Advancements in Diabetes Recorded Sessions

Title: *Reducing Stress to Help Baby Nurse: Addressing Latching Challenges*

Presenter: Catherine Watson Genna, BS, IBCLC
Private Practice Lactation Consultant

Type of Activity: Enduring Event (Recorded Webinar)

Release Date: September 20, 2018

Expiration Date: April 18, 2021

Estimated Time to Complete Activity: 60 minutes

Live Session Originally Presented on: April 19, 2018

Target Audience: Indian Health Service, Tribal and Urban (ITU) health care providers in clinical and community health settings.

Description:

Breast feeding is an evidence based early intervention for reducing risk for obesity and diabetes. Getting baby to latch properly is important to a good breastfeeding experience for moms and babies. Maternal interpretations of infant behavior and signs of infant frustration can impact mom's motivation to breastfeed. This session will provide information on how staff can enhance maternal functioning by providing support, interpreting and framing normal infant behaviors, and modeling and teaching ways to increase the infant's ability to work through breastfeeding difficulties. The IHS promotes and tracks breast feeding via efforts such as the Baby Friendly Hospital Initiative, the Diabetes Treatment and Prevention Program Best Practices, and GPRA.

Training Outcomes/Objectives:

As a result of completing this training, participants will be able to:

1. Teach moms to interpret infant behavior and signs of frustration with feeding.
2. Model and teach breastfeeding moms support behaviors to promote the infant's ability to work through feeding difficulties.

Requirements: You must have a computer with broadband Internet access. For the best experience viewing the videos, use Internet Explorer 7 or greater and Flash 8 player. Click on the "Flash" icon to install the player, if necessary. If you have any trouble viewing the video trainings, contact us at diabetesprogram@ihs.gov for alternate viewing options. If you have trouble viewing this training on-line, check your system to make sure you have the appropriate hardware and software. If you need help or have any questions, please send an email to diabetesprogram@ihs.gov.

Note: Before you begin the training, you may review the IHS Privacy Policy at the following link: (<https://www.ihs.gov/privacypolicy/>). You may also review the Survey Monkey Privacy Policy for details on how user information submitted in the evaluation is protected. <http://www.surveymonkey.com/mp/policy/privacy-policy/>

Indian Health Services Division of Diabetes Treatment and Prevention

Continuing Professional Education (CE) Credit Information: To receive CE credit, you must view the entire training, watch the complete video and review the handout, successfully pass the quiz (score \geq 80%), and complete an evaluation. You will be able to print a “Certificate of Continuing Education Credits” online following the training.

Individuals taking this course for the first time are eligible for CME/CE credit. If you previously completed this, or the live course, you are not eligible for CME/CE credit. If you complete the course more than once, you may obtain a certificate of completion.

Accreditation:

In support of improving patient care, IHS Clinical Support Center is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

Credit Designation

This activity was planned by and for the health care team,

Physicians

The IHS Clinical Support Center designates this enduring material for a maximum of 1 *AMA PRA Category 1 Credit*™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Nurses

This activity has been designated 1.0 contact hour for nurses.
