Indian Health Service National Pharmacy and Therapeutics Committee IHS E3 Vaccine Strategy

California Area IHS April 18, 2023

Matthew A. Clark, MD, FACP, FAAP

Chief Medical Officer, Alaska Area Native Health Service, IHS Chair, IHS National Pharmacy and Therapeutics Committee (NPTC)

Every patient. Every encounter. Every recommended vaccine.

Mission and Goals

Mission

No unvaccinated AI/AN person will suffer a poor outcome or die from a vaccine preventable illness.

- Goals
 - 1. Increase vaccine rates in Indian Country to the highest level
 - 2. Reduce rates of vaccine-preventable illness in Indian Country
 - 3. Save AI/AN lives in every community & every age group (infants to elders)

- Examine the rationale for the IHS National E3 Vaccine Strategy
- Identify the elements of E3 to increase vaccine rates in Indian Country to the highest level.
- Utilize innovative strategies to implement the E3 Operational Plan
- Support E3 participation in the CA Area

Rationale

What is the E3 Vaccine Strategy?

Every Patient

• Every Encounter

• Every Recommended Vaccine Offered, when appropriate

• Launch: November 17, 2022

• Operationalization: 2023

Target Population

- American Indian and Alaska Native Tribal Communities
- IHS CMO Directive to all IHS federal direct-care facilities
- Encouraged for tribal & Urban Indian Organization facilities

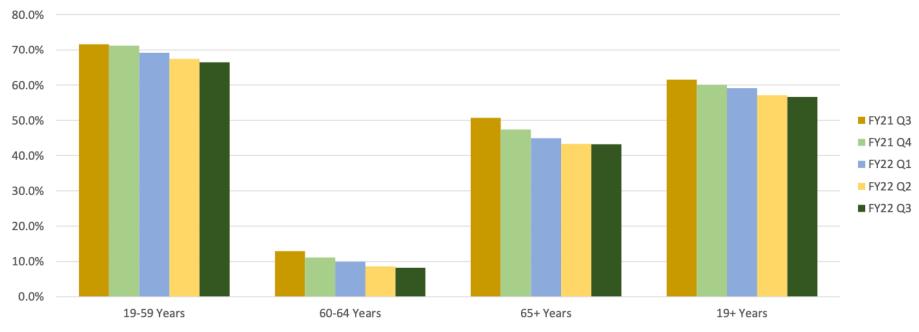

- Impact of the COVID-19 pandemic
- Vaccine misinformation and "fatigue"
- Nationwide declines in vaccine coverage for all age racial, and ethnic groups
- Health disparities among AI/AN for vaccine preventable
 illness

Vaccine Trends- Adults

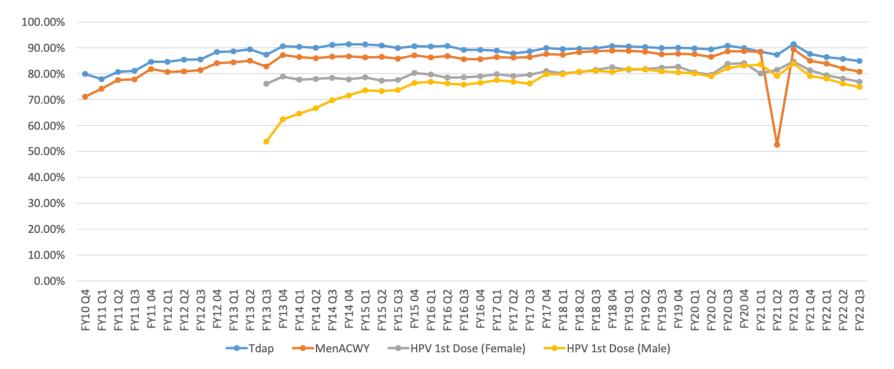

Adult Immunization Composite Measures * Appropriately Vaccinated Per Age Recommendations IHS National

* 19-59 years with Tdap ever and Tdap/Td <10 years; 60-64 years with Tdap ever and Tdap/Td <10 years and Zoster; 65+ years with Tdap ever and Tdap/Td <10 years and Zoster and Pneumo; and 19 years and older with appropriately vaccinated per age recommendation

Vaccine Trends- Adolescents

Adolescent Vaccine Coverage 13 Year Olds IHS National

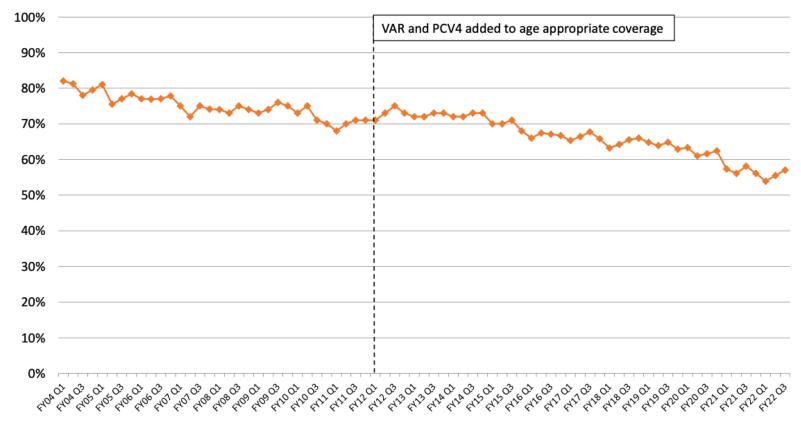

Data source: National Immunization Reporting System (NIRS):

https://www.ihs.gov/NonMedicalPrograms/ihpes/immunizations/index.cfm?module=immunizations&option=home

Vaccine Trends- Infants/Children

Age Appropriate Immunization Coverage 3-27 month olds IHS National

Data source: National Immunization Reporting System (NIRS): https://www.ihs.gov/NonMedicalPrograms/ihpes/immunizations/index.cfm?module=immunizations&option=home

A Call to Action

- Comprehensive/Adaptable System of Health Care
- Vaccination is a highly effective prevention effort
- Pro-active approach
- Prioritization of vaccination at every visit
- System-based strategies

E3: Every Patient, Every Encounter, Every Recommended Vaccine

Elements

- Every season
- All age groups
- Regular and transient patients
- Community members and non-community members

Every Encounter

- Preventive, Chronic, Acute
- Ambulatory, ER/Urgent Care, Inpatient
- Medical, Pharmacy, etc.
- Public Health
 PHN/MCH Home Visits
 Community Events
 Head Start/School Events
 Mass Vaccinations Events

Every Recommended Vaccine Offered

- All ACIP-recommended vaccines
- No distinction between "routine" vaccines and those recommended in response to public health emergencies
- Patient informed consent and autonomy

When Appropriate

- Clinical indications for the patient, encounter, and vaccine
- Subject to ACIP-recommended precautions and contraindications:

https://www.cdc.gov/vaccines/hcp/acip-recs/generalrecs/contraindications.html

- Safely & Correctly, Every Time
 - Mitigating risk of vaccine administration errors

E3: Every Patient, Every Encounter, Every Recommended Vaccine

Operational Plan

Building on Success- Pandemic Response

- Leadership of Tribal Communities
- Collaboration across I/T/U System of Care
- Vaccine and Medication Campaigns
 - COVID-19 Vaccines
 - COVID-19 Medical Countermeasures
 - Antivirals- Remdesivir & IHS Test to Treat Initiative
 - Monoclonal Antibodies

NPTC & the IHS National Core Formulary

- IHS National Pharmacy & Therapeutics Committee
- IHS National Core Formulary (NCF)
- The Four Pillars of IHS Formulary Management

- Access, Quality, Value, and Equity

- All ACIP-recommended vaccines are on the IHS NCF
- Vaccine Safety Surveillance

Operational Plan

- Bottom Up Approach
- Communications
- Stakeholder Engagement & Collaboration
- Resource Bank
- Cross Pollination
- E3 Champions Challenge & Pilot Program
- Data Trends
- Sustainability

Bottom Up Approach

Vision

- Grass-roots strategy
- "Reverse" hierarchy (Local -> Regional -> National)
- "Shots in arms"
- No Effort Too Small

<u>Local Team</u>

- Facility
- Unit
- Tribal Community

Communications

- Communication "Saturation" System-Wide (I/T/U)
- IHS Blog, Week-in-Review
- Tribal and Urban Leaders
- NPTC Website (E3 Vaccine Strategy Tab)
- ICT and IHS All-Call
- NCCMO (January 2023) & Area Directors
- National Combined Councils (Mar 28-30, 2023)
 - Theme: Strengthening Collaboration for Safe, Quality, Healthcare Outcomes
- NPTC Summer 2023 Meeting (August 2023)
- Listservs

Stakeholder Engagement & Collaboration

- Leadership at Every Level (HQ, Area/Region, Facility, Unit)
- Clinical and Public Health Disciplines
 NIP/AVPOCs, Nursing, Public Health Nursing, Pharmacists, Providers et al.
- Tribal and Urban Indian Organization Partners
- Tribal Communities

E3 Champions Challenge

- A Friendly Competition
- Three Components
 - 1. Encouraging Innovation
 - 2. Incentivizing Effort
 - 3. Recognizing Success
- Federal, Tribal, Urban Programs
- Community, Facility, Unit Level

E3 Champions Challenge- Criteria & Recognition

Criteria

- 1. 2022 baseline
- 2. Any Calendar Year Improvement (ACIP-recommended vaccines): 2023-2025
 - 5% in three or more individual and/or combination vaccine measures -OR-;
 - 20% in any one individual or combination vaccine measure

Vetted at local level

- Attestation letter from organization, facility, or unit leader
- Sharing of best practices and lessons learned
- Submission to ihsmedsafety@ihs.gov
- Written recognition at national level
 - Signed Certificate of Recognition as "IHS E3 Vaccine Champion"
 - Virtual "Wall of Champions"

E3 Champions Challenge- Resources

- E3 Champions Challenge Fact Sheet
- Sample Letter of Attestation
- Coming Soon;
 - E3 Virtual Wall of Champions

E3 Champions Pilot Program- Overview

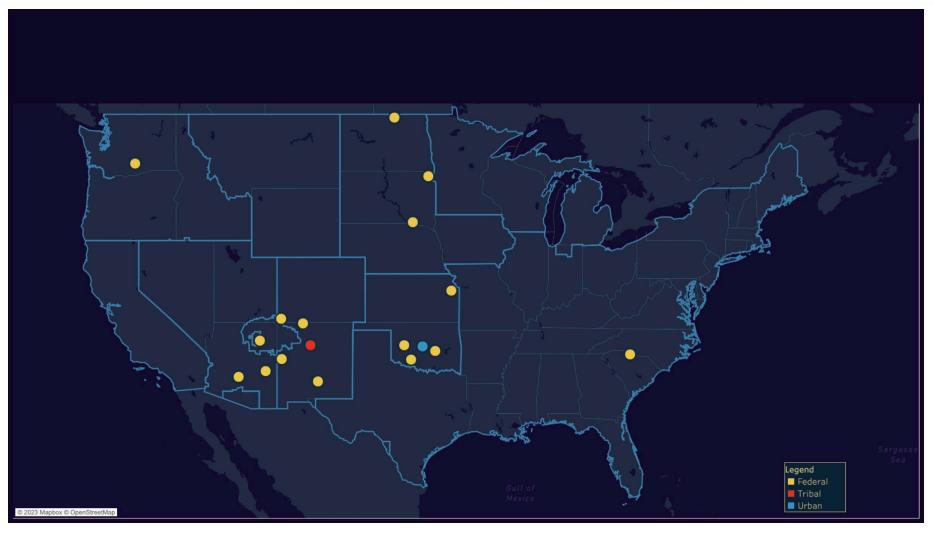

- Launch date- March 1, 2023
- Actively seeking E3 Vaccine Strategy Pilot Teams
- Brief Application
 - 1. Name and location of your team.
 - 2. Tribal community/communities served.
 - 3. Brief narrative (200 words or less) describing your vaccine-related project and objectives.
 - 4. Submission to ihsmedsafety@ihs.gov
- Letter of Designation
- Details: <u>E3 Champions Pilot Program Fact Sheet</u>

E3 Champions Pilot Program-Intent

- Priorities- Effort and Innovation
 - No Effort is Too Small
- I/T/U Clinical & Public Health Teams (Community, Facility, Unit)
- Failure is an option (Lessons Learned)
- E3 Champions Challenge (Best Practices)
 - Recognition of success
 - Qualification as an E3 Champion is not a pre-requisite

IHS E3 Vaccine Strategy- Pilot Site Locations

E3: Every Patient, Every Encounter, Every Recommended Vaccine.

E3 Champions Pilot Program- Sites

- Designated Pilot Sites/Teams- Onboarding Weekly
- Areas (Albuquerque, Phoenix, Great Plains, Portland, Nashville, OKC)
 - As of 3/20/23
- Goals
 - Every Area & Site
 - Federal, Tribal, and Urban Indian Organization sites/teams
 - Maximum Participation
- No Effort Too Small

Sample Approaches

- Vaccine Ambassadors,
- Medical Provider Vaccine
 Standardization
- Medical Reminders
- Provider
 Recommendation
- Motivational Interviewing
- Incentives

- School-Located Vaccination
 Programs
- Home-Delivered Vaccination
- Workplace Vaccination
- Effective Messages Delivered by Trusted Messengers
- Combating Misinformation

Data Trends- Embedded Metrics

- Process and Outcome Measures
- Utilize/Maximize Existing Metrics
- National Immunization Reporting System & NDW/Datamart
- All Federal Programs (Areas and Direct-Care Sites)
 - GPRA Immunization Panel
 - I-Care
- Participating Tribal and Urban Indian Organizations
 - Tribal/THO Regional/Local Systems- Vaccination rates

Data Trends- NIRS

- Intermediate and Long-Term National-level Vaccination Trend Data
 - Historical and contemporary data
- Unique to the IHS Service Population
- Site participation in the National Immunization Reporting System
 - NIRS training materials & support
 - Designated site contacts & manual data entry (quarterly)
 - Importance of regular reporting
 - Participation by federal direct-care sites

HUNDAN SERVICES LOS AND HEALTH SERVICES LOS AND HEALTH

Sustainability

- Vaccination as the Agency Clinical and Public Health Prevention Priority!
- Leadership support at every level
- Multi-disciplinary engagement
- Integration into routine operations (Every Facility, Every Day)
- Consistent messaging
- Long-term commitment

Conclusions

Agency-Wide Effort

- HQ Senior Leadership & Staff
- IHS National Pharmacy and Therapeutics Committee
- IHS National Immunization Program
- Area Leadership & Staff
- Tribal, Urban Indian Organization, and Federal Partners
- Local Facilities
- Multidisciplinary (Clinical, Public Health)

...most importantly, Tribal Communities!

The Measure of Success

- A marathon, not a sprint
- "Bending the arc" (of vaccine coverage) toward increased rates
- Sustainability requires commitment and a system-based approach
- Making Vaccination Our Preventive Clinical and Public Health Priority
- Staff Engagement
 - Encourage Innovation and Effort
 - Recognize and Share Successes and Lessons Learned

IHS National-Level Leadership

Reports to	Congress		public hea	vaccine coverage for many vaccine-preventable illnesses. Even as we continue to deal with the dual public health emergencies of COVID-19 and monkeypox, it is essential that we amplify our efforts to ensure comprehensive vaccine access and coverage for all age groups both for emerging infectious diseases and routine vaccine preventable diseases.								
Tribal Lead	er Letters											
Urban Leac	Urban Leader Letters			I have directed all federal direct care sites to respond to this important call to action to increase vaccine coverage and protect against vaccine preventable illnesses in tribal communities. Every patient at every encounter will be offered every recommended vaccine when appropriate C.								
				IHS will exempt encounters in which a vaccine would not be appropriate such as when someone has a moderate or severe acute illness.								
			Native co coverage for COVII ensure th	Historically, vaccine-preventable illness has taken a disproportionate toll in American Indian and Alaska Native communities. One of the indirect effects of the pandemic has been a decline in routine vaccine coverage rates for children, adolescents, and adults. While we continue to promote broad vaccine access for COVID-19 and American Indian and Alaska Native persons at risk for monkeypox, we must also ensure that we take every opportunity to offer routine vaccination, including seasonal influenza, polio, measles, mumps, rubella, varicella and the full range of bacterial illnesses for which vaccines have been

Spotlight: IHS's E3 Vaccine Strategy

Recently published CDC data show that the number of kindergartners vaccinated against measles, whooping cough, and polio has dropped during the past two school years.

Routine immunizations help families and communities stay healthy. And people are more likely to be up to date on their immunizations when health care providers take every opportunity to vaccinate.

That's why the Indian Health Service (IHS) urges providers to apply the <u>E3 Vaccine</u> <u>Strategy</u> (PDF, 463 KB, 1 p) in day-to-day practice.

Routine immunizations help families and communities stay healthy.

According to the E3 Vaccine Strategy, **every** patient at **every** encounter should be offered **every** recommended vaccine when clinically indicated.

As you conduct outreach in your community, help support that strategy by sharing:

 IHS's toolkit for parents and families, <u>Safeguard Our Future: Protect Tomorrow</u>, <u>Vaccinate Today</u> (PDF, 14.3 MB, 12 pp) $\oplus \lor \Box$

IHS Signature Block

Mission and Goals

Mission

No unvaccinated AI/AN person will suffer a poor outcome or die from a vaccine preventable illness.

Goals

- 1. Increase vaccine rates in Indian Country to the highest level
- 2. Reduce rates of vaccine-preventable illness in Indian Country
- 3. Save AI/AN lives in every community & every age group (infants to elders)
