

Tribal Leaders Diabetes Committee (TLDC) Update April 4, 2022

California Representatives

Primary Tribal Representative

Rosemary Nelson

(Astariwi Band of Pit River Tribe)

Alternate Tribal Representative

Dominica Valencia

(Santa Ynez Band of Chumash Mission Indians)

Federal Technical Representative

Glenna Moore, Area Diabetes Consultant

California Area Indian Health Service

California SDPI

Technical Support

- California Area IHS provides technical assistance to 35 California T/U programs through remote telecommunication to improve outcomes
- With the pandemic, on-site visits are on hold. Technical support continues through virtual visits

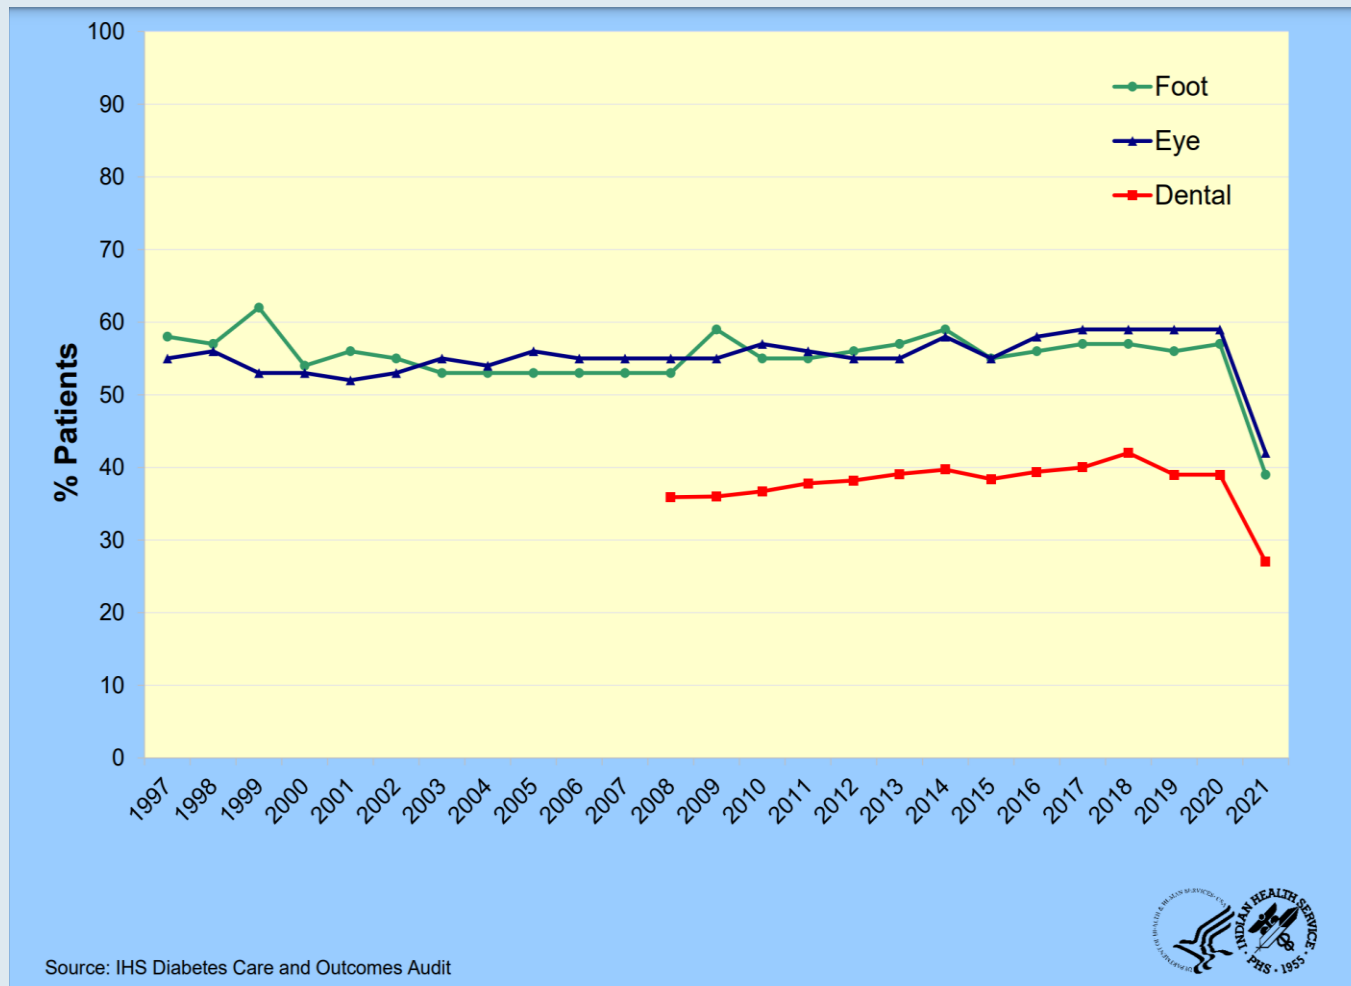

35 California SDPI Grantees

Data Supports Funding

- California Area IHS collects, assesses and reports Diabetes Audit Data to assess care and improve health outcomes
- Data supports the stories from our communities- not only the successes, but the disparities, reinforcing the need for increased funding
- Decrease in health outcomes due to pandemic

2021 Diabetes Care & Outcomes Audit

Are you an American Indian or Alaska Native adult with diabetes?

Are you interested in learning how Native adults with diabetes and their families can eat healthfully?

If so, come join us for a new healthy eating class and research project. The class is free and is for Native people with diabetes. It will be held at

Lake County Tribal Health Consortium - Zoom Link Provided

If you sign up, you will:

- Come to 5 classes over 3 months (each class is 1 ½ hours long)
- Answer some questions about what you have learned and how you like the class
- Have your blood sugar, weight, and blood pressure measured 3 times
- Be given a gift card for each class you come to

Whether you have been to our diabetes classes before or not, we hope you will join us.

Please call **263-8382 x1629** to sign up. You are welcome to bring an adult family member with you.

We hope you will join us!

Providing Services During Covid

Walk with Ease

Walk With Ease (WWE) is a 6-week long evidenced-based program that helps people with arthritis or other related conditions **reduce pain, increase balance, increase strength, improve walking pace, and improve overall health.** The WWE program includes a free workbook and an app that you can download to track your progress.

Format: Due to COVID-19, this program is self-directed with guidance from a trained Walk With Ease leader from Lake County Tribal Health. A group of individuals begin and end the 6-week program at the same time.

When: Starts January 12, 2021

Time: Any time that works for you, three times a week on days of your choosing

Length: 6-weeks: Three 1-hour sessions each week (a total of 18 sessions)

Location: Wherever you are

To sign-up, please call 707-263-8382 ext. 1620

Current SDPI Grant Cycle

- SDPI, normally a 5 yr cycle, was extended to 7 yrs
- (FY 2016-2022)
 - FY 2016
 - FY 2017
 - FY 2018
 - FY 2019
 - FY 2020
 - FY 2021
 - **FY2022**

SDPI Funding

- The Consolidate Appropriations Act, 2021 funded SDPI at \$150M through 2023
- No increase in SDPI funding since 2004
- A portion of unobligated balances used to cover sequestration & one-time SDPI 2021 Supplements

SDPI Updates: 2022

- 2022 was a Continuation Competitive application; only current grantees were eligible to apply
- Sequestration: 2% mandatory sequestration. \$3M decrease (total SDPI funding \$147M)
- Offsets: 2 SDPI grantees received offsets across 12 Areas
- No offsets for CA SDPI grantees in 2022

SDPI FY 2023

- FY 2023 will be the 26th year of SDPI
- Unknown if the grant application process will be “limited” to only current grantees or “open” to all eligible applicants
- IHS is submitting a waiver request to HHS to limit the application process to current SDPI grantees only
- Notice of Funding Opportunity (NOFO), May 2022

SDPI 2023: Tribal Consultation/Urban Confer

- DTLL and DUIOLL will be sent out soon and will open the consultation/confer process
- 30 day period to submit comments
- Consultation/confer (April 2022)
