Ho-Chunk Nation
Injury Prevention Program

In Wisconsin, deaths from motor vehicle crashes are 1.9 times higher for American Indians than all other races

PROGRAM HIGHLIGHTS
Sept. 2015-Feb. 2020

524 Car Seats
12 Observations
2 Billboards

Decide distracted driving rates and increase rates of seat belt and child safety seat use in the Ho-Chunk Tribal community

1. Provide education on distracted driving, seat belt use, and child passenger safety to community members
2. Observe and record community members’ car seat use, seat belt use, and distracted driving
3. Work with law enforcement to enforce laws through citations and warnings
4. Provide car and booster seats to parents/caregivers
5. Create a yearly billboard message about distracted driving

PROGRAM GOALS

Background
- Tribal Enrollment: 5,256 members
- Location: Central Wisconsin

Car Seats
- distributed at car seat events, Ride Safe events, and through individual appointments

Observations
- of distracted driving done each quarter, with 500-900 cars observed per quarter

Billboards
- installed to address the dangers of distracted driving, which reach 5,000 people per day

Featured Partnerships

Law Enforcement
- The Injury Prevention Program partners with local law enforcement to hold saturation patrols and share data about citations and crashes

Head Start
- The program also partners with local Head Start programs to provide Ride Safe classes to promote child restraint use
