Terms and Taxonomy Updates

All taxonomies were updated with new codes. These taxonomies were included in one item in the reminder exchange called **Updated Codes**. Install these taxonomies and choose **Overwrite** for *all* of them to get the new codes.

Example:

REMINDER TERM entry named IHS-COLONOSCOPY 2015 already exists but the packed component is different, what do you want to do?

Select one of the following:

- C Create a new entry by copying to a new name
- M Merge findings
- O Overwrite the current entry**
- U Update
- Q Quit the install
- S Skip, do not install this entry

Enter response: **O//**

Are you sure you want to overwrite? N// **YES**
