TRIBAL INJURY PREVENTION COOPERATIVE AGREEMENT

Cooperative Agreement vs Grant

Grants and cooperative agreements are very similar. The distinguishing feature between a grant and a co-operative agreement is that **under a cooperative agreement substantial involvement is anticipated between the awarding office (IHS) and the recipient during performance of the funded activity.** This involvement may include collaboration, participation, or intervention in the activity. The primary beneficiary under a cooperative agreement is the public.

For instructions on completing all aspects of the pre- and post- grant award functions, monitoring, and reporting requirements, see IHS Grant **Training Tools:**
<https://www.ihs.gov/dgm/training1/>

FOCUS AREAS

FY 2021-2025 focus areas of unintentional injuries and their prevention strategies include:

Motor Vehicle Injury Prevention

(Car seat use, seat belt use and impaired driving prevention)

Fall Prevention

(Playground safety, traumatic brain injury prevention and elder fall prevention)

TIPCAP SUMMARY

The purpose of this IHS Tribal Injury Prevention Cooperative Agreement Program (TIPCAP) is to **address the disparity in injury rates by encouraging Tribes to implement focused, community-based injury prevention programs and projects using evidence-based strategies.**

Injury prevention evidence-based strategies are prevention methods that have been scientifically evaluated and proven to prevent injuries, including strategic changes to the environment (for example, roadways, elder homes for fall hazards, smoke alarms) and strategies to promote behavior change (such as car seat use, float coat use).

Injury prevention programs and projects are most effective when based on these model practices. The use of well-planned, promising, and innovative injury prevention strategies is also recommended.

The tribal site's responsibilities as the cooperative agreement recipient are listed in the Funding Announcement Number: HHS-2020-IHS-IPP-0001. The IHS agency-specific responsibilities are listed in the Funding Announcement Number: HHS-2020-IHS-IPP-0001. TIPCAP is described at 93.284 in the Catalog of Federal Domestic Assistance. The program is authorized under 25 U.S.C. 13, Snyder Act, and 42 U.S.C., Section 301(a), Public Health Service Act, as amended. This program is funded through a competitive cooperative agreement.

Visit the IHS website for more information on the IHS Injury Prevention Program and for a list of current and past tribes and tribal organizations funded by TIPCAP:

<http://www.ihs.gov/injuryprevention>

Drowning Prevention

(Life jackets, float coats and other prevention)

Fire/Burn Prevention

(Smoke alarms, escape plan and other prevention)

Poisoning Prevention

(Lock up medicine/toxic products and safe disposal) Intentional Injuries and their prevention strategies include: **Suicide Prevention and Violence Related Injury Prevention.**

IHS INJURY PREVENTION

Our Mission

Raise the health status of American Indians and Alaska Natives to the highest possible level by decreasing the incidence of severe injuries and death to the lowest possible level and increasing the ability of tribes to address their injury problems.

About IHS Injury Prevention

We are the lead IHS program to address the injury disparities in AI/AN communities. Our widely-recognized program works with tribes and partners to reduce the disproportionate impact of injuries on Indian people.
