EXTRACTIVE OWNERSHIP

- Financial purpose: maximizing profits in short term.
- Absentee membership: ownership disconnected from life of enterprise.
- Governance by markets: control by capital markets on autopilot.
- Casino finance: capital as master.
- Commodity networks: trading focused solely on price and profits.

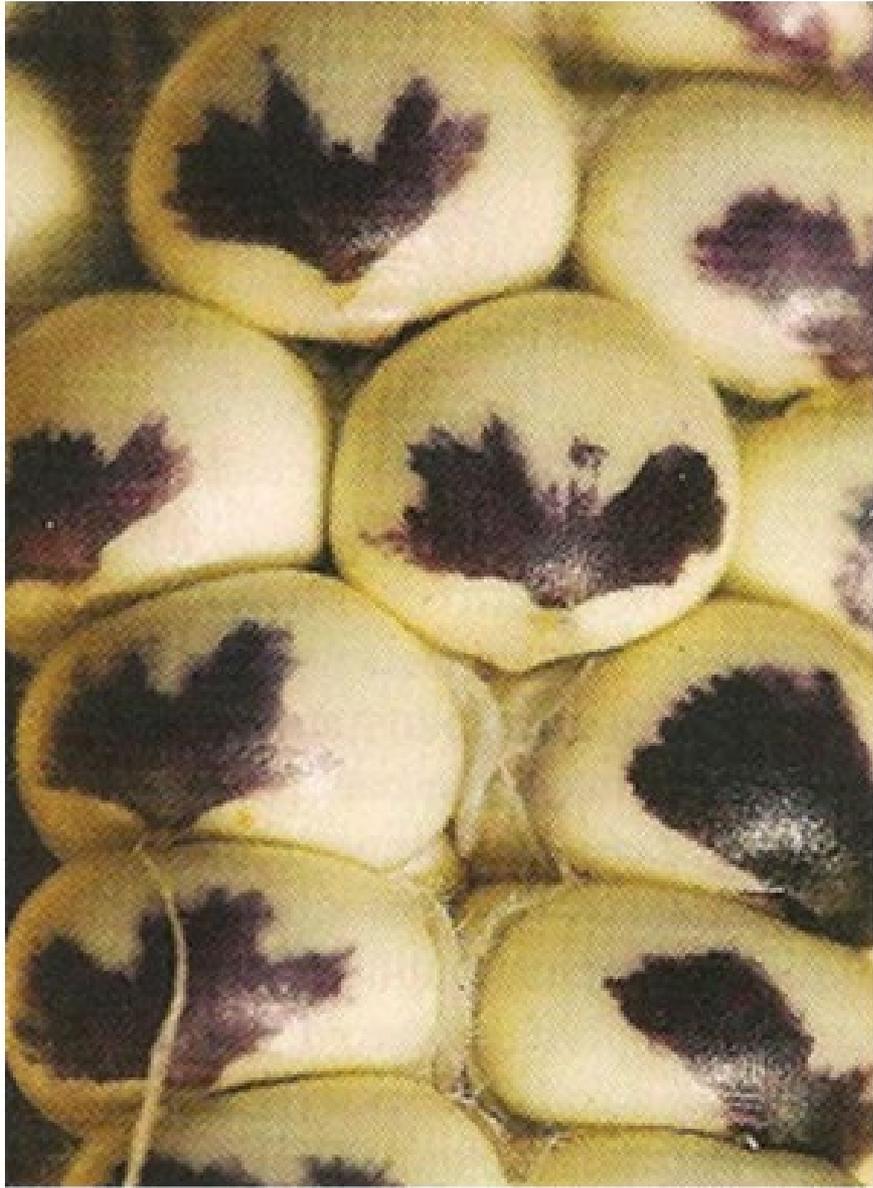

Food Sovereignty

“Food sovereignty is the right of Peoples to define their own policies and strategies for sustainable production, distribution, and consumption of food, with respect for their own cultures and their own systems of managing natural resources and rural areas, and is considered to be a precondition for Food Security.”
