Recovery is Strength and Resilience

Your ancestors gave you strength...
Use the power of your resilience.
We Are Here For You!

Your journey to recovery is highly personal and paths to recovery differ. Supportive services, medication treatments, traditional healing, and counseling can all play an important role in health and recovery.

Substance use disorder is a chronic, relapsing condition characterized by continued use despite harmful consequences. Substance use disorders are common, treatable, and many people will and do recover.
