

Federal Medical Center Butner

Old NC Highway 75
Butner, NC 27509

PGY-1 Pharmacy Residency

Training Site

Federal Medical Center (FMC) Butner is a national medical referral center for the Federal Bureau of Prisons located in the Raleigh/Durham area of NC. Staffed by US Public Health Service officers and civilians, the site is responsible for all healthcare needs of the inmates it houses plus that of four other prisons located adjacent to the Medical Center. The medical center is accredited by the Joint Commission and American Correctional

Association. The pharmacy department is staffed by 15 pharmacists and 10 technicians to provide unit dose medications, IV admixtures, TPN, chemotherapy, and comprehensive clinical pharmacy services to over 350 inpatient and 4500 outpatient inmates.

Raleigh/Durham Area

The area is best known for its world-class museums, best of Broadway shows and live concerts, Capital area historic sites, and professional and amateur sporting events. It is approximately 3 hours to both the beach and the mountains. It is also home to a variety of colleges and universities including Duke University, North Carolina State University, and the University of North Carolina.

Residency Program Overview

The PGY-1 pharmacy residency program at FMC Butner offers comprehensive training with an emphasis on clinical pharmaceutical care in a correctional setting. Pharmacy residents will be directly involved in patient care, as well as pharmacy operations. Residents will also have ongoing teaching responsibilities to pharmacy students and hospital staff. Pharmacy residents advance their knowledge and skills to become competent clinical practitioners through training in various learning experiences.

Benefits for Selected Residents

- Health insurance
- Paid vacation
- Holidays
- Sick leave
- Eligible for continuing education reimbursement

| • Journal club | • Formal presentations |

Residency Applicant Requirements

Applicants must already have an active pharmacist license or currently be enrolled in a Doctor of Pharmacy Program from an accredited school or college of pharmacy and eligible for licensure during the residency year. Residents must also be licensed to practice pharmacy before or shortly after the residency begins, and also must be a U.S. citizen. They must also pass Federal Bureau of Prisons hiring guidelines to include background checks and security clearances. Applicants must be actively seeking a commission with the United States Public Health Service.
