

# CALIFORNIA AREA GPRA RESULTS & INITIATIVES

California Medical Providers' Conference, May 23, 2011

# PRESENTATION OUTLINE

- ① WHY RESULTS MATTER
- ① CA QUARTER 3 RESULTS AND ANALYSIS
- ① MEASURES IN DANGER
  - ① CLINIC LEVEL RESULTS
  - ① CAO INITIATIVES
- ① DISCUSSION

# WHY RESULTS MATTER

- ◎ Results appear in the IHS budget to Congress
  - ◎ Can impact funding decisions
- ◎ Results reflect quality of care
  - ◎ Measures track basic preventive care
  - ◎ Measures track basic care and health of patients with chronic disease (diabetes, cardiovascular disease)

# CALIFORNIA AREA 2011 Q3 RESULTS ANALYSIS

## Definitions:

• **On Track to Meet:** As of 2011 Q3, the measure is currently meeting or exceeding the 2011 target

• **Within Range:** Target has not yet been met, but based on historical performance, the 2011 target is likely to be met by Q4

• **Not Yet Within Range:** 2011 target is in danger of not being met based on historical performance but could be met with extra effort

• **Not on Track:** 2011 targets will likely not be met without significant improvement efforts by all clinics

- ⊙ As of 2011 Q3, the California Area is in danger of missing the targets for many of the 19 GPRA measures:
  - ⊙ 5 measures are currently “on track to meet” 2011 targets
  - ⊙ 3 measures are “within range” of meeting 2011 targets
  - ⊙ 6 measures are “not yet within range” of meeting 2011 targets
  - ⊙ 5 measures on “not on track” to meet 2011 targets

# CALIFORNIA AREA 2011 Q3 RESULTS ANALYSIS

- ◎ The California Area Office has implemented several improvement efforts in 2011, yet GPRA results aren't showing much overall improvement.....
- ◎ Same number of measures in each result category in Q3 as in Q2
  - ◎ 2 measures did improve from Q2 to Q3:
    - CVD Assessment moved from “within range” to “on track to meet”
    - Nephropathy Assessment moved from “not yet within range” to “within range”
  - ◎ However, 2 measures dropped in performance:
    - Retinopathy dropped from “within range” to “not yet within range”
    - Depression Screening went from “not yet within range” to “not on track”

## 2011 Q3 GPRD Dashboard

	California Area	California Area	National	National	2011 Q3
DIABETES	2011-Q3	2010-Final	2011-Q3*	2011 Target	Results - California Area
Diabetes Dx Ever	10.8%	11%	12.7%	N/A	N/A
Documented A1c	79.6%	83%	78.9%	N/A	N/A
Poor Glycemic Control	14.5%	15%	17.6%	19.4%	On Track to Meet
Ideal Glycemic Control	34.3%	37%	30.5%	30.2%	On Track to Meet
Controlled BP <130/80	32.7%	35%	35.3%	35.9%	Not Yet Within Range
LDL (Cholesterol) Assessed	62.3%	67%	61.9%	63.3%	Within Range
Nephropathy Assessed	46.8%	48%	49.7%	51.9%	Within Range
Retinopathy Exam	39.1%	47%	45.3%	50.1%	Not Yet Within Range
DENTAL					
Dental: General Access	37.9%	43%	23.0%	23.0%	On Track to Meet
Sealants	11,227	13,926	209,374	257,261	N/A
Topical Fluoride- Patients	9,071	9,750	130,406	135,604	N/A
IMMUNIZATIONS					
Influenza 65+	53.3%	54%	61.8%	58.5%	Not on Track
Pneumovax 65+	82.3%	80%	85.5%	79.3%	On Track to Meet
Childhood IZ <sup>a</sup>	62.4%	72%	69.7%	74.6%	Not on Track
PREVENTION					
(Cervical) Pap Screening	48.5%	51%	57.6%	55.7%	Not on Track
Mammography Screening	40.9%	45%	46.4%	46.9%	Not Yet Within Range
Colorectal Cancer Screening	33.5%	32%	40.5%	36.7%	Not Yet Within Range
Tobacco Cessation	20.6%	25%	23.8%	23.7%	Within Range
Alcohol Screening (FAS Prevention)	39.6%	43%	51.2%	51.7%	Not Yet Within Range
DV/IPV Screening	40.7%	48%	48.8%	52.8%	Not Yet Within Range
Depression Screening	37.6%	39%	49.2%	51.9%	Not on Track
CVD-Comprehensive Assessment	39.1%	43%	33.2%	33.0%	On Track to Meet
Prenatal HIV Screening	56.5%	62%	80.1%	73.6%	Not on Track
Childhood Weight Control <sup>b</sup>	22.6%	24%	24.0%	N/A	N/A

<sup>a</sup>4 Pneumococcal conjugate vaccines added to Childhood Immunization series in FY 2011.

<sup>b</sup>Long-term measure as of FY 2009, next reported FY 2013.

2011 Q3 results represent data from 11 of 12 LHS Areas

<b>DIABETES</b>	<b>California Area 2010-Q3</b>	<b>California Area 2010-Final</b>	<b>California Area 2011-Q3</b>	<b>National 2011 Target</b>	<b>Difference: 2010 Q3 to 2010 Final</b>	<b>Difference: 2011 Q3 to 2011 Target</b>

<sup>a</sup>Varicella immunization added to childhood immunization series as of FY 2010

<sup>b</sup>Long-term measure as of FY 2009

MEASURES IN DANGER OF NOT  
MEETING 2011 TARGETS....

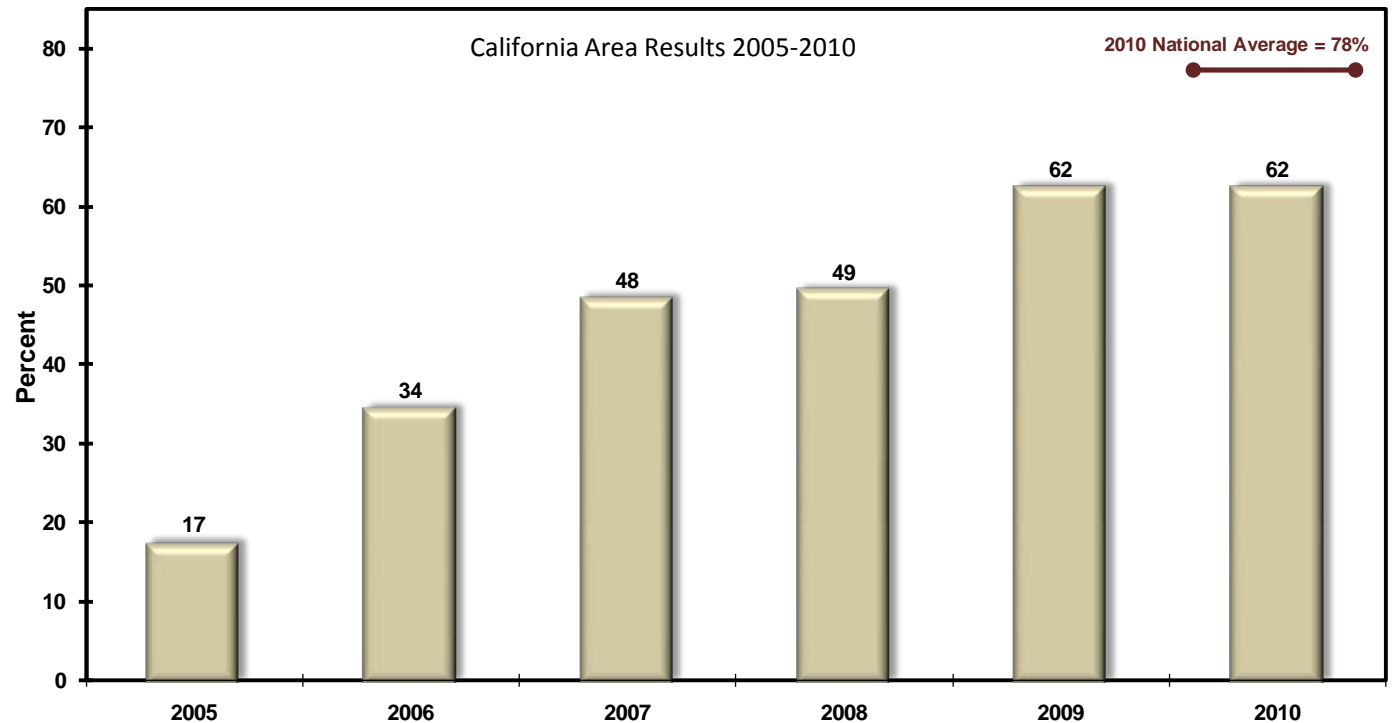

# PRENATAL HIV SCREENING

2011 Q3 Result: 56.5%

2011 Target: 73.6%

Difference: **17.1%**

## Initiatives:

- Convened a Prenatal HIV Workgroup on March 23, 2011, included representatives from lower and higher performing sites

- Developed materials for sites to use to gather historical data for Prenatal HIV Screening (fax-back form, patient consent form)

# DEPRESSION SCREENING

2011 Q3 Result: 37.6%

2011 Target: 51.9%

Difference: **14.3%**

## Initiatives:

- Measure of the Month Challenge for Depression Screening in December 2010 (Provided instructions for running patient lists and reference materials)

- Promoted Universal Screening of BH measures (including Depression Screening) and provided seed money and incentives for improvement

# DV/IPV SCREENING

## Initiatives:

- Promoted Universal Screening of BH measures (including DV/IPV Screening) and provided seed money and incentives for improvement

2011 Q3 Result: 40.7%

2011 Target: 52.8%

Difference: **12.1%**

# ALCOHOL SCREENING

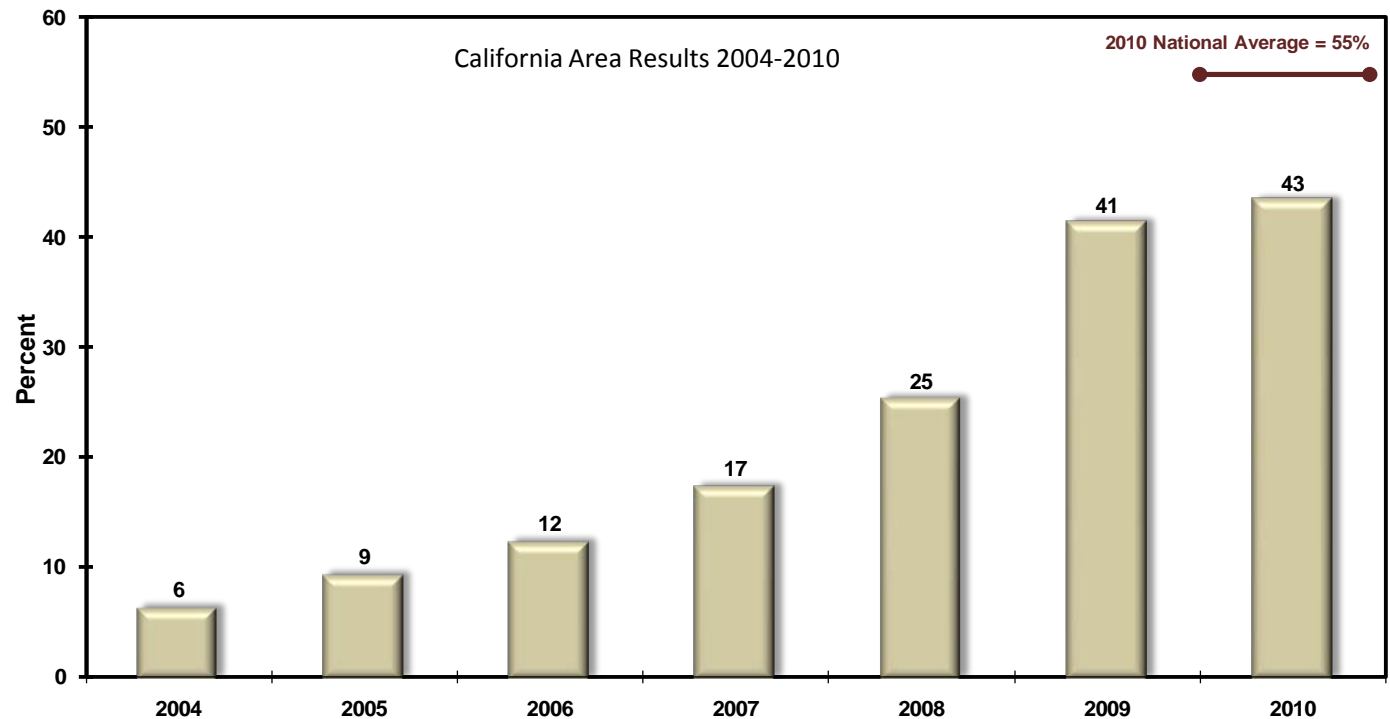

## Initiatives:

- Promoted Universal Screening of BH measures (including Alcohol Screening) and provided seed money and incentives for improvement

2011 Q3 Result: 39.6%

2011 Target: 51.7%

Difference: **12.1%**

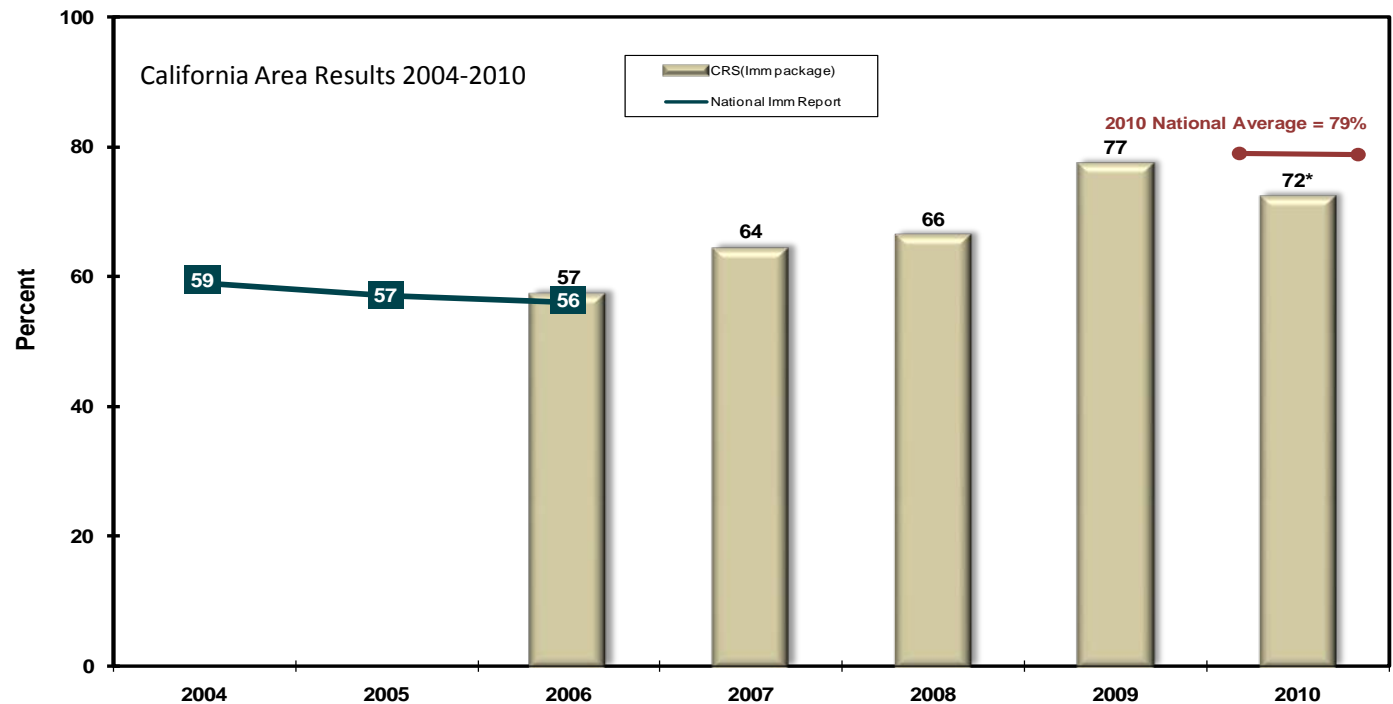

# CHILDHOOD IMMUNIZATIONS

2011 Q3 Result: 62.4%

2011 Target: 74.6%

Difference: **12.2%**

Starting in FY 2007, GPRA results are reported using the CRS Immunization package. Previous results were provided by the National Immunization Program.  
\* Varicella vaccine added to childhood immunization series in FY 2010.

## Initiatives:

- Provided written recommendations to clinics to run patient lists to identify children missing any immunizations in the 4313314 series

- Hosted Childhood Immunization Improvement Webex on 4/19/11

- Measure of the Month Challenge for Childhood Immunizations in February/March 2011 (provided measure information and reference materials)

# INFLUENZA 65+

## Initiatives:

- Hosted Influenza Vaccination Improvement Webex on 11/4/2010
- Measure of the Month Challenge for Influenza vaccination in November 2010 (provided measure information and reference materials)

2011 Q3 Result: 53.3%

2011 Target: 58.5%

Difference: 5.2%

# PAP SCREENING

## Initiatives:

- Measure of the Month Challenge for Pap Screening in June/July 2011 (will provide measure information and reference materials)

2011 Q3 Result: 48.5%

2011 Target: 55.7%

Difference: 7.2%

# MAMMOGRAPHY SCREENING

2011 Q3 Result: 40.9%

2011 Target: 46.9%

Difference: 6.0%

# COLORECTAL CANCER SCREENING

## Initiatives:

- Measure of the Month Challenge for Colorectal Cancer Screening in January 2011 (provided measure information and reference materials)

2011 Q3 Result: 33.5%

2011 Target: 36.7%

Difference: 3.2%

# DIABETES: BP CONTROL

2011 Q3 Result: 32.7%

2011 Target: 35.9%

Difference: 3.2%

# DIABETES: RETINOPATHY EXAM

## Initiatives:

- Training on use of Retinopathy cameras available year-round

2011 Q3 Result: 39.1%

2011 Target: 50.1%

Difference: **11.0%**

DISCUSSION:

HOW ELSE MAY WE ASSIST YOUR  
CLINIC WITH IMPROVEMENT?
