## 1.0 Introduction

The Behavioral Health System is a module of the Resource and Patient Management System (RPMS) designed specifically for recording and tracking patient care related to behavioral health. The new Behavioral Health System (AMH) version 4.0 includes functionality available in the previous versions of the RPMS behavioral health software plus multiple new features and an enhanced graphical user interface.

Many behavioral health providers co-located in a primary care setting at facilities that have deployed the RPMS Electronic Health Record (EHR) have transitioned to the EHR to document their services and support integrated care. However, a large number of behavioral health clinicians are located at facilities that do not use the EHR. For these providers, AMH v4.0 can be utilized as a “standalone” yet integrated module within the RPMS suite of clinical and practice management software.

Behavioral Health System v4.0 offers opportunities for improved patient outcome and continuity of care:

- Opportunities for improved continuity of care and health outcomes
- Standardized documentation
- Tools to meet regulatory and accreditation standards and reporting requirements
- Revenue enhancement
- Report generation for care management, program management, and clinical data to inform prevention activities and support local and national initiatives

While this package is integrated with other modules of RPMS, including the Patient Care Component (PCC), the package uses security keys and site-specific parameters to maintain the confidentiality of patient data. The package is one major module:

- **Behavioral Health Data Entry Menu:** Use the Behavioral Health Data Entry menu for all aspects of recording data items related to patient care, case management, treatment planning, and follow-up.

### 1.1 Primary Menu

The primary menu option for this package is IHS Behavioral Health System (AMHMENU).

```
*****
**          IHS Behavioral Health System          **
*****
                          Version 4.0 (Patch 8)
```

Figure 1-1: Options on the IHS Behavioral Health System menu

## 1.2 Preparations

The Behavioral Health Program Manager should meet with the Site Manager to set site-specific parameters related to visit sharing and the extent of data transfer to PCC.

In order for data to pass to PCC, the site manager will add Behavioral Health to the PCC Master Control file. In addition, each user of this package must have a FileMan access code of M.

The Site Manager will need to add a AMH mail group using the Mail Group Edit Option. Add this mail group to the AMH Bulletins using the Bulletin Edit Option. Members of this mail group will automatically receive bulletins alerting them of any visits that failed to pass to PCC.

## 1.3 Security Keys

Security keys should only be assigned to personnel with privileged access to confidential behavioral health data. Program Managers should meet with the Site Manager when assigning these keys.

Figure 1-2: Security keys

Key	Permits Access To
AMHZMENU	Top-Level menu (AMHMENU)
AMHZMGR	Supervisory-Level/Manager options
AMHZ DATA ENTRY	Data Entry module
AMHZ RESET TRANS LOG	Reset the Export log
AMHZDECT	Data Entry Forms Count Menu option
AMHZHS	BHS Health Summary Component
AMHZRPT	Reports Module
AMHZ DV REPORTS	Screening Reports
AMHZ SUICIDE FORM ENTRY	Suicide Form Data Entry Menu
AMHZ SUICIDE FORM REPORTS	Suicide Form Reports Menu
AMHZ DELETE RECORD	Delete unsigned records
AMHZ DELETE SIGNED NOTE	Delete records containing signed notes
AMHZ UPDATE USER/LOCATIONS	Update the locations the user is permitted to access

<b>Key</b>	<b>Permits Access To</b>
AMHZ CODING REVIEW	Review records to ensure accurate coding

## 2.0 Orientation

The following provides information about using the Roll and Scroll RPMS Behavioral Health System and the RPMS Behavioral Health System Graphical User Interface (GUI).

### 2.1 Standard Conventions (Roll and Scroll)

#### 2.1.1 Caps Lock

Always work with the Caps Lock on.

#### 2.1.2 Default Entries

Any time a possible answer is followed by double slashes (//), press Enter key to default to the entry displayed. If you do not want to use the default response, type your new response after the double slashes (//).

```
Do you want to display the health summary? N// (No Health Summary will be displayed.)
```

Figure 2-1: Default entry screen, which shows accepting the default entry

#### 2.1.3 Help

Online help can be obtained at any data entry field by typing one, two, or three question marks (?, ??, ???). If available, a narrative description of the expected entry or a list of choices will appear.

#### 2.1.4 To Back Out

Pressing the number 6 while holding down the shift key will generate the caret (^) symbol. This symbol terminates the current action and backs you out one level.

#### 2.1.5 Exit

Type **HALT** at a menu option prompt to exit from RPMS at any time.

Type **RESTART** at a menu option prompt to bring you out to the “Access Code:” prompt.

Type **CONTINUE** at a menu option prompt to exit from RPMS and to return to the same menu you were using when you next sign on to RPMS.

## 2.1.6 Same Entries

For certain types of data fields, primarily those that use lists of possible entries (such as facilities, diagnoses, communities, patients, etc.), press the spacebar key and then Enter to repeat the last entry you used at the prompt.

## 2.1.7 Lookup

Be careful of misspellings. If unsure of the spelling of a name or an entry, type only the first few letters. RPMS will display all choices that match those beginning letters.

Example:

```

PATIENT NAME: WARM
1   WARMAN, BARRY           M 05-05-1989 054270542 PIMC 101623
                                SE 101624
2   WARMAN, CHRIS  Y       F 06-16-1954 001290012 PIMC 100039
                                HID 100040
                                SE 100041

```

Figure 2-2: Patient lookup screen

## 2.1.8 Pause Indicator

The <> symbol is usually displayed when a multiple page report reaches the bottom of a display screen and there are additional pages in the report. Press Enter to see the next page or type a caret (^) to exit the report.

## 2.1.9 Dates and Times

You can enter dates and times in a number of formats. If the system prompts for a date alone, the acceptable formats are as follows:

- T (today)
- 3/28
- 0328
- 3-28
- 3.28
- T-1 (yesterday)
- T-30 (a month ago)
- T+7 (a week from today)

**Note:** If you do not enter the year, the system defaults to the current year.

If the system prompts for time, anything between 6 AM and 6 PM will be recorded correctly by entering a number or military time. Between 6 PM and 6 AM, use military time or append the number with an A or P.

Example:

- 130 (1:30 PM)
- 130A (1:30 AM)

If the system prompts for both date and time, the acceptable formats are as follows:

Example:

- T@1 (Today at 1 PM)
- 4/3@830

### 2.1.10 Stop

To stop a report while it is in processing mode or if you need an *emergency out*, press Ctrl-C to immediately exit from the program.

### 2.1.11 Delete

Typing the at sign (@) in a field containing data will delete the existing data in that field.

## 2.2 ListMan (Roll and Scroll)

The AMH Reporting program uses a screen display called ListMan for review and entry of data. The system displays data in a window-like screen. Menu options for editing, displaying, or reviewing the data are displayed in the bottom portion of the window.

Even though you might be using a personal computer as a RPMS terminal, you cannot use the mouse for pointing and clicking to select a menu option.

You can view additional menu options for displaying, printing, or reviewing the data by typing two question marks (??) at the “Select Option” prompt. Entering the symbol or letter mnemonic for an action at the “Select Action” prompt will result in the indicated action.

In the following example, two question marks (??) were keyed at the “Select Action” prompt to see the list of secondary options available.

Update BH Forms	Mar 29, 2001 11:50:37	Page: 1 of 1
Date of Encounter:	Tuesday MAR 27, 2001	
-----		
#	PRV	PATIENT NAME
	HRN	AT ACT PROB NARRATIVE

DS  Display Record       SD  Switch Dates

Select Action: AV/??

The following actions are also available:
+  Next Screen           FS  First Screen      SL  Search List
-  Previous Screen      LS  Last Screen      ADPL Auto Display(On/Off)
UP  Up a Line           GO  Go to Page       QU  Quit
DN  Down a Line         RD  Re Display Screen
>  Shift View to Right  PS  Print Screen
<  Shift View to Left  PL  Print List

```

Figure 2-3: ListMan secondary options screen

At the “Select Action” prompt, you can do the following:

- Type a plus sign (+) in a display that fills more than one page to see the next full screen (when you are not on the last screen).
- Type a hyphen (-) to display the previous screen (when you are not on the first screen). This command will only work if you have already reviewed several screens in the display.
- Press the up arrow key to move the screen display back one line at a time.
- Press the down arrow key to move the screen display forward one line at a time.
- Press the right arrow key to move the screen display to the right.
- Press the left arrow key to move the screen display to the left.
- Type **FS** in a multi-page display to return to the first screen of the display.
- Type **LS** in a multi-page display to go to the last screen in the display.
- Type **GO** and the page number of a multi-screen display to go directly to that screen.
- Type **RD** to redisplay the screen.
- Type **PS** to print the current screen.
- Type **PL** to print an entire single or multi-screen display (called a list).

- Type **SL** to be prompted for a word that you wish to search for in the list. Press Enter after your word selection to move to the first occurrence of the word. For example, if you were many pages into a patient's Face Sheet and wanted to know the patient's age, you could type **SL**, then type age, and press Enter to move to the age field.
- Type **ADPL** to either display or not display the list of menu options in the window at the bottom of the screen.
- Type **QU** to close the screen and return to the menu.

## 2.3 ScreenMan (Roll and Scroll)

### 2.3.1 Using the ScreenMan Window

When using ScreenMan for entering data, press Enter to accept defaulted data values or after you enter a data value into a field. The tab or arrow keys can be used for moving between fields or for bypassing data fields for which you do not want to enter a value. The system automatically fills in much of the demographic information when you enter patient, program, and course of action fields during the preliminary data entry process. In addition, if program defaults have been set, the system displays that information on the screen.

```

* BEHAVIORAL HEALTH VISIT UPDATE *      [press <F1>E when visit entry is complete]
Encounter Date: OCT 1,2009                User: THETA,SHIRLEY
Patient Name:  ALPHAA,CHELSEA MARIE      DOB: 2/7/75      HR#: 116431
-----
Display/Edit Visit Information  Y          Any Secondary Providers?: N

Chief Complaint/Presenting Problem:

COMMAND:                                     Press <PF1>H for help      Insert

```

Figure 2-4: Using ScreenMan sample screen one

If you make a change or new entry on the form, press Enter to record the change. A confirmation dialog might appear for further information. If necessary, a pop-up window might appear for further entry of information. For example, in the above example, typing **Y** at the “Any Secondary Providers” prompt indicates that there was a secondary provider; but you must press Enter after typing **Y** to open the dialog and record the secondary provider information.

Type **E** and press Enter to close the screen, after all the required data has been entered. Type **Y** to save any changes.

### 2.3.2 Using the Pop-up Window

Press Enter to move between fields, when inputting data in a screen. Press Tab to move to the “Command” prompt (Close option by default). Press Enter to close the screen and return to the original data entry screen.

```

+-----+

```

Figure 2-6: Using ScreenMan, sample screen three

## 2.4 Full Screen Text Editor (Roll and Scroll)

While many of the data entry items in the Behavioral Health system are coded entries or items selected from a table, there can be extensive text entry associated with clinical documentation, treatment plans, intake documents, etc. RPMS has two text editors, a line editor, and a full screen editor. Most users find it more convenient to use the Full Screen Text Editor.

In many ways, the Full Screen Text Editor works just like a traditional word processor. The lines wrap automatically; the up, down, right, and left arrow keys move the cursor around the screen, and a combination of upper- and lower-case letters can be used. On the other hand, some of the conventions of a traditional word processing program do not apply to the RPMS full screen editor. For example, the Delete key does not work. Delete text by moving one space to the right of the error and backspacing to remove the erroneous entry.

When entering a lengthy narrative, you have the option of typing the narrative in a traditional word processing application like Word or Word Perfect and then pasting the text into the open RPMS window.

Table 2-1 lists the most commonly used RPMS text editor commands.

Table 2-1: RPMS text editor commands

Action Needed	Use These Keys
Delete a line (extra blank or text)	PF1(F1) followed by D
Join two lines (broken or too short)	PF1(F1) followed by J
Save without exiting	PF1(F1) followed by S
Exit and save	PF1(F1) followed by E
Quit without saving	PF1(F1) followed by Q
Top of text	PF1(F1) followed by T

Figure 2-7 shows a sample Text Edit screen.

```

==[ WRAP ]==[ INSERT ]=====< S/O/A/P >===== [ <PF1>H=Help ]====
This is a demonstration of how to type and use the full screen editor.
When all relevant information has been entered, press [F1]E

<====T=====T=====T=====T=====T=====T=====T=====T=====T=====T>====T
Bottom of text                                PF1(F1) followed by B

```

Figure 2-7: Using Text Editor, sample screen 1

Press **F1** and type **H** to display all available commands for the RPMS Full Screen Editor. Type a caret (^) to exit the **Help** screens.

```

* BEHAVIORAL HEALTH VISIT UPDATE *      [press <F1>E when visit entry is complete]
Encounter Date: OCT 1,2009              User: THETA,SHIRLEY

```

```

Patient Name:  ALPHAA,CHELSEA MARIE   DOB: 2/7/75   HR#: 116431
-----
Display/Edit Visit Information  Y           Any Secondary Providers?: N

Chief Complaint/Presenting Problem:
SOAP/Progress Note <press enter>:  Comment/Next Appointment <press enter>:
PURPOSE OF VISIT (POVS) <enter>:  Any CPT Codes to enter?  Y

Activity:      Activity Time:          # Served: 1      Interpreter?

-----
COMMAND:                                     Press <PF1>H for help   Insert

```

Figure 2-8: Using Text Editor, sample screen 2

- If the cursor is at the “COMMAND” prompt, type **E** and **S** to save and exit the data entry screen.
- If the cursor is not at the “COMMAND” prompt, press the **F1** key and type **E**. These commands will also save the data and exit the data entry screen.

## 2.5 Word Processing Editors (Roll and Scroll)

If you see what is displayed in Figure 2-9 when entering a word processing field, then your default editor has been set to the RPMS line editor.

```
1>
```

Figure 2-9: RPMS line editor default

You can change to the full screen editor, as follows:

1. At any menu prompt, type **TBOX**. ToolBox is a secondary menu option that all users can access but do not normally see on their screen.

```

DE      Behavioral Health Data Entry Menu ...
RPTS    Reports Menu ...
MUTL    Manager Utilities ...

```

Figure 2-11: Change the Text Editor, steps 1-4

**Note:** Section 2.4 provides more information on using the Full Screen Text Editor.

## 2.6 Pop-up Windows (GUI)

The application displays pop-up windows that have the same functional controls on them. Generally, these are Crystal Report windows.

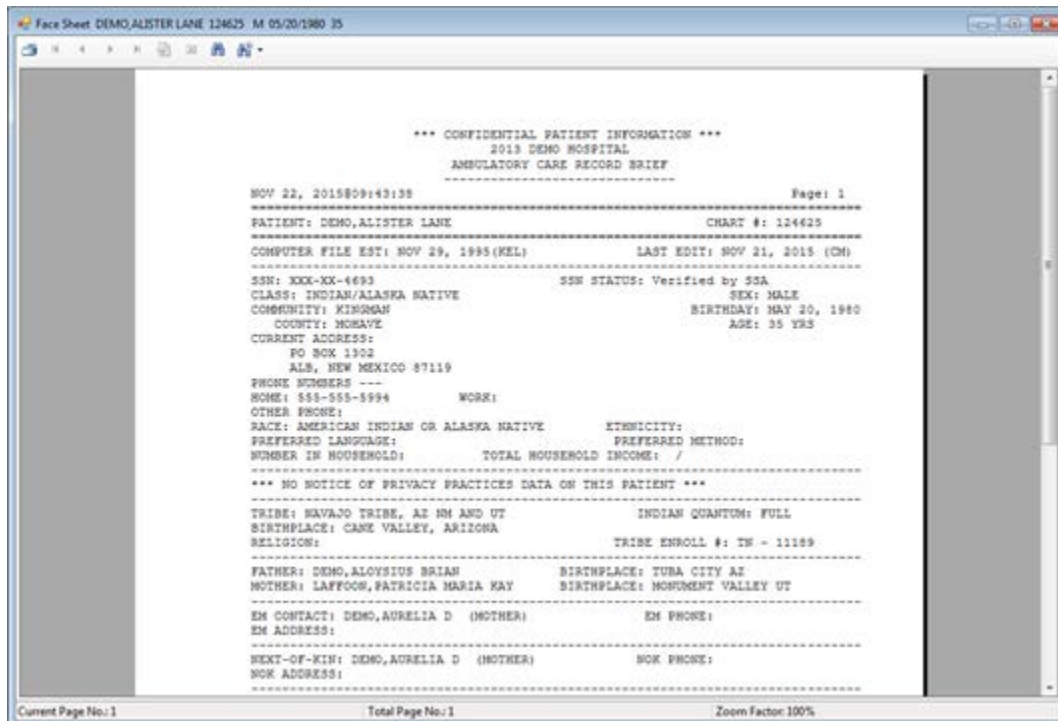

Figure 2-12: Sample pop-up window

Scroll through the text on the current page by doing one of the following:

- Use the scroll bar.
- Double-click on any line of text. Then use the up and down arrows keys to scroll.

The information on the last line of the pop-up window displays the Current Page (being displayed), the total number of pages, and the zoom factor (of the text of the pop-up).

Figure 2-13: Sample last line on the pop-up window

The pop-up window only displays the first page (when you first access the window). If there is more than one page, use the **Next Page** and **Last Page** buttons to move to that page. Otherwise, specify the page number to move to. Section 2.6.2 provides more information on buttons on the toolbar.

## 2.6.1 Buttons on Title Bar

The **Minimize**, **Maximize**, and **Exit Program** buttons on the upper right function just as the Windows equivalents.

## 2.6.2 Buttons on the Toolbar

The following describes the functions of the various buttons on the toolbar.

**Note:** The **Close Current View** (☒) button does not function.

### Print Report Button

Use the **Print Report** button to output the text on the pop-up window.

1. Click the **Print Report** (🖨️) button
2. The **Print** dialog displays.

Figure 2-14: **Print** dialog

This is the same **Print** dialog as the Windows equivalent. Select the printer, number of copies, page range, and other properties used to output the contents of the pop-up.

### Move to Page Buttons

The **Move To Page** (⏪ ⏩) buttons provides the means to go to adjacent pages in the text of the pop-up.

From left to right, the buttons do the following: Go to the first page; go to the previous page; go to the next page; go to the last page.

## Go to Page

Click the **Go to Page** button (  ) to specify a page to move to.

After clicking the **Go to Page** button, the application displays the **Go to Page** dialog.

Figure 2-15: **Go to Page** dialog

- a. Type the page number to go to in the Free Text field.
- b. Click **OK** to display the particular page of the pop-up (otherwise, click **Cancel**).
- c. If you specify a page outside the range of pages in the pop-up, the application will display a blank page.

## Find Text

Click the **Find Text** (  ) button to access the **Find Text** dialog.

Figure 2-16: **Find Text** dialog

- d. In the field, type the text to search for in the pop-up window.
- e. Click **Find What** to search for the text screen. (Otherwise, click **Cancel**.)
- f. The **Find Next** function causes the application to search the text of the pop-up for the text string and to highlight the line of text containing the first occurrence of the text string.
- g. Keep clicking **Find Next** to search for the next occurrence of the text string.
- h. When there are no other occurrences, the system displays the **Crystal Report Windows Forms Viewer** information message that states that the application has finished searching the document. Click **OK** to close the information message. The focus returns to the **Find Text** dialog.

### Zoom Button

Use the **Zoom** button to change the size of the text.

1. Click the **Zoom** (  ) button.
2. Select a new size from the list.

**Note:** This action changes the size of the text of the pop-up (for easier reading, for example). This setting does not affect the output of the pop-up.

## 2.7 Using the Calendar (GUI)

Date and time fields exist throughout the GUI (Figure 2-17).

Figure 2-17: Sample Date and Time field

There are multiple ways to set a date and time in the field:

- Type **M** in the day item to set the day to Monday; type **09** in the month item to change the month to September.
- Place the cursor in an item (day of week, month, etc.) and press the up or down arrow keys to step through the available options.

Otherwise, follow these steps:

1. Click the date field list to display the calendar. The calendar always indicates the current date.

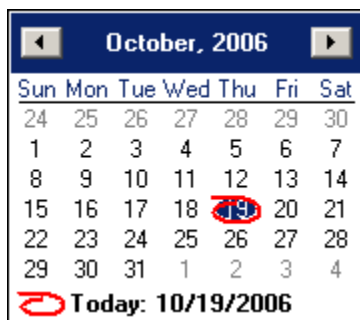

Figure 2-18: Sample Calendar for Date Field

2. Change to another date by clicking on it. The selected date will display in the **Date** field.
3. Press the left or right arrow key to move from month-and-day to the next month-and-day.

4. To change the year, click the year label and click the up and down button to step through the years.

Figure 2-19: Change Year

5. To display the previous or next month's calendar, click the left or right arrow buttons.
6. To display a specific month, click the month label, and select from the list displayed.

Figure 2-20: List of months to select

7. Right-click the month label to select **Go to Today** and return to today's date.
8. Press the up or down key to step through the calendar week by week.
9. Press the left or right arrow key to step through the calendar day by day.

## 2.8 Using the Search Window (GUI)

Several fields in the application have a list that accesses a search window. For example, the **Community** field would access the **Community** search window.

Figure 2-21: **Community** search window

This type of window has similar functionality for other fields.

Click **Close** to dismiss the window and you return to the previous window.

1. At the **Search String** field, type a few characters of the search criteria.
2. Click **Search** to display the retrieved records in the **Community** list box.
3. Select a record and click **OK** to populate the appropriate field on the open form. (Otherwise, click **Close**.)
4. Another way to populate the field is to select a record in the **Most Recently Selected** list box and click **OK**.

## 2.9 Using the Search/Select Window (GUI)

Several fields in the application have a list that accesses a search/select window.

For example, the **Add** button on the **POV** tab of the **Visit Data Entry** screen displays the dialog in Figure 2-22.

Figure 2-22: Sample Search/Select window

The following describes how to use this window. Other search/select windows work in a similar manner (for example **Secondary Provider**).

Click the **Close** button to dismiss the window and return to the previous window.

1. At the **Search String** field, type a few characters of the search criteria.
2. Click **Search** and the retrieved records display in the **POV** list box.
3. To add one or more records from the **POV** group box to the **Selected Items** list box, click the right arrow button.
4. To add one or more records from the **Most Recently Selected** list box to the **Selected Items** list box, click the right arrow button.
5. Similarly, remove one or more selected records from the **Selected Items** list box by clicking the left arrow button.
6. When the **Selected Item** list box is complete, click **OK**. (Otherwise, click **Close**.)

## 2.10 Using the Multiple Select Window (GUI)

Several fields in the application have a list that accesses a multiple-select window. For example, the **AXIS IV** select window, as shown below.

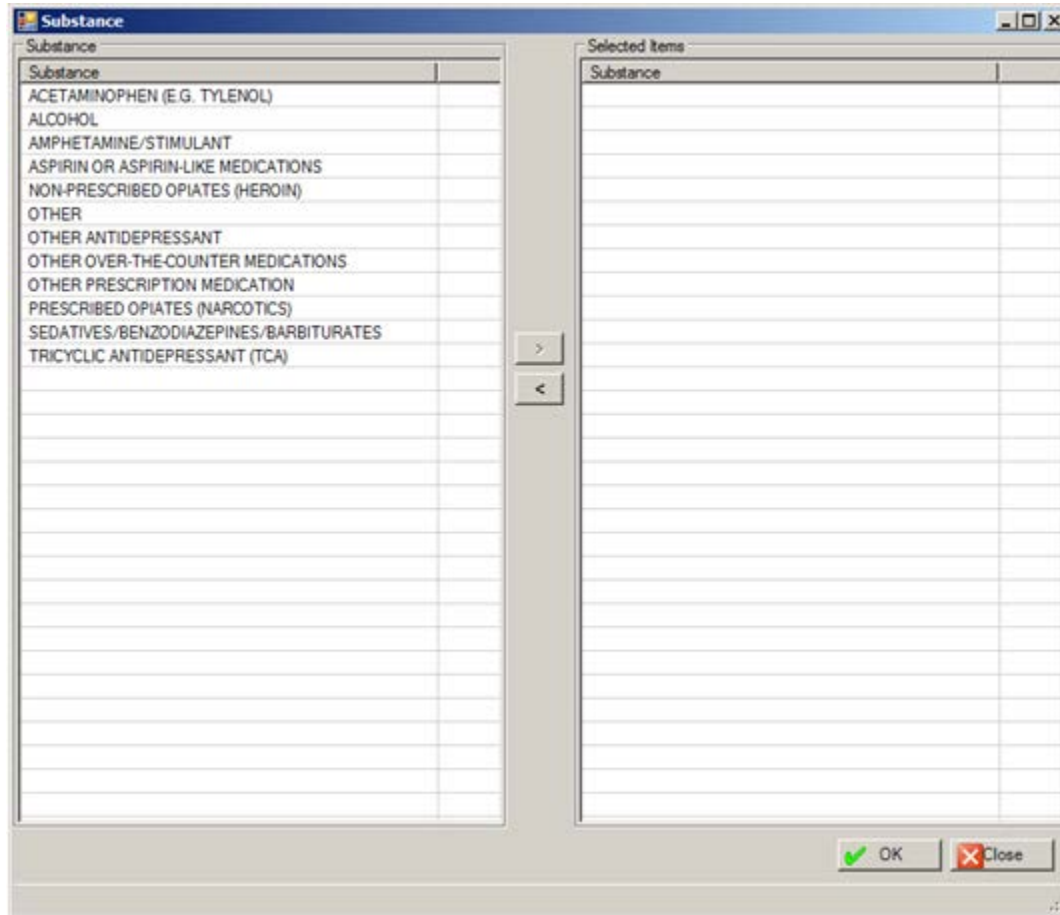

Figure 2-23: Sample AXIS IV multiple-select window

Click the **Close** button to dismiss the window.

1. To add one or more selected items in the **Substance** list box to the **Selected Items Substance** list box, click the right arrow. Select more than one code by holding down the Ctrl key and selecting the next code.
2. To move one or more selected records from the **Selected Items Substance** list box to the **Substance** list box, click the left arrow.
3. When the **Selected Item** list box is complete, click **OK**.

## 2.11 Free Text Fields (GUI)

Free Text fields are fields that users can type information into; these fields do not have a list from which to select an option to populate it.

An example of the Free Text field is the **Axis III** field on **POV** tab of the **Visit Data Entry** dialog.

There is a context menu to aid in editing the text (Figure 2-24).

Figure 2-24: Context menu to aid in editing text

These options operate just like those in any Windows application. The meanings of the actions are as follows:

- **Undo** removes the last edit action.
- **Cut** removes the selected text from its current position and places it on the clipboard.
- **Copy** copies the selected text and places it on the clipboard (the text is NOT removed).
- **Paste** copies the contents of the clipboard and places it in the field at the current cursor position.
- **Delete** removes the selected text from its current position.
- **Select All** highlights all of the text in the current field.

**Note:** For long Free Text fields, users can type the contents of the field in a word processing application to check spelling and view the entire text string. Then, copy the text string from the word processing application and paste it in the Free Text field.

## 2.12 Selecting a Patient

The following provides information about selecting a patient in Roll and Scroll as well as the RPMS Behavioral Health System (GUI).

### 2.12.1 Patient Selection (Roll and Scroll)

The application displays the “Select Patient” prompt.

- Type a few characters (at least three) of the patient’s last name, Social Security Number (SSN), Health Record Number (HRN), or date of birth (use format MM/DD/YYYY).
- The application will accept either form of the patient’s name in the search criteria: LASTNAME,FIRSTNAME or LASTNAME, FIRSTNAME (space after the comma).

### 2.12.2 Patient Selection (GUI)

Select a patient in the following circumstances:

- When no patient has been selected and you select the “One Patient” option (such as under Visit Encounters)
- When you want to change patients. Change patients by selecting **Patient | Select** or by right-clicking on the menu tree.

In either case, the application displays the **Select Patient** dialog.

Figure 2-25: **Select Patient** dialog

- Click the **Help** button to access the online help for this dialog.
  - Click the **Clear** button to remove all data from the **Patient List** box and from the text box near the top.
1. At the field, type a few characters of the patient’s last name (at least three), Social Security Number (SSN), Health Record Number (HRN), or date of birth (use format MM/DD/YYYY) in the **Patient Lookup Options** field.

The application will accept either form of the patient's name in the search criteria: LASTNAME,FIRSTNAME or LASTNAME, FIRSTNAME (space after the comma).

2. Determine the number of matches by selecting an option from the **Matches** list (the default is All).
3. Click **Display**.
4. The application retrieves the valid candidates and displays them in the **Patient List** box. If there are no candidates, then the list box remains empty. In addition, a message will display in the bottom left corner stating "0 records found."

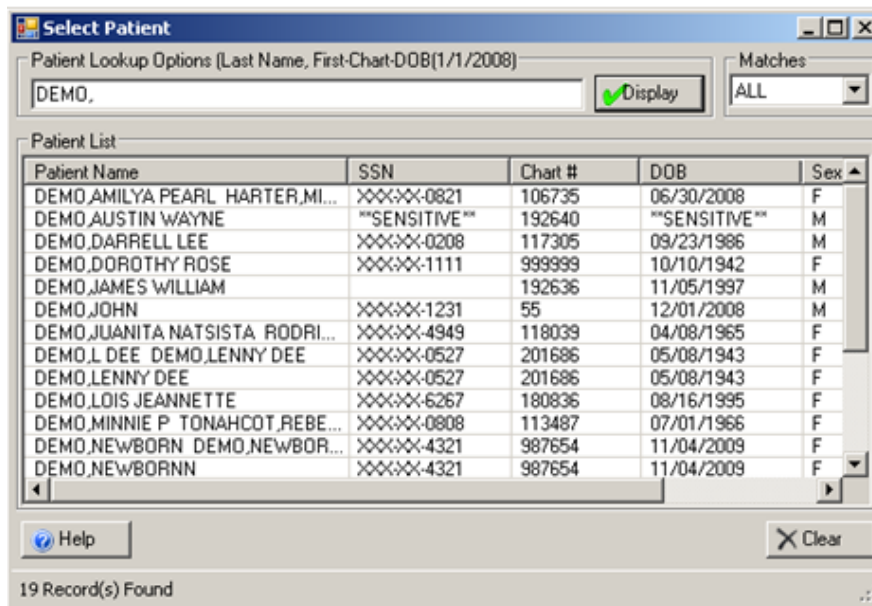

Figure 2-26: Sample **Select Patient** dialog

5. Use the scroll bars to scroll through the retrieved names.
6. Double-click the patient to select. The selected patient becomes the active patient.

## 2.13 Sensitive Patient Tracking

As part of the effort to ensure patient privacy, additional security measures have been added to the patient-access function. Any patient flagged as Sensitive will have access to the patient's record tracked. In addition, warning messages will be displayed when staff (not holding special keys) accesses these records. If the person chooses to continue accessing the record, a bulletin is sent to a designated mail group. For further information on Sensitive Patient Tracking please see the Patient Information Management System (PIMS) Sensitive Patient Tracking User Manual.

If a patient is listed as Sensitive in the Sensitive Patient Tracking application, the word SENSITIVE will be displayed in Social Security, Date of Birth, and Age columns on the **Select Patient** dialog.

### GUI Example

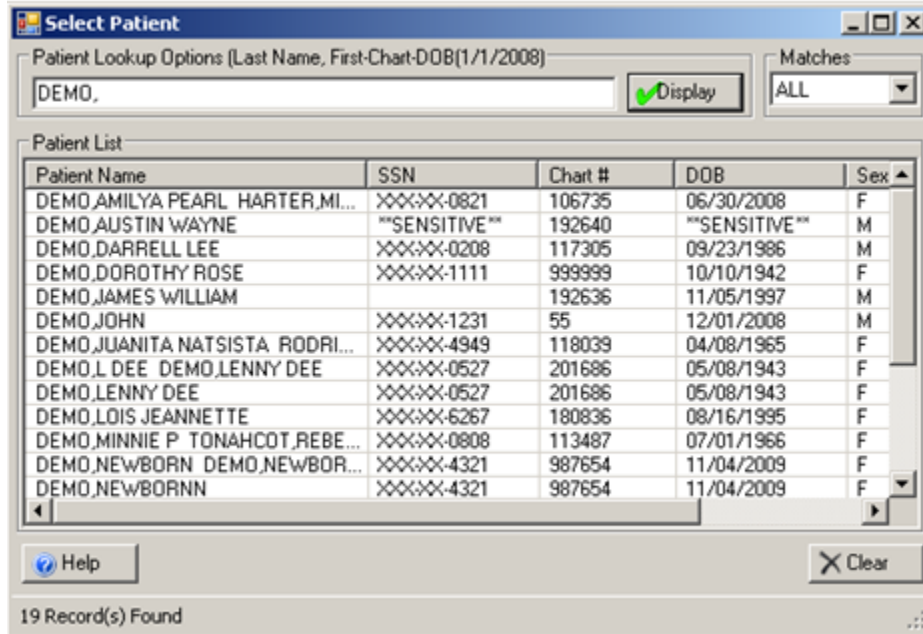

Figure 2-27: Sample **Select Patient** dialog showing sensitive patient

Figure 2-28 displays the warning message users receive while in the GUI.

Figure 2-28: Warning message displayed in GUI

Click **Yes** to access the patient's record. (Otherwise, click **No**. In this case you return to the **Select Patient** dialog.)

### Roll and Scroll Example

There can be two types of messages in Roll and Scroll.

1. The Restricted Record warning message is shown in Figure 2-29.

```
*** WARNING ***
*** RESTRICTED RECORD ***
```

```
This record is protected by the Privacy Act of 1974 & Health Insurance Portability &
Accountability Act of 1996. If you elect to proceed, you must provide you have a
need to know. Access to this patient is tracked and your Security Officer will
contact you for your justification.
```

Figure 2-29: Warning message about restricted record in Roll and Scroll

2. A simple warning message is shown below.

```
*** WARNING ***
*** RESTRICTED RECORD ***
```

Figure 2-30: Shorter warning message in Roll and Scroll

- Press Enter to access the patient's record.
- Type the caret (^) to not access the patient's record.

## 2.14 Electronic Signature

The following provides information about the electronic signature. This signature applies to Roll and Scroll as well as the GUI. You use the electronic signature to sign a SOAP/Progress note, Intake document, and Update document.

### 2.14.1 Creating Your Electronic Signature

1. At the "Select TIU Maintenance Menu Option" prompt, type **TBOX**.
2. Select the Electronic Signature Code Edit option.

```
Select TIU Maintenance Menu Option: TBOX User's Toolbox

Change my Division
Display User Characteristics
Edit User Characteristics
Electronic Signature Code Edit
Menu Templates . . .
Spooler Menu . . .
Switch UCI
Taskman User
User Help
```

Figure 2-31: Options on the TBOX User's Toolbox

3. Prompts will appear for the electronic signature on SOAP/progress notes. You should not enter your credentials (such as MD) under both the block name and title or it will appear twice. Make sure your signature block printed name contains your name and (optionally) your credentials.

```
INITIAL: MGH//
SIGNATURE BLOCK PRINTED NAME: MARY THETA//MARY THETA, RN
SIGNATURE BLOCK TITLE
```

OFFICE PHONE:  
VOICE PAGER  
DIGITAL PAGER

Figure 2-32: Prompts that display at the beginning of the process

4. When the following prompt appears in RPMS:

Enter your Current Signature Code:

Figure 2-33: Prompt to enter your current electronic signature

The above prompt means you already have an electronic signature code.

5. When the following prompt appears in RPMS, enter a new code.

Enter code:

Figure 2-34: Prompt for a new code

6. Enter a new code (using between 6 and 20 characters) with Caps Lock ON. However, when you enter the electronic signature (on a note for example), it can be in lower case. No special characters are allowed in the code.
7. If you forget the code, it must be cleared out by your Site Manager; then you must create a new one. You are the only user who can enter your electronic signature code.

## 2.14.2 Electronic Signature Usage

Each patient-related encounter can have only one SOAP/Progress Note with an electronic signature. Only the primary provider of service can electronically sign the SOAP/Progress Note, Intake document, or Update document.

- Electronically signed notes with text cannot be edited.
- Blank SOAP/Progress Notes cannot be signed.

Signed SOAP/Progress Notes can only be deleted by users that have the AMHZ DELETE SIGNED NOTE security key.

An encounter record containing an unsigned note can be edited or deleted.

Electronic signatures do not apply to BH encounters created in the EHR.

Electronic signatures cannot be applied to SOAP/Progress Notes that were created before the capability of electronic signature was available in AMH. Electronic signatures do not apply to a visit that was created prior to Version 4.0 install date. In this case, you get the following message: “E Sig not required for this visit, visit is prior to Version 4.0 install date.”

### 2.14.3 Data Entry Requirements (Roll and Scroll)

The field for electronic signature is part of the MH/SS RECORD file that includes the date and time the signature was affixed.

Figure 2-35 is a sample of the electronic signature and date/time stamp in the SOAP/Progress Note section of the printed encounter record.

```
/es/ ALPHA PROVIDER
      MA. LMSW
Signed: 05/14/2009 13:25
```

Figure 2-35: Sample date/time stamp for electronic signature

### 2.14.4 Assign PCC Visit

The application will apply the following check: The visit will not be passed to PCC if the SOAP/Progress Note associated with the record has not been signed.

When the provider exits the encounter, the application will determine if the provider is the primary provider or not.

- If the current user is the primary provider and is trying to edit/enter the record, that person is permitted to electronically sign the SOAP/Progress Note.
- If the current user is NOT the primary provider and is trying to edit/enter the record, that person is not permitted to electronically sign the SOAP/Progress Note. In this case, the application displays the message: Only the primary provider is permitted to sign the SOAP/Progress Note. The encounter will be saved as 'unsigned.' Additionally, a message will display stating: No PCC Link. Note not signed.

### 2.14.5 Signing a Note (GUI)

1. If you have entered a SOAP/progress note, the application displays the **Sign?** dialog.

Figure 2-36: **Sign** dialog

- Click **No** to save the encounter record without a signature to the note.
- Click **Yes** and the application displays the **Electronic Signature** dialog.

Figure 2-37: **Electronic Signature** dialog

- a. Type your valid electronic signature and click **OK**. This process saves the encounter with a signed note.
- b. If you enter an invalid electronic signature and click **OK**, the application displays the Invalid notice that states: Invalid Signature Code. Click **OK** and the focus returns to the **Electronic Signature** dialog.
- c. Click **Close** on the **Electronic Signature** dialog and the application displays the **Are You Sure?** dialog.

Figure 2-38: **Are you Sure?** dialog

- Click **No** and the focus returns to the **Electronic Signature** dialog.
- Click **Yes** and the application displays the **Message** dialog.

Figure 2-39: **Message** dialog

- Click **OK**. The encounter record will not have a signed note.

### 2.14.6 Signing a Note (Roll and Scroll)

After you save and exit an encounter record and you have entered a note, the application asks for your signature.

Figure 2-40: Prompt asking for your current signature code

- If you use your valid electronic signature, the application saves the encounter record with a signed note.

- If you use an invalid electronic signature, the application does not save the encounter with a signed note.

If you edit a visit with a signed note, the application displays a message indicating that the note cannot be edited.

The progress note has been electronically signed. You will not be able to edit the note.

Figure 2-41: Message about progress note already signed.

If you edit the note with an unsigned note and you are not the primary provider, you will get a message as in Figure 2-42.

Only the Primary provider is permitted to sign a note.

Figure 2-42: Message— only the primary provider can sign a note

## 2.15 Login to GUI

If this is the first time logging into the GUI, the **IHS Behavioral Health System Login** dialog displays.

Figure 2-43: IHS Behavioral Health System Login dialog

2. Click **Edit Connections** option on the list for the **RPMS Server** field. The **RPMS Server Connection Management** dialog displays.

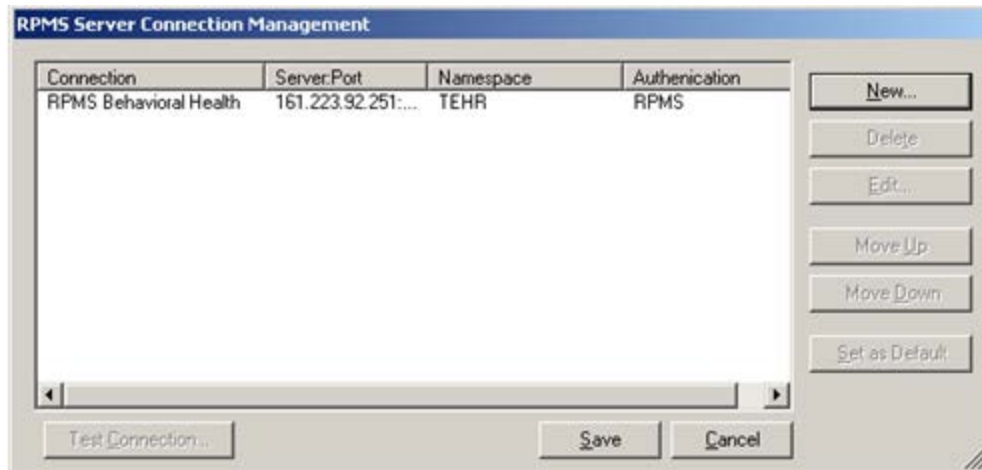

Figure 2-44: Sample RPMS Server Connection Management dialog

3. Click **New** to create a new connection or select an existing connection and click **Edit**.

The application displays the **Edit RPMS Server Connection** dialog.

Figure 2-45: Sample **Edit RPMS Server Connection** dialog

Do not check the **Default RPMS Server Connection** or **Use Windows Authentication** checkboxes.

4. At the **Connection Name** field, type the name of the connection (your choice of words).
5. At the **Server Address/Name** field, type the number, including punctuation, of the server's IP address. An IP address is typically four groups of two or three numbers, separated by a period (.), e.g., 161.223.99.999. Your Site Manager will provide this information.

6. At the **Server Post** field, type the number of the server port. Your Site Manager will provide this information.
7. At the **Server Namespace** field, consider the following:

If your site has multiple databases on one server, you will additionally need to type the namespace, which is typically a text string, e.g., DEVEH.
8. At the **Use default namespace** field, select this checkbox if the Server Namespace is the default one to use.

After populating the above fields, the **Test Connection** button becomes active.
9. Click the **Test Connection** button to display the **Test Login** dialog.
  - a. Populate the **Access Code** and **Verify Code** fields and then click **OK**.
  - b. After clicking **OK**, if the connection is correct, the application displays the Connection Test message that states: RPMS login was successful.
  - c. Otherwise, the application will display an error message. Click **OK** to return to the **Test Login** dialog.
10. After the Edit RPMS Server Connection dialog is complete, click **OK** (otherwise, click **Cancel**). Clicking OK saves the information, and this information displays on the **RPMS Server Connection Management** dialog.
11. After the RPMS Server Connection Management dialog is complete, click **Save** (otherwise, click **Cancel**).
12. After clicking **Save** on the **RPMS Server Connection Management** dialog, the application displays the **IHS Behavioral Health System Login** dialog.

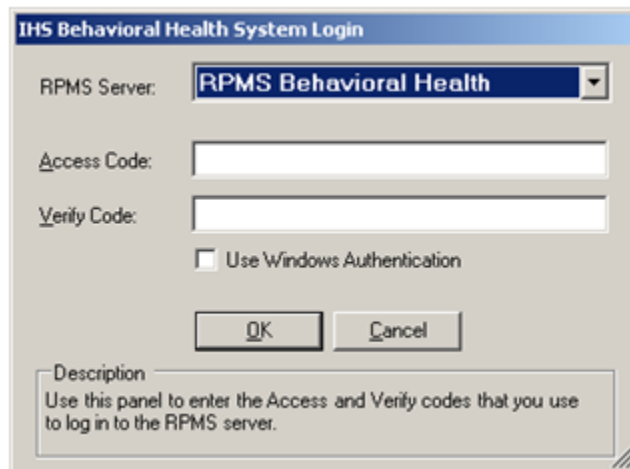

Figure 2-46: Sample login dialog

The designated server displays in the RPMS Server field.

13. Type your RPMS access and verify codes. These are the same access and verify codes that you would use to open any RPMS session.

Do not use the field with the checkbox.

14. Click **OK** to access the RPMS Behavioral Health System tree. (Otherwise, click **Cancel**.)

## 2.16 RPMS Behavioral Health System Tree

Below is the default display of the RPMS Behavioral Health System tree structure.

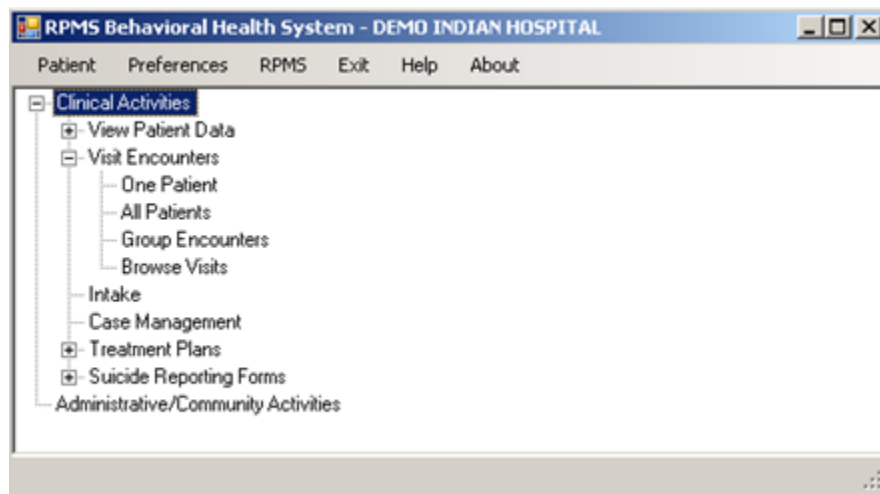

Figure 2-47: Tree structure for the RPMS Behavioral Health System

The tree structure is similar to any tree structure in MS Office.

- Click the minus (-) icon to collapse the option. The icon will change to the plus (+) icon. The **View Patient Data**, **Treatment Plans** and **Suicide Reporting Forms** options are collapsed in the screen capture above.
- Click the plus (+) icon to expand the option. The icon will change to the minus (-) icon. The **Visit Encounters** option is expanded in the screen capture above.

### Patient Menu

Use the **Patient** menu to select the current patient.

### Preferences Menu

Use the **Preferences** menu to select another division as well as change the font on the main menu tree.

Figure 2-48: **Preferences** menu options

15. At the **Change Division** field, select the Division to use. Use the **Change Division** option to change the **RPMS Division** on the **Select Division** dialog. This option applies to a site that uses more than one RPMS database.
16. Select **Change Menu Font** to access the **Font** dialog. Use this option to change the font on the tree structure.

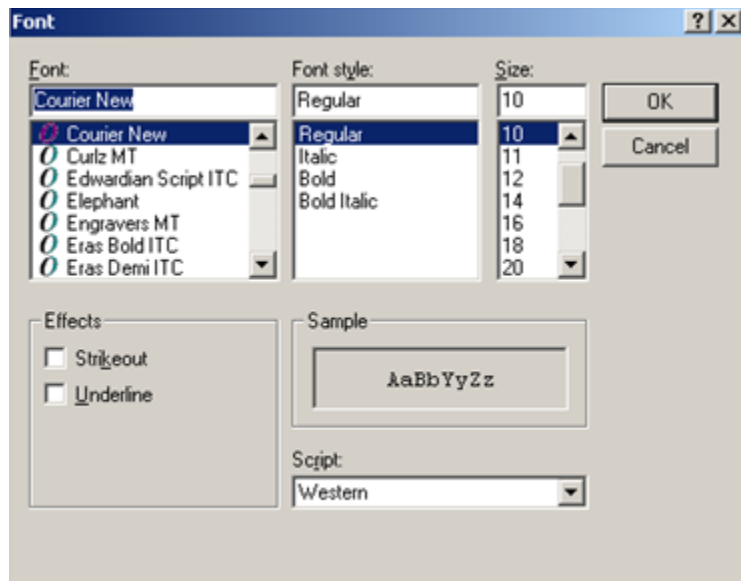

Figure 2-49: **Font** dialog

- a. Use the **Font** dialog to change the Font name, style, and size of the text on the tree structure. In addition, you can add effects like “Strikeout” and “Underline” - these perform like those effects in Microsoft Word. Most users change the font size.
- b. Change the Script option if you need to see the text displayed in another language and you have that language pack installed on the machine you are using. If the language pack is not installed on your machine, the display does not change by selecting another script.
- c. Click **OK** to apply your changes to the text on the tree structure. (Otherwise, click **Cancel**.)

### RPMS Menu

Use the RPMS menu to access the RPMS system (roll and scroll). After clicking the RPMS menu, the application displays the RPMS Terminal emulator window.

- On the **RPMS Terminal Emulator** window, select **File | Connect** to access the **Connect** dialog. Populate the **Host** field with the IP address and click **OK** (note, you do not need to populate any other fields). After clicking **OK**, you access the RPMS system. Then, login as you normally do.
- After populating the fields on the **RPMS Terminal Emulator** window, they remain the same the next time you log in (the application pre-populates the required fields).
- After completing the activities in RPMS, select **File | Exit** to return to the GUI part of the application.

### **Exit Menu**

Use the **Exit** menu to leave the application. The application displays the Exit information message: “Are you sure you want to Exit?” Click **Yes** to exit (otherwise, click **No**).

### **Help Menu**

Use the **Help** menu to access the online help system for the application.

### **About Menu**

Use the **About** menu to view information about the application (such as its version number).

## 3.0 Data Entry

This section provides an overview of the data entry process for Roll and Scroll application and for the RPMS Behavioral Health System (GUI).

### 3.1 Roll and Scroll

Documentation of patient care and documentation of administrative and group encounters are handled through the Data Entry module of the Behavioral Health System. We recommend that providers do their own data entry at the time of a patient encounter. However, a provider can document patient care on a PCC Encounter Form for data entry later by trained program support staff. Choosing DE from the Behavioral Health main menu can access the options for data entry.

```

Figure 3-2: Data Entry menu

Table 3-1 provides an overview of the options on the Data Entry menu.

Table 3-1: Data Entry menu options

Option	Use
Enter/Edit Patient/Visit Data — Patient Centered (PDE)	Documents a patient encounter and displays all the information required for a single patient from a single screen.
Enter/Edit Visits Data — Full Screen Mode (SDE)	Enters the appropriate set of defaults to be used in data entry.
Group Form Data Entry Using Group Definition (GP)	Enters encounter data when the encounter involves a group of patients.
Display Record Options (DSP)	Displays visit information about particular encounters.
Update BH Patient Treatment Plans (TPU)	Manages treatment plans for a patient.
View/Update Designated Provider List (DPL)	Updates and manages a provider's patient panel.
Edit BH Data Elements of EHR created Visit (EHRE)	Edits the BH data for a visit that was created in the RPMS Electronic Health Record application (EHR).
Listing of EHR Visits with No Activity Time (EBAT)	Lists the behavioral health EHR visits that have no activity time.
Suicide Forms — Update/Print (SF)	Updates, reviews, and prints IHS Suicide forms that have been entered into the BHS module.

## 3.2 RPMS Behavioral Health System Graphical User Interface (GUI)

The data entry options are located under the **Visit Encounters** category on the tree structure for the RPMS Behavioral Health System (GUI).

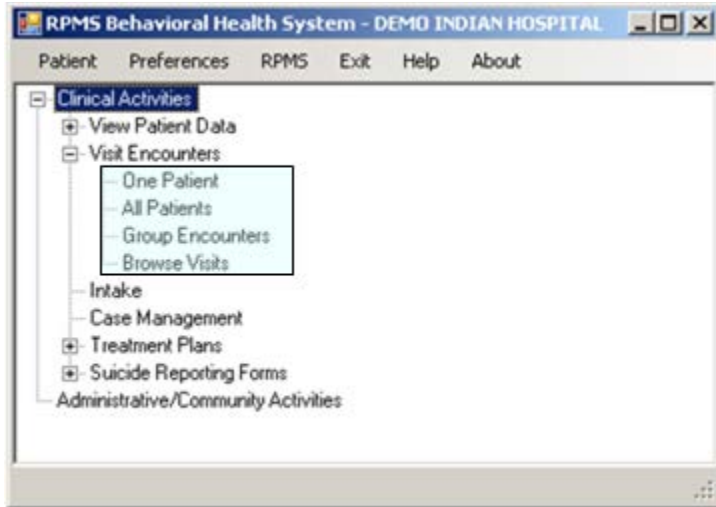

Figure 3-3: Location of Visit Encounters category on tree structure

- **One Patient:** Manage the visits for the one patient within a particular date range.
- **All Patients:** Manage the visits for all of the patients within a particular date range.
- **Group Encounters:** Manage the Group Encounter data for group encounters within a particular date range.

**Browse Visits:** Display visit information for the current patient within a particular date range.

## 4.0 One Patient Visit Data

This section provides information on how to manage the visit data of one patient for the RPMS Behavioral Health System (AMH) Roll and Scroll and the BHS GUI.

There are two ways to enter/edit patient visit data: using the PDE option or the SDE option on the IHS Behavioral Health System Data Entry menu.

```

```

Figure 4-1: Options on the IHS Behavioral Health System Data Entry menu

Use this menu for all aspects of recording data items related to patient care, case management, treatment planning, and follow-up.

### 4.1 Enter/Edit Patient/Visit Data – Patient Centered (PDE)

Use the PDE option on the **Data Entry** menu to add or edit patient visit data. This option was designed specifically for a provider to document a patient encounter and to display all the information for a single patient from a single screen.

Follow these steps:

17. At the “Select Behavioral Health Data Entry Menu Option” prompt, type **PDE**.

18. At the “Select patient name” prompt, type the name of the patient to be used.

If you enter the name of a deceased patient, the application displays the patient’s date of death.

```
***** PATIENT'S DATE OF DEATH IS Jan 14, 2000@20:30
```

```
Ok? Yes//
```

Figure 4-2: Information about patient's date of death

- At the “OK?” prompt, type **NO** and the focus returns to the “Enter Patient Name” prompt.
- At the “OK?” prompt, type **YES** and the focus goes to the **Patient Data Entry** window.
  - a. Type the name of a living patient and the Patient Data Entry window displays.

```

Figure 4-3: Sample Patient Data Entry window

The following actions are described under Add/Edit Visit Data — Full Screen Mode (SDE). Section 4.2 provides more information.

- **AV** – Add Visit
- **EV** – Edit Visit
- **DR** – Display Record
- **ES** – Edit Soap
- **DE** – Delete Visit
- **PF** – Print Encounter Form

- **ID** – Intake Document
- **AP** – Appointments
- **HS** – Health Summary
- **OI** – Desg Prov/Flag/Pers Hx
- **EH** – Edit EHR Visit
- **PPL** – Problem List
- **SN** – Sign Note
- **TN** – TIU Note Display
- **MM** – Send Mail Message

The Treatment Plan Update (TP) is covered under Treatment Plans. Section **10.0** provides more information.

The Update Case Data (CD) is covered under Managing Case Data. Section **6.1** provides more information.

The next section provides information about actions not covered anywhere else.

#### 4.1.1 List Visit Dates (LD)

Use the LD option to list the current patient's visit dates.

19. At the "Select Action" prompt, type **LD**.

20. At the "Browse which subset of visits for [current patient name]" prompt, use one of the following:

- **L** – Patient's Last Visit
- **N** – Patient's Last N Visits
- **D** – Visits in Date Range
- **A** – All of this Patient's Visits
- **P** – Visits to one Program

If using **N**, **D**, or **P**, other prompts will display.

If using **N**, do the following:

- Type the number of visits to display at the "How many visits should be displayed: (1-99)" prompt. Type any number between 1 and 99.

If using **D**, do the following:

- a. Type the beginning date of the date range at the “Enter Beginning Date of Visit” prompt.
- b. Type the ending date of the date range at the “Enter Ending Date of Visit” prompt.

If using **P**, do the following:

- Type the program to be used at the “Visits to Which Program?” prompt. Use one of the following: **M** Mental Health Defaults, **S** Social Services Defaults, **C** Chemical Dependency or Alcohol/Substance Abuse, **O** Other

The Browse Patient’s Visit window displays. This is one of the visits using option **A**.

```

BROWSE PATIENT'S VISITS           Mar 27, 2009 15:25:54           Page:      1 of      1

Figure 4-4: Sample list of visit dates window

#### 4.1.2 GAF Scores (GS)

Use the **GS** option to display visit with GAF scored recorded.

21. At the “Select Action” prompt, type **GS**.
22. At the “Browse which subset of visits for patient” prompt, use one of the following:
  - **N** – Patient’s Last N Visits
  - **D** – Visits in a Date Range
  - **A** – All of the Patient’s Visits

- **R** – Visits to One Program
- **P** – Visits to One Program

If using **N**, the following prompts display:

- a. At the “How many visits should be displayed: (1-99)” prompt, type any number 1 – 99 (5 is the default).
- b. The GAF Scores window displays.

If using **D**, the following prompts display:

- c. At the “Enter Beginning Date of Visit” prompt, type the beginning date of the date range.
- d. At the “Enter Ending Date of Visit” prompt, type the beginning date of the date range.
- e. The GAF Scores window displays.

If using **A**, the GAF Scores window displays.

If using **R**, the following prompts display:

- f. At the “Choose” prompt, type one of the following: **1** (Visits in a Date Range), **2** (Visits to One Program), **3** (Visits to One Provider).
  - If using **1**, you will be prompted to type the beginning and ending date of the date range.
  - If using **2**, you will be prompted to type the program.
  - If using **3**, you will be prompted to type the name of the provider.
- g. The GAF Scores window displays.

If using **P**, the following prompts display:

- h. At the “Which Program” prompt, type the program to be used.
- i. The GAF Scores window displays.

### 4.1.3 Face Sheet (FS)

Use the **FS** option to display the Demographic Face Sheet for the patient.

Figure 4-5: Sample Face Sheet data for the patient

## 4.2 Add/Edit Visit Data - Full Screen Mode (SDE)

Use the **SDE** option on the Data Entry Menu to enter/edit visit data for one or more patients. This option does not include access to other treatment information, such as the patient's treatment plan or case status.

Follow the steps below.

1. At the "Select Behavioral Health Data Entry Menu Option" prompt, type **SDE**.

2. At the “Which set of defaults do you want to use in Data Entry” field, type the program with which the provider is affiliated so that the predefined defaults for clinic, location, community, and program will be automatically applied to the visit. Use one of the following:
  - **M** – Mental Health Defaults
  - **S** – Social Services Defaults
  - **C** – Chemical Dependency or Alcohol/Substance Abuse
  - **O** – Other
3. At the “Enter ENCOUNTER DATE” field, type the date of the encounter. The acceptable formats are:
  - T (today)
  - 3/28
  - 0328
  - 3-28
  - 3.28
  - T-1 (yesterday)
  - T-30 (a month ago)
  - T+7 (a week from today)

**Note:** If you do not enter the year, the system defaults to the current year.

The application displays “Creating new record” message when adding a visit.

4. The **Update BH Forms** window displays.

Update BH Forms		Mar 19, 2009 13:50:42		Page: 1 of 1

- The **AC** option is fully described below. Section 7.0 provides more information.
- The **OI** option is fully described below. Section 6.1.4 provides more information.
- The **ID** option is fully described below. Section 12.1 provides more information.

#### 4.2.1 Add Patient Visit (AV)

Use the **AV** option to add a patient visit.

1. At the “Select Action” prompt, type **AV**.
2. At the “TYPE THE PATIENT’S HRN, NAME, SSN OR DOB” prompt, type the name of the patient to use.
3. At the “Enter PRIMARY PROVIDER” field, type the primary provider name for the patient visit (the default is the current logon user).

The **Behavioral Health Visit Update** screen displays. This screen is available when using the EV or AV options on the **Updated BH Forms** window.

```

```

Figure 4-7: Sample **Behavioral Health Visit Update** screen

If you are the primary provider and you save the data on the Behavioral Health Visit Update window, the application asks if you want to sign the note for the visit. Section 2.14.6 provides more information on signing a note (Roll and Scroll).

The underlined fields on the **Behavioral Health Visit Update** screen are required.

4. At the “Arrival Time” prompt, type the arrival time. The default is 12:00. Change this time if needed. Anything between 6 AM and 6 PM will be recorded correctly by entering a number or military time. Between 6 PM and 6 AM, use military time or append the number with an A or P.

Examples:

- 130 (1:30 PM)
  - 130A (1:30 AM)
5. At the “Display/Edit Visit Information” prompt, type **N** (no) or **Y** (yes). Use **Y** to access the Visit Information pop-up.

***** Visit Information *****	
<u>Program</u> : MENTAL HEALTH	<u>Location of Encounter</u> : SELLS HOSP
<u>Clinic</u> : MENTAL HEALTH	<u>Appointment/Walk In</u> : APPOINTMENT
<u>Type of Contact</u> : OUTPATIENT	
<u>Community of Service</u> : TUCSON	

Figure 4-8: Sample **Visit Information** pop-up

The application automatically populates the fields on the Visit Information pop-up according to which set of defaults that were selected at the “Which set of defaults do you want to use in Data Entry” prompt on the Site Parameters menu.

The underlined fields on the Visit Information pop-up are required.

- a. At the “Program” prompt, type the program associated with the visit. Use one of the following: **M** (Mental Health), **S** (Social Services), **O** (Other), or **C** (Chemical Dependency).
- b. At the “Location of Encounter;” prompt, type the location of the encounter.
- c. At the “Clinic” prompt, type the clinic context. The response must be a clinic that is listed in the RPMS Standard Code Book table.
- d. At the “Appointment/Walk-In” prompt, type the visit type. Use one of the following: **A** (Appointment), **W** (Walk In), or **U** (Unspecified – for non-patient contact or telephone contact).
- e. At the “Type of Contact” prompt, type the contact type (the activity setting).

- f. At the “Community of Service” prompt, type the community of service. The response must be a community that is included in the RPMS community code set.

The following are the fields on the **Behavioral Health Visit Update** screen.

6. At the “Any Secondary Providers?” prompt, type **Y** (yes) or **N** (no) to indicate if there are any additional secondary BH providers that were also providing care during this particular encounter.

Type **Y** to access the Enter/Edit Providers of Service pop-up.

```

***** ENTER/EDIT PROVIDERS OF SERVICE *****

Encounter Date: MAR 5,2009@12:00      User: THETA,SHIRLEY
Patient Name: DEMO,DARRELL LEE
-----

PROVIDER: THETA,STUART                PRIMARY/SECONDARY: PRIMARY
PROVIDER:                             PRIMARY/SECONDARY:
PROVIDER:                             PRIMARY/SECONDARY:

PROVIDER:                             PRIMARY/SECONDARY:

```

Figure 4-9: Sample **Enter/Edit Providers of Service** pop-up

The underlined prompts are required.

- a. At the “PROVIDER” prompt, type the secondary provider name.
- b. At the “PRIMARY/SECONDARY” prompt, type the name of the secondary provider (more than one secondary provider can be used).

The following are the fields on the **Behavioral Health Visit Update** screen.

7. At the “Chief Complaint/Presenting Problem” prompt, type the text of the chief complaint or presenting problem using 2 to 80 characters in length. This information describes the major reason the patient sought services.
8. At the “SOAP/Progress Note <press enter>” prompt, press Enter to access an input window. Populate it with the text of the note. You can enter the notes using any of the standard formats, such as SOAP, DAP, or free text.

```

==[ WRAP ]==[ INSERT ]===== < SUBJECTIVE/OBJECTIVE >===== [ <PF1>H=Help ]====

```

Figure 4-10: Window to enter the note

Table 4-1 lists the most commonly used RPMS text editor commands.

Table 4-1: Common RPMS text editor commands

Action Needed	Use These Keys
Delete a line (extra blank or text)	PF1(F1) followed by D
Join two lines (broken or too short)	PF1(F1) followed by J
Save without exiting	PF1(F1) followed by S
Exit and save	PF1(F1) followed by E
Quit without saving	PF1(F1) followed by Q
Top of text	PF1(F1) followed by T

9. At the “Comment/Next Appointment <press enter>” prompt, press Enter to access an input window. Populate it with the text of the comment about the next appointment. This field is not used for appointment scheduling.
10. At the “PURPOSE OF VISIT (POVS) <enter>” prompt, press Enter to access the Purpose of Visit Update pop-up.

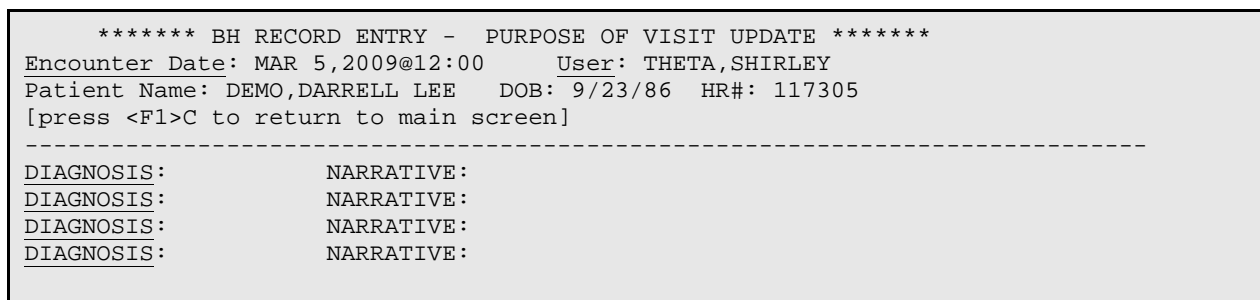

Figure 4-11: Sample BH Record Entry - Purpose of Visit Update

When recording a patient visit, at least one Diagnosis and Narrative are required. The underlined fields are required.

- a. At the “DIAGNOSIS” prompt, type the POV (the one- or two-digit AMH Purpose of Visit Code or the more specific five-digit DSM-5 diagnostic code). Section Appendix C: provides more information about DSM copyright and trademark information.

- b. At the “NARRATIVE” prompt, type the narrative for the diagnosis (2–80 characters) or use one of the coded narratives by specifying its number.

The following are the fields on the **Behavioral Health Visit Update** screen.

11. At the “Any CPT Codes to enter?” prompt, type **Y** (yes) or **N** (no).

Use **Y** to access the Add/Edit CPT Procedures pop-up.

```

**** Add/Edit CPT Procedures**** [press <F1>C to return to main screen]

Cpt Code:
Cpt Code:
Cpt Code:
Cpt Code:
Cpt Code:

```

Figure 4-12: Sample **Add/Edit CPT Procedures** window

The underlined prompts are required.

- a. At the “CPT Code” prompt, type the CPT code for Behavioral Health services. The CPT field will also accept Healthcare Procedure Coding System (HCPCS) that are commonly used by Medicare. State and Local codes might be available if the facility’s billing office has added them to the RPMS billing package. These codes are based on the history, examination, complexity of the medical decision-making, counseling, coordination of care, nature of the presenting problem, and the amount of time spent with the patient. More than one code can be used.
- b. After specifying the CPT, HCPCS, or other billing code, the prompts for quantities and up to two modifiers display.

```

QUANTITY: 1
MODIFIER:
MODIFIER 2:

```

Figure 4-13: Prompts for the code entered

- c. At the “Quantity” prompt, type the number of CPT codes to use to help facilitate billing.
- d. At the “Modifier” prompt, type the modifier for the CPT code. Up to two modifiers can be used. The modifier is a two-digit code.

The following are the fields on the **Behavioral Health Visit Update** screen.

12. At the “Activity” prompt, type the activity code that documents the type of service or activity performed by the Behavioral Health provider. These activities might be patient-related or administrative in nature only. Use only one activity code for each record regardless of how much time is expended or how diverse the services offered. Certain Activity codes are passed to PCC, and will affect the billing process. Section **Appendix A:** provides more information about the Activity Codes and Definitions.
13. At the “Activity Time” prompt, type the activity time, using any number between 1 and 9999 (no decimal digits). This is how much provider time was involved in providing and documenting the service or performing the activity. The understood units of measure are minutes. Please note, 0 (zero) is not allowed as a valid entry.
14. At the “# Served” prompt, type the number served, using any number between 0 and 999 (no decimal digits). The default is 1. This refers to the number of people directly served during a given activity and is always used for direct patient care as well as for administrative activities. Group activities or family counseling are examples where other numbers might be listed.
15. At the “Interpreter?” prompt, type **1** (yes) or **0** (no) to indicate if an interpreter was present during the patient encounter. Use Yes only if an interpreter is required to communicate with the patient. This information is available when running reports but is not included on the printed encounter form.
16. At the “Any Patient Education Done?” prompt, type **Y** (yes) or **N** (no).

Use **Y** to access the Patient Education Enter/Edit pop-up.

```
*PATIENT EDUCATION ENTER/EDIT*           [press <F1>C to return to main screen]
Patient Name: DEMO,DARRELL LEE
-----
After entering each topic you will be prompted for additional fields

Display Patient Education History?  N

EDUCATION TOPIC:
EDUCATION TOPIC:
EDUCATION TOPIC:
EDUCATION TOPIC:
EDUCATION TOPIC:
```

Figure 4-14: Sample **Patient Education Enter/Edit** screen

- a. At the “Display Patient Education History?” prompt, type **Y** (yes) or **N** (no) to display the Behavioral Health and PCC patient education history. This is all education provided in the past two years by BH programs. This display is shown in the **Output Browser** window. You must quit this window to return to prompts.

- b. At the “EDUCATION TOPIC” prompt, type the education topic used at this encounter. For a complete list of the current Education Topics, type a question mark (?) at the prompt to view the whole list.

After entering the Education Topic, the pop-up displays, as shown in Figure 4-15.

EDUCATION TOPIC: ABD-COMPLICATIONS

INDIVIDUAL/GROUP: INDIVIDUAL

READINESS TO LEARN:

LEVEL OF UNDERSTANDING:

PROVIDER: THETA, MARK

MINUTES:

COMMENT:

STATUS (Goal):

GOAL COMMENT:

Figure 4-15: Sample pop-up for education topic information

The underlined prompts are required.

- c. At the “Education Topic” prompt, type the education topic (can be changed).
- d. At the “Individual/Group” prompt, type if the education is for an individual or for a group.
- e. At the “Readiness to Learn” prompt, type one of the following:
- **Distraction:** Use when the patient has limited readiness to learn because the distractions cannot be minimized.
  - **Eager to Learn:** Use when the patient is exceedingly interested in receiving education.
  - **Intoxication:** Use when the patient has decreased cognition due to intoxication with drugs or alcohol
  - **Not Ready:** Use when the patient is not ready to learn.
  - **Pain:** Use when the patient has a level of pain that limits readiness to learn.
  - **Receptive:** Use when the patient is ready or willing to receive education.
  - **Severity of Illness:** Use when the patient has a severity of illness that limits readiness to learn.
  - **Unreceptive:** Use when the patient is NOT ready or willing to receive education.
- f. At the “Level of Understanding” prompt, type the level of understanding. This is a required field. Use one of the following:

- 1 – Poor
  - 2 – Fair
  - 3 – Good)
  - 4 – Group No Assessment
  - 5 – Refused
- g. At the “Provider” prompt, type the name of the provider for the visit (can be changed). The default is the current logged-in user.
- h. At the “Minutes” prompt, type the number of minutes spent on education, using any integer 1–9999.
- i. At the “Comment” prompt, type any comments about the education topic for the visit, if any.
- j. At the “Status (Goal)” prompt, type the status of the education, if any. Use one of the following:
- **GS** – Goal Set
  - **GM** – Goal Met
  - **GNM** – Goal Not Met
  - **GNS** – Goal Not Set
- k. At the “Goal” prompt, type the text of the stated goal of the education, if any.

The following are the fields on the **Behavioral Health Visit Update** screen.

17. At the “Any Screenings to Record?” prompt, type **Y** (yes) or **N** (no).

Use **N** to accept the default response if no screenings were completed during the visit.

Use **Y** to access the following pop-up screen.

Intimate Partner Violence (IPV/DV)	Display IPV/DV screening history?	N
IPV Screening/Exam Result:		
IPV Screening Provider:		
IPV COMMENT:		
Alcohol Screening	Display Alcohol Screening History?	N
Alcohol Screening Result:		
Alcohol Screening Provider:		
Alcohol Screening Comment:		
Depression Screening	Display Depression Screening History?	N
Depression Screening Result:		
Depression Screening Provider:		
Dep Screening Comment:		

Figure 4-16: Sample IPV, Alcohol Screening, and Depression Screening pop-up

The following provides information about the fields on the pop-up.

- a. At the “Display IPV/DV screening History?” prompt, type **Y** (yes) or **N** (no). If **Y** was used, the IPV/DV screening history displays on another screen. The display includes screenings entered in both BHS and PCC.
- b. At the “IPV Screening/Exam Result” prompt, type the result of the intimate partner violence/domestic violence screening. Use one of the following:
  - **N** – Negative
  - **PR** – Present
  - **PAP** – Past and Present
  - **PA** – Past
  - **REF** – Patient Refused Screening
  - **UAS** – Unable to screen
  - **Referral Needed**
- c. At the “IPV Screening Provider” prompt, type the IPV/DV provider name.
- d. At the “IPV Comment” prompt, type the text of any comment related to the IPV/DV screening, using 2–245 characters.
- e. At the “Display Alcohol Screening History?” prompt, type **Y** (yes) or **N** (no). If **Y**, the alcohol screening history displays on another screen. The display includes screenings entered in both BHS and PCC.
- f. At the “Alcohol Screening Result” prompt, type the result of the alcohol screening. Use one of the following:
  - **N** – Negative
  - **P** – Positive
  - **UAS** – Unable to screen
  - **REF** – Patient Refused Screening
  - **Referral Needed**
- g. At the “Alcohol Screening Provider” prompt, type the provider name for the alcohol screening.
- h. At the “Alcohol Screening Comment” prompt, type the text of any comment related to the alcohol screening, using 2–245 characters.
- i. At the “Display Depression Screening History?” prompt, type **Y** (yes) or **N** (no). If using **Y**, the depression screening history displays on another screen.
- j. At the “Depression Screening Result” prompt, type the result of the depression screening. Use one of the following:

- **N** – Negative
  - **P** – Positive
  - **UAS** – Unable to screen
  - **REF** – Patient Refused Screening
  - **Referral Needed**
- k. At the “Depression Screening Provider” prompt, type the provider name for the depression screening.
  - l. At the “Dep Screening Comment” prompt, type the text of any comment related to the depression screening, using 2–245 characters.

The following are the fields on the **Behavioral Health Visit Update** screen.

**Note:** The Suicide Risk Assessment is not available in the roll and scroll.

18. At the “Any Measurement?” prompt, type **Y** (yes) or **N** (no).

Use **Y** to access the **Measurements** pop-up.

*** Measurements ***		
Measurement Description	Value	Provider

Figure 4-17: Sample **Measurements** pop-up

Measurements will print on the Full Encounter form only (not on the Suppressed Encounter form).

Measurements can only be deleted from the encounter record where they were first recorded.

- a. At the “Measurement” prompt, type the type of measurement being taken on the patient. Then the application populates the Description field.
- b. At the “Value” prompt, type the numeric value of the measurement. If you populate this field with a value outside the valid value range, the application provides information about what valid values can be used for the field.
- c. At the “Provider” prompt, type the name of the provider.

The following are the fields on the **Behavioral Health Visit Update** screen.

19. At the “Any Health Factors to enter?” prompt, type **Y** (yes) or **N** (no) to indicate that you want to record health factor information about the patient. Use **Y** to access the Patient Health Factor Update pop-up.

```

***** PATIENT HEALTH FACTOR UPDATE *****
Examples of health factors: Tobacco Use, Alcohol Cage, TB Status
Patient Name: DEMO,DARRELL LEE
-----
Display Health Factor History? N

After entering each factor you will be prompted for additional data items

HEALTH FACTOR

```

Figure 4-18: Sample **Patient Health Factor Update** pop-up

- At the “Display Health Factor History?” prompt, type **Y** (yes) or **N** (no). Use **Y** to have the health factor history for the current patient display on another screen.
- At the “HEALTH FACTOR” prompt, type the health factor that most closely represents the patient’s health factor status at the encounter for a given health factor category. The other fields about the health factor displays.

```

LEVEL/SERVERITY

QUANTITY

COMMENTS

```

Figure 4-19: Other fields for health factor data

- At the “Level/Severity” prompt, type **M** (Minimal), **MO** (Moderate), or **H** (Heavy/Severe).
- At the “Quantity” prompt, type any integer between 0 and 99999.
- At the “Comments” prompt, type any comments regarding the health factor.

The following are the fields on the **Behavioral Health Visit Update** screen.

20. At the “Display Current Medications?” prompt, type **Y** (yes) or **N** (no) to display a list of currently dispensed medications.

If **Y**, the list displays on the **Output Browser** window.

```

OUTPUT BROWSER           Mar 11, 2009 17:59:30           Page:    1 of    1
Medication List for DEMO,DARRELL LEE

Sig: TAKE TWO (2) TABLETS BY MOUTH DAILY ON TUESDAY, THURSDAY, SATURDAY, AND S
DEXAMETHASONE 0.5MG TAB      # ?           7/17/08
Sig: TAKE ONE (1) TABLET BY MOUTH EVERY MORNING [OUTSIDE MED]

```

```

Enter ?? for more actions                                >>>
+   NEXT SCREEN          -   PREVIOUS SCREEN          Q   QUIT
Select Action: +//

```

Figure 4-20: Sample display of current medications

This **Output Browser** screen is the same as using the Display Meds (DM) option on the Patient Data Entry screen.

At the **Select Action** prompt, do one of the following:

- Type a plus sign (+) to display the new screen of information (does not apply to the last screen).
- Type a hyphen (–) to display the previous screen of information (does not apply to the first screen).
- Type **Q** to exit the window. Focus moves to the next prompt.

The following are the fields on the **Behavioral Health Visit Update** screen.

21. At the “MEDICATIONS PRESCRIBED <enter>” prompt, press Enter to access another screen where you can enter the medications prescribed.

```

==[ WRAP ]==[ INSERT ]===== < SUBJECTIVE/OBJECTIVE >===== [ <PF1>H=Help ]=====

<=====T=====T=====T=====T=====T=====T=====T=====T=====T>=====

```

Figure 4-21: screen to enter medication

See Table 4-1 for a list of the most commonly used RPMS text editor commands.

22. At the “Placement Disposition” prompt, type the active disposition. Use this prompt when hospitalization or placement in a treatment facility is required. Use either the number or first few letters of the placement type. After entering the disposition, the following pop-up displays, as shown in Figure 4-22.

```
Enter the Facility to which the patient was referred
FACILITY REFERRED TO:
```

Figure 4-22: Sample pop-up for facility name

- a. At the “FACILITY REFERRED TO” prompt, type the name of the facility to which the patient was referred.

The following are the fields on the **Behavioral Health Visit Update** screen.

23. At the “Visit Flag” prompt, type the visit flag by using any number between 0 and 999 (no decimal digits). This field is for local use in flagging various types of visits. The site will define a numeric value to indicate the definition of the flag. For example, a 1 might mean any visit on which a narcotic was prescribed. You can then, later on, retrieve all visits with a flag of 1 which will list all visits on which narcotics were prescribed.
24. At the “Local Service Site” prompt, type the local service site.

#### 4.2.2 Edit Record (EV)

Use the EV option to edit a particular visit.

1. At the “Select Action” prompt, type **EV**.
2. At the “Edit Which Record” prompt, type the number of the visit.

The **Behavioral Health Record Edit** window displays.

```

Figure 4-23: Sample **Behavioral Health Record Edit** window

The underlined fields are required.

3. At the “Date” prompt, type the date/time of the visit. Some examples of acceptable formats are as follows:
  - T@1 (Today at 1 PM)
  - 4/3@830
4. At the “Location of Service” prompt, type where the service took place.
5. At the “Program” prompt, type the name of the program with which the provider is affiliated.
6. At the “Outside Location” prompt, type the name of the outside location (3 to 30 characters in length).
7. At the “Clinic” prompt, type the name of the clinic. This field identifies the clinic context. The response must be a clinic that is listed in the RPMS Standard Code Book table.
8. At the “Appt/Walk-in” prompt, type the appointment type, which can be appointment, walk-in, or unspecified (for non-patient contact).
9. At the “Visit Flag” prompt, type the visit flag by using any number between 0 and 999 (no decimal digits). This field is for local use in flagging various types of visits. The site will define a numeric value to indicate the definition of the flag. For example, a 1 might mean any visit on which a narcotic was prescribed. You can then, later on, retrieve all visits with a flag of 1 which will list all visits on which narcotics were prescribed.
10. At the “Type of Contact” prompt, type the contact type (the activity setting).
11. At the “Community” prompt, type the name of the community.
12. At the “Providers <press enter>” prompt, press Enter to access the Enter/Edit Providers of Service pop-up.

```

PROVIDER:                        PRIMARY/SECONDARY:

```

Figure 4-24: Sample **Enter/Edit Providers of Service** pop-up

The underlined fields are required.

- a. At the “PROVIDER” prompt, type the name of the service provider.
- b. At the “PRIMARY/SECONDARY” prompt, type the provider type (primary or secondary). Only one primary provider can be used while there can be more than one secondary provider.

The following are the fields on the **Behavioral Health Record Edit** window.

13. At the “Local Service Site” prompt, type the name of the local service site.
14. At the “Activity” prompt, type the activity code that documents the type of service or activity performed by the Behavioral Health provider. These activities might be patient-related or administrative in nature only. Use only one activity code for each record regardless of how much time is expended or how diverse the services offered. Certain Activity codes are passed to PCC, and this will affect the billing process. See **Appendix A:** for more information.
15. At the “Activity Time” prompt, type the number of minutes spent on the activity. This is how much provider time was involved in providing and documenting the service or performing the activity. Please note, 0 (zero) is not allowed as a valid entry.
16. At the “# Served” prompt, type the number served at the encounter, any integer between 0 and 999.
17. At the “Interpreter Utilized” prompt, type **Y** (yes) or **N** (no). Use **Y** only if an interpreter is required to communicate with the patient.
18. At the “Chief Complaint/Presenting Problem” prompt, type the text that describes the major reason the patient sought services.
19. At the “SOAP/PROGRESS NOTE” prompt, press Enter to access another window to populate with the text of the note. The note can be edited only if it is unsigned.
20. At the “Comment/Next Appointment” prompt, type the text of the comments about the next appointment.
21. At the “Medications Prescribed” prompt, press Enter to access another window where you enter the medications prescribed.
22. At the “Edit Purpose of Visits?” prompt, type **Y** (yes) or **N** (no). Use **Y** to access the Purpose of Visit Update pop-up.

```

Cpt Code:

```

Figure 4-27: Sample **Add/Edit CPT Procedures** window

The underlined fields are required.

- a. At the “CPT Code” prompt, type the CPT Code. These E&M codes are based on the history, examination, complexity of the medical decision-making, counseling, coordination of care, nature of the presenting problem, and the amount of time spent with the patient.
- b. More than one CPT Code can be used.

The following are the fields on the **Behavioral Health Record Edit** window.

25. At the “Edit Health Factors?” prompt, type **Y** (yes) or **N** (no).

Type **Y** to access the Patient Health Factor Update pop-up.

```

***** PATIENT HEALTH FACTOR UPDATE *****
Examples of health factors: Tobacco Use, Alcohol Cage, TB Status
Patient Name: DEMO,DARRELL LEE
-----
Display Health Factor History? N

After entering each factor you will be prompted for additional data items

HEALTH FACTOR

```

Figure 4-28: Sample **Patient Health Factor Update** pop-up.

- a. At the “Display Health Factor History?” prompt, type **Y** (yes) or **N** (no). If the user types **Y**, the health factor history displays on another screen.
- b. At the “HEALTH FACTOR” prompt, type the health factor. The following pop-up displays where other data about the health factor can be specified.

```

LEVEL/SEVERITY

QUANTITY

COMMENTS

```

Figure 4-29: Fields for health factor data

- c. At the “Level/Severity” type one of the following: **M** (minimal), **MO** (moderate), or **H** (heavy/severe).
- d. At the “Quantity” prompt, type any number between 0 and 99999 (no decimal points).
- e. At the “Comment” prompt, type the text of a comment related to the patient’s health factor.

The following are the fields on the **Behavioral Health Record Edit** window.

26. At the “Edit Patient Education?” prompt, type **Y** (yes) or **N** (no).

Use **Y** to access the Patient Education Enter/Edit pop-up.

```

*PATIENT EDUCATION ENTER/EDIT*      [press <F1>C to return to main screen]
Patient Name: DEMO,DARRELL LEE

Figure 4-30: Sample **Patient Education Enter/Edit** screen

- a. At the “Display Patient Education History?” prompt, type **Y** (yes) or **N** (no). Use **Y** to display all education provided in the last two years by BH programs. This history is displayed in the **Output Browser** window.
- b. At the “EDUCATION TOPIC” prompt, type the education topic name. The following pop-up displays where you enter data about the education topic.

```

EDUCATION TOPIC: ABD-COMPLICATIONS

INDIVIDUAL/GROUP: INDIVIDUAL
READINESS TO LEARN:
LEVEL OF UNDERSTANDING:
PROVIDER: THETA,MARK
MINUTES:

COMMENT:
STATUS (Goal):
GOAL COMMENT:

```

Figure 4-31: Sample pop-up for education topic information

The underlined fields are required.

- c. At the “Education Topic” prompt, type the education topic (can be changed).

- d. At the “Individual/Group” prompt, type if the education is for an individual or for a group.
- e. At the “Readiness to Learn” prompt, type one of the following:
  - **Distraction:** Use when the patient has limited readiness to learn because the distractions cannot be minimized.
  - **Eager to Learn:** Use when the patient is exceedingly interested in receiving education.
  - **Intoxication:** Use when the patient has decreased cognition due to intoxication with drugs or alcohol.
  - **Not Ready:** Use when the patient is not ready to learn.
  - **Pain:** Use when the patient has a level of pain that limits readiness to learn.
  - **Receptive:** Use when the patient is ready or willing to receive education.
  - **Severity of Illness:** Use when the patient has a severity of illness that limits readiness to learn.
  - **Unreceptive:** Use when the patient is NOT ready or willing to receive education.
- f. At the “Level of Understanding” prompt, type the level of understanding. Use one of the following:
  - **1** (Poor)
  - **2** (Fair)
  - **3** (Good)
  - **4** (Group No Assessment)
  - **5** (Refused)
- g. At the “Provider” prompt, the name of the provider for the visit (can be changed). The default is the current logged-in user.
- h. At the “Minutes” prompt, type the number of minutes spent on education, using any integer 1–9999.
- i. At the “Comment” prompt, type the text of any comments about the education topic for the visit, if any.
- j. At the “Status (Goal)” prompt, type the status of the education, if any. Use one of the following:
  - **GS** – Goal Set
  - **GM** – Goal Met
  - **GNM** – Goal Not Met

- **GNS** – Goal Not Set

k. At the “Goal” prompt, type the text of the stated goal of the education, if any.

The following are the fields on the **Behavioral Health Record Edit** window.

27. At the “Edit Any Screening Exams?” prompt, type **Y** (yes) or **N** (no) for any Intimate Partner Violence, Alcohol Screen, or Depression Screening performed during the encounter.

Use **Y** to access the following pop-up screen, as shown in Figure 4-32.

```

Intimate Partner Violence (IPV/DV)  Display IPV/DV screening history?  N
  IPV Screening/Exam Result:
  IPV Screening Provider:
  IPV COMMENT:

Alcohol Screening                Display Alcohol Screening History?  N
  Alcohol Screening Result:
  Alcohol Screening Provider:
  Alcohol Screening Comment:

Depression Screening             Display Depression Screening History?  N
  Depression Screening Result:
  Depression Screening Provider:
  Dep Screening Comment:

```

Figure 4-32: Sample IPV, Alcohol Screening, and Depression Screening pop-up

- At the “Display IPV/DV Screening History?” prompt, type **Y** (yes) or **N** (no). If you use **Y**, the IPV/DV screening history displays on another screen.
- At the “IPV Screening/Exam Result” prompt, type the result of the intimate partner violence/domestic violence screening. Use one of the following:
  - **N** – Negative
  - **PR** – Present
  - **PAP** – Past and Present
  - **PA** – Past
  - **UAS** – Unable to screen
  - **REF** – Patient Refused Screening
  - **Referral Needed**
- At the “IPV Screening Provider” prompt, type the IPV/DV provider name.
- At the “IPV Comment” prompt, type the text of any comment related to the IPV/DV screening, using 2–245 characters.
- At the “Display Alcohol Screening History?” prompt, type **Y** (yes) or **N** (no). If **Y** was used, the alcohol screening history displays on another screen.

- f. At the “Alcohol Screening Result” prompt, type the result of the alcohol screening. Use one of the following:
  - **N** – Negative
  - **P** – Positive
  - **UAS** – Unable to screen
  - **REF** – Patient Refused Screening
  - **Referral Needed**
- g. At the “Alcohol Screening Provider” prompt, type the provider name for the alcohol screening.
- h. At the “Alcohol Screening Comment” prompt, type the text of any comment related to the alcohol screening, using 2–245 characters.
- i. At the “Display Depression Screening History?” prompt, type **Y** (yes) or **N** (no). If **Y**, the depression screening history displays on another screen.
- j. At the “Depression Screening Result” prompt, type the result of the depression screening. Use one of the following:
  - **N** – Negative
  - **P** – Positive
  - **UAS** – Unable to screen
  - **REF** – Patient Refused Screening
  - **Referral Needed**
- k. At the “Depression Screening Provider” prompt, type the provider name for the depression screening.
- l. At the “Dep Screening Comment” prompt, type the text of any comment related to the depression screening, using 2–245 characters.

The following are the fields on the **Behavioral Health Record Edit** window.

<b>Note:</b> The Suicide Risk Assessment is not available in the roll and scroll.
---

28. At the “Edit Measurements?” prompt, type **Y** (yes) or **N** (no).

Type **Y** to access the **Measurements** pop-up.

```

*** Measurements ***
Measurement Description      Value      Provider
-----

```

Figure 4-33: Sample **Measurements** pop-up

- a. At the “Measurement” prompt, type the measurement type being taken on the patient. Then the application populates the **Description** field.
- b. At the “Value” prompt, type the numeric value of the measurement. The value must be in the valid numeric range for the measurement.
- c. At the “Provider” prompt, type the name of the provider.

The following are the fields on the **Behavioral Health Record Edit** window.

29. At the “Placement Disposition” prompt, type the placement disposition. This is a required field used when hospitalization or placement in a treatment facility is required.
30. At the “Referred to” prompt, type the name of the facility, using 2–30 characters. This field is required when the Placement Disposition is populated.

After you exit the window, the application displays the following prompt about your signature code. This prompt only displays where you are the primary provider for the visit and the SOAP/Progress Note is unsigned.

31. At the “Enter your Current Signature Code” prompt, type your (valid) signature code. This signature applies to the SOAP/Progress Note associated with the current visit. Section 2.14 provides more information on the Electronic Signature.

If you do not populate with your electronic signature and leave the window, the application will display the message: No PCC Link. Note not signed. After you press Enter to continue, the application displays the message: There is no electronic signature, this visit will not be passed to PCC.

The **Other Information** window displays, as shown in Figure 4-34.

```

***** OTHER INFORMATION *****

Update, add or append any of the following data

1). Update any of the following information:
   Designated Providers, Patient Flag
2). Patient Case Open/Admit/Closed Data
3). Personal History Information
4). Appointments (Scheduling System)
5). Treatment Plan Update

```

```

6). Print an Encounter Form
7). Add/Update/Print Intake Document
8). Add/Update Suicide Forms
9). Provide List Update
10). None of the Above (Quit)
Choose one of the above: (1-9): 9//

```

Figure 4-34: **Other Information** window

Use Option 10 to exit the **Other Information** window. After selecting Option 10, one of the following will happen:

- If there was not an appointment the patient was checked in for using the scheduling package, you return to the previous window.
- If there was an appointment the patient was checked in for using the scheduling package, the application displays more prompts. Please note the following about these prompts:
  - If the facility is not using the scheduling package and doesn't have the Interactive PCC Link in the site parameters turned on, you will never be presented with the ability to link it to a PCC visit.
  - If there is no visit in PCC (patient never checked in, no appointment or walk in was ever created using the scheduling package and no other clinics saw the patient that day), then the option to link is never presented and the BH visit continues to create a new visit in PCC.

Figure 4-35 shows the prompts for linking.

```

Generating PCC Visit.

PATIENT: BETAA,EMILY MAE has one or more VISITs on Mar 09, 2010@12:00.
If one of these is your visit, please select it

```

Figure 4-39: Sample **BH Visit Record Display** window

#### 4.2.4 Delete Record (DE)

Use the DE option to delete a particular record.

1. At the “Select Action” prompt, type **DE**.
2. At the “Display Which Record” prompt, type the number of the record to delete.

The application displays the information about the record.

3. At the “Are you sure you want to DELETE this record?” prompt, type **Y** (yes) or **N** (no).

If **Y** was used, the application displays: Record deleted. Press Enter to continue.

#### 4.2.5 Print Encounter Form (PF)

Use the PF option to print/browse the encounter form for a specified date.

1. At the “Select Action” prompt, type **PF**.
2. At the “Print Which Record” prompt, type the number of the record.
3. At the “What type of form do you want to print” prompt, type the form you want to print. Use one of the following:
  - **F** Full Encounter Form
  - **S** Suppressed Encounter Form
  - **B** Both a Suppressed & Full
  - **T** Two copies of the Suppressed
  - **E** Two copies of the Full
    - A full encounter form prints all data for a patient encounter including the SOAP note.
    - The suppressed version of the encounter form will not display the following: (1) the Chief Complaint/Presenting Problem, (2) the SOAP note for confidentiality reasons, (3) the measurement data, and (4) screenings. It is important to note that the SOAP note, chief complaint/presenting problem, and measurements will be suppressed, but the comment/next appt, activity code, and POV will still appear on the printed encounter.

At the “DEVICE” prompt, type the device to output the data.

4. At the “DEVICE” prompt, type the device to output the data.

Figure 4-40 is the data for a Suppressed Encounter form.

```

## 4.2.6 Health Summary

Use the HS option to display the health summary information about a selected record.

- At the “Select Action” prompt, type **HS**.
- At the “Patient” prompt, the patient’s HRN, name, SSM or DOB.
- At the “Select HEALTH SUMMARY TYPE NAME” prompt, type the health summary type to use.

The PCC Health Summary for the patient displays.

## 4.2.7 SOAP.CC Edit (ES)

Use the ES option (on the **Patient Data Entry** window) to edit the SOAP note for a specified patient visit, as well the text for Chief Complaint, Comment/Next Appointment, and Medications Prescribed. Please note that this applies only to records with unsigned notes.

1. At the “Select Action” prompt, type **ES**.
2. At the “Edit Which Record” prompt, type the number of the record.
3. At the “CHIEF COMPLAINT” prompt, type the chief complaint (Free Text), if any, using between 2-80 characters in length. If there is existing text, you can change it. This information describes the major reason the patient sought services.
4. At the “SOAP/PROGRESS NOTE No existing text” prompt, if there is existing text, it appears below the “SOAP/PROGRESS NOTE” prompt. You can edit this text (just like entering new note).
  - a. At the “Edit? NO//” prompt, type **Y** (yes) or **N** (no).  
 If N, the other prompts continue.  
  
 If Y, you access another window where you can edit the text of the SOAP/Progress Note.

Figure 4-42: Window to enter the note

See Table 4-1 for a list of the most commonly used RPMS text editor commands.

5. At the “COMMENT/NEXT APPOINTMENT - No existing text” prompt, if there is existing text, it appears below the COMMENT/NEXT APPOINTMENT prompt. You can edit this text (just like entering new note).
  - a. At the “Edit? NO//” prompt, type **Y** (yes) or **N** (no).  
 If N, the other prompts continue.

If Y, you access another window where you can edit the text of the COMMENT/NEXT APPOINTMENT note.

Figure 4-43: Window to enter the note

See Table 4-1 for the most commonly used RPMS text editor commands.

6. At the “MEDICATIONS PRESCRIBED - No existing text” if there is existing text, it appears below the “MEDICATIONS PRESCRIBED” prompt. You can edit this text (just like entering new note).

- a. At the “Edit? NO//” prompt, type **Y** (yes) or **N** (no).

If N, the other prompts continue.

If Y, you access another window where you can edit the text of the COMMENT/NEXT APPOINTMENT note.

Figure 4-44: Window to enter the note

See Table 4-1 for the most commonly used RPMS text editor commands.

The electronic signature might be needed after you exit. Section 2.14 provides more information about the Electronic Signature.

#### 4.2.8 Switch Dates (SD)

Use the SD option to change the encounter date.

1. At the “Select Action” prompt, type **SD**.
2. At the “Enter Date” prompt, type date to be used.

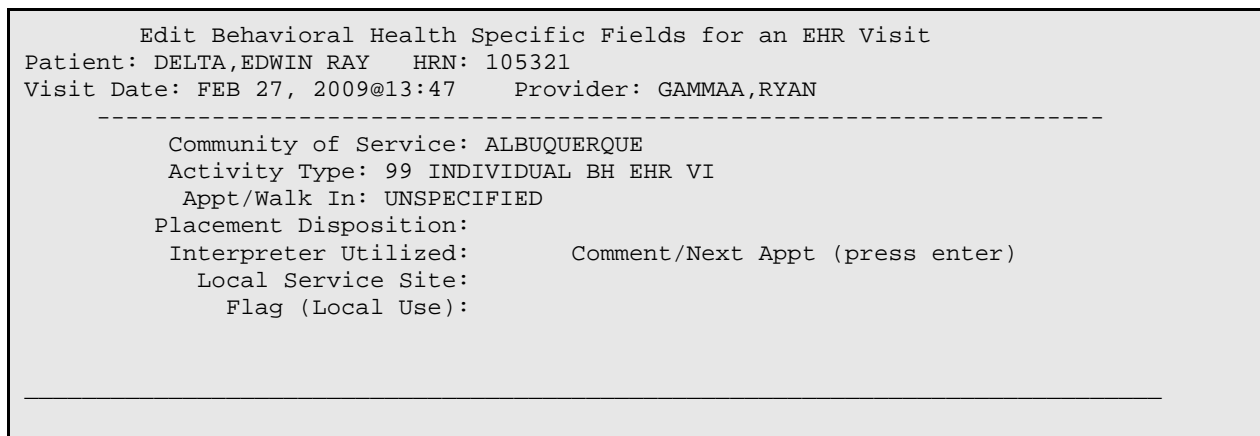

The application changes the date of the encounter.

#### 4.2.9 Edit EHR Visit (EH)

Use the EH option to edit a selected BH visit that was entered in the Electronic Health Record (EHR) application. (The same prompts display if you use the EHRE [Edit BH Data Elements of EHR created Visit] option on the IHS Behavioral Health System Data Entry Menu. In this option, you specify the patient name before specifying the encounter date.)

1. At the “Select Action” prompt on the **Patient Data Entry** screen, type **EH**.
2. At the “Edit Which Record” prompt, type the number of the BH encounter that was entered for a particular patient through the EHR.

The **Edit Behavioral Health Specific Fields for an EHR Visit** window displays.

Figure 4-45: Sample information about editing a BH visit entered through the EHR

The underlined fields are required.

3. At the “Community of Service” prompt, type the community of service where the encounter took place.
4. At the “Activity Type” prompt, type the activity type for the visit.
5. At the “Appt/Walk In” prompt, type the visit type: appointment, walk-in, or unspecified (for non-patient contact).
6. At the “Placement Disposition” prompt, type any active disposition (such as Alcohol/Drug Rehab). This is used when hospitalization or placement in a treatment facility is required.

After you populate this field, a pop-up window displays, as shown in Figure 4-46.

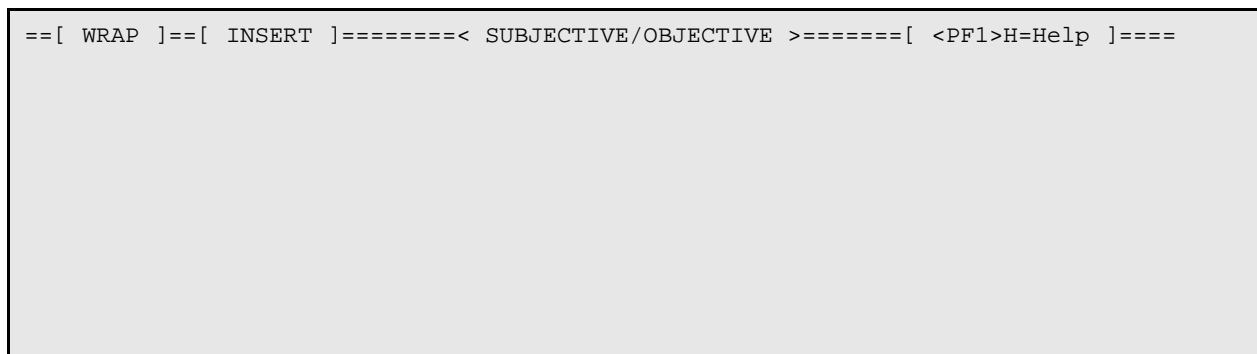

Figure 4-46: Pop-up window asking for facility referred to

- a. At the “Facility Referred to” prompt, type the facility name to which the patient was referred, using 2–30 characters. This is a Free Text field.

The prompts continue on the **Edit Behavioral Health Specific Fields for an EHR Visit** window.

7. At the “Interpreter Utilized” prompt, type **Y** (yes) or **N** (no). This indicates if an interpreter was used in the visit. Use Y if an interpreter was required to communicate with the patient.
8. At the “Comment/Next Appt (press Enter)” prompt, press Enter to access another window where you can populate the field with the text of a comment about the next appointment.

Figure 4-47: Window to enter the note

See Table 4-1 for the most commonly used RPMS text editor commands.

- At the “Local Service Site” prompt, type the local service site for the visit.

At the “Flag (Local Use)” prompt, type any local flag (0 to 999) used in flagging various types of visits. The site will define a numeric value to indicate the definition of the flag. For example, a 1 might mean any visit on which a narcotic was prescribed. You can then, later on, retrieve all visits with a flag of 1 which will list all visits on which narcotics were prescribed.

#### 4.2.10 Sign Note

Use the SN option to sign a note (that is not signed) in a visit record. You can only sign notes where you are the primary provider.

- At the “Select Action” prompt, type **SN**.

After using SN, one of two actions happen: (1) If there are no notes to sign, the application displays the message: There are no records with unsigned notes that need to be signed; or (2) if there are notes to be signed, the application displays the Behavioral Health visits for the current patient where you are the primary provider. Please note that visits with a blank SOAP/Progress Note will not appear on the list.

Behavioral Health visits for ALPHA,CHELSEA MARIE								
#	PROVIDER	LOC	DATE	ACT	CONT	PATIENT	PROB	NARRATIVE
1	THETA,SHIRLE	WW	05/12/2009	OUTP	WW	116431	F42.	HOARDING DISORDER

Figure 4-48: List of records that you can change

The prompts continue.

- At the “Which record do you want to display” prompt, type the number of the record you want to use.

The application displays the **BH Visit Record Display** window (for the particular record).

After you quit the **BH Visit Record Display** window, the application asks if you want to edit this record.

- If N, you exit the sign note process.
- If Y, the application displays the **Edit SOAP** window.

After you save and exit this window, the application displays the signature code prompt.

3. At the “Enter your Current Signature Code” prompt, type your (valid) signature code. This signature applies to the SOAP/Progress Note associated with the current visit. Section 2.14.6 provides more information about signing a note. After typing your signature code, the **OTHER INFORMATION** screen displays.

If you do not populate with your electronic signature (or if you use an invalid signature three times) you will leave the window. After you quit, the application displays the message: There is no electronic signature; this visit will not be passed to PCC.

#### 4.2.11 Display TIU Note (TN)

Use the TN option to display a particular TIU note.

1. At the “Select Action” prompt, type **TN**.
2. At the “Display Note for Which Record” prompt, type the number of the record to use.

### 4.3 Display Record Options (DSP)

Use the DSP option to access the Data Entry Menu Display Options.

### 4.4 Visit Window (GUI)

Behavioral Health System (GUI) tree structure. You access the **Visit** window for one patient.

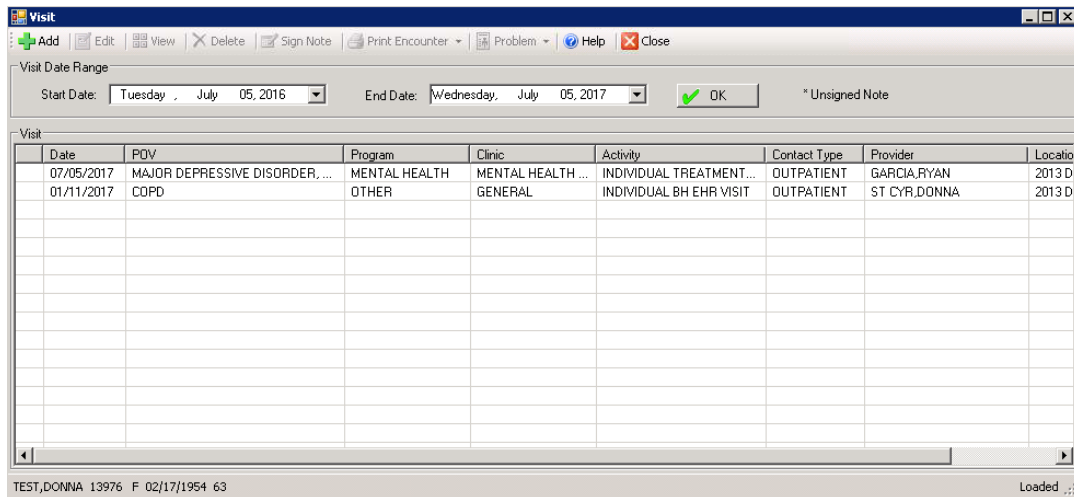

Figure 4-49: **Visit** window for one patient

Use the **Visit** for one patient window to manage the visits within a particular date range for the current patient (the name displays in the lower, left corner of the window). If there is no current patient, you will be asked to select one. The default date range is one year.

Another way to access the **Visit** window for the patient is to use the **All Patients** option on the RPMS Behavioral Health System (GUI) tree structure. You access the **Visit** window for all patients.

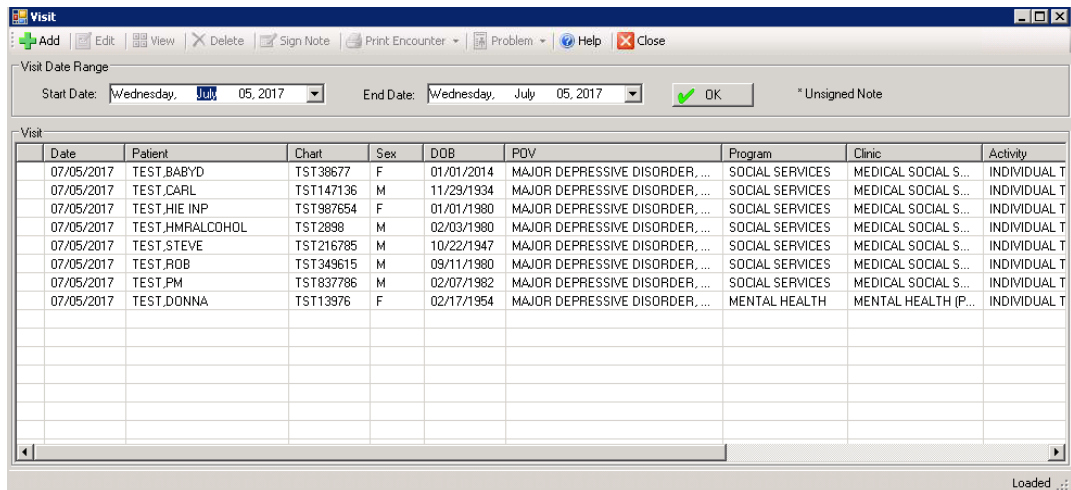

Figure 4-50: Sample **Visit** window for all patients

Use the **Visit** window for all patients to manage the visits for a selected patient. These visits are in the date range displayed in the **Visit Date Range** group box. The default date range is one day.

The following are features of both windows.

The following table provides information about the other features of the window.

Table 4-2: **Visit** window features and functions

<b>Feature</b>	<b>Functionality</b>
<b>Visit</b> window (for one patient)	<p>The default <b>Start Date</b> is one year prior.</p> <p>Change the date range by clicking the list to access a calendar. After the date range is changed, click <b>OK</b> to redisplay the records in the Visit list box.</p> <p><b>Note:</b> If you change the <b>Start Date</b> for the <b>Visit</b> window for one patient, this change stays in effect in future sessions of the GUI application for the <b>Visit</b> window for one patient (until you change it again).</p>
<b>Visit</b> window (for all patients)	<p>The default <b>Start Date</b> is today.</p> <p>You can change the default <b>Start Date</b> and the application maintains that Start Date until you exit the application. Then, when you log in again, the Start Date reverts to today's date.</p>
<b>Visit</b> list box	<p>The <b>Visit</b> list box shows the Visit records in the particular Visit Date Range.</p> <p>The asterisk (*) in the first column indicates that the particular record contains an unsigned note. See section 2.14.5 Signing a Note (GUI) for more information.</p>
<b>Add</b> button	<p>Establish the patient to use in the add process. Use the <b>Add</b> button to add a new Visit record. You access the <b>Visit Data Entry - Add Visit</b> dialog.</p>
<b>Edit</b> button	<p>Use the <b>Edit</b> button to edit a particular Visit record. You access the <b>Visit Data Entry - Edit Visit</b> dialog.</p>
<b>View</b> button	<p>Use the <b>View</b> button (or double-click on a record) to browse a particular Visit record. This window has the same fields as the <b>add/edit visit</b> dialog, except for the Intake and <b>Suicide Form</b> tabs.</p>
<b>Delete</b> button	<p>Use the <b>Delete</b> button to delete a particular Visit record. The application confirms the deletion.</p> <p><b>Note:</b> Visit records with a signed SOAP/Progress Notes can only be deleted by users that have the AMHZ DELETE SIGNED NOTE security key.</p>
<b>Sign Note</b> button	<p>Use the <b>Sign Note</b> button to sign the note of an "unsigned" record (asterisk [*] in the first column).</p>
<b>Problem</b> button	<p>Select a record and then click the <b>Problem</b> button to access either a <b>BH Problem List</b> or the <b>PCC Problem</b> list.</p>

Feature	Functionality
<b>Print Encounter</b> button	Use the <b>Print Encounter</b> button to print the encounter data about a particular Visit record. The <b>Print Encounter</b> button has these options: Full, Suppressed, Both Full and Suppressed. Please note that the Intake document and Suicide Reporting Form must be printed elsewhere and will not appear on a printed encounter form. The suppressed report does NOT display the following information: Chief Complaint, SOAP note, measurement data, patient education data, screenings. After selecting one of the options, the application displays the first page of the <b>Print Encounter</b> pop-up window.
<b>Problem</b> button	Select a visit and then click the <b>Problem</b> button to manage the patient's Behavioral Health and PCC problems.
<b>Help</b> button	Click the <b>Help</b> button on the Visit window to access the online help for the window.
<b>Close</b> button	Click the <b>Close</b> button on the Visit window to exit the window.

## 4.5 Add/Edit Visit Data Entry

Use the **Add** button on the **Visit** window to add a new record.

1. Establish the patient to use in the add process.
2. Do one of the following:
  - Click **Add** to add a visit for the current patient. The application displays the **Visit Data Entry–Add Visit** dialog.
  - Click **Edit** to edit the selected visit for the current patient. The application displays the **Visit Data Entry–Edit** Visit dialog. The **Edit** button will be inactive if the patient does not have any previous visits.

Below is a sample **Visit Data Entry - Add Visit** dialog. (The same fields appear on the **Visit Data Entry - Edit Visit** dialog.)

Figure 4-51: **Visit Data Entry - Add Visit** window

The table below provides information about the features on this window.

Table 4-3: Add Visit window features and functions

Feature	Functionality
<b>Help</b> button	Click this button to access the online help about this window.
<b>Save</b> button	Click this button after adding or changing this window. (See below for more information).
<b>Close</b> button	Click this button to not save any changed. (See below for more information).

The Save process saves the changes and dismisses the add/edit window. If you added a SOAP/Progress note, you will be asked if you want to sign the note. Section 2.14.5 provides more information about the Electronic Signature (GUI).

- If there was not an appointment the patient was checked in for in the scheduling package, you return to the **Visit** window.

- If there was an appointment the patient was checked in for in the scheduling package and it is set to create a visit at check-in, the application displays the **Select PCC Visit** window. Section 4.5.9 provides more information about this window. Please note the following about this option:
  - If the facility is not using the scheduling package and doesn't have the Interactive PCC Link in the site parameters turned on, you will never be presented with the ability to link it to a PCC visit.
  - If there is no visit in PCC (patient never checked in, no appointment or walk in was ever created in the scheduling package and no other clinics saw the patient that day), then the option to link is never presented and the BH visit continues to create a new visit in PCC.

The Close process displays the **Continue?** dialog. This dialog states: **Unsaved Data Will Be Lost, Continue?**

- Click **Yes** to not save; this dismisses the data entry window.

Click **No** and the focus remains on the data entry window where you can continue work.

#### 4.5.1 Visit Information Group Box

Use the **Visit Information** group box to enter data about the visit.

Figure 4-52: **Visit Information** group box

The fields in bold text are required.

1. At the **Primary Provider** field, select the primary provider. The default is the current provider. Change this field by clicking the list to access the **Primary Provider** search/select window.

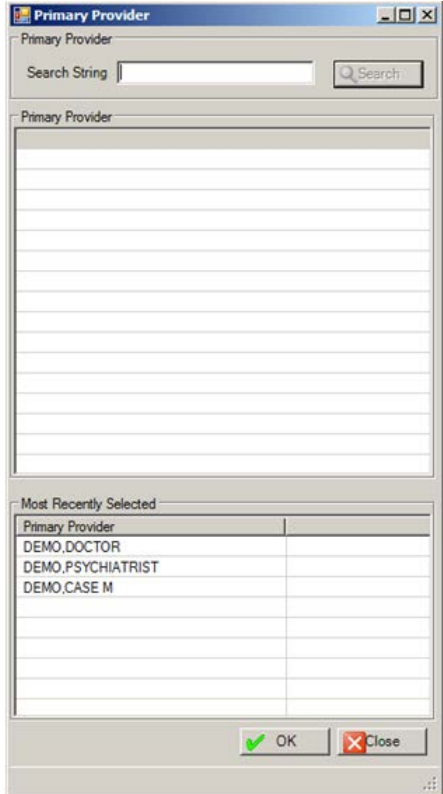

Screen Capture	What to Do
	<p>Use this search window in one of two ways:</p> <p>(1) Use the <b>Search String</b> field by typing the provider's last name and then clicking Search. The retrieved providers will populate the <b>Provider</b> list box. Select a retrieved record and click <b>OK</b> to populate the <b>Provider</b> field. (Otherwise, click <b>Close</b>.)</p> <p>(2) Select a name in the <b>Most Recently Selected</b> list box and click <b>OK</b> to populate the <b>Provider</b> field. (Otherwise, click <b>Close</b>.)</p>

Figure 4-53: Primary Provider search/select window

2. At the **Enter Date/Time** field, type the date/time. The default is the current date and time. Change the date by clicking the list to access the calendar. You can manually change the time. (This field can be changed during Edit).
3. At the **Program** field, select the program associated with the visit from the list.
  - **Mental health**
  - **Social services**
  - **Other**
  - **Chemical Dependency**

After selecting the program, the application automatically populates the remaining fields if the defaults were set up on the **Site Parameters** menu.

4. At the **Encounter Location** field, type the encounter location. This field determines the location of the encounter. Change this field by clicking the list to access the **Location** search window.

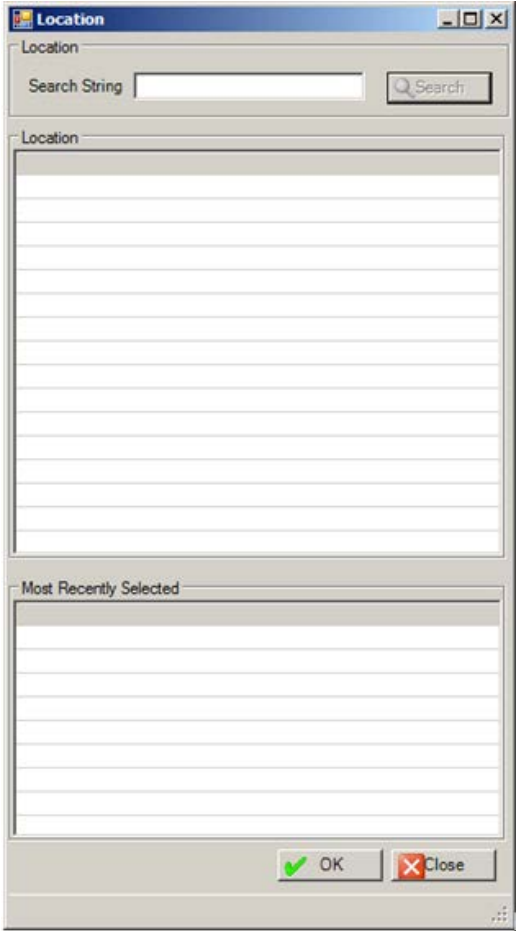

Screen Capture	What to Do
	<p>Use this search window in one of two ways:</p> <p>(1) Use the <b>Search String</b> field by typing the location and then clicking <b>Search</b>. The retrieved locations will populate the Location list box. Select a location and click <b>OK</b> to populate the <b>Encounter Location</b> field. (Otherwise, click <b>Close</b>.)</p> <p>(2) Select a name in the <b>Most Recently Selected</b> list box and click <b>OK</b> to populate the <b>Encounter Location</b> field. (Otherwise, click <b>Close</b>.)</p>

Figure 4-54: **Location** search window

- At the **Clinic** field, select the name of the clinic. This field identifies the clinic context. The response must be a clinic that is listed in the RPMS Standard Code Book table. Change this field by clicking the list to access the **Clinic** search window.

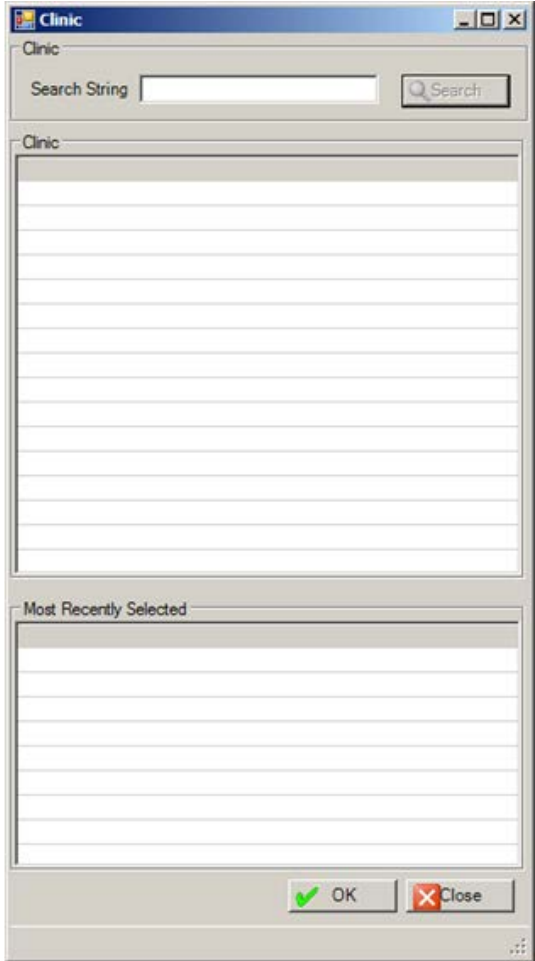

Screen Capture	What to Do
	<p>Use this search window in one of two ways:</p> <p>(1) Use the <b>Search String</b> field by typing the clinic and then clicking <b>Search</b>. The retrieved clinics and their codes will populate the <b>Clinic</b> list box. Select a clinic and click <b>OK</b> to populate the <b>Clinic</b> field. (Otherwise, click <b>Close</b>.)</p> <p>(2) Select a clinic in the <b>Most Recently Selected</b> list box and click <b>OK</b> to populate the <b>Clinic</b> field. (Otherwise, click <b>Close</b>.)</p>

Figure 4-55: **Clinic** search window

6. At the **Appointment or Walk-In** field, select the type of visit form the list. Use one of the following:
  - **Appointment**
  - **Walk In**
  - **Unspecified (for non-patient contact)**
7. At the **Type of Contact** field, type the contract type (the activity setting). Click the list to access the **Type of Contact** window.

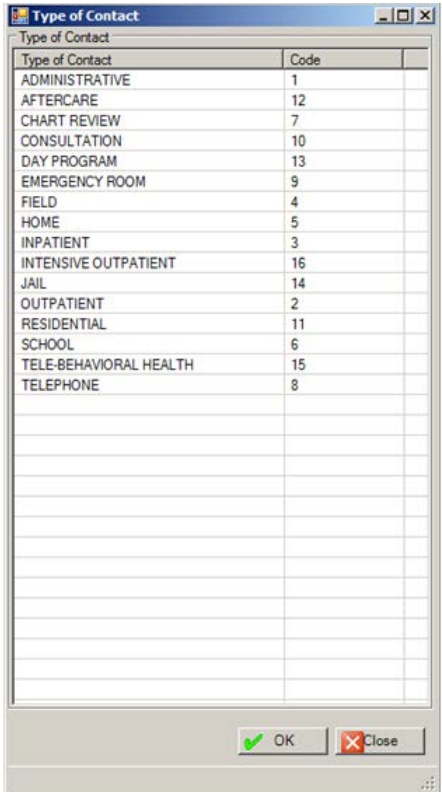

Screen Capture	What to Do																																		
 <p>The screenshot shows a window titled "Type of Contact" with a table containing the following data:</p> <table border="1"> <thead> <tr> <th>Type of Contact</th> <th>Code</th> </tr> </thead> <tbody> <tr><td>ADMINISTRATIVE</td><td>1</td></tr> <tr><td>AFTERCARE</td><td>12</td></tr> <tr><td>CHART REVIEW</td><td>7</td></tr> <tr><td>CONSULTATION</td><td>10</td></tr> <tr><td>DAY PROGRAM</td><td>13</td></tr> <tr><td>EMERGENCY ROOM</td><td>9</td></tr> <tr><td>FIELD</td><td>4</td></tr> <tr><td>HOME</td><td>5</td></tr> <tr><td>INPATIENT</td><td>3</td></tr> <tr><td>INTENSIVE OUTPATIENT</td><td>16</td></tr> <tr><td>JAIL</td><td>14</td></tr> <tr><td>OUTPATIENT</td><td>2</td></tr> <tr><td>RESIDENTIAL</td><td>11</td></tr> <tr><td>SCHOOL</td><td>6</td></tr> <tr><td>TELE-BEHAVIORAL HEALTH</td><td>15</td></tr> <tr><td>TELEPHONE</td><td>8</td></tr> </tbody> </table> <p>At the bottom of the window are "OK" and "Close" buttons.</p>	Type of Contact	Code	ADMINISTRATIVE	1	AFTERCARE	12	CHART REVIEW	7	CONSULTATION	10	DAY PROGRAM	13	EMERGENCY ROOM	9	FIELD	4	HOME	5	INPATIENT	3	INTENSIVE OUTPATIENT	16	JAIL	14	OUTPATIENT	2	RESIDENTIAL	11	SCHOOL	6	TELE-BEHAVIORAL HEALTH	15	TELEPHONE	8	<p>Use this window as follows:</p> <ol style="list-style-type: none"> <li>(1) Select a type of contact from the list.</li> <li>(2) Click <b>OK</b> to populate the <b>Type of Contact</b> field. Figure 4-56: **Type of Contact** window

- At the **Community of Service** field, type the name of the community of service where the encounter took place. Change this field by clicking the list to access the **Community** search window.

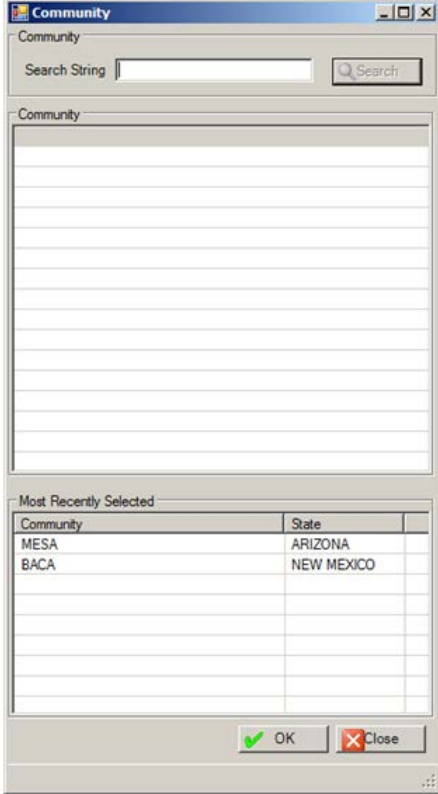

Screen Capture	What to Do
	<p>Use this search window in one of two ways:</p> <p>(1) Use the <b>Search String</b> field by typing the community name and then clicking <b>Search</b>. The retrieved community names and their states will populate the <b>Community</b> list box. Select a community and click <b>OK</b> to populate the <b>Community of Service</b> field. (Otherwise, click <b>Close</b>.)</p> <p>(2) Select a community in the <b>Most Recently Selected</b> list box and click <b>OK</b> to populate the <b>Community of Service</b> field. (Otherwise, click <b>Close</b>.)</p>

Figure 4-57: **Community** search window

## 4.5.2 POV Tab

Use the **POV** tab to add, edit, or delete the **Purpose of Visit (POV)** for the encounter.

Figure 4-58: **POV** ab on **Visit Data Entry** window

You can add, edit, or delete POV records on this window.

## Add Button

1. Click **Add**.
2. The **POV** search/select window displays.

Figure 4-59: **POV** search/select window

3. At the **Search String** field, type a few characters of the search criteria.
4. Click **Search**; the retrieved records display in **POV** list box (the POV and its narrative).
5. To add one or more selected records from the **POV** list box to the **Selected Items** list box, click the right arrow button.
6. In addition, select one or more items in the **Most Recently Search** list box and click the right arrow button. This adds those records to the **Selected Items** list box.
7. Similarly, remove one or more selected records from the **Selected Items** list box by clicking the left arrow button.
8. When the records in the **Selected Item** list box is complete, click **OK** and the records populate the **POV** tab. (Otherwise, click **Close**.)

**Delete Button**

9. Select the POV record to delete.
10. Click the **Delete** button.
11. The **Are You Sure** confirmation message displays; click **Yes** to remove the selected record from the list box. (Otherwise, click **No**.)

**Edit Button**

12. Select a POV record to edit.
13. Click **Edit**.
14. The application displays the **Edit POV** dialog.

Figure 4-60: **Edit POV** dialog

- a. At the **Narrative** field, type the new POV narrative, using 2–80 characters. This is a Free Text field.
- b. Click **OK** to save the change the narrative of the selected code on the **POV** tab. (Otherwise, click **Close**.)

### 4.5.3 Activity Tab

Use the **Activity** tab to manage Activity data about the visit for the current patient.

POV | Activity | SOAP/Progress Notes | Rx Notes/Labs | Wellness | Measurements | Intake | Suicide Form

Activity

**Activity** HEALTH PROMOTION  **Activity Time** 10

Visit Flag  Local Service Site

Interpreter Utilized? **Number Served** 1

Code	Narrative	Quant	Mod 1	Mod 2	
					<input type="button" value="+ Add"/>
					<input type="button" value="X Delete"/>

Secondary Providers for this Visit

Provider	
	<input type="button" value="+ Add"/>
	<input type="button" value="X Delete"/>

Figure 4-61: **Activity** tab on the **Visit Data Entry** window

### Activity Group Box

Figure 4-62 shows the **Activity** group box.

Activity

**Activity**  **Activity Time**

Visit Flag  Local Service Site

Interpreter Utilized? **Number Served**

Figure 4-62: **Activity** group box

The fields in bold text are required.

1. At the **Activity** field, select the activity code that documents the type of service or activity performed by the Behavioral Health provider. These activities might be patient-related or administrative in nature only. Use only one activity code for each record regardless of how much time is expended or how diverse the services offered. Certain Activity codes are passed to PCC, and this will affect the billing process. Click the list to access the **Activity** search window and search for the activity name. Section Appendix A: provides more information about the Activity Codes and Definitions.

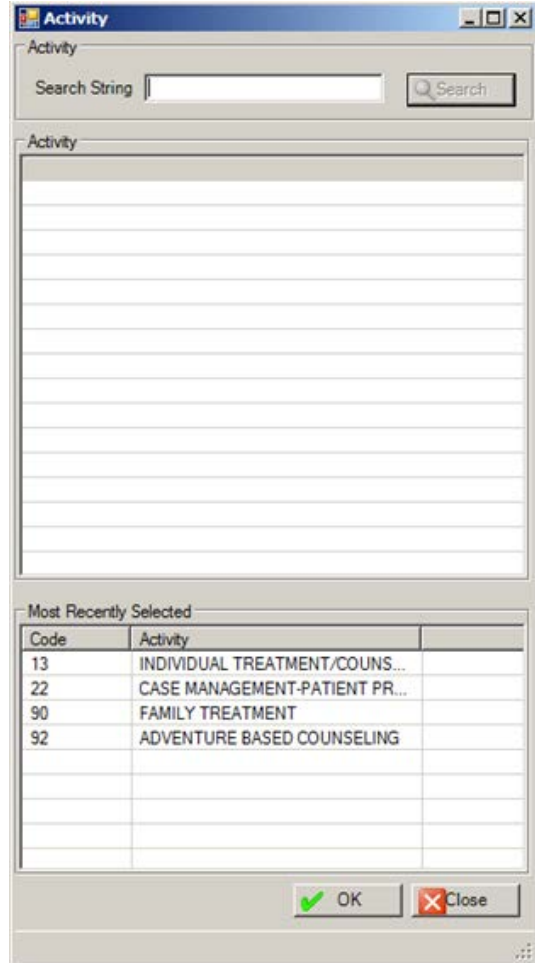

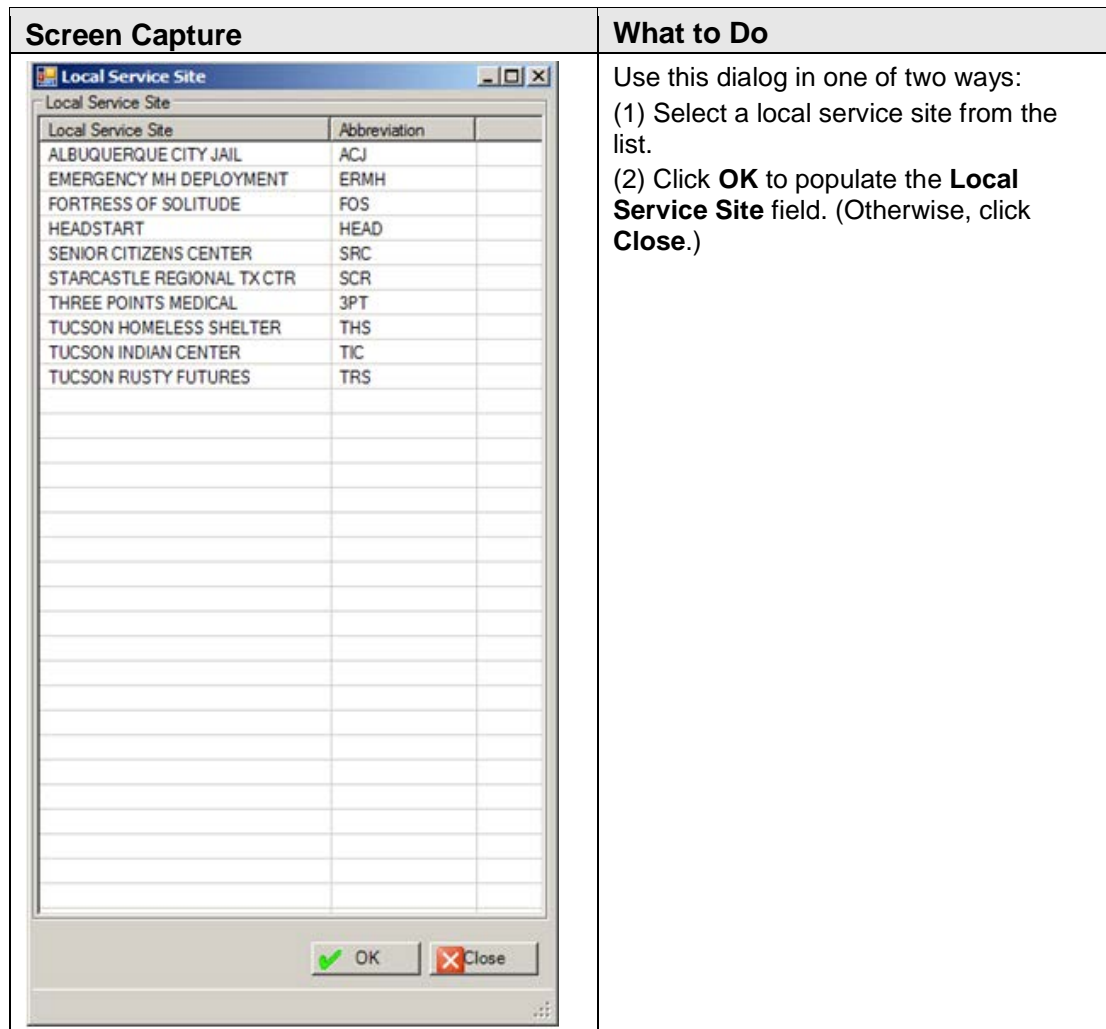

Screen Capture	What to Do
	<p>Use this search window in one of two ways:</p> <p>(1) Use the <b>Search String</b> field by typing the activity name and then clicking <b>Search</b>. The retrieved activity code and activity name will populate the <b>Activity</b> list box. Select a retrieved record and click <b>OK</b> to populate the <b>Activity</b> field. (Otherwise, click <b>Close</b>.)</p> <p>(2) Select an activity record in the <b>Most Recently Selected</b> list box and click <b>OK</b> to populate the <b>Activity</b> field. (Otherwise, click <b>Close</b>.)</p>

Figure 4-63: **Activity** search window

2. At the **Activity Time** field, type the activity time, using any number between 1 and 9999 (no decimal digits). The understood units of measure are minutes. This required field determines how much provider time was involved in providing and documenting the service or performing the activity.
3. At the **Visit Flag** field, type the visit flag by using any number between 0 and 999 (no decimal digits). This field is for local use in flagging various types of visits. The site will define a numeric value to indicate the definition of the flag. For example, a 1 might mean any visit on which a narcotic was prescribed. You can then, later on, retrieve all visits with a flag of 1 which will list all visits on which narcotics were prescribed.
4. At the **Local Service Site** field, select the local service site. Click the list to access the **Local Service Site** window.

Figure 4-64: **Local Service Site** window

5. At the **Interpreter Utilized?** field, select this check box if an interpreter is required to communicate with the patient.
6. At the **Number Served** field, type the number served, using any number between 1 and 9999 (no decimal digits). The default is 1. This required field refers to the number of people directly served during a given activity and always is used for direct patient care as well as for administrative activities. Group activities or family counseling are examples where other numbers might be listed.

### CPT Codes Group Box

Use the **CPT Codes** group box to manage the CPT codes used during the encounter.

You can add or delete records in this group box.

### Delete Button

1. Select a CPT code record to delete.

- a. Select a retrieved CPT Code.
- b. At the **Quantity** field, type the number of CPT codes to use to help facilitate billing.
- c. At the **Modifier** field, select the modifier for the CPT code. Click the list to access the **CPT Modifier** search window.

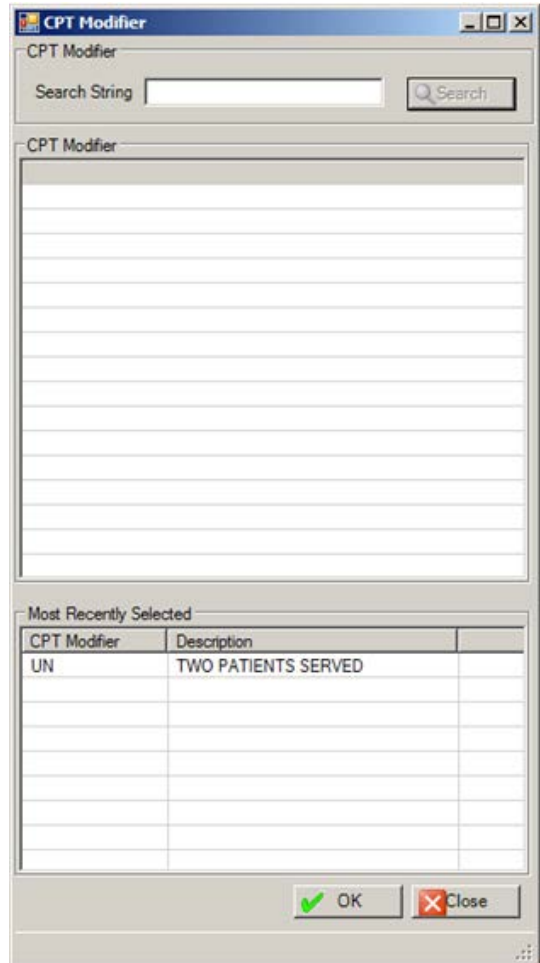

Screen Capture	What to Do
	<p>Use this search window in one of two ways:</p> <p>(1) Use the <b>Search String</b> field by typing the CPT Modifier name and then clicking <b>Search</b>. The retrieved CPT Modifier names and their descriptions will populate the <b>CPT Modifier</b> list box. Select a CPT modifier and click <b>OK</b> to save the modifier. (Otherwise, click <b>Close</b>.)</p> <p>(2) Select a CPT modifier in the <b>Most Recently Selected</b> list box and click <b>OK</b> to save the modifier. (Otherwise, click <b>Close</b>.)</p>

Figure 4-67: **CPT Modifier** search window

4. After the **Quantity** and **Modifier** fields are complete, click the right arrow button to add the items to the **Selected Items** list box.

More than one CPT Code can be used in the above process.

5. Another way to populate the **Selected Items** list box is to select a CPT code in the **Most Recently Selected** list box and then click the right arrow button.
6. Remove a selected CPT code in the **Selected Items** list box by clicking the left arrow button.

- When the Selected Items list box is complete, click **OK** to save the data and add it to the CPT Code(s) group box. (Otherwise, click **Close**.)

### Secondary Provides for this Visit Group Box

Use the **Secondary Providers for this Visit** group box to manage the secondary providers used during the encounter.

Figure 4-68: Sample Secondary Providers for this Visit group box

You can add or delete records on the **Secondary Provider** group box.

### Add Button

- Click **Add**.
- The **Secondary Providers** multiple search/select window displays.

Figure 4-69: **Secondary Provider** multiple search/select window

- At the **Search String** field, type a few characters of the Secondary Provider's last name.

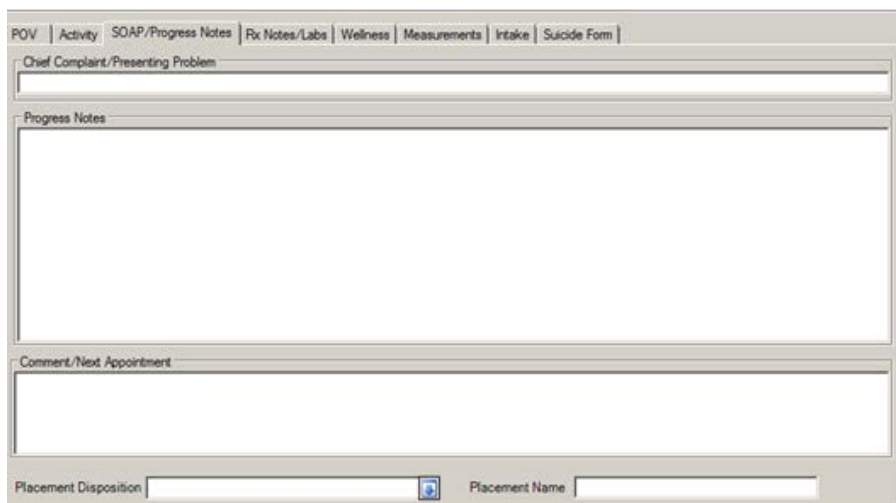

4. Click **Search** and the retrieved records display in **Secondary Provider** list box.
5. To add one or more selected records from the **Secondary Providers** list box to the **Selected Items** list box, click the right arrow button.
6. To add one or more selected records from the **Most Recently Selected** list box to the **Selected Items** list box, click the right arrow button.
7. Similarly, you can remove one or more selected records from the **Selected Items** list box by clicking the left arrow button.
8. When the Selected Items list box is complete, click **OK** and these items populate the **Secondary Providers** for this **Visit** group box. (Otherwise, click **Close**.)

#### Delete Button

1. Select the provider record to delete.
2. Click **Delete**.
3. At the **Are You Sure** confirmation message, click **Yes** to remove the selected provider from the **Secondary Providers** for this **Visit** group box. (Otherwise, click **No**.)

### 4.5.4 SOAP/Progress Notes Tab

Use the **SOAP/Progress Notes** tab on the **Visit Data Entry** window to manage the SOAP/progress note associated with the current visit, to enter the chief complaint/pressing problem, and to enter any comments about the next appointment.

The screenshot shows a software window titled "POV" with several tabs: "Activity", "SOAP/Progress Notes" (which is selected), "Rx Notes/Labs", "Wellness", "Measurements", "Intake", and "Suicide Form". The window contains three main text input areas: "Chief Complaint/Presenting Problem" at the top, "Progress Notes" in the middle, and "Comment/Next Appointment" at the bottom. At the very bottom of the window, there are two fields: "Placement Disposition" with a dropdown arrow and "Placement Name".

Figure 4-70: SOAP/Progress Notes tab

If you are editing a record and it has a signed note, the **Progress Notes** field will be inactive (read-only). The other fields will be active.

1. At the **Chief Complaint/Presenting Problem** field, type the chief complaint or presenting problem, 2–80 characters in length. This is a Free Text field that describes the major reason the patient sought services.
2. At the **Progress Notes** field, type the text of the progress note for the visit. A SOAP or progress note must be entered in the context of a visit. This is a Free Text field.
3. At the **Comments/Next Appointment** field, type the text of any additional notes or comments about the client's next appointment. This is a Free Text field.
4. At the **Placement Disposition** field, select the placement disposition.

Use this field when hospitalization or placement in a treatment facility is required. Click the list to access the **Placement Disposition** dialog.

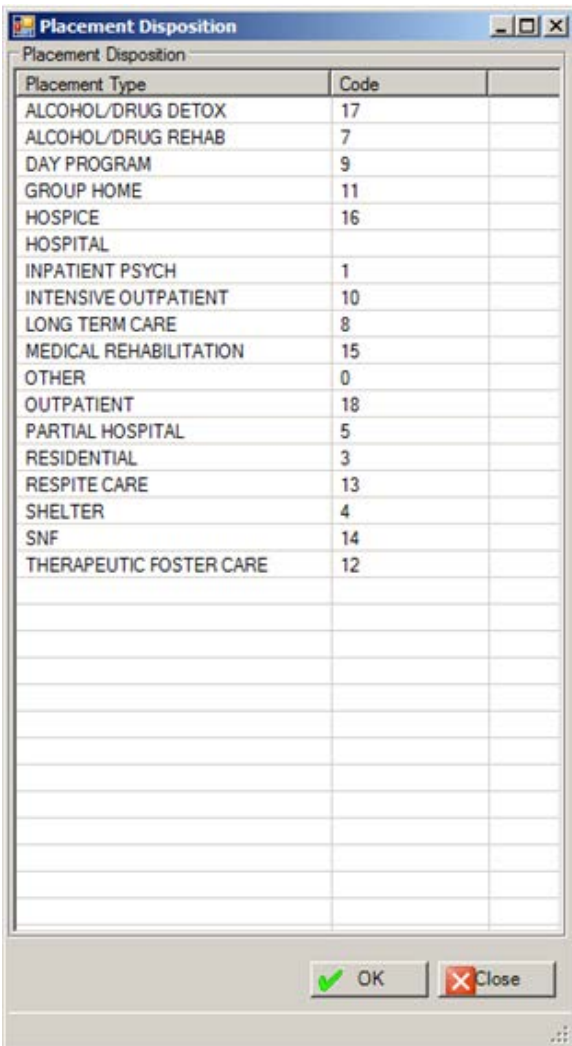

Screen Capture	What to do																																						
 <table border="1"><thead><tr><th>Placement Type</th><th>Code</th></tr></thead><tbody><tr><td>ALCOHOL/DRUG DETOX</td><td>17</td></tr><tr><td>ALCOHOL/DRUG REHAB</td><td>7</td></tr><tr><td>DAY PROGRAM</td><td>9</td></tr><tr><td>GROUP HOME</td><td>11</td></tr><tr><td>HOSPICE</td><td>16</td></tr><tr><td>HOSPITAL</td><td></td></tr><tr><td>INPATIENT PSYCH</td><td>1</td></tr><tr><td>INTENSIVE OUTPATIENT</td><td>10</td></tr><tr><td>LONG TERM CARE</td><td>8</td></tr><tr><td>MEDICAL REHABILITATION</td><td>15</td></tr><tr><td>OTHER</td><td>0</td></tr><tr><td>OUTPATIENT</td><td>18</td></tr><tr><td>PARTIAL HOSPITAL</td><td>5</td></tr><tr><td>RESIDENTIAL</td><td>3</td></tr><tr><td>RESPIRE CARE</td><td>13</td></tr><tr><td>SHELTER</td><td>4</td></tr><tr><td>SNF</td><td>14</td></tr><tr><td>THERAPEUTIC FOSTER CARE</td><td>12</td></tr></tbody></table>	Placement Type	Code	ALCOHOL/DRUG DETOX	17	ALCOHOL/DRUG REHAB	7	DAY PROGRAM	9	GROUP HOME	11	HOSPICE	16	HOSPITAL		INPATIENT PSYCH	1	INTENSIVE OUTPATIENT	10	LONG TERM CARE	8	MEDICAL REHABILITATION	15	OTHER	0	OUTPATIENT	18	PARTIAL HOSPITAL	5	RESIDENTIAL	3	RESPIRE CARE	13	SHELTER	4	SNF	14	THERAPEUTIC FOSTER CARE	12	<p>Use this dialog in one of two ways: (1) Select a Placement Type. Figure 4-71: Placement Disposition dialog

5. At the **Placement Name** field, type the name of the placement facility.

#### 4.5.5 Rx Notes/Labs Tab

Use the **Rx Notes** tab to view prescription data or lab tests data.

The screenshot shows the 'Rx Notes/Labs' tab in the Behavioral Health System. The interface is divided into a left-hand navigation pane and a right-hand main content area. The navigation pane has a tree view with 'Rx/Labs' selected, which is further divided into 'Rx' and 'PCC Labs'. Under 'PCC Labs', there are options for 'View by Visit Date', 'View by Lab Test', and 'Graph'. The main content area is divided into three sections: 'PCC Medications', 'Behavioral Health Medications', and 'Prescription Entry'. The 'PCC Medications' section contains a table with the following data:

Visit Date	Medication	SIG	Qty	Days	Provider
04/18/2013@1200	AMOXICILLIN 250MG CAPSULE	TAKE ONE...	90	30	RICHARDS

The 'Behavioral Health Medications' section contains a table with the following columns:

Visit Date/Time	M

The 'Prescription Entry' section is a large text area for entering prescription information.

Figure 4-72: Rx Notes/Labs tab

The **Rx/Labs** group box controls what is displayed on the right side of the tab.

### **RX Data**

When the Rx is selected in the Rx/Labs group box (the default), the application displays information about PCC Medications, Behavioral Health Medications, and Prescription Entry.

### **PCC Medications List Box**

Use the **PCC Medications** list box to view PCC medications prescribed for the current patient. The entire medication history might not be present here.

### **Behavioral Medication List Box**

Use the **Behavioral Medication** list box to view the visit dates when behavioral health medication was prescribed and any associated notes.

### **Prescription Entry Field**

Use the **Prescription Entry** field to type information about the patient's prescriptions. This is a Free Text field. This field has a context menu that lets you cut, copy, or paste data (these functions are like the ones in MS Office).

This information will be viewable in the **Medications** field for future visits. Items in the **Medication** field can be copied and pasted into the **Prescription Entry** field. This feature is used by some sites to record notes for the psychiatrist such as doing a pill count with the patient, whether or not the patient is compliant with meds, etc.

## PCC Labs

When the **PCC Labs** is selected in the **Rx/Labs** group box, you can select what you want to view about the PCC Labs: **View by Visit**, **View by Lab Test**, or **Graph**.

### View by Visit Date

Select the **View by Visit Date** option to access the **View Labs by Visit Date** dialog.

Figure 4-73: **View Labs by Visit Date** dialog

The **View Labs by Visit Date** dialog has the following features:

- The default Begin Date will be one year prior.
- The application will link the default dates for these options so that if you change the date in one view, the date will be the default in both Lab views.
- When you change the default Begin Date, it will be maintained until you change it again.
- The application will save your default Begin Date when exiting.

You can edit either or both dates.

6. At the **Begin Date** field, select the beginning date of the date range by clicking the list to select a date from the calendar.
7. At the **End Date** field, select the ending date of the date range by clicking the list to select a date from the calendar.
8. When this dialog is complete, click **OK** and the application displays the first page of the PCC labs for the patient by visit date within the particular date range pop-up window. (Otherwise, click **Close**.) Section 2.6 provides more information about the controls on the pop-up window.

This same functionality is available on the tree structure for the RPMS Behavioral Health System (GUI).

### View by Lab Test

If you select the **View by Lab Test** option, you access the **View Labs by Lab Test** dialog.

Figure 4-74: **View Labs by Lab Test** dialog

The **View Labs by Lab Test** dialog has the following features:

- The default Begin Date will be one year prior.
- The application will link the default dates for these options so that if you change the date in one view, the date will be the default in both Lab views.
- When you change the default Begin Date, it will be maintained until you change it again.
- The application will save your default Begin Date when exiting.

You can edit either or both dates.

9. At the **Begin Date** field, select the beginning date of the date range by clicking the list to select a date from the calendar.
10. At the **End Date** field, select the ending date of the date range by clicking the list to select a date from the calendar.
11. When this dialog is complete, click **OK** and the application displays the first page of the PCC labs by lab test for the patient within the particular date range pop-up window. (Otherwise, click **Close**). Section 2.6 provides more information about the controls on the pop-up window.

This same function is available on the tree structure for the RPMS Behavioral Health System (GUI).

### Graph

If you select the **Graph** option, the right side of the tab changes to two boxes: **Lab Graph Date Range** and **Graphable Lab Tests**.

Lab Graph Date Range

Starting Date: 1/28/2004 Ending Date: 7/28/2014

Graphable Lab Tests

Lab Test	Count	Earliest Test	Last Test
GLUCOSE	1	09/24/2007	01/09/2009
HCT (newborn)	1	07/11/2006	01/09/2009
MPV	1	09/24/2007	09/24/2007
PAP SMEAR	1	07/11/2006	01/09/2009

Figure 4-75: Graph option group box

### Lab Graph Date Range

The default date range is one year. This date range determines the data displayed in the **Graphable Lab Tests** list box. You can edit either or both dates.

1. At the **Starting Date** field, click the list and select a date from the calendar that determines the starting date of the date range.
2. At the **Ending Date** field, click the list and select a date from the calendar that determines the ending date of the date range.
3. When the date range is correct, click **Display** to refresh the data in the **Graphable Lab Tests** list box. The new date range stays in effect until you change it again.

### Graphable Lab Tests

Lab Graph Date Range			
Starting Date:	1/28/2004	Ending Date:	7/28/2014
<input checked="" type="checkbox"/> Display <input type="button" value="Graph"/>			
Graphable Lab Tests			
Lab Test	Count	Earliest Test	Last Test
GLUCOSE	1	09/24/2007	01/09/2009
HCT (newborn)	1	07/11/2006	01/09/2009
MPV	1	09/24/2007	09/24/2007
PAP SMEAR	1	07/11/2006	01/09/2009

Figure 4-76: Graphable Lab Tests list box

To graph a lab test, select one lab test record and then click **Graph**.

This causes the data to be entered into an Excel spreadsheet and the graph of the particular lab test is shown.

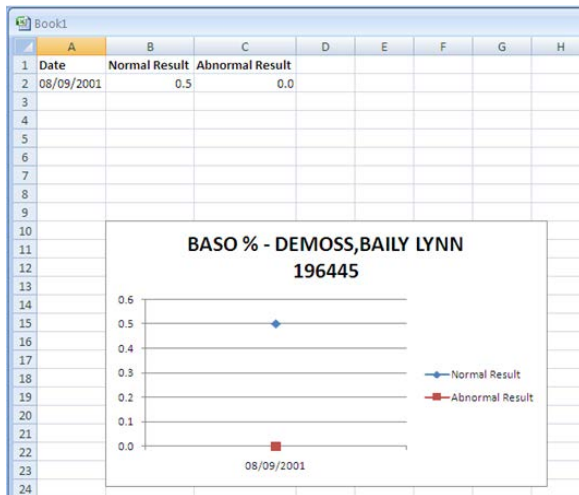

Figure 4-77: Sample graph of a lab test

Save this data, if needed.

### 4.5.6 Wellness Tab

Use the **Wellness** tab to view the BH/PCC wellness activities, as well as manage the education, health factors, and screenings for the visit.

When you first access the **Wellness** tab, the application displays a tree structure.

Figure 4-78: Wellness tab

You can select any of the options on the Wellness tree structure: **Patient Education**, **Health Factors**, or **Screening**.

### Patient Education

4. Select the **Patient Education** option on the Wellness tree structure to display the patient education list boxes: **Patient Education History** and **Patient Education Data Entry**.

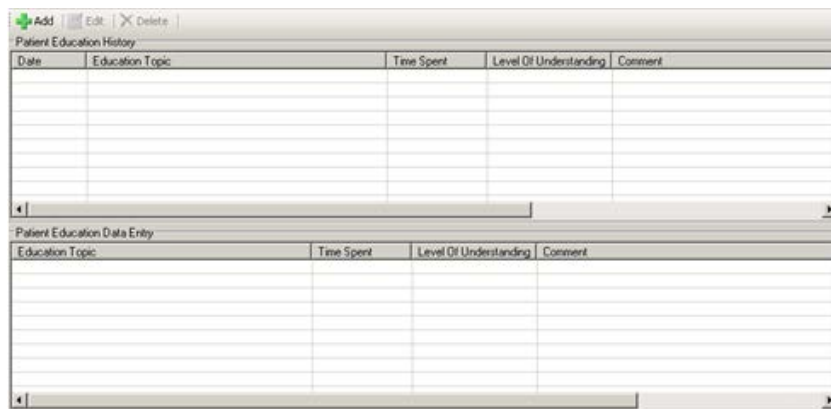

Figure 4-79: Patient Education group boxes

The **Patient Education History** list box is read only. Scroll through the data using the scroll bar.

You can add/edit data in the **Patient Education Data Entry** list box by using the **Add**, **Edit**, or **Delete** buttons.

### Add/Edit Patient Education Record

The **Add** and **Edit** functions use the same fields.

1. Click **Add** to add an education record.

OR

2. Select an education record to edit and click Edit.
3. The **Education Topic** select window displays.

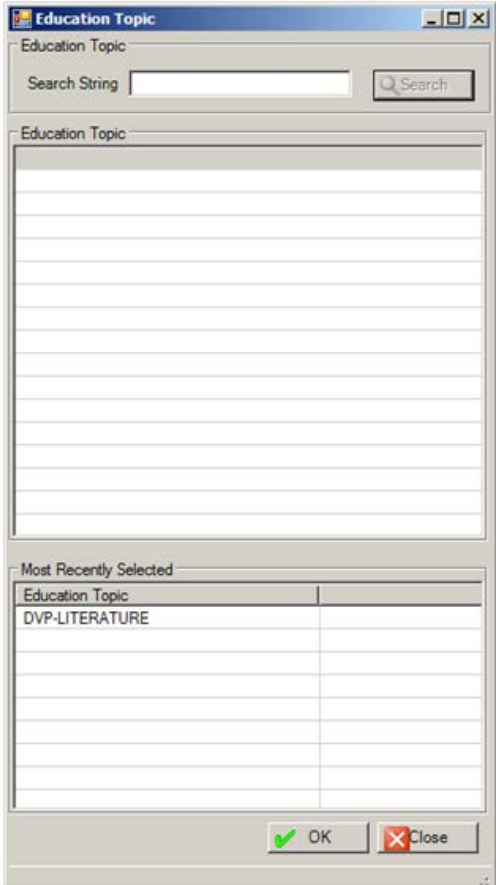

Screen Capture	What to Do
	<p>Use this search window in one of two ways:</p> <p>(1) Use the <b>Search String</b> field by typing the education topic and then clicking <b>Search</b>. The retrieved education topics will populate the <b>Education Topic</b> list box. Select a retrieved record and click <b>OK</b>. (Otherwise, click <b>Close</b>.)</p> <p>(2) Select an education topic in the <b>Most Recently Selected</b> list box, click <b>OK</b>. (Otherwise, click <b>Close</b>.)</p>

Figure 4-80: **Education Topic** select window

If the user clicks **Close**, the application displays the Continue warning: “Canceling will lose all unsaved data, Continue?” Click **Yes** and the focus returns to the **Patient Education Data Entry** group box. Click **No** to display the **Patient Education** dialog with no data in the fields.

If the user clicks **OK**, the **Patient Education** dialog displays, with the **Education Topic** field populated.

Figure 4-81: **Patient Education** dialog

The fields in bold text are required: **Education Topic**, **Level of Understanding**, and **Provider**.

- At the **Education Topic** field, determine if you want to change the field. The application populates this field with what was selected on the **Education Topic** select window. To change this selection, click the list to access the **Education Topic** search window.

Screen Capture	What to Do
	<p>Use this search window in one of two ways:</p> <ol style="list-style-type: none"> <li>Use the <b>Search String</b> field by typing the education topic and then clicking Search. The retrieved education topics will populate the <b>Education Topic</b> list box. Select a retrieved record and click <b>OK</b> to populate the <b>Education Topic</b> field. (Otherwise, click <b>Close</b>.)</li> <li>Select an education topic in the <b>Most Recently Selected</b> list box and click <b>OK</b> to populate the <b>Education Topic</b> field. (Otherwise, click <b>Close</b>.)</li> </ol>

Figure 4-82: **Education Topic** select window

5. At the **Time** field, type the number of minutes spent on the education topic, using any integer 1–9999.
6. At the **Goal** field, type text of the stated goal of the education. For example, Patient plans to walk six times a week.
7. At the **Status** field, select the status of the education goal. Select one of the following:
  - **Goal Set:** the preparation phase defined as “patient ready to change” (patient is active)
  - **Goal Met:** the action phase defined as “patient actively making the change” or maintenance phase defined as “patient is sustaining the behavior change”
  - **Goal Not Met:** the contemplation phase defined as “patient is unsure about the change” or relapse when the patient started making the change and did not succeed due to ambivalence or other reason
  - **Goal Not Set:** the pre-contemplation phase defined as “patient is not thinking about change”
8. At the **Readiness to Learn** field, select the Readiness to Learn option. Click the list to display the **Readiness to Learn** select window.

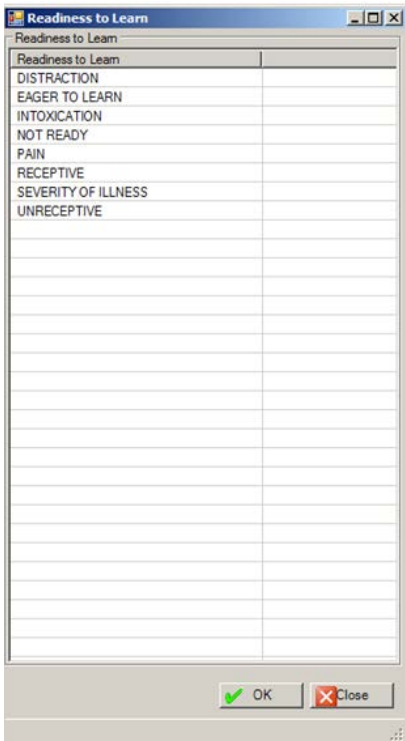

Screen Capture	What to Do
	<p>Use this window as follows:</p> <ol style="list-style-type: none"> <li>(1) Select a readiness to learn option.</li> <li>(2) Click <b>OK</b> to add the option to the <b>Readiness to Learn</b> field. (Otherwise, click <b>Close</b>.)</li> </ol>

Figure 4-83: **Readiness to Learn** select window

9. At the **Level of Understanding** field, select the level of understanding. Select one of the following:
- **Poor:** does not verbalize understanding; unable to return demonstration or teach-back correctly
  - **Fair:** verbalizes need for more education; incomplete return demonstration or teach-back indicates partial understanding
  - **Good:** verbalizes understanding; able to return demonstration or teach-back correctly
  - **Group No Assessment:** education provided in group; unable to evaluate individual response
  - **Refused:** refuses education
10. At the **Provider** field, select the provider for the patient education. Click the list to display the **Education Provider** select window.

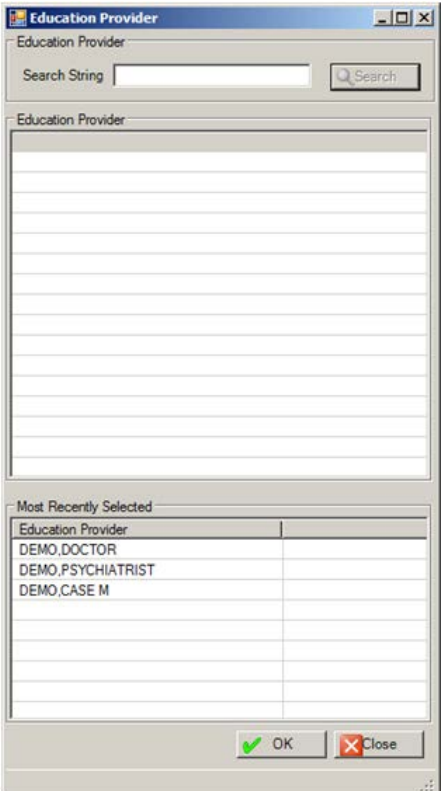

Screen Capture	What to Do
	<p>Use this search window in one of two ways:</p> <p>(1) Use the <b>Search String</b> field by typing the last name of the education provider and then clicking Search. The retrieved provider names will populate the <b>Education Provider</b> list box. Select a retrieved record and click <b>OK</b> to populate the <b>Provider</b> field. (Otherwise, click <b>Close</b>.)</p> <p>(2) Select a name in the <b>Most Recently Selected</b> list box and click <b>OK</b> to populate the <b>Provider</b> field. (Otherwise, click <b>Close</b>.)</p>

Figure 4-84: **Education Provider** select window

11. In the **Comment** field, type any comments about the education topic for the visit. This is a Free Text field.

After the dialog is complete, click **OK** (otherwise, click **Cancel**).

If the user clicks **OK**, the application saves the data and displays it on the Education Topics Data Entry grid.

If the user clicks **Cancel**, the application displays the “Continue?” warning: “Canceling will lose all unsaved data, Continue?” Click **Yes** to not save and leave the **Patient Education** dialog. Click **No** and the focus returns to the **Patient Education** dialog.

If using Edit, click **OK** after the dialog is complete and the fields will be updated. Otherwise, click **Cancel**.

If the record was saved before the installation date for BHS v4.0 it will continue to display the **CPT** field. You can edit an education record if the visit has a signed note.

### Delete Patient Education Record

12. Select a record in the Patient Education Data Entry grid to delete.
13. Click **Delete**.
14. At the “Are You Sure” warning message, click **Yes** to remove the selected record. (Otherwise, click **No**.)

### Health Factors

Select the **Health Factors** option on the Wellness tree structure to display the **Health Factor** list boxes: **Health Factors History** and **Health Factors Data Entry**.

Date	Health Factor	Level/Severity	Quantity	Provider	Comment

Health Factor	Level/Severity	Quantity	Comment

Figure 4-85: Sample Health Factors list boxes

Health Factors describe a component of the patient’s health and wellness not documented as an ICD or CPT code or elsewhere. Health factors are not visit specific and relate to the patient’s overall health status. They appear on the Adult Regular and Behavioral Health summary report.

Health Factors influence a person's health status and response to therapy. Some important patient education assessments can be considered health factors such as barriers to learning, learning preferences.

The **Health Factors History** list box is read only. Scroll through the data using the scroll bar.

You can add/edit data in the **Health Factors Data Entry** list box by using the **Add**, **Edit**, or **Delete** buttons.

### Add/Edit Health Factor Record

The **Add** and **Edit** functions use the same fields.

1. Click **Add** to add a record.

OR

2. Select a record to edit and click **Edit**.
3. The **Health Factors** search window displays.

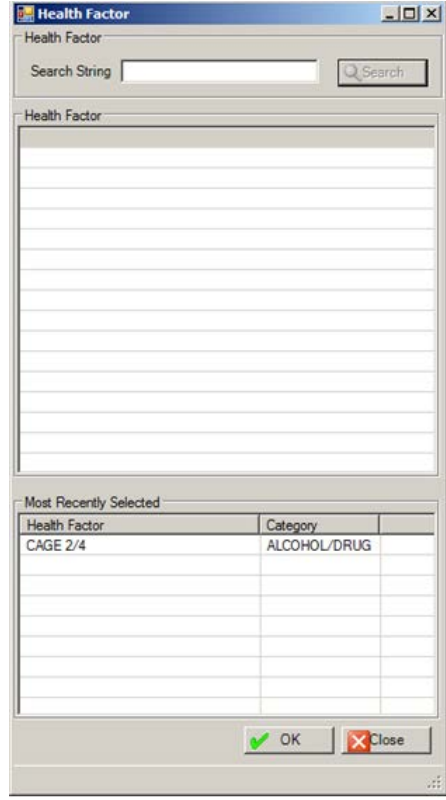

Screen Capture	What to Do
	<p>Use this search window in one of two ways:</p> <p>(1) Use the <b>Search String</b> field by typing the health factor and then clicking the <b>Search</b> button. The retrieved health factors will populate <b>the Health Factor</b> list box. Select a retrieved record and click <b>OK</b> to populate the <b>Health Factor</b> field on the <b>Health Factors</b> dialog. (Otherwise, click <b>Close</b>.)</p> <p>(2) Select an education provider name in the <b>Most Recently Selected</b> list box and click <b>OK</b> to populate the <b>Health Factor</b> field on the <b>Health Factors</b> dialog. (Otherwise, click <b>Close</b>.)</p>

Figure 4-86: **Health Factor** search window

The **Health Factors** dialog is shown in Figure 4-87.

Figure 4-87: Sample Health Factors dialog

The fields in bold text are required.

4. At the **Health Factor** field, determine if you want to change the field. The application populates this field with what was selected on the **Health Factors** select window. To change this selection, click the list to access the **Health Factor** search window. Refer to Step 2 above for more information about this window.
5. At the **Level/Severity** field, select an option from the list, if applicable:
  - **Minimal**
  - **Moderate**
  - **Heavy/Severe**
6. At the **Quantity** field, type the quantity associated with the health factor, if any.
7. At the **Comment** field, type the text of any comment for clarification about the documented health factor. This is a Free Text field.
8. After the dialog is complete, click **OK** (otherwise, click **Cancel**).

If the user clicks **OK**, the application saves your data and displays it on the Health Factors Data Entry grid.

If the user clicks **Cancel**, the application displays the **Continue?** dialog: “Canceling will lose all unsaved data, Continue?”. Click **Yes** to not save and leave the **Health Factors** dialog. Click **No** and the focus returns to the **Health Factors** dialog.

After editing a record and completing the dialog, click **OK** to change the selected record (otherwise, click **Cancel**).

### Delete Health Factor Record

1. Select a record in the Health Factors Data Entry grid to delete.
2. Click Delete.

- The application displays the “Are You Sure” warning message; click **Yes** to delete the selected record. (Otherwise, click **No**.)

### Screening

Select the **Screening** option on the Wellness tree structure to display the screening list boxes: **Screening History** and **Screening Data Entry**.

The screenshot shows two stacked data entry windows. The top window, titled 'Screening History', has a header with an 'Add' button and a table with five columns: 'Date', 'Alcohol', 'Alcohol Provider', 'Alcohol Comment', and 'Depres:'. The table is currently empty. The bottom window, titled 'Screening Data Entry', has a table with four columns: 'Alcohol', 'Alcohol Comment', 'Depression', and 'Depression Comment'. This table is also empty. Both windows have horizontal scroll bars at the bottom.

Figure 4-88: Screening group boxes

The **Screening History** list box is read only. Scroll through the data using the scroll bar.

- If the **Screening Data Entry** list box is empty, the **Add** button displays.
- If the **Screening Data Entry** list box is populated, the **Edit** button displays. You can edit a selected record by clicking the **Edit** button.

In either case, the **Screening** dialog displays.

The screenshot shows a 'Screening' dialog box with the following fields:

- Alcohol:** A dropdown menu, a 'Provider' label, a text field with a search icon, and a 'Comment' text area.
- Depression:** A dropdown menu, a 'Provider' label, a text field with a search icon, and a 'Comment' text area.
- IPV/DV:** A dropdown menu, a 'Provider' label, a text field with a search icon, and a 'Comment' text area.
- Suicide Risk:** A dropdown menu, a 'Provider' label, a text field with a search icon, and a 'Comment' text area.

At the bottom right of the dialog are 'OK' and 'Cancel' buttons.

Figure 4-89: **Screening** dialog

1. At the **Alcohol** field, select the outcome of the alcohol screening. Use one of the following:
  - **Negative:** patient's screening does not indicate risky alcohol use
  - **Positive:** patient's screening indicates risky alcohol use
  - **Unable to Screen:** provider unable to conduct the screening
  - **Patient Refused Screening:** patient declined exam or screening
  - **Referral Needed**
2. At the **Provider** field, select the name of the provider for the alcohol screening. Click the list and select another one from the **Alcohol Provider** search window, if needed.

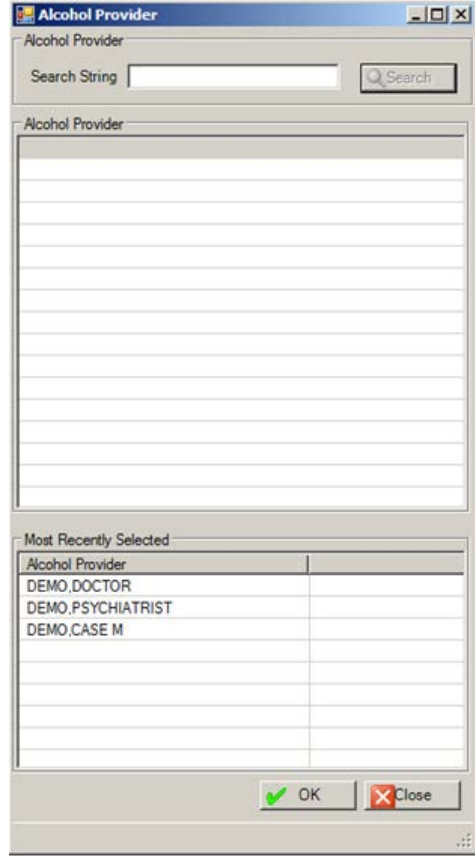

Screen Capture	What to Do
	<p>Use this search window in one of two ways:</p> <p>(1) Use the <b>Search String</b> field by typing the last name of the provider and then clicking <b>Search</b>. The retrieved providers will populate the <b>Alcohol Provider</b> list box. Select a retrieved record and click <b>OK</b> to populate the <b>Provider</b> field. (Otherwise, click <b>Close</b>.)</p> <p>(2) Select a name in the <b>Most Recently Selected</b> list box and click <b>OK</b> to populate the <b>Provider</b> field. (Otherwise, click <b>Close</b>.)</p>

Figure 4-90: **Alcohol Provider** search window

3. At the **Comment** field, type the text of any comment related to the alcohol screening, using 2–245 characters.
4. At the **Depression** field, select the outcome of the depression screening. Select one of the following:
  - **Negative:** denies symptoms of depression
  - **Positive:** provides positive answers to depression screening; further evaluation is warranted
  - **Unable to Screen:** provider unable to conduct the screening
  - **Patient Refused Screening:** patient declines exam or screening
  - **Referral Needed**
5. At the **Provider** field, select the name of the provider for the depression screening. Click the list and select another one from the **Depression Provider** search window, if needed.

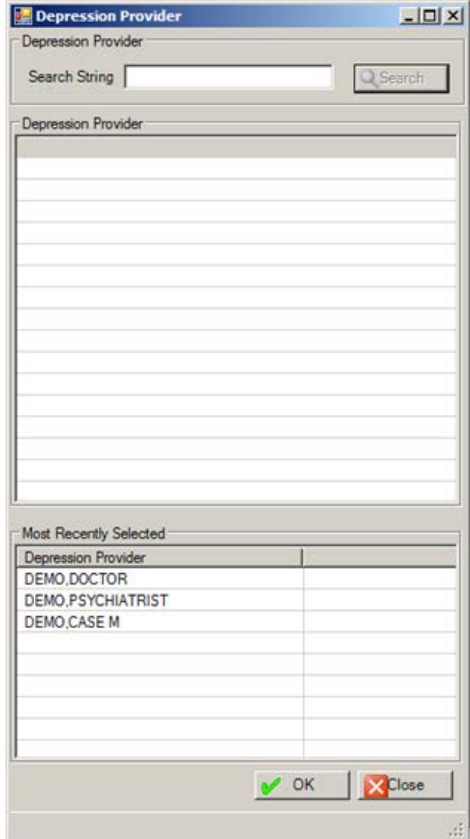

Screen Capture	What to Do
	<p>Use this search window in one of two ways:</p> <p>(1) Use the <b>Search String</b> field by typing the last name of the provider and then clicking <b>Search</b>. The retrieved providers will populate the <b>Depression Provider</b> list box. Select a retrieved record and click <b>OK</b> to populate the <b>Provider</b> field. (Otherwise, click <b>Close</b>.)</p> <p>(2) Select a name in the <b>Most Recently Selected</b> list box and click <b>OK</b> to populate the <b>Provider</b> field. (Otherwise, click <b>Close</b>.)</p>

Figure 4-91: **Depression Provider** search window

6. At the **Comment** field, type the text of any comment related to the depression screening, using 2–245 characters.
7. At the **IPV/DV** field, select the intimate partner violence/domestic violence screening. Select one of the following:
  - **Negative:** denies being a current victim of domestic violence
  - **Present:** admits being a victim of domestic violence
  - **Past and Present**
  - **Past:** denies being a current victim but discloses being a past victim of domestic violence
  - **Unable to Screen:** unable to screen patient (partner or verbal child present, unable to secure an appropriate interpreter, etc.)
  - **Patient Refused Screening:** patient declined exam or screening
  - **Referral Needed**

8. At the **Provider** field, select the name of the provider for the IPV/DV screening. Click the list and select another one from the **IPV/DV Provider** search window, if needed.

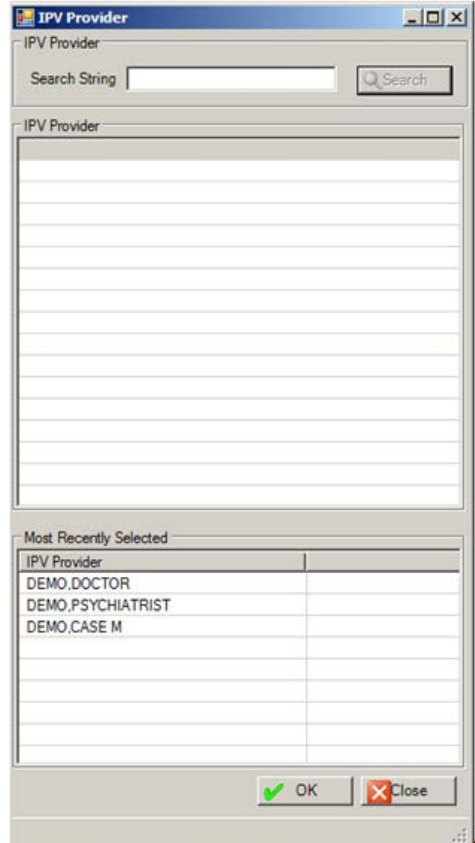

Screen Capture	What to Do
	<p>Use this search window in one of two ways:</p> <p>(1) Use the <b>Search String</b> field by typing the last name of the provider and then clicking <b>Search</b>. The retrieved providers will populate the IPV Provider list box. Select a retrieved record and click <b>OK</b> to populate the <b>Provider</b> field. (Otherwise, click <b>Close</b>.)</p> <p>(2) Select a name in the Most Recently Selected list box and click <b>OK</b> to populate the <b>Provider</b> field. (Otherwise, click <b>Close</b>.)</p>

Figure 4-92: **IPV Provider** search window

9. At the **Comment** field, type the text of any comment related to the IPV/DV screening, using 2–245 characters. This is a Free Text field.

After the dialog is complete, click **OK** (otherwise, click **Cancel**).

After clicking **OK**, the application saves your data and displays it on the Screening Data Entry grid.

After clicking **Cancel**, the application displays the **Continue?** dialog that states: Canceling will lose all unsaved data, Continue? Click **Yes** to not save and leave the **Screening** dialog. Click **No** and the focus returns to the **Screening** dialog.

10. At the **Suicide Risk** field, select the outcome of the depression screening. Use one of the following:

- **Low**

- **Moderate**
  - **High**
  - **Referral Needed**
  - **Patient Refused Screening** (patient declines exam or screening)
  - **Unable to Screen** (provider unable to conduct the screening)
11. At the **Provider** field, select the name of the provider for the Suicide Risk Assessment. Click the list and select another one from the **Suicide Risk Provider** search window, if needed.
  12. In the **Comment** field, type the text of any comment related to the Suicide Risk Assessment, using 2–245 characters. This is a Free Text field.

After the dialog is complete, click **OK** (otherwise, click **Cancel**).

After clicking **OK**, the application saves your data and displays it on the Screening Data Entry grid.

After clicking **Cancel**, the application displays the **Continue?** dialog: “Canceling will lose all unsaved data, Continue?”. Click **Yes** to not save and leave the **Screening** dialog. Click **No** and the focus returns to the **Screening** dialog.

#### 4.5.7 Measurements Tab

Use the **Measurements** tab to view existing measurements as well as add, edit, or delete V Measurement data for the current patient visit.

The screenshot displays the 'Measurements' tab interface. At the top, there are navigation tabs: PDV, Activity, SOAP/Progress Notes, Rx Notes/Labs, Wellness, Measurements (selected), Intake, and Suicide Form. Below the tabs, the 'Measurement View' section includes a 'Measurement History' table with columns: Date, Measurement, Description, Value, and Provider. The table shows one entry: 01/12/2011, AUDIT, AUDIT, 25, DEMO.DOCTOR. To the right of the table are 'Display' and 'Graph' buttons. Below the table is the 'Measurement Data Entry' section, which contains a table with columns: Measurement, Description, Value, and Provider. This table has one entry: AUDIT, AUDIT, 25, DEMO.DOCTOR. To the right of this table are 'Add', 'Edit', and 'Delete' buttons. At the bottom of the window, there are input fields for 'Measurement Type', 'Value', and 'Provider', along with 'OK' and 'Cancel' buttons.

Figure 4-93: Measurements tab

## Measurement View Group Box

This group box displays the measurements for the current patient in the date range shown in the **Measurement History** group box.

Figure 4-94: Sample Measurement View group box

## Change Date Range

1. At the **Starting Date** field, select a new date. Click the list to display a calendar and select another starting date.
2. At the **Ending Date** field, select a new date. Click the list to display a calendar and select another ending date.
3. Click **Display** to refresh the record in group box.

## Graph

To better utilize the data collected and viewed through the **Measurement View** group box, you can graph a measurement in the grid.

1. Click **Graph**.
2. The **Measurement Type** dialog displays.

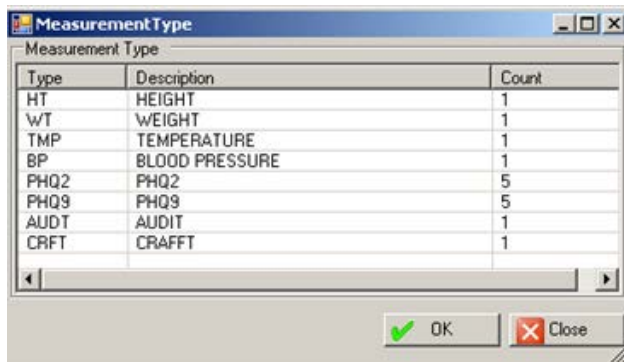

Figure 4-95: Measurement Type dialog

3. Select the measurement type to graph.
4. Click **OK**, and the application (automatically) uses the data to display a graph in MS Excel. (Otherwise, click **Close**.)

- The focus moves to the MS Excel application with the data shown. The data automatically displays in the form of a line graph. You can create a graph of your choice from the selected data.

Figure 4-96 shows a sample line graph.

Figure 4-96: Sample line graph

You can save the data, if needed.

### Measurement Data Entry Group Box

Use this group box (Figure 4-97) to manage the measurements during the visit.

Measurement	Description	Value	Provider
AUDT	AUDIT	25	DEMO.DOCTOR

Measurement Type:  Value:

Provider:

Buttons: Add, Edit, Delete, OK, Cancel

Figure 4-97: Measurement Data Entry group box

You can add, edit, or delete measurement data entry records.

**Delete Button**

1. Select the measurement to delete. Measurements can only be deleted from the encounter record where they were first recorded.
2. Click **Delete**.
3. At the “Are You Sure” confirmation, click **Yes** to remove the selected measurement record from the Measurement Data Entry group box. (Otherwise, click **No**.)

**Add/Edit Button**

The **Add** and **Edit** function uses the same fields.

1. Click **Add** to activate the measurement fields for data entry. The fields in bold text are required.

OR

2. Select a record to edit and click **Edit**. The fields are populated with existing data.
3. At the **Measurement Type** field, select a V Measurement type. Click the list to access the **Measurement Type** search window and select a type.

This field is inactive when editing a record.

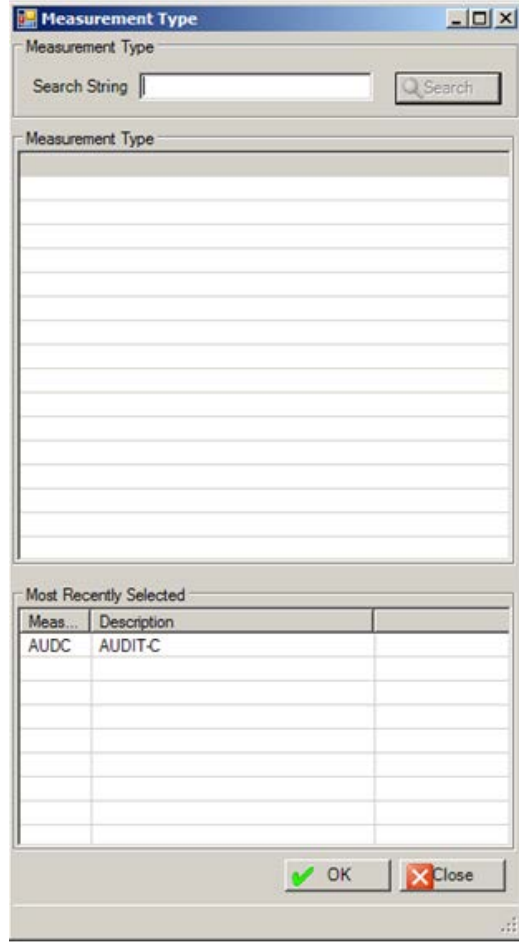

Screen Capture	What to Do
	<p>Use this search window in one of two ways:</p> <p>(1) Use the <b>Search String</b> field by typing the measurement type and then clicking <b>Search</b>. The retrieved measurement types will populate the Measurement Type list box. Select a retrieved record and click <b>OK</b> to populate the <b>Measurement Type</b> field. (Otherwise, click <b>Close</b>.)</p> <p>(2) Select a measurement type in the Most Recently Selected list box and click <b>OK</b> to populate the <b>Measurement Type</b> field. (Otherwise, click <b>Close</b>.)</p>

Figure 4-98: **Measurement Type** select window

- At the **Value** field, type the numeric value of the measurement.

If the value is outside the accepted range, the **Warning** message displays. Click **OK** to dismiss the warning and populate with another valid numeric value.

Figure 4-99: Warning dialog – invalid measurement value

- At the **Provider** field, select the provider who entered the measurement data (the default is the primary provider). Click the list to access the **Measurement Provider** search window to change this field.

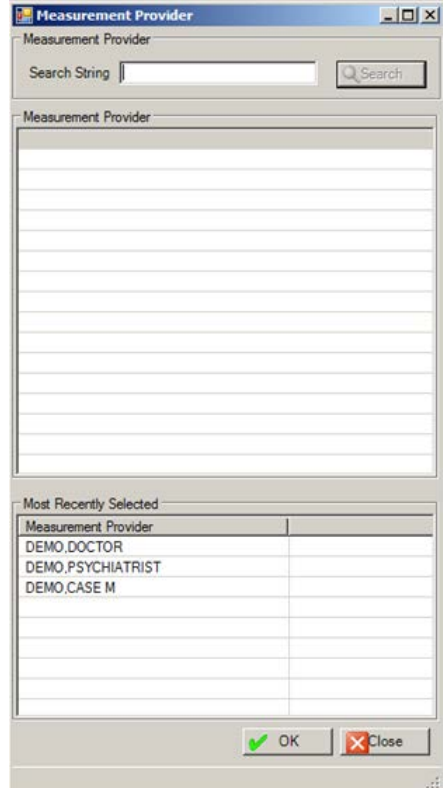

Screen Capture	What to Do
	<p>Use this search window in one of two ways:</p> <p>(1) Use the <b>Search String</b> field by typing the last name of the provider and then clicking <b>Search</b>. The retrieved provider names will populate the Measurement Provider list box. Select a retrieved record and click <b>OK</b> to populate the <b>Provider</b> field. (Otherwise, click <b>Close</b>.)</p> <p>(2) Select a name in the Most Recently Selected list box and click <b>OK</b> to populate the <b>Provider</b> field. (Otherwise, click <b>Close</b>.)</p>

Figure 4-100: **Measurement Provider** search window

- Click **OK** on the Measurement Data Entry group box. (Otherwise, click **Cancel**.) Clicking OK causes a new record to display in the grid (showing the Measurement along with its description, value, and provider).

Measurements and Patient Education will print on the Full Encounter form only (not on the Suppressed Encounter form).

- After clicking **Edit** and changing the fields, click **OK** to change the Value and/or Provider in the grid. (Otherwise, click **Cancel**.)

#### 4.5.8 Intake Tab (GUI)

When you click the **Intake** tab, the **Intake** window displays.

Figure 4-101: Initial **Intake** window

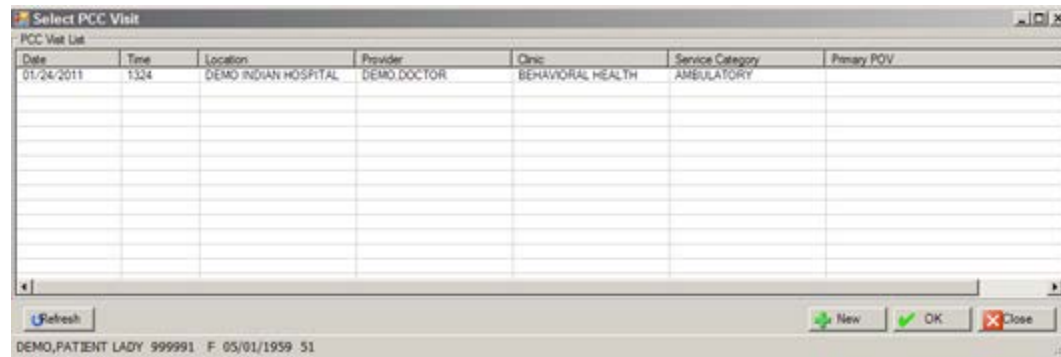

Section 12.2 provides more information on the **Intake (GUI)**.

#### 4.5.9 Suicide Form

Click the **Suicide Form** tab to display the **Suicide Form** window. Section 11.2 provides more information about the **Suicide Form Window (GUI)**.

#### 4.5.10 Select PCC Visit Window

You access the **PCC Visit** window after you have saved and signed a visit, and that visit was entered in the scheduling package with the option to create a visit at check-in.

Figure 4-102: **Select PCC Visit** window with one visit

You can do one of the following: either create a new record or link the entry with the one created by the scheduling package (a PCC incomplete visit record).

If the displayed visits don't include the one needed to link to, choose a new one or wait until you have had a chance to check in the patient in the Scheduling package.

After checking in the patient in the Scheduling package, return to the GUI and click the **Refresh** button to load more visits.

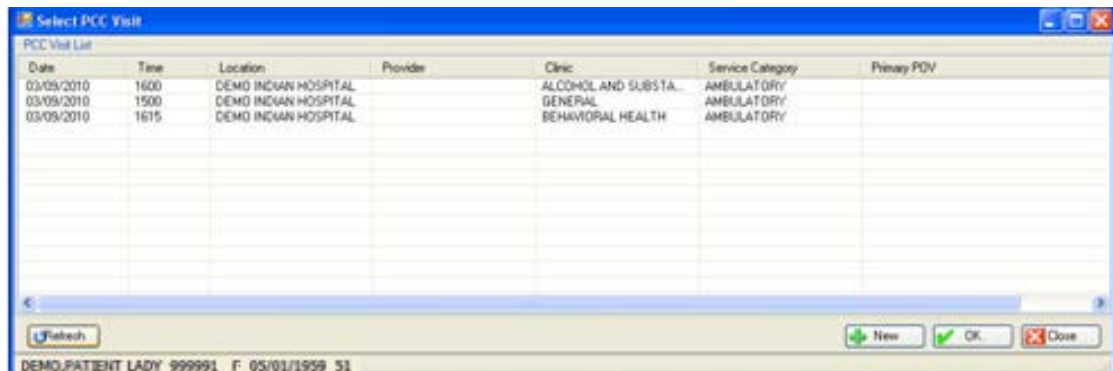

Figure 4-103: **Select PCC Visit** window with multiple visits

Then, select the entry you just put in, click **OK** and it will link the two in PCC.

If you access PCC, this is what you will see:

Figure 4-104: Information from PCC

## 4.6 Browse Visits (GUI)

Use the Browse Visits option on the RPMS Behavioral Health System (GUI) tree structure to access the **Browse Visits** dialog. This dialog applies to the current patient.

1. Select **Browse Visits** on the RPMS Behavioral Health System (GUI) tree structure.
2. The **Browse Visits** dialog displays.

Figure 4-105: Sample Browse Visits dialog

3. At the **Browse Visits By** field, select one of the following:

- **L** – Patient’s Last Visit
- **N** – Patient’s Last N Visits
- **D** – Visits in a Date Range
- **A** – All of the Patient’s Visits
- **P** – Visits to One Program

If using option A or L, the other fields will not be active.

If N was used in the **Browse Visits By** field, the **Number of Records** field becomes active.

4. At the **Number of Records** field, select an option from the list.

If D was used in the **Browse Visits** field, the **Begin Date** and **End Date** fields become active.

5. At the **Begin Date** field, select the beginning date from the list.
6. At the **End Date** field, select the ending date from the list.

If P was used in the **Browse Visits** field, the **Program** field becomes active.

7. At the **Program** field, select the program from the list:

- **M** – Mental Health
- **S** – Social Services
- **O** – Other
- **C** – Chemical Dependence

8. Click **OK**. (Otherwise, click **Close**.)

After clicking **OK**, the first page of the **Browse Visits** window displays.

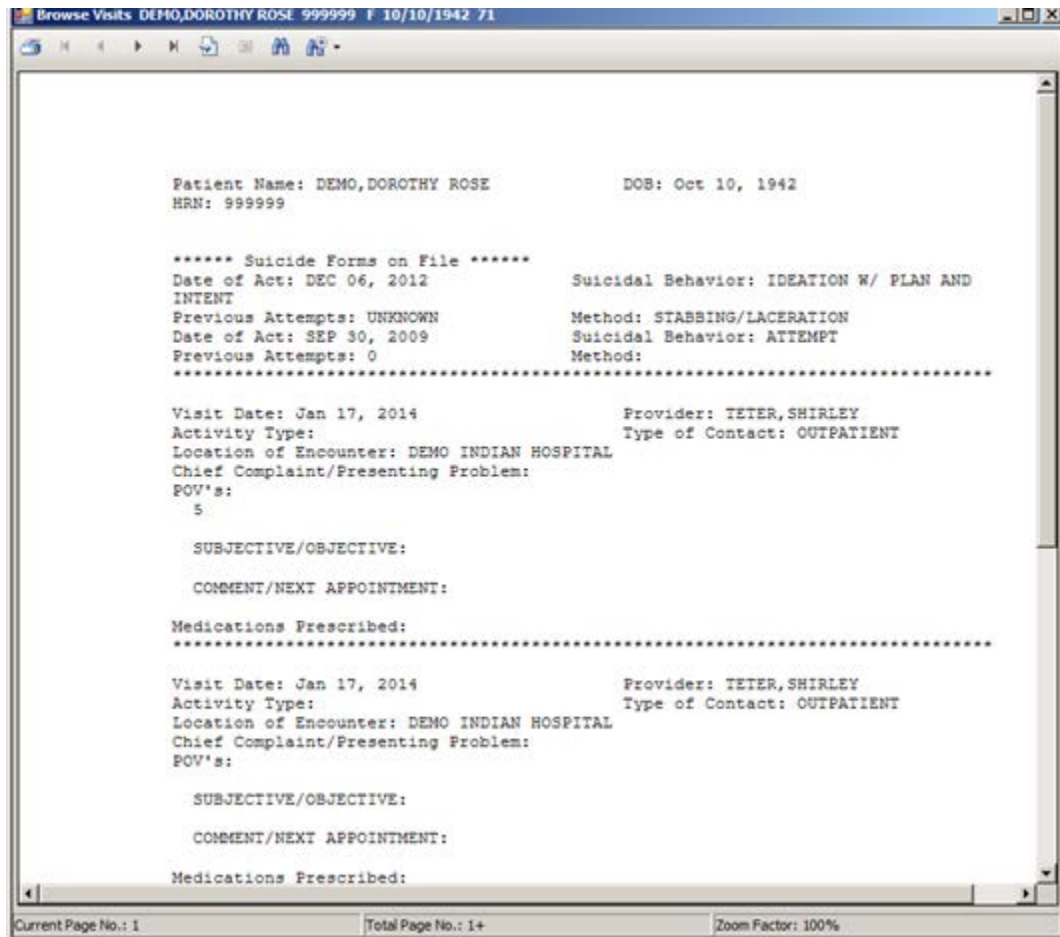

Figure 4-106: Sample of data in Browse Window

Section 2.6 provides more information about using the controls on this type of window.

## 4.7 View Patient Data

When you expand the View Patient Data option on the tree structure for the RPMS Behavioral Health System (GUI), you can select any of the sub-options to view particular patient data: **Face Sheet**, **Health Summary**, **PCC Medications**, **PCC Labs by Visit Date**, or **PCC Labs by Lab Test**.

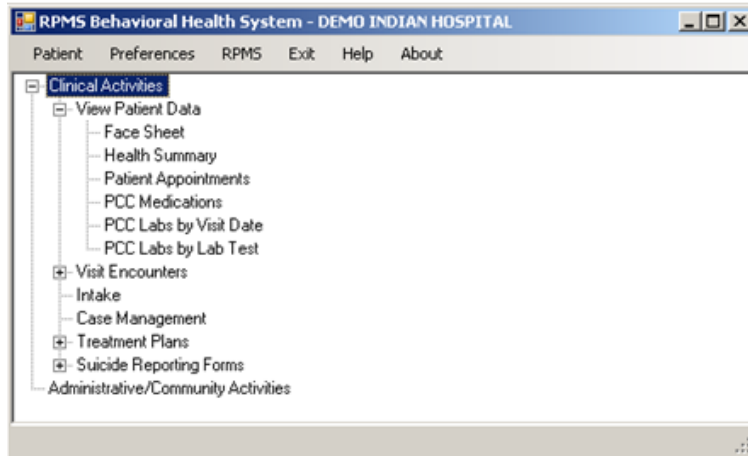

Figure 4-107: RPMS Behavioral Health System tree structure for View Patient Data

The data applies to the current patient.

#### 4.7.1 Face Sheet

Use the **Face Sheet** option to view the first page of the **Ambulatory Care Record Brief** pop-up window for the current patient. Section 2.6 provides more information about this type of window.

#### 4.7.2 Health Summary

Use the **Health Summary** option to view the selected health summary type report for the current patient.

The **Select Health Summary Type** dialog displays.

Figure 4-108: Select Health Summary Type dialog

1. At the field, select the health summary type from the list.
2. Click **OK**. (Otherwise, click **Close**).

After clicking **OK**, a pop-up that shows the first page of the particular type of health summary displays.

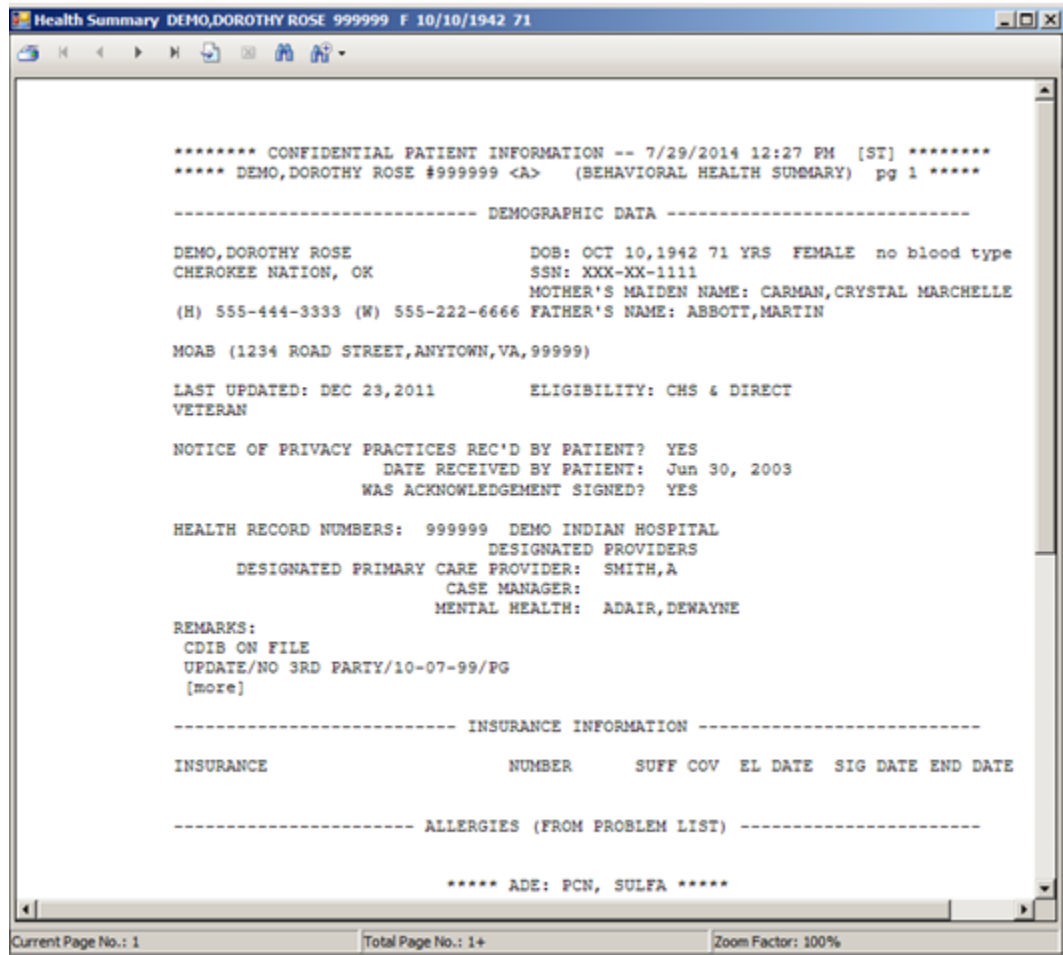

Figure 4-109: Sample Health Summary pop-up window

If there is more than one page, use the **Next Page** and **Last Page** buttons to move to other pages. Otherwise, specify the page number to move to. Section 2.6 provides more information about the controls on this window.

### 4.7.3 Patient Appointments

Use the **Patient Appointments** option to view the appointments of the current patient in a particular date range. The **Patient Appointments** dialog displays.

Figure 4-110: Sample Patient Appointments dialog

The default Begin Date is three months previous and the default End Date is three months in the future.

You can edit either or both dates.

1. At the **Begin Date** field, click the list and select a date from the calendar. This establishes the beginning date of the date range.
2. At the **End Date** field, click the list and select a date from the calendar. This established the ending date of the date range.
3. When this dialog is complete, click **OK** (otherwise, click **Close**). If OK was used, a pop-up displays that shows the first page of the appointments for the current patient in the particular date range.

The application saves both default dates when you exit the application.

Section 2.6 provides more information about using the controls of this type of window.

#### 4.7.4 PCC Medications

Use the **PCC Medications** option to view the PCC medications for the current patient in a particular date range. The **PCC Medications** dialog displays.

Figure 4-111: Sample **PCC Medications** dialog

The default date Start Date is one year previous.

You can edit either or both dates.

1. At the **Begin Date** field, click the list and select a date from the calendar. This established the beginning date of the date range.
2. At the **End Date** field, click the list and select a date from the calendar. This established the ending date of the date range.
3. When this dialog is complete, click **OK** (otherwise, click **Close**).

After clicking **OK**, a pop-up displays, showing the first page of the Medication Prescribed in the Behavioral Health database within the particular date range.

### 4.7.5 PCC Labs by Visit Date

Use the **PCC Labs by Visit Date** option to view the PCC Labs for a current patient in a particular visit date range. The application displays the **View Labs by Visit Date** dialog.

Figure 4-112: Sample **View Labs by Visit Date** dialog

The default Begin Date is one year previous.

You can edit either or both dates.

1. At the **Begin Date** field, click the list and select a date from the calendar. This establishes the beginning date of the date range.
2. At the **End Date** field, click the list and select a date from the calendar. This establishes the ending date of the date range.
3. When this dialog is complete, click **OK** (otherwise, click **Close**).

After clicking **OK**, the first page of the PCC labs by visit date within the particular date range displays.

This same function is available when entering/changing visit encounter data for one patient on the **Rx Notes/Labs** tab.

### 4.7.6 PCC Labs by Lab Test

Use the **PCC Labs by Lab Test** option to view the PCC Labs for the current patient in a particular lab test date range. The application displays the **View Labs by Lab Test** dialog.

Figure 4-113: Sample **View Labs by Lab Test** dialog

The default Begin Date is one year previous.

You can edit either or both dates.

4. At the **Begin Date** field, click the list and select a date from the calendar. This establishes the beginning date of the date range.

If you change the Begin Date in View Labs by Lab Test, the application applies this change to the Begin Date for the View Labs by Visit Date. The application saves your default Begin Date when you exit the application.

5. At the **End Date** field, click the list and select a date from the calendar. This establishes the ending date of the date range.

6. When this dialog is complete, click **OK** (otherwise, click **Close**).

After clicking **OK**, a pop-up displays that shows the first page of the PCC labs by lab test within the particular date range.

This same function is available when entering/changing visit encounter data for one patient on the **Rx Notes/Labs** tab.

## 5.0 Group Encounters

This section provides information on how to enter or edit group encounter data for Roll and Scroll and the RPMS Behavioral Health System (GUI).

### 5.1 Group Form Data Entry Using Group Definition (Roll and Scroll)

Use the Group Form Data Entry Using Group Definition (GP) option to enter BH visit data from a group form. Use GP when the encounter involves a group of patients. This process allows you to enter data into each participant's record without entering an encounter record for each patient.

1. At the "Select Behavioral Health Data Entry Menu Option" prompt, type **GP**.
2. At the "Enter Beginning Date" prompt, type the beginning date of the date range for displaying Group definitions.
3. At the "Enter Ending Date" prompt, type the ending date of the date range for displaying Group definitions.

The application displays the **Group Entry** window.

GROUP ENTRY	Mar 16, 2009 17:09:31			Page: 1 of 14		
Group Entry	Date	Group Name	Activity	Prg Cln	Prov	TOC POV
1)	* 11/01/15	EDIT INTAKE	GROUP TRE	S	MEDIC	GAMMAA,R SCH F84.0-AUTISM

+	Enter ?? for more actions					>>>
1	Add a New Group		6	Review/Edit Group Visits		
2	Display Group Entry		7	Add No Show Visit		
3	Duplicate Group		8	Edit Group Definition		
4	Delete Group		9	Sign Notes		
5	Print Encounter Forms		Q	Quit		
Select Action: +//						

Figure 5-1: Sample **Group Entry** window

The asterisk (\*) preceding the Entry Date indicates that the record contains an unsigned group note.

At the "Select Action" prompt, press Enter to view the next page of data about Group Entry.

Use the Quit action to dismiss this window.

**Note:** You can edit group records only with the group screens, not on the individual data entry side (PDE, SDE).

### 5.1.1 Add New Group

Use action 1 (Add a New Group) to add a new group to the list of groups.

1. At the “Select Action” prompt, type **1**.
2. At the “Enter Date of the Group Activity” prompt, type the date of the new group activity.

The **Group Encounter Documentation** window displays.

```

*  GROUP ENCOUNTER DOCUMENTATION  *                DEMO INDIAN HOSPITAL
-----
NOTE:  Please enter all standard information about this group activity.
After you leave this screen a record will be created for each patient.
At that time you can add additional information for each patient.

Add/View/Update Providers (Primary or Secondary) for this Group?  Y
Encounter Date: MAR 14, 2009                Arrival Time: 12:00
Program:                                     Community of Service:

COMMAND:                                     Press <PF1>H for help   Insert

```

Figure 5-2: Sample **Group Encounter Documentation** window

The underlined fields are required.

3. At the “Add/View/Update Providers (Primary or Secondary) for this Group?” prompt, type **Y** (yes) or **N** (no).

If Y was used, the add function is available. This is the *only place* to add providers for the group encounter. The following pop-up displays.

```

PROVIDER:                                     PRIMARY/SECONDARY:
PROVIDER:                                     PRIMARY/SECONDARY:
PROVIDER:                                     PRIMARY/SECONDARY:

```

Figure 5-3: Sample Secondary Providers pop-up

The underlined fields on the pop-up are required.

- a. At the “PROVIDER” prompt, type the provider name.
- b. At the “PRIMARY/SECONDARY” prompt, type the provider type by using **P** for primary or **S** for secondary. Only one primary provider can be used, whereas, multiple secondary providers are allowed.

Below are more fields on the **Group Encounter Documentation** window.

4. At the “Encounter Date” prompt, type the encounter date. The default shows the date of the new group activity (that was entered before you accessed this window).
5. At the “Arrival Time” prompt, type the arrival time of the group encounter. The default shows 12:00.
6. At the “Program” prompt, type the program for the group encounter. Use one of the following:
  - **M** – Mental Health
  - **S** – Social Services
  - **C** – Chemical Dependency
  - **O** – Other
7. At the “Community of Service” prompt, type the name of community of service where the encounter took place.
8. At the “Group Name” prompt, type the name of the group encounter, using between 1 and 30 characters.
9. At the “Clinic” prompt, type the clinic (by number or name).
10. At the “Activity” prompt, type the activity of the group encounter.
11. At the “Activity Time” prompt. Type the number of minutes (no decimal digits) the provider(s) spent on the activity, using any integer between 1 and 9999. Please note, 0 (zero) is not allowed as a valid entry. The time is divided equally among each of the group participants.
12. At the “Encounter Location” prompt, type the name of the location for the encounter.
13. At the “Type of Contact” prompt, type the contact type (the activity setting).
14. At the “POV or DSM (Primary Group Topic)” prompt, press Enter to access the POV or DSM Diagnosis pop-up.

POV or DSM Diagnosis (Primary Group Topic)

CODE	NARRATIVE
-----	
_____	

Figure 5-4: Sample pop-up window for POV

- a. At the “Code” prompt, type an MHSS Problem/DSM POV code, using 2–80 characters.
- b. After populating the Code field, the application populates the Narrative for the particular code (but can be edited). Note: The special characters single or double quotation marks (“or ‘) cannot be the first character of the POV narrative.

Below are more fields on the **Group Encounter Documentation** window.

15. At the “Chief Complaint/Presenting Problem” prompt, type the chief complaint or presenting problem using 2 to 80 characters. This information describes the major reason the patient sought services.

16. At the “Any Patient Education Done?” prompt, type **Y** (yes) or **N** (no).

If using Y, the **Patient Education for this Group Activity** pop-up displays.

```
*PATIENT EDUCATION for this Group Activity

After entering each topic you will be prompted for more fields

EDUCATION TOPIC:
EDUCATION TOPIC:
EDUCATION TOPIC:
EDUCATION TOPIC:
EDUCATION TOPIC:
```

Figure 5-5: Sample Patient Education enter/edit screen

- a. At the “EDUCATION TOPIC” prompt, type the education topic code.
- b. After populating this field, the following pop-up displays.

```
EDUCATION TOPIC: 042.-DISEASE PROCESS

LEVEL OF UNDERSTANDING: GROUP-NO ASSESSMENT
PROVIDER: THETA, SHIRLEY
MINUTES:

COMMENT:
```

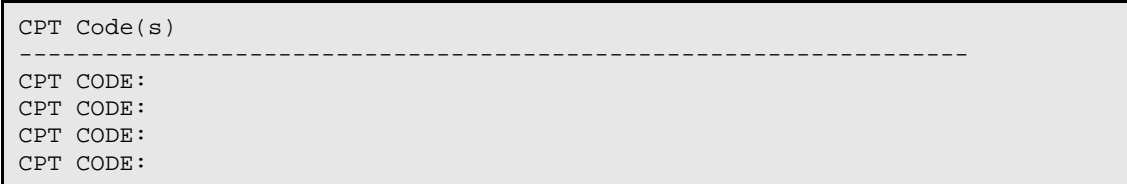

Figure 5-6: Sample pop-up for education data

The underlined fields are required.

- c. At the “Level of Understanding” prompt, the application automatically populates with GROUP-NO ASSESSMENT. You cannot change this field.
- d. At the “Provider” prompt, the application automatically populates with the current logon user. This can be changed.
- e. At the “Minutes” prompt, type the number of minutes spent on education, using any integer 1–9999.
- f. At the “Comment” prompt, type the text of any comment about the education topic, using 2–100 characters.

Below are more fields on the **Group Encounter Documentation** window.

17. At the “CPT Code(s) <press enter>” prompt, press Enter to access another window where you specify the CPT or HCPCS codes associated with the group encounter.

```

CPT Code(s)
-----
CPT CODE:
CPT CODE:
CPT CODE:
CPT CODE:
  
```

Figure 5-7: Sample pop-up for CPT Code(s) data

- a. At the “CPT CODE” prompt, type the CPT code to be used for the group. Another pop-up window displays.

```

QUANTITY: 1
MODIFIER:
MODIFIER 2:
  
```

Figure 5-8: Sample secondary pop-up window

- b. At the “Quantity” prompt, type the quantity associated with the CPT code.
- c. At the “Modifier” prompt, type the modified associated with the CPT code.
- d. At the “Modifier 2” prompt, type the second modified associated with the CPT code.

After completing the “Modifier 2” prompt, the focus returns to the “CPT CODE” prompt.

Below are more fields on the **Group Encounter Documentation** window.

18. At the “S/O/A/P (Standard Group Note) <press enter>” prompt, press Enter to access another window where you enter the text of a group note.

Figure 5-9: Window to enter the note

Table 5-1 lists the most commonly used RPMS text editor commands:

Table 5-1: RPMS text editor commands

Action Needed	Use These Keys
Delete a line (extra blank or text)	PF1(F1) followed by D
Join two lines (broken or too short)	PF1(F1) followed by J
Save without exiting	PF1(F1) followed by S
Exit and save	PF1(F1) followed by E
Quit without saving	PF1(F1) followed by Q
Top of text	PF1(F1) followed by T

19. At the “Patients <press enter>” prompt, press Enter to access the Patients pop-up:

Figure 5-10: Sample pop-up for Patients

- a. At the “PATIENT” prompt, type the patient name, HRN, DOB, or Social Security Number.
- b. More than one patient name can be used.

After you save and exit, the application displays the following choices:

```

Select one of the following:

Y          Yes, group definition is accurate, continue on to add visits
N          No, I wish to edit the group definition
Q          I wish to QUIT and exit

Do you wish to continue on to add patient visits for this group: Y//

```

Figure 5-11: Questions upon exit

- Type **Y** to continue adding the patient’s individual visit associated with the group visit. The focus returns to the record for the first patient.
- Type **N** to edit the group definition.
- Type **Q** to quit and exit. The focus returns to the Group Entry screen.

After completing the group definition, completing the documentation for the individual patients, and saving, the application will display an option to sign all SOAP/Progress Notes or to leave them unsigned.

### 5.1.2 Edit Group Definition

Use option 8 to edit a selected unsigned group entry record.

If the selected group already has visits created, the application displays the message: This group already has visits created. You must use the REVIEW/EDIT GROUP VISITS to modify visits within this group. In this case, the focus returns to the **Group Entry** window.

1. At the “Select Action” prompt, type **8**.
2. At the “Select GROUP ENTRY” prompt, select a group to edit.
3. The **Group Encounter Documentation** window displays.

```

*  GROUP ENCOUNTER DOCUMENTATION  *                DEMO INDIAN HOSPITAL
-----
NOTE:  Please enter all standard information about this group activity.
After you leave this screen a record will be created for each patient.
At that time you can add additional information for each patient.

Add/View/Update Providers (Primary or Secondary) for this Group?  Y
Encounter Date: MAY 15,2009@12:00           Arrival Time: 12:00

### 5.1.3 Review/Edit Group Visits

Use action 6 to review/edit the group visits with a particular unsigned group encounter.

1. At the “Select Action” prompt, type **6**.
2. At the “Select GROUP ENTRY” prompt, type the group entry to review/edit.

If the group has a signed note, the application displays the message: The notes associated with this group entry have been signed. You can edit other items in this entry but not the notes. Press Enter to continue.

After populating the Select GROUP ENTRY field, the **Enter/Edit Patient Group Data** window displays.

Enter/Edit Patient Group Data Mar 27, 2009 17:33:04						Page: 1 of 1

Select Action:+//						

Figure 5-13: Sample **Enter/Edit Patient Group Data** window

Use the Q action to exit the window.

#### Delete a Patient's Group Visit (X)

Use the X action to remove a particular patient's group visit.

1. At the “Select Action” prompt, type **X**.
2. At the “Enter PATIENT GROUP ENTRY” prompt, type the group number.
3. The application displays the BH record data.
4. At the end of the data, the application verifies that you want to delete the particular patient’s visit. Type **Y** (yes) or **N** (no).

### Display Patient’s Group Visit (D)

Use the D action to display a particular patient’s group visit.

1. At the “Select Action” prompt, type **D**.
2. The BH Visits Record Display window (view only) displays.

### Edit Patient’s Group Visit (AE)

Use the AE option to edit a patient’s group visit.

1. At the “Select Action” prompt, type **AE**.
2. At the “Enter PATIENT GROUP ENTRY” prompt, type the group number.

The **BEHAVIORAL HEALTH RECORD EDIT** window for the particular patient displays.

```

3. At the “Select Action” prompt, type one of the following:
  - Plus sign (+) to view the next screen (does not apply to the last screen)
  - Hyphen (-) to view the previous (does not apply to the first screen)

- **Q** to quit the Output Browser screen and the focus returns to the Group Entry.

### 5.1.5 Print Encounter Forms

Use action 5 to print a specified encounter form for a particular group.

1. At the “Select Action” prompt, type **5**.
2. At the “Select GROUP ENTRY” prompt, type the group to use.

The application states: Forms will be generated for the following patient visits.  
After this message, the application displays the names of the patients in the group.

3. At the “Enter response” prompt, type one of the following:
  - **F** – Full Encounter Form
  - **S** – Suppressed Encounter Form
  - **B** – Both a Suppressed & Full Encounter Form
  - **T** – Two copies of the Suppressed Encounter Form
  - **E** – Two copies of the Full Encounter Form
    - A full encounter form (option F) prints all data for a patient encounter including the S/O/A/P note.
    - The suppressed report (option S) does NOT display the following information: Chief Complaint, SOAP note, measurement data, screenings.
4. At the “Device” prompt, type the device to output the encounter form.

Below is a sample full encounter form report.

```

***** CONFIDENTIAL PATIENT INFORMATION *****
PCC BEHAVIORAL HEALTH ENCOUNTER RECORD      Printed: Oct 01, 2009@17:38:44
*** Computer Generated Group Encounter Record ***

### 5.1.6 Duplicate Group

Use action 3 to duplicate a particular group encounter. This creates a new group encounter.

To prevent inclusion of deceased patients in duplicated groups, the application will search the RPMS Patient Registration files for a Date of Death before displaying the patient's name, case number, etc.

Duplicating a group containing signed SOAP/Progress Notes will revert the SOAP/Progress Notes associated with the new group encounter to the unsigned status.

Please note: The SOAP/Progress Note for each individual patient is actually the standard group note plus the individual entry completed on the Patient Data tab. When a group is duplicated, the standard group note is retained but the individual note added on the Patient Data tab (as well as any other changes made on that tab) is not.

1. At the “Select Action” prompt, type **3**.
2. At the “Select GROUP ENTRY” prompt, type the number of the group to duplicate in order to create a new group.
3. At the “Enter Date for the new group entry” prompt, type the date for the new group.

The **Group Encounter Documentation** window displays.

```

*  GROUP ENCOUNTER DOCUMENTATION  *                DEMO INDIAN HOSPITAL
-----
NOTE:  Please enter all standard information about this group activity.
After you leave this screen a record will be created for each patient.
At that time you can add additional information for each patient.

Add/View/Update Providers (Primary or Secondary) for this Group?  Y

```

Figure 5-17: Sample **Group Encounter Documentation** window

Section 5.1.1 provides more information about how to complete the Group Encounter Documentation window.

### 5.1.7 Add No Show visit

Use action 7 to enter a No Show visit for a client who failed to attend the group session.

**Note:** Any patient who is a no show or canceled should be removed from a duplicated group before the group documentation is completed.

1. At the “Select Action” prompt, type **7**.
2. At the “Select GROUP ENTRY” prompt, type the number of the group to use.
3. At the “Select PATIENT NAME” prompt, type the name of the patient who failed to attend the group session.
4. At the “Enter PRIMARY PROVIDER” prompt, type the primary provider name.

The **Behavioral Health Visit Update** window displays. Section 4.2.1 provides more information about using this window.

### 5.1.8 Sign Notes

Use action 9 to sign an unsigned SOAP/Progress note for a particular group encounter. Only the primary provider for the particular record can sign the note.

1. At the “Select Action” prompt, type 9.
2. At the “Select Group Entry” prompt, type the number of the record to use.

If you are NOT the primary provider, the application displays the message in Figure 5-18. Press Enter and the focus returns to the **Group Entry** window.

```
You are not the primary provider for this group, no electronic
signature will be applied and no PCC link will occur.
The primary provider will need to sign these at a later time.
Press enter to continue....:
```

Figure 5-18: Message about the primary provider

If there is a record but no visits created for this group, the application displays the following message. Press Enter and the focus returns to the **Group Entry** window.

```
There were no visits created for this group.
Press enter to continue....:
```

Figure 5-19: Message about no visits created

If the provider opted out of E-Signature, the application displays the following information:

```
No E-Sig Required. Provider opted out of E-Sig
```

Figure 5-20: Message when provider opted out of E-Signature

If you are the primary provider, the **BH Visit Record Display** window displays.

```

```

Figure 5-21: Sample BH Visit Record Display window

After you quit this window, the application asks: Do you wish to edit this record? Type **Y** to edit the record. Type **N** to not edit the record.

If Y was used, the focus stays on the window.

If N was used, the application prompts: Enter your Current Signature Code. Type **Y** (yes) to enter your signature code, otherwise type **N** (no). Section 2.14.6 provides more information about signing a note.

**Note:** No Show notes are not included here and must be signed individually.

### 5.1.9 Delete Group

Use action 4 to remove a particular group encounter record with an unsigned note.

1. At the “Select Action” prompt, type **4**.
2. At the “Select GROUP ENTRY” prompt, type the number of the group to delete.
3. The application displays the data associated with the group visit.
4. At the “Are you sure you want to remove/delete both the group definition and all associated individual patient records” prompt, type **Y** (yes) or **N** (no).

Please note that the user must hold a specific key in order to delete group encounters with signed notes. Removing the group definition will also remove the related individual patient encounter records.

## 5.2 Group Entry Window (GUI)

The following shows where the Group Encounter function is located on the RPMS Behavioral Health System (GUI) tree structure.

Figure 5-22: Group Encounters location on tree structure

Click the **Group Encounters** option to access the **Group Entry** window.

Figure 5-23: Group Entry window

The following table provides information about the features on the **Group Entry** window.

Table 5-2: Group Entry window features and functions

Feature	Functionality
<b>Group Entry Date Range</b> group box	The <b>Group Entry</b> window displays the group encounters in the date range shown in the <b>Group Entry Date Range</b> group box (default is one year). The default view is sorted by date (from most recent). Change the date range by accessing the calendar under the list for the date. After changing the date range, click <b>OK</b> to update the display in the <b>Group Entry</b> group box.
<b>Group Entry</b> list box	This list box shows the records in the particular group entry date range. The asterisk (*) in the first column indicates that the particular record contains an unsigned note. When this type of record is selected, the <b>Sign Note</b> button becomes active.
<b>Add</b> button	Click the <b>Add</b> button to add a new group encounter record on the <b>Group Data Entry - Add Group Data</b> window.
<b>Edit</b> button	Click the <b>Edit</b> button to change the selected group encounter record on the <b>Group Data Entry - Edit Group Data</b> window.
<b>View</b> button	Use the <b>View</b> button (or double-click on a record) to view the highlighted group encounter record on the <b>Group Data Entry - View Group Data</b> window. This window has the same fields as the <b>Add/Edit group data</b> window.
<b>Duplicate</b> button	<p>Use the <b>Duplicate</b> button to duplicate an existing group encounter record in order to create a new one. You will need to edit any information that would be different for the new encounter group.</p> <p>To prevent inclusion of deceased patients in duplicated groups, the application will search the RPMS Patient Registration files for a Date of Death before displaying the patient's name, case number, etc.</p> <p>Duplicating a group containing signed SOAP/Progress Notes causes the notes to revert to unsigned status (for the SOAP/Progress Notes associated with the new group encounter). The duplicated group will duplicate the standard group note only and not the individual patient group note.</p> <p>Select an existing group encounter and then click <b>Duplicate</b>. The application displays the <b>Group Data Entry - Duplicate Group Data</b> window.</p> <p>The fields are the same as those on the <b>Group Data Entry - Add Group Data</b> window. The duplicated group encounter will have a default date/time as the current date/time.</p>
<b>Delete</b> button	<p>After selecting the particular record and clicking <b>Delete</b>, the <b>Are You Sure</b> confirmation message displays, asking if you are sure you want to delete. Click <b>Yes</b> (otherwise, click <b>No</b>). Clicking <b>Yes</b> removes the selected group encounter record from the group box. If Yes was used, the group definition and all individual patient records will be removed.</p> <p>Note that Group Encounter records with signed SOAP/Progress Notes can only be deleted by users that have the AMHZ DELETE SIGNED NOTE security key.</p>

Feature	Functionality
<b>Print Encounter</b> button	Select the group encounter record to print and click the <b>Print Encounter</b> button. It will print one of the following: Full, Suppressed, Both Full and Suppressed. The full option prints all data for the group encounter, including the SOAP note. The suppressed report does NOT display the following information: Chief Complaint, SOAP note, measurement data, screenings. The application displays the first page of the <b>Print Encounter Group</b> pop-up window.
<b>Help</b> button	Use the <b>Help</b> button to access the online help for the <b>Group Entry</b> window.
<b>Close</b> button	Use the <b>Close</b> button to dismiss the <b>Group Entry</b> window.
<b>Sign Note</b> button	Use the <b>Sign Note</b> button to sign a particular “unsigned” group encounter record (asterisk (*) in the first column).

The following applies to the information about the Sign Note button:

Click the **Sign Note** button to access the **Sign?** dialog where you type your electronic signature. Section 2.14.5 provides more information.

If the primary provider has opted out of E-Sig will pass to PCC, the application displays the **Message** regarding this.

Figure 5-24: Message stating that the provider opted out of E Sig

The **Message** means that no electronic signature is required for the particular record. Click **OK** and leave the Sign Note process.

### 5.3 Add/Edit Group Data (GUI)

1. Click the **Add** button to add a new group data record on the **Group Data Entry - Add Group Data** window.

OR

2. Use the **Edit** button to change the highlighted group encounter record on the **Group Data Entry - Edit Group Data** window.

All Patient Education entries created before the installation date for BHS v4.0 will continue to display the **CPT** field.

Below is the **Group Data Entry - Add Group Data** window. (The same fields appear on the **Group Data Entry - Edit Group Data** window.)

Figure 5-25: **Group Data Entry - Add Group Data** window

The following table provides information about the features on this window.

Table 5-3: Group Data Entry – Add Group Data window features and functionality

Feature	Functionality
<b>Group Encounter Information</b> group box	The fields in this group box display the existing data (cannot be changed). All editing is completed in the <b>Group Encounter Information</b> group box or on the <b>Patient Data</b> tab if the group has already been saved. <ul style="list-style-type: none"> <li>• If the group has been signed the other fields can still be edited (does not apply to the note section).</li> <li>• If you access an unsigned group data record, you can edit the note.</li> </ul>
<b>Help</b> button	Click this button to access the online help system about this window.
<b>Save</b> button	Click this button to save the changes and dismiss the window.

The following applies to the Save process:

- If you added a SOAP/Progress note, the application displays the **Sign?** confirmation message that asks if you want to sign the SOAP/Progress note now.
  - Click **No** to leave the note unsigned.
  - Click **Yes** and the application will display the **Electronic Signature** dialog. Section 2.14.5 provides more information about electronic signature (GUI).

The following applies to the Close process:

- The Close process displays the **Continue?** dialog: “Unsaved Data Will Be Lost, Continue?” Click **Yes** to not save; this dismisses the add group data window. Click **No** to remain on the add group data window.

Other features to consider are:

- If you access an unsigned group data record, you can edit the note.
- The **Patient Data** tab is the only place you can do any editing after a group has been saved.
- If you access an unsigned group data record, then you can edit everything on that tab except the note.

### 5.3.1 Group Encounter Information Group Box

The add window has the following (active) fields.

Figure 5-26: **Group Encounter Information** group box

These fields are not active (and cannot be changed) on the **Edit Group Data** window.

The fields in bold text are required.

1. At the **Primary Provider** field, select the primary provider for the group encounter. The default is the current provider.

Change this field by clicking the list to access the **Primary Provider** search/select window. Here you can search for a primary provider name.

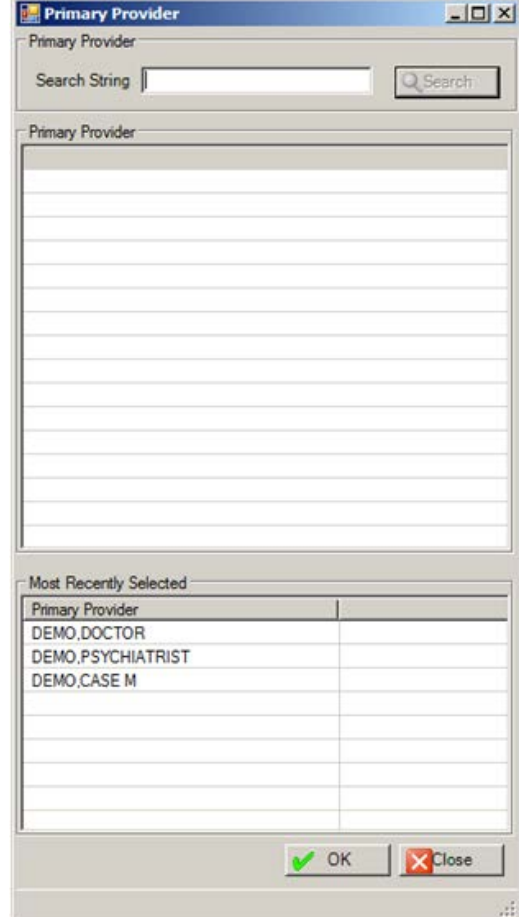

Screen Capture	What to Do
	<p>Use this search window in one of two ways:</p> <p>(1) Use the <b>Search String</b> field by typing the provider's last name and then clicking <b>Search</b>. The retrieved names will populate the <b>Primary Provider</b> list box. Select a name and click <b>OK</b> to populate the <b>Primary Provider</b> field. (Otherwise, click <b>Close</b>.)</p> <p>(2) Select a name in the <b>Most Recently Selected</b> list box and click <b>OK</b> to populate the <b>Primary Provider</b> field. (Otherwise, click <b>Close</b>.)</p>

Figure 5-27: **Primary Provider** search/select window

- At the **Encounter Date/Time** field, select the encounter date and time. The default is the current date and time.

Change the date by clicking the list to access the calendar. You can select the hour, minutes, and AM/PM. If you make the hour and minutes, for example, 13:25, the application automatically changes the time to 1:25 PM. In addition, you can change the time manually.

- At the **Program** field, select the program associated with the visit. Click the list and use one of the following:
  - **Mental Health**
  - **Social Services**
  - **Other**
  - **Chemical Dependency**

After selecting a program, the application automatically populates the **Clinic** and **Encounter Location** fields if the defaults were set in the **Site Parameters** menu. These fields are inactive on the edit window.

- At the **Encounter Location** field, select the location of the group encounter. Change this field by clicking the list to access the **Location** search window. Here you can search for a location name.

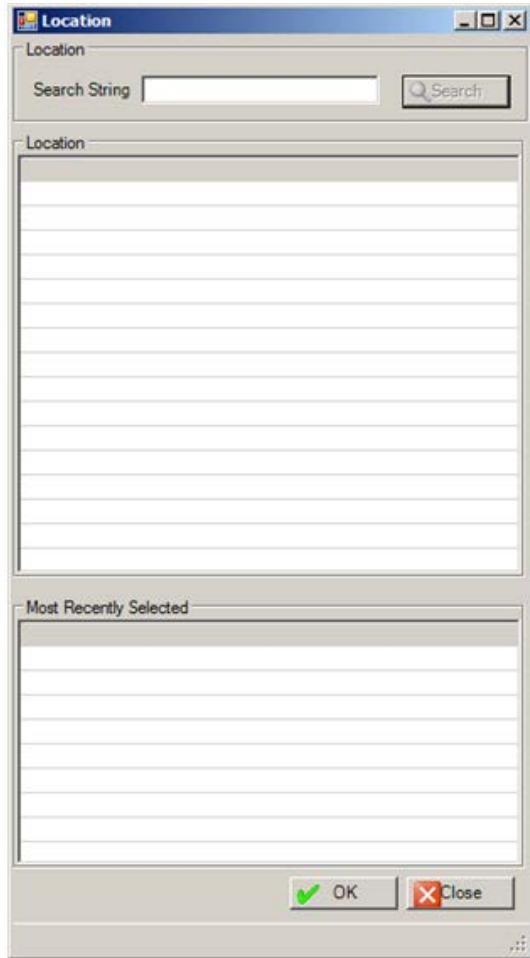

Screen Capture	What to Do
	<p>Use this search window in one of two ways:</p> <ol style="list-style-type: none"> <li>Use the <b>Search String</b> field by typing the location and then clicking <b>Search</b>. The retrieved locations will populate the <b>Location</b> list box. Select a location and click <b>OK</b> to populate the <b>Encounter Location</b> field. (Otherwise, click <b>Close</b>.)</li> <li>Select a location in the <b>Most Recently Selected</b> list box and click <b>OK</b> to populate the <b>Encounter Location</b> field. (Otherwise, click <b>Close</b>.)</li> </ol>

Figure 5-28: **Location** search window

- At the **Clinic** field, select the clinic context. The response must be a clinic that is listed in the RPMS Standard Code Book table. Change this field by clicking the list to access the **Clinic** search window. Here you can search for a type of clinic.

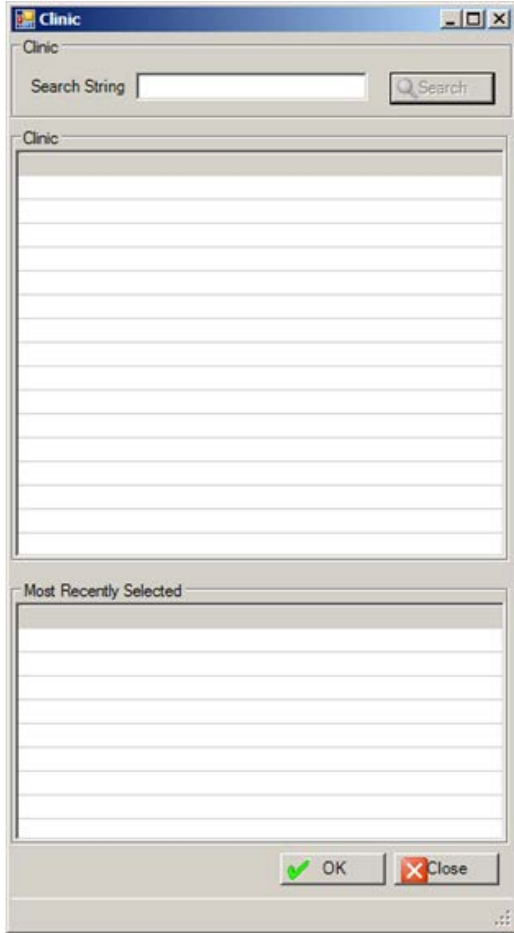

Screen Capture	What to Do
	<p>Use this search window in one of two ways:</p> <p>(1) Use the <b>Search String</b> field by typing the clinic and then clicking <b>Search</b>. The retrieved clinics and their codes will populate the <b>Clinic</b> list box. Select a clinic and click <b>OK</b> to populate the <b>Clinic</b> field. (Otherwise, click <b>Close</b>.)</p> <p>(2) Select a clinic in the <b>Most Recently Selected</b> list box and click <b>OK</b> to populate the <b>Clinic</b> field. (Otherwise, click <b>Close</b>.)</p>

Figure 5-29: **Clinic** search window

- At the **Group Name** field, type the name of the group encounter, using between 1 and 30 characters. This is a Free Text field.

### 5.3.2 Activities Tab

Use the **Activities** tab to specify the community of service, type of contact, activity, and activity code. In addition, you can add CPT codes in the lower group box.

The information on this tab is read only when using the **Edit Group Data** window.

The screenshot shows the 'Activities' tab in the Behavioral Health System (AMH). At the top, there are tabs for 'Activities', 'Group Data', 'Group Education', 'Patients', and 'Patient Data'. Below the tabs, there are several fields: 'Community of Service' (a dropdown menu), 'Type of Contact' (a dropdown menu), 'Activity' (a dropdown menu with 'GROUP TREATMENT' selected), and 'Activity Time' (a text field). Below these fields is a table for 'CPT Code(s)' with columns for 'Code' and 'Narrative'. There are 'Add' and 'Delete' buttons to the right of the table.

Figure 5-30: **Activities** tab

### Fields

Below are the fields for the **Activities** tab.

- At the **Community of Service** field, select the community of service where the group encounter took place. Change this field by clicking the list to access the **Community** search window. Here you search for the community name.

Screen Capture	What to Do
<p>The screenshot shows the 'Community' search window. It has a 'Search String' field with a search button. Below is a large empty list box for 'Community'. At the bottom, there is a 'Most Recently Selected' table with columns for 'Community' and 'State'. The table contains two rows: 'MESA' with 'ARIZONA' and 'BACA' with 'NEW MEXICO'. There are 'OK' and 'Close' buttons at the bottom.</p>	<p>Use this search window in one of two ways:</p> <ol style="list-style-type: none"> <li>Use the <b>Search String</b> field by typing the community name and then clicking <b>Search</b>. The retrieved community names and their states will populate the <b>Community</b> list box. Select a community and click <b>OK</b> to populate the <b>Community of Service</b> field. (Otherwise, click <b>Close</b>.)</li> <li>Select a community in the <b>Most Recently Selected</b> list box and click <b>OK</b> to populate the <b>Community of Service</b> field. (Otherwise, click <b>Close</b>.)</li> </ol>

Figure 5-31: **Community** search window

8. At the **Type of Contact** field, select the type of contact (the activity setting) for the group encounter. Change this field by clicking the list to access the **Type of Contact** window where you select an option.

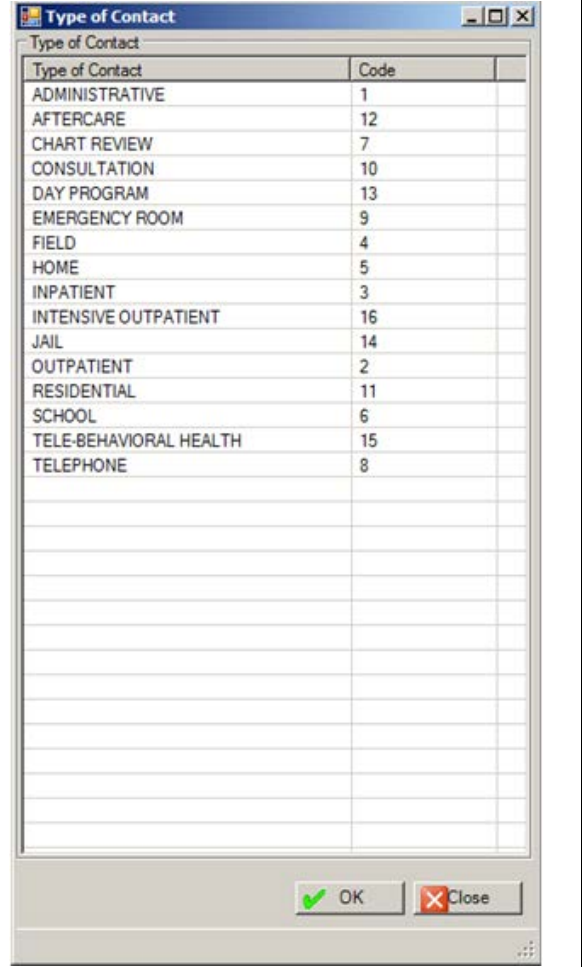

Screen Capture	What to Do																																		
 <p>The screenshot shows a window titled "Type of Contact" with a list of contact types and their corresponding codes. The list is as follows:</p> <table border="1"> <thead> <tr> <th>Type of Contact</th> <th>Code</th> </tr> </thead> <tbody> <tr><td>ADMINISTRATIVE</td><td>1</td></tr> <tr><td>AFTERCARE</td><td>12</td></tr> <tr><td>CHART REVIEW</td><td>7</td></tr> <tr><td>CONSULTATION</td><td>10</td></tr> <tr><td>DAY PROGRAM</td><td>13</td></tr> <tr><td>EMERGENCY ROOM</td><td>9</td></tr> <tr><td>FIELD</td><td>4</td></tr> <tr><td>HOME</td><td>5</td></tr> <tr><td>INPATIENT</td><td>3</td></tr> <tr><td>INTENSIVE OUTPATIENT</td><td>16</td></tr> <tr><td>JAIL</td><td>14</td></tr> <tr><td>OUTPATIENT</td><td>2</td></tr> <tr><td>RESIDENTIAL</td><td>11</td></tr> <tr><td>SCHOOL</td><td>6</td></tr> <tr><td>TELE-BEHAVIORAL HEALTH</td><td>15</td></tr> <tr><td>TELEPHONE</td><td>8</td></tr> </tbody> </table> <p>At the bottom of the window, there are two buttons: "OK" (with a green checkmark icon) and "Close" (with a red X icon).</p>	Type of Contact	Code	ADMINISTRATIVE	1	AFTERCARE	12	CHART REVIEW	7	CONSULTATION	10	DAY PROGRAM	13	EMERGENCY ROOM	9	FIELD	4	HOME	5	INPATIENT	3	INTENSIVE OUTPATIENT	16	JAIL	14	OUTPATIENT	2	RESIDENTIAL	11	SCHOOL	6	TELE-BEHAVIORAL HEALTH	15	TELEPHONE	8	<p>Use the <b>Type of Contact</b> window as follows:</p> <ol style="list-style-type: none"> <li>(1) Select a type of contact from the list.</li> <li>(2) Click <b>OK</b> to populate the <b>Type of Contact</b> field. Figure 5-33: **Activity** search window

- At the **Activity Time** field, type the number of minutes spent on the activity for the group, using any integer between 1 and 9999. Please note that zero is not a valid entry.

### CPT Codes Group Box

Use the **CPT Code** group box to manage the CPT codes associated with the activity for the group.

#### Add Button

- Click **Add**.
- The **CPT Code** search/select window displays.

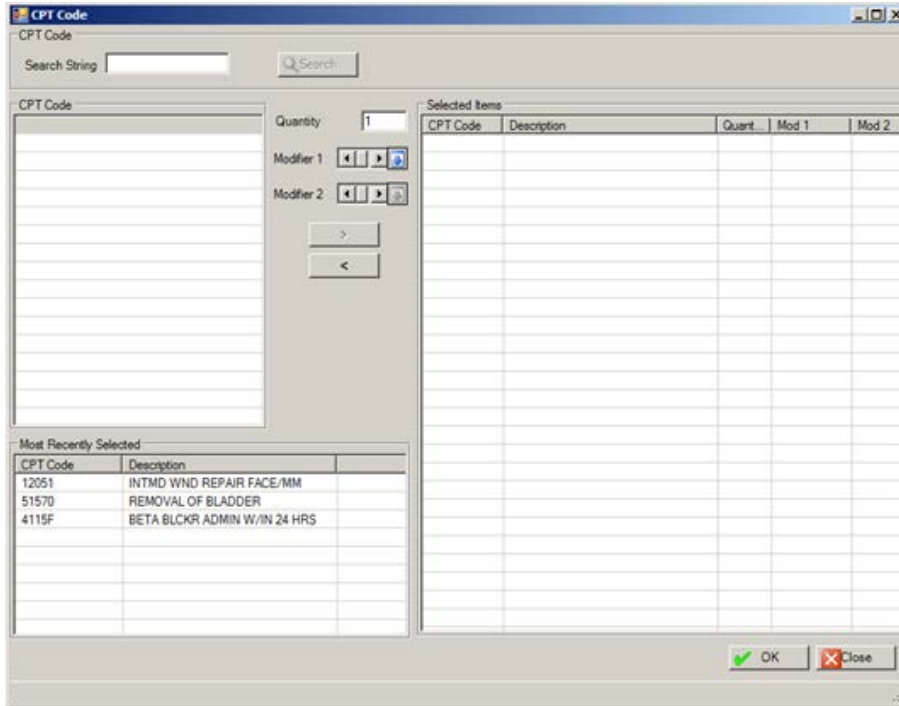

Figure 5-34: **CPT Code** search/select window

3. At the **Search String** field, type a search string to search for a particular CPT code. Then click **Search**. The CPT codes will display in the **CPT Code** list field.

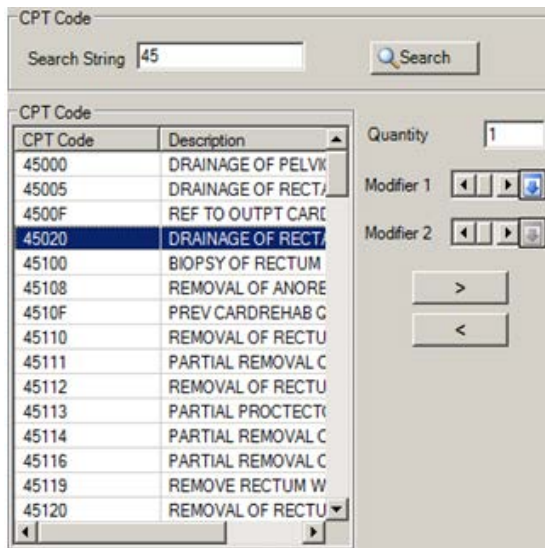

Figure 5-35: **CPT Code** search results

- a. Select a retrieved CPT Code.
- b. At the **Quantity** field, type the number of CPT codes to use to help facilitate billing.

- c. At the **Modifier** field, select the modifier for the CPT code. Click the list to access the **CPT Modifier** search window.

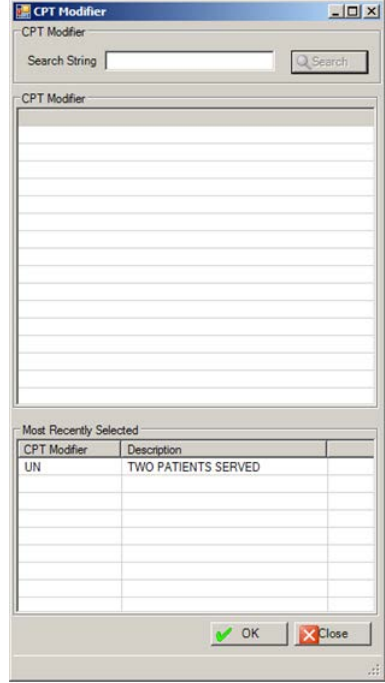

Screen Capture	What to Do
	<p>Use this search window in one of two ways:</p> <ol style="list-style-type: none"> <li>(1) Use the <b>Search String</b> field by typing the CPT Modifier name and then clicking <b>Search</b>. The retrieved CPT Modifier names and their descriptions will populate the <b>CPT Modifier</b> list box. Select a CPT modifier and click <b>OK</b> to save the modifier. (Otherwise, click <b>Close</b>.)</li> <li>(2) Select a CPT modifier in the <b>Most Recently Selected</b> list box and click <b>OK</b> to save the modifier. (Otherwise, click <b>Close</b>.)</li> </ol>

Figure 5-36: **CPT Modifier** search window

4. After the **Quantity** and **Modifier** fields are complete, click the right arrow button to add the items to the **Selected Items** list box.

More than one CPT Code can be used in the above process.

5. Another way to populate the **Selected Items** list box is to select a CPT code in the **Most Recently Selected** list box and then click the right arrow button.
6. Remove a selected CPT code in the **Selected Items** list box by clicking the left arrow button.
7. When the **Selected Items** list box is complete, click **OK** to save the data and to add the data to the CPT Code(s) group box. (Otherwise, click **Close**.)

### Delete Button

1. Select a CPT code record to delete.
2. Click **Delete**.
3. At the **Are You Sure** confirmation message, click **Yes** and the selected record will be removed from the CPT Code(s) group box. (Otherwise, click **No**).

### 5.3.3 Group Data Tab

Use the **Group Data** tab to specify secondary providers, POV code, group note, and CPT codes for the group encounter.

The screenshot shows the 'Group Data' tab within a software interface. At the top, there are navigation tabs: 'Activities', 'Group Data', 'Group Education', 'Patients', and 'Patient Data'. Below these is a text field for 'Chief Complaint/Presenting Problem'. The next section is 'Secondary Providers', which contains a table with a 'Provider' column and an 'Add' button. Below that is 'Purpose of Visit - POV (Primary Group Topic)', which has a table with 'Code' and 'Narrative' columns, and 'Add', 'Edit', and 'Delete' buttons. At the bottom is a large text area for 'Standard Group Note'.

Figure 5-37: **Group Data** tab

**Note:** Only the primary provider can change the data on the **Group Data** tab. Whoever is doing the data entry can change the information on this tab until such time the group has been saved; nothing on this tab can be edited after the group is saved. All editing takes place on the **Patient Data** tab.

The group box names in bold text are required.

#### **Chief Complaint/Presenting Problem Field**

In the field, type the chief complaint or presenting problem using 2 to 80 characters. This information describes the major reason the patients sought services.

#### **Secondary Providers Group Box**

Use the **Secondary Providers** group box to add or delete secondary providers for the group encounter.

This is a close-up of the 'Secondary Providers' section from the previous screenshot. It shows a table with a 'Provider' column and an empty row below it. To the right of the table are two buttons: 'Add' (with a green plus icon) and 'Delete' (with a red X icon).

Figure 5-38: **Secondary Providers** group box

## Add Button

1. Click **Add**.
2. The **Secondary Provider** multiple search/select window displays.

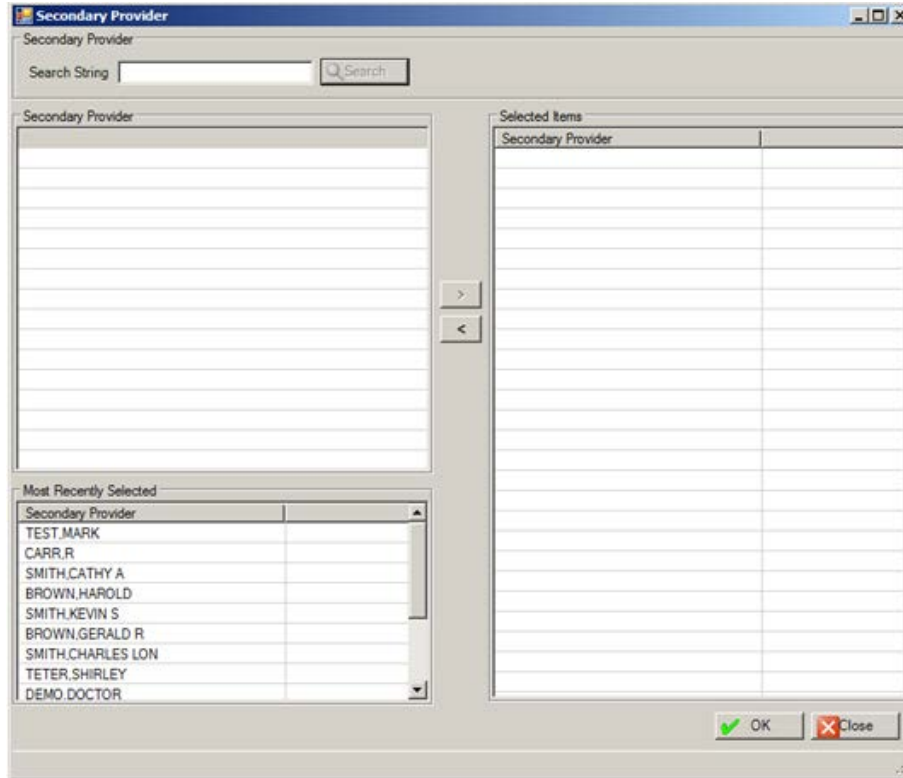

Figure 5-39: **Secondary Providers** search/select window

Use the **Secondary Providers** multiple search/select window in the following manner:

- a. At the **Search String** field, type a few characters of the search criteria.
- b. Click **Search** and the retrieved records display in **Secondary Provider** list box.
- c. To add one or more selected records from the **Secondary Provider** list box to the **Selected Items Secondary Provider** list box, click the right arrow button.
- d. Another way to add records to the **Selected Items Secondary Provider** list box is to select one or more records in the **Most Recently Selected** list box and click the right arrow button.
- e. Similarly, you can remove one or more selected records from the **Selected Items Secondary Provider** list box by clicking the left arrow button.

- f. When the records in the **Selected Items Secondary Provider** list box is complete, click **OK** and the records populate the **Secondary Providers** group box. (Otherwise, click **Close**.)

### Delete Button

1. Select a secondary provider record to delete.
2. Click **Delete**.
3. At the **Are You Sure** confirmation message, click **Yes** to remove the selected secondary provider. Otherwise, click **No**.

### Purpose of Visit - POV (Primary Group Topic) Group Box

Use this group box to add, edit, or delete POV codes and their narratives associated with the group encounter. These are POVs for all group members and will display as such on the **Patient Data** tab and the printed encounter record unless edited or deleted on the **Patient Data** tab.

At least one POV record is required for a group encounter.

Code	Narrative

Figure 5-40: POV group box

You can add, edit, or delete POV records in this group box.

### Delete Button

1. Select a POV record to delete.
2. Click **Delete**.
3. At the **Are You Sure** confirmation message, click **Yes** to remove the selected POV record. Otherwise, click **No**.

### Add Button

1. Click **Add**.
2. The **POV** multiple search/select window displays.

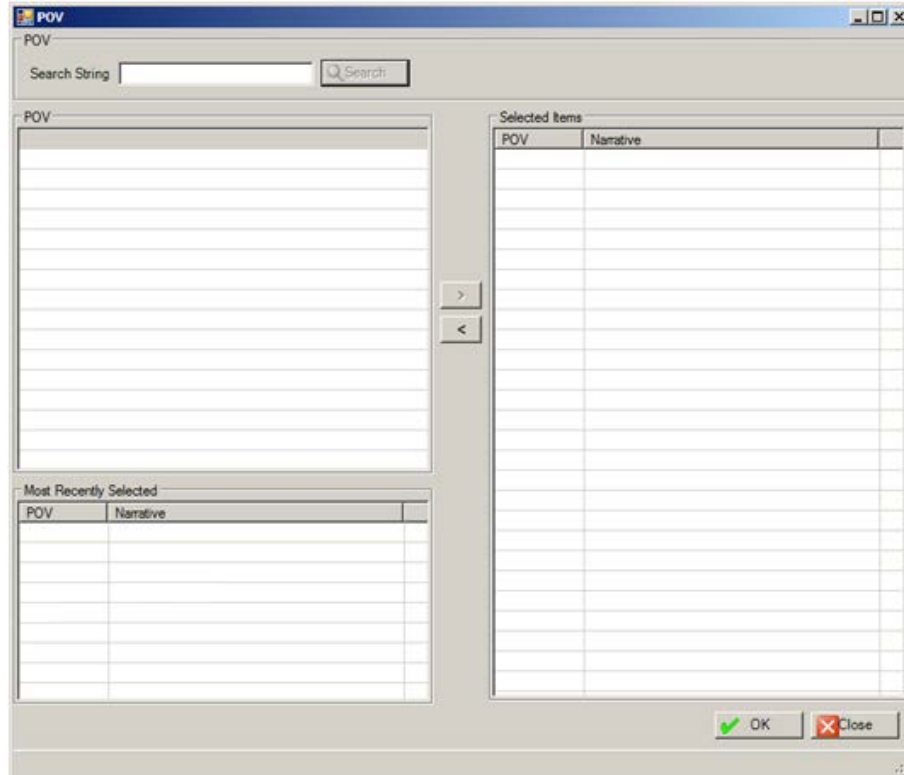

Figure 5-41: **POV** multiple select/search window

Use the **POV** multiple search/select window in the following manner:

3. At the **Search String** field, type a few characters of the search criteria.
4. Click **Search** and the retrieved records display in **POV** list box (the **POV** and its narrative).
5. To add one or more selected records from the **POV** list box to the **Selected Items** list box, click the right arrow button.
6. Another way to add records to the **Selected Items** list box is to select one or more records in the **Most Recently Selected** list box and click the right arrow button.
7. Similarly, you can remove one or more selected records from the **Selected Items** list box by clicking the left arrow button.
8. When the records in the **Selected Items** list box is complete, click **OK** and the records populate the **Purpose of Visit (POV)** group box. (Otherwise, click **Close**.)

### **Edit Button**

Use the **Edit** button to change the Narrative part of a **POV** record in the group box.

1. Select a **POV** record to edit.

2. Click **Edit**.
3. The **Edit POV** dialog displays.

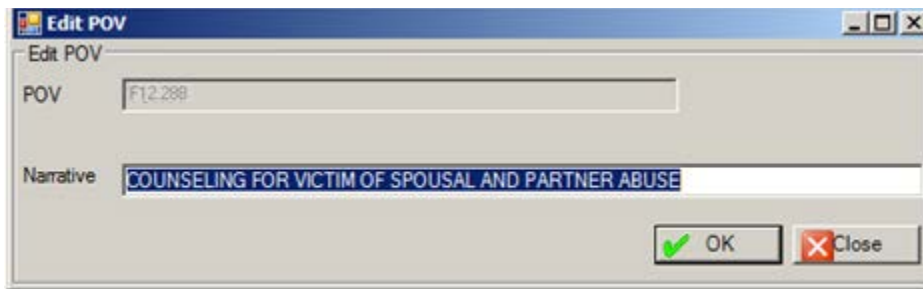

Figure 5-42: **Edit POV** dialog

4. At the **Narrative** field, type the new POV narrative, using 2–80 characters.

**Note:** The special characters double or single quotation marks (“ or ‘) cannot be the first character of the POV narrative. The Narrative field is a Free Text field.

5. Click **OK** to change the narrative of the selected code on the POV group box. Otherwise, click **Close** to not change the narrative.

### **Standard Group Note Field**

Use **Standard Group Note** field to type the text of a group note for the group encounter. This is a Free Text field.

You must be on the **Patient Data** tab to do any editing after the group has been saved.

### 5.3.4 Group Education Tab

Use the **Group Education** tab to add, change, or delete education data about the group encounter.

The screenshot displays a software window titled 'Group Education' with a tabbed interface. The active tab is 'Group Education'. Below the tabs is a table with the following columns: 'Education Topic', 'Time Spent', 'Level of Underst...', and 'Comment'. To the right of the table are three buttons: 'Add' (with a green plus icon), 'Edit' (with a blue pencil icon), and 'Delete' (with a red X icon). Below the table are four input fields: 'Education Topic' (a dropdown menu), 'Time' (a text box), 'Level of Understanding' (a dropdown menu), and 'Comment' (a text box). To the right of these fields is a 'Provider' dropdown menu showing 'DEMO.DOCTOR'. At the bottom right are 'OK' and 'Cancel' buttons.

Figure 5-43: Sample Group Education tab

The information on this tab is read-only when using the **Edit Group Data** window.

### Add/Edit Group Education Record

The **Add** and **Edit** functions use the same fields.

All Group Education entries created before the installation date for BHS v4.0 will continue to display the **Goal** and **CPT** fields.

1. Click **Add** to activate the fields below the education grid.
- OR
2. Select a record to edit and click **Edit**.
  3. At the **Education Topic** field, select the education topic for the group encounter. Click the list to access the **Education Topic** search window. Here you search for an education code.

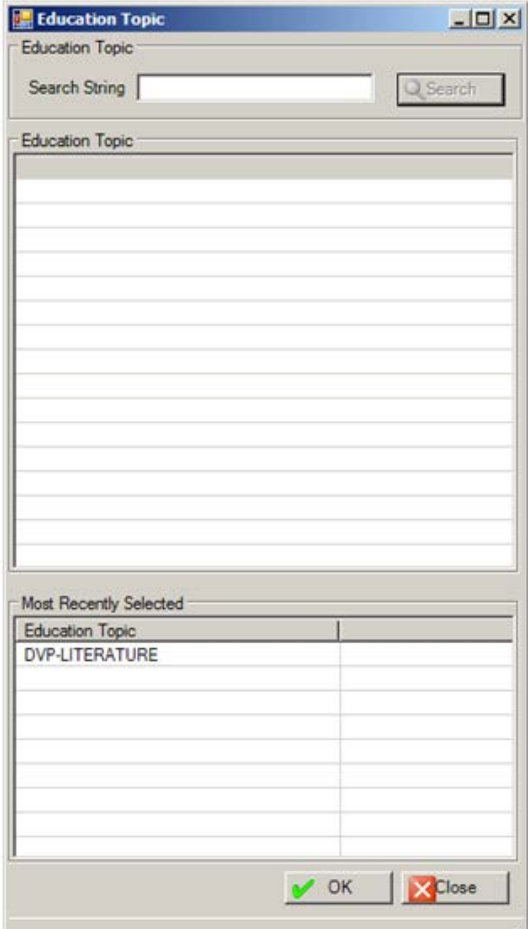

Screen Capture	What to Do
	<p>Use this search window in one of two ways:</p> <p>(1) Use the <b>Search String</b> field by typing the education topic and then clicking <b>Search</b>. The retrieved education topics will populate the <b>Education Topic</b> list box. Select a retrieved record and click <b>OK</b> to populate the <b>Education Topic</b> field. (Otherwise, click <b>Close</b>.)</p> <p>(2) Select an education topic in the <b>Most Recently Selected</b> list box and click <b>OK</b> to populate the <b>Education Topic</b> field. (Otherwise, click <b>Close</b>.)</p>

Figure 5-44: **Education Topic** select window

- At the **Provider** field, select the provider for the group education. Click the list to access the **Education Provider** search window. Here you search for a provider name.

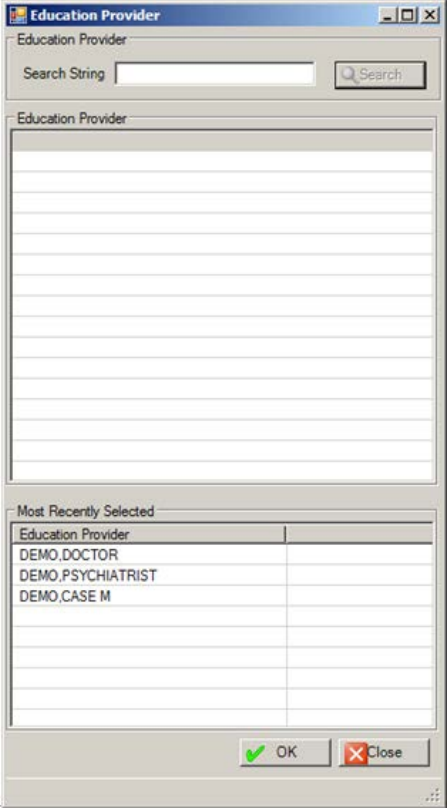

Screen Capture	What to Do
	<p>Use this search window in one of two ways:</p> <p>(1) Use the <b>Search String</b> field by typing the provider's last name and then clicking <b>Search</b>. The retrieved names will populate the <b>Education Provider</b> list box. Select a retrieved record and click <b>OK</b> to populate the <b>Provider</b> field. (Otherwise, click <b>Close</b>.)</p> <p>(2) Select a name in the <b>Most Recently Selected</b> list box and click <b>OK</b> to populate the <b>Provider</b> field. (Otherwise, click <b>Close</b>.)</p>

Figure 5-45: **Education Provider** select window

5. At the **Time** field, type the time spent on the education topic, using any integer (1–9999). The understood units of measure are minutes.
6. At the **Level of Understanding** field, select the level of understanding about the education topic. The default is Group-No Assessment (the only choice).
7. At the **Comment** field, type any comments about the education topic for the group encounter.

Click **Cancel** to clear the fields on the **Group Education** tab.

Click **OK** when all fields are complete. This adds a record to the Education grid.

### Delete Group Education Record

1. Select a group education record to delete.
2. Click **Delete**.
3. At the **Are You Sure** confirmation message, click **Yes** to remove the selected Education record from the group box. (Otherwise, click **No**.)

**Note:** The Group Education can be removed only prior to saving the group. Once the group has been saved, there is currently no means to remove it in the group format.

### 5.3.5 Patients Tab

The **Patients** tab shows the patients in the group encounter.

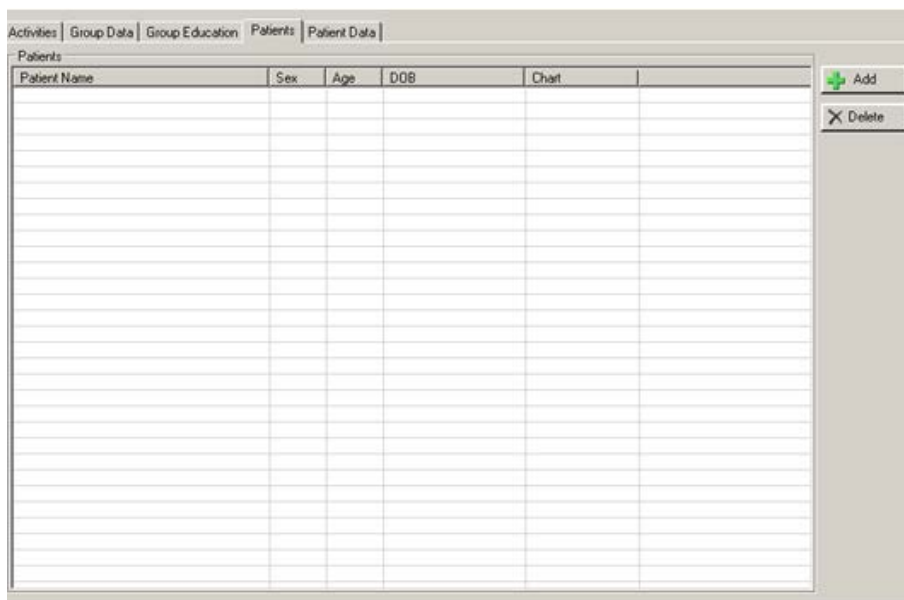

Figure 5-46: Patients tab

The information on this tab is read only when using the **Edit Group Data** window.

You can add or delete patient records on this tab (on the **Add** window).

#### **Add Patient Record**

The **Add** button requires that the POV group box and the Standard Note Group Note (on the Group Data tab) are populated.

1. Click **Add** to access the **Select Multiple Patients** window.

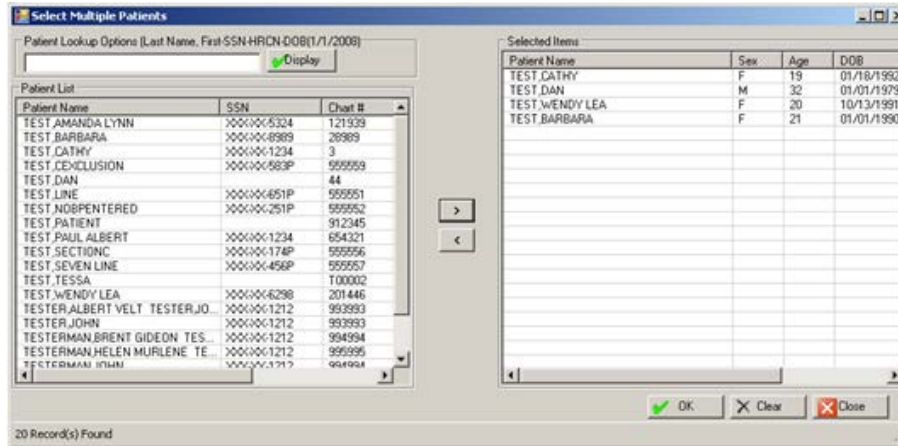

Figure 5-47: **Select Multiple Patients** dialog

Use this dialog add one or more patients to the **Patients** tab.

2. At the **Patient Lookup** field, type the patient name, HRN, DOB, or SSN.
3. Click **Display**.
4. The retrieved patients display in the **Patient List** box.
5. Select one or more patient names from the **Patient List** group box and click the right arrow button to add them to the **Selected Items** list box.
6. If needed, select a patient name from the **Selected Items** list box and click the left arrow button to move the patient name to the **Patient List** box.
7. When the **Selected Item** list box is complete, do one of the following:
  - Click **OK** to have the patient names to populate the **Patients** group box (on the Patients tab). This closes the **Select Multiple Patients** dialog.
  - Click **Clear** to have all of the patient names removed from the **Selected Items** group box and the focus stays on the **Select Multiple Patients** window.
  - Click **Close** to close **Select Multiple Patients** window and no patient names are added to the **Patients** group box.

### Delete Patient Record

1. Select a patient record to delete.
2. Click **Delete**.
3. At the “Are You Sure” confirmation message, click **Yes** to remove the selected patient record from the Patient group box. (Otherwise, click **No**.)

**Note:** Leave the clients who no-showed or canceled in the group because it is possible to do the “no show” within the group definition on the **Patient Data** tab in the **Time In Activity** field.

### 5.3.6 Patient Data Tab

Use the **Patient Data** tab to add POV, group note, and comment/next appointment information for a particular patient in the group encounter.

Patient Name	Sex	Age	DOB	Chart
EBY, ROBERT MITCHELL	M	15	02/19/1998	186585
FAUST, JIMMY JOE	M	27	11/01/1986	129347
COCHRAN, EDWARD RAYDEAN	M	43	07/23/1970	107900
BORWAN, JAMES A	M	47	09/16/1971	106425

Figure 5-48: **Patient Data** tab

The following table provides information about the features on this window.

Table 5-4: Patient Data features and functionality

Features	Functionality
<b>Patients</b> list field	Select a patient by double-clicking the name in the Patients list box to activate the other group boxes.
<b>OK</b> button	Click <b>OK</b> after selecting a patient record and changing or adding new patient data to save the patient data.
<b>Cancel</b> button	Click <b>Cancel</b> to not save the changes and to dismiss the <b>Patient Data</b> tab.

#### Patients List Box

The **Patients** list box shows the patients in the group encounter.

Patent Name	Sex	Age	DOB	Chart
DEMO,TIMMIE	M	9	06/18/1999	192144
DEMO,DOROTHY ROSE	F	66	10/10/1942	999999
DEMO,COLTON MAXWELL	M	31	05/18/1977	100678

Figure 5-49: **Patients** group box

Double-click one of the patient names in order to use the other group boxes and fields.

After completing the information for the first patient, click **OK**. The focus returns to the **Patients** list box. Then double-click the next patient. After completing the information for the second patient, click **OK**. Repeat this process until all of the patients are complete. Then click **Save** to save all of the information.

If you are in ADD mode and you have clicked **OK** and then try to go to the **Group Data** tab, the application displays the **Continue** warning.

Figure 5-50: **Continue** warning message

- Click **Yes** to overwrite any added individual data. This focus will go to the **Group Data** tab.
- Click **No** to not overwrite any added individual data. The focus will go to the **Patients Data** tab.

### Purpose of Visit - POV (Diagnosis or Problem Code) Group Box

Use the **Purpose of Visit - POV (Diagnosis or Problem Code)** group box to add, edit, or delete a POV for the selected patient. (Be sure to double-click a patient name before adding/changing the data in this group box.)

Code	Narrative
Z65.1	IMPRISONMENT OR OTHER INCARCERATION
Z65.4	VICTIM OF CRIME
T74.31XD	SPOUSE OR PARTNER ABUSE, PSYCHOLOGICAL, CON...

Figure 5-51: **POV** group box

This is required data for the group encounter record.

You can add, edit, or delete POV code records.

### Delete Button

1. Select a POV record to delete.

2. Click **Delete**.
3. At the **Are You Sure** confirmation message, click **Yes** to remove the selected POV record from the **POV** group box. (Otherwise, click **No**.)

### Add Button

1. Click **Add**.
2. The **POV** multiple search/select window displays.

Figure 5-52: **POV** multiple select/search window

Use the POV multiple search/select window in the following manner:

- a. At the **Search String** field, type a few characters of the search criteria.
- b. Click **Search** and the retrieved records display in **POV** list box (the POV and its narrative).
- c. To add one or more selected records from the **POV** list box to the **Selected Items** list box, click the right arrow button.
- d. Similarly, you can remove one or more selected records from the **Selected Items** list box by clicking the left arrow button.

- e. Another way to add records to the **Selected Items** list box is to select one or more records in the **Most Recently Selected** list box and click the right arrow button.
- f. When the records in the **Selected Items** list box is complete, click **OK** and the records populate the **Purpose of Visit (POV)** group box. (Otherwise, click **Close**.)

### Edit Button

1. Select a POV record to edit.
2. Click **Edit** to display the **Edit POV** dialog.

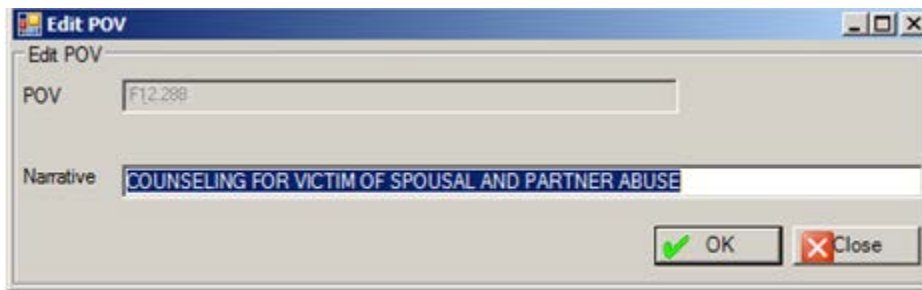

Figure 5-53: **Edit POV** dialog

3. At the **Narrative** field, change the text of the narrative, using 2–80 characters.

**Note:** The special characters single and double quotation marks and asterisk (‘, “, \*,) cannot be the first character of the POV narrative. The Narrative field is a Free Text field.

4. Click **OK** to change the narrative of the selected code on the **POV** group box on the **Patient Data** tab.
5. Otherwise, click **Close** to not change the narrative.

### Standard Group Note Field

Populate this Free Text field with the text of the Standard Group Note. This information, for example, could be about how the patient reacted in the group (on the **Patient Data** tab).

This is where users can individualize the note for the patient in focus. The standard group note should never reference the individual patient but should have information about the individual patient’s participation in the group.

- This field is available for text entry by the primary provider of the record (only).
- This field is not available for text entry if the note for the group record is signed.

### Comment/Next Appointment Field

Populate this Free Text field with the text of any comments about the next appointment for the selected patient. This field is available for text entry by the primary provider of the record (only).

### CPT Codes Group Box

Use this group box to manage the CPT codes for the selected patient in the group.

Figure 5-54: **CPT Code(s)** group box

You can add or delete CPT code records.

#### Delete Button

1. Select a CPT Code record to delete
2. Click **Delete**.
3. At the **Are You Sure?** confirmation, click **Yes** to remove the selected record from the **CPT Codes** group box. (Otherwise, click **No**).

#### Add Button

1. Click **Add**.
2. The **CPT Code** search/select window displays.

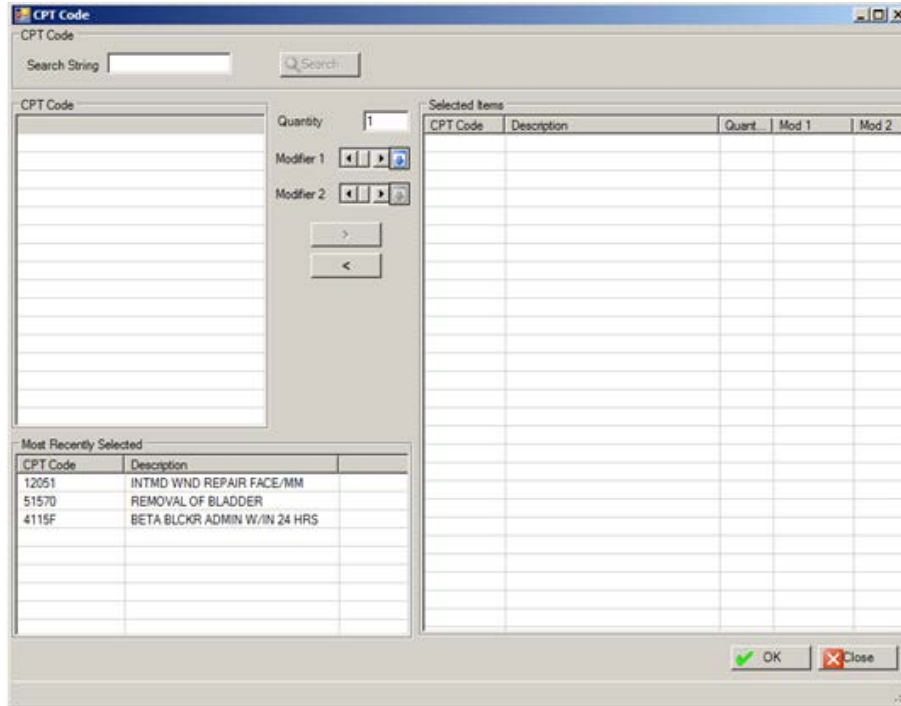

Figure 5-55: CPT Code search/select window

- At the **Search String** field, type a search string to search for a particular CPT code. The CPT codes will display in the **CPT Code** field.

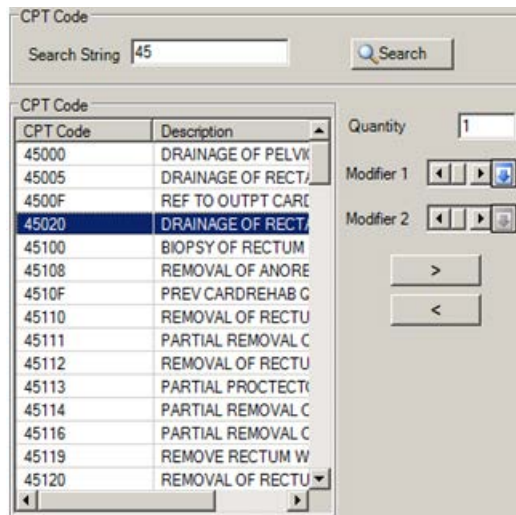

Figure 5-56: CPT Code search results

- At the **Quantity** field, type the number of the CPT code to use to help facilitate billing.
- At the **Modifier** field, select the modifier for the CPT code. Click the list to access the **CPT Modifier** search window.

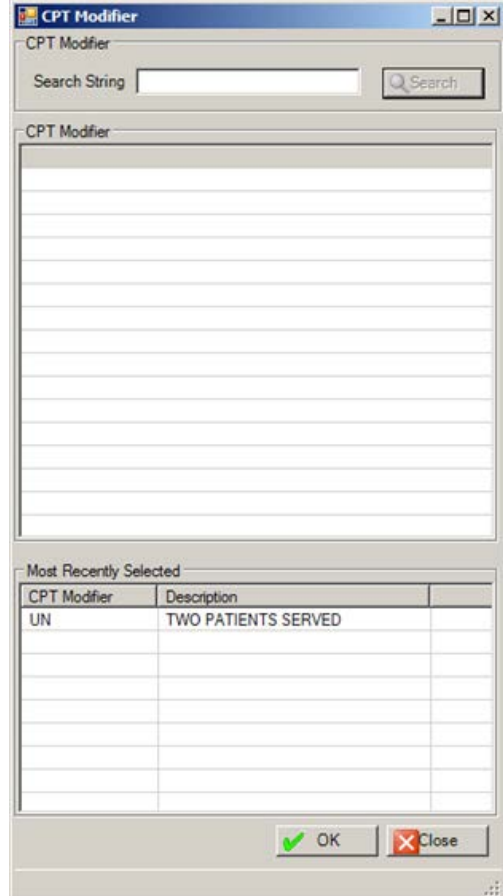

Screen Capture	What to Do
	<p>Use this search window in one of two ways:</p> <p>(1) Use the <b>Search String</b> field by typing the CPT Modifier name and then clicking <b>Search</b>. The retrieved CPT Modifier names and their descriptions will populate the <b>CPT Modifier</b> list box. Select a CPT modifier and click <b>OK</b> to save the modifier. (Otherwise, click <b>Close</b>.)</p> <p>(2) Select a CPT modifier in the <b>Most Recently Selected</b> list box and click <b>OK</b> to save the modifier. (Otherwise, click <b>Close</b>.)</p>

Figure 5-57: **CPT Modifier** search window

6. Remove a selected CPT code in the **Selected Items** list box by clicking the left arrow button.
7. After the **Quantity** and **Modifier** fields are complete, click the right arrow button to add the items to the **Selected Items** list box.
8. When the **Selected Items** list box is complete, click **OK** to save the data and to add the data to the CPT Code(s) group box. (Otherwise, click **Close**.)

### Time in Group

Figure 5-58: Time in Group field

1. At the **Time in Group** field, type the number of minutes in the group encounter (up to six digits).
2. This is required data for the group encounter record.

Consider the following:

- If the patient attended the whole group session, no changes need to be made to the **Time in Group** field.
- If the patient was late or left early, the **Time in Group** field needs to be changed to reflect the actual time in minutes that the patient was in the group.
- If the patient didn't attend at all, type a zero in the **Time In Group** field and click **OK**. The application will display the **No Show** message that states: Changing Time in Group to zero removed this patient's POV and Note entry. You will now be prompted for a No Show POV. Click **OK**. After clicking **OK**, access the **POV** search/select window. Here you can select one or more no-show POVs. Click **OK** (otherwise, click **Cancel**). After clicking **OK**, the selected POVs will display in the **Purpose of Visits – POV** group box on the **Patient Data** tab (all existing POVs will be replaced by your selections).

### Visit Flag

Figure 5-59: Visit Flag field

Use the **Visit Flag** field to specify the visit flag for the group encounter.

1. At the **Visit Flag** field, type any number between 0 and 999 (no decimal digits).
2. This field is for local use in flagging various types of visits. The site will define a numeric value to indicate the definition of the flag. For example, a 1 might mean any visit on which a narcotic was prescribed. Users can later retrieve all visits with a flag of 1, which will list all visits on which narcotics were prescribed.

## 6.0 Case Management

This section provides information about case management in the roll-and-scroll application, as well as in the RPMS Behavioral Health System (GUI).

### 6.1 Managing Case Data (Roll and Scroll)

Manage case data on the **Patient Data Entry** window by selecting the Update Case Data (CD) action. The application displays the **Update BH Patient Case Data** screen.

```

Update BH Patient Case Data   Mar 23, 2009 15:27:33           Page:    0 of    0
-----
Patient Name: DEMO,DOROTHY ROSE   DOB: OCT 10, 1942   Sex: F   HRN: 99999
-----
#   PROGRAM  OPEN      ADMIT      CLOSED     DISPOSITION          PROVIDER

Select Item(s):

```

Figure 6-1: Sample **Update BH Patient Case Data** screen.

Use the Quit (Q) option to exit the **Update BH Patient Case Data** screen.

#### 6.1.1 Open New Case (OP)

Use the Open New Case (OP) option to create a new case. If you use the Open New Case (OP) option, the application displays that it is opening a case for the current patient.

Below are the prompts.

1. At the “Select Item” prompt, type **OP**.
2. At the “Enter Case Open Date” prompt, type the date to open the case. This is the first contact for an episode of care. The **Update Patient Case Data** window displays.

```

***** UPDATE PATIENT CASE DATA *****
Patient Name: ALPHAA,CHELSEA MARIE
*****

```

```

      CASE OPEN DATE: MAY 23, 2009
      PROGRAM AFFILIATION: MENTAL HEALTH
      PROVIDER NAME:
      PRIMARY PROBLEM:

      CASE ADMIT DATE:
      NEXT CASE REVIEW DATE:

      DATE CASE CLOSED:
      DISPOSITION:

COMMENT:
_____

COMMAND:                               Press <PF1>H for help   Insert

```

Figure 6-2: Sample **Update Patient Case Data** window

The underlined fields are required.

3. At the “Case Open Date” prompt, type the date the case was opened (can be edited).
4. At the “Program Affiliation” prompt, type the program affiliation, using one of the following:
  - **M** Mental Health Defaults
  - **S** Social Services Defaults
  - **C** Chemical Dependency or Alcohol/Substance Abuse
  - **O** Other
5. At the “Provider Name” prompt, type the name of the provider for the case.
6. At the Primary Problem” prompt, type the primary problem (name or code).
7. At the “Case Admit Date” prompt, type the admit date for the case. This is when a case management plan was developed and treatment began.
8. At the Next Case Review Date” prompt, type the next date for the case review.
9. At the “Date Case Closed” prompt, type the date the case was closed. This is when treatment has been discontinued (used when closing a case).
10. At the “Disposition” prompt, type the disposition for the case. This is the reason for closing a case. This is a required field when there is a date in the **Date Case Closed** field.
11. At the “Comment” prompt, type the text of a comment about the case, using 1–240 characters.

### 6.1.2 Edit Case Data (ED)

Use the Edit Case Data (ED) option to change a selected case. Use this option to edit an open case where you enter the admitted date when a case is admitted or to close the case when it is closed on the **Update Patient Data** window.

1. At the “Select Item(s)” prompt, type **ED**.
2. At the “Select BH Patient Case Data” prompt, type the number of the case data to edit.
3. The **UPDATE PATIENT CASE DATA** window displays.

The fields on this window are the same as those when you use the Open New Case option. Section 6.1.1 provides more information.

### 6.1.3 Delete Case (DC)

Use the Delete Case (DC) option to remove a specified case from the **Update BH Patient Case Data** window.

1. At the “Select Item(s)” prompt, type **DC**.
2. At the “Select BH Patient Case Data” prompt, type the number of the case data to delete.
3. At the “Are you sure you want to delete this CASE?” prompt, type **Y** (yes) or **N** (no.)

### 6.1.4 Designated Provider/Flag/Personal History (Roll and Scroll)

Use the OI (Desg Prov/Flag/Pers Hx) option on the **Patient Data Entry** window to update patient information.

1. At the “Select Action” prompt, type **OI**.

The **Update Patient Information** window displays.

```

***** UPDATE PATIENT INFORMATION *****
Patient Name: DEMO,DARRELL LEE
[press <F1>E when finished updating record]

-----

DESIGNATED MENTAL HEALTH PROVIDER:
DESIGNATED SOCIAL SERVICES PROVIDER:
  DESIGNATED CD A/SA PROVIDER:
    DESIGNATED OTHER PROVIDER:
      OTHER PROVIDER NON-RPMS:
        OTHER PROVIDER NON-RPMS:
          =====

```

PATIENT FLAG FIELD:	
PATIENT FLAG NARRATIVE:	
_____	
COMMAND:	Press <PF1>H for help    Insert

Figure 6-3: Sample **Update Patient Information** window

The data on this window applies to the current patient.

2. At the “Designated Mental Health Provider” prompt, type the RPMS provider name who has accepted designated Mental Health provider status for the patient.
3. At the “Designated Social Services Provider” prompt, type the PRMS provider name who has accepted designated Social Services provider status for the patient.
4. At the “Designated CD A/SA Provider” prompt, type the RPMS provider name who has accepted designated chemical dependency or alcohol/substance abuse provider status for the patient.
5. At the “Designated Other Provider” prompt, type the RPMS provider name who has accepted the designated other provider status for the patient.
6. At the “Other Provider Non-RPMS” prompt, type another behavioral health provider name not listed in RPMS (this could be a local doctor, school teacher, etc.), using 2–40 characters. This is a Free Text field.
7. At the “Patient Flag Field” prompt, type a locally-defined number field used to identify a specific group of patients (between 0 and 999). For example, 1 could designate patients with a family history of substance abuse, 2 could be used to identify patients enrolled in a special social services program, 3 could be used to identify patients enrolled in a special drug trial. In a program consisting of social services and mental health components, agreement must be reached on use of the flags or users might discover that the same flag has been used for multiple purposes.
8. At the “Patient Flag Narrative” prompt, type the narrative about the patient flag, using 2–60 characters.

After saving or exiting the **Update Patient Information** window, the application displays the **Personal History** window.

If the patient has an existing Personal History entry, the application displays this information (the date and the personal history factor). Add another personal history factor, if needed.

Facilities often find personal history factors to be useful in developing reports for tracking diagnoses associated with personal history.

```
***** PERSONAL HISTORY FOR DEMO,DOROTHY ROSE*****
TWIN
DIABETES
Enter PERSONAL HISTORY:
```

Figure 6-4: Sample **Personal History** window

Below are the prompts.

9. At the “Enter personal history” prompt, type the personal history factor for the current patient. If you do not want to add another personal history, type a caret (^) at the prompt.
10. After completing the personal history entry, the focus returns to the **Patient Data Entry** window.

The personal history data entered here appears on the Patient List for Personal Hx Items report.

## 6.2 Case Management Window (GUI)

The figure below shows where the Case Management function is located on RPMS Behavioral Health System (GUI) tree structure.

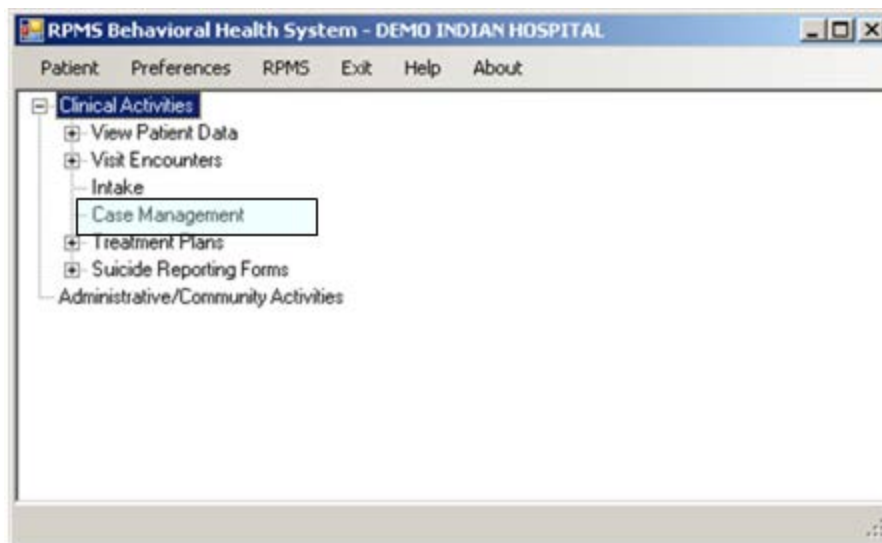

Figure 6-5: Case Management option on the RPMS Behavioral Health System (GUI) tree structure

Use the Case Management option to access the **Case Management** window for the current patient.

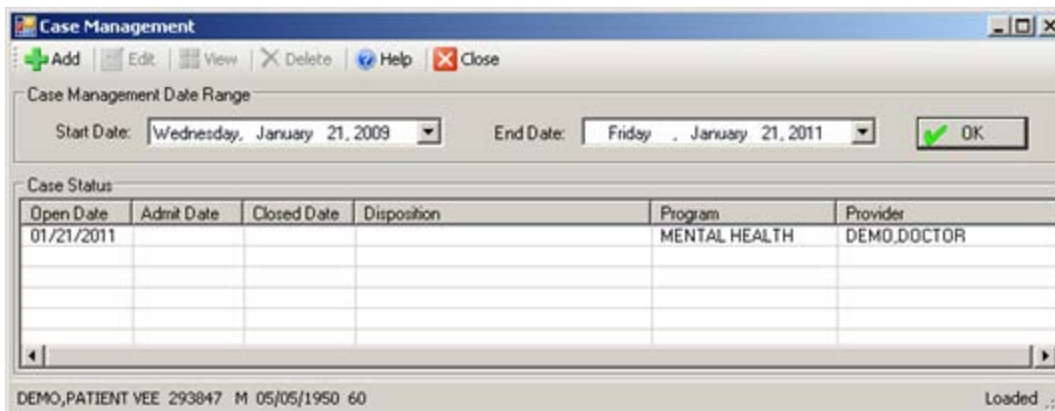

Figure 6-6: Case Management window

Use the **Case Management** window to manage the case management records within a particular date range for the current patient (the name displays in the lower, left corner of the window).

Table 6-1 provides information about the features of the **Case Management** window.

Table 6-1: Case Management window features and functionality

Feature	Functionality
<b>Case Management Date Range</b> Group Box	The date range for the displayed case management records is shown in the <b>Case Status Date Range</b> group box. Change the date range by accessing the calendar under the list for the date. After changing the date range, click <b>OK</b> to update the display in the <b>Case Status</b> group box.
<b>Case Status</b> Group Box	The <b>Case Status</b> group box displays the case management records in the case management data range.
<b>Add</b> Button	Establish the patient to use in the add process. Click <b>Add</b> to add a new case management record and access the <b>Case Management–Add Case</b> window.
<b>Edit</b> Button	Click <b>Edit</b> to edit a particular case management record. The application displays the <b>Case Management–Edit Case</b> window.
<b>View</b> Button	Click <b>View</b> (or double-click on a record) to view the data in a selected Case Management record. The application displays the <b>Case Management–View Case</b> window. The fields are the same as those on the add/edit case windows.
<b>Delete</b> Button	Click <b>Delete</b> to remove a selected Case Status record. After clicking <b>Delete</b> , the <b>Are You Sure?</b> confirmation message displays, asking to verify deletion. Click <b>Yes</b> to remove the selected case status record from the group box (otherwise, click <b>No</b> .)
<b>Help</b> Button	Click <b>Help</b> to access the online help system for the <b>Case Management</b> window.
<b>Close</b> Button	Click <b>Close</b> to close the <b>Case Management</b> window.

## 6.3 Add/Edit Case Management Data (GUI)

Use this function to add or edit case management data.

1. Click **Add** and the **Case Management–Add Case** window displays.

OR

2. To edit a selected record, click **Edit**. The **Case Management–Edit Case** window displays; this window has the same fields as the **Case Management–Add Case** window.

3. The following shows the **Case Management–Add Case** window.

The screenshot shows a software window titled "Case Management - Add Case". It contains the following fields and sections:

- Case Status:** A dropdown menu with "Program" selected.
- Case Open Date:** A date picker showing "Tuesday, February 15, 2011".
- Case Admit Date:** A date picker showing "Tuesday, February 15, 2011".
- Next Review Date:** A date picker showing "Tuesday, February 15, 2011".
- Date Case Closed:** A date picker showing "Tuesday, February 15, 2011".
- Disposition:** A dropdown menu.
- Provider Name:** A text field containing "DEMO\_DOCTOR".
- Primary Problem (Axis I/II):** A text field.
- Comment:** A large text area.
- Patient Information:**
  - Designated Mental Health Provider: "ADAIR, DEWAYNE"
  - Designated Social Work Provider: (empty)
  - Designated Chemical Dependency Provider: (empty)
  - Designated Provider Other RPMS: (empty)
  - Designated Primary Care Provider: "SMITHA"
  - Other Provider Non-RPMS: (empty)
  - Patient Flag: (empty)
  - Patient Flag Narrative: (empty)
- Personal History:** A table with one row containing "TWIN".
- Buttons:** "Add", "Delete", "Help", "Save", and "Close".

Figure 6-7: **Case Management–Add Case** window

Table 6-2 provides information about the buttons on this window.

Table 6-2: Case Management–Add Case window buttons and functions

Button	Functionality
<b>Save</b>	Click to save the case management information on this window. This process dismisses the window.
<b>Close</b>	Click to display the <b>Continue?</b> dialog. This dialog states: "Unsaved Data Will Be Lost, Continue?" Click <b>Yes</b> to not save; this dismisses the add window. Click <b>No</b> to remain on the <b>Add Case</b> window and continue work.
<b>Help</b>	Click to access the online help for this window.

### 6.3.1 Case Status Group Box

Figure 6-8: Fields in **Case Status** group box

The fields in bold text are required.

1. At the **Program** field, select the program associated with the new case. Use one of the following from the list:
  - **Mental Health**
  - **Social Services**
  - **Other**
  - **Chemical Dependency**
2. At the **Case Admit Date** field, select the case admin date. This is when a case management plan was developed and treatment began. Accept the default date by checking the check box in front of the date. The default is the current date. Click the list to access a calendar to change the field.
3. At the **Case Open Date** field, select the case open date. This is the first contact for an episode of care. The default is the current date. Click the list to access a calendar to change the field.
4. At the **Next Review Date** field, select the new review date. The default is the current date. Click the list to access a calendar to change the field. Accept the default date by checking the check box in front of the date.
5. At the **Provider Name** field, select the primary provider for the case (the default is the current logged-in user). Click the list to access the **Primary Provider** search/select window.

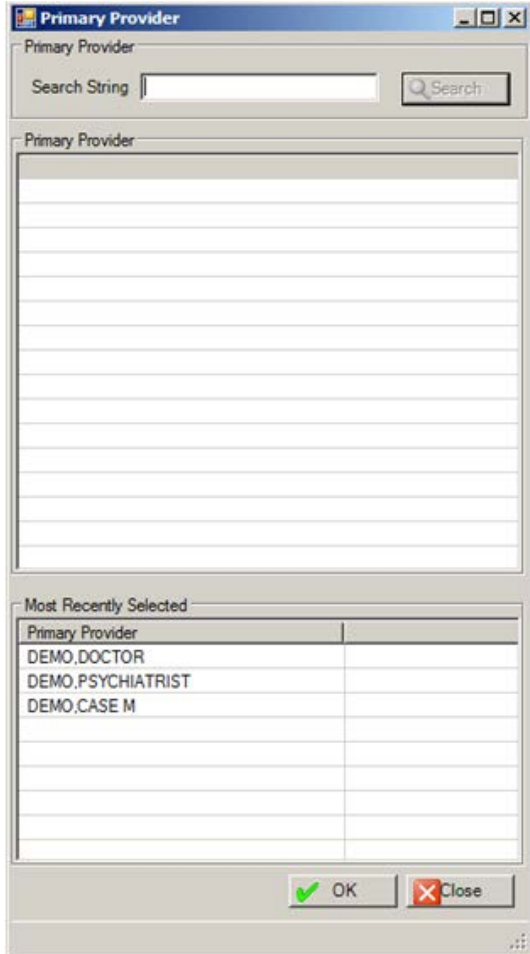

Screen Capture	What to Do
	<p>Use this search window in one of two ways:</p> <p>(1) Use the <b>Search String</b> field by typing the provider's last name and then clicking <b>Search</b>. The retrieved names will populate the <b>Primary Provider</b> list box. Select a name and click <b>OK</b> to populate the <b>Provider Name</b> field. (Otherwise, click <b>Close</b>.)</p> <p>(2) Select a name in the <b>Most Recently Selected</b> list box and click <b>OK</b> to populate the <b>Provider Name</b> field. (Otherwise, click <b>Close</b>.)</p>

Figure 6-9: **Primary Provider** search/select window

6. At the **Date Case Closed** field, select the date the case was closed. This is when treatment has been discontinued. The default is the current date. Click the list to access a calendar to change the field. Accept the default date by checking the check box in front of the date.
7. At the **Primary Problem** field, select the primary problem for the case. Click the list to access the **POV** search window.

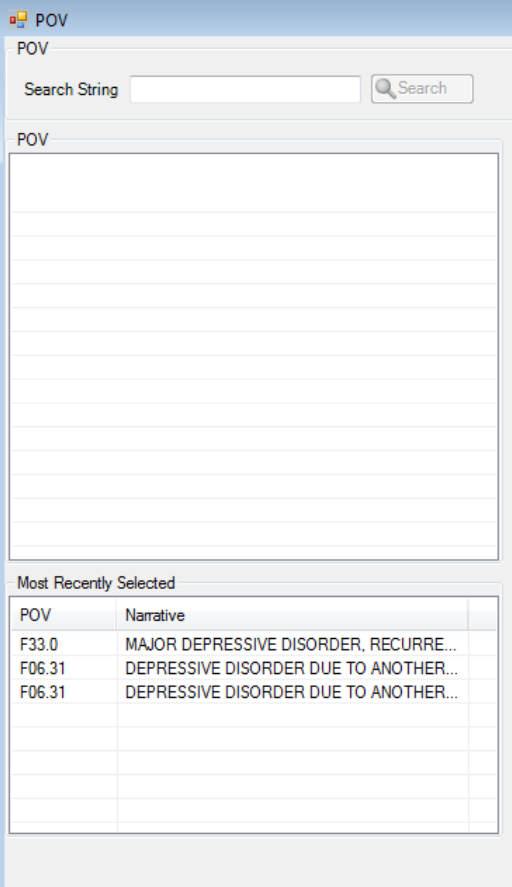

Screen Capture	What to Do								
 <table border="1" data-bbox="363 821 850 1079"> <thead> <tr> <th>POV</th> <th>Narrative</th> </tr> </thead> <tbody> <tr> <td>F33.0</td> <td>MAJOR DEPRESSIVE DISORDER, RECCURE...</td> </tr> <tr> <td>F06.31</td> <td>DEPRESSIVE DISORDER DUE TO ANOTHER...</td> </tr> <tr> <td>F06.31</td> <td>DEPRESSIVE DISORDER DUE TO ANOTHER...</td> </tr> </tbody> </table>	POV	Narrative	F33.0	MAJOR DEPRESSIVE DISORDER, RECCURE...	F06.31	DEPRESSIVE DISORDER DUE TO ANOTHER...	F06.31	DEPRESSIVE DISORDER DUE TO ANOTHER...	<p>Use this search window in one of two ways:</p> <p>(1) Use the <b>Search String</b> field by typing the POV for the primary problem for the case and then <b>Search</b>. The retrieved POVs will populate the <b>POV</b> list box. Select a retrieved record and click <b>OK</b> to populate the <b>Primary Problem</b> field. (Otherwise, click <b>Close</b>.)</p> <p>(2) Select a record in the <b>Most Recently Selected</b> list box and click <b>OK</b> to populate the <b>Primary Problem</b> field. (Otherwise, click <b>Close</b>.)</p>
POV	Narrative								
F33.0	MAJOR DEPRESSIVE DISORDER, RECCURE...								
F06.31	DEPRESSIVE DISORDER DUE TO ANOTHER...								
F06.31	DEPRESSIVE DISORDER DUE TO ANOTHER...								

Figure 6-10: **Primary Problem/POV** search window

8. At the **Disposition** field, select the reason for closing a case. Click the list to select an option on the **Disposition** select window. This is required when there is a date in the **Date Case Closed** field.

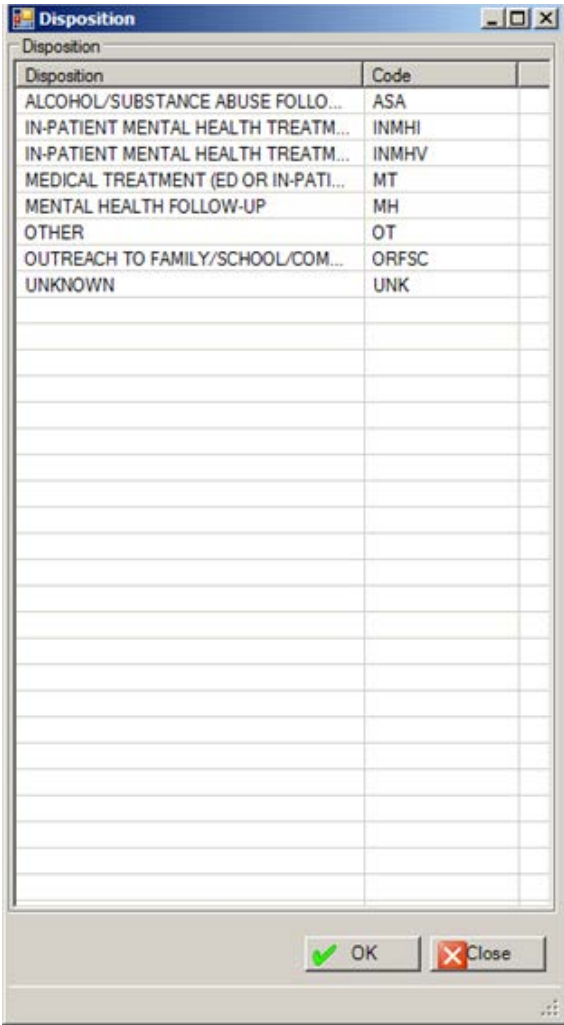

Screen Capture	What to Do
	<p>Use this search window as follow:</p> <ol style="list-style-type: none"> <li>(1) Select a Disposition option and click <b>OK</b> (otherwise, click <b>Cancel</b>).</li> <li>(2) After clicking <b>OK</b>, the selected option populates the <b>Disposition</b> field.</li> </ol>

Figure 6-11: **Disposition** select window

9. At the **Comment** prompt, type a comment about the case, using 1–240 characters in this Free Text field.

### 6.3.2 Patient Information Group Box

Use the **Patient Information** group box to supply information about various providers and other case management information.

Figure 6-12: Fields in the **Patient Information** group box

**Note:** These fields should be cleared out whenever the case is closed; otherwise, the patient will continue to show up on the provider's case list. To clear the field, right-click and select **Clear**.

All fields are optional.

1. At the **Designated Mental Health Provider** field, select the RPMS provider name who has accepted designated mental health provider status for the patient. Click the list to access the **Designated Mental Health Provider** search window.

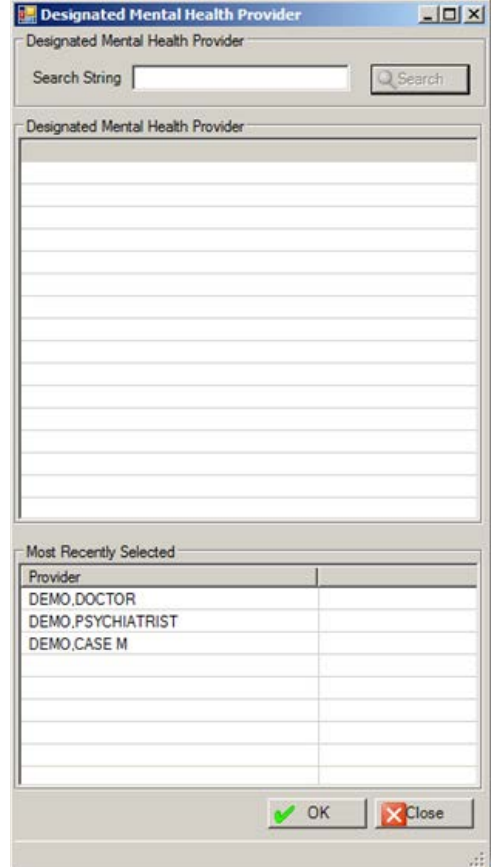

Screen Capture	What to Do
	<p>Use this search window in one of two ways:</p> <p>(1) Use the <b>Search String</b> field by typing the provider's last name and then clicking <b>Search</b>. The retrieved providers will populate the <b>Designated Mental Health Provider</b> list box. Select a retrieved record and click <b>OK</b> to populate the <b>Designated Mental Health Provider</b> field. (Otherwise, click <b>Close</b>.)</p> <p>(2) Select a name in the <b>Most Recently Selected</b> list box and click <b>OK</b> to populate the <b>Designated Mental Health Provider</b> field. (Otherwise, click <b>Close</b>.)</p>

Figure 6-13: Designated Mental Health Provider search window

2. At the **Other Provider Non-RPMS** field, type another Behavioral Health provider name not listed in RPMS, using between 2–40 characters (Free Text field).
3. At the **Designated Social Work Provider** field, select the RPMS provider who has accepted designated social work provider status for the patient. Click the list to access the **Designated Social Work Provider** search window.

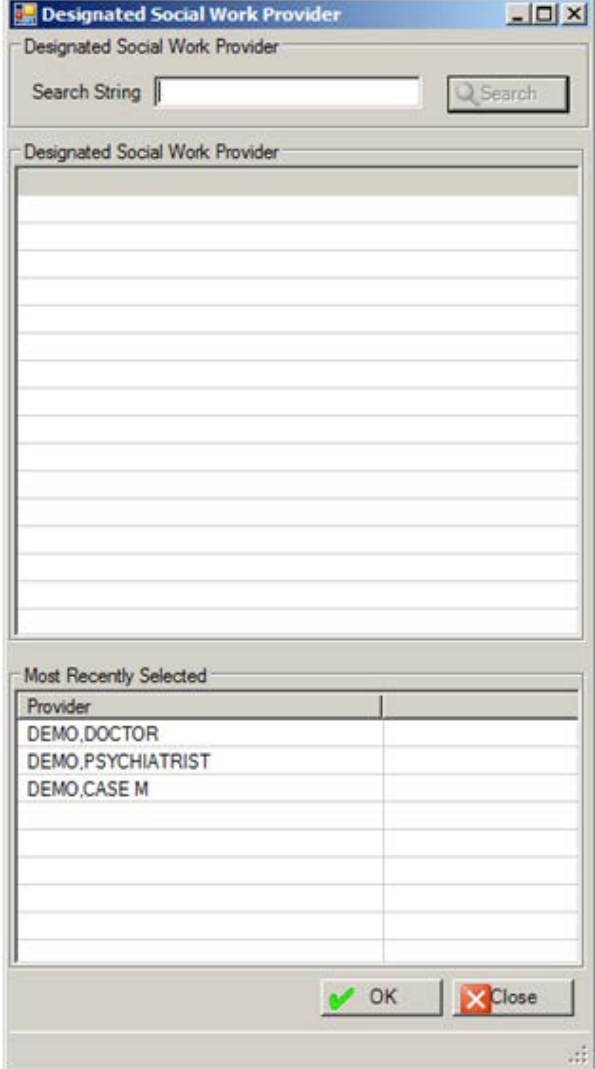

Screen Capture	What to Do
	<p>Use this search window in one of two ways:</p> <p>(1) Use the <b>Search String</b> field by typing the provider's last name and then clicking <b>Search</b>. The retrieved providers will populate the <b>Designated Social Work Provider</b> list box. Select a retrieved record and click <b>OK</b> to populate the <b>Designated Social Work Provider</b> field. (Otherwise, click <b>Close</b>.)</p> <p>(2) Select a name in the <b>Most Recently Selected</b> list box and click <b>OK</b> to populate the <b>Designated Social Work Provider</b> field. (Otherwise, click <b>Close</b>.)</p>

Figure 6-14: Designated Social Work Provider search window

4. At the **Other Provider Non-RPMS** prompt, type another provider name not listed in RPMS, using 2–40 characters (Free Text field).
5. At the **Designated Chemical Dependency Provider** field, select the RPMS provider name who has accepted designated chemical dependency provider status for the patient. Click the list to access the **Designated Chemical Dependency Provider** search window.

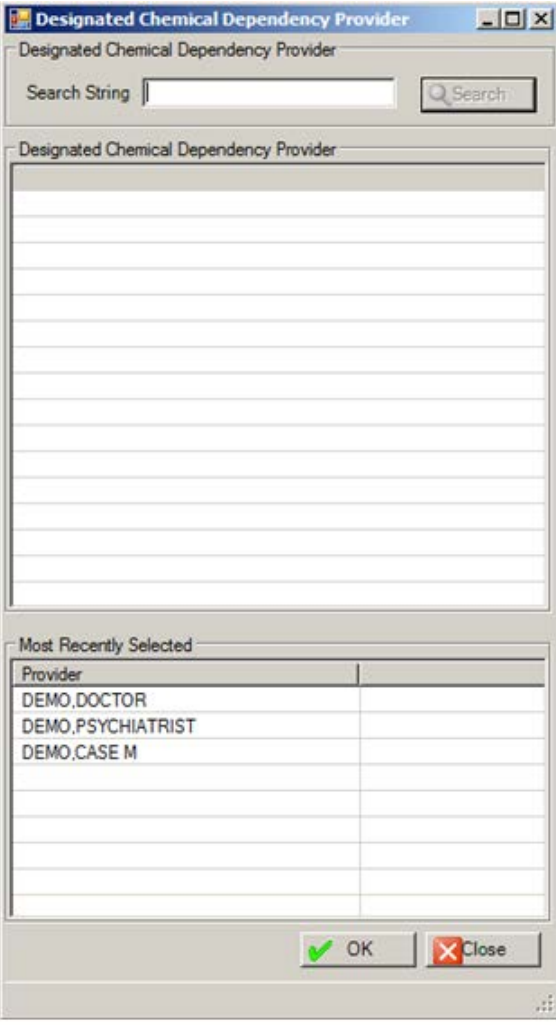

Screen Capture	What to Do
	<p>Use this search window in one of two ways:</p> <p>(1) Use the <b>Search String</b> field by typing the provider's last name and then clicking <b>Search</b>. The retrieved providers will populate the <b>Designated Chemical Dependency Provider</b> list box. Select a retrieved record and click <b>OK</b> to populate the <b>Designated Chemical Dependency Provider</b> field. (Otherwise, click <b>Close</b>.)</p> <p>(2) Select a name in the <b>Most Recently Selected</b> list box and click <b>OK</b> to populate the <b>Designated Chemical Dependency Provider</b> field. (Otherwise, click <b>Close</b>.)</p>

Figure 6-15: **Designated Chemical Dependency Provider** search window

6. At the **Patient Flag** field, type a locally defined number field used to identify a specific group of patients (Free Text field), using 0–999. For example, 1 could designate patients with a family history of substance abuse, 2 could be used to identify patients enrolled in a special social services program, 3 could be used to identify patients enrolled in a special drug trial. In a program consisting of social services and mental health components, agreement must be reached on use of the flags, or users might discover that the same flag has been used for multiple purposes.
7. At the **Designated Provider Other RPMS** field, select the RPMS provider who has accepted the Designated Other RPMS Provider status for the patient. Click the list to access the **Designated Other RPMS Provider** search window.

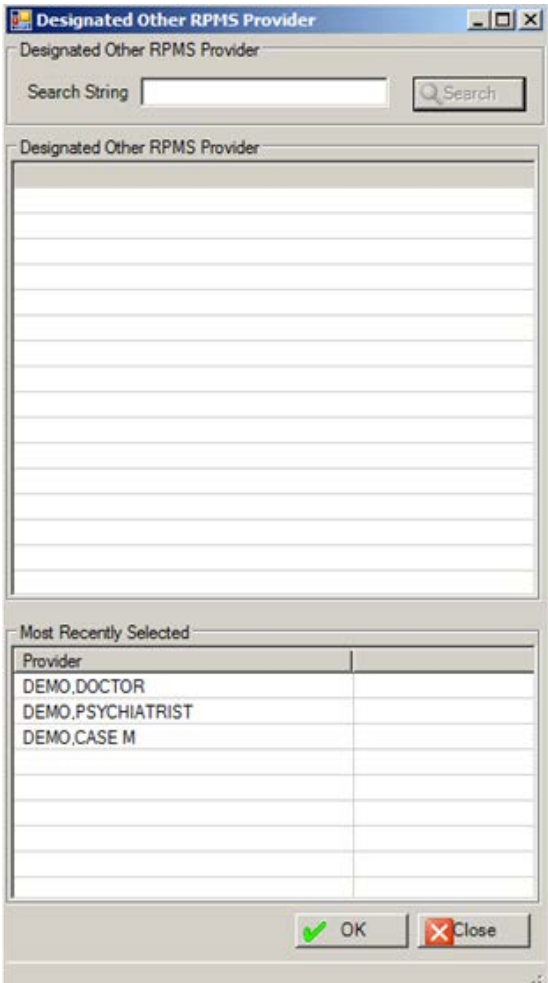

Screen Capture	What to Do
	<p>Use this search window in one of two ways:</p> <p>(1) Use the <b>Search String</b> field by typing the provider's last name and then clicking <b>Search</b>. The retrieved providers will populate the <b>Designated Other RPMS Provider</b> list box. Select a retrieved record and click <b>OK</b> to populate the <b>Designated Other RPMS Provider</b> field. (Otherwise, click <b>Close</b>.)</p> <p>(2) Select a name in the <b>Most Recently Selected</b> list box and click <b>OK</b> to populate the <b>Designated Other RPMS Provider</b> field. (Otherwise, click <b>Close</b>.)</p>

Figure 6-16: **Designated Other RPMS Provider** search window

8. At the **Patient Flag Narrative** field, type the narrative about the patient flag, using 2–60 characters.
9. At the **Designated Primary Care Provider** prompt, the application displays the name of the designated primary care provider for the patient (if any). This information is pulled from the Primary Care Provider application and is view only.

### 6.3.3 Personal History Group Box

Use the **Personal History** group box to add or delete personal history data about the current patient.

Figure 6-17: Sample Personal History group box

Users need to document personal history only once, because it becomes a permanent part of the patient's medical record. Facilities often find personal history factors to be useful in developing reports for tracking diagnosis associated with personal history.

### Add Button

1. Click **Add**.
2. The **Personal History Factors** multiple select window displays, where users can add one or more personal history factors.

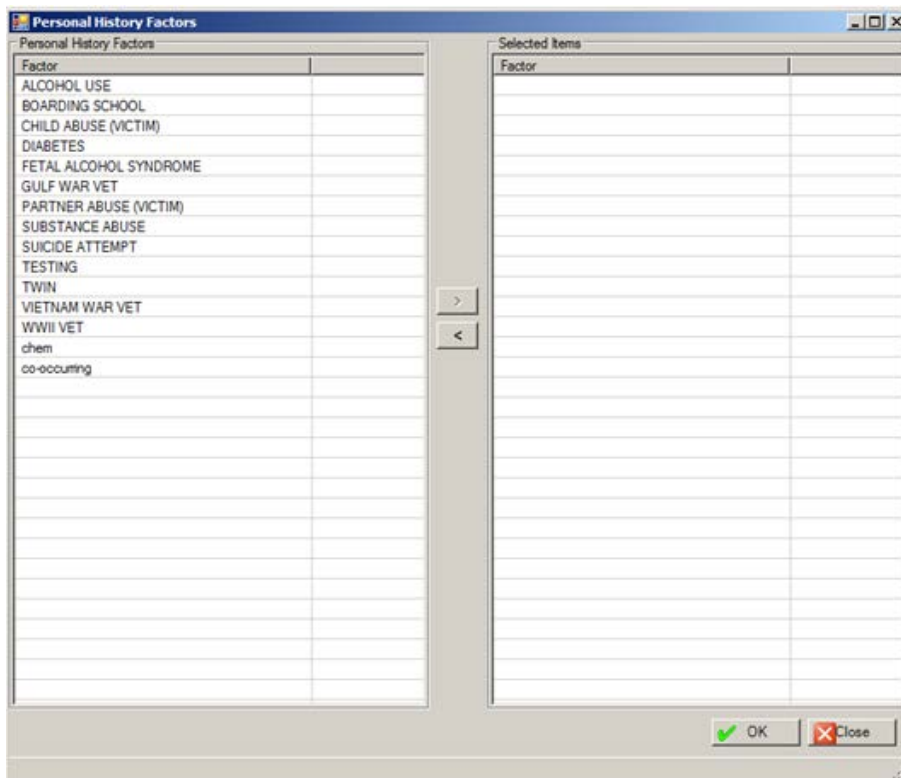

Figure 6-18: Personal History Factors multiple select window

Use this multiple select window as follows:

- a. To add one or more selected records from the **Personal History Factors** list box to the **Selected Items Factor** list box, click the right arrow button.
- b. Similarly, you can remove one or more selected records from the **Selected Items Factor** list box by clicking the left arrow button.

- c. When the **Selected Items Factor** list box is complete, click **OK** and the records populate the **Personal History** group box. (Otherwise, click **Close**.)

**Delete Button**

1. Select the personal history record to delete.
2. Click **Delete**.

At the **Are You Sure?** confirmation message, type **Y** (yes) or **N** (no).

## 7.0 Administrative/Community Activity

The Administrative/Community Activity option gives assistance to community organizations, planning groups, and citizens' efforts to develop solutions for community problems.

### 7.1 Add Administrative/Community Activity Record (Roll and Scroll)

Below is the **Update BH Forms** window.

```

Update BH Forms                Apr 06, 2009 16:56:47                Page: 1 of 1

Select Action: AV//

```

Figure 7-1: Sample Update BH Forms window

Use the AC option to add administrative/community activity record.

1. At the "Select Action" prompt, type **AC**.
2. At the "Enter Primary Provider" prompt, type the primary provider for the visit. The default is the current logged-in user.

The application displays the **Behavioral Health Record Update** window, with the following fields automatically populated: Program, Location of Encounter, Arrival Time, Secondary Providers, Community of Service, # Served, Type of Contact. These fields are auto-populated based on the defaults set up on the site parameters menu. If you do not have defaults set up on the site parameters menu some of these fields might be blank.

```

The underlined fields are required.

- a. At the “Provider” prompt, type the provider name.
- b. At the “PRIMARY/SECONDARY” prompt, type **P** for primary or **S** for secondary.

You can add one or more secondary providers.

The prompts for the **Behavioral Health Record Update** window continue.

9. At the “Community of Service” prompt, type the community of service where the encounter took place.
10. At the “Activity Code” prompt, type the activity code associated with the encounter. Section Appendix A: provides more information about Activity Codes and Definition.
11. At the “# Served” prompt, type the number of people served in the community activity, using any integer between 0 and 999.
12. At the “Activity Time” prompt, type the number of minutes spent on the activity, using any integer between 1 and 9999. Please note, 0 (zero) is not allowed as a valid entry.
13. At the “Type of Contact” prompt, type the contact type (the activity setting).
14. At the Local Service Site” prompt, type the local service site for the encounter.
15. At the Any Prevention Activities to Record?” prompt, type **Y** (yes) or **N** (no).

If Y was used, the **Prevention Activities** pop-up displays:

```

Please enter all Prevention Activities

PREVENTION ACTIVITY:
PREVENTION ACTIVITY:
PREVENTION ACTIVITY:

TARGET:

```

Figure 7-4: Pop-up for prevention activities

The **Target** field will be disabled until a Prevention Activity is entered. In addition, the **Target** field will be disabled if all of the prevention activities are deleted.

The underlined fields are required.

- a. At the “PREVENTION ACTIVITY” prompt, type the code for the prevention activity. These activities are recorded when recording non-patient activities. You can enter more than one, if needed.
- b. At the “TARGET” prompt, type the code of the population the prevention activity is designed for: **A** (Adult), **Y** (Youth), **F** (Family), **M** (Mixed Adult & Youth), **S** (Staff), **E** (Elderly Only), **W** (Women), or **M** (Men).

The prompts for the **Behavioral Health Record Update** window continue.

16. At the “Purpose of Visits (POVS) <press enter>” prompt, press Enter to access the **BH Record Entry–Purpose of Visit Update** window.

```

Figure 7-5: Sample BH Record Entry POV window

The underlined fields are required.

- a. At the “Problem Code” prompt, type the problem code that can be either the Behavioral Health Purpose of Visit or the more specific DSM diagnostic code.

- b. At the Narrative” prompt type the text of the narrative for the problem code, if needed.

The prompts for the **Behavioral Health Record Update** window continue.

17. At the “COMMENT (press enter)” prompt, press Enter to access another window where you can enter the text of comments about the Administrative/Community Activity.

## 7.2 Administrative/Community Activity Window (GUI)

Below shows where the **Administrative/Community Activities** function is located on RPMS Behavioral Health System (GUI) tree structure.

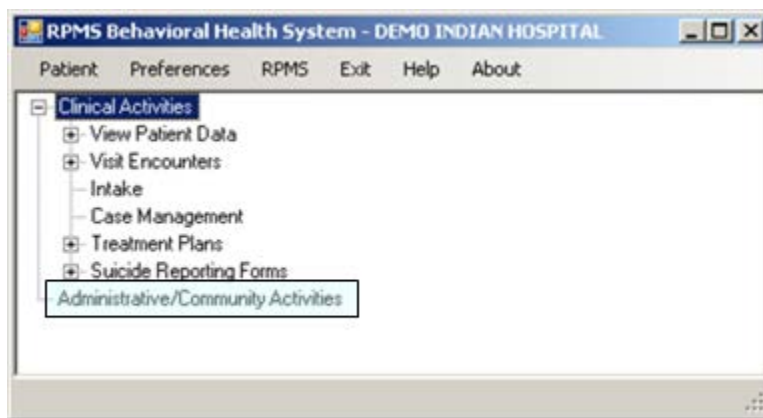

Figure 7-6: Administrative/Community Activities option on the RPMS Behavioral Health System (GUI) tree structure

After selecting the **Administrative/Community Activities** option from the RPMS Behavioral Health System (GUI) tree structure, the **Administrative/Community Activity** window displays.

Figure 7-7: Sample **Administrative/Community Activity** window

The **Administrative/Community Activity** window shows the administrative / community activities records.

The following table provides information about the features on this window.

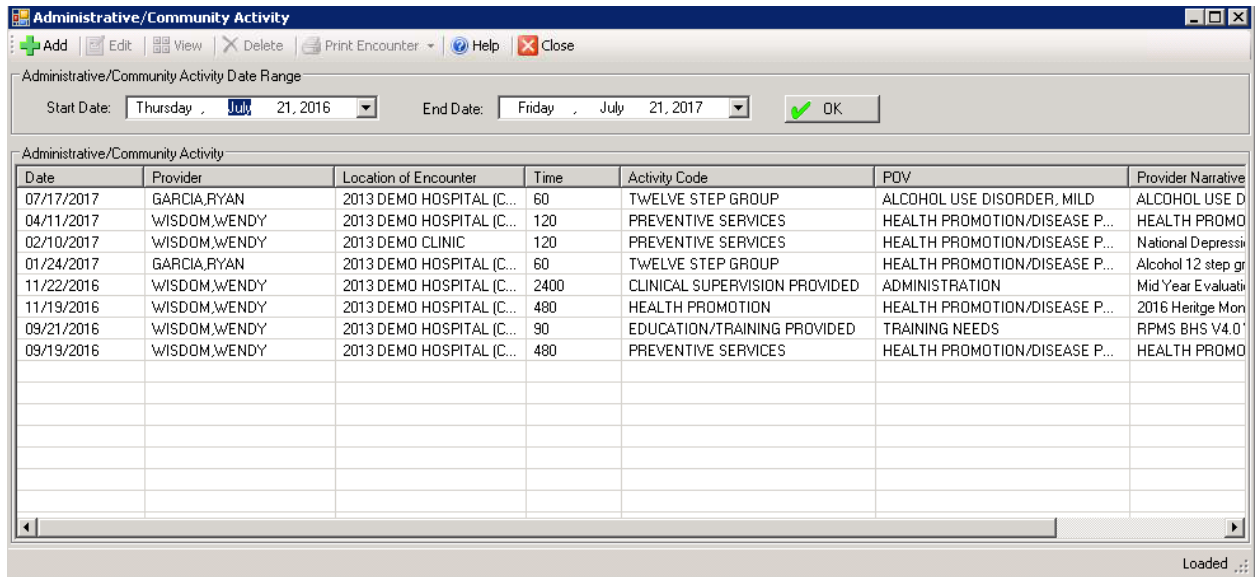

Table 7-1: Administrative/Community Activity window features and functions

Features	Functionality
<b>Administrative/Community Activity</b> date range	This group box shows the date range for the records in the <b>Administrative/Community Activity</b> group box. You can change any date in the date range by clicking the list and selecting a new date from the calendar. After the date range has changed, click <b>OK</b> to display the records in the <b>Administrative/Community Activity</b> group box.
<b>Administrative/Community Activity</b> list box	The records are listed in date order, within the administrative/community activity date range.
<b>Add</b> button	Click <b>Add</b> to add a new administrative/community activity data record and access the Administrative/Community Activity Data Entry–Add Administrative/Community Data.
<b>Edit</b> button	Click <b>Edit</b> to edit a particular new administrative/community activity record. This function displays the Administrative/Community Activity Data Entry–Edit Administrative/Community Data. This window has the same fields as the Administrative/Community Activity Data Entry–Add Administrative/Community Data.
<b>View</b> button	Highlight an administrative/community activity record on the <b>Administrative/Community Activity</b> window and click <b>View</b> to browse the data (or double-click on a record). The <b>Community Activity Data Entry–View Community Data</b> window displays; this is a view-only window. The fields are the same as for the data entry (add/edit) windows. Click <b>Close</b> to dismiss this window.
<b>Delete</b> button	Click <b>Delete</b> to delete a particular record. The application confirms the deletion.
<b>Help</b> button	Click <b>Help</b> to access the online help system for the <b>Administrative/Community Activity</b> window.
<b>Close</b> button	Click <b>Close</b> to dismiss the <b>Administrative/Community Activity</b> window.
<b>Print Encounter</b> button	Click <b>Print Encounter</b> to print/browse an administrative/community activity record. Highlight the record and click <b>Print Encounter</b> . Select one of the following options: <b>Full</b> , <b>Suppressed</b> , <b>Both Full and Suppressed</b> . Suppressed means the chief complaint/presenting problem information is suppressed for confidentiality. The application displays the <b>Print Encounter</b> pop-up window.

## 7.3 Add/Edit Administrative/Community Activity (GUI)

Click **Add** (on the **Administrative/Community Activity** window) to add new administrative/community activity data. This function displays the **Administrative/Community Activity Data Entry–Add Administrative/Community Data** window.

The screenshot shows a software window titled "Administrative/Community Activity". At the top, there is a menu bar with options: Add, Edit, View, Delete, Print Encounter, Help, and Close. Below the menu bar is a section for "Administrative/Community Activity Date Range" with "Start Date" set to Thursday, July 21, 2016, and "End Date" set to Friday, July 21, 2017, followed by an "OK" button. The main area contains a table with the following data:

Date	Provider	Location of Encounter	Time	Activity Code	POV	Provider Narrative
07/17/2017	GARCIA,RYAN	2013 DEMO HOSPITAL (C...	60	TWELVE STEP GROUP	ALCOHOL USE DISORDER, MILD	ALCOHOL USE D

09/21/2016	WISDOM,WENDY	2013 DEMO HOSPITAL (C...	90	EDUCATION/TRAINING PROVIDED	TRAINING NEEDS	RPMS BHS V4.0'
09/19/2016	WISDOM,WENDY	2013 DEMO HOSPITAL (C...	480	PREVENTIVE SERVICES	HEALTH PROMOTION/DISEASE P...	HEALTH PROMO

At the bottom right of the window, it says "Loaded ...".

Figure 7-8: Sample **Community Activity Data Entry** list view

Highlight a record (on the **Administrative/Community Activity** window) and click **Edit** to change the administrative/community activity data. This function displays the **Administrative/Community Activity Data Entry–Edit Administrative/Community Data** window. This window has the same fields as the **Administrative/Community Activity Data Entry–Add Administrative/Community Data**.

Figure 7-9: **Community Activity Data Entry–Add Administrative/Community Data** window

Click **Help** to access the online help for this window.

After completing the fields on this window, click **Save** (otherwise, click **Close**). Clicking **Save** adds a record to the **Administrative/Community Activity** window.

### 7.3.1 Administrative/Community Entry Group Box

Below is the **Administrative/Community Entry** group box.

Figure 7-10: **Administrative/Community Entry** group box

The fields in bold text are required.

1. At the **Primary Provider** field, select the primary provider name for the administrative/community activity. Click the list to access the **Primary Provider** search/select window and search for the primary provider name.

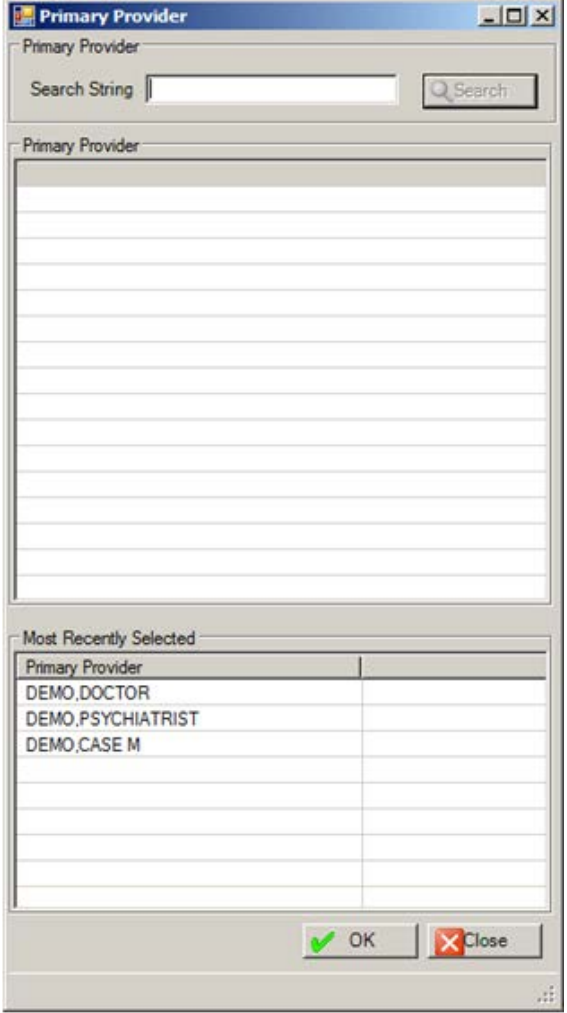

Screen Capture	What to Do
	<p>Use this search window in one of two ways:</p> <p>(1) Use the <b>Search String</b> field by typing the provider's last name and then clicking <b>Search</b>. The retrieved names will populate the <b>Primary Provider</b> list box. Select a name and click <b>OK</b> to populate the <b>Primary Provider</b> field. (Otherwise, click <b>Close</b>.)</p> <p>(2) Select a name in the <b>Most Recently Selected</b> list box and click <b>OK</b> to populate the <b>Primary Provider</b> field. (Otherwise, click <b>Close</b>.)</p>

Figure 7-11: **Primary Provider** search window

2. At the **Encounter Date/Time** field, type the date/time. The default is the current date and time. Change the date by clicking the list to access the calendar. Users can change the time manually and select the hour, minutes, and AM/PM. If you enter the hour and minutes as 13:25, for example, the application automatically changes the time to 1:25 PM.
3. At the **Program** field, type the program name. This is the program associated with the administrative/community activity. Use one of the following:
  - **Mental Health**
  - **Social Services**
  - **Other**
  - **Chemical Dependency**

After completing this field for a new record, the application automatically populates the remaining required fields if defaults were set up in the Site Parameters.

- At the **Encounter Location** field, select the location where the administrative/community activity took place. Click the list to access the **Location** search window and search for a location name.

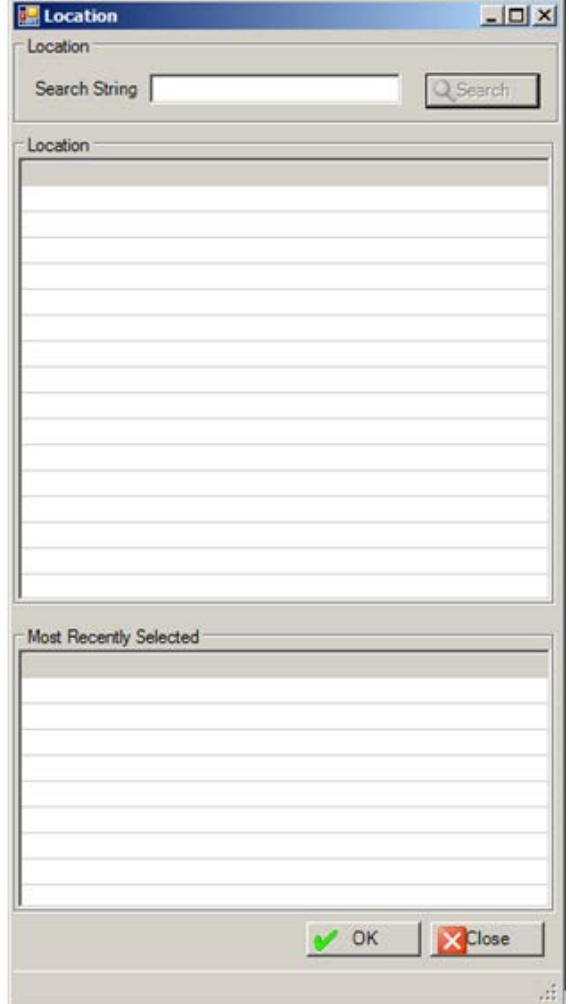

Screen Capture	What to Do
	<p>Use this search window in one of two ways:</p> <ol style="list-style-type: none"> <li>Use the <b>Search String</b> field by typing the location and clicking <b>Search</b>. The retrieved locations will populate the <b>Location</b> list box. Select a location and click <b>OK</b> to populate the <b>Encounter Location</b> field. (Otherwise, click <b>Close</b>.)</li> <li>Select a name in the <b>Most Recently Selected</b> list box and click <b>OK</b> to populate the <b>Encounter Location</b> field. (Otherwise, click <b>Close</b>.)</li> </ol>

Figure 7-12: **Location** search window

- At the **Type of Contact** field, select the type of contact (the activity setting) for the administrative/community activity. Click the list to access the **Type of Contact** select window.

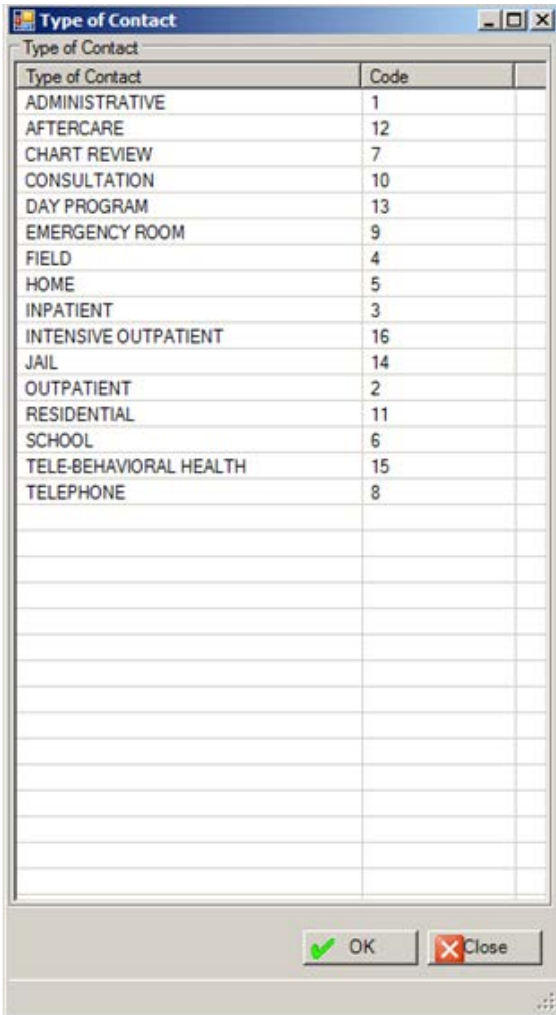

Screen Capture	What to Do																																		
 <table border="1"> <thead> <tr> <th>Type of Contact</th> <th>Code</th> </tr> </thead> <tbody> <tr><td>ADMINISTRATIVE</td><td>1</td></tr> <tr><td>AFTERCARE</td><td>12</td></tr> <tr><td>CHART REVIEW</td><td>7</td></tr> <tr><td>CONSULTATION</td><td>10</td></tr> <tr><td>DAY PROGRAM</td><td>13</td></tr> <tr><td>EMERGENCY ROOM</td><td>9</td></tr> <tr><td>FIELD</td><td>4</td></tr> <tr><td>HOME</td><td>5</td></tr> <tr><td>INPATIENT</td><td>3</td></tr> <tr><td>INTENSIVE OUTPATIENT</td><td>16</td></tr> <tr><td>JAIL</td><td>14</td></tr> <tr><td>OUTPATIENT</td><td>2</td></tr> <tr><td>RESIDENTIAL</td><td>11</td></tr> <tr><td>SCHOOL</td><td>6</td></tr> <tr><td>TELE-BEHAVIORAL HEALTH</td><td>15</td></tr> <tr><td>TELEPHONE</td><td>8</td></tr> </tbody> </table>	Type of Contact	Code	ADMINISTRATIVE	1	AFTERCARE	12	CHART REVIEW	7	CONSULTATION	10	DAY PROGRAM	13	EMERGENCY ROOM	9	FIELD	4	HOME	5	INPATIENT	3	INTENSIVE OUTPATIENT	16	JAIL	14	OUTPATIENT	2	RESIDENTIAL	11	SCHOOL	6	TELE-BEHAVIORAL HEALTH	15	TELEPHONE	8	<p>Use this window as follows:</p> <ol style="list-style-type: none"> <li>(1) Select a type of contact from the list.</li> <li>(2) Click <b>OK</b> to populate the <b>Type of Contact</b> field. Figure 7-15: **Clinic** search/select window

8. At the **Activity Code** field, select the activity code associated with the administrative/community activity. Click the list to access the **Activity** search/select window and search for the activity name. Appendix A: provides more information about the Activity Codes and Definitions.

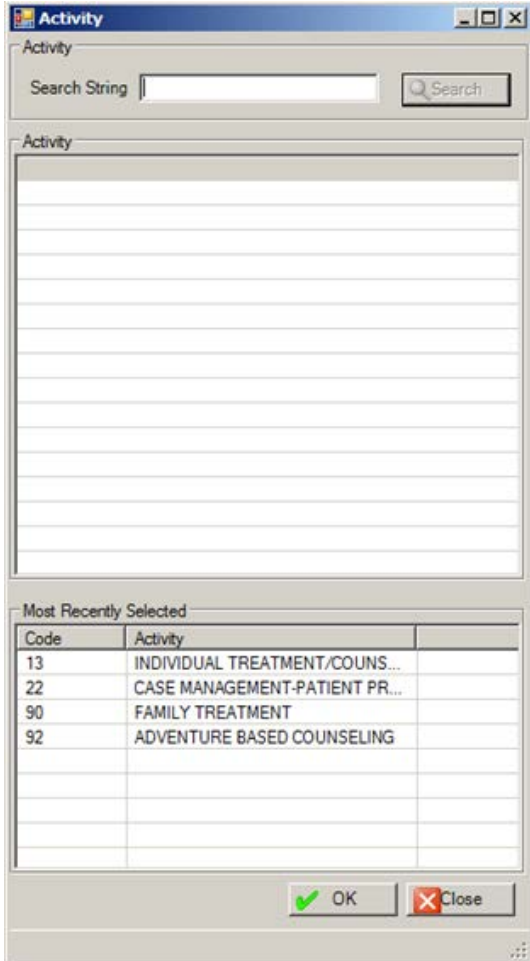

Screen Capture	What to Do
	<p>Use this search window in one of two ways:</p> <p>(1) Use the <b>Search String</b> field by typing the activity and then clicking <b>Search</b>. The retrieved records will populate the Activity list box. Select a retrieved record and click <b>OK</b> to populate the <b>Activity Code</b> field. (Otherwise, click <b>Close</b>.)</p> <p>(2) Select a record in the Most Recently Selected" list box and click <b>OK</b> to populate the <b>Activity Code</b> field. (Otherwise, click <b>Close</b>.)</p>

Figure 7-16; Sample Activity search/select window

9. At the **Activity Time** field, type the number of minutes spent on the activity, using any integer between 1 and 9999.
10. At the **# Served** field, type the number of people served in the administrative/community activity, using any integer between 0 and 999.
11. At the **Flag Field** field, type any local flag (0 to 999) used in flagging various types of visits. The site will define a numeric value to indicate the definition of the flag. For example, a 1 might mean any visit on which a narcotic was prescribed. You can then, later on, retrieve all visits with a flag of 1 which will list all visits on which narcotics were prescribed.
12. At the **Local Service Site** field, select the local service site associated with the administrative/community activity, if any. Click the list to access the **Local Service Site** select window.

Screen Capture	What to Do

Figure 7-17: Local Service Site select window

### 7.3.2 Activity Data Tab

Use the **Activity Data** tab to specify the **Purpose of Visit - POV**, **Prevention Activities**, and **Secondary Providers** data.

Figure 7-18: Activity Data tab

### Purpose of Visit–POV Group Box

The **Purpose of Visit - POV** group box lists the POVs associated with the administrative/community activity.

Code	Narrative
97	ADMINISTRATION

Figure 7-19: POV group box

At least one POV is required for an administration/community activity record. You can add, change, or delete a record.

### Add Button

1. Click **Add**.
2. The **POV** search/select window displays. Here you select one or more POVs.

Figure 7-20: **POV** search/select window

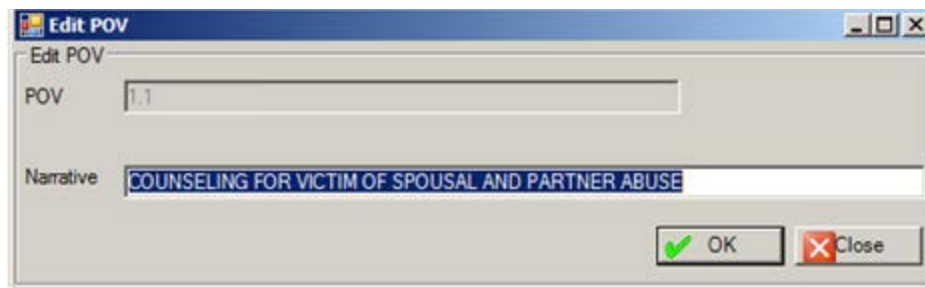

Use this search/select window as follows:

3. At the **Search String** field, type a few characters of the search criteria.
4. Click **Search** and the retrieved records display in **POV** list box (the POV and its narrative).
5. To add one or more selected records from the **POV** list box to the **Selected Items** list box, click the right arrow button.
6. Similarly, you can remove one or more selected records from the **Selected Items** list box by clicking the left arrow button.
7. When the **Selected Item** list box is complete, click **OK** and the records populate the POV group box. (Otherwise, click **Close**.)

### **Edit Button**

1. Select the POV record to change.
2. Click **Edit**.

The application displays the **Edit POV** window.

Figure 7-21: **Edit POV** window

- a. At the Narrative field, type new POV narrative in the Narrative text box using 2–80 characters.

**Note:** The special characters double or single quotation marks (“ or ‘) cannot be the first character of the POV narrative. This is a Free Text field.

- b. Click **OK** to change the narrative of the selected record. (Otherwise, click **Close**.)

### Delete Button

1. Select a record to delete.
2. Click **Delete**.
3. The **Are You Sure?** confirmation message displays; click **Yes** to remove the selected group encounter record from the **POV** group box. (Otherwise, click **No**.)

### Prevention Activities Group Box

The **Prevention Activities** group box lists the prevention activities associated with the administrative/community activity.

Figure 7-22: **Prevention Activities** group box

The **Target** field will be disabled until a **Prevention Activity** is entered. In addition, the **Target** field will be disabled if all of the prevention activities are deleted.

You can add/delete a prevention activity and/or specify the target group.

1. At the **Target** field, select the population for which the prevention activity is designed. The selected option applies to all of the prevention activities.

- **Adult**
- **Youth**
- **Family**
- **Mixed (Adult & Youth)**
- **Staff**
- **Elderly Only**
- **Women**
- **Men**

### Add Button

1. Click **Add**.
2. The **Prevention Activity** multiple select window displays. Select one or more prevention activities.

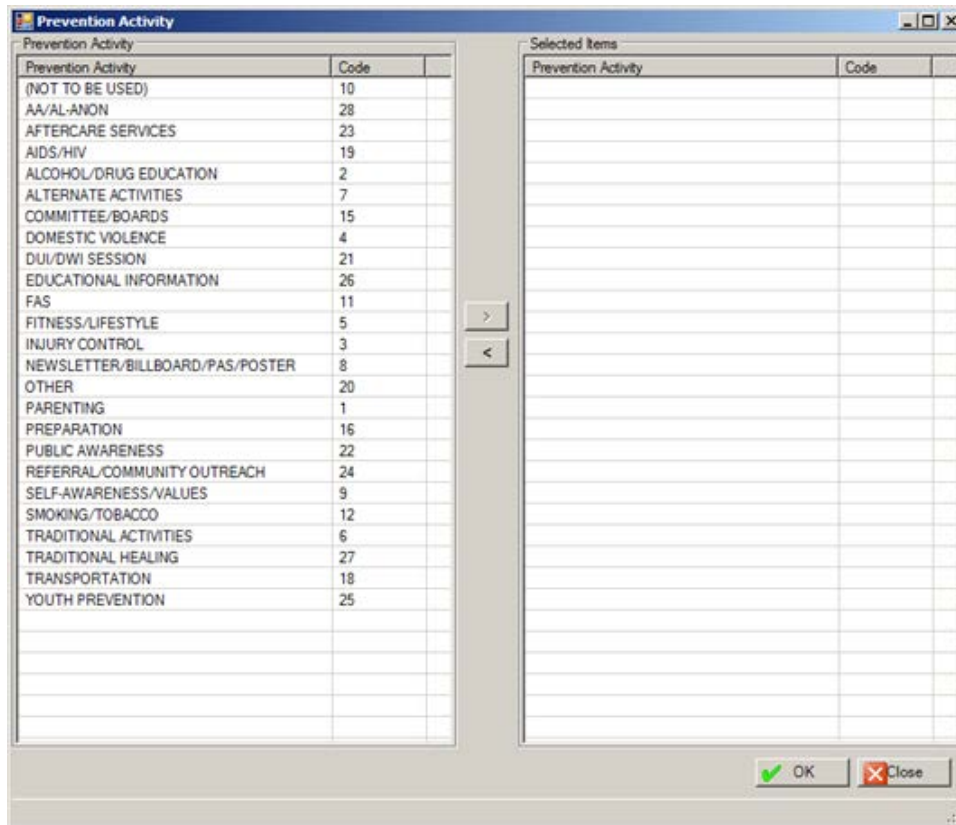

Figure 7-23: **Prevention Activity** multiple select window

Use this multiple select window as follows:

- a. To add one or more selected records from the **Prevention Activity** list box to the **Selected Items Prevention Activity** list box, click the right arrow button.

- b. Similarly, remove one or more selected records from the **Selected Items Prevention Activity** list box by clicking the left arrow button.
- c. When the **Selected Items Prevent Activity** list box is complete, click **OK** and the records populate the **Prevention Activity** group box. (Otherwise, click **Close**.)
- d. If you select **OTHER** (Code 20) on the **Prevention Activity** search/select window, the application displays the **Other** window.

Figure 7-24: **Other** window

- e. At the **Other** field, type the text of the other prevention activity associated with this record (limited to 80 characters).
- f. Click **OK** and the text populates the Other cell on the grid.  
If you dismiss the **Other** window (with no data), the Other cell on the grid will be blank.

### Delete Button

1. Select the prevention activity record to delete.
2. Click **Delete**.

At the **Are You Sure?** confirmation message displays, click **Yes** to remove the selected prevention activity record from the group box. (Otherwise, click **No**.)

### Secondary Providers Group Box

The **Secondary Providers** group box lists the secondary providers associated with the administrative/community activity.

Figure 7-25: **Secondary Providers** group box

You can add or delete a record.

### Add Process

1. Click **Add** to access the **Secondary Providers** search/select window. Select one or more secondary provider names.

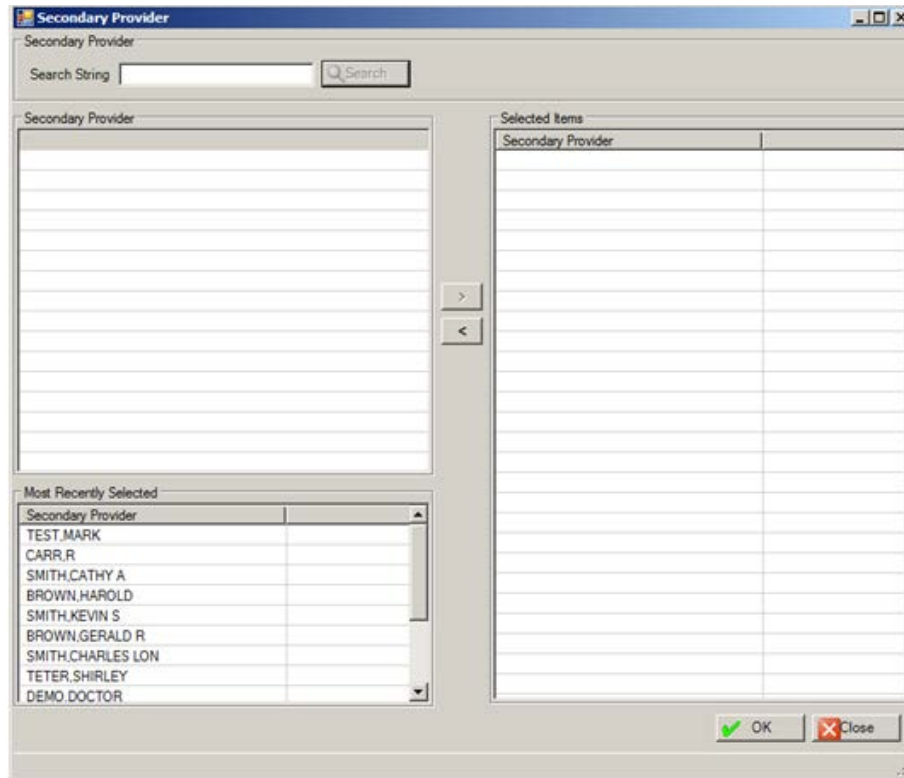

Figure 7-26: **Secondary Providers** search/select window

Use the **Secondary Providers** multiple search/select window in the following manner:

- a. At the **Search String** field, type a few characters of the search criteria.
- b. Click **Search** and the retrieved records display in **Secondary Provider** list box.
- c. To add one or more selected records from the **Secondary Provider** list box to the **Selected Items Secondary Provider** list box, click the right arrow button.
- d. Another way to add records to the **Selected Items Secondary Provider** list box is to select one or more records in the **Most Recently Selected** list box and click the right arrow button.
- e. Similarly, you can remove one or more selected records from the **Selected Items Secondary Provider** list box by clicking the left arrow button.
- f. When the **Selected Items Secondary Provider** list box is complete, click **OK** and the records populate the **Secondary Providers** group box. (Otherwise, click **Close**.)

### Delete Process

1. Select the secondary provider record to remove.

2. Click **Delete**.
3. At the **Are You Sure?** confirmation message displays, click **Yes** to remove the selected secondary provider record from the group box. (Otherwise, click **No**.)

### 7.3.3 Notes Tab

Use the **Notes** field to enter any notes about the administrative/community activity.

A screenshot of a software interface showing a tabbed window. The 'Notes' tab is selected, and the main area is a large, empty rectangular text box for entering notes. The tab bar at the top shows 'Activity Data' and 'Notes'.

Figure 7-27: **Notes** field

This is a Free Text box.

## 8.0 Encounter and Treatment Plan Sharing (Roll and Scroll)

After the entry of a Visit or a Treatment plan, you have the option to share it with a colleague through MailMan. In order to do this, you must be properly set up through Site Parameters as a provider who can share information.

Make sure that the provider being sent the plan is authorized to use this function.

After the entry of a Visit or Treatment plan, you will be asked the question shown in Figure 1 1).

```

Do you want to share this visit information with other providers? N//
Figure 1 1: Question after entry of a visit or treatment plan
By answering the question with a Yes, you will be stepped through the
process of sending the information via a MailMan message, as shown in
Figure 1 2:
Send to: NUUUU,BILL          WBM
Send to:

Message will be sent to:    THETA,BILL

Do you want to attach a note to this mail message? N// YES
Enter the text of your note.

NOTE APPENDED TO MAIL MSG:
  No existing text
  Edit? NO//Y
- Here the provider can append a note to his/her colleague.

Ready to send mail message?? Y// ES
Send Full or Suppressed Form: (F/S): S// f FULL - The answer to this
question will determine which type of encounter form will be send in the
message.

Sending Mailman message to distribution list
Message Sent
Press enter to continue....:

```

Figure 1 2: Sending a treatment plan through MailMan

## 9.0 Problem List

This section addresses the Problem List management for Roll and Scroll and the GUI.

### 9.1 BH Patient's Problem List (Roll and Scroll)

The PPL option appears on the **Patient Data Entry** and **Update BH Forms** windows.

Use the PPL option to manage the patient's problem list.

1. At the "Select Action" prompt, type **PPL**.
2. The application displays the following information:

```
Problem List updates must be attached to a visit. If you are updating the
Problem List in the context of a patient visit select the appropriate existing
visit and then update the Problem List. If you are updating the Problem List
outside of the context of a patient visit, first create a chart review visit
and then update the Problem List.
Select record to associate the Problem List update to: (1-5):
```

Figure 9-1: Message displayed by the application

3. At the "Enter ENCOUNTER DATE" prompt, type the encounter date for the problem list.

The application displays the patient's problem list.

```

```

Figure 9-2: Sample BH Problem List update window

At the “Select Action” prompt, type **Q** to exit this window.

### 9.1.1 Add BH Problem (AP)

Use the AP action to add a new BH problem for the current patient’s visit.

1. At the “Select Action” prompt, type **AP**.

The application displays information about the POV diagnosis assigned to the patient in the past 90 days.

2. At the “Choose a Diagnosis” prompt, type one of the diagnoses.
3. At the “Enter Diagnosis to Add to the Problem List” prompt, type the active diagnosis code to add to the problem list.

The application displays the Provider Narrative for the particular problem (can be changed).

4. At the “STATUS” prompt, type one of the following: **A** (active) or **I** (Inactive).
5. At the “DATE OF ONSET” prompt, type the date of onset, when the problem was first diagnosed. (This can be left blank.)
6. At the “Add TREATMENT Note?” prompt, type **Y** (yes) to add a treatment or **N** (no).

If N was used, the focus moves to the “Enter the Date the Problem List was Updated by the Provider” prompt.

If Y was used, the following prompts will display:

- a. At the “PROVIDER NARRATIVE” prompt, type the text of the narrative for the treatment note.
- b. At the “AUTHOR” prompt, press Enter to use the default name or type a new one.
- c. At the “LONG/SHORT TERM TREATMENT” prompt, type 1 for Short Term or 2 for Long Term. This refers to the treatment described in the Treatment note.

After completing the last prompt, the focus returns to the “Add TREATMENT Note?” prompt.

7. At the “Enter the Date the Problem List was Updated by the Provider” prompt, press Enter to use the current date or type a new one.

8. At the “Enter the individual that updated the Problem List” prompt, type the name of the individual who updated the BH Problem List (the default will be provider listed on the visit to which the problem list item is associated).
  - If you are transcribing an update from a BH provider, enter the name of the provider.
  - If you are a data entry/coder correcting the Problem List (for instance, correcting the DSM code), enter your own name

### 9.1.2 Edit BH Problem (EP)

Use the EP action to edit a specified BH problem.

1. At the “Select Action” prompt, type **EP**.
2. At the “Select Problem” prompt type the number of the problem to edit.
3. At the “Diagnosis” prompt, the current diagnosis displays. This can be changed, if needed.
4. At the “Provider narrative <text of narrative>” prompt, the text of the narrative displays. This can be changed, if needed.
5. At the “DATE OF ONSET” prompt, type the date of onset, when the problem was first diagnosed. (This can be left blank.)
6. At the “STATUS” prompt, the current status displays. This can be changed using **A** (Active), or **I** (Inactive).
7. At the “Enter the Date the Problem List was Updated by the Provider” prompt, press Enter to use the current date or type a new one.
8. At the “Enter the individual that updated the Problem List” prompt, type the name of the individual who updated the BH Problem List (the default will be provider listed on the visit to which the problem list item is associated).
  - If you are transcribing an update from a BH provider, enter the name of the provider.
  - If you are a data entry/coder correcting the Problem List (for instance, correcting the DSM code), enter your own name.

### 9.1.3 Delete BH Problem (DE)

Use the DE action to delete a specified BH problem.

1. At the “Select Action” prompt, type **DE**.

2. At the “Select Action” prompt, type the action to execute, either **1** (Delete BH Problem) or **2** (Detail Display). Use **1** in this case.
3. At the “Select Problem” prompt, type the number of the problem to delete. The information about the particular problem displays:

```
Deleting the following BH Problem from DUCK DEMO's BH Problem List.

PROBLEM CODE: 9.1                PATIENT NAME: DEMO,DUCK
DATE LAST MODIFIED: SEP 07, 2011@14:07:46
PROVIDER NARRATIVE: PRE-SENILE CONDITION
FACILITY: DEMO INDIAN HOSPITAL   NMBR: 3
DATE ENTERED: SEP 07, 2011@13:54:16  STATUS: ACTIVE
USER LAST UPDATE: THETA,SHIRLEY

Please Note:  You are NOT permitted to delete a BH Problem without
entering a reason for the deletion.
```

Figure 9-3: Example of information displayed about the problem code

4. At the “Are you sure you want to delete this BH Problem?” prompt, type **Y** (yes) or **N** (no).

If N was used, the focus will return to the **BH Problem List Update** window.

If Y was used, the following information will display:

```
Deleting Treatment Plan...

Treatment Plan for DEMO,DOROTHY ROSE DELETED.
Press enter to continue....:
```

Figure 9-4: Further information

Press Enter and the focus returns to the **Updated Patient Treatment Plan** window.

#### 9.1.4 Activate BH Problem (AC)

Use the AC action to change the status of a selected inactive BH problem to active.

1. At the “Select Action” prompt, type **AC**.
2. At the “Select Problem” prompt, type the number of the problem to activate.
  - If the particular problem is already active, the application will display the following message:

```
That problem is already ACTIVE!!
Press return to continue....:
```

Figure 9-5: Message displayed when the problem is already active

After pressing Enter, the focus returns to the **BH Problem List Update** window.

- If the particular problem is not active, the prompts continue:
- 3. At the “Enter the Date the Problem List was Updated by the Provider” prompt, press Enter to use the default date or type a new one.
- 4. At the “Enter the individual that updated the Problem List” prompt, type the name of the individual who updated the BH Problem List.
  - If you are transcribing an update from a BH provider, enter the name of the provider.
  - If you are a data entry/coder correcting the Problem List (for instance, correcting the DSM code), enter your own name.

### 9.1.5 Inactivate BH Problem (IP)

Use the IP action to change the status of a particular active BH problem to inactive.

1. At the “Select Action” prompt, type **IP**.
2. At the “Select Problem” prompt, type the number of the problem to inactivate.
  - If the particular problem is already inactive, the application displays the following message:

```
That problem is already INACTIVE!!
Press return to continue....:
```

Figure 9-6: Message displayed when the problem is already inactive

After pressing Enter, the focus returns to the **BH Problem List Update** window.

- If the particular problem is not inactive, the prompts continue:
- 3. At the “Enter the Date the Problem List was Updated by the Provider” prompt, press Enter to use the default date or type a new one.
- 4. At the “Enter the individual that updated the Problem List” prompt, type the name of the individual who updated the Problem List.
  - If you are transcribing an update from a BH provider, enter the name of the provider.
  - If you are a data entry/coder correcting the Problem List (for instance, correcting the DSM code), enter your own name.

### 9.1.6 Detail Display (DD)

Use the DD action to display detailed information about a selected BH problem.

1. At the “Select Action” prompt, type DD.
2. At the “Select Problem” prompt, type the number of the problem to use.

The Behavioral Health Problem List information displays on the Output Browser screen.

```

OUTPUT BROWSER          Dec 05, 2011 11:53:53          Page:    1 of    1

```

Figure 9-7: Sample Problem Detail

### 9.1.7 Add Note (NO)

Use the NO action to add a note to a selected BH problem.

1. At the “Select Action” prompt, type **NO**.
2. At the “Select Action” prompt, type one of the following:
  1. Add Note
  2. No Active BH Problems

Use 1 in this case.

The application displays information about the patient’s BH problem list.

3. At the “Add a new Problem Note for this Problem?” prompt, type **Y** to add a note. (Otherwise, type **N**.)

If Y was used, the following prompt displays:

4. At the “NARRATIVE” prompt, type the text of the narrative of the note.
5. At the “AUTHOR” prompt, press Enter to use the default name or type a new one.

6. At the “LONG/SHORT TERM TREATMENT” prompt, type one of the following: 1 (for short) or 2 (for long).

The application will re-display the information about the problem and information about the notes.

```

Adding a Note to the following problem on DOROTHY ROSE DEMO's BH Problem List.

PROBLEM CODE:                F42.
PATIENT NAME:                DEMO,DOROTHY ROSE

Notes:

1) Date Added: 12/07/2015 Author: THETA,SHIRLEY
   Note Narrative: PT PRESENTS BX ASSOCIATED WITH HOARDING

```

Figure 9-8: Example of information about the problem and information about the notes

7. At the “Add a new Problem Note for this Problem?” prompt, type **Y** (for yes) or **N** (for no).
- If Y was used, the prompts will repeat, starting with NARRATIVE.
- If N was used, the prompts will continue.
8. At the “Enter the Date the Problem List was Updated by the Provider” prompt, press Enter to use the default date or type another one.
9. At the “Enter the individual that updated the Problem List” prompt, type the name of the individual who updated the BH Problem List.
- If you are transcribing an update from a BH provider, enter the name of the provider.
  - If you are a data entry/coder correcting the Problem List (for instance, correcting the DSM code), enter your own name.

### 9.1.8 Edit Note (MN)

Use the MN action to edit the text of a selected note.

1. At the “Select Action” prompt, type MN.
2. At the “Select Problem” prompt, type the number of the problem having the note to be edited.

The application displays information about the selected problem and information about any existing notes.

3. At the “Edit which one” prompt, type the number of the note to edit.
4. At the “NARRATIVE: <text of the problem>// - Replace” prompt, type in the Replace field with the replacement text for the narrative.
5. At the “LONG/SHORT TERM TREATMENT” prompt, type one of the following: 1 (for short) or 2 (for long).
6. At the “Enter the Date the Problem List was Updated by the Provider” prompt, press Enter to use the default date or type another one.
7. At the “Enter the individual that updated the Problem List” prompt, type the name of the individual who updated the BH Problem List.
  - If you are transcribing an update from a BH provider, enter the name of the provider.
  - If you are a data entry/coder correcting the Problem List (for instance, correcting the DSM code), enter your own name.

### 9.1.9 Remove Note (RN)

Use the RN action to delete a selected note.

1. At the “Select Action” prompt, type **RN**.
2. At the “Select Problem” prompt, type the number of the problem having the note to be removed.

The application displays information about the selected problem and information about any existing notes.

3. At the “Remove which one” prompt, type the number of the note to remove.
4. At the “Are you sure you want to delete this NOTE?” prompt, type **Y** (yes) or **N** (no).

If N was used, the focus will return to the **BH Problem List Update** window.

If Y was used, the prompts will continue.

5. At the “Enter the Date the Problem List was Updated by the Provider” prompt, press Enter to use the default date or type another date.
6. At the “Enter the individual that updated the Problem List” prompt, type the name of the individual who updated the Problem List.

- If you are transcribing an update from a BH provider, enter the name of the provider.
- If you are a data entry/coder correcting the Problem List (for instance, correcting the DSM code), enter your own name.

### 9.1.10 No Active BH Problems (NP)

Use the NP action to specify the date when a particular provider indicated that the patient had no active BH problems. This action requires that there are no ACTIVE problems on the patient's BH problem list (otherwise, the application will display an error message).

1. At the "Select Action" prompt, type **NP**.
2. At the "Did the Provider indicate that the patient has No Active BH Problems" prompt, type **Y** (yes) or **N** (no).

If N was used, the focus will return to the **BH Problem List Update** window.

If Y was used, the prompts will continue:

3. At the "Enter the Date the Provider documented 'No Active BH Problems'" prompt, press Enter to use the default date or type another one.
4. At the "Enter the PROVIDER who documented 'No Active BH Problems'" prompt, type the provider name who documented that there are no active BH problems.

### 9.1.11 Problem List Reviewed (LR)

Use the LR action to indicate who reviewed the current patient's BH Problem List and when.

1. At the "Select Action" prompt, type **LR**.
2. At the "Did the Provider indicate that he/she reviewed the Problem List?" prompt, type **Y** (yes) or **N** (no).

If N was used, the application will display "No Action Taken" and the focus will return to the **BH Problem List Update** window.

If Y was used, the prompts continue.

3. At the "Enter the Date the Provider Reviewed the Problem List" prompt, press Enter to use the default date or type a new one.

- At the “Enter the PROVIDER who Reviewed the Problem List” prompt, type the name of the provider who reviewed the BH Problem List.

### 9.1.12 PCC Problem List Display (PC)

Use the PC action to display the PCC problem list.

- At the “Select Action” prompt, type **PC**.

The application displays the message:

```
You are now leaving the Behavioral Health Problem List and will be taken
into the PCC Problem List for updating.

Do you wish to continue? Y//
```

Figure 9-9: Information displayed by the application

If N was used at the last prompt, focus will return to the **BH Problem List Update** window.

If Y was used, the PCC Problem List Display window displays.

```

Figure 9-11: Sample information about the selected PCC problem

At the “Select Action” prompt do one of the following:

- Type a plus sign (+) to display the next screen (does not apply to the last screen)
- Type a hyphen (-) to display the previous screen (does not apply to the first screen)
- Type **Q** to quit the screen.

## 9.2 Problem List (GUI)

This section addresses how to manage the problems for a selected patient on the **Visit** window for one patient.

After selecting a record and clicking the Problem button, select one of the following options:

- BH Problem List

- PCC Problem List

## 9.2.1 Behavior Health Problem List Window

After selecting the BH Problem List option, the **Behavioral Health Problem List** window displays.

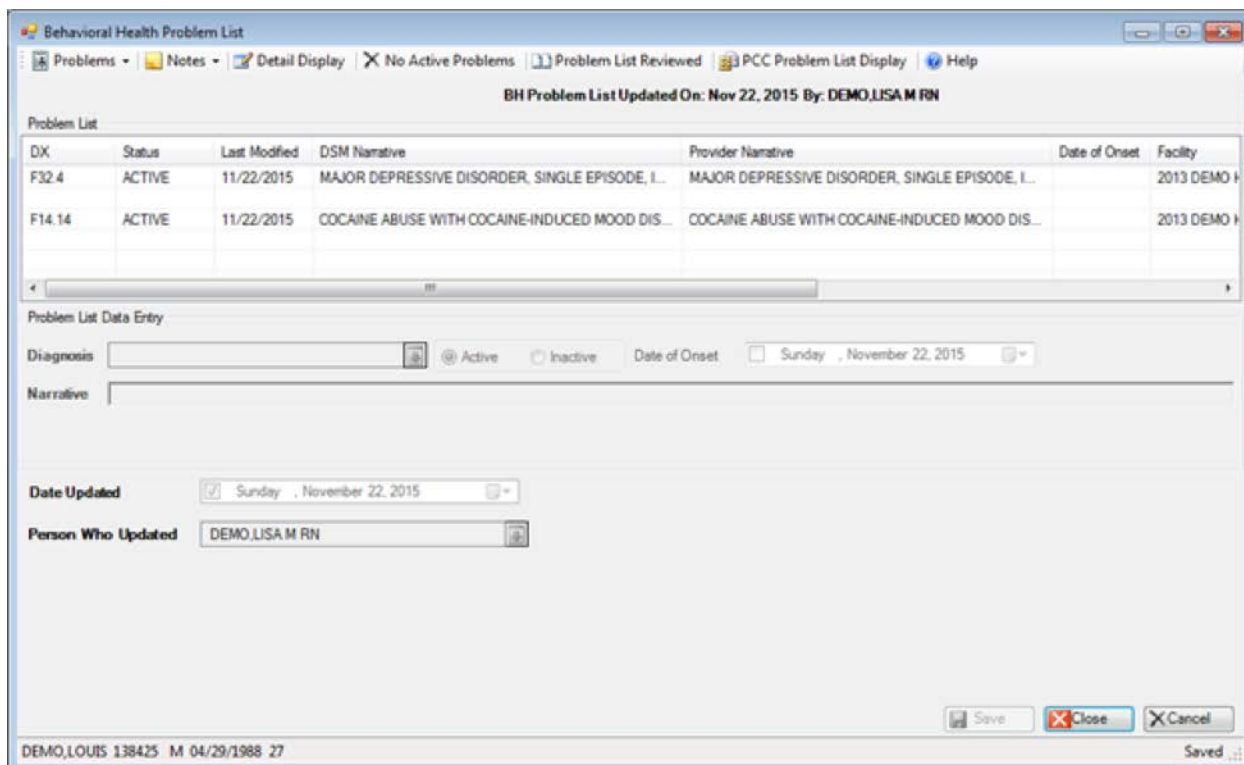

Figure 9-12: **Behavioral Health Problem List** window

The current patient's problems display in the Problem List grid, including any associated notes. The note displays on the row below the problem.

Table 8-1 provides information about the features on this window.

Table 9-1: Behavioral Health Problem List window features and functionality

Feature	Functionality
<b>Help</b> Button	Click to access online help for this window.
<b>Close</b> Button	Click to leave the window.
<b>Cancel</b> Button	Click to remain on the window; no action (like <b>Add Problem</b> ) will be taken.

### Add/Edit Problem

The Add and Edit function use the same fields.

1. Select **Problems** | **Add Problem** to access the fields in the **Problem List Data Entry** group box.
2. Select an existing problem and then select **Problems** | **Edit Problem**. All of the fields in the **Problem List Data Entry** group box are populated with existing data.

Figure 9-13: **Problem List Data Entry** group box

The fields in bold are required: Diagnosis, Narrative, Date Updated, and Person Who Updated.

1. At the **Diagnosis** field, click the list to access the **POV** select window. Here you select a POV to populate the **Diagnosis** and **Narrative** fields.

Screen Capture	What to Do
	<p>Use this search window in one of two ways:</p> <p>(1) Use the <b>Search String</b> field by typing the search criteria for the POV and clicking <b>Search</b>. The retrieved POVs will populate the <b>POV</b> list box. Select a retrieved record and click <b>OK</b> to populate the <b>Diagnosis</b> and <b>Narrative</b> fields. (Otherwise, click <b>Close</b>.)</p> <p>(2) Select a record in the <b>Most Recently Selected</b> list box and click <b>OK</b> to populate the <b>Diagnosis</b> and <b>Narrative</b> fields. (Otherwise, click <b>Close</b>.)</p>

Figure 9-14: **POV** select window

2. At the **Active/Inactive** option button, indicate if the selected diagnosis is Active or Inactive by selecting the appropriate option button (Active is the default for a new problem).
3. At the **Date of Onset** field, select the Date of Onset, which is the date when the problem was first diagnosed. For a new problem, the default is today's date.
  - To have no Date of Onset, uncheck the check box.
  - To change the Date of Onset, click the list to access a calendar. The check box will remain checked.
4. At the **Narrative** field, determine the diagnosis to use. This field is populated when you choose a diagnosis (can be changed). Type a new narrative in the Free Text field, if needed.
5. At the **Add Note?** field, select the **Add Note** field to display the **Note** group box.

Figure 9-15: **Note** group box

After the **Note** group box displays, you can uncheck the **Note** field to close the group box, if needed.

- a. At the **Note** field, type the text of the note, usually information about the treatment.
- b. At the **Author** field, type the name of the author of the note. The application populates this field with the current logon user. To change the name, click the list to access the **Primary Provider** window to select another name.

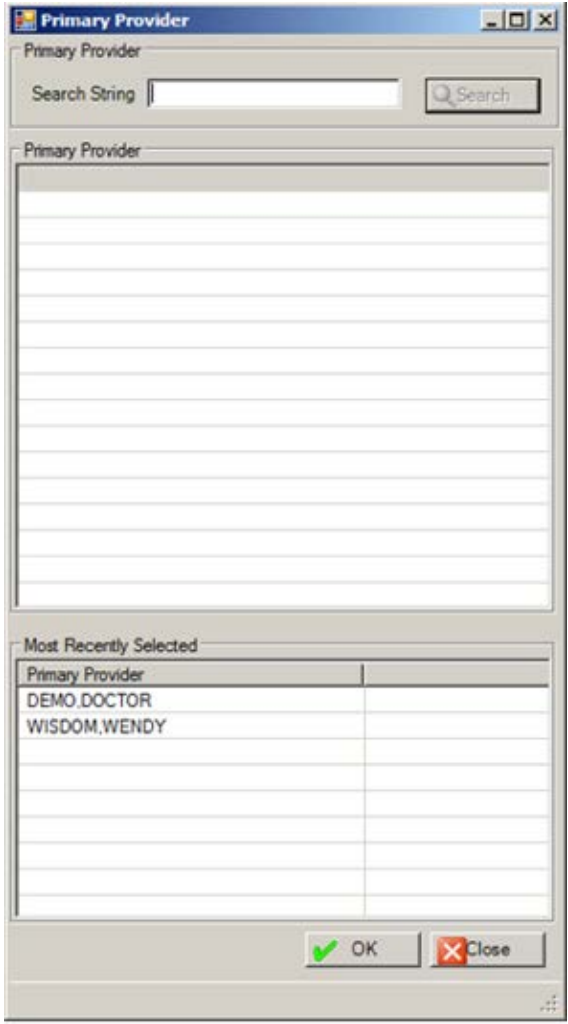

Screen Capture	What to Do
	<p>Use this search window in one of two ways:</p> <p>(1) Use the <b>Search String</b> field by typing the primary provider's last name and clicking <b>Search</b>. The retrieved names will populate the <b>Primary Provider</b> list box. Select a retrieved record and click <b>OK</b> to populate the <b>Author</b> field. (Otherwise, click <b>Close</b>.)</p> <p>(2) Select a record in the <b>Most Recently Selected</b> list box and click <b>OK</b> to populate the <b>Author</b> field. (Otherwise, click <b>Close</b>.)</p>

Figure 9-16: **Primary Provider** select window

- c. At the **Long-Term/Short-Term** field, select either the **Long-Term** or **Short-Term** option button, referring to the treatment described in the note.
6. At the **Date Updated** field, the application displays today's date (the default). To change the date, click the list to access the calendar where you can select another date.
7. At the **Person Who Updated** field, the application displays the default provider (who is the provider of the visit to which the Problem List item is associated). To change the name, click the list to access the **Primary Provider** select window to select another primary provider.

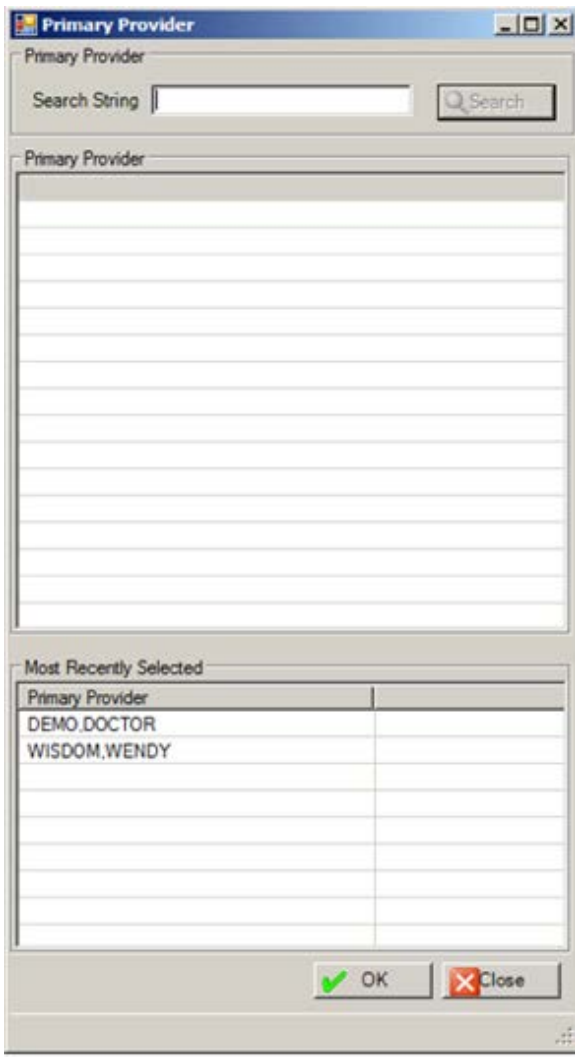

Screen Capture	What to Do
	<p>Use this search window in one of two ways:</p> <p>(1) Use the <b>Search String</b> field by typing the primary provider's last name and clicking <b>Search</b>. The retrieved names will populate the <b>Primary Provider</b> list box. Select a retrieved record and click <b>OK</b> to populate the <b>Person Who Updated</b> field. (Otherwise, click <b>Close</b>.)</p> <p>(2) Select a record in the <b>Most Recently Selected</b> list box and click <b>OK</b> to populate the <b>Person Who Updated</b> field. (Otherwise, click <b>Close</b>.)</p>

Figure 9-17: Primary Provider select window

8. If **Add** was used, after the **Problem List Data Entry** group box is complete, click **Save** to add the “new” problem to the **Problem List** grid. (Otherwise, click **Cancel**).
9. If **Edit** was used, after the **Problem List Data Entry** group box is complete, click **Save** to change the selected record on the **Problem List** grid. (Otherwise, click **Cancel**).

### Delete Problem

1. Select an existing problem in the **Problem List** grid.
2. Select **Problems | Delete Problem**.
3. The **Problem List Reason for Delete** dialog displays.

Figure 9-18: **Problem List Reason for Delete** dialog

4. Click the list for the **Reason** field (required) and select an option.
  - **DUPLICATE**
  - **ENTERED IN ERROR**
  - **OTHER**
    - a. If you select **OTHER**, the dialog changes to include a text field..

Figure 9-19: **Problem List Reason for Delete** dialog with **OTHER** selected from **Reason** list

- b. In this case, at the **Other** field, type the reason to delete the problem (required).
5. After the **Problem List Reason for Delete** dialog is complete, click **OK** (otherwise, click **Close**).

After clicking **OK**, the application activates the **Date Updated** and **Person Who Updated** fields.

Figure 9-20: **Active Date Updated** and **Person Who Updated** fields

6. At the **Date Updated** field, select the update date. The default is today's date. To change the date, click the list to access the calendar and select another date.
7. At the **Person Who Updated** field, select the provider who updated the information. The default is the provider of the visit to which the Problem List item is associated. The **Primary Provider** select window displays.

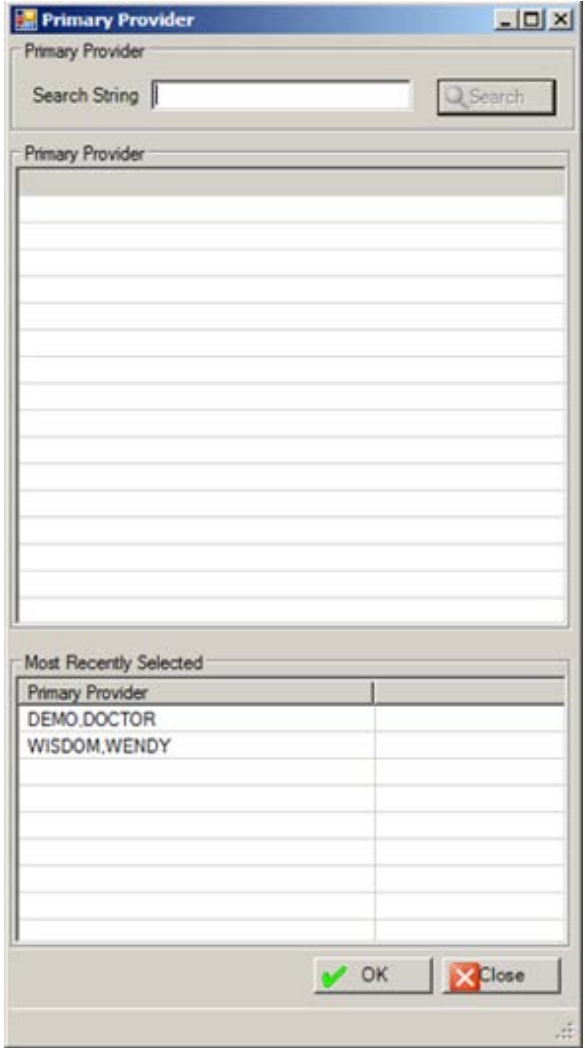

Screen Capture	What to Do
	<p>Use this search window in one of two ways:</p> <p>(1) Use the <b>Search String</b> field by typing the primary provider's last name and clicking <b>Search</b>. The retrieved names will populate the <b>Primary Provider</b> list box. Select a retrieved record and click <b>OK</b> to populate the <b>Person Who Updated</b> field. (Otherwise, click <b>Close</b>.)</p> <p>(2) Select a record in the <b>Most Recently Selected</b> list box and click <b>OK</b> to populate the <b>Person Who Updated</b> field. (Otherwise, click <b>Close</b>.)</p>

Figure 9-21: **Primary Provider** select window

After the active fields are complete, click **Save** to remove the problem from the **Problem List** grid. (Otherwise, click **Cancel**.)

#### Activate/Inactivate Problem

1. Select an existing problem in the **Problem List** grid.
2. Select **Problems | Activate** (or **Inactivate**).
3. The **Date Updated** and **Person Who Updated** fields display.

The image shows a software interface with two fields. The first field is labeled 'Date Updated' and contains a date picker showing 'Wednesday, August 31, 2011'. The second field is labeled 'Person Who Updated' and contains the text 'DEMO,DOCTOR'. Both fields have dropdown arrows on their right sides.

Figure 9-22: **Date Updated** and **Person Who Updated** fields

4. At the **Date Updated** field, select the update date. The default is today's date. To change the date, click the list to access the calendar and select another date. The **Activate** action only works if the **Date Updated** is checked.
5. At the **Person Who Updated** field, select the person who updated the problem list. To change the name, click the list to access the **Primary Provider** select window and select a name. See Figure 9-21.
6. After the active fields are complete, click **Save** to change the Status of the selected record on the **Problem List** grid. (Otherwise, click **Cancel**.)

### Add/Edit Note

The **Add Note** and **Edit Note** functions use the same fields.

1. Select an existing problem in the **Problem List** grid. Select **Notes | Add Note**.

OR

2. Select an existing note in the **Problem List** grid. Select **Notes | Edit Note**. The fields become populated with existing data.

Figure 9-23 shows the fields in the lower group box.

The image shows a software interface for editing a note. It includes a 'Date Updated' field with a date picker showing 'Friday, July 15, 2011', a 'Person Who Updated' field with the name 'GARCIA,RYAN', and a large empty text area for the 'Note'. Below the note field, there is an 'Author' field with 'GARCIA,RYAN' and two radio buttons labeled 'Long Term' and 'Short Term'.

Figure 9-23: Active fields for editing a note

3. At the **Date Updated** field, select the update date. The default is today's date. To change the date, click the list to access the calendar and select another date. The **Add Note** action only works if the **Date Updated** is checked.
4. At the **Person Who Updated** field, select the person who updated the problem list. To change the name, click the list to access the **Primary Provider** select window and select a name. See Figure 9-21.
5. At the **Note** field, type the text of the note (Free Text field), usually information about the treatment.

6. At the **Author** field, select the author of the note. To change the name, click the list to access the **Primary Provider** select window. See Figure 9-16.
7. At the **Long Term/Short Term** field, select either the **Long Term** or **Short Term** option button, referring to the treatment described in the note.
8. After the lower group box is complete, click **Save** and the note will be added to the particular problem in the **Problem List** grid. (Otherwise, click **Cancel**.)

After saving, the application gives the note a note number, displays when the note was added, and displays the note narrative.

If **Edit** was used, after the **Note** group box is complete, click **Save** (otherwise, click **Cancel**). After clicking **Save**, the particular note will be changed (on the **Problem List** grid).

### Remove Note

1. Select an existing note in the **Problem List** grid.
2. Select **Notes | Remove Note**.
3. The **Date Updated** and **Person Who Updated** fields become active. See Figure 9-20.
4. At the **Date Updated** field, select the update date. The default is today's date. To change the date, click the list to access the calendar. The **Remove Note** action only works if the **Date Updated** is checked.
5. At the **Person Who Updated** field, select the person who updated the information. Click the list to access the **Primary Provider** select window. Select the name of the person who updated the Problem List. See Figure 9-21.
6. After the active fields are complete, click **Save** (otherwise, click **Cancel**). If **Save** was used, the prompts continue.
7. At the **Are You Sure?** confirmation message, click **Yes** to remove the note, which will be removed from the **Problem List** grid. (Otherwise, click **No**.)

### Detail Display

Select a problem in the **Problem List** grid.

Click the **Detail Display** button.

The **BH Problem List Detail** pop-up for the particular patient displays.

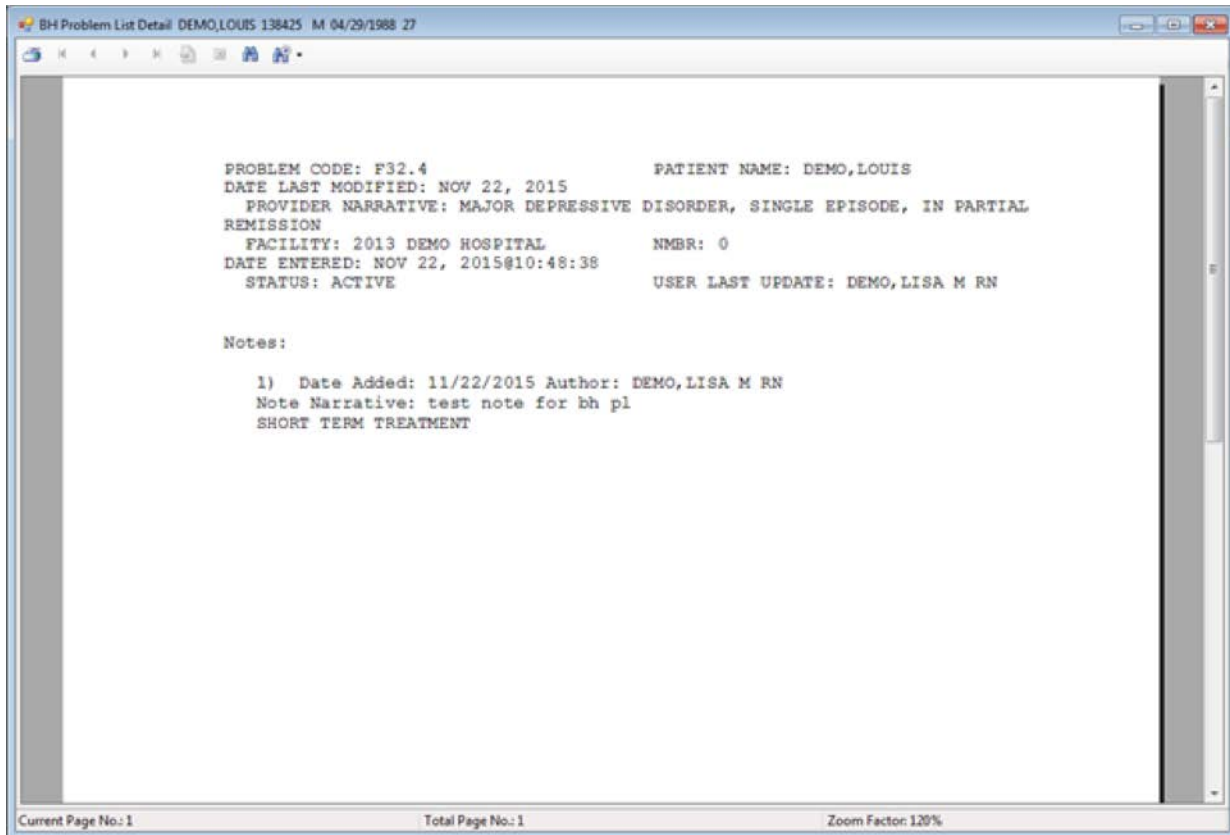

Figure 9-24: **BH Problem List Detail** for selected demo patient

Section 2.6 provides more information about using the controls on the pop-up window.

### No Active Problems

Use the **No Active Problems** button to indicate that the patient has No Active BH Problems. The application determines if the patient has active BH problems.

1. After clicking this button and if there are active problems, the application displays the following message: There are ACTIVE Problems on this patient's BH problem list. You cannot use this action item. Click **OK** to dismiss the message and the focus returns to the **Behavioral Health Problem List** window.
2. After clicking this button and there are no active problems, the application asks the following: Did the Provider indicate that the patient has No Active BH Problem? Click **Yes** (otherwise, click **No**).

If **Yes** was used, the **Date Documented** and **Provider Who Documented** fields become active.

Figure 9-25: **Date Documented** and **Provider Who Documented** fields

3. At the **Date Documented** field, select the date the provider documented that the patient has no active problems. The default is today's date. To change the date, click the list to access the calendar. The **No Active Problems** action only works if the **Date Documented** is checked.
4. At the **Person Who Documented** field, select the person who documented that the patient has no active problems. To change the name, click the list to access the **Primary Provider** select window and select a name.

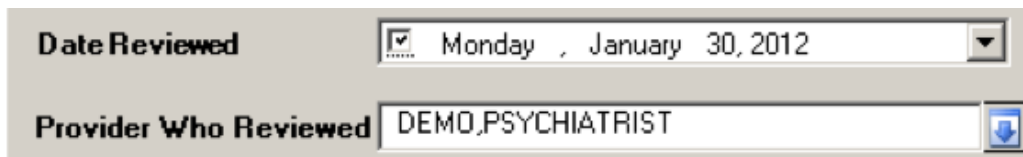

Screen Capture	What to Do
	<p>Use this search window in one of two ways:</p> <p>(1) Use the <b>Search String</b> field by typing the primary provider's last name and clicking <b>Search</b>. The retrieved names will populate the <b>Primary Provider</b> list box. Select a retrieved record and click <b>OK</b> to populate the <b>Person Who Documented</b> field. (Otherwise, click <b>Close</b>.)</p> <p>(2) Select a record in the <b>Most Recently Selected</b> list box and click <b>OK</b> to populate the <b>Person Who Documented</b> field. (Otherwise, click <b>Close</b>.)</p>

Figure 9-26: **Primary Provider** select window

5. After the active fields are complete, click **Save** (otherwise, click **Cancel**).
6. After clicking **Save**, the text below the action buttons will display information such as No Active BH Problem Documented on Dec 01, 2011 by DEMO,DOCTOR. Other text below the action buttons will display information such as: BH Problem List Reviewed on Dec 01, 2011 by DEMO,DOCTOR.

### Problem List Reviewed

1. Click the **Problem List Reviewed** button to indicate that the current patient's problem list was reviewed.
2. The **Date Reviewed** and **Provider Who Reviewed** fields become active.

The image shows two form fields. The first field is labeled 'Date Reviewed' and contains a date picker with the text 'Monday, January 30, 2012'. The second field is labeled 'Provider Who Reviewed' and contains the text 'DEMO,PSYCHIATRIST'. Both fields have a small icon on the right side of the input area.

Figure 9-27: **Date Reviewed** and **Provider Who Reviewed** fields

3. At the **Date Reviewed** field, select the date the provider reviewed the problem list. The default is today's date. To change the date, click the list to access the calendar and select another date. The **Problem List Reviewed** action only works if the **Date Reviewed** is checked.
4. At the **Person Who Reviewed** field, select the person who reviewed the problem list. To change the name, click the list to access the **Primary Provider** select window and select a name.

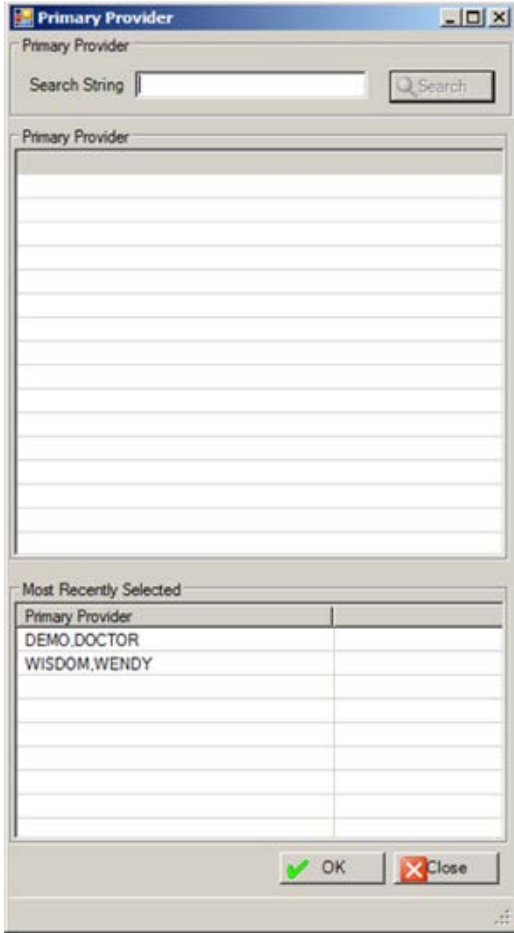

Screen Capture	What to Do
	<p>Use this search window in one of two ways:</p> <p>(1) Use the <b>Search String</b> field by typing the primary provider's last name and clicking <b>Search</b>. The retrieved names will populate the <b>Primary Provider</b> list box. Select a retrieved record and click <b>OK</b> to populate the <b>Person Who Reviewed</b> field. (Otherwise, click <b>Close</b>.)</p> <p>(2) Select a record in the <b>Most Recently Selected</b> list box and click <b>OK</b> to populate the <b>Person Who Reviewed</b> field. (Otherwise, click <b>Close</b>.)</p>

Figure 9-28: **Primary Provider** select window

5. After the active fields are complete, click **Save** (otherwise, click **Cancel**).

After clicking **Save**, the text below the action buttons (on the **Behavioral Health Problem List** window) will display information such as: BH Problem List Reviewed on December 1, 2011 by DEMO,DOCTOR.

### PCC Problem List Display

Click the **PCC Problem List Display** button to move to the **PCC Problem List** window.

### PCC Problem List Window

1. After selecting the **PCC Problem List** option (on the **Visit** window), the **PCC Problem List** window displays.

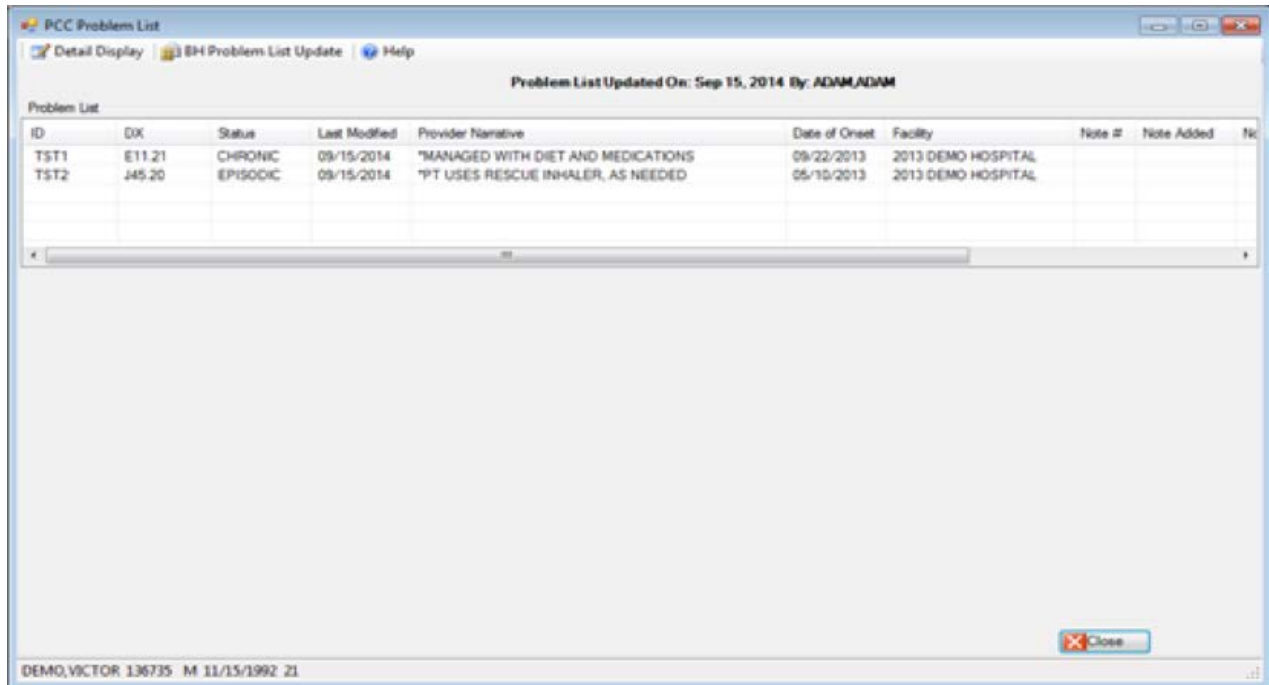

Figure 9-29: **PCC Problem List** window

2. The current patient's PCC problems display in the **Problem List** grid, including any associated notes. The notes display on the row below the problem.
3. Click **Close** to leave the window.
4. Click **Help** to access the online help for this window.

#### **Detail Display**

1. Select a problem in the **Problem List** grid.
2. Click the **Detail Display** button.
3. The **PCC Problem List Detail** pop-up for the particular patient displays.

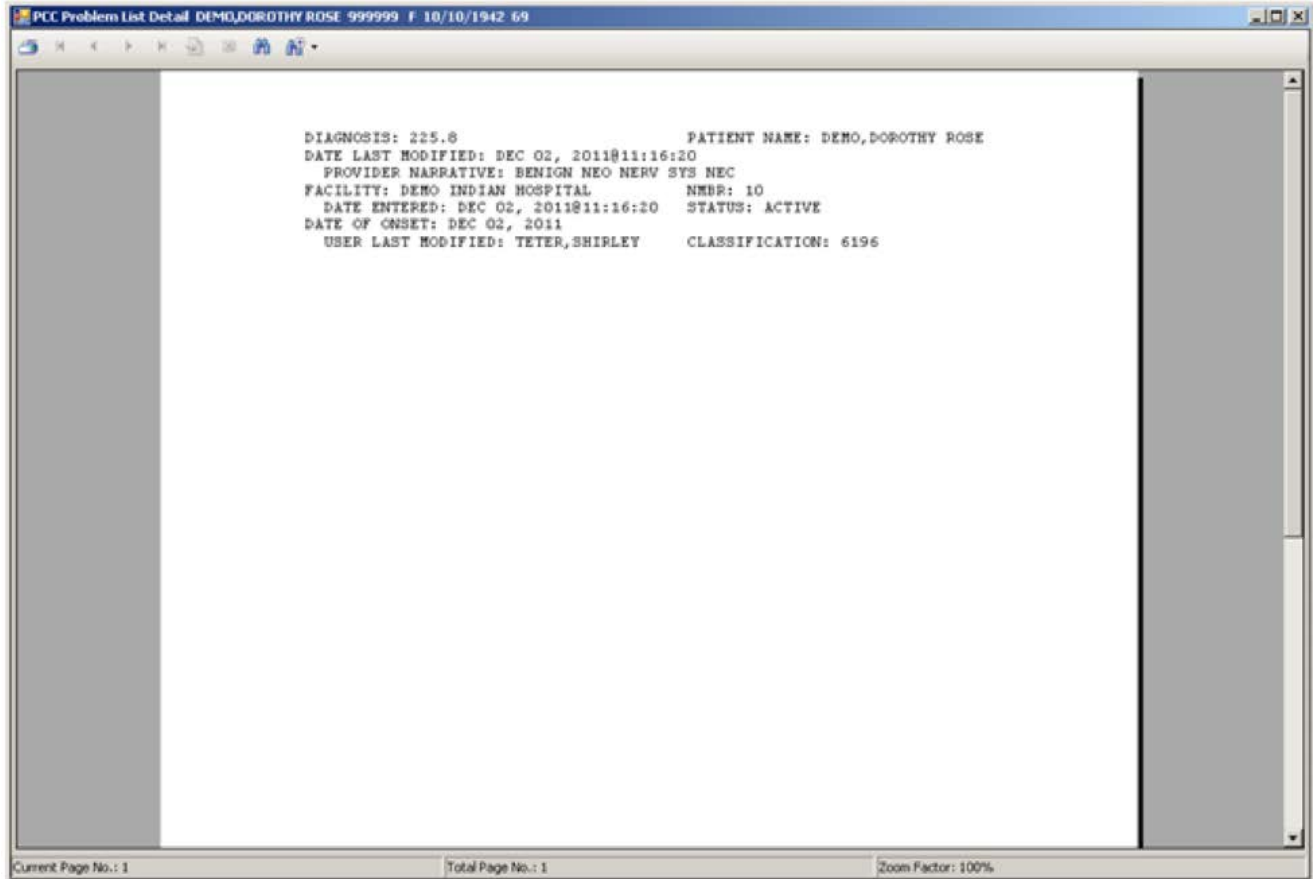

Figure 9-30: **PCC Problem List Detail** pop-up

Section 2.6 provides more information about using the controls on the pop-up window.

### **BH Problem List Update**

Click the **BH Problem List Update** button to move to the **Behavioral Health Problem List** window.

Section 9.2.1 provides more information about this window.

## 10.0 Treatment Plans

Use the Treatment Plans feature to add or update treatment plans in Roll and Scroll and in the RPMS Behavioral Health System (GUI).

### 10.1 Patient Treatment Plans (Roll and Scroll)

Use the Update BH Patient Treatment Plans (TPU) option on the Data Entry Menu to access the Patient Treatment Plans menu.

```

*****
**          IHS Behavioral Health System          **

Use the **Quit** action to dismiss the **Update Patient Treatment Plan** window.

### Add Treatment Plan (AD)

Use the **AD** action to add a new treatment plan for the current patient. The prompts are the same as when you edit a plan. The **Edit a Plan** section below provides more information about the prompts.

### Edit a Plan (ED)

Use the **ED** action to change a selected treatment plan for the current patient.

1. At the “Select Action” prompt, type **ED**.
2. At the “Enter Date Established” prompt, type the date the treatment plan was established (you cannot change).
3. At the “Program” prompt, type the program for the treatment plan. Use one of the following: **M** (Mental Health), **S** (Social Services), **C** (Chemical Dependency), **O** (Other).
4. At the “Designated Provider” prompt, type the name of the designated provider for the treatment plan. The default is the current logon user.
5. At the “Case Admit Date” prompt, type the date the case was admitted.
6. At the “PROBLEM LIST” prompt, type the text of the problem, using up to 240 characters. The text should list and briefly describe multiple problems.
7. At the “DIAGNOSIS – No existing text – Edit? NO//” prompt, type **Y** (yes) to edit the text (otherwise, type **N** (no)). If **Y** was used, the application displays a window for typing the text of the diagnosis (Figure 10-3).

```

==[ WRAP ]==[ INSERT ]===== < DIAGNOSIS >===== [ <PF1>H=Help ]=====

```

Figure 10-3: Window to add the text of the diagnosis

Table 10-1 lists the most commonly used RPMS text editor commands.

Table 10-1: Common RPMS text editor commands

Action Needed	Use These Keys
Delete a line (extra blank or text)	PF1(F1) followed by D
Join two lines (broken or too short)	PF1(F1) followed by J
Save without exiting	PF1(F1) followed by S
Exit and save	PF1(F1) followed by E
Quit without saving	PF1(F1) followed by Q
Top of text	PF1(F1) followed by T

- At the “Treatment Plan Narrative (Problems/Goals/Objectives/Methods) – No existing text – Edit? NO//” prompt, type **Y** (yes) to edit the text (otherwise, type **N** (no).” If **Y** was used, the application displays a window to type the text of the treatment plan (Figure 10-4).

Figure 10-4: Window to add information about the treatment plan

See Table 10-1 for commonly used RPMS text editor commands.

9. At the “Anticipated Completion Date” prompt, type the date the treatment plan is anticipated to be completed.
10. At the “Review Date” prompt, type the date of the review.
11. At the “Concurring Supervisor” prompt, type the name of the concurring supervisor for the treatment plan.
12. At the “Date Concurred” prompt, type the date the concurring supervisor agreed to the treatment plan. Once a date is specified at this prompt, you cannot change it. The prompt displays only if you specified a concurring supervisor.
13. At the “Participants in the development of this plan” prompt, if there is a participant in the development of this plan, the application displays the name. If not, the “None recorded” message displays.

The application allows you to do one of the following at this prompt: **A** - Add a Participant or **N** - NO Changes. If N was used, the “Date Closed” prompt displays.

If A was used, the following prompts display:

- a. At the “Enter the Participant Name” prompt, type the name of the participant.
- b. At the “Enter the Relationship to the Client” prompt, type the relationship of the participant to the patient.

The application then lists the participants in the development of the plan. Figure 10-5 shows an example.

```

Participants in the development of this plan:
-----
1) Alma Beta                               cousin

Select one of the following:

A      Add a Participant
E      Edit an Existing Participant
D      Delete a Participant
N      No Change

Which action:
  
```

Figure 10-5: Sample of participants in the development of this plan

- c. At the “Which action” prompt, use one of the following:
  - Type **A** to add a participant. The prompts are the same as those shown above.

- Type **E** to edit a particular existing participant. After you indicate the participant name, the prompts are the same as the add option.
- Type **D** to delete a particular existing participant. The application asks to specify the one you want to delete. There is no confirmation about the deletion.
- Type **N** to continue onto the next prompt.

14. At the “Date Closed” prompt, type the date the treatment plan is to be closed.

### Delete Tx Plan (DE)

Use the DE action to delete a particular treatment plan.

1. At the “Select Action” prompt, type **DE**.
2. At the “Select BH Treatment Plan” prompt, type the number of the treatment plan to remove.
3. At the “Are you sure you want to DELETE this Treatment Plan?” prompt, type **Y** (yes) to remove the particular treatment plan from the **Update Patient Treatment Plan** window. (Otherwise, type **N** (no).)

### Enter TP Review (RV)

Use the RV action to access the **Treatment Plan Update** window of a specified treatment plan (for the current patient).

1. At the “Select Action” prompt, type **RV**.
2. At the “Select BH Treatment Plan” prompt, type the number of the treatment plan to review.

Note: the application could display the message in Figure 10-6.

NOTE: It is recommended you close out treatment plans using DSM-IV diagnoses and create a new treatment plan using DSM-5 diagnoses.

Press enter to continue....:

Figure 10-6: Treatment Plan Update message

Press Enter to continue.

The **Treatment Plan Update** window displays. This window has the following prompts.

3. At the “Select REVIEW DATE” prompt, press Enter to accept the displayed review date (you can change). If you do not enter a date here, you exit the RV process.

4. At the “Review Provider” prompt, type the name of the review provider.
5. At the “Review Supervisor” prompt, type the name of the review supervisor, if any.
6. At the “Progress Summary” prompt, type the text of the progress summary displays (if any).
7. At the “Edit?” prompt, type **Y** (yes) or **N** (no) to edit the text of the progress summary or not. If **Y** was used, you access another window to edit the text.

```

==[ WRAP ]==[ INSERT ]===== < DIAGNOSIS >===== [ <PF1>H=Help ]====

```

<=====T=====T=====T=====T=====T=====T=====T=====T=====T>=====

Figure 10-7: Window to add information about the treatment plan

See Table 10-1 for commonly used RPMS text editor commands.

8. At the “Select TX REVIEW PARTICIPANT NAME” prompt, type a new treatment review participant name, if needed.
9. At the “Relationship to Client” prompt, type the relationship to the client. This prompt does not display unless you added a name in the previous prompt.
10. At the “Next Review Date” prompt, type the next review date displays (you can change).

### **Disp/Print Plan (DS)**

Use the DS action to display/print a specified treatment plan for the current patient.

1. At the “Select Action” prompt, type **DS**.
2. At the “Select BH Treatment Plan” prompt, type the number of the treatment plan to browse/print.
3. At the “What would do like to print” prompt, type **T** (Treatment Plan Only), **R** (Treatment Plan REVIEWS Only), or **B** (both Treatment Plan and Reviews).

4. At the “Do you wish to” prompt, type **P** (print output on paper) or **B** (browse output on screen).

The browse option outputs on the **Output Browser** window.

**Health Summary (HS)**

Use the HS action to display/print a particular health summary for the current patient.

1. At the “Select Action” prompt, type **HS**.
2. At the “Select HEALTH SUMMARY TYPE NAME” prompt, type the health summary type to use.

The application displays the Health Summary for the current patient on the **Output Browser** window.

**Browse Visits (BV)**

Use the BV action to browse the behavioral health visits for the current patient.

1. At the “Select Action” prompt, type **DS**.
2. At the “Browse which subset of visits for [patient name]” prompt, type one of the following: **L** (patient’s last visit), **N** (patient’s last n visits), **D** (visits in a date range), **A** (All of this patient’s visits), or **P** (visits to one program). If you use N, D, or P, other prompts will display.
  - a. If N was used, type the number of visits at the “How many visits should be displayed: (1-99)” prompt.
  - b. If D was used, type the date range of the visits.
    - At the “Enter beginning Date of Visit” prompt, type the beginning date of the date range.
    - At the “Ending Date of Visit” prompt, type the ending date of the date range.
  - c. If P was used, type the program at the “Visits to Which Program” prompt.

The **BROWSE PATIENT’S VISITS** window displays. The one below is for all visits.

**Share a TP (SP)**

You need to have shared permission in order to use this option. (Use the Site parameters on the Manager utilities (Share Records); your name would need to be added to that list.)

**10.1.2 Display/Print a Treatment Plan (DTP)**

Use the DTP option (on the Patient Treatment Plans menu) to display/print the treatment plan for a specified patient.

1. At the “Select Update BH Patient Treatment Plans Option” prompt, type **DTP**.
2. At the “Select PATIENT NAME” prompt, type the name of the patient to use.

If you use a patient with no treatment plan, the application will display a message to that effect.

If the patient has at least one treatment plan, the application will display the **Display/Print Treatment Plan** window.

```

Figure 10-10: Sample **Display/Print Treatment Plan** window

Table 10-2 lists the actions related to view functions on this window.

Table 10-2: Display/Print Treatment Plan window actions and functionality

Action	Functionality
<b>NS</b> (Next Screen)	Display the next screen of information (does not apply to the last screen).
<b>PS</b> (Previous Screen)	Display the previous screen of information (does not apply to the first screen).
<b>DN</b> (Down a Line)	Display the next line of information following the one at the bottom of the current screen (does not apply to the last screen).
<b>UP</b> (Up a Line)	Display the previous line of information before the top of the current screen (does not apply to the first screen).
<b>Q</b> (Quit)	Dismiss the window.

### Display/Print Plan (DS)

Use the DS action to browse/print a particular treatment plan. See **Disp/Print Plan (DS)** for more information about the display/print plan action.

### Health Summary (HS)

Use the HS action to display a particular type of health summary for the current patient.

1. At the “Select Action” prompt, type **HS**.
2. At the “Select HEALTH SUMMARY TYPE NAME” prompt, type the health summary type to use.

The application displays the Health Summary for the current patient on the **Output Browser** window.

### Print List (PL)

Use the PL action to display/print the treatment plans for the current patient.

1. At the “Select Action” prompt, type **PL**.

2. At the “Device” prompt, type the device to output the list of treatment plans.

The application displays the Display/Print Treatment Plan for the current patient.

```

Enter RETURN to continue or '^' to exit:

```

Figure 10-11: Sample Display/Print Treatment Plan window

### Search List (SL)

Use the SL action to search for a particular text string in the text of the treatment plans

1. At the “Select Action” prompt, type **SL**.
2. At the “Search for” prompt, type the text string to search for in the treatment plan.

If the application finds the first occurrence of the text string, it highlights it and the prompts continue.

3. At the “Stop Here?” prompt, type **Y** (yes) or **N** (no).

If **N** was used, the focus leaves the search sequence.

If **Y** was used, the application will search for the next occurrence of the text string. If it finds it, the application will highlight it. If it does not find it, it displays the message: “Text not found. Do you want to start at the beginning of the list?” Type **Y** (yes) or **N** (no).

### 10.1.3 Print List of Treatment Plans Needing Reviewed (REV)

Use the REV option to print a list of treatment plans in a particular date range that need to be reviewed.

1. At the “Select Update BH Patient Treatment Plans” prompt, type **REV**.
2. At the “Enter Beginning Date” prompt, type the beginning date of the date range.
3. At the “Enter Ending Date” prompt, type the ending date of the date range.
4. At the “Run the Report for which Program” prompt, type which program to use: **O** (One Program) or **A** (All Programs).

If O was used, type the number of the program to use at the “Which Program” prompt.

5. At the “List Treatment Plans for” prompt, type one of the following: **O** (One Provider) or **A** (All Providers).

If O was used, type the name of the provider at the “Which Responsible Provider” prompt.

6. At the “Demo Patient Inclusion/Exclusion” prompt, type one of the following: **I** (include all patients), **E** (exclude DEMO patients), **O** (include only DEMO patients).

7. At the “Device” prompt, type the device to output the list.

Figure 10-12 shows a sample Listing of Treatment Plans Due to be Reviewed.

### 10.1.5 Print List of All Treatment Plans on File (ATP)

Use the ATP option to print/browse a list of all patients who have a treatment plan on file (in a specified date range). This date range is the one during which the treatment plan was established.

1. At the “Select Update BH Patient Treatment Plans” prompt, type **ATP**.
2. At the “Enter BEGINNING Date” prompt, type the beginning date of the date range.
3. At the “Enter ENDING Date” prompt, type the ending date of the date range.
4. At the “Run the Report for which PROGRAM” prompt, type which program to use: **O** (One Program) or **A** (All Programs).

If O was used, type the number of the program to use at the “Which Program” prompt.

5. At the “List treatment plans for” prompt, type **O** (one provider) or **A** (all providers).

If O was used, type the name of the provider at the “Which Provider” prompt.

6. At the “Sort list by” prompt, type **P** (Responsible Provider), **N** (Patient Name), or **D** (Date Established).
7. At the “Demo Patient Inclusion/Exclusion” prompt, type one of the following: **I** (include all patients), **E** (exclude DEMO patients), **O** (include only DEMO patients).
8. At the “Device” prompt, type the device to output the list.

The application displays the **Listing of Treatment Plans** window.

### 10.1.6 Patients w/Case Open but No Treatment Plan (NOTP)

Use the NOTP option to produce a report that lists all patients who have a case open date, no case closed date, and no treatment plan in place in a specified date range. This date range is during which the case was opened.

1. At the “Select Update BH Patient Treatment Plans” prompt, type **NOTP**.
2. At the “Enter BEGINNING Date” prompt, type the beginning date of the date range.
3. At the “Enter ENDING Date” prompt, type the ending date of the date range.

4. At the “List cases opened by” prompt, type **O** (one program) or **A** (all programs). This allows you to limit the report output to cases opened by one or all Programs.  
If **O** was used, type the name of the program at the “Review Cases opened by which Program” prompt.
5. At the “List cases opened by” prompt, type **O** (one provider) or **A** (all providers). This allows you to limit the report output to cases opened by one or all Providers.  
If **O** was used, type the name of the provider at the “Which Provider” prompt.
6. At the “Sort list by” prompt, type **P** (Responsible Provider), **N** (Patient Name), or **C** (Case Open Date).
7. At the “Demo Patient Inclusion/Exclusion” prompt, type one of the following: **I** (include all patients), **E** (exclude DEMO patients), **O** (include only DEMO patients).
8. At the “Do you wish to” prompt, type **P** (Print output) or **B** (Browse output on screen).

The LISTING OF CASES OPENED WITH NO TREATMENT PLAN IN PLACE report displays.

Case Open Dates: SEP 08, 2010 to DEC 07, 2010					
PATIENT NAME	HRN	CASE OPEN DATE	PROGRAM	PROVIDER	LAST VISIT
THETAA, ROLAND	258852	10/01/10	MENTAL HEA		12/07/10
BETAAAA, MONTY	741147	11/03/10	MENTAL HEA		12/07/10
DEMO, DOROTHY ROSE	999999	12/07/10	MENTAL HEA		07/08/10
BETA, ROBERT JACOB	207365	11/22/10	CHEMICAL D	CHIII, JESSICA	12/07/10

## 10.2 Treatment Plan Window (GUI)

The RPMS Behavioral Health System (GUI) application provides ways to manage treatment plans for one patient

Figure 10-16 shows where the treatment plan functions are located on the Clinical Activities tree structure.

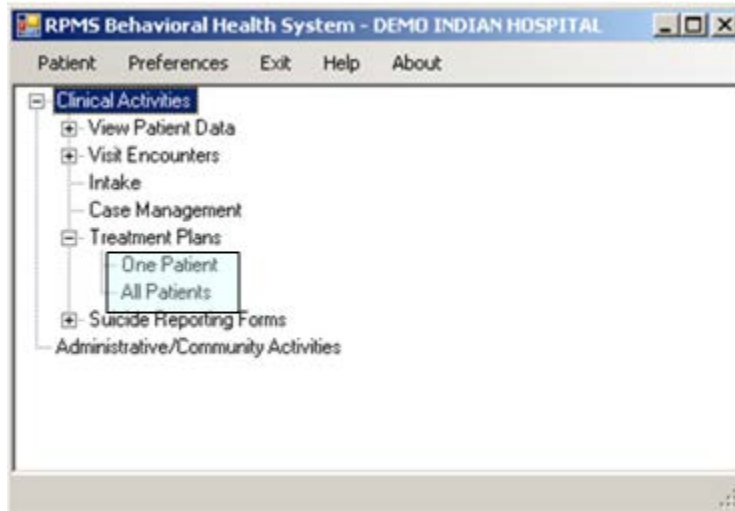

Figure 10-16: Location of Treatment Plan functions on tree structure

One way to access the **Treatment Plan** window is to use the **One Patient** option. You access the **Treatment Plan** window for the current patient.

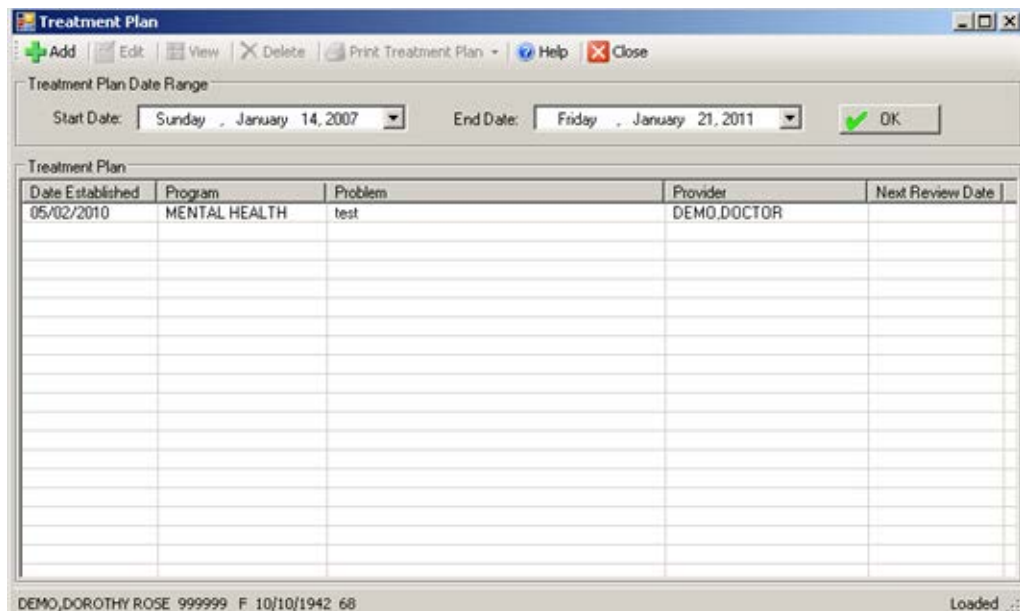

Figure 10-17: Sample **Treatment Plan** group box for current patient

Another way to access the **Treatment Plan** window is to use **All Patients**. You access the **Treatment Plan** window for all patients.

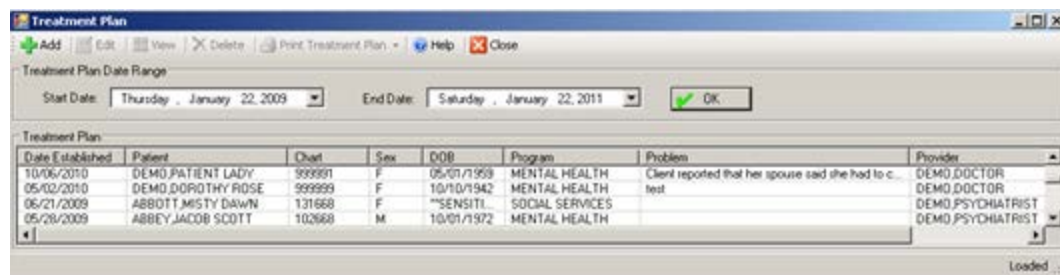

Figure 10-18: Sample Treatment Plan window for all patients

Table 10-3 provides information about the features of both windows.

Table 10-3: Treatment Plan window features and functionality

Feature	Functionality
<b>Treatment Plan Window for One Patient</b>	The default <b>Start Date</b> is one year prior. Changing the <b>Start Date</b> for the <b>Treatment Plan</b> window for One Patient stays in effect in future sessions of the GUI application for the <b>Treatment Plan</b> window (until you change it again).
<b>Treatment Plan Window for All Patients</b>	The default <b>Start Date</b> is one year prior. Changing the <b>Start Date</b> for the <b>Treatment Plan</b> window for All Patients stays in effect until you exit the application. When you log in the next time, the Start Date reverts to one year previous.
<b>Treatment Plan Group Box</b>	This group box shows the records within the Treatment Plan Date Range. They are in date order.
<b>Add Button</b>	Establish the patient to use in the add process. Click the <b>Add</b> button to add a new treatment plan record on the <b>Treatment Plan - Add Treatment Plan</b> window.
<b>Edit Button</b>	Click the <b>Edit</b> button to edit a particular treatment plan record on the <b>Treatment Plan - Edit Treatment Plan</b> window.
<b>View Button</b>	Select a treatment plan record and click <b>View</b> (or double-click on the plan) to view the <b>Treatment Plan - View Treatment Plan</b> window (view only). The fields are the same as those on the add/edit treatment plan dialog.
<b>Help Button</b>	Click the <b>Help</b> button to access the online help system for the <b>Treatment Plan</b> window.
<b>Close Button</b>	Click the <b>Close</b> button to dismiss the <b>Treatment Plan</b> window.
<b>Delete Button</b>	Click the <b>Delete</b> button to delete a particular treatment plan record. The application confirms the deletion.
<b>Print Treatment Plan Button</b>	Use the <b>Print Treatment Plan</b> button to print a particular Treatment Plan record. The <b>Print Treatment Plan</b> button has three choices: (1) <b>Treatment Plan Only</b> , (2) <b>Review Data Only</b> , and (3) <b>Treatment Plan and Review Data</b> . Highlight a record and choose one of the <b>Print Treatment Plan</b> options. The application determines which of the options are active.

The following applies to the **Print Treatment Plan** button:

If you use Review Data Only (2) or Treatment Plan and Review Data (3) and if there are reviews, the application displays the **Treatment Plan Reviews** dialog.

Figure 10-19: **Treatment Plan Reviews** dialog

Check each Treatment Plan Review record to use and click **OK**. Otherwise, click **Close** to exit the print routine.

The following shows the first page of the **Treatment Plan** pop-up window.

The screenshot shows a 'Treatment Plan' window with the following content:

```

***** CONFIDENTIAL PATIENT INFORMATION *****
*
* TREATMENT PLAN                               Printed: Dec 27, 2013@12:17:21
* Name: DEMO, DUCK                               Page 1
* DEMO INDIAN HOSPITAL   DOB: 2/5/75   Sex: M   Chart #: NW36219
*
*****

Date Established:           Dec 27, 2013
Admit Date:
Anticipated Completion Date:
Date Closed:
Provider:                   TETER, SHIRLEY
Supervisor:                 <not recorded>
    Date Concurred:

```

At the bottom of the window, there are status fields: Current Page No.: 1, Total Page No.: 2, and Zoom Factor: 100%.

Figure 10-20: Sample Treatment Plan pop-up window

Section 2.6 provides more information about using the controls on this type of window.

### 10.3 Add/Edit Treatment Plan Record (GUI)

Click the **Add** button on the **Treatment Plan** window to display the **Treatment Plan - Add Treatment Plan** window.

Click the **Edit** button on the **Treatment Plan** window to display the **Treatment Plan -Edit Treatment Plan** window.

Both windows have the same fields. Figure 10-21 shows the **Add Treatment Plan** window.

Figure 10-21: Add Treatment Plan window

Table 10-4 provides information about the buttons on this window.

Table 10-4: **Add Treatment Plan window** buttons and functionality

Button	Functionality
<b>Help</b> Button	Click to access the online help system for the window.
<b>Save</b> Button	Click to save the data on the window. The Save function adds/edits the treatment plan record on the <b>Treatment Plan</b> window.
<b>Close</b> Button	Click to display the <b>Continue?</b> dialog that states: Unsaved Data Will Be Lost, Continue? Click <b>Yes</b> to not save; this dismisses the add window. Click <b>No</b> and the focus remains on the add/edit treatment plan window.

### 10.3.1 Treatment Plan Information Group Box

Use the **Treatment Plan Information** group box to manage the basic information about the treatment plan.

Treatment Plan Information	
<b>Date Established</b>	Friday, January 21, 2011
Next Review Date	Friday, January 21, 2011
<b>Program</b>	
Date Completed/Closed	Friday, January 21, 2011
Case Admit Date	Friday, January 21, 2011
Anticipated Completion Date	Friday, January 21, 2011
<b>Designated Provider</b>	DEMO.DOCTOR
Concurring Supervisor	
Date Concluded	Friday, January 21, 2011

Figure 10-22: **Treatment Plan Information** group box

The fields in bold text are required (**Date Established**, **Program**, and **Designated Provider**).

1. At the **Date Established** field, select the date the treatment plan was established. The default for a new record is the current date. Click the list to access the calendar to change this date.
2. At the **Next Review Date** field, select the date the treatment plan is expected to be reviewed. Click the list to access the calendar to change this date. Note that if **Date Completed/Closed** is populated, this field will be inactive.
3. At the **Program** field, select the program used in the treatment plan. Click the list to select one of the following: **Mental Health**, **Social Services**, **Other**, or **Chemical Dependency**.
4. At the **Date Completed/Closed** field, select the date the treatment plan was completed or closed. Click the list to access the calendar to change this date.
5. At the **Case Admit Date** field, select the date the patient was admitted into care. Click the list to access the calendar to change this date.
6. At the **Anticipated Completion Date** field, select the anticipated completion date for the treatment plan. Click the list to access the calendar to change this date.
7. At the **Designated Provider** field, select the name of the designated provider for the treatment plan. Click the list to access the **Designated Provider** search dialog to search for the name of the designated provider.

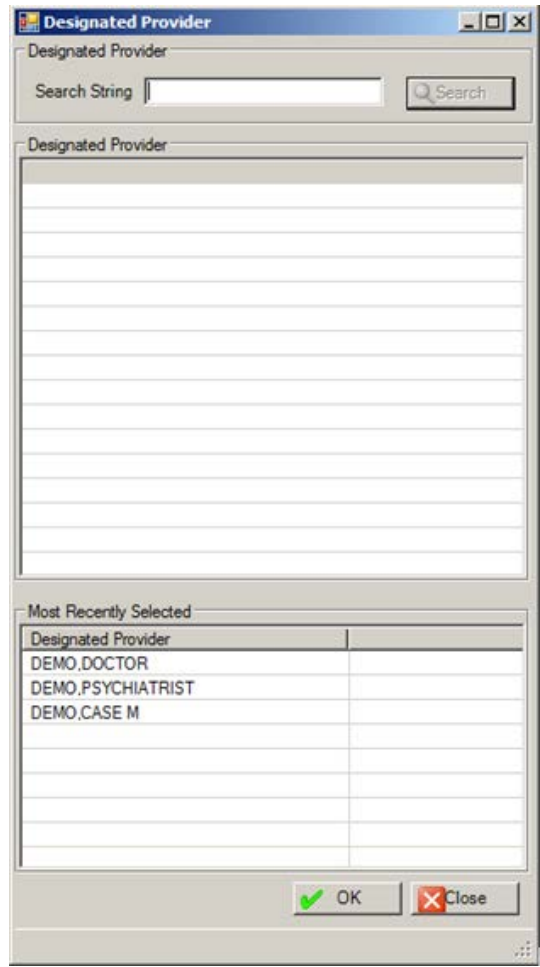

Screen Capture	What to Do
	<p>Use this search window in one of two ways:</p> <p>(1) Use the <b>Search String</b> field by typing the designated provider's last name and then clicking <b>Search</b>. The retrieved providers will populate the <b>Designated Provider</b> list box. Select a retrieved record and click <b>OK</b> to populate the <b>Designated Provider</b> field. (Otherwise, click <b>Close</b>.)</p> <p>(2) Select a name in the <b>Most Recently Selected</b> list box and click <b>OK</b> to populate the <b>Provider</b> field. (Otherwise, click <b>Close</b>.)</p>

Figure 10-23: **Designated Provider** search window

8. At the **Concurring Supervisor** field, select the name of the concurring supervisor for the treatment plan. Click the list to access the **Concurring Supervisor** search dialog and search for the name of the supervisor.

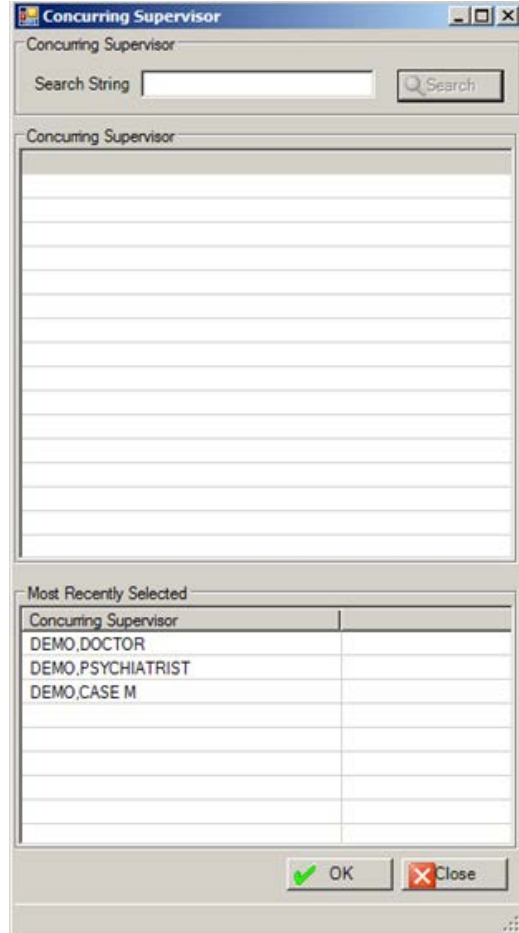

Screen Capture	What to Do
	<p>Use this search window in one of two ways:</p> <p>(1) Use the <b>Search String</b> field by typing concurring supervisor's last name and then clicking <b>Search</b>. The retrieved names will populate the <b>Concurring Supervisor</b> list box. Select a retrieved record and click <b>OK</b> to populate the <b>Concurring Supervisor</b> field. (Otherwise, click <b>Close</b>.)</p> <p>(2) Select a name in the <b>Most Recently Selected</b> list box and click <b>OK</b> to populate the <b>Concurring Supervisor</b> field. (Otherwise, click <b>Close</b>.)</p>

Figure 10-24: **Concurring Supervisor** search window

9. At the **Date Concurred** field, select the date that the concurring supervisor agreed to the treatment plan. This date cannot be before the Date Established. Click the list to access the calendar to change this date.

### 10.3.2 Diagnosis Tab

Use the **Diagnosis** tab to add diagnosis information. This includes the text of the diagnosis for the particular treatment plan (in the **Diagnosis** field) and the text of the problem list (in the **Problem List** field).

Figure 10-25: Diagnosis tab

Both fields are Free Text fields.

### 10.3.3 Plan Tab

Use the **Plan** tab to add participants to the plan as well as describing **the Problems / Goals / Objectives / Methods** of the plan.

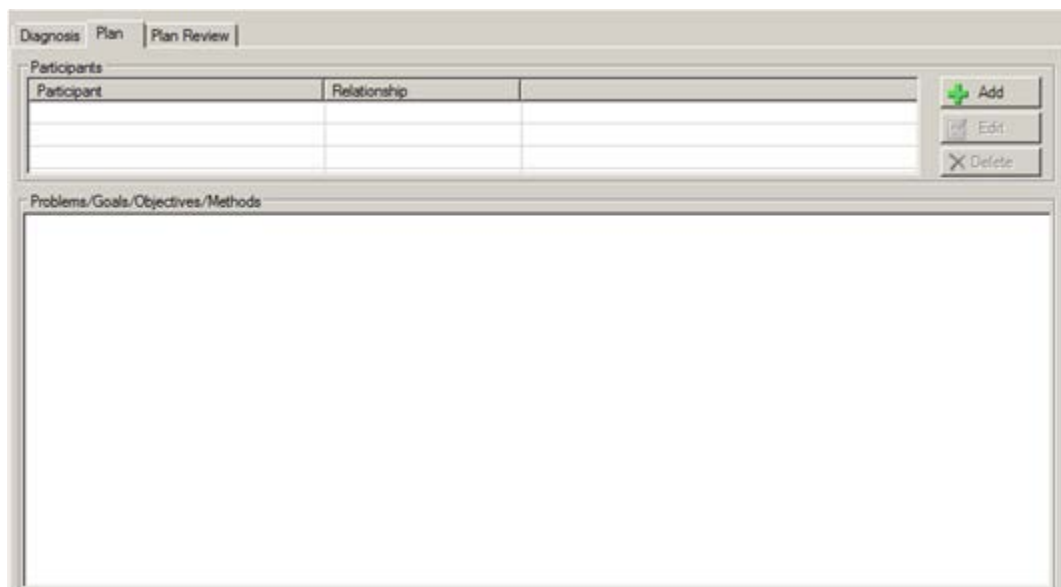

Figure 10-26: Plan tab

#### **Participants Group Box**

Use the **Participants** group box to manage the participants in the treatment plan.

### Delete Button

Use the **Delete** button to delete a selected participant record.

1. Select the participant record to delete.
2. Click **Delete**.
3. The application confirms the deletion. Type **Y** (yes) or **N** (no).

### Add/Edit Button

The **Add** and **Edit** buttons use the same fields.

1. Click **Add** to add a record.

OR

2. Select a record to edit and click **Edit**.

The **Treatment Plan Participants** dialog displays.

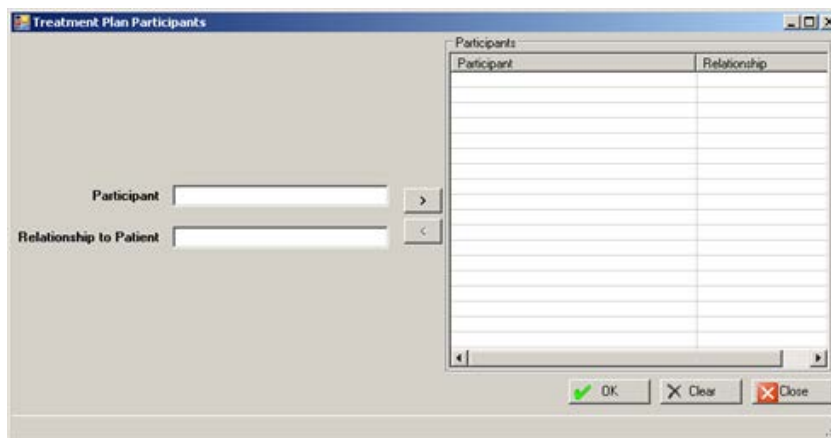

Figure 10-27: Treatment Plan Participants dialog

3. At the **Participant** field, type the participant name. This is a Free Text field.
4. At the **Relationship to Patient** field, type the participant's relationship to the patient of the treatment plan. This is a Free Text field.
5. After completing the **Participant** and **Relations** fields, do one of the following:
  - a. Click the right arrow button to add the information to the **Participants** list box. More than one participant/relationship record can be added to the **Participants** list box.
  - b. Click **Clear** to remove the data in the **Participant** and **Relationship to Patient** fields.

6. Remove a highlighted record in the **Participants** list box by clicking the left arrow button.
7. If **Add** was used, click **OK** to save the data. The data in the **Participants** list box will populate the **Participants** group box on the **Plan Review** tab of the add/edit treatment plan window. (Otherwise, click **Close**.)
8. If **Edit** was used, click **OK** to save the data. The data in the **Participants** list box will be updated.

### Problems/Goals/Objectives/Methods

Populate this field with the text of the problems, goals, objective, or methods for the treatment plan. This is a Free Text field.

## 10.3.4 Plan Review Tab

Use the **Plan Review** tab to document the plan review of the treatment plan.

Figure 10-28: Plan Review tab

When a record is selected in the grid for the plan review, you can do the following:

- Complete the fields for the plan review (below the grid)
- Complete the participants in the plan review (in the **Participants** group box)
- Complete the Progress Summary for the plan review (in the **Progress Summary** field)

After you have completed the fields and group boxes, click **OK** to save the plan review record. (Otherwise, click **Cancel**.)

### Review Group Box

Use the top group box to document the review date, the review provider, and review supervisor, and next review date for the treatment plan.

### Delete Button

Use the **Delete** button to delete a selected plan review record.

1. Select the plan review record to delete.
2. Click **Delete**.
3. At the **Are You Sure** confirmation message, type **Y** (yes) to delete the record. Otherwise, type **N** (no).

### Edit Button

Use the **Edit** button to change a selected plan review record.

1. Select the plan review record to change.
2. Click **Edit**.
3. The fields for the selected plan become active. These fields are reviewed below (under **Add** button).

### Add Button

Use to add a new review record. Populate the fields below the review grid as well as the **Participants** group box, and the **Progress Summary** field to complete the add process.

The fields for Review in bold text are required.

1. Click **Add**. The fields below the review grid become active.
2. At the **Review Date** field, select the date of the review. The default is the current date for a new record. Click the list to access the calendar to change the date.
3. At the **Next Review Date** field, select the date of the next review. The default is the current date for a new record. Click the list to access the calendar to change the date. Please note that changing the Next Review date here will also change the Next Review date on the **Treatment Plan Information** group box.
4. At the **Review Provider** field, select the provider who is doing the review (the default is the current user). Click the list to access the **Reviewing Provider** search/select window where you search for the provider name.

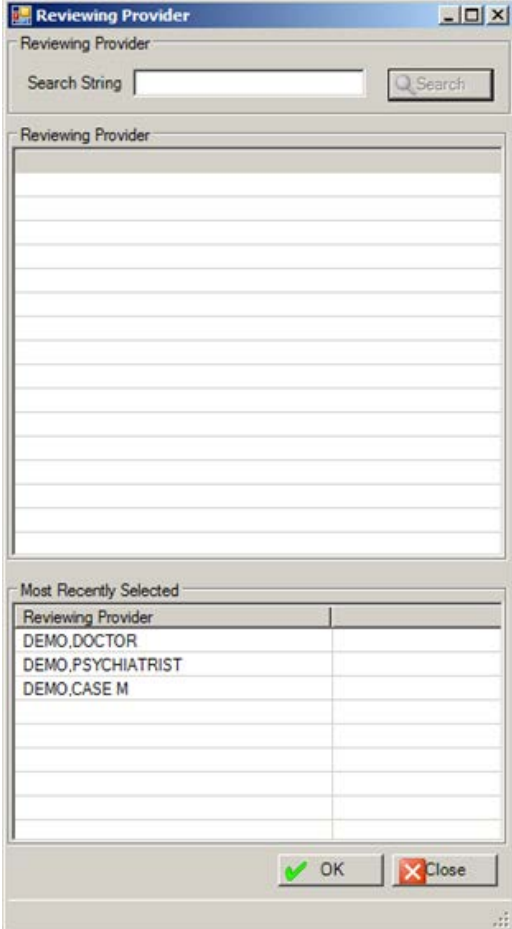

Screen Capture	What to Do
	<p>Use this search/select window in one of two ways:</p> <p>(1) Use the <b>Search String</b> field by typing the reviewing provider's last name and then clicking <b>Search</b>. The retrieved names will populate the <b>Reviewing Provider</b> list box. Select a retrieved record and click <b>OK</b> to populate the Review Provider field. (Otherwise, click <b>Close</b>.)</p> <p>(2) Select in the <b>Most Recently Selected</b> list box and click <b>OK</b> to populate the <b>Review Provider</b> field. (Otherwise, click <b>Close</b>.)</p>

Figure 10-29: **Reviewing Provider** search/select window

- At the **Review Supervisor** field, select the review supervisor for the treatment plan. Click the list to access the **Reviewing Supervisor** search/select window where you search for the supervisor name.

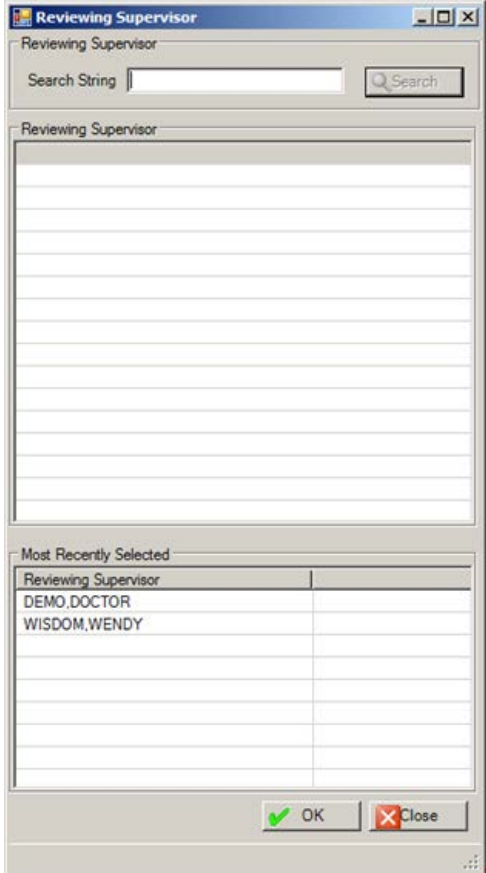

Screen Capture	What to Do
	<p>Use this search/select window in one of two ways:</p> <p>(1) Use the <b>Search String</b> field by typing the reviewing supervisor's last name clicking <b>Search</b>. The retrieved names will populate the <b>Reviewing Supervisor</b> list box. Select a retrieved record and click <b>OK</b> to populate the <b>Review Supervisor</b> field. (Otherwise, click <b>Close</b>.)</p> <p>(2) Select a name in the <b>Most Recently Selected</b> list box and click <b>OK</b> to populate the <b>Review Supervisor</b> field. (Otherwise, click <b>Close</b>.)</p>

Figure 10-30: **Reviewing Supervisor** search/select window

### Participants Group Box (Plan Review)

Use the **Participants** group box to display the participants in the plan review.

#### Add/Edit Button

The **Add** and **Edit** buttons use the same fields.

1. Click **Add** to access the **Treatment Plan Participants** dialog.
- OR
2. Select a participant record to edit. Click **Edit** to access the **Treatment Plan Participants** dialog.

Figure 10-31: **Treatment Plan Participants** dialog

3. At the **Participant** field, type the participant name. This is a Free Text field.
4. At the **Relationship to Patient** field, type the participant's relationship to the patient of the treatment plan. This is a Free Text field.
5. After completing the Participant and Relations fields, do one of the following:
  - a. Click the right arrow button to add the information to the **Participants** list box. More than one participant/relationship record can be added to the **Participants** list box.
  - b. Click **Clear** to remove the data in the **Participant** and **Relationship to Patient** fields.
6. To remove a selected record in the **Participants** list box, click the left arrow button.
7. If Add was used, click **OK** to save the data. The data in the **Participants** list box will populate the **Participants** group box on the **Plan Review** tab of the add/edit treatment plan window. (Otherwise, click **Close**.)
8. If Edit was used, click **OK** to save the data. The data in the **Participants** list box will be updated.

### Delete Button

Use the **Delete** button to delete a selected Participants record.

1. Select a participant record to delete.
2. Click **Delete**.
3. On the **Are You Sure** confirmation message, click **Yes** to delete the record (otherwise, click **No**).

### Progress Summary

Use the **Progress Summary** field to add the text of the progress of the plan review. This is a Free Text field.

## 11.0 Suicide Forms

Users can manage suicide forms in Roll and Scroll as well as in the RPMS Behavioral Health System (GUI).

Please note: All of the fields are mandatory but not enforced. This means if you do not populate all of the fields, you can still save, but the suicide form will be considered Incomplete. If you do complete all of the fields, the suicide form will be considered Complete.

### 11.1 Suicide Reporting Forms (Roll and Scroll)

Use the SF (Suicide Reporting Forms - Update/Print) option on the IHS Behavioral Health System Data Entry Menu to manage suicide forms in Roll and Scroll.

The Add/Update Suicide Forms option on the **Other Information** window also accesses the suicide reporting forms.

After using the SF option, the user has two options, shown in Figure 11-1.

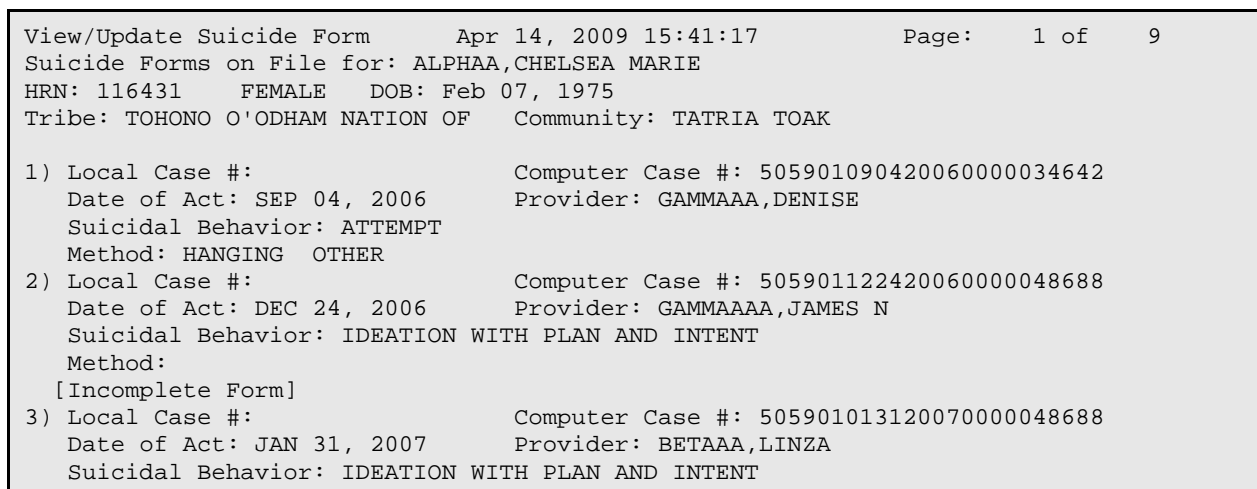

Figure 11-1: Options available for managing suicide forms

#### 11.1.1 Update Suicide Reporting Form for a Patient (SFP)

Use the SFP option to update the suicide report for a specified patient.

1. At the “Select Patient Name” prompt, type the name of the patient to use.
2. The **View/Update Suicide Form** window for the selected patient displays.

```

Method: OVERDOSE
4) Local Case #:                               Computer Case #: 505901022220070000034642
+      ?? for more actions + next screen - prev screen
AF  Add a Suicide Form                         BV  Browse Visits for this Patient
EF  Edit a Suicide Form                       HS  Health Summary for this Patient
DF  Display a Suicide Form                   Q   Quit
XF  Delete a Suicide Form
Select Item(s): Next Screen//

```

Figure 11-2: Sample **View/Update Suicide Form** window for the current patient

If any of the suicide forms are incomplete, the message “[Incomplete Form]” will display as the last line under the particular case.

Use the Quit action to dismiss this window.

### Add/Edit Suicide Form

The add and edit functions use the same update form.

#### Add a Suicide Form (AF)

Use the AF action to add a suicide form for the current patient.

1. At the “Select Item(s)” prompt, type **AF**.
2. At the “Provider Completing the form” prompt, type the name of the provider who is completing the form.
3. At the “Enter the Date of the Suicide Act” prompt, type the date of the suicide act.
4. The application displays the **Updating IHS Suicide Form** window. (See **Edit a Suicide Form (EF)** below for more information about this window.)

#### Edit a Suicide Form (EF)

Use the EF action to change a selected suicide form.

1. At the “Select Item(s)” prompt, type **EF**.
2. At the “Select Suicide Reporting Form List” prompt, type the number of the suicide form to change.
3. The application displays the **Updating IHS Suicide Form** window.

```

***  UPDATING IHS SUICIDE FORM  ***  F1 E to exit ***

COMMAND: Press <PF1>H for help    Insert

Figure 11-3: Sample Updating IHS Suicide Form window

The underlined fields are required.

4. At the “Local Case #” prompt, type a local case number generated by the site (1–20 characters).
5. At the “Provider” prompt, type the name of the provider reporting this suicide case (the provider completing the form).
6. At the “Employment Status” prompt, type the employment status of the patient. Use one of the following: **P** (part-time), **F** (full-time), **S** (self-employed), **UE** (unemployed), **R** (retired), **ST** (student), **SE** (student and employed), or **UNK** (unknown).
7. At the “Date of Act” prompt, type the date of the suicide act. The default is the current date (can be changed).
8. At the “Community where act Occurred” prompt, type the name of the community where the suicide act occurred.
9. At the “Relationship Status” prompt, type the relationship status. Use one of the following: **1** (single), **2** (married), **3** (divorced/separated), **4** (widowed), **5** (cohabiting/common law), **6** (same sex partnership), **9** (unknown).
10. At the “Education” prompt, type the level of patient’s education. Use one of the following:
  - **1** – Less than 12 years
  - **2** – High School Graduate/GED
  - **3** – Some College/Technical School
  - **4** – Collage Graduate
  - **5** – Post Graduate

- **6** – Unknown

If you use the “Less than 12 years” option, the application asks for the following information:

- At the “If less than 12 years, highest grad completed” prompt, type any whole number between 0 and 11.

The following fields are on the **Updating IHS Suicide Form** window.

- At the “Suicidal Behavior” prompt, type the suicidal behavior for the suicide act. Use one of the following:

- **1** – Ideation W/ Plan and Intent
- **2** – Attempt
- **3** – Completed Suicide
- **6** – Att’d Suicide w/ Att’d Homicide
- **7** – Att’d Suicide w/ Compl Homicide
- **8** – Compl Suicide w/ Att’d Homicide
- **9** – Compl Suicide w/ Compl Homicide

- At the “Method (press Enter)” prompt, press Enter to access the following pop-up.

```
*** If you need help type ?, not ?? ***
METHOD:
METHOD:
METHOD:
```

Figure 11-4: Sample fields on the pop-up

- At the “Method” prompt, type a suicide method. More than one can be used.
  - **1** – GUNSHOT
  - **2** – HANGING
  - **3** – MOTOR VEHICLE
  - **4** – JUMPING
  - **5** – STABBING/LACERATION
  - **6** – CARBON MONOXIDE
  - **7** – OVERDOSE
  - **U** – UNKNOWN

If you use **Other** in the **Method** field, the application asks the following information:

- b. At the “Please describe the “OTHER” Method” prompt, type the text of the other method using between 1 and 40 characters.

The following fields are on the **Updating IHS Suicide Form** window.

13. At the “Previous Attempts” prompt, type the number/character of previous suicide attempts. Use one of the following:
- 0 – 0
  - 1 – 1
  - 2 – 2
  - 3 – 3 or more
  - U – Unknown
14. At the “Substance Use Involved” prompt, type the substance use involved in the suicide act. Use one of the following: **1** (none), **2** (alcohol and other drugs), **U** (unknown).

If you use 2, the application displays the list of drug choices type.

```
For a list of drug choices type ??
SUBSTANCE DRUG USED:
SUBSTANCE DRUG USED:
SUBSTANCE DRUG USED:
```

Figure 11-5: Sample of list of drug choices used

- a. At the “SUBSTANCE DRUG USED” prompt, type the substance drug used. More than one can be used.
- b. If you use “OTHER at the SUBSTANCE DRUG USED” prompt, the application asks for the following information: Drug if other. Type the name of the drug, using 1–40 characters.

The following fields are on the **Updating IHS Suicide Form** window.

15. At the “Location of Act” prompt, type the location of the act.

If you use **Other** in the **Location of Act** field, the application asks the following information:

- At the Location of Act If Other” prompt, type the location of the act, using 1–80 characters.

16. At the “Contributing Factors (press Enter)” prompt, press Enter to access the Contributing Factors pop-up.

```
Enter all Contributing Factors. To see a list of choices type ??
```

```
FACTOR:
FACTOR:
FACTOR:
```

Figure 11-6: Fields on the pop-up

- a. At the “Factor” prompt, type the contributing factor. More than one can be used.

You cannot enter UNKNOWN if other legitimate values have already been entered. If you want to enter UNKNOWN, first delete (using the at symbol “@”) all other entries (the application confirms the deletion).

If you use OTHER at the FACTOR prompt, the application asks the following information:

- b. At the “Enter a brief description of the ‘Other’ Contributing Factor” prompt, type a brief description, using 1–40 characters.

The following fields are on the **Updating IHS Suicide Form** window.

17. At the “Disposition” prompt, type the disposition of the suicide act.

If using OTHER at the Disposition prompt, the application asks the following information:

- At the “Disposition If Other” prompt, type the disposition, using 1–80 characters.

The following fields are on the **Updating IHS Suicide Form** window.

18. At the “Other Relevant Information” prompt, press Enter to access another window where you populate the field with text of the other relevant information about the suicide act.

```
==[ WRAP ]==[ INSERT ]===== < SUBJECTIVE/OBJECTIVE >===== [ <PF1>H=Help ]====
<=====T=====T=====T=====T=====T=====T=====T=====T=====T>=====
```

Figure 11-7: screen to enter other relevant information

Table 11-1 lists the most commonly used RPMS text editor commands.

Table 11-1: Commonly used RPMS text editor commands

Action Needed	Use These Keys
Delete a line (extra blank or text)	PF1(F1) followed by D
Join two lines (broken or too short)	PF1(F1) followed by J
Save without exiting	PF1(F1) followed by S
Exit and save	PF1(F1) followed by E
Quit without saving	PF1(F1) followed by Q
Top of text	PF1(F1) followed by T

After you leave the suicide form and if there are any missing data, the application lists what is missing and what actions you can take:

```

Select one of the following:

      E      Edit and Complete the Form
      D      Delete the Incomplete Form
      L      Leave the Incomplete Form as is and Finish it Later

What do you want to do: E//

```

Figure 11-8: List of actions you can take

Type **E** to return to the form where you can edit and complete it.

Type **D** to delete the form (there is no confirmation).

Type **L** to leave the form incomplete (as is) and finish it later.

### Display a Suicide Form (DF)

Use the DF action to display a specified suicide form.

1. At the “Select Item(s)” prompt, type **DF**.
2. At the “Select Suicide Reporting Form List” prompt, type the suicide form to display.
3. At the “Do you wish to” prompt, type one of the following: **P** (print output) or **B** (browse output on screen)

The form displays where you can browse the Suicide Reporting Form on the screen.

**Delete a Suicide Form (XF)**

Use the XF action to remove a selected suicide form record.

1. At the “Select Item(s)” prompt, type **XF**.
2. At the “Select Suicide Reporting Form List” prompt, type the suicide form to remove.
3. At the “Are you sure you want to delete this suicide form?” prompt, type **Y** (yes) to delete the suicide form or **N** (no).

**Browse Visits for this Patient (BV)**

Use the BV action to browse the BH visits for the current patient.

1. At the “Select Item(s)” prompt, type **BV**.

2. At the “Browse which subset of visits for <patient name>” prompt, type one of the following: **L** (patient’s last visit), **N** (patient’s last n visits), **D** (visits in a date range), **A** (All of this patient’s visits), or **P** (visits to one program). If N, D, or P are used, other prompts will display.
  - a. If N was used, type the number of visits at the “How many visits should be displays: (1–99)” prompt.
  - b. If D was used, type the beginning date of visit and ending date of visit at the “Enter Beginning Date of Visit” and “Enter Ending Date of Visit” prompts.
  - c. If P was used, type the program to use at the “Visits to Which Program” prompt.

The **BROWSE PATIENT’S VISITS** window displays.

Figure 11-12: Sample Review Suicide Report Forms window

The phrase “[Incomplete Form]” at the end of the suicide form record represents the Incomplete Suicide Reporting Form.

Section 11.1.1 provides more information about the add/edit/delete functions on this window.

## 11.2 Suicide Form Window (GUI)

The suicide form options are located under the Suicide Reporting Forms category on the tree structure for the RPMS Behavioral Health System (GUI) application.

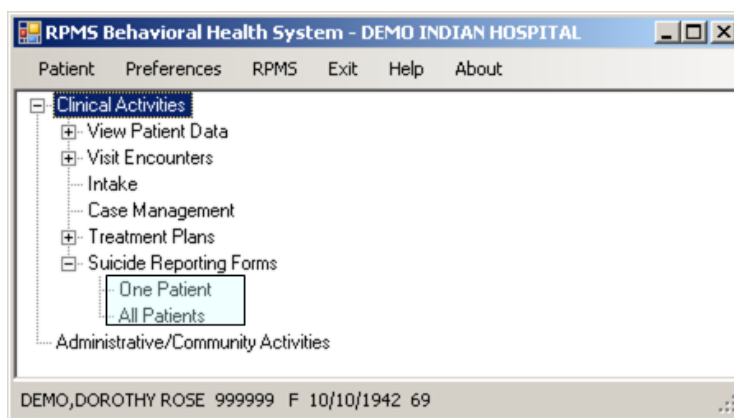

Figure 11-13: Location of Suicide Forms on the tree structure

One way to access the **Suicide Form** window is to select the **One Patient** option.

**Note** You can access this window if you click the **Suicide Form** tab on the **Visit Data Entry – Add/Edit** window.

The application displays the **Suicide Form** window for **One Patient**. If you access the **Suicide Form** for one patient window and there is no current patient, you will be prompted to select one.

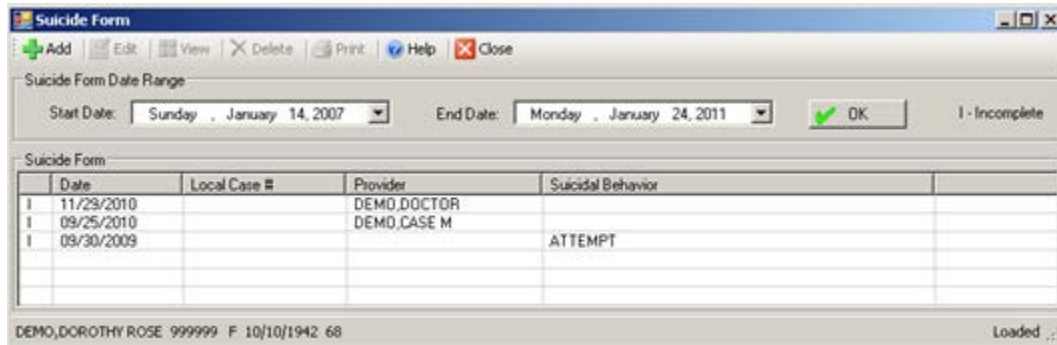

Figure 11-14: **Suicide Form** window for one patient

Another way to access the **Suicide Form** window is to select the **All Patients** option. The application displays the **Suicide Form** window for All Patients.

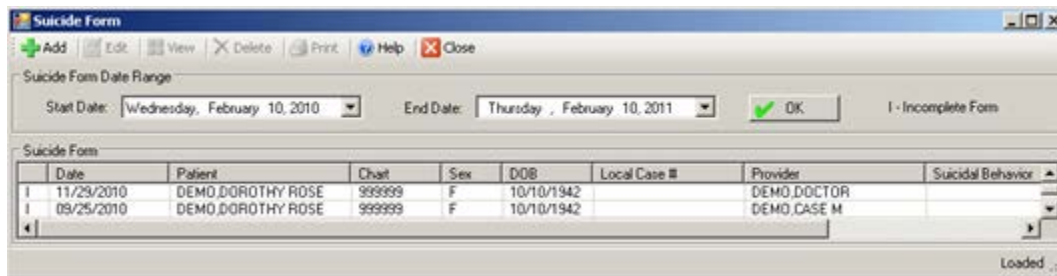

Figure 11-15: **Sample Suicide Form** window for all patients

Both windows function in the same way.

Table 11-2 provides information about the features of these windows.

Table 11-2: Suicide Form window features and functionality

Feature	Functionality
<b>Suicide Form</b> Window for One Patient	The default Start Date is one year prior. If you change the <b>Start Date for the Suicide Form</b> window for <b>One Patient</b> , this change stays in effect in future sessions of the GUI application for the <b>Treatment Plan</b> window (until you change it again).

Feature	Functionality
<b>Suicide Form Window for All Patients</b>	<p>The default Start Date is one year prior.</p> <p>If you change the <b>Start Date for the Suicide Form</b> window for <b>All Patients</b>, this change stays in effect until you exit the application. When you log in the next time, the Start Date reverts to one year previous.</p> <p>Please note: If you change the <b>Start Date for the Suicide Form</b> window for <b>One Patient</b>, this change stays in effect in future sessions of the GUI application for the <b>Visit</b> window for One Patient, the <b>Suicide Form</b> window for One Patient, and the <b>Treatment Plan</b> window for One Patient.</p> <p>Similarly, if you change the <b>Start Date for the Suicide Form</b> window for <b>All Patients</b>, this change stays in effect in future sessions of the GUI application for the <b>Visit</b> window for All Patients, the <b>Suicide Form</b> window for All Patients, and the <b>Treatment Plan</b> window for All Patients.</p>
<b>Suicide Form Group Box</b>	This group box displays the suicide form records in the date range. The records are listed by date. The “I” in the first column of the grid indicates the suicide form is incomplete.
<b>Add Button</b>	Establish the patient you want to use in the add process. Use this button to add a new suicide form record. You access the <b>Visit Data Entry - Add Suicide Entry</b> dialog.
<b>Edit Button</b>	Click this button to edit the highlighted suicide form for the current patient on the <b>Visit Data Entry - Edit Suicide</b> Entry dialog. The <b>Edit</b> button will be inactive if the patient does not have any previous visits (applies to the suicide form for the current patient).
<b>View Button</b>	Click this button (or double-click on a form) to browse the highlighted suicide form record. The application displays the <b>Suicide Form Data Entry - View Suicide Form</b> window. This is a view-only window has the same fields as the add/edit suicide form window.
<b>Delete Button</b>	Use this button to remove the highlighted suicide form record. On the <b>Are You Sure</b> confirmation message, click <b>Yes</b> to remove the selected suicide record (otherwise, click <b>No</b> ).
<b>Help Button</b>	Click this button to access the online help for the <b>Suicide Forms</b> window.
<b>Close Button</b>	Click this button close the <b>Suicide Form</b> window.
<b>Print Button</b>	Click this button to output the highlighted suicide form record. After clicking <b>Print</b> , the application displays the first page of the <b>Suicide Reporting Form</b> pop-up window.

The following applies to the **Print** button.

```

```

Figure 11-16: Suicide Reporting Form

This window contains the following:

- Data from the Suicide Form
- Patient data, such as sex, DOB, Age
- Edit History, such as date last modified, user last update, and each update, including date and time as well as the person who modified the record.

Section 2.6 provides more information about using the controls on this type of window.

### 11.3 Add/Edit Suicide Form (GUI)

1. Click **Add** to add a new suicide record. The **Suicide Form Data Entry – Add Suicide Form** displays.

OR

2. Select a record to change and click **Edit**. The **Suicide Form Data Entry - Edit Suicide Form** displays.

Below are the fields on the **Suicide Form Data Entry - Add Suicide Form** window. (The same fields display on the **Suicide Form Data Entry - Edit Suicide Form** window.)

Figure 11-17: Sample **Suicide Form Data Entry - Add Suicide Form** window

All fields except the **Local Case Number** and the **Narrative** are required in order to save. Attempting to save with incomplete fields results in the application displaying the **Required** information message.

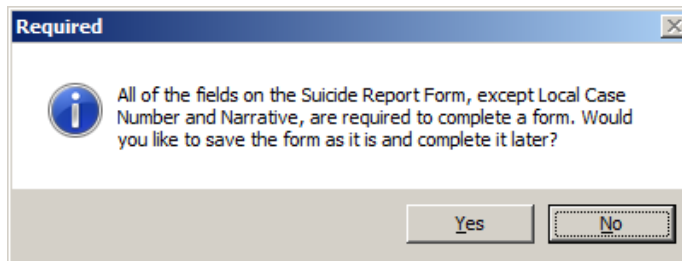

Figure 11-18: **Required** information message

- Click **Yes** to save the form and complete it later; the focus returns to the **Suicide Form** window.
- Click **No** to not save; the focus remains on the data entry form.

Table 11-3 provides information about the buttons on this window.

Table 11-3: Suicide Form buttons and functionality

Button	Functionality
Save	Use this button to save the data.
Help	Use this button to access the online help system for this window.

Button	Functionality
<b>Close</b>	Use this button to display the <b>Continue?</b> dialog. This dialog states: Unsaved Data Will Be Lost, Continue? Click <b>Yes</b> to not save; this dismisses the add window. Click <b>No</b> and the focus remains on the add window where you can continue work on the suicide form.

### 11.3.1 Suicide Form Fields

Figure 11-19: Fields on suicide form

The required fields are in bold text.

1. At the **Local Case Number** field, type the local case number or a health record number, if any (limited to 20 characters). This is a Free Text field.
2. At the **Provider** field, select the provider. For a new record, the application automatically populates this field with the current logon provider. To change click the list to access the **Provider** search window where you search for the provider name.

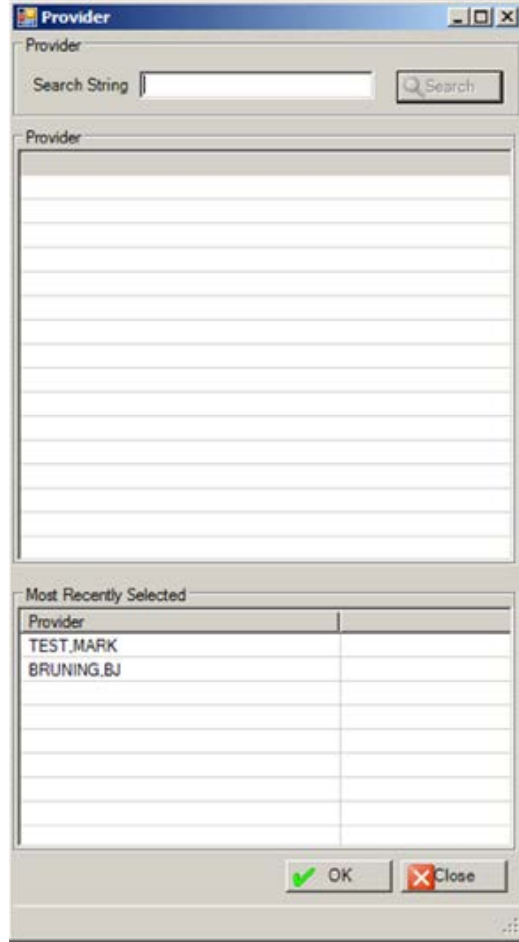

Screen Capture	What to Do
	<p>Use this search window in one of two ways:</p> <p>(1) Use the <b>Search String</b> field by typing the community name and clicking <b>Search</b>. The retrieved names will populate the <b>Provider</b> list box. Select a retrieved record and click <b>OK</b> to populate the <b>Provider</b> field. Otherwise, click <b>Close</b>.</p> <p>(2) Select a name in the <b>Most Recently Selected</b> list box and click <b>OK</b> to populate the Provider field. Otherwise, click <b>Close</b>.</p>

Figure 11-20: **Provider** search window

3. At the **Date of Act** field, select the date of the act. For a new record, the current date displays. To change click the list to access a calendar where you select another date.
4. At the **Community Where Act Occurred** field, select the community where the act occurred. To change click the list to access the **Community** search/select window where you search for the community name.

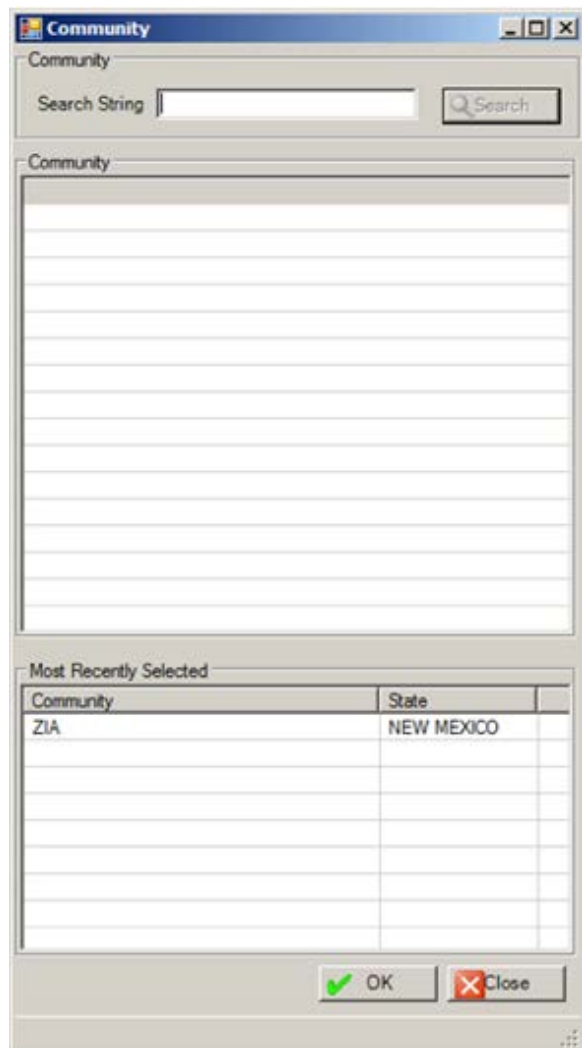

Screen Capture	What to Do
	<p>Use this search window in one of two ways:</p> <p>(1) Use the <b>Search String</b> field by typing the community name and clicking <b>Search</b>. The retrieved names will populate the <b>Community</b> list box. Select a retrieved record and click <b>OK</b> to populate the <b>Community Where Act Occurred</b> field. Otherwise, click <b>Close</b>.</p> <p>(2) Select a name in the <b>Most Recently Selected</b> list box and click <b>OK</b> to populate the <b>Community Where Act Occurred</b> field. Otherwise, click <b>Close</b>.</p>

Figure 11-21: Community search/select window

5. At the **Relationship Status** field, select the patient's relationship status. Use one of the following:
  - **Single**
  - **Married**
  - **Divorced/Separated**
  - **Widowed**
  - **Cohabiting/Common Law**
  - **Same Sex Partnership**
  - **Unknown**

6. At the **Education field**, select the level of education of the patient. Use one of the following:
  - **Less than 12 years**
  - **High School Graduate/GED**
  - **Some College/Technical School**
  - **Collage Graduate**
  - **Post Graduate**
  - **Unknown**
7. At the **Employment Status field**, select the status of the patient's employment. Click the list and select one of the options.
  - **PART TIME**
  - **FULL TIME**
  - **UNEMPLOYED**
  - **RETIRED**
  - **STUDENT**
  - **STUDENT AND EMPLOYED**
  - **UNKNOWN**
8. At the **If less than 12 years, highest grade completed field**, type the highest grade the patient completed (0–11). This field becomes active when you populate the Education field with "Less than 12 years."
9. At the **Suicidal Behavior field**, select the type of suicidal activity. Click the list and select one of the options.
  - **IDEATION W/ PLAN AND INTENT**
  - **ATTEMPT**
  - **COMPLETED SUICIDE**
  - **ATT'D SUCICIE W/ATT'D HOMICIDE**
  - **ATT'D SUICDIE W/COMPL HOMICIDE**
  - **COMPL SUICIDE W/ATT'D HOMICIDE**
  - **COMPL SUICIDE W/COMP'L HOMICIDE**
10. At the **Location of Act field**, select the location of the suicidal act. Click the list and select one of the options.
  - **HOME OR VICINITY**

- SCHOOL
  - WORK
  - JAIL/PRISON/DETENTION
  - TREATMENT FACILITY
  - MEDICAL FACILITY
  - OTHER
  - UNKNOWN
11. At the **Previous Attempts** field, select the previous suicide attempts. Select one of the options available from the list.
- 0
  - 1
  - 2
  - 3 OR MORE
  - UNKNOWN
12. At the **if other** field, type where the suicidal act occurred (limited to 80 characters). This field becomes active if you populate the Location of Act field with 'Other'. This is a Free Text field.
13. At the **Disposition** field, select the disposition of the suicide act. Click the list to access the **Disposition** select window.

Screen Capture	What to Do
	<p>Use this window as follows:</p> <p>(1) Select a Disposition option and click <b>OK</b>; the selected option populates the <b>Disposition</b> field.</p> <p>(2) If <b>Other</b> was selected, the field to the right becomes active. Populate this Free Text field with the disposition of the suicide act (limited to 80 characters).</p>

Figure 11-22: **Disposition** select window

### 11.3.2 Method Tab

Use the **Method** tab to indicate the method used in the suicide act as well as indicate the substance used in overdose cases.

Figure 11-23: **Method** tab

### Method Group Box

1. Select one or more check boxes in this group box that describe the method used in the suicide act. At least one is required.
2. Select the **Overdose** check box and the **Substance** multiple select window displays where you can add one or more categories of substances.

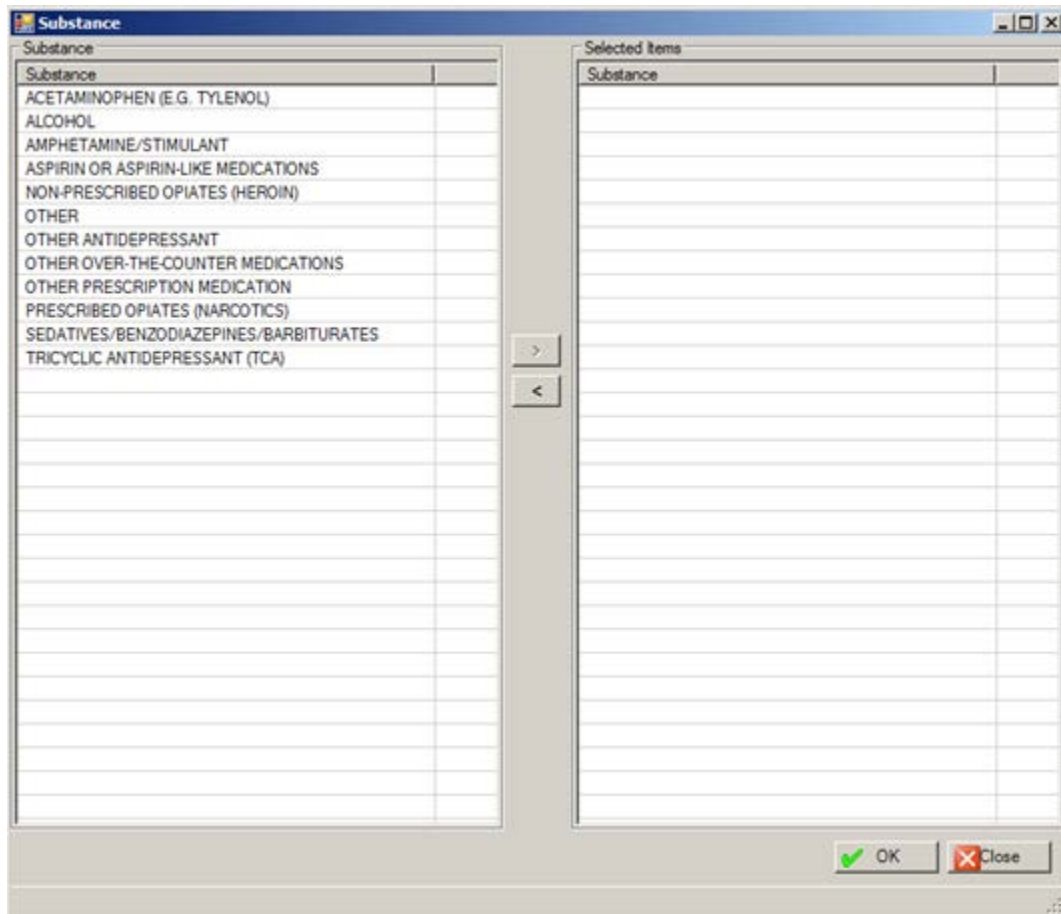

Figure 11-24: **Substance** multiple select window

Use this search window as follows:

- a. Select an option in the **Substance** list box.
  - b. Click the right arrow button to add it to the **Selected Item Substance** list box.
  - c. Likewise, select an option in the **Selected Item Substance** list box and click the left arrow button to remove the option.
  - d. When the **Selected Item** list box is complete, click **OK** and the options populate the **Overdose** group box.
3. When this window is complete, click **OK**. This action adds the substances to **Overdose** group box.

- If you select a substance with **OTHER** in its name and then click **OK**, the **OTHER** dialog displays.

Figure 11-25: **Other** dialog

You must populate the **Other** Free Text field (limited to 80 characters) with a description of the other substance. Click **OK**. The description populates the **Substance If Other** cell on the **Overdose** group box.

4. If you select the **Other** check box, the field below the check box becomes active. Populate this Free Text field with text that describes the method used in the suicide act (limited to 80 characters).
5. If you select the **Overdose** checkbox under **Method**, the **Overdose** group box becomes available. The **Substance** multi-select window displays.

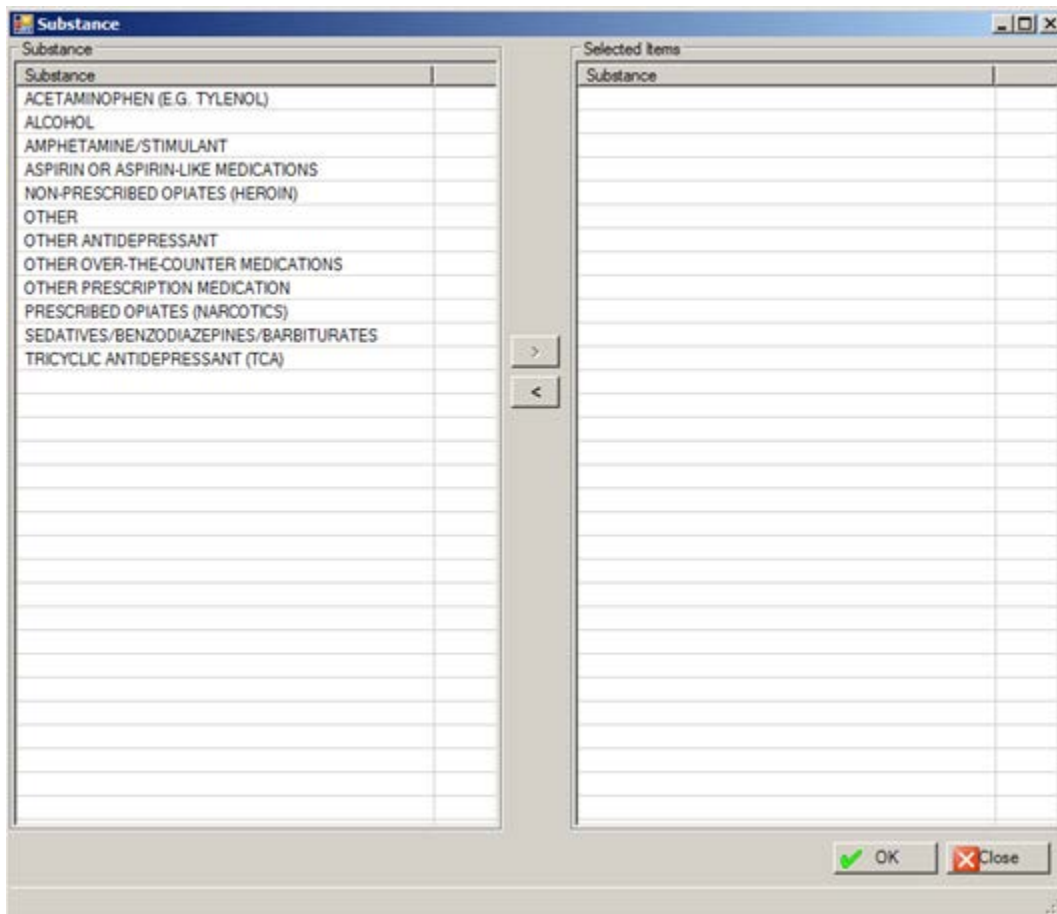

Figure 11-26: **Substance** multi-select window

Use this search window as follows:

- a. Select an option in the **Substance** list box.
- b. Click the right arrow button to add it to the **Selected Item Substance** list box.
- c. Likewise, select an option in the **Selected Item Substance** list box and click the left arrow button to remove it.
- d. When the **Selected Item** list box is complete, click **OK** and the options populate the Overdose list box. (Otherwise, click **Cancel**.)

### Overdose Group Box

This group box contains the categories of substances used in the overdose suicidal act. Once it is populated, the **Add**, **Edit**, and **Delete** buttons become active.

You can add, edit, or delete overdose substances.

### Delete Button

1. Select a substance to delete.
2. Click **Delete**.
3. At the “Are you sure” confirmation message, click **Yes** to delete. (Otherwise, click **No**.)

### Edit Button

1. Highlight the record with data in the “Substance if Other” column.
2. Click **Edit**.
3. The **Other Antidepressant** dialog displays.

Figure 11-27: **Other Antidepressant** dialog

- a. Change the antidepressant substance in the field.
- b. Click **OK** to change the record.
4. The application displays the current “Substance If Other” data in the **Other** field. You can change the data, as needed. Click **OK** to dismiss the **Other** dialog.

### Add Button

1. Click **Add**.

2. The **Substance** multiple select window where you can add one or more substances.

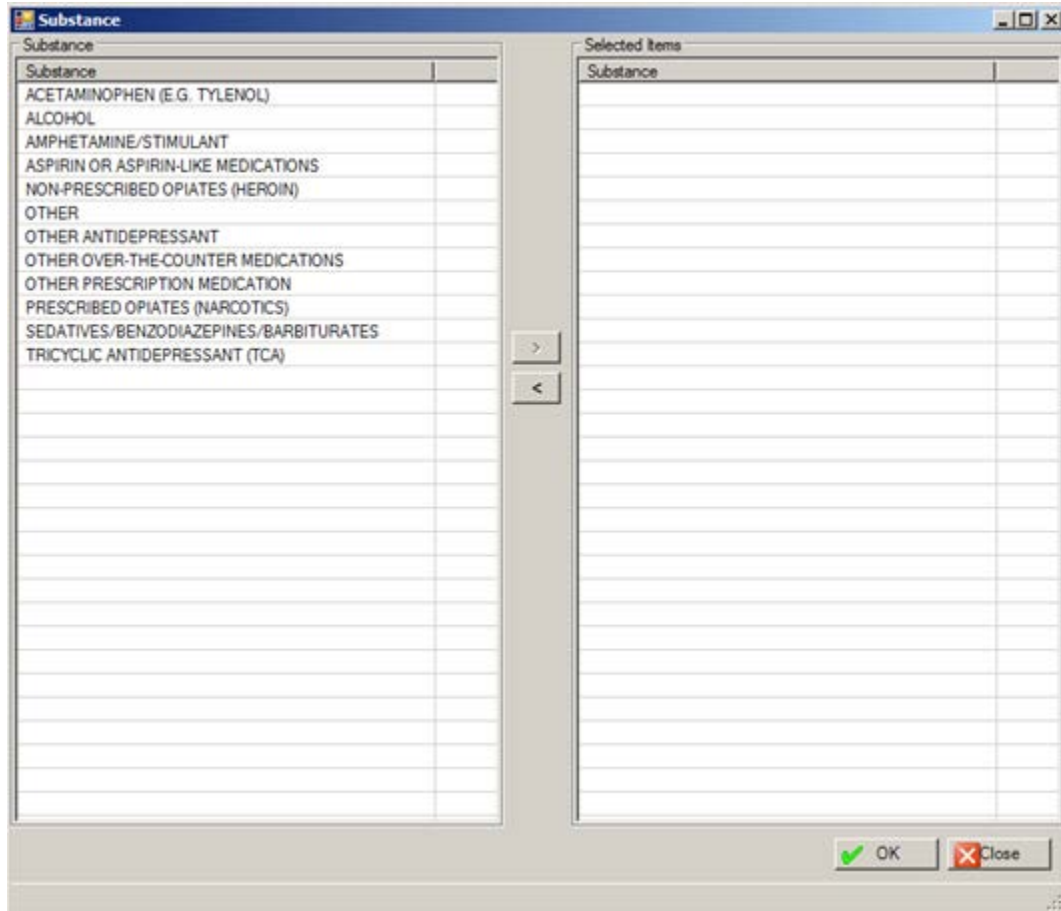

Figure 11-28: **Substance** multi-select window

Use this search window as follows:

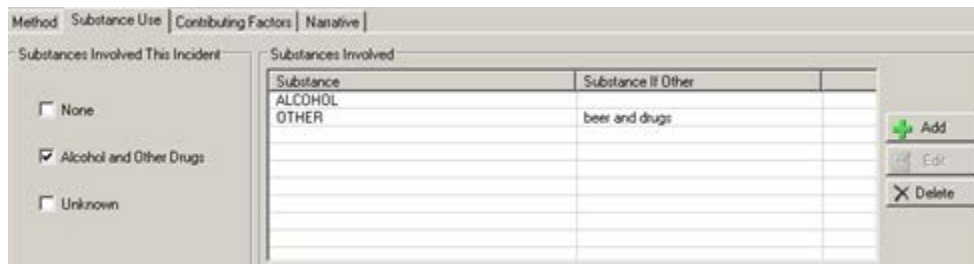

- a. Select one or more substances in the **Substance** list box.
  - b. Click the right-point arrow to add them to the **Selected Item Substance** list box.
  - c. Likewise, select a substance in the **Selected Item Substance** list box and click the left-point arrow to remove the substance.
  - d. When the **Selected Item Substance** list box is complete, click **OK** and the substances populate the **Overdose** group box. (Otherwise, click **Close**.)
3. If you select a substance with **Other** in the title on the **Substance** multiple select window, the application displays the **Other** dialog.

Figure 11-29: **Other** dialog

- a. Type the substance used in the overdose (limited to 80 characters). This is a Free Text field.
- b. Click **OK** to populate the substance used in the **Substance If Other** column on the grid.

### 11.3.3 Substance Use Tab

Use the **Substance Use** tab to indicate the substances involved in the suicide incident as well as the categories of the substances involved.

Figure 11-30: **Substance Use** tab

#### Substances Involved This Incident Group Box

1. Select one of the checkboxes in this group box that describes the substance used in the suicide act. At least one is required.

Figure 11-31: **Substances Involved This Incident** group box

2. If you select the **Alcohol and Other Drugs** checkbox, the application displays the **Substance** multiple select window where you can add one or more substances.

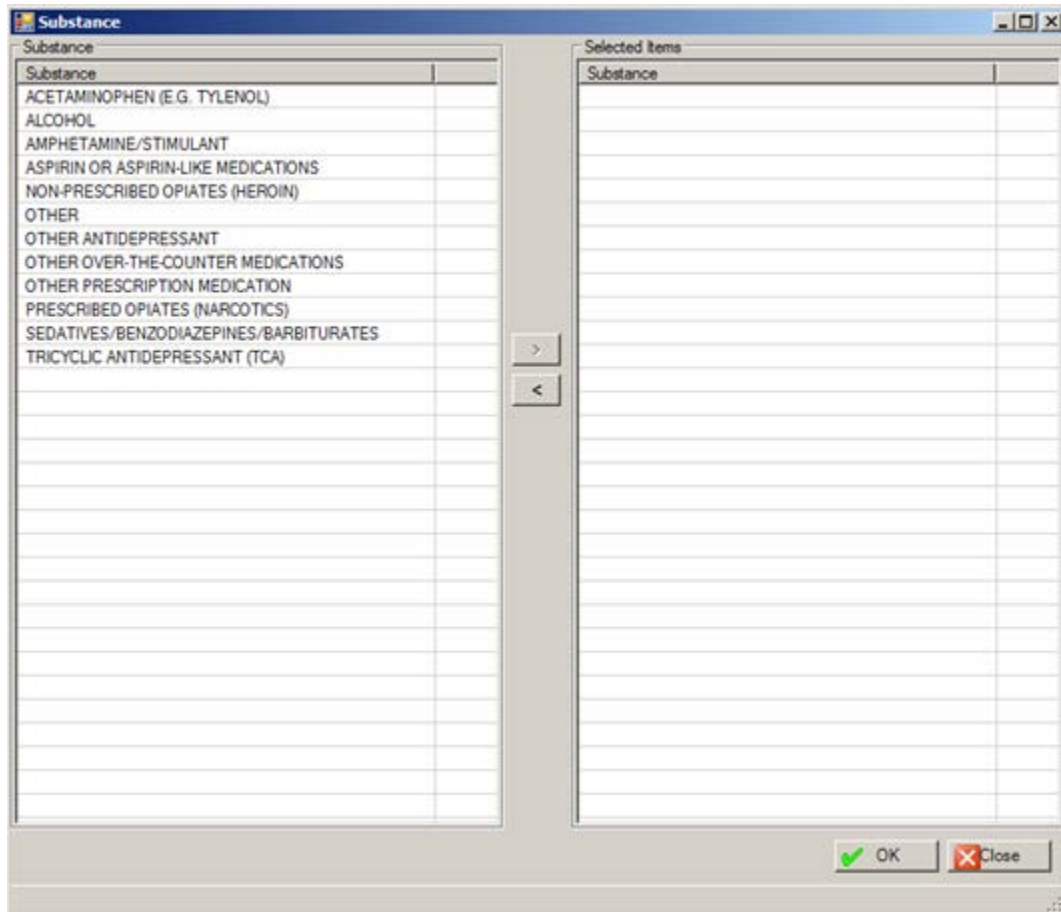

Figure 11-32: **Substance** multi-select window

Use this search window as follows:

- a. Select one or more substances in the **Substance** list box.
  - b. Click the right arrow button to add them to the **Selected Item Substance** list box.
  - c. Likewise, select a substance in the **Selected Item Substance** list box and click the left arrow button to remove the substance.
  - d. When the **Selected Item Substance** list box is complete, click **OK** and the substances populate the **Overdose** group box. (Otherwise, click **Close**.)
3. If you select the **Other** option (on the **Substance** multiple select window), the application displays the **Other** dialog.

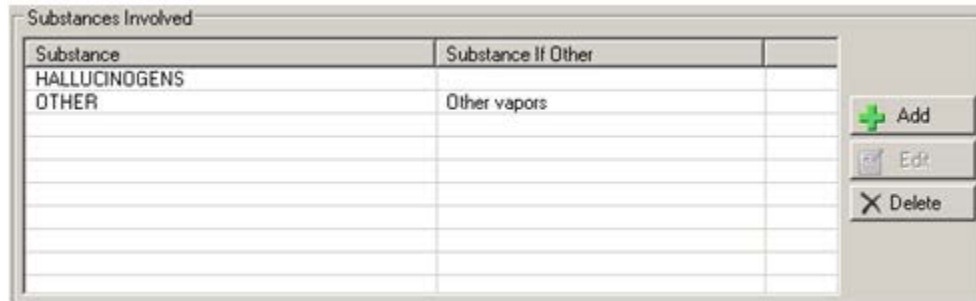

Figure 11-33: **Other** dialog

- a. Type the name of the “other substance” in the field (limited to 80 characters).
- b. When this dialog is complete, click **OK** to have the substance populate the Substances Involved list box. What appears in the **Other** field will populate **Substance If Other** column.

If you uncheck the **Alcohol and Other Drugs** checkbox, this action clears any data in the **Substances Involved** list box.

### 11.3.3.1 Substances Involved Group Box

Substance	Substance If Other
HALLUCINOGENS	
OTHER	Other vapors

Figure 11-34: **Substances Involved** group box

This group box contains the substances used immediately before or during the suicidal act. Once the **Alcohol and Other Drugs** checkbox is selected, the Add, Edit, and Delete buttons become active.

#### Add Button

Use the **Add** button to add one or more new records.

1. Click **Add**.
2. The **Substance** multiple select window where you can add one or more substances.

Figure 11-35: **Substance** multi-select window

Use this search window as follows:

- a. Select one or more substances in the **Substance** list box.
  - b. Click the right arrow button to add them to the **Selected Item Substance** list box.
  - c. Likewise, select a substance in the **Selected Item Substance** list box and click the left arrow button to remove the substance.
  - d. When the **Selected Item Substance** list box is complete, click **OK** and the substances populate the **Substances Involved** group box. (Otherwise, click **Close**.)
3. If you selected **Other** on the multiple select window, the application displays the **Other** dialog.

Figure 11-36: **Other** dialog

- a. Type the name of the “other substance” in the field (limited to 80 characters).
- b. When this dialog is complete, click **OK** to have the substance populate the **Substances Involved** list box. What appears in the **Other** field will populate **Substance If Other** column.

### Edit Button

Use the **Edit** button with **OTHER** records (Substance If **Other** column is populated).

1. Highlight the record to edit.
2. Click **Edit**.
3. The **Other** dialog displays. Change the **Other** field and then click **OK** (otherwise, click **Close**). The **OK** function changes the data in the **Substance If Other** column.

### Delete Button

Use the **Delete** button to remove a highlighted substance record.

1. Highlight the record to delete.
2. Click **Delete**.

On the **Are You Sure** confirmation, click **Yes** to delete the highlighted substance record. (Otherwise, click **No**.)

## 11.3.4 Contributing Factors Tab

Use the **Contributing Factors** tab to indicate one or more contributing factors associated with the suicide act.

Figure 11-37: **Contributing Factors** tab

1. Select one or more check boxes that define the contributing factors to the suicide act. At least one is required.
2. If you select the **Other** checkbox, the field below the checkbox becomes active. Use this Free Text field to describe the “other” contributing factor (limited to 80 characters).

### 11.3.5 Narrative Tab

Use the **Narrative** tab to populate the **Other Relevant Information** Free Text field. (This is not a required field.)

A screenshot of a software interface showing a rectangular text input field. The field is empty and has a thin border. The text "Other Relevant Information" is visible in the top-left corner of the field's header area.

Figure 11-38: **Other Relevant Information** field

Populate this field with data that is not included elsewhere. This is **not** where you put the SOAP or progress note.

## 12.0 Intake

This section addresses how to manage intake/update documents in roll and scroll and the GUI.

### 12.1 Intake Document (Roll and Scroll)

One place you can add/change/remove an intake document the Intake Document (ID) option on the **Patient Data Entry** window.

```

PATIENT DATA ENTRY           Mar 11, 2009 17:15:55           Page:    1 of    1
Patient: DEMO,DOROTHY ROSE   HRN: 999999
        FEMALE DOB: Oct 10, 1942   AGE: 66 YRS   SSN: XXX-XX-1111
Designated Providers:
Mental Health:                Social Services:
    A/SA:                      Other:
    Other (2):                 Primary Care: SMITH,A

Last Visit (excl no shows): May 29, 2008  BETAAAA,BJ  REGULAR VISIT
        F42.          HOARDING DISORDER

Pending Appointments:
        Select the appropriate action   Q for QUIT
AV Add Visit                LD List Visit Dates           GS GAF Scores
EV Edit Visit               TP Treatment Plan Update     OI Desg Prov/Flag/Pers Hx
DR Display Record          CD Update Case Data          EH Edit EHR Visit

DE Delete Visit            AP Appointments              SN Sign Note
PF Print Encounter Form    HS Health Summary            TN TIU Note Display
LV Last BH Visit           DM Display Meds               MM Send Mail Message
BV Browse Visits           LA Interim Lab Reports        FS Face Sheet
Select Action: Q//      Q
  
```

Figure 12-1: Sample **Patient Data Entry** window

At the “Select Action” prompt, type **ID**. The application asks which Program you are associated. Then the **Updated BH Intake Document** window displays.

The other place to add, change, or remove an intake document is when exiting the visit encounter (display or add/edit) window. After exiting the last screen, the application displays the **OTHER INFORMATION** window.

```

***** OTHER INFORMATION *****

Update, add or append any of the following data

1). Update any of the following information:
    Designated Providers, Patient Flag
2). Patient Case Open/Admit/Closed Data
3). Personal History Information
4). Appointments (Scheduling System)
5). Treatment Plan Update
6). Print an Encounter Form
  
```

```

7). Add/Update/Print Intake Document
8). Add/Update Suicide Forms
9). Problem List Update
10) None of the Above (Quit)
Choose one of the above: (1-10): 7//

```

Figure 12-2: Options on the Other Information menu

Use option 7 (Add/Update/Print Intake Document) to access the Update BH Intake Document for the selected visit. You will be prompted for a Program. After specifying the program, the Update BH Intake Document for the current patient displays.

```

Update BH Intake Document      Jan 26, 2010 13:27:36      Page: 1 of 1
MENTAL HEALTH INTAKE DOCUMENTS      *unsigned document

U   Add/Edit Update           Q   Quit
Select Action: Q//

```

Figure 12-3: Sample Update BH Intake Document window

Use the Q (quit) option to exit the **Update BH Intake Document** window.

The asterisk (\*) in the first column indicates that the record contains an unsigned intake/update document.

Please note the following information about intake and update documents on the **Update BH Intake Document** window:

- The intake documents are listed on the left side (under the Date Initiated, Program, and Initial Provider columns).
- The update documents are listed on the right side (under the Date Updated and Update Provider columns).

### 12.1.1 Add Initial Intake (I)

Use option I to create an initial intake document for the visit.

1. At the “Select Action” prompt, type **I**.

The application displays a message that it is adding the Intake document for the patient.

2. At the “Do you wish to continue and add the Initial Intake document?” prompt, type **Y** to add the Intake document (otherwise, type **N**)

If Y was used, the prompts continue.

3. At the “DATE” prompt, press Enter to use the default date which is the current date (you can change). This cannot be a future date.
4. At the “PROGRAM” prompt, press Enter to accept the default (Mental Health). Otherwise, type the program to use.
5. At the “PROVIDER” prompt, press Enter to accept the default provider (you can change).
6. At the “DATE LAST UPDATED” prompt, press Enter to use the default which is the current date (you can change). This cannot be future date.
7. At the “NARRATIVE - No Existing Text - Edit?” prompt, type Y to edit the narrative or N to not edit the narrative.

If N was used, the application creates the Intake document. You must enter the Intake narrative before you can electronically sign the intake document. The application then prompts if you want to enter an Intake Narrative (**Y** or **N**). If N was used, the focus returns to the **Update BH Intake Document** window.

If Y was used, the focus moves to another window to enter the text of the narrative.

```

==[ WRAP ]==[ INSERT ]=====< SUBJECTIVE/OBJECTIVE >===== [ <PF1>H=Help ]====
<=====T=====T=====T=====T=====T=====T=====T=====T=====T=====T>=====

```

Figure 12-4: Screen to enter text

Table 12-1 lists the most commonly used RPMS text editor commands.

Table 12-1: Common RPMS text editor commands

Action Needed	Use These Keys
Delete a line (extra blank or text)	PF1(F1) followed by D
Join two lines (broken or too short)	PF1(F1) followed by J
Save without exiting	PF1(F1) followed by S
Exit and save	PF1(F1) followed by E
Quit without saving	PF1(F1) followed by Q
Top of text	PF1(F1) followed by T

After you save and exit, the prompts continue.

8. At the “Enter your Current Signature Code” prompt, do one of the following:
  - Type your electronic signature to sign the document. This action marks the document as signed. You cannot edit it.
  - Press Enter to not sign the document. The document is marked as not signed. You can edit it.

### 12.1.2 Edit Initial Intake (E)

Use option E to change the selected initial intake document.

- Only the original intake provider or the person who entered the intake document can edit the document; other providers can only view or print the document.
  - Editing an initial intake that was created before the installation of BHS v4.0 will result in a prompt to enter the program associated with the intake.
1. At the “Select Action” prompt, type **E**.
  2. At the “CHOOSE” prompt, type 1 (Edit Initial Intake Document) or 2 (Quit). If 2 was used, the focus returns to the Update BH Intake Document. If 1 was used, the prompts continue.
  3. At the “Select Intake” prompt, type the number of the intake document to edit.
    - If the specified intake document has been signed, you cannot edit it.
    - If you are not the original author or the person who entered this document, you cannot edit it.
  4. At the “DATE” prompt, press Enter to use the default (the current date). Otherwise, you can type another date (cannot be a future date).

5. At the “PROGRAM” prompt, type the program associated with the intake displays.
6. At the “PROVIDER” prompt, type the author of the initial intake document.
7. At the “DATE LAST UPDATED” prompt, press Enter to use the default (the current date). Otherwise, type a new date (cannot be a future date).
8. At the “NARRATIVE - No Existing Text - Edit?” prompt, type Y (yes) to edit the narrative or N (no) to not edit the narrative.

In order to edit the narrative, you must be the original provider or the person who entered or modified the document.

If N was used (for step 8), the application displays that the Intake document was created and that an intake narrative must be entered before an electronic signature can be applied. Then the application asks if you want to enter an Intake Narrative (Y or N). If Y was used, the focus returns to the “Narrative” prompt (as above). If N was used, the focus returns to the **Update BH Intake Document** window.

If Y was used (for step 8), the focus moves to another window where you enter the text of the narrative.

```

==[ WRAP ]==[ INSERT ]===== < SUBJECTIVE/OBJECTIVE >===== [ <PF1>H=Help ]====

```

<=====T=====T=====T=====T=====T=====T=====T=====T=====T>=====

Figure 12-5: Screen to enter text

See Table 12-1 for commonly used RPMS text editor commands.

After you save and exit this window, the prompts continue:

9. At the “Enter your Current Signature Code” prompt, do one of the following:

- Type your electronic signature to sign the document. This action marks the document as signed. You cannot edit it.
- Press Enter to not sign the document. The document is marked as not signed. You can edit it.

### 12.1.3 Add/Edit Update (U)

Use option U to create a new update to a particular intake document or edit an existing, unsigned one where you are the provider.

- Only the person who originally entered the Intake document or the Intake document Provider can edit the document
  - Other providers can only view or print the document.
1. At the “Select Action” prompt, type **U**.
  2. At the “Select Intake” prompt, type the number of intake document to use.

The following message displays:

```
You can either add a new Update to this Intake document or edit an
existing, unsigned one on which you are the provider. Please select an Update
to edit or choose 1 to add a new one or 0 to quit.

    0   Quit/Exit Update
    1   Add new Update document
Select Action:  (0-1): 0//
```

Figure 12-6: Message from the application

3. At the “Select Action” prompt, you can either add a new update to this intake document, quit/exit the update process, or use the option to edit the Update.
  - If the Quit option was used, you leave the add/edit process.
  - If the Add New Update document option was used, the prompts continue. The application displays a message that it is adding the Intake Update document for the patient.
4. At the “Do you wish to continue on to add the Intake Update?” prompt, type **Y** (yes) or **N** (no). If Y was used, the prompts continue.
5. At the “DATE” prompt, press Enter to use the default (current date). Otherwise, type a new date (cannot be a future date).
6. At the “PROVIDER” prompt, Press Enter to use the default provider. Otherwise, type the name of the provider for the update document.
7. At the “DATE LAST UPDATED” prompt, press Enter to use the default (current date). Otherwise, type a new date (cannot be a future date).

8. At the “NARRATIVE” prompt, the application displays the text of the narrative or displays “no existing text” if there is none.
9. At the “Edit?” prompt, type **Y** (yes) to edit the text of the narrative or **N** (no) to not edit the narrative.
  - a. If **N** was used, the application creates the Intake Update document and displays the message that the narrative must be entered before an Electronic Signature must be applied. At the “Do you wish to enter an Intake Narrative?” prompt, type **Y** (yes) or **N** (no).
  - b. If **Y** was used, the focus moves to another window where you enter the text of the narrative.

Figure 12-7: Screen to enter text

See Table 12-1 for commonly used RPMS text editor commands.

After you save and leave this window, the application displays the next prompt.

10. At the “Enter your Current Signature Code” prompt, do one of the following:

- Type your electronic signature to sign the document.
- Press Enter to not sign the document

If you press Enter, you can either add a new update to this intake document or edit an existing, unsigned one on which you are the Provider or the person who entered the Intake Document. The application displays the next prompt:

11. At the “Select Action” prompt, do one of the following:

```

1 Date Updated: MM/DD/YY   Provider: <provider name>
2 Add new Update document

```

Figure 12-8: Prompts for the actions to take

If 0 was used, the focus returns to the **Update BH Intake Document** window.

If 2 was used, this action has the same prompts as Add/Edit Update (Section 12.1.3 provides more information).

If 1 was used, the following prompts display:

- a. At the “Date Updated” prompt, type the date the document was updated.
- b. At the “Provider” prompt, type the name of the provider who updated the document.

Delete Intake/Update (D)

Use option D to do one of the following:

- Delete Intake/Update
- Display/Print Intake/Update

#### 12.1.4 Delete Intake/Update

You can delete only unsigned Intake documents you entered or on which you are the provider, unless you possess a special key or are listed on the Delete Override list.

12. At the “Select Intake” prompt, type the number of the Initial Intake to delete, or the Initial Intake with the Update to delete.

The application gives you the following choices:

```

0 Quit/Exit
1 Date MM/DD/YY   Provider: <provider name>

```

Figure 12-9: Actions to take

If 0 was used, the focus returns to the Update BH Intake Document window.

If 1 was used, the application displays information about the intake document, including its narrative. Then the next prompt displays:

13. At the “Are you sure you want to delete this Initial Intake document?” prompt, type Y (yes) or N (no).

If there are multiple documents you want to delete, the application repeats the process.

### Display/Print Intake/Update

This action is the same as using option P on the **Update BH Intake Document** window. Section 12.1.5 provides more information about the print process.

### 12.1.5 Print Intake Document

Use option P to print/browse a particular intake document.

1. At the “Select Action” prompt, type **P**.
2. At the “Select Intake” prompt, type the number of the document to display/print.
3. At the “What would you like to print” prompt, type **I** (Intake document only), **U** (Update document only), **B** (both the Intake and Update documents), or **Q** (quit/exit).
  - a. If Q was used, the focus returns to the previous window.
  - b. If U was used, another menu is displayed listing each of the updates and an option to print all updates or quit.
  - c. If B was used, the application will display a list of options. At the “Which Updates would you like to Print” prompt, type the number of the option to use.
4. At the “Do you wish to” prompt, type P to print output on paper or B browse output on screen.

Below is sample Intake only report.

```

## 12.2 Intake (GUI)

There are two ways to work with the Patient Intake documents in the GUI:

Method 1: Use the Intake option on the GUI tree structure.

Method 2: Use the Intake tab on the Add/Edit Visit Data Entry window.

Either method accesses the same Intake window.

The following provides information about using the Intake option on the GUI tree structure.

The Intake option applies to the current patient. After selecting the Intake option, the **Select Program** dialog displays.

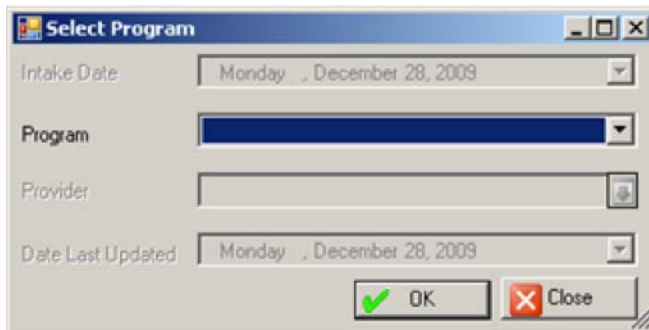

Figure 12-11: Select Program dialog

1. At the **Program** field, click the list for the **Program** field and select an option.
2. Click **OK** (otherwise click **Close**).

The **OK** process displays the Intake window listing the intake documents for the particular program for the current patient. The current patient's name appears in the lower left corner of the window.

**Note:** The following window is the window that displays when you click the Intake tab on the **Add/Edit Visit Data Entry** window.

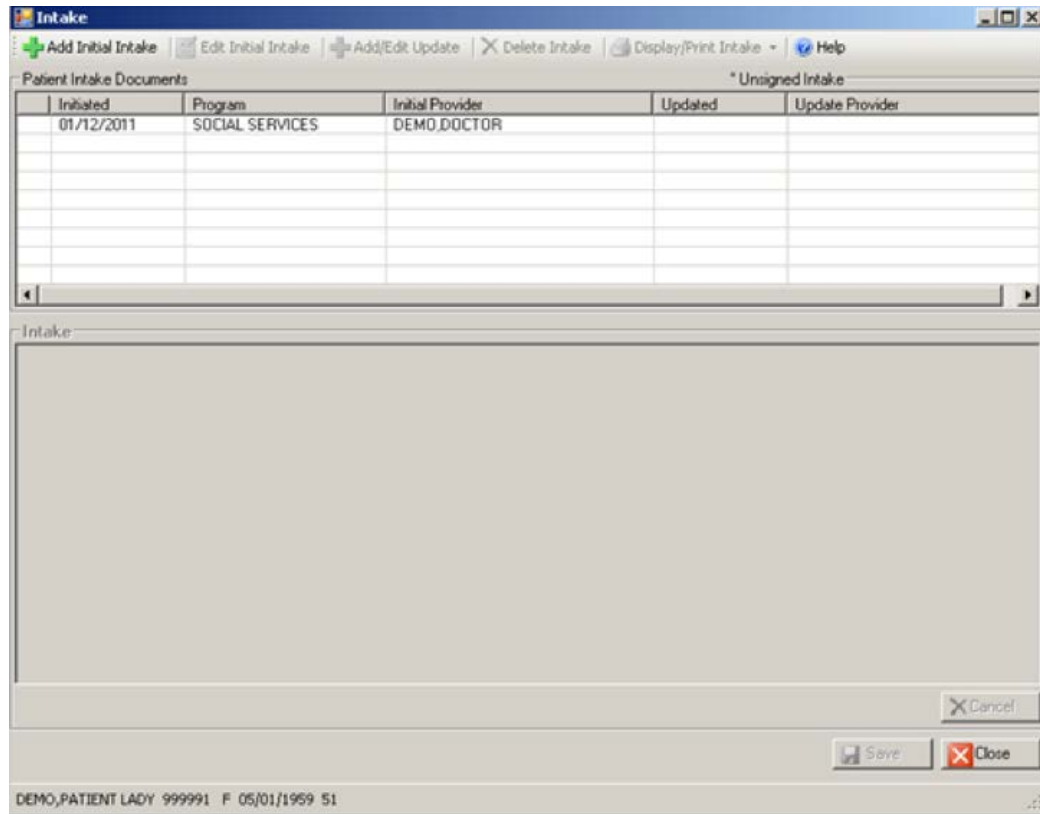

Figure 12-12: Intake window

The asterisk (\*) in the first column indicates that the particular record contains an unsigned intake/update document.

Use the **Help** button to access the online help for this window.

### 12.2.1 Patient Intake Documents List Box

Initiated	Program	Initial Provider	Updated	Update Provider
* 01/14/2010	MENTAL HEALTH	DEMO.DOCTOR		
*			01/14/2010	DEMO.DOCTOR
		DEMO.DOCTOR	01/28/2010	DEMO.DOCTOR

Figure 12-13: Patient Intake Documents list box

The Patient Intake Documents list box displays the names of the current patient's intake documents and update documents (view only). You can distinguish the documents in the following manner:

- The intake documents are listed on the left side of the grid (under the **Date Initiated**, **Program**, and **Initial Provider** columns).

- The update documents are listed on the right side of the grid (under the **Date Updated** and **Update Provider** columns).

As you highlight a record in the **Patient Intake Documents** list box, the text of the document displays in the **Intake** group box.

All initial documents and updates created before the BHS v4.0 installation will remain unsigned and editable. The initial provider associated with the intake will be the provider for the intake document. Any edits or updates completed after the installation date will be subject to all business rules added in BHS v4.0.

## 12.2.2 Add Initial Intake

Use the **Add Initial Intake** button to add a new initial intake document.

1. Click **Add Initial Intake** to access the **Select Intake Parameters** dialog.

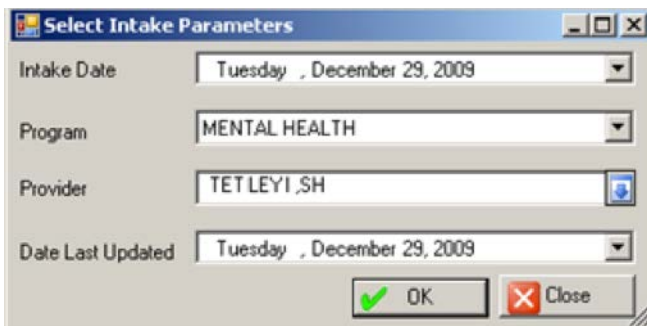

Figure 12-14: Select Intake Parameters dialog

2. At the Intake Date field, the current date displays. Change this by clicking the list and selecting another date from the calendar (cannot be a future date).
3. At the Program field, the default program displays (the one selected when you first accessed the Intake menu). You can change this by clicking the list and selecting another option.

**Note:** If you change the Program, it will not be visible when you return to the list view. You have to back out of the Program selection screen again and select the Program associated with the document you just entered. We encourage you to NOT change the program. It is actually more efficient to back out and enter the correct program initially.

4. At the Provider field, the current login provider name displays. You can change this by clicking the list to access the **Primary Provider** search/select window.

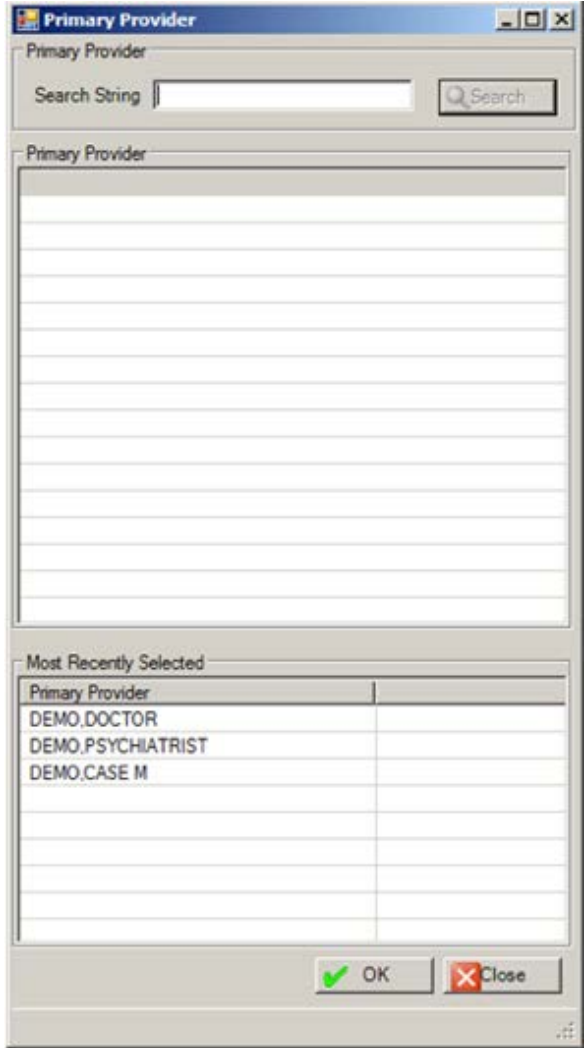

Screen Capture	What to Do
	<p>Use this window in one of two ways:</p> <ol style="list-style-type: none"> <li>1 Use the <b>Search String</b> field by typing the Provider's last name and clicking <b>Search</b>. The retrieved names will populate the <b>Primary Provider</b> list box. Select a name and click <b>OK</b> to populate the <b>Provider</b> field. Otherwise, click <b>Close</b>.</li> <li>2 Select a name in the <b>Most Recently Selected</b> list box and click <b>OK</b> to populate the <b>Primary Provider</b> field. Otherwise, click <b>Close</b>.</li> </ol>

Figure 12-15: Primary Provider search/select window

5. At the **Date Last Updated** field, the current date displays. Change this by clicking the own list and selecting another date from the calendar (cannot be a future date).

After completing the **Select Intake Parameters** dialog, click **OK** (otherwise, click **Close**). The **OK** function activates the Intake group box. Section 12.2.3 provides more information about this group box.

### 12.2.3 Intake Group Box

Figure 12-16: Sample of active Intake group box

When the **Intake** group box is active, use it to type the text of the document (intake or update). This text is the narrative for the document.

To exit the **Intake** group box, click **Cancel** to cause the Intake group box to become inactive.

After you have completed the **Intake** group box, click **Save** (otherwise click **Close**).

- If Close was used, the **Continue?** message displays: Unsaved Data Will Be Lost, Continue? Click **Yes** to lose any data and the focus returns to the GUI tree structure. Click **No** and the focus returns to the Intake group box.
- If Save was used, the **Intake Electronic Signature** dialog displays. The Save process requires that there is intake narrative.

Figure 12-17: Intake Electronic Signature dialog

To sign the particular document, do the following:

- a. At the **Electronic Signature** field, type your electronic signature.
- b. Click **OK**. This saves the document and marks it as signed. Signing a document locks the document from any future edits.

To **not** sign the particular document, do the following:

- c. At the **Electronic Signature** field, do not type your electronic signature.
- d. Click **Close**.

- e. Click **Yes** or **No** at the **Are You Sure?** dialog display, which states: “Are you sure you want to Close without Electronically Signing the Intake?”.
  - Click **Yes** to not sign it and to save the document marked as not signed. The application displays the Message: “You did not Electronically Sign the Intake.” Click **OK** to dismiss the message. This type of document can be edited.

Click **No** and the focus returns to the **Intake Electronic Signature** dialog.

## 12.2.4 Edit Initial Intake

Select an existing initial intake document and click the **Edit Initial Intake** button to edit the initial intake document.

- If the selected document has been signed, the application displays the Message: This Initial Intake document has been signed. You cannot edit it. Click **OK** to dismiss the message and you exit the edit process.
- Only the provider or the person who entered the intake can edit it; otherwise, the application displays the Message: You are not the provider or the person who entered the Intake, you cannot edit it. Click **OK** to dismiss the message and you exit the edit process.

If you are the provider or the person who entered the intake, the application displays the **Select Intake Parameters** dialog. Section 12.2.2 provides more information the add initial intake process. After completing this dialog, the text of the initial intake document will display in the Intake area of the Intake window. Section 12.2.3 provides more information about the intake group box.

## 12.2.5 Add/Edit Update

This button has two different labels, depending on the action you take.

**Note:** If you select a signed Update document, the button reads **Edit Update**. After you click the **Edit Update** button, the application displays the message: This Intake Update document has been signed. You cannot edit it. Click **OK** to dismiss the message and exit the edit process.

After the Provider locks the document using the electronic signature, it cannot be edited or deleted unless the user possesses the appropriate security key or is listed on the Delete Override Site Parameter.

If you select an Intake document (signed or unsigned), the button reads: **Add Update**.

If you select an unsigned Update document, the button reads: **Edit Update**.

In either case, the application displays the **Select Intake Parameters** dialog. Section 12.2.2 provides more information about Add Initial Intake.

After completing this dialog, the **Intake** group box will become active. Section 12.2.3 provides more information about the **Intake** group box.

### 12.2.6 Delete Intake

Use the **Delete Intake** button to delete a selected unsigned Intake document (in the **Patient Intake Documents** group box).

1. Select an unsigned Intake document to delete.
2. Click **Delete Intake**.
3. On the **Are You Sure** confirmation message, click **Yes** to delete (otherwise, click **No**).
  - Only the intake Provider or the person who entered the selected intake can use the Delete function. However, when a person is listed in the Delete Override section on the Site Parameters menu (in RPMS), that person can delete the document.

If the selected Intake document has an attached update document, the application displays the message: This intake document has updates associated with it. It cannot be deleted at this time. Click **OK** and you exit the Delete process.

### 12.2.7 Display/Print Intake

Use the **Display/ Print Intake** button to access the options for the display/print process.

Figure 12-18: Options on the **Display/Print Intake** button

1. Highlight an Intake record and select one of options (only the valid options will be highlighted).

If you select **Update Document Only** or **Both the Intake and Update Documents**, the application displays the **Intake Updates** dialog.

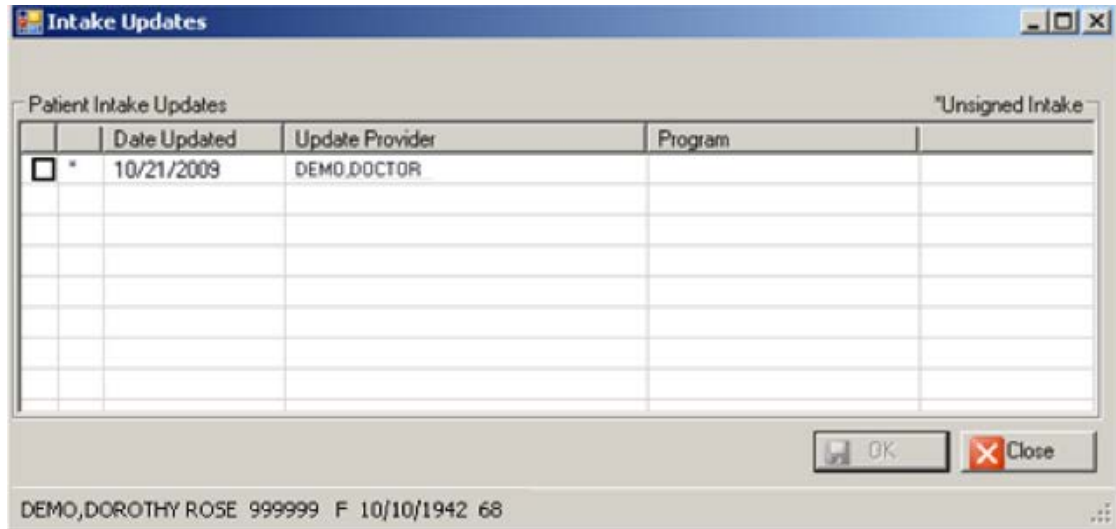

Figure 12-19: **Intake Updates** dialog

Check the records you want to include in the output and click **OK** (otherwise, click **Close**).

The first page of the **Intake** (for the current patient) pop-up displays.

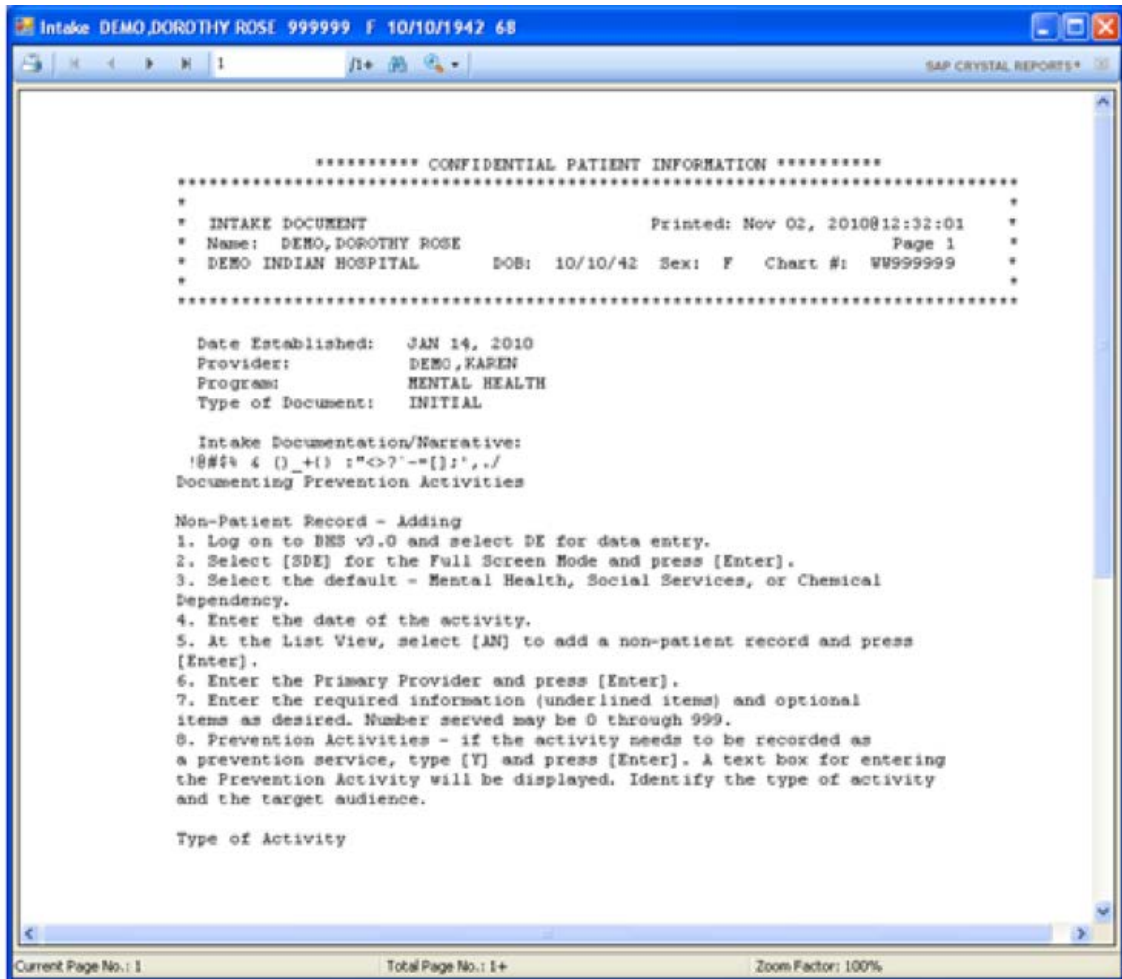

Figure 12-20: Intake pop-up window

Section 2.6 provides more information about using the controls on this type of window.

## 13.0 Reports (Roll and Scroll Only)

The **Reports** menu of the Behavioral Health system provides numerous options for retrieving data from the patient file. You can obtain specific patient information and tabulations of records and visits from the database. The system provides options for predefined reports and custom reports.

The **Reports** menu (Figure 13-1) contains several different submenus that categorize the reports by type. The first four submenus contain report options specific to the Behavioral Health System. Use the last submenu to print standard tables applicable to this package. Each of these submenus and their report options are detailed in the following sections.

```

*****
**      IHS Behavioral Health System      **
**                      Reports          **
*****
                          Version 4.0 (Patch 8)

                          DEMO INDIAN HOSPITAL

PAT  Patient Listings ...
REC  Behavioral Health Record/Encounter Reports ...
WL   Workload/Activity Reports ...
PROB Problem Specific Reports ...
TABL Print Standard Behavioral Health Tables ...

Select Reports Menu Option:

```

Figure 13-1: Options on Report menu

Use this menu for tracking and managing patient, provider, and program statistics.

**Note:** The location screen (UU) and the list of Those Allowed to See All Visits found on the site parameters menu will impact the information displayed in the reports. For example, if your name has not been added to the list of those allowed to see all visits, the report will contain only those visits where you were a provider or completed the data entry.

### 13.1 Patient Listings (PAT)

The **Patient Listings** submenu (Figure 13-2) contains report options for generating lists of patients by various criteria. Also included is the Patient General Retrieval option, that is a custom report that allows you to select which patients to include in the report as well as the items to print and the sort criteria.

ACL Active Client List

PGEN	Patient General Retrieval
DP	Designated Provider List
GRT	Patients with AT LEAST N Visits
AGE	Patients Seen by Age and Sex (132 column print)
CASE	Case Status Reports ...
GAFS	GAF Scores for Multiple Patients
NSDR	Listing of No-Show Visits in a Date Range
PERS	Patient List for Personal Hx Items
PPL	Placements by Site/Patient
PPR	Listing of Patients with Selected Problems
SB	SBIRT Report
SCRN	Screening Reports ...
TPR	Treatment Plans ...
TSG	Patients seen in groups w/Time in Group

Select Patient Listings Option:

Figure 13-2: Options on the Patient Listings reports

### 13.1.1 Active Client List (ACL)

Use the ACL option to review a list of patients who have been seen in a specified date range. You can further filter the report by a particular provider, if needed.

Below are the prompts.

Enter beginning Date

Specify the beginning date of the date range.

Enter ending Date

Specify the ending date of the date range.

**Note:** The date range considered should be one in which the patient should be seen in order to be considered active.

Limit the list to those patients who have seen a particular provider?

Type **Y** (yes) or **N** (no). If you type **Y**, other prompts display.

Demo Patient Inclusion/Exclusion

Use one of the following: **I** (include all patients), **E** (exclude demo patients), **O** (include only demo patients).

Do you wish to

Use **P** (print output) or **B** (browse output on screen).

Browse the output on the **Output Browser** window (Figure 13-3).

Figure 13-3: Sample Output Browser data

Near the end of the report, the application displays the total number of patient.

### 13.1.2 Patient General Retrieval (PGEN)

Use the PGEN option to produce a report that shows a listing of patients based on selected criteria. The patients used on the report can be selected based on any selected print and sort criteria.

Below are the prompts.

Select and Print Patient List from

Use **S** (search template) or **P** (patient file). If you use **S**, other prompts will display.

Do you want to use a PREVIOUSLY DEFINED REPORT?

Use **Y** or **N**. If you use **Y**, other prompts will display.

The application displays the Patient Selection Menu (Figure 13-4).

BH GENERAL RETRIEVAL		Dec 26, 2015 09:10:31		Page: 1 of 1	
Patient Selection Menu					
Patients can be selected based upon any of the following items. Select as many as you wish, in any order or combination. An (*) asterisk indicates items already selected. To bypass screens and select all Patients type Q.

```

```

                                SORT ITEM SELECTION MENU
The Patients displayed can be SORTED by ONLY ONE of the following items.
If you don't select a sort item, the report will be sorted by patient name.

1) Patient Name           7) Community of Residen  13) Designated MH Prov
2) Sex                   8) County of Residence  14) Designated SS Provid
3) Race                  9) Tribe of Membership  15) Designated A/SA Prov
4) Patient DOB          10) Eligibility Status  16) Designated Other Pro
5) Patient DOD          11) Class/Beneficiary   17) Designated Other (2)
6) Patient Chart #      12) Patient Flag Field

                                Enter ?? for more actions
S   Select Item(s)         +   Next Screen           Q   Quit Item Selection
R   Remove Item(s)        -   Previous Screen       E   Exit Report
Select Action: S//

```

Figure 13-6: Sample Sort Item Selection Menu options

Use this menu to determine how the data will be sorted on the report. If you do not select any item (immediately use the Quit Item Selection option), the report will be sorted by patient name.

Do you want a separate page for each Patient Name?

Use Y or N.

Would you like a custom title for this report?

Use Y or N. If you use Y, other prompts will display.

Do you wish to save this search/print/sort logic for future use?

Use Y or N. If you use Y, other prompts will display.

Demo Patient Inclusion/Exclusion

Use one of the following: I (include all patients), E (exclude demo patients), O (include only demo patients).

The application provides a Report Summary that shows the criteria you selected.

Do you wish to

Use P (print output) or B (browse output on screen).

The application first displays the Patient Selection Criteria for the report.

After you move onto the next screen press Enter (to continue), and the application displays the patient listing report (Figure 13-7).

### 13.1.4 Patients with AT LEAST N Visits (GRT)

Use the GRT option to produce a report that shows a list of patients who have been seen at least N number of times in a specified date range.

Below are the prompts.

Enter beginning Date

Specify the beginning date of the date range.

Enter ending Date

Specify the ending date of the date range.

Enter the minimum number of time the patient should have been seen

Use any number between 2 and 100.

Demo Patient/Inclusion/Exclusion

Use one of the following: I (include all patients), E (exclude demo patients), O (include only demo patients).

Do you wish to

Use P (print output) or B (browse output on screen).

The application displays the patients seen at least N times report (Figure 13-9).

### 13.1.5 Patients Seen by Age and Sex (AGE)

Use the AGE option to produce a report that tallies the number of patients, who have had an encounter, by age and sex. You will choose the item you want to tally. For example, you can tally problems treated, or activities by age and sex. Any tally by PROBLEM only includes the PRIMARY PROBLEM. You will be able to define the age groups to be used.

Below are the prompts.

Choose an item to tally by age and sex

Use one of the following:

- 1). Program Type
- 2). POV/Problem (Problem Code)
- 3). Problem/POV (Problem Category)
- 4). Problem/POV
- 5). Location of Service
- 6). Type of Contact of Visit
- 7). Activity Code
- 8). Activity Category
- 9). Community of Service

The item you select will display down the left column of the report. Age groups will be across the top.

Enter beginning Visit Date for Search

Specify the beginning date of the date range.

Enter ending Visit Date for Search

Specify the ending date of the date range.

The application displays the Visit Selection Menu (Figure 13-10).

### 13.1.6 Case Status Reports (CASE)

Use the CASE option to access additional reports on the Case Status Reports menu (Figure 13-12).

```

ACO   Active Client List Using Case Open Date
ONS   Cases Opened But Patient Not Seen in N Days
TCD   Tally Cases Opened/Admitted/Closed
DOC   Duration of Care for Cases Opened and Closed
SENO  Patients Seen x number of times w/no Case Open

Select Case Status Reports Option:

```

Figure 13-12: Options on the Case Status Reports menu

### 13.1.6.1 Active Client List Using Case Open Date (ACO)

Use the ACO option to produce a report that shows a list of patients who have a case open date without a case closed date.

Below are the prompts:

Run the Report for which program

Use one of the following: O (one program) or A (all programs). If you use O, other prompts will display.

Include cases opened by

Use one of the following: A(all provides) or O (one provider). If you use O, other prompts will display.

Demo Patient/Inclusion/Exclusion

Use one of the following: I (include all patients), E (exclude demo patients), O (include only demo patients).

Do you wish to

Use P (print output) or B (browse output on screen).

The application displays the active client list report (Figure 13-13).

ACTIVE CLIENT LIST							
PROVIDER: PROVIDER R							
ENCOUNTER DATES: OCT 1, 2015 TO NOV 24, 2015

### 13.1.6.2 Cases Opened but Patient Not Seen in N Days (ONS)

Use the ONS option to produce a report that shows a list of patients who have a case open date, no closed date, and have not been seen in N days. The user will determine the number of days to use.

Below are the prompts:

Run the Report for which PROGRAM

Use one of the following: O (ONE program) or A (ALL programs). If you use O, other prompts will display.

Include cases opened by

Use one of the following: A (Any provider) or O (One Provider). If you use O, other prompts will display.

Enter the number of days since the patient has been seen

Specify the number of days (1-99999) to be used when determining which patients should be included in the report.

Demo Patient/Inclusion/Exclusion

Use one of the following: I (include all patients), E (exclude demo patients), O (include only demo patients).

Do you wish to

Use P (print output) or B (browse output on screen).

The application displays the Cases Opened but Patient Not Seen in N Days report (Figure 13-14).

### 13.1.6.3 Tally Cases Opened/Admitted/Closed (TCD)

Use the TCD option to produce a report that tallies the case open, admit, and closed dates in a specified time period.

Below are the prompts:

Enter beginning of Time Period

Specify the beginning date of the date range.

Enter ending of Time Period

Specify the ending date of the date range.

Run the Report for which PROGRAM

Use one of the following: O (one program) or A (All programs). If you use O, other prompts will display.

Include cases opened by

Use one of the following: A (Any provider) or O (One providers). If you use O, other prompts will display.

Demo Patient/Inclusion/Exclusion

Use one of the following: I (include all patients), E (exclude demo patients), O (include only demo patients).

Do you wish to

Use P (print output) or B (browse output on screen).

The application displays the Tally of Cases Opened/Admitted/Closed report (Figure 13-15).

ALBUQUERQUE HOSPITAL

End of report. PRESS ENTER:	

Figure 13-15: Tally of Cases Opened/Admitted/Closed report

#### 13.1.6.4 Duration of Care for Cases Opened and Closed (DOC)

Use the DOC option to produce a report that shows a list of all closed cases in a specified date range. In order to be included in this report, the case must have both a case open and a case closed date. The duration of care is calculated by counting the number of days from the case open date to the case closed date. Cases can be selected based on Open date, Closed date, or both. Only those cases falling within the specified time frame will be counted.

Below are the prompts:

Enter Beginning Date

Specify the beginning date of the date range.

Enter Ending Date

Specify the ending date of the date range.

Please Select which Dates should be Used

Use one of the following: O (cases opened in that Date Range), C (cases closed in that Date Range), or B (cases either opened or closed in that Date Range).

Run the Report for which PROGRAM

Use one of the following: O (One program) or A (All programs). If you use O, other prompts will display.

Include cases opened by

Use one of the following: A (Any provider) or O (One provider). If you use O, other prompts will display.

Do you want each Provider on a separate page?

Use Y (for yes) or N (for no).

Demo Patient/Inclusion/Exclusion

Use one of the following: I (include all patients), E (exclude demo patients), O (include only demo patients).

Do you wish to

Use P (print output) or B (browse output on screen).

The application displays the Duration of Care report (Figure 13-16).

```

Figure 13-16 Figure 13 16: Sample Duration of Care report

At the end of the report, the application provides the total number of cases for the provider and the average duration of care.

### 13.1.6.5 Patient Seen X Number of Times with No Case Open (SENO)

Use the SENO option to produce a report that shows a list of patients, in a specified date range, who have been seen a certain number of times but do not have open cases. The user, based on the program's standards of care, specifies when a case is to be opened. For example, a case will be opened if a patient has been seen at least three times.

Below are the prompts:

Enter Beginning Visit Date

Specify the beginning date of the date range.

Enter Ending Visit Date

Specify the ending date of the date range.

Run Report for which PROGRAM

Use one of the following: M (Mental Health), S (Social Services), O (Other), or C (Chemical Dependency).

Include visits to

Use one of the following: A (All providers) or O (One provider). If you use O, other prompts will display.

Enter number of visits

Specify the number of visits with no case opened.

**Demo Patient/Inclusion/Exclusion**

Use one of the following: I (include all patients), E (exclude demo patients), O (include only demo patients).

Do you wish to

Use P (print output) or B (browse output on screen).

The application displays the Patients Seen at least N times with no Case Open Date report (Figure 13-17).

PATIENTS SEEN AT LEAST 3 TIMES WITH NO CASE OPEN DATE								
VISIT DATE RANGE: Oct 01, 2015 to Jan 01, 2016

### 13.1.7 GAF Scores for Multiple Patients (GAFS)

Use the GAFS option to produce a report that lists the GAF scores for multiple patients, sorted by patient. Only visits with GAF scores recorded will display on this list.

Below are the prompts.

Enter Beginning Date of Visit

Specify the beginning date of the date range.

Enter Ending Date of Visit

Specify the ending date of the date range.

List visits/GAF Scores for which program

Use one of the following: O (one program) or A (all programs). If you use O, other prompts will display.

**Include visits to**

Use one of the following: A (all providers) or O (one provider). If you use O, other prompts will display.

**Demo Patient/Inclusion/Exclusion**

Use one of the following: I (include all patients), E (exclude demo patients), O (include only demo patients).

**Do you wish to**

Use P (print output) or B (browse output on screen).

The application displays the GAF Scores for Multiple Patients report (Figure 13-18).

PATIENT NAME	HRN	Date	GAF TYPE	Provider	PG	Diagnosis/POV

### 13.1.8 Listing of No-Show Visits in a Date Range (NSDR)

Use the NSDR option to print a list of visits with POVs related to No Shows and Cancellations for multiple patients. The user will specify the date range, program, and provider.

Below are the prompts.

Enter Beginning Date

Specify the beginning date of the date range.

Enter Ending Date

Specify the ending date of the date range.

**Run the Report for which PROGRAM**

Use one of the following: O (ONE program) or A (All programs). If you use O, other prompts will display.

**Include visits for**

Use one of the following: A (All providers) or O (One provider). If you use O, other prompts will display.

**How would you like the report sorted**

Use P (patient name) or D (date of visit).

**Demo Patient/Inclusion/Exclusion**

Use one of the following: I (include all patients), E (exclude demo patients), O (include only demo patients).

**Do you wish to**

Use P (print output) or B (browse output on screen).

The application displays the Behavioral Health No Show Appointment Listing report (Figure 13-19).

Near the end of the report, the report shows subtotals by Placement Type, subtotals by Facility Referred, and the Total Number of Placements.

### 13.1.11 Listing of Patients with Selected Problems (PPR)

Use the PPR option to produce a report that lists all patients who have been seen for a particular diagnosis/problem in a specified date range. For example, you can enter all suicide problems codes (39, 40, and 41) and you will get a list of all patients seen for suicide and can then use this report to assist in follow up activities. The report will list the Designated Provider, the Patient Name, the date seen for this problem, and the date last seen.

Below are the prompts.

Which Type

Use one of the following: P (Problem Code and all DSM codes grouped under it), or D (individual problem or DSM codes).

Below are prompts for the P type:

Enter Problem Code

Enter the problem code. The application lists the problem/diagnosis codes that will be included. The next prompt allows you to enter another problem code.

Enter Beginning Visit Date

Specify the beginning date of the date range.

Enter Ending Visit Date

Specify the ending date of the date range.

Demo Patient/Inclusion/Exclusion

Use one of the following: I (include all patients), E (exclude demo patients), O (include only demo patients).

Do you wish to

Use P (print output) or B (browse output on screen).

The application displays the Patients Seen with Selected Diagnosis/Problems report (Figure 13-22).

PATIENT NAME	HRN	DOB	SEX	PROV	DX	DX	DATE SEEN	LAST VIS

### 13.1.12 SBIRT Report (SB)

Use the SB option to produce a report that will tally and optionally list all patients who have had a positive screening result for risky or harmful alcohol use in an Ambulatory Care setting in the time frame specified by the user. These tallies will also be further defined to show if the patient received a Brief Negotiated Interview (BNI), Brief Intervention (BI), and/or Referral to Treatment (RT) within seven days of the positive screen result. Visits from PCC and AMH will be included.

Below are the prompts.

Enter Beginning Date

Specify the beginning date of the date range.

Enter Ending Date

Specify the ending date of the date range.

Include which patients in the list

Use one of the following: F (FEMALES only), M (MALES only), B (Both MALE and FEMALES).

Would you like to restrict the report by Patient age range?

Use Y (yes) or N (no). If you use Y, other prompts will display.

Include patients who were seen by which providers during the report period

Select one of the following: O (One Provider Only), P (Any/All Providers)

Patient Lists

Select one of the following: 1 (Those with a Positive Alcohol Screening), 2 (Those with at least 1 Positive Alcohol Screening with BNI/BI or RT), 3 (Those with all Positive Alcohol Screenings without BNI/BI or RT), 0 (No Lists)

Demo Patient/Inclusion/Exclusion

Use one of the following: I (include all patients), E (exclude demo patients), O (include only demo patients).

Do you wish to

Use P (print output) or B (browse output on screen).

The application displays the SBIRT report (Figure 13-24).

SCREENING, BRIEF INTERVENTION, AND REFERRAL TO TREATMENT (SBIRT)

##### 13.1.13.1.1 Tally/List Patients with IPV/DV Screening (DVP)

This report will tally and optionally list all patients who have had IPV screening (PCC Exam code 34) or a refusal documented in a specified time frame. This report will tally the patients by age, gender, result, provider (either exam provider, if available or primary provider on the visits), clinic, date of screening, designated PCP, MH Provider, SS Provider and A/SA Provider.

## Notes:

- The last screening/refusal for each patient is used. If a patient was screened more than once in the time period, only the latest is used in this report.
- This report will optionally, look at both PCC and the Behavioral Health databases for evidence of screening/refusal

Below are prompts for the DVP report:

Enter Beginning Date for Screening

Enter the beginning date of the date range for the screening.

Enter Ending Date for Screening

Enter the ending date of the date range for the screening.

Which items should be tallied: (0-11)

Select which items you want to tally on this report (Figure 13-27):

0) Do not include any Tallies	6) Date of Screening
1) Result of Screening	7) Primary Provider on Visit
2) Gender	8) Designated MH Provider
3) Age of Patient	9) Designated SS Provider
4) Provider who Screened	10) Designated ASA/CD Provider
5) Clinic	11) Designated Primary Care Provider

Which items should be tallied: (0-11)://

Figure 13-27: List of options from which to tally the report

The response must be a list or range, e.g., 1, 3, 5 or 2-4, 8.

Would you like to include IPV/DV Screenings documented in the PCC clinical database?

Use Y (yes) or N (no).

Would you like to include a list of patients screened?

Use Y (yes) or N (no). If you use Y, the following prompt will display.

How would you like the list to be sorted

Figure 13-28 lists the possibilities.

Select one of the following:	
H	Health Record Number
N	Patient Name
P	Provider who screened
C	Clinic
R	Result of Exam
D	Date Screened
A	Age of Patient at Screening

G	Gender of Patient
T	Terminal Digit HRN
How would you like the list to be sorted: H//	

Figure 13-28: List of options to sort the list

The default is H (Health Record Number).

Display the Patient's Designated Providers on the list?

Use Y (yes) or N (no).

Demo Patient/Inclusion/Exclusion

Use one of the following: I (include all patients), E (exclude demo patients), O (include only demo patients).

DEVICE

Specify the device to output the report.

Figure 13-29 shows a sample report.

Figure 13-29: Sample output of the IPV Screening Patient Tally and Patient Listing report

**13.1.13.1.2 Tally/List IPV/DV Screenings (DVS)**

This report will tally and optionally list all visits on which IPV screening (Exam code 34) or a refusal was documented in a specified time frame. This report will tally the visits by age, gender, result, provider (either exam provider, if available, or primary provider on the visit), and date of screening/refusal.

Notes:

- This report will optionally, look at both the Behavioral Health and PCC clinical databases for evidence of screening/refusal.
- Please enter the date range during which the screening was done. To get all screenings ever put in a long date range like 01/01/1980 to the present date.

Below are prompts for the DVS report:

Enter Beginning Date for Screening

Enter the beginning date of the date range for the screening.

Enter Ending Date for Screening

Enter the ending date of the date range for the screening.

Which items should be tallied: (0-11)

Select which items (Figure 13-30) you want to tally on this report:

0) Do not include any Tallies	6) Date of Screening
1) Result of Screening	7) Primary Provider on Visit
2) Gender	8) Designated MH Provider
3) Age of Patient	9) Designated SS Provider
4) Provider who Screened	10) Designated ASA/CD Provider
5) Clinic	11) Designated Primary Care Provider

Which items should be tallied? (0-11)://

Figure 13-30: List of options from which to tally the report

The response must be a list or range, e.g., 1,3,5 or 2-4,8.

Would you like to include IPV/DV Screenings documented in the PCC clinical database?

Use Y (yes) or N (no).

Would you like a list of visits w/screenings done?

Use Y (yes) or N (no). If you use Y, the following prompt will display.

How would you like the list to be sorted

Figure 13-31 lists the options.

Select one of the following:
------------------------------

```

H      Health Record Number
N      Patient Name
P      Provider who screened
C      Clinic
R      Result of Exam
D      Date Screened
A      Age of Patient at Screening
G      Gender of Patient
T      Terminal Digit HRN

How would you like the list to be sorted? H//

```

Figure 13-31: List of options to sort the list

The default is H (Health Record Number).

#### Demo Patient/Inclusion/Exclusion

Use one of the following: I (include all patients), E (exclude demo patients), O (include only demo patients).

#### DEVICE

Specify the device to output the report.

Figure 13-32 shows a sample report.

Figure 13-32: Sample output of the IPV Screening Visit Tally and Visit Listing report

### 13.1.13.1.3 *List All IPV/DV Screenings for Selected Patients (ISSP)*

This report will list all patients you select who have had IPV screening or a refusal documented in a specified time frame. You will select the patients based on age, gender, result, provider, or clinic where the screening was done. You will enter a date range during which the screening was done.

Please enter the date range during which the screening was done. To get all screenings ever put in a long date range like 01/01/1980 to the present date.

Below are prompts for the ISSP report:

Enter Beginning Date for Screening

Enter the beginning date of the date range for the screening.

Enter Ending Date for Screening

Enter the ending date of the date range for the screening.

Would you like to include screenings documents in non-behavioral health clinics (those documented in PCC)?

Use Y (yes) or N (no).

Include which patients in the list

Use one of the following: F (FEMALES only), M (MALES only), B (Both MALE and FEMALES).

Would you like to restrict the report by Patient age range?

Use Y (yes) or N (no). If you use Y, other prompts will display.

Which result value do you want included in this list: (1-7)

Figure 13-33 shows the possible options.

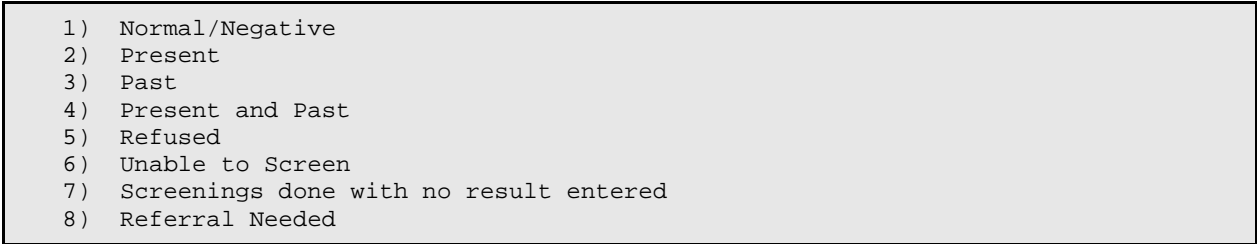

- 
- 1) Normal/Negative
  - 2) Present
  - 3) Past
  - 4) Present and Past
  - 5) Refused
  - 6) Unable to Screen
  - 7) Screenings done with no result entered
  - 8) Referral Needed

Figure 13-33: List of options to include in the list

You can limit the list to only patients who have had a screening in the time period on which the result was any combination of the following: (e.g., to get only those patients who have had a result of Present enter 2 to get all patients who have had a screening result of Past or Present, enter 2,3).

Include visits to ALL clinics?

Use Y (yes) or N (no).

Report should include visits whose PRIMARY PROVIDER on the visit is

Figure 13-34 shows the possible options. If you use O, other prompts will display.

Select one of the following:	
O	One Provider Only
P	Any/All Providers (including unknown)
U	Unknown Provider Only

Figure 13-34: Options for visits to include on the report

Select which providers who performed the screening should be included

Figure 13-35 shows the possible options. If you use O, other prompts will display.

Select one of the following:	
O	One Provider Only
P	Any/All Providers (including unknown)
U	Unknown Provider Only

Figure 13-35: Options for providers to include on the report

Would you like to limit the list to just patients who have a particular designated Mental Health provider?

Use Y (yes) or N (no). If you use Y, other prompts will display.

Would you like to limit the list to just patients who have a particular designated Social Services provider?

Use Y (yes) or N (no). If you use Y, other prompts will display.

Would you like to limit the list to just patients who have a particular designated ASA/CD provider?

Use Y (yes) or N (no). If you use Y, other prompts will display.

Select Report Type

Use one of the following: L (List of Patient Screenings) or S (Create a Search Template of Patients). If you use S, other prompts will display.

How would you like the list to be sorted

Figure 13-36 shows the possible selections. The default is H (Health Record Number).

Select one of the following:
------------------------------

H	Health Record Number
N	Patient Name
P	Provider who screened
C	Clinic
R	Result of Exam
D	Date Screened
A	Age of Patient at Screening
G	Gender of Patient
T	Terminal Digit HRN

Figure 13-36: List of options to sort the list

Display the Patient's Designated Providers on the list?

Use Y (yes) or N (no).

Demo Patient/Inclusion/Exclusion

Use one of the following: I (include all patients), E (exclude demo patients), O (include only demo patients).

DEVICE

Specify the device to output the report.

The application displays the criteria for the report. After pressing Enter, the application displays the report (Figure 13-37).

Patient Name	HRN	AGE	DATE	RESULT	CLINIC
BETAA,CECILE	103465	42	F 10/09/15	NEGATIVE	TELEBEHAVIORAL HE
Comment: Exposure to violence as a child

Figure 13-37: Sample IPV Screening Visit Listing for Selected Patients report

**13.1.13.1.4 Tally/List Pts in Search Template w/IPV Screening (IPST)**

Note: This IPV/DV report is intended for advanced RPMS users who are experienced in building search templates and using Q-MAN.

TALLY AND LISTING OF PATIENT'S RECEIVING IPV SCREENING, INCLUDING REFUSALS ONLY PATIENTS WHO ARE MEMBERS OF A USER DEFINED SEARCH TEMPLATE ARE INCLUDED IN THIS REPORT

This report will tally and list all patients who are members of a user defined search template. It will tally and list their latest IPV screening (Exam code 34) or a refusal documented in a specified time frame. This report will tally the patients by age, gender, result, screening provider, primary provider of the visit, designated primary care provider, and date of screening/refusal.

- The last screening/refusal for each patient is used. If a patient was screened more than once in the time period, only the latest is used in this report.
- This report will optionally, look at both PCC and the Behavioral Health databases for evidence of screening/refusal.

**13.1.13.1.5 Tally List All PIV Screenings for Template of Pts (IVST)**

Please Note: This IPV/DV report is intended for advanced RPMS users who are experienced in building search templates and using Q-MAN.

TALLY AND LISTING OF ALL VISITS W/IPV SCREENING, INCLUDING ONLY PATIENTS WHO ARE MEMBERS OF A USER DEFINED SEARCH TEMPLATE ARE INCLUDED IN THIS REPORT

This report will tally and optionally list all visits on which IPV screening (Exam code 34) or a refusal was documented in a specified time frame. This report will tally the visits by age, gender, result, provider (either exam provider, if available, or primary provider on the visit), and date of screening/refusal. This report will optionally look at both Behavioral Health and PCC databases for evidence of screening/refusal.

**13.1.13.2 Alcohol Screening Reports (ALC)**

Use the ALC option to access the ALC Report menu (Figure 13-38).

Figure 13-38: Options on the ALC Reports menu

### 13.1.13.2.1 Tally/List Patients with Alcohol Screening (ASP)

This report will tally and optionally list all patients who have had ALCOHOL screening or a refusal documented in a specified time frame. Alcohol Screening is defined as any of the following documented:

- Alcohol Screening Exam (Exam code 35)
- Measurements: AUDC, AUDT, CRFT
- Health Factor with Alcohol/Drug Category (CAGE)
- Diagnoses V79.1, 29.1
- Education Topics: AOD-SCR, CD-SCR
- CPT Codes: 99408, 99409, G0396, G0397, H0049
- Refusal of exam code 35

This report will tally the patients by age, gender, screening exam result, provider (either exam provider, if available or primary provider on the visits), clinic, date of screening, designated PCP, MH Provider, SS Provider and A/SA Provider.

Notes:

- The last screening/refusal for each patient is used. If a patient was screened more than once in the time period, only the latest is used in this report.
- This report will optionally, look at both PCC and the Behavioral Health databases for evidence of screening/refusal.
- This is a tally of patients, not visits or screenings.

Please enter the date range during which the screening was done. To get all screenings ever put in a long date range like 01/01/1980 to the present date.

Below are the prompts.

Enter Beginning Date for Screening

Specify the beginning date of the date range.

Enter Ending Date for Screening

Specify the ending date of the date range.

## Which items should be tallied

Specify which items you would like to have displayed in the report. The application provides a list of items. Your response must be a list (like 1,3,5) or a range (2-4, 8).

Would you like to include ALCOHOL Screenings documented in the PCC clinical database?

Use Y (Yes) or N (No).

Would you like to include a list of patients screened?

Use Y (Yes) or N (No).

If you answered Yes to this question, the next prompt will display:

How would you like this report sorted

Use only one of the items in the list provided by the application.

Display the Patient's Designated Providers on the list?

Use Y (Yes) to display the patient's Designated Providers or N (No) to bypass this option.

Demo Patient/Inclusion/Exclusion

Use one of the following: I (include all patients), E (exclude demo patients), O (include only demo patients).

Do you wish to

Use P (print output) or B (browse output on screen).

The application displays the Tally/List Patients with Alcohol Screenings report (Figure 13-39).

### 13.1.13.2.2 Tally/List Alcohol Screening (ALS)

This report will tally and optionally list all visits on which ALCOHOL screening or a refusal was documented in a specified time frame.

Alcohol Screening is defined as any of the following documented:

- Alcohol Screening Exam (Exam code 35)
- Measurements: AUDC, AUDT, CRFT
- Health Factor with Alcohol/Drug Category (CAGE)
- Diagnoses V79.1, 29.1
- Education Topics: AOD-SCR, CD-SCR
- CPT Codes: 99408, 99409, G0396, G0397, H0049
- Refusal of exam code 35

This report will tally the visits by age, gender, result, screening result, provider (either exam provider, if available, or primary provider on the visit), clinic, date of screening, designated PCP, MH Provider, SS Provider, and A/SA Provider.

Notes:

- This report will optionally, look at both PCC and the Behavioral Health databases for evidence of screening/refusal.
- This is a tally of visits with a screening done, if a patient had multiple screenings during the time period, all will be counted.

Please enter the date range during which the screening was done. To get all screenings ever put in a long date range like 01/01/1980 to the present date.

Below are the prompts.

Enter Beginning Date for Screening

Specify the beginning date of the date range.

Enter Ending Date for Screening

Specify the ending date of the date range.

**Note:** This date range indicates when the screening was done.

Which items to be tallied

Specify which items you would like to have displayed in the report. The application provides a list. Your response must be list (like 1,3,5) or a range (2-4, 8).

Would you like to include ALCOHOL Screenings documented in the PCC clinical database

Use Y (Yes) or N (No).

Would you like to include a list of visits w/screenings done?

Use Y (Yes) or N (No).

How would you like this report sorted

The report can be sorted by only one of the items in the list.

Demo Patient/Inclusion/Exclusion

Use one of the following: I (include all patients), E (exclude demo patients), O (include only demo patients).

Do you wish to

Use P (print output) or B (browse output on screen).

The application displays the Tally/List Alcohol Screenings report (Figure 13-40).

Figure 13-40: Sample Tally/List Alcohol Screenings report

### 13.1.13.2.3 List All Alcohol Screenings for Selected Patients (ASSP)

This report will tally and optionally list all patients who have had an alcohol screening or a refusal documented in a specified time frame. Alcohol Screening is defined as any of the following documented:

- Alcohol Screening Exam (Exam code 35)
- Measurements: AUDC, AUDT, CRFT
- Health Factor with Alcohol/Drug Category (CAGE)
- Diagnoses V79.1, 29.1
- Education Topics: AOD-SCR, CD-SCR
- CPT Codes: 99408, 99409, G0396, G0397, H0049
- Refusal of exam code 35

This report will tally the patients by age, gender, screening exam result, provider (either exam provider, if available, or primary provider on the visit), clinic, date of screening, designated PCP, MH Provider, SS Provider, and A/SA Provider.

Notes:

- The last screening/refusal for each patient is used. If a patient was screened more than once in the time period, only the latest is used in this report.
- This report will optionally, look at both PCC and the Behavioral Health databases for evidence of screening/refusal.
- This is a tally of patients, not visits or screenings.

Below are the prompts.

Enter Beginning Date for Screening

Specify the beginning date of the date range.

Enter Ending Date for Screening

Specify the ending date of the date range.

Would you like to include screenings documented in non-behavioral health clinics (those documented in PCC)?

Use Y (Yes) or N (No).

Include which patients in the list

Use F (Females Only), M (Males Only), or B (Both Male and Females).

Would you like to restrict the report by Patient age range?

Type Y (Yes) or N (no). If you wish to include visits from ALL age ranges, answer No. If you wish to list visits for only patients with a particular age range, enter Yes. If you use Yes, other prompts will display.

Which result values do you want included on this list

You can limit the list to only patients who have had a screening in the time period on which the result was any combination of the following: (e.g. to get only those patients who have had a result of Positive, enter 2; to get all patients who have had a screening result of Positive or Refused, enter 2,3).

You can choose from the following:

- 1 Normal/Negative
- 2 Positive
- 3 Refused

- 4 Unable to Screen
- 5 Screenings done with no result entered
- 6 Referral Needed

Include visits to ALL clinics

Use Y (Yes) or N (No). If No is used, additional prompts will display.

Report should include visits whose PRIMARY PROVIDER on the visit is

Use O (One Provider Only), P (Any/All Providers including Unknown), or U (Unknown Provider Only). If you use O, other prompts will display.

Select which providers who performed the screening should be included

Use O (One Provider Only), P (Any/All Providers including Unknown), or U (Unknown Provider Only). If you use O, other prompts will display.

Would you like to limit the list to just patients who have a particular designated Mental Health provider?

Use Y (Yes) or N (No). If Yes is used, additional prompts will display.

Would you like to limit the list to just patients who have a particular designated Social Services provider?

Use Y (Yes) or N (No). If Yes is used, additional prompts will display.

Would you like to limit the list to just patients who have a particular designated ASA/CD provider?

Use Y (Yes) or N (No). If Yes is used, additional prompts will display.

Select Report Type

Use L (List of Patient Screenings) or S (Create a Search Template of Patients).

How would you like this report sorted

The report can be sorted by only one of the items in the list.

Display the Patient's Designated Providers on the list?

Use Y (Yes) or N (no).

Demo Patient/Inclusion/Exclusion

Use one of the following: I (include all patients), E (exclude demo patients), O (include only demo patients).

Do you wish to

Use P (print output) or B (browse output on screen).

The application displays the criteria you selected for the report.

Then, the application displays the Tally/List Alcohol Screenings report (Figure 13-41).

Figure 13-41: Sample Alcohol Screenings Visit Listing for Selected Patients report

#### 13.1.13.2.4 Tally/List Pts in Search Template with Alcohol Screenings (APST)

This report will tally and list all patients who are members of a user defined search template. It will tally and list their latest ALCOHOL screening or a refusal documented in a specified time frame. Alcohol Screening is defined as any of the following documented:

- Alcohol Screening Exam (Exam code 35)
- Measurements: AUDC, AUDT, CRFT
- Health Factor with Alcohol/Drug Category (CAGE)
- Diagnoses V79.1, 29.1
- CPT Codes: 99408, 99409, G0396, G0397, H0049
- Refusal of exam code 35

This report will tally the patients by age, gender, screening exam result, provider (either exam provider, if available, or primary provider on the visit) clinic, date of screen, designed PCP, MH Provider, SS Provider, and A/SA/ Provider.

- The last screening/refusal for each patient is used. If a patient was screened more than once in the time period, only the latest is used in this report.
- This report will optionally, look at both PCC and the Behavioral Health databases for evidence of screening/refusal
- This is a tally of Patients, not visits or screenings

#### **13.1.13.2.5 Tally/List All Alcohol Screenings for Template of Pts (AVST)**

This ALCOHOL report is intended for advanced RPMS users who are experienced in building search templates and using Q-MAN.

TALLY AND LISTING OF ALL VISITS W/ALCOHOL SCREENING ONLY  
PATIENTS WHO ARE MEMBERS OF A USER DEFINED SEARCH TEMPLATE  
ARE INCLUDED IN THIS REPORT

This report will tally and optionally list all visits on which ALCOHOL screening or a refusal was documented in a specified time frame specified. Alcohol Screening is defined as any of the following documented:

- Alcohol Screening Exam (Exam code 35)
- Measurements: AUDC, AUDT, CRFT
- Health Factor with Alcohol/Drug Category (CAGE)
- Diagnoses V79.1, 29.1
- Education Topics: AOD-SCR, CD-SCR
- CPT Codes: 99408, 99409, G0396, G0397, H0049
- Refusal of exam code 35

This report will tally the visits by age, gender, result, screening result, provider (either exam provider, if available, or primary provider on the visit), clinic, date of screening, designated PCP, MH Provider, SS Provider, and A.SA Provider.

- This report will optionally, look at both PCC and the Behavioral Health databases for evidence of screening/refusal.

This is a tally of visits with a screening done, if a patient had multiple screenings during the time period, all will be counted.

#### **13.1.13.3 Depression Screening Reports (DEP)**

Use the DEP option to access the Depression Screening Reports menu (Figure 13-42).

```

```

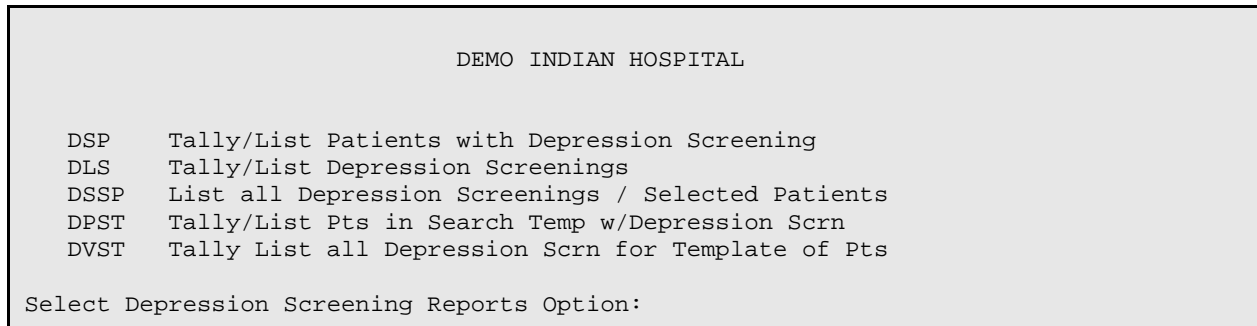

Figure 13-42: Options on the **Depression Screening Reports** menu

### 13.1.13.3.1 Tally/List Patient with Depression Screening (DSP)

This report will tally and optionally list all patients who have had DEPRESSION screening or a refusal documented in the specified time frame. Depression Screening is defined as any of the following documented:

- Depression Screening Exam (Exam code 36)
- Measurements: PHQ2, PHQ9, PHQT
- Diagnoses V79.0, 14.1
- Education Topics: DEP-SCR
- Refusal of PCC exam code 36

This report will tally the patients by age, gender, screening exam result, provider (either exam provider, if available, or primary provider on the visit), clinic, date of screening, designated PCP, MH Provider, SS Provider and A/SA Provider.

Notes:

- The last screening/refusal for each patient is used. If a patient was screened more than once in the time period, only the latest is used in this report.
- This report will optionally, look at both PCC and the Behavioral Health databases for evidence of screening/refusals.
- This is a tally of Patients, not visits or screening.

Please enter the date range during which the screening was done. To get all screenings ever put in a long date range like 01/01/1980 to the present date.

Below are the prompts:

Enter Beginning Date for Screening

Specify the beginning date of the date range.

Enter Ending Date for Screening

Specify the ending date of the date range.

Which items should be tallied: (0-11)

Select which items you want to tally on this report (Figure 13-43):

0) Do not include any Tallies	6) Date of Screening
1) Result of Screening	7) Primary Provider on Visit
2) Gender	8) Designated MH Provider
3) Age of Patient	9) Designated SS Provider
4) Provider who Screened	10) Designated ASA/CD Provider
5) Clinic	11) Designated Primary Care Provider

Which items should be tallied: (0-11)://

Figure 13-43: List of options from which to tally the report

Would you like to include DEPRESSION Screenings documents in the PCC clinic database?

Use Y (yes) or N (no).

Would you like to include a list of patients screened.

Use Y (yes) or N (no). If you use Y, the following will display (Figure 13-44).

Select one of the following:

H	Health Record Number
N	Patient Name
P	Provider who screened
C	Clinic
R	Result of Exam
D	Date Screened
A	Age of Patient at Screening
G	Gender of Patient
T	Terminal Digit HRN

How would you like the list to be sorted: H//

Figure 13-45: Sample Tally/List Patients with Depression Screening report

### 13.1.13.3.2 Tally/List Depression Screenings (DLS)

This report will tally and optionally list all visits on which DEPRESSION screening or a refusal was documented in a specified time frame. Depression Screening is defined as any of the following documented:

- Depression Screening Exam (PCC Exam code 36)
- Measurements: PHQ2, PHQ9, PHQT
- Diagnoses V79.0, 14.1
- Education Topics: DEP-SCR
- Refusal of exam code 36

This report will tally the visits by age, gender, screening result, provider (either exam provider, if available, or primary provider on the visit), clinic, date of screening, designated PCP, MH Provider, SS Provider, and A/SA Provider.

Notes:

- This report will optionally, look at both PCC and the Behavioral Health databases for evidence of screening/refusal.
- This is a tally of visits with a screening done, if a patient had multiple screenings during the time period, all will be counted.

Please enter the date range during which the screening was done. To get all screenings ever put in a long date range like 01/01/1980 to the present date.

Below are the prompts.

Enter Beginning Date for Screening

Specify the beginning date of the date range.

Enter Ending Date for Screening

Specify the ending date of the date range.

Which items should be tallied: (0-11)

Select which items you want to tally on this report (Figure 13-46):

0) Do not include any Tallies	6) Date of Screening
1) Result of Screening	7) Primary Provider on Visit
2) Gender	8) Designated MH Provider
3) Age of Patient	9) Designated SS Provider
4) Provider who Screened	10) Designated ASA/CD Provider
5) Clinic	11) Designated Primary Care Provider

Which items should be tallied: (0-11)://

Figure 13-48: Sample Depression Screening Visit Tally and Visit Listing report

### 13.1.13.3.3 *List All Depression Screenings/Selected Patients (DSSP)*

This report will tally and optionally list all patients who have had DEPRESSION screening or a refusal documented in the time frame specified by the user. Depression Screening is defined as any of the following documented:

- Depression Screening Exam (PCC Exam code 36)
- Measurements: PHQ2, PHQ9, PHQT
- Diagnoses V79.0, 14.1
- Education Topics: DEP-SCR
- Refusal of exam code 36

This report will tally the patients by age, gender, screening exam result, provider (either exam provider, if available, or primary provider on the visit), clinic, date of screening, designated PCP, MH Provider, SS Provider, and A/SA Provider.

Notes:

- The last screening/refusal for each patient is used. If a patient was screened more than once in the time period, only the latest is used in this report.
- This report will optionally, look at both PCC and the Behavioral Health databases for evidence of screening/refusal.
- This is a tally of Patients, not visits or screenings.

You will be able to choose the patients by age, gender, clinic, primary provider, or result of the screening.

Below are the prompts:

Enter Beginning Date for Screening

Specify the beginning date of the date range.

### Enter Ending Date for Screening

Specify the ending date of the date range.

Would you like to include screenings documented in non-behavioral health clinics (those documented in PCC)?

Use Y (yes) or N (no).

### Include which patients in the list

Use one of the following: F (FEMALES only), M (MALES Only), or B (Both MALE and FEMALES).

Would you like to restrict the report by Patient age range?

Use Y (yes) or N (no). If you use Y, other prompts will display.

Which result values do you want included on this list

Figure 13-49 shows the list from which to select.

- |   |
|---|
| 1) Normal/Negative                        |
| 2) Positive                               |
| 3) Refused                                |
| 4) Unable to Screen                       |
| 5) Screenings done with no result entered |
| 6) Referral Needed                        |

Figure 13-49: List of options from which to select

You can limit the list to only patients who have had a screening in the time period on which the result was any combination of the following: (e.g. to get only those patients who have had a result of Positive enter 2 to get all patients who have had a screening result of Positive or Refused, enter 2,3).

### Include visits to ALL clinics

Use Y (yes) or N (no).

Report should include visits whose PRIMARY PROVIDES on the visit is

Figure 13-50 shows the options. If you use O, other prompts will display.

Select one of the following:

- |   |                                       |
|---|---------------------------------------|
| O | One Provider Only                     |
| P | Any/All Providers (including unknown) |
| U | Unknown Provider Only                 |

Figure 13-50: Options for visits to include on the report

Select which providers who performed the screening should be included

Figure 13-51 shows the options. If you use O, other prompts will display.

Select one of the following:	
O	One Provider Only
P	Any/All Providers (including unknown)
U	Unknown Provider Only

Figure 13-51: Options for providers to include on the report

Would you like to limit the list to just patients who have a particular designated Mental Health provider?

Use Y (yes) or N (no). If you use Y, other prompts will display.

Would you like to limit the list to just patients who have a particular designated Social Services provider?

Use Y (yes) or N (no). If you use Y, other prompts will display.

Would you like to limit the list to just patients who have a particular designated ASA/CD provider?

Use Y (yes) or N (no). If you use Y, other prompts will display.

Select Report Type

Use one of the following: L (List of Patient Screenings) or S (Create a Search Template of Patients). If you use S, other prompts will display.

How would you like the list to be sorted?

Figure 13-52 shows the options.

Select one of the following:	
H	Health Record Number
N	Patient Name
P	Provider who screened
C	Clinic
R	Result of Exam
D	Date Screened
A	Age of Patient at Screening
G	Gender of Patient
T	Terminal Digit HRN

Figure 13-52: List of options to sort the list

The default is H (Health Record Number).

Display the Patient's Designated Providers on the list?

Use Y (yes) or N (no).

Demo Patient/Inclusion/Exclusion

Use one of the following: I (include all patients), E (exclude demo patients), O (include only demo patients).

DEVICE

Specify the device to output the report.

The application displays the criteria for the report. After pressing Enter, the application displays the report (Figure 13-53).

Figure 13-53: Sample Depression Screening Visit Listing for Selected Patients report

#### 13.1.13.3.4 Tally/List Pts in Search Temp with Depression Screening (DPST)

This report will tally and list all patients who are members of a user defined search template. It will tally and list their latest DEPRESSION screening or a refusal documented in the time frame specified by the user. Depression Screening is defined as any of the following documented:

- Depression Screening Exam (PCC Exam code 36)
- Measurements: PHQ2, PHQ9, PHQT
- Diagnoses V79.0, 14.1
- Education Topics: DEP-SCR
- Refusal of exam code 36

This report will tally the patients by age, gender, screening exam result, provider (either exam provider, if available, or primary provider on the visit), clinic, date of screening, designated PCP, MH Provider, SS Provider, and A/SA Provider.

Notes:

- The last screening/refusal for each patient is used. If a patient was screened more than once in the time period, only the latest is used in this report.
- This report will optionally, look at both PCC and the Behavioral Health databases for evidence of screening/refusal.
- This is a tally of Patients, not visits or screenings.

#### **13.1.13.3.5 Tally/List All Depression Screenings for Templates of Pts (DVST)**

This report will tally and optionally list all visits on which DEPRESSION screening or a refusal was documented in the time frame specified by the user. Depression Screening is defined as any of the following documented:

- Depression Screening Exam (PCC Exam code 36)
- Measurements: PHQ2, PHQ9, PHQT
- Diagnoses V79.0, 14.1
- Education Topics: DEP-SCR
- Refusal of PCC exam code 36

This report will tally the visits by age, gender, screening result, provider (either exam provider, if available, or primary provider on the visit), clinic, date of screening, designated PCP, MH Provider, SS Provider, and A/SA Provider.

Notes:

- This report will, optionally, look at both PCC and the Behavioral Health databases for evidence of screening/refusal.
- This is a tally of visits with a screening done; if a patient had multiple screenings during the time period, all will be counted.

#### 13.1.13.4.1 Tally/List Patients with Suicide Risk Assessment (SRP)

This report will tally and optionally list all patients who have had a Suicide Risk Assessment (PCC Exam code 43) or a refusal documented in a specified time frame. This report will tally the patients by age, gender, result, provider (either exam provider, if available or primary provider on the visits), clinic, date of screening, designated PCP, MH Provider, SS Provider and A/SA Provider.

Notes:

- The last screening/refusal for each patient is used. If a patient was screened more than once in the time period, only the latest is used in this report.
- This report will optionally, look at both PCC and the Behavioral Health databases for evidence of screening/refusal

Below are prompts for the SRP report.

Enter Beginning Date for Screening

Enter the beginning date of the date range for the screening.

Enter Ending Date for Screening

Enter the ending date of the date range for the screening.

Which items should be tallied: (0-11)

Select which items you want to tally on this report (Figure 13-55):

Figure 13-55: List of options from which to tally the report

The response must be a list or range, e.g., 1,3,5 or 2-4,8.

Would you like to include Suicide Risk Assessments documented in the PCC clinical database?

Use Y (yes) or N (no).

Would you like to include a list of patients screened?

Use Y (yes) or N (no). If you use Y, the following prompt will display.

How would you like the list to be sorted

Figure 13-56 lists the possibilities.

```

Select one of the following:

      H      Health Record Number
      N      Patient Name
      P      Provider who screened
      C      Clinic
      R      Result of Exam
      D      Date Screened
      A      Age of Patient at Screening
      G      Gender of Patient
      T      Terminal Digit HRN

How would you like the list to be sorted: H//
  
```

### 13.1.13.4.2 Tally/List Suicide Risk Assessments (SRS)

This report will tally and optionally list all visits on which a Suicide Risk Assessment (Exam code 43) or a refusal was documented in a specified time frame. This report will tally the visits by age, gender, result, provider (either exam provider, if available, or primary provider on the visit), and date of screening/refusal.

Note:

- This report will optionally look at both the Behavioral Health and PCC clinical databases for evidence of screening/refusal.
- Please enter the date range during which the screening was done. To get all screenings ever put in a long date range like 01/01/1980 to the present date.

Below are prompts for the SRS report:

Enter Beginning Date for Screening

Enter the beginning date of the date range for the screening.

Enter Ending Date for Screening

Enter the ending date of the date range for the screening.

Which items should be tallied: (0-11)

Select which items (Figure 13-58) you want to tally on this report:

```

0) Do not include any Tallies          6) Date of Screening
1) Result of Screening                 7) Primary Provider on Visit
2) Gender                              8) Designated MH Provider
3) Age of Patient                     9) Designated SS Provider
4) Provider who Screened              10) Designated ASA/CD Provider
5) Clinic                             11) Designated Primary Care Provider
Which items should be tallied? (0-11)://

```

#### 13.1.13.4.3 List All Suicide Risk Assess for Selected Patients (SRSP)

This report will list all patients you select who have had a Suicide Risk Assessment or a refusal documented in a specified time frame. You will select the patients based on age, gender, result, provider, or clinic where the screening was done. You will enter a date range during which the screening was done.

Please enter the date range during which the screening was done. To get all screenings ever put in a long date range like 01/01/1980 to the present date.

Below are prompts for the ISSP report:

Enter Beginning Date for Screening

Enter the beginning date of the date range for the screening.

Enter Ending Date for Screening

Enter the ending date of the date range for the screening.

Would you like to include screenings documents in non-behavioral health clinics (those documented in PCC)?

Use Y (yes) or N (no).

Include which patients in the list

Use one of the following: F (FEMALES only), M (MALES only), B (Both MALE and FEMALES).

Would you like to restrict the report by Patient age range?

Use Y (yes) or N (no). If you use Y, other prompts will display.

Which result value do you want included in this list: (1-7)

Figure 13-61 shows the possible options.

- |    |  |
|----|--|
| 1) | Low                                    |
| 2) | Moderate                               |
| 3) | High                                   |
| 4) | Refused                                |
| 5) | Unable to Screen                       |
| 6) | Referral Needed                        |
| 7) | Screenings done with no result entered |

Figure 13-61: List of options used to be included in the list

You can limit the list to only patients who have had a screening in the time period on which the result was any combination of the following: (e.g., to get only those patients who have had a result of Present enter 2 to get all patients who have had a screening result of Past or Present, enter 2,3).

Include visits to ALL clinics?

Use Y (yes) or N (no).

Report should include visits whose PRIMARY PROVIDER on the visit is

Figure 13-62 shows the possible options. If you use O, other prompts will display.

Select one of the following:	
O	One Provider Only
P	Any/All Providers (including unknown)
U	Unknown Provider Only

Figure 13-62: Options for visits to include on the report

Select which providers who performed the screening should be included

Figure 13-63 shows the possible options. If you use O, other prompts will display.

Select one of the following:	
O	One Provider Only
P	Any/All Providers (including unknown)
U	Unknown Provider Only

Figure 13-63: Options for providers to include on the report

Would you like to limit the list to just patients who have a particular designated Mental Health provider?

Use Y (yes) or N (no). If you use Y, other prompts will display.

Would you like to limit the list to just patients who have a particular designated Social Services provider?

Use Y (yes) or N (no). If you use Y, other prompts will display.

Would you like to limit the list to just patients who have a particular designated ASA/CD provider?

Use Y (yes) or N (no). If you use Y, other prompts will display.

Select Report Type

Use one of the following: L (List of Patient Screenings) or S (Create a Search Template of Patients). If you use S, other prompts will display.

How would you like the list to be sorted

Figure 13-64 shows the possible selections. The default is H (Health Record Number).

Select one of the following:	
H	Health Record Number
N	Patient Name
P	Provider who screened
C	Clinic
R	Result of Exam
D	Date Screened
A	Age of Patient at Screening
G	Gender of Patient
T	Terminal Digit HRN

Figure 13-64: List of options to sort the list

Display the Patient's Designated Providers on the list?

Use Y (yes) or N (no).

Demo Patient/Inclusion/Exclusion

Use one of the following: I (include all patients), E (exclude demo patients), O (include only demo patients).

DEVICE

Specify the device to output the report.

The application displays the criteria for the report. After pressing Return, the application displays the report (Figure 13-65).

***	SUICIDE RISK ASSESSMENT VISIT LISTING FOR SELECTED PATIENTS	***

Figure 13-65: Sample Suicide Risk Assessment Visit Listing for Selected Patients report

#### 13.1.13.4.4 Tally/List Pts in Search Temp with Suicide Risk Assess (SRST)

**Note:** This Suicide Risk Assessment report is intended for advanced RPMS users who are experienced in building search templates and using Q-MAN.

TALLY AND LISTING OF PATIENT'S RECEIVING SUICIDE RISK ASSESSEMENT, INCLUDING REFUSALS, ONLY PATIENTS WHO ARE MEMBERS OF A USER DEFINED SEARCH TEMPLATE ARE INCLUDED IN THIS REPORT

This report will tally and list all patients who are members of a user defined search template. It will tally and list their latest Suicide Risk Assessment (Exam code 34) or a refusal documented in a specified time frame. This report will tally the patients by age, gender, result, screening provider, primary provider of the visit, designated primary care provider, and date of screening/refusal.

- The last screening/refusal for each patient is used. If a patient was screened more than once in the time period, only the latest is used in this report.
- This report will optionally, look at both PCC and the Behavioral Health databases for evidence of screening/refusal.

#### 13.1.13.4.5 Tally/List All Suicide Risk Assess for Template Pts (STST)

**Note:** This Suicide Risk Assessment report is intended for advanced RPMS users who are experienced in building search templates and using Q-MAN.

TALLY AND LISTING OF ALL VISITS W/ SUICIDE RISK ASSESSMENT, ONLY PATIENTS WHO ARE MEMBERS OF A USER DEFINED SEARCH TEMPLATE ARE INCLUDED IN THIS REPORT

This report will tally and optionally list all visits on which a Suicide Risk Assessment (Exam code 43) or a refusal was documented in a specified time frame. This report will tally the visits by age, gender, result, provider (either exam provider, if available, or primary provider on the visit), and date of screening/refusal. This report will optionally look at both Behavioral Health and PCC databases for evidence of screening/refusal.

### 13.1.13.5 PHQ-2 and PHQ-9 Scores for One Patient (PHQ)

Use the PHQ option to produce a report that lists PHQ2, PHQ9, and PHQT Scores for one patient within a specified date range.

Below are the prompts:

Select PATIENT NAME

Specify the name of the patient whose scores are to be displayed.

Browse which subset of visits for <name of patient>

Use N (Patient's Last N Visits), D (Visits in a Date Range), or A (All of this patient's Visits). If you use N or D, other prompts will display.

Limit by Clinic/Provider

Use C (Visits to Selected Clinics), P (Visits to Selected Providers), or A (Include All Visits regardless of Clinic/Provider).

The application displays the PHQ-2/PHQ-9/PHQT Scores for One Patient report (Figure 13-66).

PHQ-2, PHQ-9 and PHQ-9T SCORES FOR MULTIPLE PATIENTS								
Visit Dates: Mar 09, 2015 to Mar 09, 2016

### 13.1.13.6 PHQ-2 and PHQ-9 (PHQS) Scores for Multiple Patients

Use the PHQS option to produce a report that lists PHQ-2 and PHQ-9 Scores for multiple patients, sorted by patient. Only visits with PHQ-2/PHQ-9 scores recorded will display on this list.

Below are the prompts.

Enter Beginning Date of Visit

Specify the beginning date of the date range.

Enter Ending Date of Visit

Specify the ending date of the date range.

Clinic Selection

Use one of the following: C (Visits at Selected Clinic) or A (Visit to All Clinics). If you use C, other prompts will display.

Provider Selection

Use one of the following: A (Visits to All Providers) or C (Visits to Selected Providers) or. If you use C, other prompts will display.

Demo Patient/Inclusion/Exclusion

Use one of the following: I (include all patients), E (exclude demo patients), O (include only demo patients).

Do you wish to

Use P (print output) or B (browse output on screen).

The application displays the PHQ-2 and PHQ-9 Scores for Multiple Patients report (Figure 13-67).

Figure 13-78: Options on the Sort Item Selection Menu

Use this menu to determine the sort criteria for the report. If you don't select any criteria (use Quit Item Selection) immediately, the report will be sorted by visit date.

Do you want a separate page for each Visit Date?

Use Y or N.

Would you like a custom title for this report?

Use Y or N. If you use Y, other prompts will display.

Do you wish to save this SEARCH/PRINT/SORT logic for future use?

Use Y or N. If you use Y, other prompts will display.

Demo Patient/Inclusion/Exclusion

Use one of the following: I (include all patients), E (exclude demo patients), O (include only demo patients).

The application displays the criteria for the report.

Do you wish to

Use P (print output) or B (browse output on screen).

The application displays the criteria for the report. After pressing Enter, the application displays the visit report (Figure 13-79).

### 13.3 Workload/Activity Reports (WL)

Use the WL option to view the Activity Workload Reports menu (Figure 13-80).

*****		
**	IHS Behavioral Health System	**

```

**          Activity Workload Reports          **
*****
Version 4.0 (Patch 8)

DEMO INDIAN HOSPITAL

GRS1  Activity Report
GRS2  Activity Report by Primary Problem
ACT   Activity Record Counts
PROG  Program Activity Time Reports (132 COLUMN PRINT)
FACT  Frequency of Activities
FCAT  Frequency of Activities by Category
PA    Tally of Prevention Activities

Select Workload/Activity Reports Option:

```

Figure 13-80: Options on the Activity Workload Reports menu

The Workload/Activity Reports menu has options to generate reports related specifically to the activities of Behavioral Health providers. Included are options for generating reports that categorize and tabulate activity times, frequency of activities, and primary problems requiring Behavioral Health care.

### 13.3.1 Activity Report (GRSI)

Use the GRS1 option to produce a report that will tally activities by service unit, facility, and provider. The report is patterned after GARS Report #1.

Below are the prompts.

Enter beginning Encounter Date

Specify the beginning encounter date for the date range.

Enter ending Encounter Date

Specify the ending encounter date for the date range.

Run Report for which Program

Use one the following: M - MENTAL HEALTH. S - SOCIAL SERVICES, C - CHEMICAL DEPENDENCY or ALCOHOL/SUBSTANCE ABUSE, O - OTHER, or A - ALL.

Run Report for

Use one of the following: 1 (ONE PROVIDER) or 2 (ALL PROVIDERS). If you use 1, other prompts will display.

### Include which providers

Use one of the following: P (Primary Provider Only) or S (Both Primary and Secondary Providers).

### Demo Patient/Inclusion/Exclusion

Use one of the following: I (include all patients), E (exclude demo patients), O (include only demo patients).

### Do you wish to

Use P (print output) or B (browse output on screen).

The application displays the Activity Report (Figure 13-81).

```

### 13.3.3 Activity Record Counts (ACT)

Use the ACT option to produce a report that will generate a count of activity records for a selected item in a specified date range. You will be given the opportunity to select which visits will be included in the tabulation. For example, you can choose to tally activity time by Problem Code for only those with a discipline of Psychiatrist.

Below are the prompts.

Choose an item for calculating activity time and records counts

The application displays a list of items from which to choose.

Enter beginning Visit Date for Search

Specify the beginning visit date for the date range.

Enter ending Visit Date for Search

Specify the ending visit date for the date range.

The application displays the Visit Selection Menu (Figure 13-83).

```

### 13.3.4 Program Activity Time Reports (PROG)

Use the PROG option to produce a report that will generate a count of activity records, total activity time, and number of patient visits by Program and by a selected item within a specified date range. You will be given the opportunity to select which visits will be included on the report. For example, you might want to only report on those records on which the type of visits was Field. Note: if you choose to report on Problems, only the primary problem is included.

**NOTE:** If you choose to report on Problems, **ONLY THE PRIMARY PROBLEM** is included.

The prompts are the same as those for the ACT report. Section 13.3.3 provides more information about Activity Record Counts.

The application displays the record selection criteria. After pressing Enter, the application displays the Program Activity Time report (Figure 13-85).

FPRB	Frequency of Problems (Problem Code Groupings)
FPRC	Frequency of Problems by Problem Category
SUIC	Suicide Related Reports ...
Select Problem Specific Reports Option:	

Figure 13-90: Options on the Problem Specific Reports menu

### 13.4.1 Abuse Report (ABU)

Use the ABU option to produce a report that focuses on patients who might have been victims of abuse or neglect. It will present, by age and sex, the number of individual patients who were seen for the Purpose of Visit (POV) – the application displays the POVs.

Below are the prompts.

Enter Beginning Visit Date

Specify the beginning visit date for the date range (during which the patient should have been seen with one of the above problems).

Enter the Ending Visit Date

Specify the ending visit date for the date range.

The application displays the current Age Groups.

Do you wish to modify these age groups?

Use Y or N at this prompt. If you use Y, other prompts will display. Use N to not modify the age groups.

Demo Patient/Inclusion/Exclusion

Use one of the following: I (include all patients), E (exclude demo patients), O (include only demo patients).

Do you wish to

Use P (print output) or B (browse output on screen).

The application displays the Abuse Report by Age and Sex report. You need a 132-column printer to print the report.

### 13.4.2 Frequency of Problems (FDX)

Use the FDX option to produce a report that shows a list of the top N Problem/POV for selected visits.

Below are the prompts.

Enter beginning Visit Date for Search

Specify the beginning visit date for the date range.

Enter ending Visit Date for Search

Specify the ending visit date for the date range.

The application displays the Visit Selection Menu (Figure 13-91).

Figure 13-98: Sample Aggregate Suicide Form Data - Standard report

### 13.4.5.2 Aggregate Suicide Form Data – Selected Variables (SAV)

This report will tally the selected data items for Suicide Forms in a particular date range.

### 13.4.5.3 Output Suicide Data in Delimited Format (SDEL)

This report will extract all data elements on the Suicide form in a delimited form for a specified date range.

### 13.4.5.4 Listing of Suicide Forms by Selected Variables (SGR)

This report is a 'general retrieval' type report that will list the selected data items for Suicide Forms in a particular date range. The user can also specify how to display the items in the printed report.

### 13.4.5.5 Suicide Report (Age & Sex) (SUIC)

This report will present, by age and sex, the number of individual patients who were seen for the following POVs: 39, 40, and 41 as well as V62.84 (Suicidal Ideation).

### 13.4.5.6 Suicide Purpose of Visit Report (SPOV)

This report will display the Suicide POVs (39, 40, 41) as a percentage of the total number of Behavioral Health encounter records (Encs). Any records containing the ICD-9 code v62, 84, Suicidal Ideation will be included in the tallies for Problem code 39. A display by age and gender is also included.

Below are the prompts.

Enter Beginning Visit Date

Specify the beginning visit date for the date range.

Enter Ending Visit Date

Specify the ending visit date for the date range.

Run the Report for which Program

Use one of the following: O (one program) or A (all programs). If you use O, other prompts will display.

Demo Patient Inclusion/Exclusion

Use one of the following: I (include all patients), E (exclude demo patients), O (include only demo patients).

Do you wish to

Use one of the following: P (print output) or B (browse output on screen)

## 14.0 Manager Utilities Module (Roll and Scroll)

The Manager Utilities module, shown in Figure 14-1, provides options for Site Managers and program supervisors to customize AMH to suit their site's needs. Options are also available for administrative functions, including the export of data to the Area, resetting local flag fields, and verifying users who have edited particular patient records.

```

*****
**          IHS Behavioral Health System          **

DRD   Delete BH General Retrieval Report Definitions
EEPC  Edit Other EHR Clinical Problem Code Crosswalk
UU    Update Locations a User can See

Select Manager Utilities Option:

```

Figure 14-1: Options on the Manager Utilities menu

This menu might be restricted to the site manager and the program manager or the designee. Use this menu for setting site-specific options related to security and program management. In addition, options are available for exporting important program statistics to the Area Office and IHS Headquarters for mandated federal reporting and funding.

### 14.1 Update Site Parameters (SITE)

Use the SITE option to modify the parameters in the Behavioral Health file. Individual sites use the Site Parameters file to set AMH to suit their program needs.

Below are the prompts.

Select MHSS SITE PARAMETERS

Specify the location where the program visits take place. If you use a new one, the application confirms that you are using the new one (use Y or N).

Figure 14-2 shows the **Update BH Site Parameters** window.

```

** UPDATE BH SITE PARAMETERS **          Site Name: ABERDEEN AO

```

```

Update those allowed to share visits? N
Update those allowed to order Labs? N
If you are using the RPMS Pharmacy System, enter the Division:

COMMAND:                                Press <PF1>H for help      Insert

```

Figure 14-2: Sample **Update BH Site Parameters** window

Below are the fields on the window.

#### Update DEFAULT Values?

Use Y or N. If you use Y, the application displays Figure 14-3. All default settings are moved to this separate pop-up window.

```

**** Enter DEFAULT Values for each Data Item ****
MH Location: DEMO INDIAN HOSPITAL
MH Community: TAHLEQUAH                MH Clinic: MENTAL HEALTH
SS Location: DEMO INDIAN HOSPITAL
SS Community: TAHLEQUAH                SS Clinic: MEDICAL SOCIAL SERVI
Chemical Dependency Location: DEMO INDIAN HOSPITAL
Chemical Dependency Community: TAHLEQUAH
Chemical Dependency Clinic: BEHAVIORAL H
OTHER Location: DEMO INDIAN HOSPITAL
OTHER Community: TAHLEQUAH            OTHER Clinic: MENTAL HEAL

Default Type of Contact: OUTPATIENT
Default Appt/Walk In Response: APPOINTMENT
EHR Default Community: TAHLEQUAH

```

Figure 14-3: Pop-up for default values of BH site

Below are the prompts on the pop-up.

**MH/SS/CD/OTHER Location:** Specify the name of the location where the program visits take place.

**MH/SS/CD/OTHER Community:** Specify the name of the community where the program visits occur.

**MH/SS/CD/OTHER Clinic:** Specify the name of the clinic where the program visits occur.

**Default Type of Contact:** Specify the type of contact setting or code (e.g., Administrative, Chart Review, etc.).

**Default Appt/Walk in Response:** Specify the type of visit that occurred (e.g., appointment, walk in, or unspecified).

**EHR Default Community:** Specify the name of the default community used in the EHR. In order to pass EHR behavioral health encounter records into the AMH v4.0 files, a Default Community of Service field was created on the AMH v4.0 site parameters' menu. If the facility has opted to pass behavioral health encounter records created in EHR to AMH v4.0, the application will populate the Community of Service field with the value entered in the site parameter "EHR Default Community" or, if that field is blank, with the default Mental Health community value. If the default Mental Health community value is blank, the field will be populated with the default Social Services community value; if that field is also blank, the field will be populated with the default Chemical Dependency value; and if that field is blank, the default Other Community value will be used. If none of the default community fields contains a value, no behavioral health record will be created.

Below are the fields on the update window.

Update Hospital Location Defaults?

Use Y or N. If you use Y, the application displays Figure 14-4. All default settings are moved to this separate pop-up window.

<p>MENTAL HEALTH HOSPITAL LOCATION:</p> <p>SOCIAL SERVICES HOSPITAL LOCATION:</p> <p>CHEMICAL DEP/ALCOHOL HOSPITAL LOCATION:</p> <p>OTHER PROGRAM HOSPITAL LOCATION:</p>
--

Figure 14-4: Pop-up for Update Hospital Location Defaults of BH site

Below are the prompts on the pop-up.

**Mental Health Location:** Specify the name of the Mental Health Hospital Location where the program visits take place. This depends on how it is set up in the Scheduling application and will populate the Hospital Location Field in EHR.

**Social Services Hospital Location:** Specify the name of the Social Services Hospital Location where the program visits take place. This depends on how it is set up in the Scheduling application and will populate the Hospital Location Field in EHR.

**Chemical Dep/Alcohol Hospital Location:** Specify the name of the Chemical Dependence/Alcohol Health Hospital Location Where the program visits take place. This depends on how it is set up in the Scheduling application and will populate the Hospital Location Field in EHR.

**Other Hospital Location:** Specify the name of the Other Health Hospital Location where the program visits take place. This depends on how it is set up in the Scheduling application and will populate the Hospital Location Field in EHR.

#### Default HEALTH Summary Type

Specify the type of health summary printed from within the AMH package. Typically, the default value is the Mental Health/Social Services summary type. Refer to the Health Summary System Manuals for further information on the available types.

#### Default Response on Form Print

Your response applies to when you print a Mental Health/Social Services record. Use one of the following: **B** (both), **F** (full), **S** (suppressed form), **T** (Suppressed - 2 copies), **E** (Full – 2 copies). The suppressed report does NOT display the following information: Chief Complaint, SOAP note, measurement data, screenings.

A full encounter form prints all data for a patient encounter including the SOAP note. The suppressed version of the encounter form will not display the SOAP note for confidentiality reasons. It is important to note that the SOAP and chief complaint will be suppressed, but the comment/next appt, activity code, and POV will still appear on the printed encounter.

#### Suppress Comment on Suppressed Form?

Use Y or N to suppress the provider's comments.

#### Number of past POVs to display

Specify the number of the past POVs to be displayed on the **Patient Data Entry** screen. This response must be a whole number between zero and five.

#### Exclude No Shows on last DX Display?

Use Y or N.

### DSM-5 Implementation Date

From the date listed forward the application will use the DSM-5 Code Set. Section Appendix C: provides information about DSM copyright and trademark information.

### Update PCC Link Features?

Use Y or N. If you use Y, the application displays the Update PCC Link Feature Parameters pop-up window (Figure 14-5).

```

**** Update PCC Link Feature Parameters ****
=====

Type of PCC Link
Type of Visit to create in PCC
Interactive PCC Link?
Allow PCC Problem List Update?
Update PCC LINK Exceptions?

```

Figure 14-5: Fields on the Update PCC Link Feature Parameters pop-up

The underlined fields are required on the pop-up window.

**Type of PCC Link:** What you use determines the type of data that passes from AMH to the PCC. Use one of the following:

- **No Link Active.** Use this option to have the data link between the two modules turned off. No data is passed to the PCC visit file from the AMH application (including the Health Summary). Therefore, because the RPMS Third Party Billing Package processes encounters in PCC, an alternative billing process will need to be established. If you leave this field blank, it is the same as choosing this option and no data will pass to PCC.
- **Pass STND Code and Narrative.** Use this option to have all patient contacts in the Behavioral Health programs passed to the PCC visit file using the same ICD-10 code and narrative, as defined by the program. This approach does not facilitate billing because all encounters will appear the same. For example, if the code and narrative are entered in the site parameters as *Z71.9, Encounter*, all encounters will have the ICD code of *Z71.9* and narrative of *Encounter*.
- **Pass All Data as Entered (No Masking).** Use this option to have all DSM-5 and Problem Codes passed as ICD codes as shown in the crosswalk along with the narrative as written by the provider. This link type is the one most preferred by billers and coders since the actual ICD code and narrative display in PCC.

- **Pass Codes and Canned Narrative.** Use this option to have both DSM-5 and Problem Codes converted to ICD codes as shown in the 1crosswalk and passed with a single standard narrative, as defined by the program, for all contacts. This type of link facilitates billing by passing the POV entered in AMH as ICD codes although the standard narrative is not passed to the Health Summary.

For “Pass STND Code and Narrative” and “Pass Codes and Canned Narrative” options, the application displays the Standard Code to Use pop-up.

```
Standard ICD-9 Code to Use (Option 2 and 5 ONLY): V65.40
Standard ICD-10 Code to Use (Option 2 and 5 ONLY): Z71.9
Narrative for MH Program: MH/SS/SA COUNSELING
Narrative for SS Program: SS VISIT
```

Figure 14-6: Standard code to use screen

With each of these link types, standard data is passed to the PCC. You can specify those standards using the Standard Code to Use screen. The standard code, shown in the first line, will be passed if using Pass STND Code and Narrative. The narrative entered will be the only narrative passed if you have selected Pass STND Code and Narrative and Pass Codes and Canned Narrative options.

**Type of Visit to create in PCC:** What you use determines the type of visit created from the encounter record you enter into AMH. Use one of the following, depending on the classification of the BH programs at your facility.

- I (IHS)
- C (Contract)
- 6 (638 Program)
- T (Tribal)
- O (Other)
- V (VA)
- P (Compacted Program)
- U (Urban Program)

**Interactive PCC Link?:** Use Y or N. The AMH site parameters contain a question about an interactive PCC link to address an issue with the PIMS Scheduling package. Because it is possible to set up a clinic in the Scheduling package that initiates a PCC record at check in, some sites were creating two separate records for each individual patient encounter in the behavioral health clinics. Leaving the field blank is the same as using N (for this prompt) and the interactive link will not be turned on.

In the Scheduling package, if the clinic set-up response is YES to the question about creating an encounter at check in, then the Interactive PCC Link question in the AMH site parameters must also be answered YES. If the clinic set up in the Scheduling package has a negative response, then the Interactive Link question in AMH should be set to NO.

**Note:** There should never be a mismatched response where one package has YES and the other NO.

**Allow PCC Problem List Update?:** Use Y or N to allow the ability to update a patient's PCC problem list from within AMH.

**Update PCC LINK Exceptions?:** (Figure 14-7) Use Y or N to determine if you want to set data passing parameters for individuals that are different from the program default.

Provider Name	Type of PCC Link for this Provider
SIGMA, LORRAINE	NO LINK ACTIVE
CZZ, BILL	PASS CODE AND STND NARRATIVE
DELTA, GREG	PASS STND CODE AND NARRATIVE
MBETAA, MARY	PASS ALL DATA AS ENTERED

Figure 14-7: Setting up PCC link exceptions

Below are the fields on the update window.

#### Turn Off EHR to BH Link?

Use Y or N. A site parameter was created to give sites the ability to opt out of the new behavioral health (BH) Electronic Health Record (EHR) visit functionality. This functionality allows BH providers to enter a visit into the EHR that passes first to PCC and then to the behavioral health database (AMH). These visits display in the EHR as well as the BH applications, AMH v4.0 and the RPMS Behavioral Health System v4.0 GUI.

The name of the site parameter is "Turn Off EHR to BH Link" and it is accessed via the AMH v4.0 Manager Utilities module SITE menu option. The default setting on this new site parameter is "NO" and no action is required if sites will be deploying the BH EHR functionality. If sites will not be deploying the BH EHR visit functionality, then the site parameter should be changed to "YES."

#### Turn on PCC Coding Queue?

Use Y (yes) or N (no).

- If you use Y, the visits will not be passed directly to the billing package. The visits will be marked as incomplete and must be reviewed by local data entry staff, billers, or coders.
- If you use N, all visits will continue to pass to PCC as complete.

Because the visits entered in the behavioral health system have always been marked as complete, the visits were going through PCC to the claims generator without review. With this version of the software, sites are given the option of transmission to the Coding Queue or continuing to send visits to PCC marked as complete.

In addition to establishing an option on the site parameters' menu to turn on the Coding Queue, an option that can be placed on data entry staff's RPMS menu has been created. Because the SOAP/Progress Notes related to visits created in AMH do not pass to PCC, the data entry staff, billers, and/or coders needed some method to access the notes for review. The option will allow them to review the specifics for a particular visit but will not give them full access to AMH. For example, they will not be able to view treatment plans, case status information, or the Suicide Reporting Forms.

Turning on the link to the Coding Queue in the Behavioral Health System should not be done if the PCC Coding Queue has not been activated. However, if the PCC Coding Queue has been activated and the site wants the AMH generated visits to be reviewed, complete the following steps:

- a. Log in to AMH v4.0 and select the **Manager Utilities** menu.
- b. Select the Site Parameters option and enter the name of the site you want to update.
- c. On the site parameters entry window, scroll down to the "Turn on PCC Coding Queue" field.
- d. Type **Y** at this field.
- e. Save the changes to the site parameters.

Once the coding queue option has been turned on and the changes to the site parameters are saved, any visits documented in AMH v4.0 will be flagged as incomplete. Visits created the same day but before the site parameters were changed will still be marked as complete. The date and time the visit was entered in RPMS determines the flag to be applied, not the date and time of service.

#### Update Provider Exceptions to E Sig?

Use Y (yes) or N (no). The electronic signature function is available on the **PDE**, **SDE**, **Intake**, and **Group** entry menus (in roll and scroll) and also available on the **One Patient**, **All Patients**, **Intake**, and **Group** entry menus (in the GUI). Only those encounter records with signed SOAP/Progress Notes will pass to PCC.

If you use Y, Figure 14-8 displays.

Electronic Signature will not be activated for providers added to this list.

PROVIDER:

```

PROVIDER:
PROVIDER:
PROVIDER:
PROVIDER:

```

Figure 14-8: Place to list provider exceptions to electronic signature

Populate the **PROVIDER** field with the name of provider with exception to electronic signature.

Because some sites might still use data entry staff to enter behavioral health visits, the ability to opt out of the electronic signature for a specific provider has been added to the site parameters menu. If a site determines that a particular provider should be exempted from the electronic signature, those visits will pass to PCC but show up as unsigned on the visit entry display.

Update those allowed to see all records?

Use Y or N to determine if you want to update those allowed to see all records.

- If the user's name is added to this list, the user will be able to see all records entered into the system, whether the user was the provider of the visit or not, or whether the provider created the record or not.
- If the user's name is not added to this list, only those encounter records the user created or those on which the user was a provider will be visible to that user.

The "Help" prompt has been updated and provides the following information when the user types in a question mark (?): "If users need to see records other than their own, their names should be added to this list. Type a Y to update the list."

If you use Y, Figure 14-9 displays. You can add another user to the list. This new user will be able to see all visits when using the SDE or PDE options.

```

Enter only those users who should be permitted to see all Visit and Intake records
for all patients whether they were the provider of record or the user who entered
the record or not. Users not entered on this list will see only those Visits or
Intake records that they entered or for which they were the provider of record. This
parameter applies to the SDE menu option and all other options that display Visit
and Intake information.
-----
+THETA, SHIRLEY
PHI, LISA M
RHO, SUSAN P
ALPHA, WENDY

```

Figure 14-9: List of names allowed to see all records

Update those allowed to override delete?

Use Y or N to determine if you want to update those allowed to override delete.

If you use Y, Figure 14-10 displays. You can add another name to the list.

```
Enter only those users who should be permitted to delete any Intake
document, signed or unsigned, whether they are the user who
entered the Intake document or the provider of record.
-----
```

```
THETA,MARK
CHI,RONALD D SR
NU,KAREN
```

Figure 14-10: List of names allowed to delete any Intake document

Update those allowed to share visits?

Use Y or N to update those allowed to share visit information via RPMS mail message.

If you use Y, Figure 14-11 displays. Here you can add a new name at the “User allowed to share visits via mail” prompt. All users permitted to share visit information via RPMS mail messages should be entered here.

```
Entering users into this field will give them access to send a copy of
a completed encounter form (either full or suppressed) to other
RPMS users. Keep confidentiality issues in mind when deciding on
who should be given this access.
```

```
User allowed to share visits via mail: BETA,BJ
User allowed to share visits via mail: ALPHA,WENDY

If you are using the RPMS Pharmacy System, enter the Division.

Specify the name of the division for the RPMS Pharmacy System.

## 14.2 Export Utility Menu (EXPT)

Use the EXPT option to access the options on the Export Utility Menu (Figure 14-13).

```

                                DEMO INDIAN HOSPITAL

GEN   Generate BH Transactions for HQ
DISP  Display a Log Entry
PRNT  Print Export Log
RGEN  Re-generate Transactions
RSET  Re-set Data Export Log
CHK   Check Records Before Export
EDR   Re-Export BH Data in a Date Range
ERRS  Print Error List for Export
OUTP  Create OUTPUT File
SAE   Set Automated Export Option

Select Export Utility Menu Option:
```

Figure 14-13: Options on the Export Utility Menu

Use the options on this menu to pass data from your facility to the IHS Headquarters office for statistical reporting purposes.

**Important:** This set of utilities should only be accessed and used by the site manager, the BH program manager, or designee.

These options should be familiar to site managers and other RPMS staff who generate exports. The recommended sequence for their use follows those from PCC- CHK, clean, GEN, DISP, ERRS, transmit. RGEN, RSET and OUTP should be reserved for expert use as required.

### 14.2.1 Generate BH Transactions for HQ (GEN)

Use the GEN option to generate AMH transactions to be sent to HQ. The transactions are for records posted between a specified date range.

The transactions are for records posted since the last time you did an export up until yesterday. Both BH visit records and Suicide forms will be exported.

Type the caret (^) at any prompt and the application will ask you to confirm your entries prior to generating transactions.

Figure 14-14 displays.

```
The inclusive dates for this run are DEC 28,2008 through APR 18,2009.
The location for this run is DEMO INDIAN HOSPITAL.
Do you want to continue? N//
```

Figure 14-14: Sample information before continuing

Do you want to continue?

Use Y or N. If you use N, you return to the Export Utility menu. If you use Y, the prompts continue.

Do you want to QUEUE this to run at a later time?

Use Y or N. If you use Y, the generation will be put in the queue. If you use N, the generate process continues. The BH export generally takes less than five minutes to generate. It will still tie up your computer while doing the export (but it is quick). Figure 14-15 shows a sample.

```
Enter beginning date for this run:  SEP 1, 2008

The inclusive dates for this run are  SEP 1, 2008  THROUGH  SEP 30, 2008
The location for this run is the _____HOSPITAL/CLINIC.

Do you want to continue (Y/N)  N// Y

Generating transactions.      Counting records      ( * 100*      )

*100* Transactions were generated.
Updating log entry.
Deleting cross reference entries (100)

RUN TIME (H.M.S): 0.3.56
```

Figure 14-15: Sample information for generating the new log entry

## 14.2.2 Display a Log Entry (DISP)

Use the DISP option to display the extract log information in a specified date range.

Select MHSS EXTRACT LOG BEGINNING DATE

Specify the extract log beginning date. (You can view the extract date by typing a question mark [?] at this prompt.)

DEVICE

Select the device to output the log information.

Figure 14-16 shows the extract log information.

```

NUMBER: 2                      BEGINNING DATE: SEP 1, 2008
ENDING DATE: SEP 30, 2008@10:26:49
RUN STOP DATE/TIME: OCT 2, 1994@10:30:51
COUNT OF ERRORS: 2           COUNT OF TRANSACTIONS: 98
COUNT OF RECORDS PROCESSED: 100      RUN LOCATION: _____
# ADDS: 97                     # MODS: 1
# DELETES: 0
TRANSMISSION STATUS: SUCCESSFULLY COMPLETED

```

Figure 14-16: Sample extract log information

### 14.2.3 Print Export Log (PRNT)

Use the PRNT option to display the export extract log report.

The application displays the previous selection beginning date.

#### START WITH BEGINNING DATE

Press Enter to accept the default date. Otherwise, specify the first beginning date of the date range.

#### GO TO BEGINNING DATE

Press Enter to accept to default date. Otherwise, specify the next beginning date.

#### DEVICE

Specify the device to print/browse the log.

The application displays the Mental Health/Social Service Export Extract Log (Figure 14-17).

```

*****MENTAL HEALTH/SOCIAL SERVICES*****
***EXPORT EXTRACT LOG***
                                PAGE: 1

   11/16/08 12/10/08
9  12/09/08 12/29/08                33     0    33
   12/09/08 12/29/08
-----

```

TOTAL	0	0	0	1199	192	1329
-------	---	---	---	------	-----	------

Figure 14-17: Sample export extract log

### 14.2.4 Re-generate Transactions (RGEN)

Use the RGEN option to re-generate transactions between two dates.

**Warning:** Do not use this option if you are not an expert user.

The prompts are below.

Select MHSS EXTRACT LOG BEGINNING DATE

Specify the beginning date.

If you specified an existing date, Figure 14-18 displays.

```
Log entry 6 was for date range MAR 2, 2007 through JUN 16, 2007
And generated 44 transactions from 67 records.

This routine will generate      transactions.

Do you want to regenerate the transactions for this run? N//
```

Figure 14-18: Sample information about re-generate transactions

### 14.2.5 Re-set Data Export Log (RSET)

Use the RSET option to reset the BH Data Transmission Log. You must be absolutely sure that you have corrected the underlying problem that caused the Transmission process to fail in the first place.

The BH Data Transmission log entry you choose will be **REMOVED** from the log file and all Utility and Data globals associated with that run will be killed!

**You must now select the Log Entry to be reset. <Select carefully>**

The BH Data Transmission log entry you choose will be *removed* from the log file and all Utility and Data globals associated with that run will be killed.

### 14.2.6 Check Records Before Export (CHK)

Use the CHK option to review all records that were posted to the BH database since the last export. It will review all records that were posted from the day after the last date of that run up until two days ago.

Figure 14-19 shows the BH Export Record Review report.

DEMO INDIAN HOSPITAL BH EXPORT RECORD REVIEW						Page 1
Record Posting Dates: APR 19, 2009 and APR 20, 2009						
RECORD DATE	PATIENT	HRN	PGM	TYPE	ACT TYPE

RUN TIME (H.M.S): 0.0.0						
End of report. PRESS ENTER:						

Figure 14-19: Sample report about records before export

### 14.2.7 Print Error List for Export (ERRS)

Use the ERRS option to print/browse the report that shows all records that have been posted to the database and are still in error AFTER the latest Export/Generation.

If the records are listed here, they aren't passing to PCC and the billing package.

Below are the prompts.

Select MHSS EXTRACT LOG BEGINNING DATE

Specify the extract log beginning date. (You can view the extract date by typing a question mark [?] at this prompt.)

**Note:** Use the Check Records before Export option to determine all errors before running the generation. Correct these remaining errors before the next export/generation.

DEVICE

Specify the device to print/browse the report.

Figure 14-20 shows the MHSS Extract Log Error Report.

MHSS EXTRACT LOG ERROR REPORT						APR 20, 2009 13:15	PAGE 1
VISIT DATE	PATIENT	HRN	PGM	TYPE	ACT TYPE

ERROR: E023-NO AFFILIATION FOR PROVIDER

Press ENTER to Continue:

```

Figure 14-20: Sample MHSS Extract Log Error Report

## 14.2.8 Create OUTPUT File (OUTP)

Use the OUTP option to create an output file. Consult with the site manager on how to create an RPMS export.

## 14.2.9 Set Automated Export Option (SAE)

These options control the destination of the BHSX Export once it is generated. If no selection is made the application comes set with option **1 Automatically Send Export to HQ**.

Select HSS SITE Parameters

Use the site parameter to set the destination for the export file.

Auto Export Option

Use one of the following: **1 Automatically Send Export to HQ, 2 Automatically Send Export to Area, 3 Automatically Send Export to Both Area and HQ, 4 Do Not Automatically Send Exports.**

## 14.3 Re-Set Patient Flag Field Data (RPFF)

Use the RPFF option to reset all patient flag fields to null. This should be done each time you want to flag patients for a different reason. You can reset one particular flag or all flags. You may use this reset option to reassign a particular flag or all flags as needed.

Below are the prompts.

Reset which flags

Use one of the following: **A** (all flags) or **O** (one particular flag). If you use **O**, other prompts will display.

Are you sure you want to do this?

Use **Y** or **N**. If you use **Y**, Figure 14-21 shows the information:

```

Hold on... resetting data..

```

All done.

Figure 14-21: Information from the application about the reset process

## 14.4 Display Log of Who Edited Record (DLWE)

Use the DLWE option to display a list of who edited a BH record.

Below are the prompts.

Enter ENCOUNTER DATE

Specify the date of the encounter.

Enter LOCATION OF ENCOUNTER

If known, specify the location. Otherwise, press Enter.

Enter PATIENT

Specify the name of the patient.

Figure 14-22 shows the Behavioral Health Visits for the date specified. The following examples were visits with no location and no patient.

```

-----
Behavioral Health visits for Dec 10, 2015
-----
# PROVIDER LOC COMMUNITY ACT CONT PATIENT PROB NARRATIVE
-----

APR 10,2009 12:01 BETAAAA,BJ
    
```

```
End of report. Press enter:
```

Figure 14-23: Sample report about visit data of a particular record

## 14.5 Add/Edit Local Service Sites (ELSS)

Use the ELSS option to add/edit location service sites. If you add a new location service site, you give it a name and abbreviation. Counts of these visits can be recovered using the GEN option in Encounter Reports or ACT in the Workload reports.

The prompts are below.

Select MHSS LOCAL SERVICE SITES

Specify a new or existing local service site. Specify a new service site using 3–30 characters.

If you specify a new service site, the application confirms that you are adding this new service site (use Y or N); if you use N, the above prompt repeats.

If you specify an existing factor, for example, HEADSTART, the application displays the following prompt:

LOCAL SERVICE SITE: HEADSTART//

You can accept the existing service site by pressing Enter. Otherwise, you can give it a new service site name.

ABBREVIATION: HEAD

You can accept the abbreviation of the existing service site by pressing Enter. Otherwise, you can give it another abbreviation.

## 14.6 Add Personal History Factors to Table (EPHX)

Use the EPHX option to add personal history factors to the four-item list initially identified for use in BH programs. Added items will be shown as items in the **Personal History** field any place this option exists in a **Select** or **Print** field in the GEN reports.

The prompts are below.

Enter a PERSONAL HISTORY FACTOR

Specify a new or existing personal history factor. If you use a new factor, using 3–30 characters, with no numeric or starting with punctuation.

If you specify a new factor, the application confirms that you are adding this new factor (use Y or N); if you use N, the above prompt repeats.

If you specify an existing factor, for example, FAS, the application displays the following prompt:

FACTOR: FAS//

You can accept the existing factor by pressing Enter. Otherwise, you can give it a new factor name.

## 14.7 Delete BH General Retrieval Report Definitions (DRD)

Use the DRD option to delete a PCC Visit or Patient General Retrieval report definition. This option enables the user to delete a PCC Visit or Patient General Retrieval report definition. For example, if a provider had created multiple report definitions using GEN or PGEN and saved the logic, these reports may be deleted when the provider leaves the facility.

The prompts are below.

REPORT NAME

Specify the name of the report whose definition you want to remove. Use a question mark (?) at this prompt to view a list of existing definitions.

Are you sure you want to delete the [report name] definition?

The [report name] is the name of the report you specified in the previous prompt. Use Y or N at this confirmation prompt.

## 14.8 Edit Other EHR Clinical Problem Code Crosswalk (EEPC)

Use the EEPC option to loop through all MHSS PROBLEM/DSM-5 table entries created by EHR users to change the grouping from the generic 99.9 OTHER EHR CLINICAL grouping to a more specific MHSS PROBLEM CODE grouping.

In the RPMS behavioral health applications, the Purpose of Visit (POV) is recorded as either a BH Problem Code or DSM-5 code. For the purpose of reports, these codes are grouped within larger problem code groupings and then again in overarching categories. For example, DSM-5 code F32.0 Major Depressive Disorder, Single Episode, Mild is also stored as problem code grouping 14 Depressive Disorders and problem category Psychosocial Problems.

In the RPMS EHR, the POV is recorded using ICD-10 or SNOMED codes that are mapped to ICD codes and pulled into AMH, not DSM-5 codes. Many ICD and DSM numeric codes are identical. There may be instances when a provider selects an ICD code that does not have a matching DSM code. When this occurs, it will be dynamically added to the MHSS PROBLEM/DSM-5 table. Once the ICD code is in the MHSS PROBLEM/DSM-5 table, then it is accessible to users in AMH as well.

These ICD codes that have been added to the MHSS PROBLEM/DSM-5 table will not have been automatically assigned to the appropriate BH problem code group. To ensure that these ICD codes are captured in AMH reports that have the option to include problem code groupings, a site can manually assign the code to the appropriate group. The assignment of this code to a group only needs to be done one time.

Below are sample prompts for a site.

- **CODE: V72.3**
- **ICD Narrative: GYNECOLOGIC EXAMINATION**

#### **Enter the Problem Code Grouping**

Specify the grouping code for the above Code and ICD Narrative.

The application provides you with the caret (^) option so that you don't have to go all the way through the entries.

## 14.9 Update Locations a User Can See (UU)

Use the UU option to specify the location a user can view in this application.

AMH v4.0 contains a new field called **BH User** that will permit a site to screen the locations that a user may access to view or enter information.

If a site wants to limit the visits by location that a BH user can access then they will enter that user into this file and list all the facilities/locations that that user is allowed to see or access. If an entry is made in this file for a user, that user will only be able to look up patients with a health record at those facilities, only patients with health records at those facilities will display on patient lists and reports, and that user will only be able to view/access visits to those locations. If a user is not entered into this file, that person will be able to see visits to all locations. This file will only be updated if a site is multi-divisional and there is a need to restrict the viewing of data between sites.

### Select BH USER NAME

Specify the user you want to use. This will add the user to the BH User file. A ScreenMan screen will pop-up and the manager can enter all of the locations that the user is able to access or see on the screen.

Figure 14-24 shows the **Update Visit Locations a User can See** window.

```
**** Update Visit Locations a User can See ****
USER: BETA,LORI

Location: DEMO INDIAN HOSPITAL
Location: SELLS HOSP
Location:
Location:
Location:

COMMAND:                                     Press <PF1>H for help   Insert
```

Figure 14-24: Sample **Update Visit Locations a User can See** window

#### Location

Specify the location that the user can view in this application.

You can specify more than one location. If this is the case, use the next **Location** field.

In the above example, the provider Lori Beta will only be able to access visits to Demo Indian Hospital and Sells Hospital. If a patient that she is treating had a visit to Phoenix Hospital, she would not see that visit information. This logic applies to any option that displays or reports on visit data. For example, Lori Beta chooses option “Browse Visits,” she would not see any visit in the visit list that was to a location other than the two listed above.

## Appendix A: Activity Codes and Definitions

AMH activity codes are presented here by category for ease in reviewing and locating particular codes. The category labels are for organizational purposes only and cannot be used alone to report activities. However, aggregate reports can be organized by these activity categories.

All the Activity Codes shown with a three-letter acronym are assumed to involve services to a specific patient. During the data entry process, if you enter one of these activity codes, you must also enter the patient's name so that the data you enter can be added to the patient's visit file.

### A.1 Patient Services - Patient Always Present (P)

Direct services provided to a specific person (client/patient) to diagnose and prognosticate (describe, predict, and explain) the recipient's mental health status relative to a disabling condition or problem; and, where indicated, to treat and/or rehabilitate the recipient to restore, maintain, or increase adaptive functioning.

#### **01–Twelve Step Work – Group (TSG)**

Twelve Step work facilitation in a group setting; grounded in the concept of the Twelve Step model of recovery and that the problem—alcoholism, drug dependence, overeating, etc.—is a disease of the mind, body, and spirit.

#### **02–Twelve Step Work - Individual (TSI)**

Twelve Step work facilitation in an individual setting grounded in the concept of the Twelve Step model of recovery and that the problem—alcoholism, drug dependence, overeating, etc.—is a disease of the mind, body, and spirit.

#### **03–Twelve Step Group (TSG)**

Participation in a Twelve Step recovery group, including but not limited to AA, NA, Alateen, Al-Anon, CoDA (Co-dependents Anonymous).and OA (Overeaters Anonymous).

#### **04-Re-assessment, Patient Present (RAS)**

Formal assessment activities intended to reevaluate the patient's diagnosis and problem. These services are used to document the nature and status of the recipient's condition and serve as a basis for formulating a plan for subsequent services.

**11-Screening (SCN)**

Services provided to determine in a preliminary way the nature and extent of the recipient's problem in order to link him/her to the most appropriate and available resource.

**12-Assessment/Evaluation (EVL)**

Formal assessment activities intended to define or delineate the client/patient's diagnosis and problem. These services are used to document the nature and status of the recipient's condition and serve as a basis for formulating a plan for subsequent services.

**13-Individual Treatment/Counseling/Education (IND)**

Prescribed services with specific goals based on diagnosis and designed to arrest, reverse, or ameliorate the client/patient's disease or problem. The recipient in this case is an individual.

**15-Information and/or Referral (REF)**

Information services are those designed to impart information on the availability of clinical resources and how to access them. Referral services are those that direct or guide a client/patient to appropriate services provided outside of your organization.

**16-Medication/Medication Monitoring (MED)**

Prescription, administration, assessment of drug effectiveness, and monitoring of potential side effects of psychotropic medications.

**17-Psychological Testing (TST)**

Examination and assessment of client/patient's status through the use of standardized psychological, educational, or other evaluative test. Care must be exercised to assure that the interpretations of results from such testing are consistent with the socio-cultural milieu of the client/patient.

**18-Forensic Activities (FOR)**

Scientific and clinical expertise applied to legal issues in legal contexts embracing civil, criminal, and correctional or legislative matters.

**19-Discharge Planning (DSG)**

Collaborative service planning with other community caregivers to develop a goal-oriented follow-up plan for a specific client/patient.

**20-Family Facilitation (FAC)**

Collection and exchange of information with significant others in the client/patient's life as part of the clinical intervention.

**21-Follow-through/Follow-up (FOL)**

Periodic evaluative review of a specific client/patient's progress after discharge.

**22-Case Management (CAS)**

Focus is on a coordinated approach to the delivery of health, substance abuse, mental health, and social services, linking clients with appropriate services to address specific needs and achieve stated goals. May also be called Care Management and/or Service Coordination.

**23-Other Patient Services not identified here (OTH)**

Any other patient services not identified in this list of codes.

**47-Couples Treatment (CT)**

Therapeutic discussions and problem-solving sessions facilitated by a therapist sometimes with the couple or sometimes with individuals.

**48-Crisis Intervention (CIP)**

Short-term intervention of therapy/counseling and/or other behavioral health care designed to address the presenting symptoms of an emergency and to ameliorate the client's distress.

**85-Art Therapy (ART)**

The application of a variety of art modalities (drawing, painting, clay, and other mediums), by a professional Art Therapist, for the treatment and assessment of behavioral health disorders; based on the belief that the creative process involved in the making of art is healing and life enhancing.

**86-Recreation Activities (REC)**

Recreation and leisure activities with the purpose of improving and maintaining clients'/patients' general health and well-being.

**88-Acupuncture (ACU)**

The use of the Chinese practice of Acupuncture in the treatment of addiction disorders (including withdrawal symptoms and recovery) and other behavioral health disorders.

**89-Methadone Maintenance (MET)**

Methadone used as a substitute narcotic in the treatment of heroin addiction; administered by a federally licensed methadone maintenance agency under the supervision of a physician. Services include methadone dosing, medical care, counseling and support and disease prevention and health promotion.

**90–Family Treatment (FAM)**

Family-centered therapy with an emphasis on the client/patient’s functioning within family systems and the recognition that addiction and behavioral health disorders have relational consequences; often brief and solution focused.

**91–Group Treatment (GRP)**

This form of therapy involves groups of patients/clients who have similar problems that are especially amenable to the benefits of peer interaction and support and who meet regularly with a group therapist or facilitator.

**92–Adventure Based Counseling (ABC)**

The use of adventure-based practice to effect a change in behaviors (both increasing function and positive action and decreasing dysfunction and negative action) as it relates to health and/or mental health.

**93–Relapse Prevention (REL)**

Relapse prevention approaches seek to teach patients concrete strategies for avoiding drug use episodes. These include the following:

- Cataloging situations likely to lead to alcohol/drug use (high-risk situations)
- Strategies for avoiding high-risk situations
- Strategies for coping with high-risk situations when encountered
- Strategies for coping with alcohol/drug cravings
- Strategies for coping with lapses to drug use to prevent full-blown relapses

**94–Life Skills Training (LST)**

Psychosocial and interpersonal skills training designed to help a patient or patients make informed decisions, communicate effectively, and develop coping and self-management skills.

**95–Cultural Activities - Pt. Present (CUL)**

Participation in educational, social, or recreational activities for the purpose of supporting a client/patient’s involvement, connection, and contribution to the patient’s cultural background.

**96–Academic Services (ACA)**

Provision of alternative schooling under the guidelines of the state education program.

**97–Health Promotion (HPR)**

Any activities that facilitate lifestyle change through a combination of efforts to enhance awareness, change behavior, and create environments that support good health practices.

**A.2 Support Services - Patient Not Present (S)**

Indirect services (e.g., information gathering, service planning, and collaborative efforts) undertaken to support the effective and efficient delivery or acquisition of services for specific clients/patients. These services, by definition, do not involve direct recipient contact. Includes:

**05-Re-assessment, Patient Not Present**

Reassessment or reevaluation activities when patient is not present at time of service delivery.

**24-Material/Basic Support (SUP)**

Support services required to meet the basic needs of the client/patient for food, shelter, and safety.

**25-Information and/or Referral (INF)**

Information services are those designed to impart information on the availability of clinical resources and how to access them. Referral services are those that direct or guide a client/patient to appropriate services provided outside of your organization

**26-Medication/Medication Monitoring (MEA)**

Prescription, assessment of drug effectiveness, and monitoring of potential side effects of psychotropic medications. Patient is not present at the time of service delivery.

**27-Forensic Activities (FOA)**

Scientific and clinical expertise applied to legal issues in legal contexts embracing civil, criminal, and correctional or legislative matters. Patient is not present at time of service delivery.

**28-Discharge Planning (DSA)**

Collaborative service planning with other community caregivers to develop a goal oriented follow-up plan for a specific client/patient.

**29-Family Facilitation (FAA)**

Collection and exchange of information with significant others in the client/patient's life as part of the clinical intervention.

**30-Follow-up/Follow-through (FUA)**

Periodic evaluative review of a specific client/patient's progress after discharge.

**31-Case Management (CAA)**

Focus is on a coordinated approach to the delivery of health, substance abuse, mental health, and social services, linking clients/patients with appropriate services to address specific needs and achieve stated goals. May also be called Care Management and/or Service Coordination. Patient is not present at the time of service delivery.

**33-Technical Assistance**

Task-specific assistance to achieve an identified end.

**34-Other Support Services**

Any other ancillary, adjunctive, or collateral services not identified here.

**44-Screening**

Activities associated with patient/client screening where no information is added to the patient/client's file.

**45-Assessment/Evaluation**

Assessment or evaluation activities when patient is not present at time of service delivery.

**49-Crisis Intervention (CIA)**

Patient is not present. Short-term intervention of therapy/counseling and/or other behavioral healthcare designed to address the presenting symptoms of an emergency and to ameliorate the client's distress.

**A.3 Community Services (C)**

Assistance to community organizations, planning groups, and citizens' efforts to develop solutions for community problems. Includes the following:

**35-Collaboration**

Collaborative effort with other agency or agencies to address a community request.

**36-Community Development**

Planning and development efforts focused on identifying community issues and methods of addressing these needs.

**37-Preventive Services**

Activity, class, project, public service announcement, or other activity whose primary purpose is to prevent the use/abuse of alcohol or other substances and/or improve lifestyles, health, image, etc.

**38-Patient Transport**

Transportation of a client to or from an activity or placement, such as a medical appointment, program activity, or from home.

**39-Other Community Services**

Any other form of community services not identified here.

**40-Referral**

Referral of a client to another agency, counselor, or resource for services not available or provided by the referring agency/program. Referral is limited to providing the client with information and might extend to calling and setting up appointments for the client.

**87-Outreach**

Activities designed to locate and educate potential clients and motivate them to enter and accept treatment.

**A.4 Education Training (E)**

Participation in any formal program leading to a degree or certificate or any structured educational process designed to impart job related knowledge, attitudes, and skills. Includes:

**41- Education/Training Provided****42- Education/Training Received****43- Other Education/Training****A.5 Administration (A)**

Activities for the benefit of the organization and/or activities that do not fit into any of the above categories. Includes:

**32-Clinical Supervision Provided**

Clinical supervision is a process based upon a clinically-focused professional relationship between the practitioner engaged in professional practice and a clinical supervisor.

**50-Medical Rounds (General)**

On the inpatient unit, participation in rounds designed to address active medical/psychological issues with all members of the treatment team and to develop management plans for the day.

**51-Committee Work**

Participation in the activities of a body of persons delegated to consider, investigate, take action on, or report on some matter.

**52-Surveys/Research**

Participation in activities aimed at identification and interpretation of facts, revision of accepted theories in the light of new facts, or practical application of such new or revised theories.

**53-Program Management**

The practice of leading, managing, and coordinating a complex set of cross-functional activities to define, develop, and deliver client services and to achieve agency/program objectives.

**54-Quality Improvement**

Participation in activities focused on improving the quality and appropriateness of medical or behavioral healthcare and other services. Includes a formal set of activities to review, assess, and monitor care to ensure that identified problems are addressed.

**55-Supervision**

Participation in activities to ensure that personnel perform their duties effectively. This code does not include clinical supervision.

**56-Records/Documentation**

Review of clinical information in the medical record/chart or documentation of services provided to or on behalf of the client. This does not include the time spent in service delivery.

**57-Child Protective Team Activities**

Participation in a multi-disciplinary child protective team to evaluate alleged maltreatments of child abuse and neglect, assess risk and protective factors, and provide recommendations for interventions to protect children and enhance their caregiver's capacity to provide a safer environment when possible.

**58-Special Projects**

A specifically-assigned task or activity which is completed over a period of time and intended to achieve a particular aim.

**59-Other Administrative**

Any other administrative activities not identified in this section.

**60-Case Staffing (General)**

A regular or ad-hoc forum for the exchange of clinical experience, ideas and recommendations.

**66-Clinical Supervision Received**

Clinical supervision is a process based upon a clinically-focused professional relationship between the practitioner engaged in professional practice and a clinical supervisor.

**A.6 Consultation (L)**

Problem-oriented effort designed to impart knowledge, increase understanding and insight, and/or modify attitudes to facilitate problem resolution. Includes:

**61-Provider Consultation (PRO)**

Focus is a specific patient and the consultation is with another service provider. The purpose of the consultation is of a diagnostic or therapeutic nature. Patient is never present.

**62-Patient Consultation (Chart Review Only) (CHT)**

Focus is a specific patient and the consultation is a review of the medical record only. The purpose of the consultation is of a diagnostic or therapeutic nature. Patient is never present.

**63-Program Consultation**

Focus is a programmatic effort to address specific needs.

**64-Staff Consultation**

Focus is a provider or group of providers addressing a type or class of problems.

**65-Community Consultation**

Focus is a community effort to address problems. Distinguished from community development in that the consultant is not assumed to be a direct part of the resultant effort.

## A.7 Travel (T)

### **71-Travel Related to Patient Care**

Staff travel to patient's home or other locations – related to provision of care. Patient is not in the vehicle.

### **72 Travel Not Related to Patient Care**

Staff travel to meetings, community events, etc.

## A.8 Placements (PL)

### **75-Placement (Patient Present) (OHP)**

Selection of an appropriate level of service, based on assessment of a patient's individual needs and preferences.

### **76-Placement (Patient Not Present) (OHA)**

Selection of an appropriate level of service, based on assessment of a patient's individual needs and preferences. This activity might include follow-up contacts, additional research, or completion of placement/referral paperwork when the patient is not present.

## A.9 Cultural Issues (O)

### **81-Traditional Specialist Consult (Patient Not Present) (TRA)**

Seeking recommendation or service from a recognized Indian spiritual leader or Indian doctor with the patient present. Such specialists can be called in either as advisors or as direct providers, when agreed upon between client and counselor.

### **82-Traditional Specialist Consult (Patient Not Present) (TRA)**

Seeking evaluation, recommendations, or service from a recognized Indian spiritual healer or Indian doctor (patient not present). Such specialists can be called in either as advisors or as direct providers, when agreed upon between client and counselor.

### **83-Tribal Functions**

Services offered during or in the context of a traditional tribal event, function, or affair—secular or religious. Community members gather to help and support individuals and families in need.

**84-Cultural Education to Non-Tribal Agency/Personnel**

The education of non-Indian service providers concerning tribal culture, values, and practices. This service attempts to reduce the barriers members face in seeking services.

## Appendix B: Activity Codes that Pass to PCC

Activity Code	Description	Pass to PCC
01	Twelve Step Work – Group (TSG)	Yes
02	Twelve Step Work – Individual (TSI)	Yes
03	Twelve Step Group (TWG)	No
04	Re-Assessment, Patient Present	Yes
05	Re-Assessment, Patient Not Present	No
11	Screening – Patient Present (SCN)	Yes
12	Assessment/Evaluation – Patient Present (EVL)	Yes
13	Individual Treatment/Counsel/Education – Pt. Present (IND)	Yes
15	Information and Referral – Patient Present (REF)	Yes
16	Medication/Medication Monitoring – Pt. Present (MED)	Yes
17	Psychological Testing – Patient Present (TST)	Yes
18	Forensic Activities – Patient Present (FOR)	Yes
19	Discharge Planning – Patient Present (DSG)	Yes
20	Family Facilitation –Patient Present (FAC)	Yes
21	Follow Through/Follow Up – Patient Present (FOL)	Yes
22	Case Management – Patient Present (CAS)	Yes
23	Other Patient Services Not Identified – Patient Present (OTH)	Yes
24	Material/Basic Support – Patient Not Present (SUP)	No
25	Information and/or Referral – Patient Not Present (INF)	No
26	Medication/Medication Monitoring – Pt. Not Present (MEA)	Yes
27	Forensic Activities – Patient Not Present (FOA)	No
28	Discharge Planning – Patient Not Present (DSA)	No
29	Family Facilitation – Patient Not Present (FAA)	No
30	Follow Through/Follow Up – Patient Not Present (FUA)	No
31	Case Management – Patient Not Present (CAA)	Yes
32	Clinical Supervision Provided	No
33	Technical Assistance – Patient Not Present	No
34	Other Support Services – Patient Not Present	No
35	Collaboration	No
36	Community Development	No
37	Preventive Services	No
38	Patient Transport	No
39	Community Services	No
40	Referral	No
41	Education/Training Provided	No
42	Education/Training Received	No
43	Other Education/Training	No
44	Screening – Patient Not Present	No
45	Assessment/Evaluation – Patient Not Present	No
47	Couples Treatment – Patient Present (CT)	Yes
48	Crisis Intervention – Patient Present (CIP)	Yes

<b>Activity Code</b>	<b>Description</b>	<b>Pass to PCC</b>
49	Crisis Intervention – Patient Not Present (CIA)	No
50	Medical Rounds (General)	No
51	Committee Work	No
52	Surveys/Research	No
53	Program Management	No
54	Quality Improvement	No
55	Supervision	No
56	Records/Documentation	No
57	Child Protective Team Activities	No
58	Special Projects	No
59	Other Administrative	No
60	Case Staffing (General)	No
61	Provider Consultation (PRO)	Yes
62	Patient Consultation (Chart Review) (CHT)	Yes
63	Program Consultation	No
64	Staff Consultation	No
65	Community Consultation	No
66	Clinical Supervision Received	No
71	Travel Related to Patient Care	No
72	Travel Not Related to Patient Care	No
75	Placement – Patient Present (OHP)	Yes
76	Placement – Patient Not Present (OHA)	No
81	Traditional Specialist Consult – Patient Present (TRD)	Yes
82	Traditional Specialist Consult – Patient Not Present (TRA)	No
83	Tribal Functions	No
84	Cultural Education to Non-Tribal Agency/Personnel	No
85	Art Therapy (ART)	Yes
86	Recreation Activities (REC)	No
87	Outreach	No
88	Acupuncture (ACU)	Yes
89	Methadone Maintenance (MET)	Yes
90	Family Treatment (FAM)	Yes
91	Group Treatment (GRP)	Yes
92	Adventure Based Counseling (ABC)	Yes
93	Relapse Prevention (REL)	Yes
94	Life Skills Training (LST)	Yes
95	Cultural Activities (CUL)	No
96	Academic Services (ACA)	No
97	Health Promotion (HPR)	Yes

## Appendix C: DSM Copyright and Trademark Information

### C.1 10.2 Copyright

In all instances where any portion of the WORK or DSM-5 appears, the source and copyright status of the material must appear where the text appears and in all marketing materials. The following notice shall be used:

*\*Reprinted with permission from the Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition. ™ Copyright ©2013 American Psychiatric Association. All Rights Reserved.*

*Unless authorized in writing by the APA, no part may be reproduced or used in a manner inconsistent with the APA's copyright. This prohibition applies to unauthorized uses or reproductions in any form.*

*The American Psychiatric Association is not affiliated with and is not endorsing this product.*

To the extent that such notice or any other copyright management information is embedded in the electronic product, LICENSEE agrees that it will not alter it or delete it. LICENSEE further agrees to require all USERS of its PRODUCT to maintain such copyright management information in its original form as provided by LICENSOR.

### C.2 10.3 Trademark

LICENSEE acknowledges that DSM and DSM-5 are registered trademarks of the American Psychiatric Association and may not be used commercially without prior approval. LICENSOR grants to LICENSEE permission to use the DSM and DSM-5 trademarks on a non-exclusive basis, as part of the PRODUCT, only with proper notice and only as necessary to accomplish LICENSEE's purpose as set out in Paragraph 1.2, above. The following notice shall be used:

*\*DSM and DSM-5 are registered trademarks of the American Psychiatric Association, and are used with permission herein. Use of these terms is prohibited without person of the American Psychiatric Association.*

## Appendix D: Rules of Behavior

The Resource and Patient Management (RPMS) system is a United States Department of Health and Human Services (HHS), Indian Health Service (IHS) information system that is **FOR OFFICIAL USE ONLY**. The RPMS system is subject to monitoring; therefore, no expectation of privacy shall be assumed. Individuals found performing unauthorized activities are subject to disciplinary action including criminal prosecution.

All users (Contractors and IHS Employees) of RPMS will be provided a copy of the Rules of Behavior (ROB) and must acknowledge that they have received and read them prior to being granted access to a RPMS system, in accordance IHS policy.

- For a listing of general ROB for all users, see the most recent edition of *IHS General User Security Handbook* (SOP 06-11a).
- For a listing of system administrators/managers rules, see the most recent edition of the *IHS Technical and Managerial Handbook* (SOP 06-11b).

Both documents are available at this IHS Web site: <http://security.ihs.gov/>.

The ROB listed in the following sections are specific to RPMS.

### D.1 All RPMS Users

In addition to these rules, each application may include additional ROB's that may be defined within the documentation of that application (e.g., Dental, Pharmacy).

#### D.1.1 Access

RPMS users shall

- Only use data for which you have been granted authorization.
- Only give information to personnel who have access authority and have a need to know.
- Always verify a caller's identification and job purpose with your supervisor or the entity provided as employer before providing any type of information system access, sensitive information, or nonpublic agency information.
- Be aware that personal use of information resources is authorized on a limited basis within the provisions *Indian Health Manual* Part 8, "Information Resources Management," Chapter 6, "Limited Personal Use of Information Technology Resources."

RPMS users shall not

- Retrieve information for someone who does not have authority to access the information.

- Access, research, or change any user account, file, directory, table, or record not required to perform their *official* duties.
- Store sensitive files on a PC hard drive, or portable devices or media, if access to the PC or files cannot be physically or technically limited.
- Exceed their authorized access limits in RPMS by changing information or searching databases beyond the responsibilities of their jobs or by divulging information to anyone not authorized to know that information.

### D.1.2 Information Accessibility

RPMS shall restrict access to information based on the type and identity of the user. However, regardless of the type of user, access shall be restricted to the minimum level necessary to perform the job.

RPMS users shall

- Access only those documents they created and those other documents to which they have a valid need-to-know and to which they have specifically granted access through an RPMS application based on their menus (job roles), keys, and FileMan access codes. Some users may be afforded additional privileges based on the functions they perform, such as system administrator or application administrator.
- Acquire a written preauthorization in accordance with IHS policies and procedures prior to interconnection to or transferring data from RPMS.

### D.1.3 Accountability

RPMS users shall

- Behave in an ethical, technically proficient, informed, and trustworthy manner.
- Log out of the system whenever they leave the vicinity of their personal computers (PCs).
- Be alert to threats and vulnerabilities in the security of the system.
- Report all security incidents to their local Information System Security Officer (ISSO).
- Differentiate tasks and functions to ensure that no one person has sole access to or control over important resources.
- Protect all sensitive data entrusted to them as part of their government employment.
- Abide by all Department and Agency policies and procedures and guidelines related to ethics, conduct, behavior, and information technology (IT) information processes.

#### D.1.4 Confidentiality

RPMS users shall

- Be aware of the sensitivity of electronic and hard copy information, and protect it accordingly.
- Store hard copy reports/storage media containing confidential information in a locked room or cabinet.
- Erase sensitive data on storage media prior to reusing or disposing of the media.
- Protect all RPMS terminals from public viewing at all times.
- Abide by all Health Insurance Portability and Accountability Act (HIPAA) regulations to ensure patient confidentiality.

RPMS users shall not

- Allow confidential information to remain on the PC screen when someone who is not authorized to that data is in the vicinity.
- Store sensitive files on a portable device or media without encrypting.

#### D.1.5 Integrity

RPMS users shall

- Protect their systems against viruses and similar malicious programs.
- Observe all software license agreements.
- Follow industry standard procedures for maintaining and managing RPMS hardware, operating system software, application software, and/or database software and database tables.
- Comply with all copyright regulations and license agreements associated with RPMS software.

RPMS users shall not

- Violate federal copyright laws.
- Install or use unauthorized software within the system libraries or folders.
- Use freeware, shareware, or public domain software on/with the system without their manager's written permission and without scanning it for viruses first.

#### D.1.6 System Logon

RPMS users shall

- Have a unique User Identification/Account name and password.

- Be granted access based on authenticating the account name and password entered.
- Be locked out of an account after five successive failed login attempts within a specified time period (e.g., one hour).

### D.1.7 Passwords

RPMS users shall

- Change passwords a minimum of every 90 days.
- Create passwords with a minimum of eight characters.
- If the system allows, use a combination of alpha-numeric characters for passwords, with at least one uppercase letter, one lower case letter, and one number. It is recommended, if possible, that a special character also be used in the password.
- Change vendor-supplied passwords immediately.
- Protect passwords by committing them to memory or store them in a safe place (do not store passwords in login scripts or batch files).
- Change passwords immediately if password has been seen, guessed, or otherwise compromised, and report the compromise or suspected compromise to their ISSO.
- Keep user identifications (IDs) and passwords confidential.

RPMS users shall not

- Use common words found in any dictionary as a password.
- Use obvious readable passwords or passwords that incorporate personal data elements (e.g., user's name, date of birth, address, telephone number, or social security number; names of children or spouses; favorite band, sports team, or automobile; or other personal attributes).
- Share passwords/IDs with anyone or accept the use of another's password/ID, even if offered.
- Reuse passwords. A new password must contain no more than five characters per eight characters from the previous password.
- Post passwords.
- Keep a password list in an obvious place, such as under keyboards, in desk drawers, or in any other location where it might be disclosed.
- Give a password out over the phone.

### D.1.8 Backups

RPMS users shall

- Plan for contingencies such as physical disasters, loss of processing, and disclosure of information by preparing alternate work strategies and system recovery mechanisms.
- Make backups of systems and files on a regular, defined basis.
- If possible, store backups away from the system in a secure environment.

### D.1.9 Reporting

RPMS users shall

- Contact and inform their ISSO that they have identified an IT security incident and begin the reporting process by providing an IT Incident Reporting Form regarding this incident.
- Report security incidents as detailed in the *IHS Incident Handling Guide* (SOP 05-03).

RPMS users shall not

- Assume that someone else has already reported an incident. The risk of an incident going unreported far outweighs the possibility that an incident gets reported more than once.

### D.1.10 Session Timeouts

RPMS system implements system-based timeouts that back users out of a prompt after no more than 5 minutes of inactivity.

RPMS users shall

- Utilize a screen saver with password protection set to suspend operations at no greater than 10 minutes of inactivity. This will prevent inappropriate access and viewing of any material displayed on the screen after some period of inactivity.

### D.1.11 Hardware

RPMS users shall

- Avoid placing system equipment near obvious environmental hazards (e.g., water pipes).
- Keep an inventory of all system equipment.
- Keep records of maintenance/repairs performed on system equipment.

RPMS users shall not

- Eat or drink near system equipment.

### D.1.12 Awareness

RPMS users shall

- Participate in organization-wide security training as required.
- Read and adhere to security information pertaining to system hardware and software.
- Take the annual information security awareness.
- Read all applicable RPMS manuals for the applications used in their jobs.

### D.1.13 Remote Access

Each subscriber organization establishes its own policies for determining which employees may work at home or in other remote workplace locations. Any remote work arrangement should include policies that

- Are in writing.
- Provide authentication of the remote user through the use of ID and password or other acceptable technical means.
- Outline the work requirements and the security safeguards and procedures the employee is expected to follow.
- Ensure adequate storage of files, removal, and non-recovery of temporary files created in processing sensitive data, virus protection, and intrusion detection, and provide physical security for government equipment and sensitive data.
- Establish mechanisms to back up data created and/or stored at alternate work locations.

Remote RPMS users shall

- Remotely access RPMS through a virtual private network (VPN) whenever possible. Use of direct dial in access must be justified and approved in writing and its use secured in accordance with industry best practices or government procedures.

Remote RPMS users shall not

- Disable any encryption established for network, internet, and Web browser communications.

## D.2 RPMS Developers

RPMS developers shall

- Always be mindful of protecting the confidentiality, availability, and integrity of RPMS when writing or revising code.
- Always follow the IHS RPMS Programming Standards and Conventions (SAC) when developing for RPMS.
- Only access information or code within the namespaces for which they have been assigned as part of their duties.
- Remember that all RPMS code is the property of the U.S. Government, not the developer.
- Not access live production systems without obtaining appropriate written access, and shall only retain that access for the shortest period possible to accomplish the task that requires the access.
- Observe separation of duties policies and procedures to the fullest extent possible.
- Document or comment all changes to any RPMS software at the time the change or update is made. Documentation shall include the programmer's initials, date of change, and reason for the change.
- Use checksums or other integrity mechanism when releasing their certified applications to assure the integrity of the routines within their RPMS applications.
- Follow industry best standards for systems they are assigned to develop or maintain, and abide by all Department and Agency policies and procedures.
- Document and implement security processes whenever available.

RPMS developers shall not

- Write any code that adversely impacts RPMS, such as backdoor access, "Easter eggs," time bombs, or any other malicious code or make inappropriate comments within the code, manuals, or help frames.
- Grant any user or system administrator access to RPMS unless proper documentation is provided.
- Release any sensitive agency or patient information.

## D.3 Privileged Users

Personnel who have significant access to processes and data in RPMS, such as, system security administrators, systems administrators, and database administrators, have added responsibilities to ensure the secure operation of RPMS.

Privileged RPMS users shall

- Verify that any user requesting access to any RPMS system has completed the appropriate access request forms.
- Ensure that government personnel and contractor personnel understand and comply with license requirements. End users, supervisors, and functional managers are ultimately responsible for this compliance.
- Advise the system owner on matters concerning information technology security.
- Assist the system owner in developing security plans, risk assessments, and supporting documentation for the certification and accreditation process.
- Ensure that any changes to RPMS that affect contingency and disaster recovery plans are conveyed to the person responsible for maintaining continuity of operations plans.
- Ensure that adequate physical and administrative safeguards are operational within their areas of responsibility and that access to information and data is restricted to authorized personnel on a need-to-know basis.
- Verify that users have received appropriate security training before allowing access to RPMS.
- Implement applicable security access procedures and mechanisms, incorporate appropriate levels of system auditing, and review audit logs.
- Document and investigate known or suspected security incidents or violations and report them to the ISSO, Chief Information Security Officer (CISO), and systems owner.
- Protect the supervisor, superuser, or system administrator passwords.
- Avoid instances where the same individual has responsibility for several functions (i.e., transaction entry and transaction approval).
- Watch for unscheduled, unusual, and unauthorized programs.
- Help train system users on the appropriate use and security of the system.
- Establish protective controls to ensure the accountability, integrity, confidentiality, and availability of the system.
- Replace passwords when a compromise is suspected. Delete user accounts as quickly as possible from the time that the user is no longer authorized system. Passwords forgotten by their owner should be replaced, not reissued.
- Terminate user accounts when a user transfers or has been terminated. If the user has authority to grant authorizations to others, review these other authorizations. Retrieve any devices used to gain access to the system or equipment. Cancel logon IDs and passwords, and delete or reassign related active and backup files.

- Use a suspend program to prevent an unauthorized user from logging on with the current user's ID if the system is left on and unattended.
- Verify the identity of the user when resetting passwords. This can be done either in person or having the user answer a question that can be compared to one in the administrator's database.
- Shall follow industry best standards for systems they are assigned to, and abide by all Department and Agency policies and procedures.

Privileged RPMS users shall not

- Access any files, records, systems, etc., that are not explicitly needed to perform their duties
- Grant any user or system administrator access to RPMS unless proper documentation is provided.

Release any sensitive agency or patient information.

# Glossary

**Caret**

The symbol (^) obtained by pressing Shift-6.

**Command**

The instructions you give the computer to record a certain transaction. For example, selecting “Payment” or “P” at the command prompt tells the computer you are applying a payment to a chosen bill.

**Database**

A database is a collection of files containing information that may be used for many purposes. Storing information in the computer helps in reducing the user’s paperwork load and enables quick access to a wealth of information. Databases are comprised of fields, records, and files.

**Data Elements**

Data fields that are used in filling out forms in BHS.

**Default Response**

Many of the prompts in the BHS program contain responses that can be activated simply by pressing the Enter key. For example: “Do you really want to quit? No//.” Pressing the Enter key tells the system you do not want to quit. “No//” is considered the default response.

**Device**

The name of the printer to use when printing information. Home means the computer screen.

**Fields**

Fields are a collection of related information that comprises a record. Fields on a display screen function like blanks on a form. For each field, the application displays a prompt requesting specific types of data.

**FileMan**

The database management system for RPMS.

**Free Text Field**

This field type will accept numbers, letter, and most of the symbols on the keyboard. There may be restrictions on the number of characters that are allowed.

**Frequency**

The number of times a particular situation occurs in a given amount of time.

**Full Screen Editor**

A word processing system used by RPMS. The Full Screen Text Editor works like a traditional word processor, however, with limited functionality. The lines wrap automatically. The up, down, right, and left arrows move the cursor around the screen, and a combination of upper- and lower-case letters can be used.

**Interface**

A boundary where two systems can communicate.

**Line Editor**

A word-processing editor that allows editing text line-by-line.

**Menu**

The menu is a list of different options from which to select at a given time. To choose a specific task, select one of the items from the list by entering the established abbreviation or synonym at the appropriate prompt.

**Menu Tree/Tree Structure**

A tree structure is a way of representing the hierarchical nature of a structure in a graphical form. It is named a "tree structure" because the classic representation resembles a tree, even though the chart is generally upside down compared to an actual tree, with the "root" at the top and the "leaves" at the bottom.

**Prompt**

A field displayed onscreen indicating that the system is waiting for input. Once the computer displays a prompt, it waits for entry of some specific information.

**Roll-and-Scroll**

The roll-and-scroll data entry format captures the same information as the graphical user interface (GUI) format but uses a series of keyboard prompts and commands for entering data into RPMS. This method of data entry is sometimes referred to as CHUI – Character User Interface.

**Security Keys**

Tools used to grant/restrict access to certain applications, application features, and menus.

**Site Manager**
