

Fast Facts

Household Hazardous Waste and Debris Removal

Mission: To expedite recovery, state and federal partners will coordinate closely with affected jurisdictions to remove fire debris from single-family residential lots and public facilities.

The following actions are underway:

- State and FEMA liaisons are coordinating with County officials to obtain Rights of Entry (ROE) permissions from property owners and to identify lots and prioritize work.
- Prioritization will be based on a strategic approach to expediently restore critical services and facilities.
- State and Federal agencies will verify county approvals and consistent coordination as part of the task force.

Debris Operations by County and Program

County	Household Hazardous Waste	Debris Removal
Butte	DTSC	County Managed
Lake	DTSC	USACE
Mendocino	DTSC	USACE
Napa	USEPA	USACE
Nevada	DTSC	Cal Recycle
Sonoma	USEPA	USACE
Yuba	DTSC	Cal Recycle

Cal EPA: California Environmental Protection Agency

DTSC: Department of Toxic Substances Control

USACE: U.S. Army Corps of Engineers

USEPA: U.S. Environmental Protection Agency

Safety Resources:

Property owners who desire to search debris from their properties for possible salvageable items, should do with caution and appropriate protective gear: eye protection, masks, and gloves.
