1.0 Introduction

Please review these changes and add a copy of them to any printed documentation your site may be using for the Clinical Reporting System version 8.0. These changes will be integrated into future versions of the software and user manuals and will no longer be considered an addendum at the time of the next release.

Patch 1 of the Clinical Reporting System version 8.0 contains the following change applicable to this manual:

- Modified the Colorectal Cancer measure to move diagnosis code V76.51 back to the Colonoscopy definition from the Fecal Occult Blood Test definition and to add HCPCS G0106 and G0120 to the Double Contrast Barium Enema (DCBE) definition and refusal of DCBE definition.

2.0 Patch 1

Patch 1 of the Clinical Reporting System version 8.0 contains the following change:

- Modified the Colorectal Cancer measure to move diagnosis code V76.51 back to the Colonoscopy definition from the Fecal Occult Blood Test definition and to add HCPCS G0106 and G0120 to the Double Contrast Barium Enema (DCBE) definition and refusal of DCBE definition.

2.1 Change 1

For Colorectal Cancer Screening, because of a significant decrease (~18%) in the 3rd quarter national IHS rate (reported with CRS 8.0) from the 2nd quarter rate (reported with CRS 7.0 Patch 1), two changes to logic were made. (1) Move POV V76.51 from fecal occult blood test (FOBT) definition (required every year) to colonoscopy (required once every 10 years). In CRS 8.0, this code was moved from colonoscopy to FOBT, which caused patients who ONLY had code V76.51 dated 2-10 years ago not to be counted in the GPRA measure. (2) Add CPTs G0106 and G0120 to double contrast barium enema (DCBE) definition. In CRS 8.0, these codes were removed from the DCBE definition, which caused patients who ONLY had one of these codes documented not to be counted in the GPRA measure.

The table below provides the updated CRS logic for colorectal cancer screening.

	CPT Codes	ICD and Other Codes	LOINC Codes	Taxonomy
<i>Colorectal Cancer Screening (CRS looks for the most recent of any of the following during timeframes specified in numerator section of the Administrator Manual)</i>				
Fecal Occult Blood lab test (FOBT)	82270, 82274, 89205 (old code), G0107 (old code), G0328, G0394		Yes	BGP GPRA FOB TESTS
Flexible Sigmoidoscopy	45330-45345, G0104	V Procedure: 45.24, 45.42		
Double contrast barium enema	CPT or VRad 74280, G0106, G0120			
Colonoscopy	44388-44394, 44397, 45355, 45378-45387, 45391, 45392, 45325 (old code), G0105, G0121	V POV: V76.51 Colon screening V Procedure: 45.22, 45.23, 45.25, 45.43		

	CPT Codes	ICD and Other Codes	LOINC Codes	Taxonomy
Refusals	FOBT: 82270, 82274, 89205 (old code), G0107 (old code), G0328, or G0394 Flexible Sigmoidoscopy: 45330-45345, G0104 DCBE: 74280, G0106, G0120 Colonoscopy: 44388-44394, 44397, 45355, 45378-45387, 45391, 45392, 45325 (old code), G0105, G0121	Flexible Sigmoidoscopy V Procedure: 45.24, 45.42 Colonoscopy V Procedure: 45.22, 45.23, 45.25, 45.43		V Lab Fecal Occult Blood Test
