Subtotal - Tribal Shares[9]	$ 319,616
TOTAL COMPACT FUNDING[10]	$ 5,301,557

These amounts are subject to additions for reimbursements and for new funds received during the term of this Funding Agreement, including amounts that have historically been distributed as non-recurring funds under Title I of the Act. Any amounts remaining unspent under Contract No. 243-96-6023, and previous Funding Agreements, after adjustment and reconciliation of the withheld amounts for supplies and services, as of the last day of the fiscal year, shall be included in this Funding Agreement.

---

6 Funds from Area were distributed according to methodology agreed upon in a caucus open to all Alaska Tribes and tribal organizations. The specific methodologies are identified in Appendix A. In addition to the Funding amount, prior to the effective date of Section 325 of P.L. 105-83, EAT restricted Area tribal shares in an amount identified as "Subtotal Area TS Amount" in the "EAT Restricted" column on Page 1 of Appendix A. Also see Addendum 2, Item A, regarding these funds.

7 Headquarters shares were allocated according to the following process, which was adopted in a caucus open to all Alaska Tribes and tribal organizations. The Alaska Area Tribal Share of Headquarters was first defined using the national IHS recommended methodology. The total Alaska Area Tribal Share was then reallocated to each Co-Signer according to the agreed upon Alaska Area methodology, which is identified specifically for each line in Appendix A. In addition to the Funding amount, EAT is entitled to additional Headquarters' tribal shares in an amount identified as "Subtotal Headquarters TS amounts" in the "EAT Restricted" column on Page 1 of Appendix A.

8 To be determined. The amount of ISD support on tribal shares will be calculated under Section 4.2 [Contract Support Costs] of this Funding Agreement.

9 The subtotal of tribal shares does not include certain Headquarters' tribal shares for which the amount or availability have not been determined. This amount may be adjusted to make available all tribal shares for which EAT is eligible.

10 For the reasons noted regarding the amounts that make up this total and because full funding amounts for under the previous year's Funding Agreement have not been fully identified or reconciled as of the time this Funding Agreement is being executed, all amounts to be paid in the fiscal year for this Funding Agreement are estimates and are subject to amendment to reflect the full amount due for this fiscal year.

Of the amount shown above for Headquarters Tribal Share "Program Formula," $0 are for Equipment Replacement; the Equipment Replacement amount paid as a part of the lump sum due EAT was determined by multiplying the FY 2022 Equipment Replacement amount paid to EAT by 90%. The final Equipment amount paid in FY 2023 will be based on the final FY 2023 Equipment Replacement allocation. If the final Equipment Replacement amount, as determined by the final FY 2023 Equipment Replacement allocation, is less than the 90% calculation, EAT will return the difference to IHS. *See also* Appendix A, footnote to line 22 on page 6.

The Recurring Base amount shown above includes $58,292 that EAT received, recurring in FY 2006 for Congressionally earmarked alcohol funds. Such funds are subject to "Adjustment Due to Congressional Actions," as described in Section 6 as well as any conditions on those funds that may be described in the FY 2023-2025 Interior Appropriations Acts (Acts) or Congressional Reports. After the Acts are passed into law, such conditions, including Congressionally-directed reporting requirements, will be added by amendment not requiring EAT's signature as described in Section 12 [Amendment or Modification of this Funding Agreement] of this Funding Agreement.

The parties agree Section 505(b)(2) of Title V provides, among other things, that grants administered by the Department of Health and Human Services through IHS may be added to EAT's Funding Agreement after award of such grants. In accordance with this provision of Title V and its implementing regulations, the Secretary will add EAT's diabetes grants and any other statutorily mandated grant(s) administered by the Department through IHS to this Funding Agreement after such grant(s) have been awarded. Grant funds will be paid to EAT as a lump sum advance payment through the PMS grants payment system as soon as practicable after award of the grant. EAT will use interest earned on such funds to enhance the purposes of the grant including allowable administrative costs. EAT will comply with all terms and conditions of the grant award, including reporting requirements, and will not reallocate grant funds nor redesign the grant program, except as provided in the implementing regulations or the terms of the grant.

4.2 Contract Support Costs. Contract support costs (CSC) will be paid in accordance with 25 U.S.C. § 5325 and § 5388(c). The parties agree that, according to the best data available as of the date of execution of this agreement, the amount to be paid under the FY covered by this agreement, which represents the parties' estimate of EAT's full CSC requirement pursuant to 25 U.S.C. § 5325, is $2,081,971, including $191,558 for direct CSC and $1,890,413 for indirect or indirect-like CSC. This estimate shall be recalculated as necessary as additional data becomes available including information regarding the direct cost base, pass throughs and exclusions, and the indirect cost rates to reflect the full CSC required under 25 U.S.C. § 5325. The parties will cooperate in updating the relevant data to make any agreed upon adjustments. In the event the parties disagree on the CSC amounts estimated and paid pursuant to this paragraph and EAT's full CSC requirement under the ISDEAA, the parties may pursue any remedies available to them under the ISDEAA, the Compact, and the Contract Disputes Act, 41 U.S.C. §7101 et seq.

4.3 Base Budgets.

4.3.1 Categories and Base Year. At the end of the first period of the base budget option, IHS and Co-Signers agreed to extend the three year (FY 1998–FY 2000) base budgets implemented for the Compact for an additional two years (FY 2001–FY 2002). IHS and EAT have subsequently agreed to additional extensions through FY 2025. IHS and Co-Signers have agreed to further extend the base budget period at the Co-Signer's option. The following categories are subject to base budgeting for the base year period and the period, as noted below:

Category of Funding	Base Period for Base Funding	Extended through:
Headquarters TSA Amounts[11]	FY 97	FY 2025
Equipment Replacement Funding	Not Included	N/A
Area Tribal Share	Not Included	N/A

4.3.2 Adjustments. Adjustments to base funding shall be permitted in direct proportion to changes in appropriated amounts (by sub-activity), as provided under Section 6.1 [Due to Congressional Actions]. Adjustments shall also be permitted for the addition of new co-signers to the Compact and when current co-signers add or retrocede PSFAs, as provided in Section 12.3 [Due to Addition of New Programs].[12] Adjustments also shall be permitted when co-signer(s) chooses to restrict or unrestrict previously "restricted" or "unrestricted" categories, provided that restrictions shall be changed only during annual negotiations. EAT also shall be eligible for funding for new services, service increases, mandatories, specific Congressional appropriation for population growth, health services priority system, contract support costs, and other increases in resources on the same basis as all other tribes. Adjustments for changes required when a tribe joins or withdraws from a tribal consortium shall also be permitted. Co-Signers shall also remain eligible for the distribution of additional tribal shares for Assessments, Workers Compensation, Emergency Reserve, Management Initiatives, and other PSFAs from Headquarters.

Section 5 – Method of Payment

5.1 Payment Schedule. Except as provided in subsections 5.2 [Availability of Tribal Shares], 5.3 [Buyback/Withholding], and 5.4 [Periodic Payments] of this section, all funds identified in Section 4 [Amounts Available During the Term of This Funding Agreement] of this Funding Agreement shall be paid to EAT, in accordance with Article II, Section 4 (a) of the Compact [Payment Schedule]; payment to EAT to be made as follows:

> One annual payment in lump sum to be made annually in advance by check or wire transfer.

11 Compact base budgets for TSA amounts shall be considered as a whole (entire ATHC amount) and shall be subject to adjustment of the internal allocation subject to ATHC agreements.

12 This includes addition of new facilities when the addition of these facilities includes an increase in equipment funds identified for the new facilities.

5.2 Availability of Tribal Shares. EAT will be paid 100 percent of Headquarters and Area Tribal Shares in its initial lump sum payment, as negotiated in this Funding Agreement.

Section 5.2.1 – Utilization of IHS Recruitment Website

5.2.1.1 Beginning in FY 2018, EAT agrees to retrocede 50% of its tribal shares for line item 124 to the Indian Health Service in exchange for EAT being able to fully access and utilize the recruitment website www.IHS.gov/jobs.

5.2.1.2 EAT understands and agrees that access to and use of the website is conditioned upon the following:

5.2.1.2.1 EAT must meet the Information Technology (IT) security requirements for all users of the IHS IT systems before access to the system will be authorized.

5.2.1.2.2 A single point of contact for EAT will be responsible for posting health professions vacancies. EAT's human resources department or a specified designee will post health care professional jobs using the www.IHS.gov/jobs job announcement templates (health professions postings only).

5.2.1.2.3 EAT will need to assure the accuracy of its health care professional vacancy posts by reviewing postings at least quarterly and updating or removing outdated job postings.

5.2.1.2.4 This agreement is only for health care professional jobs postings on www.IHS.gov/jobs and does not authorize posting on external job boards.

5.3 Buyback/Withholding.[13] EAT may carry out its responsibility to provide certain PSFAs included in this Funding Agreement by using services or other resources of the Federal government under Article V, Section 22 [Purchases from IHS] of the Compact, as permitted by law. Except as provided herein, the cost of such services and the terms under which they may be made available to EAT are set forth in the Buyback/Withhold Agreement between IHS and EAT, which is attached as Appendix D to this Funding Agreement and incorporated by reference herein. The administrative surcharge provided for in Section 2.2.4 of the Buyback/Withhold Agreement for FY 2023 shall be .285 percent. Notwithstanding Section 5 of the Buyback/Withhold Agreement, upon the request of IHS or any Co-Signer, such Buyback Agreement will be negotiated for future fiscal years annually during negotiation of this Funding Agreement.

5.4 Periodic Payments. Payment of funds otherwise due to EAT under this Funding Agreement, which are added or identified after the initial payment is made, shall be made promptly upon request of EAT by check or wire transfer.

13 EAT does not currently carry out any of its programs under this subsection.

Section 6 – Adjustments.

6.1 Due to Congressional Actions. The parties to this Funding Agreement recognize that the total amount of the funding in this Funding Agreement is subject to adjustment due to Congressional action in appropriations Acts or other law affecting availability of funds to IHS and the Department of Health and Human Services. Upon enactment of any such Act or law, the amount of funding provided to EAT in this Funding Agreement shall be adjusted as necessary, after EAT has been notified of such pending action and subject to any rights which EAT may have under this Funding Agreement, the Compact, or the law.

6.2 Due to Contracting or Compacting by Authorizing Tribes. Should any authorizing Tribe assume responsibility for PSFAs (or portions thereof) under a contract or Funding Agreement pursuant to the Act, adjustment to funding amounts and responsibilities of EAT under this Funding Agreement will be negotiated.

Section 7 – Records.

7.1 Incorporation of the Privacy Act. Pursuant to Sections 506(d)(1) of Title V, records acquired, generated, or maintained by EAT shall not be treated as Federal records under Chapter 5 of Title 5 of the United States Code, except that

7.1.1 patient medical records, financial records, and personnel records may be disclosed only in accordance with 5 U.S.C. Section 552a(b); and

7.1.2 pursuant to Section 105(o) of Title I, the medical records generated by EAT shall, at the option of EAT, be stored with the National Archives and Records Administration, and EAT shall have access to such records.

7.2 Confidentiality Standards. EAT will seek to comply with the Administrative Simplification provisions of the Health Insurance Portability and Accountability Act of 1996 (HIPAA), including, but not limited to, privacy, security, transactions, and code set regulations, codified at 45 C.F.R. Parts 160, 162 and 164. If a record is not subject to HIPAA, EAT will maintain the confidentiality of its records in accordance with policies and procedures adopted by the EAT Board of Directors, which will be consistent with the purposes and guidelines of HIPAA and the Federal Privacy Act of 1974.

Section 8 – Program Rules. EAT will make a best effort to carry out the health PSFAs in this Funding Agreement in compliance with those program regulations, guidelines, and directives approved by the EAT Board of Directors. These will include the IHS CHAPCB *Standards and Procedures*. Except as specifically set forth in this section, pursuant to Section 517(e) of Title V, EAT does not agree to be subject to any agency circular, policy, manual, guidance, or rule adopted by IHS, except for the eligibility provisions of Section 105(g) and the regulations promulgated under Section 517 of Title V, unless otherwise waived.

Section 9 - Real Property Reporting Requirements.

9.1 Leases. IHS must report on its federally lease facilities. EAT agrees to notify the AANHS of changes in occupancy, size, use, and general condition of Village Built Clinic (VBC) leased facilities in locations where EAT has bought back services from IHS. IHS will annually, or upon renegotiation, provide to EAT a copy of each VBC lease. No increase in the amount due to the lessor pursuant to a lease will be negotiated by IHS without advance notice to EAT. In administering these leases, IHS will work with EAT to ensure that each lease is in compliance with the standards referenced in the VBC lease.

9.2 The National Environmental Policy Act (NEPA), National Historic Preservation Act (NHPA), and related provisions of law require IHS to review and approve actions resulting in the use or commitment of IHS funds or that affect IHS property, and which may significantly impact the environment or cultural resources. Unless EAT has assumed these responsibilities under a construction project agreement in accordance with Section 509 of Title V and 42 C.F.R. § 137.285-312, IHS must carry out these responsibilities and has elected to utilize Appendix G. Where EAT plans to undertake an action, as described in Appendix G, on IHS owned real property or utilizing IHS funds received through this Funding Agreement and EAT has not assumed these responsibilities, EAT will provide IHS with a Project Summary Document (see Appendix F-4) and a completed Environmental Information and Documentation Form (see Appendix F-5) so that IHS can accomplish these requirements, and issue a Determination Document (Categorical Exclusion (CATEX) or Finding of No Significant Impact (FONSI)), as soon as possible. All documentation shall be submitted to IHS as early as possible in the planning phase of the project to prevent delays in the action. No irreversible action can be taken by EAT until IHS completes its compliance responsibilities and so advises the EAT with a Determination Document). Pending resource availability, IHS is available for education and consultation on NEPA, NHPA, and related provisions of law on an as needed basis.

Section 10 – Retrocession and Discontinuance.

10.1 Retrocession. The retrocession provisions of Section 506(f) of the Act, are herein adopted, except that the effective date of a retrocession request from the Compact and Funding Agreement, in whole or in part, shall be one year from the date of the request by an authorizing Tribe or Village, except as provided as follows: Retrocession may be effective with less than one year's notice, providing the Tribe or Village requesting retrocession, EAT, and IHS agree to an effective date of less than one year from the date of the retrocession request.

10.2 Discontinuance. EAT may discontinue its participation in the Compact after written notice to each authorizing Tribe or Village and IHS. Notice must be provided one year in advance of the effective date of the request except that the effective date of a request, may be less than one year upon approval of all authorizing Tribes and IHS.

10.3 Withdrawal Procedures.

10.3.1 Process. Unless prohibited by law and in accordance with Section 506(g) of the Act, a tribe or tribal organization may fully or partially withdraw from a participating tribal organization its share of any program, function, service, or activity (or portions thereof)

included in the Compact or Funding Agreement, and such withdrawal shall become effective within the time frame specified in the resolution which authorized transfer to the participating tribal organization, provided that in the absence of a specific time frame being set forth in the resolution, such withdrawal shall become effective on –

10.3.1.1 the earlier of
10.3.1.1.1 one year from the date of submission of such request; or
10.3.1.1.2 the date on which the Funding Agreement expires; or

10.3.1.2 such date as may be mutually agreed by the Secretary, by the Indian tribe or tribal organization that is withdrawing, and by the tribal organization that has signed the Compact and Funding Agreement on behalf of the withdrawing Indian tribe or tribal organization.

Section 11 – Consolidation of Contracts and Previous Funding Agreements. The contracts listed below and all previous Funding Agreements shall be amended or terminated, as appropriate, to transfer applicable contract funds into this Funding Agreement for programs, activities, functions, services, materials, and facilities provided to the Tribes represented by EAT.

Title I, P.L. 93-638 Contract Number: 243-96-6023, as modified.

Section 12 – Amendment or Modification of this Funding Agreement.

12.1 Form of Amendments. Except as otherwise provided by this Funding Agreement, the Compact, or by law, any modification of this Funding Agreement shall be in the form of a written amendment and shall require written consent of each of the signatory Tribes, acting directly or through EAT as authorized by resolution; EAT; and the United States. Participation or written consent of Tribes and Co-Signers not subject to the terms of this Funding Agreement shall not be required.

12.2 Services from IHS. Should EAT determine that it wishes IHS to provide PSFAs included in this Funding Agreement for which funding has been identified but not provided, the parties shall negotiate an amendment to the Funding Agreement to reflect the transfer of responsibilities from EAT back to IHS and the pro-rata share of funding for that program, activity, function, or service shall be retained by IHS. Unless otherwise negotiated, IHS will not transfer centrally paid expenses, including, but not limited to, Workers Compensation to any Co-Signer.

12.3 Due to Addition of New Programs. Should EAT determine that it wishes to provide a program, activity, function, or service of IHS not included in this Funding Agreement, EAT shall submit a proposal to IHS to provide such program, activity, function, or service. The parties agree to negotiate such a proposal and, should the parties fail to reach agreement, EAT may submit a final offer in accordance with Title V procedures set forth in Section 507(b)-(d) of Title V. A proposal submitted pursuant to this section shall be treated as a request for amendment to the Funding Agreement and, once approved by IHS, the Alaska Area Office shall

prepare within 30 days an amendment to this Funding Agreement, and the amendment shall be executed through the Area Office and added to this Funding Agreement.

12.4 Due to Availability of Additional Funding. EAT shall be eligible for any increases in funding or funding for Medicaid, Medicare, maintenance and improvement, other reimbursement, and new programs for which it would have been eligible had it been administered programs under a self-determination contract, rather than under the Compact and this Funding Agreement, and for any other funds that are not restricted by appropriations language for which any Alaska Tribe or tribal organization may be eligible, including any new funds appropriated for IHS Headquarters and funds passed to Alaska Area as recurring or non-recurring funds, and this Funding Agreement shall be amended to provide for timely payment of such new funds to EAT. Such amendment shall be originated and prepared within 30 days by the Alaska Area Office and executed through the Area Office in consultation with EAT.

12.5 Other Adjustments. Upon written authorization by EAT and agreed to by IHS, IHS may reallocate funds retained by IHS, which are obligated to EAT for the purpose of reimbursing IHS for services or equipment provided to EAT, to assist EAT in carrying out the terms of the Compact and this Funding Agreement.

12.6 General Procedures for Amending or Modifying this Funding Agreement. Amendments or modification proposed by EAT shall be submitted in writing to IHS, Alaska Area Director, with a copy to the Office of Tribal Self-Governance at IHS Headquarters. Except as provided with respect to the incorporation of a provision of Title I of the Act under Article V, Section 21 [Applicability of Title I Provisions] of the Compact, or as provided above in paragraphs 12.4 [Due to Availability of Additional Funding], and 12.7 [Funding Increases] of this section, a request to amend or modify this Funding Agreement submitted by EAT shall be processed in accordance with Sections 507(b)-(d) of Title V of the Act, and all provisions of those identified sub-sections are incorporated herein for this purpose.

12.7 Funding Increases.

12.7.1 Written consent of EAT shall only be required for issuing amendments for those funds which:

12.7.1.1 require a change to Section 3 [Tribal Programs and Budget];
12.7.1.2 require a specific commitment by EAT (e.g., Maintenance & Improvement projects and prior fiscal year Sanitation Facility Construction projects); or
12.7.1.3 reduce funding other than changes in Congressional appropriations pursuant to Section 6.1 [Due to Congressional Actions].

12.7.2 Amendments not requiring written consent may include, but are not limited to:

12.7.2.1 Program/Area/HQ Mandatories;
12.7.2.2 Program/Area/HQ End-of-Year Distributions;

12.7.2.3 CHEF, subject to the condition that if a case initially qualifying for reimbursement is paid (in whole or in part) by an alternate resource or cancels for any reason, EAT will return the unused amount to IHS CHEF account;

12.7.2.4 CHS Deferred Services;

12.7.2.5 Routine Maintenance & Improvement; or

12.7.2.6 Collections and reimbursements.

12.7.3 Amendments reflecting payment of these funds shall be provided to EAT after any such funds are added to the Funding Agreement. EAT retains the right to reject the addition of such funds to the Funding Agreement and return the funds to IHS.

Section 13 – Third Party Recoveries. Any funds recovered by EAT through filing, litigating, or settling a claim against a third party to require that third party to pay for services previously provided to IHS-eligible beneficiaries by EAT, or for such services previously provided by IHS in a PSFA now operated by EAT, shall be the property of EAT and shall be considered program income to be utilized by EAT as provided in Article III, Section 7 [Program Income] of the ATHC. Any prospective recovery of funds for such services shall likewise be considered program income to be utilized pursuant to Article III, Section 7 [Program Income] of the Compact.

Section 14 – Memorandum of Agreement with Member Villages. Funds provided under this Funding Agreement may be allocated to and expended by an Alaska Native Village (Village) which is a party to this Funding Agreement in accordance with the terms of the Compact, this Funding Agreement, and a Memorandum of Agreement (MOA) approved by EAT and the Village. The Federal Tort Claims Act shall apply to PSFAs carried out by the Village under such MOA and to the Village and its employees to the same extent as if they had been carried out directly by EAT. Such an MOA may include provisions for the assignment of federal employees under IPA assignment or Commissioned Corps detail. Such assignment shall be subject to the approval of the AANHS Director. EAT shall be responsible for assuring compliance by the Village with the Compact, this Funding Agreement, and the MOA.

Section 15 — Service to Non-Beneficiaries. Section 813 of the Indian Health Care Improvement Act, as amended, 25 U.S.C. 1680c, (Section 813), authorizes the governing body of a Tribal Organization carrying out health services of IHS under the Indian Self-Determination and Education Assistance Act to determine whether health services should be provided under the Tribal Organization's funding agreement with IHS "to individuals who are not eligible for such health services under any other subsection of this section or under any other provision of law" 25 U.S.C. 1680c(b)(1)(B). EAT Board of Directors has made such determination consistent with Section 813, and provides for its findings in Resolution No. 2011-01. Resolution 2011-01 is attached as Appendix B and incorporated by reference herein. EAT may provide services under this Funding Agreement to non-beneficiaries as described in Resolution No. 2011-01. In addition, services may be provided to U.S. Public Health Service Commissioned Corps Officers and their dependents.

Section 16 – Memorializing Disputes. The parties to this Funding Agreement may have failed to reach agreement on certain matters which remain unresolved and in dispute. Such

matters may be addressed through the process set forth in Sections 507(b)-(d) of Title V, or at EAT's option, may be set forth in an attachment to this Funding Agreement, which shall be identified as "Memorialization of Matters Remaining in Dispute." This attachment shall not be considered a part of this Funding Agreement, but is attached for the purpose of recording matters in dispute for future reference, discussion, and resolution as appropriate. EAT does not waive any remedy it may have under the law with regard to these issues and any others not listed herein.

Section 17 – Severability. This Funding Agreement shall not be considered invalid, void, or voidable if any section or provision of this Funding Agreement is found to be invalid, unlawful, or unenforceable by a court of competent jurisdiction. Should such a court make such a finding, the parties will seek agreement to amend, revise, or delete any such invalid, unlawful, or unenforceable sections or provision, in accordance with the provisions of the Compact.

Section 18 - Title I Provisions Applicable to This Funding Agreement. As authorized in 25 U.S.C. § 5396(b), EAT exercises its option to include the following provisions of Title I of the Act as part of this Funding Agreement, and these provisions shall have the force and effect as if they were set out in full in Title V of the Act.

18.1. 25 U.S.C. § 5304(e) (definition of "Indian Tribe");

18.2. 25 U.S.C. § 5322(b) (related to grants for health facility construction and planning, training and evaluation);

18.3. 25 U.S.C. § 5322(d)(1) (related to duty of IHS to provide technical assistance);

18.4. 25 U.S.C. § 5324(a)(1) (exemption from Federal procurement and other contracting laws and regulations);

18.5. 25 U.S.C. § 5328(b) (conflicting provisions of law);

18.6. 25 U.S.C. § 5329(c), section 1(b)(8)(F) (screener identification);

18.7. 25 U.S.C. § 5329(c), section 1(b)(9) (availability of funds);

18.8. 25 U.S.C. § 5329(c), section 1(d)(1)(B) (construction of contract);

18.9. 25 U.S.C. § 5329(c), section 1(d)(2) (good faith).

Section 19 – Effective Date and Duration. This Funding Agreement became effective on October 1, 2022, and will remain in effect through the 2025 Federal Fiscal Year or until subsequent agreement is negotiated and becomes effective pursuant to Article II, Section 12 [Subsequent Funding Agreements] of the Compact.

General Notes on Alaska Area Office Tribal Shares

Column 1 - Includes all FY17 changes allocated to TS, Residual, & Transitional as of FY17. In FY 2019 TS changes will be added as received.

Column 2 - Residual includes no changes in residual functions. Based on FY2018 Area approved residual budgets.
Remaining funds at 9/30 distributed (Non-Recurring) to all Alaska Area health programs based on recurring base.

Column 3 - Transitional funds agreed by co-signers to remain at Area Office. Based on FY2018 approved transitional budget.

Column 4 - Restricted by all co-signers & transferred to the ANTHC to provide "Area PSFAs" .

Column 5 - Includes Area TS for all Alaska Tribes, including Title I & Title V. FY19 mandatories to be added if received.

Column 6 - Available Tribal shares for Co-Signer (amounts for ANTHC include pass-through to awardees with shares captured by Sec. 325).
Distributed by the approved ATHC methodology of - 30% # of Tribes / 35% 2010 Census Pop. / 35% 2013 Rec. Base (less VBC).
All Area TS for Services line items will be recurring, Area TS for Facilities will be non recurring.

Column 7 - Items restricted by individual co-signer to pay for continued services from ANTHC. (Restricted amounts are added to ANTHC FA.)

Column 8 - The agreed upon amount due (col. 6 - col. 7) to the co-signer after all retained shares are withheld.

Line 1 - All TS funds for non-OEHE Area Office PSFAs except where co-signers have individually decided to retain certain PSFAs at the ANTHC or AANHS.

Line 5 - Lease on Inuit Building.

Line 5a - $20,000 (less sequester) from transitional funding held by IHS to rent space for annual negotiations. Funds transferred to ANTHC upon confirmation of space avai

Line 7 - Centrally paid expenses, including personnel & finance support for Area positions, costs & funds for departmental assessments.

Line 8 - Area Human Resources functions (previously Office of Personnel & Training).

Line 9 - Funding originally from ANMC - have all been returned to SCF/ANTHC as IPA/MOAs were reduced.

Line 10 - Includes funding for Area PSFAs transferred to ANTHC under Section 325.

Line 11 - Funds to ANTHC to support the statewide Contract Health Services reserve program.

Line 12 - Funds to ANTHC to support specialized services in Barrow, NSHC, & BBAHC & certain statewide laboratory contracts.

Line 13 - ANHB funds from Loc 77 including previous tobacco prevention funding.

Line 14 - Supply Service Center individually withheld amounts retained for ANTHC for all co-signers except YKHC, Seldovia, & Eklutna.

Line 15 - Funds distributed to support the Epidemiology Center distributed to co-signers for individual payment to ANTHC.

Line 16 - Funds for EMS training. Retained by IHS for transfer to ANTHC for Maniilaq, BBAHC, & Chugachmiut for EMS training at ANMC.

Line 18 - Does not include funds from surcharge, assessments, or other services purchased through Area Office.

Line 22 - Funds retained for ANTHC for all co-signers except YKHC, SCF, & KIC.

Line 24 - Does not include NR SFC funds for Health Facilities design and construction oversight.

Column 2 - IPA/MOA Centrally Paid Expenses are estimated at $588 for each IPA and $6,243.81 for each MOA.

Employee Dispute Pool Costs are no longer charged in advance (*see* Section 2.3.2.3 of Buyback Agreement).

These charges will be reconciled to actual cost per employee as incurred by the Service and Supply fund for CPE expenses.

Column 3 - Surcharge for all Co-Signers using buyback is .285%

Appendix B

Resolution No. 04-06

EASTERN ALEUTIAN TRIBES, INC.

Resolution No. 04 - 06

Health Services to Non-Beneficiaries

WHEREAS, the Eastern Aleutian Tribes, Inc. is a tribal consortium of federally recognized Alaska Native tribes situated in the Aleutians East Borough of the State of Alaska; and

WHEREAS, the Eastern Aleutian Tribes, Inc. has been controlled, sanctioned, and chartered by the governing bodies of the Alaska Native villages in the Aleutians East Borough to undertake all available opportunities under the Indian Self-Determination and Education Assistance Act, as amended, to promote Alaska Native control, management and operation of all health programs serving the people of the Borough, and such authorizations have been expressed in the form of resolutions on file with the Alaska Area Office of the Indian Health Service; and

WHEREAS, the Eastern Aleutian Tribes, Inc. based on the authorizations provided by the tribes of the Borough, is a "tribal organization" under Section 4(*l*) of the Indian Self-Determination and Education Assistance Act, as amended [25 U.S.C. § 450b(*l*)]; and

WHEREAS, the Eastern Aleutian Tribes, Inc. operates health programs and facilities under the terms and conditions of the Alaska Tribal Health Compact and annual funding agreement entered into with the Indian Health Service under Title V of the Indian Self-Determination and Education Assistance Act, as amended; and

WHEREAS, Section 813 of the Indian Health Care Improvement Act, as amended [25 U.S.C. § 1680c], authorizes health facilities operated by a tribal organization to provide services to non-beneficiaries, provided the governing body of the tribal organization authorizes such services, the provision of such services will not result in a denial or diminution of health services to eligible native beneficiaries; and there is no reasonable alternative to meet the health needs of such individuals; and

WHEREAS, the Eastern Aleutian Tribes, Inc. was formed to provide health care and to promote the health and well being of the people of the Eastern Aleutian region; and

WHEREAS, a significant part of the permanent population of the Aleutians East Borough and of the villages in which mental health services are offered are Alaska Native beneficiaries of Indian Health Service programs; and

WHEREAS, both the social structure of the Aleutians East Borough and its economy are inextricably intertwined with Alaska Natives, non-Native residents, transient workers, and fishermen; and

WHEREAS, the Eastern Aleutian Tribes, Inc. operates the only comprehensive health programs in the Aleutians East Borough and the only mental health programs in the villages in which mental health services are offered; and

WHEREAS, without health services provided by the Eastern Aleutian Tribes, Inc., people who are not Indian Health Service beneficiaries (hereafter "non-beneficiaries") would have to travel hundreds of miles by airplane to obtain health care, which is not a reasonable alternative in that it unreasonably increases the cost of such care, decreases the likelihood of necessary preventative health care being provided and diminishes the effectiveness of such care due to inadequate follow-up; and

WHEREAS, the Eastern Aleutian Tribes, Inc. has established billing procedures to ensure that non-beneficiaries are held liable for receipt of health services and has entered into agreements with the Aleutians East Borough for funding of programs and the State of Alaska to ensure payment by the State for services offered to indigent non-beneficiaries, as required by Section 813 of the Indian Health Care Improvement Act, as amended [25 U.S.C. § 1680c]; and

WHEREAS, funds generated as a result of serving non-beneficiaries enhance the services the Eastern Aleutian Tribes, Inc. is able to provide to Indian Health Service beneficiaries; and

WHEREAS, provision of health care services to non-beneficiaries produces revenue that assists the Eastern Aleutian Tribes, Inc. in providing the most economical and comprehensive health program for Indian Health Service beneficiaries; and

WHEREAS, some employees of the Eastern Aleutian Tribes, Inc. and their families are non-beneficiaries who reside in the region and occasionally require health services; and

WHEREAS, providing such health services to employees and their families, whether Indian Health Service beneficiaries or non-beneficiaries, provides revenue to the Eastern Aleutian Tribes, Inc. and increases the confidence of non-employee Indian Health Service beneficiary users by demonstrating that the employees trust in and rely on the quality of the health care programs offered by the Eastern Aleutian Tribes, Inc.; and

WHEREAS, non-beneficiaries, including non-beneficiary employees, make up a manageable share of the patients requiring care from the Eastern Aleutian Tribes, Inc., facilities and services and, therefore, do not result in the denial or diminishment of services to beneficiaries; and

WHEREAS, the Board of the Eastern Aleutian Tribes, Inc. has determined that each of the conditions of Section 813 of the Indian Health Care Improvement Act, as amended [25 U.S.C. § 1680c], is satisfied and that services to non-beneficiaries will actually enhance the program available to beneficiaries by allowing the Eastern Aleutian Tribes, Inc. to offer the most comprehensive, economical health program; and

NOW, THEREFORE, BE IT RESOLVED that the Board of Directors for the Eastern Aleutian Tribes, Inc. hereby authorizes the extension of health services from the Eastern Aleutian Tribes, Inc. to non-beneficiary residents of the communities served by Eastern Aleutian Tribes, Inc., including employees of the Eastern Aleutian Tribes, Inc. and their families and transient and seasonal workers present in the communities served by the Eastern Aleutian Tribes, Inc., at all the Eastern Aleutian Tribes, Inc.'s facilities and from all the Eastern Aleutian Tribes, Inc.'s providers; and

BE IT FINALLY RESOLVED that the Administrator of the Eastern Aleutian Tribes, Inc.'s health programs is authorized and directed to limit or eliminate access to such health services by non-beneficiaries should provision of such services diminish the provision of health services to beneficiaries of the Indian Health Service.

APPROVED AND ADOPTED BY Eastern Aleutian Tribes, Inc. Board of Directors on the 13th day of September 2004 with a vote of 5 for and 0 against.

President
Eastern Aleutian Tribes, Inc.
Board of Directors

Secretary
Eastern Aleutian Tribes, Inc.

FY 2020 Continuing Services Agreement

MEMORANDUM OF AGREEMENT DESCRIBING THE CONTINUING SERVICES OF THE INDIAN HEALTH SERVICE, ALASKA AREA NATIVE HEALTH SERVICE TO EASTERN ALEUTIAN TRIBES, INC. FOR FY 2020

I. INTRODUCTION

This agreement provides for the continuation by the Indian Health Service (IHS) of certain services from the Alaska Area Office for the benefit of Eastern Aleutian Tribes, Inc. under its Funding Agreement (FA) under the Alaska Tribal Health Compact (ATHC) Self-Governance Compact.

This agreement is limited to the programs, services, functions, and activities (PSFAs) performed by the residual and transitional federal staff of the Alaska Area Office.

This agreement should be interpreted in conjunction with Eastern Aleutian Tribes, Inc.'s FA and Appendix A to that FA, which may provide for additional detail on "restrictions" of funds at the Area or Headquarters level to ensure that specific services are continued to the individual Co-Signer.

In FY 2020, funding for these continuing services and activities will be from the funds, which have been designated as residual and from funds, which have been designated in support of temporary transitional federal PSFAs. In addition funding to purchase specific services, i.e., use of IPA/MOA assignees and Village Built Clinic leases, may be provided through reimbursement by Eastern Aleutian Tribes, Inc. to the IHS.

II. DEFINITIONS

The following definitions are in common usage in the Alaska Area:

A. ATHC Tribal Restricted Share - Used in Alaska to refer to those retained Tribal shares all compacting Tribes jointly initially agreed to leave in the Area Office in support of Alaska Area state wide PSFAs. Pursuant to Section 325 of PL 105-83, these shares now are in the Alaska Native Tribal Health Consortium (ANTHC) FA or are used for transitional federal PSFAs.

B. Buyback - The process by which Co-Signers use cash to purchase Area services from the Area Office. Requires accurate description and pricing of service, and mechanism for Area to invoice and receive payment.

C. Co-Signer Restricted Shares - Used in Alaska to refer to "retained Tribal shares" that have been left at the Area Office or Headquarters on an individual basis by a Co-Signer to allow the Area, Headquarters or ANTHC to provide specific services to the Co-Signer. Pursuant to Section 325 of PL 105-83, these Area shares now are in the ANTHC FA or are used for transitional federal PSFAs.

D. Residual - The resources necessary to support the PSFAs required for the United

States Government to fulfill and maintain its moral and legal responsibilities based on treaties, statute, and Executive order that are essential for the federal government to fulfill its "inherent federal functions".

E. Transition Plan - Plan initially agreed to by the Alaska Tribes to allow a transition of less than 100% of the Area Office Tribal shares to the Co-Signers collectively. (This definition is included for historical purposes only.)

F. Tribal Share - That portion of Headquarters or Area resources not determined to be residual and allocated to individual Tribes or to Tribes collectively, via Tribal organizations, utilizing an agreed upon methodology.

G. Tribe - As used in this Agreement, "Tribe" refers to Tribes and Tribal organizations, as those terms are defined respectively in Sections 4(e) and (*l*) of P.L. 93-638, the Indian Self-Determination and Education Assistance Act, as amended (the Act).

III. AREA SERVICE DELIVERY AGREEMENT

Nothing in this agreement is intended by Eastern Aleutian Tribes, Inc. or the IHS, nor shall be interpreted by any party, to limit or reduce in any way the PSFAs that any Tribe or Tribal organization is eligible to receive from the Area Office under Sec. 102 of Title I of the Act, under Sections 505 and 515(a) of Title V of the Act, or any other applicable federal law.

The table for each "Office" (or separate organizational component) presents the PSFAs currently performed and the staffing to perform the PSFAs. The residual PSFAs described in this Continuing Services Agreement serve all Co-Signers. The transitional personnel shown in this Agreement primarily support ANTHC PSFAs; however, some support other Co-Signers (e.g. IPA/MOA). PSFAs and the associated funds and personnel performing transitional PSFAs in support of the ANTHC (and Southcentral Foundation (SCF) for certain designated human resources PSFAs) under this Agreement may be transferred to the ANTHC or SCF under its FA.

A. OFFICE OF THE DIRECTOR

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional	Staffing (FTE)
Director	Provides overall executive direction and support on behalf of the Secretary.	R	1
Deputy Director, Chief Medical Officer	Provides public health advocacy; clinical consultation (CMO); legally required certification of health aide credentials and oversight of CHAP certification process; consultation in CHAP/Rural Health program management.	R	1
Executive Officer	Serves as principal advisor to the Director on overall management policies and procedures.	R	1
Attorney	Provides Region X attorney support and consultation.	R	1
EEO	Provides EEO support. 1		
Support Staff	Secretarial, clerical and administrative support to inherent and transitional federal functions at all levels of the Area Office.	R T	3 1
Planning, Evaluation & Statistics	Prepare statistical reports and publications in support of planning, evaluation and resource allocation requirements.	R	2
	Total		10

The Office will provide the specific PSFAs defined below:

1. Executive direction on behalf of the Secretary to the remaining inherently federal functions.
2. Advocacy at national level on behalf of the Tribes of Alaska including: legislative, policy, resource allocation, and appropriation advocacy.
3. Policy formulation and interpretation; supervision of non-IPA/MOA federal employees; negotiate, execute and administer compacts and FAs; resource allocation.
4. Public health coordination with Tribal, state and federal governments.
5. Provide legal advice and consultation on behalf of the Secretary.
6. Provides representation on the Executive Committee and Planning Committee of the Alaska Federal Health Care Partnership (AFHCP). Through the government-to-government relationship with Tribes and Tribal organizations, provides the mechanism for Tribal membership on the AFHCP.
7. Eligibility determinations assistance.
8. Equal Employment Opportunity program management in support of federal employment rights.
9. Oversight of certification of Community Health Aides as outlined by law and the *IHS Community Health Aide Program Certification Board Standards and Procedures*.
10. Consultation and technical assistance to Tribes and Tribal organizations staff and programs including
    a. Program review or evaluation at the request of the Area Director or the invitation of Tribal programs;
    b. Submission of electronic health record data to IHS National Data Warehouse; and
    c. Maintain current Area statistics to provide statistical analysis in support of resource needs and allocations.

1 The EEO function is provided under an intra-agency agreement among the IHS Alaska, California and Portland Area Offices.

d. Review and validate Alaska active user populations.

e. Publish *Census Based Alaska Native Population Counts* to supplement and cross check the accuracy of the user populations.

f. Verify the permanent staff increase Resource Requirement Methodology Needs Assessment (RRMNA) prepared by Tribes to determine staff needed for new facilities.

g. Collate data submitted for IHS distribution of specially earmarked funds following national allocation guidelines, when available, and suggest alternate distribution methods to program directors.

h. Publish the *Alaska Area Profile.*

i. Maintain the Alaska Area IHS website and publish Area Director's quarterly newsletter.

j. Publish the *Area Senior Executive Service Workplan* to support agency evaluation of the goals and accomplishments of the Area Office, its Director and Office Directors.

k. In cooperation with the AANHS/OEHE and ANTHC's Division of Environmental Health and Engineering and Co-Signers, provide user population and workload data, assist Co-Signers with preparation of applications; verify applications and planning documents prepared by Tribes (Health System Planning -HSP, PORs, and PJDs) for health facility expansion and replacement; and assist Co-Signers in the Headquarters' review process.

l. Communication between Tribal programs and IHS by seeking legal opinion from Region X attorney on issues which affect health care delivery by Community Health Aides such as standards of care, certification, Clinical Laboratory Improvement Act (CLIA) regulations, and Federal Tort Claims Act coverage.

11. Provide health program technical assistance and consultation on a limited basis as expertise and resources permit. This includes consultation on PSFA descriptions in Title I contracts, Title V FAs, specified grants and personal service and other contracts.

12. Support staff for the Director's Office and all other Area Office components without specific support staff.

13. Provide reimbursement to Headquarters for certain centrally paid expenses to include 100 percent of Department of Health and Human Services financial services and portions of other such expenses as reflected in the negotiated transitional budget for the ANTHC.

14. Performs the responsibilities identified in section 1 of the FA regarding ANTHC and SCF assurances.

15. Perform delegated functions to approve and administer FAs and amendments. The delegation includes the performance of Single Agency Audit, audit resolution for Title V awardees (Co-Signers); the function is provided using a multi-member Area-based team.

16. Responsibility for the Area Internal Control/Management Control programs, IHS Succession Plan and the Strategic Human Capital initiative.

17. As federal supervisor of Commissioned Officers serving under MOAs, the Area Director: functions as Reviewing Official for completion of annual Commissioned Officer Evaluation Reports; provides the Reviewing Official Statement for each officer when they are considered for promotion; and, fulfills any other action required as an officer's Reviewing Official. The Area Director may delegate this responsibility to Area Federal Staff as needed.

B. OFFICE OF ACQUISITION AND PROPERTY MANAGEMENT [2]

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional	Staffing (FTE)
Federal Contracting ,, Personal Property, and FOIA Coordinatio n	Responsible for federal acquisitions to support the Alaska Area Office, including the federal credit card program. Maintains the federal personal property inventory. Provides or coordinates various administrative services for the Alaska Area Office.	R	1
	Total		1

The Office will provide the specific PSFAs defined below:

1. Negotiate, award and administer federal acquisitions.
2. Maintain or develop Alaska Area Interagency and Cooperative Agreements in close partnership with appropriate IHS or other federal, state or Tribal entity(s).
3. Coordinate various administration functions including Freedom of Information Act requests and IHS delegations and directives.
4. Maintain the federal personal property management inventory, including excess and disposal.
5. Provide technical assistance to Tribally managed facilities on procurement issues as requested regarding procurement issues and acquired federal excess property.
6. Maintain the federal credit card program.

2 Residual (1) FTE moved to Office of Tribal Programs in support of Title 1 contracts and audit resolution.

C. OFFICE OF ENVIRONMENTAL HEALTH & ENGINEERING

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional	Staffing (FTE)
Director	Management, supervision and administrative support.	R	2
Sanitation Facilities	Maintenance of Sanitation Facilities Construction (SFC) data information systems for program allocations, National Environmental Policy Act (NEPA) approval, oversight of IHS funded SFC projects.	R T	1 1
Environmental Health	Environmental services associated with federal employees[3]/		
Health Facilities	Support, direction and general administrative support, maintenance of Maintenance & Improvement (M&I), Equipment and other data for program allocation.	R	1
Realty	Maintain government property inventory; manage VBC leases; supports the Alaska Area ISDEAA Section 105(l) lease program; and inspect government-owned facilities	R	1
	Total		6

The Office will provide the specific PSFAs defined below:

1. Sanitation Facilities:

a. Allocation of federal funds under Title V of the Act utilizing subpart N Construction Project Agreements and P.L. 86-121 Project Funding Agreements for project funding.

b. Provide required IHS oversight, facilitation and management of contributed sanitation facility construction funding from other federal and state agencies.

c. Directly allocate IHS resources using data provided by prescribed allocation formulas and justification rationales.

d. Evaluate and approve proposed projects, prepare budget summaries and justifications. Advocate statewide and nationally for the ANTHC Division of Environmental Health and Engineering (DEHE) program and facilitate its implementation.

e. Maintain project information and deficiency databases in the IHS Web-based Sanitation Tracking and Reporting System (W-STARS) to justify congressional funding requests in support of distribution logic.

f. Verify project development, documentation, funding, construction and closeout. Approve project agreements, to include making the determination of National Environmental Policy Act (NEPA) compliance based on information submitted by ANTHC DEHE.

g. Consult on and accept processes and priorities developed through the Sanitation Facilities Advisory Committee and SFC process in conformance with IHS national project eligibility criteria.

h. Onsite reviews of projects may be conducted annually to insure conformance with laws and regulations, e.g., NEPA and National Historic Preservation Act (NHPA) and to verify accuracy of data and programmatic assumptions.

i. Approve earmarked and emergency project funds dispersal.

2. Environmental Health: PSFAs include:

3 The PSFA conducted under this function are performed by all Office staff and others in the Area Office.

a. Overall direction of resources and related environmental surveillance for statewide public health impacts.

b. Continue to carry out functions related to serving as one of the health and medical representatives to the Alaska Federal Emergency Response Group.

c. Provide management and verification of tribal input data in the IHS Environmental Health Services data system known as the Web-based Environmental Health Reporting System (WebEHRS).

d. Provide safety assurance, compliance and reporting relating to federal workers, and professional programmatic support for staff.

e. In the event of a national disaster situation as defined in the Federal Response Plan, IHS is the lead agency for emergency response related to water and sewer damage assessment and mitigation.

3. Health Facilities: PSFAs include:

a. Perform budget allocation;

b. Support and approve project or resource allocations derived through a priority system developed through the Maintenance & Improvement Resource Allocation Committee (MIRAC) and ANTHC process consistent with IHS national project eligibility criteria. Verify data submittals and manage IHS facilities databases in conformance with IHS national project and health facilities space eligibility criteria.

c. Respond to Congressional inquiries;

d. Review Project Justification Document/Program Of Requirements (PJD/POR) documents prepared by others;

e. Review and approve national priority systems applications, including Tribal Equipment Funds and Dental Facilities Funds;

f. Maintenance of Alaska portion of the IHS Healthcare Facilities Data System (HFDS) including the Facilities Maintenance and Improvement/Equipment database for federally and Tribally owned health facilities;

g. Support for new health facility construction project funds distribution and project development;

h. Stewardship responsibility for oversight of environmental cleanup of federally owned real property;

i. Approve workload statistics;

j. Advocate statewide and nationally for the DEHE program and facilitates its implementation.

4. **Realty:** PSFAs include:

a. Monitor and manage real property assets in accordance with Executive Order 13327, "Federal Real Property Asset Management" and existing authority under law or by executive order for real property, capital improvements, square footage, use or disposal.

b. Maintain the IHS Real Property Inventory by updating the asset book values with costs relating to acquisition of real property, capital improvements, square footage, use or disposal.

c. Verify construction project closeout documentation for capital improvements made to federal facilities prior to adjusting the real property subsidiary ledger.

d. Perform annual review of real property.

e. Warranted Lease Contracting Officer authorized to lease Village Built Clinics

(VBC) on behalf of the Community Health Aide Program (CHAP).

f. Provide guidance to clinic owners and Tribal organizations with community health aides operating VBC leased clinics.

g. Determine correct process for disposing of excess real property and manages project to end.

h. Develop and recommend IHS Policy formulation on real property, leases and quarters;

i. Provide management and verification of real property and lease data within the health care facilities database.

j. Provide direct guidance and assistance in federal acquisitions of land and/or buildings.

k. Calculate and distribute rental rates for government owned quarters.

l. Prepare for approval all easements, utility rights-of-way, rights-of-way during construction, revocable licenses, and use permits.

m. Cost analysis and negotiation support for ISDEAA 105(l) leases.

D. OFFICE OF FINANCIAL MANAGEMENT

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional Buyback	Staffing (FTE)
Director	Financial Management Officer: Overall management, supervision, consultation, and surveillance	R	1
Tribal Accounting	Accounting advice; reconciliation; amendment and electronic payment assistance; monitors transactions in Buyback Account; and prepares Status of Buyback Statement with supporting documents.	R T	1 1
Budget	Budget projections and reports; fund control; Operating Resources Detail (formerly called Advice of Allowance)/Allocations.	R B	1 1
Accounting	Verifies accuracy and appropriateness of transactions; expenditures; general ledger; travel; project accounts; certifies vouchers; prepares tax withholding; and provides disbursement services.	R B	2 1
	Total		8

The office will provide the specific PSFAs defined below:

1. All resource allocation activities conducted by the Area.

2. Management controls of funds under Area control; responds to and provides data for annual agency audit.

3. Research and prepare routine, ad hoc, and special financial reports, prepare and reconcile status of funds reports for Area and Co-Signers. This includes providing Co-Signers with information necessary to manage the PSFAs they have assumed under their FAs and information necessary to negotiate those agreements.

4. Preparation and submittal of annual spending plan and budget/information to IHS for compacting and contracting Tribes and remaining AANHS/IHS activity.

5. Process financial documents for payment by U.S. Treasury, including payments related to continuing federal contracts in support of Tribally operated programs.

6. Process payroll for 340 federal (includes 58 IPA & 254 MOA) employees; maintain current position database for same; provide quarterly manpower reports to all Alaska locations using federal employees. Process and track all personnel actions.

7. Coordinate with Area OTP to allocate funding, initiate funding documents and assists

Co-Signers and contractors to maintain accurate records of funding allocations, reconciliations and cash management issues.

8. Reconciliation, billing and amendment management related to contractor and compactor use of federal resources including but not limited to IPA/MOA employees and the Village Built Clinic lease program. Reconciliation includes transaction verification of buyback services with corrections and reports.

9. Support withhold and buyback management including payment for continuing government contracts for goods and services, permanent change of station moves, etc.

10. Monthly general ledger reconciliation including cash management related to Prompt Pay Act, Treasury, cash and others.

11. Process reimbursement requests including Beneficiary Medical Program (BMP), Interagency Payment and Collections (IPAC), quarters collections, CHEF and others. Make deposits and transfers of such reimbursements to Co-Signers no less often than monthly.

12. Assist Tribes during annual Budget Formulation for the second succeeding year's annual budget, including preparation for the National Budget Formulation meeting.

E. OFFICE OF HUMAN RESOURCES

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional	Staffing (FTE)
Civil Service Staffing, Classification & Employee/ Labor Relations	Advertise and recruit for federal, direct and IPA/MOA replacements; process personnel and pay actions; provide job information; maintain official records; rate applicants, appoint new employees, and provide HR consultation; Title 38 and Physician's Comparability Allowance, Market Pay & Locality Pay maintenance; process Reduction in Force and counseling; provides transportation services and relocation assistance for federal employees and consultation re: Tribal direct hires as requested; administers Workers' Compensation program; grievances, discipline/adverse actions; Merit Systems Protection Board, appeals and agency representation; performance management; retirements; payroll; benefits; outside activities; ethics program; suitability adjudication; manage Federal Employee Assistance program and Family Medical Leave and Family Friendly Acts consultation; conducts desk audits; applies Classification Standards and consultation. Initiate and assure completion of suitability investigations as needed on federal employees and personal services contractors.	R T	2 0
	Total		2

Under the direction of the IHS Western Region Human Resources Director, the Office of Human Resources will provide the specific PSFAs defined below for the current approximately 340 federal employees employed either directly or through Civil Service IPAs (58) or Commissioned Corps MOAs (254):

1. Advertise and recruit for direct federal employees. Replacement IPA positions may be filled with a current IPA already on board (such as by reassignment) or a new or replacement MOA. Process Reductions In Force (RIF). Provide counseling on RIF.

2. Maintain official personnel files (electronic and paper) and records for Civil Service employees.

3. Manage employee relations including performance management; employee benefit programs (retirement counseling and calculations, etc.); Worker's Compensation; incentive awards; ethics and conduct; suitability adjudications; Merit Systems Protection Board (MSPB) representation; third party representation; Employee Assistance Program; Family Medical Leave Act (FMLA) consultation; and Labor Relations.

4. Counsel Civil Service employees.

5. Administer performance management program for non-IPA/MOA Civil Service employees.

6. Director performs proposing federal official function in progressive disciplinary actions on federal IPA employees.

7. Process personnel actions for Civil Service employees.

8. Process payroll, including assisting timekeepers and assuring transmission of payroll for all Civil Service employees.

9. Correct pay and leave errors.

10. Manage federal classification system. Provide consultation on same.

11. Issue government Personal Identification Verification (PIV) Smart cards for Area Office employees and for those IPA/MOAs who need access to federal facilities or ITAS as Timekeepers or Leave Approving Officials. Proof of federal employment will be given to those IPA employees who do not receive a PIV Smart card.

12. Provide, on request, consultation on employee relation issues to Co-Signer.

13. Maintain database on IPAs and MOAs and provide to Co-Signer no less than quarterly.

14. Provide, on request, general consultation and support on Co-Signer personnel issues (travel outside Anchorage to provide requested on-site consultation will be at expense of Co-Signer).

15. Provide transportation services and relocation assistance for federal employees.

16. Coordinate arrangements for volunteer health provider services for Co-Signers.

17. Provide assistance in managing employee absences due to on the job injuries (worker's compensation) to minimize the impact on Co-Signers.

18. Initiatc and assure completion of suitability investigations as needed on federal employees and personal services contractors.

19. Implement Alaska Area responsibilities set forth in the IHS Succession Plan.

20. Implement Alaska Area responsibilities related to IHS Development of Human Capital Initiative.

F. COMMISSIONED CORPS PERSONNEL[4]

P/S/F/A	MAJOR FUNCTIONS	Buyback	Staffing (FTE)
Commissioned Corps Personnel	Orient and assist officers and their families to include: recruitment support, liaison between areas, TRICARE advice, wage verifications, grievances, leave programs, COERs and COSTEP. As necessary, Corps-specific personnel discipline advice to CEOs and HR staff of 638 awardees with MOA assignees and supervisors of MOAs.	B	2
	Total		2

Under the direction of the IHS Division of Commissioned Personnel Support, the Commissioned Corps Personnel component will provide the specific PSFAs defined below for the approximately 259 USPHS Commissioned Officers in the Alaska Area:

1. Provide general orientation to new Commissioned Officers.
2. Counsel Commissioned Officers; provide Corps-specific discipline advice to appropriate Co-Signer managers.
3. Maintain unofficial files and records for Commissioned Officers.
4. Process required federal personnel actions for Commissioned Officers including orders for deployment.
5. Assist and consult with officers and their supervisors.

G. OFFICE OF TRIBAL PROGRAMS

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional	Staffing (FTE)
Director	Management of Area Title V responsibilities for Self-Governance and Title I review, approval and technical assistance. Managing CHEF submissions, and fund distribution; clerical and secretarial support.	T	1
Health Care (Management) Consultation	Title V compacts/FAs (including amendments and database management of same), cooperative agreements, and grants; negotiate and administer CSC funds.	T	3
Health Care [5] (Management) Consultation	Negotiate, manage, and execute Title I contracts. Review audit findings and work with Tribal contractors to resolve as needed.	R	1
	Total		5

The Office will provide the specific PSFAs defined below:

1. Provide or facilitate technical assistance to Tribes which may or may not lead to the preparation of proposal(s) to assume PSFAs for Title I contracting, Title V compacting and Tribal Management grants for Tribes and Tribal organizations
2. Evaluate P.L. 93-638 proposal(s) to determine acceptance, declination or rejection; if

4 During FY 2005 this PSFA was centralized under the Division of Commissioned Personnel Support at IHS Headquarters. Effective FY 2006, it is funded by assessing the locations that use Commissioned Officers. See, also, Appendix A.

5 Formally P/S/F/A: Federal Contracting Title I awards, (1) Residual FTE moved from the Office of Acquisition and Property Management; to support Title I contracts and audit resolution.

the Title I proposal is accepted, serve as the contract designated federal official (project officer) for the award. In the case of declination or rejection, further technical assistance will be offered to overcome declination or rejection.

3. Analyze and negotiate Contract Support Costs (CSC) for start up and ongoing direct and indirect-type CSC requests, and the maintenance of CSC records in support of Area-wide CSC needs in accord with IHS policy. Currently records are maintained for 36 Alaska awardees. The office will continue to administer the CSC funds (Indian Self-Determination Fund start-up, direct and indirect administrative cost funds). Allocation plans and funding applications will be developed, maintained and negotiated on behalf of Tribes and Tribal organizations. The office will continue to develop and maintain the Alaska Area Tribal database for the CSC fund, which clearly documents, for IHS and Congress, Tribal shortfall and start-up needs.

4. Support and clearance of submissions of CHEF requests to the national CHEF pool, unless a lawful alternative methodology is developed enabling direct submission by Tribal health programs participating in the CHEF program. More specifically this includes education and technical assistance on the process for requesting reimbursement and the maintenance of records on submittals, reimbursements, cancellations and supplemental requests.

5. Prepare Title V FA amendments at the request of Co-Signer, upon notification of change in funding, or as negotiated.

6. Provide information to Tribes on any proposed changes to the CHS fiscal intermediary contract, and advocates for revisions requested by Tribes.

7. Negotiate, execute, and administer all P.L. 93-638 Title I contracts including close out and site reviews as requested or required.

8. Coordinate with IHS Headquarters, the National External Audit Review Office, and Tribal contractors to resolve audit findings for Title I contracts and Title V funding agreements.

Appendix D

FY 2008 Buyback/Withhold Agreement

Appendix D
Buyback/Withhold Agreement
between
the Indian Health Service
and
Eastern Aleutian Tribes

Section 1. Generally. Pursuant to Section 5.3 of the Funding Agreement between Certain Alaska Native Tribes Served by Eastern Aleutian Tribes (hereinafter "EAT") and the Secretary of the Department of Health and Human Services of the United States of America (hereinafter "Secretary"), EAT has determined that it wishes to carry out its responsibility to provide certain programs, activities, functions or services (e.g. salaries of IPA/MOA employees, and Village Built Clinics Program) included in its Funding Agreement utilizing services, personnel or other resources of the Federal Government, (hereinafter "services") under Article V, section 22 of the Compact, as permitted by law. These services may include some that are expected to be used throughout the year and some incidental services to be identified by EAT on an as needed basis, and provided by the Indian Health Service (hereinafter "IHS") when IHS has the capacity to do so. The cost of providing the purchased services to EAT shall be determined under section 2 below. EAT's purchase of services is contingent upon the availability of IHS resources to provide those services. In addition, services must be paid for in advance, in order to avoid violation of the Anti-Deficiency Act and are subject to full cost recovery in accord with 25 USC 458aaa-7(f) and 31 USC 9701.

Section 2. Determination of Cost.

2.1 Generally. EAT may acquire services from the IHS by either providing for full year withhold (with appropriate reconciliation) under terms agreed upon in this funding agreement, in which case the administrative surcharge provided for under section 2.2.4 shall not apply. In the alternative, EAT may acquire services by authorizing partial year withhold amounts, as provided for in section 2.2, in which case the payment schedule and administrative surcharge provided for in section 2.2.4 shall apply. Whether full or partial year withhold is authorized, the full costs of IPA/MOAs including those detailed in section 2.3, Determination of IPA/MOA Costs, shall be paid by EAT.

2.2 Conditions for Partial Year Withhold and Buyback.

2.2.1 IPA/MOA.

2.2.1.1 Advance withhold. The funds for IPA/MOA salary and other costs detailed in section 2.3, "Determination of IPA/MOA Costs," will be paid as a lump sum in accord with Section 5(a) of the Funding Agreement, except that an amount equal to three monthly payments based on the initial mutually agreed upon estimate of the annual IPA/MOA salary costs and related surcharges, as provided in section 2.2.4, will be withheld and retained by the Indian Health Service pending final disbursement for the last three months of the fiscal year as provided in section 3.2.2.2.

2.2.1.2 Late Payment Provision. Except as provided in section 3.4, failure to make payment in full by the Default Date will result in action by the IHS to RIF or redeploy federal employees assigned to EAT.

2.2.2 Village Built Clinics.

2.2.2.1 Advance Withhold. To ensure that sufficient funds are available to meet contract obligations, an amount equal to three monthly payments based on the initial mutually agreed upon estimate of the annual Village Built Clinic costs and related estimated surcharges, as provided in section 2.2.4, will be withheld and retained by the Indian Health Service pending final disbursement for the last three months of the fiscal year as provided in section 3.2.2.2.

2.2.2.2 Late Payment Provision. Except as provided in section 3.4, failure to make payment in full by the Default Date will result in action by the IHS to terminate the village based clinic leases.

2.2.3 Other Services.

2.2.3.1 Advance Withhold. An amount equal to one monthly payment based on the initial mutually agreed upon estimate of the annual cost of other services EAT proposes to purchase from the IHS and related estimated surcharges, as provided in section 2.2.4, will be withheld and retained by the Indian Health Service pending final disbursement for the last month of the fiscal year as provided in section 3.2.2.2.

2.2.3.2 Incidental Services. Nothing herein shall prevent EAT from negotiating to purchase incidental services from the IHS throughout the year, without regard to an advance withhold. Such incidental services may include medical record storage, costs associated with disposal of excess governmental property held by EAT and costs associated with acquiring excess property from the Department of Defense. Agreements for purchase of incidental services must specify the method and timing of payment by EAT.

2.2.3.3 Late Payment Provision. Except as provided in section 3.4, failure to make payment in full by the Default Date will result in action by the IHS to terminate the services for which payment has not been made.

2.2.4 Administrative Surcharge. An administrative surcharge in a percentage set forth in Section 5.3 of the Funding Agreement shall be imposed on the charges for the services delivered by the IHS to EAT under the partial year withhold and buyback provisions of section 2.2. This surcharge will not be imposed on purchases for which a full year's estimated withhold is authorized. The administrative surcharge will be estimated based on the estimated annual purchase price and will be accounted for and reconciled under section 3.3.2.

2.2.5 No Other Charges. Except as provided in this section 2.2, there shall be no additional overhead, user or administrative charges or assessments for providing services to EAT.

2.3 Determination of IPA/MOA Costs.

2.3.1 List of Costs. It is agreed by the parties that the entire cost of IPA/MOA assignments, including costs associated with the initiation, maintenance, and termination of the assignments are the responsibility of EAT. The IHS must be reimbursed for all such costs which include but are not limited to the following:

2.3.1.1 Permanent change of station costs including the cost of moving replacement IPAs from the lower forty-eight to Alaska and the cost of moving IPA employees who separate back to the lower forty-eight.

2.3.1.2 Recruitment, relocation and retention bonuses if such funds are necessary to attract or retain employees.

2.3.1.3 Severance pay for employees who are released by EAT and separated without cause.

2.3.1.4 Payment of turnaround leave travel expenses. All individuals who are eligible for these expenses shall be identified in the IPA negotiated between the parties. The IHS will retain liability for existing IPAs. EAT assumes the liability for new IPAs and upon renewal of an existing IPA.

2.3.1.5 Lump sum leave payments for employees who leave federal service. All leave accrued prior to the employee becoming employed by EAT shall be identified in the IPA/MOA negotiated between the parties. The liability for accrued leave on existing, renewing, and new IPA/MOAs shall be the responsibility of EAT.

2.3.1.6 Costs associated with settling or resolving employment related disputes, subject to the terms specified in section 2.3.2 below.

2.3.1.7 Centrally paid expenses, subject to the terms specified in section 2.3.3 below.

2.3.1.8 The cost of paying unemployment benefits assessed to the Area in FY 2002 and thereafter on behalf of an employee who was employed by EAT under an IPA immediately prior to voluntary or involuntary separation from IHS regardless of the year in which unemployment benefits were paid. The EAT is not responsible for unemployment costs that were assessed to the Area in Fiscal Years 2000 and 2001.

2.3.2 Costs Related to Employment Related Disputes.

2.3.2.1 Responsibilities of the IHS. The Indian Health Service shall be responsible for the payment of all costs of the IHS Office of Human Resources and any other section of the Indian Health Service, the Office of General Counsel, and the Department of Health and Human Services associated with the processing, settlement or other resolution of employment actions such as disciplinary actions, grievances, or appeals to the Merit System

Protection Board and/or the Equal Employment Opportunity Commission, and matters arising under the Federal Labor Relations Act or any other law permitting the employee to appeal from such actions initiated by Federal employees assigned to a Co-Signer under an IPA or MOA. The IHS may pay for or recover these costs as described under section 2.3.2.3, Sharing in Costs of IPA/MOA Employment Related Disputes, to the extent permitted under section 2.3.2.2.

2.3.2.2 Employee Disputes Costs Chargeable to Co-Signers. The IHS may pay for or recover costs associated with processing, settlement or other resolution of employment related disputes listed in paragraph 2.3.2.2.1 of this subsection under the following conditions:

2.3.2.2.1 Only costs associated with covered disputes that arose from conduct, performance or other circumstances alleged to have occurred during the course of an employee's assignment to a Co-Signer may be assessed under section 2.3.2.3.

2.3.2.2.2 Costs which may be assessed under section 2.3.2.3, Sharing in Costs of IPA/MOA Employment Related Disputes, may include, but are not limited to, awards of back pay, compensatory damages, attorney fees, travel costs necessary to investigate the case and represent the IHS at hearings or in other proceedings during the appeal process, costs of obtaining and preserving witness testimony, and other similar costs incurred as a result of the IHS defending itself in these matters.

2.3.2.2.3 No salary costs of IHS, Office of General Counsel or Department of Health and Human Service employees may be assessed or recovered under section 2.3.2.3. Nor may any other cost of these proceedings be charged if such costs have ordinarily been paid from funds identified by the IHS as residual or restricted at Headquarters or the Area Office.

2.3.2.3 Sharing in Costs of IPA/MOA Employment Related Disputes. All costs of the IHS related to IPA/MOAs for which Co-Signers are responsible under section 2.3, "Determination of IPA/MOA Costs," are the responsibility of the individual Co-Signer to whom the IPA/MOA is assigned, except as provided in this paragraph. EAT agrees to share with other Co-Signers the costs and risks described in the above section 2.3.2.2, "Employee Disputes Costs Chargeable to Co-Signers" by agreeing to accept a share of the cost not to exceed $75 per assigned IPA/MOA per separate employment action. The purposes of sharing these costs are to simultaneously ensure that IHS recovers the full costs associated with employment related disputes involving IPA/MOAs, minimize the financial risk for individual Co-Signers, and minimize the accounting and administration caused by certain categories of costs. The IHS may use funds assessed under this paragraph only as provided in section 2.3.2.2. The amount assessed each Co-Signer shall be a percentage calculated based on the number of IPAs and MOAs the Co-Signer has assigned to it. All costs assessed under this paragraph will be reconciled with each contributing Co-Signer, as provided under section 3.3, and a separate report will be provided to all ATHC Co-Signers.

2.3.3 Costs Related to IPA/MOA Centrally Paid Expenses. Certain costs associated with IPA and MOA employees are paid centrally by Headquarters from Area funds. These include costs detailed in columns 6, 7, and 8 of the spreadsheet entitled "Allocation of

Centrally Paid Expenses (Excluding FTS)," Corrected May 11, 1998, that was prepared by David Mather. These are costs associated with Commissioned Corps, Personnel and Payroll, and Balance of Human Resources. The Alaska Area Native Health Service may pay for or recover assessments from Headquarters to cover these identified costs by including in the monthly charge for each IPA or MOA the monthly cost to the IHS of such Centrally Paid Expenses. The cost charged EAT for each IPA/MOA may not exceed the average cost per federal employee actually paid by IHS. For purposes of calculating the initial withhold amount and estimated monthly payments, the estimated average cost per month for each IPA or MOA is shown in Appendix A of the Funding Agreement.

2.4 Limitation on Obligations and Notice.

2.4.1 Obligations. IHS shall within 30 days provide notice to EAT of the best available estimate of the costs that may be incurred under this Agreement of leases, contracts, salaries and related expenses and permanent change of station.

2.4.2 Content of Notices of Best Available Estimates and Costs. Notice of best available estimates under section 2.4.1 and full accounting of all costs due under section 3.3.1 shall include the amount, vendor and reason for obligation or expenditure, including the name of the employee, if any.

Section 3. Method of Payment.

3.1 Full Year Withhold. Payment for services being purchased from the IHS may be made by EAT authorizing a withhold of the full year's initial mutually agreed upon estimate of the annual cost of each category of services EAT proposes to purchase from the IHS. In such case, no monthly payments are due from EAT. Upon periodic reconciliation, provided for under section 3.3.1, excess withheld funds will be paid by the IHS to EAT and adjustments in the amount of withhold or payments needed to pay for all services EAT has purchased, or proposes to purchase, will be made to the IHS by EAT. *See* "Summary of Withhold/Buyback" page of Appendix A for calculation of the amount EAT hereby authorizes for full year withhold, if any.

3.2 Purchases through Buyback under section 2.2.

3.2.1 Calculations.

3.2.1.1 Of Initial Estimated Monthly Payment. The initial estimated monthly payment is determined by estimating the annual cost of services to be purchased from IHS, including the surcharge on all services under section 2.2.4, and dividing by 12. *See* "Summary of Withhold/Buyback" page of Appendix A for calculation of the amount of the initial estimated monthly payment.

3.2.1.2 Of Total Withhold Amount. A Co-Signer purchasing services through buyback authorizes withhold of an amount equal to the Advance Withhold under paragraphs 2.2.1.1, 2.2.2.1 and 2.2.3.1 of section 2.2 for each category of service being purchased, plus an amount equal to one month of the initial estimated monthly payment for each

category of service being purchased (to cover the estimate for services to be provided in October). *See* "Summary of Withhold/Buyback" page of Appendix A for calculation of the amount EAT hereby authorizes to be withheld.

3.2.2 Payment Schedule.

3.2.2.1 First Payment. The initial estimated monthly payment is due and payable on the first day of November or the first day of the month following payment to EAT of its lump sum payment, whichever is later, in which case the IHS shall reduce the lump sum payment by the authorized withhold plus the initial estimated monthly payments for each month preceding the first month for which a payment is due from EAT for which a payment was not withheld. (This provision is intended to address delays caused in making the lump sum payment to EAT due to Congress authorizing continuing resolutions or other delays in making lump sum payments to EAT.)

3.2.2.2 Subsequent Estimated Monthly Payments. Subsequent payments are due and payable on the first day of each month, until the final months of the year intended to be covered by the Advance Withhold amount applicable to the category of services, as set forth in section 2.2. (For example, the last three months of payments for IPA/MOAs would come from the Advance Withhold amount, while only the last one month of payment for Other Services would come from the Advance Withhold amount.)

3.2.2.3 Default Date. If a payment is not received by the 10th day of the month in which it is due (or the first working day thereafter if the 10th day falls on a week-end or Federal holiday), the IHS will implement the late payment provisions for each category of service as provided under paragraphs 2.2.1.2, 2.2.2.2, and 2.2.3.3. This date shall be referred to throughout this section as "Default Date."

3.3 Reconciliation and Adjustment.

3.3.1 For Categories of Service. Full accounting of all costs for each category of service, whether purchased through full year withhold or buyback, will be provided to EAT within 45 days of the end of each month. Reconciliation of payments made to IHS compared to actual costs for the first three quarters of the fiscal year will be provided quarterly within 45 days of the end of each quarter. Reconciliation of payments made to IHS compared to actual costs for the last quarter of the fiscal year will be provided within 60 days of the end of the last quarter. At the end of each of the first three quarters, the IHS and EAT will review the expenses for the preceding quarters. The monthly estimated payment due, or the full year withhold amount, for the balance of the fiscal year will be adjusted accordingly to account for any over or under collections in order to project a zero balance at the end of the fiscal year. Within 30 days after the final end-of-year reconciliation is provided to EAT, any over recovery by the IHS must be returned to EAT and within 30 days after the final end-of-year reconciliation is due any under recovery must be paid by EAT.

3.3.2 For Administrative Surcharge.

3.3.2.1 Use and Rebate. The administrative surcharge shall be

used exclusively for administration of the buyback provisions under this Buyback/Withholding Agreement. All income from the administrative surcharge will be accounted for separately and compared on an annual basis to the cost of administering buyback at the Area Office. This accounting and reconciliation shall be complete within 60 days of the end of the last day of the fiscal year. Any surplus in administrative surcharges shall be returned to the Co-Signers who participated in the buyback option on a pro rata basis depending on the amount of administrative surcharge paid.

3.3.3 Adjustment in Estimated Monthly Payment. In addition to adjustments in estimated payments that may occur under sections 3.3.1 and 3.3.2.1, the parties may at any time mutually agree, based on a change in circumstances, to change the estimated monthly payment due from EAT.

3.4 Use of Other Funds Due EAT to Avoid Default or Satisfy Obligations to IHS and other Remedies.

3.4.1 Avoiding Default. Default may be avoided to the extent funds are held by the IHS from other funds due to EAT, which may be withheld to satisfy the amount of the payment, which would otherwise be in default or to satisfy amounts due IHS after reconciliation of costs and payments when an amount is due to IHS.

3.4.2 Recoupment. Any amount due to the IHS by reason of EAT's failure to pay in full all amounts owing under the buyback provisions of the Funding Agreement for the immediately preceding fiscal year shall be recouped by the IHS from any funds due to EAT under this funding agreement.

3.4.3 Full Year Withhold as Penalty for Default. Notwithstanding any other provision of this Buyback/Withholding Agreement, the IHS may require "full year withhold" as permitted herein as a condition of permitting a Co-Signer who was in arrears at the end of the immediately preceding fiscal year to buyback services from the IHS under the terms of this Agreement.

Section 4. Dispute Resolution. The parties shall endeavor to resolve any disputes concerning amounts due by EAT under this Agreement in a manner agreeable to EAT and to the IHS. In the event of a failure to reach agreement on the resolution of any such dispute, EAT may, after providing written notice to the IHS, choose not to include the disputed amount in any subsequent payment due. Payment in such a manner shall not be considered as a resolution of the dispute. The parties shall thereafter attempt to resolve the dispute through Alternative Dispute Resolution following, as appropriate, the principles and processes set forth in Executive Order 12988 signed by President Clinton on February 5, 1996, and made effective as of May 5, 1996. EAT shall have the option of resolving the dispute in accordance with Article II, Section 10 of the Compact.

Section 5. Effective Date. This Buyback/Withholding Agreement shall become effective on October 1, 2007, and shall remain in effect pursuant to section 5.3 of the Funding Agreement.

FY 2023 Facilities List

Appendix E
Tribal Facilities and Locations

This non-exhaustive list of Tribal Facilities and Locations identifies the sites where EAT owns, leases, occupies, or otherwise uses real property to carry out its responsibilities under the Alaska Tribal Health Compact and its Funding Agreement. Each description of facilities and locations is intended to include surrounding and adjacent grounds.

Eastern Aleutian Tribes, Inc. operates the programs described in its Funding Agreement out of more than one facility or location. The following is a list that includes, but is not limited to its facilities in Adak, Akutan, Anchorage, Cold Bay, False Pass, King Cove, Nelson Lagoon, and Sand Point. The names and addresses are as follows:

Anesia Kudrin Memorial Clinic	113 Main Boardwalk	Akutan, AK 99553
Akutan EMS/Ambulance Hut	112 Main Boardwalk	Akutan, AK 99553
Adak Medical Clinic	2105 Main Street	Adak, AK 99546
Anchorage Admin Offices	3380 “C” Street, Suite 100	Anchorage, AK 99503
Anchorage Training & TeleMed	3380 “C” Street, Suite 210	Anchorage, AK 99503
Anna Livingston Memorial Clinic	10 Airport Road	Cold Bay, AK 99571
Anna Hoblet Memorial Clinic	49 Main Street	False Pass, AK 99583
King Cove Clinic	100 Slocum Drive	King Cove, AK 99612
Nelson Lagoon Clinic	40 Main Street	Nelson Lagoon, AK 99571
Sand Point Clinic	172 Red Cove Road	Sand Point, AK 99661

EAT leases provider housing units in Adak, Akutan, Cold Bay, False Pass, King Cove, Nelson Lagoon, and Sand Point.

Appendix F-4

Project Summary Document

IV-1.
Policy #4*.
Project Summary Document Formats

Project Summary Documents describe projects being submitted to the MIRAC for funding from the maintenance & improvement funds (both competitive BEMAR funds and non-routine non-competitive Oklahoma Formula funds). Supporting documents to the PSD typically entail 100% design drawings (for projects requesting construction funds), construction cost estimates, product literature (for equipment specific PSDs), and contractor proposals or cost estimates.

A cover letter accompanies submitted PSDs, which affirms the organization's desire to submit these projects to the MIRAC for consideration.

The sections of the PSD are listed below.

PROJECT SUMMARY DOCUMENT

[Name of Project]
[Facility Priority Number] (use for multiple PSD submittals to prioritize your projects)
[Date]
[Facilities Board Project Number]
[Facility Name]
[Location], [State]

I. SUMMARY

[Summarize the project and include what is to be done, why (e.g., to add 135 gross square meters of space or replace a boiler), and the type of funding (e.g., Maintenance and Improvement, Quarters, Corporate Cost Sharing, etc.). This section should be no more than two paragraphs. Use attachments for project location maps and facility drawings.]

II. PROJECT SCOPE AND DESCRIPTION

A. Description of Project. [Provide a detailed explanation of the work to be accomplished by the project and the desired outcome of the project. Include all items reflected in the cost estimate. This information can be presented in bullet/list or narrative form.]

B. Project Justification. [Explain why the project is necessary. Link the justification to the developed Health Facilities Master Plan if appropriate. Discuss how the project will meet program needs, and how it will comply with legal, code, accreditation, and certification

* Sections of this policy modified by DEHE Staff to reflect formation of the MIRAC and for clarification of non-competitive project submittals.

requirements. Cite specific, code or JCAHO references by standard clause, chapter, paragraph, etc.]

III. DEFICIENCIES

The following deficiencies will be corrected as part of this project:

[List and describe only those facility deficiencies this project will address. The types of deficiencies include BEMAR, JCAHO, NFPA, HFPM, Public Law compliance items, ADA, etc.]

IV. COST ESTIMATE

Provide a budgetary cost estimate and the funding sources for the proposed project, including separate line items for design Architect/Engineer fees, project construction, construction contract administration fees, and project contingency.

V. PROJECT SCORE SHEET DOCUMENT (*only required for BEMAR competitive pool funds*)

Complete a project score sheet further detailing the scope, impact and benefits of this project. Provide the information required by the project score sheet.

VI. OTHER PROJECT ITEMS TO BE ADDRESSED

Supporting Documents: Drawings, Photos, Estimates, Etc.

Appendix F-5

Environmental Information and Documentation

ENVIRONMENTAL INFORMATION AND DOCUMENTATION

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

Considerations	Basis for Determination (Documentation)
1. Will the proposed action result in a known violation or continuance of a violation of applicable (Federal, Tribal, State or local) laws or requirements for protection of environment or public health and safety?	Yes or No. Explanation.
2. Will the proposed action result in a conflict with existing or proposed federal, Tribal, state, and local land use plans?	Yes or No. Explanation.
3. Is there a controversy with respect to environmental effects of the proposed action based on reasonable and substantial issues?	Yes or No. Explanation.
4. Is the proposed action significantly greater in scope than normal for the area or does it have significant unusual characteristics?	Yes or No. Explanation.
5. Does the proposed action establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

6. Does the proposed action have significant adverse direct or indirect effects on park land, other public lands, or areas of recognized scenic or recreational value?	Yes or No. Explanation.
7. Does the proposed action include construction of a new municipal solid waste landfill at a new solid waste disposal site?	Yes or No. Explanation.
8. Will the proposed action create a need for additional capacity at solid waste disposal facilities?	Yes or No. Explanation.
9. Does the proposed action include construction of a new wastewater treatment facility that will discharge treated sewage effluent to the waters of the U.S.	Yes or No. Explanation.
10. Will the proposed action create a need for additional capacity at wastewater treatment facilities?	Yes or No. Explanation.
11. Will the proposed action create a need for additional capacity in the drinking water supply?	Yes or No. Explanation.
12. Are there other considerations about the proposed action that could adversely affect the environment and/or public health and safety?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

13. Will the proposed action create a need for additional capacity in health care facilities and for health care services?	Yes or No. Explanation.
14. Will the proposed action create a need for additional energy supply or generation?	Yes or No. Explanation.
15. Will the proposed action create a need for additional capacity in educational facilities?	Yes or No. Explanation.
16. Will the proposed action create a need for additional capacity in transportation systems?	Yes or No. Explanation.
17.Historic Preservation: a. Does the proposed action involve the purchase, construction, alteration, renovation, or lease of a building or portion of a building that is more that 50 years old?	Yes or No. Explanation.
b. Will the proposed action adversely affect properties listed, or eligible for listing, on the National Register of Historic Places?	Yes or No. Explanation. or No

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

18. Endangered Species Act: Is the proposed action likely to adversely affect a plant or animal species listed on the Federal or applicable state list of endangered or threatened species or a specific critical habitat of an endangered or threatened species?	Yes or No. Explanation.
19. Will the proposed action require major sedimentation and erosion control measures?	Yes or No. Explanation.
20. Will the proposed action violate a storm water permit or a wastewater discharge permit either for construction or on-going operations?	Yes or No. Explanation.
21. Safe Drinking Water Act: Will the proposed action impact an EPA designated sole source aquifer?	Yes or No. Explanation.
22. Wetlands and Water Resources (lakes, rivers, ponds, streams, etc.): Will the proposed action violate a Section 404 (Clean Water Act) permit for actions in a wetland and/or Section 10 (Rivers and Harbors Act) permit for actions in a stream or river?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

23. Floodplains: a. Is the proposed action located in either a 100-year or, for critical actions, a 500-year floodplain? (If Flood Insurance Rate Maps do not exist for the project site, a floodplain survey or consultation may be required. Also may need to consider if the facility will require flood insurance).	Yes or No. Explanation.
b. Will the proposed action adversely impact flood flows in a floodplain or support development in a floodplain?	Yes or No. Explanation.
24. Existing site: Would the proposed action involve the purchase, construction or lease of new facilities (including portable facilities and trailers), substantially increase the capacity of an existing health care facility?	Yes or No. Explanation.
25. New site: Does the proposed action involve purchase, construction, or lease of new facilities (including portable facilities and trailers) where such action is for buildings equal to or more than 12,000 square feet (1080 square meters) of useable space when more than 5 acres (2 hectares) of surface land area are involved at a new site?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

26. New site: Does the proposed action involve purchase, construction, or lease of health care facilities (other than buildings) for projects equal to or more than 5 acres (2 hectares) of surface land area at a new site?	Yes or No. Explanation.
27. Does the proposed action involve the sale or transfer of real property, on which any hazardous substance was stored for one year or more, known to have been released, or disposed of? (Provide relevant documentation for any hazardous substance releases. See 40 CFR 373.2(b), 302.4, and 261.30 for reportable quantities.)	Yes or No. Explanation.
28. Does the proposed action involve the sale or transfer of real property, on which underground or above ground storage tanks are located?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

29. Will the proposed action violate Tribal, local, state, or federal law on the use and storage of hazardous substances or the transportation, storage, and disposal of hazardous wastes or medical wastes? (Activities that may generate reportable quantities include air conditioning repair and service, pesticide application, motor pools, automobile repair, welding, landscaping, agricultural activities, print shops, hospitals, clinics, & medical centers. Repair, renovation, or demolition activities can generate waste that has asbestos-containing materials, asbestos, lead-based paint, PCBs, CFCs, etc.)	Yes or No. Explanation.
30. Will the proposed action adversely affect community air pollution for a long period of time?	Yes or No. Explanation.
31. If the proposed action is implemented, will it have a disproportionately high and adverse human health or environmental impact on the Tribe, low-income populations, or minority populations?	Yes or No. Explanation.
32. Will the proposed action adversely affect community noise levels?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

33. Wilderness Act: Will the proposed action adversely impact a Wilderness Area?	Yes or No. Explanation.
34. Farmland Protection Policy Act: Will the proposed action convert significant agricultural lands to non-agricultural uses and exceed 160-point score on the farmland impact rating?	Yes or No. Explanation.
35. Coastal Zone Management Act: Will the proposed action directly affect a Coastal Zone in a manner inconsistent with the State Coastal Zone Management Plan?	Yes or No. Explanation.
36. Wild and Scenic Rivers Act: Will the proposed action affect a wild, scenic, or recreational river area or create conditions inconsistent with the character of the river? (A consideration for activities that are in or near any wild and scenic waterway including construction of stream/river crossings, intake structures, outfalls, etc.)	Yes or No. Explanation.

I certify that to the best of my knowledge and ability the information presented above is true and correct. The record was examined to identify potential extraordinary or exceptional circumstances which would require further environmental review.

Appendix G

Actions Requiring IHS Environmental Review and Documentation

APPENDIX G – Actions Requiring IHS Environmental Review and Determination

For actions outlined in the below table, which are to be undertaken by Eastern Aleutian Tribes, Inc. (EAT), EAT shall submit a proposal package that includes a completed Project Summary Document (See Appendix F-4) and Environmental Information and Documentation Form (See Appendix F-5) to the IHS. Coordination time between EAT and the IHS to complete the Environmental Review and Determination process varies for each group of actions. The timing provided below indicates the expected timeline to complete the process for each group of actions. Early coordination in the planning phase of a project between EAT, IHS, and other stakeholders will help ensure environmental concerns are addressed in a timely manner and project delays are minimized so that IHS can complete its environmental responsibilities and issue a Determination Document as early as possible.

Action		Expected Timelines
Categorically excluded actions per Federal Register Vol. 58, No. 3, pg 571(I)(3), (I)(4), (I)(6), and (I)(7), dated January 6, 1993.		**The Environmental Review and Determination Process for this group of actions ranges from 45 to 90 days from the receipt by the IHS of the proposal package.***
[]	Pg 571 (I)(3): Building alteration or renovation that does not substantially change the function or general appearance of existing buildings.	
[]	Pg 571 (I)(4): Construction or lease of new facilities (including portable facilities and trailers) where such lease or construction: (a) is at the site of existing health care facility and the facility capacity is not substantially increased, (b) is for building of less than 12,000 square feet of useable space when less than five acres of surface land area are involved at a new site, or (c) is for projects other than buildings when less than five acres of surface land area are involved at a new site.	
[]	Pg 571 (I)(6): Acquisition of space by lease, use agreement, transfer, gift or similar arrangement for which: (a) the intended use of the space is consistent with the functional design of the building, and (b) the acquisition is consistent with an applicable master plan, if such plan exists.	
[]	Pg 571 (I)(7): The acquisition, sale, release, abandonment, closure or transfer of real property, provided the action: (a) is consistent with any applicable master plan, if such a plan exits, (b) conforms to local zoning and land use ordinances, if such ordinances exist, (c) is consistent with the functional design of the facility, (d) would not violate applicable Federal, State, or local environmental protection or historic preservation laws, and (e) satisfies the requirements of applicable comprehensive Environmental Response Compensation and Liability Act (CERCLA)section 120 (h) provisions.	
Any normally categorically excluded actions that may have Extraordinary or Exceptional Circumstances per Federal Register Vol. 58, No. 3, pg 571-72(K), dated January 6, 1993.		**The Environmental Review and Determination Process for this group of actions ranges from 60 to 180 days from the receipt by the IHS of the proposal package.**
[]	Pg 571 (K)(1): Those with potential to change the existing environment where such change violates directives or other controls that are imposed by any governmental body having jurisdiction, for the purpose of protecting or otherwise affecting that environment;	
[]	Pg 571 (K)(2): Those with potential or real threat of violation, or continued violation, of an applicable Federal, State, or local law or requirement imposed for protection of the environment or to ensure public health and safety;	
[]	Pg 571 (K)(3): Those likely to cause controversy with respect to the types or extent of the resulting environmental effects where such controversy is based on pertinent and substantial issues;	

[]	Pg 571 (K)(4): Those involving the use of technology where the possible effects are highly uncertain or involve unique or unknown risks and where such technology has not been assessed previously for environmental impact;
[]	Pg 571 (K)(5): Those which have adverse effects on unique geographic characteristics (e.g. historic, archeological, or cultural resources, park recreation or refuge lands, wilderness, areas, wild or scenic rivers, sole or principal drinking water aquifers, prime farmlands, wetlands, floodplains, coastal management zones, or ecological or critical areas including those listed on the Department of Interior National Register of National landmarks);
[]	Pg 571 (K)(6): Those which establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects;
[]	Pg 571 (K)(7): Those which have adverse effects on properties listed or eligible for listing on the National Register of Historic Places;
[]	Pg 571 (K)(8): Those which have adverse effects on species listed by the Federal Government as Endangered or Threatened Species, or which have adverse effects on any designated critical habitat for these species;
[]	Pg 571 (K)(9): Those which require assessment in accordance with Executive Order 11988 (Floodplain Management), or Executive Order 11990 (Protection of Wetlands), or the Fish and Wildlife Coordination Act; and
[]	Pg 572 (K)(10): Those which involve the use, transfer, or lease of real property which has been determined, after investigation in accordance with the provisions of CERCLA 120 (h), to have been used as a storage facility for hazardous waste for more than 1 year; and
[]	Pg 572 (K)(11): Construction projects which are significantly greater in scope or size than normally experienced for a particular category of action.

Any action NOT categorically excluded per Federal Register Vol. 58, No. 3, pg 569-572, dated January 6, 1993 attached hereto.	**The Environmental Review and Determination Process for this group of actions ranges from 60 to 180 days from the receipt by the IHS of the proposal package.**

* The time needed to complete Environmental Reviews is highly dependent on required consultations with other Federal and State Agencies. As an example, the NHPA Section 106 Process requires the State Historic Preservation Officer (SHPO) be allotted 30 days to review and comment on a proposed action (36 CFR Part 800.3(c)(4)). Furthermore, additional time beyond the 30 days may be required for consultation with SHPO to adequately review and determine the effects of the proposed action on existing historical resources. Coordination early in the planning phase of the project can help identify these potential issues and allow EAT and IHS to resolve them early.

Funding Agreement
between
Certain Alaska Native Tribes
Served by
CHUGACHMIUT
and
the Secretary of the Department of Health and Human Services
of the
United States of America
Fiscal Years 2018–2020

This Funding Agreement is entered into by and between certain Alaska Native Tribes served by Chugachmiut and the Secretary of the Department of Health and Human Services of the United States of America. These Tribes have authorized Chugachmiut to sign this Funding Agreement for them and to be responsible for and carry out the terms of this Funding Agreement.

Section 1 – Obligations of IHS.

1.1 Generally. Under the authority of Section 325 of P.L. 105-83 and P.L. 93-638 as amended, non-residual programs, services, functions, and activities (PSFAs) of the Alaska Area Office and the Alaska Native Medical Center (ANMC) have been transferred to tribal management.

Delivery of PSFAs shall be consistent with each Co-Signer's Funding Agreement. The Indian Health Service (IHS) shall remain responsible for performing all federal residual PSFAs. IHS shall remain responsible for negotiating assurances with the Alaska Native Tribal Health Consortium (ANTHC) and Southcentral Foundation (SCF) on behalf of Alaska Natives and American Indians to the effect that Co-Signers continue to receive non-residual PSFAs from ANMC and Area Office and provided by ANTHC and SCF at a minimum at the level that such PSFAs were provided by IHS as of October 1, 1997, to the extent permitted by Section 325 of P.L. 105-83. To the extent authorized by federal law, IHS will respond to written Co-Signer concerns about the extent with which such assurances have not been complied and take appropriate action. IHS shall further be responsible for performing its special trust responsibilities and legal obligations as provided in the Indian Health Care Improvement Act, the Indian Self-Determination and Education Assistance Act, as amended (the Act), and other applicable provisions of federal law.

This Funding Agreement obligates IHS to provide funding and services identified herein and as provided in the Alaska Tribal Health Compact (Compact) between Chugachmiut and certain other Co-Signers thereof and the United States in Fiscal Years 2018–2020.

In addition, although funds are provided from Headquarters and Area Office in support of this Compact, IHS will agree to continue to make available to Co-Signer PSFAs from both Area Office and Headquarters, unless 100 percent of the total tribal shares for these PSFAs have been specifically included in this Funding Agreement. In cases where a portion of tribal shares have been transferred, there may be some diminishment in the level of PSFAs provided by IHS. Furthermore, IHS will reorganize both Headquarters and Area Office to continue to provide the

remaining PSFAs, which have not been included in this Funding Agreement, in the most effective and efficient manner possible, provided that decisions about the array and level of services to be offered by IHS shall be made in consultation with Alaska Tribes.[1] IHS PSFAs not negotiated into or listed in Appendix A will be the responsibility of IHS. The "Memorandum of Agreement Describing the Continuing Services of IHS, Alaska Area Native Health Service" among the Co-Signers and the Alaska Area Native Health Service (AANHS) reflects the understanding of the parties regarding services to be provided by AANHS to Co-Signers. This document, attached as Appendix C, is hereby incorporated by reference.

Unless funds are specifically provided from Headquarters, Headquarters retains all PSFAs and Chugachmiut will not be denied access to, or services from, Headquarters. Specifically, Chugachmiut will receive the following services from IHS Headquarters:

1.1.1 Information Services. IHS will provide the full range of Office of Information Technology (OIT) national support to ANTHC and ANMC. OIT will provide specified services directly to Chugachmiut. In addition, OIT will provide support to ANTHC to assist it to carry out its responsibility to provide day-to-day technical support, user support, distribution of software and files, and other typical information technology support to Co-Signers, as defined in the Assurances Appendix to the ANTHC Funding Agreement. Upon request of ANTHC, after good faith efforts to resolve Chugachmiut's technical issue, OIT's support of Chugachmiut will include technical support needed on-site by Chugachmiut. A list of the services due under this paragraph, with identification of the method of delivery, is shown below.

Office of Information Technology Provides:	Directly to ANTHC	Directly to Co-Signer	Indirectly to Co-Signer through ANTHC
National Database Services			
100% Data Center Services	X		
Process Data Exports into National Database		X	
Evaluate, Correct, and eConvert Site Data for National Database		X	
Telecommunications Mgmt Services			
100% Telecommunications Mgmt Services	X		
Maintain IHS to Alaska Connection		X	
Email Transfer and Global Address Listing		X	
SMTP Gateway		X	
Intranet and Internet Access (to available bandwidth)		X	
Antivirus Software			X
Software Development and Maintenance			
100% Software Development and Maintenance	X		
Use of IHS Contract Vehicles		X	
RPMS Integrated Commercial-Off-The-Shelf Packages (Average Wholesale Prices, CPT, ICD-9, Immunization Algorithm) and Licenses. (This does not include licenses for stand-alone or interfaced commercial software.)			X

[1] All references to Appendix A and Appendix C in this Funding Agreement are to the Appendix for the applicable fiscal year.

Office of Information Technology Provides:	Directly to ANTHC	Directly to Co-Signer	Indirectly to Co-Signer through ANTHC
RPMS Package Support/Installation			X
System Support and Training			
100% System Support and Training	X		
Nationally Available OIT Training Instruction (as available)		X	
Alaska On-site Training Instruction (four annual classes)			X
Hardware and Operating System Support			X
Cache Upgrade (initial installations)			X
National Patient File (2000) Conversion			X
Envoy (WebMD) Installation			X
Additional Services - Fee for Service	X	X	X

1.1.2 Access to Training and Technical Assistance. To the extent funds are retained by IHS, Chugachmiut shall have access to training, continuing education, and technical assistance in the manner and to the same extent Chugachmiut would have received such services if it were not a Self-Governance Co-Signer.

1.1.3 Intellectual Property. In the course of administering federal contracts, grants, subgrants, and other agreements, IHS acquired various copyrights and licenses, including licenses pursuant to 45 CFR § 74.36 and 45 CFR § 92.34, in works which IHS possessed, reproduced, published, and otherwise used and allowed others to possess, reproduce, publish, and otherwise use. To carry out the PSFAs assumed by Chugachmiut under this and previous funding agreements and contracts, Chugachmiut has the delegated authority and permission from IHS to use and allow others to reproduce, publish, and otherwise make use of these works to the same extent as IHS, consistent with the copyrights or licenses acquired by IHS in such works.

1.1.4 HIPAA Compliance. IHS retains the responsibility for complying with the Health Insurance Portability and Accountability Act of 1996 (HIPAA) for retained IHS health care component activities.

1.2 Historical PSFAs. Chugachmiut has historically received certain PSFAs from ANMC and AANHS. Responsibility for these PSFAs has been transferred to ANTHC and SCF. For purposes of identifying those services provided by ANMC and AANHS prior to transfer of management to ANTHC and SCF, Chugachmiut attached to its FY 2000 Annual Funding Agreement Addendum 1 entitled "Memorialization of Historical Level of Programs, Services, Functions, and Activities Provided by Alaska Native Medical Center and Alaska Area Native Health Service." The PSFAs listed in this addendum are taken from Chugachmiut's FY 1999 Annual Funding Agreement. The addendum was attached to the FY 2000 Funding Agreement only for the purpose of identifying historical levels of PSFAs received by Chugachmiut from ANMC and AANHS and is specifically not made a part of this Funding Agreement.

1.3 Community Health Aide Program Certification. IHS retains the responsibility, pursuant to Section 119 of the Indian Health Care Improvement Act, as amended, to maintain the IHS Community Health Aide Program Certification Board (CHAPCB), which was established by

and is under the direct control and supervision of IHS, to accredit training for and to certify community health aides, which include Community Health Aides/Practitioners, Dental Health Aides, and Behavioral Health Aides/Practitioners, as those terms are defined and used in the CHAPCB Standards and Procedures.

1.4 Access to Federal Insurance. IHS will assist Chugachmiut to obtain information about the coverage, rights, and benefits available to its employees under chapters 87 and 89 of title 5, United States Code; the cost of such coverage, rights, and benefits (including any options in coverage, rights, and benefits that may be available); and the procedures by which Chugachmiut may exercise its rights under Section 409 of IHCIA, as amended, to have access to such federal insurance for its employees.

Section 2 – Obligations of the Co-Signer. This Funding Agreement obligates Chugachmiut to be responsible for and to provide health PSFAs, identified in Section 3 [Tribal Programs and Budget], utilizing the resources transferred under this Funding Agreement and other funds as they may become available to Chugachmiut. This Funding Agreement further authorizes Chugachmiut to consolidate and redesign PSFAs, as provided in the Act and the Compact. Chugachmiut may, at its discretion, provide PSFAs identified in Section 3 [Tribal Programs and Budget] to other Tribal health programs at the request and by resolution of the Tribe or tribal organization.

Section 3 – Tribal Programs and Budget. Chugachmiut agrees, subject to the availability of funding, to administer, provide, and be responsible for the health PSFAs identified below in accordance with the Compact and this Funding Agreement. For the purposes of this Funding Agreement, Chugachmiut's General Budget Categories consolidate related health PSFAs as described in this subsection. Services are provided within the Chugach Region of Alaska, except as described herein or as necessary to fully provide for the needs of persons served under this Funding Agreement. To the extent any Tribe, which authorizes Chugachmiut to enter into the Compact on its behalf, enters into a funding agreement with IHS under the Act, Chugachmiut will not be obligated to provide any program, service, function, or activity (or portion thereof) incorporated into such Contract or Funding Agreement, except that Chugachmiut, subject to the availability of resources, may provide services, including, but not limited to, community health aides oversight, to such a Tribe. All programs are provided under the direction of the Chugachmiut Board of Directors, which provides policy, administrative, and executive direction. Any PSFA described in this section 3 [Tribal Programs and Budget] may be performed by any organizational unit of Chugachmiut at Chugachmiut's direction. Chugachmiut may deliver health services in a variety of settings including, but not limited to, clinics, homes, schools, and other community settings. Chugachmiut's wide range of services are provided and facilitated directly, and in cooperation with other Co-Signers, including through field clinics, referral to ANMC, and other arrangements with Tribal health organizations.

3.1 Programs, Services, Functions, and Activities. Chugachmiut is committed to and strives to provide quality health services through advocacy, telemedicine, networking, and collaborative efforts and the maintenance of qualified staff, equipment, clinical sites, and medical provisions and will strive to meet standards Chugachmiut believes appropriate and applicable to the delivery of those health services. Informational, preventive, and educational services are disseminated through various mediums and include a variety of subjects to promote cultural pride, leadership, healthy lifestyles, and life management skills. Employees routinely travel to villages

and communities in the Chugach Region to make presentations to village and community groups and schools and to participate in village- and community-sponsored events.

3.1.1 Clinical and Ancillary Services. Subject to the availability of funding, Chugachmiut provides a full range of outpatient health care and ancillary services. Not all services are available at every health facility location, and services do not supplant services received through field physician services for patients seen at ANMC in Anchorage or services received through ANMC. These services include, but are not limited to:

3.1.1.1 Acute, chronic, therapeutic, and preventive services, including Early Periodic Screening Diagnosis and Treatment (EPSDT);

3.1.1.2 Diabetes prevention, education, and treatment;

3.1.1.3 Wellness and other primary and secondary prevention programs;

3.1.1.4 CLIA waived laboratory;

3.1.1.5 Patient referral, including social service referrals;

3.1.1.6 On-call, urgent care;

3.1.1.7 Case management for chronically ill, high risk cases, or other case as indicated;

3.1.1.8 Pharmacy;

3.1.1.9 Health promotion and education;

3.1.1.10 Basic and Advanced training of Community Health Aides/Practitioners;

3.1.1.11 Continuing Education of health providers;

3.1.1.12 Logistical, administrative, supervisory, and quality assurance services for its clinical sites and staff;

3.1.1.13 Billing functions;

3.1.1.14 Patient registration;

3.1.1.15 Planning and implementation of an Electronic Health Records system;

3.1.1.16 Limited home health or homemaker services;

3.1.1.17 Nutrition/dietetic education, food supplements, counseling, and other services for women, infants, children, and others who are at nutritional risk;

3.1.1.18 Behavioral Health Aides/Practitioners services under the Standards and Procedures of the CHAPCB;

3.1.1.19 Telemedicine, telehealth, telepharmacy, and telepsychiatry services; and

3.1.1.20 Patient travel, including escorts, in accordance with Section 213(a) of IHCIA, as amended, at 25 U.S.C. § 1621*l*.

3.1.2 Health Services Training. Chugachmiut provides health services training (including clinical preceptorships, mentoring, shadowing, training, and supervision of health care providers) by offering sites for medical residents and other individuals obtaining training in the health professions, including behavioral and dental professions.

3.1.3 Purchased/Referred Care. Purchase of health services not otherwise available or accessible to eligible beneficiaries in the Chugachmiut service area through a contractual or open-market basis. Program administration includes patient advocacy, monitoring

of patient care for appropriateness of services within established program guidelines, quality assurance activities, and use of cost-containment policies.

3.1.4 Maternal Child Health. Chugachmiut operates a rural Women's Health/Prenatal program for the Anchorage Service Unit as a component of the larger statewide Maternal and Child Health system. The components of services provided include prenatal tracking within the rural Anchorage Service Unit; field trips to Anchorage Service Unit villages; training, consultation, and support to CHA/Ps and licensed health care providers; MCH training and education to students; and clinical services at the ANMC Campus, all of which include direct patient services, risk assessment, counseling, and health education.

3.1.5 Regional Dental Services. Chugachmiut provides primary dental services, including through care provided by Dental Health Aide Therapists. These services do not supplant the historical levels of dental services received through field dental teams. All services delivered through this program are coordinated with existing field services for integration of care and completeness of patient records.

3.1.6 Community Health Aide Services. Chugachmiut's Community Health Aides/Practitioners, Behavioral Health Aides/Practitioners, and Dental Health Aide Therapists provide direct primary and emergency care services and administer a 24/7 behavioral health crisis hotline; Chugachmiut provides a system of support, supervision, orientation, quality assurance, continuing education, training, and administrative services for community health aides, behavioral health aides, and dental health aide therapists under the Standards and Procedures of the IHS Community Health Aide Program Certification Board (CHAPCB).

3.1.7 Community Wellness and Social Services. Subject to the availability of funding, Chugachmiut provides comprehensive community wellness programs which include, but are not limited to, the following services. Not all services are available at every health facility location.

3.1.7.1 Substance abuse intervention and prevention;
3.1.7.2 Client advocacy, crisis intervention, and short-term counseling;
3.1.7.3 Client case management services;
3.1.7.4 Training for various levels of EMS certification;
3.1.7.5 Coordination and planning for disaster response and emergency preparedness;
3.1.7.6 Individual and family behavioral health counseling and therapy services;
3.1.7.7 Direct Community Health Representative services and technical assistance to tribally-employed Community Health Representatives and Alcohol Counselors;
3.1.7.8 Technical assistance to tribal governments in the development, implementation, and management of tribally operated programs;
3.1.7.9 Work with tribal councils and their members regarding child protection issues;
3.1.7.10 Advise and guide regional Tribes and providers in individual child welfare cases;

3.1.7.11 Provide information and resources related to interpersonal violence;

3.1.7.12 Provide services for Tribes in the Chugachmiut region that assist children and families subject to legal proceedings, including child welfare services that respond to child physical abuse, sexual abuse, and neglect, and other conditions that place a child at physical or emotional risk; and foster care finding and advocacy, and supportive behavioral health and other services to improve the stability of placements;

3.1.7.13 Health promotion and education, including nutrition services; and fitness consultation, education, and services;

3.1.7.14 Youth development services designed to promote leadership skills, healthy lifestyles, and cultural pride, and to enhance self-confidence and self-esteem;

3.1.7.15 Child development and family services include, but are not limited to, health education, socialization, health screening, growth and nutritional assessment, individualized culturally-appropriate child development services, family services, and family involvement;

3.1.7.16 Respite services for family caregivers;

3.1.7.17 Tribal wellness programs promoting health and wellness through sobriety efforts (involving outreach, education, events, and cultural activities) and providing technical assistance and information on local options;

3.1.7.18 Provides injury prevention, including participation on the local first responder team; community education; substance abuse prevention efforts; and liaison with local, state, and federal agencies directed at preventing intentional and non-intentional injury and death; and

3.1.7.19 A full range of behavioral health services, including emergency services; support services for individuals with severe mental illnesses, emotional disturbances, or substance abuse problems; psychiatric referral services; and general mental health services.

3.1.8 Self-Governance. Subject to the availability of funding, Chugachmiut provides the following services:

3.1.8.1 Support for member tribal governments for village- and community-based services subject to memoranda of agreement;

3.1.8.2 Technical assistance and information to tribal governments in the development, implementation, and management of tribally operated programs; and

3.1.8.3 Development and management of budgets for all service programs, including Chugachmiut and tribal programs.

3.1.9 Public Health and Epidemiology. Directly and/or through ANTHC, including its Epidemiology Center,[2] Chugachmiut carries out public health, epidemiology, and health research functions. These activities include, but are not limited to, collecting and receiving personally identifiable health information for the purpose of:

3.1.9.1 Preventing or controlling disease, injury, or disability;

3.1.9.2 Reporting disease, injury, and vital events such as birth and death; and

---

[2] The ANTHC Epidemiology Center was previously operated by the Alaska Native Health Board.

3.1.9.3 The conduct of public health and epidemiological investigations, surveillance, and interventions, including the maintenance of disease and injury registries.

3.1.10 Environmental Health. Chugachmiut provides a number of services related to environmental health including, but not limited to, consultation to and facilitation of training for Tribal Councils regarding such matters as septic systems; landfills; hazardous materials disposal; safe drinking water; environmental training; and identification, evaluation, and control of biological, chemical, and physical factors in the environment that may have an adverse impact on health.

3.2 Administration. Chugachmiut provides direction, program and staff supervision, organizational and program planning, administrative support (including telemedicine and telecommunications), grant writing, legal consultation, and technical assistance in support of the PSFAs described in this Funding Agreement. Directors and designated staff represent Chugachmiut on a regional, state, and national level. Chugachmiut also provides tribal representation to ANHB, ANTHC, Anchorage Service Unit Tribal Health Council, and tribal caucus meetings, along with payment of dues and pro-rated consultation fees.

3.3 Other Programs/Services Funded. This Funding Agreement includes programs, functions, services, and activities resulting from tribal redesign or consolidation, reallocation, or redirection of funds, including its own funds or funds from other sources, provided that such redesign or consolidation, reallocation, or redirection of funds results in carrying out programs, functions, services, and activities that may be included in the Funding Agreement pursuant to section 505 of Title V and Article III, Section 6 [Consolidation with Other Programs] of the Compact. This includes any other new health care programs, including, but not limited to, those identified in IHCIA funded during the effective dates of this Funding Agreement.

3.4 Non-IHS Funding. Chugachmiut will complement and supplement the PSFAs described in Section 3 [Tribal Programs and Budget] with funding from sources other than IHS through this Funding Agreement, subject to the availability of such other funding sources. Consistent with Article III, Sections 5 [Reallocation], 6 [Consolidation with Other Programs], and 7 [Program Income] of the Compact, non-IHS funds will be added to or merged with funds provided by IHS through this Funding Agreement.

3.5 Federal Tort Claims Act. The Federal Tort Claims Act applies to Chugachmiut's PSFAs under this Funding Agreement, as provided in Section 516(a) of Title V (which incorporates Section 102(d) of Title I of the Act and Section 314 of P.L. 101-512) and Article V, Section 3 [Federal Tort Claims Act Coverage; Insurance] of the Compact. The extent of Federal Tort Claims Act coverage is described more particularly in 25 C.F.R. §§ 900.180-900.210.

3.6 Tribal Facilities and Locations. Chugachmiut operates the programs described in this Funding Agreement out of more than one facility or location. These include, but are not limited to, the facilities and locations listed in Appendix E, which will be submitted prior to the effective date of this Funding Agreement and will be incorporated by reference herein. The Area Division of Planning, Evaluation, and Health Statistics shall compile from this Appendix a list of all health facilities and locations identified in the Appendix and forward that list annually to the Headquarters' Office of Program Statistics, which shall include each of these facilities and

locations in the annual list it must provide to the Centers for Medicare and Medicaid Services (CMS) (formerly Health Care Financing Administration) pursuant to the Memorandum of Agreement between the Health Care Financing Administration and IHS (December 19, 1996).

3.7 Payer of Last Resort. Whether providing, purchasing, or authorizing health care services described in the Compact and this Funding Agreement, in accordance with Section 2901(b) of Pub. L. 111-148 [25 U.S.C. § 1623(b)], and as otherwise provided in law, Chugachmiut shall be the payer of last resort.

Section 4 – Amounts Available During the Term of the Funding Agreement

4.1 The following amounts shall be available to Chugachmiut in Fiscal Year 2018, pursuant to the Compact and Title V of the Act, and are subject to reductions only in accordance with Section 508(d) of Title V and Section 106 of Title I of the Act.[3]

	Annual Funding
Recurring Base: Inclusive of all recurring funding, including recurring contract support funds.[4]	$ 3,589,944
Non-Recurring Funding.[5]	$ 1,828,362
Subtotal: This is subject to further increases as reconciliation of previous Funding Agreements occurs.	$ 5,418,306
Area "Tribal" Share: Includes funding identified from Area Office and identified in Appendix A to this Funding Agreement.[6]	$ 181,455
Headquarters - Tribal Share: "Tribal Size Adjustment Pool," including all funds identified in Appendix A. The amount identified is exclusive of funds for which a distribution amount has not been determined. The final amount due shall be determined as set forth in this Funding Agreement or Appendix A.[7]	$ 128,902

[3] A breakout of these funds is shown in Appendix A, which cites the source document used to determine the amount. These amounts are subject to change under the Act and as provided in this Funding Agreement. For other fiscal years to which this Funding Agreement is applicable, the replacement Appendix A will be negotiated between IHS and Chugachmiut for the respective year and amended to this Funding Agreement and incorporated by reference, accordingly.

[4] A breakout of these funds is shown in Appendix A, incorporated by reference herein.

[5] These non-recurring funds are shown in Appendix A. Other non-recurring funds are not specifically identified in this Funding Agreement, but will be provided to Chugachmiut in the future to the same extent as they have historically been provided.

[6] Funds from Area were distributed according to methodologies agreed upon in a caucus open to all Alaska Tribes and tribal organizations. The specific methodologies are identified in Appendix A. In addition to the Funding amount, prior to the effective date of Section 325 of P.L. 105-83, Chugachmiut restricted Area tribal shares in an amount identified as "Subtotal Area TS Amount" in the "Chug Restricted" Column on Page 1 of Appendix A. *See also* Addendum 2, Item A, regarding these funds.

[7] Headquarters shares were allocated according to the following process, which was adopted in a caucus open to all Alaska Tribes and tribal organizations. The Alaska Area Tribal Share of Headquarters was first defined using the national IHS recommended methodology. The total Alaska Area Tribal Share was then reallocated to each Co-Signer according to the agreed upon Alaska Area methodology, which is identified specifically for each line in Appendix A. In addition to the Funding amount, Chugachmiut is entitled to additional Headquarters' tribal shares in

	Annual Funding
Headquarters - Tribal Share: "Program Formula Pool," including all funds identified in Appendix A and such additional funds which IHS may make available on a program formula basis during the year, based on the programs accepted for this allocation in Appendix A. The amount identified is exclusive of funds for which a distribution amount has not been determined. The final amount due shall be determined as set forth in this Funding Agreement or Appendix A.	$ 443
Subtotal - Tribal Shares[8]	$ 310,800
TOTAL COMPACT FUNDING[9]	**$ 5,729,106**

These amounts are subject to additions for reimbursements that will be added as received by IHS and new funds received during the term of this Funding Agreement, including amounts that have historically been distributed as non-recurring funds under Title I of the Act. We agree that any amounts remaining unspent under previous Funding Agreements, after adjustment and reconciliation of any withheld amounts as of the last day of the previous fiscal year, shall be included in this Funding Agreement.

Of the amount shown above for Headquarters Tribal Share "Program Formula," $0 is for Equipment Replacement; the Equipment Replacement amount paid as part of the lump sum due Chugachmiut was determined by multiplying the FY 2017 Equipment Replacement amount paid to Chugachmiut by 90%. The final Equipment amount paid in FY 2018 will be based on the final FY 2018 Equipment Replacement allocation. If the final Equipment Replacement amount, as determined by the final FY 2018 Equipment Replacement allocation, is less than the 90% calculation, Chugachmiut will return the difference to IHS. *See also* Appendix A, footnote to line 22 on page 6.

Of the amount shown above for non-recurring program funds, $0 is for Routine Maintenance and Improvement (M&I); the Routine M&I amount paid as part of the lump sum due Chugachmiut was determined by multiplying the FY 2017 Routine M&I amount paid to the Co-Signer by 90%. The final Routine M&I amount paid in FY 2018 will be based on the final FY 2018 Routine M&I allocation. If the final Routine M&I amount, as determined by the final FY 2018 Routine M&I Allocation, is less than the 90% calculation, Chugachmiut will return the difference to IHS. *See also* Appendix A, footnote to line 19 on page 6.

The Recurring Base amount shown above includes $77,490 that Chugachmiut received, recurring in FY 2006 for Congressionally-earmarked alcohol funds. Such funds are subject to

---

an amount identified as "Subtotal Headquarters TS amounts" in the "Chug Restricted" column on Page 1 of Appendix A.

[8] The subtotal of tribal shares does not include certain Headquarters' tribal shares for which the amount or availability has not been determined. This amount will be adjusted to make available all tribal shares for which Chugachmiut is eligible.

[9] For the reasons noted regarding the amount that make up this total, and because full funding amounts for the previous year's Funding Agreement have not been fully identified or reconciled as of the time this Funding Agreement is being executed, all amounts to be paid in the fiscal year for this Funding Agreement are estimates and are subject to amendment to reflect the full amount due for this fiscal year.

"Adjustments Due to Congressional Actions," as described herein in Section 6.1, as well as any conditions on those funds that may be described in the FY 2018–2020 Interior Appropriations Acts (Appropriations Act) or Congressional Reports. After the Appropriations Act is passed into law, such conditions, including Congressionally-directed reporting requirements, will be added by amendment not requiring Chugachmiut's signature as described in Section 12 [Amendment or Modification of this Funding Agreement].

The parties agree that Section 505(b)(2) of Title V provides, among other things, that grants administered by the Department of Health and Human Services through IHS may be added to Chugachmiut's Funding Agreement after award of such grants. Grant funds will be paid to Chugachmiut as a lump sum advance payment through the PMS grants payment system as soon as practicable after award of the grant. In accordance with this provision of Title V and its implementing regulations, the Secretary will add Chugachmiut's diabetes grants and any other statutorily mandated grant(s) administered by the Department through IHS to this Funding Agreement after such grant(s) have been awarded. Chugachmiut will use interest earned on such funds to enhance the purposes of the grant, including allowable administrative costs. Chugachmiut will comply with all terms and conditions of the grant award, including reporting requirements, and will not reallocate grant funds nor redesign the grant program, except as provided in the implementing regulations or the terms of the grant.

4.2 Contract Support Costs. Contract support costs (CSC) will be paid in accordance with 25 U.S.C. § 5325 and § 5388(c). The parties agree that, according to the best data available as of the date of execution of this agreement, the amount to be paid under the FY covered by this agreement, which represents the parties' estimate of the Tribe's full CSC requirement pursuant to 25 U.S.C. § 5325, is $2,029,525, including $216,600 for direct CSC and $1,812,925 for indirect or indirect-like CSC. This estimate shall be recalculated as necessary as additional data becomes available including information regarding the direct cost base, pass throughs and exclusions, and the indirect cost rates to reflect the full CSC required under 25 U.S.C. § 5325. The parties will cooperate in updating the relevant data to make any agreed upon adjustments. In the event the parties disagree on the CSC amounts estimated and paid pursuant to this paragraph and the Tribe's full CSC requirement under the ISDEAA, the parties may pursue any remedies available to them under the ISDEAA, the Compact, and the Contract Disputes Act, 41 U.S.C. § 7101 et seq.

4.3 Base Budgets.

4.3.1 Categories and Base Year. At the end of the first period of the base budget option, IHS and Co-Signers agreed to extend the three-year (FY 1998–FY 2000) base budgets implemented for the Compact for an additional two years (FY 2001–FY 2002). IHS and Chugachmiut have subsequently agreed to additional extensions through FY 2020. IHS and Co-Signers have agreed to further extend the base budget at Chugachmiut's option. The following categories are subject to base budgeting for the base year period and the extended period, as noted below:

Category of Funding	Base Period for Base Funding	Extended Through:
Headquarters TSA Amounts[10]	FY 1997	FY 2020
Equipment Replacement Funding	Not Included	n/a
Area Tribal Share	Not Included	n/a

4.3.2 Adjustments. Adjustments to base funding shall be permitted in direct proportion to changes in appropriated amounts (by sub-activity), as provided under Section 6.1 [Due to Congressional Actions]. Adjustments shall also be permitted for the addition of new Co-Signers to the Compact and when current Co-Signers add or retrocede PSFAs, as provided in Section 12.3 [Due to Addition of New Programs].[11] Adjustments also shall be permitted when Co-Signer(s) chooses to restrict or unrestrict previously "restricted" or "unrestricted" categories, provided that restrictions shall be changed only during annual negotiations. Chugachmiut also shall be eligible for funding for new services, service increases, mandatories, specific Congressional appropriation for population growth, health services priority system, contract support costs, and other increases in resources on the same basis as all other Tribes. Adjustments for changes required when a Tribe joins or withdraws from a tribal consortium shall also be permitted, as provided under Section 6.2 [Proposals by Authorizing Tribes]. Co-Signers shall also remain eligible for the distribution of additional tribal shares for Assessments, Worker's Compensation, Emergency Reserve, Management Initiatives, and other PSFAs from Headquarters.

Section 5 – Method of Payment.

5.1 Payment Schedule. Except as provided in subsections 5.2 [Availability of Tribal Shares], 5.3 [Buyback/Withhold], and 5.4 [Periodic Payments] of this section, all funds identified in Section 4 [Amounts Available During the Term of the Funding Agreement] of this Funding Agreement shall be paid to Chugachmiut in accordance with Article II, Section 4(a) [Payment Schedule] of the Compact; payment to Chugachmiut is to be made as follows:

> One annual payment in lump sum to be made annually in advance by check or wire transfer.

5.2 Availability of Tribal Shares. Chugachmiut will be paid 100 percent of Headquarters and Area Tribal Shares in its initial lump sum payment, as negotiated in this Funding Agreement.

5.3 Buyback/Withhold.[12] Chugachmiut may carry out its responsibility to provide certain PSFAs included in this Funding Agreement by using services or other resources of the federal government under Article V, Section 22 [Purchases from IHS] of the Compact, as permitted by law. Except as provided herein, the cost of such services and the terms under which they may be

---

[10] Compact base budgets for TSA amounts shall be considered as a whole (entire Compact amount) and shall be subject to adjustment of the internal allocation, subject to Compact agreements.

[11] This includes addition of new facilities when the addition of these facilities includes an increase in equipment funds identified for the new facilities.

[12] The amount authorized for withhold and assessments is identified in Appendix A.

made available to Chugachmiut are set forth in the Buyback/Withhold Agreement between IHS and Chugachmiut, which is attached as Appendix D to this Funding Agreement and incorporated by reference herein. The administrative surcharge provided for in Section 2.2.4 of the Buyback/Withhold Agreement for FY 2018 shall be 0.285 percent. Notwithstanding Section 5 of the Buyback/Withhold Agreement, upon the request of IHS or any Co-Signer, such Buyback Agreement will be negotiated for future fiscal years annually during negotiation of this Funding Agreement.

5.4 Periodic Payments. Payment of funds otherwise due to Chugachmiut under this Funding Agreement, which are added or identified after the initial payment is made, shall be made promptly upon request of Chugachmiut by check or wire transfer.

5.5 Utilization of IHS Recruitment Website.

5.5.1 Beginning in FY 2017, Chugachmiut agrees to retrocede 50% of its tribal shares for line item 124 to the Indian Health Service in exchange for Chugachmiut being able to fully access and utilize the recruitment website www.IHSjobs.gov.

5.5.2 Chugachmiut understands and agrees that access to and use of the website is conditioned upon the following:

5.5.2.1 Chugachmiut must meet the Information Technology (IT) security requirements for all users of the IHS IT systems before access to the system will be authorized.

5.5.2.2 A single point of contact for Chugachmiut will be responsible for posting health professions vacancies. Chugachmiut's human resources department or a specified designee will post health care professional jobs using IHSjobs.gov job announcement templates (health professions postings only).

5.5.2.3 Chugachmiut will need to assure the accuracy of its health care professional vacancy posts by reviewing postings at least quarterly and updating or removing outdated job postings.

5.5.2.4 This agreement is only for health care professional jobs postings on IHSjobs.gov and does not authorize posting on external job boards.

Section 6 – Adjustments.

6.1 Due to Congressional Actions. The parties to this Funding Agreement recognize that the total amount of the funding in this Funding Agreement is subject to adjustment due to Congressional action in appropriations Acts or other law affecting availability of funds to IHS and the Department of Health and Human Services. Upon enactment of any such Act or law, the amount of funding provided to Chugachmiut in this Funding Agreement shall be adjusted as necessary, after Chugachmiut has been notified of such pending action and subject to any rights which Chugachmiut may have under this Funding Agreement, the Compact, or the law.

6.2 Proposals by Authorizing Tribes. Should any authorizing Tribe assume responsibility for PSFAs (or a portion thereof) under a contract or Funding Agreement pursuant to the Act, adjustment to funding amounts under this Funding Agreement will be negotiated.

Section 7 – Records.

7.1 Incorporation of the Privacy Act. Pursuant to Section 506(d)(1) of Title V, records acquired, generated, or maintained by Chugachmiut shall not be treated as federal records under Chapter 5 of Title 5 of the United States Code, except that:

7.1.1 Patient medical records, financial records, and personnel records may be disclosed only in accordance with 5 U.S.C. Section 552a(b); and

7.1.2 Pursuant to Section 105(o) of Title I, the medical records generated by Chugachmiut shall, at the option of Chugachmiut, be stored with the National Archives and Records Administration, and Chugachmiut shall have access to such records.

7.2 Confidentiality Standards. Chugachmiut will seek to comply with the Administrative Simplification provisions of HIPAA, including, but not limited to, privacy, security, transactions, and code set regulations, codified at 45 C.F.R. Parts 160, 162, and 164. If a record is not subject to HIPAA, Chugachmiut will maintain the confidentiality of its records in accordance with policies and procedures adopted by its Governing Body, which will be consistent with the purposes and guidelines of HIPAA and the Federal Privacy Act of 1974.

Section 8 – Program Rules. Chugachmiut will make a best effort to carry out the health PSFAs in this Funding Agreement in compliance only with those program regulations, guidelines, and directives approved by the Chugachmiut Board of Directors, which will include the IHS CHAPCB *Standards and Procedures*.

Except as specifically set forth in this section, pursuant to Section 517(e) of Title V, Chugachmiut does not agree to be subject to any agency circular, policy, manual, guidance, or rule adopted by IHS, except for the eligibility provisions of Section 105(g) and the regulations promulgated under Section 517 of Title V, unless otherwise waived.

Section 9 - Real Property Reporting Requirements

9.1 Leases. IHS must report on its federally leased facilities. Chugachmiut agrees to notify AANHS of changes in occupancy, size, use, and general condition of Village Built Clinic (VBC) leased facilities in locations where Chugachmiut has bought back services from IHS. IHS will annually, or upon renegotiation, provide to Chugachmiut a copy of each VBC lease. No increase in the amount due to the lessor pursuant to a lease will be negotiated by IHS without advance notice to Chugachmiut. In administering these leases, IHS will work with Chugachmiut to ensure that each lease is in compliance with the standards referenced in the VBC lease.

9.2 Maintenance and Improvement Funds. Chugachmiut agrees to use maintenance and improvement funds received through this Funding Agreement in accordance with the appropriation language for Indian Health Facilities in the Department of Interior and Related

Agencies Appropriation Acts for fiscal years 2018, 2019, and 2020, or any comparable Act of Congress that contains the subject appropriation, and in accordance with 41 U.S.C. § 12, to the extent applicable.

9.3 Environmental and Cultural Resources. The National Environmental Policy Act (NEPA), National Historic Preservation Act (NHPA), and related provisions of law require IHS to review and approve actions resulting in the use or commitment of IHS funds or that affect IHS property, and which may significantly impact the environment or cultural resources. Unless Chugachmiut has assumed these responsibilities under a construction project agreement in accordance with Section 509 of Title V and 42 C.F.R. § 137.285-312, IHS must carry out these responsibilities and has elected to utilize Appendix G. Where Chugachmiut plans to undertake an action, as described in Appendix G, on IHS owned real property or utilizing IHS funds received through this Funding Agreement and Chugachmiut has not assumed these responsibilities, Chugachmiut will provide IHS with a Project Summary Document (see Appendix F-1) and a completed Environmental Information and Documentation Form (see Appendix F-2) so that IHS can accomplish these requirements, and issue a Determination Document (Categorical Exclusion (CATEX) or Finding of No Significant Impact (FONSI)), as soon as possible. All documentation shall be submitted to IHS as early as possible in the planning phase of the project to prevent delays in the action. No irreversible action can be taken by Chugachmiut until IHS completes its compliance responsibilities and so advises the Chugachmiut with a Determination Document). Pending resource availability, IHS is available for education and consultation on NEPA, NHPA, and related provisions of law on an as needed basis.

Section 10 – Retrocession and Discontinuance.

10.1 Retrocession. The retrocession provisions of Section 506(f) of the Act are herein adopted, except that the effective date of a retrocession request from the Compact and Funding Agreement, in whole or in part, shall be one year from the date of the request by an authorizing Tribe or Village, except as provided as follows: Retrocession may be effective with less than one year notice, providing the Tribe or Village requesting retrocession, Chugachmiut, and IHS agree to an effective date of less than one year from the date of the retrocession request.

10.2 Discontinuance. Chugachmiut may discontinue its participation in the Compact after written notice to each authorizing Tribe or Village and IHS. Notice must be provided one year in advance of the effective date of the request, except that the effective date of a request may be less than one year upon approval of all authorizing Tribes and Villages and IHS.

10.3 Withdrawal Procedures.

10.3.1 Process. Unless prohibited by law and in accordance with Section 506(g) of the Act, a Tribe or tribal organization may fully or partially withdraw from a participating tribal organization its share of any program, service, function, or activity (or portions thereof) included in the Compact or Funding Agreement, and such withdrawal shall become effective within the time frame specified in the resolution which authorized transfer to the participating tribal organization, provided that in the absence of a specific time frame being set forth in the resolution, such withdrawal shall become effective on—

10.3.1.1 The earlier of

10.3.1.1.1 One year from the date of submission of such request; or

10.3.1.1.2 The date on which the Funding Agreement expires; or

10.3.1.2 Such date as may be mutually agreed to by the Secretary, by the Indian Tribe or tribal organization that is withdrawing, and by the tribal organization that has signed the Compact and Funding Agreement on behalf of the withdrawing Indian Tribe or tribal organization.

Section 11 – Consolidation of Contracts and Previous Funding Agreements. The Contracts listed below and all previous Annual Funding Agreements and Funding Agreements shall be amended or terminated, as appropriate, to transfer applicable contract funds into this Funding Agreement for programs, services, functions, activities, materials, and facilities provided to the Tribes represented by Chugachmiut.

Title I, P.L. 93-638 Contract Number: 243-88-0002, as modified.

Section 12 – Amendment or Modification of this Funding Agreement.

12.1 Form of Amendments. Except as otherwise provided by this Funding Agreement, the Compact, or by law, any modification of this Funding Agreement shall be in the form of a written amendment and shall require written consent of each of the signatory Tribes, acting directly or through Chugachmiut as authorized by resolution, Chugachmiut, and the United States. Participation or written consent of Tribes and Co-Signers not subject to the terms of this Funding Agreement shall not be required.

12.2 Services from IHS. Should Chugachmiut determine that it wishes IHS to provide PSFAs included in this Funding Agreement for which funding has been identified but not provided, the parties shall negotiate an amendment to the Funding Agreement to reflect the transfer of responsibilities from Chugachmiut back to IHS, and the pro-rata share of funding for that program, service, function, or activity shall be retained by IHS. Unless otherwise negotiated, IHS will not transfer centrally paid expenses including, but not limited to, Worker's Compensation, to any Co-Signer.

12.3 Due to Addition of New Programs. Should Chugachmiut determine that it wishes to provide a program, activity, function, or service of IHS not included in this Funding Agreement, Chugachmiut shall submit a proposal to IHS to provide such program, service, function, or activity. The parties agree to negotiate such a proposal and, should the parties fail to reach agreement, Chugachmiut may submit a final offer in accordance with the Title V procedures set forth in Section 507(b)-(d) of Title V. A proposal submitted pursuant to this section shall be treated as a request for amendment to the Funding Agreement and, once approved by IHS at the Alaska Area Office, shall prepare within 30 days an amendment to this Funding Agreement, and the amendment shall be executed through the Area Office and added to this Funding Agreement.

12.4 Due to Availability of Additional Funding. Chugachmiut shall be eligible for any increases in funding or funding for Medicaid, Medicare, maintenance and improvement, other reimbursements, and new programs for which it would have been eligible had it been administering

programs under a self-determination contract, rather than under the Compact and this Funding Agreement, and for any other funds that are not restricted by appropriations language for which any Alaska Tribe or tribal organizations may be eligible, including any new funds appropriated for IHS Headquarters and funds passed to Alaska Area as recurring or non-recurring funds, and this Funding Agreement shall be amended to provide for timely payment of such new funds to Chugachmiut. Such amendment shall be originated and prepared within 30 days by the Alaska Area Office and executed through the Area Office in consultation with Chugachmiut.

12.5 Other Adjustments. Upon written authorization by Chugachmiut and agreed to by IHS, IHS may reallocate funds retained by IHS which are obligated to Chugachmiut for the purpose of reimbursing IHS for services or equipment provided to Chugachmiut to assist Chugachmiut in carrying out the terms of the Compact and this Funding Agreement.

12.6 General Procedures for Amending or Modifying this Funding Agreement. Amendments or modification proposed by Chugachmiut shall be submitted in writing to IHS, Office of Tribal Self-Governance, with a copy to the AANHS Director. Except as provided with respect to the incorporation of a provision of Title I of the Act under Article V, Section 21 [Applicability of Title I Provisions] of the Compact, or as provided above in paragraphs 12.4 [Due to Availability of Additional Funding] and 12.7 [Funding Increases] of this section, a request to amend or modify this Funding Agreement submitted by Chugachmiut shall be processed in accordance with Sections 507(b)-(d) of Title V of the Act, and all provisions of those identified sub-sections are incorporated herein for this purpose.

12.7 Funding Increases.

12.7.1 Written consent of Chugachmiut shall only be required for issuing amendments for those funds which:

12.7.1.1 Require a change to Section 3 – Tribal Programs and Budget;

12.7.1.2 Require a specific commitment by Chugachmiut (e.g., Maintenance & Improvement projects and prior fiscal year Sanitation Facility Construction projects); or

12.7.1.3 Reduce funding other than changes in Congressional appropriations pursuant to Section 6.1 [Due to Congressional Actions].

12.7.2 Amendments not requiring written consent may include, but are not limited to:

12.7.2.1 Program/Area/HQ Mandatories;

12.7.2.2 Program/Area/HQ End-of-Year Distributions;

12.7.2.3 CHEF, subject to the condition that if a case initially qualifying for reimbursement is paid (in whole or in part) by an alternate resource or cancels for any reason, Chugachmiut will return the unused amount to the IHS CHEF account;

12.7.2.4 CHS Deferred Services;

12.7.2.5 Routine Maintenance & Improvement; or

12.7.2.6 Collections and Reimbursements.

12.7.3 Amendments reflecting payment of these funds shall be provided to Chugachmiut after any such funds are added to the Funding Agreement. Chugachmiut retains the right to reject the addition of such funds to the Funding Agreement and return the funds to IHS.

Section 13 – Third-Party Recoveries. Any funds recovered by Chugachmiut through the filing, litigating, or settling of a claim against a third party to require that third party to pay for services previously provided to IHS-eligible beneficiaries by Chugachmiut, or for such services previously provided by IHS in a PSFA now operated by Chugachmiut, shall be the property of Chugachmiut and shall be considered program income to be utilized by Chugachmiut as provided in Article III, Section 7 [Program Income] of the Compact. Any prospective recovery of funds for such services shall likewise be considered program income to be utilized pursuant to Article III, Section 7 [Program Income] of the Compact.

Section 14 – Memorandum of Agreement with Member Villages.

14.1 Generally. Funds provided under this Funding Agreement may be allocated to and expended by an Alaska Native Village (Village) which is a party to this Funding Agreement, in accordance with the terms of the Compact, this Funding Agreement, and a Memorandum of Agreement (MOA) approved by Chugachmiut and the Village. The Federal Tort Claims Act shall apply to PSFAs carried out by the Village under such MOA and to the Village and its employees to the same extent as if they had been carried out directly by Chugachmiut. Such an MOA may include provisions for the assignment of federal employees under IPA assignment or Commissioned Corps detail. Such assignment shall be subject to the approval of the AANHS Director. Chugachmiut shall be responsible for assuring compliance by the Village with the Compact, this Funding Agreement, and the MOA.

Section 15 – Service to Non-Beneficiaries. Section 813 of the Indian Health Care Improvement Act, as amended, 25 U.S.C. 1680c (Section 813), authorizes the governing body of a Tribal Organization carrying out health services of IHS under the Indian Self-Determination and Education Assistance Act to determine whether health services should be provided under the Tribal Organization's Funding Agreement with IHS "to individuals who are not eligible for such health services under any other subsection of this section or under any other provision of law," 25 U.S.C. 1680c(b)(1)(B). The Chugachmiut Board of Directors has made such determination consistent with Section 813 and provides for its findings in Resolution No. 11-05. Resolution 11-05 is attached as Appendix H and incorporated by reference herein. Chugachmiut may provide services under this Funding Agreement to non-beneficiaries as described in Resolution No. 11-05. In addition, services may be provided to U.S. Public Health Service Commissioned Corps Officers and their dependents.

Section 16 – Memorializing Disputes. The parties to this Funding Agreement may have failed to reach agreement on certain matters which remain unresolved and in dispute. Such matters may be addressed through the process set forth in Sections 507(b)–(d) of Title V or, at Chugachmiut's option, may be set forth in an attachment to this Funding Agreement, which shall be identified as "Memorialization of Matters Remaining in Dispute." This attachment shall not be considered a part of this Funding Agreement but is attached for the purpose of recording matters in dispute for future reference, discussion, and resolution, as appropriate. Chugachmiut does not waive any

remedy Chugachmiut may have under the law with regard to these issues and any others not listed herein.

Section 17 – Severability.

This Funding Agreement shall not be considered invalid, void, or voidable if any section or provision of this Funding Agreement is found to be invalid, unlawful, or unenforceable by a court of competent jurisdiction. Should such a court make such a finding, the parties will seek agreement to amend, revise, or delete any such invalid, unlawful, or unenforceable section or provision, in accordance with the provisions of the Compact.

Section 18 – Title I Provisions Applicable to This Funding Agreement. As authorized in 25 U.S.C. § 5396(b), Chugachmiut exercises its option to include the following provisions of Title I of the Act as part of this Funding Agreement, and these provisions shall have the force and effect as if they were set out in full in Title V of the Act.

18.1. 25 U.S.C. § 5304(e) (definition of "Indian Tribe");
18.2. 25 U.S.C. § 5322(b) (related to grants for health facility construction and planning, training, and evaluation);
18.3. 25 U.S.C. § 5322(d)(1) (related to the duty of IHS to provide technical assistance);
18.4. 25 U.S.C. § 5324(a)(1) (exemption from federal procurement and other contracting laws and regulations);
18.5. 25 U.S.C. § 5328(b) (conflicting provisions of law);
18.6. 25 U.S.C. § 5329(c), section 1(b)(8)(F) (screener identification);
18.7. 25 U.S.C. § 5329(c), section 1(b)(9) (availability of funds);
18.8. 25 U.S.C. § 5329(c), section 1(d)(1)(B) (construction of contract);
18.9. 25 U.S.C. § 5329(c), section 1(d)(2) (good faith).

Section 19 – Effective Date and Duration. This Funding Agreement became effective on October 1, 2017, and will remain in effect through the 2020 Federal Fiscal Year or until a subsequent agreement is negotiated and becomes effective, pursuant to Article II, Section 12 [Subsequent Funding Agreements] of the Compact.

General Notes on Alaska Area Office Tribal Shares

Column 1 - Includes all FY17 changes allocated to TS, Residual, & Transitional as of FY17. In FY 2018 TS changes will be added as received.

Column 2 - Residual includes no changes in residual functions. Based on FY2018 Area approved residual budgets.
Remaining funds at 9/30 distributed (Non-Recurring) to all Alaska Area health programs based on recurring base.

Column 3 - Transitional funds agreed by co-signers to remain at Area Office. Based on FY2018 approved transitional budget.

Column 4 - Restricted by all co-signers & transferred to the ANTHC to provide "Area PSFAs" .

Column 5 - Includes Area TS for all Alaska Tribes, including Title I & Title V. FY18 mandatories to be added if received.

Column 6 - Available Tribal shares for Co-Signer (amounts for ANTHC include pass-through to awardees with shares captured by Sec. 325).
Distributed by the approved ATHC methodology of - 30% # of Tribes / 35% 2010 Census Pop. / 35% 2013 Rec. Base (less VBC).
All Area TS for Services line items will be recurring, Area TS for Facilities will be non recurring.

Column 7 - Items restricted by individual co-signer to pay for continued services from ANTHC. (Restricted amounts are added to ANTHC FA.)

Column 8 - The agreed upon amount due (col. 6 - col. 7) to the co-signer after all retained shares are withheld.

Line 1 - All TS funds for non-OEHE Area Office PSFAs except where co-signers have individually decided to retain certain PSFAs at the ANTHC or AANHS.

Line 5 - Lease on Inuit Building.

Line 5a - $20,000 (less sequester) from transitional funding held by IHS to rent space for annual negotiations. Funds transferred to ANTHC upon confirmation of spac

Line 7 - Centrally paid expenses, including personnel & finance support for Area positions, costs & funds for departmental assessments.

Line 8 - Area Human Resources functions (previously Office of Personnel & Training).

Line 9 - Funding originally from ANMC - have all been returned to SCF/ANTHC as IPA/MOAs were reduced.

Line 10 - Includes funding for Area PSFAs transferred to ANTHC under Section 325.

Line 11 - Funds to ANTHC to support the statewide Contract Health Services reserve program.

Line 12 - Funds to ANTHC to support specialized services in Barrow, NSHC, & BBAHC & certain statewide laboratory contracts.

Line 13 - ANHB funds from Loc 77 including previous tobacco prevention funding.

Line 14 - Supply Service Center individually withheld amounts retained for ANTHC for all co-signers except YKHC, Seldovia, & Eklutna.

Line 15 - Funds distributed to support the Epidemiology Center distributed to co-signers for individual payment to ANTHC.

Line 16 - Funds for EMS training. Retained by IHS for transfer to ANTHC for Maniilaq, BBAHC, & Chugachmiut for EMS training at ANMC.

Line 18 - Does not include funds from surcharge, assessments, or other services purchased through Area Office.

Line 22 - Funds retained for ANTHC for all co-signers except YKHC, SCF, & KIC.

Line 24 - Does not include NR SFC funds for Health Facilities design and construction oversight.

Appendix C

FY 2011 Continuing Services Agreement

MEMORANDUM OF AGREEMENT DESCRIBING THE CONTINUING SERVICES OF THE INDIAN HEALTH SERVICE, ALASKA AREA NATIVE HEALTH SERVICE TO CHUGACHMIUT FOR FY 2011

I. INTRODUCTION

This agreement provides for the continuation by the Indian Health Service (IHS) of certain services from the Alaska Area Office for the benefit of Chugachmiut under its Funding Agreement (FA) under the Alaska Tribal Health Compact (ATHC) Self-Governance Compact.

This agreement is limited to the programs, services, functions, and activities (PSFAs) performed by the residual and transitional federal staff of the Alaska Area Office.

This agreement should be interpreted in conjunction with Chugachmiut's FA and Appendix A to that FA, which may provide for additional detail on "restrictions" of funds at the Area or Headquarters level to ensure that specific services are continued to the individual Co-Signer.

In FY 2011, funding for these continuing services and activities will be from the funds, which have been designated as residual and from funds, which have been designated in support of temporary transitional federal PSFAs. In addition funding to purchase specific services, i.e., use of IPA/MOA assignees and Village Built Clinic leases, may be provided through reimbursement by Chugachmiut to the IHS.

II. DEFINITIONS

The following definitions are in common usage in the Alaska Area:

A. ATHC Tribal Restricted Share - Used in Alaska to refer to those retained Tribal shares all compacting Tribes jointly initially agreed to leave in the Area Office in support of Alaska Area state wide PSFAs. Pursuant to Section 325 of PL 105-83, these shares now are in the Alaska Native Tribal Health Consortium (ANTHC) FA or are used for transitional federal PSFAs.

B. Buyback - The process by which Co-Signers use cash to purchase Area services from the Area Office. Requires accurate description and pricing of service, and mechanism for Area to invoice and receive payment.

C. Co-Signer Restricted Shares - Used in Alaska to refer to "retained Tribal shares" that have been left at the Area Office or Headquarters on an individual basis by a Co-Signer to allow the Area, Headquarters or ANTHC to provide specific services to the Co-Signer. Pursuant to Section 325 of PL 105-83, these Area shares now are in the ANTHC FA or are used for transitional federal PSFAs.

D. Residual - The resources necessary to support the PSFAs required for the United

States Government to fulfill and maintain its moral and legal responsibilities based on treaties, statute, and Executive order that are essential for the federal government to fulfill its "inherent federal functions".

E. Transition Plan - Plan initially agreed to by the Alaska Tribes to allow a transition of less than 100% of the Area Office Tribal shares to the Co-Signers collectively. (This definition is included for historical purposes only.)

F. Tribal Share - That portion of Headquarters or Area resources not determined to be residual and allocated to individual Tribes or to Tribes collectively, via Tribal organizations, utilizing an agreed upon methodology.

G. Tribe - As used in this Agreement, "Tribe" refers to Tribes and Tribal organizations, as those terms are defined respectively in Sections 4(e) and (*l*) of P.L. 93-638, the Indian Self-Determination and Education Assistance Act, as amended (the Act).

III. AREA SERVICE DELIVERY AGREEMENT

Nothing in this agreement is intended by Chugachmiut or the IHS, nor shall be interpreted by any party, to limit or reduce in any way the PSFAs that any Tribe or Tribal organization is eligible to receive from the Area Office under Sec. 102 of Title I of the Act, under Sections 505 and 515(a) of Title V of the Act, or any other applicable federal law.

The table for each "Office" (or separate organizational component) presents the PSFAs currently performed and the staffing to perform the PSFAs. The residual PSFAs described in this Continuing Services Agreement serve all Co-Signers. The transitional personnel shown in this Agreement primarily support ANTHC PSFAs: however, some support other Co-Signers (e.g. IPA/MOA). PSFAs and the associated funds and personnel performing transitional PSFAs in support of the ANTHC (and Southcentral Foundation (SCF) for certain designated human resources PSFAs) under this Agreement may be transferred to the ANTHC or SCF under its FA.

A. OFFICE OF THE DIRECTOR

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional	Staffing (FTE)
Director	Provides overall executive direction and support on behalf of the Secretary.	R	1
Deputy Director, Chief Medical Officer	Provides public health advocacy; clinical consultation (CMO); legally required certification of health aide credentials and oversight of CHAP certification process; consultation in CHAP/Rural Health program management.	R	1
Executive Officer	Serves as principal advisor to the Director on overall management policies and procedures; serves as Financial Management Officer.	R	1
Attorney	Provides Region X attorney support and consultation.	R	1
EEO	Provides EEO support. 1		
Support Staff	Secretarial, clerical and administrative support to inherent and transitional federal functions at all levels of the Area Office.	R T	3 1
	Total		8

The Office will provide the specific PSFAs defined below:

1. Executive direction on behalf of the Secretary to the remaining inherently federal functions.
2. Advocacy at national level on behalf of the Tribes of Alaska including: legislative, policy, resource allocation, and appropriation advocacy.
3. Policy formulation and interpretation; supervision of non-IPA/MOA federal employees; negotiate, execute and administer compacts and FAs; resource allocation.
4. Public health coordination with Tribal, state and federal governments.
5. Provide legal advice and consultation on behalf of the Secretary.
6. Provides representation on the Executive Committee and Planning Committee of the Alaska Federal Health Care Partnership (AFHCP). Through the government-to-government relationship with Tribes and Tribal organizations, provides the mechanism for Tribal membership on the AFHCP (e.g., ANTHC and ANMC).
7. Eligibility determinations.
8. Equal Employment Opportunity program management in support of federal employment rights.
9. Oversight of certification of community health aides as outlined by law and the *IHS Community Health Aide Program Certification Board Standards and Procedures*.
10. Consultation and technical assistance to Tribes and Tribal organizations staff and programs including
    a. Onsite program review or evaluation at the request of the Area Director or the invitation of Tribal programs;
    b. Collect and publish program and epidemiological data and national guidelines to assist rural health programs to meet their stated objectives; and
    c. Communication between Tribal programs and IHS by seeking legal opinion from Region X attorney on issues which affect health care delivery by community health

1 The EEO function is provided under an intra-agency agreement among the IHS Alaska, California and Portland Area Offices.

aides such as standards of care, certification, Clinical Laboratory Improvement Act (CLIA) regulations, and Federal Tort Claim Act coverage.

11. Provide health program technical assistance and consultation on a limited basis as expertise and resources permit. This includes consultation on PSFA descriptions in Title I contracts, Title V FAs, specified grants and personal service and other contracts.

12. Support staff for the Director's Office and all other Area Office components without specific support staff.

13. Provide reimbursement to Headquarters for certain centrally paid expenses to include 100 percent of Department of Health and Human Services financial services and portions of other such expenses as reflected in the negotiated transitional budget for the ANTHC.

14. Performs the responsibilities identified in section 1 of the FA regarding ANTHC and SCF assurances.

15. Perform delegated functions to approve and administer FAs and amendments. The delegation includes the performance of Single Agency Audit, audit resolution for Title V awardees (Co-Signers); the function is provided using a multi-member Area-based team.

16. Provide overall management, supervision, consultation and surveillance of the Office of Financial Management.

17. Responsibility for the Area Internal Control/Management Control programs, IHS Succession Plan and the Strategic Human Capital initiative.

B. OFFICE OF ACQUISITION AND PROPERTY MANAGEMENT

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional	Staffing (FTE)
Federal Contracting Title I awards, Personal Property, and Prime Vendor program	Responsible for federal acquisitions to support the Alaska Area Office and Anchorage-based Centers for Disease Control and those required or elected in support of Tribally operated PSFAs. Responsible for the negotiation, award and administration of Title I, P.L.93-638 contracts. Maintains the federal personal property inventory. Manages the Pharmacy Prime Vendor program. Provides or coordinates certain administrative services for the Alaska Area office.	R	2
	Total		2

The Office will provide the specific PSFAs defined below:

1. Negotiate, award and administer federal acquisitions including, for example, support to Tribally managed facilities utilizing Personal Service Contracts for health care providers.

2. Maintains or develops Area agreements (Inter/Intra-Agency Agreements, Cooperative Agreements, Memoranda of Agreement) in close partnership with appropriate IHS or other federal, state or Tribal entity(s).

3. Negotiate, execute and administer all P.L. 93-638, Title I contracts including close out and site reviews as requested or required.

4. Coordinate records and documentation for Interagency and Cooperative Agreements, and DHHS and IHS delegations and directives.

5. Provides assistance to tribally managed facilities in acquiring excess federal property.

6. Maintain the federal property inventory process including excess and disposal.

7. Coordinate with IHS Headquarters, the National External Audit Review Office and Tribal contractors to resolve audit findings for Title I contracts and Title V funding agreements.

8. Manage the Pharmacy Prime Vendor Program for the Alaska Area including placing daily pharmacy orders and resolving discrepancies and problems in ordering, shipping and delivery.

9. Process Volunteer Agreements for health care professionals providing services to Tribally managed facilities.

10. Provide technical assistance to Tribally managed facilities on procurement issues.

11. Maintain the federal credit card program.

12. Privacy Act and HIPAA coordination; Freedom of Information Act coordination.

C. OFFICE OF ENVIRONMENTAL HEALTH & ENGINEERING

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional	Staffing (FTE)
Director	Management, supervision and secretarial support.	R	2
Sanitation Facilities	Maintenance of Sanitation Facilities Construction (SFC) data information systems for program allocations, National Environmental Policy Act (NEPA) approval, oversight of IHS funded SFC projects.	R T	1 1
Environmental Health	Environmental services associated with federal employees[2]/		
Health Facilities	Support, direction and general administrative support, maintenance of Maintenance & Improvement (M&I), Equipment and other data for program allocation.	R	1
Realty	Maintain government property inventory; manage VBC leases and inspect government housing	R	1
	Total		6

The Office will provide the specific PSFAs defined below:

1. Sanitation Facilities:

a. Allocation of federal funds under Title V of the Act utilizing subpart N Construction Project Agreements and P.L. 86-121 Project Funding Agreements for project funding.

b. Provide required IHS oversight, facilitation and management of contributed sanitation facility construction funding from other federal and state agencies (currently approximately $70 million).

c. Directly allocate IHS resources (currently approximately $17 million annually) using data provided by prescribed allocation formulas and justification rationales.

d. Evaluate and approve proposed projects, prepare budget summaries and justifications. Advocate statewide and nationally for the ANTHC Division of Environmental Health and Engineering (DEHE) program and facilitate its implementation.

e. Maintain project information and deficiency databases to justify congressional funding requests in support of distribution logic.

f. Verify project development, documentation, funding, construction and closeout. Approve project agreements, to include making the determination of National

2 The PSFA conducted under this function are performed by all Office staff and others in the Area Office.

Environmental Policy Act (NEPA) compliance based on information submitted by ANTHC DEHE.

g. Consult on and accept processes and priorities developed through the Sanitation Facilities Advisory Committee and SFC process in conformance with IHS national project eligibility criteria.

h. Onsite reviews of projects may be conducted annually to insure conformance with laws and regulations, e.g., NEPA and National Historic Preservation Act (NHPA) and to verify accuracy of data and programmatic assumptions.

i. Approve earmarked and emergency project funds dispersal.

2. **Environmental Health:** PSFAs include:

a. Overall direction of resources and related environmental surveillance for statewide public health impacts.

b. Continue to carry out functions related to serving as one of the health and medical representatives to the Alaska Federal Emergency Response Group.

c. Provide management and verification of Facilities Data System (FDS) data and Sanitation Deficiency System (SDS) health related information.

d. Provide safety assurance, compliance and reporting relating to federal workers, and professional programmatic support for staff.

e. In the event of a national disaster situation as defined in the Federal Response Plan, IHS is the lead agency for emergency response related to water and sewer damage assessment and mitigation.

3. **Health Facilities:** PSFAs include:

a. Perform budget allocation (about $10.9 million of Maintenance & Improvement funds, $2.4 million of equipment replacement funds, and $10.1 million Facilities Support Account funds);

b. Support and approve project or resource allocations derived through a priority system developed through the Maintenance & Improvement Resource Allocation Committee (MIRAC) and ANTHC process consistent with IHS national project eligibility criteria. Verify data submittals and manage IHS facilities databases in conformance with IHS national project and health facilities space eligibility criteria.

c. Respond to Congressional inquiries;

d. Review Project Justification Document/Program Of Requirements (PJD/POR) documents prepared by others;

e. Review and approve national priority systems applications, including Tribal Equipment Funds and Dental Facilities Funds;

f. Maintenance of Alaska portion of the Facilities Maintenance and Improvement/Equipment database for federally and Tribally owned health facilities;

g. Support for new health facility construction project funds distribution and project development;

h. Stewardship responsibility for oversight of environmental cleanup of federally owned real property;

i. Approve workload statistics;

j. Advocate statewide and nationally for the DEHE program and facilitates its implementation.

4. **Realty:** PSFAs include:

a. Monitors and manages real property assets in accordance with Executive Order 13327, "Federal Real Property Asset Management" and existing authority under law or by executive order for real property, capital improvements, square footage, use or disposal.

b. Maintains the IHS Real Property Inventory by updating the asset book values with costs relating to acquisition of real property, capital improvements, square footage, use or disposal.

c. Verify construction project closeout documentation for capital improvements made to federal facilities prior to adjusting the real property subsidiary ledger.

d. Performs annual review of real property.

e. Warranted Lease Contracting Officer authorized to lease Village Built Clinics (VBC) on behalf of the Community Health Aide Program (CHAP).

f. Provides guidance to clinic owners and Tribal organizations with community health aides operating VBC leased clinics.

g. Determines correct process for disposing of excess real property and manages project to end.

h. Develops and recommends IHS Policy formulation on real property, leases and quarters;

i. Provide management and verification of real property and lease data within the health care facilities database.

j. Provides direct guidance and assistance in federal acquisitions of land and/or buildings.

k. Calculates and distributes rental rates for government owned quarters.

l. Prepares for approval all easements, utility rights-of-way, rights-of-way during construction, revocable licenses, and use permits.

D. OFFICE OF FINANCIAL MANAGEMENT

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional Buyback	Staffing (FTE)
Tribal Accounting	Accounting advice; reconciliation; amendment and electronic payment assistance; monitors transactions in Buyback Account; and prepares Status of Buyback Statement with supporting documents.	R T	2 1
Budget	Budget projections and reports; fund control; Operating Resources Detail (formerly called Advice of Allowance)/Allocations.	R	1
Accounting	Verifies accuracy and appropriateness of transactions; expenditures; general ledger; travel; project accounts; certifies vouchers; prepares tax withholding; and provides disbursement services.	R B	2 2
	Total		8

Under the overall management, supervision, consultation and surveillance by the Area Executive Officer, the office will provide the specific PSFAs defined below:

1. All resource allocation activities conducted by the Area.
2. Management controls of funds under Area control; responds to and provides data for annual agency audit.
3. Research and prepare routine and special reports, prepare and reconcile Operating Resources Detail, and status reports for Area and Co-Signers. This includes providing Co-Signers with information necessary to manage the PSFAs they have assumed under their FAs and information necessary to negotiate those agreements.
4. Preparation and submittal of annual spending plan and budget/information to IHS for compacting and contracting Tribes and remaining AANHS/IHS activity.
5. Process financial documents for payment by U.S. Treasury, including payments related to continuing federal contracts in support of Tribally operated programs.
6. Process payroll for 576 federal (includes 234 IPA & 311 MOA) employees; maintain current position database for same; provide quarterly manpower reports to all Alaska locations using federal employees. Process and track all personnel actions.
7. Coordinate with Area OTP to allocate funding, initiate funding documents and assists Co-Signers and contractors to maintain accurate records of funding allocations, reconciliations and cash management issues.
8. Reconciliation, billing and amendment management related to contractor and compactor use of federal resources including but not limited to IPA/MOA employees and the Village Built Clinic lease program. Reconciliation includes transaction verification of buyback services with corrections and reports.
9. Support withhold and buyback management including payment for continuing government contracts for goods and services, permanent change of station moves, etc.
10. Monthly general ledger reconciliation including cash management related to Prompt Pay Act, Treasury, cash and others.
11. Process reimbursement requests including Beneficiary Medical Program (BMP), Interagency Payment and Collections (IPAC), quarters collections, CHEF and others. Make deposits and transfers of such reimbursements to Co-Signers no less often than monthly.

E. OFFICE OF HUMAN RESOURCES

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional	Staffing (FTE)
Civil Service Staffing, Classification & Employee/ Labor Relations	Advertise and recruit for federal, direct and IPA/MOA replacements; process personnel and pay actions; provide job information; maintain official records; rate applicants, appoint new employees, and provide HR consultation; Title 38 and Physician's Comparability Allowance, Market Pay & Locality Pay maintenance; process Reduction in Force and counseling; provides transportation services and relocation assistance for federal employees and consultation re: Tribal direct hires as requested; administers Workers' Compensation program; grievances, discipline/adverse actions; Merit Systems Protection Board, appeals and agency representation; performance management; retirements; payroll; benefits; outside activities; ethics program; suitability adjudication; manage Federal Employee Assistance program and Family Medical Leave and Family Friendly Acts consultation; conducts desk audits; applies Classification Standards and consultation. Initiate and assure completion of suitability investigations as needed on federal employees and personal services contractors.	R T	2 2
	Total		4

Under the direction of the IHS Western Region Human Resources Director, the Office of Human Resources will provide the specific PSFAs defined below for the current approximately 576 federal employees employed either directly or through Civil Service IPAs (234) or Commissioned Corps MOAs (311):

1. Advertise and recruit for direct federal employees and replacement IPA employees. Replacement IPA positions may be filled with an IPA or a new or replacement MOA. Process Reductions In Force (RIF). Provide counseling on RIF.
2. Maintain official personnel files (electronic and paper) and records for Civil Service employees.
3. Manage employee relations including performance management; employee benefit programs (retirement counseling and calculations, etc.); Worker's Compensation; incentive awards; ethics and conduct; suitability adjudications; Merit Systems Protection Board (MSPB) representation; third party representation; Employee Assistance Program; Family Medical Leave Act (FMLA) consultation; and Labor Relations.
4. Counsel Civil Service employees.
5. Administer performance management program for non-IPA/MOA Civil Service employees.
6. Director performs proposing federal official function in progressive disciplinary actions on federal IPA employees.
7. Process personnel actions for Civil Service employees.
8. Process payroll, including assisting timekeepers and assuring transmission of payroll for all Civil Service employees.
9. Correct pay and leave errors.
10. Manage federal classification system. Provide consultation on same.

11. Issue government ID cards or proof of federal employment.
12. Provide, on request, consultation on employee relation issues to Co-Signer.
13. Maintain database on IPAs and MOAs and provide to Co-Signer no less than quarterly.
14. Provide, on request, general consultation and support on Co-Signer personnel issues (travel outside Anchorage to provide requested on-site consultation will be at expense of Co-Signer).
15. Provide transportation services and relocation assistance for federal employees.
16. Coordinate arrangements for volunteer health provider services for Co-Signers.
17. Provide assistance in managing employee absences due to on the job injuries (worker's compensation) to minimize the impact on Co-Signers.
18. Initiate and assure completion of suitability investigations as needed on federal employees and personal services contractors.
19. Implement Alaska Area responsibilities set forth in the IHS Succession Plan.
20. Implement Alaska Area responsibilities related to IHS Development of Human Capital Initiative.

F. COMMISSIONED CORPS PERSONNEL[3/]

P/S/F/A	MAJOR FUNCTIONS	Buyback	Staffing (FTE)
Commissioned Corps Personnel	Orient and assist officers and their families to include: recruitment support, liaison between areas, TRICARE advice, wage verifications, grievances, leave programs, COERs and COSTEP. As necessary, Corps-specific personnel discipline advice to CEOs and HR staff of 638 awardees with MOA assignees and supervisors of MOAs. Federal supervisor function for purposes of clearance of required annual COERs for MOAs.	B	2
	Total		2

Under the direction of the IHS Division of Commissioned Personnel Support, the Commissioned Corps Personnel component will provide the specific PSFAs defined below for the current approximately 315 Commissioned Officers:

1. Provide general orientation to new Commissioned Officers.
2. Counsel Commissioned Officers; provide Corps-specific discipline advice to appropriate Co-Signer managers.
3. Maintain unofficial files and records for Commissioned Officers.
4. Perform supervisor functions for clearance of required annual Commissioned Officer Evaluation Reports.
5. Process required federal personnel actions for Commissioned Officers including orders for deployment.
6. Assist and consult with officers and their supervisors.

3 During FY 2005 this PSFA was centralized under the Division of Commissioned Personnel Support at IHS Headquarters. Effective FY 2006, it is funded by assessing the locations that use Commissioned Officers. See, also, Appendix A.

G. OFFICE OF PLANNING, EVALUATION AND HEALTH STATISTICS

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional	Staffing (FTE)
Planning, Evaluation & Statistics	Prepare statistical reports and publications in support of planning, evaluation and resource allocation requirements.	R	2
		Total	2

The Office will provide the specific PSFAs defined below:

1. Application of resource allocation methodologies and development of new ones as necessary.

2. Maintain current Area statistics to provide statistical analysis in support of resource needs and allocations.

a. Prepare Alaska active user populations.

b. Publish *Census Based Alaska Native Population Counts* to supplement and cross check the accuracy of the user populations.

c. Verify the permanent staff increase Resource Requirement Methodology Needs Assessment (RRMNA) prepared by Tribes to determine staff needed for new facilities.

d. Prepare resource allocation methodologies for the distribution of specially earmarked funds following national allocation guidelines, when available, and suggest alternate distribution methods to program directors.

e. Publish the Alaska Area Profile.

f. Publish the *Area Senior Executive Service Workplan* to support agency evaluation of the goals and accomplishments of the Area Office, its Director and Office Directors.

g. Act as a clearinghouse between Tribes and the IHS for the submission of research and evaluation proposals to fund health program evaluations, policy analysis and health services research projects.

h. In cooperation with the ANTHC's Division of Environmental Health and Engineering and Co-Signers, provide workload data, assist Co-Signers with preparation of applications; verify applications and planning documents prepared by Tribes (Health System Planning -HSP, PORs, and PJDs) for health facility expansion and replacement; and assist Co-Signers in the Headquarters' review process.

H. OFFICE OF TRIBAL PROGRAMS

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional	Staffing (FTE)
Director	Management of Area Title V responsibilities for Self-Governance and Title I review, approval and technical assistance. Managing CHEF submissions, and fund distribution; clerical and secretarial support.	T	1
Health Care (Management) Consultation	Technical support of P.L. 93-638 Title I contracts, Title V compacts/FAs (including amendments and database management of same), cooperative agreements, and grants; negotiate and administer CSC funds.	T	3
	Total		4

The Office will provide the specific PSFAs defined below:

1. Provide or facilitate technical assistance to Tribes which may or may not lead to the preparation of proposal(s) to assume PSFAs for Title I contracting, Title V compacting and Tribal Management grants for Tribes and Tribal organizations

2. Evaluate P.L. 93-638 proposal(s) to determine acceptance, declination or rejection; if the Title I proposal is accepted, serve as the contract designated federal official (project officer) for the award (currently 16 Title I contracts). In the case of declination or rejection, further technical assistance will be offered to overcome declination or rejection.

3. Analyze and negotiate Contract Support Costs (CSC) for start up and ongoing direct and indirect-type CSC requests, and the maintenance of CSC records in support of Area-wide CSC needs in accord with IHS policy. Currently records are maintained for 39 Alaska awardees. The office will continue to administer the CSC funds (Indian Self-Determination Fund start-up, direct and indirect administrative cost funds). Allocation plans and funding applications will be developed, maintained and negotiated on behalf of Tribes and Tribal organizations. The office will continue to develop and maintain the Alaska Area Tribal database for the CSC fund, which clearly documents, for IHS and Congress, Tribal shortfall and start-up needs.

4. Support and clearance of submissions of CHEF requests to the national CHEF pool, unless a lawful alternative methodology is developed enabling direct submission by Tribal health programs participating in the CHEF program. More specifically this includes education and technical assistance on the process for requesting reimbursement and the maintenance of records on submittals, reimbursements, cancellations and supplemental requests. In FY 2009, the Alaska Area received in excess of $3.77 million in CHEF reimbursements.

5. Prepare Title V FA amendments at the request of Co-Signer, upon notification of change in funding, or as negotiated.

6. Provide information to Tribes on any proposed changes to the CHS fiscal intermediary contract, and advocates for revisions requested by Tribes.

Department of Health and Human Services

By: _____
Director
Alaska Area Native Health Service, IHS

Date: 7/15/11

Chugachmiut
on Behalf of Itself and Certain Alaska Tribes,
Identified in Exhibit A to the Compact.

By: Patrick M. Anderson
Patrick M. Anderson
Executive Director

Date: 5/23/2011

Appendix D

FY 2008 Buyback/Withhold Agreement

Appendix D
Buyback/Withhold Agreement
between
the Indian Health Service
and
Chugachmiut

Section 1. Generally. Pursuant to Section 5.3 of the Funding Agreement between Certain Alaska Native Tribes Served by Chugachmiut (hereinafter "Chugachmiut") and the Secretary of the Department of Health and Human Services of the United States of America (hereinafter "Secretary"), Chugachmiut has determined that it wishes to carry out its responsibility to provide certain programs, activities, functions or services (e.g. salaries of IPA/MOA employees, and Village Built Clinics Program) included in its Funding Agreement utilizing services, personnel or other resources of the Federal Government, (hereinafter "services") under Article V, section 22 of the Compact, as permitted by law. These services may include some that are expected to be used throughout the year and some incidental services to be identified by Chugachmiut on an as needed basis, and provided by the Indian Health Service (hereinafter "IHS") when IHS has the capacity to do so. The cost of providing the purchased services to Chugachmiut shall be determined under section 2 below. Chugachmiut's purchase of services is contingent upon the availability of IHS resources to provide those services. In addition, services must be paid for in advance, in order to avoid violation of the Anti-Deficiency Act and are subject to full cost recovery in accord with 25 USC 458aaa-7(f) and 31 USC 9701.

Section 2. Determination of Cost.

2.1 Generally. Chugachmiut may acquire services from the IHS by either providing for full year withhold (with appropriate reconciliation) under terms agreed upon in this funding agreement, in which case the administrative surcharge provided for under section 2.2.4 shall not apply. In the alternative, Chugachmiut may acquire services by authorizing partial year withhold amounts, as provided for in section 2.2, in which case the payment schedule and administrative surcharge provided for in section 2.2.4 shall apply. Whether full or partial year withhold is authorized, the full costs of IPA/MOAs including those detailed in section 2.3, Determination of IPA/MOA Costs, shall be paid by Chugachmiut.

2.2 Conditions for Partial Year Withhold and Buyback.

2.2.1 IPA/MOA.

2.2.1.1 Advance withhold. The funds for IPA/MOA salary and other costs detailed in section 2.3, "Determination of IPA/MOA Costs," will be paid as a lump sum in accord with Section 5(a) of the Funding Agreement, except that an amount equal to three monthly payments based on the initial mutually agreed upon estimate of the annual IPA/MOA salary costs and related surcharges, as provided in section 2.2.4, will be withheld and retained by the Indian Health Service pending final disbursement for the last three months of the fiscal year as provided in section 3.2.2.2.

2.2.1.2 Late Payment Provision. Except as provided in section 3.4, failure to make payment in full by the Default Date will result in action by the IHS to RIF or redeploy federal employees assigned to Chugachmiut.

2.2.2 Village Built Clinics.

2.2.2.1 Advance Withhold. To ensure that sufficient funds are available to meet contract obligations, an amount equal to three monthly payments based on the initial mutually agreed upon estimate of the annual Village Built Clinic costs and related estimated surcharges, as provided in section 2.2.4, will be withheld and retained by the Indian Health Service pending final disbursement for the last three months of the fiscal year as provided in section 3.2.2.2.

2.2.2.2 Late Payment Provision. Except as provided in section 3.4, failure to make payment in full by the Default Date will result in action by the IHS to terminate the village based clinic leases.

2.2.3 Other Services.

2.2.3.1 Advance Withhold. An amount equal to one monthly payment based on the initial mutually agreed upon estimate of the annual cost of other services Chugachmiut proposes to purchase from the IHS and related estimated surcharges, as provided in section 2.2.4, will be withheld and retained by the Indian Health Service pending final disbursement for the last month of the fiscal year as provided in section 3.2.2.2.

2.2.3.2 Incidental Services. Nothing herein shall prevent Chugachmiut from negotiating to purchase incidental services from the IHS throughout the year, without regard to an advance withhold. Such incidental services may include medical record storage, costs associated with disposal of excess governmental property held by Chugachmiut and costs associated with acquiring excess property from the Department of Defense. Agreements for purchase of incidental services must specify the method and timing of payment by Chugachmiut.

2.2.3.3 Late Payment Provision. Except as provided in section 3.4, failure to make payment in full by the Default Date will result in action by the IHS to terminate the services for which payment has not been made.

2.2.4 Administrative Surcharge. An administrative surcharge in a percentage set forth in Section 5.3 of the Funding Agreement shall be imposed on the charges for the services delivered by the IHS to Chugachmiut under the partial year withhold and buyback provisions of section 2.2. This surcharge will not be imposed on purchases for which a full year's estimated withhold is authorized. The administrative surcharge will be estimated based on the estimated annual purchase price and will be accounted for and reconciled under section 3.3.2.

2.2.5 No Other Charges. Except as provided in this section 2.2, there

shall be no additional overhead, user or administrative charges or assessments for providing services to Chugachmiut.

2.3 Determination of IPA/MOA Costs.

2.3.1 List of Costs. It is agreed by the parties that the entire cost of IPA/MOA assignments, including costs associated with the initiation, maintenance, and termination of the assignments are the responsibility of Chugachmiut. The IHS must be reimbursed for all such costs which include but are not limited to the following:

2.3.1.1 Permanent change of station costs including the cost of moving replacement IPAs from the lower forty-eight to Alaska and the cost of moving IPA employees who separate back to the lower forty-eight.

2.3.1.2 Recruitment, relocation and retention bonuses if such funds are necessary to attract or retain employees.

2.3.1.3 Severance pay for employees who are released by Chugachmiut and separated without cause.

2.3.1.4 Payment of turnaround leave travel expenses. All individuals who are eligible for these expenses shall be identified in the IPA negotiated between the parties. The IHS will retain liability for existing IPAs. Chugachmiut assumes the liability for new IPAs and upon renewal of an existing IPA.

2.3.1.5 Lump sum leave payments for employees who leave federal service. All leave accrued prior to the employee becoming employed by Chugachmiut shall be identified in the IPA/MOA negotiated between the parties. The liability for accrued leave on existing, renewing, and new IPA/MOAs shall be the responsibility of Chugachmiut.

2.3.1.6 Costs associated with settling or resolving employment related disputes, subject to the terms specified in section 2.3.2 below.

2.3.1.7 Centrally paid expenses, subject to the terms specified in section 2.3.3 below.

2.3.1.8 The cost of paying unemployment benefits assessed to the Area in FY 2002 and thereafter on behalf of an employee who was employed by Chugachmiut under an IPA immediately prior to voluntary or involuntary separation from IHS regardless of the year in which unemployment benefits were paid. The Chugachmiut is not responsible for unemployment costs that were assessed to the Area in Fiscal Years 2000 and 2001.

2.3.2 Costs Related to Employment Related Disputes.

2.3.2.1 Responsibilities of the IHS. The Indian Health Service shall be responsible for the payment of all costs of the IHS Office of Human Resources and any other section of the Indian Health Service, the Office of General Counsel, and the Department of

Health and Human Services associated with the processing, settlement or other resolution of employment actions such as disciplinary actions, grievances, or appeals to the Merit System Protection Board and/or the Equal Employment Opportunity Commission, and matters arising under the Federal Labor Relations Act or any other law permitting the employee to appeal from such actions initiated by Federal employees assigned to a Co-Signer under an IPA or MOA. The IHS may pay for or recover these costs as described under section 2.3.2.3, Sharing in Costs of IPA/MOA Employment Related Disputes, to the extent permitted under section 2.3.2.2.

2.3.2.2 Employee Disputes Costs Chargeable to Co-Signers. The IHS may pay for or recover costs associated with processing, settlement or other resolution of employment related disputes listed in paragraph 2.3.2.2.1 of this subsection under the following conditions:

2.3.2.2.1 Only costs associated with covered disputes that arose from conduct, performance or other circumstances alleged to have occurred during the course of an employee's assignment to a Co-Signer may be assessed under section 2.3.2.3.

2.3.2.2.2 Costs which may be assessed under section 2.3.2.3, Sharing in Costs of IPA/MOA Employment Related Disputes, may include, but are not limited to, awards of back pay, compensatory damages, attorney fees, travel costs necessary to investigate the case and represent the IHS at hearings or in other proceedings during the appeal process, costs of obtaining and preserving witness testimony, and other similar costs incurred as a result of the IHS defending itself in these matters.

2.3.2.2.3 No salary costs of IHS, Office of General Counsel or Department of Health and Human Service employees may be assessed or recovered under section 2.3.2.3. Nor may any other cost of these proceedings be charged if such costs have ordinarily been paid from funds identified by the IHS as residual or restricted at Headquarters or the Area Office.

2.3.2.3 Sharing in Costs of IPA/MOA Employment Related Disputes. All costs of the IHS related to IPA/MOAs for which Co-Signers are responsible under section 2.3, "Determination of IPA/MOA Costs," are the responsibility of the individual Co-Signer to whom the IPA/MOA is assigned, except as provided in this paragraph. Chugachmiut agrees to share with other Co-Signers the costs and risks described in the above section 2.3.2.2, "Employee Disputes Costs Chargeable to Co-Signers" by agreeing to accept a share of the cost not to exceed $75 per assigned IPA/MOA per separate employment action. The purposes of sharing these costs are to simultaneously ensure that IHS recovers the full costs associated with employment related disputes involving IPA/MOAs, minimize the financial risk for individual Co-Signers, and minimize the accounting and administration caused by certain categories of costs. The IHS may use funds assessed under this paragraph only as provided in section 2.3.2.2.

The amount assessed each Co-Signer shall be a percentage calculated based on the number of IPAs and MOAs the Co-Signer has assigned to it. All costs assessed under this paragraph will be reconciled with each contributing Co-Signer, as provided under section 3.3, and a separate report will be provided to all ATHC Co-Signers.

2.3.3 Costs Related to IPA/MOA Centrally Paid Expenses. Certain costs

associated with IPA and MOA employees are paid centrally by Headquarters from Area funds. These include costs detailed in columns 6, 7, and 8 of the spreadsheet entitled "Allocation of Centrally Paid Expenses (Excluding FTS)," Corrected May 11, 1998, that was prepared by David Mather. These are costs associated with Commissioned Corps, Personnel and Payroll, and Balance of Human Resources. The Alaska Area Native Health Service may pay for or recover assessments from Headquarters to cover these identified costs by including in the monthly charge for each IPA or MOA the monthly cost to the IHS of such Centrally Paid Expenses. The cost charged Chugachmiut for each IPA/MOA may not exceed the average cost per federal employee actually paid by IHS. For purposes of calculating the initial withhold amount and estimated monthly payments, the estimated average cost per month for each IPA or MOA is shown in Appendix A of the Funding Agreement.

2.4 Limitation on Obligations and Notice.

2.4.1 Obligations. IHS shall within 30 days provide notice to Chugachmiut of the best available estimate of the costs that may be incurred under this Agreement of leases, contracts, salaries and related expenses and permanent change of station.

2.4.2 Content of Notices of Best Available Estimates and Costs. Notice of best available estimates under section 2.4.1 and full accounting of all costs due under section 3.3.1 shall include the amount, vendor and reason for obligation or expenditure, including the name of the employee, if any.

Section 3. Method of Payment.

3.1 Full Year Withhold. Payment for services being purchased from the IHS may be made by Chugachmiut authorizing a withhold of the full year's initial mutually agreed upon estimate of the annual cost of each category of services Chugachmiut proposes to purchase from the IHS. In such case, no monthly payments are due from Chugachmiut. Upon periodic reconciliation, provided for under section 3.3.1, excess withheld funds will be paid by the IHS to Chugachmiut and adjustments in the amount of withhold or payments needed to pay for all services Chugachmiut has purchased, or proposes to purchase, will be made to the IHS by Chugachmiut. *See* "Summary of Withhold/Buyback" page of Appendix A for calculation of the amount Chugachmiut hereby authorizes for full year withhold, if any.

3.2 Purchases through Buyback under section 2.2.

3.2.1 Calculations.

3.2.1.1 Of Initial Estimated Monthly Payment. The initial estimated monthly payment is determined by estimating the annual cost of services to be purchased from IHS, including the surcharge on all services under section 2.2.4, and dividing by 12. *See* "Summary of Withhold/Buyback" page of Appendix A for calculation of the amount of the initial estimated monthly payment.

3.2.1.2 Of Total Withhold Amount. A Co-Signer purchasing services through buyback authorizes withhold of an amount equal to the Advance Withhold

under paragraphs 2.2.1.1, 2.2.2.1 and 2.2.3.1 of section 2.2 for each category of service being purchased, plus an amount equal to one month of the initial estimated monthly payment for each category of service being purchased (to cover the estimate for services to be provided in October). *See* "Summary of Withhold/Buyback" page of Appendix A for calculation of the amount Chugachmiut hereby authorizes to be withheld.

3.2.2 Payment Schedule.

3.2.2.1 First Payment. The initial estimated monthly payment is due and payable on the first day of November or the first day of the month following payment to Chugachmiut of its lump sum payment, whichever is later, in which case the IHS shall reduce the lump sum payment by the authorized withhold plus the initial estimated monthly payments for each month preceding the first month for which a payment is due from Chugachmiut for which a payment was not withheld. (This provision is intended to address delays caused in making the lump sum payment to Chugachmiut due to Congress authorizing continuing resolutions or other delays in making lump sum payments to Chugachmiut.)

3.2.2.2 Subsequent Estimated Monthly Payments. Subsequent payments are due and payable on the first day of each month, until the final months of the year intended to be covered by the Advance Withhold amount applicable to the category of services, as set forth in section 2.2. (For example, the last three months of payments for IPA/MOAs would come from the Advance Withhold amount, while only the last one month of payment for Other Services would come from the Advance Withhold amount.)

3.2.2.3 Default Date. If a payment is not received by the 10th day of the month in which it is due (or the first working day thereafter if the 10th day falls on a week-end or Federal holiday), the IHS will implement the late payment provisions for each category of service as provided under paragraphs 2.2.1.2, 2.2.2.2, and 2.2.3.3. This date shall be referred to throughout this section as "Default Date."

3.3 Reconciliation and Adjustment.

3.3.1 For Categories of Service. Full accounting of all costs for each category of service, whether purchased through full year withhold or buyback, will be provided to Chugachmiut within 45 days of the end of each month. Reconciliation of payments made to IHS compared to actual costs for the first three quarters of the fiscal year will be provided quarterly within 45 days of the end of each quarter. Reconciliation of payments made to IHS compared to actual costs for the last quarter of the fiscal year will be provided within 60 days of the end of the last quarter. At the end of each of the first three quarters, the IHS and Chugachmiut will review the expenses for the preceding quarters. The monthly estimated payment due, or the full year withhold amount, for the balance of the fiscal year will be adjusted accordingly to account for any over or under collections in order to project a zero balance at the end of the fiscal year. Within 30 days after the final end-of-year reconciliation is provided to Chugachmiut, any over recovery by the IHS must be returned to Chugachmiut and within 30 days after the final end-of-year reconciliation is due any under recovery must be paid by Chugachmiut.

3.3.2 For Administrative Surcharge.

3.3.2.1 Use and Rebate. The administrative surcharge shall be used exclusively for administration of the buyback provisions under this Buyback/Withholding Agreement. All income from the administrative surcharge will be accounted for separately and compared on an annual basis to the cost of administering buyback at the Area Office. This accounting and reconciliation shall be complete within 60 days of the end of the last day of the fiscal year. Any surplus in administrative surcharges shall be returned to the Co-Signers who participated in the buyback option on a pro rata basis depending on the amount of administrative surcharge paid.

3.3.3 Adjustment in Estimated Monthly Payment. In addition to adjustments in estimated payments that may occur under sections 3.3.1 and 3.3.2.1, the parties may at any time mutually agree, based on a change in circumstances, to change the estimated monthly payment due from Chugachmiut.

3.4 Use of Other Funds Due Chugachmiut to Avoid Default or Satisfy Obligations to IHS and other Remedies.

3.4.1 Avoiding Default. Default may be avoided to the extent funds are held by the IHS from other funds due to Chugachmiut, which may be withheld to satisfy the amount of the payment, which would otherwise be in default or to satisfy amounts due IHS after reconciliation of costs and payments when an amount is due to IHS.

3.4.2 Recoupment. Any amount due to the IHS by reason of Chugachmiut's failure to pay in full all amounts owing under the buyback provisions of the Funding Agreement for the immediately preceding fiscal year shall be recouped by the IHS from any funds due to Chugachmiut under this funding agreement.

3.4.3 Full Year Withhold as Penalty for Default. Notwithstanding any other provision of this Buyback/Withholding Agreement, the IHS may require "full year withhold" as permitted herein as a condition of permitting a Co-Signer who was in arrears at the end of the immediately preceding fiscal year to buyback services from the IHS under the terms of this Agreement.

Section 4. Dispute Resolution. The parties shall endeavor to resolve any disputes concerning amounts due by Chugachmiut under this Agreement in a manner agreeable to Chugachmiut and to the IHS. In the event of a failure to reach agreement on the resolution of any such dispute, Chugachmiut may, after providing written notice to the IHS, choose not to include the disputed amount in any subsequent payment due. Payment in such a manner shall not be considered as a resolution of the dispute. The parties shall thereafter attempt to resolve the dispute through Alternative Dispute Resolution following, as appropriate, the principles and processes set forth in Executive Order 12988 signed by President Clinton on February 5, 1996, and made effective as of May 5, 1996. Chugachmiut shall have the option of resolving the dispute in accordance with Article II, Section 10 of the Compact.

Section 5. Effective Date. This Buyback/Withholding Agreement shall become

effective on October 1, 2007, and shall remain in effect pursuant to section 5.3 of the Funding Agreement.

Project Summary Document

IV-1.
Policy #4*.
Project Summary Document Formats

Project Summary Documents describe projects being submitted to the MIRAC for funding from the maintenance & improvement funds (both competitive BEMAR funds and non-routine non-competitive Oklahoma Formula funds). Supporting documents to the PSD typically entail 100% design drawings (for projects requesting construction funds), construction cost estimates, product literature (for equipment specific PSDs), and contractor proposals or cost estimates.

A cover letter accompanies submitted PSDs, which affirms the organization's desire to submit these projects to the MIRAC for consideration.

The sections of the PSD are listed below.

PROJECT SUMMARY DOCUMENT

[Name of Project]
[Facility Priority Number] (use for multiple PSD submittals to prioritize your projects)
[Date]
[Facilities Board Project Number]
[Facility Name]
[Location], [State]

I. SUMMARY

[Summarize the project and include what is to be done, why (e.g., to add 135 gross square meters of space or replace a boiler), and the type of funding (e.g., Maintenance and Improvement, Quarters, Corporate Cost Sharing, etc.). This section should be no more than two paragraphs. Use attachments for project location maps and facility drawings.]

II. PROJECT SCOPE AND DESCRIPTION

A. Description of Project. [Provide a detailed explanation of the work to be accomplished by the project and the desired outcome of the project. Include all items reflected in the cost estimate. This information can be presented in bullet/list or narrative form.]

B. Project Justification. [Explain why the project is necessary. Link the justification to the developed Health Facilities Master Plan if appropriate. Discuss how the project will meet program needs, and how it will comply with legal, code, accreditation, and certification

* Sections of this policy modified by DEHE Staff to reflect formation of the MIRAC and for clarification of non-competitive project submittals.

requirements. Cite specific, code or JCAHO references by standard clause, chapter, paragraph, etc.]

III. DEFICIENCIES

The following deficiencies will be corrected as part of this project:

[List and describe only those facility deficiencies this project will address. The types of deficiencies include BEMAR, JCAHO, NFPA, HFPM, Public Law compliance items, ADA, etc.]

IV. COST ESTIMATE

Provide a budgetary cost estimate and the funding sources for the proposed project, including separate line items for design Architect/Engineer fees, project construction, construction contract administration fees, and project contingency.

V. PROJECT SCORE SHEET DOCUMENT (*only required for BEMAR competitive pool funds*)

Complete a project score sheet further detailing the scope, impact and benefits of this project. Provide the information required by the project score sheet.

VI. OTHER PROJECT ITEMS TO BE ADDRESSED

Supporting Documents: Drawings, Photos, Estimates, Etc.

Appendix F-2

Environmental Information and Documentation

ENVIRONMENTAL INFORMATION AND DOCUMENTATION

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

Considerations	Basis for Determination (Documentation)
1. Will the proposed action result in a known violation or continuance of a violation of applicable (Federal, Tribal, State or local) laws or requirements for protection of environment or public health and safety?	Yes or No. Explanation.
2. Will the proposed action result in a conflict with existing or proposed federal, Tribal, state, and local land use plans?	Yes or No. Explanation.
3. Is there a controversy with respect to environmental effects of the proposed action based on reasonable and substantial issues?	Yes or No. Explanation.
4. Is the proposed action significantly greater in scope than normal for the area or does it have significant unusual characteristics?	Yes or No. Explanation.
5. Does the proposed action establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

6. Does the proposed action have significant adverse direct or indirect effects on park land, other public lands, or areas of recognized scenic or recreational value?	Yes or No. Explanation.
7. Does the proposed action include construction of a new municipal solid waste landfill at a new solid waste disposal site?	Yes or No. Explanation.
8. Will the proposed action create a need for additional capacity at solid waste disposal facilities?	Yes or No. Explanation.
9. Does the proposed action include construction of a new wastewater treatment facility that will discharge treated sewage effluent to the waters of the U.S.	Yes or No. Explanation.
10. Will the proposed action create a need for additional capacity at wastewater treatment facilities?	Yes or No. Explanation.
11. Will the proposed action create a need for additional capacity in the drinking water supply?	Yes or No. Explanation.
12. Are there other considerations about the proposed action that could adversely affect the environment and/or public health and safety?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

13. Will the proposed action create a need for additional capacity in health care facilities and for health care services?	Yes or No. Explanation.
14. Will the proposed action create a need for additional energy supply or generation?	Yes or No. Explanation.
15. Will the proposed action create a need for additional capacity in educational facilities?	Yes or No. Explanation.
16. Will the proposed action create a need for additional capacity in transportation systems?	Yes or No. Explanation.
17.Historic Preservation: a. Does the proposed action involve the purchase, construction, alteration, renovation, or lease of a building or portion of a building that is more that 50 years old?	Yes or No. Explanation.
b. Will the proposed action adversely affect properties listed, or eligible for listing, on the National Register of Historic Places?	Yes or No. Explanation. or No

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

18. Endangered Species Act: Is the proposed action likely to adversely affect a plant or animal species listed on the Federal or applicable state list of endangered or threatened species or a specific critical habitat of an endangered or threatened species?	Yes or No. Explanation.
19. Will the proposed action require major sedimentation and erosion control measures?	Yes or No. Explanation.
20. Will the proposed action violate a storm water permit or a wastewater discharge permit either for construction or on-going operations?	Yes or No. Explanation.
21. Safe Drinking Water Act: Will the proposed action impact an EPA designated sole source aquifer?	Yes or No. Explanation.
22. Wetlands and Water Resources (lakes, rivers, ponds, streams, etc.): Will the proposed action violate a Section 404 (Clean Water Act) permit for actions in a wetland and/or Section 10 (Rivers and Harbors Act) permit for actions in a stream or river?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

23. Floodplains: a. Is the proposed action located in either a 100-year or, for critical actions, a 500-year floodplain? (If Flood Insurance Rate Maps do not exist for the project site, a floodplain survey or consultation may be required. Also may need to consider if the facility will require flood insurance).	Yes or No. Explanation.
b. Will the proposed action adversely impact flood flows in a floodplain or support development in a floodplain?	Yes or No. Explanation.
24. Existing site: Would the proposed action involve the purchase, construction or lease of new facilities (including portable facilities and trailers), substantially increase the capacity of an existing health care facility?	Yes or No. Explanation.
25. New site: Does the proposed action involve purchase, construction, or lease of new facilities (including portable facilities and trailers) where such action is for buildings equal to or more than 12,000 square feet (1080 square meters) of useable space when more than 5 acres (2 hectares) of surface land area are involved at a new site?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

26. New site: Does the proposed action involve purchase, construction, or lease of health care facilities (other than buildings) for projects equal to or more than 5 acres (2 hectares) of surface land area at a new site?	Yes or No. Explanation.
27. Does the proposed action involve the sale or transfer of real property, on which any hazardous substance was stored for one year or more, known to have been released, or disposed of? (Provide relevant documentation for any hazardous substance releases. See 40 CFR 373.2(b), 302.4, and 261.30 for reportable quantities.)	Yes or No. Explanation.
28. Does the proposed action involve the sale or transfer of real property, on which underground or above ground storage tanks are located?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

29. Will the proposed action violate Tribal, local, state, or federal law on the use and storage of hazardous substances or the transportation, storage, and disposal of hazardous wastes or medical wastes? (Activities that may generate reportable quantities include air conditioning repair and service, pesticide application, motor pools, automobile repair, welding, landscaping, agricultural activities, print shops, hospitals, clinics, & medical centers. Repair, renovation, or demolition activities can generate waste that has asbestos-containing materials, asbestos, lead-based paint, PCBs, CFCs, etc.)	Yes or No. Explanation.
30. Will the proposed action adversely affect community air pollution for a long period of time?	Yes or No. Explanation.
31. If the proposed action is implemented, will it have a disproportionately high and adverse human health or environmental impact on the Tribe, low-income populations, or minority populations?	Yes or No. Explanation.
32. Will the proposed action adversely affect community noise levels?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

33. Wilderness Act: Will the proposed action adversely impact a Wilderness Area?	Yes or No. Explanation.
34. Farmland Protection Policy Act: Will the proposed action convert significant agricultural lands to non-agricultural uses and exceed 160-point score on the farmland impact rating?	Yes or No. Explanation.
35. Coastal Zone Management Act: Will the proposed action directly affect a Coastal Zone in a manner inconsistent with the State Coastal Zone Management Plan?	Yes or No. Explanation.
36. Wild and Scenic Rivers Act: Will the proposed action affect a wild, scenic, or recreational river area or create conditions inconsistent with the character of the river? (A consideration for activities that are in or near any wild and scenic waterway including construction of stream/river crossings, intake structures, outfalls, etc.)	Yes or No. Explanation.

I certify that to the best of my knowledge and ability the information presented above is true and correct. The record was examined to identify potential extraordinary or exceptional circumstances which would require further environmental review.

Appendix G

Actions Requiring IHS Environmental Review and Determination

APPENDIX G – Actions Requiring IHS Environmental Review and Determination

For actions outlined in the below table, which are to be undertaken by Chugachmiut, Chugachmiut shall submit a proposal package that includes a completed Project Summary Document (See Appendix F-1) and Environmental Information and Documentation Form (See Appendix F-2) to the IHS. Coordination time between Chugachmiut and the IHS to complete the Environmental Review and Determination process varies for each group of actions. The timing provided below indicates the expected timeline to complete the process for each group of actions. Early coordination in the planning phase of a project between Chugachmiut, IHS, and other stakeholders will help ensure environmental concerns are addressed in a timely manner and project delays are minimized so that IHS can complete its environmental responsibilities and issue a Determination Document as early as possible.

	Action	Expected Timelines
	Categorically excluded actions per Federal Register Vol. 58, No. 3, pg 571(I)(3), (I)(4), (I)(6), and (I)(7), dated January 6, 1993.	**The Environmental Review and Determination Process for this group of actions ranges from 45 to 90 days from the receipt by the IHS of the proposal package.***
☐	Pg 571 (I)(3): Building alteration or renovation that does not substantially change the function or general appearance of existing buildings.	
☐	Pg 571 (I)(4): Construction or lease of new facilities (including portable facilities and trailers) where such lease or construction: (a) is at the site of existing health care facility and the facility capacity is not substantially increased, (b) is for building of less than 12,000 square feet of useable space when less than five acres of surface land area are involved at a new site, or (c) is for projects other than buildings when less than five acres of surface land area are involved at a new site.	
☐	Pg 571 (I)(6): Acquisition of space by lease, use agreement, transfer, gift or similar arrangement for which: (a) the intended use of the space is consistent with the functional design of the building, and (b) the acquisition is consistent with an applicable master plan, if such plan exists.	
☐	Pg 571 (I)(7): The acquisition, sale, release, abandonment, closure or transfer of real property, provided the action: (a) is consistent with any applicable master plan, if such a plan exits, (b) conforms to local zoning and land use ordinances, if such ordinances exist, (c) is consistent with the functional design of the facility, (d) would not violate applicable Federal, State, or local environmental protection or historic preservation laws, and (e) satisfies the requirements of applicable comprehensive Environmental Response Compensation and Liability Act (CERCLA)section 120 (h) provisions.	
	Any normally categorically excluded actions that may have Extraordinary or Exceptional Circumstances per Federal Register Vol. 58, No. 3, pg 571-72(K), dated January 6, 1993.	**The Environmental Review and Determination Process for this group of actions ranges from 60 to 180 days from the receipt by the IHS of the proposal package.**
☐	Pg 571 (K)(1): Those with potential to change the existing environment where such change violates directives or other controls that are imposed by any governmental body having jurisdiction, for the purpose of protecting or otherwise affecting that environment;	
☐	Pg 571 (K)(2): Those with potential or real threat of violation, or continued violation, of an applicable Federal, State, or local law or requirement imposed for protection of the environment or to ensure public health and safety;	
☐	Pg 571 (K)(3): Those likely to cause controversy with respect to the types or extent of the resulting environmental effects where such controversy is based on pertinent and substantial issues;	

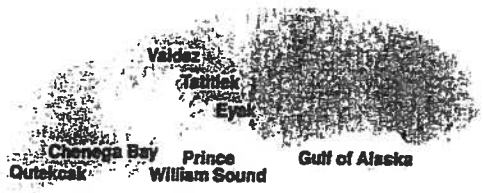
☐	Pg 571 (K)(4): Those involving the use of technology where the possible effects are highly uncertain or involve unique or unknown risks and where such technology has not been assessed previously for environmental impact;
☐	Pg 571 (K)(5): Those which have adverse effects on unique geographic characteristics (e.g. historic, archeological, or cultural resources, park recreation or refuge lands, wilderness, areas, wild or scenic rivers, sole or principal drinking water aquifers, prime farmlands, wetlands, floodplains, coastal management zones, or ecological or critical areas including those listed on the Department of Interior National Register of National landmarks);
☐	Pg 571 (K)(6): Those which establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects;
☐	Pg 571 (K)(7): Those which have adverse effects on properties listed or eligible for listing on the National Register of Historic Places;
☐	Pg 571 (K)(8): Those which have adverse effects on species listed by the Federal Government as Endangered or Threatened Species, or which have adverse effects on any designated critical habitat for these species;
☐	Pg 571 (K)(9): Those which require assessment in accordance with Executive Order 11988 (Floodplain Management), or Executive Order 11990 (Protection of Wetlands), or the Fish and Wildlife Coordination Act; and
☐	Pg 572 (K)(10): Those which involve the use, transfer, or lease of real property which has been determined, after investigation in accordance with the provisions of CERCLA 120 (h), to have been used as a storage facility for hazardous waste for more than 1 year; and
☐	Pg 572 (K)(11): Construction projects which are significantly greater in scope or size than normally experienced for a particular category of action.

Any action NOT categorically excluded per Federal Register Vol. 58, No. 3, pg 569-572, dated January 6, 1993 attached hereto.	**The Environmental Review and Determination Process for this group of actions ranges from 60 to 180 days from the receipt by the IHS of the proposal package.**

* The time needed to complete Environmental Reviews is highly dependent on required consultations with other Federal and State Agencies. As an example, the NHPA Section 106 Process requires the State Historic Preservation Officer (SHPO) be allotted 30 days to review and comment on a proposed action (36 CFR Part 800.3(c)(4)). Furthermore, additional time beyond the 30 days may be required for consultation with SHPO to adequately review and determine the effects of the proposed action on existing historical resources. Coordination early in the planning phase of the project can help identify these potential issues and allow Chugachmiut and IHS to resolve them early.

Appendix H

Resolution 11-05



Port Graham
Nanwalek

Chugachmiut

BOARD OF DIRECTORS RESOLUTION
RESOLUTION NO. 11-05

ENTITILED: **DELIVERY OF HEALTH CARE SERVICES TO INDIVIDUALS NOT OTHERWISE ELIGIBLE FOR SERVICES FROM THE INDIAN HEALTH SERVICE**

1. **Whereas,** Chugachmiut, is a Tribal Organization established to provide health care services in the Chugach region by resolution of the governing bodies of its member Tribes; and

2. **Whereas,** Chugachmiut is a Co-Signer to the Alaska Tribal Health Compact under Title V of the Indian Self-Determination and Education Assistance Act, Pub. L. 93-638, as amended; and

3. **Whereas,** pursuant to the Alaska Tribal Health Compact and funding agreements negotiated annually with the Indian Health Service ("IHS"), Chugachmiut carries out the programs, services, functions, and activities ("PSFA") of the IHS which include dental, behavioral, and health services in the Chugach region; and

4. **Whereas,** Section 813 of The Indian Health Care Improvement Act, as amended, 25 U.S.C. 1680c, ("Section 813"), authorizes the governing body of a Tribal Organization carrying out health services of the IHS under the Indian Self-Determination and Education Assistance Act to determine whether health services should be provided under the Tribal Organization's funding agreement with the IHS "to individuals who are not eligible for such health services under any other subsection of this section or under any other provision of law" ("non-beneficiaries"), 25 U.S.C. § 1680c(c)(2); and

5. **Whereas,** Section 813 further provides that in making such a determination, the governing body of the Tribal Organization shall "take into account" whether the provision of health care services to will result in the denial or diminution of health services to Alaska Natives or American Indians; and

6. **Whereas,** the governing body of Chugachmiut is its Board of Directors ("the Board"), consisting of seven tribally-appointed representatives; and

7. **Whereas,** the Board has carefully considered the factors identified in Section 813; and

8. **Whereas,** the Board of Directors has examined the populations of the communities in the Chugach region and the historical and current use of Chugachmiut services by beneficiaries and non-beneficiaries in those communities; and

9. **Whereas,** the Board of Directors has reviewed and examined the historical and current use of the full range of Chugachmiut health care services by beneficiaries and non-beneficiaries residing in the Chugach region; and

10. **Whereas,** non-beneficiaries make up a small percentage of the patients receiving care from

Chugachmiut facilities and practitioners, the Chugachmiut Board has determined that services provided to non-beneficiaries at Chugachmiut's facilities or by Chugachmiut's providers will not result in the denial or diminution of services to IHS beneficiaries; and

11. Whereas, Chugachmiut has established billing and collection procedures to ensure that non-beneficiaries are billed an amount which results in recovery of actual costs for the health services they receive from Chugachmiut; and

12. Whereas, Chugachmiut has entered into agreements with the State of Alaska to ensure payment by the State for services offered to indigent non-beneficiaries, as required by Section 813 of the Indian Health Care Improvement Act, as amended, 25 U.S.C. ' 1680c; and

13. Whereas, the Board has determined that Section 813 of the Indian Health Care Improvement Act, as amended, 25 U.S.C. ' 1680c, is satisfied.

Resolutions

1. Now therefore be it resolved, that the Board of Directors of Chugachmiut authorizes the extension of the full range of health, dental and behavioral services to non-beneficiaries in the Chugach region as provided in this resolution; and

2. Be it further resolved, that the Executive Director, or his or her designee, is authorized and is directed to limit or eliminate access to such health services by non-beneficiaries should provision of such services diminish the provision of health services to beneficiaries of the Indian Health Service; and

3. Be it further resolved, that this Resolution supersedes and replaces Resolution # 97-22 entitled "Health Services to Non-beneficiaries (including employees of Chugachmiut and tribal government)" dated December 16, 1997; and Resolution #08-13 entitled "Delivery of Health Care Services to Individuals Not Otherwise Eligible For Services From the Indian Health Service" dated June 26, 2008 addressing prior Chugachmiut services to non-eligible individuals.

CERTIFICATION

Adopted this 14 day of December, 2010.

THIS IS TO CERTIFY THAT I, Francis Norman, am the Chairperson of the Chugachmiut Board of Directors; AND the Board consists of seven duly elected tribal representatives; AND that this Resolution No. 11-05 was considered and adopted by a vote of the Board for which a quorum was present and voting; AND that the vote taken was 7 for and 0 against and 0 abstain/absent.

Francis Norman, Chairperson — December 14, 2010 — Date

Benna Hughey, Secretary — Dec. 14, 2010 — Date

Funding Agreement
between
Certain Alaska Native Tribes
Served by the
Copper River Native Association
and
the Secretary of the Department of Health and Human Services
of the
United States of America
for Fiscal Years 2021–2024

This Funding Agreement is entered into by and between certain Alaska tribes in the Copper River Native Association as identified in Exhibit A of the Compact and the Secretary of the Department of Health and Human Services of the United States of America. These tribes have authorized the Copper River Native Association to sign this Funding Agreement for them and to be responsible for and carry out the terms of this Funding Agreement.

Section 1 – Obligations of IHS.

1.1 Generally. Under the authority of Section 325 of P.L. 105-83 and P.L. 93-638 as amended, non-residual programs, services, functions and activities (PSFAs) of the Alaska Area Office and the Alaska Native Medical Center (ANMC) have been transferred to tribal management.

Delivery of PSFAs shall be consistent with each Co-Signer's Funding Agreement. The Indian Health Service (IHS) shall remain responsible for performing all federal residual PSFAs. IHS shall remain responsible for negotiating assurances with the Alaska Native Tribal Health Consortium (ANTHC) and Southcentral Foundation (SCF) on behalf of Alaska Natives and American Indians to the effect that Co-Signers continue to receive non-residual PSFAs from the ANMC and Area Office and provided by ANTHC and SCF at a minimum at the level that such PSFAs were provided by IHS as of October 1, 1997, to the extent permitted by Section 325 of P.L. 105-83. To the extent authorized by federal law, IHS will respond to written Co-Signer concerns about the extent with which such assurances have not been complied and take appropriate action. IHS shall further be responsible for performing its special trust responsibilities and legal obligations as provided in the Indian Health Care Improvement Act (IHCIA), the Indian Self-Determination and Education Assistance Act, as amended (the Act), and other applicable provisions of federal law.

This Funding Agreement obligates IHS to provide funding and services identified herein and as provided in the Alaska Tribal Health Compact (Compact) between the Copper River Native Association (CRNA) and certain other Co-Signers thereof and the United States in Fiscal Years 2021–2024.

In addition, although funds are provided from Headquarters and Area Office in support of this Compact, IHS will agree to continue to make available to Co-Signer, PSFAs from both Area Office and Headquarters unless 100 percent of the total tribal shares for these PSFAs have been

specifically included in this Funding Agreement. In cases where a portion of tribal shares have been transferred, there may be some diminishment in the level of PSFAs provided by IHS. Furthermore, IHS will reorganize both Headquarters and the Area Office to continue to provide the remaining PSFAs, which have not been included in this Funding Agreement, in the most effective and efficient manner possible, provided that decisions about the array and level of services to be offered by IHS shall be made in consultation with Alaska Tribes. IHS PSFAs not negotiated into or listed in Appendix A will be the responsibility of IHS.[1] The "Memorandum of Agreement Describing the Continuing Services of IHS, Alaska Area Native Health Service" among the Co-Signers and the Alaska Area Native Health Service (AANHS) reflects the understanding of the parties regarding services to be provided by the AANHS to Co-Signers. This document, attached as Appendix C, is hereby incorporated by reference.

Unless funds are specifically provided from Headquarters, Headquarters retains all PSFAs and CRNA will not be denied access to, or services from, Headquarters. Specifically, CRNA will receive the following services from the IHS Headquarters:

1.1.1 Information Services. IHS will provide the full range of Office of Information Technology (OIT) national support to ANTHC and ANMC. OIT will provide specified services directly to CRNA. In addition, OIT will provide support to ANTHC to assist it to carry out its responsibility to provide day-to-day technical support, user support, distribution of software and files and other typical information technology support to Co-Signers as defined in the Assurances Appendix to the ANTHC funding agreement. Upon request of ANTHC, after good faith efforts to resolve CRNA's technical issue, OIT's support of CRNA will include technical support needed on-site by CRNA. A list of the services due under this paragraph, with identification of the method of delivery, is shown below.

Office of Information Technology Provides:	Directly to ANTHC	Directly to Cosigner	Indirectly to Cosigner through ANTHC
National Database Services			
100% Data Center Services	X		
Process Data Exports into National Database		X	
Evaluate, Correct, Convert Site Data for National Database		X	
Telecommunications Mgmt Services			
100% Telecommunications Mgmt Services	X		
Maintain IHS to Alaska Connection		X	
Email Transfer and Global Address Listing		X	
SMTP Gateway		X	
Intranet and Internet Access (to available bandwidth)		X	
Antivirus Software			X
Software Development and Maintenance			
100% Software Development and Maintenance	X		
Use of IHS Contract Vehicles		X	
RPMS Integrated Commercial-Off-The-Shelf packages (Average Wholesale Prices, CPT, ICD-9, Immunization Algorithm)			X

[1] All references to Appendix A and Appendix C in this Funding Agreement are to the Appendix for the applicable fiscal year.

Licenses (This does not include licenses for stand-alone or interfaced commercial software.)			
RPMS Package Support/Installation			X
System Support and Training			
100% System Support and Training	X		
Nationally Available OIT Training Instruction (as available)		X	
Alaska On-site Training Instruction (four annual classes)			X
Hardware and Operating System Support			X
Cache Upgrade (initial installations)			X
National Patient File (2000) Conversion			X
Envoy (WebMD) Installation			X
Additional Services - Fee for Service	X	X	X

1.1.2 Access to Training and Technical Assistance. To the extent funds are retained by IHS, CRNA shall have access to training, continuing education, and technical assistance in the manner and to the same extent CRNA would have received such services if it were not a Self-Governance Co-Signer.

1.1.3 Intellectual Property. In the course of administering federal contracts, grants, subgrants, and other agreements, IHS acquired various copyrights and licenses, including licenses pursuant to 45 CFR § 74.36 and 45 CFR § 92.34, in works which IHS possessed, reproduced, published, and otherwise used and allowed others to possess, reproduce, publish, and otherwise use. To carry out the PSFAs assumed by CRNA under this and previous funding agreements and contracts CRNA has the delegated authority and permission from IHS to use and allow others to reproduce, publish, and otherwise make use of these works to the same extent as IHS, consistent with the copyrights or licenses acquired by IHS in such works.

1.1.4 HIPAA Compliance. IHS retains the responsibility for complying with the Health Insurance Portability and Accountability Act of 1996 (HIPAA) for retained IHS health care component activities.

1.2 Historical PSFAs. CRNA has historically received certain PSFAs from ANMC and the AANHS. Responsibility for these PSFAs has been transferred to ANTHC and SCF. For purposes of identifying those services provided by ANMC and AANHS prior to transfer of management to ANTHC and SCF, CRNA attached to its FY 2000 Annual Funding Agreement Addendum 1 entitled "Memorialization of Historical Level of PSFAs Provided by ANMC and AANHS." The PSFAs listed in this addendum are taken from CRNA's FY 1999 Annual Funding Agreement. The addendum was attached to the FY 2000 Funding Agreement only for the purpose of identifying historical levels of PSFAs received by CRNA from ANMC and AANHS and is specifically not made a part of this Funding Agreement.

1.3 IHS Community Health Aide Program Certification. IHS retains the responsibility, pursuant to Section 119 of the Indian Health Care Improvement Act, as amended, to maintain the IHS Community Health Aide Program Certification Board (CHAPCB), which has been established by and under the direct control and supervision of IHS, to accredit training for community health aides and to certify community health aides, which includes Community Health

Aides/Practitioners, Dental Health Aides, and Behavioral Health Aides/Practitioners as those terms are defined and used in the CHAPCB Standards and Procedures.

1.4 Access to Federal Insurance. IHS will assist CRNA to obtain information about the coverage, rights, and benefits available for its employees under chapters 87 and 89 of title 5, United States Code, the cost of such coverage, rights, and benefits (including any options in coverage, rights, and benefits that may be available), and the procedures by which CRNA may exercise its rights under Section 409 of the IHCIA to have access to such Federal insurance for its employees.

Section 2 – Obligations of the Co-Signer. This Funding Agreement obligates CRNA to be responsible for and to provide health PSFAs utilizing the resources transferred under this Funding Agreement and other funds as they may become available to CRNA. This Funding Agreement further authorizes CRNA to consolidate and redesign PSFAs identified in Section 3 [Tribal Programs and Budget] as provided in the Act, and the Compact.

Section 3 – Tribal Programs and Budget. CRNA is committed to and will strive to provide quality health services and will strive to meet standards it believes to be appropriate and applicable to the delivery of those health services. CRNA agrees to provide and be responsible for the health PSFAs identified below in accordance with the Compact and this Funding Agreement. For the purposes of this Funding Agreement, CRNA's General Budget Categories consolidate related health PSFAs as follows. CRNA provides a broad range of medical, oral health, behavioral health, case management, home- and community-based care, contract health, habilitation and rehabilitation, environmental health, and health promotion and disease prevention program services. CRNA may also provide other PSFAs to meet the objectives of Section 3 of the IHCIA. CRNA integrates these services with traditional, complementary, and alternative healing methods. To improve access and quality of care CRNA employs telehealth, other technologies, and a mobile care unit. PSFAs may be delivered in a variety of settings, including, but not limited to, clinics, homes, schools, and other community settings. All services are provided subject to the availability of funds and under the direction of the Board of Directors, which provides policy, administrative, and executive direction. CRNA's wide range of services are provided and facilitated directly, and in cooperation with ANMC, ANTHC, SCF, and other Co-Signers, including through field clinics, referral to ANMC, and other arrangements with Tribal health organizations. Any PSFA described in this section 3 [Tribal Programs and Budget] may be performed by any organizational unit of CRNA at CRNA's discretion.

3.1 HEALTH CARE SERVICES.

3.1.1 Clinical Services provides a comprehensive range of primary outpatient clinic ambulatory health care services including, but not limited to, acute, chronic, therapeutic, and preventive health services, including screening, diagnosis, and treatment; emergency and urgent care; family practice; internal medicine; pediatric medicine; family planning; OB-GYN services, maternal and child health; infectious disease treatment and consultation; immunizations and vaccinations; referral; and case management.

3.1.1.1 Emergency Medical Services provides 24/7 emergency care, medical support, training, technical assistance and physician oversight to local emergency medical services (EMS) providers to ensure and maintain access to EMS, ambulance, and first responder services in the region; provides direct patient care as first responders for patient emergencies when

other providers are unavailable; coordinates treatment and care with other health care providers depending on the acuity of patient injuries; and provides services to lower the incidence of death and disability.

3.1.2 Ancillary Services provides services at levels sufficient to support medical diagnosis and treatment, and may include, but are not limited to, physical therapy; occupational therapy; recreational therapy; respiratory therapy; imaging services, including radiology, teleradiology, mammography, ultrasound, and bone density screening; audiology; laboratory services, including clinical diagnostic tests, microbiology, and drug screening analysis; biomedical services; social services; nutrition and dietary services; medical supply and equipment distribution services to patients; and pharmaceutical services.

3.1.3 Community Health Aide Program provides Community Health Aide Program, under the Standards and Procedures approved by the IHS Community Health Aide Program Certification Board, which includes Community Health Aides/Practitioners, Dental Health Aides, and Behavioral Health Aides/Practitioners throughout the CRNA region and in support of other Tribal communities; such services include, but are not limited to, a system of support, supervision, quality assurance, orientation, training, and continuing education for each community health aide who is employed by CRNA and may provide these services for other tribal health programs; and coordinate the maintenance of the village clinics in which CRNA community health aides function, including supplies and equipment.

3.1.4 Contract Health Services administers and coordinates medical services provided to the Native patients of the CRNA service area who are eligible beneficiaries of IHS via contracting with other health care providers for direct medical services on an outpatient, urgent, and emergency basis, consistent with the terms set forth in the contracts with CRNA, with further limitations imposed by available funding, and administers ground ambulance services.

3.1.5 Dental Health Care provides routine and specialty dental services directly and through purchased and referred care, including education, diagnosis, treatment of dental problems and disease, conscious sedation, coordinating the administration of fluoride varnish, dispensing tooth brushes and other supplies, dental implants, orthodontic adjustments, and periodontics, and dental health information.

3.1.6 Audiology provides services to reduce the incidence and prevalence of hearing loss, including education, diagnosis, and treatment, including audiology clinics.

3.1.7 Eye Care provides comprehensive eye care services directly and through purchased and referred care, including screening vision testing and eye surgery.

3.1.8 Health Services Training: CRNA provides health services training (including clinical preceptorships, mentoring, shadowing, training and supervision of health care providers) through offering sites for medical residents and other individuals obtaining training in the health professions, including nursing, behavioral and dental professions.

3.1.9 Traditional, Complementary and Alternative Medicine provides traditional healing services in coordination with existing western medicine services, and complementary and alternative patient care services demonstrated to be reasonably safe and

effective and indicated for the patient's diagnosis or condition, including, but not limited to, acupuncture, chiropractic care, massage therapy, and other traditional health modalities may be provided following a referral from a primary care provider (defined as a MD, DO, DDS, DMD, PA or ANP). Traditional health care practices are subject to Section 831 of the IHCIA, as amended at 25 U.S.C. 1680u.

3.1.10 Home- and Community-Based Care provides, through a combination of western methods and traditional modalities, home care and other community-based services including assistance with activities of daily living such as dressing, laundry, light housekeeping, cooking, vital signs, medication reminders, snow removal, home chores and safety checks for elders and persons with disabilities. These services will be provided in accordance with Section 205(a)(2), of the IHCIA, as amended 25 U.S.C. § 1621d.

3.1.11 Integrated Alcohol and Drug Education and Treatment provides behavioral health services to reduce alcohol and substance abuse and associated problems through prevention programs and activities, outreach activities, outpatient care via community substance abuse and traditional counselors in villages served by CRNA; medication assisted treatment; inpatient care (to the extent available); aftercare to clients who have progressed through counseling and are in need of support for their continued recovery; and an alcohol and drug abuse treatment recovery camp.

3.1.12 Injury Prevention provides programs and activities to lower the numbers of intentional and unintentional injuries, deaths, and disabilities in Native villages served by CRNA by offering a variety of prevention activities including fire extinguishers, carbon monoxide detectors, chimney cleaning, and smoke detectors.

3.1.13 Environmental Health Services implements a wide range of programs in the CRNA service area. The programs include environmental technical assistance injury prevention, personal safety and assists clients in obtaining services, including, but not limited to, water and sewer system installations, furnace tune-ups, water haul, rabies vaccinations for cats and dogs, water sampling for testing, vehicle fleet maintenance, and training for environmental safety-related issues.

3.1.14 Health Education and Nutrition provide services to inform, educate, and motivate patients to adopt healthy lifestyles, including but not limited to, FAS/FAE prevention and treatment; gardening and food preservation; nutrition services for women, young children, and infants, such as providing supplemental foods, and nutrition education; and counseling and other services for women, young children, infants, elders, and others who are at nutritional risk.

3.1.15 Maternal and Child Health Program provides prenatal care, family planning and new-born patient education, child health services, assistance in risk screening, and coordination of prenatal and postnatal care.

3.1.16 Patient and Employee Transportation provides patient and employee transportation and travel management, including routine and emergency transportation. Such transportation may be provided by forms of transportation common to the Copper River region, including by airplane, motor vehicle, boat, all terrain vehicle, including vehicles owned or leased by CRNA, and privately owned vehicles used in performance of the PSFAs under this Funding

Agreement. Escorts may accompany patients in accordance with Section 213(a) of IHCIA, as amended.

3.1.17 Senior Citizens' Program provides nutrition services to Elders 55 years of age and over, shopping assistance, passenger assistance, transportation, outreach and advocacy, information, and referral services to Elders and persons with handicaps or disabilities in communities in CRNA's area.

3.1.18 Tribal Management provides the administration of all PSFAs of CRNA's health care, develops and maintains systems to ensure periodic determination of health and human service needs in the villages served by CRNA, and monitors programs and expenditures to increase cost-efficiency of program operations and to ensure continuous quality improvement.

3.1.19 Diabetes Program promotes diabetes prevention, education, and treatment.

3.1.20 Community Support provides assistance to elders, low income and handicapped and disabled individuals, and families to maintain safe, independent housing, including education of household members and assistance with home maintenance, including snow removal and safe, reliable heating.

3.1.21 Behavioral Health provides a full range of behavioral health services to include emergency services; support services for individuals with severe mental illnesses, emotional disturbances, or substance abuse problems; psychiatric services; and general mental health services.

3.1.22 Cultural Camp provides traditional wellness programs for adults, youth, and families, which includes use of respected community members as well as trained counselors, natural detox-dietary restrictions focused on natural healing principles and increased physical activity. The Camp is located at Hudson Lake. CRNA collaborates with other providers of behavioral health services to enhance the training and administration of camp services.

3.1.23 Families At-Risk for Fetal Alcohol Syndrome (FAS) provides training for families, community members, and professionals to meet the needs of providing accessible, reliable screening and diagnostic services for families at-risk for Fetal Alcohol Syndrome (FAS) and provides or aids in obtaining and providing ongoing resources for families at-risk for FAS.

3.1.24 Public Health and Epidemiology. Directly and/or through ANTHC, including its Epidemiology Center,[2] CRNA carries out public health, epidemiology, and health research functions. These activities include, but are not limited to: collecting and receiving personally identifiable health information for the purpose of

3.1.24.1 preventing or controlling disease, injury, or disability;

3.1.24.2 reporting disease, injury, and vital events such as birth and death; and

3.1.24.3 the conduct of public health and epidemiological investigations, surveillance, and interventions, including the maintenance of disease and injury registries.

[2] The ANTHC Epidemiology Center was previously operated by the Alaska Native Health Board.

3.1.25 Wellness Program promotes regional wellness improvements, with emphasis on achieving and maintaining sobriety through a variety of methods and programs that include public education and training, support for positive community events, local option and alcohol control programs, the restorative justice and regional tribal court improvements (including juvenile and drug court), support for tribal empowerment; public safety; and case management and other services for individuals who have experienced conflict in the community because of substance abuse or behavioral health issues.

3.1.26 Children and Youth Development and Family Services provides comprehensive health, behavioral health, and preventive services that include, but are not limited to, emotional support services; substance abuse counseling; health education and outreach; services that respond to child physical abuse, sexual abuse, and neglect and other conditions that place a child at physical or emotional risk; and child development and family services which include, but are not limited to, health-oriented education; socialization; health screening; growth and nutritional assessment; individualized culturally-appropriate child development services; resiliency-based early childhood development; student support activities; career exploration and; work experience, job readiness, and life skills training., consistent with 25 U.S.C. § 1603(11)(C), (G); family services; and family involvement.

3.1.27 Child and Family Advocacy and Services provides assistance to children and families subject to legal proceedings; child welfare services that respond to child physical abuse, sexual abuse, and neglect and other conditions that place a child at physical or emotional risk; foster care finding and supportive behavioral health and other services to improve the stability of placements.

3.1.28 Support Services. A complement of services required to support the provision of health services to the Copper River region may include, but is not limited to: interpreting and translation services; dietetics/nutrition services, including services associated with health promotion and disease prevention; operations and facilities management; security, human resources; administration and board support; infection control; patient case management; contract and property management; telecommunications; financial management (to include patient registration, billing, collection, coding and other business office functions); and Medicare and Medicaid and other benefits enrollment services.

3.1.29 Administrative Services: develops, interprets, coordinates, and administers the organization's policies on finance, accounting, payroll, insurance, data processing, internal controls, auditing, materiel management, legal, corporate compliance, and human resources, including the following:

3.1.29.1 Human Development: generally provides personnel services (to include staffing, recruitment, and retention), job classification, pay and benefits administration, training, continuing education and development, staff health education, management and leadership development, employee relations, human resources information systems, and Native hire.

3.1.29.2 Finance: performs accounting, statistical records, payroll, accounts payable, grant requests and administration, reporting, and other finance activities, and

coordinates reimbursement, budgeting and forecasting programs, cash management, and annual third party audits.

3.1.29.3 Technology/Telecommunication Services: directs, coordinates, and executes telecommunications, telephone, data processing, Help Desk support, training and education, and network and information management for operations and regulatory compliance; maintains website; provides maintenance, inventory, and equipment repair and disposal; coordinates regional and statewide efforts for telemedicine, telehealth, telepharmacy, and teleradiology services; and planning and implementation of an electronic health record system.

3.1.29.4 Office of the CEO: manages the affairs and property of CRNA in accordance with direction from the Native peoples of the Copper River region acting through the Board of Directors. This office includes the Director of Health Services, Director of Tribal Community Services, Director of Behavioral Health, Director of Training and Development, Chief Financial Officer, Chief Operations Officer. Child and Youth Development, Director of Behavioral Health, Director of Planning, Training and Development, Director of Personnel Development, and Director of Finance. Provides direction, program and staff supervision, organizational and program planning, administrative support, facilities and equipment management, maintenance and improvement of facilities, inventory control, budget development and maintenance, grant writing, legal consultation, accounting functions, contract development and management, purchasing management, technology management, and reporting statistics as appropriate. Functions as liaison with local, regional, state, and national entities to address legislative issues, grants, contracts, funding, and planning. Develops and monitors public relations strategies and facilities planning as appropriate.

3.1.29.5 Facilities Management and Planning: provides procurement; material management; facilities management; planning, development and coordination of design; engineering; management of construction, renovation, demolition, and clean-up; maintenance and operation of all facilities and properties used by CRNA under this Funding Agreement, including facilities owned and leased by CRNA.

3.2 Other Programs/Services Funded. This funding agreement includes programs, functions, services, and activities resulting from tribal redesign or consolidation, reallocation, or redirection of funds, including its own funds or funds from other sources, provided that such consolidation, redesign, or reallocation or redirection of funds results in carrying out programs, functions, services, and activities that may be included in the funding agreement pursuant to Section 505 of Title V and Article III, Section 6 [Consolidation with Other Programs] of the Compact. This includes any other new health care programs, including, but not limited to, those identified in the Indian Health Care Improvement Act funded during the fiscal year.

3.3 Non-IHS Funding. CRNA will complement and supplement the PSFAs described throughout this Section 3 [Tribal Programs and Budget] with funding from sources other than IHS through this Funding Agreement, subject to the availability of such other funding. Consistent with Article III, Section 5 [Reallocation, Redesign and Consolidation], 6 [Consolidation with Other Programs], and 7 [Program Income, Including Medicare/Medicaid] of the Compact, non-IHS funds will be added to or merged with funds provided by IHS through this Funding Agreement.

3.4 FEDERAL TORT CLAIMS ACT. The Federal Tort Claims Act applies to CRNA's PSFAs under this Funding Agreement as provided in Section 516(a) of Title V (which incorporates Section 102(d) of Title I of the Act and Section 314 of P.L. 101-512) and Article V, Section 3 [Federal Tort Claims Act Coverage; Insurance] of the Compact. The extent of Federal Tort Claims Act coverage is described more particularly in 25 C.F.R. §§ 900.180-210.

3.5 TRIBAL FACILITIES AND LOCATIONS. CRNA operates the programs described in this Funding Agreement out of more than one facility or location. These include, but are not limited to, the facilities and locations listed in Appendix E, which will be submitted prior to the effective date of this Funding Agreement, and will be incorporated by reference herein. The Area Division of Planning, Evaluation and Health Statistics shall compile from this Appendix a list of all health facilities and locations identified in the Appendix and forward that list annually to the Headquarters' Office of Program Statistics, which shall include each of these facilities and locations in the annual list it must provide to the Centers for Medicare and Medicaid Services (CMS) (formerly Health Care Financing Administration) pursuant to the Memorandum of Agreement between the Health Care Financing Administration and the Indian Health Service (December 19, 1996).

Section 4 – Amounts Available During the Term of the Funding Agreement

4.1 The following amounts shall be available to CRNA in Fiscal Years 2021–2024 pursuant to the Compact and Title V of the Act, and are subject to reductions only in accordance with Section 508(d) of Title V and Section 106 of Title I of the Act.[3]

	Annual Funding
Recurring Base: Inclusive of all recurring funding, including recurring contract support funds[4]	$6,269,384
Non-Recurring Funding: Inclusive of nonrecurring contract support funds and such other funding which may be added to the contract.[5]	$2,114,834
Subtotal: (This amount is subject to amendments in accordance with Section 12 [Amendment or Modification of this Funding Agreement])	$8,384,218
Area "tribal" share to include funding identified from Area Office and identified in Appendix A to this Funding Agreement.[6]	$139,436

[3] A breakout of these funds is shown in Appendix A, which cites the source document used to determine the amount. The FY 2021 Appendix A includes prorated amounts for providing services to the Mentasta Traditional Council (MTC) from August 1-September 30, 2021, consistent with MTC's withdrawal from the Mount Sanford Tribal Consortium and transfer of authority to CRNA; funds already paid to CRNA under the prior FY 2021 funding agreement are not due a second time. These amounts are subject to change under the Act and as provided in this Funding Agreement. For other fiscal years to which this Funding Agreement is applicable, a replacement Appendix A will be negotiated between IHS and CRNA for the respective year and amended to this Funding Agreement and incorporated by reference, accordingly.

[4] A breakout of these funds is shown in Appendix A. *See* Footnote 3.

[5] A break-out of these funds is shown in Appendix A. *See* Footnote 3. These non-recurring funds represent contract support costs for which funds are available at the beginning of the fiscal year.

[6] Funds from Area were distributed according to methodology agreed upon in a caucus open to all Alaska Tribes and tribal organizations. The specific methodologies are identified in Appendix A. In addition to the Funding amount, prior to the effective date of Section 325 of P.L. 105-83, CRNA restricted Area tribal shares in an amount

	Annual Funding
Headquarters – Tribal Share: "Tribal Size Adjustment Pool" including all funds identified in Appendix A. The amount identified is exclusive of funds for which a distribution amount has not been determined. The final amount due shall be determined as set forth in this Funding Agreement or Appendix A.[7]	$97,772
Headquarters – Tribal Share: "Program Formula Pool" including all funds identified in Appendix A, and such additional funds which the IHS may make available on a program formula basis during the year base on the programs accepted for this allocation in Appendix A.	$0
Subtotal – Tribal Shares[8]	$237,208
TOTAL COMPACT FUNDING[9]	$8,621,426

These amounts are subject to additions for reimbursements, and new funds received during the term of this Funding Agreement including amounts that have historically been distributed as non-recurring funds under Title I of the Act or under previous Annual Funding Agreements. Any amounts remaining unspent under Contract No. 243-89-0004, or previous Funding Agreements, after adjustment and reconciliation of withheld amounts for IPA/MOA, supplies, and services, as of the last day of the fiscal year, shall be included in this Funding Agreement.

Of the amount shown above for Headquarters Tribal Share "Program Formula," $0 is for Equipment Replacement; the Equipment Replacement amount paid as part of the lump sum due CRNA was determined by multiplying the FY 2020 Equipment Replacement amount paid to CRNA by 90%. The final Equipment amount paid in FY 2021 will be based on the final FY 2021 Equipment Replacement allocation. If the final Equipment Replacement amount, as determined by the final FY 2021 Equipment Replacement allocation, is less than the 90% calculation, CRNA will return the difference to IHS. *See also* Appendix A, footnote to line 22 on page 6.

Of the amount shown above for Non-Recurring Program Funds, $113,875 is for Routine Maintenance and Improvement (M&I); the Routine M&I amount paid as a part of the lump sum due CRNA was determined by multiplying the FY 2021 Routine M&I amount paid to the Co-Signer by 90%. The final Routine M&I amount paid in FY 2021 will be based on the final FY

identified as "Subtotal Area TS Amount" in the "CRNA Restricted" column on Page 1 of Appendix A. *Also see* Addendum 2 regarding these funds.

[7] Headquarters shares were allocated according to the following process, which was adopted in a caucus open to all Alaska Tribes and tribal organizations. The Alaska Area Tribal Share of Headquarters was first defined using the national IHS recommended methodology. The total Alaska Area Tribal Share was then reallocated to each Co-Signer according to the agreed upon Alaska Area methodology, which is identified specifically for each line in Appendix A. In addition to the Funding amount, CRNA is entitled to additional Headquarters' tribal shares in an amount identified as "Subtotal Headquarters TS amounts" in the "CRNA Restricted" column on Page 1 of Appendix A.

[8] The subtotal of tribal shares does not include certain Headquarters' tribal shares for which the amount or availability have not been determined. This amount may be adjusted to make available all tribal shares for which CRNA is eligible.

[9] For the reasons noted regarding the amounts that make up this total and because full funding amounts for under the previous year's Funding Agreement have not been fully identified or reconciled as of the time this Funding Agreement is being executed, all amounts to be paid in the fiscal year for this Funding Agreement are estimates and are subject to amendment to reflect the full amount due for this fiscal year.

2021 Routine M&I allocation. If the final Routine M&I amount, as determined by the final FY 2021 Routine M&I allocation, is less than the 90% calculation, CRNA will return the difference to the IHS. *See also*, Appendix A, footnote to line 19 on page 6.

The Recurring Base amount shown above includes $345,613 that CRNA received, recurring in FY 2006 for Congressionally earmarked alcohol funds. Such funds are subject to "Adjustments Due to Congressional Actions" as described herein in Section 6.1 as well as any conditions on those funds that may be described in the FYs 2021, 2022, 2023, and 2024 Interior Appropriations Act (Act) or Congressional Reports, as applicable. After the Act is passed into law, such conditions, including Congressionally-directed reporting requirements, will be added by amendment not requiring CRNA's signature as described in Section 12 [Amendment or Modification of this Funding Agreement].

The parties agree Section 505(b)(2) of Title V provides, among other things, that grants administered by the Department of Health and Human Services through IHS may be added to CRNA's Funding Agreement after award of such grants. In accordance with this provision of Title V and its implementing regulations, the Secretary will add CRNA's diabetes grants and any other statutorily mandated grant(s) administered by the Department through IHS to this Funding Agreement after such grant(s) have been awarded. Grant funds will be paid to CRNA as a lump sum advance payment through the PMS grants payment system as soon as practicable after award of the grant. CRNA will use interest earned on such funds to enhance the purposes of the grant including allowable administrative costs. CRNA will comply with all terms and conditions of the grant award, including reporting requirements, and will not reallocate grant funds nor redesign the grant program, except as provided in the implementing regulations or the terms of the grant.

4.2 Contract Support Costs. Contract support costs (CSC) will be paid in accordance with 25 U.S.C. § 5325 and § 5388(c). The parties agree that, according to the best data available as of the date of execution of this agreement, the amount to be paid under the fiscal year covered by this agreement, which represents the parties' estimate of CRNA's full CSC requirement pursuant to 25 U.S.C. § 5325, is $2,514,237, including $524,714 for direct CSC and $1,989,523 for indirect or indirect-like CSC. This estimate shall be recalculated as necessary as additional data becomes available including information regarding the direct cost base, pass throughs and exclusions, and the indirect cost rates to reflect the full CSC required under 25 U.S.C. § 5325. The parties will cooperate in updating the relevant data to make any agreed upon adjustments. In the event the parties disagree on the CSC amounts estimated and paid pursuant to this paragraph and CRNA's full CSC requirement under the ISDEAA, the parties may pursue any remedies available to them under the ISDEAA, the Compact, and the Contract Disputes Act, 41 U.S.C. §7101 et seq.

4.3 Base Budgets.

4.3.1 Categories and Base Year. At the end of the first period of the base budget option, IHS and Co-Signers agreed to extend the three year (FY 1998–FY 2000) base budgets implemented for the Compact for an additional two years (FY 2001–FY 2002). IHS and CRNA have subsequently agreed to additional extensions through FY 2020. IHS and Co-Signers have agreed to further extend the base budget period at CRNA's option. The following categories are subject to base budgeting for the base year period and the period, as noted below:

Category of Funding	Base Period for Base Funding	Extended through:
Headquarters TSA amounts[10]	FY 97	FY 2024
Equipment Replacement Funding	Not Included	n/a
Area Tribal Share	Not Included	n/a

4.3.2 Adjustments. Adjustments to base funding shall be permitted in direct proportion to changes in appropriated amounts (by sub-activity), as provided under Section 6.1 [Due to Congressional Actions]. Adjustments shall also be permitted for the addition of new co-signers to the Alaska Tribal Health Compact and when current co-signers add or retrocede PSFAs, as provided in Section 12.3 [Due to Addition of New Programs].[11] Adjustments also shall be permitted when co-signer(s) choose to restrict or unrestrict previously "restricted" or "unrestricted" categories, provided that restrictions shall be changed only during annual negotiations. CRNA also shall be eligible for funding for new services, services increase, mandatories, specific Congressional appropriation for population growth, health services priority system, contract support costs and other increases in resources on the same basis as all other tribes. Adjustments for changes required when a tribe joins or withdraws from a tribal consortium shall also be permitted, as provided under Section 6.2 [Due to Contracting or Compacting by Authorizing Tribes] Compact Co-signers shall also remain eligible for the distribution of additional tribal shares for Assessments, Worker Compensation, Emergency Reserve, Management Initiatives, and other PSFAs from Headquarters.

Section 5 – Method of Payment.

5.1 Payment Schedule. Except as provided in subsections 5.2 [Availability of Tribal Shares], 5.3 [Buyback/Withholding], and 5.4 [Periodic Payments] of this section, all funds identified in Section 4 [Amounts Available During the Term of the Funding Agreement] of this Funding Agreement shall be paid to CRNA, in accordance with Article II, Section 4 (a) [Payment Schedule] of the Compact; payment to CRNA to be made as follows:

> One annual payment in lump sum to be made annually in advance by check or wire transfer.

5.2 Availability of Tribal Shares. CRNA will be paid 100 percent of Headquarters and Area Tribal Shares in its initial lump sum payment, as negotiated in this Funding Agreement.

5.3 Buyback/Withholding. CRNA may carry out its responsibility to provide certain PSFAs included in this Funding Agreement by using services or other resources of the Federal government under Article V, Section 22 [Purchases from the Indian Health Service] of the Compact, as permitted by law. Except as provided herein, the cost of such services and the terms under which they may be made available to CRNA are set forth in the Buyback/Withhold

[10] Compact base budgets for TSA amounts shall be considered as a whole (entire Compact amount) and shall be subject to adjustment of the internal allocation subject to Compact agreements.

[11] This includes addition of new facilities when the addition of these facilities includes an increase in equipment funds identified for the new facilities.

Agreement between IHS and CRNA, which is attached as Appendix D to this Funding Agreement and incorporated by reference herein. The administrative surcharge provided for in Section 2.2.4 of the Buyback/Withhold Agreement for FY 2021 shall be .285 percent. Notwithstanding Section 5 of the Buyback/Withhold Agreement, upon the request of IHS or any Co-Signer, such Buyback Agreement will be negotiated for future fiscal years annually during negotiation of this Funding Agreement.

5.4 Periodic Payments. Payment of funds otherwise due to CRNA under this Funding Agreement, which are added or identified after the initial payment is made, shall be made promptly upon request of CRNA by check or wire transfer.

Section 6 – Adjustments.

6.1 Due to Congressional Actions. The parties to this Funding Agreement recognize that the total amount of the funding in this Funding Agreement is subject to adjustment due to Congressional action in Appropriations Acts or other law affecting availability of funds to IHS and U.S. Department of Health and Human Services. Upon enactment of any such Act or Law, the amount of funding provided to the CRNA in this Funding Agreement shall be adjusted as necessary, after CRNA has been notified of such pending action and subject to any rights which CRNA may have under this Funding Agreement, the Compact or the law.

6.2 Due to Contracting or Compacting by Authorizing Tribes. Should any authorizing Tribe assume responsibility for PSFAs (or portions thereof) under a contract or funding agreement pursuant to the Act, adjustment to funding amounts and responsibilities of CRNA under this Funding Agreement will be negotiated.

Section 7 – Records.

7.1 Incorporation of the Privacy Act. Pursuant to Section 506(d)(1) of Title V, records acquired, generated or maintained by CRNA shall not be treated as Federal records under Chapter 5 of Title 5 of the United States Code, except that:

7.1.1 Patient medical records, financial records, and personnel records may be disclosed only in accordance with 5 U.S.C. Section 552a(b); and

7.1.2 Pursuant to Section 105(o) of Title I, the medical records generated by CRNA shall, at the option of CRNA be stored with the National Archives and Records Administration, and CRNA shall have access to such records.

7.2 Confidentiality Standards. CRNA will seek to comply with the Administrative Simplification provisions of the Health Insurance Portability and Accountability Act of 1996 (HIPAA), including, but not limited to, privacy, security, transactions, and code set regulations, codified at 45 CFR Parts 160, 162 and 164. If a record is not subject to HIPAA, CRNA will maintain the confidentiality of its records in accordance with policies and procedures adopted by its Governing Body, which will be consistent with the purposes and guidelines of HIPAA and the Federal Privacy Act of 1974.

Section 8 – Program Rules. CRNA shall make a best effort to carry out the PSFAs in this Funding Agreement in compliance only with those guidelines, manuals, and policy directives as adopted by the CRNA Board of Directors. These will include Community Health Aide/Practitioner certification standards.

Except as specifically set forth in this section, pursuant to Section 517(e) of Title V, CRNA does not agree to be subject to any agency circular, policy, manual, guidance or rule adopted by IHS, except for the eligibility provisions of Section 105(g) and the regulations promulgated under Section 517 of Title V, unless otherwise waived.

Section 9 - Real Property Reporting Requirements

9.1 Leases. IHS must report on its federally leased facilities. CRNA agrees to notify AANHS of changes in occupancy, size, use, and general condition of Village Built Clinic (VBC) leased facilities in locations where CRNA has bought back services from IHS. IHS will annually, or upon renegotiation, provide to CRNA a copy of each VBC lease. No increase in the amount due to the lessor pursuant to a lease will be negotiated by IHS without advance notice to CRNA. In administering these leases, IHS will work with CRNA to ensure that each lease is in compliance with the standards referenced in the VBC lease.

9.2 Maintenance and Improvement Funds. CRNA agrees to use maintenance and improvement funds received through this Funding Agreement in accordance with the appropriation language for Indian Health Facilities in the Department of Interior and Related Agencies Appropriation Acts for FYs 2021, 2022, 2023, and 2024 or any comparable Act of Congress that contains the subject appropriation and in accordance with 41 U.S.C. § 12 to the extent applicable.

9.3 National Environmental Policy Act. The National Environmental Policy Act (NEPA), National Historic Preservation Act (NHPA), and related provisions of law require IHS to review and approve actions resulting in the use or commitment of IHS funds or that affect IHS property, and which may significantly impact the environment or cultural resources. Unless CRNA has assumed these responsibilities under a construction project agreement in accordance with Section 509 of Title V and 42 C.F.R. § 137.285-312, IHS must carry out these responsibilities and has elected to utilize Appendix F. Where CRNA plans to undertake an action, as described in Appendix F, on IHS owned real property or utilizing IHS funds received through this Funding Agreement and CRNA has not assumed these responsibilities, CRNA will provide IHS with a Project Summary Document (see Appendix G-4) and a completed Environmental Information and Documentation Form (see Appendix G-5) so that IHS can accomplish these requirements, and issue a Determination Document (Categorical Exclusion (CATEX) or Finding of No Significant Impact (FONSI)), as soon as possible. All documentation shall be submitted to IHS as early as possible in the planning phase of the project to prevent delays in the action. No irreversible action can be taken by CRNA until IHS completes its compliance responsibilities and so advises CRNA with a Determination Document). Pending resource availability, IHS is available for education and consultation on NEPA, NHPA, and related provisions of law on an as needed basis.

Section 10 – Retrocession and Discontinuance.

10.1 Retrocession. The retrocession provisions of Section 506(f) of the Act are herein adopted, except that the effective date of a retrocession request from the Compact and Funding

Agreement, in whole or in part, shall be one year from the date of the request by an authorizing Tribe or Village, except as provided below. Retrocession may be effective with less than one year's notice, providing the Tribe or Village requesting retrocession, CRNA, and IHS agree to an effective date of less than one year from the date of retrocession request.

10.2 Discontinuance. CRNA may discontinue its participation in the Compact after written notice to each authorizing Tribe and IHS. Notice must be provided one year in advance of the effective date of the request except that the effective date of a request may be less than one year upon approval of all authorizing Tribes and IHS.

10.3 Withdrawal Procedures.

10.3.1 Process. Unless prohibited by law and in accordance with Section 506(g) of the Act, a Tribe or tribal organization may fully or partially withdraw from a participating tribal organization its share of any program, services, function, or activity (or portions thereof) included in the Compact or Funding Agreement, and such withdrawal shall become effective within the time frame specified in the resolution which authorized transfer to the participation tribal organization, provided that in the absence of a specific time frame being set forth in the resolution, such withdrawal shall become effective on

10.3.1.1 The earlier of
10.3.1.1.1 One year from the date of submission of such request; or
10.3.1.1.2 The date on which the Funding Agreement expires; or

10.3.1.2 Such date as may be mutually agreed by the Secretary, by the Indian Tribe or Tribal Organization that is withdrawing, and by the tribal organization that has signed the Compact and Funding Agreement on behalf of the withdrawing Indian Tribe or tribal organization.

Section 11 – Consolidation of Contracts and Previous Funding Agreements. The contract listed below and all previous Annual Funding Agreements shall be amended or terminated, as appropriate, to transfer applicable contract funds into this Funding Agreement for programs, activities, functions, services, materials, and facilities provided to the Tribes represented by CRNA.

Contract No: 243-89-0004, as amended.

Section 12 – Amendment or Modification of this Funding Agreement.

12.1 Form of Amendments. Except as otherwise provided by this Funding Agreement, the Compact, or by law, any modifications of this Funding Agreement shall be in the form of a written amendment and shall require written consent of each of the signatory Tribes, acting directly or through CRNA as authorized by resolution, CRNA, and the Secretary. Participation or written consent of Tribes and Co-Signers not subject to the terms of this Funding Agreement shall not be required.

12.2 Services from IHS. Should CRNA determine that it wishes IHS to provide PSFAs included in this Funding Agreement for which funding has been identified but not provided, the

parties shall negotiate an amendment to the Funding Agreement to reflect the transfer of responsibilities from CRNA back to IHS and the pro-rata share of funding for that program, service, function or activity shall be retained by IHS. Unless otherwise negotiated, IHS will not transfer centrally paid expenses including but not limited to Workers Compensation to any Co-Signer.

12.3 Due to Addition of New Programs. Should CRNA determine that it wishes to provide a program, service, function or activity of IHS not included in this Funding Agreement, CRNA shall submit a proposal to IHS to provide such program, activity, function, or service. The parties agree to negotiate such a proposal and, should the parties fail to reach agreement, CRNA may submit a final offer in accordance with Title V procedures set forth in Section 507(b)-(d) of Title V. A proposal submitted pursuant to this section shall be treated as a request for amendment to the Funding Agreement and, once approved by IHS, the Alaska Area Office shall prepare within 30 days an amendment to this Funding Agreement and the amendment shall be executed through the Area Office and added to this Funding Agreement.

12.4 Due to Availability of Additional Funding. CRNA shall be eligible for any increases in funding or funding for new programs for which it would have been eligible had it been administering programs under a self-determination contract, rather than under the Alaska Tribal Health Compact and this Funding Agreement, and for any other funds that are not restricted by appropriations language for which any Alaska tribe or tribal organization may be eligible, including any new funds appropriated for IHS Headquarters and funds passed to Alaska Area as recurring or non-recurring funds, and this Funding Agreement shall be amended to provide for timely payment of such new funds to CRNA. Such amendment shall be originated and prepared within 30 days by the Alaska Area Office and executed through the Area Office in consultation with CRNA.

12.5 Other Adjustments. Upon written authorization by CRNA and agreed to by IHS, IHS may reallocate funds retained by IHS, which are obligated to CRNA, for the purpose of reimbursing IHS for services or equipment provided to CRNA to assist in carrying out the terms of the Compact and this Funding Agreement.

12.6 General Procedures for Amending or Modifying this Funding Agreement. Amendments or modification proposed by CRNA shall be submitted in writing to IHS, Alaska Area Director with a copy to the Office of Tribal Self-Governance at IHS Headquarters. Except as provided with respect to the incorporation of a provision of Title I of the Act under Article V, Section 21 [Applicability of Title I Provisions] of the Compact, or as provided above in paragraph 12.4 [Due to Availability of Additional Funding], and 12.7 [Funding Increases] of this section, a request to amend or modify this Funding Agreement submitted by CRNA shall be processed in accordance with Sections 507(b)-(d) of Title V of the Act, and all provisions of those identified sub-sections are incorporated herein for this purpose.

12.7 Funding Increases.

12.7.1 Written consent of CRNA shall only be required for issuing amendments for those funds which:

12.7.1.1 require a change to Section 3 – Tribal Programs and Budget;

12.7.1.2 require a specific commitment by CRNA (e.g., Maintenance & Improvement projects and prior fiscal year Sanitation Facility Construction projects); or

12.7.1.3 reduce funding other than changes in Congressional appropriations pursuant to Section 6.1 [Due to Congressional Actions].

12.7.2 Amendments not requiring written consent may include, but are not limited to:

12.7.2.1 Program/Area/HQ Mandatories;

12.7.2.2 Program/Area/HQ End-of-Year Distributions;

12.7.2.3 CHEF, subject to the condition that if a case initially qualifying for reimbursement is paid (in whole or in part) by an alternate resource or cancels for any reason, CRNA will return the unused amount to the IHS CHEF account;

12.7.2.4 CHS Deferred Services;

12.7.2.5 Routine Maintenance & Improvement; or

12.7.2.6 Collections and reimbursements.

12.7.3 Amendments reflecting payment of these funds shall be provided to CRNA after any such funds are added to the Funding Agreement. CRNA retains the right to reject the addition of such funds to the Funding Agreement and return the funds to IHS.

Section 13 - Payer of Last Resort. Whether providing, purchasing, or authorizing health care services described in the Compact and this Funding Agreement, in accordance with Section 2901(b) of Pub. L. 111-148 [25 U.S.C. § 1623(b)], and as otherwise provided in law, CRNA shall be the payer of last resort.

Section 14 – Third Party Recoveries. Any funds recovered by CRNA through the filing, litigating, or settling a claim against a third party to require that third party to pay for services previously provided to IHS-eligible beneficiaries by CRNA, or for such services previously provided by IHS in a PSFA now operated by CRNA, shall be the property of CRNA and shall be considered program income to be utilized by CRNA as provided in Article III, Section 7 [Program Income, Including Medicare/Medicaid] of the Compact. Any prospective recovery of funds for such services shall likewise be considered program income to be utilized pursuant to Article III, Section 7 [Program Income, Including Medicare/Medicaid] of the Compact.

Section 15 – Memorandum of Agreement with Member Villages. Funds provided under this Funding Agreement may be allocated to and expended by an Alaska Native Village (Village) which is a party to this Funding Agreement in accordance with the terms of the Compact, this Funding Agreement and a Memorandum of Agreement (MOA) approved by CRNA and the Village. The Federal Tort Claims Act shall apply to PSFAs carried out by the Village under such MOA and to the Village and its employees to the same extent as if they had been carried out directly by CRNA. Such an MOA may include provisions for the assignment of federal employees under IPA assignment or Commissioned Corps detail. Such assignment shall be subject to the approval of the AANHS Director. CRNA shall be responsible for assuring compliance by the Village with the Compact, this Funding Agreement and the MOA.

Section 16 – Service to Non Beneficiaries. Section 813 of the Indian Health Care Improvement Act, as amended, 25 U.S.C. 1680c, (Section 813), authorizes the governing body of

a Tribal Organization carrying out health services of IHS under the Indian Self-Determination and Education Assistance Act to determine whether health services should be provided under the Tribal Organization's funding agreement with the IHS "to individuals who are not eligible for such health services under any other subsection of this section or under any other provision of law" 25 U.S.C. 1680c(c)(2) The CRNA Board of Directors has made such determination consistent with Section 813 and provides for its findings in Resolution No. 2011-03. Resolution 2011-03 is attached as Appendix B and incorporated by reference herein. CRNA may provide services under this Funding Agreement to non-beneficiaries as described in Resolution No. 2011-03. In addition, services may be provided to U.S. Public Health Service Commissioned Corps Officers and their dependents.

Section 17 – Memorializing Disputes. The parties to this Funding Agreement may have failed to reach agreement on certain matters which remain unresolved and in dispute. Such matters may be addressed through the process set forth in Sections 507(b)-(d) of Title V, or at the CRNA's option, may be set forth in an attachment to this Funding Agreement, which shall be identified as "Memorialization of Matters Remaining in Dispute." This attachment shall not be considered a part of this Funding Agreement, but is attached for the purpose of recording matters in dispute for future reference, discussion, and resolution as appropriate. CRNA does not waive any remedy it may have under the law with regard to these issues and any others not listed herein.

Section 18 – Severability.

This Funding Agreement shall not be considered invalid, void, or voidable if any section or provision of this Funding Agreement is found to be invalid, unlawful, or unenforceable by a court of competent jurisdiction. Should such a court make such a finding, the parties will seek agreement to amend, revise, or delete any such invalid, unlawful or unenforceable sections or provision, in accordance with the provisions of the Compact.

Section 19 – Title I Provisions Applicable to This Funding Agreement. As authorized in 25 U.S.C. § 5396(b), CRNA exercises its option to include the following provisions of Title I of the Act as part of this Funding Agreement, and these provisions shall have the force and effect as if they were set out in full in Title V of the Act.

19.1. 25 U.S.C. § 5304(b) (definition of "Indian Tribe");
19.2. 25 U.S.C. § 5322(b) (related to grants for health facility construction and planning, training and evaluation);
19.3. 25 U.S.C. § 5322(d)(1) (related to duty of IHS to provide technical assistance);
19.4. 25 U.S.C. § 5324(a)(1) (exemption from Federal procurement and other contracting laws and regulations);
19.5. 25 U.S.C. § 5328(b), (conflicting provisions of law);
19.6 25 U.S.C. § 5329(c), section 1(b)(8)(F) (screener identification);
19.7. 25 U.S.C. § 5329(c), section 1(b)(9) (availability of funds);
19.8. 25 U.S.C. § 5329(c), section 1(d)(1)(B) (construction of contract);
19.9. 25 U.S.C. § 5329(c), section 1(d)(2) (good faith).

19.7. 25 U.S.C. § 5329(c), section 1(b)(9) (availability of funds);
19.8. 25 U.S.C. § 5329(c), section 1(d)(1)(B) (construction of contract);
19.9. 25 U.S.C. § 5329(c), section 1(d)(2) (good faith).

Section 20 – Effective Date and Duration. This Funding Agreement becomes effective on August 1, 2021, and will remain in effect through the 2024 Federal Fiscal Year or until a subsequent agreement in negotiated and becomes effective pursuant to Article II, Section 12 [Subsequent Funding Agreements] of the Compact.

General Notes on Alaska Area Office Tribal Shares

Column 1 - Includes all FY17 changes allocated to TS, Residual, & Transitional as of FY17. In FY 2019 TS changes will be added as received.

Column 2 - Residual includes no changes in residual functions. Based on FY2018 Area approved residual budgets.
Remaining funds at 9/30 distributed (Non-Recurring) to all Alaska Area health programs based on recurring base.

Column 3 - Transitional funds agreed by co-signers to remain at Area Office. Based on FY2018 approved transitional budget.

Column 4 - Restricted by all co-signers & transferred to the ANTHC to provide "Area PSFAs" .

Column 5 - Includes Area TS for all Alaska Tribes, including Title I & Title V. FY19 mandatories to be added if received.

Column 6 - Available Tribal shares for Co-Signer (amounts for ANTHC include pass-through to awardees with shares captured by Sec. 325).
Distributed by the approved ATHC methodology of - 30% # of Tribes / 35% 2010 Census Pop. / 35% 2013 Rec. Base (less VBC).
All Area TS for Services line items will be recurring, Area TS for Facilities will be non recurring.

Column 7 - Items restricted by individual co-signer to pay for continued services from ANTHC. (Restricted amounts are added to ANTHC FA.)

Column 8 - The agreed upon amount due (col. 6 - col. 7) to the co-signer after all retained shares are withheld.

Line 1 - All TS funds for non-OEHE Area Office PSFAs except where co-signers have individually decided to retain certain PSFAs at the ANTHC or AANHS.

Line 5 - Lease on Inuit Building.

Line 5a - $20,000 (less sequester) from transitional funding held by IHS to rent space for annual negotiations. Funds transferred to ANTHC upon confirmation of space availa

Line 7 - Centrally paid expenses, including personnel & finance support for Area positions, costs & funds for departmental assessments.

Line 8 - Area Human Resources functions (previously Office of Personnel & Training).

Line 9 - Funding originally from ANMC - have all been returned to SCF/ANTHC as IPA/MOAs were reduced.

Line 10 - Includes funding for Area PSFAs transferred to ANTHC under Section 325.

Line 11 - Funds to ANTHC to support the statewide Contract Health Services reserve program.

Line 12 - Funds to ANTHC to support specialized services in Barrow, NSHC, & BBAHC & certain statewide laboratory contracts.

Line 13 - ANHB funds from Loc 77 including previous tobacco prevention funding.

Line 14 - Supply Service Center individually withheld amounts retained for ANTHC for all co-signers except YKHC, Seldovia, & Eklutna.

Line 15 - Funds distributed to support the Epidemiology Center distributed to co-signers for individual payment to ANTHC.

Line 16 - Funds for EMS training. Retained by IHS for transfer to ANTHC for Maniilaq, BBAHC, & Chugachmiut for EMS training at ANMC.

Line 18 - Does not include funds from surcharge, assessments, or other services purchased through Area Office.

Line 22 - Funds retained for ANTHC for all co-signers except YKHC, SCF, & KIC.

Line 24 - Does not include NR SFC funds for Health Facilities design and construction oversight.

Column 1 - All numbers are based on HQ PFSAs for FY20 Table #4 dated 1/13/20 & FY21 Table 4F dated 7/16/20 (facilities)
Column 2 - All numbers are based on HQ PFSAs for FY20 Table #4 dated 1/13/20 & FY21 Table 4F dated 7/16/20 (facilities)

Column 3 - Individual Co-Signer share of column 2.
Column 4 - Co-Signer amounts left with (retained by) IHS to provide service- If service is not available IHS shall pay to each Co-Signer amount provided.
Column 5 - This column (col. 3 - col. 4) is the HQ. TS funds due to Co-Signer, calculated by Alaska TSA formula.
All Headquarters Tribal Shares shall be recurring except for Facilities (lines 2401 -2405) and funds in lines 101 and 105.
Line 101 - Any funds remaining will be distributed non recurring on 9/30 (from HQ by TSA formula) and to each Co-Signer on ATHC distribution method.
Line 105 - Any funds remaining will be distributed non recurring on 9/30 (from HQ by TSA formula) and to each Co-Signer on ATHC distribution method.
Line 106 - All Alaska Co-Signers restricted all funds to continued advanced OB training opportunities for all Alaska Area physicians.
Line 120 -Alaska Co-Signers restricted a total of $31,000 dollars for the clinical support center for CME certification and "IHS Provider" magazine.
Line 124 - BBAHC, EAT, Chugachmiut, Eyak, and Maniilaq retrocede 50% of line 124 to IHS in exchange for use of recruitment website ihs.gov/jobs.
Line 126, 137 -DIR withheld were computed at 27.8% of each Co-Signer on ATHC proposal. See Section 1 of the Funding Agreement.
Line 0154 New line for Prescription Drug monitoring. Full share included in co-signers TS.
Line 201 - Dental Program - approximately $800,000 transferred to line 1302 in Direct Ops Dental. No impact on TS.
Line 1301a - DIR Withheld was computed at 21.1% of each Co-Signer share based on continuing agreements with Dir. DIR.
Linr 1302 - Direct Ops Dental is now in line 201
Lines 2401-2405 - Funds available for OEHE support functions (from table 4f) provided based on national formula at tribal option.

General Notes on Alaska Area Office Tribal Shares

Column 1 - Includes all FY17 changes allocated to TS, Residual, & Transitional as of FY17. In FY 2019 TS changes will be added as received.

Column 2 - Residual includes no changes in residual functions. Based on FY2018 Area approved residual budgets.
Remaining funds at 9/30 distributed (Non-Recurring) to all Alaska Area health programs based on recurring base.

Column 3 - Transitional funds agreed by co-signers to remain at Area Office. Based on FY2018 approved transitional budget.

Column 4 - Restricted by all co-signers & transferred to the ANTHC to provide "Area PSFAs" .

Column 5 - Includes Area TS for all Alaska Tribes, including Title I & Title V. FY19 mandatories to be added if received.

Column 6 - Available Tribal shares for Co-Signer (amounts for ANTHC include pass-through to awardees with shares captured by Sec. 325).
Distributed by the approved ATHC methodology of - 30% # of Tribes / 35% 2010 Census Pop. / 35% 2013 Rec. Base (less VBC).
All Area TS for Services line items will be recurring, Area TS for Facilities will be non recurring.

Column 7 - Items restricted by individual co-signer to pay for continued services from ANTHC. (Restricted amounts are added to ANTHC FA.)

Column 8 - The agreed upon amount due (col. 6 - col. 7) to the co-signer after all retained shares are withheld.

Line 1 - All TS funds for non-OEHE Area Office PSFAs except where co-signers have individually decided to retain certain PSFAs at the ANTHC or AANHS.

Line 5 - Lease on Inuit Building.

Line 5a - $20,000 (less sequester) from transitional funding held by IHS to rent space for annual negotiations. Funds transferred to ANTHC upon confirmation of space availa

Line 7 - Centrally paid expenses, including personnel & finance support for Area positions, costs & funds for departmental assessments.

Line 8 - Area Human Resources functions (previously Office of Personnel & Training).

Line 9 - Funding originally from ANMC - have all been returned to SCF/ANTHC as IPA/MOAs were reduced.

Line 10 - Includes funding for Area PSFAs transferred to ANTHC under Section 325.

Line 11 - Funds to ANTHC to support the statewide Contract Health Services reserve program.

Line 12 - Funds to ANTHC to support specialized services in Barrow, NSHC, & BBAHC & certain statewide laboratory contracts.

Line 13 - ANHB funds from Loc 77 including previous tobacco prevention funding.

Line 14 - Supply Service Center individually withheld amounts retained for ANTHC for all co-signers except YKHC, Seldovia, & Eklutna.

Line 15 - Funds distributed to support the Epidemiology Center distributed to co-signers for individual payment to ANTHC.

Line 16 - Funds for EMS training. Retained by IHS for transfer to ANTHC for Maniilaq, BBAHC, & Chugachmiut for EMS training at ANMC.

Line 18 - Does not include funds from surcharge, assessments, or other services purchased through Area Office.

Line 22 - Funds retained for ANTHC for all co-signers except YKHC, SCF, & KIC.

Line 24 - Does not include NR SFC funds for Health Facilities design and construction oversight.

BOARD OF DIRECTORS RESOLUTION

Resolution No. 11-03

TITLE: **DELIVERY OF HEALTH CARE SERVICES TO INDIVIDUALS NOT OTHERWISE ELIGIBLE FOR SERVICES FROM THE INDIAN HEALTH SERVICE**

1. Whereas, Copper River Native Association (CRNA), is a Tribal Organization established to provide health care services to the Alaska Native people of the Copper River Area by resolution of the governing bodies of its member Tribes; and

2. Whereas, CRNA is a Co-Signer to the Alaska Tribal Health Compact under Title V of the Indian Self-Determination and Education Assistance Act, Pub. L. 93-638, as amended; and

3. Whereas, pursuant to the Alaska Tribal Health Compact and funding agreements negotiated annually there under with the Indian Health Service (IHS), CRNA carries out the programs, services, functions, and activities (PSFA) of the IHS which include various clinical and community health services in the Copper River Area; and

4. Whereas, the Federal Tort Claims Act applies to CRNA's PSFAs under its Funding Agreement, and the CRNA Board understands that in order to extend such coverage to the services it provides to non-beneficiaries it must "take into account" the factor set forth in Section 813 of the Indian Health Care Improvement Act, as amended, 25 U.S.C. 1680c;

5. Whereas, Section 813 of the Indian Health Care Improvement Act, as amended, 25 U.S.C. 1680c, (Section 813), authorizes the governing body of a Tribal Organization carrying out health services of the IHS under the Indian Self-Determination and Education Assistance Act to determine whether health services should be provided under the Tribal Organization's funding agreement with IHS "to individuals who are not eligible for such health services under any other subsection of this section or under any other provision of law" (non-beneficiaries), 25 U.S.C. § 1680c(c)(2); and

6. Whereas, Section 813 provides that in making such a determination, the governing body of the Tribal Organization shall "take into account" whether the provision of health care services to

such individuals will result in the denial or diminution of health services to Alaska Natives or American Indians; and

7. Whereas, the governing body of CRNA is the Board of Directors ("the Board"), consisting of nine (9) tribally-elected representatives; and

8. Whereas, the Board has carefully considered the factors identified in Section 813; and

9. Whereas, the Board has examined the populations of the communities in the Copper River Area and the historical and current use of CRNA services by beneficiaries and non-beneficiaries in those communities; and

10. Whereas, the Board has reviewed and examined the historical and current use of CRNA medical services, dental services, behavioral health services, and substance abuse treatment services by beneficiaries and non-beneficiaries in the Copper River Area; and

11. Whereas, non-beneficiaries make up a small percentage of the persons receiving care from CRNA facilities and practitioners, the CRNA Board has determined that services provided to non-beneficiaries at CRNA's facilities or by CRNA's providers, to the extent described in this resolution, will not result in the denial or diminution of services to IHS beneficiaries; and

12. Whereas, CRNA has established billing and collection procedures to ensure that non-beneficiaries are billed an amount that results in recovery of actual costs for the health services they receive from CRNA staff and facilities; and

13. Whereas, CRNA has entered into agreements to ensure payment for services offered to indigent non-beneficiaries as required by Section 813 and

14. Whereas, the Board has determined that Section 813 of the Indian Health Care Improvement Act, as amended, 25 U.S.C. § 1680c, is satisfied.

RESOLUTION

1. Now therefore it be resolved, that the Board of Directors of CRNA authorizes the extension of the full range of health services, including but not limited to, medical services, dental services, behavioral health services, substance abuse treatment, injury prevention summer safety swim program services to non-beneficiaries in all communities within the Copper River Area; and

2. Be it further resolved, that the CEO, or his or her designee, is authorized and is directed to limit or eliminate access to such health services by non-beneficiaries should provision of such services diminish the provision of health services to beneficiaries of the Indian Health Service; and

3. Be it further resolved, that this Resolution supersedes and replaces Resolution 07-04 entitled Delivery of Health Care Services to Individuals not Otherwise Eligible for Services from the Indian Health Service, dated November 17, 2006 addressing prior CRNA services to non-eligible

individuals.

MEMORANDUM OF AGREEMENT DESCRIBING THE CONTINUING SERVICES OF THE INDIAN HEALTH SERVICE, ALASKA AREA NATIVE HEALTH SERVICE TO COPPER RIVER NATIVE ASSOCIATION FOR FY 2020

I. INTRODUCTION

This agreement provides for the continuation by the Indian Health Service (IHS) of certain services from the Alaska Area Office for the benefit of Copper River Native Association under its Funding Agreement (FA) under the Alaska Tribal Health Compact (ATHC) Self-Governance Compact.

This agreement is limited to the programs, services, functions, and activities (PSFAs) performed by the residual and transitional federal staff of the Alaska Area Office.

This agreement should be interpreted in conjunction with Copper River Native Association's FA and Appendix A to that FA, which may provide for additional detail on "restrictions" of funds at the Area or Headquarters level to ensure that specific services are continued to the individual Co-Signer.

In FY 2020, funding for these continuing services and activities will be from the funds, which have been designated as residual and from funds, which have been designated in support of temporary transitional federal PSFAs. In addition funding to purchase specific services, i.e., use of IPA/MOA assignees and Village Built Clinic leases, may be provided through reimbursement by Copper River Native Association to the IHS.

II. DEFINITIONS

The following definitions are in common usage in the Alaska Area:

A. ATHC Tribal Restricted Share - Used in Alaska to refer to those retained Tribal shares all compacting Tribes jointly initially agreed to leave in the Area Office in support of Alaska Area state wide PSFAs. Pursuant to Section 325 of PL 105-83, these shares now are in the Alaska Native Tribal Health Consortium (ANTHC) FA or are used for transitional federal PSFAs.

B. Buyback - The process by which Co-Signers use cash to purchase Area services from the Area Office. Requires accurate description and pricing of service, and mechanism for Area to invoice and receive payment.

C. Co-Signer Restricted Shares - Used in Alaska to refer to "retained Tribal shares" that have been left at the Area Office or Headquarters on an individual basis by a Co-Signer to allow the Area, Headquarters or ANTHC to provide specific services to the Co-Signer. Pursuant to Section 325 of PL 105-83, these Area shares now are in the ANTHC FA or are used for transitional federal PSFAs.

D. Residual - The resources necessary to support the PSFAs required for the United

States Government to fulfill and maintain its moral and legal responsibilities based on treaties, statute, and Executive order that are essential for the federal government to fulfill its "inherent federal functions".

E. Transition Plan - Plan initially agreed to by the Alaska Tribes to allow a transition of less than 100% of the Area Office Tribal shares to the Co-Signers collectively. (This definition is included for historical purposes only.)

F. Tribal Share - That portion of Headquarters or Area resources not determined to be residual and allocated to individual Tribes or to Tribes collectively, via Tribal organizations, utilizing an agreed upon methodology.

G. Tribe - As used in this Agreement, "Tribe" refers to Tribes and Tribal organizations, as those terms are defined respectively in Sections 4(e) and (*l*) of P.L. 93-638, the Indian Self-Determination and Education Assistance Act, as amended (the Act).

III. AREA SERVICE DELIVERY AGREEMENT

Nothing in this agreement is intended by Copper River Native Association or the IHS, nor shall be interpreted by any party, to limit or reduce in any way the PSFAs that any Tribe or Tribal organization is eligible to receive from the Area Office under Sec. 102 of Title I of the Act, under Sections 505 and 515(a) of Title V of the Act, or any other applicable federal law.

The table for each "Office" (or separate organizational component) presents the PSFAs currently performed and the staffing to perform the PSFAs. The residual PSFAs described in this Continuing Services Agreement serve all Co-Signers. The transitional personnel shown in this Agreement primarily support ANTHC PSFAs; however, some support other Co-Signers (e.g. IPA/MOA). PSFAs and the associated funds and personnel performing transitional PSFAs in support of the ANTHC (and Southcentral Foundation (SCF) for certain designated human resources PSFAs) under this Agreement may be transferred to the ANTHC or SCF under its FA.

A. OFFICE OF THE DIRECTOR

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional	Staffing (FTE)
Director	Provides overall executive direction and support on behalf of the Secretary.	R	1
Deputy Director, Chief Medical Officer	Provides public health advocacy; clinical consultation (CMO); legally required certification of health aide credentials and oversight of CHAP certification process; consultation in CHAP/Rural Health program management.	R	1
Executive Officer	Serves as principal advisor to the Director on overall management policies and procedures.	R	1
Attorney	Provides Region X attorney support and consultation.	R	1
EEO	Provides EEO support. 1		
Support Staff	Secretarial, clerical and administrative support to inherent and transitional federal functions at all levels of the Area Office.	R T	3 1
Planning, Evaluation & Statistics	Prepare statistical reports and publications in support of planning, evaluation and resource allocation requirements.	R	2
	Total		10

The Office will provide the specific PSFAs defined below:

1. Executive direction on behalf of the Secretary to the remaining inherently federal functions.
2. Advocacy at national level on behalf of the Tribes of Alaska including: legislative, policy, resource allocation, and appropriation advocacy.
3. Policy formulation and interpretation; supervision of non-IPA/MOA federal employees; negotiate, execute and administer compacts and FAs; resource allocation.
4. Public health coordination with Tribal, state and federal governments.
5. Provide legal advice and consultation on behalf of the Secretary.
6. Provides representation on the Executive Committee and Planning Committee of the Alaska Federal Health Care Partnership (AFHCP). Through the government-to-government relationship with Tribes and Tribal organizations, provides the mechanism for Tribal membership on the AFHCP.
7. Eligibility determinations assistance.
8. Equal Employment Opportunity program management in support of federal employment rights.
9. Oversight of certification of Community Health Aides as outlined by law and the *IHS Community Health Aide Program Certification Board Standards and Procedures*.
10. Consultation and technical assistance to Tribes and Tribal organizations staff and programs including
    a. Program review or evaluation at the request of the Area Director or the invitation of Tribal programs;
    b. Submission of electronic health record data to IHS National Data Warehouse; and
    c. Maintain current Area statistics to provide statistical analysis in support of resource needs and allocations.

1 The EEO function is provided under an intra-agency agreement among the IHS Alaska, California and Portland Area Offices.

d. Review and validate Alaska active user populations.

e. Publish *Census Based Alaska Native Population Counts* to supplement and cross check the accuracy of the user populations.

f. Verify the permanent staff increase Resource Requirement Methodology Needs Assessment (RRMNA) prepared by Tribes to determine staff needed for new facilities.

g. Collate data submitted for IHS distribution of specially earmarked funds following national allocation guidelines, when available, and suggest alternate distribution methods to program directors.

h. Publish the *Alaska Area Profile.*

i. Maintain the Alaska Area IHS website and publish Area Director's quarterly newsletter.

j. Publish the *Area Senior Executive Service Workplan* to support agency evaluation of the goals and accomplishments of the Area Office, its Director and Office Directors.

k. In cooperation with the AANHS/OEHE and ANTHC's Division of Environmental Health and Engineering and Co-Signers, provide user population and workload data, assist Co-Signers with preparation of applications; verify applications and planning documents prepared by Tribes (Health System Planning -HSP, PORs, and PJDs) for health facility expansion and replacement; and assist Co-Signers in the Headquarters' review process.

l. Communication between Tribal programs and IHS by seeking legal opinion from Region X attorney on issues which affect health care delivery by Community Health Aides such as standards of care, certification, Clinical Laboratory Improvement Act (CLIA) regulations, and Federal Tort Claims Act coverage.

11. Provide health program technical assistance and consultation on a limited basis as expertise and resources permit. This includes consultation on PSFA descriptions in Title I contracts, Title V FAs, specified grants and personal service and other contracts.

12. Support staff for the Director's Office and all other Area Office components without specific support staff.

13. Provide reimbursement to Headquarters for certain centrally paid expenses to include 100 percent of Department of Health and Human Services financial services and portions of other such expenses as reflected in the negotiated transitional budget for the ANTHC.

14. Performs the responsibilities identified in section 1 of the FA regarding ANTHC and SCF assurances.

15. Perform delegated functions to approve and administer FAs and amendments. The delegation includes the performance of Single Agency Audit, audit resolution for Title V awardees (Co-Signers); the function is provided using a multi-member Area-based team.

16. Responsibility for the Area Internal Control/Management Control programs, IHS Succession Plan and the Strategic Human Capital initiative.

17. As federal supervisor of Commissioned Officers serving under MOAs, the Area Director: functions as Reviewing Official for completion of annual Commissioned Officer Evaluation Reports; provides the Reviewing Official Statement for each officer when they are considered for promotion; and, fulfills any other action required as an officer's Reviewing Official. The Area Director may delegate this responsibility to Area Federal Staff as needed.

B. OFFICE OF ACQUISITION AND PROPERTY MANAGEMENT [2]

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional	Staffing (FTE)
Federal Contracting ,, Personal Property, and FOIA Coordinatio n	Responsible for federal acquisitions to support the Alaska Area Office, including the federal credit card program. Maintains the federal personal property inventory. Provides or coordinates various administrative services for the Alaska Area Office.	R	1
	Total		1

The Office will provide the specific PSFAs defined below:

1. Negotiate, award and administer federal acquisitions.
2. Maintain or develop Alaska Area Interagency and Cooperative Agreements in close partnership with appropriate IHS or other federal, state or Tribal entity(s).
3. Coordinate various administration functions including Freedom of Information Act requests and IHS delegations and directives.
4. Maintain the federal personal property management inventory, including excess and disposal.
5. Provide technical assistance to Tribally managed facilities on procurement issues as requested regarding procurement issues and acquired federal excess property.
6. Maintain the federal credit card program.

2 Residual (1) FTE moved to Office of Tribal Programs in support of Title 1 contracts and audit resolution.

C. OFFICE OF ENVIRONMENTAL HEALTH & ENGINEERING

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional	Staffing (FTE)
Director	Management, supervision and administrative support.	R	2
Sanitation Facilities	Maintenance of Sanitation Facilities Construction (SFC) data information systems for program allocations, National Environmental Policy Act (NEPA) approval, oversight of IHS funded SFC projects.	R T	1 1
Environmental Health	Environmental services associated with federal employees[3]/		
Health Facilities	Support, direction and general administrative support, maintenance of Maintenance & Improvement (M&I), Equipment and other data for program allocation.	R	1
Realty	Maintain government property inventory; manage VBC leases; supports the Alaska Area ISDEAA Section 105(l) lease program; and inspect government-owned facilities	R	1
	Total		6

The Office will provide the specific PSFAs defined below:

1. Sanitation Facilities:

a. Allocation of federal funds under Title V of the Act utilizing subpart N Construction Project Agreements and P.L. 86-121 Project Funding Agreements for project funding.

b. Provide required IHS oversight, facilitation and management of contributed sanitation facility construction funding from other federal and state agencies.

c. Directly allocate IHS resources using data provided by prescribed allocation formulas and justification rationales.

d. Evaluate and approve proposed projects, prepare budget summaries and justifications. Advocate statewide and nationally for the ANTHC Division of Environmental Health and Engineering (DEHE) program and facilitate its implementation.

e. Maintain project information and deficiency databases in the IHS Web-based Sanitation Tracking and Reporting System (W-STARS) to justify congressional funding requests in support of distribution logic.

f. Verify project development, documentation, funding, construction and closeout. Approve project agreements, to include making the determination of National Environmental Policy Act (NEPA) compliance based on information submitted by ANTHC DEHE.

g. Consult on and accept processes and priorities developed through the Sanitation Facilities Advisory Committee and SFC process in conformance with IHS national project eligibility criteria.

h. Onsite reviews of projects may be conducted annually to insure conformance with laws and regulations, e.g., NEPA and National Historic Preservation Act (NHPA) and to verify accuracy of data and programmatic assumptions.

i. Approve earmarked and emergency project funds dispersal.

2. Environmental Health: PSFAs include:

3 The PSFA conducted under this function are performed by all Office staff and others in the Area Office.

a. Overall direction of resources and related environmental surveillance for statewide public health impacts.

b. Continue to carry out functions related to serving as one of the health and medical representatives to the Alaska Federal Emergency Response Group.

c. Provide management and verification of tribal input data in the IHS Environmental Health Services data system known as the Web-based Environmental Health Reporting System (WebEHRS).

d. Provide safety assurance, compliance and reporting relating to federal workers, and professional programmatic support for staff.

e. In the event of a national disaster situation as defined in the Federal Response Plan, IHS is the lead agency for emergency response related to water and sewer damage assessment and mitigation.

3. **Health Facilities:** PSFAs include:

a. Perform budget allocation;

b. Support and approve project or resource allocations derived through a priority system developed through the Maintenance & Improvement Resource Allocation Committee (MIRAC) and ANTHC process consistent with IHS national project eligibility criteria. Verify data submittals and manage IHS facilities databases in conformance with IHS national project and health facilities space eligibility criteria.

c. Respond to Congressional inquiries;

d. Review Project Justification Document/Program Of Requirements (PJD/POR) documents prepared by others;

e. Review and approve national priority systems applications, including Tribal Equipment Funds and Dental Facilities Funds;

f. Maintenance of Alaska portion of the IHS Healthcare Facilities Data System (HFDS) including the Facilities Maintenance and Improvement/Equipment database for federally and Tribally owned health facilities;

g. Support for new health facility construction project funds distribution and project development;

h. Stewardship responsibility for oversight of environmental cleanup of federally owned real property;

i. Approve workload statistics;

j. Advocate statewide and nationally for the DEHE program and facilitates its implementation.

4. **Realty:** PSFAs include:

a. Monitor and manage real property assets in accordance with Executive Order 13327, "Federal Real Property Asset Management" and existing authority under law or by executive order for real property, capital improvements, square footage, use or disposal.

b. Maintain the IHS Real Property Inventory by updating the asset book values with costs relating to acquisition of real property, capital improvements, square footage, use or disposal.

c. Verify construction project closeout documentation for capital improvements made to federal facilities prior to adjusting the real property subsidiary ledger.

d. Perform annual review of real property.

e. Warranted Lease Contracting Officer authorized to lease Village Built Clinics

(VBC) on behalf of the Community Health Aide Program (CHAP).

f. Provide guidance to clinic owners and Tribal organizations with community health aides operating VBC leased clinics.

g. Determine correct process for disposing of excess real property and manages project to end.

h. Develop and recommend IHS Policy formulation on real property, leases and quarters;

i. Provide management and verification of real property and lease data within the health care facilities database.

j. Provide direct guidance and assistance in federal acquisitions of land and/or buildings.

k. Calculate and distribute rental rates for government owned quarters.

l. Prepare for approval all easements, utility rights-of-way, rights-of-way during construction, revocable licenses, and use permits.

m. Cost analysis and negotiation support for ISDEAA 105(l) leases.

D. OFFICE OF FINANCIAL MANAGEMENT

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional Buyback	Staffing (FTE)
Director	Financial Management Officer: Overall management, supervision, consultation, and surveillance	R	1
Tribal Accounting	Accounting advice; reconciliation; amendment and electronic payment assistance; monitors transactions in Buyback Account; and prepares Status of Buyback Statement with supporting documents.	R T	1 1
Budget	Budget projections and reports; fund control; Operating Resources Detail (formerly called Advice of Allowance)/Allocations.	R B	1 1
Accounting	Verifies accuracy and appropriateness of transactions; expenditures; general ledger; travel; project accounts; certifies vouchers; prepares tax withholding; and provides disbursement services.	R B	2 1
	Total		8

The office will provide the specific PSFAs defined below:

1. All resource allocation activities conducted by the Area.

2. Management controls of funds under Area control; responds to and provides data for annual agency audit.

3. Research and prepare routine, ad hoc, and special financial reports, prepare and reconcile status of funds reports for Area and Co-Signers. This includes providing Co-Signers with information necessary to manage the PSFAs they have assumed under their FAs and information necessary to negotiate those agreements.

4. Preparation and submittal of annual spending plan and budget/information to IHS for compacting and contracting Tribes and remaining AANHS/IHS activity.

5. Process financial documents for payment by U.S. Treasury, including payments related to continuing federal contracts in support of Tribally operated programs.

6. Process payroll for 340 federal (includes 58 IPA & 254 MOA) employees; maintain current position database for same; provide quarterly manpower reports to all Alaska locations using federal employees. Process and track all personnel actions.

7. Coordinate with Area OTP to allocate funding, initiate funding documents and assists

Co-Signers and contractors to maintain accurate records of funding allocations, reconciliations and cash management issues.

8. Reconciliation, billing and amendment management related to contractor and compactor use of federal resources including but not limited to IPA/MOA employees and the Village Built Clinic lease program. Reconciliation includes transaction verification of buyback services with corrections and reports.

9. Support withhold and buyback management including payment for continuing government contracts for goods and services, permanent change of station moves, etc.

10. Monthly general ledger reconciliation including cash management related to Prompt Pay Act, Treasury, cash and others.

11. Process reimbursement requests including Beneficiary Medical Program (BMP), Interagency Payment and Collections (IPAC), quarters collections, CHEF and others. Make deposits and transfers of such reimbursements to Co-Signers no less often than monthly.

12. Assist Tribes during annual Budget Formulation for the second succeeding year's annual budget, including preparation for the National Budget Formulation meeting.

E. OFFICE OF HUMAN RESOURCES

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional	Staffing (FTE)
Civil Service Staffing, Classification & Employee/ Labor Relations	Advertise and recruit for federal, direct and IPA/MOA replacements; process personnel and pay actions; provide job information; maintain official records; rate applicants, appoint new employees, and provide HR consultation; Title 38 and Physician's Comparability Allowance, Market Pay & Locality Pay maintenance; process Reduction in Force and counseling; provides transportation services and relocation assistance for federal employees and consultation re: Tribal direct hires as requested; administers Workers' Compensation program; grievances, discipline/adverse actions; Merit Systems Protection Board, appeals and agency representation; performance management; retirements; payroll; benefits; outside activities; ethics program; suitability adjudication; manage Federal Employee Assistance program and Family Medical Leave and Family Friendly Acts consultation; conducts desk audits; applies Classification Standards and consultation. Initiate and assure completion of suitability investigations as needed on federal employees and personal services contractors.	R T	2 0
	Total		2

Under the direction of the IHS Western Region Human Resources Director, the Office of Human Resources will provide the specific PSFAs defined below for the current approximately 340 federal employees employed either directly or through Civil Service IPAs (58) or Commissioned Corps MOAs (254):

1. Advertise and recruit for direct federal employees. Replacement IPA positions may be filled with a current IPA already on board (such as by reassignment) or a new or replacement MOA. Process Reductions In Force (RIF). Provide counseling on RIF.

2. Maintain official personnel files (electronic and paper) and records for Civil Service employees.

3. Manage employee relations including performance management; employee benefit programs (retirement counseling and calculations, etc.); Worker's Compensation; incentive awards; ethics and conduct; suitability adjudications; Merit Systems Protection Board (MSPB) representation; third party representation; Employee Assistance Program; Family Medical Leave Act (FMLA) consultation; and Labor Relations.

4. Counsel Civil Service employees.

5. Administer performance management program for non-IPA/MOA Civil Service employees.

6. Director performs proposing federal official function in progressive disciplinary actions on federal IPA employees.

7. Process personnel actions for Civil Service employees.

8. Process payroll, including assisting timekeepers and assuring transmission of payroll for all Civil Service employees.

9. Correct pay and leave errors.

10. Manage federal classification system. Provide consultation on same.

11. Issue government Personal Identification Verification (PIV) Smart cards for Area Office employees and for those IPA/MOAs who need access to federal facilities or ITAS as Timekeepers or Leave Approving Officials. Proof of federal employment will be given to those IPA employees who do not receive a PIV Smart card.

12. Provide, on request, consultation on employee relation issues to Co-Signer.

13. Maintain database on IPAs and MOAs and provide to Co-Signer no less than quarterly.

14. Provide, on request, general consultation and support on Co-Signer personnel issues (travel outside Anchorage to provide requested on-site consultation will be at expense of Co-Signer).

15. Provide transportation services and relocation assistance for federal employees.

16. Coordinate arrangements for volunteer health provider services for Co-Signers.

17. Provide assistance in managing employee absences due to on the job injuries (worker's compensation) to minimize the impact on Co-Signers.

18. Initiate and assure completion of suitability investigations as needed on federal employees and personal services contractors.

19. Implement Alaska Area responsibilities set forth in the IHS Succession Plan.

20. Implement Alaska Area responsibilities related to IHS Development of Human Capital Initiative.

F. COMMISSIONED CORPS PERSONNEL[4]

P/S/F/A	MAJOR FUNCTIONS	Buyback	Staffing (FTE)
Commissioned Corps Personnel	Orient and assist officers and their families to include: recruitment support, liaison between areas, TRICARE advice, wage verifications, grievances, leave programs, COERs and COSTEP. As necessary, Corps-specific personnel discipline advice to CEOs and HR staff of 638 awardees with MOA assignees and supervisors of MOAs.	B	2
	Total		2

Under the direction of the IHS Division of Commissioned Personnel Support, the Commissioned Corps Personnel component will provide the specific PSFAs defined below for the approximately 259 USPHS Commissioned Officers in the Alaska Area:

1. Provide general orientation to new Commissioned Officers.
2. Counsel Commissioned Officers; provide Corps-specific discipline advice to appropriate Co-Signer managers.
3. Maintain unofficial files and records for Commissioned Officers.
4. Process required federal personnel actions for Commissioned Officers including orders for deployment.
5. Assist and consult with officers and their supervisors.

G. OFFICE OF TRIBAL PROGRAMS

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional	Staffing (FTE)
Director	Management of Area Title V responsibilities for Self-Governance and Title I review, approval and technical assistance. Managing CHEF submissions, and fund distribution; clerical and secretarial support.	T	1
Health Care (Management) Consultation	Title V compacts/FAs (including amendments and database management of same), cooperative agreements, and grants; negotiate and administer CSC funds.	T	3
Health Care [5] (Management) Consultation	Negotiate, manage, and execute Title I contracts. Review audit findings and work with Tribal contractors to resolve as needed.	R	1
	Total		5

The Office will provide the specific PSFAs defined below:

1. Provide or facilitate technical assistance to Tribes which may or may not lead to the preparation of proposal(s) to assume PSFAs for Title I contracting, Title V compacting and Tribal Management grants for Tribes and Tribal organizations
2. Evaluate P.L. 93-638 proposal(s) to determine acceptance, declination or rejection; if

4 During FY 2005 this PSFA was centralized under the Division of Commissioned Personnel Support at IHS Headquarters. Effective FY 2006, it is funded by assessing the locations that use Commissioned Officers. See, also, Appendix A.

5 Formally P/S/F/A: Federal Contracting Title I awards, (1) Residual FTE moved from the Office of Acquisition and Property Management; to support Title I contracts and audit resolution.

the Title I proposal is accepted, serve as the contract designated federal official (project officer) for the award. In the case of declination or rejection, further technical assistance will be offered to overcome declination or rejection.

3. Analyze and negotiate Contract Support Costs (CSC) for start up and ongoing direct and indirect-type CSC requests, and the maintenance of CSC records in support of Area-wide CSC needs in accord with IHS policy. Currently records are maintained for 36 Alaska awardees. The office will continue to administer the CSC funds (Indian Self-Determination Fund start-up, direct and indirect administrative cost funds). Allocation plans and funding applications will be developed, maintained and negotiated on behalf of Tribes and Tribal organizations. The office will continue to develop and maintain the Alaska Area Tribal database for the CSC fund, which clearly documents, for IHS and Congress, Tribal shortfall and start-up needs.

4. Support and clearance of submissions of CHEF requests to the national CHEF pool, unless a lawful alternative methodology is developed enabling direct submission by Tribal health programs participating in the CHEF program. More specifically this includes education and technical assistance on the process for requesting reimbursement and the maintenance of records on submittals, reimbursements, cancellations and supplemental requests.

5. Prepare Title V FA amendments at the request of Co-Signer, upon notification of change in funding, or as negotiated.

6. Provide information to Tribes on any proposed changes to the CHS fiscal intermediary contract, and advocates for revisions requested by Tribes.

7. Negotiate, execute, and administer all P.L. 93-638 Title I contracts including close out and site reviews as requested or required.

8. Coordinate with IHS Headquarters, the National External Audit Review Office, and Tribal contractors to resolve audit findings for Title I contracts and Title V funding agreements.

Paul Rude, CEO
Copper River Native Association

Date: 8-6-2020

Appendix D

FY 2008 Buyback/Withhold Agreement

Appendix D
Buyback/Withhold Agreement
between
the Indian Health Service
and
Copper River Native Association

Section 1. Generally. Pursuant to Section 5.3 of the Funding Agreement between Certain Alaska Native Tribes Served by Copper River Native Association (hereinafter "CRNA") and the Secretary of the Department of Health and Human Services of the United States of America (hereinafter "Secretary"), CRNA has determined that it wishes to carry out its responsibility to provide certain programs, activities, functions or services (e.g. salaries of IPA/MOA employees, and Village Built Clinics Program) included in its Funding Agreement utilizing services, personnel or other resources of the Federal Government, (hereinafter "services") under Article V, section 22 of the Compact, as permitted by law. These services may include some that are expected to be used throughout the year and some incidental services to be identified by CRNA on an as needed basis, and provided by the Indian Health Service (hereinafter "IHS") when IHS has the capacity to do so. The cost of providing the purchased services to CRNA shall be determined under section 2 below. CRNA's purchase of services is contingent upon the availability of IHS resources to provide those services. In addition, services must be paid for in advance, in order to avoid violation of the Anti-Deficiency Act and are subject to full cost recovery in accord with 25 USC 458aaa-7(f) and 31 USC 9701.

Section 2. Determination of Cost.

2.1 Generally. CRNA may acquire services from the IHS by either providing for full year withhold (with appropriate reconciliation) under terms agreed upon in this funding agreement, in which case the administrative surcharge provided for under section 2.2.4 shall not apply. In the alternative, CRNA may acquire services by authorizing partial year withhold amounts, as provided for in section 2.2, in which case the payment schedule and administrative surcharge provided for in section 2.2.4 shall apply. Whether full or partial year withhold is authorized, the full costs of IPA/MOAs including those detailed in section 2.3, Determination of IPA/MOA Costs, shall be paid by CRNA.

2.2 Conditions for Partial Year Withhold and Buyback.

2.2.1 IPA/MOA.

2.2.1.1 Advance withhold. The funds for IPA/MOA salary and other costs detailed in section 2.3, "Determination of IPA/MOA Costs," will be paid as a lump sum in accord with Section 5(a) of the Funding Agreement, except that an amount equal to three monthly payments based on the initial mutually agreed upon estimate of the annual IPA/MOA salary costs and related surcharges, as provided in section 2.2.4, will be withheld and retained by the Indian Health Service pending final disbursement for the last three months of the fiscal year as provided in section 3.2.2.2.

2.2.1.2 Late Payment Provision. Except as provided in section 3.4, failure to make payment in full by the Default Date will result in action by the IHS to RIF or redeploy federal employees assigned to CRNA.

2.2.2 Village Built Clinics.

2.2.2.1 Advance Withhold. To ensure that sufficient funds are available to meet contract obligations, an amount equal to three monthly payments based on the initial mutually agreed upon estimate of the annual Village Built Clinic costs and related estimated surcharges, as provided in section 2.2.4, will be withheld and retained by the Indian Health Service pending final disbursement for the last three months of the fiscal year as provided in section 3.2.2.2.

2.2.2.2 Late Payment Provision. Except as provided in section 3.4, failure to make payment in full by the Default Date will result in action by the IHS to terminate the village based clinic leases.

2.2.3 Other Services.

2.2.3.1 Advance Withhold. An amount equal to one monthly payment based on the initial mutually agreed upon estimate of the annual cost of other services CRNA proposes to purchase from the IHS and related estimated surcharges, as provided in section 2.2.4, will be withheld and retained by the Indian Health Service pending final disbursement for the last month of the fiscal year as provided in section 3.2.2.2.

2.2.3.2 Incidental Services. Nothing herein shall prevent CRNA from negotiating to purchase incidental services from the IHS throughout the year, without regard to an advance withhold. Such incidental services may include medical record storage, costs associated with disposal of excess governmental property held by CRNA and costs associated with acquiring excess property from the Department of Defense. Agreements for purchase of incidental services must specify the method and timing of payment by CRNA.

2.2.3.3 Late Payment Provision. Except as provided in section 3.4, failure to make payment in full by the Default Date will result in action by the IHS to terminate the services for which payment has not been made.

2.2.4 Administrative Surcharge. An administrative surcharge in a percentage set forth in Section 5.3 of the Funding Agreement shall be imposed on the charges for the services delivered by the IHS to CRNA under the partial year withhold and buyback provisions of section 2.2. This surcharge will not be imposed on purchases for which a full year's estimated withhold is authorized. The administrative surcharge will be estimated based on the estimated annual purchase price and will be accounted for and reconciled under section 3.3.2.

2.2.5 No Other Charges. Except as provided in this section 2.2, there shall be no additional overhead, user or administrative charges or assessments for providing

services to CRNA.

2.3 Determination of IPA/MOA Costs.

2.3.1 List of Costs. It is agreed by the parties that the entire cost of IPA/MOA assignments, including costs associated with the initiation, maintenance, and termination of the assignments are the responsibility of CRNA. The IHS must be reimbursed for all such costs which include but are not limited to the following:

2.3.1.1 Permanent change of station costs including the cost of moving replacement IPAs from the lower forty-eight to Alaska and the cost of moving IPA employees who separate back to the lower forty-eight.

2.3.1.2 Recruitment, relocation and retention bonuses if such funds are necessary to attract or retain employees.

2.3.1.3 Severance pay for employees who are released by CRNA and separated without cause.

2.3.1.4 Payment of turnaround leave travel expenses. All individuals who are eligible for these expenses shall be identified in the IPA negotiated between the parties. The IHS will retain liability for existing IPAs. CRNA assumes the liability for new IPAs and upon renewal of an existing IPA.

2.3.1.5 Lump sum leave payments for employees who leave federal service. All leave accrued prior to the employee becoming employed by CRNA shall be identified in the IPA/MOA negotiated between the parties. The liability for accrued leave on existing, renewing, and new IPA/MOAs shall be the responsibility of CRNA.

2.3.1.6 Costs associated with settling or resolving employment related disputes, subject to the terms specified in section 2.3.2 below.

2.3.1.7 Centrally paid expenses, subject to the terms specified in section 2.3.3 below.

2.3.1.8 The cost of paying unemployment benefits assessed to the Area in FY 2002 and thereafter on behalf of an employee who was employed by CRNA under an IPA immediately prior to voluntary or involuntary separation from IHS regardless of the year in which unemployment benefits were paid. The CRNA is not responsible for unemployment costs that were assessed to the Area in Fiscal Years 2000 and 2001.

2.3.2 Costs Related to Employment Related Disputes.

2.3.2.1 Responsibilities of the IHS. The Indian Health Service shall be responsible for the payment of all costs of the IHS Office of Human Resources and any other section of the Indian Health Service, the Office of General Counsel, and the Department of Health and Human Services associated with the processing, settlement or other resolution of

employment actions such as disciplinary actions, grievances, or appeals to the Merit System Protection Board and/or the Equal Employment Opportunity Commission, and matters arising under the Federal Labor Relations Act or any other law permitting the employee to appeal from such actions initiated by Federal employees assigned to a Co-Signer under an IPA or MOA. The IHS may pay for or recover these costs as described under section 2.3.2.3, Sharing in Costs of IPA/MOA Employment Related Disputes, to the extent permitted under section 2.3.2.2.

2.3.2.2 Employee Disputes Costs Chargeable to Co-Signers. The IHS may pay for or recover costs associated with processing, settlement or other resolution of employment related disputes listed in paragraph 2.3.2.2.1 of this subsection under the following conditions:

2.3.2.2.1 Only costs associated with covered disputes that arose from conduct, performance or other circumstances alleged to have occurred during the course of an employee's assignment to a Co-Signer may be assessed under section 2.3.2.3.

2.3.2.2.2 Costs which may be assessed under section 2.3.2.3, Sharing in Costs of IPA/MOA Employment Related Disputes, may include, but are not limited to, awards of back pay, compensatory damages, attorney fees, travel costs necessary to investigate the case and represent the IHS at hearings or in other proceedings during the appeal process, costs of obtaining and preserving witness testimony, and other similar costs incurred as a result of the IHS defending itself in these matters.

2.3.2.2.3 No salary costs of IHS, Office of General Counsel or Department of Health and Human Service employees may be assessed or recovered under section 2.3.2.3. Nor may any other cost of these proceedings be charged if such costs have ordinarily been paid from funds identified by the IHS as residual or restricted at Headquarters or the Area Office.

2.3.2.3 Sharing in Costs of IPA/MOA Employment Related Disputes. All costs of the IHS related to IPA/MOAs for which Co-Signers are responsible under section 2.3, "Determination of IPA/MOA Costs," are the responsibility of the individual Co-Signer to whom the IPA/MOA is assigned, except as provided in this paragraph. CRNA agrees to share with other Co-Signers the costs and risks described in the above section 2.3.2.2, "Employee Disputes Costs Chargeable to Co-Signers" by agreeing to accept a share of the cost not to exceed $75 per assigned IPA/MOA per separate employment action. The purposes of sharing these costs are to simultaneously ensure that IHS recovers the full costs associated with employment related disputes involving IPA/MOAs, minimize the financial risk for individual Co-Signers, and minimize the accounting and administration caused by certain categories of costs. The IHS may use funds assessed under this paragraph only as provided in section 2.3.2.2. The amount assessed each Co-Signer shall be a percentage calculated based on the number of IPAs and MOAs the Co-Signer has assigned to it. All costs assessed under this paragraph will be reconciled with each contributing Co-Signer, as provided under section 3.3, and a separate report will be provided to all ATHC Co-Signers.

2.3.3 Costs Related to IPA/MOA Centrally Paid Expenses. Certain costs associated with IPA and MOA employees are paid centrally by Headquarters from Area funds.

These include costs detailed in columns 6, 7, and 8 of the spreadsheet entitled "Allocation of Centrally Paid Expenses (Excluding FTS)," Corrected May 11, 1998, that was prepared by David Mather. These are costs associated with Commissioned Corps, Personnel and Payroll, and Balance of Human Resources. The Alaska Area Native Health Service may pay for or recover assessments from Headquarters to cover these identified costs by including in the monthly charge for each IPA or MOA the monthly cost to the IHS of such Centrally Paid Expenses. The cost charged CRNA for each IPA/MOA may not exceed the average cost per federal employee actually paid by IHS. For purposes of calculating the initial withhold amount and estimated monthly payments, the estimated average cost per month for each IPA or MOA is shown in Appendix A of the Funding Agreement.

2.4 Limitation on Obligations and Notice.

2.4.1 Obligations. IHS shall within 30 days provide notice to CRNA of the best available estimate of the costs that may be incurred under this Agreement of leases, contracts, salaries and related expenses and permanent change of station.

2.4.2 Content of Notices of Best Available Estimates and Costs. Notice of best available estimates under section 2.4.1 and full accounting of all costs due under section 3.3.1 shall include the amount, vendor and reason for obligation or expenditure, including the name of the employee, if any.

Section 3. Method of Payment.

3.1 Full Year Withhold. Payment for services being purchased from the IHS may be made by CRNA authorizing a withhold of the full year's initial mutually agreed upon estimate of the annual cost of each category of services CRNA proposes to purchase from the IHS. In such case, no monthly payments are due from CRNA. Upon periodic reconciliation, provided for under section 3.3.1, excess withheld funds will be paid by the IHS to CRNA and adjustments in the amount of withhold or payments needed to pay for all services CRNA has purchased, or proposes to purchase, will be made to the IHS by CRNA. *See* "Summary of Withhold/Buyback" page of Appendix A for calculation of the amount CRNA hereby authorizes for full year withhold, if any.

3.2 Purchases through Buyback under section 2.2.

3.2.1 Calculations.

3.2.1.1 Of Initial Estimated Monthly Payment. The initial estimated monthly payment is determined by estimating the annual cost of services to be purchased from IHS, including the surcharge on all services under section 2.2.4, and dividing by 12. *See* "Summary of Withhold/Buyback" page of Appendix A for calculation of the amount of the initial estimated monthly payment.

3.2.1.2 Of Total Withhold Amount. A Co-Signer purchasing services through buyback authorizes withhold of an amount equal to the Advance Withhold under paragraphs 2.2.1.1, 2.2.2.1 and 2.2.3.1 of section 2.2 for each category of service being

purchased, plus an amount equal to one month of the initial estimated monthly payment for each category of service being purchased (to cover the estimate for services to be provided in October). *See* "Summary of Withhold/Buyback" page of Appendix A for calculation of the amount CRNA hereby authorizes to be withheld.

3.2.2 Payment Schedule.

3.2.2.1 First Payment. The initial estimated monthly payment is due and payable on the first day of November or the first day of the month following payment to CRNA of its lump sum payment, whichever is later, in which case the IHS shall reduce the lump sum payment by the authorized withhold plus the initial estimated monthly payments for each month preceding the first month for which a payment is due from CRNA for which a payment was not withheld. (This provision is intended to address delays caused in making the lump sum payment to CRNA due to Congress authorizing continuing resolutions or other delays in making lump sum payments to CRNA.)

3.2.2.2 Subsequent Estimated Monthly Payments. Subsequent payments are due and payable on the first day of each month, until the final months of the year intended to be covered by the Advance Withhold amount applicable to the category of services, as set forth in section 2.2. (For example, the last three months of payments for IPA/MOAs would come from the Advance Withhold amount, while only the last one month of payment for Other Services would come from the Advance Withhold amount.)

3.2.2.3 Default Date. If a payment is not received by the 10th day of the month in which it is due (or the first working day thereafter if the 10th day falls on a week-end or Federal holiday), the IHS will implement the late payment provisions for each category of service as provided under paragraphs 2.2.1.2, 2.2.2.2, and 2.2.3.3. This date shall be referred to throughout this section as "Default Date."

3.3 Reconciliation and Adjustment.

3.3.1 For Categories of Service. Full accounting of all costs for each category of service, whether purchased through full year withhold or buyback, will be provided to CRNA within 45 days of the end of each month. Reconciliation of payments made to IHS compared to actual costs for the first three quarters of the fiscal year will be provided quarterly within 45 days of the end of each quarter. Reconciliation of payments made to IHS compared to actual costs for the last quarter of the fiscal year will be provided within 60 days of the end of the last quarter. At the end of each of the first three quarters, the IHS and CRNA will review the expenses for the preceding quarters. The monthly estimated payment due, or the full year withhold amount, for the balance of the fiscal year will be adjusted accordingly to account for any over or under collections in order to project a zero balance at the end of the fiscal year. Within 30 days after the final end-of-year reconciliation is provided to CRNA, any over recovery by the IHS must be returned to CRNA and within 30 days after the final end-of-year reconciliation is due any under recovery must be paid by CRNA.

3.3.2 For Administrative Surcharge.

3.3.2.1 Use and Rebate. The administrative surcharge shall be used exclusively for administration of the buyback provisions under this Buyback/Withholding Agreement. All income from the administrative surcharge will be accounted for separately and compared on an annual basis to the cost of administering buyback at the Area Office. This accounting and reconciliation shall be complete within 60 days of the end of the last day of the fiscal year. Any surplus in administrative surcharges shall be returned to the Co-Signers who participated in the buyback option on a pro rata basis depending on the amount of administrative surcharge paid.

3.3.3 Adjustment in Estimated Monthly Payment. In addition to adjustments in estimated payments that may occur under sections 3.3.1 and 3.3.2.1, the parties may at any time mutually agree, based on a change in circumstances, to change the estimated monthly payment due from CRNA.

3.4 Use of Other Funds Due CRNA to Avoid Default or Satisfy Obligations to IHS and other Remedies.

3.4.1 Avoiding Default. Default may be avoided to the extent funds are held by the IHS from other funds due to CRNA, which may be withheld to satisfy the amount of the payment, which would otherwise be in default or to satisfy amounts due IHS after reconciliation of costs and payments when an amount is due to IHS.

3.4.2 Recoupment. Any amount due to the IHS by reason of CRNA's failure to pay in full all amounts owing under the buyback provisions of the Funding Agreement for the immediately preceding fiscal year shall be recouped by the IHS from any funds due to CRNA under this funding agreement.

3.4.3 Full Year Withhold as Penalty for Default. Notwithstanding any other provision of this Buyback/Withholding Agreement, the IHS may require "full year withhold" as permitted herein as a condition of permitting a Co-Signer who was in arrears at the end of the immediately preceding fiscal year to buyback services from the IHS under the terms of this Agreement.

Section 4. Dispute Resolution. The parties shall endeavor to resolve any disputes concerning amounts due by CRNA under this Agreement in a manner agreeable to CRNA and to the IHS. In the event of a failure to reach agreement on the resolution of any such dispute, CRNA may, after providing written notice to the IHS, choose not to include the disputed amount in any subsequent payment due. Payment in such a manner shall not be considered as a resolution of the dispute. The parties shall thereafter attempt to resolve the dispute through Alternative Dispute Resolution following, as appropriate, the principles and processes set forth in Executive Order 12988 signed by President Clinton on February 5, 1996, and made effective as of May 5, 1996. CRNA shall have the option of resolving the dispute in accordance with Article II, Section 10 of the Compact.

Section 5. Effective Date. This Buyback/Withholding Agreement shall become effective on October 1, 2007, and shall remain in effect pursuant to section 5.3 of the Funding Agreement.

APPENDIX E
COPPER RIVER NATIVE ASSOCIATION
FACILITIES AND LOCATIONS

This non-exhaustive list of Tribal Facilities and Locations identifies the sites where CRNA owns, leases, occupies, or otherwise uses real or personal property to carry out its responsibilities under the Alaska Tribal Health Compact and its Funding Agreement. Each description of facilities and locations is intended to include surrounding and adjacent grounds.

1.	Cantwell Clinic	Cantwell, Alaska
2.	Kluti-Kaah (Copper Center) Clinic	Copper Center, Alaska
3	Gulkana Clinic	Gulkana, Alaska
4.	Gakona Clinic	Gakona, Alaska
5.	Tazlina Primary Care Clinic (Robert Marshall Building)	Tazlina, Alaska
6.	Child Development Center	Tazlina, Alaska
7.	Tazlina Village Clinic	Tazlina, Alaska
8.	Mentasta Village Clinic/ Office Building	Mentasta Lake, Alaska

9. Employee Housing, both rented and owned

10. Shops, Yards, Staging Areas, Storage, Supply, and Parking Facilities and Locations

11. Education, Training, and Public Outreach Facilities and Locations including, but not limited to:
    a. Community Meeting Halls
    b. Copper River School-District Facilities
    c. Mentasta Lake Katie John School

Appendix F

Actions Requiring IHS Environmental Review and Determination

APPENDIX F – Actions Requiring IHS Environmental Review and Determination

For actions outlined in the below table, which are to be undertaken by CRNA, CRNA shall submit a proposal package that includes a completed Project Summary Document (See Appendix G-4) and Environmental Information and Documentation Form (See Appendix G-5) to the IHS. Coordination time between CRNA and the IHS to complete the Environmental Review and Determination process varies for each group of actions. The timing provided below indicates the expected timeline to complete the process for each group of actions. Early coordination in the planning phase of a project between CRNA, IHS, and other stakeholders will help ensure environmental concerns are addressed in a timely manner and project delays are minimized so that IHS can complete its environmental responsibilities and issue a Determination Document as early as possible.

	Action	Expected Timelines
	Categorically excluded actions per Federal Register Vol. 58, No. 3, pg 571(I)(3), (I)(4), (I)(6), and (I)(7), dated January 6, 1993.	**The Environmental Review and Determination Process for this group of actions ranges from 45 to 90 days from the receipt by the IHS of the proposal package.***
[]	Pg 571 (I)(3): Building alteration or renovation that does not substantially change the function or general appearance of existing buildings.	
[]	Pg 571 (I)(4): Construction or lease of new facilities (including portable facilities and trailers) where such lease or construction: (a) is at the site of existing health care facility and the facility capacity is not substantially increased, (b) is for building of less than 12,000 square feet of useable space when less than five acres of surface land area are involved at a new site, or (c) is for projects other than buildings when less than five acres of surface land area are involved at a new site.	
[]	Pg 571 (I)(6): Acquisition of space by lease, use agreement, transfer, gift or similar arrangement for which: (a) the intended use of the space is consistent with the functional design of the building, and (b) the acquisition is consistent with an applicable master plan, if such plan exists.	
[]	Pg 571 (I)(7): The acquisition, sale, release, abandonment, closure or transfer of real property, provided the action: (a) is consistent with any applicable master plan, if such a plan exits, (b) conforms to local zoning and land use ordinances, if such ordinances exist, (c) is consistent with the functional design of the facility, (d) would not violate applicable Federal, State, or local environmental protection or historic preservation laws, and (e) satisfies the requirements of applicable comprehensive Environmental Response Compensation and Liability Act (CERCLA)section 120 (h) provisions.	
	Any normally categorically excluded actions that may have Extraordinary or Exceptional Circumstances per Federal Register Vol. 58, No. 3, pg 571-72(K), dated January 6, 1993.	**The Environmental Review and Determination Process for this group of actions ranges from 60 to 180 days from the receipt by the IHS of the proposal package.**
[]	Pg 571 (K)(1): Those with potential to change the existing environment where such change violates directives or other controls that are imposed by any governmental body having jurisdiction, for the purpose of protecting or otherwise affecting that environment;	
[]	Pg 571 (K)(2): Those with potential or real threat of violation, or continued violation, of an applicable Federal, State, or local law or requirement imposed for protection of the environment or to ensure public health and safety;	
[]	Pg 571 (K)(3): Those likely to cause controversy with respect to the types or extent of the resulting environmental effects where such controversy is based on pertinent and substantial issues;	

[]	Pg 571 (K)(4): Those involving the use of technology where the possible effects are highly uncertain or involve unique or unknown risks and where such technology has not been assessed previously for environmental impact;
[]	Pg 571 (K)(5): Those which have adverse effects on unique geographic characteristics (e.g. historic, archeological, or cultural resources, park recreation or refuge lands, wilderness, areas, wild or scenic rivers, sole or principal drinking water aquifers, prime farmlands, wetlands, floodplains, coastal management zones, or ecological or critical areas including those listed on the Department of Interior National Register of National landmarks);
[]	Pg 571 (K)(6): Those which establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects;
[]	Pg 571 (K)(7): Those which have adverse effects on properties listed or eligible for listing on the National Register of Historic Places;
[]	Pg 571 (K)(8): Those which have adverse effects on species listed by the Federal Government as Endangered or Threatened Species, or which have adverse effects on any designated critical habitat for these species;
[]	Pg 571 (K)(9): Those which require assessment in accordance with Executive Order 11988 (Floodplain Management), or Executive Order 11990 (Protection of Wetlands), or the Fish and Wildlife Coordination Act; and
[]	Pg 572 (K)(10): Those which involve the use, transfer, or lease of real property which has been determined, after investigation in accordance with the provisions of CERCLA 120 (h), to have been used as a storage facility for hazardous waste for more than 1 year; and
[]	Pg 572 (K)(11): Construction projects which are significantly greater in scope or size than normally experienced for a particular category of action.

Any action NOT categorically excluded per Federal Register Vol. 58, No. 3, pg 569-572, dated January 6, 1993 attached hereto.	**The Environmental Review and Determination Process for this group of actions ranges from 60 to 180 days from the receipt by the IHS of the proposal package.**

* The time needed to complete Environmental Reviews is highly dependent on required consultations with other Federal and State Agencies. As an example, the NHPA Section 106 Process requires the State Historic Preservation Officer (SHPO) be allotted 30 days to review and comment on a proposed action (36 CFR Part 800.3(c)(4)). Furthermore, additional time beyond the 30 days may be required for consultation with SHPO to adequately review and determine the effects of the proposed action on existing historical resources. Coordination early in the planning phase of the project can help identify these potential issues and allow CRNA and IHS to resolve them early.

Appendix G-4

Project Summary Document

IV-1.
Policy #4*.
Project Summary Document Formats

Project Summary Documents describe projects being submitted to the MIRAC for funding from the maintenance & improvement funds (both competitive BEMAR funds and non-routine non-competitive Oklahoma Formula funds). Supporting documents to the PSD typically entail 100% design drawings (for projects requesting construction funds), construction cost estimates, product literature (for equipment specific PSDs), and contractor proposals or cost estimates.

A cover letter accompanies submitted PSDs, which affirms the organization's desire to submit these projects to the MIRAC for consideration.

The sections of the PSD are listed below.

PROJECT SUMMARY DOCUMENT

[Name of Project]
[Facility Priority Number] (use for multiple PSD submittals to prioritize your projects)
[Date]
[Facilities Board Project Number]
[Facility Name]
[Location], [State]

I. SUMMARY

[Summarize the project and include what is to be done, why (e.g., to add 135 gross square meters of space or replace a boiler), and the type of funding (e.g., Maintenance and Improvement, Quarters, Corporate Cost Sharing, etc.). This section should be no more than two paragraphs. Use attachments for project location maps and facility drawings.]

II. PROJECT SCOPE AND DESCRIPTION

A. Description of Project. [Provide a detailed explanation of the work to be accomplished by the project and the desired outcome of the project. Include all items reflected in the cost estimate. This information can be presented in bullet/list or narrative form.]

B. Project Justification. [Explain why the project is necessary. Link the justification to the developed Health Facilities Master Plan if appropriate. Discuss how the project will meet program needs, and how it will comply with legal, code, accreditation, and certification

*Sections of this policy modified by DEHE Staff to reflect formation of the MIRAC and for clarification of non-competitive project submittals.

requirements. Cite specific, code or JCAHO references by standard clause, chapter, paragraph, etc.]

III. DEFICIENCIES

The following deficiencies will be corrected as part of this project:

[List and describe only those facility deficiencies this project will address. The types of deficiencies include BEMAR, JCAHO, NFPA, HFPM, Public Law compliance items, ADA, etc.]

IV. COST ESTIMATE

Provide a budgetary cost estimate and the funding sources for the proposed project, including separate line items for design Architect/Engineer fees, project construction, construction contract administration fees, and project contingency.

V. PROJECT SCORE SHEET DOCUMENT (*only required for BEMAR competitive pool funds*)

Complete a project score sheet further detailing the scope, impact and benefits of this project. Provide the information required by the project score sheet.

VI. OTHER PROJECT ITEMS TO BE ADDRESSED

Supporting Documents: Drawings, Photos, Estimates, Etc.

Appendix G-5

Environmental Information and Documentation

ENVIRONMENTAL INFORMATION AND DOCUMENTATION

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

Considerations	Basis for Determination (Documentation)
1. Will the proposed action result in a known violation or continuance of a violation of applicable (Federal, Tribal, State or local) laws or requirements for protection of environment or public health and safety?	Yes or No. Explanation.
2. Will the proposed action result in a conflict with existing or proposed federal, Tribal, state, and local land use plans?	Yes or No. Explanation.
3. Is there a controversy with respect to environmental effects of the proposed action based on reasonable and substantial issues?	Yes or No. Explanation.
4. Is the proposed action significantly greater in scope than normal for the area or does it have significant unusual characteristics?	Yes or No. Explanation.
5. Does the proposed action establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

6. Does the proposed action have significant adverse direct or indirect effects on park land, other public lands, or areas of recognized scenic or recreational value?	Yes or No. Explanation.
7. Does the proposed action include construction of a new municipal solid waste landfill at a new solid waste disposal site?	Yes or No. Explanation.
8. Will the proposed action create a need for additional capacity at solid waste disposal facilities?	Yes or No. Explanation.
9. Does the proposed action include construction of a new wastewater treatment facility that will discharge treated sewage effluent to the waters of the U.S.	Yes or No. Explanation.
10. Will the proposed action create a need for additional capacity at wastewater treatment facilities?	Yes or No. Explanation.
11. Will the proposed action create a need for additional capacity in the drinking water supply?	Yes or No. Explanation.
12. Are there other considerations about the proposed action that could adversely affect the environment and/or public health and safety?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

13. Will the proposed action create a need for additional capacity in health care facilities and for health care services?	Yes or No. Explanation.
14. Will the proposed action create a need for additional energy supply or generation?	Yes or No. Explanation.
15. Will the proposed action create a need for additional capacity in educational facilities?	Yes or No. Explanation.
16. Will the proposed action create a need for additional capacity in transportation systems?	Yes or No. Explanation.
17.Historic Preservation: a. Does the proposed action involve the purchase, construction, alteration, renovation, or lease of a building or portion of a building that is more that 50 years old?	Yes or No. Explanation.
b. Will the proposed action adversely affect properties listed, or eligible for listing, on the National Register of Historic Places?	Yes or No. Explanation. or No

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

18. Endangered Species Act: Is the proposed action likely to adversely affect a plant or animal species listed on the Federal or applicable state list of endangered or threatened species or a specific critical habitat of an endangered or threatened species?	Yes or No. Explanation.
19. Will the proposed action require major sedimentation and erosion control measures?	Yes or No. Explanation.
20. Will the proposed action violate a storm water permit or a wastewater discharge permit either for construction or on-going operations?	Yes or No. Explanation.
21. Safe Drinking Water Act: Will the proposed action impact an EPA designated sole source aquifer?	Yes or No. Explanation.
22. Wetlands and Water Resources (lakes, rivers, ponds, streams, etc.): Will the proposed action violate a Section 404 (Clean Water Act) permit for actions in a wetland and/or Section 10 (Rivers and Harbors Act) permit for actions in a stream or river?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

23. Floodplains: a. Is the proposed action located in either a 100-year or, for critical actions, a 500-year floodplain? (If Flood Insurance Rate Maps do not exist for the project site, a floodplain survey or consultation may be required. Also may need to consider if the facility will require flood insurance).	Yes or No. Explanation.
b. Will the proposed action adversely impact flood flows in a floodplain or support development in a floodplain?	Yes or No. Explanation.
24. Existing site: Would the proposed action involve the purchase, construction or lease of new facilities (including portable facilities and trailers), substantially increase the capacity of an existing health care facility?	Yes or No. Explanation.
25. New site: Does the proposed action involve purchase, construction, or lease of new facilities (including portable facilities and trailers) where such action is for buildings equal to or more than 12,000 square feet (1080 square meters) of useable space when more than 5 acres (2 hectares) of surface land area are involved at a new site?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

26. New site: Does the proposed action involve purchase, construction, or lease of health care facilities (other than buildings) for projects equal to or more than 5 acres (2 hectares) of surface land area at a new site?	Yes or No. Explanation.
27. Does the proposed action involve the sale or transfer of real property, on which any hazardous substance was stored for one year or more, known to have been released, or disposed of? (Provide relevant documentation for any hazardous substance releases. See 40 CFR 373.2(b), 302.4, and 261.30 for reportable quantities.)	Yes or No. Explanation.
28. Does the proposed action involve the sale or transfer of real property, on which underground or above ground storage tanks are located?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

29. Will the proposed action violate Tribal, local, state, or federal law on the use and storage of hazardous substances or the transportation, storage, and disposal of hazardous wastes or medical wastes? (Activities that may generate reportable quantities include air conditioning repair and service, pesticide application, motor pools, automobile repair, welding, landscaping, agricultural activities, print shops, hospitals, clinics, & medical centers. Repair, renovation, or demolition activities can generate waste that has asbestos-containing materials, asbestos, lead-based paint, PCBs, CFCs, etc.)	Yes or No. Explanation.
30. Will the proposed action adversely affect community air pollution for a long period of time?	Yes or No. Explanation.
31. If the proposed action is implemented, will it have a disproportionately high and adverse human health or environmental impact on the Tribe, low-income populations, or minority populations?	Yes or No. Explanation.
32. Will the proposed action adversely affect community noise levels?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

33. Wilderness Act: Will the proposed action adversely impact a Wilderness Area?	Yes or No. Explanation.
34. Farmland Protection Policy Act: Will the proposed action convert significant agricultural lands to non-agricultural uses and exceed 160-point score on the farmland impact rating?	Yes or No. Explanation.
35. Coastal Zone Management Act: Will the proposed action directly affect a Coastal Zone in a manner inconsistent with the State Coastal Zone Management Plan?	Yes or No. Explanation.
36. Wild and Scenic Rivers Act: Will the proposed action affect a wild, scenic, or recreational river area or create conditions inconsistent with the character of the river? (A consideration for activities that are in or near any wild and scenic waterway including construction of stream/river crossings, intake structures, outfalls, etc.)	Yes or No. Explanation.

I certify that to the best of my knowledge and ability the information presented above is true and correct. The record was examined to identify potential extraordinary or exceptional circumstances which would require further environmental review.

Resolution No. 21-06

WHEREAS, the Tribal Council of the Mentasta Traditional Council ("Tribe") is a sovereign nation and the governing body of the Tribe under the Constitution of the Mentasta Tribe ("Constitution"); and

WHEREAS, the Tribe has adopted a Constitution in order to sustain and perfect its historic form of Tribal government; and

WHEREAS, under Article IV, Section 1 of the Constitution, governing power of the Tribe is vested in the Tribal Council; and

WHEREAS, Article V Section 1 of the Constitution delegates to the Tribal Council the power to consult and negotiate with any government or other entity and to conclude contracts, grants, treaties or other agreements on all matters within the jurisdiction of the Mentasta Traditional Council; and

WHEREAS, Article V Section 1(a) of the Constitution delegates to the Tribal Council the power to consult and negotiate with any government or other entity and to conclude contracts, grants, treaties or other agreements on all matters within the jurisdiction of the Mentasta Traditional Council; and

WHEREAS, Article V Section 1(o) of the Constitution delegates to the Tribal Council the power promote and safeguard the general health, education, safety, welfare and international peace and security of all Tribal Members of Mentasta, Alaska; and

WHEREAS, the Tribe is a Member Tribe of the Mt. Sanford (Kelt'aeni) Tribal Consortium which has the purpose of encouraging and supporting the exercise of tribal powers of self-governance of each Member Tribe and Associate tribe; to aid and support

economic development in the region; to aid and support health services to the general population of the region; to promote the general health and welfare of the Member Tribes and their members; and to preserve, encourage and maintain the Spiritual, Traditional, and Cultural well being of the Member Tribes; and

WHEREAS, Article II of the Constitution of the Mt. Sanford (Kelt'aeni) Consortium provides the opportunity for a Member Tribe to withdraw their resolution of support on an annual basis; and

WHEREAS, 42 C.F.R. § 137.235 provides for an Indian Tribe to fully withdraw from a Tribal Consortium; and

WHEREAS, Tribe wishes to withdraw its resolution of support from the Mt. Sanford (Kelt'aeni) Tribal Consortium and leave the Consortium and adopted Resolution 20-08 withdrawing its membership from the MSTC; and

WHEREAS, 42. C.F.R. 42 C.F.R. § 137.236 allows the withdrawing tribe to specify the effective date of the withdrawal; and

WHEREAS, the Tribe previously resolved to withdraw from Mt. Sanford (Kelt'aeni) Consortium effective on March 31, 2021 and June 30, 2021; and

WHEREAS, the Indian Health Service funding determination not issued until May 11, 2021 and the Tribe has been unable to complete negotiations to join another healthcare consortium; and

NOW THEREFORE BE IT RESOLVED, that as provided by 42. C.F.R. 42 C.F.R. § 137.236, the Mentasta Traditional Council withdraws from Mt. Sanford (Kelt'aeni) Tribal Consortium the effective July 31, 2021; and

ADOPTED by the Tribal Council of the Mentasta Traditional Council by roll call vote on the 7th of June, 2021, with a quorum present, by a vote of 6 for, 0 against, and 0 abstentions.

RESOLUTION 21-08

AUTHORIZING THE COPPER RIVER NATIVE ASSOCIATION TO CARRY OUT FEDERAL AND STATEWIDE HEALTH CARE PROGRAMS ON BEHALF OF THE TRIBE

WHEREAS, the Mentasta Traditional Council (herein "Mentasta" or "the Tribe") is a federally-recognized Indian Tribe listed in the Secretary of the Interior's annual list of federally recognized Tribes issued in in accordance with the Federally Recognized Indian Tribes List Act of 1994, Pub. L. No. 103-454, *see* 86 Fed. Reg. 7554, 7558 (Jan. 29, 2021), and

WHEREAS, the Tribe qualifies as an "Indian tribe" as defined in Section 4 of the Indian Self-Determination and Education Assistance Act (ISDEAA), 25 U.S.C. § 5304(e), and as such is entitled to request a contract from the Indian Health Service (IHS) to operate programs, services, functions and activities (PSFAs) serving Mentasta tribal members and other eligible IHS beneficiaries within the Mentasta service area; and

WHEREAS, the Mentasta Tribe provided an authorizing resolution to the Mt. Sanford Tribal Consortium (MSTC), Resolution 99-08, which permits MSTC as a tribal organization to enter into a contract/compact and funding agreement with the Indian Health Service on behalf of the Tribe; and

WHEREAS, Resolution 21-06 requires that effective July 31, 2021, Mentasta will withdraw its prior authorization for MSTC to provide health care services; and

WHEREAS, Mentasta wishes to achieve maximum participation in the direction of health care services furnished to its members so such services will be more responsive to the needs and desires of Alaska Natives; and

WHEREAS, Mentasta and the Copper River Native Association (CRNA) have entered into a Memorandum of Agreement delineating the services CRNA will provide to Mentasta and the roles and responsibilities of both the Tribe and CRNA.

NOW THEREFORE BE IT RESOLVED, that the Mentasta Traditional Council authorizes CRNA to assume and carry out all programs, services, functions and activities on behalf of Mentasta Tribal members through an ISDEAA contract or compact with the Indian Health Service; and

BE IT FURTHER RESOLVED that Tribe authorizes CRNA to apply for any federal or state grants, programs, or additional resources available to provide health care services to Mentasta Tribal members; and

BE IT FURTHER RESOLVED this authorization will remain in effect until withdrawn by the Tribe.

CERTIFICATION:

This resolution was duly considered and adopted by roll call vote by Mentasta Traditional Council in Mentasta, Alaska on this 8th day of July, 2021.

Emmanuel Baker, First Chief

Robert John Jr., Council Member

MEMORANDUM OF AGREEMENT
BETWEEN
COPPER RIVER NATIVE ASSOCIATION
AND THE
MENTASTA TRADITIONAL COUNCIL

This Memorandum of Agreement (Agreement) is by and between the Copper River Native Association ("CRNA"), whose address is Drawer H, Copper Center, Alaska, 99573 and the Mentasta Traditional Council ("Mentasta") (collectively "the Parties"), whose address is PO Box 6019, Mentasta, Alaska, 99780

Background and Purpose

CRNA is a tribal health organization that provides comprehensive health care services throughout the Copper Basin region of Alaska. CRNA provides such services under the Alaska Tribal Health Compact and Funding Agreements with the Secretary of Health and Human Services as authorized by Title V of the Indian Self-Determination and Education Act of 1975, as amended, 25 U.S.C. §§ 5301-5423.

Mentasta is a federally-recognized Indian Tribe located within the CRNA service area. Mentasta has authorized the Mt. Sanford Tribal Consortium to provide health care services for its Tribal members under the Alaska Tribal Health Compact and Funding Agreements with the Secretary of Health and Human Services as authorized by Title V of the Indian Self-Determination and Education Act of 1975, as amended, 25 U.S.C. §§ 5301-5423. Mentasta wishes to withdraw from the Mt. Sanford Tribal Consortium and authorize CRNA to provide health care services instead.

This Agreement is necessary to define the relationship between CRNA and Mentasta. Mentasta was previously a part of CRNA, but in 1994 it decided to withdraw to form the Mt. Sanford Tribal Consortium with another Tribe, taking Mentasta's portion of CRNA's funding and assets at that time. Since then CRNA has grown considerably and has improved its service delivery. CRNA wishes to support to the best of its ability Mentasta's efforts to provide locally relevant and timely services to Mentasta Tribal members. Mentasta expressly acknowledges and understands that although CRNA unconditionally supports Mentasta's efforts and is committed to assisting Mentasta, the initial resources Mentasta is contributing at this time are not enough to fund Mentasta's current services and CRNA cannot provide greater service or staff time than is provided to any other Tribe in the CRNA region, nor can CRNA's involvement in health care for Mentasta impact unfairly on CRNA's responsibilities to its remaining Tribes. However, if Mentasta is able to provide supplemental resources in the future, both Parties agree that CRNA will diligently and in good faith pursue expanding the services and staff time initially provided for in this Agreement. The purpose of this Agreement is to clarify the relative roles and responsibilities of both parties.

NOW, THEREFORE, the Parties agree as follows:

1. **Health Care Services.** CRNA agrees to provide the following services:

1.1 Medical Services:

A. One resident Health Aide will be assigned to and located full time at the Mentasta Village clinic. Backup coverage will be provided from the CRNA Health Aide team to cover scheduled absences. For the initial 18 months of this agreement, CRNA will also employ a Medical Assistant at the Mentasta Village Clinic, and evaluate the potential for cross-training. All resident full time Health Aides assigned to Mentasta must be approved by Mentasta Tribal Council and undergo a criminal background check.

B. CRNA will continue to contract for services from Dede Duntze, ANP, at the current service level (1 day each week) until Ms. Duntze no longer wishes to contract.

C. Mentasta Tribal members are entitled to receive all standard IHS medical care services at the CRNA Robert Marshall Medical Campus.

D. CRNA will enter into an Agreement with TCC/Tok EMS to provide emergency care to Mentasta Tribal members as Tok is the closest EMS provider. The emergency care will be in accordance with CRNA Purchase and Referred Policy (attached). This decision may be reconsidered if another EMS provider begins to operate in the area.

1.2 Specialty Care. Mentasta Tribal members will be eligible to participate in the CRNA specialty care program for eyeglasses and contacts only. This limited entitlement will provide up to $300.00 per year for each Mentasta tribal member in need of eyeglasses and contacts. Mentasta Tribal members will not be eligible for other CRNA specialty care services (e.g., wellness services, dental, specialty care, hearing aids, laser eye care, cancer or life-threatening support or burial assistance from admin fund, etc.) as these services are supplemented with non IHS resources. Mentasta Tribal members may be eligible to access these other specialty care services for a fee.

1.3 Behavioral Health. CRNA will continue to provide behavioral health services under the current CBH grant for Mentasta Tribal Members. CRNA expressly acknowledges and understands Mentasta's sincere desire and intent to provide more robust behavioral health serves to Mentasta members and will work with Mentasta to explore all possible avenues to expanding and growing this service.

1.4 Dental. CRNA will provide dental services 2 days per month. This may include DHATs.

1.5 Elder Services. Mentasta elders are welcome to participate in CRNA Elder Service Programs that are provided at the CRNA Robert Marshall Medical Campus (i.e., elder meals, activities). CRNA will also provide an Elder Maintenance Service in the Village 1-2 days per month in order to complete necessary maintenance on elders' homes. No other elder services will

be provided in the Mentasta Lake Village, such as snow removal, chimney sweeping, repairs, etc., or water haul services.

1.6 Child and Youth Development (CYD) Services. Mentasta Tribal members are welcome to participate in CRNA CYD Programs provided at the CRNA Robert Marshall Medical Campus. No transportation will be provided for children and youth to attend CRNA CYD programs. CYD programs will not be provided in Mentasta Lake Village at this time, however if other resources become available, CYD programs may be provided in Mentasta Lake Village. Mentasta Tribal members are eligible to receive child care assistance for children under 13 that have been included in the child count provided to CRNA Child Care Development Fund.

1.7 Patient Transport. Mentasta Tribal members will be eligible for the Anchorage Service Unit (ASU) Medical Travel Reimbursement Program. Reimbursement under such program is not guaranteed and is only available if sufficient ASU travel funds are available and the CRNA/ASU Road Travel Reimbursement Policy is followed. Reimbursement occurs on a quarterly basis and no travel advances are available. This program is funded by ANMC ASU. Mentasta Tribal Members will be exempted from the requirement to use CRNA patient transport. No patient transport will be provided by CRNA or by CRNA patient transport drivers or vehicles.

1.8 Board Participation. CRNA will provide one Board seat for a representative from Mentasta. Such Board member will have voting privileges according to CRNA bylaws. Specifically, the Mentasta Board member will not be able to vote on services CRNA has not been authorized to provide for the Mentasta Lake Village.

2. Mentasta Obligations. Mentasta agrees to do the following:

2.1 Facility Maintenance. Mentasta will be responsible for maintenance and care of all Mentasta medical facilities.

2.2 Dental Equipment. Mentasta is responsible to ensure the dental exam room in the Mentasta clinic is adequately furnished.

2.3 Authorizing Resolution. Mentasta will provide a resolution authorizing CRNA to carry out the IHS services listed above using the resources delineated for Mentasta in the Mt. Sanford Tribal Consortium Funding Agreement.

3. Existing resources. Mentasta will have no claim to any CRNA assets, including land, buildings, or equipment procured or purchased by CRNA on or before September 30, 2023, and will have no claim associated with the following projects under development as of the date of this Agreement regardless of the date of completion: 1) Copper River land purchase of approximately 130 acres; 2) facility expansion of primary care and urgent care at the Robert Marshall Building; and 3) Building A, a building designed to house Child Development, Social Services, Training and Administrative functions. Future CRNA grant applications will include Mentasta in the grant service population if Mentasta has authorized CRNA to provide such services, and services may be extended to Mentasta at such time. Mentasta agrees to provide a list of current of programs and

grants that Mentasta is receiving through MSTC and CRNA agrees to assist in the performance of the grants to the best of their current capability and capacity.

4. Confidentiality.

CRNA must comply with all applicable confidentiality and privacy laws and regulations that protect patient health information and other individually identifiable information. CRNA may not inform Mentasta Tribal Council of health care or services provided to individual Tribal members.

5. Financial Terms.

5.1 Payment. Each party will be responsible for the costs of services provided under this Agreement.

5.2 Relationship of the Parties. This Agreement is not intended to establish an employer-employee relationship, joint venture, or partnership, either expressly or by implication, and shall not be construed or interpreted otherwise.

6. Cooperation.

6.1 Generally. Both Parties shall designate a representative as Primary Contact for purposes of this Agreement. In the event the Primary Contact changes, the party shall provide the other party with written notice within ten days (10) of the change. The Parties agree to communicate openly and completely about issues that may affect the quality or efficiency of the Services.

6.2 Assistance with Litigation or Claims. To the extent claims are made by a third-party or litigation is initiated relating to the Parties' performance of its obligations under this Agreement, the Parties agree to cooperate in responding to such claims, including to make its employees available to testify as witnesses or to make itself otherwise reasonably available to the other Party.

6.3 Assistance with Enrollment for Alternate Resources. Mentasta understands that the more Tribal members with alternate resources (such as Medicare, Medicaid, VA benefits, private insurance, etc.), the more resources will be available to maintain and expand services to and within Mentasta. Mentasta commits to assist CRNA in its efforts to enroll Mentasta Tribal members in all available alternate resources.

6.4 Communication. Both Parties agree that it is imperative for the Parties to retain open, honest and transparent communications. To that end, it is expected that the appointed Mentasta Voting Director will bring any issues or concerns of the Village to the Board at each Board meeting. Mentasta may also request to be added to any regular Board meeting agenda in order to have a discussion between the full CRNA Board and Mentasta Tribal Council Members. The Parties agree to listen to any issues, concerns, suggestions or recommendations by the other

Party and to make good faith efforts to resolve them to the Parties mutual satisfaction and to make all necessary amendments to this Agreement to formalize agreed upon changes.

6.5 Additional Resources. To the extent that Mentasta informs CRNA that additional resources are available to increase or expand services to Mentasta members, the Parties agree to make a good faith effort to increase or expand such services within a reasonable time frame and as memorialized in amendments to this Agreement. If CRNA declines to provide such additional increased or expanded services, it will provide the rationale for that decision in writing to Mentasta.

7. Legal Liability.

7.1 Each party shall be responsible for claims, losses, damages and expenses, which may arise out of negligent or wrongful acts or omissions of that party or its agents or employees, acting within the scope of their duties in the performance of this Agreement.

7.2 Notwithstanding Section 7.1, CRNA is a tribal organization performing functions under a contract with the United States authorized by the Indian Self-Determination and Education Assistance Act, 25 U.S.C. §§ 5301-5423. Consequently, CRNA is deemed to be part of the Department of Health and Human Services while carrying out any such contract, and its employees are deemed to be employees of the Public Health Service while acting within the scope of their employment in carrying out the contract. As such, they are protected from civil liability by various federal laws, including 25 U.S.C. §§ 5321(d), 1680c(d), section 314 of Public Law 101-512, and the provisions of the Federal Tort Claims Act (28 U.S.C. 1346(b), 2671-2680), including its defenses and immunities, will apply to CRNA. In performing its responsibilities under this Agreement, CRNA is acting as the arm of its member federally-recognized Tribes, and shares in the Tribes' sovereign immunity from unconsented suit. Nothing in this Agreement shall be construed to prejudice CRNA in any way or waive any of CRNA's rights or privileges pursuant to federal law, including-g the full protection and coverage of the Federal Tort Claims Act, including its defenses and immunities, nor does it waive CRNA's or its member Tribes' sovereign immunity from suit, nor does it waive any rights pursuant to the Indian Self-Determination and Education Assistance Act, 25 U.S.C. §§ 5301-5423, as amended.

7.3 Notwithstanding Section 7.1, Mentasta is a federally-recognized Indian tribe and nothing in this Agreement shall be construed to waive Mentasta's sovereign immunity from suit.

8. Amendments/Modifications.

This Agreement may be amended only in writing executed by the Parties.

9. Integration.

This Agreement incorporates and supersedes all prior Agreements by the Parties on the matters contained herein.

10. Assignments.

This Agreement may not be assigned, sold, transferred, or encumbered by either Party without the prior written consent of both Parties. Such consent may be withheld for any reason or no reason. Any attempts to assign this Agreement without consent shall be null and void, and the Agreement shall terminate.

11. Force Majeure

Each Party shall not be liable for its respective failure to perform any of its obligations under this Agreement if prevented from performing such obligation by a cause beyond its respective reasonable control which by the use of due diligence of CRNA or Mentasta, as the case may be, shall not have been able to overcome, including, but not limited to: acts of God, natural disaster, civil commotion, quarantine, fire, labor disputes or any action or non-action by the United States Government, including changes in existing legislation affecting the subject matter of this Agreement.

12. Dispute Resolution Process.

If a dispute should arise out of or related to this Agreement that the Parties are unable to resolve between themselves, the representatives of the Parties shall meet in a formal discussion session to attempt to resolve the dispute. If a satisfactory resolution is not achieved in that session, Mentasta may exercise its right to resign from CRNA or exercise any other right it may have under the Indian Self-Determination and Education Assistance Act and other applicable law. If Mentasta resigns in the future and a dispute arises over the distribution of assets, the Parties may agree to engage in binding or non-binding mediation to resolve the dispute. In such circumstances, the mediator must have at least seven or more years' experience working with the Alaska Tribal Health System and must be agreeable to both parties.

13. Compliance with Laws.

The Parties intend to fully comply with all applicable laws and regulations. The Parties agree that any portion of this Agreement, or any act or practice of the Parties in carrying out this Agreement, that is determined to be out of compliance with law shall be promptly amended or reformed.

14. Authority and Representations.

Each Party represents and warrants that: (1) it is authorized and empowered to enter into and perform this Agreement; (2) it has approved and authorized the execution, delivery, and performance of this Agreement insofar as it pertains to the obligations of the Party; (3) all action that may be necessary for the approval, execution, and delivery of this Agreement has been taken; and (4) all of the required and necessary approvals, authorizations, and actions are in effect at the time of the execution and delivery of this Agreement.

15. Signatures.

FUNDING AGREEMENT
BETWEEN
CERTAIN ALASKA NATIVE TRIBES
SERVED BY THE
KODIAK AREA NATIVE ASSOCIATION
AND
THE SECRETARY OF THE DEPARTMENT OF HEALTH AND HUMAN SERVICES
OF THE
UNITED STATES OF AMERICA
FISCAL YEARS 2018–2020

This Funding Agreement is entered into by and between certain Alaska Native Tribes served by Kodiak Area Native Association and the Secretary of the Department of Health and Human Services of the United States of America. These Tribes have authorized the Kodiak Area Native Association to sign this Funding Agreement for them and to be responsible for and carry out the terms of this Funding Agreement.

Section 1 – Obligations of IHS.

1.1 Generally. Under the authority of Section 325 of P.L. 105-83 and P.L. 93-638 as amended, non-residual programs, services, functions, and activities (PSFAs) of the Alaska Area Office and the Alaska Native Medical Center (ANMC) have been transferred to tribal management.

Delivery of PSFAs shall be consistent with each Co-Signer's Funding Agreement. The Indian Health Service (IHS) shall remain responsible for performing all federal residual PSFAs. IHS shall remain responsible for negotiating assurances with the Alaska Native Tribal Health Consortium (ANTHC) and Southcentral Foundation (SCF) on behalf of Alaska Natives and American Indians to the effect that Co-Signers continue to receive non-residual PSFAs from the ANMC and Area Office and provided by ANTHC and SCF at a minimum at the level that such PSFAs were provided by IHS as of October 1, 1997, to the extent permitted by Section 325 of P.L. 105-83. To the extent authorized by federal law, IHS will respond to written Co-Signer concerns about the extent with which such assurances have not been complied and take appropriate action. IHS shall further be responsible for performing its responsibilities as provided in the Indian Health Care Improvement Act, the Indian Self-Determination and Education Assistance Act, as amended (the Act), and other applicable provisions of federal law.

This Funding Agreement obligates IHS to provide funding and services identified herein and as provided in the Alaska Tribal Health Compact (Compact) between the Kodiak Area Native Association (KANA) and certain other Co-Signers thereof and the United States in Fiscal Years 2018–2020.

In addition, although funds are provided from Headquarters and Area Office in support of this Compact, IHS will agree to continue to make available to Co-Signer, programs, activities, functions, and services from both Area Office and Headquarters unless 100 percent of the total tribal shares for these PSFAs have been specifically included in this Funding Agreement. In cases where a portion of tribal shares have been transferred, there may be some diminishment in

the level of PSFAs provided by IHS. Furthermore, IHS will reorganize both Headquarters and the Area Office to continue to provide the remaining PSFAs, which have not been included in this Agreement, in the most effective and efficient manner possible, provided that decisions about the array and level of services to be offered by IHS shall be made in consultation with Alaska Tribes. IHS PSFAs not negotiated into or listed in Appendix A will be the responsibility of IHS.[1] The "Memorandum of Agreement Describing the Continuing Services of IHS, Alaska Area Native Health Service" among the Co-Signers and the Alaska Area Native Health Service (AANHS) reflects the understanding of the parties regarding services to be provided by the AANHS to Co-Signers. This document, attached as Appendix C, is hereby incorporated by reference.

Unless funds are specifically provided from Headquarters, Headquarters retains all PSFAs and KANA will not be denied access to, or services from, Headquarters. Specifically, KANA will receive the following services from IHS Headquarters:

1.1.1 Information Services. IHS will provide the full range of Office of Information Technology (OIT) national support to ANTHC and ANMC. OIT will provide specified services directly to KANA. In addition, OIT will provide support to ANTHC to assist it to carry out its responsibility to provide day-to-day technical support, user support, distribution of software and files, and other typical information technology support to Co-Signers as defined in the Assurances Appendix to the ANTHC funding agreement. Upon request of ANTHC, after good faith efforts to resolve KANA's technical issue, OIT's support of KANA will include technical support needed on-site by KANA. A list of the services due under this paragraph, with identification of the method of delivery, is shown below.

Office of Information Technology Provides:	Directly to ANTHC	Directly to Cosigner	Indirectly to Cosigner through ANTHC
National Database Services			
100% Data Center Services	X		
Process Data Exports into National Database		X

Hardware and Operating System Support			X
Cache Upgrade (initial installation)			X
National Patient File (2000) Conversion			X
Envoy (WebMD) Installation			X
Additional Services – Fee for Service	X	X	X

1.1.2 Access to Training and Technical Assistance. To the extent funds are retained by IHS, KANA shall have access to training, continuing education, and technical assistance in the manner and to the same extent KANA would have received such services if it were not a Self-Governance Co-Signer.

1.1.3 Medicare and Medicaid Claims Processing. KANA may exercise its right pursuant to Section 401 of the Indian Health Care Improvement Act, as amended by P.L. 106-417, to submit claims directly to and recover directly from Medicare and Medicaid.

1.1.4 Intellectual Property. In the course of administering federal contracts, grants, subgrants, and other agreements, IHS acquired various copyrights and licenses, including licenses pursuant to 45 CFR §§ 74.36 and 92.34, in works which IHS possessed, reproduced, published, and otherwise used and allowed others to possess, reproduce, publish, and otherwise use. To carry out the PSFAs assumed by KANA under this and previous funding agreements and contracts KANA has the delegated authority and permission from IHS to use and allow others to reproduce, publish, and otherwise make use of these works to the same extent as IHS, consistent with the copyrights or licenses acquired by IHS in such works.

1.1.5 HIPAA Compliance. IHS retains the responsibility for complying with the Health Insurance Portability and Accountability Act of 1996 (HIPAA) for retained IHS health care components.

1.2 Historical PSFAs. KANA has historically received certain PSFAs from ANMC and AANHS. Responsibility for these PSFAs have been transferred to ANTHC and SCF. For purposes of identifying those services provided by ANMC and AANHS prior to transfer of management to ANTHC and SCF, KANA attached to its FY 2000 Funding Agreement Addendum 1 entitled "Memorialization of Historical Level of PSFAs Provided by Alaska Native Medical Center and Alaska Area Native Health Service." The PSFAs listed in this addendum are taken from KANA's FY 1999 Annual Funding Agreement. The addendum was attached to the FY 2000– Funding Agreement only for the purpose of identifying historical levels of PSFAs received by KANA from ANMC and AANHS, and is specifically not made a part of this Funding Agreement.

1.3 Community Health Aide Program Certification. IHS retains the responsibility, pursuant to Section 119 of the Indian Health Care Improvement Act, as amended, to maintain the IHS Community Health Aide Program Certification Board (CHAPCB), which was established by and is under the direct control and supervision of IHS, to accredit training for and to certify community health aides, which includes Community Health Aides/Practitioners, Dental Health Aides, and Behavioral Health Aides/Practitioners as those terms are defined and used in the CHAPCB Standards and Procedures.

1.4 Access to Federal Insurance. IHS will assist KANA to obtain information about the coverage, rights, and benefits available for its employees under chapters 87 and 89 of title 5, United States Code, the cost of such coverage, rights, and benefits (including any options in coverage, rights, and benefits that may be available), and the procedures by which KANA may exercise its rights under Section 409 of the IHCIA to have access to such Federal insurance for its employees.

Section 2 – Obligations of the Co-Signer. This Funding Agreement obligates KANA to be responsible for and to provide health PSFAs, identified in Section 3 [Tribal Programs and Budget], utilizing the resources transferred under this Funding Agreement and other funds as they may become available to KANA. This Funding Agreement further authorizes the Kodiak Area Native Association to consolidate and redesign PSFAs as provided in the Act and the Compact.

Section 3 - Tribal Programs and Budget.

Subject to the availability of funds, KANA agrees to administer the programs of IHS and provide and be responsible for the health PSFAs identified below in accordance with the Compact and this Funding Agreement. For purposes of this Agreement, KANA's General Budget Categories consolidate related health PSFAs as listed below. To the extent any Tribe, which authorized KANA to enter into the Compact on its behalf, has entered into a contract under Title I or a Funding Agreement under Title V of the Act, KANA will not be obligated to provide any program, activity, function or service (or portion thereof) incorporated into such contract or Funding Agreement, except that KANA may, subject to the availability of resources, provide some or all services to such a Tribe.[2]

KANA is committed to and will strive to provide quality health services and will strive to meet standards it believes to be appropriate and applicable to the delivery of those health services. KANA has agreed to provide health care services to the Alaska Native and American Indian beneficiaries for the Kodiak Island Region. These services may include purchasing hospital services, including, but not limited to, in-patient, laboratory, radiology, radiography, ultrasound screening, and Emergency Room (ER) use through contract health; providing clinic services, including ancillary and support services, radiology radiography and ultrasound screening, Dental, Community Health Representative (CHR), Maternal Child Health (MCH), Community Health Aide/Practitioner Program (CHAP), Emergency Medical Service (EMS), Accident Injury Control and Prevention Program, Quality Control, Alcohol and Substance Abuse, Mental Health, Fetal Alcohol Syndrome/Fetal Alcohol Spectrum Disorders/Fetal Alcohol

[2] The Karluk I.R.A. Tribal Council entered into a Title I contract with the IHS that became effective on February 15, 1996, under which Karluk assumed responsibility for provision of the community health aide, community health representative and substance abuse programs.

Effects (FASD/FAE), immunizations (e.g., Haemophilus Influenza B), planning and implementation of an Electronic Health Records system, and special programs developed to ensure a broad, comprehensive continuum of care. KANA may also provide other PSFAs to meet the objectives of Section 3 of the IHCIA. PSFAs may be delivered in a variety of settings, including, but not limited to, clinics, homes, schools, and other community settings. KANA provides and facilitates a range of services directly, and in cooperation with ANMC, ANTHC, SCF, and other Co-signers, through field clinics, referrals to ANMC, and other arrangements with Tribal health organizations. Any PSFA described in this section 3 [Tribal Programs and Budget] may be performed by any organizational unit of KANA at KANA's discretion.

3.1 Hospital Services: Hospital services for KANA beneficiaries are provided principally by ANMC, or at KANA's discretion, may be provided through Contract Health Care in association with Providence Kodiak Island Medical Center, utilizing KANA Medical Staff, Providence Kodiak Island Medical Staff, and other local providers. These services may include other services that may be available on Kodiak Island on an inpatient, outpatient, or itinerant basis by Providence Kodiak Island Medical Center.

Beyond the medical services/activities furnished under this subsection, a referral/transport and case management system will be maintained, subject to funding limitations. This system includes the villages, Kodiak, and/or care provided at the next higher level of care.

3.2 Regional Health Services and Treatment and Support Services: The following programs will be provided subject to availability of funds. These include medical, behavioral and dental health care, and community and village-based clinics, programs, and services.

3.2.1 Behavioral Health Services

3.2.1.1 Alcohol and Drug Abuse Services: Provides services to reduce and prevent substance abuse and associated problems through inpatient and outpatient services, prevention/education, early intervention, referral services, transitional/residential care services, residential family treatment camp. and other treatment camps (such as the annual "Spirit Camp"), outpatient based treatment (such as KANA gatherings), outreach services and community involvement, diagnostic and primary alcoholism and drug abuse treatment services, including fitness activities, individual assessment and referrals, individual and group counseling, including anger management classes, and substance abuse education classes and Alcoholics Anonymous and/or Narcotics Anonymous meeting sponsorship, and aftercare;

3.2.1.2 Other Behavioral Health Service: Provides broad, comprehensive services to address family, child, adolescent, and community behavioral health problems through direct services, psychology services, crisis hotline, and referrals to other providers, including the Providence Kodiak Island Mental Health Center programs and services. As needed, a visiting psychiatrist provides mental health services in Kodiak. Psychiatric services include assessments, medication assessment and management, clinical direction to medical staff and behavioral health staff, and patient and provider education, including continuing medical education; and

3.2.1.3 Community child welfare and family services that respond through a multidisciplinary approach to child physical abuse, sexual abuse, and neglect and other conditions that place a child at physical or emotional risk, advocacy, foster home advocacy and supportive services, and other social services.

3.2.1.4 A combination of practices and resources are utilized throughout Behavioral Health Services, including a variety of western counseling methods and traditional modalities. The traditional modalities are used as channels for mental and emotional healing and are based upon traditional healing accepted in the KANA region and subsistence and culturally-based activities. A variety of activities may be utilized including boating, camping, fishing, hunting, trapping, gathering foods, community gatherings, and meeting with elders. These services may be provided by behavioral health aides, and village based counselors. Traditional health care services will be provided in accordance with 25 USC § 1680u.

3.2.2 Dental Services: Provides broad comprehensive services, including orthodontics and oral surgery, to improve dental health and/or lower the incidence of dental disease. The field dental program offers regularly scheduled visits to all villages on Kodiak Island.

3.2.3 Community Health Representative Services: Provides village-based services to determine health needs, improve health knowledge, and to promote healthy lifestyles and practices; provides advocacy services; provides administrative services.

3.2.4 Maternal Child Health Program: Provides prenatal care, family planning and newborn patient education, assistance in risk screening, and coordination of prenatal care.

3.2.5 Emergency Medical Services (EMS): Provides services to lower the incidence of death and disability; provides various levels of EMS training, including training for staff and volunteers within the various communities served by the Village Response Teams (VRT), and facilitates development of emergency response infrastructure.

3.2.6 Community Health Aide Program: Provides primary health care services, including telemedicine, telehealth, telepharmacy, and teleradiology services; community health aide, dental health aide therapist, and Behavioral Health Aide training, supervision and services under the *Standards and Procedures* of the IHS CHAPCB; and provides training support, supervision, quality assurance/CQI, logistic, and administrative services for the Community Health Aide Program.

3.2.7 Purchased/Referred Care: Provides services to beneficiaries at facilities other than KANA's Ambulatory Care Clinic. These services supplement those provided by SCF. Services provided include, but are not limited to: hospital care (both inpatient and ER), optometry services, radiology services, laboratory services, other clinical services, traditional, complementary and alternative medicine.

3.2.8 Other Health Programs: Health programs, which include, but are not limited to the following:

3.2.8.1 Fetal Alcohol Spectrum Disorders (FASD) prevention, public awareness, education, improve the lives of those already affected through diagnosis (in collaboration with local area service providers), intervention, advocacy, and resources development;

3.2.8.2 Family centered early intervention, assessments and support for children at risk of experiencing developmental delays, youth programs to promote mental and physical health and incorporate cultural values and community and family involvement, and programs to encourage youth to pursue education and training, including youth mentoring programs;

3.2.8.3 Prevention programs, including tobacco prevention, cessation, and control and healthy heart program;

3.2.8.4 Alaska Native Sobriety & Alcohol Control Program, including chemical dependency training program;

3.2.8.5 Nutrition services provide supplemental foods and nutrition education, counseling, and other services for women, infants, children, and others who are at nutritional risk;

3.2.8.6 HIV/AIDS prevention and education program;

3.2.8.7 Comprehensive programs to reduce diabetes and encourage healthy and subsistence-based lifestyles and individual and community wellness, through community and individual activity, physical fitness, and wellness programs, including such programs as culturally-appropriate arts and crafts programs, providing a fitness and wellness center, sponsorship and direction of youth and adult team sports, and other physical fitness activities and events;

3.2.8.8 Supportive and elder care services;

3.2.8.9 Community safety and violence prevention services, including participation in the community Sexual Assault Response Team and delivery of related prevention and treatment services, including providing training for and delivery of sexual assault exam services, family violence services, spirit camps, women's wellness conferences, men's wellness conferences and other gatherings, and women in crisis community program;

3.2.8.10 Community safety and injury prevention program that may include participation in local first responder teams, providing health and medical services to community patrols, and liaison with tribal, local, state, and federal governments and agencies directed at preventing intentional and unintentional injuries and death; and services for the protection of individuals impaired by alcohol and substance abuse and mental health crises;

3.2.8.11 Village-built clinics and other village and community facilities used in support of programs under this Funding Agreement;

3.2.8.12 Village based environmental health programs services, including those which support and enhance a subsistence lifestyle and water safety (including participation in public processes and policy making commissions and councils), the Rural Alaska Sanitation Housing Inventory Survey, and the lead paint assessments and inspections;

3.2.8.13 Disaster Preparation including purchase of single side band radios;

3.2.8.14 Provide tribal operations, technical support, and administration on request of tribes served by KANA; and

3.2.8.15 Comprehensive habilitation and rehabilitation programs, and related services, designed to assist individuals and their families to lead healthy, productive lives and engage fully in age-appropriate activities; such programs include, but are not limited to: for higher risk individuals, vocational rehabilitation, assistance, education, and training; services directed at assuring children and youth the opportunity to participate in educational and other healthy age-appropriate activities, including student support activities; health oriented education; socialization; health screening; growth and nutritional assessment; individualized culturally appropriate child development services; family services; family involvement; and financial support to assist KANA beneficiaries to be prepared to pursue health related careers.

3.2.8.16 Traditional healing services are provided in coordination with existing western medical services and complementary and alternative health services demonstrated to be reasonably safe and effective and indicated for the patient's diagnosis or condition may be provided following referral from a primary care provider (defined as a MD, DO, DDS, DMD, PA or ANP). Traditional health care services will be provided in accordance with 25 USC § 1680u.

3.2.8.17 Home Care and Other Community Based Services: through a combination of western methods and traditional modalities, home care and other community-based services provides care coordination, assistance with activities of daily living such as bathing, dressing, laundry, light housekeeping, cooking, vital signs, and medication reminders. These services are provided to individuals who are unable to perform their activities of daily living on their own, or when the families are unable to meet their needs. Home and community-based services also provides palliative and other end of life services, respite, chore, nutrition, transportation, and other supportive services including various senior programs and activities and engages in planning and development of additional services. These services will be provided in accordance with Section 205(a)(2), of the IHCIA, as amended 25 U.S.C. § 1621d.

3.2.8.18 Long Term Care and Hospice Services: Long term care services, including palliative care training and support to families and caregivers, and volunteer hospice services. These services will be provided in accordance with Section 205(a)(3) & (4), of the IHCIA, as amended 25 U.S.C. § 1621d.

3.2.9 Health Services Training: KANA provides health services training through offering sites for medical students, interns, residents, and other individuals obtaining training in the health and dental professions, including clinical preceptorships, mentoring, shadowing, training, and supervision.

3.2.10 Public Health and Epidemiology: Directly and/or through ANTHC, including its Epidemiology Center, KANA carries out public health, epidemiology, and health research functions. These activities include, but are not limited to: collecting and receiving personally identifiable health information for the purpose of:

3.2.10.1 preventing or controlling disease, injury, or disability;

3.2.10.2 reporting disease, injury, and vital events such as birth and death; and

3.2.10.3 the conduct of public health and epidemiological investigations, surveillance, and interventions, including the maintenance of disease and injury registries.

3.2.11 Support Services: a complement of services required to support the provision of health services to the Kodiak region may include, but is not limited to: interpreting and translation services; dietetics/nutrition services, including services associated with health promotion and disease prevention; operations and facilities management; security; human resources; administration and board support; infection control; patient (including escorts, in accordance with Section 213(a) of IHCIA, as amended at 25 U.S.C. § 1621*l*) and employee travel and travel management (to include airplanes, motor vehicles, boats, all terrain vehicles and other forms of transportation common to the Kodiak region, including vehicles owned or leased by KANA and privately owned vehicles used in the performance of the PSFAs under this Funding Agreement); patient case management (to include arranging for, assisting with, and providing emergency and routine patient transportation); contract and property management; staff and provider housing; telecommunications; financial management (to include patient registration, billing, collection, coding and other business office functions); Medicare and Medicaid and other benefits enrollment services; credentialing; and quality improvement activities, including peer review.

3.2.12 Administrative Services: develops, interprets, coordinates, and administers the organization's policies on finance, accounting, payroll, insurance, data processing, internal controls, auditing, material management, legal, corporate compliance, and human resources, including the following:

3.2.12.1 Human Resources: generally provides personnel services (to include staffing, recruitment, and retention); job classification; pay and benefits administration; training and development; employee relations; human resources information systems; and Native hire.

3.2.12.2 Finance: performs accounting, statistical records, payroll, accounts payable, grant requests and administration, reporting, and other finance activities, and coordinates reimbursement, budgeting, and forecasting programs, cash management, and annual third party audits.

3.2.12.3 Technology/Telecommunication Services: directs, coordinates, and executes telecommunications, telephone, data processing, Help Desk support, training and education, network and information management for operations and regulatory compliance;

provides maintenance, inventory, and equipment repair and disposal; coordinates regional and statewide efforts for telemedicine, telehealth, telepharmacy, and teleradiology services; and planning and implementation of an electronic health record system.

3.2.12.4 Office of the President & CEO: manages the affairs and property of KANA in accordance with direction from the Native peoples of the Kodiak region acting through the Board of Directors. This office includes the President & CEO, Vice-President of Health Services, Vice President for Community, Director of Administration, Finance Director, Chief Financial Officer, and Operations Director. Functions as liaison with local, regional, state, and national entities to address legislative issues, grants, contracts, funding, and planning. Develops and monitors public relations strategies and facilities planning as appropriate.

3.2.12.5 Facilities Management and Planning: provides assistance, planning, design, management, and general contracting for construction, demolition and clean-up, renovation, maintenance, security, and operation of all facilities and properties used by KANA under this Funding Agreement. When appropriate, KANA collaborates with public and private parties to construct, lease, or otherwise obtain necessary facilities.

3.3 Board of Directors. The board actively provides policy and direction for KANA for the benefit of the ten Federally recognized tribes on Kodiak Island.

3.4 Other Programs/Services Funded. This Funding Agreement includes programs, functions, services, and activities resulting from tribal redesign, or consolidation, reallocation or redirection of funds, including its own funds or funds from other sources, provided that such consolidation, redesign, or reallocation or redirection of funds results in carrying out programs, functions, services, and activities that may be included in the funding agreement pursuant to section 505 of Title V and Article III, Section 6 [Consolidation with Other Programs] of the Compact. This includes any other new health care programs, including, but not limited to, those identified in the Indian Health Care Improvement Act funded during the fiscal year.

3.5 Reallocation and Redesign: Any new health care program resulting from the reallocation of funds and redesign of programs during the fiscal year which will be in accordance with terms of the Compact.

3.6 Federal Tort Claims Act. The Federal Tort Claims Act applies to KANA's PSFAs under this Funding Agreement as provided in Section 516(a) of Title V (which incorporates Section 102(d) of Title I of the Act and Section 314 of P.L. 101-512) and Article V, Section 3 [Federal Tort Claims Act Coverage; Insurance] of the Compact. The extent of Federal Tort Claims Act coverage is described more particularly in 25 C.F.R. §§ 900.180-900.210.

3.7 Non-IHS Funding. KANA will complement and supplement the PSFAs described throughout Section 3 [Tribal Programs and Budget] with funding from sources other than IHS through this Funding Agreement, subject to the availability of such other funding sources. Consistent with Article III, Sections 5 [Reallocation], 6 [Merging with Other Programs], and 7 [Program Income] of the Compact, non-IHS funds will be added to or merged with funds provided by IHS through this Funding Agreement.

3.8 Tribal Facilities and Locations. KANA operates the programs described in this Funding Agreement out of more than one facility or location. These include, but are not limited to the facilities and locations listed in Appendix E, which will be submitted prior to the effective date of this Funding Agreement, and will be incorporated by reference herein. The Area Division of Planning, Evaluation and Health Statistics shall compile from this Appendix a list of all health facilities and locations identified in the Appendix and forward that list annually to the Headquarters' Office of Program Statistics, which shall include each of these facilities and locations in the annual list it must provide to the Centers for Medicare and Medicaid Services (CMS) (formerly Health Care Financing Administration) pursuant to the Memorandum of Agreement between the Health Care Financing Administration and the Indian Health Service (December 19, 1996).

3.9 Payer of Last Resort. Whether providing, purchasing, or authorizing health care services described in the Compact and this Funding Agreement, in accordance with Section 2901(b) of Pub. L. 111-148 [25 U.S.C. § 1623(b)], and as otherwise provided in law, KANA shall be the payer of last resort.

Section 4 – Amounts Available During the Term of the Funding Agreement

4.1 The following amounts shall be available to KANA in Fiscal Year 2018 pursuant to the Compact and Title V of the Act, and are subject to reductions only in accordance with Section 508(d) of Title V and Section 106 of the Act.[3]

	Annual Funding
Recurring base: Inclusive of all recurring funding, including recurring contract support funds.[4]	$ 7,321,695
Non-recurring funding: Inclusive of nonrecurring contract support funds and such other funding which may be added to the contract.[5]	$ 2,677,209
Subtotal: This amount is subject to amendments in accordance with Section 12 [Amendment or Modification of this Funding Agreement]	$ 9,998,904
Area "tribal" share to include funding identified from Area Office and identified in Appendix A to this Funding Agreement.[6]	$ 335,711

[3] A breakout of these funds is shown in Appendix A, which cites the source document used to determine the amount. These amounts are subject to change under the Act and as provided in this Funding Agreement. For other fiscal years to which this Funding Agreement is applicable, a replacement Appendix A will be negotiated between IHS and KANA for the respective year and amended to this Funding Agreement and incorporated by reference, accordingly.

[4] A breakout of these recurring funds is shown in Appendix A. See Footnote 4.

[5] These non-recurring funds are shown in Appendix A. See Footnote 4. Other non-recurring funds will not be specifically identified in this Funding Agreement, but will be provided to KANA in the future to the same extent as they have been provided historically.

[6] Funds from Area were distributed according to methodologies agreed upon in a caucus open to all Alaska Tribes and tribal organizations. The specific methodologies are identified in Appendix A. In addition to the Funding amount, prior to the effective date of Section 325 of P.L. 105-83, KANA restricted Area tribal shares in an

	Annual Funding
Headquarters - Tribal share: "Tribal Size Adjustment Pool," including all funds identified in Appendix A. The amount identified is exclusive of funds for which a distribution amount has not been determined. The final amount due shall be determined as set forth in this Funding Agreement or Appendix A.[7]	$ 237,893
Headquarters - Tribal share: "program formula pool" - to include all funds identified in Appendix A, and such additional funds which IHS may make available on a program formula basis during the year based on the programs accepted for this allocation in Appendix A. The amount identified is exclusive of funds for which a distribution amount has not been determined. The final amount due shall be determined as set forth in this Funding Agreement or Appendix A.	$0
Subtotal – Tribal Shares[8]	$ 573,604
TOTAL COMPACT FUNDING[9]	$10,572,509

These amounts are subject to additions for reimbursements and for new funds received during the term of this Funding Agreement including amounts that have historically been distributed as non-recurring funds under Title I of the Act. Any amounts remaining unspent under Contract No. 243-88-0010 or previous funding agreements, after adjustment and reconciliation of the withheld amounts for IPA/MOA, supplies, and services, as of the last day of the fiscal year, shall be included in this Funding Agreement.

Of the amount shown above for Headquarters Tribal Share "Program Formula," $35,726 are for Equipment Replacement; the Equipment Replacement amount paid as part of the lump sum due KANA was determined by multiplying the FY 2017 Equipment Replacement amount paid to KANA by 90%. The final Equipment amount paid in FY 2018 will be based on the final FY 2018 Equipment Replacement allocation. If the final Equipment Replacement amount, as determined by the final FY 2018 Equipment Replacement allocation, is less than the 90% calculation, KANA will return the difference to the IHS. See also Appendix A, footnote to line 22 on page 6.

---

amount identified as "Subtotal Area TS Amount" in the "KANA Restricted" column on Page 1 of Appendix A. Also see Addendum 2 regarding these funds.

7 Headquarters shares were allocated according to the following process, which was adopted in a caucus open to all Alaska Tribes and tribal organizations. The Alaska Area Tribal Share of Headquarters was first defined using the national IHS recommended methodology. The total Alaska Area Tribal Share was then reallocated to each Co-Signer according to the agreed upon Alaska Area methodology, which is identified specifically for each line in Appendix A. In addition to the annual funding amount, KANA is entitled to additional Headquarters' tribal shares in an amount identified as "Subtotal Headquarters TS amounts" in the "KANA Restricted" column on Page 1 of Appendix A. KANA has restricted Headquarters TSA funds identified in lines 126 and 137 of Appendix A.

8 It does not include certain Headquarters' tribal shares for which the amount or availability have not been determined. This amount will be adjusted to make available all tribal shares for which KANA is eligible.

9 For the reasons noted regarding the amounts that make up this total and because full funding amounts for under the previous year's Funding Agreement have not been fully identified or reconciled as of the time this Funding Agreement is being executed, all amounts to be paid in the fiscal year for this Funding Agreement are estimates and are subject to amendment to reflect the full amount due for this fiscal year.

Of the amount shown above for non-recurring program funds, $64,540 are for Routine Maintenance and Improvement (M&I); the Routine M&I amount paid as a part of the lump sum due KANA was determined by multiplying the FY 2017 Routine M&I amount paid to the Co-Signer by 90%. The final Routine M&I amount paid in FY 2018 will be based on the final FY 2018 Routine M&I allocation. If the final Routine M&I amount, as determined by the final FY 2018 Routine M&I Allocation, is less than the 90% calculation, KANA will return the difference to the IHS. *See also* Appendix A, footnote to line 19 on page 6.

The Recurring Base amount shown above includes $113,195 that KANA received, recurring in FY 2006 for Congressionally earmarked alcohol funds. Such funds are subject to "Adjustments Due to Congressional Actions" as described herein in Section 6 as well as any conditions on those funds that may be described in the FYs 2018, 2019, and 2020 Interior Appropriations Act (Act) or Congressional Reports. After the Act is passed into law, such conditions, including Congressionally-directed reporting requirements, will be added by amendment not requiring KANA's signature as described in Section 12 [Amendment or Modification of this Funding Agreement].

The parties agree Section 505(b)(2) of Title V provides, among other things, that grants administered by the Department of Health and Human Services through IHS may be added to KANA's Funding Agreement after award of such grants. In accordance with this provision of Title V and its implementing regulations, the Secretary will add KANA's diabetes grants and any other statutorily mandated grant(s) administered by the Department through IHS to this Funding Agreement after such grant(s) have been awarded. Grant funds will be paid to KANA as a lump sum advance payment through the PMS grants payment system as soon as practicable after award of the grant. KANA will use interest earned on such funds to enhance the purposes of the grant including allowable administrative costs. KANA will comply with all terms and conditions of the grant award, including reporting requirements, and will not reallocate grant funds nor redesign the grant program, except as provided in the implementing regulations or the terms of the grant.

4.2 Contract Support Costs. Contract support costs (CSC) will be paid in accordance with 25 U.S.C. § 5325 and § 5388(c). The parties agree that, according to the best data available as of the date of execution of this agreement, the amount to be paid under the FY/CY covered by this agreement, which represents the parties' estimate of KANA's full CSC requirement pursuant to 25 U.S.C. § 5325, is $3,017,166, including $440,222 for direct CSC and $2,576,944 for indirect or indirect-like CSC. This estimate shall be recalculated as necessary as additional data becomes available including information regarding the direct cost base, pass throughs and exclusions, and the indirect cost rates to reflect the full CSC required under 25 U.S.C. § 5325. The parties will cooperate in updating the relevant data to make any agreed upon adjustments. In the event the parties disagree on the CSC amounts estimated and paid pursuant to this paragraph and the Tribe's full CSC requirement under the ISDEAA, the parties may pursue any remedies available to them under the ISDEAA, the Compact, and the Contract Disputes Act, 41 U.S.C. §7101 et seq.

4.3 Base Budgets.

4.3.1 Categories and Base Year. At the end of the first period of the base budget option, IHS and Co-Signers agreed to extend the three year (FY 98–FY 2000) base budgets implemented for the Compact for an additional two years (FY 2001–FY 2002). IHS and KANA have subsequently agreed to additional extensions through FY 2020. IHS and Co-Signers have agreed to further extend the base budget period at the Co-Signer's option. The following categories are subject to base budgeting for the base year period and the period, as noted below:

Category of Funding	Base Period for Base Funding	Extended through:
Headquarters TSA Amounts[10]	FY 97	FY 2020
Equipment Replacement Funding	Not Included	N/A
Area Tribal Shares	Not Included	N/A

4.3.2 Adjustments. Adjustments to base funding shall be permitted in direct proportion to changes in appropriated amounts (by sub-activity), as provided under Section 6.1 [Due to Congressional Actions]. Adjustments shall also be permitted for the addition of new co-signers to the Compact and when current co-signers add or retrocede PSFAs, as provided in Section 12.3 [Due to Addition of New Programs].[11] Adjustments also shall be permitted when co-signer(s) chooses to restrict or unrestrict previously "restricted" or "unrestricted" categories, provided that restrictions shall be changed only during annual negotiations. KANA also shall be eligible for funding for new services, service increases, mandatories, specific Congressional appropriation for population growth, health services priority system, contract support costs, and other increases in resources on the same basis as all other tribes. Adjustments for changes required when a tribe joins or withdraws from a tribal consortium shall also be permitted, as provided under Section 6.2 [Proposals by Authorizing Tribes]. Co-Signers shall also remain eligible for the distribution of additional tribal shares for Assessments, Workers Compensation, Emergency Reserve, Management Initiatives, and other PSFAs from Headquarters.

Section 5 – Method of Payment.

5.1 Payment Schedule. Except as provided in subsections 5.2 [Availability of Tribal Shares], 5.3 [Buyback/Withholding], and 5.4 [Periodic Payments] of this section, all funds identified in Section 4 [Amounts Available During the Term of this Funding Agreement] of this Funding Agreement shall be paid to KANA, in accordance with Article II, Section 4 (a) [Payment Schedule] of the Compact; payment to KANA to be made as follows:

> One annual payment in lump sum to be made annually in advance by check or wire transfer.

10 Compact base budgets for TSA amounts shall be considered as a whole (entire Compact amount) and shall be subject to adjustment of the internal allocation subject to Compact agreements.

11 This includes addition of new facilities when the addition of these facilities includes an increase in equipment funds identified for the new facilities.

5.2 Availability of Tribal Shares. KANA will be paid 100 percent of Headquarters and Area Tribal Shares in its initial lump sum payment, as negotiated in this Funding Agreement.

5.3 Buyback/Withholding.[12] KANA may carry out its responsibility to provide certain PSFAs included in this Funding Agreement by using services or other resources of the Federal government under Article V, Section 22 [Purchases from the IHS] of the Compact, as permitted by law. Except as provided herein, the cost of such services and the terms under which they may be made available to KANA are set forth in the Buyback/Withhold Agreement between IHS and KANA, which is attached as Appendix D to this Funding Agreement and incorporated by reference herein. The administrative surcharge provided for in Section 2.2.4 of the Buyback/Withhold Agreement for FY 2018 shall be .285 percent. Notwithstanding Section 5 of the Buyback/Withhold Agreement, upon the request of IHS or any Co-Signer, such Buyback Agreement will be negotiated for future fiscal years annually during negotiation of this Funding Agreement.

5.4 Periodic Payments. Payment of funds otherwise due to KANA under this Funding Agreement, which are added or identified after the initial payment is made, shall be made promptly upon request of KANA by check or wire transfer.

Section 6 – Adjustments.

6.1 Due to Congressional Actions. The parties to this Funding Agreement recognize that the total amount of the funding in this Funding Agreement is subject to adjustment due to Congressional action in appropriations Acts or other law affecting availability of funds to IHS and the Department of Health and Human Services. Upon enactment of any such Act or law, the amount of funding provided to KANA in this Funding Agreement shall be adjusted as necessary, after KANA has been notified of such pending action and subject to any rights which the Co-Signer may have under this Funding Agreement, the Compact, or the law.

6.2 Proposals by Authorizing Tribes. Should any authorizing Tribe assume responsibility for PSFAs, (or portions thereof) under a contract or annual Funding Agreement pursuant to the Act, adjustment to funding amounts and responsibilities of KANA under this Funding Agreement will be negotiated.

Section 7 – Records.

7.1 Incorporation of the Privacy Act. Pursuant to Section 506(d)(1) of Title V, records acquired, generated, or maintained by KANA shall not be treated as Federal records under Chapter 5 of Title 5 of the United States Code, except that

7.1.1 patient medical records, financial records, and personnel records may be disclosed only in accordance with 5 U.S.C. Section 552a(b); and

12 As noted in Appendix A, KANA opts to withhold the minimum initial estimated amounts and buyback services as detailed in Appendix A.

7.1.2 pursuant to Section 105(o) of Title I, the medical records generated by KANA shall, at the option of KANA be stored with the National Archives and Records Administration, and KANA shall have access to such records.

7.2 Confidentiality Standards. KANA will seek to comply with the Administrative Simplification provisions of the Health Insurance Portability and Accountability Act of 1996 (HIPAA), including, but not limited to, privacy, security, transactions, and code set regulations, codified at 45 CFR Parts 160, 162 and 164. If a record is not subject to HIPAA, KANA will maintain the confidentiality of its patient records in accordance with policies and procedures adopted by its Governing Body, which will be consistent with the purposes and guidelines of HIPAA and the Federal Privacy Act of 1974.

Section 8 – Program Rules. The Kodiak Area Native Association will make a best effort to carry out the health PSFAs in this Funding Agreement in compliance only with:

> The Joint Commission (formally known as the Joint Commission on Accreditation of Healthcare Organizations (JCAHO)) or other equivalent standards for Ambulatory Care Facilities, as applicable; and IHS Community Health Aide/Practitioner certification standards.

Except as specifically set forth in this section, pursuant to Section 517(e) of Title V, KANA does not agree to be subject to any agency circular, policy, manual, guidance, or rule adopted by IHS, except for the eligibility provisions of Section 105(g) and the regulations promulgated under Section 517 of Title V, unless otherwise waived.

Section 9 - Real Property Reporting Requirements

9.1 Leases. The IHS must report on its federally leased facilities. KANA agrees to notify the AANHS of changes in occupancy, size, use, and general condition of Village Built Clinic (VBC) leased facilities in locations where KANA has bought back services from IHS. IHS will annually, or upon renegotiation, provide to KANA a copy of each VBC lease. No increase in the amount due to the lessor pursuant to a lease will be negotiated by IHS without advance notice to KANA. In administering these leases, IHS will work with KANA to ensure that each lease is in compliance with the standards referenced in the VBC lease.

9.2 Maintenance and Improvement Funds. KANA agrees to use maintenance and improvement funds received through this Funding Agreement in accordance with the appropriation language for Indian Health Facilities in the Department of Interior and Related Agencies Appropriation Acts for FYs 2018, 2019, and 2020 or any comparable Act of Congress that contains the subject appropriation and in accordance with 41 U.S.C. § 12 to the extent applicable.

9.3 The National Environmental Policy Act (NEPA), National Historic Preservation Act (NHPA), and related provisions of law require IHS to review and approve actions resulting in the use or commitment of IHS funds or that affect IHS property, and which may significantly impact the environment or cultural resources. Unless KANA has assumed these responsibilities under a construction project agreement in accordance with Section 509 of Title V and 42 C.F.R. §

137.285-312, IHS must carry out these responsibilities and has elected to utilize Appendix F. Where KANA plans to undertake an action, as described in Appendix F, on IHS owned real property or utilizing IHS funds received through this Funding Agreement and KANA has not assumed these responsibilities, KANA will provide IHS with a Project Summary Document (see Appendix G-4) and a completed Environmental Information and Documentation Form (see Appendix G-5) so that IHS can accomplish these requirements, and issue a Determination Document (Categorical Exclusion (CATEX) or Finding of No Significant Impact (FONSI)), as soon as possible. All documentation shall be submitted to IHS as early as possible in the planning phase of the project to prevent delays in the action. No irreversible action can be taken by KANA until IHS completes its compliance responsibilities and so advises KANA with a Determination Document). Pending resource availability, IHS is available for education and consultation on NEPA, NHPA, and related provisions of law on an as needed basis.

Section 10 – Retrocession and Discontinuance.

10.1 Retrocession. The retrocession provisions of Section 506(f) of the Act, are herein adopted, except that the effective date of a retrocession request from the Compact and Funding Agreement, in whole or in part, shall be one year from the date of the request by an authorizing Tribe or Village, except as provided below.

Retrocession may be effective with less than one year's notice, providing the Tribe or Village requesting retrocession, KANA, and IHS agree to an effective date of less than one year from the date of retrocession request.

10.2 Discontinuance. KANA may discontinue its participation in the Compact after written notice to each authorizing Tribe or Village and IHS. Notice must be provided one year in advance of the effective date of the request except that the effective date of a request may be less than one year upon approval of all authorizing Tribes and Villages and IHS.

10.3 Withdrawal Procedures.

10.3.1 Process. Unless prohibited by law and in accordance with Section 506(g) of the Act, a tribe or tribal organization may fully or partially withdraw from a participating tribal organization its share of any program, function, service, or activity (or portions thereof) included in the Compact or Funding Agreement, and such withdrawal shall become effective within the time frame specified in the resolution which authorized transfer to the participating tribal organization, provided that in the absence of a specific time frame being set forth in the resolution, such withdrawal shall become effective on –

10.3.1.1 The earlier of

10.3.1.1.1 One year from the date of submission of such request; or

10.3.1.1.2 The date on which the Funding Agreement expires; or

10.3.1.2 Such date as may be mutually agreed by the Secretary, by the Indian tribe or tribal organization that is withdrawing, and by the tribal organization that has signed the Compact and Funding Agreement on behalf of the withdrawing Indian tribe or tribal organization.

Section 11 – Consolidation of Contracts and Previous Funding Agreements. The contracts listed below and all previous Annual Funding Agreements shall be amended or terminated, as appropriate, to transfer applicable contract funds into this Funding Agreement for programs, activities, functions, services, materials, and facilities provided to the Tribes represented by Co-Signer.

Contract: #243-88-0010.

Section 12 – Amendment or Modification of this Funding Agreement.

12.1 Form of Amendments. Except as otherwise provided by this Funding Agreement, the Compact, or by law, any modifications of this Funding Agreement shall be in the form of a written amendment and shall require written consent of each of the signatory Tribes, acting directly or through KANA as authorized by resolution, the Kodiak Area Native Association, and the United States. Participation or written consent of Tribes and Co-Signers not subject to the terms of this Funding Agreement shall not be required.

12.2 Services from IHS. Should KANA determine that it wishes IHS to provide PSFAs included in this Funding Agreement for which funding has been identified but not provided, the parties shall negotiate an amendment to the Funding Agreement to reflect the transfer of responsibilities from the Co-Signer back to IHS and the pro-rata share of funding for that program, activity, function, or service shall be retained by IHS. Unless otherwise negotiated, IHS will not transfer centrally paid expenses including but not limited to Workers Compensation to any Co-Signer.

12.3 Due to Addition of New Programs. Should KANA determine that it wishes to provide a program, service, function, or activity of IHS not included in this Funding Agreement, KANA shall submit a proposal to IHS to provide such program, service, function, or activity. The parties agree to negotiate such a proposal and, should the parties fail to reach agreement, KANA may submit a final offer in accordance with Title V procedures set forth in Section 507(b)-(d) of Title V. A proposal submitted pursuant to this section shall be treated as a request for amendment to the Funding Agreement and, once approved by IHS, the Alaska Area Office shall prepare within 30 days an amendment to this Funding Agreement and the amendment shall be executed through the Area Office and added to this Funding Agreement.

12.4 Due to Availability of Additional Funding. KANA shall be eligible for any increases in funding or funding for Medicaid, Medicare, maintenance and improvement, other reimbursements, and new programs for which it would have been eligible had it been administering programs under a self-determination contract, rather than under the Compact and this Funding Agreement, and for any other funds that are not restricted by appropriations language for which any Alaska Tribe or tribal organizations may be eligible, including any new funds appropriated for IHS Headquarters and funds passed to Alaska Area as recurring or non-recurring funds, and this Funding Agreement shall be amended to provide for timely payment of such new funds to Co-Signer. Such amendment shall be originated and prepared within 30 days by the Alaska Area Office and executed through the Area Office in consultation with the Co-Signer.

12.5 Other Adjustments. Upon written authorization by KANA and agreed to by IHS, IHS may reallocate funds retained by IHS, which are obligated to KANA, for the purpose of reimbursing IHS for services or equipment provided to KANA to assist KANA in carrying out the terms of the Compact and this Funding Agreement.

12.6 General Procedures for Amending or Modifying this Funding Agreement. Amendments or modification proposed by KANA shall be submitted in writing to IHS, Alaska Area Director with a copy to the Office of Tribal Self-Governance at IHS Headquarters. Except as provided with respect to the incorporation of a provision of Title I of the Act under Article V, Section 21 [Applicability of Title I Provisions] of the Compact, or as provided above in paragraph 12.4 [Due to Availability of Additional Funding], and 12.7 [Funding Increases] of this section, a request to amend or modify this Funding Agreement submitted by KANA shall be processed in accordance with Sections 507(b)-(d) of Title V of the Act, and all provisions of those identified sub-sections are incorporated herein for this purpose.

12.7 Funding Increases.

12.7.1 Written consent of KANA shall only be required for issuing amendments for those funds which:

12.7.1.1 Require a change to Section 3 [Tribal Programs and Budget];
12.7.1.2 Require a specific commitment by KANA (e.g., Maintenance & Improvement projects and prior fiscal year Sanitation Facility Construction projects); or
12.7.1.3 Reduce funding other than changes in Congressional appropriations pursuant to Section 6.1 [Adjustments Due to Congressional Actions].

12.7.2 Amendments not requiring written consent may include, but are not limited to:

12.7.2.1 Program/Area/HQ Mandatories;
12.7.2.2 Program/Area/HQ End-of-Year Distributions;
12.7.2.3 CHEF, subject to the condition that if a case initially qualifying for reimbursement is paid (in whole or in part) by an alternate resource or cancels for any reason, KANA will return the unused amount to IHS CHEF account;
12.7.2.4 CHS Deferred Services;
12.7.2.5 Routine Maintenance & Improvement; or
12.7.2.6 Collections and reimbursements.

12.7.3 Amendments reflecting payment of these funds shall be provided to KANA after any such funds are added to the Funding Agreement. KANA retains the right to reject the addition of such funds to the Funding Agreement and return the funds to IHS.

Section 13 – Third Party Recoveries. Any funds recovered by KANA through the filing, litigating, or settling of a claim against a third party to require that third party to pay for services previously provided to IHS-eligible beneficiaries by KANA, or for such services previously provided by IHS in a PSFA now operated by KANA, shall be the property of the Co-signer and shall be considered program income to be utilized by KANA as provided in Article III, Section 7 [Program Income] of the Compact. Any prospective recovery of funds for such services shall

likewise be considered program income to be utilized pursuant to Article III, Section 7 [Program Income] of the Compact.

Section 14 – Memorandum of Agreement with Member Villages. Funds provided under this Funding Agreement may be allocated to and expended by an Alaska Native Village (Village) which is a party to this Funding Agreement in accordance with the terms of the Compact, this Funding Agreement, and a Memorandum of Agreement (MOA) approved by KANA and the Village. The Federal Tort Claims Act shall apply to PSFAs carried out by the Village under such MOA and to the Village and its employees to the same extent as if they had been carried out directly by KANA. Such an MOA may include provisions for the assignment of federal employees under IPA assignment or Commissioned Corps detail. Such assignment shall be subject to the approval of the AANHS Director. KANA shall be responsible for assuring compliance by the Village with the Compact, this Funding Agreement, and the MOA.

Section 15 – Service to Non-Beneficiaries. Section 813 of the Indian Health Care Improvement Act, as amended, 25 U.S.C. 1680c, (Section 813), authorizes the governing body of a Tribal Organization carrying out health services of IHS under the Indian Self-Determination and Education Assistance Act to determine whether health services should be provided under the Tribal Organization's funding agreement with IHS "to individuals who are not eligible for such health services under any other subsection of this section or under any other provision of law" 25 U.S.C. 1680c(b)(1)(B). The KANA Board of Directors has made such determination consistent with Section 813, and provides for its findings in Resolution No. 05-07. Resolution 05-07 is attached as Appendix B and incorporated by reference herein. KANA may provide services under this Funding Agreement to non-beneficiaries as described in Resolution No. 05-07. In addition, services may be provided to U.S. Public Health Service Commissioned Corps Officers and their dependents.

Section 16 – Memorializing Disputes. The parties to this Funding Agreement may have failed to reach agreement on certain matters which remain unresolved and in dispute. Such matters may be addressed through the process set forth in Sections 507(b)-(d) of Title V, or at the KANA's option, may be set forth in an attachment to this Funding Agreement, which shall be identified as "Memorialization of Matters Remaining in Dispute." This attachment shall not be considered a part of this Funding Agreement, but is attached for the purpose of recording matters in dispute for future reference, discussion, and resolution as appropriate. KANA does not waive any remedy it may have under the law with regard to these issues and any others not listed herein.

Section 17 – Severability. This Funding Agreement shall not be considered invalid, void, or voidable if any section or provision of this Funding Agreement is found to be invalid, unlawful, or unenforceable by a court of competent jurisdiction. Should such a court make such a finding, the parties will seek agreement to amend, revise, or delete any such invalid, unlawful, or unenforceable sections or provision, in accordance with the provisions of the Compact.

Section 18 – Title I Provisions Applicable to This Funding Agreement. As authorized in 25 U.S.C. § 5396(b), KANA exercises its option to include the following provisions of Title I of the Act as part of this Funding Agreement, and these provisions shall have the force and effect as if they were set out in full in Title V of the Act.

18.1. 25 U.S.C. § 5304(e) (definition of "Indian Tribe");

18.2. 25 U.S.C. § 5322(b) (related to grants for health facility construction and planning, training and evaluation);

18.3. 25 U.S.C. § 5322(d)(1) (related to duty of IHS to provide technical assistance);

18.4. 25 U.S.C. § 5324(a)(1) (exemption from Federal procurement and other contracting laws and regulations);

18.5. 25 U.S.C. § 5328(b) (conflicting provisions of law);

18.6. 25 U.S.C. § 5329(c), section 1(b)(8)(F) (screener identification);

18.7. 25 U.S.C. § 5329(c), section 1(b)(9) (availability of funds);

18.8. 25 U.S.C. § 5329(c), section 1(d)(1)(B) (construction of contract);

18.9. 25 U.S.C. § 5329(c), section 1(d)(2) (good faith).

Section 19 – Effective Date and Duration.

This Funding Agreement became effective on October 1, 2017, and will remain in effect through the 2020 Federal Fiscal Year or until a subsequent agreement is negotiated and becomes effective pursuant to Article II, Section 12 [Subsequent Funding Agreements] of the Compact.

General Notes on Alaska Area Office Tribal Shares

Column 1 - Includes all FY17 changes allocated to TS, Residual, & Transitional as of FY17. In FY 2018 TS changes will be added as received.

Column 2 - Residual includes no changes in residual functions. Based on FY2018 Area approved residual budgets.
Remaining funds at 9/30 distributed (Non-Recurring) to all Alaska Area health programs based on recurring base.

Column 3 - Transitional funds agreed by co-signers to remain at Area Office. Based on FY2018 approved transitional budget.

Column 4 - Restricted by all co-signers & transferred to the ANTHC to provide "Area PSFAs".

Column 5 - Includes Area TS for all Alaska Tribes, including Title I & Title V. FY18 mandatories to be added if received.

Column 6 - Available Tribal shares for Co-Signer (amounts for ANTHC include pass-through to awardees with shares captured by Sec. 325).
Distributed by the approved ATHC methodology of - 30% # of Tribes / 35% 2010 Census Pop. / 35% 2013 Rec. Base (less VBC).
All Area TS for Services line items will be recurring, Area TS for Facilities will be non recurring.

Column 7 - Items restricted by individual co-signer to pay for continued services from ANTHC. (Restricted amounts are added to ANTHC FA.)

Column 8 - The agreed upon amount due (col. 6 - col. 7) to the co-signer after all retained shares are withheld.

Line 1 - All TS funds for non-OEHE Area Office PSFAs except where co-signers have individually decided to retain certain PSFAs at the ANTHC or AANHS.

Line 5 - Lease on Inuit Building.

Line 5a - $20,000 (less sequester) from transitional funding held by IHS to rent space for annual negotiations. Funds transferred to ANTHC upon confirmation of spac

Line 7 - Centrally paid expenses, including personnel & finance support for Area positions, costs & funds for departmental assessments.

Line 8 - Area Human Resources functions (previously Office of Personnel & Training).

Line 9 - Funding originally from ANMC - have all been returned to SCF/ANTHC as IPA/MOAs were reduced.

Line 10 - Includes funding for Area PSFAs transferred to ANTHC under Section 325.

Line 11 - Funds to ANTHC to support the statewide Contract Health Services reserve program.

Line 12 - Funds to ANTHC to support specialized services in Barrow, NSHC, & BBAHC & certain statewide laboratory contracts.

Line 13 - ANHB funds from Loc 77 including previous tobacco prevention funding.

Line 14 - Supply Service Center individually withheld amounts retained for ANTHC for all co-signers except YKHC, Seldovia, & Eklutna.

Line 15 - Funds distributed to support the Epidemiology Center distributed to co-signers for individual payment to ANTHC.

Line 16 - Funds for EMS training. Retained by IHS for transfer to ANTHC for Maniilaq, BBAHC, & Chugachmiut for EMS training at ANMC.

Line 18 - Does not include funds from surcharge, assessments, or other services purchased through Area Office.

Line 22 - Funds retained for ANTHC for all co-signers except YKHC, SCF, & KIC.

Line 24 - Does not include NR SFC funds for Health Facilities design and construction oversight.

Resolution No. 05-07

KODIAK AREA NATIVE ASSOCIATION
BOARD OF DIRECTORS
Resolution No. 05-07

TITLE: DELIVERY OF HEALTH CARE SERVICES TO INDIVIDUALS NOT OTHERWISE ELIGIBLE FOR SERVICES FROM THE INDIAN HEALTH SERVICE

WHEREAS, the Kodiak Area Native Association is a tribal consortium of federally recognized Alaska Native tribes on Kodiak Island; and

WHEREAS, the Kodiak Area Native Association (KANA) has been controlled, sanctioned, and chartered by the governing bodies of the Alaska Native villages on Kodiak Island to undertake all available opportunities under the Indian Self-Determination and Education Assistance Act (ISDEAA), as amended, to promote Alaska Native control, management and operation of all health programs serving the Alaska Native people of Kodiak Island, and such authorization has been expressed in the form of resolutions on file with the Alaska Area Office of the Indian Health Service; and

WHEREAS, based on the authorizations provided by the federally recognized tribes of Kodiak Island, KANA is a "tribal organization" under Section 4(*l*) and 501(b) of the ISDEAA, as amended [25 U.S.C. § 450b(*l*) and 458aaa]; and

WHEREAS, KANA operates health programs and facilities under the terms and conditions of the Alaska Tribal Health Compact and funding agreements negotiated between KANA and the Department of Health and Human Services, Indian Health Service under Title V of the ISDEAA, as amended; and

WHEREAS, the Indian Health Care Improvement Act, section 813(b)(1)(B), authorizes the governing body of KANA to determine whether, and to what extent, KANA will provide services to individuals not otherwise eligible for health services funded by the Indian Health Service (*i.e.*, "non-beneficiaries"); and

WHEREAS, Section 813 further provides that the governing body shall consider whether the provision of such services will result in a denial or diminution of services to eligible Indians, and whether there are reasonable alternative health facilities or services available to serve these non-beneficiaries; and

WHEREAS, the KANA Board of Directors makes the following findings and determinations regarding KANA providing services to non-beneficiaries living in the remote communities on Kodiak Island:

1. KANA operates the only health programs in the Kodiak Island villages of Akhiok, Karluk, Larsen Bay, Old Harbor, Ouzinkie, and Port Lions, and there is no road

access to any of these communities; therefore the KANA Board determines that no reasonable alternative health facilities or services are available to serve the non-beneficiaries in these locations and the provision of services to non-beneficiaries in these communities will not diminish services available to beneficiaries;

2. based on the finding and determination herein the KANA Board authorizes the full range of health care services be provided to non-beneficiaries in the above listed Kodiak villages including diagnostic or ancillary services, which may be provided at the KANA Clinic in Kodiak or through referral agreements KANA relies upon for IHS beneficiaries which do not require the patient leave the village;

3. the type and extent of services provided to non-beneficiaries may vary from village to village at the discretion of the KANA Board of Directors, who shall consider the extent of the need for services, whether there has been any change in the availability of altemative health facilities or services, and whether providing the service will cause diminishment in the availability of services to beneficiaries; and

WHEREAS, the KANA Board of Directors makes the following findings and determinations regarding KANA providing services to non-beneficiaries living in the city of Kodiak:

1. KANA is the only provider of certain Behavioral Health Programs (e.g., Anger Management Classes, Recovery Camp) in the city of Kodiak, and there is no road access to another city where such services may be provided; therefore, the KANA Board determines that no reasonable alternative services are available for certain Behavioral Health Programs in Kodiak and the provision of such services to non-beneficiaries will not diminish services available to beneficiaries;

2. based on continued relevancy regarding the findings and determination regarding services available in Kodiak, the KANA Board authorizes that certain Behavioral Health Programs may be provided to non-beneficiaries in the City of Kodiak; and

WHEREAS, KANA has established billing procedures to ensure that all non-beneficiaries are held liable for receipt of health services and KANA has entered into agreements with the State of Alaska to ensure payment by the State for services offered to indigent non-beneficiaries, as required by Section 813 of the Indian Health Care Improvement Act, as amended [25 U.S.C. § 1680c]; and

WHEREAS, the KANA Board of Directors has determined that the conditions of Section 813 of the Indian Health Care Improvement Act, as amended [25 U.S.C. § 1680c], are satisfied;

NOW THEREFORE BE IT RESOLVED that the Board of Directors for the Kodiak Area Native Association hereby authorizes the extension of health services from the Kodiak Area Native Association to non-beneficiaries at the locations and to the extent described in this resolution; and

BE IT FURTHER RESOLVED that the Board of Directors for the Kodiak Area Native Association will, at a future date, limit or eliminate access to such health services by non-beneficiaries should reasonable alternative health facilities become available or the provision of such services diminish the provision of health services to beneficiaries of the Indian Health Services.

In Witness whereof, we have signed this instrument and caused the corporate seal of said Corporation to be hereunto affixed the 15th day of December 2004.

Freddie Christiansen, Chairperson

Alicia L. Reft, Secretary

FY 2016 Continuing Services Agreement

MEMORANDUM OF AGREEMENT DESCRIBING THE CONTINUING SERVICES OF THE INDIAN HEALTH SERVICE, ALASKA AREA NATIVE HEALTH SERVICE TO KODIAK AREA NATIVE ASSOCIATION FOR FY 2016

I. INTRODUCTION

This agreement provides for the continuation by the Indian Health Service (IHS) of certain services from the Alaska Area Office for the benefit of Kodiak Area Native Association (KANA) under its Funding Agreement (FA) under the Alaska Tribal Health Compact (ATHC) Self-Governance Compact.

This agreement is limited to the programs, services, functions, and activities (PSFAs) performed by the residual and transitional federal staff of the Alaska Area Office.

This agreement should be interpreted in conjunction with KANA's FA and Appendix A to that FA, which may provide for additional detail on "restrictions" of funds at the Area or Headquarters level to ensure that specific services are continued to the individual Co-Signer.

In FY 2016, funding for these continuing services and activities will be from the funds, which have been designated as residual and from funds, which have been designated in support of temporary transitional federal PSFAs. In addition funding to purchase specific services, i.e., use of IPA/MOA assignees and Village Built Clinic leases, may be provided through reimbursement by KANA to the IHS.

II. DEFINITIONS

The following definitions are in common usage in the Alaska Area:

A. ATHC Tribal Restricted Share - Used in Alaska to refer to those retained Tribal shares all compacting Tribes jointly initially agreed to leave in the Area Office in support of Alaska Area state wide PSFAs. Pursuant to Section 325 of PL 105-83, these shares now are in the Alaska Native Tribal Health Consortium (ANTHC) FA or are used for transitional federal PSFAs.

B. Buyback - The process by which Co-Signers use cash to purchase Area services from the Area Office. Requires accurate description and pricing of service, and mechanism for Area to invoice and receive payment.

C. Co-Signer Restricted Shares - Used in Alaska to refer to "retained Tribal shares" that have been left at the Area Office or Headquarters on an individual basis by a Co-Signer to allow the Area, Headquarters or ANTHC to provide specific services to the Co-Signer. Pursuant to Section 325 of PL 105-83, these Area shares now are in the ANTHC FA or are used for transitional federal PSFAs.

D. Residual - The resources necessary to support the PSFAs required for the United States Government to fulfill and maintain its moral and legal responsibilities based on treaties,

statute, and Executive order that are essential for the federal government to fulfill its "inherent federal functions".

E. Transition Plan - Plan initially agreed to by the Alaska Tribes to allow a transition of less than 100% of the Area Office Tribal shares to the Co-Signers collectively. (This definition is included for historical purposes only.)

F. Tribal Share - That portion of Headquarters or Area resources not determined to be residual and allocated to individual Tribes or to Tribes collectively, via Tribal organizations, utilizing an agreed upon methodology.

G. Tribe - As used in this Agreement, "Tribe" refers to Tribes and Tribal organizations, as those terms are defined respectively in Sections 4(e) and (*l*) of P.L. 93-638, the Indian Self-Determination and Education Assistance Act, as amended (the Act).

III. AREA SERVICE DELIVERY AGREEMENT

Nothing in this agreement is intended by KANA or the IHS, nor shall be interpreted by any party, to limit or reduce in any way the PSFAs that any Tribe or Tribal organization is eligible to receive from the Area Office under Sec. 102 of Title I of the Act, under Sections 505 and 515(a) of Title V of the Act, or any other applicable federal law.

The table for each "Office" (or separate organizational component) presents the PSFAs currently performed and the staffing to perform the PSFAs. The residual PSFAs described in this Continuing Services Agreement serve all Co-Signers. The transitional personnel shown in this Agreement primarily support ANTHC PSFAs; however, some support other Co-Signers (e.g. IPA/MOA). PSFAs and the associated funds and personnel performing transitional PSFAs in support of the ANTHC (and Southcentral Foundation (SCF) for certain designated human resources PSFAs) under this Agreement may be transferred to the ANTHC or SCF under its FA.

A. OFFICE OF THE DIRECTOR

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional	Staffing (FTE)
Director	Provides overall executive direction and support on behalf of the Secretary.	R	1
Deputy Director, Chief Medical Officer	Provides public health advocacy; clinical consultation (CMO); legally required certification of health aide credentials and oversight of CHAP certification process; consultation in CHAP/Rural Health program management.	R	1
Executive Officer	Serves as principal advisor to the Director on overall management policies and procedures.	R	1
Attorney	Provides Region X attorney support and consultation.	R	1
EEO	Provides EEO support. 1		
Support Staff	Secretarial, clerical and administrative support to inherent and transitional federal functions at all levels of the Area Office.	R T	3 1
Planning, Evaluation & Statistics	Prepare statistical reports and publications in support of planning, evaluation and resource allocation requirements.	R	2
	Total		10

1 The EEO function is provided under an intra-agency agreement among the IHS Alaska, California and Portland Area Offices.

The Office will provide the specific PSFAs defined below:

1. Executive direction on behalf of the Secretary to the remaining inherently federal functions.

2. Advocacy at national level on behalf of the Tribes of Alaska including: legislative, policy, resource allocation, and appropriation advocacy.

3. Policy formulation and interpretation; supervision of non-IPA/MOA federal employees; negotiate, execute and administer compacts and FAs; resource allocation.

4. Public health coordination with Tribal, state and federal governments.

5. Provide legal advice and consultation on behalf of the Secretary.

6. Provides representation on the Executive Committee and Planning Committee of the Alaska Federal Health Care Partnership (AFHCP). Through the government-to-government relationship with Tribes and Tribal organizations, provides the mechanism for Tribal membership on the AFHCP.

7. Eligibility determinations assistance.

8. Equal Employment Opportunity program management in support of federal employment rights.

9. Oversight of certification of Community Health Aides as outlined by law and the *IHS Community Health Aide Program Certification Board Standards and Procedures.*

10. Consultation and technical assistance to Tribes and Tribal organizations staff and programs including

a. Program review or evaluation at the request of the Area Director or the invitation of Tribal programs;

b. Submission of electronic health record data to IHS National Data Warehouse; and

c. Maintain current Area statistics to provide statistical analysis in support of resource needs and allocations.

d. Review and validate Alaska active user populations.

e. Publish *Census Based Alaska Native Population Counts* to supplement and cross check the accuracy of the user populations.

f. Verify the permanent staff increase Resource Requirement Methodology Needs Assessment (RRMNA) prepared by Tribes to determine staff needed for new facilities.

g. Collate data submitted for IHS distribution of specially earmarked funds following national allocation guidelines, when available, and suggest alternate distribution methods to program directors.

h. Publish the *Alaska Area Profile.*

i. Maintain the Alaska Area IHS website and publish Area Director's quarterly newsletter.

j. Publish the *Area Senior Executive Service Workplan* to support agency evaluation of the goals and accomplishments of the Area Office, its Director and Office Directors.

k. In cooperation with the AANHS/OEHE and ANTHC's Division of Environmental Health and Engineering and Co-Signers, provide user population and workload data, assist Co-Signers with preparation of applications; verify applications and planning documents prepared by Tribes (Health System Planning -HSP, PORs, and PJDs)

for health facility expansion and replacement; and assist Co-Signers in the Headquarters' review process.

1. Communication between Tribal programs and IHS by seeking legal opinion from Region X attorney on issues which affect health care delivery by Community Health Aides such as standards of care, certification, Clinical Laboratory Improvement Act (CLIA) regulations, and Federal Tort Claims Act coverage.

11. Provide health program technical assistance and consultation on a limited basis as expertise and resources permit. This includes consultation on PSFA descriptions in Title I contracts, Title V FAs, specified grants and personal service and other contracts.

12. Support staff for the Director's Office and all other Area Office components without specific support staff.

13. Provide reimbursement to Headquarters for certain centrally paid expenses to include 100 percent of Department of Health and Human Services financial services and portions of other such expenses as reflected in the negotiated transitional budget for the ANTHC.

14. Performs the responsibilities identified in section 1 of the FA regarding ANTHC and SCF assurances.

15. Perform delegated functions to approve and administer FAs and amendments. The delegation includes the performance of Single Agency Audit, audit resolution for Title V awardees (Co-Signers); the function is provided using a multi-member Area-based team.

16. Responsibility for the Area Internal Control/Management Control programs, IHS Succession Plan and the Strategic Human Capital initiative.

17. As federal supervisor of Commissioned Officers serving under MOAs, the Area Director: functions as Reviewing Official for completion of annual Commissioned Officer Evaluation Reports; provides the Reviewing Official Statement for each officer when they are considered for promotion; and, fulfills any other action required as an officer's Reviewing Official. The Area Director may delegate this responsibility to Area Federal Staff as needed.

B. OFFICE OF ACQUISITION AND PROPERTY MANAGEMENT

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional	Staffing (FTE)
Federal Contracting Title I awards, Personal Property, and Prime Vendor program	Responsible for federal acquisitions to support the Alaska Area Office and Anchorage-based Centers for Disease Control and those required or elected in support of Tribally operated PSFAs. Responsible for the negotiation, award and administration of Title I, P.L.93-638 contracts. Maintains the federal personal property inventory. Manages the Pharmacy Prime Vendor program. Provides or coordinates certain administrative services for the Alaska Area office. (Surcharge funded services are also provided as needed and are noted with an asterisk (*))	R	2
	Total		2

The Office will provide the specific PSFAs defined below:

1. Negotiate, award and administer federal acquisitions including those in support of Tribally managed programs.

2. Maintain or develop Area agreements (Inter/Intra-Agency Agreements, Cooperative Agreements, Memoranda of Agreement) in close partnership with appropriate IHS or other federal, state or Tribal entity(s).

3. Negotiate, execute and administer all P.L. 93-638, Title I contracts including close out and site reviews as requested or required.

4. Coordinate records and documentation for Interagency and Cooperative Agreements, and DHHS and IHS delegations and directives.

5. Provide assistance to tribally managed facilities in acquiring excess federal property.*

6. Maintain the federal property inventory process including excess and disposal.

7. Coordinate with IHS Headquarters, the National External Audit Review Office and Tribal contractors to resolve audit findings for Title I contracts and Title V funding agreements.

8. Manage the Pharmacy Prime Vendor Program for the Alaska Area including placing daily pharmacy orders and resolving discrepancies and problems in ordering, shipping and delivery.*

9. Process Volunteer Agreements for health care professionals providing services to Tribally managed facilities.

10. Provide technical assistance to Tribally managed facilities on procurement issues.

11. Maintain the federal credit card program.

12. Privacy Act and Freedom of Information Act coordination.

C. OFFICE OF ENVIRONMENTAL HEALTH & ENGINEERING

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional	Staffing (FTE)
Director	Management, supervision and secretarial support.	R	2
Sanitation Facilities	Maintenance of Sanitation Facilities Construction (SFC) data information systems for program allocations, National Environmental Policy Act (NEPA) approval, oversight of IHS funded SFC projects.	R T	1 1
Environmental Health	Environmental services associated with federal employees[2]/		
Health Facilities	Support, direction and general administrative support, maintenance of Maintenance & Improvement (M&I), Equipment and other data for program allocation.	R	1
Realty	Maintain government property inventory; manage VBC leases and inspect government housing	R	1
	Total		6

The Office will provide the specific PSFAs defined below:

1. Sanitation Facilities:

a. Allocation of federal funds under Title V of the Act utilizing subpart N Construction Project Agreements and P.L. 86-121 Project Funding Agreements for project funding.

b. Provide required IHS oversight, facilitation and management of contributed sanitation facility construction funding from other federal and state agencies (currently approximately $44 million).

c. Directly allocate IHS resources (currently approximately $15 million annually) using data provided by prescribed allocation formulas and justification rationales.

d. Evaluate and approve proposed projects, prepare budget summaries and justifications. Advocate statewide and nationally for the ANTHC Division of

2 The PSFA conducted under this function are performed by all Office staff and others in the Area Office.

Environmental Health and Engineering (DEHE) program and facilitate its implementation.

e. Maintain project information and deficiency databases to justify congressional funding requests in support of distribution logic.

f. Verify project development, documentation, funding, construction and closeout. Approve project agreements, to include making the determination of National Environmental Policy Act (NEPA) compliance based on information submitted by ANTHC DEHE.

g. Consult on and accept processes and priorities developed through the Sanitation Facilities Advisory Committee and SFC process in conformance with IHS national project eligibility criteria.

h. Onsite reviews of projects may be conducted annually to insure conformance with laws and regulations, e.g., NEPA and National Historic Preservation Act (NHPA) and to verify accuracy of data and programmatic assumptions.

i. Approve earmarked and emergency project funds dispersal.

2. Environmental Health: PSFAs include:

a. Overall direction of resources and related environmental surveillance for statewide public health impacts.

b. Continue to carry out functions related to serving as one of the health and medical representatives to the Alaska Federal Emergency Response Group.

c. Provide management and verification of Facilities Data System (FDS) data and Sanitation Deficiency System (SDS) health related information.

d. Provide safety assurance, compliance and reporting relating to federal workers, and professional programmatic support for staff.

e. In the event of a national disaster situation as defined in the Federal Response Plan, IHS is the lead agency for emergency response related to water and sewer damage assessment and mitigation.

3. Health Facilities: PSFAs include:

a. Perform budget allocation (about $10.9 million of Maintenance & Improvement funds, $2.4 million of equipment replacement funds, and $10.1 million Facilities Support Account funds);

b. Support and approve project or resource allocations derived through a priority system developed through the Maintenance & Improvement Resource Allocation Committee (MIRAC) and ANTHC process consistent with IHS national project eligibility criteria. Verify data submittals and manage IHS facilities databases in conformance with IHS national project and health facilities space eligibility criteria.

c. Respond to Congressional inquiries;

d. Review Project Justification Document/Program Of Requirements (PJD/POR) documents prepared by others;

e. Review and approve national priority systems applications, including Tribal Equipment Funds and Dental Facilities Funds;

f. Maintenance of Alaska portion of the Facilities Maintenance and Improvement/Equipment database for federally and Tribally owned health facilities;

g. Support for new health facility construction project funds distribution and project development;

h. Stewardship responsibility for oversight of environmental cleanup of federally owned real property;

i. Approve workload statistics;

j. Advocate statewide and nationally for the DEHE program and facilitates its implementation.

4. **Realty:** PSFAs include:

a. Monitor and manage real property assets in accordance with Executive Order 13327, "Federal Real Property Asset Management" and existing authority under law or by executive order for real property, capital improvements, square footage, use or disposal.

b. Maintain the IHS Real Property Inventory by updating the asset book values with costs relating to acquisition of real property, capital improvements, square footage, use or disposal.

c. Verify construction project closeout documentation for capital improvements made to federal facilities prior to adjusting the real property subsidiary ledger.

d. Perform annual review of real property.

e. Warranted Lease Contracting Officer authorized to lease Village Built Clinics (VBC) on behalf of the Community Health Aide Program (CHAP).

f. Provide guidance to clinic owners and Tribal organizations with community health aides operating VBC leased clinics.

g. Determine correct process for disposing of excess real property and manages project to end.

h. Develop and recommend IHS Policy formulation on real property, leases and quarters;

i. Provide management and verification of real property and lease data within the health care facilities database.

j. Provide direct guidance and assistance in federal acquisitions of land and/or buildings.

k. Calculate and distribute rental rates for government owned quarters.

l. Prepare for approval all easements, utility rights-of-way, rights-of-way during construction, revocable licenses, and use permits.

D. OFFICE OF FINANCIAL MANAGEMENT

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional Buyback	Staffing (FTE)
Director	Financial Management Officer: Overall management, supervision, consultation, and surveillance	R	1
Tribal Accounting	Accounting advice; reconciliation; amendment and electronic payment assistance; monitors transactions in Buyback Account; and prepares Status of Buyback Statement with supporting documents.	R T	1 1
Budget	Budget projections and reports; fund control; Operating Resources Detail (formerly called Advice of Allowance)/Allocations.	R	1
Accounting	Verifies accuracy and appropriateness of transactions; expenditures; general ledger; travel; project accounts; certifies vouchers; prepares tax withholding; and provides disbursement services.	R B	2 2
	Total		8

The office will provide the specific PSFAs defined below:

1. All resource allocation activities conducted by the Area.
2. Management controls of funds under Area control; responds to and provides data for annual agency audit.
3. Research and prepare routine, ad hoc, and special financial reports, prepare and reconcile Operating Resources Detail, and status reports for Area and Co-Signers. This includes providing Co-Signers with information necessary to manage the PSFAs they have assumed under their FAs and information necessary to negotiate those agreements.
4. Preparation and submittal of annual spending plan and budget/information to IHS for compacting and contracting Tribes and remaining AANHS/IHS activity.
5. Process financial documents for payment by U.S. Treasury, including payments related to continuing federal contracts in support of Tribally operated programs.
6. Process payroll for 490 federal (includes 190 IPA & 300 MOA) employees; maintain current position database for same; provide quarterly manpower reports to all Alaska locations using federal employees. Process and track all personnel actions.
7. Coordinate with Area OTP to allocate funding, initiate funding documents and assists Co-Signers and contractors to maintain accurate records of funding allocations, reconciliations and cash management issues.
8. Reconciliation, billing and amendment management related to contractor and compactor use of federal resources including but not limited to IPA/MOA employees and the Village Built Clinic lease program. Reconciliation includes transaction verification of buyback services with corrections and reports.
9. Support withhold and buyback management including payment for continuing government contracts for goods and services, permanent change of station moves, etc.
10. Monthly general ledger reconciliation including cash management related to Prompt Pay Act, Treasury, cash and others.
11. Process reimbursement requests including Beneficiary Medical Program (BMP), Interagency Payment and Collections (IPAC), quarters collections, CHEF and others. Make deposits and transfers of such reimbursements to Co-Signers no less often than monthly.
12. Assist Tribes during annual Budget Formulation for the second succeeding year's annual budget, including preparation for the National Budget Formulation meeting.

E. OFFICE OF HUMAN RESOURCES

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional	Staffing (FTE)
Civil Service Staffing, Classification & Employee/ Labor Relations	Advertise and recruit for federal, direct and IPA/MOA replacements; process personnel and pay actions; provide job information; maintain official records; rate applicants, appoint new employees, and provide HR consultation; Title 38 and Physician's Comparability Allowance, Market Pay & Locality Pay maintenance; process Reduction in Force and counseling; provides transportation services and relocation assistance for federal employees and consultation re: Tribal direct hires as requested; administers Workers' Compensation program; grievances, discipline/adverse actions; Merit Systems Protection Board, appeals and agency representation; performance management; retirements; payroll; benefits; outside activities; ethics program; suitability adjudication; manage Federal Employee Assistance program and Family Medical Leave and Family Friendly Acts consultation; conducts desk audits; applies Classification Standards and consultation. Initiate and assure completion of suitability investigations as needed on federal employees and personal services contractors.	R T	2 0
	Total		2

Under the direction of the IHS Western Region Human Resources Director, the Office of Human Resources will provide the specific PSFAs defined below for the current approximately 430 federal employees employed either directly or through Civil Service IPAs (130) or Commissioned Corps MOAs (300):

1. Advertise and recruit for direct federal employees. Replacement IPA positions may be filled with a current IPA already on board (such as by reassignment) or a new or replacement MOA. Process Reductions In Force (RIF). Provide counseling on RIF.
2. Maintain official personnel files (electronic and paper) and records for Civil Service employees.
3. Manage employee relations including performance management; employee benefit programs (retirement counseling and calculations, etc.); Worker's Compensation; incentive awards; ethics and conduct; suitability adjudications; Merit Systems Protection Board (MSPB) representation; third party representation; Employee Assistance Program; Family Medical Leave Act (FMLA) consultation; and Labor Relations.
4. Counsel Civil Service employees.
5. Administer performance management program for non-IPA/MOA Civil Service employees.
6. Director performs proposing federal official function in progressive disciplinary actions on federal IPA employees.
7. Process personnel actions for Civil Service employees.
8. Process payroll, including assisting timekeepers and assuring transmission of payroll for all Civil Service employees.
9. Correct pay and leave errors.
10. Manage federal classification system. Provide consultation on same.

11. Issue government Personal Identification Verification (PIV) Smart cards for Area Office employees and for those IPA/MOAs who need access to federal facilities or ITAS as Timekeepers or Leave Approving Officials. Proof of federal employment will be given to those IPA employees who do not receive a PIV Smart card.

12. Provide, on request, consultation on employee relation issues to Co-Signer.

13. Maintain database on IPAs and MOAs and provide to Co-Signer no less than quarterly.

14. Provide, on request, general consultation and support on Co-Signer personnel issues (travel outside Anchorage to provide requested on-site consultation will be at expense of Co-Signer).

15. Provide transportation services and relocation assistance for federal employees.

16. Coordinate arrangements for volunteer health provider services for Co-Signers.

17. Provide assistance in managing employee absences due to on the job injuries (worker's compensation) to minimize the impact on Co-Signers.

18. Initiate and assure completion of suitability investigations as needed on federal employees and personal services contractors.

19. Implement Alaska Area responsibilities set forth in the IHS Succession Plan.

20. Implement Alaska Area responsibilities related to IHS Development of Human Capital Initiative.

F. COMMISSIONED CORPS PERSONNEL[3/]

P/S/F/A	MAJOR FUNCTIONS	Buyback	Staffing (FTE)
Commissioned Corps Personnel	Orient and assist officers and their families to include: recruitment support, liaison between areas, TRICARE advice, wage verifications, grievances, leave programs, COERs and COSTEP. As necessary, Corps-specific personnel discipline advice to CEOs and HR staff of 638 awardees with MOA assignees and supervisors of MOAs.	B	2
	Total		2

Under the direction of the IHS Division of Commissioned Personnel Support, the Commissioned Corps Personnel component will provide the specific PSFAs defined below for the approximately 300 USPHS Commissioned Officers in the Alaska Area:

1. Provide general orientation to new Commissioned Officers.

2. Counsel Commissioned Officers; provide Corps-specific discipline advice to appropriate Co-Signer managers.

3. Maintain unofficial files and records for Commissioned Officers.

4. Process required federal personnel actions for Commissioned Officers including orders for deployment.

5. Assist and consult with officers and their supervisors.

---

3 During FY 2005 this PSFA was centralized under the Division of Commissioned Personnel Support at IHS Headquarters. Effective FY 2006, it is funded by assessing the locations that use Commissioned Officers. See, also, Appendix A.

G. OFFICE OF TRIBAL PROGRAMS

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional	Staffing (FTE)
Director	Management of Area Title V responsibilities for Self-Governance and Title I review, approval and technical assistance. Managing CHEF submissions, and fund distribution; clerical and secretarial support.	T	1
Health Care (Management) Consultation	Technical support of P.L. 93-638 Title I contracts, Title V compacts/FAs (including amendments and database management of same), cooperative agreements, and grants; negotiate and administer CSC funds.	T	3
	Total		4

The Office will provide the specific PSFAs defined below:

1. Provide or facilitate technical assistance to Tribes which may or may not lead to the preparation of proposal(s) to assume PSFAs for Title I contracting, Title V compacting and Tribal Management grants for Tribes and Tribal organizations

2. Evaluate P.L. 93-638 proposal(s) to determine acceptance, declination or rejection; if the Title I proposal is accepted, serve as the contract designated federal official (project officer) for the award (currently 14 Title I contracts). In the case of declination or rejection, further technical assistance will be offered to overcome declination or rejection.

3. Analyze and negotiate Contract Support Costs (CSC) for start up and ongoing direct and indirect-type CSC requests, and the maintenance of CSC records in support of Area-wide CSC needs in accord with IHS policy. Currently records are maintained for 39 Alaska awardees. The office will continue to administer the CSC funds (Indian Self-Determination Fund start-up, direct and indirect administrative cost funds). Allocation plans and funding applications will be developed, maintained and negotiated on behalf of Tribes and Tribal organizations. The office will continue to develop and maintain the Alaska Area Tribal database for the CSC fund, which clearly documents, for IHS and Congress, Tribal shortfall and start-up needs.

4. Support and clearance of submissions of CHEF requests to the national CHEF pool, unless a lawful alternative methodology is developed enabling direct submission by Tribal health programs participating in the CHEF program. More specifically this includes education and technical assistance on the process for requesting reimbursement and the maintenance of records on submittals, reimbursements, cancellations and supplemental requests. In FY 2012, the Alaska Area received in excess of $5.1 million in CHEF reimbursements.

5. Prepare Title V FA amendments at the request of Co-Signer, upon notification of change in funding, or as negotiated.

6. Provide information to Tribes on any proposed changes to the CHS fiscal intermediary contract, and advocates for revisions requested by Tribes.

Appendix D

FY 2008 Buyback/Withhold Agreement

Appendix D
Buyback/Withhold Agreement
between
the Indian Health Service
and
Kodiak Area Native Association

Section 1. Generally. Pursuant to Section 5.3 of the Funding Agreement between Certain Alaska Native Tribes Served by Kodiak Area Native Association (hereinafter "KANA") and the Secretary of the Department of Health and Human Services of the United States of America (hereinafter "Secretary"), KANA has determined that it wishes to carry out its responsibility to provide certain programs, activities, functions or services (e.g. salaries of . . . IPA/MOA employees, and Village Built Clinics Program) included in its Funding Agreement utilizing services, personnel or other resources of the Federal Government, (hereinafter "services") under Article V, section 22 of the Compact, as permitted by law. These services may include some that are expected to be used throughout the year and some incidental services to be identified by KANA on an as needed basis, and provided by the Indian Health Service (hereinafter "IHS") when IHS has the capacity to do so. The cost of providing the purchased services to KANA shall be determined under section 2 below. KANA's purchase of services is contingent upon the availability of IHS resources to provide those services. In addition, services must be paid for in advance, in order to avoid violation of the Anti-Deficiency Act and are subject to full cost recovery in accord with 25 USC 458aaa-7(f) and 31 USC 9701.

Section 2. Determination of Cost.

2.1 Generally. KANA may acquire services from the IHS by either providing for full year withhold (with appropriate reconciliation) under terms agreed upon in this funding agreement, in which case the administrative surcharge provided for under section 2.2.4 shall not apply. In the alternative, KANA may acquire services by authorizing partial year withhold amounts, as provided for in section 2.2, in which case the payment schedule and administrative surcharge provided for in section 2.2.4 shall apply. Whether full or partial year withhold is authorized, the full costs of IPA/MOAs including those detailed in section 2.3, Determination of IPA/MOA Costs, shall be paid by KANA.

2.2 Conditions for Partial Year Withhold and Buyback.

2.2.1 IPA/MOA.

2.2.1.1 Advance withhold. The funds for IPA/MOA salary and other costs detailed in section 2.3, "Determination of IPA/MOA Costs," will be paid as a lump sum in accord with Section 5(a) of the Funding Agreement, except that an amount equal to three monthly payments based on the initial mutually agreed upon estimate of the annual IPA/MOA salary costs and related surcharges, as provided in section 2.2.4, will be withheld and retained by the Indian Health Service pending final disbursement for the last three months of the fiscal year as provided in section 3.2.2.2.

2.2.1.2 Late Payment Provision. Except as provided in section 3.4, failure to make payment in full by the Default Date will result in action by the IHS to RIF or redeploy federal employees assigned to KANA.

2.2.2 Village Built Clinics.

2.2.2.1 Advance Withhold. To ensure that sufficient funds are available to meet contract obligations, an amount equal to three monthly payments based on the initial mutually agreed upon estimate of the annual Village Built Clinic costs and related estimated surcharges, as provided in section 2.2.4, will be withheld and retained by the Indian Health Service pending final disbursement for the last three months of the fiscal year as provided in section 3.2.2.2.

2.2.2.2 Late Payment Provision. Except as provided in section 3.4, failure to make payment in full by the Default Date will result in action by the IHS to terminate the village based clinic leases.

2.2.3 Other Services.

2.2.3.1 Advance Withhold. An amount equal to one monthly payment based on the initial mutually agreed upon estimate of the annual cost of other services KANA proposes to purchase from the IHS and related estimated surcharges, as provided in section 2.2.4, will be withheld and retained by the Indian Health Service pending final disbursement for the last month of the fiscal year as provided in section 3.2.2.2.

2.2.3.2 Incidental Services. Nothing herein shall prevent KANA from negotiating to purchase incidental services from the IHS throughout the year, without regard to an advance withhold. Such incidental services may include medical record storage, costs associated with disposal of excess governmental property held by KANA and costs associated with acquiring excess property from the Department of Defense. Agreements for purchase of incidental services must specify the method and timing of payment by KANA.

2.2.3.3 Late Payment Provision. Except as provided in section 3.4, failure to make payment in full by the Default Date will result in action by the IHS to terminate the services for which payment has not been made.

2.2.4 Administrative Surcharge. An administrative surcharge in a percentage set forth in Section 5.3 of the Funding Agreement shall be imposed on the charges for the services delivered by the IHS to KANA under the partial year withhold and buyback provisions of section 2.2. This surcharge will not be imposed on purchases for which a full year's estimated withhold is authorized. The administrative surcharge will be estimated based on the estimated annual purchase price and will be accounted for and reconciled under section 3.3.2.

2.2.5 No Other Charges. Except as provided in this section 2.2, there shall be no additional overhead, user or administrative charges or assessments for providing

services to KANA.

2.3 Determination of IPA/MOA Costs.

2.3.1 List of Costs. It is agreed by the parties that the entire cost of IPA/MOA assignments, including costs associated with the initiation, maintenance, and termination of the assignments are the responsibility of KANA. The IHS must be reimbursed for all such costs which include but are not limited to the following:

2.3.1.1 Permanent change of station costs including the cost of moving replacement IPAs from the lower forty-eight to Alaska and the cost of moving IPA employees who separate back to the lower forty-eight.

2.3.1.2 Recruitment, relocation and retention bonuses if such funds are necessary to attract or retain employees.

2.3.1.3 Severance pay for employees who are released by KANA and separated without cause.

2.3.1.4 Payment of turnaround leave travel expenses. All individuals who are eligible for these expenses shall be identified in the IPA negotiated between the parties. The IHS will retain liability for existing IPAs. KANA assumes the liability for new IPAs and upon renewal of an existing IPA.

2.3.1.5 Lump sum leave payments for employees who leave federal service. All leave accrued prior to the employee becoming employed by KANA shall be identified in the IPA/MOA negotiated between the parties. The liability for accrued leave on existing, renewing, and new IPA/MOAs shall be the responsibility of KANA.

2.3.1.6 Costs associated with settling or resolving employment related disputes, subject to the terms specified in section 2.3.2 below.

2.3.1.7 Centrally paid expenses, subject to the terms specified in section 2.3.3 below.

2.3.1.8 The cost of paying unemployment benefits assessed to the Area in FY 2002 and thereafter on behalf of an employee who was employed by KANA under an IPA immediately prior to voluntary or involuntary separation from IHS regardless of the year in which unemployment benefits were paid. The KANA is not responsible for unemployment costs that were assessed to the Area in Fiscal Years 2000 and 2001.

2.3.2 Costs Related to Employment Related Disputes.

2.3.2.1 Responsibilities of the IHS. The Indian Health Service shall be responsible for the payment of all costs of the IHS Office of Human Resources and any other section of the Indian Health Service, the Office of General Counsel, and the Department of Health and Human Services associated with the processing, settlement or other resolution of

employment actions such as disciplinary actions, grievances, or appeals to the Merit System Protection Board and/or the Equal Employment Opportunity Commission, and matters arising under the Federal Labor Relations Act or any other law permitting the employee to appeal from such actions initiated by Federal employees assigned to a Co-Signer under an IPA or MOA. The IHS may pay for or recover these costs as described under section 2.3.2.3, Sharing in Costs of IPA/MOA Employment Related Disputes, to the extent permitted under section 2.3.2.2.

2.3.2.2 Employee Disputes Costs Chargeable to Co-Signers. The IHS may pay for or recover costs associated with processing, settlement or other resolution of employment related disputes listed in paragraph 2.3.2.2.1 of this subsection under the following conditions:

2.3.2.2.1 Only costs associated with covered disputes that arose from conduct, performance or other circumstances alleged to have occurred during the course of an employee's assignment to a Co-Signer may be assessed under section 2.3.2.3.

2.3.2.2.2 Costs which may be assessed under section 2.3.2.3, Sharing in Costs of IPA/MOA Employment Related Disputes, may include, but are not limited to, awards of back pay, compensatory damages, attorney fees, travel costs necessary to investigate the case and represent the IHS at hearings or in other proceedings during the appeal process, costs of obtaining and preserving witness testimony, and other similar costs incurred as a result of the IHS defending itself in these matters.

2.3.2.2.3 No salary costs of IHS, Office of General Counsel or Department of Health and Human Service employees may be assessed or recovered under section 2.3.2.3. Nor may any other cost of these proceedings be charged if such costs have ordinarily been paid from funds identified by the IHS as residual or restricted at Headquarters or the Area Office.

2.3.2.3 Sharing in Costs of IPA/MOA Employment Related Disputes. All costs of the IHS related to IPA/MOAs for which Co-Signers are responsible under section 2.3; "Determination of IPA/MOA Costs," are the responsibility of the individual Co-Signer to whom the IPA/MOA is assigned, except as provided in this paragraph. KANA agrees to share with other Co-Signers the costs and risks described in the above section 2.3.2.2, "Employee Disputes Costs Chargeable to Co-Signers" by agreeing to accept a share of the cost not to exceed $75 per assigned IPA/MOA per separate employment action. The purposes of sharing these costs are to simultaneously ensure that IHS recovers the full costs associated with employment related disputes involving IPA/MOAs, minimize the financial risk for individual Co-Signers, and minimize the accounting and administration caused by certain categories of costs. The IHS may use funds assessed under this paragraph only as provided in section 2.3.2.2. The amount assessed each Co-Signer shall be a percentage calculated based on the number of IPAs and MOAs the Co-Signer has assigned to it. All costs assessed under this paragraph will be reconciled with each contributing Co-Signer, as provided under section 3.3, and a separate report will be provided to all ATHC Co-Signers.

2.3.3 Costs Related to IPA/MOA Centrally Paid Expenses. Certain costs associated with IPA and MOA employees are paid centrally by Headquarters from Area funds.

These include costs detailed in columns 6, 7, and 8 of the spreadsheet entitled "Allocation of Centrally Paid Expenses (Excluding FTS)," Corrected May 11, 1998, that was prepared by David Mather. These are costs associated with Commissioned Corps, Personnel and Payroll, and Balance of Human Resources. The Alaska Area Native Health Service may pay for or recover assessments from Headquarters to cover these identified costs by including in the monthly charge for each IPA or MOA the monthly cost to the IHS of such Centrally Paid Expenses. The cost charged KANA for each IPA/MOA may not exceed the average cost per federal employee actually paid by IHS. For purposes of calculating the initial withhold amount and estimated monthly payments, the estimated average cost per month for each IPA or MOA is shown in Appendix A of the Funding Agreement.

2.4 Limitation on Obligations and Notice.

2.4.1 Obligations. IHS shall within 30 days provide notice to KANA of the best available estimate of the costs that may be incurred under this Agreement of leases, contracts, salaries and related expenses and permanent change of station.

2.4.2 Content of Notices of Best Available Estimates and Costs. Notice of best available estimates under section 2.4.1 and full accounting of all costs due under section 3.3.1 shall include the amount, vendor and reason for obligation or expenditure, including the name of the employee, if any.

Section 3. Method of Payment.

3.1 Full Year Withhold. Payment for services being purchased from the IHS may be made by KANA authorizing a withhold of the full year's initial mutually agreed upon estimate of the annual cost of each category of services KANA proposes to purchase from the IHS. In such case, no monthly payments are due from KANA. Upon periodic reconciliation, provided for under section 3.3.1, excess withheld funds will be paid by the IHS to KANA and adjustments in the amount of withhold or payments needed to pay for all services KANA has purchased, or proposes to purchase, will be made to the IHS by KANA. *See* "Summary of Withhold/Buyback" page of Appendix A for calculation of the amount KANA hereby authorizes for full year withhold, if any.

3.2 Purchases through Buyback under section 2.2.

3.2.1 Calculations.

3.2.1.1 Of Initial Estimated Monthly Payment. The initial estimated monthly payment is determined by estimating the annual cost of services to be purchased from IHS, including the surcharge on all services under section 2.2.4, and dividing by 12. *See* "Summary of Withhold/Buyback" page of Appendix A for calculation of the amount of the initial estimated monthly payment.

3.2.1.2 Of Total Withhold Amount. A Co-Signer purchasing services through buyback authorizes withhold of an amount equal to the Advance Withhold under paragraphs 2.2.1.1, 2.2.2.1 and 2.2.3.1 of section 2.2 for each category of service being

purchased, plus an amount equal to one month of the initial estimated monthly payment for each category of service being purchased (to cover the estimate for services to be provided in October). *See* "Summary of Withhold/Buyback" page of Appendix A for calculation of the amount KANA hereby authorizes to be withheld.

3.2.2 Payment Schedule.

3.2.2.1 First Payment. The initial estimated monthly payment is due and payable on the first day of November or the first day of the month following payment to KANA of its lump sum payment, whichever is later, in which case the IHS shall reduce the lump sum payment by the authorized withhold plus the initial estimated monthly payments for each month preceding the first month for which a payment is due from KANA for which a payment was not withheld. (This provision is intended to address delays caused in making the lump sum payment to KANA due to Congress authorizing continuing resolutions or other delays in making lump sum payments to KANA.)

3.2.2.2 Subsequent Estimated Monthly Payments. Subsequent payments are due and payable on the first day of each month, until the final months of the year intended to be covered by the Advance Withhold amount applicable to the category of services, as set forth in section 2.2. (For example, the last three months of payments for IPA/MOAs would come from the Advance Withhold amount, while only the last one month of payment for Other Services would come from the Advance Withhold amount.)

3.2.2.3 Default Date. If a payment is not received by the 10th day of the month in which it is due (or the first working day thereafter if the 10th day falls on a week-end or Federal holiday), the IHS will implement the late payment provisions for each category of service as provided under paragraphs 2.2.1.2, 2.2.2.2, and 2.2.3.3. This date shall be referred to throughout this section as "Default Date."

3.3 Reconciliation and Adjustment.

3.3.1 For Categories of Service. Full accounting of all costs for each category of service, whether purchased through full year withhold or buyback, will be provided to KANA within 45 days of the end of each month. Reconciliation of payments made to IHS compared to actual costs for the first three quarters of the fiscal year will be provided quarterly within 45 days of the end of each quarter. Reconciliation of payments made to IHS compared to actual costs for the last quarter of the fiscal year will be provided within 60 days of the end of the last quarter. At the end of each of the first three quarters, the IHS and KANA will review the expenses for the preceding quarters. The monthly estimated payment due, or the full year withhold amount, for the balance of the fiscal year will be adjusted accordingly to account for any over or under collections in order to project a zero balance at the end of the fiscal year. Within 30 days after the final end-of-year reconciliation is provided to KANA, any over recovery by the IHS must be returned to KANA and within 30 days after the final end-of-year reconciliation is due any under recovery must be paid by KANA.

3.3.2 For Administrative Surcharge.

3.3.2.1 Use and Rebate. The administrative surcharge shall be used exclusively for administration of the buyback provisions under this Buyback/Withholding Agreement. All income from the administrative surcharge will be accounted for separately and compared on an annual basis to the cost of administering buyback at the Area Office. This accounting and reconciliation shall be complete within 60 days of the end of the last day of the fiscal year. Any surplus in administrative surcharges shall be returned to the Co-Signers who participated in the buyback option on a pro rata basis depending on the amount of administrative surcharge paid.

3.3.3 Adjustment in Estimated Monthly Payment. In addition to adjustments in estimated payments that may occur under sections 3.3.1 and 3.3.2.1, the parties may at any time mutually agree, based on a change in circumstances, to change the estimated monthly payment due from KANA.

3.4 Use of Other Funds Due KANA to Avoid Default or Satisfy Obligations to IHS and other Remedies.

3.4.1 Avoiding Default. Default may be avoided to the extent funds are held by the IHS from other funds due to KANA, which may be withheld to satisfy the amount of the payment, which would otherwise be in default or to satisfy amounts due IHS after reconciliation of costs and payments when an amount is due to IHS.

3.4.2 Recoupment. Any amount due to the IHS by reason of KANA's failure to pay in full all amounts owing under the buyback provisions of the Funding Agreement for the immediately preceding fiscal year shall be recouped by the IHS from any funds due to KANA under this funding agreement.

3.4.3 Full Year Withhold as Penalty for Default. Notwithstanding any other provision of this Buyback/Withholding Agreement, the IHS may require "full year withhold" as permitted herein as a condition of permitting a Co-Signer who was in arrears at the end of the immediately preceding fiscal year to buyback services from the IHS under the terms of this Agreement.

Section 4. Dispute Resolution. The parties shall endeavor to resolve any disputes concerning amounts due by KANA under this Agreement in a manner agreeable to KANA and to the IHS. In the event of a failure to reach agreement on the resolution of any such dispute, KANA may, after providing written notice to the IHS, choose not to include the disputed amount in any subsequent payment due. Payment in such a manner shall not be considered as a resolution of the dispute. The parties shall thereafter attempt to resolve the dispute through Alternative Dispute Resolution following, as appropriate, the principles and processes set forth in Executive Order 12988 signed by President Clinton on February 5, 1996, and made effective as of May 5, 1996. KANA shall have the option of resolving the dispute in accordance with Article II, Section 10 of the Compact.

Section 5. Effective Date. This Buyback/Withholding Agreement shall become effective on October 1, 2007, and shall remain in effect pursuant to section 5.3 of the Funding Agreement.

Appendix E

FY 2018 Facilities List

APPENDIX E

TRIBAL FACILITIES AND LOCATIONS

The Kodiak Area Native Association (KANA) operates the programs described in this funding agreement out of more than one facility or location. These facilities and locations include, but are not limited to the facilities and locations listed in this appendix, which is incorporated by reference into KANA's funding agreement.

This non-exhaustive list of Tribal Facilities and Locations identifies the sites where KANA owns, leases, occupies, or otherwise uses real property to carry out its responsibilities under the Alaska Tribal Health Compact and its Funding Agreement. Each description of facilities and locations is intended to include surrounding and adjacent grounds.

Facilities Operated by Kodiak Area Native Association

Within the City of Kodiak

Kodiak Area Native Association, 3449 East Rezanof Drive, Kodiak, AK 99615
Kodiak Area Native Association Satellite, 3400 East Rezanof Drive, Kodiak, AK 99615
Kodiak Area Native Association, 3484 Rezanof Drive East, Kodiak, AK 99615
Kodiak Area Native Association, 3472 East Rezanof Drive, Kodiak AK 99615
Maintenance Facility located on Trinity Islands, Tract B
Kodiak Area Native Association, 111 Rezanof Drive West, Kodiak, AK 99615
Kodiak Area Native Association, 194 Alimaq, Kodiak, AK 99615
KANA Satellite Clinic, 2414 Mill Bay Road, Kodiak, Alaska 99615
Kodiak Area Native Association Behavioral Health Services, 323 Carolyn Street, Kodiak, AK 99615

Within Kodiak Island Village Communities

Akhiok Village Clinic, 125 Airport Way, Akhiok, AK 99615
Akhiok Health Center, 165 D Street, Akhiok, AK 99615
Old Harbor Village Clinic, 600 Birch Street, Old Harbor, AK 99643
Karluk Village Clinic, 26 Alex Brown Street, Karluk, AK 99608
Karluk Behavioral Health Clinic, 210 School Avenue, Karluk, AK 99608
Ouzinkie Village Clinic, 3rd and C Street, Ouzinkie, AK 99644
Port Lions Village Clinic, 501 Molina, Port Lions, 99550
Larsen Bay Village Clinic, 3rd Street, Larsen Bay, AK 99624
Port Lions, Housing for Employees, 110 Ptarmigan Road, Port Line, AK 99550

Other Facilities Not Operated by Kodiak Area Native Association

From time to time KANA provides healthcare services including medical, dental, behavioral health and other community health services at locations outside of KANA operated facilities. The following locations have been identified:

Providence Kodiak Island Medical Center, 1915 East Rezanof Drive, Kodiak, AK 99615
Kodiak Senior Center, 302 Erskine Ave., Kodiak, AK 99615

Kodiak Teen Center, 410 Cedar St., Kodiak, AK 99615
Kodiak Public Schools (various addresses)
Kodiak Community Health Center, 1911 East Rezanof Drive, Kodiak, AK 99615
United States Coast Guard Base
Naval Special Warfare Cold Weather Detachment, 4200 Spruce Cape Road, Kodiak, AK 99615

Akhiok Multipurpose Building
Akhiok Public School
Karluk Church
Karluk Community Center
Karluk Public School
Larsen Bay Public School
Larsen Bay Senior Center

Ouzinkie Multipurpose Building
Ouzinkie Preschool and Library, 108 3rd Street, Ouzinkie, AK 99644
Ouzinkie Public School
Old Harbor Cultural Center
Old Harbor Public School
Old Harbor Preschool, Route 1, Three Sister Avenue, Old Harbor, AK 99643
Old Harbor Senior Center
Port Lions Preschool, 206 Airport Road, Port Lions, AK 99550
Port Lions Public School
Port Lions Tribal Building/Senior Center

KANA may provide services at other locations on Kodiak Island from time to time which may include domestic violence shelters, community centers, schools and other settings.

Appendix F

Actions Requiring IHS Environmental Review and Determination

APPENDIX F – Actions Requiring IHS Environmental Review and Determination

For actions outlined in the below table, which are to be undertaken by KANA, KANA shall submit a proposal package that includes a completed Project Summary Document (See Appendix G) and Environmental Information and Documentation Form (See Appendix H) to the IHS. Coordination time between KANA and the IHS to complete the Environmental Review and Determination process varies for each group of actions. The timing provided below indicates the expected timeline to complete the process for each group of actions. Early coordination in the planning phase of a project between KANA, IHS, and other stakeholders will help ensure environmental concerns are addressed in a timely manner and project delays are minimized so that IHS can complete its environmental responsibilities and issue a Determination Document as early as possible.

	Action	Expected Timelines
	Categorically excluded actions per Federal Register Vol. 58, No. 3, pg 571(I)(3), (I)(4), (I)(6), and (I)(7), dated January 6, 1993.	**The Environmental Review and Determination Process for this group of actions ranges from 45 to 90 days from the receipt by the IHS of the proposal package.***
☐	Pg 571 (I)(3): Building alteration or renovation that does not substantially change the function or general appearance of existing buildings.	
☐	Pg 571 (I)(4): Construction or lease of new facilities (including portable facilities and trailers) where such lease or construction: (a) is at the site of existing health care facility and the facility capacity is not substantially increased, (b) is for building of less than 12,000 square feet of useable space when less than five acres of surface land area are involved at a new site, or (c) is for projects other than buildings when less than five acres of surface land area are involved at a new site.	
☐	Pg 571 (I)(6): Acquisition of space by lease, use agreement, transfer, gift or similar arrangement for which: (a) the intended use of the space is consistent with the functional design of the building, and (b) the acquisition is consistent with an applicable master plan, if such plan exists.	
☐	Pg 571 (I)(7): The acquisition, sale, release, abandonment, closure or transfer of real property, provided the action: (a) is consistent with any applicable master plan, if such a plan exits, (b) conforms to local zoning and land use ordinances, if such ordinances exist, (c) is consistent with the functional design of the facility, (d) would not violate applicable Federal, State, or local environmental protection or historic preservation laws, and (e) satisfies the requirements of applicable comprehensive Environmental Response Compensation and Liability Act (CERCLA)section 120 (h) provisions.	
	Any normally categorically excluded actions that may have Extraordinary or Exceptional Circumstances per Federal Register Vol. 58, No. 3, pg 571-72(K), dated January 6, 1993.	**The Environmental Review and Determination Process for this group of actions ranges from 60 to 180 days from the receipt by the IHS of the proposal package.**
☐	Pg 571 (K)(1): Those with potential to change the existing environment where such change violates directives or other controls that are imposed by any governmental body having jurisdiction, for the purpose of protecting or otherwise affecting that environment;	
☐	Pg 571 (K)(2): Those with potential or real threat of violation, or continued violation, of an applicable Federal, State, or local law or requirement imposed for protection of the environment or to ensure public health and safety;	
☐	Pg 571 (K)(3): Those likely to cause controversy with respect to the types or extent of the resulting environmental effects where such controversy is based on pertinent and substantial issues;	

☐	Pg 571 (K)(4): Those involving the use of technology where the possible effects are highly uncertain or involve unique or unknown risks and where such technology has not been assessed previously for environmental impact;
☐	Pg 571 (K)(5): Those which have adverse effects on unique geographic characteristics (e.g. historic, archeological, or cultural resources, park recreation or refuge lands, wilderness, areas, wild or scenic rivers, sole or principal drinking water aquifers, prime farmlands, wetlands, floodplains, coastal management zones, or ecological or critical areas including those listed on the Department of Interior National Register of National landmarks);
☐	Pg 571 (K)(6): Those which establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects;
☐	Pg 571 (K)(7): Those which have adverse effects on properties listed or eligible for listing on the National Register of Historic Places;
☐	Pg 571 (K)(8): Those which have adverse effects on species listed by the Federal Government as Endangered or Threatened Species, or which have adverse effects on any designated critical habitat for these species;
☐	Pg 571 (K)(9): Those which require assessment in accordance with Executive Order 11988 (Floodplain Management), or Executive Order 11990 (Protection of Wetlands), or the Fish and Wildlife Coordination Act; and
☐	Pg 572 (K)(10): Those which involve the use, transfer, or lease of real property which has been determined, after investigation in accordance with the provisions of CERCLA 120 (h), to have been used as a storage facility for hazardous waste for more than 1 year; and
☐	Pg 572 (K)(11): Construction projects which are significantly greater in scope or size than normally experienced for a particular category of action.

Any action NOT categorically excluded per Federal Register Vol. 58, No. 3, pg 569-572, dated January 6, 1993 attached hereto.	**The Environmental Review and Determination Process for this group of actions ranges from 60 to 180 days from the receipt by the IHS of the proposal package.**

* The time needed to complete Environmental Reviews is highly dependent on required consultations with other Federal and State Agencies. As an example, the NHPA Section 106 Process requires the State Historic Preservation Officer (SHPO) be allotted 30 days to review and comment on a proposed action (36 CFR Part 800.3(c)(4)). Furthermore, additional time beyond the 30 days may be required for consultation with SHPO to adequately review and determine the effects of the proposed action on existing historical resources. Coordination early in the planning phase of the project can help identify these potential issues and allow KANA and IHS to resolve them early.

Appendix G-4

Project Summary Document

IV-1.
Policy #4*.
Project Summary Document Formats

Project Summary Documents describe projects being submitted to the MIRAC for funding from the maintenance & improvement funds (both competitive BEMAR funds and non-routine non-competitive Oklahoma Formula funds). Supporting documents to the PSD typically entail 100% design drawings (for projects requesting construction funds), construction cost estimates, product literature (for equipment specific PSDs), and contractor proposals or cost estimates.

A cover letter accompanies submitted PSDs, which affirms the organization's desire to submit these projects to the MIRAC for consideration.

The sections of the PSD are listed below.

PROJECT SUMMARY DOCUMENT

[Name of Project]
[Facility Priority Number] (use for multiple PSD submittals to prioritize your projects)
[Date]
[Facilities Board Project Number]
[Facility Name]
[Location], [State]

I. SUMMARY

[Summarize the project and include what is to be done, why (e.g., to add 135 gross square meters of space or replace a boiler), and the type of funding (e.g., Maintenance and Improvement, Quarters, Corporate Cost Sharing, etc.). This section should be no more than two paragraphs. Use attachments for project location maps and facility drawings.]

II. PROJECT SCOPE AND DESCRIPTION

A. Description of Project. [Provide a detailed explanation of the work to be accomplished by the project and the desired outcome of the project. Include all items reflected in the cost estimate. This information can be presented in bullet/list or narrative form.]

B. Project Justification. [Explain why the project is necessary. Link the justification to the developed Health Facilities Master Plan if appropriate. Discuss how the project will meet program needs, and how it will comply with legal, code, accreditation, and certification

* Sections of this policy modified by DEHE Staff to reflect formation of the MIRAC and for clarification of non-competitive project submittals.

requirements. Cite specific, code or JCAHO references by standard clause, chapter, paragraph, etc.]

III. DEFICIENCIES

The following deficiencies will be corrected as part of this project:

[List and describe only those facility deficiencies this project will address. The types of deficiencies include BEMAR, JCAHO, NFPA, HFPM, Public Law compliance items, ADA, etc.]

IV. COST ESTIMATE

Provide a budgetary cost estimate and the funding sources for the proposed project, including separate line items for design Architect/Engineer fees, project construction, construction contract administration fees, and project contingency.

V. PROJECT SCORE SHEET DOCUMENT (*only required for BEMAR competitive pool funds*)

Complete a project score sheet further detailing the scope, impact and benefits of this project. Provide the information required by the project score sheet.

VI. OTHER PROJECT ITEMS TO BE ADDRESSED

Supporting Documents: Drawings, Photos, Estimates, Etc.

Appendix G-5

Environmental Information and Documentation

ENVIRONMENTAL INFORMATION AND DOCUMENTATION

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

Considerations	Basis for Determination (Documentation)
1. Will the proposed action result in a known violation or continuance of a violation of applicable (Federal, Tribal, State or local) laws or requirements for protection of environment or public health and safety?	Yes or No. Explanation.
2. Will the proposed action result in a conflict with existing or proposed federal, Tribal, state, and local land use plans?	Yes or No. Explanation.
3. Is there a controversy with respect to environmental effects of the proposed action based on reasonable and substantial issues?	Yes or No. Explanation.
4. Is the proposed action significantly greater in scope than normal for the area or does it have significant unusual characteristics?	Yes or No. Explanation.
5. Does the proposed action establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

6. Does the proposed action have significant adverse direct or indirect effects on park land, other public lands, or areas of recognized scenic or recreational value?	Yes or No. Explanation.
7. Does the proposed action include construction of a new municipal solid waste landfill at a new solid waste disposal site?	Yes or No. Explanation.
8. Will the proposed action create a need for additional capacity at solid waste disposal facilities?	Yes or No. Explanation.
9. Does the proposed action include construction of a new wastewater treatment facility that will discharge treated sewage effluent to the waters of the U.S.	Yes or No. Explanation.
10. Will the proposed action create a need for additional capacity at wastewater treatment facilities?	Yes or No. Explanation.
11. Will the proposed action create a need for additional capacity in the drinking water supply?	Yes or No. Explanation.
12. Are there other considerations about the proposed action that could adversely affect the environment and/or public health and safety?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

13. Will the proposed action create a need for additional capacity in health care facilities and for health care services?	Yes or No. Explanation.
14. Will the proposed action create a need for additional energy supply or generation?	Yes or No. Explanation.
15. Will the proposed action create a need for additional capacity in educational facilities?	Yes or No. Explanation.
16. Will the proposed action create a need for additional capacity in transportation systems?	Yes or No. Explanation.
17.Historic Preservation: a. Does the proposed action involve the purchase, construction, alteration, renovation, or lease of a building or portion of a building that is more that 50 years old?	Yes or No. Explanation.
b. Will the proposed action adversely affect properties listed, or eligible for listing, on the National Register of Historic Places?	Yes or No. Explanation. or No

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

18. Endangered Species Act: Is the proposed action likely to adversely affect a plant or animal species listed on the Federal or applicable state list of endangered or threatened species or a specific critical habitat of an endangered or threatened species?	Yes or No. Explanation.
19. Will the proposed action require major sedimentation and erosion control measures?	Yes or No. Explanation.
20. Will the proposed action violate a storm water permit or a wastewater discharge permit either for construction or on-going operations?	Yes or No. Explanation.
21. Safe Drinking Water Act: Will the proposed action impact an EPA designated sole source aquifer?	Yes or No. Explanation.
22. Wetlands and Water Resources (lakes, rivers, ponds, streams, etc.): Will the proposed action violate a Section 404 (Clean Water Act) permit for actions in a wetland and/or Section 10 (Rivers and Harbors Act) permit for actions in a stream or river?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

23. Floodplains: a. Is the proposed action located in either a 100-year or, for critical actions, a 500-year floodplain? (If Flood Insurance Rate Maps do not exist for the project site, a floodplain survey or consultation may be required. Also may need to consider if the facility will require flood insurance).	Yes or No. Explanation.
b. Will the proposed action adversely impact flood flows in a floodplain or support development in a floodplain?	Yes or No. Explanation.
24. Existing site: Would the proposed action involve the purchase, construction or lease of new facilities (including portable facilities and trailers), substantially increase the capacity of an existing health care facility?	Yes or No. Explanation.
25. New site: Does the proposed action involve purchase, construction, or lease of new facilities (including portable facilities and trailers) where such action is for buildings equal to or more than 12,000 square feet (1080 square meters) of useable space when more than 5 acres (2 hectares) of surface land area are involved at a new site?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

26. New site: Does the proposed action involve purchase, construction, or lease of health care facilities (other than buildings) for projects equal to or more than 5 acres (2 hectares) of surface land area at a new site?	Yes or No. Explanation.
27. Does the proposed action involve the sale or transfer of real property, on which any hazardous substance was stored for one year or more, known to have been released, or disposed of? (Provide relevant documentation for any hazardous substance releases. See 40 CFR 373.2(b), 302.4, and 261.30 for reportable quantities.)	Yes or No. Explanation.
28. Does the proposed action involve the sale or transfer of real property, on which underground or above ground storage tanks are located?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

29. Will the proposed action violate Tribal, local, state, or federal law on the use and storage of hazardous substances or the transportation, storage, and disposal of hazardous wastes or medical wastes? (Activities that may generate reportable quantities include air conditioning repair and service, pesticide application, motor pools, automobile repair, welding, landscaping, agricultural activities, print shops, hospitals, clinics, & medical centers. Repair, renovation, or demolition activities can generate waste that has asbestos-containing materials, asbestos, lead-based paint, PCBs, CFCs, etc.)	Yes or No. Explanation.
30. Will the proposed action adversely affect community air pollution for a long period of time?	Yes or No. Explanation.
31. If the proposed action is implemented, will it have a disproportionately high and adverse human health or environmental impact on the Tribe, low-income populations, or minority populations?	Yes or No. Explanation.
32. Will the proposed action adversely affect community noise levels?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

33. Wilderness Act: Will the proposed action adversely impact a Wilderness Area?	Yes or No. Explanation.
34. Farmland Protection Policy Act: Will the proposed action convert significant agricultural lands to non-agricultural uses and exceed 160-point score on the farmland impact rating?	Yes or No. Explanation.
35. Coastal Zone Management Act: Will the proposed action directly affect a Coastal Zone in a manner inconsistent with the State Coastal Zone Management Plan?	Yes or No. Explanation.
36. Wild and Scenic Rivers Act: Will the proposed action affect a wild, scenic, or recreational river area or create conditions inconsistent with the character of the river? (A consideration for activities that are in or near any wild and scenic waterway including construction of stream/river crossings, intake structures, outfalls, etc.)	Yes or No. Explanation.

I certify that to the best of my knowledge and ability the information presented above is true and correct. The record was examined to identify potential extraordinary or exceptional circumstances which would require further environmental review.

Funding Agreement

between
KENAITZE INDIAN TRIBE, I.R.A.
and
the Secretary of the Department of Health and Human Services
ofthe
United States of America
Fiscal Years 2023-2025

This Funding Agreement is entered into by and between the Kenaitze Indian Tribe, IR.A., and the Secretary of the Department of Health and Human Services of the Ul}ited States of America.

Section 1 - Obligations of IHS.

1.1 Generally. Under the authority of Section 325 of P.L. 105-83 and P.L. 93-638 as amended, non-residual programs, services, functions, and activities (PSFAs) of the Alaska Area Office (Are _-Office) and the Alaska Native Medical Center (ANMC) have been transferred to tribal management.

Delivery of PSFAs shall be consistent with each Co-Signer's Funding Agreement. The Indian Health Service (IHS) shall remain responsible for performing all Federal residual PSFAs. IHS shall remain responsible for negotiating assurances with the Alaska Native Tribal Health Consortium (ANTHC) and Southcentral Foundation (SCF) on behalf of Alaska Natives and American Indians to the effect that Co-Signers continue to receive non-residual PSFAs from ANMC and Area Office, and provided by ANTHC and SCF, at a minimum at the level that such PSFAs were provided by the IHS as of October **1,** 1997, to the extent permitted by Section 325 of P.L. 105-83. To the extent authorized by Federal law, IHS will respond to written Co-Signer concerns about the extent with which such assurances have not been complied and will take appropriate action. IHS shall further be responsible for performing its special trust_responsibilities and legal obligations, as provided in the Indian Health Care Improvement Act_(IHCIA), the Indian Self-Determination and Education Assistance Act, as amended (the Act), and other applicable provisions of Federal law.

This Funding Agreement obligates IHS to provide funding and services identified herein and as provided in the Alaska Tribal Health Compact (Compact) between Kenaitze Indian Tribe, LR.A., (Kenaitze) and certain other Co-Signers thereof and the United States in Fiscal Years 2023-2025.

In addition, although funds are provided from Headquarters and Area Office in support of this Compact, IHS will agree to continue to make available to Kenaitze, PSFAs from both Area Office and Headquarters, unless 100 percent of the total tribal shares for these PSFAs have been specifically included in this Funding Agreement. In cases where a portion of tribal shares have been transferred, there may be some diminishment in the level of PSFAs provided by IHS. Furthermore, IHS will reorganize both Headquarters and Area Office to continue to provide the remaining PSFAs, which have not been included in this Funding Agreement, in the most effective and efficient manner possible, provided that decisions about the array and level of services to be offered by IHS shall be made in consultation with Alaska Tribes. IHS PSFAs not negotiated into

or listed in Appendix A will be the responsibility of IHS.[1] The "Memorandum of Agreement Describing the Continuing Services of IHS, Alaska Area Native Health Service" among the Co-Signers and the Alaska Area Native Health Service (AANHS) reflects the understanding of the parties regarding services to be provided by AANHS to Co-Signers. This document, attached as Appendix C, is hereby incorporated by reference.

Unless funds are specifically provided from Headquarters, Headquarters retains all PSFAs and Kenaitze will not be denied access to, or services from, Headquarters. Specifically, Kenaitze will receive the following services from IHS Headquarters:

1.1.1 Information Services. IHS will provide the full range of Office of Information Technology {OIT) national support to ANTHC and ANMC. OIT will provide specified services directly to Kenaitze. In addition, OIT will provide support to ANTHC to assist it to carry out its responsibility to provide day-to-day technical support, user support, distribution of software and files, and other typical information technology support to Co-Signers as defined in the Assurances Appendix to ANTHC's funding agreement. Upon request of ANTHC, after good faith efforts to resolve Kenaitze's technical issue, OIT's support of Kenaitze will include technical support needed on-site by Kenaitze. A list of the services due under this paragraph, with identification of the method of delivery, is shown below.

Office of Information Technology Provides:	Directly to ANTHC	Directly to Co-siener	Indirectly to Co-signer through ANTHC
National Database Services			
100% Data Center Services	X		
Process Data Exports into National Database		X	
Evaluate, Correct, Convert Site Data for National Database		X	
Telecommunications Memt Services			
100% Telecommunications Mgmt Services	X		
Maintain IHS to Alaska Connection		X	
Email Transfer and Global Address Listing		X	
SMTP Gatewav		X	
Intranet and Internet Access *(to* available bandwidth)		X	
Antivirus Software			X
Software Develooment and Maintenance			
100% Software Develooment and Maintenance	X		
Use ofIHS Contract Vehicles		X	
RPMS Integrated Commercial-Off-The-Shelf packages (Average Wholesale Prices, CPT, ICD-9, Immunization Algorithm) Licenses (This does not include licenses for stand-alone or interfaced commercial software.)			X
RPMS Package Suooort/lnstallation			X
Svstem Suooort and Trainine			

[1] All references to Appendix A and Appendix C in this Funding Agreement are to the Appendix for the applicable fiscal year.

Office of Information Technolo!!YProvides:	**Directly to ANTHC**	**Directly to Co-silmer**	**Indirectly to Co-signer through ANTHC**
100% System Suooort and Training	**X**		
Nationally Available OIT Training Instruction (as available)		**X**	
Alaska On-site Training Instruction (four annual classes)			**X**
Hardware and Ooerating System Suooort			X
Cache Upgrade (initial installations)			**X**
National Patient File (2000) Conversion			**X**
Envoy (WebMD) Installation			**X**
Additional Services - Fee for Service	**X**	**X**	**X**

1.1.2 Access to Training and Technical Assistance. To the extent funds are retained by IHS, Kenaitze shall have access to training, continuing education, and technical assistance in the manner and to the same extent Kenaitze would have received such services if it were not a Self-Governance Co-Signer.

1.1.3 Intellectual Property. IHS, through contracts, grants, sub-grants, license agreements, or other agreements may have acquired rights or entered into license agreements directed to copyrighted material. Kenaitze may use, reproduce, publish, or allow others to use, reproduce, or publish such material only to the extent that IHS's contracts, grants, sub-grants, license agreements, or other agreements provide that IHS has the right to allow a tribe to do so and IHS determines that it will extend its rights to Kenaitze. Kenaitze's use of any such copyrighted material and licenses is limited to the scope of use defined in the agreements.

1.1.4 HIPAA Compliance. IHS retains the responsibility for complying with the Health Insurance Portability and Accountability Act of 1996 {HIPAA) for retained IHS health care component activities.

1.2 Community Health Aide Program Certification. IHS retains the responsibility, pursuant to Section 119 of the Indian Health Care Improvement Act, as amended, to maintain the IHS Community Health Aide Program Certification Board (CHAPCB), which was established by and is under the direct control and supervision of IHS, to accredit training for and to certify community health aides, which includes Community Health Aides/Practitioners, Dental Health Aides/Practitioners, and Behavioral Health Aides/Practitioners as those terms are defined and used in the CHAPCB Standards and Procedures.

1.3 Access to Federal Insurance. IHS will assist Kenaitze to obtain information about the coverage, rights, and benefits available for its employees under Chapters 87 and 89 of Title 5, United States Code, the cost of such coverage, rights, and benefits (including any options in coverage, rights, and benefits that may be available), and the procedures by which Kenaitze may exercise its rights under Section 409 of IHCIA, as amended, to have access to such Federal insurance for its employees.

Section 2 - Obligations of the Co-Signer. This Funding Agreement obligates Kenaitze to be responsible for and to provide health PSFAs, identified in Section 3 [Tribal Programs and

Budget], utilizing the resources transferred under this Funding Agreement and other funds as they may become available to Kenaitze. This Funding Agreement further authorizes Kenaitze to consolidate and redesign PSFAs, as provided in the Act and the Compact.

Section 3 - Tribal Programs and Budget. Kenaitze agrees, subject to the availability of funding, to administer, provide, and be responsible for the health PSFAs identified below in accordance with the Compact and this Funding Agreement. For the purposes of this Funding Agreement, Kenaitze's General Budget Categories consolidate related health PSFAs as described in this subsection. Services are provided within the Kenaitze service area. Any PSFA described in this Section 3 [Tribal Programs and Budget] may be performed by any organizational unit of Kenaitze at Kenaitze's discretion. Kenaitze provides and facilitates a range of services directly, and in cooperation with ANMC, ANTHC, SCF, and other Co-Signers, through field clinics, referrals to ANMC, and other arrangements with Tribal health organizations.

3.1 Programs, Services, Functions, and Activities. Kenaitze is committed to and strives to provide quality primary care services through advocacy, networking, and collaborative efforts and maintenance of qualified staff, equipment, clinical sites, and medical provisions. As defined by the Kenaitze Tribe, Kenaitze and its staff may provide services in facilities and settings other than those of Kenaitze (including patient homes). Informational, preventive, and educational services are disseminated through various mediums and include a variety of subjects to promote cultural pride, leadership, healthy lifestyles, and life management skills. Employees may travel to various locations in the community to make presentations on such subjects onsite in schools and to public and private groups, and to participate in community-sponsored events. Kenaitze is committed to and will strive to provide quality health services and will strive to meet standards it believes to be appropriate and applicable to the delivery of those health services. Kenaitze may also provide other PSFAs to meet the objectives of Section 3 of IHCIA.

3.1.1 Clinical and Ancillary Services. Kenaitze provides a full range of ambulatory health care and ancillary services. Services available at Kenaitze's health program facility locations do not supplant services received through field physician services, or for patients seen at ANMC in Anchorage. The services that Kenaitze provides include, but are not limited to:

3.1.1.1 Clinical Services. Acute, chronic, therapeutic, preventive medical services, including, but not limited to: family practice; internal medicine; pediatric medicine; podiatric medicine; OB-GYN; well-child exams; immunizations; tobacco cessation; sports and occupational physicals; surgical procedures; dietitian services; prescribing medication; sexual assault nurse exams; health referral services; case management for chronically ill, high risk, or others as indicated; women's health.

3.1.1.2 Ancillary Services. Will be maintained at levels sufficient to support medical diagnosis and include, but are not limited to: mammograms, colon cancer screening, and Early Periodic Screening Diagnosis and Treatment (EPSDT); telemedicine, telehealth, telepharmacy, teleradiology, diagnostic imaging, laboratory, pharmacy services and medication instruction, health information services, biomedical services, and medical supply and equipment distribution services to patients.

3.1.2 Dental Services. Provides comprehensive services to raise the dental health and lower the incidence of dental disease, including, but not limited to, general dentistry, limited oral surgery, dental implants, dental hygiene, dental education, and orthodontics.

3.1.3 Dermatology Services. Provides comprehensive dermatology services including, but not limited to, minor surgical procedures, such as wart removal, skin and skin tags for biopsy, irrigation and drain abscess, puncture aspirations for cysts, and debridement.

3.1.4 Traditional Healing. Provides traditional healing services which emphasize awareness, prevention, and knowledge in the areas of nutrition, physical health, and spiritual health through traditional medicines and healing techniques. These services include counseling on healthy living practices, advice and application of traditional herbal and other natural remedies, maternal care, counseling, wellness gatherings, and direct traditional medical treatment by traditional healing practitioners in coordination with existing western medicine services. Traditional health care practices are subject to Section 831 of IHCIA, as amended at 25 U.S.C. 1671.

3.1.5 Therapy Services. Provides comprehensive therapy evaluation and treatment, including, but not limited to, physical therapy, respiratory therapy, speech therapy services, occupational therapy, massage therapy and structural integration, rehabilitation for young children; ergonomic assessment, community education programs, acupuncture, chiropractic care, alternative health practices, and language and swallow evaluation and treatment.

3.1.6 Behavioral Health and Outreach Programs. Provides comprehensive behavioral health services and outreach programs, including, but not limited to:

3.1.6.1 Health promotion and education (i.e., nicotine cessation and prevention, youth development services, and programs, Tribal wellness and sobriety programs, prevention of interpersonal violence, and environmental services); substance abuse intervention, assessment, and treatment, including medication-assisted treatment (MAT); court-ordered intervention; substance abuse education and prevention; mental health evaluation and therapy, psychotherapy, family and group counseling, marriage and couples therapy, and medication management; psychiatric and psychologist counseling services; client advocacy and case management for services described in this Funding Agreement; and crisis intervention.

3.1.6.2 Direction, training, technical assistance, and information to Tribally-employed Community Health Representatives, Behavioral Health Aides and Alcohol Counselors; to the Tribal Government in the development, implementation, and management of Tribally-operated programs; and to the Tribal Council and Tribal Members regarding health-related child protection issues.

3.1.6.3 Community Child Welfare and Family Services: Comprehensive health, behavioral health, and preventive services that include, but are not limited to, habilitation and rehabilitation programs, and related services, designed to assist individuals and their families to lead healthy, productive lives; services for individuals with neurodevelopmental disabilities; emotional support services; crisis counseling, tribal youth support and restorative

circle counseling/support; substance abuse counseling; health information; services that respond to child physical abuse, sexual abuse, neglect, and other conditions that place a child at physical or emotional risk; advocacy; foster home advocacy and supportive services; child development and family services, including, but not limited to, health-oriented education; socialization; health screening; growth and nutritional assessment; individualized culturally-appropriate child development services; family services; and family involvement.

3.1.6.4 Youth Development Services. Youth development services designed to promote leadership skills, healthy lifestyles, and cultural pride, and to enhance self-confidence and self-esteem activities which include, but are not limited to, gym activities, Alaska Native Youth Olympics, hunting, archery, drumming, dance youth council, study hall, spirit camp, fish camp, science education, science camp, summer youth camp, and general life skill building. The culture-based youth camp provides Kenaitze youth an opportunity to learn and practice traditional subsistence skills. The youth are taught healthy and functional life skills through their interactions with Alaska Native counselors who emphasize the positives of being drug and alcohol free. Kenaitze provides youth and young adults with a broad scope of services designed to assist them to lead healthy, productive lives and to engage fully in educational and other age-appropriate activities including, but not limited to, student support activities, career exploration and work experience, and life skills training.

3.1.6.5 Other Behavioral Health Services: Provides village-based culturally appropriate approaches to addressing at risk behaviors, substance abuse, and family violence issues in the community. This program involves intervention with at-risk and court-involved community, family, and youth including, but not limited to: promoting and providing support and training for leadership skills, healthy lifestyles, youth alternative activities, cultural pride and activities, including encouragement of the use ofNative languages, restorative practices, educational and vocational support, advocacy, counseling, circles, and enhancement of self-confidence and self-esteem efforts. Community safety and violence prevention services, including participation in the community Sexual Assault Response Team and delivery of related prevention and treatment services, family violence services, spirit camps, wellness conferences, and other gatherings.

3.1.7 Diabetes Prevention and Control. Comprehensive programs to reduce diabetes and encourage healthy and subsistence-based lifestyles and individual and community wellness through community and individual education and treatment, diabetic support groups, blood sugar screening, diabetic registry, prevention programs, exercise program, dietitian services, medication management, and foot care.

3.1.8 Maternal and Child Health. Provides comprehensive maternal child health services, including, but not limited to, education and immunization. Provides supplemental foods and nutrition education, counseling, and other services for women, young children, infants, and others who are at nutritional risk.

3.1.9 Purchased/Referred Care. Purchase of health services not otherwise available or accessible to eligible beneficiaries in the Kenaitze Service Area through a contractual or open-market basis. Program administrative activities include, but are not limited to, patient

advocacy, monitoring of patient care for appropriateness of services, medical necessity policies, and eligibility determinations.

3.1.10 Other Health Programs. Health programs, which include, but are not limited to, the following:

3.1.10.1 Community Safety and Violence Prevention. Provides information, education, and services, including, but not limited to, domestic violence prevention and advocacy, including, but not limited to, transportation to facilitate access to care and case management; and participation in the community Sexual Assault Response Team;

3.1.10.2 Community Health and Wellness. Provides information, education, and programs, including health services associated with health promotion and disease prevention as defined in § 1603 of the IHCIA, as amended at 25 U.S.C. § 1603(11) and (7); nicotine control/cessation; dietetics and nutrition services; cooking classes, and safe handling and processing of subsistence resources; community health camps; community health fair; employee presentations to and classes for community groups and schools; promoting education and work in accordance with physical and mental capacity; cancer prevention education and activities; injury prevention activities including parenting classes; life skills programming; wildlife safety; and alternative health practices;

3.1.10.2.1 Village Restorative Practices and Tribal Court Support including, but not limited to, intervention with at-risk and court-involved community, family, and youth, with traditional restorative practices, intervention, cultural alternative activities, counseling, and circle counseling/mediation;

3.1.10.3 Home Care and Other Community-Based Services. Through a combination of western methods, traditional modalities, and alternative healing practices, home care, skilled nursing and other community-basedservices, Kenaitze provides a broad range of medical, public health, and preventive services, including providing assistance with activities of daily living such as bathing, dressing, laupdry, light housekeeping, snow removal, chore services, cooking, vital signs, and medication reminders. These services are provided to individuals who are unable to perform their activities of daily living on their own, or when the families are unable to meet their needs. Home and Community Based Services also provides palliative care and other end-of-life services, respite, chore, nutrition, transportation for services described in the Funding Agreement and other supportive services, including senior programs and activities, such as nutrition services for elders and their spouses, escort, transportation, outreach and advocacy, education, referral services, home visits, and group activities; and engages in planning and development of additional services. All of these services are provided throughout the Kenaitze service area and include the medical, public health, and preventive services in support of long-term care at residential care facilities and assisted living homes. Kenaitze provides the services described above in accordance with Section 205(a)(2) ofIHCIA, as amended, 25 U.S.C. § 1621d.

3.1.10.4 Social Services. Using teams of professionals such as behavioral health care providers, physicians, social workers, and case managers, Kenaitze provides a wide spectrum of medical social work services, including, but not limited to, assistance with

psychosocial issues which present during the provision of other services; programs for follow-up care; rehabilitation services; interdisciplinary review and discharge planning; consultation with other tribal programs to develop care plans; in addition to direct provision of these services Kenaitze may also provide these services through referral to other community health and social services resources.

3.1.11 Public Health and Epidemiology. Directly and/or through ANTHC, including its Epidemiology Center,2 Kenaitze carries out public health, epidemiology, and health research function. These activities include, but are not limited to, collecting and receiving personally identifiable health information for the purpose of:

3.1.11.1 Preventing or controlling disease, injury, or disability;

3.1.11.2 Reporting disease, injury, and vital events such as birth and death; and

3.1.11.3 Conducting public health and epidemiological investigations, surveillance, and interventions including, but not limited to, the maintenance of disease and injury registries.

3.1.12 Environmental Health. Provides services related to environmental health including, but not limited to, education, emergency management, consultation to and facilitation of training for the Tribal Council and community members regarding such matters as septic systems, landfills, hazardous materials disposal, environmental and incineration services; safe drinking water, impacts of climate change, and environmental training; identification, evaluation, and control of biological, chemical and physical factors in the environment that may have an adverse impact on health.

3.1.13 Transportation. Provides patient transportation, including arranging for and providing emergency and routine patient transportation, using various types of transportation vehicles, on land, water, and air and escorts, in accordance with section 213 ofIHCIA, as amended, at 25 U.S.C. § 1621/.

3.1.14 Housing: Kenaitze may provide permanent or temporary housing to patients and/or staff of Kenaitze whose duties are in support of the PSFAs in this FA. For purposes of this subsection, the following terms have particular definitions: The term "provide" means either for a rental charge or gratis as a part of a treatment regime or employment benefit. The term "staff' means full or part time employees, personal service contractors, or non-Kenaitze employee consultants or sub-contractors.,_

3.1.15 Health Services Training. Provides health services training (including clinical preceptorships, mentoring, shadowing, training, and supervision of health care providers) through offering sites for medical residents and other individuals obtaining training in the health professions, including behavioral and dental professions.

The ANTHC Epidemiology Center was previously operated by the Alaska Native Health Board.

3.1.16 Administrative Support Services. Provides a complement of services required to support the provision of health services, including, but not limited to:

3.1.16.1 General administrative functions, including, but not limited to, providing direction, program and staff supervision, organizational and program planning, administrative support (including, but not limited to, telemedicine and telecommunications), facilities and equipment management, maintenance and improvements; housekeeping; security; mail room functions; inventory control; budget development and maintenance; third-party billing; grant writing; legal consultation; accounting functions; contract development and management; purchasing management; technology management; coding functions (such as ICD-10, CPT, HCPCS, and DSMIV); and reporting statistics, as appropriate.

3.1.16.2 Human Resources: personnel services including staffing, recruitment, retention, job classification, pay and benefits administration, training, continuing education and development, employee relations, human resources information systems, infection control, and staff health education;

3.1.16.3 Compliance Coordination: promoting responsible ethical behavior and business practices consistent with Kenaitze's mission, vision, and values; provides facility accreditation oversight and coordination; risk management; HIPAA compliance, policy and procedure development and enforcement; quality improvement activities and professional crediting;

3.1.16.4 Patient Registration: administrative services such as RPMS and Cemer data entry; medical manager data entry maintenance; planning and implementation of an Electronic Health Records system; and health information management.

3.1.16.5 Benefits Eligibility: determining eligibility for medical insurance and assistance with applications for same; and assisting individuals in obtaining alternative funding for health care services;

3.1.17 Tribal Representation: Provides Tribal representation on a regional, State, and national level, including, but not limited to, Tribal representation to ANHB, NIHB, ANTHC, Anchorage Service Unit Tribal Health Council (ASUTHC), Unaffiliated Alaska Native Tribes Health Committee (UANTHC), and tribal caucus meetings, along with payment of dues and pro-rated consultation fees.

3.2 Tribal Council. The Kenaitze Tribal Council actively provides policy and direction regarding all PSFAs carried out under this Funding Agreement.

3.3 Facility Management and Planning: Provides procurement; materiel management; facilities management; planning, development, and coordination of design; engineering; management of construction, demolition, and clean-up; maintenance and operation of all facilities and properties used by Kenaitze under this Funding Agreement, including facilities owned and leased by Kenaitze.

3.4 Other Programs/Services Funded. This Funding Agreement includes PSFAs resulting from Tribal redesign or consolidation, reallocation, or redirection of funds, including its own funds or funds from other sources, provided that such consolidation, redesign, or reallocation or redirection of funds results in carrying out PSFAs that may be included in the funding agreement pursuant to Section 505 of Title V and Article III, Section 6 [Consolidation with Other Programs] of the Compact. This includes any other new health care programs, including, but not limited to, those identified in the Indian Health Care Improvement Act funded during the fiscal year.

3.5. Non-IHS Funding. Kenaitze will complement and supplement the PSFAs described throughout Section 3 [Tribal Programs and Budget] with funding from sources other than IHS through this Funding Agreement, subject to the availability of such other funding sources. Consistent with Article III, Sections 5 [Reallocation, Redesign & Consolidation], 6 [Consolidation with Other Programs], and 7 [Program Income, including Medicare and Medicaid] of the Compact, non-IHS funds will be added to or merged with funds provided by IHS through this Funding Agreement.

3.6 Federal Tort Claims Act. The Federal Tort Claims Act applies to Kenaitze's PSFAs under this Funding Agreement as provided in Section 516(a) of Title V(which incorporates 102(d) of Title I of the Act and Section 314 of P.L. 101-512) and Article V, Section 3 [Federal Tort Claims Act Coverage; Insurance] of the Compact. The extent of Federal Tort Claims Act coverage is described more particularly in 25 C.F.R. §§ 900.180-900.210.

3.7 **Tribal Facilities and Locations.** Kenaitze operates the programs described in this Funding Agreement out of more than one facility or location. These include, but are not limited to, the facilities and locations listed in Appendix B, which will be submitted prior to the effective date of this Funding Agreement and will be incorporated by reference herein. The Area Division of Planning, Evaluation, and Health Statistics shall compile from this Appendix a list of all health facilities and locations identified in the Appendix and forward that list annually to the Headquarters' Office of Program Statistics, which shall include each of these facilities and locations in the annual list it must provide to the Centers for Medicare and Medicaid Services (CMS) (formerly Health Care Financing Administration) pursuant to the Memorandum of Agreement between the Health Care Financing Administration and the Indian Health Service (December 19, 1996).

3.8 Payer of Last Resort. Whether providing, purchasing, or authorizing health care services described in the Compact and this Funding Agreement, in accordance with Section 2901(b) of Pub. L. 111-148 [25 U.S.C. § 1623(b)], and as otherwise provided in law, Kenaitze shall be the payer of last resort.

Section 4-Amounts Available During the Term of the Funding Agreement

4.1 The following amounts are available to Kenaitze in Fiscal Years 2023-2025, pursuant to the Compact and Title V of the Act and are subject to reductions only in accordance with Section 508(d) of Title V and Section 106 of Title I of the Act.[3]

A breakout of these funds is shown in Appendix A, which cites the source document used to determine the amount. These amounts are subject to change under the Act and as provided in this Funding Agreement. For other

	Annual Funding
Recurring Base: Inclusive of all recurring funding, including recurring contract support funds.[4]	$ 13,653,568
Non-Recurrin2 Fundine.[5]	$ 3,363,732
Subtotal: (This amount is subject to amendments in accordance with Section 12 [Amendment or Modification of this Funding Agreementl)	$ 17,017,300
Area "Tribal" share to include funding identified from the Area Office and identified in Aooendix A to this Agreement.[6]	$0
Headquarters- Tribal share: "Tribal Size Adjustment Pool," including all funds identified in Appendix A. The amount identified is exclusive of funds for which a distribution amount has not been determined. The final amount due shall be determined as set forth in this Funding Agreement or Appendix A.[7]	$ 114,881
Headquarters - Tribal share: "program formula pool" - to include all funds identified in Appendix A and such additional funds which the IHS may make available on a program formula basis during the year based on the programs accepted for this allocation in Appendix A. The amount identified is exclusive of funds for which a distribution amount has not been determined. The final amount due shall be determined as set forth in this Funding Agreement or Appendix A	$0

fiscal years to which this Funding Agreement is applicable, a replacement Appendix A will be negotiated between IHS and Kenaitze for the respective fiscal year and amended to this Funding Agreement and incorporated by reference, accordingly.

4 A breakout of these funds is shown in Appendix A and includes direct contract support costs that are available at the beginning of each fiscal year. *See* footnote 3.

These non-recurring funds are shown in Appendix A. Other non-recurring funds are not specifically identified in this Funding Agreement, but will be provided to Kenaitze in the future by amendment. *See* Footnote 3.

6 Using the methodology agreed upon in a caucus open to all Alaska Tribes and Co-Signers, the FY 2023 Kenaitze tribal shares are determined to be $114,881. The specific methodology is identified in Appendix A. These funds are not currently available directly from IHS but are at ANTHC due to restrictions imposed by Section 325 P.L. 105-83.

Headquarters shares were allocated according to the following process, which was adopted in a caucus open to all Alaska Tribes and tribal organizations. The Alaska Area Tribal Share of Headquarters was first defined using the national IHS recommended methodology. The total Alaska Area Tribal Share was then reallocated to each Co-Signer according to the agreed upon Alaska Area methodology, which is identified specifically for each line in Appendix A. In addition to the Funding amount, Kenaitze is entitled to additional Headquarters' tribal shares in an amount identified as "Subtotal Headquarters TS amounts" in the "Kenaitze Restricted" column on Page 1 of Appendix A.

	Annual Fundine
Subtotal - Tribal Shares[8]	$ 114,881
TOTAL COMPACT FUNDING[9]	$ 17,132,181

These amounts are subject to additions for any reimbursements that will be added as received by IHS and new funds received during the term of this Funding Agreement, including amounts that have historically been distributed as non-recurring funds under Title I of the Act. We agree that any amounts remaining unspent under contract number 243-96-6010, after adjustment and reconciliation of any withheld amounts as of the last day ofthe previous fiscal year, shall be spent under the authority ofthis Funding Agreement.

Of the amount shown above for Headquarters Tribal Share "Program Formula," $0 is for Equipment Replacement; the Equipment Replacement amount paid as part of the lump sum due Kenaitze was determined by multiplying the FY 2022 Equipment Replacement amount paid to Kenaitze by 90%. The final Equipment amount paid in FY 2023 will be based on the final FY 2023 Equipment Replacement allocation. If the final Equipment Replacement amount, as determined by the final FY 2023 Equipment Replacement allocation, is less than the 90% calculation, Kenaitze will return the difference to the IHS. See also Appendix A, footnote to line 22 on page 6.

The parties agree Section 505(b)(2) of Title V provides, among other things, that grants administered by the Department of Health and Human Services through IHS may be added to Kenaitze's Funding Agreement after award of such grants. In accordance with this provision of Title V and its implementing regulations, the Secretary will add Kenaitze's diabetes grant(s) and any other statutorily mandated grant(s) administered by the Department through IHS to this Funding Agreement after such grants have been awarded. Grant funds will be paid to Kenaitze as a lump sum advance payment through the PMS grants payment system as soon as practicable after award of the grant. Kenaitze will use interest earned on such funds to enhance the purposes of the grant including allowable administrative costs. Kenaitze will comply with all terms and conditions of the grant award, including reporting requirements, and will not reallocate grant funds nor redesign the grant program, except as provided in the implementing regulations or the terms of the grant.

4.2 Contract Support Costs. Contract support costs (CSC) will be paid in accordance with 25 U.S.C. § 5325 and § 5388(c). The parties agree that, according to the best data available as of the date of execution of this agreement, the amount to be paid under the FY covered by this agreement, which represents the parties' estimate of Kenaitze's full CSC requirement pursuant to

8 The subtotal of tribal shares does not include certain Headquarters' tribal shares for which the amount or availability have not been determined. This amount will be adjusted to make available all tribal shares for which Kenaitze is eligible.

9 For the reasons noted regarding the amounts that make up this total and because full funding amounts for under the previous year's Funding Agreement have not been fully identified or reconciled as of the time this Funding Agreement is being executed, all amounts to be paid in the fiscal year for this Funding Agreement are estimates and are subject to amendment to reflect the full amount due for this fiscal year.

25 U.S.C. § 5325, is $3,626,315 including $427,380 for direct CSC and $3,198,935 for indirect or indirect-like CSC. This estimate shall be recalculated as necessary as additional data becomes available including information regarding the direct cost base, pass throughs and exclusions, and the indirect cost rates to reflect the full CSC required under 25 U.S.C. § 5325. The parties will cooperate in updating the relevant data to make any agreed upon adjustments. In the event the parties disagree on the CSC amounts estimated and paid pursuant to this paragraph and Kenaitze's full CSC requirement under the ISDEAA, the parties may pursue any remedies available to them under the ISDEAA, the Compact, and the Contract Disputes Act, 41 U.S.C. § 7101 et seq.

4.3 Base Budgets.

4.3.1 Categories and Base Year. At the end of the first period of the base budget option, IHS and Co-Signers agreed to extend the three-year (FY 98 - FY 2000) base budgets implemented for the Compact for an additional two years (FY 2001- FY 2002). IHS and Kenaitze have subsequently agreed to additional extensions through FY 2025. IHS and Co-Signers have agreed to further extend the base budget at a Co-Signer's option. The following categories are subject to base budgeting for the base year period and the period, as noted below:

Category of Funding	Base Period for Base Fundinl!	Extended through:
Headquarters TSA amounts[10]	FY 1997	FY 2025
Equipment Replacement Funding	Not Included	*NIA*
Area Tribal Share	Not Included	*NIA*

4.3.2 Adjustments. Adjustments to base funding shall be permitted in direct proportion to changes in appropriated amounts (by sub-activity), as provided under Section 6.1 [Due to Congressional Actions]. Adjustments shall also be permitted for the addition of new co-signers to the Compact and when current co-signers add or retrocede PSFAs, as provided in Section 11.3 [Due to Addition of New Programs].[11] Adjustments also shall be permitted when Co-Signer(s) chooses to restrict or unrestrict previously "restricted" or "unrestricted" categories, provided that restrictions shall be changed only during annual negotiations. Kenaitze also shall be eligible for funding for new services, service increases, mandatories, specific Congressional appropriation for population growth, health services priority systems, contract support costs, and other increases in resources on the same basis as all other tribes. Co-Signers shall also remain eligible for the distribution of additional tribal shares for Assessments, Workers Compensation, Emergency Reserve, Management Initiatives, and other PSFAs from Headquarters.

[10] Compact base budgets for TSA amounts shall be considered as a whole (entire Compact amount) and shall be subject to adjustment of the internal allocation subject to Compact agreements.

[11] This includes addition ofnew facilities when the addition of these facilities includes an increase in equipment funds identified for the new facilities.

Section 5 - Method of Payment.

5.1 Payment Schedule. Except as provided in subsections 5.2 [Availability of Tribal Shares], 5.3 [Buyback/Withhold], and 5.4 [Periodic Payments] of this section, all funds identified in Section 4 [Amounts Available During the Term of the Funding Agreement] of this Funding Agreement shall be paid to Kenaitze, in accordance with Article II, Section 4 (a) [Payment Schedule] of the Compact; payment to Kenaitze to be made as follows:

> One annual payment in lump sum to be made annually in advance by check or wire transfer.

5.2 Availability of Tribal Shares. Kenaitze will be paid 100 percent of Headquarters and Area Tribal Shares in its initial lump sum payment, as negotiated in this Funding Agreement.

5.3 Buyback/Withhold. Kenaitze may carry out its responsibility to provide certain PSFAs included in this Funding Agreement by using services or other resources of the Federal government under Article V, Section 22 [Purchases from IHS] of the Compact, as permitted by law. Except as provided herein, the cost of such services and the terms under which they may be made available to Kenaitze are set forth in the Buyback/Withhold Agreement between IHS and Kenaitze, which is attached as Appendix D to this Funding Agreement and incorporated by reference herein. The administrative surcharge provided for in Section 2.2.4 of the Buyback/Withhold Agreement for FY 2023 shall be .285 percent. Notwithstanding Section 5 of the Buyback/Withhold Agreement, upon the request .of IHS or any Co-Signer, such Buyback Agreement will be negotiated for future fiscal years annually during negotiation of this Funding Agreement.

5.4 Periodic Payments. Payment of funds otherwise due to Kenaitze under this Funding Agreement, which are added or identified after the initial payment is made, shall be made promptly upon request ofKenaitze by check or wire transfer.

Section 6 - Adjustments.

6.1 Due to Congressional Actions. The parties to this Funding Agreement recognize that the total amount of the funding in this Funding Agreement is subject to adjustment due to Congressional action in appropriations Acts or other law affecting availability of funds to IHS and the Department of Health and Human Services. Upon enactment of any such Act or law, the amount of funding provided to Kenaitze in this Funding Agreement shall be adjusted as necessary, after Kenaitze has been notified of such pending action and subject to any rights which Kenaitze may have under this Funding Agreement, the Compact, or the law.

Section 7 - Records.

7.1 Incorporation of the Privacy Act. Pursuant to Section 506(d)(l) of Title V, records acquired, generated, or maintained by Kenaitze shall not be treated as Federal records under Chapter 5 of Title 5 of the United States Code, except that:

7.1.1 patient medical records, financial records, and personnel records may be disclosed only in accordance with 5 U.S.C. Section 552a(b); and

7.1.2 pursuant to Section 105(0) of Title I, the medical records generated by Kenaitze shall, at the option of Kenaitze, be stored with the National Archives and Records Administration, and Kenaitze shall have access to such records.

7.2 Confidentiality Standards. Kenaitze will seek to comply with the Administrative Simplification provisions of HIPAA, including, but not limited to, privacy, security, transactions, and code set regulations, codified at 45 C.F.R. Parts 160, 162, and 164. If a record is not subject to HIPAA, Kenaitze will maintain the confidentiality of its patient records in accordance with policies and procedures adopted by its Governing Body, which will be consistent with the purposes and guidelines ofHIPAA and the Federal Privacy Act of 1974.

Section 8 - Program Rules. Kenaitze will make a best effort to carry out the health PSFAs in this Funding Agreement in compliance only with those program regulations, guidelines, and directives approved by the Kenaitze Tribal Council, which will include the IHS CHAPCB *Standards and Procedures.*

Except as specifically set forth in this section, pursuant to Section 517(e) of Title V, Kenaitze does not agree to be subject to any agency circular, policy, manual, guidance, or rule adopted by IHS, except for the eligibility provisions of Section 105(g) and the regulations promulgated under Section 517 of Title V, unless otherwise waived.

Section 9 - Program Reporting Requirements. The National Environmental Policy Act (NEPA), National Historic Preservation Act (NHPA), and related provisions of law require the IHS to review and approve actions resulting in the use or commitment of IHS funds or that affect IHS property, and which may significantly impact the environment or cultural resources. Unless Kenaitze has assumed these responsibilities under a construction project agreement in accordance with Section 509 of Title V and 42 C.F.R. § 137.285-312, the IHS must carry out these responsibilities and has elected to utilize Appendix G. Where Kenaitze plans to undertake an action, as described in Appendix G, on IHS owned real property or utilizing IHS funds received through this Funding Agreement and Kenaitze has not assumed these responsibilities, Kenaitze will provide the IHS with a Project Summary Document (see Appendix F-1) and a completed Environmental Information and Documentation Form (see Appendix F-2) so that the IHS can accomplish these requirements, and issue a Determination Document (Categorical Exclusion (CATEX) or Finding of No Significant Impact (FONSI)), as soon as possible. All documentation shall be submitted to the IHS as early as possible in the planning phase of the project to prevent delays in the action. No irreversible action can be taken by Kenaitze until the IHS completes its compliance responsibilities and so advises the Co-Signer with a Determination Document). Pending resource availability, the IHS is available for education and consultation on NEPA, NHPA, and related provisions of law on an as needed basis.

Section 10 - Retrocession. The retrocession provisions of Section 506(f) of the Act are herein adopted, except that the effective date of a retrocession request from the Compact and Funding Agreement, in whole or in part, shall be six months from the date of the request by Kenaitze.

Retrocession may be effective with less than six months' notice, providing Kenaitze and IHS agree to an effective date ofless than six months from the date of the retrocession request.

Section 11 - Consolidation of Contracts and Previous Funding Agreements. The contract listed below and all previous Annual Funding Agreements shall be amended or terminated, as appropriate, to transfer applicable contract funds into this Funding Agreement for programs, services, functions, activities, materials, and facilities provided by Kenaitze.

Title I, **P.L. 93-638 Contract Number:** 243-96-6010, as modified.

Section 12 - Amendment or Modification of this Funding Agreement.

12.1 Form of Amendments. Except as otherwise provided by this Funding Agreement, the Compact, or by law, any modifications of this Funding Agreement shall be in the form of a written amendment and shall require written consent of Kenaitze and the United States. Participation or written consent of Tribes and Co-Signers not subject to the terms of this Funding Agreement shall not be required.

12.2 Services from IHS. Should Kenaitze determine that it wishes IHS to provide PSFAs included in this Funding Agreement for which funding has been identified but not provided, the parties shall negotiate an amendment to the Funding Agreement to reflect the transfer of responsibilities from Kenaitze back to IHS and the pro-rata share of funding for those PSFAs shall be retained by IHS. Unless otherwise negotiated, IHS will not transfer centrally paid expenses, including, but not limited to, Workers Compensation to any Co-Signer.

12.3 Due to Addition of New Programs. Should Kenaitze determine that it wishes to provide PSFAs of IHS not included in this Funding Agreement, Kenaitze shall submit a proposal to IHS to provide such PSFAs. The parties agree to negotiate such a proposal and, should the parties fail to reach agreement, Kenaitze may submit a final offer in accordance with the procedures set forth in Section 507(b)-(d) of Title V. A proposal submitted pursuant to this section shall be treated as a request for amendment to the Funding Agreement and, once approved by IHS at Area Office, shall prepare within 30 days an amendment to this Funding Agreement and the amendment shall be executed through Area Office and added to this Funding Agreement.

12.4 Due to Availability of Additional Funding. Kenaitze shall be eligible for any increases in funding or funding for Medicaid, Medicare, maintenance and improvement, other reimbursements, and new programs for which it would have been eligible had it been administering programs under a self-determination contract, rather than under the Compact and this Funding Agreement, and for any other funds that are not restricted by appropriations language for which any Alaska Tribe or tribal organizations may be eligible, including any new funds appropriated for IHS Headquarters and funds passed to Area Office as recurring or non-recurring funds, and this Funding Agreement shall be amended to provide for timely payment of such new funds to Kenaitze. Such amendment shall be originated and prepared within 30 days by Area Office and executed through Area Office in consultation with Kenaitze.

12.5 Other Adjustments. Upon written authorization by Kenaitze and agreed to by IHS, IHS may reallocate funds retained by IHS, which are obligated to Kenaitze, for the purpose of reimbursing IHS for services or equipment provided to Kenaitze to assist Kenaitze in carrying out the terms of the Compact and this Funding Agreement.

12.6 General Procedures for Amending or Modifying this Funding Agreement. Amendments or modifications proposed by Kenaitze shall be submitted in writing to IHS, Alaska Area Director, with a copy to the Office of Tribal Self-Governance. Except as provided with respect to the incorporation of a provision of Title I of the Act under Article V, Section 21 [Applicability of Title I Provisions] of the Compact, or as provided above in paragraphs 11.4 [Due to Availability of Additional Funding], and 11.7 [Funding Increases] of this section, a request to amend or modify this Funding Agreement submitted by Kenaitze shall be processed in accordance with Sections 507(b)-(d) of Title V of the Act, and all provisions of those identified sub-sections are incorporated herein for this purpose.

12.7 Funding Increases.

12.7.1 Written consent of Kenaitze shall only be required for issuing amendments for those funds which:

12.7.1.1 Require a change to Section 3 [Tribal Programs and Budget];
12.7.1.2 Require a specific commitment by Kenaitze (e.g., Maintenance & Improvement projects and prior fiscal year Sanitation Facility Construction projects); or
12.7.1.3 Reduce funding other than changes in Congressional appropriations pursuant to Section 6.1 [Amounts Due to Congressional Action].

12.7.2 Amendments not requiring written consent may include, but are not limited to:

12.7.2.1 Program/Area/HQ Mandatories;
12.7.2.2 Program/Area/HQ End-of-Year Distributions;
12.7.2.3 Catastrophic Health Emergency Fund (CHEF), subject to the condition that if a case initially qualifying for reimbursement is paid (in whole or in part) by an alternate resource or cancels for any reason, Kenaitze will return the unused amount to the IHS CHEF account;
12.7.2.4 CHS Deferred Services;
12.7.2.5 Routine Maintenance & Improvement; or
12.7.2.6 Collections and Reimbursements.

12.7.3 Amendments reflecting payment of these funds shall be provided to Kenaitze after any such funds are added to the Funding Agreement. Kenaitze retains the right to reject the addition of such funds to the Funding Agreement and return the funds to IHS.

Section 13 - Third Party Recoveries. Any funds recovered by Kenaitze through the filing, litigating, or settling of a claim against a third-party to require that third party to pay for services previously provided to !HS-eligible beneficiaries by Kenaitze, or for such services previously

provided by IHS in a PSFA now operated by Kenaitze, shall be the property of Kenaitze and shall be considered program income to be utilized by Kenaitze as provided in Article III, Section 7 [Program Income, including Medicare/Medicaid] of the Compact. Any prospective recovery of funds for such services shall likewise be considered program income to be utilized pursuant to Article III, Section 7 [Program Income, including Medicare/Medicaid] of the Compact.

Section 14- Service to Non-Beneficiaries. Section 813 of the Indian Health Care Improvement Act, as amended, 25 U.S.C. 1680c (Section 813), authorizes the governing body of a Tribe carrying out health services of IHS under the Indian Self-Determination and Education Assistance Act to determine whether the health services should be provided under the Tribe's funding agreement with IHS "to individuals who are not eligible for such health services under any other subsection of this section or under any other provision oflaw." 25 U.S.C. § 1680c(c)(2). The Tribal Council has made such determination consistent with Section 813 and provides for its findings in Resolution No. 2011-22. Resolution No. 2011-22 is attached as Appendix E and incorporated by reference herein. Kenaitze may provide services under this Funding Agreement to non-beneficiaries as described in Resolution No. 2011-22.

Section 15 - Memorializing Disputes. The parties to this Funding Agreement may have failed to reach agreement on certain matters which remain unresolved and in dispute. Such matters may be addressed through the process set forth in Sections 507(b)-(d) of Title V, or atKenaitze's option, may be set forth in an attachment to this Funding Agreement, which shall be identified as "Memorialization of Matters Remaining in Dispute." This attachment shall not be considered a part of this Funding Agreement, but is attached for the purpose ofrecording matters in dispute for future reference, discussion, and resolution, as appropriate. Kenaitze does not waive any remedy Kenaitze may have under the law with regard to these issues and any others not listed herein.

Section 16 - Severability. This Funding Agreement shall not be considered invalid, void, or voidable if any section or provision of this Funding Agreement is found to be invalid, unlawful, or unenforceable by a court of competent jurisdiction. Should such a court make such a finding, the parties will seek agreement to amend, revise, or delete any such invalid, unlawful, or unenforceable sections or provision, in accordance with the provisions of the Compact.

Section 17 - Title I Provisions Applicable to This Funding Agreement. As authorized in 25 U.S.C. § 5396 (b), Kenaitze exercises its option to include the following provisions of Title I of the Act as part of this Funding Agreement, and these provisions shall have the force and effect as if they were set out in full in Title V of the Act.

17.1. 25 U.S.C. § 5304(e) (definition of"lndian Tribe");

17.2. 25 U.S.C. § 5322(b) (related to grants for health facility construction and planning, training, and evaluation);

17.3. 25 U.S.C. § 5322(d)(l) (related to duty of IHS to provide technical assistance);

17.4. 25 U.S.C. § 5324(a)(l) (exemption from Federal procurement and other contracting laws and regulations);

17.5. 25 U.S.C. § 5328(b), (conflicting provisions of law);

17.6. 25 U.S.C. § 5329(c), section l(b)(8)(F) (screener identification);
17.7. 25 U.S.C. § 5329(c), section l(b)(9) (availability of funds);
17.8. 25 U.S.C. § 5329(c), section l(d)(l)(B) (construction of contract);
17.9. 25 U.S.C. § 5329(c), section l(d)(2) (good faith).

Section 18 - Effective Date and Duration. The effective date of this Funding Agreement is October I, 2022, and will remain in effect through the 2025 Federal Fiscal Year or until a subsequent agreement is negotiated and becomes effective pursuant to Article II, Section 12 [Subsequent Funding Agreements] of the Compact.

General Notes on Alaska Area Office Tribal Shares

Column 1 - Includes all FY17 changes allocated to TS, Residual, & Transitional as of FY17. In FY 2019 TS changes will be added as received.

Column 2 - Residual includes no changes in residual functions. Based on FY2018 Area approved residual budgets.
Remaining funds at 9/30 distributed (Non-Recurring) to all Alaska Area health programs based on recurring base.

Column 3 - Transitional funds agreed by co-signers to remain at Area Office. Based on FY2018 approved transitional budget.

Column 4 - Restricted by all co-signers & transferred to the ANTHC to provide "Area PSFAs" .

Column 5 - Includes Area TS for all Alaska Tribes, including Title I & Title V. FY19 mandatories to be added if received.

Column 6 - Available Tribal shares for Co-Signer (amounts for ANTHC include pass-through to awardees with shares captured by Sec. 325).
Distributed by the approved ATHC methodology of - 30% # of Tribes / 35% 2010 Census Pop. / 35% 2013 Rec. Base (less VBC).
All Area TS for Services line items will be recurring, Area TS for Facilities will be non recurring.

Column 7 - Items restricted by individual co-signer to pay for continued services from ANTHC. (Restricted amounts are added to ANTHC FA.)

Column 8 - The agreed upon amount due (col. 6 - col. 7) to the co-signer after all retained shares are withheld.

Line 1 - All TS funds for non-OEHE Area Office PSFAs except where co-signers have individually decided to retain certain PSFAs at the ANTHC or AANHS.

Line 5 - Lease on Inuit Building.

Line 5a - $20,000 (less sequester) from transitional funding held by IHS to rent space for annual negotiations. Funds transferred to ANTHC upon confirmation of space avai

Line 7 - Centrally paid expenses, including personnel & finance support for Area positions, costs & funds for departmental assessments.

Line 8 - Area Human Resources functions (previously Office of Personnel & Training).

Line 9 - Funding originally from ANMC - have all been returned to SCF/ANTHC as IPA/MOAs were reduced.

Line 10 - Includes funding for Area PSFAs transferred to ANTHC under Section 325.

Line 11 - Funds to ANTHC to support the statewide Contract Health Services reserve program.

Line 12 - Funds to ANTHC to support specialized services in Barrow, NSHC, & BBAHC & certain statewide laboratory contracts.

Line 13 - ANHB funds from Loc 77 including previous tobacco prevention funding.

Line 14 - Supply Service Center individually withheld amounts retained for ANTHC for all co-signers except YKHC, Seldovia, & Eklutna.

Line 15 - Funds distributed to support the Epidemiology Center distributed to co-signers for individual payment to ANTHC.

Line 16 - Funds for EMS training. Retained by IHS for transfer to ANTHC for Maniilaq, BBAHC, & Chugachmiut for EMS training at ANMC.

Line 18 - Does not include funds from surcharge, assessments, or other services purchased through Area Office.

Line 22 - Funds retained for ANTHC for all co-signers except YKHC, SCF, & KIC.

Line 24 - Does not include NR SFC funds for Health Facilities design and construction oversight.

FY 2020 Continuing Services Agreement

MEMORANDUM OF AGREEMENT DESCRIBING THE CONTINUING SERVICES OF THE INDIAN HEALTH SERVICE, ALASKA AREA NATIVE HEALTH SERVICE TO KENAITZE INDIAN TRIBE FOR FY 2020

I. INTRODUCTION

This agreement provides for the continuation by the Indian Health Service (IHS) of certain services from the Alaska Area Office for the benefit of Kenaitze Indian Tribe under its Funding Agreement (FA) under the Alaska Tribal Health Compact (ATHC) Self-Governance Compact.

This agreement is limited to the programs, services, functions, and activities (PSFAs) performed by the residual and transitional federal staff of the Alaska Area Office.

This agreement should be interpreted in conjunction with Kenaitze Indian Tribe's FA and Appendix A to that FA, which may provide for additional detail on "restrictions" of funds at the Area or Headquarters level to ensure that specific services are continued to the individual Co-Signer.

In FY 2020, funding for these continuing services and activities will be from the funds, which have been designated as residual and from funds, which have been designated in support of temporary transitional federal PSFAs. In addition funding to purchase specific services, i.e., use of IPA/MOA assignees and Village Built Clinic leases, may be provided through reimbursement by Kenaitze Indian Tribe to the IHS.

II. DEFINITIONS

The following definitions are in common usage in the Alaska Area:

A. ATHC Tribal Restricted Share - Used in Alaska to refer to those retained Tribal shares all compacting Tribes jointly initially agreed to leave in the Area Office in support of Alaska Area state wide PSFAs. Pursuant to Section 325 of PL 105-83, these shares now are in the Alaska Native Tribal Health Consortium (ANTHC) FA or are used for transitional federal PSFAs.

B. Buyback - The process by which Co-Signers use cash to purchase Area services from the Area Office. Requires accurate description and pricing of service, and mechanism for Area to invoice and receive payment.

C. Co-Signer Restricted Shares - Used in Alaska to refer to "retained Tribal shares" that have been left at the Area Office or Headquarters on an individual basis by a Co-Signer to allow the Area, Headquarters or ANTHC to provide specific services to the Co-Signer. Pursuant to Section 325 of PL 105-83, these Area shares now are in the ANTHC FA or are used for transitional federal PSFAs.

D. Residual - The resources necessary to support the PSFAs required for the United States Government to fulfill and maintain its moral and legal responsibilities based on treaties,

statute, and Executive order that are essential for the federal government to fulfill its "inherent federal functions".

E. Transition Plan - Plan initially agreed to by the Alaska Tribes to allow a transition of less than 100% of the Area Office Tribal shares to the Co-Signers collectively. (This definition is included for historical purposes only.)

F. Tribal Share - That portion of Headquarters or Area resources not determined to be residual and allocated to individual Tribes or to Tribes collectively, via Tribal organizations, utilizing an agreed upon methodology.

G. Tribe - As used in this Agreement, "Tribe" refers to Tribes and Tribal organizations, as those terms are defined respectively in Sections 4(e) and (*l*) of P.L. 93-638, the Indian Self-Determination and Education Assistance Act, as amended (the Act).

III. AREA SERVICE DELIVERY AGREEMENT

Nothing in this agreement is intended by Kenaitze Indian Tribe or the IHS, nor shall be interpreted by any party, to limit or reduce in any way the PSFAs that any Tribe or Tribal organization is eligible to receive from the Area Office under Sec. 102 of Title I of the Act, under Sections 505 and 515(a) of Title V of the Act, or any other applicable federal law.

The table for each "Office" (or separate organizational component) presents the PSFAs currently performed and the staffing to perform the PSFAs. The residual PSFAs described in this Continuing Services Agreement serve all Co-Signers. The transitional personnel shown in this Agreement primarily support ANTHC PSFAs; however, some support other Co-Signers (e.g. IPA/MOA). PSFAs and the associated funds and personnel performing transitional PSFAs in support of the ANTHC (and Southcentral Foundation (SCF) for certain designated human resources PSFAs) under this Agreement may be transferred to the ANTHC or SCF under its FA.

A. OFFICE OF THE DIRECTOR

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional	Staffing (FTE)
Director	Provides overall executive direction and support on behalf of the Secretary.	R	1
Deputy Director, Chief Medical Officer	Provides public health advocacy; clinical consultation (CMO); legally required certification of health aide credentials and oversight of CHAP certification process; consultation in CHAP/Rural Health program management.	R	1
Executive Officer	Serves as principal advisor to the Director on overall management policies and procedures.	R	1
Attorney	Provides Region X attorney support and consultation.	R	1
EEO	Provides EEO support. 1		
Support Staff	Secretarial, clerical and administrative support to inherent and transitional federal functions at all levels of the Area Office.	R T	3 1
Planning, Evaluation & Statistics	Prepare statistical reports and publications in support of planning, evaluation and resource allocation requirements.	R	2
	Total		10

The Office will provide the specific PSFAs defined below:

1. Executive direction on behalf of the Secretary to the remaining inherently federal functions.
2. Advocacy at national level on behalf of the Tribes of Alaska including: legislative, policy, resource allocation, and appropriation advocacy.
3. Policy formulation and interpretation; supervision of non-IPA/MOA federal employees; negotiate, execute and administer compacts and FAs; resource allocation.
4. Public health coordination with Tribal, state and federal governments.
5. Provide legal advice and consultation on behalf of the Secretary.
6. Provides representation on the Executive Committee and Planning Committee of the Alaska Federal Health Care Partnership (AFHCP). Through the government-to-government relationship with Tribes and Tribal organizations, provides the mechanism for Tribal membership on the AFHCP.
7. Eligibility determinations assistance.
8. Equal Employment Opportunity program management in support of federal employment rights.
9. Oversight of certification of Community Health Aides as outlined by law and the *IHS Community Health Aide Program Certification Board Standards and Procedures*.
10. Consultation and technical assistance to Tribes and Tribal organizations staff and programs including
    a. Program review or evaluation at the request of the Area Director or the invitation of Tribal programs;
    b. Submission of electronic health record data to IHS National Data Warehouse; and
    c. Maintain current Area statistics to provide statistical analysis in support of resource needs and allocations.

1 The EEO function is provided under an intra-agency agreement among the IHS Alaska, California and Portland Area Offices.

d. Review and validate Alaska active user populations.

e. Publish *Census Based Alaska Native Population Counts* to supplement and cross check the accuracy of the user populations.

f. Verify the permanent staff increase Resource Requirement Methodology Needs Assessment (RRMNA) prepared by Tribes to determine staff needed for new facilities.

g. Collate data submitted for IHS distribution of specially earmarked funds following national allocation guidelines, when available, and suggest alternate distribution methods to program directors.

h. Publish the *Alaska Area Profile.*

i. Maintain the Alaska Area IHS website and publish Area Director's quarterly newsletter.

j. Publish the *Area Senior Executive Service Workplan* to support agency evaluation of the goals and accomplishments of the Area Office, its Director and Office Directors.

k. In cooperation with the AANHS/OEHE and ANTHC's Division of Environmental Health and Engineering and Co-Signers, provide user population and workload data, assist Co-Signers with preparation of applications; verify applications and planning documents prepared by Tribes (Health System Planning -HSP, PORs, and PJDs) for health facility expansion and replacement; and assist Co-Signers in the Headquarters' review process.

l. Communication between Tribal programs and IHS by seeking legal opinion from Region X attorney on issues which affect health care delivery by Community Health Aides such as standards of care, certification, Clinical Laboratory Improvement Act (CLIA) regulations, and Federal Tort Claims Act coverage.

11. Provide health program technical assistance and consultation on a limited basis as expertise and resources permit. This includes consultation on PSFA descriptions in Title I contracts, Title V FAs, specified grants and personal service and other contracts.

12. Support staff for the Director's Office and all other Area Office components without specific support staff.

13. Provide reimbursement to Headquarters for certain centrally paid expenses to include 100 percent of Department of Health and Human Services financial services and portions of other such expenses as reflected in the negotiated transitional budget for the ANTHC.

14. Performs the responsibilities identified in section 1 of the FA regarding ANTHC and SCF assurances.

15. Perform delegated functions to approve and administer FAs and amendments. The delegation includes the performance of Single Agency Audit, audit resolution for Title V awardees (Co-Signers); the function is provided using a multi-member Area-based team.

16. Responsibility for the Area Internal Control/Management Control programs, IHS Succession Plan and the Strategic Human Capital initiative.

17. As federal supervisor of Commissioned Officers serving under MOAs, the Area Director: functions as Reviewing Official for completion of annual Commissioned Officer Evaluation Reports; provides the Reviewing Official Statement for each officer when they are considered for promotion; and, fulfills any other action required as an officer's Reviewing Official. The Area Director may delegate this responsibility to Area Federal Staff as needed.

B. OFFICE OF ACQUISITION AND PROPERTY MANAGEMENT [2]

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional	Staffing (FTE)
Federal Contracting „ Personal Property, and FOIA Coordinatio n	Responsible for federal acquisitions to support the Alaska Area Office, including the federal credit card program. Maintains the federal personal property inventory. Provides or coordinates various administrative services for the Alaska Area Office.	R	1
	Total		1

The Office will provide the specific PSFAs defined below:

1. Negotiate, award and administer federal acquisitions.
2. Maintain or develop Alaska Area Interagency and Cooperative Agreements in close partnership with appropriate IHS or other federal, state or Tribal entity(s).
3. Coordinate various administration functions including Freedom of Information Act requests and IHS delegations and directives.
4. Maintain the federal personal property management inventory, including excess and disposal.
5. Provide technical assistance to Tribally managed facilities on procurement issues as requested regarding procurement issues and acquired federal excess property.
6. Maintain the federal credit card program.

2 Residual (1) FTE moved to Office of Tribal Programs in support of Title 1 contracts and audit resolution.

C. OFFICE OF ENVIRONMENTAL HEALTH & ENGINEERING

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional	Staffing (FTE)
Director	Management, supervision and administrative support.	R	2
Sanitation Facilities	Maintenance of Sanitation Facilities Construction (SFC) data information systems for program allocations, National Environmental Policy Act (NEPA) approval, oversight of IHS funded SFC projects.	R T	1 1
Environmental Health	Environmental services associated with federal employees[3]/		
Health Facilities	Support, direction and general administrative support, maintenance of Maintenance & Improvement (M&I), Equipment and other data for program allocation.	R	1
Realty	Maintain government property inventory; manage VBC leases; supports the Alaska Area ISDEAA Section 105(l) lease program; and inspect government-owned facilities	R	1
	Total		6

The Office will provide the specific PSFAs defined below:

1. Sanitation Facilities:

a. Allocation of federal funds under Title V of the Act utilizing subpart N Construction Project Agreements and P.L. 86-121 Project Funding Agreements for project funding.

b. Provide required IHS oversight, facilitation and management of contributed sanitation facility construction funding from other federal and state agencies.

c. Directly allocate IHS resources using data provided by prescribed allocation formulas and justification rationales.

d. Evaluate and approve proposed projects, prepare budget summaries and justifications. Advocate statewide and nationally for the ANTHC Division of Environmental Health and Engineering (DEHE) program and facilitate its implementation.

e. Maintain project information and deficiency databases in the IHS Web-based Sanitation Tracking and Reporting System (W-STARS) to justify congressional funding requests in support of distribution logic.

f. Verify project development, documentation, funding, construction and closeout. Approve project agreements, to include making the determination of National Environmental Policy Act (NEPA) compliance based on information submitted by ANTHC DEHE.

g. Consult on and accept processes and priorities developed through the Sanitation Facilities Advisory Committee and SFC process in conformance with IHS national project eligibility criteria.

h. Onsite reviews of projects may be conducted annually to insure conformance with laws and regulations, e.g., NEPA and National Historic Preservation Act (NHPA) and to verify accuracy of data and programmatic assumptions.

i. Approve earmarked and emergency project funds dispersal.

2. Environmental Health: PSFAs include:

3 The PSFA conducted under this function are performed by all Office staff and others in the Area Office.

a. Overall direction of resources and related environmental surveillance for statewide public health impacts.

b. Continue to carry out functions related to serving as one of the health and medical representatives to the Alaska Federal Emergency Response Group.

c. Provide management and verification of tribal input data in the IHS Environmental Health Services data system known as the Web-based Environmental Health Reporting System (WebEHRS).

d. Provide safety assurance, compliance and reporting relating to federal workers, and professional programmatic support for staff.

e. In the event of a national disaster situation as defined in the Federal Response Plan, IHS is the lead agency for emergency response related to water and sewer damage assessment and mitigation.

3. Health Facilities: PSFAs include:

a. Perform budget allocation;

b. Support and approve project or resource allocations derived through a priority system developed through the Maintenance & Improvement Resource Allocation Committee (MIRAC) and ANTHC process consistent with IHS national project eligibility criteria. Verify data submittals and manage IHS facilities databases in conformance with IHS national project and health facilities space eligibility criteria.

c. Respond to Congressional inquiries;

d. Review Project Justification Document/Program Of Requirements (PJD/POR) documents prepared by others;

e. Review and approve national priority systems applications, including Tribal Equipment Funds and Dental Facilities Funds;

f. Maintenance of Alaska portion of the IHS Healthcare Facilities Data System (HFDS) including the Facilities Maintenance and Improvement/Equipment database for federally and Tribally owned health facilities;

g. Support for new health facility construction project funds distribution and project development;

h. Stewardship responsibility for oversight of environmental cleanup of federally owned real property;

i. Approve workload statistics;

j. Advocate statewide and nationally for the DEHE program and facilitates its implementation.

4. **Realty:** PSFAs include:

a. Monitor and manage real property assets in accordance with Executive Order 13327, "Federal Real Property Asset Management" and existing authority under law or by executive order for real property, capital improvements, square footage, use or disposal.

b. Maintain the IHS Real Property Inventory by updating the asset book values with costs relating to acquisition of real property, capital improvements, square footage, use or disposal.

c. Verify construction project closeout documentation for capital improvements made to federal facilities prior to adjusting the real property subsidiary ledger.

d. Perform annual review of real property.

e. Warranted Lease Contracting Officer authorized to lease Village Built Clinics

(VBC) on behalf of the Community Health Aide Program (CHAP).

f. Provide guidance to clinic owners and Tribal organizations with community health aides operating VBC leased clinics.

g. Determine correct process for disposing of excess real property and manages project to end.

h. Develop and recommend IHS Policy formulation on real property, leases and quarters;

i. Provide management and verification of real property and lease data within the health care facilities database.

j. Provide direct guidance and assistance in federal acquisitions of land and/or buildings.

k. Calculate and distribute rental rates for government owned quarters.

l. Prepare for approval all easements, utility rights-of-way, rights-of-way during construction, revocable licenses, and use permits.

m. Cost analysis and negotiation support for ISDEAA 105(l) leases.

D. OFFICE OF FINANCIAL MANAGEMENT

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional Buyback	Staffing (FTE)
Director	Financial Management Officer: Overall management, supervision, consultation, and surveillance	R	1
Tribal Accounting	Accounting advice; reconciliation; amendment and electronic payment assistance; monitors transactions in Buyback Account; and prepares Status of Buyback Statement with supporting documents.	R T	1 1
Budget	Budget projections and reports; fund control; Operating Resources Detail (formerly called Advice of Allowance)/Allocations.	R B	1 1
Accounting	Verifies accuracy and appropriateness of transactions; expenditures; general ledger; travel; project accounts; certifies vouchers; prepares tax withholding; and provides disbursement services.	R B	2 1
	Total		8

The office will provide the specific PSFAs defined below:

1. All resource allocation activities conducted by the Area.

2. Management controls of funds under Area control; responds to and provides data for annual agency audit.

3. Research and prepare routine, ad hoc, and special financial reports, prepare and reconcile status of funds reports for Area and Co-Signers. This includes providing Co-Signers with information necessary to manage the PSFAs they have assumed under their FAs and information necessary to negotiate those agreements.

4. Preparation and submittal of annual spending plan and budget/information to IHS for compacting and contracting Tribes and remaining AANHS/IHS activity.

5. Process financial documents for payment by U.S. Treasury, including payments related to continuing federal contracts in support of Tribally operated programs.

6. Process payroll for 340 federal (includes 58 IPA & 254 MOA) employees; maintain current position database for same; provide quarterly manpower reports to all Alaska locations using federal employees. Process and track all personnel actions.

7. Coordinate with Area OTP to allocate funding, initiate funding documents and assists

Co-Signers and contractors to maintain accurate records of funding allocations, reconciliations and cash management issues.

8. Reconciliation, billing and amendment management related to contractor and compactor use of federal resources including but not limited to IPA/MOA employees and the Village Built Clinic lease program. Reconciliation includes transaction verification of buyback services with corrections and reports.

9. Support withhold and buyback management including payment for continuing government contracts for goods and services, permanent change of station moves, etc.

10. Monthly general ledger reconciliation including cash management related to Prompt Pay Act, Treasury, cash and others.

11. Process reimbursement requests including Beneficiary Medical Program (BMP), Interagency Payment and Collections (IPAC), quarters collections, CHEF and others. Make deposits and transfers of such reimbursements to Co-Signers no less often than monthly.

12. Assist Tribes during annual Budget Formulation for the second succeeding year's annual budget, including preparation for the National Budget Formulation meeting.

E. OFFICE OF HUMAN RESOURCES

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional	Staffing (FTE)
Civil Service Staffing, Classification & Employee/ Labor Relations	Advertise and recruit for federal, direct and IPA/MOA replacements; process personnel and pay actions; provide job information; maintain official records; rate applicants, appoint new employees, and provide HR consultation; Title 38 and Physician's Comparability Allowance, Market Pay & Locality Pay maintenance; process Reduction in Force and counseling; provides transportation services and relocation assistance for federal employees and consultation re: Tribal direct hires as requested; administers Workers' Compensation program; grievances, discipline/adverse actions; Merit Systems Protection Board, appeals and agency representation; performance management; retirements; payroll; benefits; outside activities; ethics program; suitability adjudication; manage Federal Employee Assistance program and Family Medical Leave and Family Friendly Acts consultation; conducts desk audits; applies Classification Standards and consultation. Initiate and assure completion of suitability investigations as needed on federal employees and personal services contractors.	R T	2 0
	Total		2

Under the direction of the IHS Western Region Human Resources Director, the Office of Human Resources will provide the specific PSFAs defined below for the current approximately 340 federal employees employed either directly or through Civil Service IPAs (58) or Commissioned Corps MOAs (254):

1. Advertise and recruit for direct federal employees. Replacement IPA positions may be filled with a current IPA already on board (such as by reassignment) or a new or replacement MOA. Process Reductions In Force (RIF). Provide counseling on RIF.

2. Maintain official personnel files (electronic and paper) and records for Civil Service employees.

3. Manage employee relations including performance management; employee benefit programs (retirement counseling and calculations, etc.); Worker's Compensation; incentive awards; ethics and conduct; suitability adjudications; Merit Systems Protection Board (MSPB) representation; third party representation; Employee Assistance Program; Family Medical Leave Act (FMLA) consultation; and Labor Relations.

4. Counsel Civil Service employees.

5. Administer performance management program for non-IPA/MOA Civil Service employees.

6. Director performs proposing federal official function in progressive disciplinary actions on federal IPA employees.

7. Process personnel actions for Civil Service employees.

8. Process payroll, including assisting timekeepers and assuring transmission of payroll for all Civil Service employees.

9. Correct pay and leave errors.

10. Manage federal classification system. Provide consultation on same.

11. Issue government Personal Identification Verification (PIV) Smart cards for Area Office employees and for those IPA/MOAs who need access to federal facilities or ITAS as Timekeepers or Leave Approving Officials. Proof of federal employment will be given to those IPA employees who do not receive a PIV Smart card.

12. Provide, on request, consultation on employee relation issues to Co-Signer.

13. Maintain database on IPAs and MOAs and provide to Co-Signer no less than quarterly.

14. Provide, on request, general consultation and support on Co-Signer personnel issues (travel outside Anchorage to provide requested on-site consultation will be at expense of Co-Signer).

15. Provide transportation services and relocation assistance for federal employees.

16. Coordinate arrangements for volunteer health provider services for Co-Signers.

17. Provide assistance in managing employee absences due to on the job injuries (worker's compensation) to minimize the impact on Co-Signers.

18. Initiate and assure completion of suitability investigations as needed on federal employees and personal services contractors.

19. Implement Alaska Area responsibilities set forth in the IHS Succession Plan.

20. Implement Alaska Area responsibilities related to IHS Development of Human Capital Initiative.

F. COMMISSIONED CORPS PERSONNEL[4]

P/S/F/A	MAJOR FUNCTIONS	Buyback	Staffing (FTE)
Commissioned Corps Personnel	Orient and assist officers and their families to include: recruitment support, liaison between areas, TRICARE advice, wage verifications, grievances, leave programs, COERs and COSTEP. As necessary, Corps-specific personnel discipline advice to CEOs and HR staff of 638 awardees with MOA assignees and supervisors of MOAs.	B	2
	Total		2

Under the direction of the IHS Division of Commissioned Personnel Support, the Commissioned Corps Personnel component will provide the specific PSFAs defined below for the approximately 259 USPHS Commissioned Officers in the Alaska Area:

1. Provide general orientation to new Commissioned Officers.
2. Counsel Commissioned Officers; provide Corps-specific discipline advice to appropriate Co-Signer managers.
3. Maintain unofficial files and records for Commissioned Officers.
4. Process required federal personnel actions for Commissioned Officers including orders for deployment.
5. Assist and consult with officers and their supervisors.

G. OFFICE OF TRIBAL PROGRAMS

P/S/F/A	MAJOR FUNCTIONS	Residual Transitional	Staffing (FTE)
Director	Management of Area Title V responsibilities for Self-Governance and Title I review, approval and technical assistance. Managing CHEF submissions, and fund distribution; clerical and secretarial support.	T	1
Health Care (Management) Consultation	Title V compacts/FAs (including amendments and database management of same), cooperative agreements, and grants; negotiate and administer CSC funds.	T	3
Health Care [5] (Management) Consultation	Negotiate, manage, and execute Title I contracts. Review audit findings and work with Tribal contractors to resolve as needed.	R	1
	Total		5

The Office will provide the specific PSFAs defined below:

1. Provide or facilitate technical assistance to Tribes which may or may not lead to the preparation of proposal(s) to assume PSFAs for Title I contracting, Title V compacting and Tribal Management grants for Tribes and Tribal organizations
2. Evaluate P.L. 93-638 proposal(s) to determine acceptance, declination or rejection; if

4 During FY 2005 this PSFA was centralized under the Division of Commissioned Personnel Support at IHS Headquarters. Effective FY 2006, it is funded by assessing the locations that use Commissioned Officers. See, also, Appendix A.

5 Formally P/S/F/A: Federal Contracting Title I awards, (1) Residual FTE moved from the Office of Acquisition and Property Management; to support Title I contracts and audit resolution.

the Title I proposal is accepted, serve as the contract designated federal official (project officer) for the award. In the case of declination or rejection, further technical assistance will be offered to overcome declination or rejection.

3. Analyze and negotiate Contract Support Costs (CSC) for start up and ongoing direct and indirect-type CSC requests, and the maintenance of CSC records in support of Area-wide CSC needs in accord with IHS policy. Currently records are maintained for 36 Alaska awardees. The office will continue to administer the CSC funds (Indian Self-Determination Fund start-up, direct and indirect administrative cost funds). Allocation plans and funding applications will be developed, maintained and negotiated on behalf of Tribes and Tribal organizations. The office will continue to develop and maintain the Alaska Area Tribal database for the CSC fund, which clearly documents, for IHS and Congress, Tribal shortfall and start-up needs.

4. Support and clearance of submissions of CHEF requests to the national CHEF pool, unless a lawful alternative methodology is developed enabling direct submission by Tribal health programs participating in the CHEF program. More specifically this includes education and technical assistance on the process for requesting reimbursement and the maintenance of records on submittals, reimbursements, cancellations and supplemental requests.

5. Prepare Title V FA amendments at the request of Co-Signer, upon notification of change in funding, or as negotiated.

6. Provide information to Tribes on any proposed changes to the CHS fiscal intermediary contract, and advocates for revisions requested by Tribes.

7. Negotiate, execute, and administer all P.L. 93-638 Title I contracts including close out and site reviews as requested or required.

8. Coordinate with IHS Headquarters, the National External Audit Review Office, and Tribal contractors to resolve audit findings for Title I contracts and Title V funding agreements.

Kenaitze Indian Tribe

Date: July 29, 2020

Appendix D

FY 2015 Buyback/Withhold Agreement

Appendix D
Buyback/Withhold Agreement
between
the Indian Health Service
and
Kenaitze Indian Tribe, I.R.A.

Section 1. Generally. Pursuant to Section 5.3 of the Funding Agreement between Certain Alaska Native Tribes Served by Kenaitze Indian Tribe, I.R.A. (hereinafter "Kenaitze") and the Secretary of the Department of Health and Human Services of the United States of America (hereinafter "Secretary"), Kenaitze has determined that it wishes to carry out its responsibility to provide certain programs, activities, functions or services (e.g. salaries of IPA/MOA employees, and Village Built Clinics Program) included in its Funding Agreement utilizing services, personnel or other resources of the Federal Government, (hereinafter "services") under Article V, section 22 of the Compact, as permitted by law. These services may include some that are expected to be used throughout the year and some incidental services to be identified by Kenaitze on an as needed basis, and provided by the Indian Health Service (hereinafter "IHS") when IHS has the capacity to do so. The cost of providing the purchased services to Kenaitze shall be determined under section 2 below. Kenaitze's purchase of services is contingent upon the availability of IHS resources to provide those services. In addition, services must be paid for in advance, in order to avoid violation of the Anti-Deficiency Act and are subject to full cost recovery in accord with 25 USC 458aaa-7(f) and 31 USC 9701.

Section 2. Determination of Cost.

2.1 Generally. Kenaitze may acquire services from the IHS by either providing for full year withhold (with appropriate reconciliation) under terms agreed upon in this funding agreement, in which case the administrative surcharge provided for under section 2.2.4 shall not apply. In the alternative, Kenaitze may acquire services by authorizing partial year withhold amounts, as provided for in section 2.2, in which case the payment schedule and administrative surcharge provided for in section 2.2.4 shall apply. Whether full or partial year withhold is authorized, the full costs of IPA/MOAs including those detailed in section 2.3, Determination of IPA/MOA Costs, shall be paid by Kenaitze.

2.2 Conditions for Partial Year Withhold and Buyback.

2.2.1 IPA/MOA.

2.2.1.1 Advance withhold. The funds for IPA/MOA salary and other costs detailed in section 2.3, "Determination of IPA/MOA Costs," will be paid as a lump sum in accord with Section 5(a) of the Funding Agreement, except that an amount equal to three monthly payments based on the initial mutually agreed upon estimate of the annual IPA/MOA salary costs and related surcharges, as provided in section 2.2.4, will be withheld and retained by the Indian Health Service pending final disbursement for the last three months of the fiscal year

as provided in section 3.2.2.2.

2.2.1.2 Late Payment Provision. Except as provided in section 3.4, failure to make payment in full by the Default Date will result in action by the IHS to RIF or redeploy federal employees assigned to Kenaitze.

2.2.2 Village Built Clinics.

2.2.2.1 Advance Withhold. To ensure that sufficient funds are available to meet contract obligations, an amount equal to three monthly payments based on the initial mutually agreed upon estimate of the annual Village Built Clinic costs and related estimated surcharges, as provided in section 2.2.4, will be withheld and retained by the Indian Health Service pending final disbursement for the last three months of the fiscal year as provided in section 3.2.2.2.

2.2.2.2 Late Payment Provision. Except as provided in section 3.4, failure to make payment in full by the Default Date will result in action by the IHS to terminate the village based clinic leases.

2.2.3 Other Services.

2.2.3.1 Advance Withhold. An amount equal to one monthly payment based on the initial mutually agreed upon estimate of the annual cost of other services Kenaitze proposes to purchase from the IHS and related estimated surcharges, as provided in section 2.2.4, will be withheld and retained by the Indian Health Service pending final disbursement for the last month of the fiscal year as provided in section 3.2.2.2.

2.2.3.2 Incidental Services. Nothing herein shall prevent Kenaitze from negotiating to purchase incidental services from the IHS throughout the year, without regard to an advance withhold. Such incidental services may include medical record storage, costs associated with disposal of excess governmental property held by Kenaitze and costs associated with acquiring excess property from the Department of Defense. Agreements for purchase of incidental services must specify the method and timing of payment by Kenaitze.

2.2.3.3 Late Payment Provision. Except as provided in section 3.4, failure to make payment in full by the Default Date will result in action by the IHS to terminate the services for which payment has not been made.

2.2.4 Administrative Surcharge. An administrative surcharge in a percentage set forth in Section 5.3 of the Funding Agreement shall be imposed on the charges for the services delivered by the IHS to Kenaitze under the partial year withhold and buyback provisions of section 2.2. This surcharge will not be imposed on purchases for which a full year's estimated withhold is authorized. The administrative surcharge will be estimated based on the estimated annual purchase price and will be accounted for and reconciled under section 3.3.2.

2.2.5 No Other Charges. Except as provided in this section 2.2, there

shall be no additional overhead, user or administrative charges or assessments for providing services to Kenaitze.

2.3 Determination of IPA/MOA Costs.

2.3.1 List of Costs. It is agreed by the parties that the entire cost of IPA/MOA assignments, including costs associated with the initiation, maintenance, and termination of the assignments are the responsibility of Kenaitze. The IHS must be reimbursed for all such costs which include but are not limited to the following:

2.3.1.1 Permanent change of station costs including the cost of moving replacement IPAs from the lower forty-eight to Alaska and the cost of moving IPA employees who separate back to the lower forty-eight.

2.3.1.2 Recruitment, relocation and retention bonuses if such funds are necessary to attract or retain employees.

2.3.1.3 Severance pay for employees who are released by Kenaitze and separated without cause.

2.3.1.4 Payment of turnaround leave travel expenses. All individuals who are eligible for these expenses shall be identified in the IPA negotiated between the parties. The IHS will retain liability for existing IPAs. Kenaitze assumes the liability for new IPAs and upon renewal of an existing IPA.

2.3.1.5 Lump sum leave payments for employees who leave federal service. All leave accrued prior to the employee becoming employed by Kenaitze shall be identified in the IPA/MOA negotiated between the parties. The liability for accrued leave on existing, renewing, and new IPA/MOAs shall be the responsibility of Kenaitze.

2.3.1.6 Costs associated with settling or resolving employment related disputes, subject to the terms specified in section 2.3.2 below.

2.3.1.7 Centrally paid expenses, subject to the terms specified in section 2.3.3 below.

2.3.1.8 The cost of paying unemployment benefits assessed to the Area in FY 2002 and thereafter on behalf of an employee who was employed by Kenaitze under an IPA immediately prior to voluntary or involuntary separation from IHS regardless of the year in which unemployment benefits were paid. The Kenaitze is not responsible for unemployment costs that were assessed to the Area in Fiscal Years 2000 and 2001.

2.3.2 Costs Related to Employment Related Disputes.

2.3.2.1 Responsibilities of the IHS. The Indian Health Service shall be responsible for the payment of all costs of the IHS Office of Human Resources and any other

section of the Indian Health Service, the Office of General Counsel, and the Department of Health and Human Services associated with the processing, settlement or other resolution of employment actions such as disciplinary actions, grievances, or appeals to the Merit System Protection Board and/or the Equal Employment Opportunity Commission, and matters arising under the Federal Labor Relations Act or any other law permitting the employee to appeal from such actions initiated by Federal employees assigned to a Co-Signer under an IPA or MOA. The IHS may pay for or recover these costs as described under section 2.3.2.3, Sharing in Costs of IPA/MOA Employment Related Disputes, to the extent permitted under section 2.3.2.2.

2.3.2.2 Employee Disputes Costs Chargeable to Co-Signers. The IHS may pay for or recover costs associated with processing, settlement or other resolution of employment related disputes listed in paragraph 2.3.2.2.1 of this subsection under the following conditions:

2.3.2.2.1 Only costs associated with covered disputes that arose from conduct, performance or other circumstances alleged to have occurred during the course of an employee's assignment to a Co-Signer may be assessed under section 2.3.2.3.

2.3.2.2.2 Costs which may be assessed under section 2.3.2.3, Sharing in Costs of IPA/MOA Employment Related Disputes, may include, but are not limited to, awards of back pay, compensatory damages, attorney fees, travel costs necessary to investigate the case and represent the IHS at hearings or in other proceedings during the appeal process, costs of obtaining and preserving witness testimony, and other similar costs incurred as a result of the IHS defending itself in these matters.

2.3.2.2.3 No salary costs of IHS, Office of General Counsel or Department of Health and Human Service employees may be assessed or recovered under section 2.3.2.3. Nor may any other cost of these proceedings be charged if such costs have ordinarily been paid from funds identified by the IHS as residual or restricted at Headquarters or the Area Office.

2.3.2.3 Sharing in Costs of IPA/MOA Employment Related Disputes. All costs of the IHS related to IPA/MOAs for which Co-Signers are responsible under section 2.3, "Determination of IPA/MOA Costs," are the responsibility of the individual Co-Signer to whom the IPA/MOA is assigned, except as provided in this paragraph. Kenaitze agrees to share with other Co-Signers the costs and risks described in the above section 2.3.2.2, "Employee Disputes Costs Chargeable to Co-Signers" by agreeing to accept a share of the cost not to exceed $75 per assigned IPA/MOA per separate employment action. The purposes of sharing these costs are to simultaneously ensure that IHS recovers the full costs associated with employment related disputes involving IPA/MOAs, minimize the financial risk for individual Co-Signers, and minimize the accounting and administration caused by certain categories of costs. The IHS may use funds assessed under this paragraph only as provided in section 2.3.2.2. The amount assessed each Co-Signer shall be a percentage calculated based on the number of IPAs and MOAs the Co-Signer has assigned to it. All costs assessed under this paragraph will be reconciled with each contributing Co-Signer, as provided under section 3.3, and a separate report will be provided to all ATHC Co-Signers.

2.3.3 Costs Related to IPA/MOA Centrally Paid Expenses. Certain costs associated with IPA and MOA employees are paid centrally by Headquarters from Area funds. These include costs detailed in columns 6, 7, and 8 of the spreadsheet entitled "Allocation of Centrally Paid Expenses (Excluding FTS)," Corrected May 11, 1998, that was prepared by David Mather. These are costs associated with Commissioned Corps, Personnel and Payroll, and Balance of Human Resources. The Alaska Area Native Health Service may pay for or recover assessments from Headquarters to cover these identified costs by including in the monthly charge for each IPA or MOA the monthly cost to the IHS of such Centrally Paid Expenses. The cost charged Kenaitze for each IPA/MOA may not exceed the average cost per federal employee actually paid by IHS. For purposes of calculating the initial withhold amount and estimated monthly payments, the estimated average cost per month for each IPA or MOA is shown in Appendix A of the Funding Agreement.

2.4 Limitation on Obligations and Notice.

2.4.1 Obligations. IHS shall within 30 days provide notice to Kenaitze of the best available estimate of the costs that may be incurred under this Agreement of leases, contracts, salaries and related expenses and permanent change of station.

2.4.2 Content of Notices of Best Available Estimates and Costs. Notice of best available estimates under section 2.4.1 and full accounting of all costs due under section 3.3.1 shall include the amount, vendor and reason for obligation or expenditure, including the name of the employee, if any.

Section 3. Method of Payment.

3.1 Full Year Withhold. Payment for services being purchased from the IHS may be made by Kenaitze authorizing a withhold of the full year's initial mutually agreed upon estimate of the annual cost of each category of services Kenaitze proposes to purchase from the IHS. In such case, no monthly payments are due from Kenaitze. Upon periodic reconciliation, provided for under section 3.3.1, excess withheld funds will be paid by the IHS to Kenaitze and adjustments in the amount of withhold or payments needed to pay for all services Kenaitze has purchased, or proposes to purchase, will be made to the IHS by Kenaitze. *See* "Summary of Withhold/Buyback" page of Appendix A for calculation of the amount Kenaitze hereby authorizes for full year withhold, if any.

3.2 Purchases through Buyback under section 2.2.

3.2.1 Calculations.

3.2.1.1 Of Initial Estimated Monthly Payment. The initial estimated monthly payment is determined by estimating the annual cost of services to be purchased from IHS, including the surcharge on all services under section 2.2.4, and dividing by 12. *See* "Summary of Withhold/Buyback" page of Appendix A for calculation of the amount of the initial estimated monthly payment.

3.2.1.2 Of Total Withhold Amount. A Co-Signer purchasing services through buyback authorizes withhold of an amount equal to the Advance Withhold under paragraphs 2.2.1.1, 2.2.2.1 and 2.2.3.1 of section 2.2 for each category of service being purchased, plus an amount equal to one month of the initial estimated monthly payment for each category of service being purchased (to cover the estimate for services to be provided in October). *See* "Summary of Withhold/Buyback" page of Appendix A for calculation of the amount Kenaitze hereby authorizes to be withheld.

3.2.2 Payment Schedule.

3.2.2.1 First Payment. The initial estimated monthly payment is due and payable on the first day of November or the first day of the month following payment to Kenaitze of its lump sum payment, whichever is later, in which case the IHS shall reduce the lump sum payment by the authorized withhold plus the initial estimated monthly payments for each month preceding the first month for which a payment is due from Kenaitze for which a payment was not withheld. (This provision is intended to address delays caused in making the lump sum payment to Kenaitze due to Congress authorizing continuing resolutions or other delays in making lump sum payments to Kenaitze.)

3.2.2.2 Subsequent Estimated Monthly Payments. Subsequent payments are due and payable on the first day of each month, until the final months of the year intended to be covered by the Advance Withhold amount applicable to the category of services, as set forth in section 2.2. (For example, the last three months of payments for IPA/MOAs would come from the Advance Withhold amount, while only the last one month of payment for Other Services would come from the Advance Withhold amount.)

3.2.2.3 Default Date. If a payment is not received by the 10th day of the month in which it is due (or the first working day thereafter if the 10th day falls on a week-end or Federal holiday), the IHS will implement the late payment provisions for each category of service as provided under paragraphs 2.2.1.2, 2.2.2.2, and 2.2.3.3. This date shall be referred to throughout this section as "Default Date."

3.3 Reconciliation and Adjustment.

3.3.1 For Categories of Service. Full accounting of all costs for each category of service, whether purchased through full year withhold or buyback, will be provided to Kenaitze within 45 days of the end of each month. Reconciliation of payments made to IHS compared to actual costs for the first three quarters of the fiscal year will be provided quarterly within 45 days of the end of each quarter. Reconciliation of payments made to IHS compared to actual costs for the last quarter of the fiscal year will be provided within 60 days of the end of the last quarter. At the end of each of the first three quarters, the IHS and Kenaitze will review the expenses for the preceding quarters. The monthly estimated payment due, or the full year withhold amount, for the balance of the fiscal year will be adjusted accordingly to account for any over or under collections in order to project a zero balance at the end of the fiscal year. Within 30 days after the final end-of-year reconciliation is provided to Kenaitze, any over

recovery by the IHS must be returned to Kenaitze and within 30 days after the final end-of-year reconciliation is due any under recovery must be paid by Kenaitze.

3.3.2 For Administrative Surcharge.

3.3.2.1 Use and Rebate. The administrative surcharge shall be used exclusively for administration of the buyback provisions under this Buyback/Withholding Agreement. All income from the administrative surcharge will be accounted for separately and compared on an annual basis to the cost of administering buyback at the Area Office. This accounting and reconciliation shall be complete within 60 days of the end of the last day of the fiscal year. Any surplus in administrative surcharges shall be returned to the Co-Signers who participated in the buyback option on a pro rata basis depending on the amount of administrative surcharge paid.

3.3.3 Adjustment in Estimated Monthly Payment. In addition to adjustments in estimated payments that may occur under sections 3.3.1 and 3.3.2.1, the parties may at any time mutually agree, based on a change in circumstances, to change the estimated monthly payment due from Kenaitze.

3.4 Use of Other Funds Due Kenaitze to Avoid Default or Satisfy Obligations to IHS and other Remedies.

3.4.1 Avoiding Default. Default may be avoided to the extent funds are held by the IHS from other funds due to Kenaitze, which may be withheld to satisfy the amount of the payment, which would otherwise be in default or to satisfy amounts due IHS after reconciliation of costs and payments when an amount is due to IHS.

3.4.2 Recoupment. Any amount due to the IHS by reason of Kenaitze's failure to pay in full all amounts owing under the buyback provisions of the Funding Agreement for the immediately preceding fiscal year shall be recouped by the IHS from any funds due to Kenaitze under this funding agreement.

3.4.3 Full Year Withhold as Penalty for Default. Notwithstanding any other provision of this Buyback/Withholding Agreement, the IHS may require "full year withhold" as permitted herein as a condition of permitting a Co-Signer who was in arrears at the end of the immediately preceding fiscal year to buyback services from the IHS under the terms of this Agreement.

Section 4. Dispute Resolution. The parties shall endeavor to resolve any disputes concerning amounts due by Kenaitze under this Agreement in a manner agreeable to Kenaitze and to the IHS. In the event of a failure to reach agreement on the resolution of any such dispute, Kenaitze may, after providing written notice to the IHS, choose not to include the disputed amount in any subsequent payment due. Payment in such a manner shall not be considered as a resolution of the dispute. The parties shall thereafter attempt to resolve the dispute through Alternative Dispute Resolution following, as appropriate, the principles and processes set forth in Executive Order 12988 signed by President Clinton on February 5, 1996, and made effective as

of May 5, 1996. Kenaitze shall have the option of resolving the dispute in accordance with Article II, Section 10 of the Compact.

Section 5. Effective Date. This Buyback/Withholding Agreement shall become effective on October 1, 2014, and shall remain in effect pursuant to section 5.3 of the Funding Agreement.

Appendix E

Resolution No. 2011-22

TRIBAL COUNCIL RESOLUTION

Resolution No. 2011-22

SUBJECT: DELIVERY OF HEALTH CARE SERVICES TO INDIVIDUALS NOT OTHERWISE ELIGIBLE FOR SERVICES FROM THE INDIAN HEALTH SERVICE

1. Whereas, the Kenaitze Indian Tribe (Kenaitze) is a Co-Signer to the Alaska Tribal Health Compact under Title V of the Indian Self-Determination and Education Assistance Act, Pub. L. 93-638, as amended; and

2. Whereas, pursuant to the Alaska Tribal Health Compact and funding agreements negotiated annually there under with the Indian Health Service (IHS), Kenaitze carries out the programs, services, functions, and activities (PSFA) of the IHS which include a full range of primary care, dental and behavioral health services; and

3. Whereas, Section 813 of the Indian Health Care Improvement Act, as amended, 25 U.S.C. § 1680c ("Section 813") authorizes the governing body of a Tribe carrying out health services of the IHS under the Indian Self-Determination and Education Assistance Act to determine whether health services should be provided under the Tribe's funding agreement with IHS "to individuals who are not eligible for such health services under any other subsection of this section or under any other provision of law" (non-beneficiaries), 25 U.S.C. § 1680c(c)(2); and

4. Whereas, Section 813 further provides that in making such a determination, the governing body of the Tribe shall "take into account" whether the provision of health care services to such individuals will result in the denial or diminution of health services to Alaska Natives or American Indians; and

5. Whereas, the governing body of Kenaitze is the Tribal Council, consisting of seven tribal members; and

6. Whereas, the Council has carefully considered the factor identified in Section 813; and

7. Whereas, non-beneficiaries make up a small percentage of the persons receiving care from Kenaitze service providers, the Tribal Council has determined that services provided to non-beneficiaries by Kenaitze's providers, to the extent described in this resolution, will not result in the denial or diminution of services to IHS beneficiaries; and

8. Whereas, Kenaitze has established billing and collection procedures to ensure that non-beneficiaries are billed an amount that results in recovery of actual costs for the health services they receive from Kenaitze providers; and

9. Whereas, Kenaitze has entered into agreements with the State of Alaska to ensure payment by the State for services offered to indigent non-beneficiaries as required by Section 813, of the IHCIA, as amended, 25 U.S.C. § 1680c; and

10. Whereas, the Tribal Council has determined that Section 813 of the Indian Health Care Improvement Act, as amended, 25 U.S.C. § 1680c(c)(2), is satisfied.

RESOLUTION

11. Now therefore it be resolved, that the Tribal Council authorizes the extension of the full range of directly provided primary care, dental and behavioral health services to non-beneficiaries by the Kenaitze Indian Tribe; and

12. Be it further resolved, that the Executive Director, or his or her designee, is authorized and is directed to limit or eliminate access to such health services by non-beneficiaries should provision of such services diminish the provision of health services to beneficiaries of the Indian Health Service; and

Certification

Duly adopted at the meeting of the Kenaitze Indian Tribe, by a vote of 7 in favor, 0 opposed, 0 abstaining, and 0 absent, this 5th day of July, 2011.

Signed: _____, President

Signed: _____, Secretary

Project Summary Document

IV-1.
Policy #4*.
Project Summary Document Formats

Project Summary Documents describe projects being submitted to the MIRAC for funding from the maintenance & improvement funds (both competitive BEMAR funds and non-routine non-competitive Oklahoma Formula funds). Supporting documents to the PSD typically entail 100% design drawings (for projects requesting construction funds), construction cost estimates, product literature (for equipment specific PSDs), and contractor proposals or cost estimates.

A cover letter accompanies submitted PSDs, which affirms the organization's desire to submit these projects to the MIRAC for consideration.

The sections of the PSD are listed below.

[Facilities Board Project Number]
[Facility Name]
[Location], [State]

I. SUMMARY

[Summarize the project and include what is to be done, why (e.g., to add 135 gross square meters of space or replace a boiler), and the type of funding (e.g., Maintenance and Improvement, Quarters, Corporate Cost Sharing, etc.). This section should be no more than two paragraphs. Use attachments for project location maps and facility drawings.]

II. PROJECT SCOPE AND DESCRIPTION

A. Description of Project. [Provide a detailed explanation of the work to be accomplished by the project and the desired outcome of the project. Include all items reflected in the cost estimate. This information can be presented in bullet/list or narrative form.]

B. Project Justification. [Explain why the project is necessary. Link the justification to the developed Health Facilities Master Plan if appropriate. Discuss how the project will meet program needs, and how it will comply with legal, code, accreditation, and certification

* Sections of this policy modified by DEHE Staff to reflect formation of the MIRAC and for clarification of non-competitive project submittals.

requirements. Cite specific, code or JCAHO references by standard clause, chapter, paragraph, etc.]

III. DEFICIENCIES

The following deficiencies will be corrected as part of this project:

[List and describe only those facility deficiencies this project will address. The types of deficiencies include BEMAR, JCAHO, NFPA, HFPM, Public Law compliance items, ADA, etc.]

IV. COST ESTIMATE

Provide a budgetary cost estimate and the funding sources for the proposed project, including separate line items for design Architect/Engineer fees, project construction, construction contract administration fees, and project contingency.

V. PROJECT SCORE SHEET DOCUMENT (*only required for BEMAR competitive pool funds*)

Complete a project score sheet further detailing the scope, impact and benefits of this project. Provide the information required by the project score sheet.

VI. OTHER PROJECT ITEMS TO BE ADDRESSED

Supporting Documents: Drawings, Photos, Estimates, Etc.

Appendix F-2

Environmental Information and Documentation

ENVIRONMENTAL INFORMATION AND DOCUMENTATION

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

Considerations	Basis for Determination (Documentation)
1. Will the proposed action result in a known violation or continuance of a violation of applicable (Federal, Tribal, State or local) laws or requirements for protection of environment or public health and safety?	Yes or No. Explanation.
2. Will the proposed action result in a conflict with existing or proposed federal, Tribal, state, and local land use plans?	Yes or No. Explanation.
3. Is there a controversy with respect to environmental effects of the proposed action based on reasonable and substantial issues?	Yes or No. Explanation.
4. Is the proposed action significantly greater in scope than normal for the area or does it have significant unusual characteristics?	Yes or No. Explanation.
5. Does the proposed action establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

6. Does the proposed action have significant adverse direct or indirect effects on park land, other public lands, or areas of recognized scenic or recreational value?	Yes or No. Explanation.
7. Does the proposed action include construction of a new municipal solid waste landfill at a new solid waste disposal site?	Yes or No. Explanation.
8. Will the proposed action create a need for additional capacity at solid waste disposal facilities?	Yes or No. Explanation.
9. Does the proposed action include construction of a new wastewater treatment facility that will discharge treated sewage effluent to the waters of the U.S.	Yes or No. Explanation.
10. Will the proposed action create a need for additional capacity at wastewater treatment facilities?	Yes or No. Explanation.
11. Will the proposed action create a need for additional capacity in the drinking water supply?	Yes or No. Explanation.
12. Are there other considerations about the proposed action that could adversely affect the environment and/or public health and safety?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

13. Will the proposed action create a need for additional capacity in health care facilities and for health care services?	Yes or No. Explanation.
14. Will the proposed action create a need for additional energy supply or generation?	Yes or No. Explanation.
15. Will the proposed action create a need for additional capacity in educational facilities?	Yes or No. Explanation.
16. Will the proposed action create a need for additional capacity in transportation systems?	Yes or No. Explanation.
17.Historic Preservation: a. Does the proposed action involve the purchase, construction, alteration, renovation, or lease of a building or portion of a building that is more that 50 years old?	Yes or No. Explanation.
b. Will the proposed action adversely affect properties listed, or eligible for listing, on the National Register of Historic Places?	Yes or No. Explanation. or No

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

18. Endangered Species Act: Is the proposed action likely to adversely affect a plant or animal species listed on the Federal or applicable state list of endangered or threatened species or a specific critical habitat of an endangered or threatened species?	Yes or No. Explanation.
19. Will the proposed action require major sedimentation and erosion control measures?	Yes or No. Explanation.
20. Will the proposed action violate a storm water permit or a wastewater discharge permit either for construction or on-going operations?	Yes or No. Explanation.
21. Safe Drinking Water Act: Will the proposed action impact an EPA designated sole source aquifer?	Yes or No. Explanation.
22. Wetlands and Water Resources (lakes, rivers, ponds, streams, etc.): Will the proposed action violate a Section 404 (Clean Water Act) permit for actions in a wetland and/or Section 10 (Rivers and Harbors Act) permit for actions in a stream or river?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

23. Floodplains: a. Is the proposed action located in either a 100-year or, for critical actions, a 500-year floodplain? (If Flood Insurance Rate Maps do not exist for the project site, a floodplain survey or consultation may be required. Also may need to consider if the facility will require flood insurance).	Yes or No. Explanation.
b. Will the proposed action adversely impact flood flows in a floodplain or support development in a floodplain?	Yes or No. Explanation.
24. Existing site: Would the proposed action involve the purchase, construction or lease of new facilities (including portable facilities and trailers), substantially increase the capacity of an existing health care facility?	Yes or No. Explanation.
25. New site: Does the proposed action involve purchase, construction, or lease of new facilities (including portable facilities and trailers) where such action is for buildings equal to or more than 12,000 square feet (1080 square meters) of useable space when more than 5 acres (2 hectares) of surface land area are involved at a new site?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

26. New site: Does the proposed action involve purchase, construction, or lease of health care facilities (other than buildings) for projects equal to or more than 5 acres (2 hectares) of surface land area at a new site?	Yes or No. Explanation.
27. Does the proposed action involve the sale or transfer of real property, on which any hazardous substance was stored for one year or more, known to have been released, or disposed of? (Provide relevant documentation for any hazardous substance releases. See 40 CFR 373.2(b), 302.4, and 261.30 for reportable quantities.)	Yes or No. Explanation.
28. Does the proposed action involve the sale or transfer of real property, on which underground or above ground storage tanks are located?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

29. Will the proposed action violate Tribal, local, state, or federal law on the use and storage of hazardous substances or the transportation, storage, and disposal of hazardous wastes or medical wastes? (Activities that may generate reportable quantities include air conditioning repair and service, pesticide application, motor pools, automobile repair, welding, landscaping, agricultural activities, print shops, hospitals, clinics, & medical centers. Repair, renovation, or demolition activities can generate waste that has asbestos-containing materials, asbestos, lead-based paint, PCBs, CFCs, etc.)	Yes or No. Explanation.
30. Will the proposed action adversely affect community air pollution for a long period of time?	Yes or No. Explanation.
31. If the proposed action is implemented, will it have a disproportionately high and adverse human health or environmental impact on the Tribe, low-income populations, or minority populations?	Yes or No. Explanation.
32. Will the proposed action adversely affect community noise levels?	Yes or No. Explanation.

Tribe:	Reservation:
Project, Program, Grant Description & Location:	

33. Wilderness Act: Will the proposed action adversely impact a Wilderness Area?	Yes or No. Explanation.
34. Farmland Protection Policy Act: Will the proposed action convert significant agricultural lands to non-agricultural uses and exceed 160-point score on the farmland impact rating?	Yes or No. Explanation.
35. Coastal Zone Management Act: Will the proposed action directly affect a Coastal Zone in a manner inconsistent with the State Coastal Zone Management Plan?	Yes or No. Explanation.
36. Wild and Scenic Rivers Act: Will the proposed action affect a wild, scenic, or recreational river area or create conditions inconsistent with the character of the river? (A consideration for activities that are in or near any wild and scenic waterway including construction of stream/river crossings, intake structures, outfalls, etc.)	Yes or No. Explanation.

I certify that to the best of my knowledge and ability the information presented above is true and correct. The record was examined to identify potential extraordinary or exceptional circumstances which would require further environmental review.

Appendix G

Actions Requiring IHS Environmental Review and Determination

APPENDIX G – Actions Requiring IHS Environmental Review and Determination

For actions outlined in the below table, which are to be undertaken by Kenaitze Indian Tribe, IRA, Kenaitze shall submit a proposal package that includes a completed Project Summary Document (See Appendix F-1) and Environmental Information and Documentation Form (See Appendix F-2) to the IHS. Coordination time between Kenaitze and the IHS to complete the Environmental Review and Determination process varies for each group of actions. The timing provided below indicates the expected timeline to complete the process for each group of actions. Early coordination in the planning phase of a project between Kenaitze, IHS, and other stakeholders will help ensure environmental concerns are addressed in a timely manner and project delays are minimized so that IHS can complete its environmental responsibilities and issue a Determination Document as early as possible.

Action		Expected Timelines
Categorically excluded actions per Federal Register Vol. 58, No. 3, pg 571(I)(3), (I)(4), (I)(6), and (I)(7), dated January 6, 1993.		**The Environmental Review and Determination Process for this group of actions ranges from 45 to 90 days from the receipt by the IHS of the proposal package.***
[]	Pg 571 (I)(3): Building alteration or renovation that does not substantially change the function or general appearance of existing buildings.	
[]	Pg 571 (I)(4): Construction or lease of new facilities (including portable facilities and trailers) where such lease or construction: (a) is at the site of existing health care facility and the facility capacity is not substantially increased, (b) is for building of less than 12,000 square feet of useable space when less than five acres of surface land area are involved at a new site, or (c) is for projects other than buildings when less than five acres of surface land area are involved at a new site.	
[]	Pg 571 (I)(6): Acquisition of space by lease, use agreement, transfer, gift or similar arrangement for which: (a) the intended use of the space is consistent with the functional design of the building, and (b) the acquisition is consistent with an applicable master plan, if such plan exists.	
[]	Pg 571 (I)(7): The acquisition, sale, release, abandonment, closure or transfer of real property, provided the action: (a) is consistent with any applicable master plan, if such a plan exits, (b) conforms to local zoning and land use ordinances, if such ordinances exist, (c) is consistent with the functional design of the facility, (d) would not violate applicable Federal, State, or local environmental protection or historic preservation laws, and (e) satisfies the requirements of applicable comprehensive Environmental Response Compensation and Liability Act (CERCLA)section 120 (h) provisions.	
Any normally categorically excluded actions that may have Extraordinary or Exceptional Circumstances per Federal Register Vol. 58, No. 3, pg 571-72(K), dated January 6, 1993.		**The Environmental Review and Determination Process for this group of actions ranges from 60 to 180 days from the receipt by the IHS of the proposal package.**
[]	Pg 571 (K)(1): Those with potential to change the existing environment where such change violates directives or other controls that are imposed by any governmental body having jurisdiction, for the purpose of protecting or otherwise affecting that environment;	
[]	Pg 571 (K)(2): Those with potential or real threat of violation, or continued violation, of an applicable Federal, State, or local law or requirement imposed for protection of the environment or to ensure public health and safety;	
[]	Pg 571 (K)(3): Those likely to cause controversy with respect to the types or extent of the resulting environmental effects where such controversy is based on pertinent and substantial issues;	

[]	Pg 571 (K)(4): Those involving the use of technology where the possible effects are highly uncertain or involve unique or unknown risks and where such technology has not been assessed previously for environmental impact;
[]	Pg 571 (K)(5): Those which have adverse effects on unique geographic characteristics (e.g. historic, archeological, or cultural resources, park recreation or refuge lands, wilderness, areas, wild or scenic rivers, sole or principal drinking water aquifers, prime farmlands, wetlands, floodplains, coastal management zones, or ecological or critical areas including those listed on the Department of Interior National Register of National landmarks);
[]	Pg 571 (K)(6): Those which establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects;
[]	Pg 571 (K)(7): Those which have adverse effects on properties listed or eligible for listing on the National Register of Historic Places;
[]	Pg 571 (K)(8): Those which have adverse effects on species listed by the Federal Government as Endangered or Threatened Species, or which have adverse effects on any designated critical habitat for these species;
[]	Pg 571 (K)(9): Those which require assessment in accordance with Executive Order 11988 (Floodplain Management), or Executive Order 11990 (Protection of Wetlands), or the Fish and Wildlife Coordination Act; and
[]	Pg 572 (K)(10): Those which involve the use, transfer, or lease of real property which has been determined, after investigation in accordance with the provisions of CERCLA 120 (h), to have been used as a storage facility for hazardous waste for more than 1 year; and
[]	Pg 572 (K)(11): Construction projects which are significantly greater in scope or size than normally experienced for a particular category of action.

Any action NOT categorically excluded per Federal Register Vol. 58, No. 3, pg 569-572, dated January 6, 1993 attached hereto.	**The Environmental Review and Determination Process for this group of actions ranges from 60 to 180 days from the receipt by the IHS of the proposal package.**

* The time needed to complete Environmental Reviews is highly dependent on required consultations with other Federal and State Agencies. As an example, the NHPA Section 106 Process requires the State Historic Preservation Officer (SHPO) be allotted 30 days to review and comment on a proposed action (36 CFR Part 800.3(c)(4)). Furthermore, additional time beyond the 30 days may be required for consultation with SHPO to adequately review and determine the effects of the proposed action on existing historical resources. Coordination early in the planning phase of the project can help identify these potential issues and allow Kenaitze and IHS to resolve them early.

Funding Agreement
between
KETCHIKAN INDIAN COMMUNITY
and
the Secretary of the Department of Health and Human Services
of the
United States of America
Fiscal Year 2023 through 2025

This Funding Agreement ("FA") is entered into by and between Ketchikan Indian Community ("KIC"), a federally recognized Indian tribe, and the Secretary of Health and Human Services of the United States of America. KIC is authorized to provide the programs, services, functions, and activities described herein to the Organized Village of Saxman. The KIC Tribal Council has adopted a resolution authorizing the KIC Tribal Council President to sign this Funding Agreement and to accept the responsibility to carry out the terms of this Funding Agreement on behalf of KIC.

Section 1. Obligations of the Indian Health Service.

1.1. Generally. Under the authority of Section 325 of P.L. 105-83 and the Indian Self-Determination and Education Assistance Act, P.L. 93-638, as amended (ISDEAA or the Act), non-residual programs, services, functions, and activities (PSFAs) of the Alaska Area Office and the Alaska Native Medical Center (ANMC) have been transferred to tribal management.

1.1.1. IHS Functions. Delivery of PSFAs shall be consistent with each Co-Signer's Funding Agreement (FA). The Indian Health Service (IHS) shall remain responsible for performing all federal residual PSFAs. IHS shall remain responsible for negotiating assurances with the Alaska Native Tribal Health Consortium (ANTHC) and Southcentral Foundation (SCF) on behalf of Alaska Natives and American Indians to the effect that Co-Signers continue to receive non-residual PSFAs from the Area Office and ANMC provided by ANTHC and SCF at a minimum at the level that such PSFAs were provided by the IHS as of October 1, 1997, to the extent permitted by Section 325 of P.L. 105-83. To the extent authorized by federal law, IHS will respond to written KIC concerns about the extent to which such assurances have not been complied with and take appropriate action. IHS shall further be responsible for performing its special trust responsibilities and legal obligations as provided in the Indian Health Care Improvement Act, as amended (IHCIA); the ISDEAA; and other applicable provisions of federal law.

1.1.2. IHS General Obligations. This FA obligates the IHS to provide funding and services identified herein and as provided in the Alaska Tribal Health Compact (the Compact) between KIC and certain other Co-Signers thereof and the United States in Fiscal Year 2023-2025, or until a successor agreement is negotiated and becomes

effective pursuant to Article II, Section 12 of the Compact. In addition, although funds are provided from Headquarters and Area Office in support of the Compact, IHS will agree to continue to make available to Co-Signers PSFAs from both Area Office and Headquarters unless 100% of the total tribal shares for these PSFAs have been specifically included in this FA. In cases where a portion of tribal shares have been transferred, there may be some diminishment of the level of PSFAs provided by IHS. Furthermore, IHS will reorganize both Headquarters and the Area Office to continue to provide the remaining PSFAs, which have not been included in this FA, in the most effective and efficient manner possible, provided that decisions about the array and level of services to be offered by IHS shall be made in consultation with Alaska Tribes. IHS PSFAs not negotiated into this FA or listed in Appendix A will be the responsibility of IHS. The "Memorandum of Agreement Describing the Continuing Services of the Indian Health Service, Area Office of the Alaska Native Health Service," among the Co-Signers and the Alaska Area Native Health Service (AANHS) reflects the understanding of the parties regarding services to be provided by the AANHS to Co-Signers. This document, attached as Appendix B, is hereby incorporated by reference.[1]

1.2. Headquarters Shares. Unless funds are specifically provided from Headquarters, Headquarters retains all PSFAs, and KIC will not be denied access to, or services from, Headquarters. Specifically, KIC will receive the following services from IHS Headquarters[2]:

1.2.1. Information Services. IHS will provide the full range of Office of Information Technology (OIT) national support to ANTHC and ANMC. OIT will provide specified services directly to KIC. In addition, OIT will provide support to ANTHC to assist it to carry out its responsibility to provide day-to-day technical support, user support, distribution of software and files and other typical information technology support to Co-Signers as defined in the Assurances Appendix to the ANTHC FA. Upon request of the ANTHC, after good faith efforts to resolve KIC's technical issue, OIT's support of KIC will include technical support needed on-site by KIC. A list of the services due under this paragraph, with identification of the method of delivery, is shown below.

Office of Information Technology Provides:	Directly to ANTHC	Directly to Co-Signer KIC	Indirectly to Cosigner KIC through ANTHC
National Database Services			
100% Data Center Services	X		
Process Data exports into National Database		X	
Evaluate, correct, convert site data for National Database		X	
Telecommunications Management Services			
100% Telecommunications Management Services	X		
Maintain IHS to Alaska connection		X

Additional Services - Fee for Service	X	X	X

1.2.2. Access to Training and Technical Assistance. To the extent funds are retained by IHS, KIC shall have access to training, continuing education, and technical assistance in the manner and to the same extent KIC would have received such services if it were not a Self-Governance Tribe.

1.2.3. Intellectual Property. IHS, through contracts, grants, sub-grants, license agreements, or other agreements may have acquired rights or entered into license agreements directed to copyrighted material. KIC may use, reproduce, publish, or allow others to use, reproduce, or publish such material only to the extent that IHS's contracts, grants, sub-grants, license agreements, or other agreements provide that IHS has the right to allow a tribe to do so and IHS determines that it will extend its rights to KIC. KIC's use of any such copyrighted material and licenses is limited to the scope of use defined in the agreements.

1.2.4. HIPAA Compliance. IHS retains the responsibility for complying with the Health Insurance Portability and Accountability Act of 1996 (HIPAA) for retained IHS health care component activities.

1.2.5. Community Health Aide Program Certification. IHS retains the responsibility, pursuant to Section 119 of the Indian Health Care Improvement Act, as amended, to maintain the Community Health Aide Certification Board, which was established by and is under the direct control and supervision of IHS, to accredit

training for and to certify community health aides, which includes Community Health Aides/Practitioners, Dental Health Aides, and Behavioral Health Aides/Practitioners as those terms are defined and used in the CHAPCB Standards and Procedures.

1.3. Historical PSFAs. KIC has historically received certain PSFAs from ANMC and AANHS. Responsibility for these PSFAs has been transferred to ANTHC and SCF. For purposes of identifying those services provided by ANMC and AANHS prior to transfer of management to ANTHC and SCF, attached to this FA is an addendum entitled "Memorialization of Historical Level of PSFAs Provided by ANMC and AANHS." The PSFAs listed in this addendum are taken from KIC's FY 1999 FA. The addendum is attached to the present FA only for the purpose of identifying historical levels of PSFAs received by KIC from ANMC and AANHS, and is specifically not made a part of this FA.

Section 2. Obligations of KIC. This FA obligates KIC to be responsible for and to provide health PSFAs, identified in Section 3, utilizing the resources transferred under this FA and other funds as they may become available to KIC. This FA further authorizes KIC to consolidate and redesign PSFAs as provided in the Act, and the Compact. KIC is committed to and will strive to provide quality health services and will strive to meet standards it believes to be appropriate and applicable to the delivery of those health services.

Section 3. KIC Tribal Programs. Subject to the availability of funds, KIC agrees to administer, provide and be responsible for the health care PSFAs identified below in accordance with the Compact and this FA. For the purposes of this FA, KIC's General Budget Categories consolidate related health PSFAs as described in this subsection. KIC's wide range of services are provided and facilitated directly, and in cooperation with ANMC, ANTHC, SCF and other Co-Signers, including through field clinics, referral to ANMC and other arrangements with tribal health organizations. KIC delivers its programs and services through direct, telehealth, referral and purchased services, and may do so through purchasing health coverage. Any PSFA described in this section 3 may be performed by any organizational unit of KIC at KIC's direction. KIC may deliver health services in a variety of settings, including, but not limited to, clinics, homes, schools, and other community settings. KIC may also provide other PSFAs to meet the objectives of Section 3 of the IHCIA.

3.1. Health Care Services. KIC is committed to quality patient care achieved through maintaining qualified staff, physical plant, and adequate supply of medical provisions required to provide quality patient care. ˙Both directly and through services provided by itinerant providers, KIC provides comprehensive medical, behavioral health, oral health, and emergency health care through clinics, home visits, and other care settings. KIC integrates traditional, complementary, alternative, and restorative approaches to the basic primary care service delivery program, as well as, promoting healthy communities through economic development and social well-being. These programs deliver services that promote the well-being of KIC tribal members.

3.1.1. Outpatient Medical Services: Provides comprehensive family practice and internal medicine by physicians and mid-level practitioners. KIC provides screening and health education, onsite treadmill testing, echocardiography, subcutaneous biopsy, IV medication administration including chemotherapy. Medical specialty services are

provided by KIC providers and include but are not limited to, family practice, rheumatology, hematology, diabetes, pediatrics, psychiatry, neurology, optometry & ophthalmology, orthopedics, urology, internal medicine and dermatology, and medication assisted treatment.

3.1.2. Emergency Medical Services: Facilitates development of emergency medical response infrastructure; and enhances coordination and planning for disaster response and emergency preparedness.

3.1.3. Women's Health: Provides comprehensive gynecological care. Includes obstetrical services, pre- and post-natal care, midwifery, maternal and newborn care.

3.1.4. Dental Program: Provides services to increase dental health and decrease the incidence of dental disease through diagnosis and treatment of dental problems. These services include, but not limited to, dental treatment modalities such as orthodontics, prosthodontics and related services, dental hygienist services, and preschool dental screening.

3.1.5. Behavioral Health/Substance Abuse: Provides outpatient counseling and psychiatric consultation to individuals, groups and families incorporating traditional tribal concepts, values and traditions. Behavioral Health services include, but are not limited to, crisis counseling, mental health evaluations, group therapy, ongoing counseling services, consultation with providers, domestic violence counseling and child abuse counseling, and substance abuse prevention and treatment activities, batterers intervention services, tobacco cessation services, Fetal Alcohol Spectrum Disorder prenatal screening, diagnostic assessments, elder care case management, community based home care chore services, home health services, and community education. Additionally, KICTHC Behavioral Health Department collaborates with the State of Alaska and KIC Social Services Department when interventions are needed.

3.1.6. Community Health Nursing: Provides nursing services, including, but not limited to, women's, children's and family services, community safety, immunizations and high risk patient follow up, case management, employee health, and infection control services provided by RNs, LPNs, and CNAs. Nursing administration includes, but is not limited to, providing leadership, direction and guidance in coordination with the Tribe's executive team and facilitating use of continuous quality improvement.

3.1.7. Traditional Healing: Includes the coordination of traditional healing practices, research, and training so that traditional healing may be incorporated “side-by-side” with medical practices to further incorporate Native values, beliefs and practices for the ultimate benefit of patients and families. Includes patient education about traditional medicines and healing practices, including various traditional crafts and activities. Traditional health care services will be provided in accordance with 25 USC Sec. 1680u.

3.1.8. Complementary and Alternative Medicine provides complementary and alternative patient care services demonstrated to be reasonably safe and effective and

indicated for the patient's diagnosis or condition may be provided following a referral from a primary care provider (defined as a MD, DO, DDS, DMD, PA or ANP).

3.2. Ancillary Services: Ancillary services will be maintained at levels sufficient to support medical diagnosis and treatment including, but not limited to:

3.2.1. Diagnostic Services: A full range of laboratory services are provided as well as radiology services. These include, but are not limited to, specimen collection, specimen handling, diagnostic testing and clinical interpretation, x-ray services and diagnostic imaging.

3.2.2. Pharmacy: Pharmaceutical services include, but are not limited to, recommending drug therapies, dispensing medications and monitoring of medication treatment plans to assure appropriate, safe, cost effective therapies and to provide patients with information regarding their treatment to assure compliance and mitigate potential side effects.

3.2.3. Physical Therapy: Includes, but is not limited to, rehabilitation physical therapy services, self-care education and referral to other providers for certain outpatient physical therapy services.

3.3. Purchased/Referred Care: Within available funding, KIC purchases authorized services from non-IHS, non-tribal facilities and providers not otherwise available or accessible to eligible beneficiaries, on a contractual or open market-basis and provides a referral system for other available resources. Program administrative activities include, but not are limited to, patient advocacy, monitoring of patient care for appropriateness of services, medical necessity policies, and eligibility determinations.

3.4. Additional Programs.

3.4.1. Diabetes Prevention and Control. This is a comprehensive program aimed at reducing diabetes and encouraging healthy and subsistence-based lifestyles and individual and community wellness through education and training programs, holding diabetes screening clinics in the communities, developing tracking systems and methods of notifying high risk and diabetic patients to visit the clinic regularly for follow-up, conducting foot and eye clinics for diabetic patients, conducting community outreach and education activities including, but not limited to, organizing and conducting fun runs, providing an on-site wellness center with access to aerobic, anerobic, and strength equipment and programs, and diabetes curriculum development; and gathering and reporting data related to diabetes.

3.4.2. Health Promotion and Disease Prevention Program: Provide comprehensive health promotion and disease prevention programs, including programs aimed at reducing diabetes and encouraging cancer screening, healthy and subsistence-based lifestyles, individual and community wellness; providing education and community outreach through community and individual activity, physical fitness and wellness programs, including culturally appropriate programs, such as arts and crafts, physical

and mental health focused activities and retreats, and sponsorship and direction of youth and adult team sports. Health promotion and disease prevention activities are provided at a variety of settings, including culture camp sites, community festivals, and schools.

3.4.3. Public Health and Epidemiology: Directly and/or through the ANTHC's Epidemiological Center, KIC carries out public health, epidemiology and health research functions. These activities include, but are not limited to: collecting and receiving personally identifiable health information for the purpose of preventing or controlling disease, injury, or disability; reporting disease, injury, and vital events such as birth and death; and the conduct of public health and epidemiology investigations, surveillance, and interventions, including the maintenance of disease and injury registries.

3.4.4. Home and Community-Based Services: Through a combination of western methods and traditional modalities, home care, and other community-based services; KIC provides assistance with activities of daily living such as bathing, dressing, laundry, light housekeeping, cooking, vital signs, and medication reminders. These services are provided to individuals who are unable to perform their activities of daily living on their own, or when the families are unable to meet their needs. Home and community-based services also provides palliative and other end-of-life services, respite, chore, nutrition, transportation, and other supportive services, including various senior programs and activities, and engages in planning and development of additional services. KIC provides the services described above and other home and community-based care, long-term care, hospice, and assisted living services in accordance with Section 205 of the IHCIA, as amended, 25 U.S.C. § 1621d.
