A collaborative approach to improving patient care and GPRA performance.

2008 Best Practices Series

Cancer Prevention & Treatment I

File # 5092

CALIFORNIA AREA INDIAN HEALTH SERVICE

Tobacco Cessation-Lung Cancer Prevention

Objectives: As a result of having attended this activity, participants will be able to:

1. Define the current GPRA measures for Tobacco Cessation Intervention.
2. Describe one successful strategy to increase the number of patients who have had Tobacco Cessation Intervention.
3. Become familiar with steps for CRS data entry and tools.

To obtain a certificate of continuing education, you must officially register for this session and submit a completed evaluation form.

ACCREDITATION:

The Indian Health Service (IHS) Clinical Support Center is accredited by the Accreditation Council for Continuing Medical Education to sponsor continuing medical education for physicians.

The IHS Clinical Support Center designates this continuing education for up to 1 hour of Category 1 credit toward the Physician's Recognition Award of the American Medical Association. Each physician should claim only those hours of credit he or she actually spent in the educational activity.

This Category 1 credit is accepted by the American Academy of Physicians Assistants and the American College of Nurse Midwives.

The Indian Health Service Clinical Support Center is accredited as a provider of continuing education by the American Nurses Credentialing Center's Commission on Accreditation.

Faculty Disclosure Statement:

Dr. Sprenger, Dr. Cobb and Ms. Klepacki have completed the disclosure process and have declared that they have no significant financial relationships with any product or commercial manufacture that would constitute a conflict of interest.

A collaborative approach to improving patient care and GPRA performance.
