

RESOURCE AND PATIENT MANAGEMENT SYSTEM

VA Lexicon Utility

(LEX)

Installation Guide & Release Notes

Version 2.0

June 2004

Information Technology Support Center
Division of Information Resources
Albuquerque, New Mexico

Preface

This manual provides the site manager and the Area ISC the tools needed to install the various components of VA Lexicon Utility (LEX) v2.0. Included are release notes that should be shared with all users of the system and instructions for installing the package.

Revision History

Date	Location	Change
07/08/03	Section 3.0	Modified step 3 to read "Answer YES to all "Want to continue" questions."
07/23/03	Section 2.3	Changed AUTV to AUT.

- 3.0 Installation Instructions4**
 - 3.1 Sample Installation4
- 4.0 Contact Information9**

1.0 Release Notes

This VA utility will be used by future EHR applications. Simply install it on your system. There is no need to place the few menu options on any user's menu. The utility is accessed primarily by APIs called by other packages.

This utility uses the LEX namespace but also includes 2 GMPT and 4 ICPT routines. GMPT is the old namespace for Lexicon and these routines are still called by other VA applications. The ICPT routines are called by Lexicon and are required until such time as the IHS ACPT and VA ICPT packages are merged.

2.0 Installation Notes

Prefix: LEX

Current Version: 2.0

Warning: Read entire notes file prior to attempting any installation.

2.1 General Information

- Make a copy of this distribution for offline storage.
- Print all notes/readme files.
- It is recommended that the terminal output during the installation be captured using an auxport printer attached to the terminal at which you are performing the software installation. This will insure a printed audit trail if any problems should arise.
- This VA utility will be used by future EHR applications. All you need to do is install it on your system. There is no need to place the few menu options on any user's menu. The utility is accessed primarily by APIs called by other packages.
- This utility uses the LEX namespace but also includes 2 GMPT and 4 ICPT routines. GMPT is the old namespace for Lexicon and these routines are still called by other VA applications. The ICPT routines are called by Lexicon and are required until such time as the IHS ACPT and VA ICPT packages are merged.

2.2 Contents Of Distribution

- lex_0200.k—KIDS file containing utility
- lex_0200.g—^LEX global ~ 140 MB (VA sends only the ^LEXT global in the KIDS file)
- lex_020i.pdf—Installation Guide and Release Notes
- lextm2_0.pdf—VA Technical Manual
- lexum2_0.pdf—VA User Manual

2.3 Requirements

Package	Minimum Version
Kernel	v8.0 or later
FileMan	v22

Package	Minimum Version
Cache	v4.1 or later
ACPT	v2003 patch 2 must be installed
AUPN	v99.1 patch 11 must be installed
AUT	v98.1 patch 14 must be installed

3.0 Installation Instructions

In all namespaces to run EHR (Cache required):

1. If you already have the Lexicon Utility installed, save your current ^LEX global to disk. Then remove the ^LEX global from your Cache database.
2. Unzip the global file lex_0200.g.gz, if not already unzipped. Restore the ^LEX global from the lex_0200.g file. This was saved using Cache format.
3. Under KIDS, load then install lex_0200.k. Answer YES to all "Want to continue" questions. Answer NO to the other questions.
4. If you have the ^GMP or ^GMPT globals, you can delete them now.
5. Give yourself the LEXZMENU key so you can access the LEX MGT MENU (optional).
6. Now the Lexicon Utility is ready to be called by EHR applications.

3.1 Sample Installation

```
Select Installation Option: LOAD a Distribution
Enter a Host File: c:\tmp\lex_0200.k

KIDS Distribution saved on May 14, 2003@13:07:24
Comment: LEXICON V2.0 (IHS VERSION)

This Distribution contains Transport Globals for the following Package(s):
  LEXICON UTILITY 2.0
  LEX*2.0*9
  LEX*2.0*23
  LEX*2.0*24
Distribution OK!

Want to Continue with Load? YES//
Loading Distribution...

Build LEXICON UTILITY 2.0 has an Enviromental Check Routine
Want to RUN the Environment Check Routine? YES//
  LEXICON UTILITY 2.0
Will first run the Environment Check Routine, LEXIENV

Update          Clinical Lexicon Utility v 1.0          Problem List v 2.0
To              Lexicon Utility v 2.0                  Problem List v 2.0*7

  LEX*2.0*9
  LEX*2.0*23
  LEX*2.0*24
This Patch is for Version 2, you are running Version 0

Want to continue installing this build? NO// YES
Use INSTALL NAME: LEXICON UTILITY 2.0 to install this Distribution.
```

- 1 Load a Distribution
- 2 Verify Checksums in Transport Global
- 3 Print Transport Global
- 4 Compare Transport Global to Current System
- 5 Backup a Transport Global
- 6 Install Package(s)
Restart Install of Package(s)
Unload a Distribution
