Contents of Patches

- EHRv1.1 p23
 - Enhancements
 - New prompt to document fracture healing in the IPL
 - New Medication Component Enhancement
 - New SNOMED Search
 - Fixes
 - Invalid Template Error
 - Patient Ed Duplicates
 - Suicide Reporting Form Date Issues
- BJPN v2.0 p9
 - New functionality to document fracture healing

Fracture Healing Documentation

- EHRp23 and BJPN v2.0 p9 adds a prompt like general exams (normal or abnormal,) called Fracture Healing. Radio buttons will display after certain SNOMED CT (TM) terms are selected. Terms must be in one of three SNOMED Fracture Healing subsets.
- BSTS v2.0 Subsets
 - EHR IPL FX PROMPT HEALING RD
 - EHR IPL FX PROMPT HEALING RDN
 - EHR IPL FX PROMPT HEALING RDNM
- Depending on the fracture SNOMED CT term selected, certain radio buttons for the Fracture Healing Prompt will display. The choices include:
 - Routine, Routine Healing or Normal Healing
 - Delayed
 - Malunion
 - Nonunion
 - Not Applicable/Unknown NA/UNK

Fracture Healing Prompt (1 of 2)

- Fracture Healing Prompt on Add/Edit

Qualifiers Severity: Clinical Course
Severity Clinical Course Episodicities
* Fracture Healing ☐ Delayed ☐ NL Union ☐ Nonunion ☐ NA/Unk

Qualifiers Severity: Clinical Course
Severity Clinical Course Ep
* Fracture Healing ☐ Delayed ☐ NL Union ☐ NA/Unk

Qualifiers Severity: Clinical Course

* Fracture Healing ☐ Delayed ☐ Malunion ☐ NL Union ☐ Nonunion ☐ NA/Unk

- Fracture Healing Prompt on POV Dialog

ID	Status	Prior	Patient	POV	Fracture Healing	Episodicity	Alternate POV	Powder Test	Goal Notes	Care Plans	Visit Instructions	P-SD	Treatment/Regimen
1390	Episodic	Fracture Healing, Right	POV	Fracture Healing	Delayed	First episode						DP	LA
1391	Chronic	Fracture Healing, Right	POV	Fracture Healing	Delayed	First episode						DP	LA
1392	Routine	Fracture Healing, Right	POV	Fracture Healing	Delayed	First episode						DP	LA
1393	Episodic	Fracture Healing, Right	POV	Fracture Healing	Delayed	First episode						DP	LA

Selected Items & Exam

Name	Appointment	CPT Code
Initial	15 min	99211
Problem Focused	10 min	99212
Exam	10 min	99213
Comprehensive	15 min	99214

Required Field

Autism Control

Fracture Healing Prompt (2 of 2)

- Optional Field
 - When certain fracture terms are selected as POV.
 - Retains settings when previously selected and when editing a problem (except for Unknown.)
- Picklists
 - Display in a section on the POV dialog when user selects "Save as Problem and POV" from a picklist and the picklist problem is in one of the three subsets.
- Inpatient
 - Fracture Healing prompts do not display on Inpatient Visits
- Future TIU and BHS Objects
- To request an addition to a Fracture Prompt Subset please contact:
 - RPMS Feedback Request at:
<https://www.ihs.gov/RPMS/index.cfm?module=feedback&option=add&newquery=1>
 - Select Application: SNOMED [BSTS and DTS](BSTS)

Medication Component Enhancement (1 of 2)

- Provide an additional confirmation step when free-texting a dosage (possible and local possible dosages.)
- New popup displays the dispense drug that was selected, the free text dosage, and the final SIG.
- Provider can Accept or Return to order dialog.
- Impacts both internal and external pickup locations.

Medication Component Enhancement (2 of 2)

Select a Dispense Drug

ENOXAPARIN 100MG/1ML

ENOXAPARIN 80MG/0.8ML

ENOXAPARIN 100MG/1ML

OK Cancel

SIG Confirmation

The following FREE Text Dosage was entered:

Dispense Drug: ENOXAPARIN 100MG/1ML
Dose: 120MG

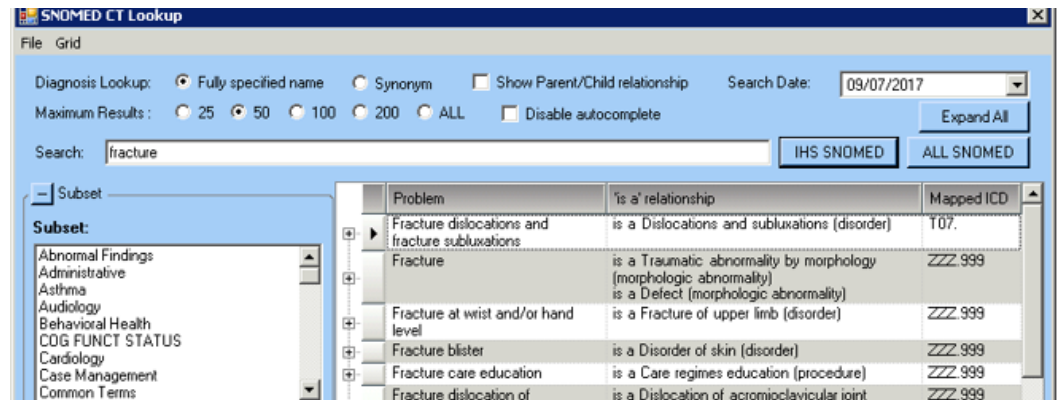

Final SIG: INJECT 120MG SUBCUTANEOUSLY EVERY 12 HOURS

Accept Return to Order Dialog

New SNOMED CT Search

New SNOMED CT Search Dialog allows users to save search settings like:

- FSN
- Synonym
- Parent/Child
- number of returns
- default search subset
- Autofill

New SNOMED CT Search Dialog

Saving Personal Settings on SNOMED CT Search Dialog

Bug Fixes

- Invalid Template Error Fixed
 - Invalid template type error was displaying when clicking the template icon for Visit Instructions in IPL CVG or prenatal PIP CVG.
- Patient Ed Duplicates
 - Duplicate patient ed entries on some patients were being stored when a user created a visit, but did not check the box to “create a visit now.” Duplicates were also created when adding patient education through the GUI IPL POV. This was causing the patient data to load slowly or not at all.
- Suicide Reporting Form (SRF) Date Issues
 - Minimum date on SRF was hardcoded to 1980, making it impossible to enter incident dates prior to 1980.
 - SRF Date of Act is required to be a precise date (XX/XX/XXXX.) If the date entered was in an invalid format (Invalid date formats: 08/2015, 13/13/2017, 12/111/2017, etc,) the system let the user continue to use the form and save “today’s” date as the date of act.
