Report to Congress on Funding Needs for Contract Support Costs of Self-Determination Awards

Introduction

The 2009 contract support costs (CSC) funding report is prepared as required in Section 106(c) of the Indian Self-Determination and Education Assistance Act (ISDEAA), Public Law (P.L.) 93-638, as amended. The funding report provides an annual accounting of funds provided for direct program costs and CSC of Indian Tribes and Tribal organizations under ISDEAA contracts and compacts.

Background

The ISDEAA allows Tribes to assume operation of Federal programs and to receive at least the funding amount that the Secretary would have otherwise provided for the direct operation of the programs. Approximately half of the Agency's appropriation is contracted through Title I and Title V of the ISDEAA for Tribal health administration. The ISDEAA also provides that CSC be added to the program amount. The CSC are defined in the ISDEAA as the reasonable costs for activities either not normally provided by the Secretary in his/her direct operation of the program, or the reasonable cost for activities provided by the Secretary in support of the program from resources other than those under contract or compact.

Specific elements of the annual report required by statute:

- (1) An accounting of the total amounts of funds provided for each program and the budget activity for direct program costs and CSC of Tribal organizations under Self-Determination;
- (2) Additional amounts that would be needed for full funding of CSC for FY 2008;
- (3) The indirect cost rate and type of rate for each Tribal organization contracting/compacting with the appropriate Secretary;
- (4) The direct cost base and type of base from which the indirect cost rate is determined for each Tribal organization; and
- (5) The indirect cost pool amounts and the types of costs included in the indirect cost pool.

The IHS policy governing CSC administration and allocation has been in effect since 1992. This policy was developed through extensive consultation with and participation of Tribes. In order to ensure continued funding equity in the current fiscal environment, in April 2007, the Director of the IHS revised the CSC policy to amend procedures relevant to CSC funding associated with new or expanded programs. The IHS CSC policy conforms to applicable Office of Management and Budget Circular A-87 and A-122 cost principles.

Section 106(a)(1) of P.L. 93-638, as amended, authorizes the Secretary to provide funding for self-determination contracts in the amount the Secretary would have otherwise provided for the direct operation of the program. This amount is commonly referred to as the *Secretarial amount*, and is the sum of columns "E" + "F" - "G" of "2009 Contract Support Cost Data: Summary of All Area Offices."

The indirect cost rate and type of rate for each Tribal organization contracting/compacting with the Indian Health Service

The majority of the indirect cost rate agreements negotiated between Tribal contractors/compactors and their cognizant Federal agency consists of fixed carry forward and provisional/ final rates. Lump sum CSC amounts are negotiated with awardees without formal negotiated IDC rate agreements, and are identified as IDC Type Costs/Other or as CSC Pilot Project in the report. This data is provided in Attachment I to this report, column “P” of each Area worksheet. The number for each type of rate is as follows:

- Fixed Carry Forward 223
- Provisional/Final 48
- IDC Type Costs/Other 51
- CSC Pilot Project 9

The direct cost base and type of base from which the indirect cost rate is determined for each Tribal organization

The aggregate direct cost base for all Tribes and Tribal organizations is \$1,224,257,825, with a range from \$34,645 to \$88,425,809 per Tribe or Tribal organization. The type of base means the accumulated direct costs (normally either total direct salaries and wages or total direct costs exclusive of any extraordinary or distorting expenditures or pass through) used to distribute IDC to individual Federal awards. The direct cost base selected should result in each award bearing a fair share of the indirect costs in reasonable relation to the benefits received from the costs. The direct cost base of each Tribe or Tribal organization is identified in Attachment E to this report, column “N” of each Area worksheet.

The indirect cost pool amounts and the types of costs included in the indirect cost pool

The aggregate indirect cost pool attributable to IHS funded programs for all Tribes and Tribal organizations is \$297,227,123, with a range from \$6,040 to \$24,759,227 per Tribe or Tribal organization. The IDC pool is the accumulated costs that jointly benefit two or more programs or other cost objectives. Indirect cost pool expenditures typically include:

- administrative salaries and fringe benefits associated with overall financial and organizational administration,
- operation and maintenance costs for facilities and equipment, and
- payroll and procurement services

The data portion of Tribal IDC pools attributable to IHS programs is provided in Attachment E to this report, column “O” of each Area worksheet.
