Patch Addendum to User Manual

Version 3.1 Patch 19
June 2011

Office of Information Technology (OIT)
Division of Information Resource Management
Albuquerque, New Mexico
# Table of Contents

## 1.0 Introduction

1.1 Summary of Changes

1.1.1 Patch 19–Modifications

1.1.2 Denial Changes

1.1.3 Naming Convention Change

## 2.0 Previous Patches

2.1 Patch 18

2.2 Denial-Unmet Need Changes

2.3 Patch 17

2.4 Patch 16

2.5 Patch 15

2.6 Patch 13

2.7 Patch 12

2.8 Patch 11

2.9 Patch 7

2.10 Patch 6

2.11 Patch 5

## 3.0 Patch 19

3.1 Modification to Pay Option

3.2 Denial Changes

3.2.1 Displaying Denial Reasons and Options

3.2.2 Selecting Multiple Denial Reason Options

3.3 Changed the Naming Convention for the Facility Export File

3.4 Addition of the Vendor Fax Number and E-Mail Address

3.4.1 Addition of the Vendor Fax Number

3.4.2 Addition of Vendor E-Mail Address

3.5 E-Signature and Signed E-Signature Report to Include Blanket POs

3.5.1 E-Signature Report to Include Blanket Purchase Orders

3.5.2 E-Signature Option to E-sign Blanket POs

3.6 Changed Option #15 under the Programmer’s Option (XXXX)

## 4.0 Patch 18 Changes

4.1 Pawnee Denial Package

4.2 Code Set Versioning Update for CHS

4.3 FI EOB/ File

4.4 Record Count on Export

4.5 Medicaid Eligibility

4.6 FY Display on Vendor Usage Report

4.7 The Patch and Version Display in the Menu Heading

Contact Information
1.0 Introduction

Review these changes and add a copy of them to any printed documentation your site may be using for ACHS 3.1. These changes will be integrated into future versions of the software and user manuals, and will no longer be considered an addendum at the time of the next release.

This user manual addendum is cumulative, as are patch files, and contains all previous patch addendums for ease of use. This addendum specifically addresses changes made by patches that affect the way a user interacts with Contract Health Services (CHS). If a particular patch did not result in any significant changes for the user, it will not be referred to in this report.

1.1 Summary of Changes

1.1.1 Patch 19–Modifications

- General Accounting Office (GAO) Report Problems with variables resetting after running report
- Eligibility report modified to test for undefined patient’s in DPT
- Government Performance and Results Act (GPRA) report modified for slave printing
- Purchase Order (PO) laser print changes for Penobscot
- Tucson changes for Unified Financial Management System (UFMS) and Fiscal Intermediary (FI) database identification
- Southern Ute modifications for FI processing
- Modification to the Pay option: if the site is Tribal and sending data to the FI, they will be prompted for the Explanation of Benefits Report (EOBR) information
- Option #15 under the Programmer’s option, to set POs in the print queue has been modified to request fiscal year (FY) and beginning and ending document numbers, instead of requesting the internal entry number (IEN) of the document

1.1.2 Denial Changes

- Displaying reasons and options
- Selecting multiple denial reasons
- Displaying the selected reasons and options
1.1.3 Naming Convention Change

- Changed the naming convention for the facility export file
2.0 **Previous Patches**

2.1 **Patch 18**

- Pawnee denial package
- Changed default to delete FI EOBR files to set No
- Changed to fix record count during export
- Fixed issue for helpdesk ticket regarding Medicaid Eligibility
- Changed to display two-digit FY on Vendor usage report
- Changed to the e-sig report for Blankets
- Changes to CHS Area Office routines for Tribal sites running the new security requirements
- Patch number is now displayed in the Menu Heading
- CHEF updated to display “Total Funds Received” line
- Code Set Version (CSV) changed to the EOBR posting from the FI
- New GPRA report
- New CHS Population Report
- Option to Enter/Edit Tribal CHS Delivery Areas (CHSDA)

2.2 **Denial-Unmet Need Changes**

- New parameter options
  - Added left margin parameter
  - Added top margin parameter
  - Add name and phone number of benefits coordinator
- Add comments when entering an additional denial reason
- Denial reasons updated
- References to deferred services changed to Unmet Need in menu options, reports, denial type, and prompts
- Denial-Unmet Need menu options are now separate
- New GAO option to create a Denial-Unmet Need file
2.3 Patch 17

- This patch was created for data being exported to UFMS, the current budget FY will be sent for any new prior FY documents.

- A parameter has been added, the patch can be installed, but the parameter should only be updated after the site has completed an export. The export should be completed at the end of the day, then the parameter set up with the next day's date.
  - File: CHS FACILITY
  - New Parameter: UFMS EXPORT BUDGET FY
  - Example: Export completed on close of business (COB) of Jan 29
  - UFMS EXPORT BUDGET FY: Jan 30, 2010

- Modification for displaying check printed date on display screen.

- Modified ACHS routine for Import and Export calls to use the Import and Export fields in the Resource and Patient Management System (RPMS) site file for UNIX servers. Used when processing EOBRs and creating transfer files.

2.4 Patch 16

- Hide full Social Security Number (SSN)
- Denial Letter and CHEF Form Regulations Citations Updated
- Allow use of CAN number (K) for FY 2010
- Fiscal Year 2010 Printing on PO
  - Fiscal Year 2010 PO export update to the FI
  - Fiscal Year 2010 PO passing to the Referred Care Information System (RCIS) package
- PO Data Universal Numbering System (DUNS) Parameter
- Enhancements to the CHEF Reimbursement form
- Parameter prompt for Central Contractor Registration (CCR) number
- Third-Party Billing Report updated with new options
- Denial Report “Care not within Medical Priority”
- Payment Report by object classification
- Summary Payment Report by object classification

2.5 Patch 15

- Enhancements to the CHEF Reimbursement form including:
- New calculations of funds obligated and paid. Subtotals are added to these two fields.
- An open text has been added in the REMARKS field to enter, edit, and delete messages up to 61 characters (including spaces); this field will print on the form.
- Form fields have been moved and three fields have been removed.
  - CHS/Management Information System (MIS) restricts the user from entering any Service Class Code (SCC) that is not included in the authorized table of SCCs for federal site only.
  - CHS/MIS will generate a Department Contracts Information System (DCIS) Extract Error Report if an error is found in the required DCIS extract information. This report provides the opportunity to correct the data at the local/site level instead of at the DCIS level.

2.6 Patch 13

- Addition of DUNS number to Vendor file
- Interface RCIS referral with Denial and Appeal options
- Duplicate document error option added to CHS Programmer Utilities to remove documents causing this error
- UFMS export option now combined with the CDPE CHS data–prepare for export option

**Note:** For a detailed list of changes for Patch 13, refer to the Notes file: ACHS0310.13n.

2.7 Patch 12

Adjustments made to the Office of Budget and Management (OBM) mandate that all federal agencies establish unique identifiers for procurement instruments:

- New prompt added that asks for the procurement instrument type
- Department of Health and Human Services (HHS) number prints on POs.

**Note:** For a full list of changes in Patch 12, refer to the Patch 12 Notes file.
2.8 Patch 11

In response to Section 506 of the Medicare Modernization Act (MMA), which allows Indian Health Service (IHS) and the Urban and Tribal programs to pay Medicare participating hospitals at rates based on Medicare-Like Rates, the following adjustments have been made:

- New field for Medicare Provider added to the Provider Vendor update screen.
- New information and data entry fields for Medicare Provider information when initiating purchase orders on type of document (43 Hospital Service)
- New field and requirements added to Area CHS Consolidate Data From Facilities process
- Record Type 7 layouts modified with new items

**Note:** For a complete list of changes in Patch 11, refer to the Patch 11 Notes file.

2.9 Patch 7

- New option for applying electronic signatures to a Contract Health PO
- New option for viewing POs with electronic signatures, as well as pending electronic signature, by the ordering official

2.10 Patch 6

- Option to add/edit the appeal status of patient appease for payment reconsideration by IHS

**Note:** For a complete list of changes in Patch 6, refer to the Patch 6 Notes file.

2.11 Patch 5

- New 278 menu with a new X12 Transaction 278 Processing option

**Note:** Patch 5 also contains a number of non-Health Insurance Portability and Accessibility Act (HIPAA)-related fixes and modifications. For a complete list of changes, refer to the Patch 5 Notes file.
3.0 **Patch 19**
Patch 19 of the CHS/MIS makes the following changes:

- GAO Report problem with variables resetting after running report
- Eligibility report modified to test for undefined patient’s in DPT
- GPRA report modified for slave printing
- PO laser print changes for Penobscot
- Tucson changes for UFMS and FI database identification
- Southern Ute modifications for FI processing

3.1 **Modification to Pay Option**
If the site is Tribal and is sending data to the FI, they will be prompted for the EOBR information.

3.2 **Denial Changes**
- Displaying reasons and options
- Selecting multiple denial reasons
- Displaying reasons and options the selected

3.2.1 **Displaying Denial Reasons and Options**
The Denial Reasons will display immediately after selecting the Type of Service (Inpatient or Outpatient)
Once the reason is selected from the Numerical Denial Reason List (1–5), the list of Options (1–4) under each reason will display, although the number of options under each reason will vary depending on the option selected.
There is no longer a need to type two question marks (??) to view either the reason or the options under each reason.

Once the options are displayed you may select a number from the Option List (1–4). You will then be taken through any corresponding questions relative to each option. Answer the questions based on the option you chose, and once complete, you will be returned to the preexisting free-text field that you have the option of completing. Continue denial entry as usual.

![Selecting option and answering corresponding questions](image)

### 3.2.2 Selecting Multiple Denial Reason Options

Facilities will now have the option to select multiple Denial Options under each reason.

You will select again from the numerical list of Denial Reasons (1–5) and then you will be able to select again from the Denial Reason Option List (1–4). You will then continue with entry as normal answering any additional questions required based on your selection of the reason and option.
Figure 3-4: Selecting multiple denial reason options; displaying the selected reasons and options
Once you have made multiple selections from the Denial Reason (1–5) and Denial Reason Option List (1–4), and once entry for those selections has been completed, it will provide you a display of the selected reasons and options.

![Figure 3-5: Displaying the selected reasons and options](image)

3.3 Changed the Naming Convention for the Facility Export File

Facilities will be able to export a regular export and multiple reexports daily.

- Example: ACHS50520120100101_0912450

The addition of a unique identifier to the Area CHS export file name to distinguish multiple files received from the same location on the same date to avoid being overwritten. File exports sent to the Area Office will Stamp as [hhmmss] and be identified by the following type of file name:

- Example: ACHS[ASUFAC].[Actual Date]_[Export Time]

3.4 Addition of the Vendor Fax Number and E-Mail Address

Facilities will be able to Add a Vendor Fax Number and E-Mail Address to the edit a vendor option and printing the Fax number on the PO.
3.4.1 Addition of the Vendor Fax Number

Facilities will be able to Add a Vendor Fax Number in the Edit a Vendor Option and it will print on the PO.

![Add Vendor Fax Number](image)

After displaying the Vendor you wish to edit, answer **Y** to the prompt “Want to Edit? NO/.” You will then be prompted to select a numbered field to edit from 1–18. To edit the Fax Number, select **13** and press Enter through the address change fields (unless you need to make changes to the address) until you reach the Fax number field. Type in the fax number for the vendor, using only numbers and dashes/hyphens (-) to separate the fax number.

**Note:** Do not use parentheses to enclose the area code, as you are only allowed a maximum of 12 characters to enter the fax number.
Figure 3-7: Adding Vendor Fax Number

Immediately after Fax Number entry (i.e. 555-555-1212) the computer will return you to the main editing screen and display the vendor fax number that was entered/edited. This fax number will also print on any subsequent POs issued for this vendor.

Figure 3-8: Fax Number entry
3.4.2 Addition of Vendor E-Mail Address

Facilities now have the ability to add and enter the vendor’s e-mail address in the Edit a Vendor option.

After displaying the Vendor you wish to edit, answer Y to the prompt “Want to Edit? NO//.” You will then be prompted to select a numbered field to edit from 1–18. To edit the vendor’s e-mail address, select 11 and you will be returned to the field to Enter/Edit the Vendor’s E-mail Address.
Immediately after entering the e-mail address (i.e., neuro_assoc@yahoo.com), you will be returned to the main editing screen. The computer will display the e-mail address that was entered/edited.

**Note:** This e-mail address will not print on the PO and can only be found in the Vendor File.
3.5 E-Signature and Signed E-Signature Report to Include Blanket POs

Ability to add an E-Signature and obtain Signed E-Signature Report is now included for Blanket POs.

3.5.1 E-Signature Report to Include Blanket Purchase Orders

The ability to create an E-Signature Report is now included for Blanket POs using the option to create reports in the CHS/MIS menu under Facilities Management (MGT), in the Reports menu (PR) and under the Electronic Signature Reports (ERPT) option and Pending Electronic Signature of Ordering Official (ESPD). When running this report it will now include any Blanket POs that are still pending signature.
3.5.2 E-Signature Option to E-sign Blanket POs

The facility now has the ability to apply E-Signature on Blanket POs using the Electronic Signature Authorization Menu (EMNU) found in the main CHS/MIS menu under the option Apply Electronic Signature Ordering Official (SIGO) or, if used, Apply Electronic Signature Authorizing Official (SIGA).

Once your electronic signature is entered, the list of POs available for signature will scroll up. You will be prompted to apply/stamp your electronic signature to all the documents. Once you answer Yes, your electronic signature will be applied to all POs, including Blanket/Special Local POs.
3.6 Changed Option #15 under the Programmer’s Option (XXXX)

Option 15 under the Programmer’s option to set POs in the print queue has been modified to request FY and beginning and ending document numbers, instead of requesting the IEN of the document.

Only those individuals with access to the CHS Programmer Utilities option will be able to utilize this option.
Figure 3-14: Changed Option 15 under the Programmer Utilities

Once in the CHS Programmer Utilities option, enter 15 (15. ^ACHSYPQ - SET DOCUMENTS INTO PRINT QUE) and the computer will display the following screen. Once in this screen, follow the instructions by entering the FY for which you would like to reset the print queue and enter the starting document number as well as the ending document number.

**Note:** Document Number refers to the PO number.

Figure 3-15: Set documents into print queue
Upon completion of entry you will can go to the main CHS/MIS menu and select PRT (Document Printing) -> PD (Print Document) and begin printing where your indicated to start your document and end where specified. This function allows you to reprint POs without having to reprint by batch.
4.0 Patch 18 Changes
Patch 18 of the CHS makes the following changes.

4.1 Pawnee Denial Package
Pawnee denial package was updated to print deferred/unmet letters for the correct patients.

4.2 Code Set Versioning Update for CHS
Update related to issues with EOBR processing following CSV implementation. International Classification of Diseases, Ninth Revision (ICD-9), Current Procedural Terminology (CPT), and procedure codes were not updating correctly on POs and were showing as errors on the summary report.

4.3 FI EOBR File
When processing the FI EOBR file, the prompt has been set to default to NO. This will limit errors when processing.

4.4 Record Count on Export
Record count at the facility did not match the Area Office during export because the insured patient record was not being counted. This has been corrected.

4.5 Medicaid Eligibility
Fixed issue for helpdesk ticket regarding Medicaid Eligibility

4.6 FY Display on Vendor Usage Report
The Vendor report was only displaying the last digit of the FY. It will now display the last two digits of the FY.
Figure 4-1: Vendor FY displaying

4.7 The Patch and Version Display in the Menu Heading

Figure 4-2: Display patch and version in menu heading

4.8 CHEF update: “Total Funds Received”

The TOTAL FUNDS RECEIVED field is confusing when entering and editing CHEF cases. It is no longer needed since the Amendment option was added. If there was an amount previously entered, it will display.

4.10 GPRA Report

The GPRA Report was added to assist sites with the tracking of the GPRA performance measure for Average Days between Service End and PO Issued. Select the FY and a date range for Date of Service. The PO will either be selected by FY or the Date of Service to fall within the FY beginning and ending date.

The report will calculate the days between the Date of Service and when the PO was issued. The Date of Service is the estimated End Date of Service, even if the document has been paid.

4.11 CHS Population Report

This report was created to assist with reporting possible CHS eligible users within a specific CHSDA. The CHS Population report is based on Tribal CHSDA, Community of Residence, and FY. The information for the CHSDA is entered by county and then checked against the patient's community of residence. The report can be found through the MGT-Facility Management under the Reports menu option. The user will select a FY and Tribal CHSDA.

If all counties are not listed for selected Tribal CHSDA, the user can update the associated counties using the SDA–Enter/Edit Tribal CHSDA option, which is shown in Section 4.12–Option to Enter/Edit Tribal CHSDA.
Figure 4-12: New option (ELIG–CHS Eligible Patients by CHSDA)

Figure 4-13: Menu options for CHS Elig Report

The summary report provides the total number of patients registered who have a community of residence located within the selected CHSDA. The first part of the report shows totals by county and the second part shows totals by the patient’s Tribe of Enrollment.
For Fiscal Year 2009

CHSDA-County     Population Total

==================================================================

4.13  Denial–Unmet Need Changes

4.13.1  Deferred Services Will Now be Referred to as Unmet Needs

Unmet Needs will be on the main menu with the CHS Denial. Reports, prompts, and letters will be referred to as Unmet Needs.

---

Figure 4-18: Changed reference from Deferred Services to Unmet Needs

4.13.2  Denial/Unmet Need Menu Changes

CHS Denial/Unmet Needs menu has been updated to separate the Denial and Unmet Need menu options.

---

Figure 4-19: New Denial/Unmet Need menu layout
4.13.3 Denial Reason Update

The denial reasons have been updated. Language and wording has been changed for better patient comprehension.

Accessing the Denial Reasons has been changed. Choose from the Denial Reasons below and then choose an option under each denial reason. Type two question marks (??) to see available options.
Enter Denial Reason: ?
Answer with CHS DENIAL REASON, or HEADING
Do you want the entire CHS DENIAL REASON List? Y (Yes)
Choose from:
- Alternate Resource Available
- Indian Descent/Membership
- Medical Priority
- Notification
- Residency

Enter Denial Reason: [ ]

Figure 4-22: Denial Reasons Options

Enter Denial Reason: Alternate Resource Available

Enter Denial Reason Option: ?
Answer with OPTION(S)
Choose from:
- Eligible for Alternate Source
- Failure to Apply for Alternate
- IHS/Tribal Facility Was Available
- Other Coverage Available

Enter Denial Reason Option: [ ]

Figure 4-23: Denial Reason options under Alternate Resource Available
4.13.4 Alternate Resource Available

The denial options for Other Coverage Available, Failure to Apply for Alternate Resource, and Eligible for Alternate Source allow for the selection of alternate resource names to be included in the denial letter text. The user can edit the list of alternate resources through the Parameters menu. Refer to Section 4.13.11 - New Parameter–Alternate Resource Type for more information.

For the IHS/Tribal Facility Was Available denial option, a facility name will need to be selected before the denial letter can be printed.

For the Eligible for Alternate Source denial option, the Benefits Coordinator name can be printed in the denial letter text. This information is added through the Parameters menu. Refer to Section 4.13.10 New Parameter–Add Benefit Coordinator Name and Phone Number for more information.

Old Denial Reasons (Removed)

Our records show that you have health care coverage/resources (such as private insurance, Medicare, Medicaid) available to pay for this medical care. [See 42 Code of Federal Regulations (CFR) 136.61(c)(2008)]

- OPTION: Other Coverage Available
  Any unpaid balances should be promptly submitted to the IHS CHS office for consideration.

- OPTION: Would Have Been Eligible for Other Coverage
You would have been eligible if you had applied and completed the application requirements.

- **OPTION: May be Eligible for Other Coverage**
  You may be eligible if apply and complete the application requirements.

- **OPTION: Maybe Eligible for Other Coverage**
  You may be eligible if apply and complete the application requirements.

**New Denial Reasons (Replaced)**

- **OPTION: Other Coverage Available**
  Alternate Resource Available [Per 42 CFR 136.61]

  You are currently enrolled in a program that will pay for your healthcare services. You are currently enrolled with: [ACHDALT], which the provider(s) must bill on your behalf. This letter is for information only; your provider(s) have been notified of your insurance.

- **OPTION: Eligible for Alternate Source**
  Alternate Resource Available [Per 42 CFR 136.61 (b)(1)]

  Based on our screening process, there is a possibility that you may be eligible for: [ACHDTY].

  You are eligible for the alternate source(s) identified above and are required to apply and complete the application process before CHS payment can be authorized. Therefore, CHS payment cannot be permitted.

  The Benefits Coordinator, [ACHSBDCN], is available to help you apply, and may be reached at [ACHSDBCP].

- **OPTION: Failure to Apply for Alternate Resource**
  Alternate Resource Available [Per 42 CFR 136.61 (b)(2)]

  You did not complete the application process as requested or failed to apply for [ACHDTY]; consequently the IHS/Tribal facility cannot authorize CHS payment.

- **OPTION: IHS/Tribal Facility Was Available**
  IHS/Tribal Facility Was Available and Accessible [Per 42 CFR 136.23(a)]

  The following IHS/Tribal facility, [ACHDFC], was able to provide the services you received.
4.13.5 Medical Priority

**Old Denial Reasons (Removed)**

- **Insufficient Medical Information**
  You did not provide adequate written medical information to allow us to make a decision on your request for payment. [See 42 CFR 136.24 (2008)].

- **Care Not Within Medical Priority**
  The medical care you received is not within the CHS medical priorities. Medical priorities must be established when funding is limited. [Per 42 CFR 136.23(e) (2008)].

**New Denial Reasons (Replaced)**

- **OPTION: Lack of Medical Information**
  Medical Priority [Per 42 CFR 136.23(e)]
  You (or your medical provider) did not provide complete information to determine whether the service you received was eligible for CHS payment and for this reason we could not make a decision on your request. Please provide all medical information within 30 days of this letter so a decision can be made.

- **OPTION: Not Within Medical Priorities**
  Medical Priority [Per 42 CFR 136.23(e)]
  CHS is limited to services that are medically indicated and within the established IHS Medical Priorities. The medical service(s) you were provided did not fall within these priorities based on the medical information received and reviewed by the IHS medical provider. Therefore, your request for payment of these services is not approved.

4.13.6 Notification

**Old Denial Reasons (Removed)**

- **No Notification of Emergency Service Within 72 Hours**
  You or someone acting on your behalf failed to notify an IHS official within 72 hours after the beginning of your emergency treatment [see 42 CFR 136.24(c) (2008)]

- **No Prior Approval for Nonemergency Service**
  You did not obtain prior approval for payment of CHS from the IHS authorizing official approval for this nonemergency care [Per 42 CFR 136.24(b) (2008)].
• No Notification of Emergency Service Within 30 Days for Elderly or Disabled Patient

You or someone acting on your behalf failed to notify an IHS official within 30 days after the beginning of your emergency treatment [see Section 406 of the Indian Health Care Improvement Act as amended by Pub. L. 102-573].

New Denial Reasons (Replaced)

• OPTION: Emergency Services–Notification within 72 hours

You or someone acting on your behalf (such as a family member or name of medical provider) did not notify the IHS/Tribal facility of your emergency within 72 hours from the date you received these services or admission; therefore the IHS/Tribal facility cannot authorize CHS payment. [42 CFR 136.24(c)]

• OPTION: Prior Authorization Requirements

You or someone acting on your behalf (such as a family member or name of medical provider) did not obtain prior authorization for your nonemergency services from the IHS/Tribal facility. For this reason the IHS/Tribal facility cannot approve CHS payment. [42 CFR 136.24(b)]

• OPTION: For Elderly and Disabled Persons Emergency Services–Notification within 30 days

You or someone acting on your behalf (such as a family member or name of medical provider) did not notify the IHS/Tribal facility of your emergency within 30 days from the date you received these services or admission. For this reason the IHS/Tribal facility cannot approve CHS payment.

4.13.7 Residency

For the student or transients or other persons outside of CHSDA delivery area denial option, a facility name will need to be selected before the denial letter can be printed.

Old Denial Reasons (Removed)

• Lives Outside Local CHS Service Area

You are not eligible for CHS because you do not live on the reservation and do not maintain close economic and social ties with the local Tribe(s) for which the reservation was established. Close ties include marriage, employment, or Tribal certification. [Per 42 CFR 136.23 (2008)].

New Denial Reasons (Replaced)

• OPTION: Social/Economic Ties
You do not live within your Tribe's CHSDA and/or maintain close economic and social ties with the Tribe(s) where you currently reside. In states where the whole state is a CHSDA, you do not live within the service unit (SU) healthcare delivery area. [42 CFR 136.23]

- **OPTION: Student or transients or other persons outside of CHSDA**
  You are neither a full-time student nor a transient who is temporarily away from the "home of record" CHSDA. You must submit a notarized statement from the school registrar indicating that you are enrolled and considered a full-time student to [ACHSNFAC] or submit proof of information that you have not been away from your home of record CHSDA for more than 180 days.

### 4.13.8 Indian Descent/Membership

#### Old Denial Reasons (Removed)

- **Eligibility Not Established**
  - **OPTION: Indian Descendancy Not Established**
    You have not provided evidence to prove that you are eligible for CHS. [See 42 CFR 136.12 and 136.23 (2008)]
  - **OPTION: Care for Non-Indian Pregnant Woman**
    You did not provide a paternity form signed by the father and/or a marriage license.

#### New Denial Reasons (Replaced)

- **OPTION: CHS Eligibility not Established**
  You did not provide proof of tribal enrollment or Tribal descendancy of a federally-recognized Tribe. Please provide documentation of Indian descent so a decision of eligibility can be made on your request for CHS payment.

- **OPTION: Non-Indian Woman**
  As a non-Indian woman pregnant with an eligible Indian child, please provide documentation of proof of marriage or signed acknowledgment of paternity so a decision of eligibility may be made on your request for CHS payment. [42 CFR 136.12 and 136.23]

### 4.13.9 New Parameter—Adjust Left and Top Margin

New options were added to adjust the amount of spacing for the left and top margins of the denial letters. This can be found under the Parameters option on the CHS Denial/Unmet Needs menu.
Figure 4-25: Denial Parameter option menu

Figure 4-26: Denial Parameter Set Left Margin and Top Margin options
4.13.10 New Parameter–Add Benefit Coordinator Name and Phone Number

Figure 4-27: Benefits Coordinator parameter option

Figure 4-28: Add Benefits Coordinator name
The Benefits Coordinator name and phone number is found in the denial letter when the denial reason “Alternate Resource Available” is selected and the Eligible for Alternate Resource option is used for the denial reason.

Figure 4-30: Alternate Resource Letter–Benefits Coordinator name and phone number

The Benefits Coordinator, Fonda Jackson, is available to help you apply, and may be reached at 503-398-9999.

RECONSIDERATION AND APPEAL [Per 42 CFR 136.25]. You may appeal the denial in writing. Please submit a statement supporting the reason for the appeal. NOTE: If you fail to submit a written appeal within (30) days of receipt of this letter, payment will be denied through the CHS program. If you have additional information that may affect our decision, please submit it in writing within 30 days of receipt of Press RETURN To Continue or Escape to Cancel...:
4.13.11 New Parameter–Alternate Resource Type

Figure 4-31: Enter new Alternate Resource Type option

Figure 4-32: Add new resource name
4.13.12 Option to Add Comments for Additional Denial Reasons

Figure 4-33: Denial—Adding Additional Denial Reason with Comments

Figure 4-34: Denial—Open Text Additional Comments
5.0 **Patch 16 Changes**

Patch 16 of the CHS makes the following changes.

5.1 **Patient Social Security Number**

SSN will no longer display on the screen or print on the PO. The SSN will now appear as XXX-XX-1234 to protect patient confidentiality.

5.2 **Denial Letter Regulations Citations**

The regulation citations listed on the CHEF Reimbursement Form and in all of the denial letters are outdated. There are approximately 17 denial reasons listed in CHS. The corrected format will include the addition of a “1” in front of each regulation number (i.e., 36.00 should be 136.00). In addition, the year for all citations, which is provided in parenthesis, should all be changed to 2008. An example of the modification is as follows:

- Current: [Per 42 CFR 36.23(e) (1986)]
- New Citation: [Per 42 CFR 136.23(e) (2008)]

5.3 **CAN number “K” used for FY 2010**

“K” is assigned as the FY 2010 for the two-year authority digit in the CAN number. The K caused an error and would not allow a document to be generated. This has been corrected to allow K to be used.

5.4 **FY Printing on PO**

On POs, “00” was printing for the “10.” Changed the printed FY from 00 to 10 to represent the new 2010 year.

5.5 **Form Renewal Parameter**

Changes due to the renewal of the PO form IHS-843 include the following: The Unique Physician Identification Number (UPIN) field was replaced with the Dun and Bradstreet (D&B) Universal Numbering System (DUNS) No. field; and a parameter was added to the Parameter Edit option for the form to print correctly. If you use the new form; type **YES** in the PRINT DUNS ON PO parameter and the DUNS Number will print on the form instead of the UPIN. The DUNS Number must be populated in the vendor file.
5.6 CHEF Management—CHEF Reimbursement Form Changes

5.6.1 Additional Line for Special Blanket and Local Obligations

An additional line was added to allow capturing special blanket obligations (SBO) and special local obligations (SLO). The option allows the PO number and obligated amount to be entered, and this amount calculates in Column 16. When payment is made, type the payment amount and date paid in the AED-Add/Edit option of the CHEF Management menu, and it will calculate in Column 17. Enter multiple blanket or SLO POs.
5.7 Reimbursement Percent Field

A Reimbursement Percent field was added; and Line 22A will reflect 50% or 100% reimbursement based on the amount paid in subtotal Line 19. If 95% or more is paid, type 100 at the “REIMBURSEMENT PERCENT” prompt. If less than 95% is paid in subtotal in Line 19, type 50 at the same prompt. This prompt is a required field.
5.8 Amendment Field Added

An additional line was added to the CHEF Reimbursement form to track funds that either have been reimbursed or are pending reimbursement by amendments that have been submitted for payment. Amendments can be entered as either PAID or PENDING. These fields were added to allow tracking of the amendment number, amount paid, date of amendment, and status of amendment. If the amendment is paid, it is displayed in Line 23 Advance to Date. If the status of the amendment is Pending, the amount is displayed in Line 24 Less Amendments Pending Payment. Several amendments may be entered and the status of the amendment indicated by entering the amount in Line 23 (advance) or Line 25 (pending). The Funds Received field is no longer used and is not editable. If there is currently an amount in that field, it is added to Line 23.

Figure 5-4: Add Amendment number, amount, date, and status
5.9 CCR Prompt is Added to Site Parameter

A parameter has been added to determine if a site is requiring a CCR for the vendor prior to issuing a document. If parameter is set to \textbf{Y} (Yes), then it checks the field DUNS CCR Certified in the Vendor File. The prompt will determine whether the DUNS entry originated from the CCR file before a PO is generated. The three available options will be:

- \textbf{Y} (Yes)–indicates that the DUNS entry was electronically updated; PO can be created
- \textbf{N} (No) or null–indicates that the DUNS cannot be verified; PO cannot be created
- \textbf{M} (Manual)–indicates that the DUNS was manually entered; PO can be created

When the parameter is active, a PO can only be created if \textbf{Y} (Yes) or \textbf{M} (Manual) has been selected in the vendor file.

If the CCR REQUIRED parameter is set to \textbf{Y} (Yes) in the CCR Site Parameter screen, a DUNS number is required in the vendor file for the vendor being used to generate a PO. You will be unable to proceed with entering a PO if the DUNS number is missing.
Figure 5-6: CCR Site Parameter set to Yes

Figure 5-7: A prompt will display for vendors missing a DUNS number
Figure 5-8: The prompt below will display when you enter the DUNS number in the vendor file. Choose from Yes, No, or Manual Entry.

5.10 Third-Party Billing Report

T—THIRD PARTY AND P—THIRD PARTY DETAILED has been added to the summary and detailed reports for the ALL PATIENTS’ option. The report serves as management tools to assess the use of Alternate Resources.

Figure 5-9: Third-Party Report adds T for Third Party and P for Third Party Detailed options
Figure 5-10: Third Party Detailed option provides detailed information on PO sorted by third-party payer

5.11 Denial Report for “Care Not within Medical Priority”

The Care Not within Medical Priority report has been added to the Denial Reports option. The report tracks all denials that have been entered into the denial system with Care Not within Medical Priority as the primary denial reason. The report lists the denial number, denial issued date, diagnosis codes, and actual charges.
5.12 CHS Payment Report

The CHS Payments by Object Class Codes report is found in the Facilities Management menu in Reports under the SCCR–Service Class Reports option. It may be run using the PAY–CHS Payments by Object Class Code option or by using the SUM–CHS Payment Summary by Object Class Code option.

The PAY report prints the object class code (OBJECT CLASSIFICATION) and lists the date initiated under TRANSACTION DATE, the document/order number under ORDER NUMBER, and the amount paid under IHS PAYMENT AMOUNT. The SUM report generates a summary report of the documents paid by Object Class Codes.

To run a report, type the starting and ending facility names in the “START WITH NAME” and the “GO TO NAME” prompts. In Figure 5-12 and Figure 5-13, the starting and ending facilities are shown as DEMO and DEMOZ.
Figure 5-12: PAY–CHS payments by object class code

Figure 5-13: SUM–CHS payment summary by object class code
6.0 **Patch 15 Changes**

6.1 **CHEF Reimbursement Form Enhancements**

6.1.1 **Change to Field #7**
Field #7 now displays the Tribe Code instead of the Tribe Name, due to space constrictions on the form.

6.1.2 **Change to Field #11 Medical Priority**
Field #11 is now Form Field #12 and displays the entry of the first PO entered and does not repeat.

6.1.3 **New Calculations in Fields #19–25**
Field #19 Sub-Total is the Obligation Amount column. This amount is the total amount obligated for the POs shown on the form. The Sub-Total for the Paid Amount column is the total amount paid for the POs.

Field #20 Total IHS Costs displays the amount paid, or amount obligated, if the document has not been paid.

Field #21 Less Threshold displays a minus amount of threshold in the Paid column.

Field #22 Net Eligible From Fund is calculated using the new Total IHS Cost calculation minus the Threshold Amount (25,000), showing the amount eligible for CHEF funding.

Fields #23, 24 Less Advances to Date displays the amount advance from the paid amount.

Field #25 Total Requested Amount field subtracts the advanced amount from the net eligible to calculate the Total Requested Amount.
### 6.1.4 REMARKS Field #30

42 CFR SEC.136 MET has been removed because this field will always be Yes, and it has been added to the Certification text box.

New Remarks Field #32 has been changed to Field #30. This field is a free-text field with a 61-character maximum. You may edit and delete the text in this field, as shown in Figure 6-2.

Figure 6-3 displays an example of the updated text for Field 30. REMARKS as it appears on the printed form.

I hereby certify that the information and costs listed are associated with this catastrophic illness/incident, and that case management has been performed. 42 CFR 36 HAS BEEN MET.

TRAUMA CAUSE CODE: M=MOTOR VEHICLE, F=FALL, S=SUICIDE
A=ASSULT, B=BURN, D=DROWNING, O=OTHER, U=UNKNOWN
*indicates provider is a contract source

Figure 6-3: Example of form Field 30: REMARKS, with updated text.

6.2 Service Class Codes

CHSMIS restricts federal sites from entering any SCC that is not included in the authorized table of SCC (see Table 6-1).

If an invalid SCC is used while generating a PO, the following message is displayed:

This is an invalid Service class code - NO EQUIVALENT OBJECT CLASS CODE.

The user is not allowed to continue issuing the PO for the federal site.

Table 6-1: SCC to Object Class Code Crosswalk Table–Effective October 1, 1997

6.3 DCIS Extract Error Report

If an error is found in the DCIS extract for required information, the system generates the DCIS Extract Error Report. The error report provides the user the opportunity to correct the data at the local/site level, instead of at the DCIS level. The report includes the Unique Identifier for the record, the error, the name of the field in error, and a description of the error to allow the user to identify the problem and correct it.

Lists of required entries to prevent errors from generating are:

- Date Signed
- Effective Date
- Current Completion Date
- Ultimate Completion Date
- DUNS Number
- City-St Location
- ZIP +4
- Business Size
- Contract Information

The DCIS Extract Error Report is located under the Reports Menu option of the CHS Facility Management menu.
The CHS DCIS Error Report (Figure 6-5) allows you to update and/or change data in the Vendor file, if errors are found.

TOTAL RECORDS IN ERROR = 4
7.0 **Patch 13 Changes**

7.1 **Adding the DUNS Number to Vendor File**

The U.S. Government requires their supplies and contractors to have a DUNS Number. You can obtain a DUNS number at: [http://www.dnb.com](http://www.dnb.com).

The DUNS Number is a 9-digit identification number that associates you to a specific business, its location, and quality information. It is the world’s leading source of insight. This information is the foundation of worldwide solutions, which customers rely on to make critical business decisions.

A new prompt has been added to the vendor option. The DUNS number will now display on the vendor screen.

7.1.1 **Adding the DUNS Number**

The following example shows where to enter the DUNS Number in the individual vendor’s file. Note that **bold** text indicates user input at the menu option “11: DUNS” prompt.

![Example of entering DUNS Number in the Vendor file](image)

The VEN Provider/Vendor Data option enables you to enter the DUNS Number for the specified vendor. The following example shows how to enter a new DUNS Number or to edit a DUNS Number.
7.1.2 Displaying the DUNS Number in the Vendor File

Entering the DUNS Number at the “11) DUNS” prompt displays the DUNS Number on the vendor screen. For example:

```

*************************************************************************
```

By pressing enter after the DUNS Number at the prompt, you may enter or edit your DUNS Number as you choose.

7.2 Interface RCIS Referral with Denial and Appeal Options

A referral can be selected when adding a denial or appeal. Information is passed from the referral to the denial and from the denial and appeal to the referral.

If the CHS link is on in the referral package, two parameters control the update process of the referral:
• CHS Denial will close outpatient referrals
• Update Referral status on Appeal reversal
If those parameters are set to **YES**, status is transferred to referral, which will Close, Pend, or Approve the referral. If only the link is turned on, the other pertinent information regarding the denial and/or appeal passes to the referral.

### 7.2.1 Add a Denial and Appeal to Referral

If the link is on for the RCIS referral package, you can enter denial information and attach the denial and appeal information to the referral. This allows the referral to retain related information.

When adding a denial, the following fields will default in the Denial from the referral:

- Date of Service
- Vendor
- Type of Service
- Estimated charges
- Medical priority
- ICD9
- CPT

Examples of denial and appeal, and display of referral information, are shown in Figure 6-4.

7.3 Duplicate Document Error

Documents are stored up to 10 years. When documents are created after the documents have been removed for that FY, these documents will cause the duplicate document error when documents are added for the current FY.

An option has been added to the CHS Programmer Utilities menu to remove documents causing the document duplicate error. The option provides a report of the documents that will be deleted, so confirmation can be done by CHS staff.

7.3.1 Removing Duplicate Documents Causing Duplicate Document Error

The site manager has access to the CHS programmer Utilities key, and can fix this error by deleting duplicate documents.

The second option in the list, Option 2: ^ACHSRMVD - REMOVE DOC CAUSING THE DUPLICATE DOC ERROR, under the XXXX CHS PROGRAMMER UTILITIES menu, enables removal of duplicate documents, as shown in Figure 7-7.

** *** CHS PROGRAMMER UTILITIES MENU DRIVER *** **

1. ^ACHSBRF - FIX CHS REGISTER BALANCES
2. ^ACHSRMVD - REMOVE DOC CAUSING THE DUPLICATE DOC ERROR
3. ^ACHSSTL - CHS FACILITY PARAMETER SET UP
4. ^ACHSY200 - FILE 200 CONVERSION
5. ^ACHSYAMT - RECALC OBLIGATION AMOUNTS
6. ^ACHSYCN - RETRANSMIT BY TRANS CODE AND DATE
7. ^ACHSYCOR - COMPARE RECORDS TO RECORDS FROM CORE
8. ^ACHSYCS - RETRANSMIT BY TRANSACTION CODE AND DATE RANGE
9. ^ACHSYCX - CROSS REFERENCE CLEANUP FOR CHS FACILITY FILE
10. ^ACHSYDRV - SEARCH FOR DUP EIN NUMBERS IN VENDOR FILE
11. ^ACHSYES - REGENERATE "ES" CROSSREF OF CHS FACILITY FROM GIVEN IEN
12. ^ACHSYEX - EXTRACT SELECTED DOCS TO FILE
13. ^ACHSYFD - DELETE DOCUMENTS FOR SELECTED FY
14. ^ACHSFCN - ENTER DOCUMENTS (2/8)
15. ^ACHSYFQ - SET DOCUMENTS INTO PRINT QUE FROM GIVEN IEN
16. ^ACHSYFM - MOVE OLD PRINT QUEUE
17. ^ACHSYFR - RESET CHS TX DATE IN IHS PATIENT & VENDOR FILE
18. ^ACHSYOR - KILLS OFF DATA SO REGISTERS CAN BE REOPENED
19. ^ACHSYSR - display database record for given PO

Select # to run or "?#" for help: 2 <Enter>

This routine removes documents that have been added after the site manager has removed the entire fiscal year documents. You will need to enter the 4 digit fiscal year. The duplicate documents will then be displayed. You will need to confirm deletion of the documents.
Enter the 4 digit FY the duplicate error is occurring in: (1996-2007):

2003 <Enter>

Documents to be Removed:

1. Document: 3-U03-02779(2773)OUTPATIENT PAID
   FY: 2003  Date Entered: MAR 18, 2003
2. Document: 3-U03-02780(2774)HOSPITAL CANCELED

7.4 UFMS Export

7.4.1 Facility Level

At the facility, this option has been combined with the CDPE CHS Data–Prepare for Export option. The option now creates a new UFMS-type record. The data is sent to the Area Office with the other record types.

A parameter has been added to the CHS Facility file: UFMS Export Start date. The field has been populated with an OCT 1, 2007 start date for IHS-type facilities.

After October 1, 2007:

- IHS facilities can to export without closing the DCR
- Tribal sites will continue with the same export process of closing the DCR and exporting

The only change the user will see is the additional UFMS record count displayed on the screen.

7.4.2 Area Level

At the Area Office, the UFMS record count has been added. The display of patch 11 has been removed. The UFMS record count is displayed during the consolidation of facility files.

During the Split-Out option, the UFMS file is sent automatically to the Integration Engine (IE) server. The record count, date received, and date sent from the IE is displayed on a Web page for access from sites. If an error occurs with the file, an e-mail message is sent to the Area Office staff designated on the notification list.
8.0 **Patch 12 Changes**

The Office of Management and Budget (OMB) has mandated that all federal agencies establish unique identifiers for procurement instruments. These identifiers are termed Procurement Instrument Identifier (PIID), and are to be used on all contracts, orders, and agreements.

**Note:** The changes made in patch 12 do not affect Tribal sites. The new prompt is displayed only if the site is an IHS site and the site parameters are set accordingly.

8.1 **New Prompt**

When an IHS facility is initiating a new document, the new mandatory prompt, “Enter Contract Action Type,” is displayed. Options for this prompt are shown in the following table.

<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>

<td>Task Order</td>
</tr>
</tbody>
</table>

*Although the S and G mnemonics will work to reference their respective Contract Actions, it is important to note that they are not official identifications (IDs).

**Note:** When you type one question mark (?) or three question marks (???) at the “Enter Contract Action Type:” prompt, the abbreviated text will display.

When you type two question marks (??) at the “Enter Contract Action Type:” prompt, the full-text along with their mnemonics will display.
The following example (Figure 8-1) shows the location of the new “Enter Contract Action Type” prompt in the document initiation.

8.2 New HHS Number

8.2.1 Understanding the New HHS Number

The HHS number is a 17-digit number with specific values set for each position. For example: HHSI249200400001P.

The following table explains the information represented in the position(s).

<table>
<thead>
<tr>
<th>Number Position</th>
<th>Example</th>
<th>Explanation</th>
</tr>
</thead>
<tbody>
<tr>
<td>1-3</td>
<td>HHS</td>
<td>Three-digit identification code of the Department</td>
</tr>
<tr>
<td>4</td>
<td>I</td>
<td>One-digit identification code of the servicing agency: Indian Health Service</td>
</tr>
<tr>
<td>5-7</td>
<td>249</td>
<td>Three-digit identification code assigned to the contracting office by the Office of Acquisition Management Policy (OAMP).</td>
</tr>
<tr>
<td>8-11</td>
<td>2004</td>
<td>Four-digit fiscal year designation</td>
</tr>
<tr>
<td>12-16</td>
<td>00001</td>
<td>Five-digit serial number</td>
</tr>
<tr>
<td>17</td>
<td>P</td>
<td>One-digit code describing the type of contract action</td>
</tr>
</tbody>
</table>

Three-Digit Identification Code Assigned to the Contracting Office by OAMP:

- 241 Aberdeen
- 243 Alaska
- 242 Albuquerque
- 239 Bemidji
- 244 Billings
• 235 California
• 285 Nashville
• 245 Navajo
• 246 Oklahoma
• 247 Phoenix
• 248 Portland
• 249 Tucson
• 161 OES/Dallas
• 102 OES/Seattle

One-Digit Code Describing the Type of Contract Action That Applies to CHS:

P Purchase Using Simplified Acquisition
U Contracts place with or through other Government departments, GSA contracts, or agencies or against contracts placed by such departments or agencies outside the Department of Defense (DOD) (including actions with the National Industries for the Blind [NIB], the National Industries for the Severely Handicapped [NISH], and the Federal Prison Industries [UNICOR])
M Micropurchase
T Task Order

8.2.2 Document Displaying the New HHS Number

The new HHS number will display on the upper right side of the document, as shown in Figure 8-2.

9.0 Patch 11 Changes

In response to Section 506 of the Medicare Modernization Act (MMA), IHS and the Urban and Tribal programs will be able to pay Medicare participating hospitals at rates based on Medicare-Like Rates.

The new Medicare Provider field, Item 9, is located on the Provider/Vendor Update screen (CHSMAIN > MGT > PVD). The Medicare Provider field is used to identify providers/vendors that are subject to the Medicare-Like Rates.

9.1 Adding a New Vendor with a Medicare Provider Number

The process of entering the Medicare Provider number when adding a new provider/vendor is almost identical to the process for updating an existing provider/vendor file with the Medicare Provider number.

9.2 Updating an Existing Provider/Vendor’s Medicare Provider Number

After completing the initial data entry steps outlined in the Contract Health Management System User Manual Version 3.1, Section 9.1, go to Step 3 of the following instructions to edit the provider/vendor file.

To update the Medicare Provider field for an existing Provider/Vendor file, follow these steps:

1. At the “Select Facility Management” prompt, type PVD.
2. At the “Enter Provider/Vendor” prompt, type the Employer Identification Number (EIN) or name of the provider.
   If there is more than one possible match, a list displays from which you can select the correct provider/vendor.

   The Provider/Vendor update screen is displayed. Note that there is no entry in the Medicare Provider field for any new or nonupdated file.

3. At the “Want to Edit?” prompt, do one of the following:
   - Type Y and go to Step 4.
   - Type N. At the “Want to see Prior FY Payments for this vendor?” prompt, type Y or N to view/not view prior payments for this vendor.

4. At the “Change Which Item: (1–15)?” prompt, type 9.
5. When the “Medicare Provider” prompt appears, do one of the following:
   - If this field displayed No Entry when you accessed the Provider/Vendor update screen, select one of the following options:

   | Y | Yes |
   | N | No  |
   | P | Pending: Medicare Provider without a number assigned from CMS |
   | W | Waived: IHS has waived the requirement for Medicare-Like Rates for this Provider. |
   | E | Excluded: CMS exclusion from prospective payment systems PPS pricing. |
   | U | Unknown: Further research is required. |
• If the field displayed one of the listed options, it is the current default. Press the Enter key to accept the default, or enter a different option.

6. At the “Medicare Date of Update” prompt, type the date that the Medicare Provider file is updated.

7. At the “Want to add Medicare Information?” prompt, any Medicare information on file is also displayed. Do one of the following:
   • Type Y and go to Step 8.
   • Type N. You are prompted to edit Medicare Information, if any is listed, or you are returned to the “Want to Edit?” prompt (Step 3).

8. At the “Enter the Medicare Number” prompt, type the Medicare Number for this provider/vendor.
   
   If you do not know the Medicare number, this information can be located on the IHS Web site by following the instructions provided in CMS Provider Listing. Once the Medicare Number has been identified, type the number at the prompt.

   **Note:** The Medicare Number prints on the CHS PO only if the provider/vendor is participating with Medicare, which is indicated by a Y in the Medicare Provider field. Any other entry (N, P, W, E, or U) will not populate this field for the provider on the PO.

9. At the “Are you adding (Medicare number) as a new Medicare Number (the # for this vendor)?” prompt:
   • Type Y, and go to Step 10.
   • Type N only if you need to make any corrections to the number you entered.

10. At the “Medicare Service Type” prompt, type the description of service provided by the provider/vendor. Type a question mark (?) to display the following list of options:

<table>
<thead>
<tr>
<th>Option</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>

Note: The Medicare Service Type prints on the CHS PO only if the provider/vendor is participating with Medicare, which is indicated by a Y in the Medicare Provider field. Any other entry (N, P, W, E, or U) will not populate this field for the provider on the PO.

11. At the “Begin Term Date” prompt, type the date the Medicare Number became effective. This date can also be found on the IHS Web site as described in CMS Provider Listing, under the Cert/Date column.

12. The next field prompts entry for the term date for the Medicare Number. The term date for any provider is the date posted in the header of the CMS Provider List.

Terminated providers are identified when the Information Technology Service Center (ITSC) compares the current Provider List to the new file sent by the FI. Those providers identified by ITSC as terminated will be listed separately at the top of the new CMS Provider Listing located on the RPMS Web site (as described in CMS Provider Listing). This list is run every quarter, semiannually, or at the discretion of CMS.

a. If the Provider/Vendor does not appear at the top of the CMS Provider Listing, press Enter to leave field blank, and go to Step 13.

b. If the Provider/Vendor does appear at the top of the CMS Provider Listing, type the date posted on the CMS Provider Listing as the Medicare Number expiration date at the “End Term Date” prompt.

The system returns you to the main Provider/Vendor Update screen, and the Medicare Provider field will reflect your changes. For example:
9.3 Add/Edit Medicare Number for New Type of Service

Provider/Vendors can have multiple Medicare Numbers, depending on how many types of service they provide that are subject to Medicare-Like Rates. If a Provider/Vendor already has a Medicare Number on file for one type of service, you can add a Medicare Number for a new type of service or edit an existing type of service.

To add/edit a Medicare Number for a new/existing type of service, follow these steps:

1. At the “Want to Edit?” prompt on the Provider/Vendor Update screen, type Y or N.
   a. If you type Y, go to Step 2.
   b. If you type N, you are prompted to view prior payments to this vendor. Type Y or N.

2. At the “Change Which Item: (1–15)?” prompt, type 9.
   A list of any existing Medicare Numbers and service types are displayed (Figure 9-3).

3. At the “Want to Add Medicare Information?” prompt, type Y or N.
   a. If you type Y, go to Section 9.2, “Updating an Existing Provider/Vendor’s Medicare Provider Number,” and continue with Steps 8 through 13.
   b. If you type N, go to Step 4.

9.4 New Initial Document Fields for Type of Document 43 Hospital Services

The procedures you follow when initiating a type of document 43 Hospital Services are the same as outlined in the Contract Health Management System User Manual v3.1, Section 4.1, “Initial Document,” but now include Medicare Provider information that has been updated in the Provider/Vendor file.

After you select the provider/vendor, a message is displayed that summarizes any information previously entered in the Medicare Provider field on the Provider/Vendor Update screen. This information includes:

- **Medicare Provider Status Set To:** [Yes, No, Pending, Waived, Excluded, Unknown]
  This message identifies the information previously entered in Field 9, Medicare Provider, of the Provider/Vendor Update screen.

- **Last Updated:**
The date the Medicare Provider file was updated.

- **Services at Medicare-Like Rates**

  This message displays the Medicare Provider Number, effective date, term date (if applicable), and description of service.

For example:

```
Medicare Provider Status Set to: YES
Last Updated: Oct 01, 2004

<table>
<thead>
<tr>
<th>#</th>

<td></td>
<td>HOME HEALTH</td>
</tr>
</tbody>
</table>
```

Figure 9-5: New initial document fields for type of Document 43 Hospital Services

You cannot make any changes to this information; it is for viewing only. The next prompt asks if you want to use the Medicare-Like Rates from one or more of the listed entries for this document.

To select the appropriate description of service related to your document, follow these steps:

1. After you have initiated your document and selected the provider/vendor as outlined in Section 4.1 of the *Contract Health Management System User Manual*, v3.1, the Medicare Provider information described above is displayed.

2. At the “Want to use Medicare-Like Rates?” prompt, type either:
   - **Y**, and go to Step 3

3. At the “Enter the Number (1-#)” prompt, type the number corresponding to the type of service listed for that provider/vendor.

2 327164    Jul 01, 1966    HOME HEALTH

Want to use the Medicare like Rate? NO/ YES <Enter>

Enter the number: (1-2): 1 <Enter>

|------------------------------|
| DESCRIPTION OF SERVICE: MVA //

Figure 9-6: Selecting a description of service

Once the document is completed, you can view the document indicating the Medicare Number and Type of Service. However, if the “Medicare Provider Status Set To” field displayed anything other than Yes, no Medicare Provider information will be visible.

### 9.5 Area CHS Consolidate Data from Facilities Process Update

The Area CHS Consolidate Data from Facilities (ACON) option enables the Area Office to combine data from several facilities, to aggregate the individual facility export files, and to send them to the ITSC, FI, and/or the Health Accounting System (HAS). The process expects the utility files to be in a specified directory. The UNIX directory location is /usr/spool/uucppublic.
All IHS sites export their files automatically, using the File Transfer Protocol (FTP) process. All Tribal sites (638 sites) do not use the FTP process and must contact their site manager, who will manage the FTP process and send their files to the National Patient Information Reporting System (NPIRS).

When sending the files to NPIRS, the Site Manager must use this IP Address: 161.223.90.33.

Patch 11 has changed the Area CHS Consolidate Data from Facilities option to include a new Software Version field in the export report. Until patch 11 is installed at your site, the software version field displays “unknown” for each file to export.

**Note:** Files cannot be exported until ACHS*3.1*11 is installed and is running.

Patch 11 also contains new record layouts for Type 7. For the complete set of new Outpatient, Inpatient, and Dental Record Layout lists, refer to New Record Type 7 Layouts.

The above dialogue is repeated for each type of data to be exported (e.g., BCBS, Vendor Records, AO Payment Records, and IHS Statistical Records). After this step is completed, the DHR data can be printed using the DHRL menu option.
10.0 **Patch 7 Changes**

Patch 7, released in December of 2003, contained the following changes.

10.1 **Add/Edit Electronic Signature Parameters (ESIT)**

| CHS/MIS Main Menu > MGT > PED > ESIT |

This option allows users to set up a facility to be able to apply an electronic signature to a CHS PO.

To add/edit Electronic Signature parameters, follow these steps:

1. Access the Contract Health Management System menu, and at the prompt, type **MGT**; for example:

```plaintext
***********************************************************
*              Indian Health Service             *
* CONTRACT HEALTH MGMT SYSTEM            *
* Version 3.1, Jun 11, 2001                *
***********************************************************

<td>Edit CHS Document Signatures</td>
</tr>
</tbody>
</table>

Select Parameter Edit Option:

Figure 10-3: Parameter Edit menu (PED)

3. At the “Select Parameter Edit Option” prompt, type ESIT, to add or edit electronic signature parameters.
The system displays the Add or Edit Electronic Signature Parameters menu. For example:

<table>
<thead>
<tr>
<th>Location</th>
<th>UNSPECIFIED UNS/ &lt;Enter&gt;</th>
</tr>
</thead>
<tbody>
<tr>
<td>Required</td>
<td>YES/ &lt;Enter&gt;</td>
</tr>
<tr>
<td>Activation Date</td>
<td>NOV 3, 2003/ &lt;Enter&gt;</td>
</tr>
</tbody>
</table>

Figure 10-4: Adding or editing electronic signature parameters (ESIT)

4. At the “LOCATION” prompt, press Enter to accept the default, which should be your facility.

**Note:** You cannot modify the default location from CHS. If the default location is incorrect, you must change the information through FileMan.
5. At the “MULTIPLE SIGNATURES REQUIRED” prompt, type **YES** to indicate that more than one signature is required for CHS POs. The system will then require both ordering and authorizing signatures for Blocks 21 and 23 of the PO form.

When only one signature is appropriate for the location, type **NO**. The system will then require only an ordering signature for Block 21 of the PO form.

6. At the “E-SIG FEATURE ACTIVATION DATE” prompt, type the date on which you want to activate the electronic signature capability for your facility.

### 10.2 Add/Edit Electronic Signature Officials (EOFF)

[CHS/MIS Main Menu > MGT > PED > EOFF]

This option allows designated individuals within the CHS program to add users to the CHS E-Sig Authority file as authorized electronic signature officials. Personnel who are signature officials are not limited to the CHS program.

**Note:** There is no limit to the number of users that serve as ordering or authorizing officials.

**Important:** For the electronic signature functionality to work properly, you must set up your electronic signature, including titles, using the RPMS Tool box option.

To add electronic signature officials, follow these steps:

1. At the “Select Contract Health System Option” prompt, type **MGT** to display the Facility Management options (Figure 10-2).

2. At the “Select Facility Management Option” prompt, type **PED** to display the Parameter Edit options (Figure 10-3).

3. At the “Select Parameter Edit Option” prompt, type **EOFF** to add/edit Electronic Signature officials.

   The system displays the Add or Edit Electronic Signature Officials parameters.

4. At the “LOCATION” prompt, press Enter to accept the default Location. The name of your facility should appear as the default response. The CHS application allows you to modify only your facility’s electronic signature capabilities.

   **Note:** If the default location is incorrect, you must change the information through FileMan.

5. At the “Select Users Name” prompt, type the name of the appropriate user.
**Note:** Users authorized to enter electronic signatures on Purchase Orders must have system access to the CHS package at that particular facility.

6. At the “LEVEL OF AUTHORITY” prompt, type the amount of financial authority associated with the specified user.

   This is the maximum dollar amount for which this person can obligate funds, and this person cannot sign purchase orders above the indicated level of financial authority.

7. At the “ACTIVATION DATE” prompt, type the date on which you want to activate this electronic signature capability.

8. At the “INACTIVATION DATE” prompt, type the date on which this authorization should be removed (the date the specified user is no longer authorized to sign CHS POs).

   It is not recommended that a future date be entered in this field.

9. At the “ORDERING OFFICIAL” prompt, type **YES** if the individual is authorized to sign as the Ordering Official.

10. At the “AUTHORIZING OFFICIAL” prompt, type **YES** if the individual is authorized to sign as the Authorizing Official.

   The Authorizing Official is normally a person who supervises the Ordering Official or might be a second tier in the procurement process.

**Important:** The ordering official and the authorizing official cannot be the same person on a PO. When the authorizing official is not physically located at the facility, you must ensure that this individual has access to the CHS application at the facility.
10.3 Apply Electronic Signatures

This option allows authorized users to apply electronic signatures to a PO. Depending on the user’s authority, individuals can sign as ordering official or authorizing official.

**Important:** One person cannot sign as both ordering official and authorizing official on the same document.

The ordering official’s signature must be placed first on the PO. The authorizing official’s signature cannot be applied to a PO until the ordering official’s signature is applied. If your facility requires only one signature, it must be that of the ordering official.

**Important:** All electronic signatures must be applied before printing the POs or the signature blocks on the PO will be blank. Unsigned POs can be signed and re-printed as necessary.

**Note:** An unsigned PO will not allow export of data to CORE or the FI, and will remain in the signature queue until it is signed or canceled.

10.3.1 Apply the Ordering Official Electronic Signature

This option allows ordering officials to apply electronic signatures to POs within their authorization level.

Applying the Ordering Official Electronic Signature

1. Access the Contract Health Management System menu (see Figure 10-1).
2. At the “Select Contract Health System Option” prompt, type EMNU.

The system displays the Electronic Signature Authorization menu. For example:
3. At the “Select Electronic Signature Authorization Menu Option” prompt, type **SIGO**.

   The system displays the Apply Electronic Signature Authorizing Official option.

4. At the “Enter your Current Signature Code” prompt, type your electronic signature.

   The system verifies your signature and displays purchase orders within your level of authority. For example:

```
CONTRACT HEALTH MGMT SYSTEM, 3.1
UNSPECIFIED TRIBE HEALTH CLINIC
Apply Electronic Signature Authorizing Official

Enter your Current Signature Code: (type your electronic signature here)

**SIGNATURE VERIFIED**

Figure 10-6: Electronic Signature Authorization menu options, selecting Apply Electronic Signature Ordering Official (SIGO)

Figure 10-7: Entering your electronic signature and reviewing POs (Step 4)
Note: If you do not have an electronic signature on file, please contact your site manager.

5. After you have reviewed the POs, type Q at the “Select Action” prompt to exit the Output Browser.

6. At the “Do You Want ALL Documents Stamped With Your Electronic Signature” prompt, type:
   - **YES** to approve all current POs within your authorization level
   - **NO** to indicate that certain POs within your authorization level should not be signed

   If you elect to withhold signature from some POs, the system prompts you to enter the numbers corresponding to the POs you do not want to apply your electronic signature to.

7. At the “Select the ITEM NO. that you DO NOT want your Electronic signature applied to” prompt, type the item number(s) associated with POS you do not want to sign.

   **Note:** The numbers displayed in this prompt vary based on the PO item numbers within your authorization level.

8. At the “Are You Done?” prompt, type:
   - **YES** to indicate that you are done signing POs
   - **NO** to continue reviewing and signing POs

   ![Figure 10-8: Specifying POs for approval (Steps 6–8)](image)

   When you are finished signing POs, the system displays the number of documents that received your electronic signature during this session.

9. Review this number for accuracy, and type Q at the “Select Action” prompt to exit; for example:

   ![Output Browser Example](image)
10.3.2 Apply the Authorizing Official Electronic Signature

This option allows authorizing officials to apply electronic signatures to POs within their authorization level. An ordering official must have already signed the PO in order for an authorizing official to be able to sign the PO.

Applying the Authorizing Official Electronic Signature

1. Access the Contract Health Management System menu (see Figure 10-1).
2. At the “Select Contract Health System Option” prompt, type EMNU.

The system displays the Electronic Signature Authorization menu; for example:

```
CONTRACT HEALTH MGMT SYSTEM, 3.1
UNSPECIFIED TRIBE HEALTH CLINIC
Electronic Signature Authorization Menu
SIGA   Apply Electronic Signature Authorizing Official
SIGO   Apply Electronic Signature Ordering Official
```

3. At the “Select Electronic Signature Authorization Menu Option” prompt, type SIGO.

The system displays the Apply Electronic Signature Authorizing Official option.

4. At the “Enter your Current Signature Code” prompt, type your electronic signature.

The system verifies your signature and displays POs within your level of authority. For example:

```
SIGNATURE VERIFIED
```

### 10.4 Electronic Signature Reports

This option allows you to create reports that include either signed POs or those POs that are still pending an electronic signature. Both of these reports pertain to the ordering official’s signature only.

**Creating and Viewing Electronic Signature Reports**

1. Access the Contract Health Management System menu (see Figure 10-1).
2. At the “Select Contract Health System Option” prompt, type MGT to select Facility Management.
   The system displays the Facility Management options (see Figure 10-2).
3. At the “Select Facility Management Option” prompt, type PR to select Reports.
   The system displays the Reports menu. For example,

```
CONTRACT HEALTH MGMT SYSTEM, 3.1
UNSPECIFIED TRIBE HEALTH CLINIC
Reports

DSR Document Status Report
CER Expenditure Report
PSR Document Summary Report
DSRF Document Status Report By Fiscal Year
ERPT Electronic Signature Reports ...
```

Patch Addendum to User Manual Patch 7 Changes
June 2011
4. At the “Select Reports Option” prompt, type **ERPT** to select Electronic Signature Reports.

The system displays the Electronic Signature Reports menu. For example,

```
Figure 10-15: Electronic Signature Reports menu options (ERPT)
```

### 10.4.1 Viewing POs Approved by Ordering Official Report (ESAP)

The Electronic Signature Approved by Ordering Official report (ESAP) option allows you to create reports that include POs that have been approved by an ordering official in a specified date range.

1. At the Select Electronic Signature Reports Option, type ESAP. For example:

```
Figure 10-16: Using the Electronic Signature Reports menu, selecting the Electronic Signature Approved by Ordering Official (ESAP)
```

2. At the “Enter The BEGINNING E_SIG Date For The E-Signature Approved Report” prompt, type the earliest date for which you want view POs.
3. At the “Enter The ENDING E_SIG Date For The E-Signature Approved Report” prompt, type the latest date for which you want to view POs.

4. At the “Do you want to” prompt, type:
   - P to print the report output to a printer
   - B to display the report output on your computer screen

   If you choose to print the report output, enter the appropriate device at the “Device” prompt.

<table>

</tr>
</tbody>
</table>

   Figure 10-17: Entering Electronic Signature Approved by Ordering Official report options (Steps 2–4)

10.4.2 Electronic Signature Approved by Ordering Official Report

Example

This report includes the

- PO Number
- Provider of Service
- Signature Date
- Signature Date
- Ordering Official
- Patient Name
- Obligation Amount
- Order Date
- Authorizing Official

When an authorizing official has approved a PO with a signature, the report displays the name of the individual; otherwise, the report displays “Needs Auth. Ofc. Sig.”
When an ordering official has approved a PO, the report displays the name of the individual. POs with no ordering official signature do not appear in this report.

**Note:** If your site only requires one signature to approve POs, you will only see the ordering official’s name on this report. If your site requires multiple signatures to approve POs, you will see the ordering and authorizing official’s names, as well as “Needs Auth. Ofc. Sig” for POs pending authorizing official signature.

**Figure 10-18:** Viewing signed POs

**10.4.3 Viewing a POs Awaiting Electronic Signature Using the Pending Electronic Signature of Ordering Official Report (ESPD)**

The Pending Electronic Signature of Ordering Official (ESPD) option allows you to create reports that include POs that are awaiting an electronic signature approval from an ordering official.
1. At the Select Electronic Signature Reports Option, type **ESAP**. For example:

```
CONTRACT HEALTH MGMT SYSTEM, 3.1
UNSPECIFIED TRIBE HEALTH CLINIC
Electronic Signature Reports

ESAP   Electronic Signature approved by Ordering Official
ESPD   Pending Electronic Signature of Ordering Official

Select Electronic Signature Reports Option: ESPD <Enter>
```

Figure 10-19: Using the Electronic Signature Reports menu, selecting the Pending Electronic Signature of ordering official

The system displays the type of output options.

2. At the “Do you want to” prompt, type:
   - **P** to print the report output to a printer
   - **B** to display the report output on your computer screen

   If you choose to print the report output, enter the appropriate device at the “Device” prompt.

```
Select one of the following:
P         PRINT Output
B         BROWSE Output on Screen

Do you want to : PRINT// P <Enter>
DEVICE: HOME// <Enter>
```

Figure 10-22: Viewing a signed and printed PO
11.0 **Patch 6 Changes**

Patch 6, released in June of 2003, contained the following changes.

11.1 **Appeal Status Edit (DAE)**

The Appeal Status Edit (DAE) option allows the appeal status of patient appeals for payment reconsideration by IHS to be added and edited. You can track when the appeal entry was entered followed by its status (upheld, reversed, etc.) and the respective appeal level (Local facility, Area, Headquarters). For Tribal programs, Second Level and Final Level were added for the various entities that consider the appeal in the typical CHS tri-level process.

11.1.1 **Editing an Appeal Status**

1. At the “Select Contract Health System Option” prompt, type **DEN**.
2. At the “Select CHS Denial/Deferred Services Option” prompt, type **APP**.
3. At the “Select Denial Appeal Status Menu Option:” prompt, type **DAE**.
4. At the “Enter the Denial Number or Patient” prompt, type the denial number or patient number.
   The system displays the patient’s information.

5. At the “Is this correct” prompt, press Enter if the patient information is correct.
   The system displays the patient’s CHS denial document information.

6. At the “Enter Number Of Field To Edit or <RETURN> To Accept” prompt, type 10 (Appeal Status).

```
CONTRACT HEALTH MGMT SYSTEM, 3.1

9. At the “APPEAL LEVEL” prompt, type the appeal level. Type two question marks (??) for a list of available options.

10. At the “APPEAL RESOLVE DATE” prompt, type the date the appeal was resolved.

11. At the “APPEAL COMMENTS” prompt, type any comments relating to the appeal (50-character maximum).
    The system displays the updated patient’s CHS denial document information.

---

Patch Addendum to User Manual
June 2011
11.2 Denial Status Edit (DSE)

The Denial Status Edit (DSE) option allows you to edit the status of a denial document. The denial can be Reversed, Canceled, or Activated.

If the appeal menu is used to reverse a denial, the Denial status will be updated accordingly. This option corrects unintentional cancels and reactivates the appeal.

Note: When the denial is active, it means it is still upheld as a denial.

11.2.1 Editing a Denial Status

1. At the “Select Denial Appeal Status Menu Option” prompt, type DSE.

2. At the “Enter the DENIAL NUMBER or PATIENT” prompt, type the denial number or patient number.

   The system displays the patient’s information.

3. At the “Is this correct” prompt, press Enter if the patient information is correct.

   The system displays the patient’s CHS denial document information and the status of the appeal.

11.3 Send Approval Message to FI (FIM)

Use the Send Approval Message to FI (FIM) option to eliminate the need for paper sending authorizations to the FI for particular services, such as sterilizations and other procedures in support of direct care.

On issuing a purchase order authorization, you should use this option to send the approval via the Electronic PO transmission to the FI. This option should be used immediately after issuing the PO.

11.3.1 Sending an Approval Message

1. At the “Select Contract Health System Option” prompt, type DOC.

2. At the “Select Document Generation Option” prompt, type FIM.

12.0 **Patch 5 Changes**

Patch 5, released in November of 2002, contained the following HIPAA-related changes.

12.1 **X12 Transaction 278 Processing Option**

Patch 5 of the CHS addresses issues related to recent HIPAA Title II requirements. To meet these requirements, this patch implements the X12 transaction set 278 for HIPAA transaction set compliance.

12.1.1 **Sending a 278 Transaction Manually**

To send a 278 transaction manually, follow these steps:

1. At the main CHS menu, type **DOC**.
2. At the “Select Document Generation Option” prompt, type **278O** (uppercase letter “O”).
3. At the “Select X12 Transaction 278 Processing Option” prompt, type **278O** (uppercase letter “O”).
4. Respond to the prompts as they appear on your screen.

Appendix A: CMS Provider Listings

The Centers for Medicare and Medicaid Services (CMS) Provider Listing is updated quarterly, semiannually, or at the discretion of CMS. The information available in this listing includes facility name, address, Medicare number, available services, and certification date.

The current CMS Provider Listing is available at the Indian Health Service (IHS) Web site in PDF format.

To download either listing, follow these steps:

1. In your Web browser, go to the IHS Web site: http://www.ihs.gov
2. Locate Information Technology (IT), and click the Go to Information Technology link.
3. Under Health IT Applications, click the Resource and Patient Management System (RPMS) link.
4. In the left panel, click Other RPMS Related Documents link.
5. Click CMS Medicare Provider Listing.

The list opens through your Acrobat Reader in the browser window.
Appendix B: New Record Type 7 Layouts

Contract Health Service (CHS) Outpatient Transaction
New Record Layout as of 10/01/2004

B.1 CHSSTAT Outpatient

One CHSSTAT record is composed of 9 fixed-length (80-character) records. New fields are shown in italics.

Record 1

<table>
<thead>
<tr>
<th>Field</th>
<th>Position</th>
<th>Length</th>
<th>Description of Data Item</th>
</tr>
</thead>
</table>
| RECORD NUMBER            | 1–2      | 2      | ’7A’  
NPIRS: not stored.                                                             |
| RECORD CODE              | 3–4      | 2      | ’20’  
NPIRS: not used.                                                                 |
| AUTHORIZATION NUMBER     | 5–11     | 7      | CHS Document Authorization Number. First two and last five digits taken out of the CHS Purchase Order (PO) Number. |
| PATIENT HEALTH RECORD NUMBER | 12–17   | 6      | Patient’s Chart Number.                                                            |
| SOCIAL SECURITY NUMBER   | 18–26    | 9      | Patient’s Social Security Number (SSN).                                               |
| DATE OF BIRTH            | 27–34    | 8      | Patient’s Date Of Birth–CCYYMMDD                                                       |
| SEX                      | 35       | 1      | Patient’s Gender Code 1=Male, 2 = Female                                                |
| PAYMENT DESTINATION      | 39       | 1      | Document Payment Destination (I=IHS)                                                  |
| OPTIONAL CODE            | 40–41    | 2      | Blanks.                                                                                |
| PROVIDER TYPE            | 55–56    | 2      | CHS Provider Type Code, Valid Per Standard Code Book.                                   |
| PROVIDER IDENTIFICATION CODE | 57–66 | 10     | Provider Identification Number (Employer Identification Numeric, Provider’s SSN Number, or Corporate Tax Identification Number). |

### Field Descriptions

#### Field: CPT UNITS 14
- **Position:** 64–67
- **Length:** 4
- **Description:** Corresponding number of Units for CPT Code 14

#### Field: CPT UNITS 15
- **Position:** 68–71
- **Length:** 4
- **Description:** Corresponding number of Units for CPT Code 15

#### Field: CPT UNITS 16
- **Position:** 72–75
- **Length:** 4
- **Description:** Corresponding number of Units for CPT Code 16

#### Field: CPT UNITS 17
- **Position:** 76–79
- **Length:** 4
- **Description:** Corresponding number of Units for CPT Code 17

#### Field: CPT UNITS 18
- **Position:** 80
- **Length:** 1
- **Description:** Corresponding number of Units for CPT Code 18 (The first digit of a four-digit field, continued on a next record)

### Record 11

#### Field: RECORD NUMBER
- **Position:** 1–2
- **Length:** 2
- **Description:** '7K'

#### Field: CPT UNITS 18–cont.
- **Position:** 3–5
- **Length:** 3
- **Description:** Continued from a previous record–The last three digits of CPT UNITS 18

#### Field: CPT UNITS 19
- **Position:** 6–9
- **Length:** 4
- **Description:** Corresponding number of Units for CPT Code 19

#### Field: CPT UNITS 20
- **Position:** 10–13
- **Length:** 4
- **Description:** Corresponding number of Units for CPT Code 20

#### Field: CPT UNITS 21
- **Position:** 14–17
- **Length:** 4
- **Description:** Corresponding number of Units for CPT Code 21

#### Field: CPT UNITS 22
- **Position:** 18–21
- **Length:** 4
- **Description:** Corresponding number of Units for CPT Code 22

#### Field: CPT UNITS 23
- **Position:** 22–25
- **Length:** 4
- **Description:** Corresponding number of Units for CPT Code 23

#### Field: CPT UNITS 24
- **Position:** 26–29
- **Length:** 4
- **Description:** Corresponding number of Units for CPT Code 24

#### Field: CPT UNITS 25
- **Position:** 30–33
- **Length:** 4
- **Description:** Corresponding number of Units for CPT Code 25

#### Field: CPT COST 1
- **Position:** 34–40
- **Length:** 7
- **Description:** Allowable Amount multiplied by number of Units

#### Field: CPT COST 2
- **Position:** 41–47
- **Length:** 7
- **Description:** Allowable Amount multiplied by number of Units

#### Field: CPT COST 3
- **Position:** 48–54
- **Length:** 7
- **Description:** Allowable Amount multiplied by number of Units

#### Field: CPT COST 4
- **Position:** 55–61
- **Length:** 7
- **Description:** Allowable Amount multiplied by number of Units

#### Field: CPT COST 5
- **Position:** 62–68
- **Length:** 7
- **Description:** Allowable Amount multiplied by number of Units

#### Field: CPT COST 6
- **Position:** 69–75
- **Length:** 7
- **Description:** Allowable Amount multiplied by number of Units

#### Field: CPT COST 7
- **Position:** 76–80
- **Length:** 5
- **Description:** Allowable Amount multiplied by number of Units (The first five digits of a seven-digit field, continued on a next record)

### Record 12

#### Field: RECORD NUMBER
- **Position:** 1–2
- **Length:** 2
- **Description:** '7L'

#### Field: CPT COST 7–cont.
- **Position:** 3–4
- **Length:** 2
- **Description:** Continued from a previous record–The last two digits of CPT COST 7

#### Field: CPT COST 8
- **Position:** 5–11
- **Length:** 7
- **Description:** Allowable Amount multiplied by number of Units

#### Field: CPT COST 9
- **Position:** 12–18
- **Length:** 7
- **Description:** Allowable Amount multiplied by number of Units

#### Field: CPT COST 10
- **Position:** 19–25
- **Length:** 7
- **Description:** Allowable Amount multiplied by number of Units

#### Field: CPT COST 11
- **Position:** 26–32

### AUTHORIZING FACILITY  
Field: AUTHORIZING FACILITY  
Position: 5–10  
Length: 6  
Description: Authorizing Facility Code, Valid Per Standard Code Book.

### VENDOR’S EIN  
Field: VENDOR’S EIN  
Position: 11–19  
Length: 9  
Description: Provider’s Identification Number (Dentist SSN)

### SEX  
Field: SEX  
Position: 20  
Length: 1  
Description: Patient’s Gender Code  
M=Male, F = Female

### DATE OF BIRTH  
Field: DATE OF BIRTH  
Position: 21–28  
Length: 8  
Description: Patient’s Date Of Birth - CCYYMMDD

### SOCIAL SECURITY NUMBER  
Field: SOCIAL SECURITY NUMBER  
Position: 29–37  
Length: 9  
Description: Patient’s Social Security Number

### ADA CODE 1  
Field: ADA CODE 1  
Position: 38–41  
Length: 4  
Description: ADA Procedure Code

### ADA CODE 2  
Field: ADA CODE 2  
Position: 42–45  
Length: 4  
Description: ADA Procedure Code

### ADA CODE 3  
Field: ADA CODE 3  
Position: 46–49  
Length: 4  
Description: ADA Procedure Code

### ADA CODE 4  
Field: ADA CODE 4  
Position: 50–53  
Length: 4  
Description: ADA Procedure Code

### ADA CODE 5  
Field: ADA CODE 5  
Position: 54–57  
Length: 4  
Description: ADA Procedure Code

### ADA CODE 6  
Field: ADA CODE 6  
Position: 58–61  
Length: 4  
Description: ADA Procedure Code

### ADA CODE 7  
Field: ADA CODE 7  
Position: 62–65  
Length: 4  
Description: ADA Procedure Code

### ADA CODE 8  
Field: ADA CODE 8  
Position: 66–69  
Length: 4  
Description: ADA Procedure Code

### ADA CODE 9  
Field: ADA CODE 9  
Position: 70–73  
Length: 4  
Description: ADA Procedure Code

### ADA CODE 10  
Field: ADA CODE 10  
Position: 74–77  
Length: 4  
Description: ADA Procedure Code

### ADA CODE 11  
Field: ADA CODE 11  
Position: 78–80  
Length: 3  
Description: ADA Procedure Code (First three characters)

Appendix C: GAO Layout

C.1 Information on File

1. If denial or deferred service document has been cancelled, they will not be sent in this file.

2. Reasons for Deferral will be Unmet Need

3. Decision for all Deferred cases will be Deferred

4. Decision for all Denied cases will be Denied or Reversed based on the status field.

5. The file will be named chsgaoASUFAC.txt

6. The file will be created in the export directory defined in the Resource and Patient Management System (RPMS) Site file

7. The file will be sent to the Area Office if defined in the RPMS Site file

8. The issue date was added because if item was sent to the site to perform a look up for additional information, they would not be able to determine which denial it was.

C.2 Record Layout

Fields are delimited by a caret (^) some lines may not be defined, if there is not any data to be sent.

- 1A= Issue Date–When it was entered in the system
  - Patient Identification- If not in system will be ASUFAC_Xnnnnn
  - Referral Initiation Date
  - Managed Care Decision Date
  - Final Pay Date
  - CHS Priority
  - Vendor Type – Primary Provider only
  - Estimated Amount-total for all providers
  - Primary Denial Reason
  - Decision: Reversed-Denied or Deferred
• 1B= Service Type
  – TYPE OF SERVICE
  – SUB CATEGORY
  – DRG….. (could be multiple, separated by a caret (^))
• 1C= CPT…… (could be multiple, separated by a caret (^))
• 1Dx= APPEALS (could be multiple lines, each line will have the appeal status and comment)
  – COMMENTS
• 1Ex= Other Comments (could be multiple lines)

C.3 Request from GAO

(2) Records of all deferred and denied CHS services in your Area for FY 2007 through FY 2009, by service unit. Specifically, we would like a report from the Resource Patient Management System (RPMS) that would capture for each individual CHS service that was deferred or denied the following data elements:
  a. Patient ID number
  b. Date of referral
  c. Date that request was deferred or denied by the CHS committee
  d. Processing date for claims for payment that were denied
  e. CHS Priority level
  f. Description of service (including any DRG or procedure codes used)
  g. Provider type (for the service requested)
  h. Estimated cost
  i. Decision (i.e. whether deferred or denied, and any appeals)
  j. Reason for deferral or denial
  k. Any additional notes or free text fields used to indicate reasons for deferral or denial or updates on the decision.

If possible, we would like to receive the data requested in electronic format, for example as an MS Excel, MS Access, text, or CSV file. We would also like an accompanying explanation of the file layout that identifies the variables included. If you have any
