SDPI – Commonly Used Abbreviations

- ADC = Area Diabetes Consultant
- Audit = IHS Diabetes Care and Outcomes Audit
- Best Practice = SDPI Diabetes Best Practices
- DDTP = IHS Division of Diabetes Treatment and Prevention
- DGM = IHS Division of Grants Management
- DMS = Diabetes Management System
- EHR = Electronic Health Record System
- GMS = Grants Management Specialist
- NoA = Notice of Award for your SDPI Grant
- PO = Program Officer
- PMS = Payment Management System
- RKM = Required Key Measure
- RPMS = Resource and Patient Management System
- SDPI = Special Diabetes Program for Indians
- SOS = SDPI Outcomes System
SDPI RKM Final Data Submission and Review for 2021

IHS Division of Diabetes Treatment and Prevention

December 7, 2021
SDPI 2021 Recap

1. **Best Practice Requirements:**
   a. Select one Best Practice
   b. Identify a Target Group and select members
   c. Implement proposed activities/services
   d. Collect RKM data for Target Group

2. **RKM Data Submission**: SDPI Outcomes System (SOS)
   a. Baseline (required)
   b. Midyear (optional)
   c. Final (required)

3. **Guidance - Select a Best Practice that:**
   a. Addresses needs identified in your community
   b. You could “move the needle on”, show improvement using RKM data
Why do grantees have to submit RKM data into the SOS?

– To show the national results of SDPI activities.
  • Are improvements being made?
  • How big are the improvements?
  • How many people are receiving Best Practice related activities/services?

– To show stakeholders the good work that’s being done.
  • You can share your program’s results with Tribal leaders, community members, and others.
  • Combined (not individual program) RKM data will be shared with IHS leadership, Tribal leaders, and others.
RKM Data

• **RKM result** = Number and percent of Target Group members who achieve the RKM

• **RKM is specific to the Best Practice selected.** Examples:
  – **Diabetes-related education**: Number and percent of individuals in your Target Group who receive education on any diabetes topic*, either in a group or individual setting. (* Includes nutrition education, physical activity education, and any other diabetes education.)
  – **Glycemic control**: Number and percent of individuals in your Target Group with most recent A1C <8.0%.

• **RKM data are:**
  – Tracked locally throughout the budget period (calendar year).
  – Submitted to DDTP via the SOS at the beginning and end of the budget period.

</table>
| **Baseline RKM Result** | Two options:  
1. **Preferred**: Upload into and pull from WebAudit for Jan-Dec of previous year  
2. Aggregate (generally only for education BPs) | Two options:  
1. Submit RKM result from Individual Entry  
2. Aggregate (often appropriate for education BP) |
| **Final RKM Result** | Upload into and pull from WebAudit for Jan-Dec of budget period (2021) | Submit using Individual Entry |
SDPI 2021 Final RKM Process

1. **Review** your program’s Project Narrative Best Practice section.

2. **Review** your program’s RKM data in the SOS (Baseline and possibly other results). Be sure to select 2021 as the Year.

3. **Locate** your program’s Target Group list. This could be in your EHR (RPMS or other), a spreadsheet, or other format.

4. **Update** RKM data for each Target Group member, as necessary.
5. **Submit** your final RKM data into the SOS. Process depends on which method you will use:
   a. Pull from WebAudit
   b. Enter Individual
   c. Enter Aggregate (requires a waiver)

6. **Review** the final RKM result and compare it to baseline.

7. **Edit and re-submit** RKM data, if necessary.

8. **Lock** your data in the SOS.
Final RKM Data – Target Group Considerations

– If you identified your Target Group at baseline:
  • Number of members should be the same for final.
  • Okay if the number is “slightly” different due to patients moving, passing away, or being “automatically” removed from your EHR system.

– If you added Target Group members during budget period:
  • If you didn’t get as many members as planned, submit what you have.
  • If you got more members than planned, enter them all.
  • If the final number of members submitted into the SOS is “very” different from the number in your 2021 application, contact your ADC discuss.
RKM Data Review

Review all of your program’s data for 2021 in SOS, before and after submitting your final RKM result. Look for:

– General Issues

• Is the exact same result in there more than once? If so, contact the SDPI team to remove one of the values.
• Are the correct results marked as Baseline and Final? If not, contact the SDPI team to fix.
• Is your baseline result 100% or close to that? If so, contact your ADC to discuss.
• What is the change from Baseline to Final? Is it consistent with your local data? If not, determine what needs to be done and work with the SDPI team, as needed.
RKM Data Review (cont’d)

– WebAudit Method Issues
  • Is your Denominator “very” different from your Target Group Number? If so, check that your baseline and final Audits were run on the correct registry/list. Rerun and resubmit if necessary.
  • If you submitted data in addition to baseline, is the denominator the same (or close)? If not, check that your Audits were run on the correct registry/list. Rerun and resubmit if necessary.

– Individual Entry Method Issues
  • Has your RKM current result been submitted? If not, submit result.
  • Is the number of individuals entered “much” smaller than your Target Group Number? If so, determine if additional individuals need to be entered.
  • Is the number of individuals entered “much” bigger than your Target Group Number? Don’t worry about this for now.
Final RKM Data - Other Considerations

– It’s okay if your final RKM result is not 100%.

– For the WebAudit method with RPMS/DMS:
  • In DMS use the Audit 2021 tools (Audit 2022 is not yet available).
  • Use 12/31/2021 as the Audit Period End Date.
  • Do NOT use your 2021 Annual Audit result.

– Your program can only submit RKM data for your one selected Best Practice and Target Group.

– RKM data can only be submitted for the Target Group as a whole; it cannot be submitted separately for sub-groups.
After you submit your final RKM data

- Lock your data!
- Your Area Diabetes Consultant will review all data for 2021.
- DDTP will also review all data for 2021.
- If there are questions, we will contact you via phone or email.
Your program’s RKM data

– Will **not** be shared with anyone other than DDTP, DGM, and ADCs
– Will **not** be used to determine whether or not you will receive future SDPI funding
– Will **not** evaluate activities/services that are not related to your Best Practice
  • You will provide evaluation of these activities/services in your 2021 Annual Progress Report
SOS Information and Resources

• **SOS Website:** [https://www.ihs.gov/sdpi/sdpi-outcomes-system-sos/](https://www.ihs.gov/sdpi/sdpi-outcomes-system-sos/)
  - Includes checklists for submitting RKM data.

• **SOS Access:**
  - Requires an IHS Web Account: username and password.
  - If you have forgotten your username or need assistance, email the SDPI team: [sdpi@ihs.gov](mailto:sdpi@ihs.gov)
  - More than one person from the same program can have SOS access.
  - Each person who needs to use the SOS should request access using their own IHS Web Account.

• **Other resources:**
  - SDPI website: [https://www.ihs.gov/sdpi/](https://www.ihs.gov/sdpi/)
  - Diabetes Audit website: [https://www.ihs.gov/diabetes/audit/](https://www.ihs.gov/diabetes/audit/)
  - RPMS website: [https://www.ihs.gov/RPMS/](https://www.ihs.gov/RPMS/)
