

# Agency Level Performance Measures Reporting (ALPMR) Update

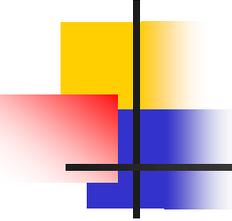

---

Michael Gomez

National GPRA Coordinators Meeting –  
Sacramento, CA

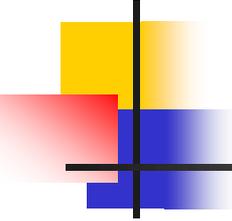

December 5, 2012

# Presentation Goals

---

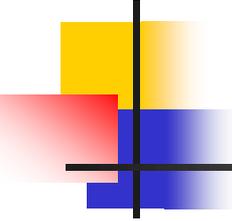

- Review GPRA pilot project goals
- Project status
- Discuss “took kit” available in ALPMR
- Demonstrate current status

# Project Goals

---

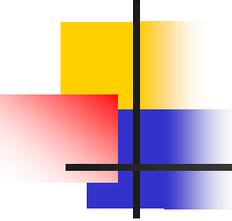

- Contract started October 1, 2011 to:
  - Develop four (4) GPRAMA measures
  - Develop six (6) internal budget measures
  - Develop measures to report area/national level reports
  - Develop dashboard report capability
  - Develop a web-based interface

## Project Goals (con't)

---

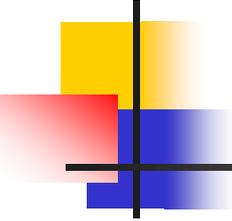

- Develop a security model that can be implemented by ALPMR administrators
- Develop measures using NDW as the data source – can support BOTH RPMS and non-RPMS Users by mapping to HL7 standards required by the NDW
- Measures use IHS User Population data as the denominator, not ACP

## Project Goals (con't)

---

- Application uses IHS Standard Code Book (SCB), not GPRA “community” taxonomies
- Ability to “re-baseline” measures
- Makes full use of the power of the NDW to de-duplicate patients across service unit/area level boundaries

# Toolkit Available

---

- All project goals are met plus
- Early Childhood Caries initiative “live” data
- “Experimental” measure (GCC)
- Measure “ninja”
- Data quality tools

# Demo
