Preface

This manual contains the technical overview of the Resource and Patient Management System (RPMS) Uniform Data System (UDS) Reporting System for calendar year 2015.

RPMS UDS Reporting is intended for use by Tribal or urban health facilities receiving grant funds for primary care system development programs administered by the Bureau of Primary Health Care (BPHC), Health Resources and Services Administration (HRSA). The RPMS UDS Reporting System provides passive extraction of patient and visit data from the Indian Health Service (IHS) RPMS to produce 10 of the 12 UDS report tables required annually by BPHC grantees.

> **Note:** Submit 2015 UDS data by February 15, 2016 in order to assure adequate time for review and correction of data errors prior to final submission. Changes to these data will be permitted until March 31, 2016.

The RPMS UDS Reporting System software will be reviewed annually and updated as needed as BPHC reporting requirements change.

Additional information about BPHC grants and BPHC UDS reporting can be found at the following Web site: http://www.bphc.hrsa.gov/uds/.

Rules of Behavior

All RPMS users are required to observe Department of Health and Human Services (HHS) and IHS Rules of Behavior (ROB) regarding patient privacy and the security of both patient information and IHS computers and networks. This document provides both RPMS and UDS ROBs.

1.0 About this Manual

This manual provides the technical documentation for the RPMS UDS Reporting System for CY 2015.

1.1 Key Changes for Version 10.0

- Revised environment checker to check for items listed in the install manual only.
- Revised environment checker clearly define any errors during install instead of a generic message, such as the missing package or routine name.

1.1.1 Menu Changes

- Reports Menu Changes
- MU Menu Changes
- LST Submenu Changes:
  - LST2 Submenu Changes:
    - Revised submenus:
      - E-H Table 6B Section E through H:
        - Renamed to E-I Table 6B Section E through I
      - I-M Table 6B Section I through M
        - Renamed to J-N Table 6B Section J through N
    - Added submenus:
      - E-I Table 6B Section E through I:
        - CAD1 All CAD patients 18+ w/Lipid Therapy
        - CAD2 All CAD patients 18+ w/o Lipid Therapy
      - J-M Table 6B Section J through M:
        - DEN1 All Patients 6-9 at Risk with First Molar Sealant
        - DEN2 All Patients 6-9 at Risk w/o First Molar Sealant
    - Removed submenus:
      - J-N Table 6B Section J through N:
        - CAD1 All CAD patients 18+ w/Lipid Therapy
        - CAD2 All CAD patients 18+ w/o Lipid Therapy
  - LST3 Submenu Changes:
    - Revised submenus:

        - DM Diabetes Patient Lists:
            - DMR2 All DM Pts w/o A1c or >9 by Race & Hisp Identity
    - Removed submenus:
        - DM Diabetes Patient Lists:
            - DMR2 All DM Pts w/A1c >=8 & <=9 by Race & Hisp Identity
    - Included delimited option for all patient lists.

1.1.2 Table 3B

- Revised logic to include patients best served in a language other than English.

1.1.3 Table 4–Selected Patient Characteristics

- Updated poverty calculations using the HHS 2014 Poverty Guidelines.
- Updated table to include line 9a: Dually eligible (Medicare + Medicaid).

1.1.4 Table 6A– Selected Diagnoses and Services Rendered

- Updated logic to include ICD-10 codes for selected diagnosis and services rendered.

1.1.5 Table 6B–Quality of Care Indicators

- Updated logic to include ICD-10 code sets.
- Added Section N – Sealants to First Molars:
    - The number of children age 6-9 years at “elevated” risk (moderate to high risk) for caries who received a dental sealant on a permanent first molar tooth during the reporting period.

1.1.6 Table 7–Quality of Care Indicators

- Updated logic to include ICD-10 code sets
- Revised Hypertension logic to include the denominator exclusion.
- Removed Section C Column 3e: Patients with 8%<= Hb1ac <=9% (3e)

1.1.7 Taxonomy Changes

- None

2.0 Introduction

IHS RPMS UDS Reporting is intended for use by Tribal or urban health facilities receiving grant funds for primary care system development programs administered by the BPHC, HRSA. The RPMS UDS Reporting System provides passive extraction of patient and visit data from the RPMS to produce 9 of the 11 UDS reports. For each of the seven reports, RPMS UDS also produces lists of all patients and related visits that are counted in the reports.

Note: The UDS 2015 reports are due to BPHC on or before February 15, 2016 in order to assure adequate time for review and correction of data errors prior to final submission. Changes to these data will be permitted until March 31, 2016.

RPMS UDS Reporting System software will be reviewed annually and updated as needed as BPHC reporting requirements change.

2.1 About the BPHC Uniform Data System

The BPHC UDS is an integrated reporting system used by all grantees of the following primary care programs administered by the BPHC, HRSA:

- Community Health Center, as defined in Section 330(e) of the Health Centers Consolidation Act as amended
- Migrant Health Center, as defined in Section 330(g) of the Act
- Health Care for the Homeless, as defined in Section 330(h) of the Act
- Public Housing Primary Care, as defined in Section 330(i) of the Act

BPHC collects data on its programs to ensure compliance with legislative mandates and to report to Congress, the Office of Management and Budget, and other policy makers on program accomplishments. To meet these objectives, BPHC requires grantees submit a core set of information annually that is appropriate for monitoring and evaluating performance and for reporting on annual trends. The UDS is the vehicle used by BPHC to obtain this information.

UDS reports provide a comprehensive picture of all activities within the scope of BPHC-supported projects. Grantees should report on the total unduplicated number of patients and activities within the scope of projects supported by any and all BPHC primary care programs covered by the UDS.

See Quick Reference Guide for relevant excerpts from the BPHC UDS manual. Additional information can be obtained from the following Web site: http://www.bphc.hrsa.gov/uds/

2.2 RPMS UDS Reporting System Overview

The RPMS UDS Reporting System is a software tool that produces 10 of the 12 reports required annually by BPHC grantees. These reports provide an overview of patients and visits at a grantee facility, including number, age, gender, zip code of residence, and race/ethnicity of patients and number of visits by provider type and by key diagnoses and services, quality of care indicators and health outcome and disparities. The system produces the following reports:

- Patients by Zip Code
- Table 3A Patients by Age and Gender
- Table 3B Patients by Hispanic or Latino Identity/Race/Language
- Table 4 Selected Patient Characteristics
- Table 5 Staffing and Utilization (Column A)
- Table 5 Staffing and Utilization (Columns B and C)
- Table 6A Selected Diagnoses and Services Rendered
- Table 6B Quality of Care Indicators
- Table 7 Health Outcome and Disparities
- Table 9D Patient-Related Revenue

Additionally RPMS UDS will provide the following lists to assist in verifying data:

- LST1–Lists for Tables Zip Code, 3A&3B, 4, 5, and 6A
- LST2–Lists for Table 6B
- LST3–Lists for Table 7

You can run reports for individual quarters as well as for the entire calendar year.

Note: Tables 6B and 7 must be run using the Full Calendar Year option. If these reports are run using the Quarterly options, the totals combined will not match the calendar year totals.

The RPMS UDS also includes an option to save all patients that meet the BPHC definition of a patient to an RPMS search template, where it can be used to assist the user with preparing the other needed reports that are submitted to BPHC.

Note:	BPHC reporting is based on calendar year (January through December) rather than fiscal year (October through September).

See the “Report Descriptions” section in the BUD User Manual for a description of the detailed logic for each report.

3.0 Implementation and Maintenance

The RPMS UDS occupies the BUD namespace. Options, security locks and keys, templates, routines, and globals are namespaced “BUD.”

3.1 System Requirements

- Kernel 8.0 or higher
- FileMan 21 or higher
- AICD v4,0 (aicd0400.k)
- Uniform Data System V9.0 (bud_0900.k)
- Clinical Reporting System V16.0 or higher (bgp_1600.k)

3.2 Security Keys

Name	Descriptive Name	Description
BUDZMGR	BUD MANAGER UTILITIES	This key unlocks the manager utilities menu option. Give this key to the person in charge of UDS reporting.
BUDZMENU	BUD MAIN MENU–UDS	This key unlocks the main UDS menu. It should be assigned to all users who need to run UDS reports.

4.0 Routines

ROUTINE	DESCRIPTION
BUD0BAN	IHS/CMI/LAB–Banner routine for UDS package
BUD0DU	IHS/CMI/LAB–gpra utility calls

6.2 Callable Routines

There are no Published Entry points within this software application.

6.3 Published Entry Points

There are no Published Entry points within the IHS/RPMS UDS software.

6.4 Exported Options

Table 6-1 shows the exported UDS option names and descriptions. For detailed explanation of each option, see the individual User Manual for the application.

Table 6-1. Exported UDS Options

Option Name	Description
BUD 04 ALL TABLES	Multiple/ALL UDS Tables
BUD 04 LIST 5BC	All Users by Service Category (Table 5 col B&C)
BUD 04 LIST MULTIPLE	Multiple/ALL Lists
BUD 04 LIST ORPHANS	Incomplete Visits related to Table 6
BUD 04 LIST T3A/T3B	All Users w/Visits, by Age, Gender, Race (3A & 3B)
BUD 04 LIST T5A	Provider/Staff List (Table 5 col A)
BUD 04 LIST T6	All Users by Selected Primary Diagnosis (Table 6)
BUD 04 LIST TABLE 5 2	Visits w/Uncategorized Primary Prov (Table 5 B&C)
BUD 04 MANAGER UTILITIES	Manager Utilities
BUD 04 MENU	UDS 2004
BUD 04 MENU LISTS	User (Patient) and Provider Lists
BUD 04 PATIENT LISTS	User (Patient) Lists
BUD 04 REPORTS	Reports

Option Name	Description
BUD 04 SETUP LOCATIONS	Update/Review Site Parameters
BUD 04 TABLE 3A	Table 3A: Users by Age and Gender
BUD 04 TABLE 3B	Table 3B: Users by Race/Ethnicity & Linguistic Pref
BUD 04 TABLE 5	Table 5 (b&c): Staffing and Utilization (cols b&c)
BUD 04 TABLE 5A STAFF	Table 5 (a): Staffing List only (column A)
BUD 04 TABLE 6	Table 6: Selected Diagnoses and Services Rendered
BUD 04 TAXONOMY UPDATE	Update Taxonomies for Use with UDS 2004
BUD 05 ALL TABLES	Multiple/ALL UDS Tables
BUD 05 LIST 5BC	All Users by Service Category (Table 5 col B&C)
BUD 05 LIST MULTIPLE	Multiple/ALL Lists
BUD 05 LIST ORPHANS	Incomplete Visits related to Table 6
BUD 05 LIST T3A/T3B	All Users w/Visits, by Age, Gender, Race (3A & 3B)
BUD 05 LIST T5A	Provider/Staff List (Table 5 col A)
BUD 05 LIST T6	All Users by Selected Primary Diagnosis (Table 6)
BUD 05 LIST TABLE 5 2	Visits w/Uncategorized Primary Prov (Table 5 B&C)
BUD 05 MANAGER UTILITIES	Manager Utilities
BUD 05 MENU	UDS 2005
BUD 05 MENU LISTS	User (Patient) and Provider Lists
BUD 05 PATIENT LISTS	User (Patient) Lists
BUD 05 REPORTS	Reports
BUD 05 SETUP LOCATIONS	Update/Review Site Parameters
BUD 05 TABLE 3A	Table 3A: Users by Age and Gender
BUD 05 TABLE 3B	Table 3B: Users by Race/Ethnicity & Linguistic Pref
BUD 05 TABLE 5	Table 5 (b&c): Staffing and Utilization (cols b&c)
BUD 05 TABLE 5A STAFF	Table 5 (a): Staffing List only (column A)
BUD 05 TABLE 6	Table 6: Selected Diagnoses and Services Rendered
BUD 05 TAXONOMY UPDATE	Update Taxonomies for Use with UDS 2005
BUD 05 ZIP LIST	All Users w/Visits by Zip (Center/Grantee Profile)
BUD 05 ZIP TABLE	Center/Grantee Profile: User/Patient by Zip Code
BUD 06 ALL TABLES	Multiple/ALL UDS Tables
BUD 06 LIST 5BC	All Users by Service Category (Table 5 col B&C)
BUD 06 LIST MULTIPLE	Multiple/ALL Lists
BUD 06 LIST ORPHANS	Incomplete Visits related to Table 6
BUD 06 LIST T3A/T3B	All Users w/Visits, by Age, Gender, Race (3A & 3B)
BUD 06 LIST T5A	Provider/Staff List (Table 5 col A)
BUD 06 LIST T6	All Users by Selected Primary Diagnosis (Table 6)
BUD 06 LIST TABLE 5 2	Visits w/Uncategorized Primary Prov (Table 5 B&C)
BUD 06 MANAGER UTILITIES	Manager Utilities
BUD 06 MENU	UDS 2006
BUD 06 MENU LISTS	User (Patient) and Provider Lists
BUD 06 PATIENT LISTS	User (Patient) Lists

7.0 Internal Relations

All users should be given the access to the appropriate options and keys, as needed. All of the options within this system are stand-alone options.

8.0 Security Keys

Section 3.2 provides a list of security keys and their descriptions.

9.0 Archiving and Purging

There is no archiving and purging in this package.

10.0 Documentation Resources

This section describes a few methods to generate online technical documentation.

10.1 How to Generate Online Documentation

The file number range for this package is 90345–90349 and 90660–90669.

All templates, routines, screen forms, etc. begin with BUD.

This section describes some methods by which users can generate UDS technical documentation. Online technical documentation pertaining to the UDS software, in addition to that which is located in the help prompts and on the help screens throughout the UDS, can be generated through the use of several Kernel options. These include, but are not limited to, the sections that follow.

10.2 System Documentation

Online VPS system documentation can be generated through the use of several Kernel options, including, but not limited to:

- %INDEX
- Menu Management
- Inquire Option
- Print Option File
- VA FileMan
- Data Dictionary Utilities
- List File Attributes

For more option listings and further information about other utilities that supply online technical information, see the Decentralized Hospital Computer Program Kernel Reference manual.

10.2.1 %INDEX

The %INDEX option analyzes the structure of a routine to determine in part, if the routine adheres to RPMS programming standards. The output can include the following components:

- Compiled list of errors and warnings
- Routine listing
- Local variables

- Global variables
- Naked globals
- Label references
- External references

Running %INDEX for a specified set of routines allows users to discover any deviations from RPMS programming standards that exist, and to see how routines interact with one another (i.e., which routines call or are called by other routines).

To run %INDEX for the UDS, specify the BUD namespace at the “Routine(s)?>” prompt and IHS/RPMS UNIFORM DATA SYSTEM V4.0 build at the “Build” prompt.

10.2.2 Inquire Option

The Inquire menu management option provides the following information about a specified option:

- Option name
- Menu text
- Option description
- Type of option
- Lock (if any)

In addition, all items on the menu are listed for each menu option. To secure information about UDS options, you must specify the BUD namespace.

10.2.3 Print Option File

The Print Option File utility generates a listing of options from the Option file (#19). You can print all entries, a single option, or range of options. For a list of UDS options, see Section 6.3.

10.2.4 List File Attributes

This VA FileMan option allows users to generate documentation pertaining to files and file structure. The standard format of this option provides the following data dictionary information for a specified file:

- File name and description
- Identifiers
- Cross-references

- Files pointed to by the file specified
- Files that point to the file specified
- Input, print, and sort templates

In addition, the following applicable data is supplied for each field in the file:

- Field name, number, title, and description
- Global location
- Help prompt
- Cross-references
- Input transform
- Date last edited
- Notes

Using the Global Map format of this option generates an output that lists the following information:

- All cross-references for the file selected
- Global location of each field in the file
- Input, print, and sort templates

For a comprehensive listing of UDS files, see Section 5.1.

10.3 Online Help

In addition to system documentation, RPMS includes special help displays for most menu options and data entry prompts. Typing "**?**" at the "Select . . . Option" prompt displays information related to the current option, where:

Typing . . .	Displays . . .
A single question mark (**?**)	A list of all options accessible from the current option.
Two question marks (**??**)	A list of all accessible options and their formal names
Three question marks (**???**)	A brief description for each option in a menu.
A single question mark (**?**) followed by an option name (**?OPTION**)	Extended help, if available, for that option

11.0 Standards and Conventions Requirements

There are no new Standards and Conventions exemptions within this application.

Glossary

Archiving

The storage of historical or little-used data off-line (often on tape).

Banner

A line of text with a user's name and domain.

Browser

An interactive application that displays ASCII text on a terminal that supports a scroll region. The text can be in the form of a word-processing field or sequential local or global array. The user is allowed to navigate freely within the document.

Callable Entry Points

Places in a routine that can be called from an application program.

Caret (^)

A circumflex; used as a piece delimiter in a global. The caret is denoted as "^" and is typed by pressing Shift-6 on the keyboard.

Cross-Reference

An indexing method whereby files can include pre-sorted lists of entries as part of the stored database. Cross-references (x-refs) facilitate look-up and reporting.

Entry Point

A point within a routine that is referenced by a "DO" or "GOTO" command from a routine internal to a package.

File

A set of related records or entries treated as a single unit.

FileMan

The database management system for RPMS.

Global

In MUMPS, global refers to a variable stored on disk (global variable) or the array to which the global variable may belong (global array).

INDEX (%INDEX)

A Kernel utility used to verify routines and other MUMPS code associated with a package. Checking is done according to current ANSI MUMPS standards and RPMS programming standards. This tool can be invoked through an option or from direct mode (>D ^%INDEX).

Kernel

The set of MUMPS software utilities that function as an intermediary between the host operating system and application packages, such as Laboratory and Pharmacy. The Kernel provides a standard and consistent user and programmer interface between application packages and the underlying MUMPS implementation. These utilities provide the foundation for RPMS.

Menu

A list of choices for computing activity. A menu is a type of option designed to identify a series of items (other options) for presentation to the user for selection. When displayed, menu-type options are preceded by the word "Select" and followed by the word "option," as in Select Menu Management option: (the menu's select prompt).

Namespace

A unique set of 2 to 4 alpha characters that are assigned by the database administrator to a software application.

Option

An entry in the Option file. As an item on a menu, an option provides an opportunity for users to select it, thereby invoking the associated computing activity. Options may also be scheduled to run in the background, not interactively, by TaskMan.

Queuing

A request that a job be processed at a later time rather than within the current session.

Routine

A program or sequence of instructions called by a program that may have some general or frequent use. MUMPS routines are groups of program lines that are saved, loaded, and called as a single unit via a specific name.

Utility

A callable routine line tag or function. A universal routine usable by anyone.

Variable

A character or group of characters that refers to a value. MUMPS recognizes three types of variables: local variables, global variables, and special variables. Local variables exist in a partition of the main memory and disappear at sign-off. A global variable is stored on disk, potentially available to any user. Global variables usually exist as parts of global arrays.

Acronym List

Acronym	Term Meaning
BPHC	Bureau of Primary Health Care
HHS	Department of Health and Human Services
HRSA	Health Resources and Services Administration
ICD	International Classification of Diseases.
IHS	Indian Health Service
ROB	Rules of Behavior
RPMS	Resource and Patient Management System
UDS	Uniform Data System
