FROM: Chief Medical Officer

SUBJECT: User Population Estimates — Fiscal Year 2021 Final

The fiscal year (FY) 2021 user population estimates are included in the attached tables. The FY 2021 user population estimates are the result of collaborative efforts with Tribes to reconcile and validate data. Following Tribal Consultation and Area review, the Indian Health Service (IHS) releases these estimates.

The statistical concept used by IHS staff to produce the estimates is the same as in prior years: an unduplicated count, by residence, of Indian registrants who have had direct encounters with, or who have contracted for, IHS inpatient, ambulatory (outpatient), or dental services during the past 3 years. Attached are tables containing the final user population estimates, data used to develop them, and a detailed description of each column.

As indicated in the December 10, 2003-dated Tribal Leader Letter, user counts are based on registration and encounter data received in National Patient Information Reporting System (NPIRS) repositories. If you have any questions, please contact Mr. Kirk Greenway, Director, Division of Program Statistics, IHS, by telephone at (301) 443-1180, or by e-mail at kirk.greenway@ihs.gov.

I want to thank everyone who contributed to developing the user population estimates, particularly NPIRS staff. Your assistance in resolving onsite technical issues and your dedication to American Indian and Alaska Native health care is much appreciated.

Loretta Christensen, M.D., M.B.A., M.S.J., F.A.C.S.

Attachments: Description of the Table Columns in the FY 2021 IHS User Population
Service Unit Tables
IHS User Population Estimates by Area and Service Unit – FY 2021

Description of the Table Columns in the FY 2021 IHS User Population Service Unit Tables

Column 1, Indian Registrants —

The column is the total count of Indian registrants in the Indian Health Service (IHS) National Patient Information Reporting System (NPIRS) Patient Registration database as of September 30, 2021. Their service unit of residence was used to tabulate the registrants.

A registrant is “Indian” if (1) the Tribe Code is designated as “Indian,” or (2) the Tribal designation is “unspecified,” and the classification, or the Indian blood quantum code is “Indian.”

Column 2, Active Indian Registrants —

The column contains the total count of Indian registrants in the NPIRS database who had at least one direct or contract inpatient stay, ambulatory care visit, or dental visit between October 1, 2018, and September 30, 2021.

Column 3, Indian User Population Estimate —

This column is, in most cases, the same as the number of Active Indian Registrants shown in Column 2. This count is not always the same as a list of members of a Tribe. This is because members must be seen in the past three years at an IHS or Tribal health facility and have at least one workload reportable encounter documented and electronically sent into the National Data Warehouse in one of the three standard formats (HL7, ASD, or Structured Delimited) from an electronic medical records system. Only three exceptions to this rule exist: (1) there was a negotiated figure for a Tribe that has been receiving services from the IHS for less than three years, (2) a minor technical issue resulted in miscalculation and was corrected, or (3) where county splits, community additions to service units negotiated in advance with the Tribes concerned are calculated by the Area Office and added to the table.

*Tribally Operated Service Unit

1/ Adjusted because of an agreed-upon percentage split of Delta County which is shared between two Eastern Michigan Service Unit Tribes (Sault Ste Marie and Little Traverse) and one Western Michigan Service Unit Tribe (Hannahville). Delta County is divided between the two service units by community in the UP1 and UP3 Tables. The three affected tribes receive credit for active users in Delta County regardless of which service unit their community of residence falls in. Eastern Michigan Service Unit tribes Little Traverse and Sault Ste Marie received credit for 32 (3.7%) and 638 (74.5%) of the active users in Delta County, respectively. The Western Michigan Service Unit Tribe, Hannahville, received credit for 186 (21.7%) of the active users in Delta county. This percent split resulted in 101 active users being moved from the Eastern Michigan Service Unit to the Western Michigan Service Unit.

2/ Subtract 13 for Huntington County, IN (1835), which is not in the Service Unit; subtract 2 for Michigan Unknown residents (2686). Subtract 39 from Eastern Michigan SU and add to Western Michigan SU for Delta County - see footnote 1/ above. These changes results in a -116 change to the estimate.

3/ Subtract 451 for Crow Wing County, MN (2/18); subtract 442 for Morrison County, MN (2749). Crow Wing and Morrison Counties are PRCDA expansion counties for which there has not been a Federal Register Final Notice as of 12/8/2021

4/ Add 101 to Delta County because of a county split between Eastern and Western Michigan Service Unit Tribes - see footnotes 1/ and 2/ above.

NW Band of Shoshoni	23	Yakama	11,793

-Table is reflective of Tribal Health Program and not historic Service Unit concept

-Per recommendation of Portland Area Fund Distribution Workgroup, the Portland Area Director has approved the following:

-Due to the Portland Area's unique situation where most Tribal CHSDA's are overlapping, resulting in multiple counties being shared by two or more Tribes, UP is determined through a combination of both Tribal affiliation and workload

- Each Tribe receives as part of its total UP all of its own Tribal members who reside in its CHSDA counties

-AI/AN who are not members of the Tribe(s) whose CHSDA county they reside in are Unaffiliateds. These unaffiliateds are apportioned among the Tribe(s) whose CHSDA includes that county, based on workload data accepted at the NDW
