Table of Contents

1.0 Introduction

Please review these changes and add a copy of them to any printed documentation your site may be using for the Indian Health Service (IHS) Patient Care Component (PCC) Suite (BJPC) v2.0. These changes will be integrated into future versions of the software and user manuals. These changes will no longer be considered an addendum at the time of the next version release.

This addendum only provides written guidance on changes made in the patch that are relevant to the user. To see a list of all changes please refer to the patch notes for each of the respective patches.

1.1 Summary of Changes

Patch 22 includes the following additions/changes to the BJPC functionality:

- New V Delivery (VDEL) mnemonic which allows users to document delivery and newborn birth information.

- Refused/Declined Service (REF) mnemonic modified to allow entry of both date and time.
