Preparing the Continuation Application

Application Materials

- On the [SDPI 2026 Grant Application](#) webpage
 - Project Narrative Template and Audit Reports guidance
 - Webinars
 - Checklist
- In [GrantSolutions](#)
 - Application kit
 - Forms
 - SF-424 and 424A
- Grantee Prepared
 - Budget Narrative
 - Indirect Cost Rate Agreement (if applicable)

2026 Project Narrative

- A template is provided as an option for submitting the required information. Alternatively, all required information from the template can be provided on a separate document.
- Tips for using template to prepare a successful (and complete) Project Narrative:
 - Download (Save) a copy of the Project Narrative template to your computer.
 - Ensure that all contributors are using Adobe Reader or Pro software to complete.
 - Save the completed document – do not print and/or scan.
 - Proofread to ensure all fields are completed and to minimize grammatical/spelling errors.

SDPI Diabetes Best Practice Requirement

- Applicants must select **one** Best Practice for 2026.
 - **May select a different Best Practice and/or Target Group from 2025.**
 - Applicants **may** propose using some of their SDPI funds for diabetes-related activities outside of their selected Best Practice.
- Emphasis is on providing data to show that improvements are being made. RKM:
 - are tied to the Diabetes Audit (with exception of Diabetes Prevention).
 - data will be collected for the selected Target Group.
 - data must be submitted using the SDPI Outcomes System (SOS).
- The SOS can only accept data for one Best Practice.

Selecting a Diabetes Best Practice

For the 2026 application, grantees may propose to:

1. Continue work on the same Best Practice selected in their 2025 funding application. This could include:
 - Continuing 2025 activities or proposing new ones.
 - Continuing with the same Target Group or proposing a new one.

OR

2. Select a different Best Practice with an appropriate Target Group that may be different than the Target Group for 2025.

SOS Requirements

- The SOS is a web-based data system for SDPI programs to enter, check, and download RKM data for their Target Group for their selected [Diabetes Best Practice](#).
- At minimum, an SOS RKM Data Summary Report providing the 2025 baseline RKM result must be submitted for the 2026 continuation application.
 - If a Baseline RKM result was not submitted, this report will not be available. Submit this result into SOS as soon as possible.
 - If submitted, optional mid-year and other results may also be on the report.

Diabetes Audit Requirements

- SDPI grantees are expected to participate in and/or be aware of the results from the Annual Diabetes Audit for their local facility.
- Grantees are required to submit a copy of their Annual Diabetes Audit Reports for 2024 and 2025 as part of their Grant Application.
 - For most grantees, Diabetes Audit Reports can be obtained via the WebAudit either directly or by requesting the reports from their local facility or ADC.
- In addition, grantees must review and report on results from the Annual Diabetes Audit Reports in their Project Narrative (Part B).

Diabetes Audit Waivers

- A very small number of grantees were given waivers exempting them from participation in the 2024 and/or 2025 Annual Diabetes Audit.
 - Waivers were sent via email to key contacts and uploaded as a grant note in GrantSolutions.
- Grantees that received waivers should:
 - Submit a copy of the waiver in lieu of the Diabetes Audit Report(s).
 - Follow the alternative instructions in Part B of the Project Narrative.
- If you have any questions, contact your [ADC](#).

How much to apply for

Funding for 2026

- Grantees should apply for the same amount of funding that was awarded in total for 2025 (not including supplemental requests).
- The proposed budget and Budget Narrative should be based on this amount.
- If you have any further questions, contact your [Grants Management Specialist](#).

Submitting the Continuation Application

Submitting Your Application into GrantSolutions

2026 Continuation applications must be accessed and submitted using GrantSolutions.gov:

1. Log on to <http://www.grantsolutions.gov>.
2. Click on “Apply for Non-Competing Award”, this link will be available under “Grants List”.
3. Enter all the application information.
4. After completing all the forms, click on “Verify Submission” to submit the application to IHS.
5. Click on “Final Submission”.
6. Click on “OK” upon the prompt “Are you sure you want to submit application?”.
7. You cannot alter any information once the application is submitted.

Submitting Your Application into GrantSolutions

For further assistance:

- See the [Grant Recipient Support and Reference](#) for additional information about this process.
- Contact GrantSolutions Help Desk or dgm@ihs.gov with any questions.

Screening and Review

Application Screening

- All applications will be screened for adherence to the instructions.
- Applicants who do not submit all required documents in the correct format may be contacted to provide the missing or revised documentation before their application can be reviewed.
 - This may result in a delayed Notice of Award (NoA) and/or Special Grant Conditions on their NoA issuing funds for 2026.

Application Review

The 2026 continuation application process is not competitive; therefore, applications will not be reviewed by an Objective Review Committee. Instead, the Division of Diabetes program staff or their designees will review them. Approval is dependent on:

1. Compliance with Programmatic Terms and Conditions outlined in the 2025 NoA.
2. Satisfactory business (fiscal) review of the 2026 application.
3. Satisfactory programmatic review of the 2026 application, including:
 - a. Completeness of information using the correct Project Narrative document.
 - b. Submission of baseline data from the SOS.
 - c. Documented plan for continued work and evaluation in 2026.

Application Review (cont'd)

- Grantees with applications that are approved with restrictions will have Special Grant Condition(s) placed on their 2025 Notice of Award.
- Special Grant Conditions are notes added onto the Notice of Award that describe missing documentation or revisions needed.
- Some Special Grant Conditions may also place funding restrictions until specified documents or revisions are submitted and approved.
