

RESOURCE AND PATIENT MANAGEMENT SYSTEM

Pharmacy Point of Sale (ABSP)

Patch Addendum

Version 1.0 Patch 31
June 2009

Office of Information Technology (OIT)
Division of Information Resource Management
Albuquerque, New Mexico

Preface

The requirements and functionality outlined in the SRS *IHS Point of Sale Version 1.0 Patch 31* include the following:

1. Interface between Outpatient Pharmacy 7.0 and Third Party Billing packages to allow information on reversed claims in POS
2. New and updated POS 5.1 formats

Security

This patch uses the same security keys as described in the *Pharmacy Point-of-Sale (ABSP) User Manual*, Version 1.0.

3.0 Interface between Outpatient Pharmacy and Third Party Billing

This section provides information and requirements for allowing information regarding why a POS claim was reversed to be passed from Pharmacy V7.0 to Third Party Billing V2.5.

3.1 Interface Requirements

The interface requirements are

- Outpatient Pharmacy V7.0
- Pharmacy Point of Sale V1.0 Patch 31 or higher
- Third Party Billing V2.5 or higher, including Patch 15 or higher
- Accounts Receivable V1.8 or higher

Note: These requirements only apply to sites using the RPMS Third Party Billing package and/or Accounts Receivable package.

3.2 Values Passed from Pharmacy V7.0 to Third Party Billing V2.5

POS application will accept Pharmacy reversal strings and then pass those strings to Third Party Billing with possible reason values of:

- a. Prescription logically deleted by pharmacist
- b. Prescription returned to stock by pharmacist
- c. Prescription reversed due to logical edit
