- White Earth Band

Providing Care in Minnesota, Michigan, Wisconsin, Illinois and Indiana

Health professionals living and working in the Bemidji Area will find themselves surrounded by thousands of lakes, natural forests, state parks, nature preserves and abundant wildlife. Combined, these spectacular features offer loads of opportunities for recreational pursuits within the five-state Area. No wonder Bemidji is considered a Sportsman's Paradise.

With a patient population of more than 110,500, the Bemidji Area provides clinical service and support to 34 federally recognized Tribes and four Urban Indian Programs in Minnesota, Michigan, Wisconsin, Illinois and Indiana. The Bemidji Area Office operates three direct service programs at Cass Lake Hospital (Cass Lake, MN), Red Lake Hospital (Red Lake, MN) and White Earth Health Center (Ogema, MN).

The Bemidji Area values commitment to patients and employees, customer service and Tribal consultation. The growth of community-based services results from Tribes becoming more involved with the management of their health care, which is particularly important in the Bemidji Area as many Tribal members are geographically isolated from towns and community centers where health care is available.

As a resident of this spectacular five-state Area, you'll marvel at the miles of sparkling lakes, tall pines and Midwest hospitality. You'll also find a world of opportunities for professional enrichment and recreational pursuits.

A World of Opportunities

Can you see yourself living and serving in the Bemidji Area? Positions are available in many clinical, professional and administrative specialties. New hires can expect competitive salaries, a full range of benefits and, in some cases, signing bonuses. Many positions also offer relocation incentives.

IHS offers a wide range of health profession opportunities in the Bemidji Area. Enjoy a unique work/life balance that provides rich rewards and ample time for family and recreational activities.

IHS Career Options

IHS offers clinicians a choice of three options to practice their specific health profession discipline: working as a federal civil service employee, as an Officer in the Commissioned Corps of the US Public Health Service (USPHS) or directly for a Tribal or Urban Indian Program. Each of these options offers career flexibility, competitive salaries and benefits and ample opportunity for advancement.

Federal Civil Service

Professionals who choose to work in the federal civil service earn competitive salaries and are eligible for comprehensive federal and retirement benefits. They also enjoy significant career flexibility, eligibility for advancement and can transfer throughout IHS facilities while still maintaining their benefits.

US Public Health Service (USPHS) Commissioned Corps

One of the seven uniformed services of the United States, the Commissioned Corps offers an opportunity to serve our nation as a health professional in certain disciplines. The Commissioned Corps is comprised of highly qualified public health professionals protecting, promoting and advancing the health and safety of the nation. Commissioned Corps officers are eligible for military retirement benefits. Approximately 2,000 Commissioned Corps officers currently serve within IHS.

Tribal or Urban Indian Programs

Individuals interested in working within Tribal or Urban Indian Programs negotiate compensation and benefits directly with the program or Tribe with whom they seek to work. Openings are available in both urban and rural areas.

*Our Mission: to raise the physical, mental, social and spiritual health of
American Indians and Alaska Natives to the highest level.*

Did you know that you can pay off your health profession loans through our Loan Repayment Programs?

The IHS Loan Repayment Program offers health professionals practicing at IHS facilities an opportunity to pay off all of their eligible health education student loans in addition to receiving competitive salaries and benefits. Participants are eligible to receive up to \$20,000 per year and can extend their contract annually until all of their loans are paid off. Pursue the opportunity to build your career with IHS and work as part of an interdisciplinary team of health professionals, while gaining the financial freedom to live and work within some of the most picturesque settings in the country.

Additionally, the National Health Service Corps (NHSC) Loan Repayment Program (LRP) offers primary care providers up to \$50,000 for a two-year service commitment to work at an approved NHSC site in a high-need, underserved area. Like IHS, NHSC LRP recipients can obtain additional loan repayment by extending their service.

Discover a Work/Life Balance

Clinicians and non-health professionals working in the Bemidji Area live among miles of lakes and green pines. In the summer, you can enjoy the crisp water of the five Great Lakes, catch a ferry to picturesque Mackinaw Island or travel to the tip of Michigan's Upper Peninsula, known as the UP. In Wisconsin, you'll find loads of opportunities for hiking, canoeing, kayaking, fishing and relaxing along miles of beach shores. Minnesota, known as the Land of 10,000 Lakes, offers all kinds of water pursuits in addition to scenic trails within Superior National Forest and the Boundary Waters Canoe Area wilderness. In fact, Bemidji waterways provide record-breaking lunkers on a regular basis, with some of the widest variety of game fish in the state; duck and deer hunting are longtime Bemidji traditions as well.

While living and practicing in the Bemidji Area, you will interact daily with Native communities. You'll get to learn about Tribal heritage and customs, experience community gatherings and Tribal ceremonies and gain cultural insight into traditional Bemidji beliefs and values. You can attend a Native American Pow wow, watch a traditional Native hoop dance and meet Tribal families who still harvest maple syrup. You'll have a chance to visit the Kakagon Slough area, where local Tribes harvest wild rice beds and which boasts the largest pristine freshwater wetland estuaries in the Midwest.

Clinicians and their families will find numerous educational options, from private to public K-12 education and higher education, including a number of Tribal Colleges, as well as Big Ten Conference schools like the University of Michigan, University of Minnesota, University of Wisconsin and Northwestern University. There are also opportunities for youth to be involved in extracurricular activities including a wide variety of sports, such as hockey, soccer, baseball, basketball, curling, skiing and swimming.

The Bemidji Area offers watersport enthusiasts an abundance of recreational settings complete with natural wonders such as Miners Castle on the shore of Michigan's Lake Superior.
