## IMPORTANT CHANGES IN THE 14TH EDITION

**CHEMICAL DEPENDENCY CHANGE:** Reminder: The mnemonic CD for Chemical Dependency has been changed to AOD - Alcohol and Other Drugs. Questions/concerns about this change should be addressed to [Gabriel.longhi@ihs.gov](mailto:Gabriel.longhi@ihs.gov), OIT BH representative.

**CULTURAL/SPIRITUAL ASPECTS OF HEALTH (CUL):** CUL is to be used to document education/counseling that reflects an integration of the impact and influences that cultural and spiritual traditions, practices, and beliefs have on health and wellness.

**MEDICAL NUTRITION THERAPY (MNT):** Only Registered Dietitians are permitted to use the MNT code. Questions concerning the MNT protocols and codes should be directed to [Cecelia.butler@ihs.gov](mailto:Cecelia.butler@ihs.gov)

**WELLNESS CHANGED TO HPDP:** The mnemonic WL has been changed to HPDP - Health Promotion, Disease Prevention. Questions concerning HPDP protocols and codes should be directed to [Freda.carpitcher@ihs.gov](mailto:Freda.carpitcher@ihs.gov).

**GRIEF:** In addition to Grief with losses other than "end of life" GRIEF was added to address the education provided to patients who are grieving because of other losses. These losses may include a home, a spouse through divorce, a job, or even a favorite pet. The standards are general so they can be adapted to a wide variety of situations.

**LITERATURE (L):** The title for literature given to the patient was previously Patient Education Literature. It has been changed to Literature.

**CASE MANAGEMENT (CM):** The title previously associated with the mnemonic CM was Care Management has been changed throughout the Manual to **Case Management**.

**RHEUMATIC DISEASE CHANGED TO RHEUMATIC ARTHRITIS:** The PEP-C previously contained a topic and mnemonic called Rheumatic Disease (RD). This will be inactivated and the new topic/mnemonic is RA – Rheumatic Arthritis. We have plans to develop protocols for Osteoarthritis and Juvenile Rheumatoid Arthritis. Most other "Rheumatic Diseases" can be covered with the mnemonic ATO- Autoimmune Disorders.

**HEART FAILURE CHANGE:** The PEP-C previously contained a topic and mnemonic called Congestive Health Failure (CHF). This will be inactivated and the topic/mnemonic is HF—Heart Failure. A Discharge A Discharge Literature code (HF-DCHL) was added to address the CMS requirement of discharge literature.

**SUICIDAL BEHAVIOR (SB) CHANGE:** was changed to SI - Suicidal Ideation/Gestures

**CELIAC DISEASE:** Celiac Disease (CEL) is a new code.

**DEPRESSION (DEP):** changed from Depression, Major to Depressive disorder

## How to Document Education

Use the Patient Education Protocols when providing education; the education should then be documented using the codes found in this booklet. Correct documentation requires the completion of 8 elements: (\*denotes required documentation)

1. Education Assessment (a JCAHO Requirement)
  2. \*Disease state, Illness, or Condition
  3. \*Education Topic Discussed
  4. \*Level of Understanding
  5. \*Time (spent providing the education)
  6. \*Provider Initials
  7. Behavior Goal: Goal Not Set, Goal Set, Goal Met, Goal Not Met
  8. Comments
- 
1. AOD-RCPT (Readiness to Learn—Receptive)
  2. AOD = Alcohol & Other Drugs
  3. SM = Stress Management
  4. G = Good Understanding
  5. 10 (Minutes) = Time
  6. XYZ = Provider Initials
  7. GS: Pt. to practice Relaxation Techniques (Behavior Goal)
  8. Comments: Pt. admits stress results in binge drinking

### Patient Education String:

AOD-SM-G-10-XYZ-GS: Pt to practice Relaxation Techniques

## Time

Providers should estimate the amount of Time spent providing the patient education and document that Time using whole numbers.

## Clinical Reporting System (CRS)

Patient Education is tracked in RPMS via the Clinical Reporting System by 1) Disease state, illness or condition, 2) Education Topic discussed, 3) Level of Understanding, 4) Provider, 5) Time, and, 6) Behavior Goal.

## 2008 Behavioral Health Codes
