SEC. 2. The amount of such financial assistance shall not exceed that portion of the reasonable cost of the construction project which is attributable to the Indian health needs, as determined by the Surgeon General: *Provided*, That in determining, for the purposes of this Act, the portion of the cost of the construction project attributable to Indian health needs, the Surgeon General shall take into account only those categories of Indians for which hospital and medical care, including outpatient care and field health services, is being provided by or at the expense of the Public Health Service on the date of enactment of this Act.

SEC. 5. Neither assistance provided under this Act for meeting part of the cost of construction of a hospital project, nor the giving of any assurance required as a condition of such assistance, shall be construed as affecting in any way the eligibility of such project for aid under title VI of the Public Health Service Act or any other Federal Act authorizing financial aid in the construction of such project, but construction costs met with Federal funds made available under this Act shall not be included in the cost of construction in which the Federal Government shares under such title VI or other Federal Act.
