

THE INDIAN HEALTH SERVICE

# VistA Imaging Document Imaging Software

Superior Health Information Management  
Now and for the Future

Marilyn Freeman, RHIA  
CAO VistA Imaging Coordinator

# What is VistA Imaging?

VistA Imaging provides the multi-media component for the RPMS EHR.

The VistA Imaging system integrates images and scanned documents into the patient's electronic medical record.

# California Sites

Twenty-three (23) clinics use RPMS EHR

Eighteen (18) clinics use VistA Imaging

- 14 tribal clinics

- 4 urban clinics

Two clinics are beginning implementation now

Two clinics to begin using by June 2014

# Activity Summary

	FY 2010	FY 2014*
<b>Clinics</b>	5	23
<b>FTEs</b>	37	109
<b>Per FTE Cost</b>	\$4,054	\$1,400

\*Activity volumes estimated for FY 2014

## Cost Considerations

1. \$105 K for second Archive Appliance
2. Service agreement for Archive Appliance
3. VI Coordinator cost reduced by 1/3 in light of added responsibilities
4. FY 2012 reconciliation completed and adjustments made
5. FY 2013 reconciliation in new fiscal year
