NOTES: *Note: less than 20,000 FY 2017 users did not fall into the categories of insurance above because the data originated from a Tribe new to IHS (< 3 years) and not fully submitting electronically to the NDW, or where the patient is in a service unit where its facility did not send in a complete set of records for FY 17, or the patient had multiple forms of insurance and was not counted in the single insurance categories listed above*

*"END OF FY 17" (v95) file used which gives insurance eligibility as of September 30, 2017; user population counts may vary slightly from those in the FY 17 memo*

*No individual service unit counts could be reported under 20,000 population due to privacy rule, so service units were grouped together which would then exceed that number*
