Duration: 1 hour

Presenter:

Andre Peri, PhD, LP, Mental Health Director, Federally Qualified Health Center (FQHC)

Description:

Chronic pain is a complex condition influenced by biological, psychological, and social factors, making it well-suited for integrated behavioral health approaches. This webinar will examine how interprofessional care teams can effectively address chronic pain within primary care and integrated healthcare settings. Participants will explore evidence-informed behavioral health interventions, strategies for patient engagement, approaches to reducing stigma, and methods for enhancing collaboration between medical and behavioral health providers to improve patient outcomes and quality of life.

Outcomes/Objectives:

1. Examine biopsychosocial factors that contribute to chronic pain and influence treatment outcomes.
2. Identify integrated care strategies for improving patient engagement, interprofessional collaboration, and functional outcomes for individuals with chronic pain.
3. Apply evidence-informed behavioral health interventions that support chronic pain management within integrated care settings.

Content Level:

Intermediate

Target Audience:

Target audience for training is clinical professionals, behavioral health specialists, and addiction specialists.

About the Presenter

Andre Peri, PhD, LP, is the Mental Health Director at a Federally Qualified Health Center (FQHC), dedicated to expanding access to high-quality mental health services for underserved populations.
