User Manual

Version 5.3
June 2008

Office of Information Technology (OIT)
Division of Information Resource Management
Albuquerque, New Mexico

PREFACE

The purpose of this manual is to provide user information about the Admission / Discharge / Transfer (ADT) module that is part of Patient Information and Management System (PIMS) package version 5.3. Included in this manual is the information providing instructional guidance to a broad range of users within IHS medical facilities in daily use of the ADT Module of the PIMS software.

1.0 Introduction

The PIMS user manual is divided into three modules: ADT, Scheduling, and Sensitive Patient Tracking. The PIMS ADT user manual provides instructional guidance to a broad range of users within IHS medical facilities in daily use of the Admission/Discharge/Transfer (ADT) Module of the PIMS software.

The ADT module of the PIMS package provides a comprehensive range of software dedicated to the support of administrative functions related to patient admission, discharge, transfer, census, incomplete chart tracking, and day surgery.

The information gathered and maintained by the ADT software is available online to a broad range of users within the medical facility to assist in daily operations, providing for greater efficiency, reduction of paperwork, and minimization of error. The ADT software provides for efficient and accurate collection, maintenance, and output of data, thus enhancing your health care facility's ability to provide quality care to its patients.

ADT includes the following submenus:

- Bed Control
- Day Surgery
- Incomplete Chart
- ADT Reports
- ADT Supervisor

Other related materials are the PIMS technical manual, the PIMS installation guide, and the PIMS release notes. The technical manual is provided to assist the site manager in maintenance of the software. The installation guide provides assistance in installation of the package and the release notes describe any modifications and enhancements to the software that are new to the version.

2.0 Orientation

2.1 How to Use this Manual

The ADT user manual is provided in Adobe Acrobat PDF (portable document format) files. The Acrobat Reader is used to view the documents. If you do not have the Acrobat Reader loaded, it is available from the Adobe home page (www.adobe.com).

Once you open the PDF file, click on the entry name in the table of contents on the left side of the screen to go to that entry in the document. You can print any or all pages of the file. Click on the Print icon and select the pages you need, then click OK.

2.2 Online Help

When the format of a response is specific, there usually is a HELP message provided for that prompt. HELP messages provide lists of acceptable responses or format requirements that provide instruction on how to respond.

A HELP message can be requested by typing ? or ??. The HELP message will be displayed under the prompt, then the prompt will be repeated. For example:

```
Sort by TREATING SPECIALTY: ?  
CHOOSE FROM:  
01 SURGERY  
1 CARDIOLOGY  
12 PSYCHIATRY  
Sort by TREATING SPECIALTY:
```

Figure 2-1: Example of a help message

For some prompts, the system will list the possible answers from which you can select. Any time choices are displayed with numbers, the system will usually accept the number or the name.

A HELP message may not be available for every prompt. If you type ? or ?? at a prompt that does not have a HELP message, the system will repeat the prompt.

2.3 Note to Users with “C-WYSE” Terminal Settings

Most options in PIMS are written using list manager. Certain terminal type settings do not work using this browse function. To see if you are set with a “C-WYSE” terminal type and to fix it, follow these steps: At any menu in RPMS, type TBOX to access the User’s Toolbox menu. From that menu, select Edit User Characteristics. The first question will be your terminal type. If the default answer contains the term “C-WYSE”, change it to “C-VT220.” A ScreenMan data entry screen will now open. Close it by pressing the F1 key once and then the E key.

3.0 Bed Control Menu (BC)

This is the main menu for entering data on inpatient and observation patient stays. In this menu, you can admit, discharge, or transfer a patient. You can also switch a patient to a different bed within the same ward or change the patient's attending physician.

To select the Bed Control menu, type **BC** at the "Select ADT Menu Option:" prompt in the ADT Main menu (Figure 3-1).

```

WTX      Ward Transfer

Select Bed Control Option:
```

Figure 3-2: Using the Bed Control menu

3.1 Admit a Patient (ADM)

Use this option to admit a patient to your facility for inpatient or observation status. The treating specialty you select will determine the status. You can also use this option to change admission data typed in error, but only if the patient has not yet been discharged.

1. To admit a patient, type **ADM** at the prompt at the “Select Bed Control Option:” prompt in the Bed Control menu.
2. Type the patient’s name, IHS chart number, or date of birth at the “Admit Patient:” prompt.

The patient’s current statistics (e.g., inpatient status, previous discharge date, admission date, ward, provider, discharge date, room/bed, and specialty) will be displayed (Figure 3-3).

3. To continue the admission process, type **C** (continue) or **M** (view more data about the patient before continuing) at the “Continue, More, or Quit” prompt.

```

                                Bed Control
                                (UNSPECIFIED HO)

Admission LOS: 22

<C>ontinue, <M>ore, or <Q>uit?  C

```

Figure 3-3: Admitting a patient (steps 1-3)

4. Type the date and time the patient was admitted at the “Select ADMISSION DATE:” prompt. If a patient is currently being admitted, press the Return key, or type NOW at the “Select ADMISSION DATE:” prompt and the current date and time will be recorded as the admission date and time. The date and time must be typed with no spaces, as follows: Feb 18,2002@2:00pm or 02/18/02@1400.
5. Type Y (Yes) at the “Sure You Want to Add (fills in Date-Time) as a New Admissions Date?” prompt to verify the new admission date.
6. At the “DOES THE PATIENT WISH TO BE EXCLUDED FROM THE HOSPITAL DIRECTORY?” question, answer ‘Yes’ to keep the patient’s name off the Operator’s Inpatient List. A ‘Yes’ answer also adds a warning under Patient Inquiry. Otherwise, answer ‘No.’
7. The next 3 questions pertain to admission codes:
 - a. ADMISSION TYPE-UB92: (optional)

Choices are: 1 – EMERGENCY
2 – URGENT
3 – ELECTIVE
4 – NEWBORN

- b. **ADMISSION SOURCE-UB92:** (optional)
Choices are: 1 – PHYSICIAN REFERRAL
2 – CLINIC REFERRAL
3 – HMO REFERRAL
4 – TRANSFER FROM HOSPITAL
5 – TRANSFER FROM SNF
6 – TRANSFER FROM ANOTHER FACILITY
7 – EMERGENCY ROOM
8 – COURT/LAW ENFORCEMENT
9 – INFORMATION NOT AVAILABLE
A – TRANSFER FROM RURAL HOSPITAL
For Newborns: 1 – NORMAL DELIVERY
2 – PREMATURE DELIVERY
3 – SICK BABY
4 – EXTRAMURAL BIRTH
- c. **TYPE OF ADMISSION:** These are IHS admission codes (required)
Choices are: 1 – DIRECT
2 – TRANS-NON IHS HOSPITAL
3 – TRANS-IHS HOSPITAL
4 – REFERRED FROM IHS CLINIC
5 – OTHER
8. For **DIAGNOSIS [SHORT]**, enter the admitting diagnosis; which can be up to 30 characters long, no semicolons.
9. The next group of questions pertains to where the patient will be placed and under whose care. At any prompt, type ?? for a listing of possible answers.
- a. **WARD LOCATION:** Enter ward name. Required.
- b. **ROOM-BED:** Enter room and bed name. Optional but recommended.
- c. **FACILITY TREATING SPECIALTY:** Required.
This field determines whether the patient is admitted as an inpatient or an observation patient. For observation patients, select one of the choices containing the word "OBSERVATION."
- d. **REFERRING PROVIDER:** Optional free text name of who referred patient for admission, if any.
- e. **ADMITTING PROVIDER:** Physician who wrote admission order. Required.
- f. **ATTENDING PHYSICIAN:** Physician responsible for care. Required.
- g. **ADDITIONAL COMMENTS:** Word processing field for placing any additional information about admission.
10. When all admission information has been entered, *Patient Admitted* will be displayed on the screen.

11. If the patient was admitted to a ward defined as having seriously ill patients (such as an ICU), the CONDITION question will be asked. If the patient was admitted to a ward not so designated but does need to be listed as seriously ill or DNR, you must use the “Seriously Ill List Entry” option on the main ADT menu. Choices are:

S – SERIOUSLY ILL

D – DO NOT RESUSCITATE

B – SI & DNR

@ - To delete patient off the list

12. Then the following message should display:

Visit Created for date of admission.

For inpatients, a hospitalization visit will be created. For observation patients, an observation visit will be created. If the incorrect treating specialty was entered and subsequently corrected, the visit’s service category will also be fixed.

Examples of these questions are displayed in Figure 3-4.

```

Select ADMISSION DATE:  NOW// <Enter>  (SEP 26,2002@14:41:50)

SURE YOU WANT TO ADD 'SEP 26,2002@14:41:50' AS A NEW ADMISSION DATE? // Y (Yes)
ADMISSION TYPE-UB92: ??

    Choose from:
    1          EMERGENCY
    2          URGENT
    3          ELECTIVE
    4          NEWBORN

ADMISSION TYPE-UB92: EMERGENCY

ADMISSION SOURCE-UB92: PHYSICIAN REFERRAL

TYPE OF ADMISSION: ??
    Choose from:
    1          DIRECT      ADMISSION      ACTIVE      1
    2          TRANS-NON IHS HOSPITAL      ADMISSION      ACTIVE      2
    3          TRANS-IHS HOSPITAL      ADMISSION      ACTIVE      3
    4          REFERRED FROM IHS CLINIC      ADMISSION      ACTIVE      4

ATTENDING PHYSICIAN: PROVIDER, JADE

ADDITIONAL COMMENTS: PATIENT IN EXTREME PAIN

Patient Admitted

CONDITION: ??
    Choose from:
    S          SERIOUSLY ILL
    D          DO NOT RESUSCITATE
    B          SI & DNR

CONDITION: S SERIOUSLY ILL
Visit created for date of admission
  
```

Figure 3-4: Admitting a patient (steps 4-12)

13. Once admitted, there may be one to four more printing questions based on site parameters.
- WRISTBANDS: Do you want to print a Patient Wristband? Default is 'Yes.' Parameter should only be turned *on* only if you have the appropriate printer setup to print bar coded wristbands.
 - A SHEET: If the parameter PRINT A SHEET AT ADMISSION is set to 'Yes,' the system prompts for the printing of the A sheet. If you do not want to print an A sheet in this instance, type ^ to bypass the option.

You will then be asked if you want to "Print Bottom Half of A Sheet," the number of copies to print, and the printer.

If the A Sheet is to print directly on the ward, you can define those default printers under ward setup.

```
Printing A Sheet for admission. Type ^ to bypass.
Print Bottom Half of A Sheet? YES// N <Enter>

Print How Many Copies: (1-10): 1// <Enter>

DEVICE: HOME//
```

Figure 3-5: Admitting a patient (step 13-b)

- LOCATOR CARD: Answer 'Yes' to print a card to be used by operators or medical records for a manual backup method of looking up who is in which ward.
 - REQUEST CHART: If the parameter is set to 'Yes,' you will be asked to supply the clinic name for this chart request. The default admitting chart request clinic name can be defined under ADT parameters. To bypass requesting the paper chart, type ^.
14. Following these print questions, one or more messages from other RPMS applications may be displayed.

3.2 Edit Admission Data

Use the following steps to edit patient admission data:

- To edit admission data on an active inpatient, type the name (or chart number) of the patient to be admitted at the "Admit Patient:" prompt.
- The patient's current statistics (e.g., inpatient status, previous discharge date, admission date, ward, provider, discharge date, room/bed, and specialty) will be displayed.

3. Type the new information at the default prompts and then press the Return key to record the changes (Figure 36).

```

Admit PATIENT: PATIENT,ANDREA B

Status      : ACTIVE INPATIENT-on WARD  (SI & DNR)

Figure 3-6: Editing patient admission data

3.3 Discharge a Patient (DSC)

Use this option to enter the date and time a patient is discharged, as well as the type of discharge. Use this option to release an inpatient or an observation patient from your facility. You will be asked for IHS discharge type, UB92 disposition code, and transfer facility, if appropriate. Once a patient is discharged, use the “Edit Past Day Surgeries” option (section 3.4) to edit the patient’s data. If an observation patient is to be admitted as an inpatient, discharge that patient and then readmit them to an inpatient service.

1. To discharge a patient, type DSC at the “Select Bed Control Option:” prompt in the Bed Control menu.

Bed Control (UNSPECIFIED HO)	
ADM	Admit a Patient
DSC	Discharge a Patient
EBC	Extended Bed Control
EPI	Extended Inpatient Inquiry
PCH	Provider Change
SWB	Switch Bed
TTX	Treating Specialty Transfer
WTX	Ward Transfer
Select Bed Control Option: DSC	

Figure 3-7: Discharging a patient (step 1)

2. Type the name of the patient to be discharged at the “Discharge Patient:” prompt.

Note: If only the last name of the patient is typed and more than one patient is registered by the last name typed, a list will be displayed (Figure 3-8). Type the number of the patient to be viewed at the “Choose 1-5:” prompt (Figure 3-8).

3. Type C (to continue) or M (to view more data about the patient before continuing) at the “Continue, More, or Quit” prompt.
4. Type the date and time the patient was discharged at the “Discharge Date:” prompt. If a patient is currently being discharged, press the Enter key, or type NOW at the “Discharge Date:” prompt.

Note: The date and time must be typed with no spaces, as follows:
Feb 18,1997@2:00pm (FEB 18, 1997@14:00:00).

5. Type the discharge type at the “Type of Discharge:” prompt. To view a list of available options, type ?? at the “Type of Discharge:” prompt (Figure 3-8).
6. If you enter a transfer discharge type, you will then be asked to enter the transfer facility name. Type ?? for the list for your site. This list can be customized under ADT System Definition Menu.
7. Next, you will be asked for the UB92 Discharge code. When the discharge process is complete, Patient Discharged will be displayed.

3.4 Extended Bed Control (EBC)

Use this option to edit any past admission, ward transfer, or discharge data on a patient. You will not be able to edit any item older than your census lockout parameter setting. To correct older items, please contact your application coordinator.

1. To use the Extended Bed Control option, type **EBC** at the “Select Bed Control Option:” prompt in the Bed Control menu.

Bed Control (UNSPECIFIED HO)	
ADM	Admit a Patient
DSC	Discharge a Patient
EBC	Extended Bed Control
EPI	Extended Inpatient Inquiry
PCH	Provider Change
SWB	Switch Bed
TTX	Treating Specialty Transfer
WTX	Ward Transfer

Select Bed Control Option: **EBC**

Figure 3-6: Editing patient information (step 1)

2. Type the name or chart number of the patient whose data needs to be edited at the “Select Patient Name:” prompt.
3. Type the number of the admission date to be displayed. A summary of patient data and an option to edit that data will be displayed (Figure 3-7). The questions asked will be the same as when you first entered the admission, ward transfer, or discharge.

Figure 3-15: Switching beds (steps 2-7)

3.9 Treating Specialty Transfer (TTX)

Use this option to enter a specialty change (e.g., General Medicine, Newborn, Obstetrics, Pediatrics, or Surgery) for an inpatient. Select the option that best describes the care an inpatient is receiving. For example, a patient's treating specialty can change from Newborn to Pediatrics if that patient is a newborn with special needs.

1. To use the Treating Specialty Transfer option, type TTX at the "Select Bed Control Option:" prompt in the Bed Control menu.

Bed Control (UNSPECIFIED HO)	
ADM	Admit a Patient
DSC	Discharge a Patient
EBC	Extended Bed Control
EPI	Extended Inpatient Inquiry

4.2.1 Add a New Day Surgery Patient

Use this option to add a new day surgery patient into your system.

1. Type the name of the patient being added to the day surgery list at the “Select Day Surgery Patient:” prompt.
2. Type Y (Yes) at the “Are you adding ‘(patient name)’ as a new Day Surgery?” prompt to confirm your entry.
3. The patient’s data will be displayed. Press the Enter key at the “Enter Return to continue or ‘^’ to exit:” prompt to begin adding a patient to day surgery.

```

Select Day Surgery Patient: PATIENT,ALLISON
                                F 02-02-1901 000785650    MH 4298
Are you adding 'PATIENT,ALLISON' as a new DAY SURGERY? No// Y (Yes)

```

Figure 4-5: Adding a day surgery patient (steps 1-3)

4. Type the date and time the day surgery will take place at the “Select Day Surgery Date/Time:” prompt.

Note: A time is not required for entry of the day surgery date/time field, but the prompt for releasing the patient will not be displayed until a time is included. The time is needed to calculate the length of stay in hours.

5. To verify the new entry, type Y (Yes) at the “Are you adding ‘(Date of Surgery)’ as a new Day Surgery Date/Time (the 1st for this Day Surgery)?” prompt.
6. Press the Enter key again to confirm the day surgery date and time at the “Day Surgery Date/Time:” prompt. You can add the time at this prompt if you have not already done so.
7. Type the procedure the patient is having at the “Procedure:” prompt. This field is free text.
8. Type the diagnosis of the patient at the “Diagnosis:” prompt. This field is free text.

9. If the patient is to be kept on a ward for observation after recovery, type the date and time the patient was moved to that ward at the “Date/Time To Observation:” prompt. The observation date and time must be after surgery has occurred. Then enter the Ward and Room-Bed where the patient is staying. You will still have to enter that patient under “Admit a Patient” option in Bed Control for the observation stay to be recorded.
10. Next, enter the Surgical Specialty under which this patient is receiving care as a day surgery patient. This is a required field. Next enter the surgeon’s name and any comments you need recorded.

```

Select DAY SURGERY DATE/TIME: OCT 25, 2002@900
Are you adding 'OCT 25, 2002@9' as
a new DAY SURGERY DATE/TIME (the 1ST for this DAY SURGERY)? No// Y

Remember to include the time before discharging the patient

DAY SURGERY DATE/TIME: OCT 25,2002@9// [Enter] (OCT 25, 2002@09:00)
PROCEDURE: ACL REPAIR
DIAGNOSIS: RUPTURED ACL
DATE/TIME TO OBSERVATION: 10/25/02@1500 (OCT 25, 2002@15:00)
WARD LOCATION: PED
ROOM-BED: 200
SPECIALTY: SURGERY
PROVIDER: DOCTOR,KATHRYN MRQ MEDICAL OFFICER
INTERVIEW COMMENTS:

Edit? NO// [Enter]

```

Figure 4-6: Adding a day surgery patient (steps 5-10)

11. When the patient is released from day surgery, type the release information at the “Release Date/Time:” prompt. Remember, this prompt will not be displayed until there is a time on the Day Surgery Date/Time field.
12. If the patient did not show up for surgery, type Y (Yes) at the “No-Show?” prompt. If Y is typed, no release date will be entered. The same is true for the Surgery Cancelled question. If the patient who is receiving general anesthesia did not bring an escort, enter Y at that prompt.
13. If the patient was admitted directly from day surgery, enter Y at the Patient Admitted question. You will still have to admit the patient under the Bed Control menu to record the admission.
14. At the end, you will be asked if you want to print out a day surgery worksheet. It has a format similar to the IHS Clinical Record Brief used for admissions.

Ending date: T <Enter> (OCT 25, 2002)

DEVICE: HOME <Enter>
```

Figure 4-12: Printing a list of patients not released

4.5 Edit Past Day Surgeries (DSP)

Use this option to edit a day surgery visit after the patient has been released from day surgery.

1. To edit a past day surgery visit, type **DSP** at the “Select Day Surgery Menu Option:” prompt in the Day Surgery menu.
2. Type the name of the patient whose past day surgery visit needs to be edited at the “Select Day Surgery Patient:” prompt.
3. The patient’s data will be displayed.
4. Press the Enter key at the “Press Return to continue or ‘^’ to exit:” prompt.

4.6 PCC Day Surgery Visits Listing (DSPC)

Use this option to print all day surgery visits and their diagnosis and procedures as coded in the PCC. If you have a link with PCC, a day surgery visit is created automatically, when a patient is discharged from the facility. All PCC coding is done through the PCC Data Entry menu.

- To print day surgery visits linked with the PCC, type DSPC at the “Select Day Surgery Menu Option” prompt in the Day Surgery menu.
- Type the date to begin printing day surgery visits at the “Select beginning date” prompt.
- Type the date to stop printing day surgery visits at the “Select ending date” prompt.
- Type a print device at the “Device” prompt.

4.7 Provider QA report (DSPQ)

Use this option to print a Quality Assurance (QA) Report on a selected provider or all providers at a facility. The QA Report lists those day surgeries where the patient was held over for observation, admitted directly, or admitted within a week. It is printed for a range of dates listing each patient with chart number, age, service, and procedure.

To use Provider QA reports, type **DSPQ** at the “Select Day Surgery Menu Option:” prompt in the Day Surgery menu.

Day Surgery Menu (UNSPECIFIED HO)	
DSAU	Day Surgery Audit Report
DSE	Day Surgery Enter/Edit
DSL	Patient List by Day Surgery Date

5.0 Incomplete Chart Menu (IC)

Use this menu to track the completion of charting requirements for inpatient stays, observations, and day surgeries. You can code the inpatient stays here as well. Various worksheets and reports are also available.

To select the Incomplete Chart menu, type IC at the prompt in the ADT Main menu.

```

5.1 Inpatient Chart Coding (CODE)

This option is used to code inpatient visits. The actual coding is done in PCC, as this option will drop you into PCC as needed. Any data in common between ADT and PCC, if edited here, will be updated in both databases.

1. To use Inpatient Chart Coding, type CODE at the “Select Incomplete Chart Menu Option:” prompt.
2. Type the patient’s name whose chart needs coding at the “Select Patient:” prompt.
3. Type the visit number that you need to code at the “Select Hospitalization:” prompt. All hospitalizations for the past 2 years will be displayed. They will be marked as to whether or not they have previously been exported. This is important, as changes to an exported hospitalization will not be re-exported unless you flag it so under PCC.

5.1.1 Admission Data

Use this option to edit data common to both ADT and PCC. You can enter number of consults, coded admitting diagnosis, and DRG.

1. Type 1 or adm at the “Select Action:” prompt.
2. First you will be asked three PCC data items that are stored in the V Hospitalization file: Number of Consults (optional), Admitting Diagnosis (required & ICD code), and DRG (optional).
3. Next you are dropped into the “Extended Bed Control” option. Here you can change data in ADT and any corresponding data in PCC will be automatically updated. At the “Select Option:” prompt, type 1 to edit admission, type 2 to edit a transfer, type 3 to edit the discharge, or press the Enter key to return to the review screen.
4. Follow each of the prompts as they are displayed on your screen. Type new or edited information at the prompts, or press the Return key to go to the next prompt.
5. Type a new patient name at the “Select Patient Name:” prompt, or press the Return key to return to the Code Inpatient Visit screen.

```

Select Action:Quit// 1   Admission Data
NUMBER OF CONSULTS: 1// [Enter]
ADMITTING DX: 733.82//[Enter]

```

Figure 5-4: Using admission data

5.1.2 Add/Modify PCC Data

Use this option to perform the actual coding in PCC:

1. Type 2 at the “Select Action:” prompt.
2. Major coding categories are now displayed. Type a number from the list of options at the “Select One: (1-6)” prompt. Number six is used to access any mnemonic in PCC.
3. Type A to add information or M to modify existing information at the “Select Mode:” prompt.
4. You will then be dropped into the corresponding PCC mnemonic and its associated questions.

```
Select Action:Quit// 2    Add/Modify PCC Data

        M          MODIFY

Select MODE:  A (ADD)
Enter PURPOSE of VISIT:
```

Figure 5-5: Adding or modifying PCC data

5.1.3 Problem List Update

Use this option to update the patient’s problem list. This drops you into the “PCC Problem List Update” option as if you selected it off of your PCC menu.

1. Type 3 at the “Select Action:” prompt.
2. Type the location where the problem happened at the “Location where Problem List Update Occurred:” prompt. It will default to your current facility. It will then ask for a date.

```
Select Action:Next Screen// 3    Problem List Update
Location where Problem List update occurred: UNSPECIFIED HO    569    ALB
Date Problem List Updated:  Today
```

Figure 5-6: Updating the problem list (steps 1-2)

3. The Problem List Update screen will be displayed (Figure 5-7). Use the options at the bottom of the screen to execute any of the listed options (e.g. add a problem, add a note, edit a problem).
4. Follow the prompts as they are displayed on your screen. For details on using this option, see your PCC manuals. Type Q at the “Select Action:” prompt to return to the Code Inpatient Visit screen.

5.1.4 List I Visits

Use this option to review all PCC visits within the date range of this inpatient stay. This was designed to quickly change any ancillary visits (labs, pharmacy, radiology, etc.) that were created as Ambulatory visits but should be In-hospital visits tied to this inpatient stay.

1. Type 4 at the “Select Action:” prompt.
2. The List I Visits screen will be displayed (Figure 5-8). Use the options at the bottom of the screen to make changes or view more information on the list I visits. You can edit a service category, edit visit, or view visit.
3. When you have completed all changes, type Q at the “Select Action:” prompt to return to the Code Inpatient Visit screen.

5.1.6 Final A Sheet

Use this option to print a final A sheet. You have the ability to include a CPT list or print a Medicare/Medicaid A sheet.

1. Type **6** at the “Select Action:” prompt.
2. Type the number of the type of A sheet you want to print at the “Select Report to Print:” prompt.
3. Type the number of copies of this report you want at the “Print How Many Copies:” prompt.
4. Type a print device name at the “Device:” prompt.

```
Select Action:Next Screen// 6    Final A Sheet

      Select one of the following:

          1          A Sheet Only
          2          A Sheet with CPT List
          3          Medicare/Medicaid A Sheet

Select Report to Print: 2// 2    A Sheet with CPT List

Print How Many Copies:  (1-10): 1// <Enter>
DEVICE: HOME// <Enter>
```

Figure 5-10: Printing a final A sheet

5.1.7 Run Edit Check

Use this option to run an edit check on a patient's file. This option will determine if there are still actions that need to be taken on a patient's file.

1. Type **7** at the “Select Action:” prompt.
2. A list of the actions still needing to be taken on the patient's file will be displayed (Figure 5-11).
3. Press the Return key at the “Press Enter to Continue:” prompt to return to the Code Inpatient Visit screen.

```

Select Action:Next Screen// 7 <Enter> Run Edit Check

Coding Complete? NO
WARNING: No provider of service entered for this VISIT!

WARNING: No PRIMARY POV entered for this Hospitalization!

WARNING: No primary provider entered for this visit!

Press ENTER to continue: <Enter>

```

Figure 5-11: Running an edit check

5.1.8 Rebuild Display

Use this option to refresh the Code Inpatient Visit screen.

Type 8 at the “Select Action:” prompt and the screen will automatically display any updates to the screen.

5.2 Edit Chart Deficiency List (ECD)

Use this option to add or edit the list of available chart deficiencies for use in the Incomplete Chart process. A basic set of deficiencies is added the first time ADT is installed on your system. After that, you may add any you need and inactivate those you do not.

To edit or add a chart deficiency, type ECD at the “Select Incomplete Chart Menu Option:” prompt in the Incomplete Chart menu.

```

                                Incomplete Chart Menu
                                (UNSPECIFIED HO)

Select Incomplete Chart Menu Option: ECD <Enter> Edit Chart Deficiency List

```

Figure 5-12: Accessing the Chart Deficiency List

5.2.1 Add or Edit a Chart Deficiency

Use this option to add a new chart deficiency or update one already in your system:

1. Type the name of the deficiency at the “Select Chart Deficiency Name:” prompt.
2. If you are adding a new entry, type Y (Yes) at the “Are you adding ‘(Chart Deficiency Name)’ as a new Chart Deficiency?” prompt to confirm.
3. **SYNONYM:** Type an abbreviation for the new chart deficiency.
4. **ACTIVE/INACTIVE:** Type 1 to activate or 0 to inactivate the entry.
5. **GROUPING:** For those deficiencies that fit under special groupings used in the Provider lists, enter that grouping here. Choose from:

ASH	if deficiency relates to A Sheet requirements
OPR	if deficiency relates to completing operative report
SIG	if deficiency means a signature is missing
SUM	if deficiency relates to completing discharge summary
ADM	if deficiency should <i>not</i> appear on provider reports
6. **TIU DOCUMENT LINK:** For those sites using TIU and updating deficiencies from within TIU, enter TIU document class associated with this deficiency, if any. These would be any deficiency associated with dictations.

```

5.3 Fix Missing V Hospitalization Entries (FVH)

Use this option when the link with PCC did not create a visit or V hospitalization entry for an admission. This option will print a list of patients for the selected discharge dates who need PCC updated for their inpatient stays.

1. To fix missing V Hospitalization entries, type FVH at the “Select Incomplete Chart Menu Option:” prompt in the Incomplete Chart menu.
2. Type the date to begin processing the missing V Hospitalization entries at the “Beginning Discharge Date:” prompt.
3. Type the date to stop processing the missing V Hospitalization entries at the “Ending Discharge Date:” prompt.
4. Type a print device at the “Device:” prompt.

```

                                Incomplete Chart Menu

5.4 Incomplete Charts Edit (ICE) – [To be removed soon]

With PIMS patch 1004, this option becomes obsolete. It has been left on the menu to ease the transition to the New Incomplete Chart Edit (NICE) option.

Use this option to track and edit all inpatient, observation, and day surgery charts for discharged inpatients. Upon discharge, the patient’s name, discharge date, admission date, ward, and service are automatically recorded into the patient’s file. The rest of the fields in this file are used to determine what still needs to be done to the chart. The following section details these fields.

You can track deficiencies by provider and completion dates for different phases of the incomplete chart process. Entries can no longer be deleted upon completion, just marked as completed.

1. To use the Incomplete Chart Entry/Edit option, type **ICE** at the “Incomplete Chart menu Option” prompt.
2. Type the name of the patient at the “Select Patient” prompt. If the patient has more than one visit, you will be prompted to select the visit that you need.

```

Select Incomplete Chart Menu Option: ICE <Enter>    Incomplete Charts Edit

Select Patient: PATIENT, ALLISON <Enter>
                                F 02-02-1901 000785650    MH 4298

Incomplete Chart Entries for PATIENT, ALLISON:
1                                DAY SURGERY
2  OCT 29, 2002@15:27          HOSPITALIZATION
6  ADD NEW ENTRY
Select Discharge Date:  (1-3): 2 <Enter>

```

Figure 5-16: Using the incomplete chart menu option (steps 1-2)

3. The Incomplete Chart Edit screen will be displayed (Figure 5-17). This screen uses ScreenMan. When using ScreenMan for entering data, use the tab or arrow keys for moving between fields. If you make a change or new entry on the form, press the Return key to record the change. If necessary, a pop-up window may be displayed for further entry of information. You can type ?? at any prompt to display your options at the bottom of the screen.
4. When you are done filling in the prompts, use the options at the bottom of the screen to exit, save, or go to the next page.

5.5 Incomplete Chart Forms (ICF)

This option gives you a choice of forms to print such as discharge Outguides, worksheets, and final A sheet.

To access Incomplete Chart Forms menu, type ICF at the “Select Incomplete Chart Menu Option:” prompt.

The Incomplete Chart Forms menu is displayed (Figure 5-18). Sections 5.5.1 through 5.5.5 detail how to use each form.

```
Select Incomplete Chart Menu Option: ICF Incomplete Chart Forms
1. Discharge Outguides
2. Deficiency Worksheets
3. Incomplete Chart Summary
4. Final A Sheet/Bill Prep Worksheet
5. Online Help (Report Descriptions)
Choose Form To Print: (1-5):
```

Figure 5-18: The incomplete chart forms menu

5.5.1 Discharge Outguides

Use this option to print a one-page charge-out slip to be used by the incomplete chart staff when pulling charts. For a given date range, one Outguide will print for every discharge.

1. Type 1 at the “Choose Form To Print: (1-5)” prompt in the Incomplete Chart Forms submenu.
2. Type the beginning date and time at the “Start with Date/Time” prompt.

Note: Be *very careful*, because if you press the Enter key with not date, the system prints discharge Outguides from the very FIRST discharge date on your system to the last.

3. Type the ending date and time at the “Go to Date/Time” prompt.
4. Type a print device at the “Device” prompt.

```
Choose Setup Option: (1-5): 1 <Enter>
* Previous selection: DATE/TIME not null
START WITH DATE/TIME: FIRST// 10/25/02 <Enter> (OCT 25, 2002)

  _____ Patient has expired.  Paper chart in
        the Incomplete Chart Room.
```

Figure 5-19: Printing discharge Outguides

5.5.2 Deficiency Worksheets

Use this option to print deficiency worksheets, which serve as checklists for providers when reviewing incomplete charts. After the incomplete chart clerk reviews the chart, determines the deficiencies and records them in the software, a one-page worksheet can be printed which lists all the deficiencies and the provider assigned to correct each.

1. Type 2 at the “Choose Form To Print: (1-5)” prompt in the Incomplete Chart Forms submenu.
2. Type 1 (inpatients), 2 (day surgeries), or 3 (both) at the “Select Records to Print:” prompt.
3. Type the name of the patient at the “Select Patient Record:” prompt.
4. If the patient has more than one incomplete chart, the system will prompt you to select which one of the patient’s charts you want to use.
5. When you are done selecting patient charts, press the Enter key at a blank “Select Another Patient Record:” prompt.
6. Type the name of a print device at the “Device:” prompt.

```

Choose Form To Print:  (1-5):  2

    Select one of the following:

        1      Inpatients
        2      Day Surgeries
        3      Both

Select Records to Print:  1 <Enter>  Inpatients

5.5.4 Final A Sheet/Bill Prep Worksheet

Use this option to print a final A sheet (or Clinical Record Brief). This is printed after the inpatient stay has been coded.

1. Type 4 at the “Choose Form To Print: (1-5)” prompt in the Incomplete Chart Forms submenu.
2. Type the name of the patient at the “Select Patient:” prompt.
3. If the patient has more than one admission, then you will be prompted to select the one that you need.
4. Type 1 (A sheet only), 2 (A sheet with CPT list), or 3 (Medicare/Medicaid A sheet) at the “Select Report to Print:” prompt.
5. Type the number of copies that you want to print at the “Print How Many Copies:” prompt.
6. Type a print device at the “Device:” prompt.

```
Choose Form To Print: (1-5): 4

5.5.5 Online Help (Report Descriptions)

Use this option to display a detailed description of each of the reports in the incomplete chart forms submenu. All the descriptions will be onscreen.

1. Type 5 at the “Choose Form To Print: (1-5)” prompt in the Incomplete Chart Forms submenu.
2. Type the number of the report at the “Select Help System Action or <Return>:” prompt.

Choose Form To Print: (1-5): 5

INCOMPLETE CHART FORMS

Use this option to print various forms used in the Incomplete Chart process. Select a form from the list for details.

- 1 Discharge Outguides
- 2 Deficiency Worksheets
- 3 Incomplete Chart Summary
- 4 Final A Sheet/Bill Prep Worksheet

Select HELP SYSTEM action or <return>: 4

FINAL A SHEET/BILL PREP WORKSHEET

A "Final" A Sheet (or Clinical Record Brief) is printed AFTER the inpatient stay has been coded. Those items not filled in at admission will be included. The format for the A Sheet is determined by a site parameter. There are 2 formats sent with this version - IHS and ANMC. Any site can create their own through FileMan but it is not a simple process. See the PIMS Technical Manual for details.

To assist in the billing process, a "bill prep" worksheet can be printed after the A Sheet. This worksheet lists all CPT codes and other possible billable items on I (In-hospital) visits attached to a hospitalization. Also included are any other visits 72 hours before admission and 24 hours after discharge. There are 2 versions of this CPT listing - full list or an abbreviated list for Medicare/Medicaid patients. The abbreviated listing only includes CPT codes and radiology exams. The full listing also prints all inpatient medications, supplies, lab tests, transaction codes and immunizations.

Select HELP SYSTEM action or <return>:

Figure 5-23: Using online help

5.6 Incomplete Chart Reports (ICR)

Use this option to run various reports based on the incomplete chart file. Use this option to access the various ways of listing incomplete and delinquent charts. See the online help for details on each report.

To access the Incomplete Chart reports submenu, type ICR at the “Select Incomplete Chart Menu Option:” prompt.

The Incomplete Chart Report menu will be displayed (Figure 5-24). Sections 5.6.1 through 5.6.7 detail how to use each report.

```

5.7.3 Workload Report (Completion Times)

Use this report to show how long each stage in the completion process takes. You select to report on either inpatients or day surgery patients and sort the list alphabetically or by chart number terminal digit.

1. Type 3 at the “Choose Report To Print:” prompt in the Incomplete Chart Statistics submenu.
2. Type the number of the visit type you need at the “Select Visit Type to Include:” prompt.
3. Type the beginning date of your report at the “Select Beginning Discharge Date:” prompt.

4. Type the ending date of your report at the “Select Ending Discharge Date:” prompt.
5. Select how you want the report sorted at the “Select Patient Sort:” prompt.
6. Type the name of a print device at the “Device:” prompt.

```

Choose Report To Print:  (1-4): 3

Select one of the following:

    1      Inpatients
    2      Day Surgeries

Select Visit Type to Include: 1 Inpatients
Select Beginning Discharge Date: T-7 (OCT 21, 2002)
Select Ending Discharge Date: T (OCT 28, 2002)

Select one of the following:

    1      Sort Alphabetically by Name
    2      Sort by Terminal Digit

Select Patient Sort: 1 Sort Alphabetically by Name

If printing to paper, please use wide paper or condensed print

5.7.4 Online Help (Report Descriptions)

Use this report to display detailed report descriptions of the incomplete chart statistic reports. All descriptions will be displayed onscreen.

1. Type 4 at the “Choose Report To Print:” prompt in the Incomplete Chart Statistics submenu.
2. Type the number of the report for which you would like a description at the “Select Help System action or <return>:” prompt.

```
Choose Report To Print:  (1-4): 4 <Enter>

                               INCOMPLETE STATISTICAL REPORTS

Welcome to the online help for the Incomplete Chart Statistical Reports.
These reports give various views of the status of incomplete charts.  For
incomplete chart listings use the ICR option.  Please select from the list
below for details on the selected report.

1      Inpatient Coding Status Report
2      Day Surgery Coding Status Report
3      Workload Report (Completion Times)

Select HELP SYSTEM action or <return>:
```

5.8 Fix Visit in ICE (ICV)

Use this option to edit the visit pointer in Incomplete Chart entries. You will want to use this option when the links with PCC did not work properly or when an entry was added manually and the wrong visit was chosen.

1. Type ICV at the “Select Incomplete Chart Menu Option:” prompt.
2. Type the name of the patient at the “Select Incomplete Chart Patient:” prompt.
3. Type the date& time of the visit at the “Visit:” prompt. If there is more than one visit in PCC for that date/time combination, please choose the one for the correct patient *and* service category.

```

Select Incomplete Chart Menu Option: ICV Fix Visit in ICE
Select INCOMPLETE CHART PATIENT: PATIENT,ALLISON
                                F 02-02-1901 000785650    MH 4298
    1  PATIENT,ALLISON                10-25-2002
    2  PATIENT,ALLISON
CHOOSE 1-2: 1 PATIENT,ALLISON        10-25-2002
VISIT: OCT 25,2002@09:00//

```

Figure 5-38: Fixing a visit in ICE

5.9 New Incomplete Chart Edit (NICE)

Use this new and enhanced method of entering data on incomplete charts, instead of ICE. By using list manager to display data, we have incorporated more flexibility in how data is entered and updated.

1. Type NICE at the “Select Incomplete Chart Menu Option” prompt.
2. Type the name of the patient at the “Select Patient” prompt. If the patient has more than one visit, you will be prompted to select the visit that you need. Deleted entries can only be accessed by holders of the DGZICE key.

```

Select Incomplete Chart Menu Option: NICE NEW Incomplete Charts Edit
Select PATIENT: TEST,EILEEN      <CAD> F 01-25-1969 555244444    THC 81215

Incomplete Chart Entries for TEST,EILEEN:
    1  DEC 16, 2003                DAY SURGERY
    2  APR 09, 2004@08:50          HOSPITALIZATION    **COMPLETED**
    3  APR 06, 2004@00:30          HOSPITALIZATION
    4  OCT 14, 2004@10:30          OBSERVATION        **DELETED**
    5  ADD NEW ENTRY
Select Discharge/Day Surgery Date: (1-5): 3

```

Figure 5-39: New Incomplete Chart Edit (steps 1-2)

3. A list manager screen is displayed showing all data your facility is tracking, as well as pending deficiencies. Your supervisor can customize which completion dates to track by using the new “Set Up IC Parameters” option detailed in section 5.10.

Incomplete Chart Edit		Sep 30, 2005 09:06:48	Page: 1 of 2
TEST,EILEEN		#81215	Insurance: PVT

Select Action: Next Screen//			

Figure 5-40: New Incomplete Chart Edit (step 3)

4. Type 1 or EDIT to access the “Edit Tracking Dates” action. These are the dates your facility has decided to track in the chart completion process. Simply type in the dates as appropriate. The “Date Chart Completed” will *not* be asked here unless the chart has already been completed. Use action number seven, “Mark As Completed,” to enter that date.
5. Type 2 or FIX to access the “Fix Visit Date” action. This action is only available to holders of the DGZICE key. It performs the same function as the ICV menu option detailed in section 5.8. It was duplicated here for convenience.
6. Type 3 or COM to access the “Comments Edit” action. This is simply used to add comments on this chart.

7. Type 4 or ADD to access the “Add/Edit Deficiencies” action. You will be asked for a provider name. Then for that provider, you can add, edit, or close out deficiencies. The first time the provider is selected for this chart, you will be automatically dropped into Add mode. You may close several deficiencies for one provider by entering deficiency numbers separated by commas (i.e. 1, 3, 5). “Select PROVIDER” is asked until you press the Enter key to return to the display screen.

```
Select Action: Next Screen// 4   Add/Edit Deficiencies

Select PROVIDER:   DOCTOR, Z

  Add Mode for Deficiencies. . .
Select CHART DEFICIENCY NAME: ORDERS
Okay to add ORDERS for this provider? YES// [Enter]
COMMENTS: lab orders on 6/2
Select CHART DEFICIENCY NAME:

Select PROVIDER: DOCTOR, A

    *** DOCTOR, A Deficiencies ***
    1 HISTORY & PHYSICAL           Pending
    2 ORDERS                       Pending

    1. EDIT Selected Deficiencies
    2. CLOSE Selected Deficiencies
    3. ADD New Deficiencies
    4. QUIT
Select Action: (1-4): 4// 2
Select Which Deficiencies to CLOSE: (1-3): 2
Enter DATE RESOLVED: T (SEP 30, 2005)

Select PROVIDER:
```

Figure 5-41: New Incomplete Chart Edit (step 7)

8. As you can see in Figure 5-45, the orders deficiency for Doctor, A no longer displays because it was closed (resolved). The newly added orders deficiency for Doctor, Z does display. To view all deficiencies, even resolved and deleted ones, type 6 to access the “View All Deficiencies” action.

Figure 5-45: Set up IC parameters

3. Type **EDIT** to access the “Edit ICE Parameters” action. This action simply asks each parameter in turn. At any question type ?? for help in answering.

6.0 Patient Inquiry (PI)

Use this option to view basic demographic, admission, day surgery, appointment, and incomplete chart information. You can expand each section for more detail.

1. Type **PI** at the “Select ADT Menu Option:” prompt.
2. Type the name or chart number of the patient at the “Select Patient:” prompt.

6. Expanded Entry for section 1 – Demographics shows insurance information, emergency contact, and next of kin.
7. Expanded Entry for Section 2 – Admission data will display all inpatient data stored in ADT for any of this patient's admissions. This is the equivalent of Expanded Patient Inquiry on the Bed Control Menu.
8. Expanded Entry for Section 3 – Day Surgery shows all information entered into the day surgery module for the patient's last day surgery entry.
9. Expanded Entry for Section 4 – Appointments drops you into the "Display Patient's Appointments" option in scheduling where you can view details on the appointment and even the PCC visit, if one is linked.
10. Expanded Entry for Section 5 – Incomplete Chart Status drops you into the Incomplete Chart Summary report under "ICF – Incomplete Chart Forms" option.

7.0 Provider Inquiry (PV)

Use this option to display the current patient information on a given provider. This includes information about current inpatients, surgeries, and appointments. An expanded view of each patient encounter is also available.

For inpatients, it first lists all current inpatients for whom this provider is the attending, then all who were admitted by this provider but who have a different attending, and last, all inpatients who have this provider as their designated primary care provider in the ambulatory setting.

Next, all of today's day surgery patients with this provider listed as surgeon are displayed.

Finally, all outpatient appointments for this provider are listed. These are based on the provider being designated as the default provider for one or more clinics.

1. Type **PV** at the "Select ADT Menu Option" prompt.
2. Type the name of the physician at the "Select Provider Name:" prompt.
3. To sort your report by service, type **SERVICE** at the "Inpatients Sorted by Ward or Service" prompt, or press the Enter key to sort by ward.
4. Type **B** (browse onscreen) or **P** (print on paper) at the "Print Mode" prompt. If you type **P**, you are prompted to select a printer.

Select ADT Reports Menu Option: AFM <Enter>  Admission Forms
```

Figure 8-3: Accessing admission forms

The admission form menu will be displayed. How to use these options is explained in sections 8.1.1 through 8.1.4.

```
Select one of the following:

1      Locator Card
2      A Sheet
3      A Sheets by Admit Date
4      Final A Sheet

Select Admission Form to Print:
```

Figure 8-4: Accessing admission forms

8.1.1 Locator Card (1)

Use this option to print a locator card for an individual patient.

1. To print a Locator Card, type **1** at the “Select Admission Form to Print” prompt.
2. Type the name of the patient at the “Select Patient” prompt.
3. If the patient has more than one admission, you will be prompted to select a particular visit.

4. Type a printer device at the “Device” prompt or type HOME to display the information on the screen.
5. A locator card similar to what is seen in Figure 8-6 will print.

```
Select Admission Form to Print: 1  Locator Card

Figure 8-10: Accessing statistical reports

The ADT Statistical Report options menu will be displayed (Figure 8-11). Sections 8.2.1 through 8.2.4 explain how to use each option.

```

1. Average Daily Patient Load (ADPL)
2. Inpatient Statistics by Ward
3. Inpatient Statistics by Service
4. Online Help (Report Descriptions)

Choose Report from List:  (1-4):

```

Figure 8-11: Using the statistical reports menu

8.2.1 Average Daily Patient Load (ADPL)

Use this option to run a report showing the average daily patient load sorted by ward or service. This report lists the total patient days and average number of patients per day for wards or services. You have the choice of including inactive wards or services. This would be used when reporting statistics for a date range when a ward or service was once active, but is now inactivated.

1. To use the Average Daily Patient Load option, type **1** at the “Choose Report from List:” prompt.
2. Type **1** (by ward) or **2** (by service) at the “Select Format:” prompt to select the way you would like your report sorted.
3. Type **Y** or **N** at the “Include Inactive Services/Wards:” prompt.
4. Type the date that you would like your report to start at the “Select Beginning Date:” prompt.

5. Type the date that you would like your report to end at the “Select Ending Date:” prompt.
6. Type the name of a print device at the “Device:” prompt or type HOME to display the report on your screen.

```

Choose Report from List:  (1-4): 1

      Select one of the following:

          1          By Ward
          2          By Service

Select Format: 1 By Ward
Include INACTIVE Wards? NO// Y YES
Select Beginning Date:  T-365 (OCT 29, 2001)
Select Ending Date:  T (OCT 29, 2002)
DEVICE: HOME// [Enter]

```

Figure 8-12: Printing average daily patient load (steps 1-6)

7. A report similar to Figure 8-13 will print. If you select to display your report onscreen, use the options at the bottom of the screen to navigate through the report.

8.2.4 Online Help (Report Descriptions)

Use this option to view a detailed description of each of the reports in the ADT statistical report menu. All descriptions will be displayed on your screen.

1. To use the Online Help option, type 4 at the “Choose Report from List:” prompt.
2. Type the abbreviation of the report that you would like a description of at the “Select Help System Action or <Return>:” prompt.

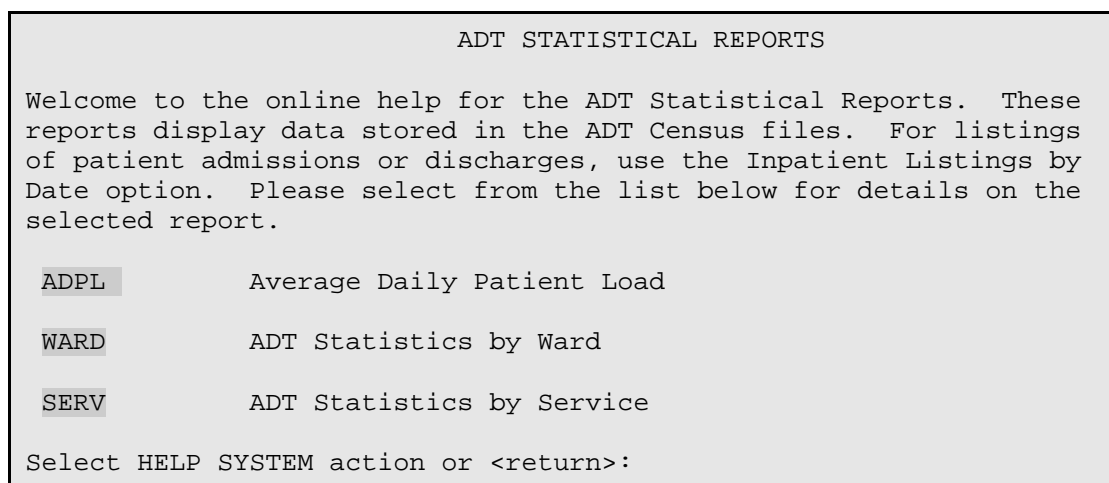

Figure 8-18: Using online help

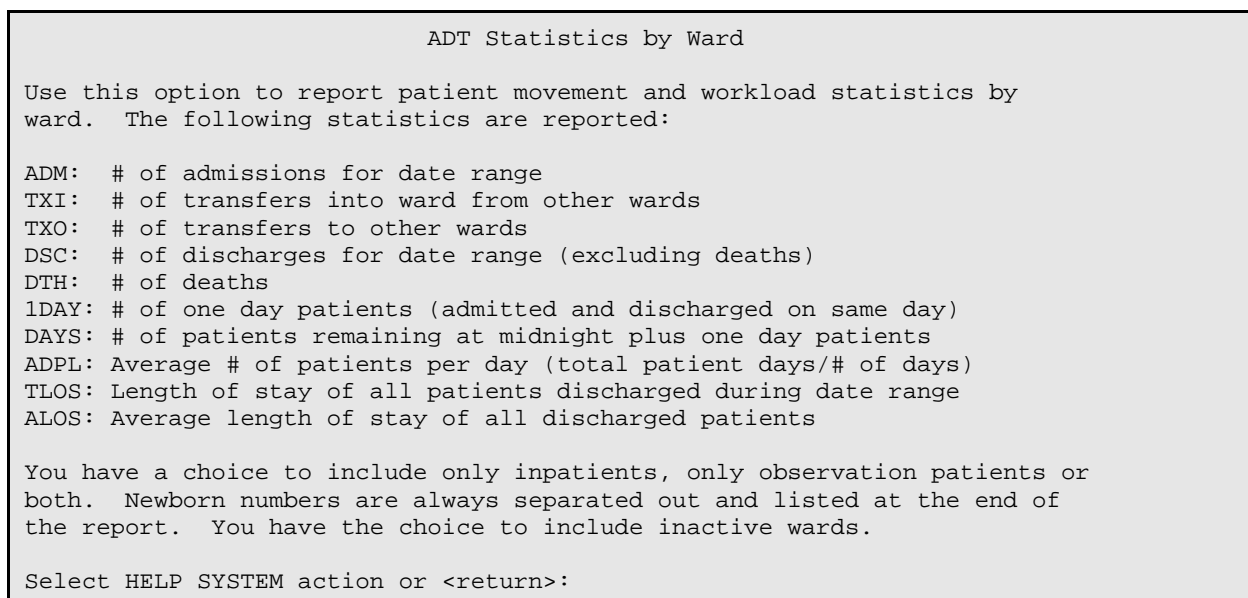

Figure 8-19: Sample online report help for the ASR option

8.3 Bed Availability (BED)

Use this option to produce a listing of available beds. You can select to see the bed availability for a single ward (abbreviated listing) or multiple wards or services (expanded listing). You can select to have the room-bed description displayed on either listing.

The expanded report can be sorted by ward or service. One, many, or all wards/services can be selected. The user can also select to have the report show future scheduled admissions and/or lodgers. If there are no beds available on a selected ward/service, a message stating this will be displayed.

To use the Bed Availability report, type **BED** at the “Select ADT Reports Menu Option:” prompt. Sections 8.3.1 through 8.3.2 will detail how to run an abbreviated and expanded listing.

Figure 8-29: Printing the alphabetical inpatient list (step 3)

8.5.2 List by Ward and Patient

Use this option to print an alphabetical listing of current inpatients at a facility. The inpatients will be printed by ward, then alphabetical by patient name. This report lists patient name, chart number, age, admission date, length of stay, room-bed, and current provider. You have the option to print the list for all wards or just one. This report is a revision of the MAS Inpatient Roster report.

- To print a List by Ward and Patient report, type 2 at the “Choose Report from List: (1-10):” prompt in the Current Inpatient Listing menu.
- Type Y or N at the “Print for All Wards:” prompt. If you select N, you will be prompted to enter the individual ward name.
- Type Y or N at the “Would you like the Report Double Spaced?” prompt.

4. Type **B** (to browse the report onscreen) or **P** (to print the report on paper) at the “Print Mode:” prompt. If you select **P**, you must then select the printer where you would like your report to print.

```

8.5.3 List by Ward and Room

Use this option to print an inpatient list sorted by ward. You have the option to print the list for all wards or just a single ward. Within each ward, the list will be sorted by room-bed. Any patients not assigned to a room-bed will be listed at the end of each ward. You will also be able to customize the report by deciding what to have displayed in the last column. This report displays room-bed, patient name, chart number, age, length of stay, and primary and attending providers. This report is a revision of the MAS Patient List by Ward report.

1. To run a List by Ward and Room report, type **3** at the “Choose Report from List: (1-10):” prompt in the Current Inpatient Listing menu.
2. Type **Y** or **N** at the “Print for All Wards:” prompt. If you select **N**, you will be prompted to type the individual ward name.
3. Type the number of the data option you would like to include in the last column of your report at the “Select Last Column Data:” prompt.
4. Type **B** (to browse the report onscreen) or **P** (to print the report on paper) at the “Print Mode:” prompt. If you select **P**, you must then select the printer where you would like your report to print.

Figure 8-33: Printing list by ward and room (step 5)

8.5.4 List by Service and Patient

Use this option to print an inpatient listing sorted by service and patient (e.g., General Medicine, Pediatrics, Surgery, etc.). Within each service, the list will be sorted by patient name. Any patient that was admitted to a service and then transferred to another will be listed at the end of the admission service's section. This report displays patient name, chart number, ward, room-bed, and providers (primary/attending). This report is a revision of the MAS Patient List by Service report.

- To run a List by Service and Patient report, type 4 at the "Choose Report from List: (1-10):" prompt in the Current Inpatient Listing menu.
- Type Y or N at the "Print for All Treating Specialties:" prompt. If you type N, you will be prompted to type the name of the individual treating specialty. If you type Y, you will be prompted to select the type of service you would like included (e.g. inpatient, observation, or both).

- Type **B** (to browse the report onscreen) or **P** (to print the report on paper) at the “Print Mode:” prompt. If you select **P**, you must then select the printer where you would like your report to print.

Figure 8-35: Printing list by service and patient (step 4)

8.5.5 List by Service and Provider

Use this option to print an inpatient listing sorted by service and then sorted by provider. You have the option to print the list for all services and providers or just a single provider. If a patient was transferred from an admitting service, they will be listed at the end of that service's section. This report displays patient name, chart number, age, sex, community, admitting diagnosis, ward, room-bed, admit date, and length of stay.

1. To run a List by Service and Provider report, type **5** at the “Choose Report from List: (1-10):” prompt in the Current Inpatient Listing menu.
2. Type **Y** or **N** at the “Print for All Treating Specialties?” prompt. If you type **N**, you will be prompted to type the individual treating specialty. If you type **Y**, you will be prompted to select the type of service you would like included (e.g. inpatient, observation, or both).
3. Type the number of the service type you would like to include in your report at the “Select Service Type:” prompt.
4. Type the name of the treating specialty you would like to include in your report at the “Select Treating Specialty:” prompt.
5. Type **Y** or **N** at the “Print for All Attending Providers?” prompt. If you type **N**, you will be prompted to type the individual provider’s name.
6. Type **B** (to browse the report onscreen) or **P** (to print the report on paper) at the “Print Mode:” prompt. If you select **P**, you must then select the printer where you would like your report to print.

8.5.7 Insurance Coverage List

Use this option to print a list of patients who are covered by insurance and listed by the patient's discharge date. This report is sorted by patient and displays patient name, chart number, room, service, provider, admit date, admitting diagnosis, Medicare/Medicaid numbers (if any), patients with current private insurance coverage (one line will print for each policy displaying insurer), and policy number. This is a revision of the MAS Inpatient Medicare/Medicaid Listing report.

- To print the Insurance Coverage list, type 7 at the "Choose Report from List: (1-10):" prompt in the Current Inpatient Listing menu.
- Type Y or N at the "Print for All Ward?" prompt. If you type N, you will be prompted to type the name of the individual ward.
- Type in W or C to sort by either Ward or Coverage Type.

4. Type **B** (to browse the report onscreen) or **P** (to print the report on paper) at the “Print Mode:” prompt. If you select **P**, you must then select the printer where you would like your report to print.

8.5.9 Seriously Ill/DNR List

Use this option to print a list of patients currently on the Seriously Ill List. To add or delete from the list, use the Seriously Ill Enter/Edit option in the ADT menu. Within each ward, the list will be sorted by patient name. You will be asked if you want to also include DNR (Do Not Resuscitate) patients in addition to the Seriously Ill patients. If you include DNR patients, then the first sort will be by SI vs. DNR followed by ward. This report displays patient name, chart number, age, room-bed, service, provider, and the date the patient was added to the list. This report is a revision of the MAS Seriously Ill List report.

- To print the Seriously Ill/DNR list, type 9 at the "Choose Report from List: (1-10):" prompt in the Current Inpatient Listing menu.
- Type Y or N at the "Print for All Ward?" prompt. If you type N, you will be prompted to type the name of the individual ward.
- Type Y or N at the "Include DNR Patients on List?" prompt.

4. Type **B** (to browse the report onscreen) or **P** (to print the report on paper) at the “Print Mode:” prompt. If you select **P**, you must then select the printer where you would like your report to print.

```
Choose Report from List: (1-10): 9
Print for ALL Wards? NO// N
Select Ward Name: PED
Include DNR Patients on List? YES// N

      Select one of the following:

          B          BROWSE ON SCREEN
          P          PRINT ON PAPER

PRINT MODE: BROWSE//
```

Figure 8-44: Printing the seriously ill/DNR list (step 1-4)

5. The Seriously Ill List will print (Figure 8-45). If you typed **B** (browse onscreen), use the options at the bottom of the screen to navigate through the report. You can select any patient on the list for more details on the patient's demographics, view ADT record, and view PCC visit.

8.6 Inpatient Listings by Date (ILD)

Use this report to access reports that provide various inpatient information listed by date. The reports available include admissions, readmissions, non-beneficiary admissions, ICU transfers, discharges, inter-facility transfers, inpatient deaths, and LOS by discharge month and ward. Several sorting options are available for each report, and the reports can be printed or displayed on the screen.

To display the Inpatient Listings by Date menu, type **ILD** at the “Select ADT Reports Menu Option:” prompt in the ADT Reports menu.

```

8.6.1 Admissions

Use this report to list patient admissions (inpatient and observations) for a given date range. You can sort this report by date, ward, service, admitting provider, admitting provider's, hospital service, or alphabetically by patient name.

1. To run the Admissions report, type 1 at the “Choose Report from List: (1-9):” prompt in the Inpatient Listing by Date menu.
2. Type the starting date at the “Select Beginning Date:” prompt.
3. Type the ending date at the “Select Ending Date:” prompt.
4. Type the number of the type of admissions report you would like to run at the “Select Admission Report to Run:” prompt. Each report will prompt you for different information.
5. Follow the prompts for the report selection you selected as they are displayed on your screen.
6. Type Y or N at the “Include Insurance Coverage on Report?” prompt.
7. Type B (to browse the report onscreen) or P (to print the report on paper) at the “Print Mode:” prompt. If you select P, you must then select the printer where you would like your report to print.

8.6.8 LOS by Discharge Month & Ward

Use this report to list patients in order by month discharged and within month by the discharge ward. This report is designed to review length of stay trends by ward. The report lists month discharged, ward, patient name, chart number, admission date, and length of stay.

1. To list LOS by discharge month and ward, type **8** at the “Choose Report from List: (1-9):” prompt in the Inpatient Listing by Date menu.
2. Type the starting date of the date range you would like your report to cover at the “Select Beginning Date:” prompt.
3. Type the ending date of the date range you would like your report to cover at the “Select Ending Date:” prompt.
4. Type **B** (to browse the report onscreen) or **P** (to print the report on paper) at the “Print Mode:” prompt. If you select **P**, you must then select the printer where you would like your report to print.

1	Future Appts for New Admissions
2	Appts for Current Inpatients

Select Report to Run:

Figure 8-67: Inpatients with appointments menu

8.7.1 Future Appointments for New Admissions

Use this report to print a list of all patients admitted on a particular date that have pending appointments at the facility. The report is sorted alphabetically by patient name and includes the patient ID number, ward, scheduled appointment date/time, and clinic. Using this information, appointments can be kept, cancelled, or rescheduled as necessary.

1. To print a list of future appointments for new inpatients, type 1 at the “Select Report to Run:” prompt in the Inpatient with Appointments menu.
2. Type the patient’s admission date at the “List Patients with Pending Appointments Admitted on Date:” prompt.
3. Type the name of a print device at the “Device:” prompt. Type HOME at the “Device:” prompt to display the report onscreen.

8.7.2 Appointments for Current Inpatients

Use this report to print a list of appointments for current inpatients. This list assists inpatient staff in tracking appointments for their current patients and to make sure follow-up appointments for patients being discharged are made.

1. To print a list of appointments for current inpatients, type 2 at the “Select Report to Run:” prompt in the Inpatient with Appointments menu.
2. Type the name of one, many, or all divisions at the “Select Division:” prompt. When you are done typing division names, press the Return key at a blank “Select Another Division:” prompt.
3. Type the name of one, many, or all wards at the “Select Ward:” prompt. When you are done typing ward names, press the Return key at a blank “Select Another Ward:” prompt.
4. Type the name of one, many, or all clinics at the “Select Clinic:” prompt. When you are done typing clinic names, press the Return key at a blank “Select Another Clinic:” prompt.
5. Type the starting date of the date range you would like your report to cover at the “Select Beginning Date:” prompt.
6. Type the ending date of the date range you would like your report to cover at the “Select Ending Date:” prompt.
7. Type **B** (to browse the report onscreen) or **P** (to print the report on paper) at the “Print Mode:” prompt. If you select **P**, you must then select the printer where you would like your report to print.

4. Track Census by Ward
5. Online Help (Report Descriptions)
Choose Report from List: (1-5):
```

Figure 8-75: PMR menu

8.9.1 Reprint Admissions & Discharges Sheet

Use this option to list a daily report that lists census changes for a facility. The Admission and Discharges (A&D) sheet lists admissions, discharges, and transfers. This report also displays the changes in the census files for reporting purposes. The original A&D sheet must be run daily to update the census numbers and is found on the Supervisor Menu (section 10.4). This report gives you the ability to reprint this report *after* the original one has been printed, checked, and balanced against manual nursing counts.

1. To use the Reprint Admissions and Discharges Sheet option, type 1 at the “Choose Report from List:” prompt in the Patient Movement Reports menu.
2. A list of earliest dates for the report will be displayed (Figure 8-76). Type the date at which you would like your report to start compiling information at the “Print Reports for Which Date:” prompt.
3. Type D (detailed) or S (summary) at the “Select Report Format – Detailed or Summary: (D/S):” prompt.
4. Type the name of a print device at the “Device:” prompt. You can type HOME at the “Device:” prompt to display the report on your screen.

```

8.10 Scheduled Visits Listing (SVL)

Use this option to print out a listing of patients with visits by date range. You can choose to print all types or just admissions, just day surgeries, or just outpatients. Depending on the type of visits chosen, you have customized choices for primary and secondary sorts. Either a brief or detailed report can be chosen.

1. Type **SVL** at the “Select ADT Reports Menu Option:” prompt in the ADT report menu.
2. Type a date at the “Earliest Date Expected” prompt to define the beginning date for your report.
3. Type a date at the “Latest Date Expected” prompt to define the ending date for your report.
4. To include those entries already marked as no-shows and cancellations, type ‘Yes’ at the “Include No-Shows and Cancellations?” prompt.
5. Next select how you want the report sorted and what you would like for a second sort.
6. For a two-line summary of each entry, type **B** for BRIEF at the “Select Report Type” prompt. Type **D** for DETAILED to have most of the information on each entry displayed.
7. Type **B** (to browse the report onscreen) or **P** (to print the report on paper) at the “Print Mode:” prompt. If you select **P**, you must then select the printer where you would like your report to print.

Select Earliest Date Expected: T (OCT 06, 2005)
Select Latest Date Expected: 12/1 (DEC 01, 2005)

10.2 Post A&D Sheet Bulletin (BUL)

Use this option to send an Admission and Discharges (A&D) Sheet Bulletin. This bulletin informs selected users through out the facility that the Admissions & Discharges sheet for a particular day has been checked and verified and can now be reprinted by users. Users to receive the bulletin must be members of the mail group linked to your BDG A&D READY bulletin. The mail group can be linked under the "SAF - Setup ADT Files" option.

1. To print an A&D Sheet Bulletin, type BUL at the "Select Supervisor ADT menu Option:" prompt in the Supervisor ADT menu.
2. Type the date of the A&D sheet that is ready to be reprinted by other users at the "Enter A&D Sheet Date:" prompt. You must enter the date exactly as you would like it to appear – Nov 2, 2004 instead of "T-1" or "11/2."
3. Type Y or N to indicate if the bulletin should be posted immediately at the "Okay to Post Bulletin Now?" prompt.

4. Type other information as requested at the prompts and press the Enter key after each prompt to record the entry.

10.3.4 List Ward Census Movements (AID4)

Use this option to ensure that all patient movements (e.g., admissions, transfers, discharges, and deaths) that occurred between the specified dates are recorded. At the end of the report, if run for the entire facility, a summary sheet is printed to check numbers of patients in each ward. It can also help the admitting supervisor find errors.

1. To print a list of patient movements, type **AID4** at the “Select Census Reports Menu Option:” prompt in the Census Reports menu.
2. To print a list of patient movements on all wards, type **Y** at the “Print All Wards?” prompt, or to print a list of patient movements on a selected ward, type **N** at the “Print All Wards?” prompt.
3. Type the ward name at the “Select Ward:” prompt (if printing for a select ward).
4. Type the date to begin printing a list of patient movements at the “Select Beginning Date and Time:” prompt.
5. Type the date to stop printing a list of patient movements at the “Select Ending Date and Time:” prompt.
6. Type **B** (to browse the report onscreen) or **P** (to print the report on paper) at the “Print Mode:” prompt. If you select **P**, you must then select the printer where you would like your report to print.

```
Select Census Reports Menu Option: AID4 List Ward Census Movements

Print for ALL Wards? NO// [Enter]
Select Ward: PED

Select beginning date and time: T-365@9 (NOV 04, 2001@09:00)
Select ending date and time: (11/4/2001 - 11/4/2002): T@10 (NOV 04, 2002@10:00)

Select one of the following:

      B      BROWSE ON SCREEN
      P      PRINT ON PAPER

PRINT MODE: BROWSE//
```

Figure 10-14: Listing ward census movements (steps 1-6)

- The Patient Movement Worksheet will print (Figure 10-15). If you selected to display the report onscreen, use the options at the bottom of the screen to navigate through the report.

10.3.5 (HSA-202-1) Monthly Report of Inpatient Services (M202)

Use this option to print the HSA-202-1 form for reporting inpatient services at your facility for a specific month. Unlike most ADT reports, this report is designed to print only on paper, so it is not available in List Manager. This report has inpatient services for a selected month at a facility.

- To print the Monthly Report of Inpatient Services, type M202 at the “Select Census Reports Menu Option:” prompt in the Census Reports menu.
- Type the month for which the report will be printed at the “Print report for which month:” prompt.
- Type a print device at the “Device:” prompt.
- Type Y or N at the “Do you want your output Queued?” prompt.

```
Select Census Reports Menu Option: M202 Monthly report of Inpatient Services (HSA-202-1)

Print Report for Which Month: December 2002

DEVICE: MIH106 fdesk

Do you want your output QUEUED? NO// [Enter] (NO)
```

10.3.6 (HSA-202-1) Report by Range of Dates (Y202)

Use this report to print a one page report similar to the official M202 but for a range of months. This is to be used internally and is not a submitted report.

1. To print a Range of Months Report of Inpatient Services, type Y202 at the “Select Census Reports Menu Option:” prompt in the Census Reports menu.
2. Type the date to start printing the report at the “Select Starting Month:” prompt.
3. Type the date to stop printing the report at the “Select Ending Month:” prompt.
4. Type a print device at the “Device:” prompt.

10.4 Recalculate Census Totals (REC)

Use this option to run an update to the census fields without printing out any A&D sheets. This option is best used when there are many dates that need to be recalculated.

1. To access the Census Reports menu, type **REC** at the “Select ADT Supervisor Menu Option:” prompt in the Supervisor ADT menu.
2. Type the date from which you want totals recalculated at the “Recalculate Totals from Which Date:” prompt.

```

                                ADT Supervisor Menu
                                (UNSPECIFIED HO)

ADS    Admissions & Discharges Sheet
BUL    Post A&D Sheet Bulletin
CEN    Census Reports Menu ...
REC    Recalculate Census Totals
SYS    ADT System Definition Menu ...
VAD    View A&D Corrections

Select ADT Supervisor Menu Option: REC  Recalculate Census Totals
Earliest Date for G&L.....OCT 1,1995
Earliest Date for Treating Specialty Report.....OCT 1,1995
Earliest Date to Recalculate.....OCT 1,1995

RECALCULATE TOTALS FROM WHICH DATE: T-365  (NOV 05, 2001)

```

Figure 10-20: Recalculating census totals

10.5 ADT System Definition Menu (SYS)

Use this option to set up the Administrative/Discharge/Transfer (ADT) System in a way that best suits the facility. This menu contains all parameter setup options.

To access the ADT System Definition menu, type **SYS** at the “Select ADT Supervisor Menu Option:” prompt in the Supervisor ADT menu.

```

                                ADT Supervisor Menu
                                (UNSPECIFIED HO)

Select ADT System Definition Menu Option:

```

Figure 10-22: ADT system definition menu

10.5.1 Check ADT-PCC Link (CKL)

Use this option to displays the status of the link between ADT and PCC. Link must be turned on for data to be passed to PCC.

1. To use the Check ADT-PCC Link option, type CKL at the “Select ADT System Definition Menu Option:” prompt.
2. The ADT-PCC Link Environment screen will be displayed. When you are done looking over the information on the screen, press the ENTER key to return to the ADT System Definition menu.

```

                                ADT System Definition Menu

5) PIMS package defined in the PACKAGE file: YES
6) PIMS entry exists in the PCC MASTER CONTROL file: YES
7) PIMS entry has "PASS DATA TO PCC" set to: YES
    ** PCC link is turned ON. **

Press ENTER to continue: [Enter]

```

Figure 10-23: Checking the ADT-PCC link

10.5.2 Edit ADT Parameters (EAP)

Use this option to set up and maintain facility and system parameters dealing with the ADT functions in PIMS.

To edit ADT parameters, type **EAP** at the “Select Application Coordinator Menu Option:” prompt located in the Application Coordinator menu.

```

                                ADT System Definition Menu
                                (UNSPECIFIED HO)

CKL      Check ADT-PCC Link
EAP      Edit ADT Parameters
ICF      Initialize Census Files
KEY      List ADT Security Keys
SAF      Setup ADT Files

Select ADT System Definition Menu Option: EAP  Edit ADT Parameters

```

Figure 10-24: Editing ADT parameters

10.5.2.1 Editing System Wide Parameters

Use this option to edit the Primary Facility Name and whether or not the facility is a Multidivisional Medical Center.

1. Type the name of the Primary Facility at the “Primary Facility Name:” prompt, or press the Return key to keep the current default name.
2. Type Y or N depending if your facility is a multidivisional Medical Center at the “Multidivision Med Center?:” prompt.

```

Editing system-wide parameters:

PRIMARY FACILITY NAME: UNSPECIFIED INDIAN HOSPITAL//[Enter]
MULTIDIVISION MED CENTER?: YES//[Enter]

```

Figure 10-25: Editing system wide parameters

10.5.2.2 Editing facility-wide parameters:

Use this option to edit the parameters within your facility. You will be able to edit several ADT parameters and default entries.

1. Type the division name or number where you will be making changes at the “Select IHS ADT Parameters Division:” prompt.
2. Type Y to confirm your selection at the “OK?” prompt.

3. Type the number or name of the facility where you want to set the file pointer at the “Institution File Pointer:” prompt. Type ?? for more detail on this option.
4. Type the number of your facility at the “Facility Number:” prompt or press the ENTER key to accept the default entry. This number is typically the internal entry number for your facility in the LOCATION file.

Editing facility-wide parameters:

```
Select IHS ADT PARAMETERS NAME: UNSPECIFIED INDIAN HOSPITAL      1569
...OK? Y(Yes)

INSTITUTION FILE POINTER: UNSPECIFIED HO// [Enter]
FACILITY NUMBER: 1569// [Enter]
PRINT WRISTBANDS: Type YES if you have a printer set up to print them.
```

Figure 10-26: Editing facility-wide parameters (steps 1-4)

5. The system will display the ADT Parameters screen. This screen uses ScreenMan. When using ScreenMan for typing data, use the tab or arrow keys for moving between fields. You can type ?? at any prompt to display your options at the bottom of the screen.
6. Type answers to each of the fields to customize your site (please refer to the PIMS install guide for more information).
7. When you are done typing answers for page one, move the cursor to the command line located at the bottom of the screen and type N or NEXT PAGE.
8. Again, type answer to each of the fields to customize your site.
9. It is important to note that if you do not populate the Day Surgery Hospital field, when users select the Day Surgery (DSE) option they will see the following error (Figure 10-27):

```
Each Division must have a valid Clinic entered in the DAY SURGERY
HOSP LOCATION field, found in the ADT parameters set up

Press ENTER to continue:
```

Figure 10-27: Error message

10. When you are done typing answers for page two, move the cursor to the command line and type EXIT.

10.5.3 Initialize Census Files (ICF)

Use this option **only** when you need to start over with your census files. It will be required to run upon installation of PIMS v5.3.

1. To initialize census files, type ICF at the “Select ADT System Definition Menu Option:” prompt in the ADT System Definition menu.
2. Type the minimum age for adult patients at the “Minimum Age for Adult Patients:” prompt or press the Return key to accept the default age.

3. Type the earliest date for G&L at the “Earliest Date for G&L:” prompt or press the Return key to accept the default date.
4. Type Y at the “Ready to Initialize Census for Oct, 01, 1995?” prompt to initialize files. Type N to escape this option.

```

10.5.5 Setup ADT Files (SAF)

Use this option to access the Setup ADT Files menu that will enable you to set up and modify local fields in the ADT standard files. You can add local entries to standard ADT files and to edit local fields in those same files.

To access the Setup ADT Files menu, type **SAF** at the “Select ADT System Definition Menu Option:” prompt in the ADT System Definition menu.

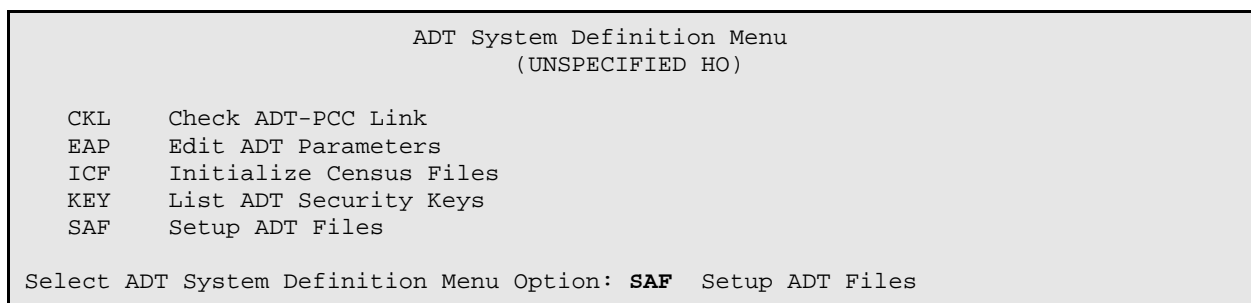

Figure 10-32: Accessing the SAF menu

The SAF menu will be displayed (Figure 10-33). Sections 10.5.5.1 through 10.5.5.8 will explain how to use each option.

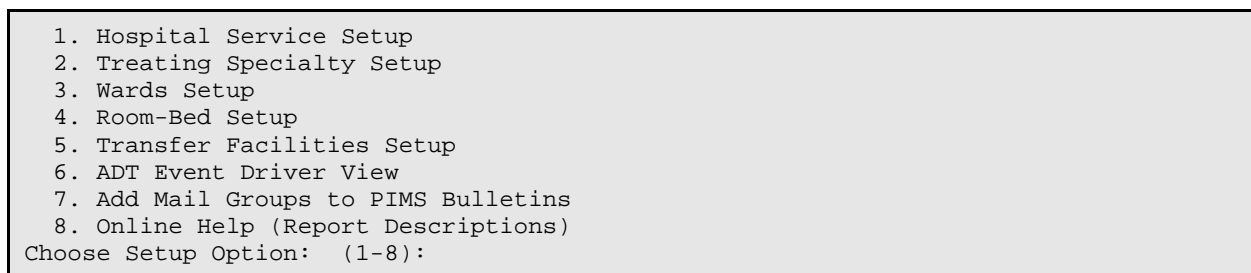

Figure 10-33: SAF menu

10.5.5.1 Hospital Service Setup

Use this option to add or edit a hospital service in your system. This setup option displays a list of the major services and departments in your facility. These include all patient care and administrative services. The list displays service name, abbreviation, mail code, and type (clinical vs. administrative). If the service has been closed, the closing date will display in the Type column.

1. To use the Hospital Service Setup option, type 1 at the “Choose Setup Option:” prompt in the SAF menu.

```

1. Hospital Service Setup
2. Treating Specialty Setup
3. Wards Setup
4. Room-Bed Setup
5. Transfer Facilities Setup
6. ADT Event Driver View
7. Add Mail Groups to PIMS Bulletins
8. Online Help (Report Descriptions)
Choose Setup Option: (1-8): 1

```

Figure 10-34: Setting up a hospital service (step 1)

2. The Hospital Service Setup screen will be displayed (Figure 10-35). You have the option to add or edit any hospital service. Type the number of the option you would like to use at the “Select Action:” prompt.

HOSPITAL SERVICE SETUP		Nov 05, 2002 09:07:54		Page: 1 of 1	
UNSPECIFIED INDIAN HOSPITAL

COMMAND:                                     Press <PF1>H for help   Insert

```

Figure 10-36: Setting up a hospital service (step 3)

10.5.5.2 Treating Specialty Setup

Use this option to edit the treating specialties for your facility. This setup option presents all official IHS inpatient services and the corresponding IHS code in alphabetical order. The display also includes abbreviations, hospital service, and whether or not this treating specialty is set up as an active admitting service at your facility. Only those set up correctly can be chosen when admitting a patient.

- To use the Treating Specialty Setup option, type 2 at the “Choose Setup Option:” prompt in the SAF menu.

```

1. Hospital Service Setup
2. Treating Specialty Setup
3. Wards Setup
4. Room-Bed Setup
5. Transfer Facilities Setup
6. ADT Event Driver View
7. Add Mail Groups to PIMS Bulletins

10.5.5.5 Transfer Facilities Setup

Use this option to edit or add transfer facility parameters. This setup option presents a list of all transfer facilities used by your site so far. During the installation of ADT version 5.3, the transfer facility fields in ADT and PCC were converted from variable pointers looking at two files (Institution and Vendor). They now point to one locally maintained table. This option displays the entries in this new table.

To use Transfer Facilities Setup option, type 5 at the “Choose Setup Option:” prompt in the SAF menu.

```

1. Hospital Service Setup
2. Treating Specialty Setup
3. Wards Setup
4. Room-Bed Setup
5. Transfer Facilities Setup
6. ADT Event Driver View
7. Add Mail Groups to PIMS Bulletins
8. Online Help (Report Descriptions)
Choose Setup Option: (1-8): 5

Figure 11-3: Entering a new patient visit (steps 5–7)

- When you exit the ScreenMan screen, type Y or N at the “Want to Print Scheduled Visit Summary?” prompt. If you type Y, you will be prompted to select between printing the report on paper or browsing onscreen.

```
Want to print Scheduled Visit Summary? NO// Y YES

  Select one of the following:

      B      BROWSE ON SCREEN
      P      PRINT ON PAPER

PRINT MODE: B

=====
Scheduled Visits Summary   Oct 29, 2002 07:17:56           Page:   1 of   1
      Confidential Patient Data Covered by Privacy Act
PATIENT,ALLISON           #4298      Age: 41      Comm: UNSPECIFIED RES
=====

                        SCHEDULED ADMISSION

      DATE EXPECTED:    OCT 30, 2002
AUTHORIZING PROVIDER:    DOCTOR,KATHRYN
      CASE MANAGER:    JONES,HEATHER E
      TREATING SPECIALTY: SURGERY
                        WARD:    GMS
      DIAGNOSIS:    bad valve
REFERRING PROVIDER:    PROVIDER
      SURGERY DATE:    OCT 30, 2002
      SAME DAY ADMIT?: YES
      PROCEDURE:    heart transplant

Enter ?? for more actions

Select Action:Quit//      QUIT
```

Figure 11-4: Entering a new patient visit (step 8)

11.2 Edit a Scheduled Visit

Use this option to edit a scheduled visit.

1. To edit a patient visit, type the name of the patient whose upcoming visit needs to be edited at the “Select Patient:” prompt.
2. Type the date of the scheduled visit that needs to be edited or select from the list of scheduled visit entries at the “Select Date by Number or ‘A’ to Add New Entry:” prompt.
3. Type changes to be made at the prompts then press the Return key to record the changes.

```
Select Patient: PATIENT,ALLISON
                                     F 02-02-1901 000785650    MH 4298

Scheduled Visit Entries for PATIENT,ALLISON:
  1  NOV 05, 2002      OUTPATIENT VISIT    Open/Pending
  2  NOV 01, 2002      DAY SURGERY        Open/Pending
  3  OCT 30, 2002      ADMISSION          Open/Pending

Select Date by Number or "A" to Add New Entry: 1

It would then drop into the same ScreenMan display as under "Add a New Scheduled
Visit".
```

12.0 Glossary

Term	Definition
ADPL	Average Daily Patient Load
ALOS	Average Length of Stay
Attending physician	Supervising physician who is responsible for the care of the patient.
DRG	Diagnostic Related Group
G&L	Gains and Losses
Security key	Used in conjunction with locked options or functions.

13.0 Appendix A: Specific RPMS Rules of Behavior

All users (Contractors and IHS Employees) of RPMS will be provided a copy of the rules of behavior (RoB) and will have to acknowledge them in accordance IHS policy prior to being granted access to a RPMS system. The RPMS system is a United States Department of Health and Human Services, Indian Health Service information system that is FOR OFFICIAL USE ONLY. The system is subject to monitoring; therefore, no expectation of privacy shall be assumed. Individuals found performing unauthorized activities are subject to disciplinary action including criminal prosecution.

RPMS users must follow these RoB in addition to the RoB listed in the IHS General User Security Handbook and, if a privileged user, the RoB listed in the IHS Technical and Managerial Handbook.

Important Note: The RoBs listed in this document are specific to RPMS. For a listing of general RoB for all users, please see the IHS General User Security Handbook and for a listing of system administrators/managers rules, the IHS Technical and Managerial Handbook located at <http://home.ihs.gov/ITSC-CIO/security/secpgm/ITproced.cfm>.

13.1 All RPMS Users

In addition to these rules, each application may include additional RoBs, which may be defined within the individual application's documentation (e.g., PCC, Dental, Pharmacy).

13.1.1 Access

RPMS Users Shall:

- Only use data for which you have been granted authorization.
- Only give information to personnel who have access authority and have a need to know.
- Always verify a caller's identification and job purpose with your supervisor or the entity provided as employer *before* providing any type of information system access, sensitive information, or non-public agency information.
- Be aware that personal use of information resources is authorized on a limited basis within the provisions Indian Health Manual Chapter 6 OMS Limited Personal Use of Information Technology Resources TN 03-05," August 6, 2003.

Users Shall NOT:

- Retrieve information for someone who does not have authority to access the information.
- Access, research, or change any user account, file, directory, table, or record not required to perform your OFFICIAL duties.
- Store sensitive files on a PC hard drive, or portable devices or media, if access to the PC or files cannot be physically or technically limited.
- Exceed their authorized access limits in RPMS by changing information or searching databases beyond the responsibilities of their job or by divulging information to anyone not authorized to know that information.

13.1.2 Logging On To the System

RPMS Users Shall:

- Have a unique User Identification/Account name and password.
- Be granted access based on authenticating the account name and password entered.
- Be locked out of an account after 5 successive failed login attempts within a specified time period (e.g., one hour).

13.1.3 Information Accessibility

RPMS shall restrict access to information based on the type and identity of the user. However, regardless of the type of user, access shall be restricted to the minimum level necessary to perform the job.

Users Shall:

- Access only those documents they created and those other documents to which they have a valid need-to-know and to which they have specifically granted access through an RPMS application based on their menus (job roles), keys, and FileMan access codes. Some users may be afforded additional privileges based on the function they perform such as system administrator or application administrator.
- Acquire a written preauthorization in accordance with IHS policies and procedures prior to interconnection to or transferring data from RPMS.

13.1.4 Accountability

Users Shall:

- Behave in an ethical, technically proficient, informed, and trustworthy manner.
- Logout of the system whenever they leave the vicinity of their PC.
- Be alert to threats and vulnerabilities in the security of the system.
- Report all security incidents to their local Information System Security Officer (ISSO)
- Differentiate tasks and functions to ensure that no one person has sole access to or control over important resources.
- Protect all sensitive data entrusted to them as part of their government employment.
- Shall abide by all Department and Agency policies and procedures and guidelines related to ethics, conduct, behavior and IT information processes.

13.1.5 Confidentiality

Users Shall:

- Be aware of the sensitivity of electronic and hardcopy information, and protect it accordingly.
- Store hardcopy reports/storage media containing confidential information in a locked room or cabinet.
- Erase sensitive data on storage media, prior to reusing or disposing of the media.
- Protect all RPMS terminals from public viewing at all times.
- Abide by all HIPAA regulations to ensure patient confidentiality.

Users Shall NOT:

- Allow confidential information to remain on the PC screen when someone who is not authorized to that data is in the vicinity.
- Store sensitive files on a portable device or media without encrypting.

13.1.6 Integrity

Users Shall:

- Protect your system against viruses and similar malicious programs.
- Observe all software license agreements.
- Follow industry standard procedures for maintaining and managing RPMS hardware, operating system software, application software, and/or database software and database tables.
- Comply with all copyright regulations and license agreements associated with RPMS software.

Users Shall NOT:

- Violate Federal copyright laws.
- Install or use unauthorized software within the system libraries or folders.
- Use freeware, shareware or public domain software on/with the system without your manager's written permission and without scanning it for viruses first.

13.1.7 Passwords

Users Shall:

- Change passwords a minimum of every 90 days.
- Create passwords with a minimum of eight characters.
- If the system allows, use a combination of alpha, numeric characters for

Users Shall:

passwords, with at least one uppercase letter, one lower case letter, and one number. It is recommended, if possible, that a special character also be used in the password.

- Change vendor-supplied passwords immediately.
- Protect passwords by committing them to memory or store them in a safe place (do not store passwords in login scripts, or batch files.
- Change password immediately if password has been seen, guessed or otherwise compromised; and report the compromise or suspected compromise to your ISSO.
- Keep user identifications (ID) and passwords confidential.

Users Shall Not:

- Use common words found in any dictionary as a password.
- Use obvious readable passwords or passwords that incorporate personal data elements (e.g., user's name, date of birth, address, telephone number, or social security number; names of children or spouses; favorite band, sports team, or automobile; or other personal attributes).
- Share passwords/IDs with anyone or accept the use of another's password/ID, even if offered.
- Reuse passwords. A new password must contain no more than five characters per 8 characters from the previous password.
- Post passwords.
- Keep a password list in an obvious place, such as under keyboards, in desk drawers, or in any other location where it might be disclosed.
- Give a password out over the phone.

13.1.8 Backups

Users Shall:

- Plan for contingencies such as physical disasters, loss of processing, and disclosure of information by preparing alternate work strategies and system recovery mechanisms.
- Make backups of systems and files on a regular, defined basis.
- If possible, store backups away from the system in a secure environment.

13.1.9 Reporting

Users Shall:

- Contact and inform your ISSO that you have identified an IT security incident and you will begin the reporting process by providing an IT Incident Reporting Form regarding this incident.
- Report security incidents as detailed in IHS SOP 05-03, *Incident Handling Guide*.

Users Shall NOT:

- Assume that someone else has already reported an incident. The risk of an incident going unreported far outweighs the possibility that an incident gets reported more than once.

13.1.10 Session Time Outs

RPMS system implements system-based timeouts that back users out of a prompt after no more than 5 minutes of inactivity.

Users Shall:

- Utilize a screen saver with password protection set to suspend operations at no greater than 10-minutes of inactivity. This will prevent inappropriate access and viewing of any material displayed on your screen after some period of inactivity.

13.1.11 Hardware

Users Shall:

- Avoid placing system equipment near obvious environmental hazards (e.g., water pipes).
- Keep an inventory of all system equipment.
- Keep records of maintenance/repairs performed on system equipment.

Users Shall NOT:

- Do not eat or drink near system equipment.

13.1.12 Awareness

Users Shall:

- Participate in organization-wide security training as required.
- Read and adhere to security information pertaining to system hardware and software.
- Take the annual information security awareness.
- Read all applicable RPMS Manuals for the applications used in their jobs.

13.1.13 Remote Access

Each subscriber organization establishes its own policies for determining which employees may work at home or in other remote workplace locations. Any remote work arrangement should include policies that:

- Are in writing.
- Provide authentication of the remote user through the use of ID and password or other acceptable technical means.
- Outline the work requirements and the security safeguards and procedures the employee is expected to follow.
- Ensure adequate storage of files, removal and non-recovery of temporary files created in processing sensitive data, virus protection, intrusion detection, and provides physical security for government equipment and sensitive data.
- Establish mechanisms to back up data created and/or stored at alternate work locations.

Remote Users Shall:

- Remotely access RPMS through a virtual private network (VPN) when ever possible. Use of direct dial in access must be justified and approved in writing and its use secured in accordance with industry best practices or government procedures.

Remote Users Shall NOT:

- Disable any encryption established for network, internet and web browser communications.

13.2 RPMS Developers

Developers Shall:

- Always be mindful of protecting the confidentiality, availability, and integrity of RPMS when writing or revising code.
- Always follow the IHS RPMS Programming Standards and Conventions (SAC) when developing for RPMS.
- Only access information or code within the namespaces for which they have been assigned as part of their duties.
- Remember that all RPMS code is the property of the U.S. Government, not the developer.
- Shall not access live production systems without obtaining appropriate written access, shall only retain that access for the shortest period possible to accomplish the task that requires the access.
- Shall observe separation of duties policies and procedures to the fullest extent possible.
- Shall document or comment all changes to any RPMS software at the time the change or update is made. Documentation shall include the programmer's initials, date of change and reason for the change.
- Shall use checksums or other integrity mechanism when releasing their certified applications to assure the integrity of the routines within their RPMS applications.
- Shall follow industry best standards for systems they are assigned to develop or maintain; abide by all Department and Agency policies and procedures.
- Shall document and implement security processes whenever available.

Developers Shall NOT:

- Write any code that adversely impacts RPMS, such as backdoor access, "Easter eggs," time bombs, or any other malicious code or make inappropriate comments within the code, manuals, or help frames.
- Grant any user or system administrator access to RPMS unless proper documentation is provided.
- Not release any sensitive agency or patient information.

13.3 Privileged Users

Personnel who have significant access to processes and data in RPMS, such as, system security administrators, systems administrators, and database administrators have added responsibilities to ensure the secure operation of RPMS.

Privileged Users Shall:

- Verify that any user requesting access to any RPMS system has completed the appropriate access request forms.
- Ensure that government personnel and contractor personnel understand and comply with license requirements. End users, supervisors, and functional managers are ultimately responsible for this compliance.
- Advise the system owner on matters concerning information technology security.
- Assist the system owner in developing security plans, risk assessments, and supporting documentation for the certification and accreditation process.
- Ensure that any changes to RPMS that affect contingency and disaster recovery plans are conveyed to the person responsible for maintaining continuity of operations plans.
- Ensure that adequate physical and administrative safeguards are operational within their areas of responsibility and that access to information and data is restricted to authorized personnel on a need to know basis.
- Verify that users have received appropriate security training before allowing access to RPMS.
- Implement applicable security access procedures and mechanisms, incorporate appropriate levels of system auditing, and review audit logs.
- Document and investigate known or suspected security incidents or violations and report them to the ISSO, CISO, and systems owner.
- Protect the supervisor, superuser or system administrator passwords.
- Avoid instances where the same individual has responsibility for several functions (i.e., transaction entry and transaction approval).
- Watch for unscheduled, unusual, and unauthorized programs.
- Help train system users on the appropriate use and security of the system.
- Establish protective controls to ensure the accountability, integrity, confidentiality, and availability of the system.
- Replace passwords when a compromise is suspected. Delete user accounts as quickly as possible from the time that the user is no longer authorized system. Passwords forgotten by their owner should be replaced, not reissued.
- Terminate user accounts when a user transfers or has been terminated. If the user has authority to grant authorizations to others, review these other authorizations.

Privileged Users Shall:

- Retrieve any devices used to gain access to the system or equipment. Cancel logon IDs and passwords, and delete or reassign related active and back up files.
- Use a suspend program to prevent an unauthorized user from logging on with the current user's ID if the system is left on and unattended.
 - Verify the identity of the user when resetting passwords. This can be done either in person or having the user answer a question that can be compared to one in the administrator's database.
 - Shall follow industry best standards for systems they are assigned to; abide by all Department and Agency policies and procedures.

Privileged Users Shall NOT:

- Access any files, records, systems, etc., that are not explicitly needed to perform their duties
- Grant any user or system administrator access to RPMS unless proper documentation is provided.
- Not release any sensitive agency or patient information.
