PCPVs by Community of Residence by County to the Eufaula Indian Health Center

D. Topography and Climate

The topography of the service area is part of the Hardwood Forest and the Caves and Prairies in the extreme northeast. The major rivers that drain the area are the North and South Canadian Rivers.

Climatically the area is very changeable. Winds from the south to southwest are quite dominant. The average annual temperature is 17.2 degrees Celsius. Temperatures do range from 34.4 degrees Celsius in the Summer, to -1.1 degrees Celsius in the winter. The average annual precipitation is 1143 mm per year.

Located in Tornado Alley, tornadoes are not uncommon especially during spring and early summer months. Typically, there are about 4 events each year of hail exceeding one inch in diameter.

E. Housing and Public Facilities

The County of McIntosh's total population is 19,456 people. The Indian population is 2,639 people. Housing is reasonably abundant in the area. Most Indians within the Eufaula Service Area live in single family homes either owned by the family or rented.

Eufaula has a post office, numerous grocery stores, convenience stores, cafes and other public facilities such as public parks and is located next to Lake Eufaula, the largest lake in the state of Oklahoma.

Oklahoma is located in the so-called Bible belt of the United State and nearly every community has an abundance of churches and other places of worship.

Tulsa, with a total population of 393,049, is 134 kilometers from Eufaula. Tulsa has commercial airports.

F. Utilities

Natural gas for the area is generally supplied by Oklahoma Natural Gas Company. Rural areas use bottled gas (propane).

Electricity is supplied by the Oklahoma Gas and Electric and the public Service Company of Oklahoma. This source of electrical service is coupled with rural electrical co-ops. Both sources provide electricity to the majority of homes in the area.

Telephone Services are widespread and are supplied by the Valor Telephone Company in much of the Eufaula service area; Southwestern Bell Telephone Company services Eufaula and Stidham, while Santa Rose Telephone Company services Vernon.

Television is widespread and with the rapid spread of cable and satellite systems, almost every small town has access to cable or satellite television. Otherwise, reception is limited to Tulsa stations and public television.

G. Education

Public Schools are located in every small city or town in the Service Area for grades 1-12.

Indian Capital Technology Center is located in Muskogee, has a Practical Nursing and Radiologic Technology program.

H. Economy

Retail trade and Health Care and Social Assistance are two major employers in the Service Area. Other employment is provided by manufacturing and government and government enterprises.

Many Indians are employed in local services and trades, or in the governmental services. However, the majority derive their incomes through seasonal or part-time employment at relatively low paying jobs.

I. Social and Political

The Muscogee (Creek) are the predominant tribe in the area. The Creek are of the Muskogean language family.

The Muscogee (Creek) people are descendants of a culture that, before 1500 AD spanned the region known today as the Southeastern United States. Early ancestors of the Muscogee constructed magnificent earthen pyramids along the rivers of this region as part of their elaborate ceremonial complexes. The historic Muscogee later built expansive towns within these same broad river alleys in the present states of Alabama, Georgia, Florida and South Carolina.

The Creek participate in stomp dances. Men and women share traditional communal duties. Fasting and stickball play are important element of the ceremonials. Ceremonial fires burn atop ceremonial ashes carried from the homeland during the removal.

In 1832, the Muscogee leadership exchanged lands in the southeastern United States for new lands in Indian Territory, what is now Oklahoma. In 1836-37, the remaining Muscogee Creeks were moved to Indian Territory. In 1867, the Muscogee people adopted a written constitution that provided for a Principal Chief and a Second Chief, and a judicial branch and a bicameral legislature composed of a House of Kings and a House of Warriors.

In 1971, the Muscogee people, freely elected a Principal Chief. In the decade of the 1970s the leadership of the Muscogee (Creek) Nation drafted and adopted a new constitution, and revitalized the National Council. The present-day tribal headquarters are located in Okmulgee, Oklahoma, where the Mound Building houses the National Council Offices and Judicial Offices.
