Q2

ACTIVE QUALITY IMPROVEMENT PROGRAM (QIP)

The national percentage of ambulatory facilities that have an active Quality Improvement Program (QIP) documented in a policy that includes the collection, aggregation, analysis, and reporting of quality improvement data.

Why is this important?

Active quality improvement programs lead to better and safer care while also a requirement for CMS certification and accreditation.

Q2

EMERGENCY PREPAREDNESS

The national percentage of health care facilities that have an Emergency Preparedness and Response Plan documented in policy and exercised in accordance with policy.

Why is this important?

An Emergency Preparedness Response Plan ensures readiness for continued service should a major event occur (for example, Severe Winter Storm).

IHS HOSPITALS

100%

EMPLOYEE INFLUENZA VACCINATION

The national percentage of Healthcare Personnel (HCP) who received the influenza vaccination to protect patient safety and reduce transmission of influenza in health care settings. The report reflects data from the 2021 - 2022 influenza season.

Why is this important?

Health care professionals who receive the influenza vaccination help to reduce the transmission of influenza.

NATIONAL RATE

93%

IHS NATIONAL TARGET

90%

FEDERAL EMPLOYEE VIEWPOINT SURVEY (FEVS) PARTICIPATION

The national percentage of IHS federal employees completing the annual Federal Employee Viewpoint Survey during the active survey period. This includes an assessment of employee job satisfaction across all federal categories and professions. The report reflects data from the 2021 survey results.

Why is this important?

Assessment of employee job satisfaction assists in the recruitment and retention of high quality staff.
