Special Diabetes Program for Indians (SDPI)

SDPI Basics

IHS Division of Diabetes Treatment and Prevention

February 24, 2021

Purpose of this Webinar

- Assist SDPI staff members understand the basics of the SDPI program.

  ✓ Review SDPI acronyms and abbreviations
  ✓ Understand and use the SDPI website

SDPI Overview

- In response to rising rates of diabetes in AI/AN people, Congress established SDPI in the Balanced Budget Act of 1997 (P.L. 105-33)
  - "The Secretary shall make grants for providing services for the prevention and treatment of diabetes…" (42 USC 254c-3)
- Today SDPI provides funds to 301 I/T/U grant programs in 35 states for diabetes prevention and treatment
  - Tribal 232 (+21 sub-grantees)
  - Urban 29
  - IHS 13 (+5 sub-grantees)

SDPI Essentials

1. Vocabulary and Abbreviations
2. Best Practices
3. SDPI Outcome System (SOS) and Target Group
4. Diabetes Audit
5. Care Resources – Division of Diabetes Prevention and Treatment (DDTP) website
6. Grant Resources – Special Diabetes Program for Indians (SDPI) website

Vocabulary and Abbreviations

| Abbreviation	Explanation
IHS	Indian Health Service
NOFO (previously FOA)	Notice of Funding Opportunity
NoA or NGA	Notice of Award/ Notice of Grant Award
SDPI	Special Diabetes Program for Indians
BP	Best Practice
SOS	SDPI Outcome System
RKM	Required Key Measure
ADC	Area Diabetes Consultant
DGM	Division of Grants Management
DDTP	Division of Diabetes Treatment and Prevention
TLDC	Tribal Leaders Diabetes Committee

Steps to Understand SDPI

- Study the SDPI web page
- Connect with your ADC
- Locate and read your current year's Project Narrative
- Review your program's Notice of Award (NoA)

Telling your story in your Project Narrative

SDPI Best Practices

- Aspirin or Other Anti-platelet Therapy in Cardiovascular Disease
- Blood Pressure Control
- Chronic Kidney Disease Screening and Monitoring
- Dental Exam
- Depression Screening
- Diabetes-related Education
- Eye Exam-Retinopathy Screening
- Foot Exam
- Glycemic Control
- Hepatitis C Screening
- Immunizations- Hepatitis B
- Immunizations – Influenza
- Immunizations: Pneumococcal
- Immunizations: Tetanus/Diphtheria
- Lipid Management in Cardiovascular Disease
- Nutrition Education
- Physical Activity Education
- Tobacco Use Screening
- Tuberculosis Screening

Best Practice

Per the Terms and Conditions, grantees must submit data for the RKM of their selected Best Practice into the SOS at the start (baseline) and end of each budget period. All grantees should have already submitted baseline RKM data for 2020 and must do so before submitting a 2021 Continuation Application. Contact your Area Diabetes Consultant[2] or the SDPI team (sdpi@ihs.gov) if you are having difficulty submitting the required information.

Section 2: Best Practice, Target Group number and description, and Activities for 2021

F2.1   SDPI Diabetes Best Practice selected:

Tobacco Use Screening ▾
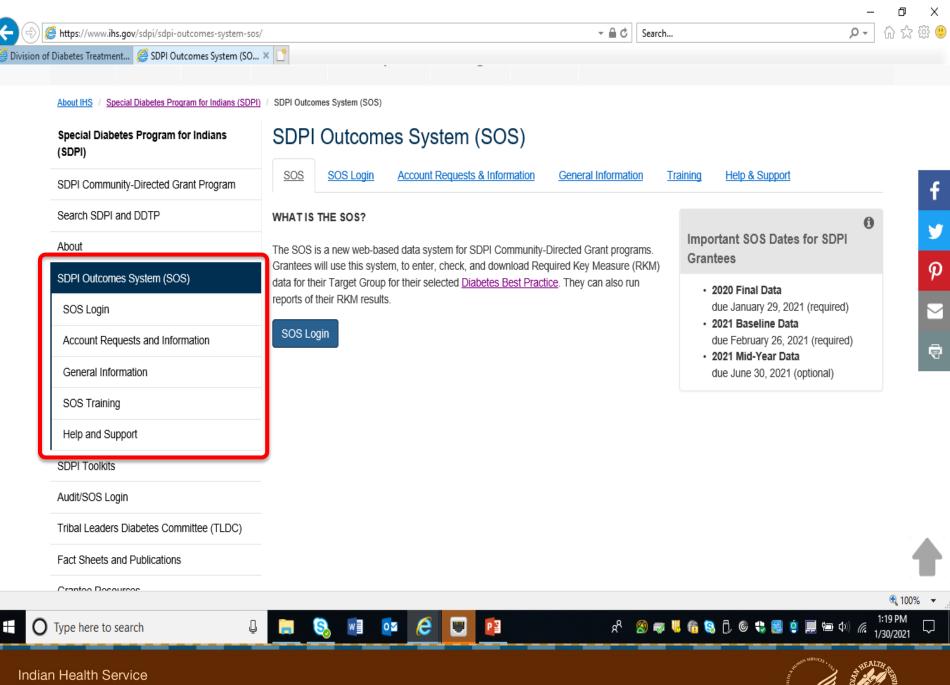

Required Key Measure (RKM)

Topic	Importance	Required Key Measure
Tobacco Use Screening	Commercial tobacco use increases the risk of cardiovascular disease, microvascular complications, and premature death. Cessation of tobacco use reduces the risk of stroke and heart attack. Screening for tobacco use in people with diabetes helps programs connect patients/participants with tobacco cessation interventions.	Number and percent of individuals in your Target Group **who are screened for tobacco use.**

SDPI Outcome System (SOS)

- Web-based system to report RKM data
- Submitting SOS data
  - Manual data entry
    - Aggregate or Individual
  - Upload to WebAudit
- SOS Trainings
  https://www.ihs.gov/sdpi/sdpi-outcomes-system-sos/#training

View of SOS

Diabetes Care and Outcomes Audit

IHS Diabetes Care and Outcomes Audit - WebAudit
DRAFT Audit Report for 2020 (Audit Period 01/01/2019 – 12/31/2019)
Facility: Test02 Sample Data

Annual Audit

630 charts were audited from 630 patients on the diabetes registry.

	# of Patients (Numerator)	# Considered (Denominator)	Percent	Area Percent	IHS Percent
Gender					
Male	300	630	48%		
Female	330	630	52%		
Age					
< 20 years	2	630	0%		
20-44 years	111	630	18%		
45-64 years	269	630	43%		
≥ 65 years	248	630	39%		
Diabetes Type					
Type 1	9	630	1%		
Type 2	621	630	99%		
Duration of Diabetes					
< 1 year	19	630	3%		
< 10 years	227	630	36%

Your IHS SDPI Partners

DDTP develops, documents, and sustains clinical and public health efforts to treat and prevent diabetes in American Indians and Alaska Natives.
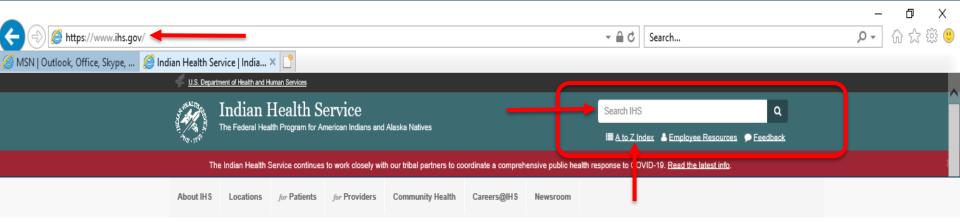

DDTP manages the programmatic aspect of your grant including the content of your reports, Best Practices, project narrative of your applications, and the SDPI website.

DDTP

ADC

ADCs are located in your IHS Area and can provide programmatic and clinical assistance with your grant. Your ADC works more closely with your program so you will want to contact them regarding questions that are more specific to your program.

DGM

DGM manages the business aspect of your grant including content of the standard forms, grants policy, and GrantSolutions.

Division of Diabetes Treatment and Prevention (DDTP)

Special Diabetes Program for Indians (SDPI)

⚠ **Coronavirus/COVID-19: Get general and diabetes specific resources**

In response to the diabetes epidemic among American Indians and Alaska Natives, Congress established the SDPI grant programs in 1997. This $150 million annual grant program, coordinated by IHS Division of Diabetes with guidance from the Tribal Leaders Diabetes Committee, provides funds for diabetes treatment and prevention to IHS, Tribal, and Urban Indian health programs across the United States.

- Not new to SDPI? Read through for a refresher – you might learn something new!
- Have any comments or suggestions? Contact the SDPI Team. Also check out Tips for New Program Coordinators.

What is Required for this Grant

All requirements for this grant can be found in the latest Notice of Award (NoA) issuing new funds. A summary of Programmatic Terms and Conditions, or Expectations, are provided below.

SDPI Year at a Glance

What	When (2021)	Includes
Apply	August (2020)	
Receive Notice of Award	December (2020)	
Budget Period Starts	January (2021)	• Identify Target Group • Begin activities • Start collecting RKM Data
Baseline RKM Result Due	February (2021)	Submission into SOS
Annual Diabetes Audit Due	March (2021)	
OPTIONAL Midyear RKM Result Due	June (2021)	
Budget Period Ends	December (2021)	• End activities • Finish collecting RKM data
Final RKM Result Due	January (2022)	Submission into SOS
Annual Progress Report Due	March (2022)	

Stay in Touch

- SDPI Grantee email list
  - send a request to be added to sdpi@ihs.gov
  - Emails will provide latest updates, webinars, and resources.
- ADC Directory
  - Stay in touch with your ADC for guidance and local training opportunities/resources.
- Division of Grants Management/Grants Management Specialist
  - May provide further guidance on the competitive application process.
