

Indian Health Service First Responder Naloxone Training
Pre-Training Questionnaire

Date _____
of years as a First Responder _____

We'd like to ask about your experience with serious heroin or opiate pain medication overdoses. In such an overdose:

- A person's skin, lips, or fingers turn blue
- They stop breathing, or breath really slowly
- They nod off and CAN'T be woken up without medical intervention

1) When was the last time you were at the scene of a serious heroin or opiate pain medication overdose? (check one)

- Within the past 12 months
- More than a year ago
- Never

2) What do you think about first responders being authorized to administer naloxone? (check one)

- Strongly support against Somewhat support Neutral Somewhat against Strongly against Don't know

Why? _____

3) How willing are you to administer naloxone to an overdose victim? (check one)

- Very willing Somewhat willing Not very willing Definitely would not Don't know

4) In your experience, how often are first responders present at the scene of an overdose? (check one)

- Always Usually Sometimes Rarely Never

5) How important do you think it is for first responders to be at the scene of an overdose for the purpose of keeping medical personnel safe? (check one)

- Very important Somewhat important Not very important Not important at all Don't know

6) How important do you think it is for first responders to be at the scene of an overdose for the purpose of enforcing laws? (check one)

- Very important Somewhat important Not very important Not important at all Don't know
