1.0 Introduction

Please review these changes and add a copy of them to any printed documentation your site may be using for Referred Care Information System (RCIS) v4.0. These changes will be integrated into future versions of the software and user manuals and will no longer be considered an addendum at the time of the next release.

This user manual addendum is cumulative, as are the patch files, and contains all previous patch addendums for ease of use. This addendum specifically addresses changes made by patches that change the way a user interacts with RCIS. If a particular patch did not make any significant user changes, it will not be referred to in this manual.

The current user’s manual contains v4.0 with patches 1 and 2. This manual currently contains information regarding patch 3.
2.0 Patch 3 Information

2.1 General Changes

Patch 3 of the Referred Care Information System makes the following general changes:

a. BMCRLU1 – Printing policy number
b. BMCFPRN1 – Fixed problem with multiple Medicaid numbers with open end dates
c. BMCADDS – Fixed problem with syntax error when “;” is in the POV comments.
d. Denial number in RCIS Referral file. Could not manually add Denial number.

2.2 National Provider Number (NPI)

This patch adds the printing of the National Provider Identifier (NPI) on the referral letter if entered. If the NPI is entered for the provider, then the provider’s NPI will print below the provider’s name on the letter.
Referred Care Information System (BMC) v4.0

Referral for Contract Professional Services OCT 11, 2007

*****************************************************************************

Patient Identification, Address, Phone

Patient Name: PATIENT, SHAWN ID Number: WE 17610
SSN: Sex: MALE
Address: HILLVIEW BOARD & CARE DOB: 01/01/1940
      REDWOOD FALLS, MINNESOTA 56591 Hm Phone: 555-234-6544

Referred to: KINO COMMUNITY HOSPITAL
Mailing: 2800 EAST AJO WAY
          TUCSON, AZ 85713
          1135100800009
OUTPATIENT Services Appointment Date: 10/11/07
# of Outpatient Visits: 1 Expected Ending Date: OCT 20, 2007
Priority Rating: I Insurance Auth No: SC1006

Purpose/Services Requested: MRI
Additional Medical Information Attached: YES

If you have any questions concerning this referral, please contact:
DEMO HEALTH CENTER (contact: MICKEY MOUSE)
TEST
PORTLAND, OREGON 97204 (phone: (505)248-4244)
Referring Provider (ELECTRONIC SIGNATURE): PROVIDER, SHANNON
NPI: 6543219870
Case Manager: BUGGS, BUNNY

Veteran: Records indicate patient has no third party coverage for this Service Date.
*****************************************************************************

TO THE CONTRACT PROVIDER: CHS Funds are not authorized because we do not yet
have adequate information to make that determination. The patient (and any
alternative resources to which he/she is entitled) is responsible for this
bill and has been so informed. If CHS funding is subsequently authorized,
the following conditions will apply:

* The provider shall submit a consultation report or discharge summary to
  the Indian Health Service prior to reimbursement by IHS Contract Health
  Services or the IHS's Fiscal Intermediary.

* This patient must apply for any alternative resources for which he/she is
  entitled. Failure to do so by the patient will result in denial of payment
  by IHS, and the patient would then be responsible for the entire bill.

Figure 2-1: Added National Provider Number (NPI)

2.3 Business Office/CHS Comments

This patch provides the option to add Business Office/CHS Comments to the
secondary referral. You can add Business Office comments during initial entry of a
Secondary Referral or under the Edit a Secondary referral option. This
allows notes to appear on the primary referral with the secondary referral when
displaying. The notes will also display when viewing a Secondary referral under the
DSP option.
You may edit one of the existing Business Office/CHS Comments or add a new one.

1) NOV 02, 2007        PROVIDER, SHANNON
PATIENT WAS IN MVA NEED AUTO CLAIM INFORMATION

Select one of the following:

E         EDIT one of the above Business Office/CHS Comments
A         ADD a new Business Office/CHS Comments
D         DELETE one of the above Business Office/CHS Comments
Q         QUIT

Do you wish to: A// QUIT

Figure 2-2: Adding business notes to secondary referral

To display the Business/CHS Comments on the secondary referral, go to DSP Display Referral Record on your menu option DE Data Entry, enter secondary referral # or patient name, and scroll to the bottom of the referral to view Business/CHS Comments.

2.4 Insurance Authorization Number

The Insurance Authorization Number has been added to the display and data entry during the mini and complete referrals options. The authorization number will print on a referral with the exception of In-house referrals. You will also be able to display and edit this option. This option allows you to enter the authorization number for a patient on the referral for verification of pre-authorizing visits with primary insurance.
### RCIS REFERRAL RECORD

**DATE:** NOV 5, 2007  
**NUMBER:** 1135100800017

### 2.5 Alert for Physicians

This patch adds an Alert for Physicians which will contain updated Business/CHS Comments. The Alert can also be read from the Electronic Health Record application.

- If the parameters are set to Yes, an automatic message is sent to the Referring Physician and the Patient’s Primary Care Physician during referral data entry.

To set the Alert parameter, under the MGT RCIS Management option, select ESP Edit Site Parameters and enter the RCIS SITE PARAMETER FACILITY. Tab to **MAILMAN/ALERT PARAMETER (RETURN):** Return and the option to send the alerts will display. See Figure 2-5.

Do you wish to send alert to the Referring Provider? Y//

Processing Alert for Physician (s).

Note: If the Primary Care Provider is not defined in Patient Registration, then the Alert will not be sent.

To view the alert:
When the primary physician or referring physician logs in, a message will appear at the bottom of the menu with an option to view the alerts. These alerts are also available under the Electronic Health Records Notifications tab.
Enter "VA to jump to VIEW ALERTS option"

1. Referral New: PATIENT, SHAWN
   Select from 1 to 1
   or enter ?, A, F, S, P, M, R, or ^ to exit:

   Figure 2-8: Patient referral from alert option

This information will give the Primary Care Physician updated information on the status of his patient and give an alert that a referral for care has been created by another physician.

   Figure 2-9: RCIS referral alert display

### 2.6 Codes Set Versioning Changes Added

When the Code set versioning is available this will allow the RCIS package to pick up correct ICD9 and CPT codes. Calls to the Kernel API’s have been added to the following options/reports.

a. Frequency of DX Report
b. RCIS health summary component
c. Modify a referral Option
d. PCC link component
e. General Retrieval Report
f. Referral review report by time period
g. Outlier report
h. Referral review report by facility/time period
i. ILOG Report
j. Potential high cost – report
k. Top 10 DX Report  
l. Top 10 Procedures Report  
m. Check DX procedure and CPT when closing document

2.7 API for New Women’s Health Package

API’s for the New Women’s health package to access RCIS options to add, edit, and display referral options has been updated in this patch.
