MORNING HUDDLES

Teams include: Provider, CMA/MA,
Case Manager, Panel Manager, PRC Staff,
Desk Tech and CHR

- Review Pt. problem list
- Review labs
- Immunizations
- Referral status overview
- Hospital admissions/discharge reports
- Medications
- Outreach reports

iCARE

- Provides the ability to create multiple, predefined and easy-to-define patient panels
- Panels are customized and unique to the individual user
- Quick performance views
- Monitor and follow mammograms, cervical screenings, colon and much more
- Ability to view your daily patients and view what screenings are needed

The screenshot displays the iCARE software interface. At the top, there are tabs for 'Flag List', 'Community Alerts', and 'CMET'. Below these are sub-tabs for 'Events', 'Tracked Events', and 'Follow-up Events'. A 'Tips' section provides instructions on using the 'Tracked' status and the 'CMET Worksheet'. A 'Filters' sidebar on the left allows users to filter events by category (Breast, Cervical, Skeletal, Colon), state (Open), time frame (1 year), and community. The main area contains a table with columns for Category, Event, Event Date, Result, Finding(s), Interpretation, Follow-up(s), Patient Notification(s), State, Patient Name, HRN, and DOE. The table lists several mammogram and ultrasound events for various patients, with some rows highlighted in blue. A 'Get Events' button is located at the bottom left of the table area.

Category	1 - Event	Event Date	Result	2 - Finding(s)	Interpretation	3 - Follow-up(s)	4 - Patient Notification(s)	State	Patient Name	HRN	DOE
BREAST	MAMMOGRAM SCREENING	Mar 08, 2011			Normal			OPEN			Oct 3
	MAMMOGRAM SCREENING	Mar 08, 2011						OPEN			Feb 7
	MAMMOGRAM SCREENING	Mar 08, 2011						OPEN			Nov 1
	MAMMOGRAM SCREENING	Mar 08, 2011			Incomplete			OPEN			Nov 1
	MAMMOGRAM SCREENING	Mar 08, 2011			Normal			OPEN			Mar 1
	MAMMOGRAM SCREENING	Mar 08, 2011						OPEN			Jun 1
	BREAST ULTRASOUND	Mar 18, 2010	Mar 18, 2010		Abnormal			OPEN			Sep 1
