SUBJECT: Timeline for Transmittal of Fiscal Year 2019 Workload Data and Production of User Population Estimates

Attached is the timeline for transmitting workload data to the National Data Warehouse (NDW) and for producing final user-population estimates (see attached table).

Estimates are based on registration and encounter data received in National Patient Information Reporting System (NPIRS) repositories. The IHS staff will use essentially the same statistical concept as in prior years to produce the estimates (Area-wide unduplicated count by residence of Indian registrants who have had direct or contracted encounters for IHS inpatient, ambulatory, or dental services during the 3 fiscal years). Following Tribal consultation and Area review, the IHS releases the estimates, the result of our collaboration with Tribes to reconcile and validate data. Reviewed by Area statistical officers and including their suggestions wherever possible, the attached timeline begins with the January 17 deadline for posting monthly workload and progress reports. On April 18, the first of several year-to-date user population reports will be posted. These dates allow the statistical officers sufficient time to review and identify gaps or missing data in a timely, comprehensive manner for their Areas. NPIRS will produce workload reports more frequently as we approach the October 24 data submission deadline.

We strongly encourage each Area to communicate monthly progress and distribute draft user reports to Tribes and Chief Executive Officers (CEOs), consulting with them and soliciting their feedback. Sharing this information with the Division of Program Statistics (DPS) during monthly conference calls with Area statistical officers allows for early identification and timely resolution of any data problems. Ongoing communication with Tribes and CEOs is extremely important because adjustments to final user population estimates are only made for new Tribes. An estimate agreed upon by a new Tribe and the Area Director will be determined and used for the first 3 fiscal years following the date the new Tribe joins the Indian health system. After 3 fiscal years, all user population determinations for the new Tribe will be based on registration and encounter data in the NDW. Please continue working with Tribes that do not have data for 3 fiscal years (FY 2017, FY 2018, and FY 2019), assisting them with exporting their information in the proper format so that it can be loaded into the NDW. Please note that there is a final period of October 25, 2019, through November 1, 2019, reserved for resolving problems in data already submitted to the NDW, however, this period is prioritized for data which originates from new Tribes, or other data systems not in production, and only if possible and as time allows. It is crucial that sites

follow the recommended test deadlines for new files throughout the year. The deadline when all issues concerning the data files submitted by October 24, 2019, will be resolved is November 1, 2019.

Thank you for helping to improve the quality and accuracy of data essential for determining final user population estimates. If you have any questions about this process, please contact Mr. Kirk Greenway, Director, Division of Program Statistics, IHS, by e-mail at kirk.greenway@ihs.gov or telephone at (301) 443-6704.

December

December 11	Areas certify User Population counts to DPS.	Areas
December 13	Send memorandum to IHS Office of the Director for review and approval.	DPS
December 20	Release the official FY 2019 IHS User Population data.	HQ

¹ By midnight of the day specified – local time at the sending site.

² Sites unable to confirm that their current export is formatted exactly as the previous year's successful exports need to complete testing of this year's format by this date (and then not change it until all this year's exports are completed). We strongly urge all sites to export their data at regular intervals (ideally monthly) throughout the year.

³ All registration data, as well as all encounter data at least from October 1, 2016, through the present (preferably October 1, 2000, through the present).

⁴ Due to the cyclical nature of the annual timeline scheduling, the chart that follows is provided to assist planning purposes for ongoing years.

Fiscal Year	Final Deadline	Day of Week	Comments
