**Subject:** New! California Area GPRA Email Listserv

The National GPRA Support Team at the California Area Office has created a California Area GPRA Listserv for all California Tribal and Urban programs to use. This email Listserv will allow programs to easily communicate with each other to ask GPRA or CRS questions and to share GPRA improvement ideas or strategies. To sign up for the new CA GPRA Listserv, click on the following link, enter your name and email address, and click subscribe:

[http://www.ihs.gov/listserver/index.cfm?module=signUpForm&list\\_id=250](http://www.ihs.gov/listserver/index.cfm?module=signUpForm&list_id=250)

Once you have subscribed to the email list, use the following email address to send GPRA-related questions, comments, or ideas to the listserv: [CA-GPRA@listserv.ihs.gov](mailto:CA-GPRA@listserv.ihs.gov). Everyone registered to the listserv will receive your questions, comments, or ideas and have the ability to respond. This means limited personal information should be shared. Site-specific questions may still be addressed to [caogpra@ihs.gov](mailto:caogpra@ihs.gov).

Please share the listserv information with anyone at your clinic who is involved in GPRA or clinical quality improvement.

Let us know if you have any questions.

Thank you,

National GPRA Support Team
