1.0 Introduction

Review these changes and add a copy of them to any printed documentation your site is using for CHS v3.1. These changes will be integrated into future versions of the software and user manuals. These changes will no longer be considered an addendum at the time of the next version release.

1.1 Summary of Changes

Patch 23 includes these changes:

1.1.1 ICD-10 Implementation

- All ICD Prompts have been changed to accept ICD9 and ICD10 codes
- All reports have been changed to use both ICD9 and ICD10 codes
- Changes to FI EOBR record layout
- Change to NPIRS record layout
- Update to area processing
- New parameter added for ICD-10 Implementation Date (FI and Stat Records)

1.1.2 Bug Fixes

- Issues with paying documents manually and through the EOBR option. Corrections made for the E21 issue and users having to log in and out after paying and cancelling documents.
- New feature allows users to reprocess EOBR files through the menu option.
- Allow multiple PO documents for one referral
- Updates to PO referral link for Tribal sites
- Allow selection of approved referral from the Denial option.

2.0 Patch 23 Changes

2.1 New ICD-10 Parameters

In the CHS Site Parameters, two new parameters have been added and will be used to determine when ICD-10 codes will be used.

The ICD10 FI IMPLEMENTATION DATE and the ICD10 STAT REC IMPLEMENTATION fields identify the date when FI or Statistical data transmission will begin including ICD-10 codes. The default date from install is October 1, 2015 and should not be changed without direction from the RPMS Site Administrator.

2.4 EOBR Reprocessing

A new feature is available to allow the reprocessing of EOBR files that may not have posted correctly or need to be processed out of order.

1. Go to the Facility EOBR menu option and select the **EOBR (Process Facility EOBR Data)** option.
2. At the “Enter the Number of the Facility EOBR File you want to Process:” prompt, select the previously processed file number and press **ENTER**.
3. A warning will display to confirm the correct file number and that it will be processed out of sequence. To continue, type **YES**.

Files Available for Processing are Listed Below: Last Fac Seq # Processed = 2355

Number	File Name	EOBR Proc Date	Fac Seq #
1	EB000011.685	Jan 02, 2015	2355
2	EB000011.682	Dec 29, 2014	2354
