1.0 Introduction

Please review these changes and add a copy of them to any printed documentation your site may be using for Accounts Receivable v1.7. These changes will be integrated into future versions of the software and user manuals and will no longer be considered an addendum at the time of the next release.

Patch 1 of Accounts Receivable v1.7 contains the following changes:

- Enhancements of two reports:
  - Period Summary Report (PSR)
    This report has been rewritten to use the Transaction file. You may run the report for any date range desired. More detail has been added to the report, allowing better tools for reconciliation. The report has two new sorting criteria and one new report type summary. (Section 2.1)
  - Age Summary Report (ASM)
    This report has been expanded to allow sorting by Discharge Service. Also, bill level detail has been added, allowing better tools for reconciliation. The report has two new sorting criteria and one new report type summary. (Section 2.2)

This addendum does not include all changes included in BAR v1.7 patch 1. To see a list of all changes and fixes included in this patch, please see BAR v1.7 patch 1 notes file.
2.0 **Patch 1**

2.1 **Period Summary Report (PSR)**

This report has been rewritten to use the Transaction file. You may run the report for any date range desired. More detail has been added to the report, allowing better tools for reconciliation. Also, new parameters have been added, providing better report customization. The report can be run using the same parameters as the AGE summary report. Discharge and Insurer Type are two new sorting criteria selections. New summarizing report type by Bill w/in Payer w/in Allowance Category/Billing Entity/Insurer Type when Allowance Category, Billing Entity or Insurer Type is selected as the sorting criteria.

**Note:** This report will contain data for Visit location(s) regardless of Billing location.

**Running the new PSR report**

1. Type **PSR** at the “Select Financial Reports Menu Option:” prompt in the Financial Reports menu located in the A/R Reports menu.

2. Type the name of a location at the “Select Location:” prompt or press the Return key at the blank “Select Location:” prompt to select ALL locations. If you enter a location name, you will only be allowed one location.
3. Type the number of one of the options (1-7) at the “Select Criteria for Sorting:” prompt. See Figure 2-2 for a list of your options. Steps 3a-3g provide will information on each of the options.

### 2.3 Setting PSR and ASM Parameters

**Note:** If you want the PSR and ASM to balance, the Location for Reports in A/R SITE PARAMETER must be set to VISIT.
Based on the site parameter setup, you will see a message when running the following reports.

- Age Detail Report
- Age Summary Report
- Bills Listing Report
- A/R Statistical Report
- Transaction Report

If site parameter is set to BILLING, you will see this message when running the above reports.

**Note:** This report will contain data for the BILLING location you are logged into. Selecting a Visit Location will allow you to run the report for a specific VISIT location under this BILLING location.

If site parameter is set to VISIT, you will see this message when running the above reports.

**Note:** This report will contain data for VISIT location(s) regardless of BILLING location.
