Breakout 1 Old Hickory

Moderator: Scott Zander

Mno Mshkêké Gizhék (Good Medicine Day): Building Family Resilience after Domestic Violence

Attendees will understand the impact that historical trauma and resiliency have on Tribal communities and families; be able to identify potential stakeholders and collaboration integrating cultural teachings and programming into your work; and identify what cultural teachings/values are already informing your work, and what special skills already exist within your own teams.

Presenter:

Casey Kasper-Welles, MSW

Project Director

Pokagon Band of Potawatomi DVP Project

Breakout 2 Belle Meade A

Moderator: Audrey Solimon

Q&A Session for Grantees: National Behavioral Health Inbound Information, Operational Analyses, and National Evaluation

GRANTEE PRE-REGISTRATION REQUIRED

This Q&A session is limited to grantees only (grantee program staff) so grantees may fully benefit from TA provided by IHS DBH with this small, group opportunity. The IHS DBH has been working on providing TA directly to grantees as a priority and offers this small session to grantees as an extension of the plenary session.

Presenters:

- *Dr. David Paschane, Ph.D.*
National Data Coordinator
Division of Behavioral Health, Indian Health Service
- *Judith Espinoza, MPH*
Epidemiologist and Software Developer
Albuquerque Area Southwest Tribal Epidemiology Center

Breakout 3 Belle Meade B

Moderator: Elisa Bruns

Forensic Healthcare in the Arctic: Challenges and Opportunities

This presentation will examine what forensic healthcare is, review 3 challenges to providing this forensic healthcare in remote regions like the Arctic, how a multi-disciplinary team (MDT) help meet these challenges, and what opportunities are there for growth.

Presenter: Amber Letuli, BSN, RN

Forensic Nurse Examiner

Alaska DVP Project

Breakout 4 Charlotte

Moderator: Elsie Joe

Integrating Public Health Measures to Support Novel Substance Abuse Prevention, Treatment and Aftercare in a Rural Tribal Community

This session will 1) Identify key public health challenges around substance abuse prevention and treatment in a rural tribal setting; 2) Characterize rural and tribal specific assets for substance abuse prevention and treatment; 3) Share effective health approaches to addressing substance abuse prevention, treatment and aftercare in a rural tribal community; and 4) Gain national community feedback on opportunities to advance current success and address continued challenges for substance abuse prevention and support programs for rural and tribal communities.

Presenter:

Cameron Chase, , MPH, M.Ed., MS

Health Director

Tunica-Biloxi Tribe of Louisiana SAPTA Project

4:00pm

End of Day 1 – SEE YOU TOMORROW!
